Owing to many complaints received receutly, secret service officials believe that a well organized gang of crooks, operating all over the coun-ry, is engaged in passing notes of defunct State banks upon the careless and the ignorant. Evidently a vast quantity of these notes have been secured by the sharpers. They are just as good in workmanship as the real government money and some of the notes bear a close resemblance to Uncle Sam's currency. The notes most often passed by the sharpers are those of the State Bank of New Brunswick, N. J., which has been out of existence for forty years, and the defunct State Bank of Savannah,

History of Crops A trip to the vegetable districts in and around Sanford at this time is a most ineresting study of crop conditions and gives a good insight inter this the start with the coming season. The celery growers are busy with their seed beds and the recent rains have not prevented the planting to any great extent as many of the beds are sprouting in good form and several growers have plants about ready to transplant. Celery conditions were never better and this great ceop should do more for the growers this season than ever bcfore.

'Cauliflower and lettuce plants are looking fine and promise a good crop.

One of the important items connected with the growing of vegetables around Sanford is the hay crop that can be harbusy stacking or baling hay. The quality and quantity of the hay crop this year in is purely a volunteer one, and costs notha ling to grow, the farmers can have enough similar, engagement at Ballast Point, for their own use and still some to sell at harvested is of the finest quality, and the prospective settlers in Sanford this week' were greatly surprised at this Florida crop of which they had never heard until they visited the farms in this section. Talked About Sanford

W. J. Hill, while not a young man, in years, is still youthful in action and during his recent trip to New York and the New England states busied himself with distributing literature and descriptive matter pertaining to Sanford's possibilities, and never lost an opportunity to boost the city. Mr. Hill has resided in Sanford since the early days of civilization and takes a pride in the growth and development of the city.

J. N. Whitner Returns

J. N. Whitner returned this week from rip to points in the North. Mr. Whitner never leaves Sanford without boosting the city and his last trip was no exception. While at Threntum, near Pittsburg, Mr. Whitner addressed the people upon Sanford and the great opportunities of vegetable growing in the sub-irrigated district. His remarks made a profound impression upon his hearers, and several investors will drrive in this city shortly as a result of Mr. Whitner's trip.

GOOD MORNING_"Is Everbody Happy?"

Depends on Legs

The Tampa Tribune, always a forerunner of approaching events in the Cigar City, thus announces a new fashion for the male sex:

Sheath pants are next. We have the authority of the leading authorities on tailoring that there is a logical sequence of the sheath gown, just as the little green hats now shown in New York show windows and designated "merry bachelor" have followed the "merry widow" and its expansive reign.

The sheath trousers are to be like other trousers from the knee up, but, below that convehient point of dis-tinction, they are to be "slit" and laced the rest of the distance down-

character of the lacing and also in the hosiery and undergarment that will be

exposed by the "slit." The well-rounded calf will doubtless obtrude in gaudy covering, while that of less handsome proportions will be

more modest in display, The sheath trousers, however, we are forced to assert, will be popular only with male beings who "run to legs" and who can afford to expose their underpining to the curious gaze

and st

of the populace. Willie Thin-Shanks will studiously avoid the new fashion, while Johnny Fat-Limb will adopt it with avidity. The same consideration that prevents the general use of the sheath trousers is of only partial popularityand they will be worn, like the femi-nine article only for exhibition.

The Man Wbo Pays

To the Editor of The HERALD If there is any particular individual in this world who should have an extra star is his crown when he shuffles off this mortal coll and takes his seat with the saints above, we believe it is the man who, while tailing here below, paid his debts as they came due, or at least made in honest effort to do so. Really, we believe that debt-paying is going to be one of the requisites necessary to pass St. Peter, and that many a "good citizen" whose record is full of flagrant lapses. In this respect will have serious trouble in getting in at the golden gate.

Too many people go through life on the plan of letting the man they owe do the warrying. Too many of us are prone to become careless when our own sordid nims are in the balance, and we need a wholesome revival of the sacredness of our obmakeup of the man who does not worry about his debts.

Lake City Citizen-Reporter.

