## Americans Are Not Scared Of Site Where Jonah Had Experience

SAIDA, Syria, July 20.—(AP)—Swimming near the place where Jonah is supposed to have landed after his adventure with the whale is frowned upon by dwellers in the vicinity. Only recently a party of Americans driving from Beirut to Saïda found a particularly inviting stretch of sand on the Mediterranean near Saïda. "Let's have a swim here," proposed one of the party. The Syrian guide looked horrified. "No swimming is allowed here," he said. "This is Nebi Yunis," he added with finality. "What is it?" "This is the spot where Jonah landed." "We are not afraid of whales," came back the chorus and peeling off, the party went in. The water was fine.

## INVESTIGATION IN CHIPP'S SLAYING GETS UNDER WAY

Fourteen Witnesses Called To Testify At Preliminary Hearing Of Ft. Worth Minister, At Liberty On Bond  
FORT WORTH, Texas, July 20.—(AP)—The Tarrant county grand jury will begin its investigation today into the slaying Saturday of Dr. Frank Chipp, lumberman, by Rev. Dr. Frank Norris, in the office of the First Baptist Church of which Norris is pastor. Norris is at liberty under \$10,000 bond. Fourteen witnesses are expected to be called, among them being Dr. Norris, and L. H. Nutt, a deacon in Dr. Norris' church, and supposedly the only eye-witness to the shooting. Dr. Norris, in a statement Saturday following the shooting, told of receiving a call from an apparently angered individual who announced he intended to call on the pastor a few minutes before Chipp appeared.

Two possible alternatives lie before the grand jury, which includes nine of the pastor's fellow-townsmen. The jury may indict for murder, or may vote a "no bill," a future grand jury may still indict, should a no-bill be returned. This condition frequently leads a defendant to demand an indictment, as a preliminary to a definite disposition of a case. In the event of indictment and subsequent trial and conviction, the degree of guilt is determined by the trial court jury which may return any one of three verdicts. It may acquit, find the defendant guilty of manslaughter, carrying a prison term of from two to five years, or find him guilty of murder, carrying a penalty ranging from five years in prison to death in the electric chair. Under Texas law, the jury affixes the exact punishment.

## Atlanta Development In Hands Of Receiver Upon Order Of Court

ATLANTA, Ga., July 20.—(AP)—A receivership has been designated for Morningside Park, Incorporated, realty sub-division of which J. R. Smith, director of the Bankers Trust Company who committed suicide last week, was principal promoter. The receivership was granted late yesterday by Judge John D. Humphreys, in Fulton Superior court upon petition of T. R. Bennett, State Superintendent of banks.

## District Of Columbia Commissioner Quits

PAUL SMITH'S, N. Y., July 20.—(AP)—Commissioner Penning of the District of Columbia has resigned. The resignation, it was announced at the executive offices today, was placed in the hands of Attorney General Sargent by request of President Coolidge before Mr. Coolidge left Washington. The commissioner was requested to remain at his post long enough to dispose of some incidental matters with which he was familiar. It is now expected that the resignation will become effective within a few days.

A few whole cloves added to the fat in which doughnuts are fried gives them a very pleasing flavor.

## HERRIOT AIMS AT DEFENSE OF FALLING FRANC

Premier Presents Ministry To President Doumergue This Morning; De Monzie Is Given Finance Portfolio  
Party Spirit Is Cast Aside, Says Premier  
De Monzie Indicates He Will Ask For Same Powers That Briand Sought Last Week  
PARIS, July 20.—(AP)—Premier Edouard Herriot had a new cabinet today with Anatole de Monzie holding the portfolio of minister of finance. "My cabinet has but one aim—the defense of the franc," said M. Herriot to President Doumergue when he presented the ministers at the Elysee Palace early this morning. "Apart from all party spirit," the premier added, "the cabinet promises the country an energetic administration. It requests the nation to preserve that calm which is one of the indispensable elements for the recovery of the franc."

