Herring, Vogt Support Non-Partisan State Attorney Plan

By BILL BELLEVILLE
Herald Staff Writer
Both the state attorney and the chairman of the Senate Legislative Delegation say they support a plan by Commissioner Mike Hattaway to elect state attorneys on a non-partisan basis.

"A state attorney can harass people," Vogt declared. But he quickly adds, "I have no specific instances to cite."
Although Hattaway has not committed his proposal to paper, commissioners yesterday said they thought his plan was a good one.

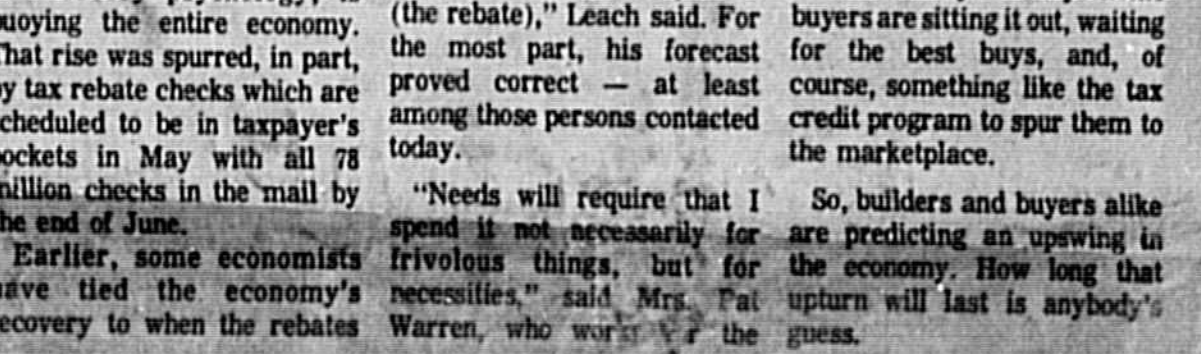

99 PERCENT COMPLETE
The recreation-rest room facility at the new site of the Central Florida Zoo, just north of Sanford off U.S. 17-92, is about 99 per cent completed.

New Home Credit Brings Optimism
Rebate Spurs Economic Hopes

By ED PRICKEIT
Herald Staff Writer
(See Rebate Chart, Page 8A)
The gloom precipitated by the nation's deep recession is turning to optimism as Seminole County taxpayers open their pockets wide to receive tax rebate checks and a five per cent credit for buyers of new homes.

building done by contractors in anticipation of sales, and at present that is considered a "good area" by contractors, Leach said.
"We've noticed an upturn, and traffic here has come in real good," Leach said, adding, he hopes the economy "will continue on its upswing."

RON LEACH
A spokesman at Stenstrom Realty agreed with Leach, speculating that the tax credit will "stimulate the economy considerably."

Union Seeks \$1,000 For New Teachers

The Seminole Education Association (SEA), as part of their package proposal to school officials next Tuesday, will request in the neighborhood of a \$1,000 yearly increase for starting teachers' salary, officials confirmed today.

IRS Answers Rebate Questions

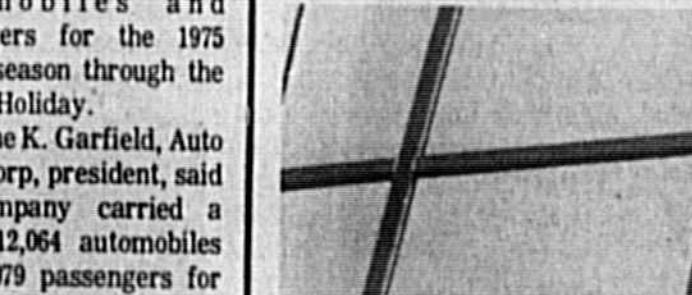

WASHINGTON (AP) — The Internal Revenue Service says taxpayers will begin to receive their tax rebate checks in May with all 78 million checks in the mail by the end of June.
The rebates are being provided under the tax cut bill passed by Congress and signed by President Ford last month. Following are questions and answers, as prepared by the Internal Revenue Service, about the rebates:

Murder Attempt Charge Is Dropped

By BOB LLOYD
Herald Staff Writer
Assistant State Atty. Claude Van Hook dropped an attempted murder charge against a Sanford man yesterday in circuit court when the alleged victim, after telling a jury of a struggle for a shotgun, abruptly refused to testify further.
Thomas Martin Barnes, 35, of 100 W. Jenkins Circle, Sanford, has been charged with attempted murder of Toy Lee McNorrill, 35, but walked from the courtroom of Circuit Judge Clarence T. Johnson Jr. a free man after McNorrill answered a question by Van Hook with, "I'd rather not answer that."
Van Hook slammed his legal pad on the podium and loudly announced that the state was dropping the charge against Barnes.

Auto Train Sets Mark In March

Auto Train Corp. announced today that it carried record numbers of automobiles and passengers for the 1975 winter season through the Easter Holiday.
Eugene K. Garfield, Auto Train Corp. president, said the company carried a record 12,064 automobiles and 32,073 passengers for the month of March which was the highest number of automobiles and passengers the company carried in any one month since it began operations in December 1971.
Garfield stated that a February record was also set by transporting 19,232 automobiles and 27,600 passengers for the month.
Garfield noted the traveling public was responding positively to the modified Kentucky-Florida schedule of twice-a-week which began in February.
"Our recent schedule change in Louisville, Ky. was undertaken to better serve our passengers and to permit greater efficiency in our operations," Garfield said.
Garfield added the Louisville trains are presently operating at approximately 92 per cent of capacity.

WORKMEN ON SCAFFOLD
Workmen were high on a scaffold at First Federal Savings and Loan of Seminole, First Street, this morning making repairs to some leaking window frames.

# NATION IN BRIEF

## White House In Indirect Appeal To Hanoi Chiefs

PALM SPRINGS, Calif. (AP) — U.S. diplomacy in Vietnam is described by the White House as focusing on indirect appeals for Hanoi to halt its successful military offensive in South Vietnam.

That was the gist of two news briefings Tuesday at which White House Press Secretary Ron Nessen first talked about U.S. diplomatic initiatives, then issued a statement emphasizing that no diplomatic efforts were under way.

Nessen said he talked by telephone to Secretary of State Henry A. Kissinger, "and he said he did not know of any specific new diplomatic initiatives."

The press secretary, speaking of Kissinger, added, "He was continuing through normal diplomatic channels to urge other countries to try to persuade North Vietnam to live up to the accords."

## Daley Easy Chicago Winner

CHICAGO (AP) — Mayor Richard J. Daley asked the most powerful urban political machine in the nation for his biggest ballot box victory ever, and he got it.

Democrat Daley piled up 77 per cent of the vote over two opponents Tuesday to win an unprecedented sixth four-year term. His previous high mark was 74 per cent. Daley's victory was expected, and it solidified his comeback as a major factor in the Democratic party nationally after his ouster from the 1972 national convention in a credentials fight.

## Recession Is Nearing End

WASHINGTON (AP) — Government economic experts say there is now a firm evidence that the nation's deep recession is nearing an end, but they are not yet sure how strong the economic recovery will be. "The economy is showing signs of bottoming out in the last few weeks even without a tax cut," said one economist. He said an economic recovery in the second half of the year "is assured, and it likely will be quite vigorous."

## Parker Bound Over In Shooting

Merle E. Parker, 56, of Lake Ave., Sanford, was bound over to circuit court yesterday on a charge that he was "maliciously killed" a neighbor's dog.

Parker, meanwhile, has filed civil suits seeking a total of \$40,000 damages from the state. Atty. Abbott Herring, Sheriff John Polk and the dog's owner, Darryl McLean.

In the suits, assigned to Circuit Court Judge Roger Dykes for trial, Parker claims that McLean caused his March 25 arrest and injured his dog. Parker also claims that McLean caused his "public scandal, infamy and disgrace."

In a suit seeking \$25,000 damages from Herring and Polk, Parker alleged that the two officials caused him to be arrested on a felony charge instead of a misdemeanor charge which he says the incident should have been charged.

Yesterday, when Parker appeared before County Court Judge Harold Johnson for a scheduled preliminary hearing in the dog case, he was told by the court that a change in criminal rules of procedure by the State Supreme Court has negated Parker's hearing. Judge Johnson ruled, on the basis of information from officers and the state attorney's office, that there was probable cause for the case to be bound over to circuit court and Parker

## Industrial '25' Schedules Meet

The Industrial '25 Committee of the Greater Sanford Chamber of Commerce will discuss the 'Action Orlando' promotional campaign during its meeting tomorrow morning.

The committee will meet at 8:15 a.m. in the chamber conference room.

More discussion will be held on the donation of funds from the committee to the 'Action Orlando' program, a move which was tabled for further investigation at the last meeting.

## Herring, Vogt Support Hattaway On Non-Partisan State Attorney

(Continued From Page 1-A)

Vogt admitted the proposal "might have had a better chance if it had been introduced earlier so it could have been better publicized." But he does not see instant defeat for the plan. "It might be good if the State Association of County Commissioners would come out in favor of it, but its passage is not out of the question."

Herring said he would "be happy" to sponsor the particular legislation himself and would ask the county delegation members to support him.

The Senator admitted he was "surprised that this hasn't come before the legislature before," and said he would support it again next year even if it doesn't pass this session.

In announcing his plan this week, Hattaway said he would favor the "Missouri System" of selecting state attorneys, by which the Governor appoints a panel and the panel in turn appoints the state attorney.

But Hattaway emphasized a non-partisan election would be perfectly agreeable as long as the office can be removed from politics. Vogt also said he would support either plan, although he warned that an appointed panel would not even know the political affiliations of the 65 people who work for me," the Brevard Republican says.

"When I file charges, I get one side. I'm responsible for the investigation of crime. I'm concerned with probable cause and if I have a chance for conviction."

But politics has nothing to do with the motivation of any Grand Jury meeting to consider indictments, Herring said that is his job to do.

"I don't even know the political affiliations of the 65 people who work for me," the Brevard Republican says.

# SEND A BROAD ABROAD... SUPPORT THE CENTRAL FLA. CHORALE

PICKETING FOR SONG

It was a strange sight yesterday when the above members of the Central Florida Choral Society showed up at the Greater Sanford local singers and picketed for pledges which will help support of song to Poland. Pictured above (from left) are choral members Irene Brown, Jean Metts, Pat Shaw and Ruth Mickelson. (Herald Staff Photo by Bill Vincent)

## Utility Rehearing Terminated

# Attorney Calls Commission 'Unfair'

A rate request rehearing and a compliance rehearing for Southern Bell were terminated by county commissioners last night after the Board determined they had enough information to base their decisions — which will be rendered in a reasonable amount of time.

Since no new information was presented by Southern Bell representative, there is little chance the eventual decision will be much different from the ones that found non-compliance with county utility standards, and turned back rate requests that would have tripled current bills for its 200,000 customers here.

The reason the rehearing was held the firm had immediately requested two new hearings after finding they were flatly defeated on both accounts. However, since then the firm has entered into discussion for the sale of Southern Bell in the county is "imminent," and any decision rendered by last night's rehearing would be moot, the firm's officials asked the rehearing be postponed to this Spring. That request was denied by the county, and the rehearing went on as scheduled last night.

In his brief "presentation" to the Board last night, Southern Bell Attorney Roger Berry spent most of his time criticizing the county for its "unfair" treatment of utility firms here.

"The climate of the regulatory Board in Seminole County is not favorable to utility firms operating here," Berry declared. The county is currently embroiled in legal suits with General Waterworks, and is negotiating for and plans to purchase the condemned systems of Consumer, Indian Hills Utilities, and Eagle Utilities.

"It's a waste of time," Berry said, "for this company to invest any more evidence to this Board."

Commission Chairman Sid Vilhen Jr. immediately retorted

# Clerk's Office Split Opposed By Fechtel

By BILL BELLEVILLE Herald Staff Writer

Concerned that the proposed split of comptroller duties away from the Clerk of the Circuit Court Arthur Fechtel's office was unnecessary, Rep. Vince Fechtel Jr. has asked for and received substantiation for his opposition from the state Comptroller's office.

In explaining his opposition to the county commission, Fechtel declared that "I find no justification or need for this separate office." An independent comptroller on a state level is a "worthy requirement," Fechtel explained to the Board in a recent communication, but the proposed county "additional office would ultimately increase costs."

In his request to the state office, Fechtel asked for an analysis of the two arguments for a separate local office: "that the county clerk does not account for funds according to the commission's program budgeting needs; and, that balances in accounts are not readily available to the commission when needed for the purpose of making immediate decisions."

In answer to the first criticism, B. J. Givens, director of the state office in Local Government Finance, explained that "In your particular instance it is possible that the clerk is following generally accepted governmental accounting principles and more on reporting legal compliance to the board as required by such principles and law." With more resources, Beckwith could use the present accounting system with "permissible expansion and report according to any degree of program budgeting information need, and as often as needed "for effective decision-making."

But, since the current trend of governmental accounting now is to place less emphasis on the legalistic aspect and more on providing information for decision makers, "program and performance budgeting procedures" have been introduced.

The state Comptroller's office in 1972 "prescribed a new classification of accounts for local governments which also contemplates broad functions or programs."

In answer to Fechtel's second question concerning the unavailability of budgeting account balances to the Board, Givens replies "In my opinion, the best manner in resolving this is to install an embankment accounting system into the county's present system."

"Further, to make all types of financial information more readily available, the county could increase its data processing capability to the degree required to accommodate the frequency and timeliness of reporting desired."

## Fire Marshals Probe Area Blaze

By BOB LLOYD Herald Staff Writer

Deputy State Fire Marshals and county fire investigators today were probing ruins of a two-story house and two barns east of Sanford to determine cause of a blaze that destroyed the unoccupied buildings yesterday afternoon.

Sheriff's deputies reported the adjacent home of R.M. Carlton, Celery Ave. (SR-418), was also damaged by the 3:30 p.m. fire.

County firemen stood watch at the fire scene last night after a seven-hour battle by eight county fire units.

A spokesman at Florida Hospital North, Altamonte Springs, said fireman Eric P. Yesson, 18, was treated for first and second degree burns on his shoulders and released last night.

Two other firefighters reportedly were treated for exhaustion during the battle to contain the blaze.

Sheriff's deputies reported the house destroyed by the fire was abandoned and the owner's name was not immediately available.

A 36-year-old Sanford man was being held in county jail on a \$10,000 bond today charged with arson in connection with a fire that damaged a Sanford residence last night.

Police detective Walter Jones arrested Udo Stevens Jr., 36, of Upsilon Road, several hours after firemen extinguished burning beds in three bedrooms of the Mary E. Chaudoin residence at 225 Bradshaw Drive.

Patrolmen D.H. Whitmore and Mike Tindel reported they arrived at the house, determined that no one was inside the concrete block structure and that said fire apparently had been set in three separate bedrooms.