The Sanford Herald is a new launch on the sea of journalism. It is in all respects highly creditable. It says: For nearly a score of years there has been a crying demand for a live newspaper in Sanford that would worthily represent the liberal and enterprising citizens of this commonwealth. It is to supply that public demand that The Bernid has been established. R. J. Holly is managing editor and the holly is known as a most beautiful "evergreen."

Ft. Myers Press. The Sanford Herald, a bright and sparkling 12-page, 5-column paper, has reached our exchange table, and we are pleased for two reasons to get it. The first is, it places us in closer touch with an old and valued friend, Bob Holly, who - brainy writer and a hustling newspaper man, who is managing editor. Second, it is naturally a good paper anyhow. We wish the new paper success and congratulate the "Colery City" on securing same.

Orphanage Day The first Saturday in October will soon be here. This day used by the generous people throughout the state has been a great help to the orphanage. Why call attention to this one day in the year? Because we ask that everyone in Florida give the earnings of that one day to the orphanage. We ask nothing for ourselves. What we ask is for the children, that they may be cared for, clothed, fed, educated, trained in a life of industry and economy and reared for a life of usefulness and God's glory.

The orphanages throughout the South have their annual Orphanage or Work Day. It is called My Work Day, because it is desired that everybody engage in work on that day and send to the orphanage what is earned. With many this is a very happy day, because they are working to help the orphans. This is our fifth annual orphanage day. Our first brought us \$80.

MORE HOME AFFAIRS.

If some of the weekly, papers in this State would devote more attention and space to home improvements and local affairs generally and less to political matters, they would perhaps be more appreclated and their town made more attractive and prosperous. The average reader can be served with a surfeit of political pot-pouri through the columns of the metropolitan press, but he cannot find the everyday incidents transpiring around his home chronicled in them. One paper declares that all favoring "trusts" are Republicans, and another asserts that all anti-trust advocates are Populists or Socialists, and thus it goes from week to week, without either ever being convinced that he's wrong.

Work for the upbuilding of your immediate section. Tell about the crops that are being, or could be, raised on the soll around you; the fat cattle, fine horses and other prize stock that are being grown on Florida-made corn, fodder and hay. Tell about the fine timber which grows to majestic proportions in your locality, which can be converted into lumber and furniture. Give something of local interest to all and less on politics and war.

Here in Sanford we have Republicans and Democrats, and all that could be said within a year would hardly change the political sentiments of a single adherent of either party, so it is nonsense to give so much space and attention to political matters, platforms and dogmns when no converts are made.

The rapid strides that Sanford is making toward a large city is the subject of much comment by the papers of the State. Note the following from the Palatka Times-Herald:

MAY BE A DAILY Since the last issue of this paper one from a Populist abusing Wm. J. Bryan hundred and thirty-six new subscribers have been added to the already large list of regular readers of THE HERALD. We find on every hand a demand for a

dally issue of this paper, and while we have turned a deaf cargo this demand, it seems that we cannot further ignore the wishes of the people, hence it is altogether probable that ere long a dally edition of THE HERALD will be issued.

The management of THE HERALD anticipating this demand, fully equipped the printing plant of the paper with fast machinery, type, etc., so that in an emergency of that kind it could put a daily paper on the streets within, a very few hours after a substantial demand for such was made.

The great and unprecedented growth of Sanford in business and population, makes the demand almost Irresistible and we take this occasion to say that, when this emergency occurs THE HERALD is amply able to meet it and will give to the people of the Celery City and Orange county a daily paper of which all will be proud.

It requires some work and the investment of no little capital to get out a live daily paper, but the people of Sanford and Orange county may be assured that when THE SANFORD DAILY HERALD Is published it will be all that they can desire.

A DRAINAGE SYSTEM

The recent heavy rains have demonstrated the fact that it is necessary to have a comprehensive system of thraininger for the Sanford trucking district. It is generally difficult to maintain highways and drains by mere local agreement between neighbors. Realizing the difficulty of effecting a

THE SANFORD HERALD

and Bro. Bittinger in denying admission f the same to the colomns of the Star. BVA:

If there has been a man true to his convictions it has been William Jennings Bryan. Mr. Bryan has a larger -place in the hearts of the American people than any man who ever be-came a powerful leader in this many other country, and this trust in him. has been growing wonderfully in the past few years. All sorts of opinions may be concocted, uttered and promoted, but it in no wise effects the belief of the rank and file of his party organizations. They know Mr. Bryan to be an able man and an honest man, and their faith is not only unshaken in him, but growing.

