NEW STEEL DRAW BRIDGE OVER UPPER ST. JOHNS RIVER IS OPENED TO THE PUBLIC

HAS BEEN ACCEPTED BY
THE SEMINOLE COUNTY
COMMISSIONERS

OUR OWN COUNTY

Built This New Steel Drawbridge
and Made it a Free Bridge
to the Public

One of the greatest works of the county of Seminole is the new steel drawbridge with crescented approaches that now spans the upper St. Johns river at the former Osteen ferry and on the road from Sanford to New Smyrna. For many years this crossing was a ferry boat crossing that even in its best period was dangerous and especially in latter days when automobiles took the place of the slower teams.

It was a mooted question for many years as to whether Volusia county would join Seminole county in a free drawbridge. Seminole county commissioners many years ago wanted Volusia commissioners to help construct the steel drawbridge at Harden's ferry over what is now called the Monroe bridge. This was also a ferry and the traffic was getting so heavy that when a corporation was formed in Volusia county to build a steel drawbridge and the Volusia commissioners would not join in a plan for a county bridge the Seminole county commissioners acceded to the clamor for a bridge and allowed a ten year franchise for this toll bridge at Harden's ferry and it has been in operation for about seven years making rich returns for its owners but bringing out many criticisms from the travelling public for having been made a toll bridge and exacting a heavy toll at that.

When it came time to discuss the question of a bridge at Osteen ferry the Seminole county commissioners stood pat for a free drawbridge and after gaining the consent of Volusia county for this bridge the county of Seminole bonded for sufficient money to construct the bridge and the contract was let to the Austin Bridge Company, of Atlanta and the work was started several months ago and pushed to completion. The bridge was thrown open to the public about two weeks ago and while the approaches are not finished as yet the cars and teams can easily make the grade to the bridge and this county is receiving the congratulations and thanks of the travelers on both sides of the river for their efforts to give the public a good bridge and one that is free.

The new bridge is 340 feet long and 18 feet wide constructed of steel and is said to be one of the best in the state. It has two 60 foot openings for the passage of boats and is also built high enough to allow the smaller launches to go under the bridge without opening the draws and impeding traffic on the bridge. The trestle approaches to the bridge are crescented and the roadway to the bridge will soon be hard surfaced, making them easy of approach to the bridge and perfectly safe in all kinds of weather. The flooring of the bridge built of heavy timbers is coated with asphalt and is making good surface for cars and also protecting the flooring from the wear and tear of travel and from the weather.

The bridge cost \$18,000 when completed and the fact that it is of steel and is up to date in every particular and is free to the public is a matter of congratulation to the county commissioners of Seminole and also to Volusia since that county has consented to pay their half some time in the future.

This new bridge will divert much of the east-coast traffic via Osteen and New Smyrna and Coronado Beach will get double the amount of summer and winter tourists. The bridge is also a great convenience to the people of the Osteen section who have always traded in Sanford and the bridge brings Osteen about half an hour closer to this city and opens up a fine country for development.

John Vaughn for many years the ferry tender has been given the place of bridge tender and is living at the house near the bridge to take care

Spanish War Veterans Grateful to Merchants for Liberal Advertising

The Spanish war vets want to thank the Sanford folks who helped out on the program, making our encampment an assured success. We take this means to ask you to put up what decorations you have during the three days of the encampment. We expect to decorate First street and will have a decorator here for that purpose. Anyone who desires his services, please phone the Herald office by Monday, his price will be reasonable. The matter of decorating is of course entirely optional with the business men, the camp through membership assessments, and more especially the hearty co-operation of everyone in the making of our program, is amply able to take care of everything. And we feel that any further solicitation of our folks would be an imposition.

You are cordially invited to attend our opening exercises at the courthouse on May 7, at 9:30 a. m. THEODORE ROOSEVELT CAMP, NO. 13, U. S. V.

BOYLE WILL IGNORE CHALLENGE TO TEST SPIRIT PHOTOGRAPHS

NEW YORK, April 19.—Sir Conan Doyle will ignore the challenge of Stephen Horgan, old time New York photographer, to name a ghost picture subject that he could not produce in a purely mundane way, Lady Doyle declared today.

In the absence of her husband, who had gone to Pittsburgh for a lecture, Lady Doyle made the following comment on the challenge voiced by Mr. Horgan at the International Photographic Arts and Crafts Exposition now being held here:

"I am sure my husband will pay no attention to his challenge, or to the challenge of any other publicity seekers, who claim to be able to duplicate the work of spirit photographers. Nobody denied that they can put things on photographic plates by trick photography. But they cannot meet the tests to which the spirit pictures Sir Arthur is showing were subject."

WASHINGTON, April 19.—The action requested by the government says as a result of "orgy of speculation" which has driven up price of sugar to consumer and which during February enriched the pocketbooks of brokers by \$900,000. Although action was a civil suit Attorney General Seymour announced the government was also considering criminal proceedings under the Sherman law and pursuing investigation along that line.