Officers said firemen extinguished the burning bedding but the house sustained fire and smoke damage.

Fire Chief G.M. Harriett termed the fire "of suspicious origin," police said, and said materials found inside the house will be tested at a laboratory.

Sheriff's detectives today were investigating the theft of handbags, many of them antiques, a shotgun, an ornate pistol-shaped dagger and a watch by a burglary at the home of Alvin W. Schrader, 1650 Maitland Ave., Altamonte Springs. Deputy Ron Gilbert reported the items were stolen after entry was apparently gained to the residence via an unlocked door.

## \$10,000 Phone Calls Outlined

TALLAHASSEE, Fla. (AP) — A former law partner of Insurance Commissioner Thomas O'Malley told a grand jury he had "an ability to expedite" insurance-company claims.

O'Malley, who was indicted last week, said he was paid \$10,000 to expedite claims for his client.

Bennett Feldman, who bought O'Malley's interest in a Miami law firm, told the Leon County grand jury last year that one telephone call from him to O'Malley was worth \$10,000 to insurance-company clients.

The testimony of Feldman and Ricardo Caravito, the other member of O'Malley's law firm, was made public Tuesday when the Associated Press obtained grand jury transcripts.

A House committee investigating the impeachment of O'Malley received the transcripts upon the order of Circuit Judge John Ridd of Tallahassee. The documents, previously secret under state law, then became a public record and were released upon request by the committee, state Atty. T. Edward Austin of Jacksonville, a grand jury special prosecutor, asked Feldman on June 27, 1974 how much a phone call from him to O'Malley in behalf of an insurance company client might be worth.

"Ten thousand dollars, sir," replied Feldman, referring to his fee for representing Peninsula Life Insurance Co. in a merger that had to be approved by O'Malley.

The grand jury indicted O'Malley last Oct. 19 on charges of accepting at least \$40,000 in unauthorized compensation from Feldman and Caravito to recommend their retention by insurance companies regulated by O'Malley.

But the indictment was dismissed on a technicality, and Feldman refused to testify when the grand jury met in February. Ridd sentenced Feldman to six months in jail for contempt of court, but released him on \$10,000 bond.

O'Malley was scheduled to stand trial next Monday on charges that he took \$10,000 in kickbacks from a banker and committed perjury on a state witness form. But the trial was postponed indefinitely Tuesday by Circuit Judge Ben Willis.

## Bank Speed Up Told In Dickinson Trial

JACKSONVILLE, Fla. (AP) — A veteran Florida banker says former state Comptroller Fred O. Dickinson Jr. prodded him to speed up organization of the Palm Beach Mall Bank in 1967.

The witness, William K. de Veer of West Palm Beach, went to the witness stand late Tuesday in the federal extortion-conspiracy trial of Dickinson.

DeVeer, who said he has been a banker for 40 years, testified that Dickinson told him another group was inquiring about getting a charter for a bank in the shopping center developed by Edward DeBartolo and Frank Mastriani.

DeBartolo and Mastriani had approached him about setting up a bank there, deVeer said, and talked to Dickinson about it in March 1967.

At Dickinson's suggestion, deVeer said he contacted a wealthy contractor and developer at West Palm Beach, Lou Perini. But Perini wasn't interested in joining his group.

The Palm Beach Mall Bank is one of three which the government charges could not ob-

## County Fireman pauses a moment in long battle to contain blaze.

# FLORIDA IN BRIEF

## DeLani Attorney Mattingly Charged With Grand Larceny

DELANI, Fla. (AP) — A former attorney for DeLani and the Vassia County School Board is free on bond after being charged with grand larceny in connection with money allegedly missing from trust and estate funds he controlled.

John E. Mattingly, 56, of Deland, faces five charges involving \$12,000 in allegedly missing escrow funds.

His arrest Tuesday followed an investigation launched in January when Mattingly's revealed what he said were shortages in his escrow accounts. He denied any wrongdoing, blaming "sloppy bookkeeping."

The charges, filed by State Atty. Stephen Boyle, involved four estates and a divorce case in which beneficiaries allegedly did not receive \$112,000 due them. In one case, the Florida Sheriff's Boys Ranch said it was due \$82,000 from the estate of Earl Barnes.

The state Comptroller's office in 1972 "prescribed a new classification of accounts for local governments which also contemplates broad functions or programs."

In answer to Fechtel's second question concerning the unavailability of budgeting account balances to the Board, Givens replies "In my opinion, the best manner in resolving this is to install an embankment accounting system into the county's present system."

"Further, to make all types of financial information more readily available, the county could increase its data processing capability to the degree required to accommodate the frequency and timeliness of reporting desired."

## Oil Spill Blamed On Tides

JACKSONVILLE, Fla. (AP) — A tugboat skipper blamed a strong tide and the slow opening of a drawbridge for the spill of more than 1,500 gallons of fuel-oil into the St. Johns River.

F. E. Ellis, skipper of the tug St. Johns, said he was moving the 20-foot barge upriver Tuesday when a tidal current drove it into the Acosta Bridge and a nearby Florida East Coast Railroad Bridge.

The Coast Guard said the barge was carrying 735,000 gallons of heavy "Bunker C" oil, which began to leak from at least two holes in the barge's hull. Neither bridge was reported damaged.

## Frut Packer Imports Aliens

TAMPA, Fla. (AP) — Immigration officials say the purchase of 33 airline tickets by one man led to his arrest on charges of bringing illegal aliens into the United States.

Tyrus E. Mimix, officer in charge of the U.S. Immigration Service office here, said John Fallon, 48, vice president of Evans Fruit Packing Co., bought the tickets from a travel agent in his hometown of Dade City.

Fallon surrendered to the U.S. Marshall's office in Tampa on Tuesday to answer 19 charges on which a Miami federal grand jury indicted him last week. Fallon was released on personal recognizance and is to be arraigned in Miami later this month.

MOTHERS SHARE DIPLOMAS

Two Seminole mothers, Mrs. Frances Thornburg (left) and Mrs. Sylvia McDonald (holding 13-month-old daughter Rose Ann), proudly display their high school diplomas, recently bestowed upon them following studies at their Forest City homes and at the Seminole Junior College Forest City Outreach Center at Bear Lake Elementary School. Right foreground is young Fred McDonald while brother Robey is on the far right. Both mothers plan to continue their studies at the SJC Interstate Mall Center in the Pan American Building. (Herald Photo by Gene Etselein)

# Priestes Outlines Payoffs To Ex-Gurney Fund Raiser

TAMPA, Fla. (AP) — A Florida builder, testifying in the trial of former Sen. Edward Gurney says he paid \$150,000 in bribes to an ex-federal housing official and a former Gurney fund-raiser.

John Priestes testified Tuesday that in 1971 he gave \$80,000 to fund-raiser Larry Williams and another \$70,000 to William Pelski, former director of the Federal Housing Administration office in Miami.

The payoffs, Priestes said, were in exchange for favorable treatment on FHA subsidy requests for low income housing.

Priestes, the prosecution's fifth witness in the bribery-conspiracy trial of Gurney and four codefendants, returns to the stand today.

Gurney, former aides James Groat and Joseph Bastien, and ex-federal housing officers K. Wayne Swiger and Ralph Koonce, are charged with conspiracy to build a \$233,000 slush fund from builder payoffs by peddling Gurney's influence in government-sponsored housing projects and mortgage commitments.

Priestes said Williams told him that for a "financial consideration," he could help him get funding on 200 FHA homes in South Florida.

"You'll have to make a political contribution to Sen. Gurney," Priestes quoted Williams as saying. "I asked him how much and he said \$500 a home."

"Mr. Williams explained to me he was from the senator's office and through political muscle, so to speak, it could be accomplished," Priestes testified.

The Coral Gables builder said he had no trouble getting subsidies in 1970 and thought the allocations were automatic upon request.

He said he was told on Feb. 1, 1971 that no FHA funds were available while he had hundreds of units under construction and was depending on the subsidy allocations.

The witness testified that about three weeks later he got a call from Williams, met him on a houseboat in Biscayne Bay and agreed to the \$500-a-house payoff.

"Working through different corporate fronts, Priestes said he made cash payments to Williams of \$30,000, \$20,000, \$15,000 and \$15,000, "and then in May 1971 began making payments to Pelski.

The payments to Pelski, about 10 or 12 altogether, continued until Dec. 4, 1971 and totaled \$70,000, Priestes said.

Pelski, the first government witness called in the trial, allegedly told the jury he had received \$70,000 from Priestes, who was paying \$500 a unit.

### 'Meals On Wheels' Worthy Operation

Historically, a nation is judged on its ability to care for its needy. The same holds true for a state, or for that matter, a county.

And here in Seminole, the Community Action Agency (CAA) gets a salute for its efforts toward establishing a Meals on Wheels Program for the county's senior citizens.

Many of our senior citizens are shut-ins, unable to drive or else cannot afford transportation. Many have lost their loved ones and live alone without benefit of a mate to prepare meals.

CAA initially plans to bring meals to 40 or 50 seniors within the next two months. Later, the agency hopes to provide meals for 400 to 500 senior citizens.

Eventually, CAA Director Amos Jones says he will provide other services for seniors — such as locating relatives and helping seniors find the better qualified doctors.

All in all, CAA's efforts are commendable. The need now is for additional help and care — money. It's for a worthwhile cause, and we know, when history makes its judgment of Seminole County — it won't be found lacking.

### Equal Representation

Is this any way to run a railroad?

That question was asked by an anonymous person of some stature many years ago, but the same question might be asked of the 'Action Orlando' committee regarding the appropriation of a steering committee which has been established to help the tri-county promotional campaign.

Orange, Seminole and Osceola counties are the three involved in 'Action Orlando,' which has been established with the purpose of pooling resources to attract industry to the aforementioned areas.

We highly commend the efforts of those involved in 'Action Orlando' because we believe the entire Tri-County area will benefit from its campaign to attract new industry, tourism and permanent residents to the counties involved.

However, the representation on the steering committee includes more members from Orange County than the other two combined. (Orange has eight members, Seminole four and Osceola but one).

If this is to be a tri-county venture, then shouldn't it be with equal representation on the steering committee, rather than doing out the number of positions on the committee according to the amount of dollars contributed by the different counties?

We think so and feel that the Greater Orlando Chamber of Commerce and those members of 'Action Orlando's' steering committee ought to take a second look at how the committee pie is sliced.

### No-Risk Nostalgia

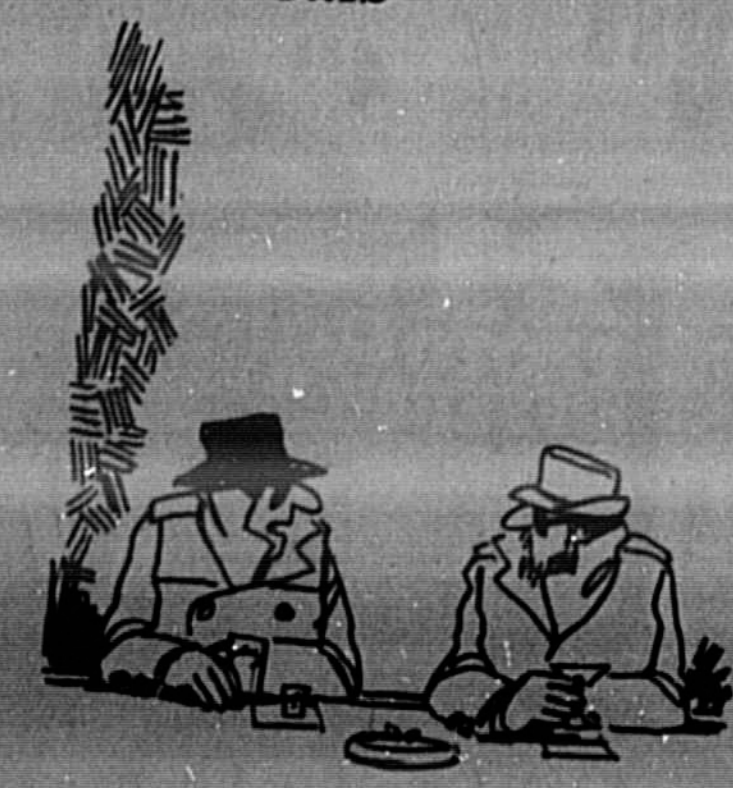

The Federal Trade Commission, never flagging in its determination to shield the American public from evil, has taken collectors of coins and political memorabilia under its protective wing.

To guard the hobbyists from unscrupulous dealers, the FTC has decreed that effective March 10, any political campaign button, poster, sticker or advertisement must be clearly marked with the year of manufacture. Collectors presumably would question seriously the authenticity of a Wendell Willkie button bearing the 1975 stamp.

The FTC means well, but the thrill of collecting, after all, is the challenge to the collector himself to establish that his finds are genuine.

Before we know it, the FTC will be robbing vacationers of their fun by insisting that towels, ashtrays and coat hangers at seaside inns be marked "Certified stolen from the Billmore Hotel."

### BERRY'S WORLD

Tell 'em back in Washington, I'll do it better than you. I'll do it better than you. I'll do it better than you.

### Around The Clock

There are some words within our language which have a meaning so pronounced it draws an immediate reaction when it's seen in type. One of those is rape.

(There'll be some who will automatically cease reading further into today's column... all because of their fervent feelings on this subject.)

Unfortunately, for those not continuing they just might deprive themselves of valuable precautions to be considered while trying to eliminate the opportunity of attack.

The current issue of Sheriff's Star touched on the "most serious, frightening and violent of all crimes against women — rape." It also made some recommendations on how to avoid "rape situations" while walking.

Avoid walking alone, as much as possible. Your best defense is having other people nearby.

Keep your distance when you must walk past alley and business entrances or shrubbery.

Carry a shrill whistle in your hand when

walking. (Sporting goods stores carry suitable whistles.)

Keep alert. If a loiterer acts suspiciously, look at you closely or follows you, head for bright lights and people and be ready to use your whistle.

And if you're leaving work or the shopping plaza, have the car key in hand when you're approaching your car. And before getting in, check the floor of the back seat for intruders.

Keep your car doors locked and windows up while driving.

If you have car trouble, signal for help by raising the hood or tying a white handkerchief to the door handle. Remain inside car with doors locked until identified help arrives.

Should another motorist offer to help, roll down window only an inch and ask him to call police or sheriff's department.

If you're one of the many who take advantage of

buying produce from those vendors located along the side of the highways, take heed cause they're coming back to the scene.

The last couple of months they've been conspicuous by their absence — mainly because they didn't have any local produce to sell. Most of them aren't interested in buying produce from other parts of the country, and then become a "middle man."

In talking with Charles Gore, in charge of the local office of the Federal-State Market News Service, he says squash is now the main sales item. Within the next three or four weeks, Gore says there should be an abundance of cucumbers on the shelves. The first week in May will see the appearance of peppers and other leafy items.