All of which is very true and, after this entle reproof the Populatio ariter should etire to a rear seat,

Have you noticed that THE HERALD does tot jet the least lean toward yellow jourmism-that it makes no specialty of parading "criminal news?" The courts of our land take care of such features. Why advertise to the world the iniquities and bliques of a community? All is good.

A community with good roads is at the op; with soft roads it is at the bottom.

In this issue of THE HERALD is on article on "Curbstone Brokers" in real estate and the writer, who is one of the sufferers from this class of insects, can hardly be blamed for voicing his sentiments upon this matter. Too many lines of legitimate business are jeopardized by "stragglers in light 'murching order" who have little at stake, pay no license tax and following up the real army of workers and advertisers reap the reward that rightfully belongs to the one who is in the business, pays taxes and store or office rent and pays fifty times as much as the rank outsider who "butts in" on shles and makes himself obnoxious generally.

CHARGED WITH MURDER

Sanford Negro Arrested for Crime **Committed Last June**

William Blue, a negro who came here last June from Jacksonville, was arrested p Orlando Thursday by Marshal Lee on a charge of murder.

Blue has been under the eye of suspicion by the local police ever since he came here, and last week he interested himself in reporting "blind tigers" to the outhorities and was summoned as a witness in Judge Begg's Court.

He packed up all his belongings preparatory to leaving the city for good, but in his haste dropped a letter which fell into the hands of the Sanford officers. The contents of this letter, which bore the postmark of Jacksonville, gave ground for further suspicion, and Marshal Lee telegraphed Sheriff Bowden of Duval county a escription of the man; who replied that such a man was wanted for a murder committed in Jacksonville last June. Blue was arrested and brought back to Sanford and lodged in Jail. Yesterday a colored woman named Williams came in oh the boat from Jacksonville and immediately recognized Blue as the man who killed her husband. Before she saw Blue she had given an accurate description of him, who she says went by the name of Williams

In Jacksonville. Sheriff Bowden will send a deputy for Williams, alias Blue, and he will be taken to Duval county jail today. Marshal Lee and his deputy, Green Smith, deserve much credit for their keen work in bringing the criminal to justice.

SIDEWALK TALK

Do you realize the necessity for a substantial foundation as a part of that sidewalk which you intend building? A nicely finished top lends beauty, but not stability. This is to be attained only when the same care is exercised in selection of materials for the foundation as for the top coat.

With this fact in mind, Land importing clean hard crushed stone, which when mixed with standard engineering specifications, gives an absolutely dependable foundation. If you want a walk in which you can take pride in the years to come, be sure that that foundation is right. This is one of the characteristics of my work. Let me figure on such a walk for you.

COMING AMUSEMENTS

An Artist of Rare Ability to be Heard Here September 21st

At the Opera House next Monday night, September 21st, the people of this city and vicinity will listen to one of the greatest. musical treats ever offered. The violin is conceded to be the sweetest, most charming of all instruments of musie-who has not heard the name Stradivarius, the maker of the sweetest toned, most perfect violin in the world, Kubelik paid ten thousand for one.

At the concert Monday night Vilona will play on her marvelously sweet-toned Stradivarius to the people of Sanford as she only can play-an artist of the first rank, whom Mr. Augustin Daly heard on her arrival in this country from Europe and hastened to secure for an engagement to play before a company at his palatial home-and later for a season in his New York theatre. She is one of the most gifted artists in the world of music, a graduate of the Conservatory of Music in Berlin. She made several successful tours in Europe and America and will this winter tour in the South, delighting admirers with her classical popular music. Mrs. O. P. Likins, of Orlando, the talented singer, so well known by Sanford people, will kindly assist upon this occaoccasion in the rendition of some of her charming songs, which always delight her hearers.

The Jacksonville Carnival

Jacksonville is to have a carnival celebration lasting for an entire week, from October 26 to 31 inclusive.