Mr. Davis said the bill was designed to cut down on the mileage compensation of sheriffs. His bill makes it possible for the sheriff when he wants to serve a process out of town, to merely mail it to the constable, eliminating the necessity of the sheriff making the trip.

SUBSCRIPTION BRIDGE PARTY

The subscription bridge party given yesterday afternoon by the members of the Women's Guild, at the Parish House, was indeed lovely in every detail, and was an exceedingly enjoy-

able affair. There were fourteen tables of players and a number of guests came in for tea.

In every casement window, were vases of snap dragons, roses and carnations. Tall floor baskets of snap dragons and gladiolus were also used with artistic effect.

The afternoon passed quickly in the interesting game of bridge played and when scores were counted it was found that Mrs. Claude Howard held high score, and was awarded an exquisite vase filled with Radiance roses. The low score prize, an old-fashioned bouquet, went to Mrs. T. L. Dumas. Those holding high score at each table were presented old-fashioned nosegays in lace paper holders.

EQUALLY BEFORE THE LAW—INDEED?

There is much of boasted "equality before the law," assertion that "the law is no respecter of persons," that all stand on an equality before the bar of justice. In theory this is true; there is equality in the law, but not always in its administration. This is in, this making of some persons, suspected or accused of crime, of violation of the law, superior to other persons similarly accused is notorious and goes to prove that while before the law all are equals they are not in the regard of at least some of the law's administrators, which is altogether wrong, must be curbed if it is not to become general practice that some law violators, those who have wealth or influence, or both, are shielded and protected, are shown favors, as it is not the case with the "poor devil" who has neither money, nor friends nor influence.

Here, indeed, is inequality before the law. So flagrant, so glaring are certain instances of this inequality as to encourage that growing disrespect for all law, which, if it becomes general, leads to anarchy; to destruction of the safeguards, the fairness and the impartiality which reasonably it is assumed the law gives to all alike, rich and poor, high and low.

A notable instance of inequality before the law has been given world-wide publicity during the past week or two. A young woman was found dead, in New York, presumably murdered. Of course, the authorities immediately became interested, ascertained the names of the young woman's companions—and the district attorney's office promptly gave the names to the press and the public, with one exception, that of a man of considerable prominence, whose identity the assistant district attorney, in charge of the case, refused to reveal, and his only reason was that to do so would distress his family.

The man in question, apparently, had not given that a moment's consideration, when he assumed the relation now alleged to have been maintained and that culminated in the young woman's death, with which, however, there is no allegation that he had anything to do. Others of the young woman's acquaintances were named without the least hesitancy. Then, through newspaper sources of information, the name of the shielded man became known and the district attorney admitted the correctness of the identification with the case.

The instance just cited, of inequality before the law, is not the only one. There are numerous others, only less glaring, wherein special consideration, is given and special privileges are accorded those who have a "pull" of some sort or another. They are to be found near and far.

Inequality in the administration of the law is neither fair nor what is contemplated by the law in its administration. If the law is impartial, as it is proclaimed to be, then inequality differing treatment in its administration, must cease ere it leads to contempt for all law and its enforcement. —Times-Union.

FOR THE SOUTH AND FOR SPRING

Linens in the brightest of colors are going to be worn extensively next season. At the winter resorts they are adding much to the color scheme of the landscape even now. To the left is a model in chow color linen. The skirt is tucked and the waist is so satisfied with its smart lines that it rejects any other trimming than an adjustable collar of very fine lace. Medium size requires 4 yards 36-inch material. The model is acceptable for silk or wool crepe.

Blue, tomato, apricot or orchid linen could be employed to develop the second dress, which is trimmed with hand embroidery. The deep collar and turn-back cuffs have the edges blanket-stitched and there are large patch pockets designed for service as well as ornamentation. The vest may be of self- or contrasting material. Medium size requires 3 1/2 yards of 36-inch linen.

First Model: Pictorial Review Dress No. 1445. Sizes, 16 to 20 years. Price, 35 cents.

Second Model: Dress No. 1418. Sizes, 16 to 20 years. Price, 35 cents.

REFLECT THEIR FRENCH ORIGIN

Taffeta is the silk for youthful frocks and it is used most effectively in the model to the left. The semi-fitted blouse and hand-trimmed skirt are in the best mood of the French designers. The closing is at the left-side and the waist is dart-fitted at the underarm seams. If preferred, the bands of the extended panels may be omitted. Medium size requires 5 1/2 yards 36-inch taffeta.

Taffeta or satin crepe could be employed attractively for the second frock also. The applied front closes on the left shoulder and the kimono sleeves are lengthened with deep slashed cuffs. A pretty idea is to line the sash and cuffs with contrasting silk. The two-piece skirt is attached to the lower edge of the waist. Four and five-eighths yards of 36-inch material are needed for this model in medium size.

First Model: Pictorial Review Dress No. 1483. Sizes, 16 to 20 years and 34 to 42 inches bust. Price, 35 cents.

Second Model: Dress No. 1494. Sizes, 34 to 42 inches bust. Price, 35 cents.