There's nothing like making your own tossed salad with fresh home-grown vegetables, right?

For international talks really out of this world, why not use the presently nonfunctioning Skylab?

### DON OAKLEY Good News: Death Down On Highways

Thousands of Americans who should have been traffic statistics in 1974 are alive in '75, thanks to a variety of factors.

According to a preliminary study by the National Safety Council, 17,000 traffic fatalities occurred between May 1 and August 31 last year, the peak driving months, compared with 20,530 for the same period in 1973.

More than half the savings of lives, says the Council, can be attributed to reduced vehicle speeds, or about 10 percentage points out of a total 17 percent reduction.

Even though a majority of drivers in a five-state sample taken during the study period weren't complying with the 55-mile-per-hour limit in rural areas, they did slow down from their 1973 speeds — from 70.2 mph to 62 mph. More drivers also were traveling at about the same pace on the highway, which produced a smoother traffic flow and lessened the probability of accidents.

Less travel and less night driving, fewer occupants per vehicle and greater use of safety belts each contributed two percentage points. "Unknown factors" added another two points, which would have made a total of 18.

Unfortunately, a traffic fatality increase of one percentage point had to be subtracted from the total, caused by increased use of motorcycles and small cars and increased mileage by younger drivers.

The operating room, one of the hardest pressed areas of the hospital, has been successfully turning to automatic devices and disposable supplies.

For example, throwaway needles and syringes are replacing reusables that require expensive labor to clean and re-sterilize. Many hospitals are also switching to disposable scrub suits and surgical drapery, which substantially reduces laundering expenses.

The electric cautery, now widely accepted, cuts operating time and eliminates the use of dozens of expensive sutures. And where suturing is necessary, the surgical stapler has emerged as probably the most significant time and cost saver.

Surgical stapling instruments stitch automatically using tiny stainless steel staples. A surgeon can simultaneously place the application of 46 silk sutures with one application, reducing operating time by as much as 50 percent.

The use of surgical staplers is increasing rapidly. One maker, United States Surgical Corp., estimates that close to 100 million patients have been "stapled" since it introduced its Auto Suture surgical stapling line in 1967.

Medical Mechanization

Americans may complain about the assembly-line aspects of modern medicine, as well as its cost. But it is precisely the trend toward "medical mechanization" that offers one of the best hopes for keeping costs down without reducing the quality of care.

### WORLD IN BRIEF

#### Cambodia Loses Mekong Outpost Near Capital

PHNOM PENH, Cambodia (AP) — The Cambodian government lost its last outpost on the Mekong River near Phnom Penh today, and the U.S. Embassy announced it is evacuating nearly 15 per cent of its nearly 200 American staff members "temporarily" to Bangkok.

Insurgents forces were also reported in the doorstep of the country's second largest city, Battambang, in the northwest rice bowl.

One of the U.S. cargo planes flying rice into Phnom Penh was hit for the first time by rifle fire from the Khmer Rouge insurgents, and its fuselage and tail were slightly damaged. But the American airlift continued.

#### Five Cities Threatened

SAIGON, South Vietnam (AP) — Anarchy and panic gripped five more major cities in the central part of South Vietnam today as the Saigon government yielded the last of its enclaves there without opposition.

Military and administrative authorities fled from Tuy Hoa, Phan Rang, Phan Thiet, Dalat and Cam Ranh, the latter with its big military base and deepwater port that U.S. forces established.

Vietnamese officials said four American cargo ships that have been trying to evacuate refugees from the Communist advance would be stationed off the abandoned cities in hopes some of those left behind could get out to the ships. But it appeared that few if any could escape unless the North Vietnamese and Viet Cong were unable to take control of so much territory at once, a difficulty they have not apparently had so far.

#### AREA DEATHS

MRS. MAMIE GIDDENS: Mrs. Mamie Giddens, 81, of Geneva, died Tuesday night. Born in Columbus, S. C., she lived in Geneva for the past nine months and she was a Baptist.

Survivors include two sisters-in-law, Mrs. Jessie Mae Jacobs, of Geneva and Mrs. Harriet Jacobs, of Lakeland, Ga., and several nieces and nephews. Brison Funeral Home in charge.

THOMAS PAPINO SR.: Thomas E. Papino Sr., 72, of Sanford, died Monday morning in Seminole Memorial Hospital. Born in St. Augustine, he moved here last year from New York City. He was the father of Miss Juanita Papino, teacher at Lake Mary Elementary School, and Lake Mary Nursing Home. He has since been a patient in Sanford Nursing Home. He lived for over 30 years in Sarasota Springs, N.Y., State Director of Economics, he was a member of the Frederick Allen Lodge 609, which honored him in 1972 for over 25 years continuous service.

In addition to his daughter, he is survived by a son, Thomas R. Papino Jr., and three grandchildren all of Miami; four sisters, Blanche Norton and Earlean Rose, New York City; Louise Williams, Jamestown and Genevieve Hammond, St. Augustine; two brothers, George Papino, Baltimore, Md. and Lawrence, New York City and many nephews and nieces.

Funeral services will be held in St. Augustine Saturday, Chase Funeral Home in charge.

GEORGE RAYMOND: George C. Raymond, 57, of Geneva, died Monday. Born in Maine, he came to Geneva five years ago. He was a retired truck driver, a Mason of the Oviedo lodge, a Dad advisor to the Demolay of Oviedo.

Survivors include his wife, Mrs. Frances Raymond, of Geneva; six children; mother, Mrs. Hazel Raymond, Maine, brother, John Raymond, Maine, and several grandchildren. Brison Funeral Home is in charge of arrangements.

Funeral services will be held in St. Augustine Saturday, Chase Funeral Home in charge.

RAYMOND, GEORGE C.: Funeral services for George C. Raymond, 57, of Geneva, who died Monday, will be held Thursday at 5 p.m. at Brison Funeral Home with Mr. Ralph Brewer officiating. Burial in Geneva Cemetery, Brison in charge.

GIDDENS, MRS. MAMIE J.: Funeral services for Mrs. Mamie J. Giddens, 81, of Geneva who died Tuesday night, will be held at 10:30 a.m. Saturday at Brison Funeral Home with Rev. Bill Coffman officiating. Burial in Geneva Cemetery, Brison in charge.

WEATHER Yesterday's high 92 low this morning 61. Partly cloudy and warm through Thursday. A chance of showers, mainly Thursday. Highs mostly in the mid 80s to low 90s. Southerly winds 10 to 15 mph, increasing some by Thursday. Rain probability 40 per cent Thursday.

Extended Forecasts — Friday through Sunday Florida Peninsula — Mostly fair with a slight warming trend. Low north portions from near 50 on Friday to mid 50s on Sunday. Low central and south mostly in 60s. Highs north portions from near 70 Friday to upper 70s on Sunday. High central and south in upper 70s and lower 80s. Daytona Beach highs for Thursday — High 78 a.m., 2:38 p.m. Low 78 a.m., 8:41 p.m. Port Canaveral — High 78 a.m., 2:06 p.m. Low 70 a.m., 8:28 p.m.

OAKLAWN MEMORIAL PARK: Prepaid Crematory, P.O. Box 222, Sanford, FL 32771. COUNTRY CLUB ROAD: 1/2 mile west of Sanford.

### Council Cites 'Discrepancies'

## Winter Springs Rejects New City Hall

By JANE CASSELLBERRY Herald Staff Writer

WINTER SPRINGS— City Council, meeting this week, declined to accept the new city municipal building, which it has occupied for three months, until discrepancies are corrected.

City Council last week authorized Mayor Troy Pland to pay Aagaard-Jorgensen Inc., contractor for the \$170,229 fire station-city hall building, \$6,778, but still withheld a final \$1,000 payment until Council was satisfied all items had been corrected.

Councilman John Daniels submitted a list of complaints that included inadequate asphalt paving in driveways which has already "begun to ripple and show signs of wear;" improper drainage on the concrete approach apron on the

west side of the truck bay; and recessed light fixtures in the council chamber which are not ventilated and cause bulbs to overheat. Daniels said 20 bulbs have already had to be replaced.

Daniels maintained both the asphalt and the concrete slab must be torn out and put in properly prior to acceptance.

City Building Inspector Roy Bradshaw gave his opinion

saying, "I think it is primarily a design flaw. The asphalt in time will season. The concrete should have been tipped down hill, but I don't think the slab which is six inches thick reinforced with steel on 12-inch centers, should be torn out."

"The lights I discussed with the electrician who claimed he installed what was specified, and thinks it may be caused by high voltage at certain hours.

Florida Power will put on a voltage recorder to check the problem," Bradshaw said. Daniels replied, "We paid an architect \$17,000 to design a facility suitable for heavy fire equipment and I can't see accepting it until they are replaced in acceptable form."

Charles Chute, chairman of the newly formed City Planning Commission for comprehensive land use, requested the city provide secretarial service for the commission's meetings. Councilman Irwin Hunter said he would check the availability of the new building department clerk for covering night meetings.

Mama Mia Pizza

It's happened to all of us. You run short of cash on a weekend, night, or holiday. And you're stuck. Because your bank is closed, and you can't cash a check.

Those days are gone forever. Now, on the outside wall of your Flagship Bank you'll find "24-Hour Jack." He's open at midnight, 2 in the morning, Saturday evening, Sunday afternoon, the 4th of July, Christmas, and all other times too.

"24-Hour Jack" lets you withdraw up to \$100 a day from your checking account. Withdraw from savings. Make deposits (and get a printed receipt). And Jack will even take your installment loan payments.

What's more the cost of using this handy dandy service is darn reasonable. It's free! A gift from us to you when you open a checking account.

So hustle over and open one. Because with "24-Hour Jack" on your side, you'll never be shut out again on a Sunday afternoon.

### Sunday afternoon.

You promised to treat your team to pizzas if they won. You didn't think they had a chance, but they did.

Now you're stuck for the party, but you just have a couple of bucks on you.

So you zip by "24-Hour Jack," your banker who's always open. Press a few buttons, grab some cash, and go from rinkydink to hero in one minute flat.

"24-Hour Jack." Your any-hour banker. FLAGSHIP U.S. BANK OF SEMINOLE MEMBER F.D.I.C. 3000 S. ORLANDO DR. (17-92)

### TOM TIEDE Few Civil Servants Jobless

Washington — (NEA) — Though few but the principals ought rejoice, there is at least one American labor sector that remains relatively untouched by recession: the bureaucracy.

While unemployment haunts the mechanical, engineering and service forces of the nation, government paper shufflers and pencil doodlers continue with some exceptions mostly on the state and city levels for the most part to receive full salary benefits from the forever generous, and docile, U.S. taxpayer.

In fact, read it and weep, there is a bit of a boom occurring in government service. As private employment goes down, public employment goes up; never mind if it's just, it's fact.

Washington is a good place to begin the melancholy statistics. Metropolitan unemployment figures are on the whole a full three points under the national average, largely because of the more than 50,000 bureaucrats who reside in the area. Many of them, by the by, reside very well — nearby Montgomery County, the "Federal Bedroom" as it's aptly known, is per capita the highest income county in the nation, which means it may be the richest population of its size anywhere in the cosmos.

Beyond this, figures gathered from Civil Service and the Office of Management and Budget indicate that far from retreating in hard times the worldwide federal employment rolls are inching steadily upward toward three million. In December, the last month for which figures are available, the total number of federal employees was 2,866,000, up some 2,885,000 from December of 1974 and at least 50,000 from December of 1973.

But in fairness to this massive bureaucracy, it should be pointed out that in 1946 18.8 government workers were toiling for every 1,000 Americans; last year the number was 13.2 for every thousand.

The White House not surprisingly, reads the figures somewhat differently. Spokesmen say federal employment is not supposed to be growing and that indeed it is under presidential orders to be shrinking. Nixon-Ford policies called for a reduction of 60,000 desk dwellers this fiscal year. True enough, the reduction was ordered, and to some extent is being carried out.

But while some agencies are reducing staffs by about 37,000, other agencies are increasing staffs to probably account for an aggregate gain.

"It's silly, I know," says an OMB statistician, "but if things weren't confusing this wouldn't be Washington."

Besides the confusion, there is precedent. Civil Service officers say that government business usually means when private business is bruised. From 1929 to 1938 in the Great Depression, more than 300,000 people were added to the public payroll. "Government functions," it's explained, "are by law, and only the law regulates them. If Congress and the president want the bureaucracy to grow, regardless of the times, it grows."

WASHINGTON — "Chain" nursing homes are springing up around the country. Their aim is primarily profit, not tender, loving care.

The latest figures compiled by a Senate aging subcommittee show that despite industry poornothing, profits are growing.

One of the largest chains, for example, increased its profits by an incredible 60 per cent since 1969. The average increase for the chain operations was a more modest 116 per cent.

The profits are not evil in themselves. But Senate investigators suspect that the chains have taken advantage of lax state laws to gouge the public of medicare money. Worse, the laws often encourage the mistreatment of patients by rewarding homes with more medicare funds for ailing patients.

The chain nursing homes have grown up most heavily in states with the most exploitable nursing home reimbursement plans. The investigators suspect that the condition of the state laws are more than the size of the local elderly population.

Each state picks its own method of reimbursing the homes for care provided. The reimbursements come out of state and federal moneys. Unfortunately, the three major reimbursement formulas used are easily abused.

The Vortex

RALPH NOVAK

### Immortal Pickets On Strike

They were reading about the New York City doctors' strike the other day on Mount Olympus when Jupiter slammed his copy of The Daily Pantheon down in disgust. "Ye gods!" he cried. "Yes!" answered Venus, Mars, Mercury and all the others who were hanging around.

"No, no," Jupiter said. "That's just an expression. I'm getting tired of these humans complaining all the time. If those doctors can strike like that, I'm about ready to give up. How can we run things when they show so little concern for what's going on?"

"You said it, Chief," Mars said. "I say we nuke 'em now and get it over with so we can get on to something important."

"Simmer down, for heaven's sake," Jupiter said. "Things aren't quite that bad yet. I was just wondering how those mortals would like it if we went on strike for a while. Neptune could dry up tests, Apollo could stop all deliveries of flowers and candycrams." Mercury chimed in.

"Yeah, and I could call off all deliveries of flowers and candycrams." Mercury chimed in. "Sure, Merc, sure," Jupiter mused. "I think it might be a good idea. After all, look at how little respect we gods get these days. We sit up here running the whole universe with hardly time for an ambrosia break and what do we have to show for it? We hardly even get any burnt offerings or sacrifices anymore."

"Now I don't know, sir," Minerva said quietly. "I'm in haste, repent at leisure." Discretion is the better part of valor. "Haste makes waste."

"Oh, come on, Minnie," Jupiter said. "You're kidding that wisdom business too seriously. I just think we have to call attention to our situation. You know, getting some sympathy from the public, picking up a few minutes on the 6 o'clock news, things like that to remind people we're around."