M. Monzie, who was minister in Herriot's cabinet of last year, said that the government would not have recourse to inflation but at the same time the minister of finance would be helpless without "certain latitude and certain liberty of action." He added that when he asked for a vote of confidence in parliament he would also ask that means of action be accorded it, so far as financial questions were concerned. This was interpreted to mean that M. De Monzie would ask very much the same full powers as Aristide Briand's government had requested.

The request of such power for M. Briand and his finance minister, Joseph Caillaux, led to the defeat of the Briand ministry last Saturday. If M. De Monzie's wishes are granted he will move an adjournment of parliament until October. M. Herriot is opposed both to credits abroad and the use of gold reserve of the Bank of France to stabilize the franc believing this can be accomplished by "national efforts" which will be furnished by vested capital. In the new ministry there are eleven radical and radical socialists.

## Grand Jury Begins Investigation Into 2 Macon Slayings

MACON, Ga., July 20.—(AP)—A grand jury today began an investigation into the double murder July 19 of E. W. Wilson and his fiancée, Hilda Smith, who were shot to death as they sat in an automobile on a lonely road near Ed Glover, a negro, has confessed the crime, saying he shot the couple in self defense. Glover yesterday was formally charged with murder. He was sworn out in Municipal court. In a statement last night Glover told police and newspaper men that he came upon the couple while he was hunting rabbits. Wilson, he said, asked his companion for his pistol and Glover, believing he was about to fire, discharged his gun at Wilson. He then released and shot Miss Smith.

## Bids On Two School Construction Jobs To Be Opened Wednesday

Bids on two proposed school construction jobs will be opened at 10 o'clock tomorrow morning by the Seminole County Board of Public Instruction in the office of County Superintendent T. W. Lawton, it was announced today. The board will receive bids on a four-room addition to the Lake Monroe school building, which is located five miles west of Sanford. Bids will also be received for the construction of a two-room school building for negroes in Booker-town, one mile west of Lake Monroe. The site was given by the development company. The new school will replace a building located on private property.

## Embezzlement Charge Faces Butcher Nabbed By Seminole Officers

C. R. Stortant, said to be wanted on a charge of embezzlement by Broward county authorities, was arrested this morning by Deputy Sheriff C. C. Stephenson in a Sanford meat market, where he was working as a meat cutter. Sheriff C. M. Hand wired the Broward County sheriff of the arrest, and a deputy will be here tonight to take Stortant to Fort Lauderdale. Stortant is alleged to have embezzled a small sum of money from G. H. Thompson, of Fort Lauderdale.

## Widow and Children of Murdered Publisher

At the left is Mrs. Don Mellett, widow of the Canton (O.) publisher who was shot to death following his editorial war on vice and graft. Above are their children. Betty is at the left, Evans in the center, Jean at the right and Bartha in front. At the top, a sketch shows how Mellett was shot down.

## JURY MAY CLOSE SESSION WITHOUT FINISHING PROBE

Failure To Find Missing Radio Operator Causes District Attorney To Halt Inquiry; Letter To Be Read To Jury  
LOS ANGELES, July 20.—The county jury, investigating the Aimes Semple McPherson kidnaping case probably will adjourn today without completing the inquiry due to the inability to locate Kenneth G. Ormiston, friend of the Evangelist and former Angelus Temple Radio Operator. Ormiston is described by district attorney as a "necessary" witness in the case because of the testimony of several witnesses that he accompanied the evangelist on visits to several cities following her disappearance May 18. When the grand jury convenes today deputy district attorney Joe Ryan plans to read a letter purporting to have been written by Ormiston about the kidnaping of the evangelist. The letter is said to have come from New York. Ormiston is said to have entered a general denial to reports that he was seen with the evangelist after her disappearance. District attorney Keyes said the letter contained no information of value to the solution of the mystery except general statements. Keys said the hand writing was Ormiston's. The writer, according to Keys, gave the district attorney permission to turn the letter over to the grand jury or throw it in the waste basket. Ryan also plans to give evidence which is alleged to contradict statements in Ormiston's letter.

## City Council To Pay Cop's Dental Bill

ATLANTA, Ga., July 20.—(AP)—The front teeth of a policeman, shot out recently by a negro he attempted to arrest, will be replaced by city council. Without a dissenting vote, the council adopted a resolution appropriating \$125 to replace the teeth of Patrolman C. K. Hudson which were pulled by the bullet.