FASCINATING IN LINEN

Because it represents the minimum of pieces and can be made in less than three hours, this model appeals to the woman who is making up linens, gingham, etc., for the winter resort wardrobe. It is laid in plaits on the sides, the fulness being confined by a straight narrow belt. Jersey tubing, Portet twill and cashmere are also appropriate for this model. Medium size requires 3 1/2 yards 36-inch material.

Pictorial Review Dress No. 1416. Size, 34 to 50 inches bust. Price, 35 cents.

THE WEATHER

Asks This Lady, "That I'm a Believer in Cardui?"—Had Been So Weak She Had to Go to Bed.

Osawatimie, Kans.—Mrs. E. E. Keast, formerly of Illinois, residing here, says: "We moved to this state eleven years ago, and I had good health for a long while; and then some year or so ago I had a bad sick spell."

"I got so weak I couldn't go. I couldn't stand on my feet at all. I had to go to bed. I suffered a great deal. I was so nervous I felt I couldn't live. I tried medicines, and everything; had the best of attention, yet I wasn't able to get up. I lay for three months, not able to do anything."

"My husband is a bill poster and has chances to be a Ladies' Birthday Almanac among his circulars. I read it, and told some of the family to get me a bottle of Cardui. . . ."

"I quit all other medicines and took it (Cardui) faithfully, and two weeks from the time I began to take Cardui I was out of bed—better than for months. I kept it up and continued to improve until I was a well woman."

"Do you wonder that I am a believer in Cardui? I certainly am. And I am sure there is no better tonic made for women than Cardui." NC-151

Some changes in the bill to abolish the leasing of convicts come up every day but the Herald would advise killing the convict lease system altogether even from one county to another. If there are any counties in the state especially among the new counties that have no place to keep their prisoners they are too small to be counties and should never have been made into counties. The convict lease must go and there is no compromise from any angle. Write your senator and your representative what you think about it and make no compromise on the subject.

"AWAY OUT OF FLORIDA"

Did you ever look at the map of the state of Florida? Certainly? You think to yourself that you know a great deal about it, perhaps. Here is a long peninsula, with the capital thereof stuck up in some clay hills, 'way out of the real Florida. Our lawmakers are now up there, in "The Old Red Hills of Leon," fixing a plans and scheming for the many varied interests of a straggling territory whose wishes and necessities are as different as could well be imagined. The people of North and West Florida seem to have very little idea of what the peninsula leads—and, in fact appear to care less. Many of the men at Tallahassee have never been in the real Florida. —Clearwater News.

The people driving cars should be taught courtesy through "Courtesy Week" of the Kiwanis Clubs. Courtesy on the road is the greatest courtesy in the world since it is the friendly spirit of the open road and courtesy on the road saves many lives as well. Give the other fellow the best of it every time even if he is a road hog and you will save time and vexations and money and in many instances fatal accidents. Read the article on this page about road courtesy.

FORT MYERS SHOWS ITS PUBLIC SPIRIT.

It is a reflection on Florida's highway system, or lack of system, that the people of community so large and so progressive as Fort Myers, are compelled to go down into their pockets to build a road that will throw the city open to the outside world. Fort Myers has waited many years for the coming of a highway. Tired of waiting, the people have decided to act on their own behalf and to that end have raised a fund, now totaling more than \$16,000 in actual cash, the money to be turned over to the state road department for the construction of a road that will enable the thousands who are anxious to visit Fort Myers, to make the trip in safety and comfort.

Such persistence and such enterprise are worthy of rich reward—Lakeland Star-Telegram. And Seminole county showed its public spirit when it built the bridge across the upper St. Johns river at Osteen ferry for the benefit of those who wanted to go to the beach and those who wanted to come into Seminole county. And best of all it is a free bridge and will do much toward bringing down the price of tolls on other toll bridges in other counties that are now burdened with them.

RAILROAD SHOPS WILL BE IMPROVED.

According to a wire received by the Kiwanis Club of this city from the A. C. L. officials there will be \$176,000 spent here on new equipment for the railroad shops and other facilities. This sounds mighty good and means much for Sanford. It is not known whether there will be new shops built at the new location purchased several years ago or whether this sum will be spent at the present location but this much to be spent here on improvements is greatly appreciated. Before the world war upset so many plans of business expansion in industries all over the country the Atlantic Coast Line Railway purchased about one hundred acres of land north of the present location of the shops with the view of erecting a much larger and better machine shop plant. The war and attendant taking over of the railroads for government work stopped all this planning for new shops but it has been understood that at some time in the future the new shops would be built here. As to whether this sum of money will be expended in new buildings or not is something that has not been made public. It is certain, however, that if the present attitude of the A. C. L. officials does not change that Sanford will have one of the best systems of machine shops in the state as far as up to date buildings and equipment is concerned. They may not be the largest shops on the A. C. L. Railway but they will certainly be among the best and in the prosperity of the A. C. L. the people of Sanford will share not only in the money spent here on the shops and by the men but increased facilities of the railways and better transportation.

"LET'S GO AT IT RIGHT."

"Let's go at it right while we are about it," declared Representative Davis in the house Friday as he offered an amendment to the committee bill to prohibit the whipping of convicts. Let's go at it right. By all means. The heart of Florida is yearning, hoping, praying for it. We cannot go at it right if we are going to deal with the convict lease system in a stubborn mood and with foolish pride.