"Wouldn't a little pestilence, famine and all-around destruction be more effective, Chief?" suggested Mars.

"No, they'd just blame it on the Arabs or the Republicans," Jupiter said. "They get blamed for everything that goes wrong anywhere these days."

### Medical Mechanization

Americans may complain about the assembly-line aspects of modern medicine, as well as its cost. But it is precisely the trend toward "medical mechanization" that offers one of the best hopes for keeping costs down without reducing the quality of care.

The operating room, one of the hardest pressed areas of the hospital, has been successfully turning to automatic devices and disposable supplies.

For example, throwaway needles and syringes are replacing reusables that require expensive labor to clean and re-sterilize. Many hospitals are also switching to disposable scrub suits and surgical drapery, which substantially reduces laundering expenses.

The electric cautery, now widely accepted, cuts operating time and eliminates the use of dozens of expensive sutures. And where suturing is necessary, the surgical stapler has emerged as probably the most significant time and cost saver.

Surgical stapling instruments stitch automatically using tiny stainless steel staples. A surgeon can simultaneously place the application of 46 silk sutures with one application, reducing operating time by as much as 50 percent.

The use of surgical staplers is increasing rapidly. One maker, United States Surgical Corp., estimates that close to 100 million patients have been "stapled" since it introduced its Auto Suture surgical stapling line in 1967.

Medical Mechanization

Americans may complain about the assembly-line aspects of modern medicine, as well as its cost. But it is precisely the trend toward "medical mechanization" that offers one of the best hopes for keeping costs down without reducing the quality of care.

# House, Two Barns Destroyed

(Continued From Page 5-A)

Susie T. Stone reported three wrist watches, a ring and a radio were taken after burglars broke a window at her 1487 Glastonbury Road residence. James E. May, of 1109 W. Clemson Drive, Altamonte Springs, told deputies he returned home from a trip to Orlando on Sunday and found two televisions, a stereo and speakers, 40 tapes, a tape recorder, electric iron and fishing equipment and tools missing. Deputy L.M. Ford reported vandals broke in via a sliding glass door at a pod at Forest City Elementary School and littered the interior, ransacked desks and threw dry tempera paint on the floor. Sanford police today reported Roy Gayle Abrams, 31, of 200 Magnolia Avenue, was arrested at 1009 Park Avenue for possession of a stolen motor vehicle.

Officers said Abrams had in his possession a 1965 Buick sedan reported stolen earlier at the home of Mildred Gill, 1805 W. Third Street. Officers said the vehicle apparently was towed from the woman's yard. Patrolman Richard Bennett said today two male juveniles were taken into custody on burglary charges in connection with a break-in at a house located at 518 Mellenville Avenue. Mrs. Maude Teer, owner of the house, reported a Bible, clothing, a mirror and four pencils were missing. Timothy Douglas Stone, 18, of Orange Lane, Casselberry, was burglarized sometime between 4 p.m. Sunday, and when it was discovered Tuesday morning. Entrance was gained by picking a lock on the door and 15 bottles of liquor with an estimated value of \$90 were missing, according to Casselberry Police.

New in the neighborhood? It's not all bad...

# Forest City Youth Killed In Accident

ALTIMONTE SPRINGS — A 17-year-old Forest City youth was killed and three persons injured early today in a motorcycle-automobile accident at State Road 436 and Montgomery Road. Altamonte Springs police said Clifford Craner, 17, of 18 Azalea Drive, Forest City, was North on Montgomery at the time he was riding struck a car making a turn onto Montgomery Road. Police said the accident, which occurred at 8:31 a.m., injured all three occupants of the automobile. All three were admitted to the hospital, but officers at the scene did not have their identities shortly before noon.

Sgt. Richard Lase and Cpl. Murphy said the motorcycle was traveling west on State Road 436 and the car was apparently turning left off 436 onto Montgomery at the time of the accident. The accident was still under investigation at noon.

# 80 New Drugs Enter Fight To Find Cure For Arthritis

EDITOR'S NOTE — This is the last in a series of articles on drugs that cannot yet be cured or prevented because scientists lack fundamental knowledge about them.

By ALTON BLAKESLEE AP Science Editor BETHESDA, Md. (AP) — On the horizon are 80 new drugs to relieve the pain, stiffness and inflammation of joints in rheumatoid arthritis. Each has yet to run a stern gauntlet of testing for safety and effectiveness. No one knows how many, if any, will succeed to the finish line. Progress against arthritis "has been terribly slow, despite all sorts of approaches," says Dr. Paul Plotz, senior investigator of the Arthritis and Rheumatism Branch of the National Institute of Arthritis, Metabolism and Digestive Disease — NIAMDD. So arthritis is counted among the "stalled diseases" requiring more effort and more insights to bring it under control.

# All Commissioners Or None: Altamonte

ALTIMONTE SPRINGS — Still smarting from the county delegation Monday that double taxation does not exist in Seminole County, city commissioners last night showed little

enthusiasm for a proposed meeting April 30 of the two governmental bodies. "If one commissioner is coming down here, it is a waste of time. If all commissioners want to meet

# HOROSCOPE

BY BERNICE BEDE OSL For Thursday, April 3, 1975  
ARIES (March 21-April 19) Using pressure to achieve results will not be effective today. The fact — you'll catch more flies with honey than vinegar.  
TAURUS (April 20-May 20) You're likely to waste much time today trying to fix blame for a blunder. It's far wiser to just correct the mistake.  
GEMINI (May 21-June 20) Don't expect another to do more for you than you're willing to do.

Floyd took the position, after a consensus of the city board, that the meeting should be held at the city hall, and Commissioner Helen Keyser said, "If just one county commissioner shows up, we'll go home."  
Floyd said when only one commissioner is available for a meeting with city officials, a usual response on issues that he cannot speak for the board. He discussed many points need to be discussed with county officials in the fire hydrant issue. The county has refused city demands for payment of a rental fee for city fire hydrants in county areas.

**EASTER EGG HUNT WINNERS**  
Pictured above are the winners of Sunday's Easter Egg Hunt, which was sponsored by the Sanford Seminole Jaycees. Left to right: 3-5 year-old age bracket winner Kelly Gaines (28 eggs); 6-9 Kelly Smith (27 eggs); 10-12 Gina Jordan (50 eggs); Tammy Tipton (finder of the Jaycee silver egg) and Roberta Williams (finder of the Gold egg). Over 200 area youngsters showed up for the hunt, which was conducted at Fort Mellon Park, in search of nearly 1,800 hidden eggs in the annual event.

## Longwood Property Owner Threatens Legal Action Drainage Problem May Bring Suit

By DONNA ESTES  
Herald Staff Writer  
LONGWOOD — An Orange Avenue property owner Monday night threatened the city with legal action, insisting the effort to relieve Land Avenue drainage problems will cause flooding at her home.

Mrs. Harvey Dodson, 339 E. Orange Ave. was told the piped drainage now being installed from Land Avenue would raise Horton Lake no more than one-half to one inch during the heaviest rain.

L. D. Horton, owner of the lake where the drainage water will be dumped, said he had no objection to the city project.

Councilman H. A. Scott and Chairman J. R. Grant said a natural drainage stream has always run across the Dodson property.

In other business, Mayor James R. Lormann appointed

Joe Pravone, Donald and Helen Kopecka and Mrs. Tracy Estes to the city's Bicentennial committee.

Council affirmed no second notices will be sent out to water customers before service is discontinued for non-payment of bills.

A petition signed by 25 Skylark residents requesting the city to clean out Bird Lake was taken under advisement.

City Attorney Ned Julian Jr. reported he will be meeting with officials of Sanlando Utilities this week to discuss the utility's failure to collect city utility tax on water customers in four city subdivisions.

Julian gave the opinion the Zoning Commission properly called a public hearing with written notice to all property owners within 500 feet on the requested zoning change on the SR 42 north Widdis property

must vote to change the zoning of 20 percent of the adjacent property owners when the city council holds a public hearing on the zoning change.

## Trial Set For 58-Year-Old Orlando Woman

By BOB LLOYD  
Herald Staff Writer  
A 58-year-old Orlando woman has been scheduled for trial in Circuit Court at Sanford May 5 on a 1973 perjury charge.

The State Supreme Court has refused to hear an appeal of a District Court of Appeals decision reversing the 1973 dismissal of the charges by Seminole Circuit Court Judge Volie Williams Jr., officials said.

Ms. Yerna Woods entered a written plea of innocent when arraigned Monday in the case at Sanford.

Ms. Wood, then an Orlando Sunland Center nurse aide, was accused of perjury in a 1973 traffic case. She was accused of lying to protect county road department mechanic Robert Presley, 31, of Longwood, in a drunk driving case. Presley was convicted of perjury and encouraging perjury and the conviction was appealed.

A June 2 second-degree murder trial has been docketed for Paige Edward Evans, 21, of Apopka, who is accused in the Feb. 16 pistol slaying of Johnny Jones, 26, of Apopka, on U.S. 41 at the western tip of Seminole County.

Leroy Lee, 18, of 808 W. 11th St., Sanford, has been scheduled for a May 19 trial on a charge of breaking and entering with intent to commit a felony. Sanford police arrested Lee and a juvenile March 22 inside the administrative office building at Seminole High School.

A May 28 trial has been scheduled for Mark Evans Trowl, 23, of Maitland, on a charge of breaking and entering with intent to commit a felony. Sanford police arrested Lee and a juvenile March 22 inside the administrative office building at Seminole High School.

Ms. Wood, then an Orlando Sunland Center nurse aide, was accused of perjury in a 1973 traffic case. She was accused of lying to protect county road department mechanic Robert Presley, 31, of Longwood, in a drunk driving case. Presley was convicted of perjury and encouraging perjury and the conviction was appealed.

## Tax Rebate Tables

WASHINGTON (AP) — Here are tables comparing the congressional compromise tax cut bill signed Saturday night by President Ford with the administration proposal in terms of 1974 tax rebates combined with 1975 tax reductions.

The 1975 tax changes included in the congressional table are: increases in the minimum and maximum standard deductions, earned income credit and a \$30 credit to every tax payer and estate dependent. The administration table contains only 1974 tax rebate figures, which is the only reduction Ford proposed.

The tables are based on adjusted gross income for single persons and for married couples with one, two and four dependents.

## WHY WE TURNED OUR ALTAMONTE SPRINGS OFFICE INTO A PARKING LOT.

It's now a parking lot so you'll find plenty of parking when you visit our new, three-story Altamonte Springs Office complex.

Stop by and take a look at our new spacious lobby. Our beautiful community room which will be available free for use by local clubs and organizations.

You'll find a night depository and a wide selection of safe deposit boxes. A three lane drive-in teller facility.

And if you've been looking for office space for your business, ask to see our two floors of available space.

And while we're introducing you to our new building, let us introduce you to some of our new services, like Social Security Direct Deposit and Individual Retirement Accounts.

We're celebrating our grand opening with daily refreshments and two weeks of very special events.

Attend these special events.

Wed., April 2nd 11:00 a.m. and 7:30 p.m. Wallpapers, Etc. — Film and discussion on wallpaper hanging and home decoration.

Wed., and Thur., April 2nd and 3rd Bonsai East — Display in our lobby of the art of Bonsai.

Fri., April 4th 1:00 p.m. Antique Center, Ltd. — Bring your antiques in for free appraisal by qualified experts.

Tues., April 8th Singer Sewing and Fabric Center — "Knit Bit" or The Economy of Using Fashion Sewing by Barbara Miller.

Enter our daily drawings and you could win a unique, genuine Indian Head Penny Pendant.

So join us soon at our new Altamonte Springs Office. You'll find it right next door to our new parking lot. We're here to help you take care of you.

## Fastest 220: 21.1 By Roberson

By TOM KEYSER  
Herald Sports Editor

LONGWOOD — After winning the 120-yard high hurdles and the 100-yard dash, Mike Roberson was saying he doesn't emphasize one event.

"Oh no, I try the best I can no matter what I'm doing," he said. "I take them all serious."

Then the Winter Park phenomenon trotted onto Lyman's track and ran the fastest 220-yard dash ever run by an American high school student.

"Everything has to be right, everything has to be perfect," he said. "It's like a Swiss watch. You have to be perfect."

Roberson was picture-perfect. He stretched his strides and he kicked his knees high. He ran explosively. He left the rest of the field like a Corvette leaves a Volkswagen.

The Winter Park senior led his team to a lopsided win Tuesday in a meet with DeLand and Lyman. Winter Park amassed 99 points, Lyman recorded 45 and DeLand managed 23.

Daytona Beach Mainland, which boasts the defending state 100-yard dash champion and the Florida Relays long jump champ, did not attend the meet because of an apparent scheduling conflict, according to Lyman Coach Dave Huggins.