## ANOTHER PLOT TO BOMB JAIL BARED BY COPS

Guard Overhears Telephone Conversation On Crossed Wire And Informs Officials  
CHICAGO, July 20.—(AP)—A second plot to bomb the Cook county jail, was reported last night by officials investigating the explosion of a dynamite bomb inside the jail walls yesterday, believed to have been part of a plot to liberate several prisoners accused of murder. A guard whose name was withheld said he had been cut in on a crossed telephone wire by mistake and overheard a man believed to be a prisoner, say that "we'll get the place next time, by going at it from the state's attorney's side of the building and there won't be any slip."

## July Construction Figures May Eclipse Those Of Last Year

Sanford construction figures for the month of July up to today, already give promise of exceeding the total in permits for the corresponding month of last year, a comparison of figures revealed today. The total for the entire month of July, 1926, was \$116,500, according to the building permit records in the office of City Clerk L. E. Phillips. Permits issued up to noon today totaled more than \$102,000, or less than \$14,500 for the entire month of July last year. With 10 business days remaining in this month, and the probability of permits being taken out in the next few days for construction work that is already under way or scheduled to start shortly, City Clerk Phillips believes the 1928 building program will easily exceed that of last year.

## Philippine Senate Overrides Governor

MANILA, July 20.—(AP)—The Philippine senate today passed a resolution overriding Governor Wood's veto of a bill to increase the number of members of the Philippine National Forest Service. The bill, which was vetoed by Governor Wood, would increase the number of members of the service from 10 to 15. The senate's action is believed to be a significant step in the development of the Philippine National Forest Service.

## AFFAIRS OF BANK WILL BE PROBED BY COUNTY JURY

Inquiry Opened In Atlanta Today Into Business Dealings Of Bankers Trust Co., Blamed For Recent Failures  
ATLANTA, Ga., July 20.—(AP)—A Fulton county grand jury today began an investigation into the affairs of the Bankers Trust Company, whose financial embarrassment has been officially blamed for the closing of banks in Georgia and Florida last week. A federal receivership for the Trust Company was granted after Atlanta creditors brought bankruptcy proceedings following the appointment of a temporary receivership in Fulton county Superior court. Atlanta creditors proceeded in Federal court, declaring that the acceptance of the temporary receivership was evidence of bankruptcy and further alleging that funds had been paid to "preferred" creditors. Solicitor General John A. Boykin then appeared before Judge G. H. Howard in Fulton county Superior court and asked for a grand jury investigation of the company's affairs. He told the court that the stockholders of the Trust Company had complained to him about certain expenditures by the officials of the company. W. D. Manley, present at the Trust Company, issued a statement Saturday, in which he offered to assist the grand jury in its work. Meantime the banking situation in Georgia and Florida remains good, officials of the banking departments of the two states declare.

## Fire Fighters Still Battling Big Forest Blaze In Northwest

MISSOULA, Mont., July 20.—(AP)—Heavy clouds of smoke overhung timbered regions in the northwestern part of the United States as several thousand fire-fighters continued their battle with forest and brush fires that have wrought extensive damage during the last ten days. Through California, Nevada, Idaho, Washington and Montana the fires raged on. The last of available "United States" troops from Fort Missoula were sent into the fire lines in western Montana last night in an attempt to control blazes that have covered upwards of 30,000 acres on all sides of the Glacier National Park.

## Bandits Shoot Negro And Flee With \$16,000

ST. LOUIS, Mo., July 20.—(AP)—Five or six robbers today shot and wounded Sandy Morgan, negro messenger of the City Trust Company, when he resisted a hold-up and escaped in an automobile with \$16,000. The robbery was at Twelfth Street and Washington Avenue, a busy corner in the wholesale district. The messenger was shot in the left leg and hip and received several wounds when struck over the head with the butt of a revolver.