Let us recognize this salient fact: The state of Florida NOW prohibits the leasing of its real criminals, the murderers, thugs, sentenced to the STATE PRISON, and it prohibits their being leased either to private individuals or to any of the counties. Minor offenders surely should not be treated worse. Yet it is proposed in a measure abolishing the leasing of county convicts to individuals to permit their being leased by one county to another. What an inconsistency! Many of these county convicts cannot even be charged with having criminal tendencies. They are like young Tabert was, kids who happened to be without jobs, whose greatest

A HOME TRADING SERMONETTE

Here is a clever burlesque that is going the rounds. We do not know where it started, but it contains a lot of truth nevertheless: "A dry goods merchant was starting down town when his wife reminded him of his most important duty during the day. 'Now, my dear, be sure and send to the city for that new radio outfit, so we can have it for Sunday. You know our old Victrola is getting so that it is not fit to be heard.' 'Just a few blocks away the merchant who handles Victrolas and furniture was sitting at breakfast with his family. The conversation drifted around to the near approach of school. 'And that reminds me, John,' said the lady, who sat at the head of the table, 'I must be going to the city not later than next week. I must get school clothes and see about a fall suit for myself, and while there perhaps I had better see about the new lace curtains for the front windows.' 'An hour or two later a leading grocer stepped into the bank to buy a draft which he was going to send to a catalogue house for a swell bedroom suit. 'How's business?' asked the banker. 'Oh, not so very good,' replied the grocer; 'things are dull just now.' 'Before the banker finished writing the draft a dapper young man with a grip stepped up and asked how everything was. The banker seemed glad to see him. He was a representative of a big printing establishment in another state. He and the banker chatted pleasantly for a few minutes, after which the young man inquired casually of his friend behind the window if he wanted anything. 'Well, yes,' replied the banker. 'I believe I do. Print us 5,000 drafts, 5,000 checks and a couple thousand letter-heads.' 'The young man thanked his friend cordially and hustled out. 'That night the local business men had a meeting at the town hall to discuss the growth of the mail order evil. All the gentlemen mentioned in the narrative delivered short talks. They agreed that the farmers were guilty of treason to their home merchants when they persisted in buying their goods from mail order houses, and the meeting closed by adopting strong resolutions against trading away from home.'—Des Moines Publishers' Review.

crime was stealing a ride on a freight train.

Why should these county convicts be treated more inhumanly than state prisoners?

Why should they be farmed out by one county to another when the real criminals are protected by the great state of Florida against such abuse?

Why should petty and minor offenders be more humiliated, degraded and kicked around?

Consistency, if not good morals and a clear conscience, demands that county convict leasing shall be abolished in toto, both to private individuals and corporations, and by one county to the other!

Shall Florida be isolated from other civilized states? South as well as north, east and west all have their eyes upon us. Georgia has abolished this nefarious system. Alabama has seen the light and convict leasing in that state, too, will be ended by 1924.

"Let's go at it right while we are about it?"

The heart of Florida is right. Its lawmakers must not interpret it wrongly. Florida wants decency, not barbarism. It wants consistency, not inconsistency. It wants a clean conscience. It is not for blood lust.

And that means the abolishment of the convict lease system NOW, not in 1924.

Representative Amos Lewis is absolutely right in his demand that the committee bill shall make its provisions effective immediately.—Jacksonville Journal.

TAXING GASOLINE FOR ROADS.

With everybody wanting more good roads and everybody reluctant to assent to an increase in taxes even to get more roads, one of the big questions in Florida is how to finance road building programs, that is, the form of taxation which will prove least objectionable. A tax of two cents a gallon on gasoline is proposed, the proceeds of this tax to go into a road fund, and the general idea of taxing gasoline consumption is popular. The idea is so popular that it is worth while examining it carefully before it is adopted as a chief source of a road fund, for if a great program is predicted on it and the idea proves wrong, unnecessary

lature put a heavy tax on gasoline for road building without exempting gas not used in vehicles, the validity of the enactment would be contested. This is not to say that some form of gas tax is not a legitimate and proper means of getting revenue for road building—it is intended merely to suggest that the advocates of this method consider their proposal in all of its aspects before rejecting other sources of revenue.—Palm Beach Post.

WHILE CONSUMER PAYS 400 PER CENT.

The Michigan farmer's 24-cents-a-bushel potatoes for which a Virginia woman paid \$1.20, or five times what the man who grew the potatoes received, interests the Washington Daily News whose readers are potato consumers. The man who grew the potatoes owned or rented land which he plowed, harrowed and fertilized. Then he bought the seed potatoes, cut them for planting, put them in the ground, plowed and hoed them several times, sprayed them to save them from the potato beetle, dug them up, cleaned them, dried them, graded them, hauled them to market—and got 24 cents for them. The News discovers that the man who bought the potatoes put them in a car with a lot of other potatoes, shipped the lot to a commission merchant, who sold them without seeing them to the retailer who sold them to the woman.