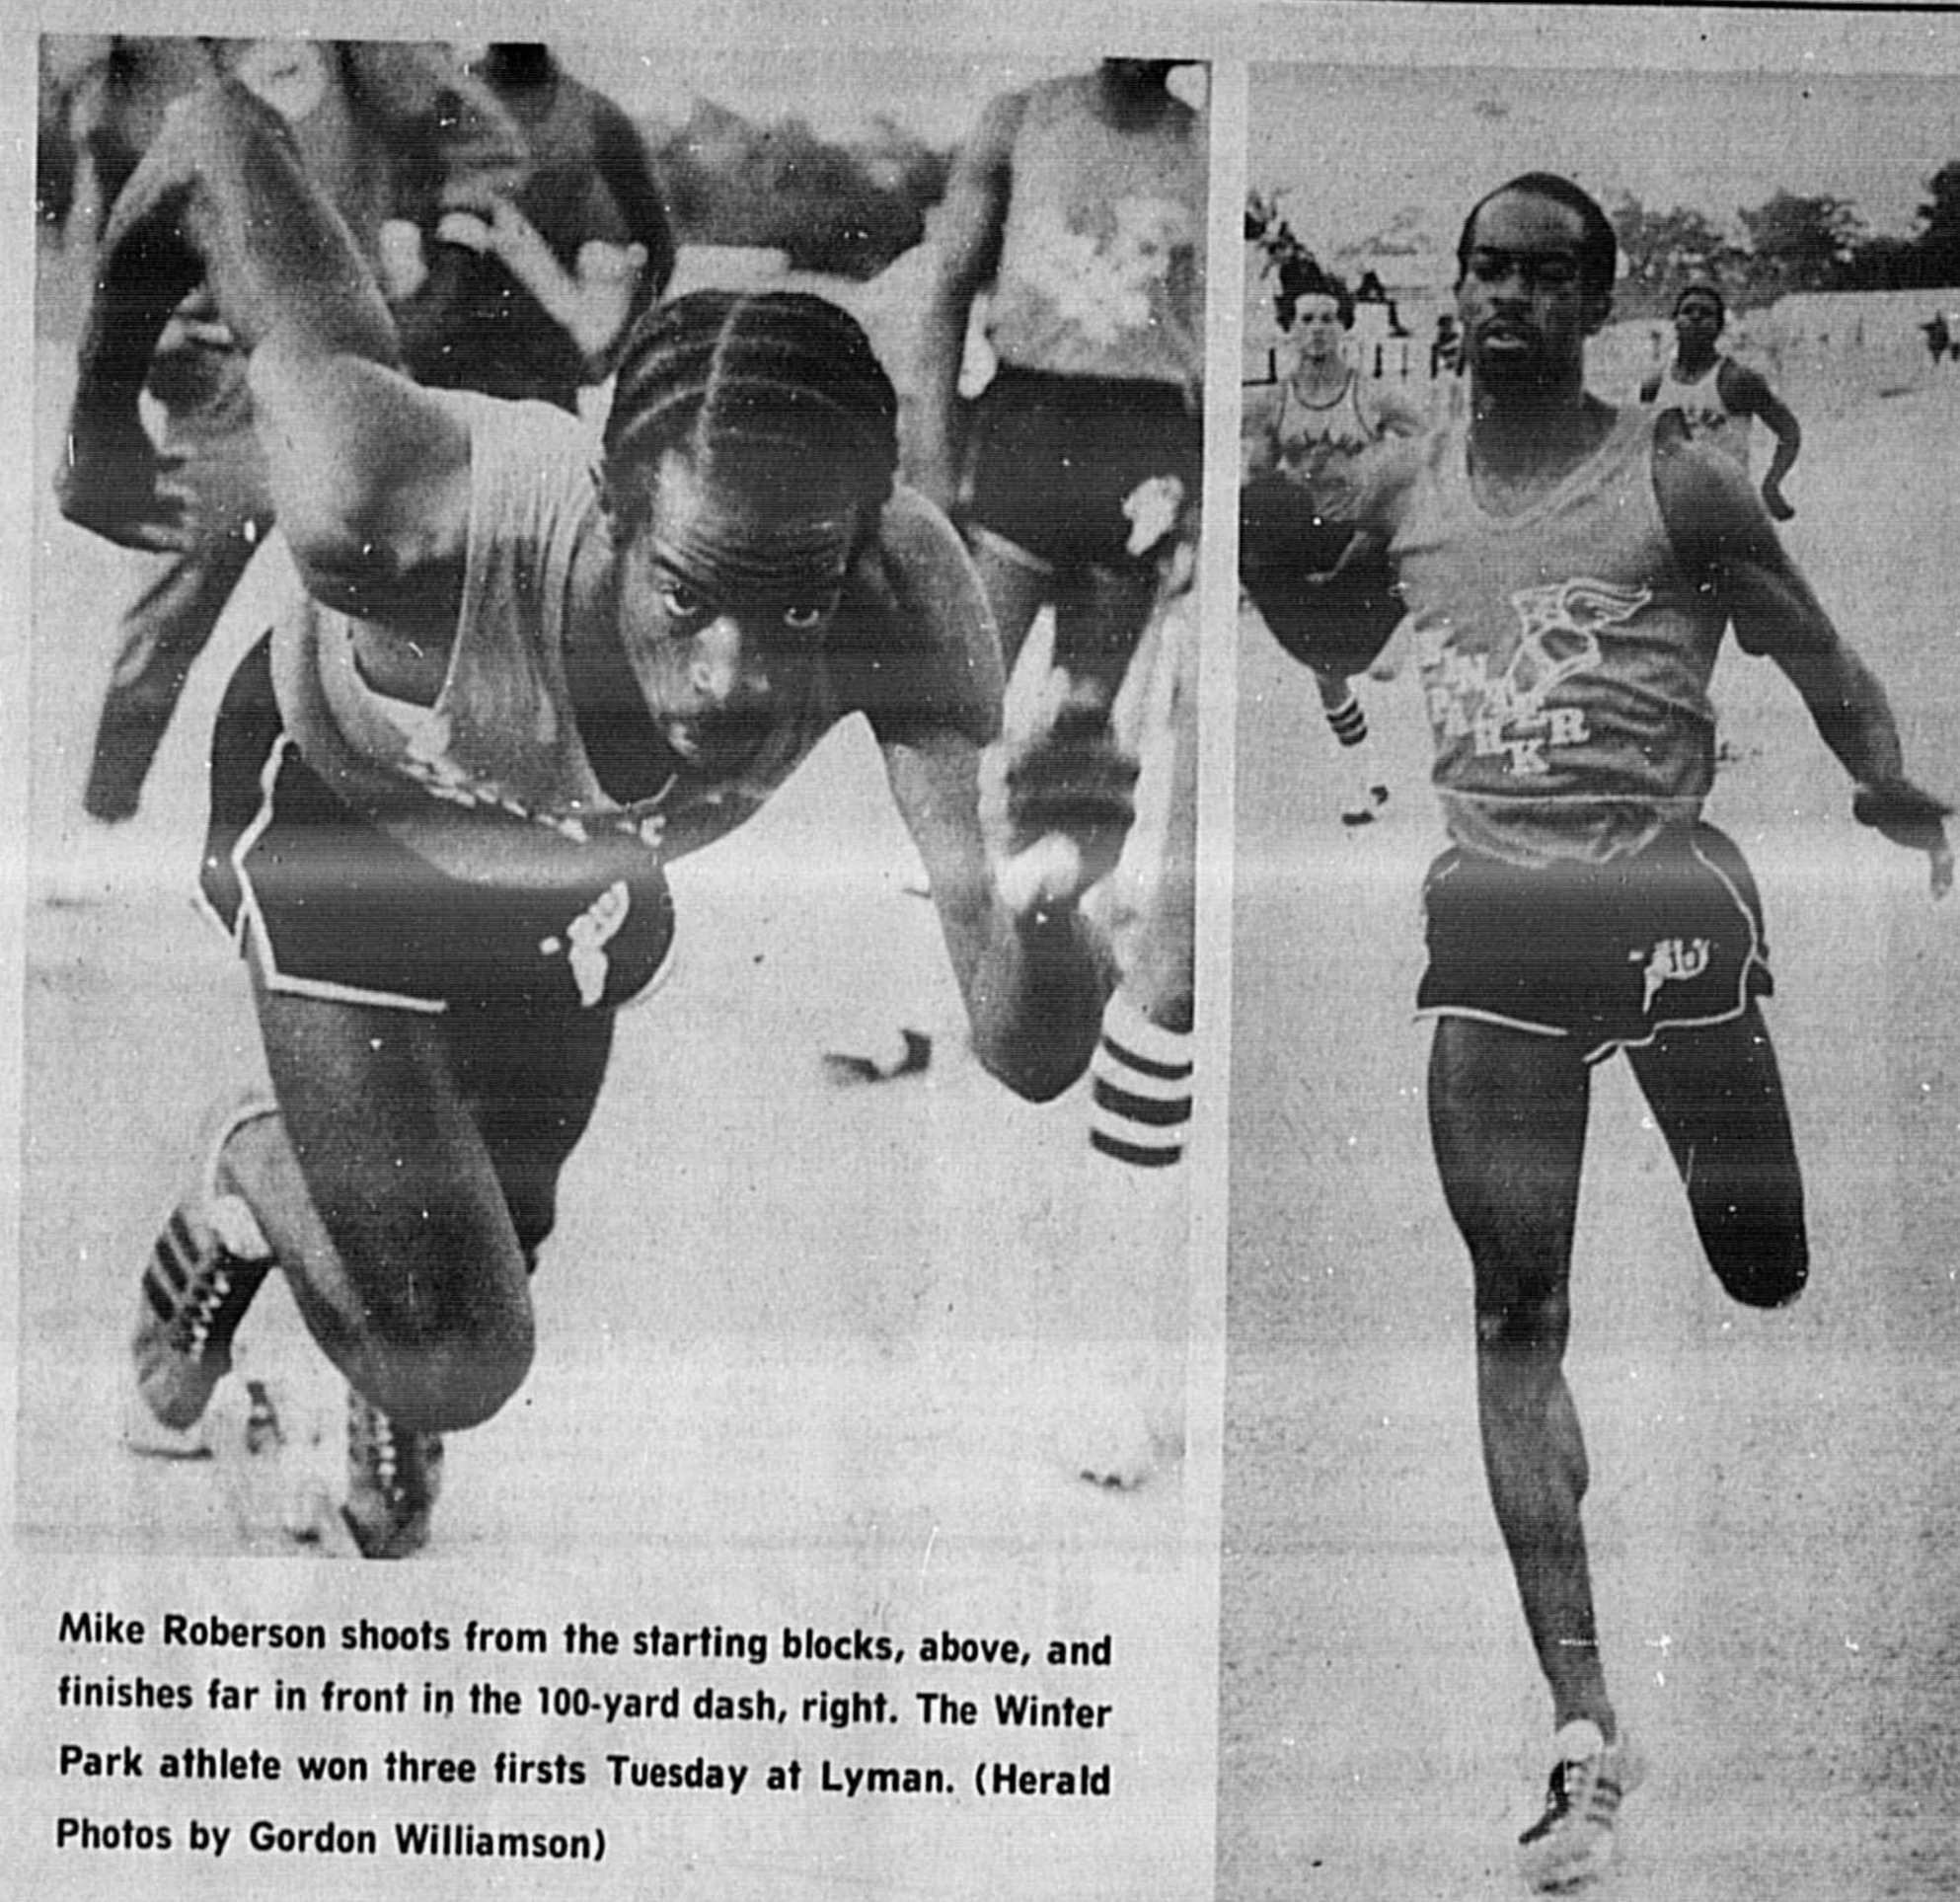

Roberson's time in the 220 was 21.1. He is one of several high school athletes who have run 21.2.

The official watch at the finish line clocked Roberson at 21.1. Two out of three watches in the stands clocked him at 21.0.

Roberson and Seminole Junior College's Don Merrick, who earlier this year tied the world record 70-yard dash, discussed running techniques before the 220-yard dash.

"He (Merrick) helped me a lot," Roberson said. "He told me to run the first 120 yards at full speed. I thought I was doing that, but I found out tonight I wasn't."

With the spectacular spring in the 220, Roberson now is the fastest high school athlete in two events. He set the 120-yard high hurdle mark two weeks ago at a Merritt Island meet. He ran a 13.4 at that meet. At Lyman Tuesday he won the 120

Mike Roberson shoots from the starting blocks, above, and finishes far in front in the 100-yard dash, right. The Winter Park athlete won three firsts Tuesday at Lyman. (Herald Photos by Gordon Williamson)

## SJC Wins Doubleheader

The Seminole Junior College baseball team downed Edison Community College 6-0 and 3-2 Tuesday in a doubleheader at SJC's field.

The Raiders meet Suffolk Community College of New York today and Thursday at 3 p.m. at SJC.

Buddy Maher boosted his mound mark to 5-2 in Tuesday's first game. He struck out eight, walked two and allowed only three hits.

"Buddy didn't have one of his better days," SJC Assistant Coach Mark Denno said. "But he throws a good fast ball and even when he's a little off he can get by."

Skip Skelton led SJC offensively with a two singles and three RBI.

The Raiders scored all they needed in the first inning.

Skelton singled home two runs, Frankie McDonald doubled across another, Mike Gamble led off a sacrifice fly and Mark Moyer, who reached base on an error, scored on a wild pitch.

In SJC's third inning, Skelton poked another run-scoring single and Jeff Kelly, who had singled, scored on an error.

The Raiders closed their offensive attack in the sixth when Jeff Brockway led off with a triple and Dwayne Gray poked a sacrifice fly to left field.

Gamble picked up his third win of the season. He also has one save.

Edison scored in the top of the first and second innings. The top six are seniors.

Second team — senior Tommy Harris of Ocala Vanguard, senior Walter Gibson of DePue, senior Gerald Nelson of Palm Beach North Shore, Benny Leverett of Bartow, William

Cherry of Lake Wales and Rick Claxton of Jacksonville Bulls. The top six are seniors.

Second team — senior Tommy Harris of Ocala Vanguard, senior Walter Gibson of DePue, senior Gerald Nelson of Palm Beach North Shore, Benny Leverett of Bartow, William

for an Edison run in the top of the seventh and knotted the game at 2-2.

But the Raiders stormed back in their half of the inning when Lagergen walked and Gamble and Brockway scored. Lagergen pitched the game out for a single and Steve James walked to load the bases. Richard Hyatt drew a free pass, and a sacrifice fly accounted

Wayne Kurth, who is 7-0, started for the Raiders and pitched 6 1/3 innings of five-hit ball, striking out four and walking three.

Marty Ward led the assault with a two-run home run in the sixth, a double and a single.

Teammates Russ Leist belted a two-run HR in the third and a single, Wayne Stump blasted a three-run round tripper in the first. Keith Johnson connected for a double and two singles, Bill Merchani ripped two singles and Don McDaniel added a two-bagger.

## Guards Head 3A All-Star

ORLANDO (AP) — Six guards, including Key West's Julian Butler, were named to the Class AAA All-State basketball team.

It was Butler's third year on the team, selected by the Florida State Writers Association.

Also named to the first team were James Clark of Orlando Bishop Moore, Curtis Brooks of Palm Beach North Shore, Benny Leverett of Bartow, William

**SJC Golfers Capture Win**

GAINESVILLE — The Seminole Junior College golf team upped its record to 9-3 with a 296-302 victory Tuesday over Santa Fe Community College at Gainesville's University course.

Bob Herrickson blazed a 32 on the back nine for a 70. He had five pars and four birdies on the back nine, including birdies on the final three holes.

Jerry Hulbert fired a 36-36-72 with a double bogey on the 18th hole. Chip Harkins carded a 38-36-74 and Jeff Decker recorded a 40-40-80.

Hulbert's 72 was nine strokes below his average.

The Raiders travel to Lake City for a match Friday.

## A's, Hunter In Top Form

By The Associated Press  
The Oakland A's are ready, even the one who is no longer in Oakland.

Catfish Hunter, the baseball pitcher A's owner Charles O. Finley let get away, sparkled again for the New York Yankees even though the Yanks suffered a 4-1 defeat to the Atlanta Braves.

And the A's acted Tuesday as if they didn't even need Hunter, who led them to three consecutive World Series championships.

Mike Norris, Rollie Fingers and Blue Moon Odom combined to pitch a one-hitter against Milwaukee while Reggie Jackson slammed four hits to pace the A's 9-1 exhibition baseball rout of the Brewers. Milwaukee's only hit was an infield single in the second inning.

Hunter pitched 33 innings this spring, posting an earned run average of 1.64. The only run Atlanta scored against him Tuesday was unearned.

Hunter gave up four hits and struck out five in his seven-inning stint against the Braves. Atlanta won the game in the eighth inning when Dusty Baker slammed a three-run double with two outs.