## Court Issues Injunction To One Kansas City Radio Station Against Another

CHICAGO, July 20.—(AP)—A federal court today issued an injunction against one Kansas City radio station from interfering with the broadcasting of another station. The injunction was issued in a case involving the station known as W. C. C. The court's action is believed to be a significant step in the development of the radio industry in Kansas City.

## Officers May Link Pittsburgh Gunmen With Mellett Slaying

Authorities To Fight Habeas Corpus Proceedings Of Psyllia Greek Held In Case  
CANTON, Ohio, July 20.—(AP)—Theories that Pittsburgh gunmen killed Don R. Mellett, Canton publisher, were strengthened at a conference today between Peter Connors of the Pittsburgh homicide squad and Ora Slater, Cincinnati detective, conducting the investigation for Stark County. After the conference, Connors stepped back to Pittsburgh to fight habeas corpus proceedings brought by George Psyllia, "George the Greek," held in Pittsburgh in the investigation of the murder. Enroute to Canton, Connors stops at Warren to check phases of an alibi offered by Psyllia concerning his movements Tuesday night and Friday morning. Mellett was killed shortly after midnight Friday.

## BAPTIST STATE JUNIOR COLLEGE PLANS ADOPTED

Dr. King Of Sanford, Member Of Trustees' Board, Goes To Meeting Held To Consider Plans Of Architect  
Tentative plans and pictures of the proposed new Florida Baptist Junior College were submitted to the board of trustees Monday at Sebring, according to Dr. F. D. King, pastor of the First Baptist Church of Sanford, and a member of the board. The trustees have selected a site for the institution at DeSoto City near Sebring, and have raised approximately \$150,000 toward the building fund, Dr. King stated. The board selected Tyler and Co. of Lakeland, architects, to draw the final plans. A number of architects presented tentative plans yesterday. The Lakeland firm has specialized in the drafting of plans for schools and colleges, it was said.

The first unit of buildings will cost approximately \$400,000, Dr. King, who attended the board meeting for the first time, said today. The trustees plan to raise the greater amount of this sum before starting construction work. The junior college plan will be explained to Florida Baptist associations by Rev. R. W. Thlot of DeLand, who was selected as educational director yesterday.

To Name Finance Head Soon  
The financial manager of the campaign will probably be announced at the next board meeting, Dr. King said. The special committee, which was to report on the matter, through its spokesman said that the man wanted for the work was out of the state at this time. There is an imperative need for a junior denominational college in the state according to the Sanford pastor. "Scores of our young Baptist people are going out of the state," he said, "to get their junior college training. We feel that a junior college is badly needed so that they can enter Stetson or any other college with the education they need."

The curriculum will probably include high school or academic courses, two year course for medicine, and the first two years work in the arts and sciences, although this has not been definitely determined. The next board meeting will probably be held in a month at the call of the chairman.

Slater and Connors were joined in conference by H. J. Burton, Columbus detective, employed by the Canton Daily News. Write Is Obtained  
PITTSBURGH, July 20.—(AP)—Counsel for George Psyllias, held for questioning in connection with the slaying of Don R. Mellett, Canton, Ohio, publisher, today obtained a writ of habeas corpus on the Pittsburgh Detective Bureau to show cause why he should not be released from custody. The writ, signed by Common Pleas Judge Joseph Swearingen, was made returnable tomorrow.

## Dollar Day Sales To Be Held August 3-4

"Community Dollar Days" will be held on August 3 and 4, a special committee on the Sanford Retail Merchants Association decided at a special meeting Monday night. It is said to be the first time in the history of the association that community dollar days have been held in Sanford. Members of the association pledged their co-operation in making the event a success at a dinner-meeting held last Tuesday night at the Seminole Cafe. Display windows will be trimmed especially for the occasion, and merchandise offered at special prices will be attractively arranged, it was said. The object of the retail association is to make Sanford a greater trading center, according to Albert Raffald, chairman of the special committee.