During the process the price was doubled, then tripled, then quadrupled and finally made five times the figure the grower got who in partnership with God produced the potatoes. He worked and sweated to sell them for 24 cents. The dealers divided a gross profit of 400 per cent.

In this the best marketing system that can be devised, asks the News. Within ten years farmers' co-operative marketing associations will have answered that question satisfactorily to everybody, according to the Miami Metropolis.

THE ASSOCIATED PRESS IS ABSOLUTELY IMPARTIAL.

One of the great southern dailies—the Memphis Commercial Appeal—states that a number of people have recently written to it making inquiries as to the religious and racial slants of the news associations and newspapers. The Commercial Appeal comments: "Most of these letters are probably inspired by Ku Klux propaganda, which asserts that the Associated Press is controlled by Catholics, that Rome has its hand at the throat of most every American newspaper through ownership, and that what Rome hasn't got the Jews are getting. Altho this is what Bernard Shaw calls hokum."

The Associated Press is a co-operative association, whose directors are elected by the member papers. The directors in turn elect officers and a general manager.

The Associated Press must be non-partisan because it serves papers of all political beliefs, and non-sectarian because it is a lay organization whose business is the accurate dissemination of news. The news is gathered from its various members and by its own correspondents.

It would not make any difference if the directors of the Associated or to no church, but it happens that all of its directors, 14 in number, are non-Catholics. Of the 14, one is a Jew, the rest are distributed just about like any other similar group of Americans would be.

Melville E. Stone for a long time general manager of the Associated Press, is a son of a Methodist minister, and is a member of that denomination. Frederick Roy Martin, the present general manager, Mr. Stone being counsel, is a member of an old New England Puritan family. Some time ago it was urged that because his name is McCall, that the superintendent of the southern division, with headquarters in Atlanta, was in league with the pope. Mr. McCall is a Baptist. He is also one of the most efficient superintendents the southern division ever had.

The directors and officers of the Associated Press are high minded American citizens, and faithful to the constitution.

The Associated Press in taking men into its service gives no heed to what they believe or do not believe as to politics or religion, but it does insist that they be men of character.

Anyone desiring any further detail about the Associated Press can be accommodated if that one would write to Frederick Roy Martin, 51 Chambers street, New York city. Mr. Martin would probably answer, even if the questions are absurd.—Tampa Times.

GOVERNMENT TO SHOW ITS HAND IN SUGAR PROBE

WASHINGTON, April 19.—The department of justice investigation of the sugar price advance, inaugurated several weeks ago, reached the point today, where officials were able to promise a statement of results within 24 hours.

Acting Attorney General Seymour, after presenting a report on the inquiry to President Harding, the second within two days, announced that it had been decided to show at least a part of the government's hand tomorrow. He refused to give any advance information as to the course of the investigation which had been produced largely through federal District Attorney Hayward at New York, the controlling sugar market of the country.

The progress of the justice department's inquiry has been communicated from the start to Attorney General Daugherty, who is recuperating at Asheville, N. C., from his recent illness, Mr. Seymour said, and it was learned that the president discussed the matter with Mr. Daugherty today by telephone.

The fact that the acting attorney general had found it necessary to present a report today supplemental to that laid down before the cabinet yesterday, was generally construed as indicating additional developments in the inquiry. Mr. Seymour declined, however, to discuss this phase of the matter, meeting all inquiries with the assertion that he would withhold his statement until tomorrow.

The president received information on the sugar situation in the day from Senator Wadsworth, New York, who has just returned from a trip to Cuba, Jamaica and Panama. The controversy over responsibility and the justification of the increase in sugar prices which broke in the senate shortly before adjournment led Senator Wadsworth to make a study of the matter while in Cuba, with the result he told the president, that he was convinced there actually had been a decrease in production of about 20 per cent in Cuba, the chief source of the American sugar supply.

consideration at the White House. Thus far a dozen cities in the Central and Western states have been given more or less definite position on the list of places where important addresses are to be delivered. Names in the order in which the president expects to visit them they are:

St. Louis, Kansas City, Denver, Salt Lake City, Los Angeles, San Francisco, Seattle, Portland, Helena, Minneapolis, Chicago and Detroit.

Others may be added later when it becomes possible to select exact dates and make up precise schedules of travel.

Later addresses are to develop individual topics of discussion such as the administration's proposal to enter the international court, the railroad problem and the results of the new tariff. In his four speeches on the coast it is likely he will emphasize what the arms conference agreements have meant to that section, while at Minneapolis he is expected to explain to the farmers what has been done to carry out the program of agricultural relief he first outlined at the Minnesota State Fair in his first formal campaign speech away from the front porch.

The president's friends, however, say he will take great care to avoid turning the trip into a political swing around the circuit.

Fort Myers is raising \$10,000 to complete the hard surfacing of State Road No. 2.

Work will soon begin on a \$75,000 hotel to be built at Sebring by George E. Sebring.