In other games, Cincinnati

## Cook Adds Too Much Salt

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — I am one of 100 persons working in a sheltered employment situation. Most are seniors, women, and men, but some teenagers also.

There is a kitchen which serves a hot dinner at noon. We all like the cook but almost everyday the entire or the salad and green vegetable are heavily salted. I have seen the food left on many plates because it is "too salty."

Almost all senior citizens have problems with salt. We pay for the noon meal which costs very little. However, if you have to pay for the lunch and can't eat it there is money wasted for the employee and budget funds are also wasted.

Please advise us about the hazards of too much salt in the diet for old and young alike. There are salt shakers on the tables. It is usually no problem to measure salt meagerly. In volume cooking when a recipe is increased, salt should be with restraint.

We don't want to hurt anyone. We think a medical opinion would guide our cook. She is young enough to learn and will be happier knowing she can make a beneficial contribution to our health.

DEAR READER — You have a good point. It is always easy to add salt but impossible to take it out.

Many authorities believe too much salt in the diet may contribute to the development of high blood pressure. It is probably wise even for young people to go easy on salt.

When the body is healthy and a person drinks plenty of water the excess salt is simply eliminated through the kidneys. A number of medical problems, though, cause the body to retain salt. This leads to an accumulation of water and can be quite serious.

Women may have salt retention and retain fluid in response to their normal menstrual cycle. Estrogen stimulates salt retention. Birth control pills have the same effect and so do hormones used after the menopause. When this is fairly marked, women need to take pills to cause the kidneys to eliminate salt and fluid to relieve the problem.

Progressing along the way, anyone who has heart disease with heart failure or respiratory ailments may have a tendency to retain salt. The fluid that might accumulate in this case

## Dr. Lamb

can cause real problems by literally filling the lungs with fluid and affecting the breathing. Considering the frequency of heart disease in older people, this is a very important consideration.

Both liver disease and kidney disease may cause a retention of salt and, hence, water. These conditions that cause fluid retention can progress to cause marked swelling of the liver, abdomen, feet, ankles and fluid in the lungs. In short, the salt retention tends to defeat the doctor's efforts to prevent these complications.

In all, there is simply no good sound medical reason to add salt to food for a population that has many people with medical problems. For those who are healthy and have no problems there is always the salt shaker. The rest would certainly be healthier if they could avoid the bad effects of salt in their diet.

DEAR DR. LAMB — Would you explain what "staph disease" is?

DEAR READER — That is a slang term for staphylococcus, a particular type of germ. The germs clump together like a cluster of grapes. The "staphylo" comes from Greek meaning bunch of grapes, while "cocci" means berry.

Some varieties of these germs are harmful to man and other varieties are not. They are commonly on the skin and when they set up housekeeping around the root of the small hair they cause pimples or worse. Many people have harmful "staph" germs on the skin and are more prone to skin problems.

Staphylococcus germs grow rapidly in puddings, cream pies, potato salad and similar foods when they are left at room temperature.

# Stitchery Secrets Shared In Sanford

By JEAN PATTESON  
Women's Editor

"I've been there," exclaimed the excited voice over the telephone. "I've actually attended the Elsa Williams School of Needlework."

Pam Rathel, owner of the Needlebeetle shop at 2538 Park Dr. (off Park Avenue) in Sanford, had spotted Elsa Williams' new column, Joy of Stitching, on the Wednesday Women's Page of The Herald, and was thrilled to report she was a student at the columnist's famed school in West Townsend, Mass., last summer.

"My week-long stay at the School of Needlework was a birthday present," bubbled the enthusiastic seamstress. "I'd always admired Elsa's work and had even met her once at a convention in Atlanta, but to study in her school was the biggest thrill of all."

"Even if you learn nothing (which would really be impossible) you'd be inspired just by absorbing all the lovely work at the school," Pam raved. "It's the perfect place for a vacation."

Located in the old Homer family home (which was visited often by American painter Winslow Homer), the school runs week-long sessions year round, featuring different styles of stitchery each week

under the guidance of nationally known designer and needlework artist, Elsa Williams. Visiting experts are also invited to teach their specialty skills when these are being featured in the courses.

The historic old home is set under enormous shade trees, and supplies a restful yet invigorating atmosphere in which to work, Pam explained. The interior of the house is a dream, Pam said. Each bedroom features needleworked headboards, window cornices, pillows or pictures, often in patterns to match the flocked wallpaper.

The diningroom is particularly attractive with its needlepoint chair covers and the Elsa Williams design of the plates. Elsa Williams' own armchair is an art piece familiar to stitchery lovers—the entire chair is covered in a bold, semi-abstract floral pattern designed and embroidered by Ms. Williams.

Pam explained that students are in residence at the school during the course of their instruction. Board, lodging and instruction cost about \$300, but every cent is well spent, Pam asserts.

She attended a session on canvas work (needlepoint), crevel-on-canvas and bargello. "Although," said Pam, "I enjoy all kinds of stitchery. Whatever I'm working on at the time seems to be my favorite."

Pam's grandmother taught her needlecrafts; Pam then taught her mother. And she's still teaching, to anyone interested in learning.

At present, a round table and several chairs in the Needlebeetle serves as classroom, but Pam hopes soon to convert her office in the back of the shop to a good-sized classroom. Instruction is free; the only requirement is that students purchase their materials at the Needlebeetle.

On April 15, Pam is starting a new series of crochet lessons. Crevel and needlepoint classes are scheduled to begin shortly as well, and if there is enough demand, knitting lessons too. Pam tries to stagger the lessons—some in the morning, some afternoon, and if enough students want it, in the evening as well.

She also does finishing work—or if the dollars are short, teaches customers to do their own finishing—on items such as bell pulls, pillows, some garments and she frames embroideries and does blocking.

And now, says Pam, she'll be happy to help explain further any of the lessons appearing in Elsa Williams' weekly columns.

Pam Rathel works on an Elsa Williams needlework design in her Sanford store.

## Joy Of Stitching

By ELSA WILLIAMS

### HOW TO BEGIN

If you've been "turned on" by needle work and have never done any before the best way to start is to take a beginner's course. There are excellent courses being given all over the country by talented and experienced instructors. A number of high schools give evening courses in the needle arts. Many needlework shops also offer courses and can suggest arrangements for individual instruction.

But if joining a group isn't feasible you can teach yourself to do crevel or needlepoint with "a good beginner's kit." The old adage "if you can read, you can cook," also applies to the needle arts. If you can read, you can embroider.

A good beginner's kit—by crevel or canvas work—will include all the necessary materials along with carefully diagrammed instructions and a kit chart showing exactly how to form each type of stitch. Kits provide just the right amount of fabric or canvas and yarn as well as needles and, in some cases, finishing material such as cording, fringe, or terling, etc.

Start small. That is, start with something that won't take too long to finish so that you can enjoy your first creation. If

you're a flower fancier you might begin with small flower squares; later you may want to try your hand on a design very appropriate to our upcoming Bicentennial. It incorporates the flowers of the 13 original states and can be stitched on a pillow top or put into a frame and hung over a desk or bureau. If you can't find 13 flowers, it's because mountain laurel, dogwood and the violet were each shared by two states.

Dear Elsa,

I should I always use a hoop when doing crevel or M.R. Dear M.R.,

A hoop is only used for STAB (or punch and poke) stitches which require a lot of stitching down, such as Long and Short, French Knots and a number of filling stitches. All THROUGH (or sewing) stitches, such as Outline, Buttonhole Chain and many others, are best worked without a hoop.

I prefer hand-held hoops because they're convenient for most purposes, hold the work taut, are easy to adjust and it's very simple to change the embroidery work area. Wooden embroidery hoops which have the screw type non-slip adjustment are excellent. Needleworkers who have short fingers will find the small sizes easiest to handle. EW.

across from the hospital off Second Street.

On the basis of his long and meaningful relationship with the hospital, the Board of Trustees recently decided to name their pediatric ward after Dr. Stanley. Before this step was taken, the family had decided to establish a memorial fund, all contributions will be used to purchase equipment for the pediatric ward.

An item of prime consideration, according to Mrs. Stanley, is a television monitoring system which would allow a nurse to maintain physical when she can't be physically in the room with them. Donations addressed to the Gordon Stanley Memorial Fund and sent to the Sanford Atlantic Bank will be used exclusively for this purpose.

## Miami Student Is Family Leader

Maria Dolores Collazo, 17-year-old daughter of Mr. and Mrs. Augustin Collazo of Miami, is Florida's Betty Crocker Family Leader of Tomorrow for 1975. Her award is announced by General Mills, sponsor of the annual educational-scholarship program.

Maria won the title and \$1,500 scholarship by competing with 7,429 seniors in 242 Florida high schools on a written knowledge and attitude test administered nationally last December. She is also eligible to win a \$5,000 scholarship in the spring national competition.

State runner-up and winner of a \$500 scholarship is Lorraine Alice Pillus, 17-year-old daughter of Mr. and Mrs. Jerome Pillus of Cocoa.

As state winner, Maria has also won for her school, Southwest Miami Senior High School, a 20-week reference work, "The Annals of America," from Encyclopedia Britannica Educational Corporation.

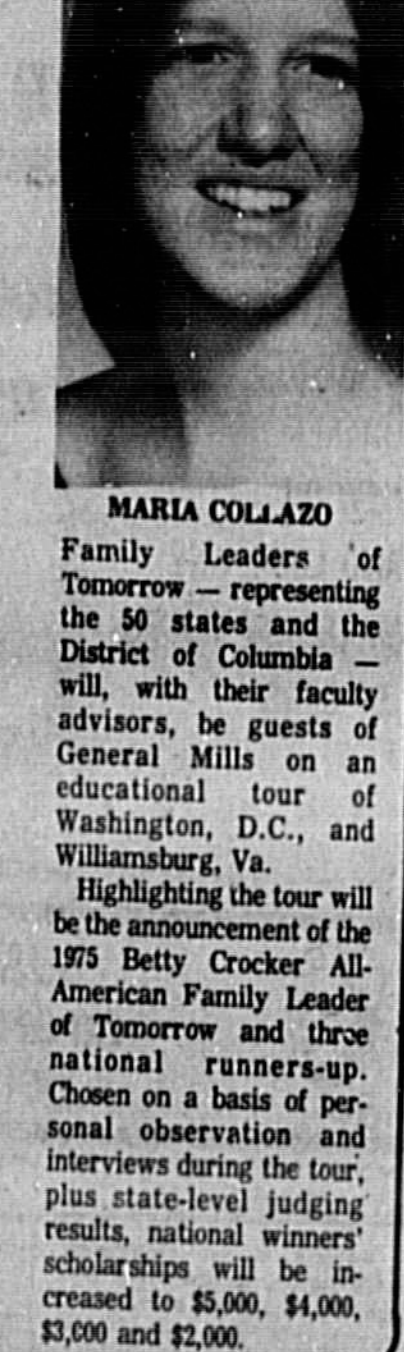

An honor student at Southwest Miami Senior High School, Maria's

scholarship excellence has earned her many awards, including membership in the National Honor Society; the presidency of Quill and Scroll and vice-presidency of the Spanish Honor Society. She also serves as editor-in-chief of the school newspaper.

Maria plans to attend the University of Miami in the fall. She is a member of the National Merit Scholarship Commended Scholar and is a Westinghouse Science Talent Search winner. She serves as vice-president of Mu Alpha Theta, and is active in Inter-Club Council and Model U.N. Lorraine plans to attend Brown University with a major in biological sciences.

State-level judging in the Betty Crocker Search for Leadership in Family Living, centered on performance in a written knowledge and attitude examination administered throughout the country on Dec. 2.

From April 20-25, the 51

MARIA COLLAZO Family Leader of Tomorrow—representing the 50 states and the District of Columbia—will, with their faculty advisors, be guests of General Mills on an educational tour of Washington, D.C., and Williamsburg, Va.

## Medical Auxiliary Plans To Honor Dr. Gordon Stanley At Dinner

Sunday was Doctor's Day, and Sanford area doctors were recognized by members of the local Woman's Auxiliary to the American Medical Association at a brief ceremony as they came on duty at Seminole Memorial Hospital.

Doctor's Day over, the Auxiliary is busily preparing for its annual dinner to be held this year at the Mayfair Country Club, April 11. At this event, a salute will be given to the late Dr. Gordon Stanley. The memorial will be delivered by Dr. Stanley's business partner and friend for many years, Dr. Vann Parker.

Mrs. Carolyn Stanley, her daughter, Patti, and son and daughter-in-law, Doug and Linda, will be guests of honor at the dinner. At the time of Dr. Stanley's death, his wife established a memorial fund in his name at Seminole Memorial

Hospital. She will announce at the dinner how money donated to the fund will be used.

Dr. Stanley, who died in October last year, was Seminole County's first established pediatrician and he left behind 20 years of continuous service to the community in which he grew up.

The doctor's three brothers, Phil Jr., Alvin and Harold, all still live in Sanford.

He entered the University of Florida intending to become a pharmacist, but after returning to the university following five years of duty aboard a destroyer escort in the Pacific, he decided to study medicine.

He graduated from University of Florida in 1946 and entered Duke Medical School in September, 1947.

Seven years later, Dr. Stanley opened in Sanford the first practice devoted ex-

clusively to pediatrics the county had ever known. He brought from the pediatric ward of Duke Hospital a nurse, Miss Nancy Crosby, who later married Dr. Stanley's brother, Harold. She is still actively involved in nursing as a supervisor at Seminole Memorial Hospital.

Dr. Stanley had married his hometown sweetheart, Carolyn Westertson, while still receiving his training.

When Seminole Memorial Hospital was established, Dr. Stanley served for several years as chief of pediatrics, chief of staff, president of the county medical society and held other key chairmanships.

Early in 1964, Dr. Stanley and Dr. Kenneth Pierce, with Doctors Robert Rosemond and William Rape, moved into the office building they now occupy

across from the hospital off Second Street.

On the basis of his long and meaningful relationship with the hospital, the Board of Trustees recently decided to name their pediatric ward after Dr. Stanley. Before this step was taken, the family had decided to establish a memorial fund, all contributions will be used to purchase equipment for the pediatric ward.

An item of prime consideration, according to Mrs. Stanley, is a television monitoring system which would allow a nurse to maintain physical when she can't be physically in the room with them. Donations addressed to the Gordon Stanley Memorial Fund and sent to the Sanford Atlantic Bank will be used exclusively for this purpose.

## Sanfordites Star In SJC Play

Two Sanford residents will be making their final appearances in starring roles in Seminole Junior College's Spring drama production, The Gingham Dog, April 10-14.

Sophomore drama major Beverly Speelman, 2100 Summerlin Ave., and J. Richards, 2451 Cedar Ave., a Mass Communications major, will appear in the lead roles in Langford Wilson's biting drama of a bi-racial marriage going on the rocks.