This will be good news to our readers, for the thousands of people who attended the Jacksonville carnivals in past years have pleasant recollections of the splendid attractions presented by the Jacksonville Carnival Association. The same gentle men are in charge of the carnival this year, and they promise to give the very best carnival ever seen in the South. Very low railroad rates for the round trip, from all points in Florida, are assured, and that the city of Jacksonville will be thronged with visitors from all parts of the state is a certainty.

Jacksonville is growing farster than any city in the entire South, and this will be an excellent opportunity to see the Metropolis of the state.

Commenting on the game of ball between the Sauford team and Eustis last week, Capt, Jolly, of the latter team, says in the Enstis Lake Region :

Our boys certainly deserve more credit for their work than was shown them when they returned last night: The San-ford "tans" showed them by far more appreciation of clean ball-playing than tente of our own town. Not even given a change to explain how the game was lost, we were told to "take the back street home boys, you've disgraced the town enough," and many other kind remarks like that: That's sympathy. At Sanford yesterday a stranger could not have told which was the home team from

An Epitome of the Week's Most Important Happenings in the State's Domain.

Apopka Citizen:-The Times-Union of last Monday says that "all" the orange trees in the orange belt are loaded with failt; that the branches have to be supported, and that the crop will aggregate about 4,000,000 boxes. Those of us who live in the Orange belt know that there are hundreds of groves that have scarcely any fruit on them; not one of us that believe that the crop will reach the mark mentioned. Such statements are misleading, tend to depress and are against thè growers.

Miami Cor. Times-Union: There is a movement on foot for the organizing of a company to foster and aid in planting oil beans in this portion of Dade county. Capt. C. J. Rose of this city is at the head of the movement. A most thorough investigation has been made regarding the price of oil and the cities where it can be marketed and the probable cost of a plant for the oil. A large number of people have expressed their willingness to join the movement and it is believed that some definite plans will be formed in the near future. The castor bean is grown in this latitude as easily as the most common weed; in fact, wherever a seed is dropped in Dade county it springs -up and grows to large proportions, even if it is not

time they are covered with new growth ders. and bloom. Responding to a call for volunteers to furnish skin for a little girl who was burned

in Jacksonville recently several young men visited the hospital and had skin grafted from their arms to furnish the sufferer. And yet some contend that the day of true Southern' manhood has long since ended .- Times Herald, Palatka.

Live Oak True Democrat:-- A number of the shaded tobacco growers are preparing to put in lettuce on a large scale to ship to northern and castern markets. The ground have been prepared, seed beds made and planting about begun. It has been found that' preparing the grounds, the use of fertilizers, etc., in addition to making the lettuce crop will put the ground in even better shape to follow with next year's crop of Sumatra shaded wrapper tobacco. It is thought a lettuce, and celery crop can be raised under shade and protection as profitably and much cheaper

than a crop of tobacco. The first car of grapefruit has been shipped from Florida and the oranges are soon to follow. Sounds almost as good as watermelons and blackberries .--Thomasville Times-Enterprise.

Times-Union: "Alachua is undobtedly, leading other countries in the construction of hard roads," says the Gainesville Sun, "sufficient attention is not paid to keeping these roads in repair after they are constructed. The Sun has called attention to this matter time and again; but the county commissioners turn a deaf ear to such matters. We again remind them, however, that it is a truthful saying that a "stitch in time saves nine." This is a truth which the Times-Union has been trying to force on the minds of boards of county commissioners generally. The hard road which is allowed to fall into ruts becomes worse than the original sand road and the money expended to build it is practically thrown away.

School Opens Next Week

Prof. N. J. Perkins, the efficient principal of the Sanford High School, is busy this week getting the school in shape for the opening of the fall term. There will be one change made this year that should be of great benefit to the first grade pupils.

Miss Jennie Henderson, who will have charge of this department, comes to Sanford with fine recommendations, and the school is fortunate in haying such an able teacher to take charge of the little tots. The first grade will be located in the old school building formerly used as a kindergarten, and this arrangement will keep the younger scholars separate and distinct from the other pupils.

A kindergarten department will be added to this grade if possible, and parents can rest assured that the younger children will be taken care of and receive proper attention.