PRESIDENT OUTLINES TENTATIVE ITINERARY FOR TRIP TO COAST

(By The Associated Press)

WASHINGTON, April 19.—Plans for President Harding's western trip this summer have developed to a point where a detailed itinerary is under

Why continue to sell our citrus fruits for less money than they are worth?

We, the cooperating growers who market our own fruit through the Florida Citrus Exchange, continue to sell at top prices, grade, pack, quality, and volume considered.

Your fruit, if you are not a member of the Florida Citrus Exchange, continues to be sold in direct competition with ours, lowering the prices received by all of us.

Practically every car of fruit we sell has to meet considerably lower prices offered to the trade by the non-cooperative and speculative marketing agencies.

We are able to get better prices because of the consumer demand for Sealdsweet grapefruit and oranges, developed by years of consistent advertising, and by reason of our reputation for fair treatment of the trade.

Every Florida grower, whether or not a member of the Florida Citrus Exchange, receives less for his fruit under the present system than it is actually worth. Why continue the destructive methods which produce this result?

Five thousand and more of us who have tried the cooperative idea of marketing and have not found it wanting, invite the other Florida growers to join us in eliminating unwise competition from the citrus industry.

In the Florida Citrus Exchange we have built up an efficient, strong organization which is amply able to secure for every Florida grower all that his fruit is worth, whenever the present plan of selling fruit for less than its real value by many growers is abandoned.

Why not try cooperation instead of competition? Why longer accept for your fruit less than you should receive?

Join the Florida Citrus Exchange and receive the high dollar for your fruit. Consult the manager of the nearest association or sub-Exchange or write the business manager at Tampa, Florida.

BABE RUTH AFTER RECORD, HITS A HOMER YEST'DAY

74,000 FANS AT OPENING OF THE NEW STADIUM HOWL WITH GLEE AS BABE GOES ROUND

NEW YORK, April 19.—Babe Ruth came back into his own yesterday, when the mighty Yankee slugger cracked his first home run of the season into the right field bleachers of the massive new Yankee stadium, 74,000 howling fans—the largest through the t ever attended a baseball game—rose to accord their idol a thunderous ovation.

Ruth's circuit clout, clinching victory for the American League champions in their opening game, with the Boston Red Sox, added a most picturesque drama in diamond annals. The Babe, those thousands agreed, had come back.

A super-world's series atmosphere pervaded the formal dedication of the new home of the Yankees. The record crowd which jammed every nook and corner of the triple-decked grand stand, and packed all but a few corners of the bleachers section, far exceeded the expectations. Every seat in the mammoth structure could have been filled but several thousand chose to stand in the aisles rather than perch in the few vacant areas of the bleachers.

The home run king demonstrated in practice before the game that he had the range. Taking his first turn at bat, he picked Sam Jones' first offering, for a terrific drive into the right field section. He followed with an even loftier drive shortly afterward that struck with such force as to splinter the planking in one of the top bleacher benches, scattering a group of youthful enthusiasts, who immediately returned to scramble for the ball.

IN the long run, the only way any tire manufacturer can afford to give a "special discount" is to price the tire above its worth in the first place, or take the discount out of the quality. Either way, the customer pays. Better buy Good-year Tires, and get Goodyear Service and Goodyear Quality.

Why Retailers Take The Wrappers Off

Retailers almost invariably remove the tissue wrappers from fruit because when unwrapped it sells far faster than does wrapped fruit. With wrappers removed, most advertised fruit then take its place humbly alongside other fruit the origin of which is unsung and unhonored.

The outstanding exceptions are those with either "BLUE GOOSE," or "A. F. G." according to quality, electrically marked on the skin of each. These marks can be removed only by peeling. They even follow to the hotel, restaurant or household table.

When consumers demand "BLUE GOOSE" or "A. F. G." fruits, they cannot be fooled by substitution. Hundreds of thousands of friends have been made for them by advertising; more are being made daily. Their demands must be satisfied, which is the reason discriminating dealers everywhere are willing to pay more for these than for other fruits.

Firestone Prices on Fabric and Cord Passenger Car Tires and Tubes, also Solid and Pneumatic Truck Tires Will Advance May 1st

The postponement of this price revision is possible only because of our realization of the price danger in the British Crude Rubber Restriction Act which became effective November 1, 1922. We were fortunate in our rubber purchases before the Restriction Act increased the price of crude rubber 150%.

We have always endeavored to champion the cause of better made tires delivered at lowest cost to the tire user by economic manufacturing and distribution. And we are glad of the opportunity to give the car-owner the additional saving at this time.

Firestone Cords embody certain special processes which result in their producing mileage records, heretofore unheard-of in the industry. Among the more important of these superior methods are blending, tempering, air-bag cure and double gum-dipping.

Firestone Dealers are co-operating with us in our movement to supply your needs at present prices as long as their stock lasts and we have advised our dealers that we will supply them with additional tires this month only so far as our output will permit.

See the nearest Firestone Dealer. Purchase a set of these Gum-Dipped Cords. Prove for yourself their remarkable mileage advantages and easy riding qualities.

NEW VOTING MEASURE INTRODUCED.