## Minister On Trial Before Board For Alleged Immorality

STATESVILLE, N. C., July 20.—(AP)—Rev. Ashley Chappell, D. D., Pastor of the Central Church of Asheville, N. C., today was arraigned before a court of the Methodist Episcopal Church South, on a charge of immorality, growing out of his arrest in Memphis, Tenn., on a disorderly conduct charge. Twelve ministers chosen from the western North Carolina Conference have been assigned by presiding Bishop E. D. Munsom of the district as a jury. Dr. J. G. Pretyman, of Gastonia, will preside in the trial. Rev. C. M. Pickens, of Albemarle is in charge of the prosecution of the accused minister before the Ecclesiastical Board. Representing Rev. Chappell as counsel is Dr. H. K. Boyer, once a legal practitioner, now pastor of a church in Shelby, N. C. Dr. Boyer, who has made a personal inquiry into the circumstances surrounding the pastor's arrest in Memphis, said today he expected a favorable outcome of the trial. "I expect to rest the defense on the story of the affair as told by Rev. Chappell and testimony by laymen," he said, with some questions he obtained in Memphis as a reserve to be used only if necessary.

## Bandits Shoot Negro And Flee With \$16,000

ST. LOUIS, Mo., July 20.—(AP)—Five or six robbers today shot and wounded Sandy Morgan, negro messenger of the City Trust Company, when he resisted a hold-up and escaped in an automobile with \$16,000. The robbery was at Twelfth Street and Washington Avenue, a busy corner in the wholesale district. The messenger was shot in the left leg and hip and received several wounds when struck over the head with the butt of a revolver.

## Court Issues Injunction To One Kansas City Radio Station Against Another

# Immigration Bureau Under Agriculture Department Is Spreading Game Of Florida

ALLAHASSEE, Fla., July 20. — "That the immigration bureau spread the gospel of Florida," a general saying in Capitol circles, and that branch of the State Department of Agriculture is anything but asleep at the office.

The authority for this statement comes from the mailing department of the Immigration Bureau, where Uncle Sam derives a goodly amount of revenue from the Capitol building.

Thousands of pieces of literature are despatched from the Immigration Bureau yearly. Roughly speaking, the number for the past year would probably reach some 100,000 booklets, pamphlets, bulletins, and any other material the bureau can get its hands upon to assist the world with the opportunities of the Sunshine State.

Following was the Immigration Bureau's mailing for the year gone by:

Florida at a Glance, 20,000.

Handbook for Florida Growers and Shipper, 20,000.

Florida Sunbeam, two editions, 20,000.

Florida Today, 20,000.

Bulletins with timely subjects for all classes of farmers, 12,000 each quarter.

Supplemental bulletins on similar subjects varying from about 5,000 to 7,000.

A local printer now has on his presses a book entitled "All Florida."

Twenty thousand copies will be printed. This book represents the most ambitious effort yet put forth by the bureau since the publication, "Florida Today," which attracted wide attention. "All Florida" will consist of write-ups

of the 67 counties of the state, profusely illustrated. It will include, particularly, articles on places of historical and natural interest, with pictures of a number of them.

"All Florida," according to T. J. Brooks, director of the bureau, will be published on approximately fifteen tons of paper. It is expected to be issued about August 1, and will be mailed by the bureau to all chambers of commerce, boards of trade and state institutions. It is primarily intended for answering advertisements; however, Mr. Brooks said.

"All Florida" is the product of the joint efforts of Mr. Brooks and Phil S. Taylor. The latter is advertising director of the bureau. In addition to "spreading the gospel" by books, pamphlets and bulletins, the Immigration Bureau is still reaching the masses through the newspapers. Mr. Brooks stated. Advertisements are being run in Kansas, Ohio, New York and Indiana farm publications, and the results were described by the director as being "splendid."

The bureau recently "invaded" Canada for the first time. The volume of incoming mail at the Immigration Bureau attests to the State Department of Agriculture's efforts in behalf of Florida. Letters from all sections of the country are received daily, and frequently communications come from foreign countries.

"Let the Immigration Bureau spread the gospel for Florida," goes the rounds of the Capitol.

"We believe that we are doing it," said Mr. Brooks. "At least we are always 'caught' trying."

# University Of Florida Will Have Few Changes In Faculty For Coming Year

UNIVERSITY OF FLORIDA, Gainesville, July 19.—(AP)—Very few changes have been made in the faculty of the University of Florida for next year, according to Dr. Albert A. Murphree, president.