Before opening at SJC, play will premiere April 8 at Florida Technological University at 8 p.m., which is the first time the Seminole Players have ever "opened on the road." The FTU opening came about by invitation of the school's Black Student Union, said Roger Jarand, the play's director and SJC's instructor of drama.

Theater, Gingham Dog will begin at 7:30 p.m., each night at SJC in the old student center which has been completely renovated as a temporary theatre. On Sunday, April 14, there will also be a 2 p.m. matinee. For reservations, call the SJC main switchboard.

Appearing in supporting roles are Sophomore Dennis Fink, an Orlando drama major, and Freshman Cathy LaPointe, a Maitland drama major.

Ms. Speelman, who starred in last winter's "A Raisin in the Sun," plays Gloria, a Harlem-raised child psychologist, who is growing

more and more disillusioned with the success-oriented drives of her architect-husband, Vincent, played by Richards, who appeared in Spoon River Anthology last year. Vincent, in his turn is bewildered by his wife's growing black militancy.

Funk, who appeared in Vincent's People, Spoon River, and Lar, plays a hippy who lives downstairs to the couple's Greenwich Village apartment. It will be his last play at SJC.

Ms. LaPointe, who has been on tour throughout Illinois with a high-school touring company, will be making her junior college debut in the play as Vincent's sister, Barbara.

This will be one of the last shows the school will be putting on in the old student center, as construction of the new Fine Arts complex which will house a 250-350 seat theatre is slated to begin soon.

The cast has been rehearsing for five weeks.

## Mrs. Zacco On 'Tube'

Tonight's view of Casselberry city councilman John Zacco, Mrs. Bobby Zacco, makes her television debut on NBC's "To Tell The Truth" program, 7 p.m. on Channel 2. Mrs. Zacco, who hit the news headlines last year when she had her teeth wired together to help her maintain a diet, flew to New York recently to tape the show.

## Perfect Way To Ruin Marriage

DEAR ABBY: Paul (not his real name) and I have been married for 22 years, and I must say he has been an ideal husband and father. He is loving, sober, generous, and considerate.

About a year ago, Paul started going out every Wednesday night—"with the boys"—or so he says. He never mentions any of the "boys" by name, and I know of no one in our circle of friends who goes with them.

My problem is that Paul refuses to say where he goes—and with whom.

We can never make any plans for Wednesday night, because that is Paul's night out.

Abby, this isn't knowing where he goes is slowly driving me to distraction. My demands that he tell me, or to cease going, have gotten me nowhere.

I am seriously considering hiring a private detective to follow him, but wonder what harm it could do to our marriage if Paul is innocent of any wrong-doing, and learns that I've had him followed.

What is your advice?  
DOUBTING DODO

## Dear Abby

DEAR DOUBTING: Grow up. You don't have to know where your husband is every minute of his life. Isn't an adult man (or woman) entitled to some real personal freedom without being held accountable for his time 24 hours a day? And wouldn't the hiring of a private detective be the ultimate insult to that freedom, and an assault on self?

If you want to ruin your marriage, just continue to demand that your otherwise perfect husband give you an hourly accounting of his time. Or have him followed.

DEAR ABBY: My father is 59, and a retired coal miner on disability.

He bought U.S. Savings Bonds years ago through the payroll office, and kept them at

## Convenience Is Key Word To Consumers

"Convenience" is a key word in consumer buying today and chicken producers and processors are right in step with this trend.

Chicken is packaged in dozens of different ways. You can buy it whole, halved, quartered or cut up into serving parts. Or you can select from trays of special parts such as breasts (whole or halved, boned or with bones), thighs, drumsticks, wings, livers, giblets, even backs and necks. There are also packages of "drumettes," the miniature drumsticks which are the meatier part of wings and a great party food.

Although the cost per pound is usually less for the whole bird, you might actually save by paying just the parts you want, when doing crevel or M.R. Dear M.R.,

A hoop is only used for STAB (or punch and poke) stitches which require a lot of stitching down, such as Long and Short, French Knots and a number of filling stitches. All THROUGH (or sewing) stitches, such as Outline, Buttonhole Chain and many others, are best worked without a hoop.

I prefer hand-held hoops because they're convenient for most purposes, hold the work taut, are easy to adjust and it's very simple to change the embroidery work area. Wooden embroidery hoops which have the screw type non-slip adjustment are excellent. Needleworkers who have short fingers will find the small sizes easiest to handle. EW.

COMPARATIVE COSTS OF CHICKEN PARTS

Chicken parts are an equally good buy by the price per pound is

Part	Breast	Drumstick	Thigh	Wing
3lb	53c	42c	40c	43c
4lb	59c	46c	44c	48c
4lb	60c	50c	48c	52c
5lb	70c	55c	53c	57c
5lb	75c	59c	57c	61c
6lb	83c	66c	63c	68c

USDA 1974 Yearbook of Agriculture "Shopper's Guide."

To figure the cost per serving (3 1/2 ounces or 100 grams each) of chicken, use the following table prepared by the National Broiler Council:

Chicken Part	Serving Per Pound	If the Cost Per Pound Is	The Cost Per Serving Is
Breast	4	60c	15c
Leg	3	49c	16c
Whole	11-3	40c	30c

COOK-OFFS Shopping Centers are the big new feature of many of this year's state cook-offs where finalists are selected for the National Chicken Cooking Contest to be July 9 in San Antonio, Texas.

Thirty states (11 more than last year) are having state chicken cooking competitions including a big four-day New England cook-off at a Boston shopping center with contestants from Maine, New Hampshire, Vermont, Connecticut, Rhode Island and Massachusetts participating.

## Smoked Sausages Offer Battered Budget Help

Sure as rainy days, April brings income tax time. Brighten spirits, and help the battered budget at the same time, by serving an economical dinner of thuringer-fruits and kabobs. Cut six smoked, fully cooked thuringer sausages in thirds crosswise. On six

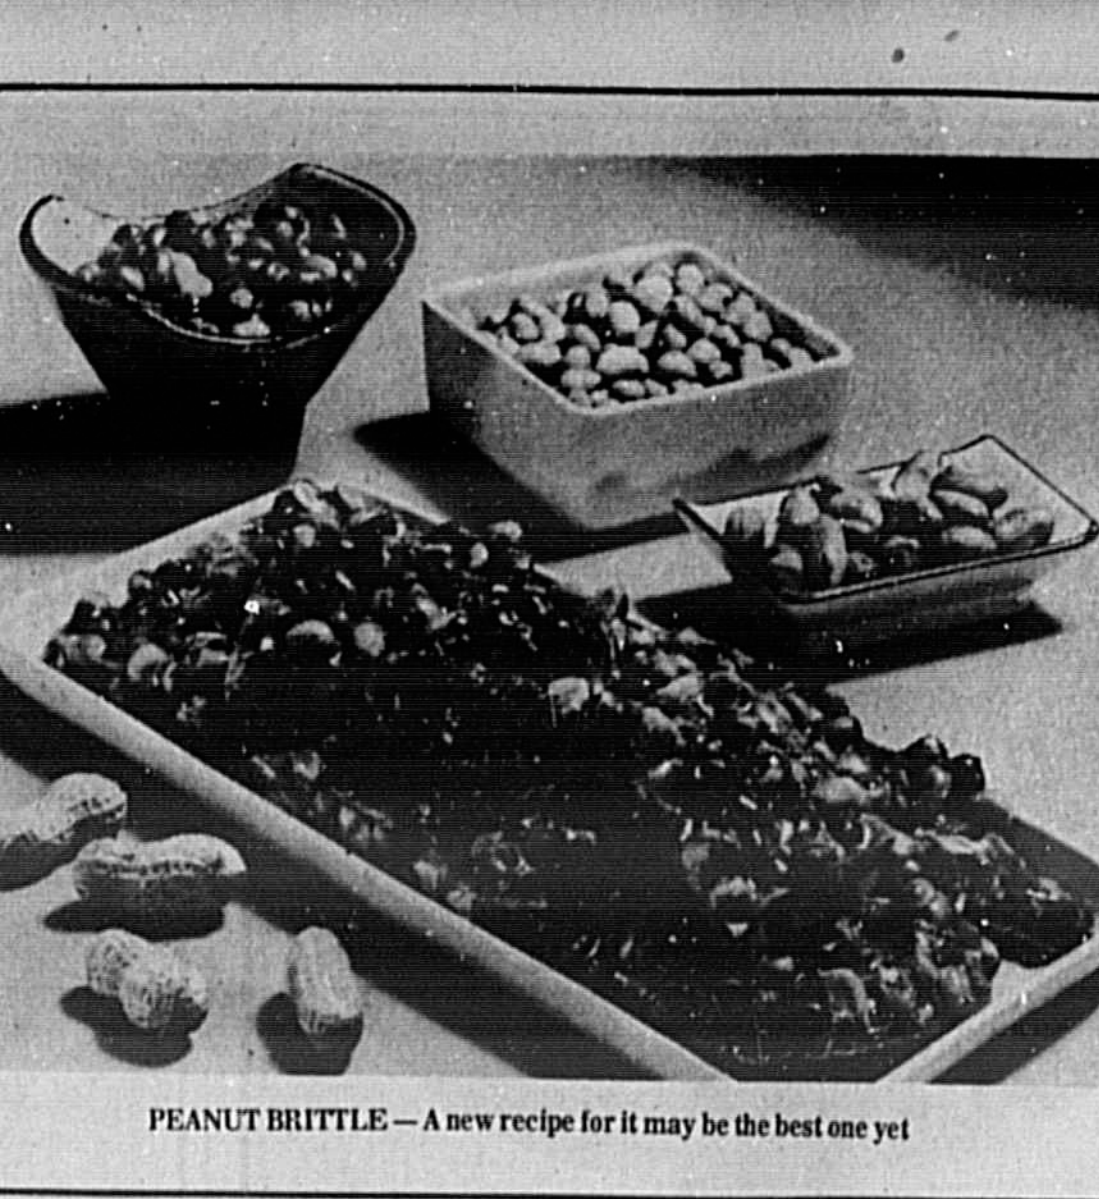

skewers, alternate thuringer chunks with pieces of fresh fruit, such as bananas and oranges. Brush kabobs with a glaze made of 2 tablespoons each, orange juice and honey, and 1/2 teaspoon dry mustard. Broil kabobs 5 minutes, turn and brush with glaze again, then broil 5 minutes longer.

Remember good nutrition every day, not just when a burst of enthusiasm strikes. A sandwich made from two slices of braunschweiger on two slices of whole wheat bread provides about one-sixth of the day's need for iron for women, and teenage boys and girls according to the U.S.D.A.

For super pancakes, home economists for United Carbide's Food Science Institute recommend adding slices of skinless frank to the batter after it's poured onto the griddle. Arrange them into features for a "face," or into any pattern that strikes your fancy. "Tastes good, and boosts the protein of the pancakes. They'll go the hot cakes!"

Everything you always wanted to know about sausage is offered in a little booklet called "Sausage Sampler." You may have your copy by sending 25 cents in coin and your name and address to: 6735 West 68th Street, Chicago, Illinois 60638.

Enjoy one last bowl of chili before shifting into gear for summer cooking. Heat a 1 1/2-cup can of chili con carne and stir in a pound of skinless frank in chunks. When heated, turn, add a cup of grated cheddar cheese and cook just until the cheese melts. If you like, serve in hot, crusty buns and call'em sloppy franks.

PEANUT BRITTLE—A new recipe for it may be the best one yet

## Peanut Brittle Is First-Rate

By CECILY BROWNSTONE Associated Press Food Editor

DEAR CECILY: My children love peanut brittle and sometimes I buy a box to serve as an after-school treat or as dessert for supper. If I had a good recipe I'd try making it myself.

DEAR HOME COOK: For years I used a recipe for what I considered the "best" peanut brittle, borrowed from a group of mothers of Boy Scouts in College Station, Tex., who made and sold it to aid their sons' Scout troop. Then a neighbor tasted some at my house and said the preferred her own. When I tried her recipe I agreed that it really is worth putting in the "best" category.—C.B.

NEW YORK PEANUT BRITTLE

2 cups sugar  
1 cup water  
1/4 cup light corn syrup  
4 cups shelled raw Spanish or Virginia peanuts, with brown skins on  
2 tablespoons butter or margarine  
1 teaspoon baking soda

In a heavy 3-quart saucepan stir together the sugar, water and corn syrup. Over medium heat, stirring constantly, bring to a boil. Add peanuts gradually so mixture continues to boil. Continue cooking, stirring often, to 300 degrees on a candy thermometer or until a teaspoon of the mixture dropped into a cup of very cold water separates into hard and brittle threads. Remove from heat; quickly stir in baking soda. Pour onto 2 ungreased cookie sheets; spread with a spatula. When cold, break into pieces. Makes about 2 1/2 pounds.

# Cake Decorating Can Be Fun And Convenient

By CECILY BROWNSTONE  
Associated Press Food Editor  
SEAFOOD SUPPER  
Clam Chowder  
Pan-Fried Fish  
French Fries O' Slaw  
Nesselrode Pie  
PAN-FRIED FISH  
Popular way to treat fillets.  
1 1/2 cups fine dry bread crumbs  
1 teaspoon salt  
1/4 teaspoon pepper  
2 eggs, slightly beaten  
1 cup corn oil

Today fashion is flourishing in the kitchen, and one popular culinary art is cake decorating. For special occasions many homemakers wish to serve attractive, appetizing desserts which are easy to prepare. Aware of these needs, the Kraft Kitchens created a very special Spring Flower Cake which suits the lifestyles of modern homemakers.

tender angel food cake from your bakery or grocery. To economize, buy it on special and freeze until you're ready to frost with smooth and fluffy Angel Mallow Frosting, tinted according to your preference. This frosting is easy to make using marshmallow creme, and is excellent to work with. The sprightly daisies cut from jets and miniature marshmallows are inexpensive and fun to make. Dipped in a

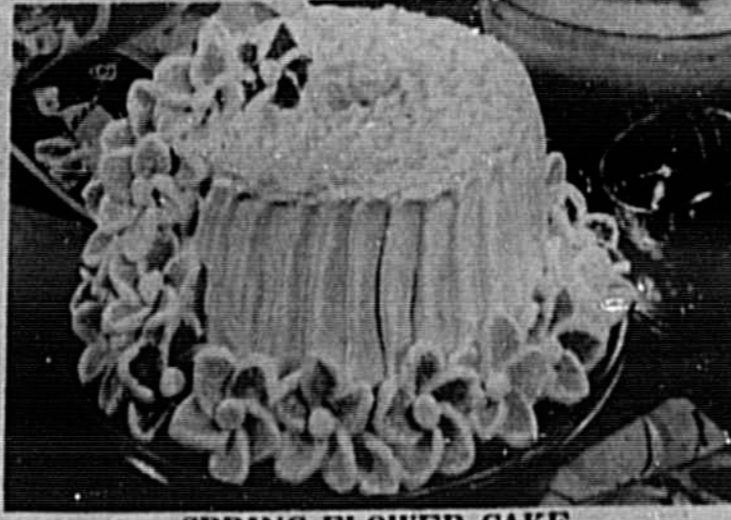

colored sugar of your choice, they add the custom touch to this dessert.