TALLAHASSEE, April 19.—Only real estate owners who had owned the property for six months would be allowed to vote in road bond elections under the terms of measure introduced in the senate today by Senator D. H. Lindsey.

WHERE YOUR TAX DOLLARS GO AND WHAT IT MEANS

A prominent attorney of this county once made the remark in my office, to a large tax payer: "Do you know that you get more for the money that you pay in taxes than for any other money you spend?"

Let us consider the tax dollar as levied for state and county taxes in the Sanford District, we find that it is divided as follows:

Table showing State Taxes: General Revenue (9.54 cents), State School Tax (1.74 cents), Pensions (4.34 cents), Board of Health (.43 cents), State Road Tax (1.74 cents), State Prison Fund (.65 cents). Total State Tax: 18.44 cents.

Table showing County Taxes: Road Bond Fund (20.82 cents), General School Fund (17.35 cents), General Revenue (8.68 cents), Road and Bridge (13.88 cents), Fine and Forfeiture (3.47 cents), Building Fund (3.47 cents), Special School Taxes (5.21 cents), Special School Bonds (8.68 cents). Total for County Purposes: 81.56 cents.

Table showing Total: Total State Tax (18.44 cents), Total for County Purposes (81.56 cents), Total (100.00 cents).

We pay to the state 18.44 cents out of each dollar, but as we are a part of the state, we get some of this back in value and in money; out of the general revenue fund the state furnishes to the counties the tax books, tax receipts, licenses, tax sale certificates and many other supplies.

The brick road from the river at Monroe to the Orange County line has been designated as a "state road" and we hope to get some of our state road tax applied to this road very soon.

The state tax of one mill for school purposes, provided by the constitution of the state, is re-appropriated to the counties "in proportion to the number of children residing therein between the ages of four and twenty-one years." The state in this way gives assistance to those counties which may be poor as to property values but rich in children. Seminole county has nearly all of this tax returned, for example in 1922 we paid to this fund \$4,597.86 and received from the state \$4,481.30 from this fund. Under our educational system illiteracy among white people in this state has been reduced in the last twenty years from 8.6% to 2.9%.

The pensions paid are to the soldiers and sailors who served in the civil war, and to their widows.

The amount paid for the State Board of Health is what the chemists term "a trace," it is not even half of one per cent, and yet the State Board of Health has made Florida a mighty pleasant place in which to live, no more dread of yellow fever and small pox, and other contagious diseases;

The road bond fund is for the interest and sinking fund for retirement of road bonds; Seminole county has now approximately 100 miles of hard surfaced roads, and the county is only 26 miles long by 14 miles wide. The road and bridge fund is for the maintenance and up-keep of all the public roads and bridges in the county, a great many rural roads are kept in excellent condition by the use of pine straw.

From the general and special school funds the school expenses are paid; the school bond fund is for the payment of interest and retirement of the school bonds which were issued to provide funds with which to construct and furnish our school buildings.

From the general fund the general expenses of the county are paid, such as records where deeds, etc., are recorded, furniture and supplies for the court house, up-keep of the county home, medical attention for inmates,

of the county home, burial expenses of paupers, lights, water, fuel, etc. and the salaries of certain county officials and of the county nurse, appropriations for county fairs, and many other items are paid out of this 8.68 cents. The building fund pays for the court house and grounds, the county jail and the county home, and the expense of additions and repairs on these buildings.

The fine and forfeiture fund pays witnesses in open court in circuit court cases, and pays witnesses and jurors and other expenses in cases tried before the county judge and justices of the peace, from this fund are paid the sheriff and county judge and other court officials. However, the state pays all witnesses before the grand jury and all jurors in circuit court. From this fund the prisoners who are confined in jail are fed.

Every person over the age of 21 and under the age of 55 years should pay a poll tax of \$1.00 per year, this goes into the general school fund of the county; for the year 1921 there were paid \$1,900 in poll taxes. This is a tax and should be paid whether you vote or not; however, in order to vote the poll tax must be paid for the two years preceding the year in which the election is held, as well as being duly registered.

A study of the chart above shows that we are paying about 70 cents of each tax dollar for schools and roads, with the balance of 30 cents distributed to the various other expenses of the state and county.

Our property would not be of much value were it not for the things our tax dollar buys. I believe the lawyer was right, we get more in real value for our tax money than for any other money we spend.

JNO. D. JINKINS, Tax Collector, Seminole County.

McKinnon-Markwood Company will have a complete line of Hart Schaffner & Marx clothing, new store, new home, medical attention for inmates, stock. 12-1fc

BABE RUTH AFTER RECORD, HITS A HOMER YEST'DAY

74,000 FANS AT OPENING OF THE NEW STADIUM HOWL WITH GLEE AS BABE GOES ROUND

NEW YORK, April 19.—Babe Ruth came back into his own yesterday, when the mighty Yankee slugger cracked his first home run of the season into the right field bleachers of the massive new Yankee stadium, 74,000 howling fans—the largest through the t ever attended a baseball game—rose to accord their idol a thunderous ovation.

Ruth's circuit clout, clinching victory for the American League champions in their opening game, with the Boston Red Sox, added a most picturesque drama in diamond annals. The Babe, whose thousands agreed, had come back.