Professor W. J. Matherly will head the School of Business Administration and Journalism, and will have as his assistant in that department, H. W. Gray, M. S., professor of accounting; C. A. Curtis, professor of finance, and N. O. Phillips, assistant in economics and foreign trade. These men will replace Professors Sharp and Crandall.

No other changes have been made in that department. Elmer D. Hinkley will be assistant professor of psychology to succeed Professor Connolly, resigned. Professor Hinkley is a former Florida graduate.

Only one change has been made in the chemistry department. Robert C. A. Goodman will fill the position of assistant professor of chemistry, made vacant by the resignation of Professor Otto.

A new department has been added this year to fill a long need, that of public speaking. J. S. Buchanan will head the department and coach the debating team.

# Alabama Will Send More Homeseekers To Florida This Fall, Says H. S. Long

"Alabama interests have more faith and confidence in the state of Florida now than last winter when times were so hectic, and the real estate market was active."

The attitude of Alabama investors was described in the above fashion today by H. S. Long, manager of the Sanford Realty Company, who has returned from a two-weeks' tour of Alabama with his family.

Mr. Long is a native of Jasper, Ala.

"I talked to an official of an investment house of Birmingham," Mr. Long said, "and he declared his faith in Florida was greater now than during the so-called boom. The state is on a more firmer basis now with the speculation era over."

"Florida and the great Central section of the state will see more homeseekers pouring into the state

this fall and winter than during the past year, Mr. Long predicted. He based his opinion on interviews he had with various persons in different Alabama sections.

"They told me they didn't want to come to Florida during a boom in the Sanford real estate man said. Land prices were too high, they said. They heard they couldn't get hotel accommodations and that restaurant prices were high. They get a different story now that speculation is of the past. Prices are more reasonable, they have been told."

"I talked to farmers who told me they were coming to the 'Sunbelt country.' They are coming not to speculate, but to cultivate the soil."

Hundreds of automobiles with license tags of other states were seen on the highways of Florida by Mr. Long, especially in the vicinity of Lake City. Mr. Long said he counted 102 license tags on cars from outside of the state.

# MARKETS

CHICAGO, July 20.—(AP)—Rains in the northwest affording some relief from the drought, and heat which have been damaging the spring crop brought about an early upward swing of wheat values today. Opening half of 1 1/4 lower, the wheat market soon showed a maximum setback of about 2 1/4 cents. Corn and oats were relatively firm, corn starting at 1/2 off a 1/2 up and later showing moderate gains. The provisions market sagged.

In addition to timely rains helped to the spring crop, another distinctly bearish factor was operative in the wheat market today. First deliveries of wheat on July contracts were made. Although the amount of wheat thus handed over was small, the event signified the fact that a heavy movement of new winter wheat from the central states is just beginning and that some difficulty may be experienced in readily absorbing large early arrivals here.

Advices were at hand today that cutting of spring wheat was expected to start in South Dakota next week. However, other reports available appear to indicate that under such circumstances no crop improvement in that state or in southern Minnesota should be expected regardless of weather.

CHICAGO, July 20.—(AP)—Potatoes: receipts, 43 cars; U. S. shipments, 377; on track, 245; trading fair, market about steady; Kansas and Missouri sacked Irish Cobblers \$1.50@1.75; Virginia barrel Irish Cobblers \$4.00@4.35.

WALL STREET OPENING

NEW YORK, July 20.—(AP)—Some confusion of price movements marked the opening of today's stock market and financial circles began to show uneasiness over the mixed financial situation in France. Profit-taking sales impeded advance in some prominent industrial and rail.

U. S. Steel, General Motors, General Electric, U. S. Cast Iron Pipe, Allied Chemical & Dye and American Zinc preferred all last ground.

Indus Motors gained nearly four points in the early dealings.