Spring Flower Cake is sweet and satisfying, yet light enough to complement warm weather meals. It's pretty party fare too. Serve it for a tea or shower with Golden Punch, a fruit juice-ginger ale mixture accented with a frozen fruit salad ring.

Convenience cake decorating can be a never-ending hobby, because there is a constant flow of birthdays, anniversaries, graduations and other occasions which call for a special celebration — and a special cake.

was designed to welcome fair weather, the idea needn't pass on to your files for next year when this season ends. Angel Mallow Frosting is a recipe as versatile as it is delicious. It adapts well to a variety of cakes.

celebration — and a special cake.

2 tablespoons honey  
Clove garlic, minced  
1 tablespoon minced fresh ginger

CHEESY CORN BREAD

## Breads Gain In Popularity

Since corn meal first appeared at Jamestown, Virginia, in 1607, maize-based quick breads have continued to gain popularity. In this recipe, corn meal's appeal is augmented by a savory combination of Cheddar cheese, tangy mustard, crunchy green pepper and crisp bacon. Cheesy Corn Bread is an easy-to-prepare accompaniment for any meal — delightful with fish, chicken or ham. America's early colonists would have been envious of the modern convenience of enriched self-rising corn meal and flour. The preblending of

baking powder and salt eliminates time-consuming preparation. Enriched self-rising corn meal and flour also provide three essential B vitamins — niacin, thiamine and riboflavin — plus the minerals, iron and calcium, all vitally important in maintaining daily good health.

New vegetable for your table is an old friend, celery, served cooked and hot instead of cold and crisp.

**Vegetable Dishes Made With Celery**

In the Navy they call celery "noise" and it's easy to see why. When you're crunching on a crisp piece of celery, it's hard to hear anything addressed to you. It's funny that we usually eat celery raw when you consider what a delicious vegetable dish cooked celery is. Try braised Celery or Celery Sauté to convince yourself that this is true, and add a new vegetable dish to your menu.

Fresh fruits and vegetables are very important in maintaining good nutrition. Fruits and vegetables, as the United Fresh Fruit and Vegetable Association reminds us, contribute 84 per cent of the vitamin C in our diet. And they also add substantial quantities of vitamin A, B-6, and many other important vitamins and minerals. It's essential for a healthful diet to include fruits and vegetables in the menu everyday.

Do you know how to select first quality celery? Look for leaf stems or stalks that are green and brittle enough to snap easily, and are of medium length and thickness. The inside of the stem should be smooth. If it feels rough or puffy to your finger, the celery is likely to be pithy. A good heart formation usually indicates stalks for this feature will reveal freshness. Leaflets should be fresh or only slightly wilted. Stalks of light green, glossy surface will taste best.

Celery is in good supply at your market now. Enjoy it hot as a vegetable in these interesting ways.

**CELERY SAUTE'**

3 tablespoons butter or margarine  
 2 cups diagonally sliced celery  
 2 tablespoons chopped celery leaves  
 1-3 cup coarsely chopped pecans  
 1 teaspoon salt  
 1/4 teaspoon pepper

Melt butter in a skillet and add celery, celery leaves, pecans, salt, and pepper. Cook, stirring constantly, 4 or 5 minutes, until celery is crisp-tender. Makes: 4 servings.

**BRAISED CELERY**

6 cups celery cut in 1/2-inch pieces  
 2 tablespoons butter or margarine

Melt butter in a skillet and add celery, celery leaves, pecans, salt, and pepper. Cook, stirring constantly, 4 or 5 minutes, until celery is crisp-tender. Makes: 4 servings.

**Main Dishes From Way Out West Feature Idaho's Instant Mashed**

Way out west, there's a state where the mountains reach for the sky, the salmon are lively in the rivers, and the potatoes come from the fields with a netted pattern on their russet skins. That probably gave you the clue to the name of the state because everyone knows that the famous Russet Burbank potatoes grow best in Idaho.

You can even get the taste combination of the mountain people's salmon and potatoes together in a batch of Salmon River-Potato Cakes, a main dish made with canned salmon and instant mashed potatoes that say Idaho on the label. This is a hearty old-fashioned treat that the whole family will enjoy, and it is definitely on the side of the budget, not against it.

We take instant mashed potatoes for granted today but their origin is relatively recent. It was back during World War II that the government asked Idaho potato people to develop a form of potatoes that was less bulky to transport yet would travel well and taste good. Well, they filled the first two requirements quite readily but it took many years of patient research and effort to produce the delicious-tasting instant mashed potato granules now available from the state where so much of the original testing and development began.

Another main dish that goes well with the season is savory Fort Boise Tuna-Potato Cakes. With their staple ingredients on hand, you can make a fine main course for your meal even if the weather prevents you from going to the store. These fine potato main dishes are nourishing, filling and a whole lot for the money.

**SALMON RIVER POTATO CAKES**

Idaho instant mashed potatoes for 4 to 5 servings  
 1 can (1 pound) salmon, drained  
 2 eggs  
 2 tablespoons grated onion  
 1/2 cup chopped celery  
 1/4 teaspoon salt  
 1/4 teaspoon pepper  
 2 tablespoons butter or margarine

Prepare instant mashed potatoes according to package directions, reducing water by 1/2 cup and omitting butter. In a large bowl combine potatoes, salmon, eggs, onion, celery, salt and pepper. Mix well. Shape mixture into 12 patties. Melt butter in large skillet. Add 4 salmon patties and cook until well browned on each side, turning once. Keep warm in 250 degree F. oven. Brown remaining patties, adding additional butter, if necessary.  
 YIELD: 6 servings.

## Seminole Action '76 To Have 'Florida On My Mind' Showing

By BILL BELLEVILLE  
Herald Staff Writer

The state's new 14-minute color film "Florida on My Mind" — created especially for the upcoming Bicentennial — will be shown at a local meeting of Seminole's Action '76 committee, April 7.

The 7:30 p.m. meeting will be held at Bicentennial headquarters in the Greater Sanford Chamber Building and is open to Action '76 members and all those who want to become involved in the celebration and projects.

The newly-produced film depicts a birthday party theme, featuring "gifts" Floridians have

planned for America's 200th anniversary. Local projects are included along with those sponsored statewide by the Commission, such as a traveling exhibit, the Bicentennial Trail and Florida's Action '76 program.

In addition to the free showing at the Seminole headquarters, the film will also be distributed to commercial movie theatres, television stations and schools throughout the state, and the nation to reach the greatest audience possible.

Action '76 chairman Jack Horner has also asked State Executive Bicentennial Director Don Pride to speak at the upcoming meeting. "Either Pride or a

close assistant will be there," Horner said.

Horner said that over 50 project applications were picked up at the last meeting and he expects many of those applications to be turned in this month alerting the county to more unique Action '76 activities.

Proposed projects, as well as completed projects

including the successful Pioneer Days recently held in Ft. Mellon Park — will be discussed along with the upcoming April 26 Bicentennial Jamboree. The Jamboree, planned for the Sanford Civic Center, is described by Horner as a "real red, white, and blue, patriotic thing."

The Norwood Singers from Jacksonville, nationally recognized singers of patriotic songs, will be there along with the Seminole High School Band. The District Lions Club will sponsor the Jamboree in conjunction with Action '76, Horner said.

Speaking of the upcoming meeting at Action '76

headquarters, Horner said the gathering will be a real "fun thing." "We're still looking for volunteers to man the Bicentennial office here. They don't have to have any special skills, just an interest in the Bicentennial."

Horner also says they welcome any additional active participation in the Action '76 committee in proposing projects, or other forms of participation. Horner said he particularly welcomes the involvement of senior citizens groups, as they "are among the most patriotic groups in this country. They're seen what the country has gone through," Horner declares.

## Approval Expected Tuesday

# School Recount Goes To Cabinet

An aide to State Senator John Vogt, D-Cocoa Beach, said today an appeal for a recount at Rosewald Elementary school will be made to the Florida Cabinet next Tuesday.

Lay's first request, causing county officials to feel sure the \$67,000 was gone forever.

But, Vogt promised to file a general bill in an effort to change the law and regain the funds. Then Turlington had second thoughts about his initial decision and decided to ask the cabinet for a change in state regulations.

And, officials say indications are the cabinet — sitting as the State Board of Education — will grant Supt. Bud Laver's request for a recount at Rosewald, a recount that will return \$67,000 in education funds to Seminole County.

The change would allow a recount at any individual school if a variance of 25 per cent can be shown. The five per cent district wide discrepancy regulation will remain the same.

SEN. JOHN VOGT

Lay's initial request was rejected because a Rosewald recount wouldn't have met the five per cent district wide ruling.

Now, Asst. School Supt. Roger Harris says the 25 per cent variance at any one school will fit the bill for Seminole and allow the county to regroup its funds.

The new regulations were drawn up in Woodrow Darden's office. Darden is the chief of secondary and elementary school education in the entire state.

Indications are, a Vogt aide

said, the amended regulation — if all goes well — will go into effect about May 20.

"It looks like it won't be any problem," the aide said.

The issue arose after a black boycott at Rosewald kept some 211 black students out of classes during the time the state makes its fall time equivalent (FTE) count for funding purposes.

Darden has instructed Seminole school officials to make a recount. But Harris already had that done — and that FTE recount was sent to Tallahassee on Monday.

The recount Harris ordered was in anticipation of a bill filed by Vogt, who is head of the county's legislative delegation.

Other delegation members had indicated support for Vogt's proposal, which became unnecessary, due to Turlington's decision to seek a change through the cabinet.

## Chamber Industrial Group Supports 'Action Orlando'

By MICK LOCHRIDGE  
Herald Staff Writer

The Industrial '25' Committee of the Greater Sanford Chamber of Commerce this morning formally endorsed the 'Action Orlando' program as a \$1,000 donation to the promotional campaign was approved.

The donation, secured from individual pledges of \$100, will signify the '25' Committee as a contributing member of the 'Action Orlando' program.

The public relations campaign is aimed towards attracting industry and families to the tri-county area of Seminole, Orange and Osceola.

Clifford McKibbin, chairman of the finance subcommittee, said the individual donations from Sanford businessmen would be collected this week.

In other action a computer analysis committee made a report on the top priority listings for industries compatible for locating a plant in Seminole County.

The lists, provided by the Department of Commerce, were screened and a primary and secondary list of 20 industry groupings was cited as

the most attractive industries to be sought for locating in the county.

Also, an International or special list with four industry groupings was included in the report.

John Krider, chairman of the '25' Committee, instructed Jim Ryan, chairman of the subcommittee, to break down the industry categories and produce at next week's meeting the names of the top five companies on the primary list located in Florida.

Meanwhile, Tom Hunt, chairman of a second subcommittee, will seek suggestions from area advertising agencies on ways of directing the committee's intentions of attracting industry.

When Ryan reports to the full committee with the names of the industries, the individual companies will be selected as targets for the ads.

The top 10 industries listed include radio and television transmitting; signaling and detection equipment; manifold business forms; motorcycles, bicycles and parts; orthopedic, prosthetic and surgical appliances and supplies; air conditioning and warm air

heating equipment and commercial and industrial refrigeration equipment.

Also on the primary list are engineering, laboratory, scientific and research instruments and associated equipment; perfumes, cosmetics and other toilet preparations; valves and pipe fittings; telephone and telegraph apparatus and lawn garden equipment.

Criteria for selecting the industry groupings included number of employees, gross dollar volume, tourism, customers requirements,

related industry and the size of skilled labor.

## Policeman 'Suspended', Then Reinstated

# Cop 'Nap' Stirs Casselberry Hassle

By ED PRICKETT  
Herald Staff Writer

A Casselberry police sergeant was placed on "indefinite compulsory leave"

after a lieutenant found him asleep in the city's newest police cruiser on March 20, The Herald has learned.

The officer, Robert Adams, said today he felt the city's punishment "was somewhat severe" and so the 34-year-old veteran of four years on the Casselberry force took his case to an attorney.

That punishment, he said, was a "bust" to a lower rank. "I was given the impression that would be the outcome, and I didn't feel that little a violation warranted such an action. I didn't agree with the lieutenant's side, either," Adams said.

Both City Manager Harry Hug and Chief George Karcher said Adams was found asleep in the cruiser driver's seat in back of the police station about 6 a.m. Adams, Karcher said, was in charge of the late shift which begins at midnight and ends at 8 a.m.

Adams was found by Lt.

Lewis Collier, who, Hug said, went "up to the police car and rapped on the window to wake him."

Today, Adams said he couldn't have been asleep "more than a minute or two" and that he was sitting in the car "and just dozed off."

But Adams said Collier's report "indicated" he had been asleep for a longer period of time.

At first Karcher placed Adams on "indefinite compulsory leave," but later reversed that decision and decided to allow Adams to return to work on Friday — with his sergeant's stripes intact.

Adams said his attorney, Dale Anstine, has met with City Atty. Ken McIntosh and the entire matter has been resolved, but no final decision has been officially announced as to the extent of Adams' punishment. However, Karcher said today the sergeant won't

be busted to a lower grade.

Karcher also said Adams will be paid for the period he was off work. Because of "unusual circumstances," Karcher said he is not being charged against him.

The "unusual circumstances" involve a clash between the Police Bill of Rights and the city's civil service ordinances.

Karcher said under the bill of rights, Adams, if a decision had been made to reduce his rank, would have been entitled to a hearing before a three-man panel, which would have made a recommendation to the chief.

But under civil service, the board hands down a ruling, which, Karcher says, "is a law."

At any rate, Adams said his attorney would take the matter to court if a "bust" was involved. City officials backed off and Karcher said today he will officially inform Adams of the final decision.

That decision, which already has been reached, was made by Karcher, Adams' attorney, McIntosh and the city administration.

Adams says the entire fiasco would have been avoided if the 1975 model police cruiser hadn't run low on gas.

"That's what he was doing back at the station around 6 a.m. when he dozed off — getting unleaded gasoline for the cruiser in order to comply with federal pollution requirements for new autos, according to Adams.

Wholesale Prices Dip Once More

WASHINGTON (AP) — Wholesale prices declined in March for the fourth consecutive month, dropping six-tenths of a percent as agricultural prices fell sharply while industrial goods rose only slightly, the government reported today.

The report from the Labor Department provided further indication of an easing in the nation's inflationary rate. Although the declines at wholesale have not been fully reflected at the retail level, administration economists predict consumers can expect further relief in the coming months.

The six-tenths of a per cent decline in wholesale prices last month followed a drop of eight-tenths in February.