A super-world's series atmosphere pervaded the formal dedication of the new home of the Yankees. The record crowd which jammed every nook and corner of the triple-decked grand stand, and packed all but a few corners of the bleachers section, far exceeded the expectations. Every seat in the mammoth structure could have been filled but several thousand chose to stand in the aisles rather than perch in the few vacant areas of the bleachers.

The home run king demonstrated in practice before the game that he had the range. Taking his first turn at bat, he picked Sam Jones' first offering, for a terrific drive into the right field section. He followed with an even loftier drive shortly afterward that struck with such force as to splinter the planking in one of the top bleacher benches, scattering a group of youthful enthusiasts, who immediately returned to scramble for the ball.

Boston.....000 000 100—1 3 1 New York.....004 000 00x—4 7 1 Ehmke, Fullerton and Devormer; Shawkey and Schang.

Wheat greeted Ralph Head, who had held the Dodgers to three hits in 8 innings with a circuit swat over the right field wall. Hubbell relieved Head and after passing Reuther and allowing Deberry a hit, was sent to the showers. NEW VOTING MEASURE INTRODUCED.

TALLAHASSEE, April 19.—Only real estate owners who had owned the property for six months would be allowed to vote in road bond elections under the terms of measure introduced in the senate today by Senator B. H. Lindsey.

WHERE YOUR TAX DOLLARS GO AND WHAT IT MEANS

A prominent attorney of this county once made the remark in my office, to a large tax payer: "Do you know that you get more for the money that you pay in taxes than for any other money you spend?"

Let us consider the tax dollar as levied for state and county taxes in the Sanford District, we find that it is divided as follows:

STATE TAXES:	General Revenue	9.54 cents
	State School Tax	1.74 cents
	Pensions	4.34 cents
	Board of Health	.43 cents
	State Road Tax	1.74 cents
	State Prison Fund	.65 cents
Total State Tax		18.44 cents
COUNTY TAXES:	Road Bond Fund	20.82 cents
	General School Fund	17.35 cents
	General Revenue	8.68 cents
	Road and Bridge	13.88 cents
	Fine and Forfeiture	3.47 cents
	Building Fund	3.47 cents
	Special School Taxes	5.21 cents
	Special School Bonds	8.68 cents
Total for County Purposes		81.56 cents
Total		100.00 cents

We pay to the state 18.44 cents out of each dollar, but as we are a part of the state, we get some of this back in value and in money; out of the general revenue fund the state furnishes to the counties the tax books, tax receipts, licenses, tax sale certificates and many other supplies.

The brick road from the river at Monroe to the Orange County line has been designated as a "state road" and we hope to get some of our state road tax applied to this road very soon.

The state prison farm is not entirely self-supporting, and a tax of 65/100 of a cent is assessed to meet this expense.

The entire assessment for state taxes in Seminole county for 1922 is \$65,179.75, of this amount the railroad and telegraph companies pay \$8,496.73.

The total county assessment for all purposes, including poll taxes, is \$245,437.23, of this the railroad and telegraph companies pay \$36,861.33.

Our county tax is divided as follows: The road bond fund is for the interest and sinking fund for retirement of road bonds; Seminole county has now approximately 100 miles of hard surfaced roads, and the county is only 20 miles long by 14 miles wide.

The road and bridge fund is for the maintenance and up-keep of all the public roads and bridges in the county, a great many rural roads are kept in excellent condition by the use of pine straw.

From the general and special school funds the school expenses are paid; the school bond fund is for the payment of interest and retirement of the school bonds which were issued to provide funds with which to construct and furnish our school buildings.

of the county home, burial expenses of paupers, lights, water, fuel, etc. and the salaries of certain county officials and of the county nurse, appropriations for county fairs, and many other items are paid out of this 8.68 cents.

The building fund pays for the court house and grounds, the county jail and the county home, and the expense of additions and repairs on these buildings.

The fine and forfeiture fund pays witnesses in open court in circuit court cases, and pays witnesses and jurors and other expenses in cases tried before the county judge and justices of the peace, from this fund are paid the sheriff and county judge and other court officials. However, the state pays all witnesses before the grand jury and all jurors in circuit courts. From this fund the prisoners who are confined in jail are fed.

Of the occupational licenses collected two-thirds goes to the state, and one-third to the general revenue fund of the county; for the present license period \$2,880.05 has been collected for the county.

Every person over the age of 21 and under the age of 55 years should pay a poll tax of \$1.00 per year, this goes into the general school fund of the county; for the year 1921 there were paid \$1,900 in poll taxes. This is a tax and should be paid whether you vote or not; however, in order to vote the poll tax must be paid for the two years preceding the year in which the election is held, as well as being duly registered.

A study of the chart above shows that we are paying about 70 cents of each tax dollar for schools and roads, with the balance of 30 cents distributed to the various other expenses of the state and county.

Our property would not be of much value were it not for the things our tax dollar buys. I believe the lawyer was right, we get more in real value for our tax money than for any other money we spend.

Tax Collector,
Seminole County.