Northern Pacific and other western rail shares recovered slightly from the slump which followed their failure to obtain an increase in freight rates. Most of the foreign exchanges, including Belgian

# STORY OF THE FIRST TRIP THROUGH EVERGLADES GIVEN BY L. CHURCH

"You see," he said to Mr. Ingraham, pointing to a map which lay between them, "we know that rivers of considerable size run into the gulf on the west, the bay of Florida on the south, the Atlantic on the east and if this map is correct, into the Okeechobee on the north. Now if this is true, there must be a divide within these Everglades between the headwaters of these rivers, or else a large basin or lake from which they all flow. If we find the lake it will be an easy matter to dig a canal across it, while if we find the divide as I anticipate, we ought to be able to cut our way through

it had brought a hunting coat, its pockets filled with crackers and cans of potted ham and a coffee pot and some coffee. When he awoke that day and exhibited his six feet, four inches of height with the picturesque addition of a broad felt hat, a pair of immense top hats and jingling spurs, I was very favorably impressed with him, but when he said, "Boys, I have ridden from some coffee and crackers," I fell dead in love with him.

The most noticeable thing about George Hendry was his big eyes and his big heart. Not that they were all visible to the material eye, but if you were with him very long, one was to be perceived as plainly as the other. His large, tender gray eyes, fringed with long lashes, contrasted so oddly with his rough address and appearance, but they never missed seeing when he could be of assistance and his kind heart never failed to move men to attempt service.

(To Be Continued.)

# State Kappa Alpha Association Elects Murphree As Head

LAKE CITY, Fla., July 20.—(AP)—Dr. A. A. Murphree, president of the University of Florida, was elected president; Mayor John T. Alton, Jr., of Jacksonville, vice president and Julian B. McCarty, secretary-manager of the Lake City-Columbia County Chamber of Commerce, secretary, of the Florida Kappa Alpha Association, at an organization meeting here.

Mayor Max M. Brown, of Lake City; Captain Talmadge Young, commander of the American Legion, and Benjamin Hill Groover were appointed to draft the by-laws of the new organization.

President Murphree will later name an executive committee of the association.

Addresses by Mayor Brown, who welcomed the members of the fraternity, and Dr. Murphree featured the meeting. Messages from absent fraternity members, expressing their regret at not being able to attend the organization assembly, were read.

# Valentino Angered By Editorial Appearing In A Chicago Newspaper

NEW YORK, July 20.—(AP)—Rudolph Valentino arrived in New York today itching to fight the man who wrote an editorial "pink powder puffs," published in the Chicago Tribune.

The editorial said the shiek of the movies "should have been drowned years ago," and concluded with: "Rudy, the beautiful gardiner's boy, is the prototype of the American Male."

He admitted writing a letter to the newspaper. He made it clear that he is not in arms against the Chicago Tribune, but merely the writer of the editorial.

CHICAGO, July 20.—(AP)—Rudolph Valentino, or some one in his name, addressed letters to the newspapers here pleading for a chance to a duel, American style, with the anonymous writer of an editorial entitled "pink powder puffs" in the Sunday issue of the Chicago Tribune.

Valentino was here yesterday en route to New York, and today the newspapers reported to have been signed by him and demanding that the letter termed a "scurrilous personal attack upon me, my race, and my father's name." The letter explained that Valentino bore no grievance toward the Tribune but only against the "cowardly writer."

# Here's Jap Davis Cup Team

This picture of the Japanese Davis Cup team was snapped after it had defeated Mexico. Left to right: Sechio Tawara, Tekeichi Harada, Zeno Shimizu (captain), and Tolsu Toha. Shimizu and the sensational young Harada make up the doubles team.

France, and Italian, Mrs. moved sharply lower with the French currency but demand sterling held firm.

Reactionary tendencies later became more pronounced as selling of the steel, motor and railroad shares increased in volume. General Motors and DuPont sold 3 1/2 points below last night's final prices and losses of 1 to 3 points were recorded before noon by United States Steel, Bethlehem, Case Threshing-Machine, American Express, Gulf Sulphur, Mack Trucks, Atlantic Coast Line and Southern Pacific. Money conditions remained easy with call funds renewing at 4 per cent.

CHICAGO, July 20.—(AP)—Butter steady; receipts, 18,450 lbs.; creamery extras, 39 1/4; standards, 39 1/4; extra firsts, 38 1/4@38 3/4; firsts, 38@37 1/4; seconds, 23@24 1/4. Eggs steady; receipts, 19,874 cases. Firsts, 27 1/4@28; ordinary firsts, 25 1/4@26 1/4.

NEW ORLEANS, July 20.—(AP)—Cotton futures opened steady; Jan. 16.00; March, 17.07; July, 17.84; Oct. 17.02; Dec. 16.93.

# OUT OUR WAY

# How do you know it's good?

WHEN you buy any product, you expect to get FULL VALUE for your money.

But how do you know you're getting it? No wise person wants to take a chance every time he buys something new—or something he has not tested personally.

Here is a test you can rely upon for safe quality and full value: "Do you see the product you want advertised consistently and persistently?"

If you do, it is good value. No sane merchant or manufacturer would continue to spend good money advertising poor merchandise. Every advertised product has been tested for you—by hundreds of other people. They have bought and approved it—else it could not continue to be advertised.

Think of this when you are making your selection of any kind of product. Choose the one that is advertised—and your money is protected.

Read the advertisements to know what is best to buy and where to get it

PARIS LETTER

PARIS, July 20. (AP)—Now that the North Pole has been flown over twice and automobiles are traversing the Saharan wastes of Africa, which once bore indications on maps but the words "Here are elephants," a society has been formed to rediscover a continent lost to sight for some 11,000 years.  
The "Society for the study of Atlantis" is a group that believes a continent in the Atlantic Ocean once connected the old and new world and that its existence is the explaining of various linguistic, anthropological and other problems. The society hopes to establish the former existence of the island continent by seeking out all traces that remain, just as six thousand years or so the existence of Japan might be proved from families that had scattered abroad if the islands disappeared.  
Roger Denigre, author of a book on Atlantis, told the meeting at which the society was organized that Atlantis must have existed in a part of geological middle ages.  
Miss Gade had the desire to swim the English channel ever since she was ten years of age. She maintains that the mental training for such a task is of far greater importance than the physical training, for she is of the opinion that when a person has acquired strong enough will power most anything can be done.  
In 1923 Miss Gade came within 11-2 miles of accomplishing her task.  
Miss Phyllis Nielson Terry is playing the role of Amazonian leader in Bouedica, in a new picture which is to be the great "British super film," portraying Britain under Roman rule.  
Edgeware, a London suburb, now is alive with ancient Britons and Romans and skilled for the mob and war scenes which will be done on a liberal scale.  
Bruce Woolf, who produced the films "Ypres" and "Zebrugge" is directing the picture, and professor Newton, of London University is co-operating to assure the historical accuracy of the production.  
Vincennes Escudero, the well known dancer from the Theater des Champs Elysees who has been giving exhibitions of Spanish dancing in London is doubtful whether English dancers will ever master the Tango.  
"Dancing in London is very good in the ball rooms," said the Spanish dancer, "but most dancers do best the Fox Trot. Even the Parisiennes, who dance better than the English cannot tango. I have found only the Argentines and the Spanish really understand the dance. And danced badly it's ridiculous. Perhaps in its simplified form it might be attempted generally in ball rooms but I do not think it should then be called the tango."

BERLIN LETTER

BERLIN, July 20. (AP)—A cult of mystics preying chiefly upon women is being sought by the police in connection with a score of "ace of spades" suicides.  
The cult in its reputed densof mystery amid gorgeous draperies and the odor of incense is said to work with decks of playing cards. The ace of spades displays the print of a black devil and the emblem of doom. The laying of cards is conducted with great ceremony. At the first sitting the ace of spades never fails to tell the women who come to be cured of disease are told that on payment of fees running up to 5,000 marks they can get more "hings" to chase away the dark Mephistopheles. The women pay and the devil never again appears. Frigid drives others to suicides.  
Fragmentary secrets of the cult were disclosed recently by a wall to do business man who found his wife hanging dead in a closet in his return home. The same night a girl 20 years old leaped from Potadamer bridge into the Spree canal shouting "Mephisto, Mephisto." She drowned before aid could reach her.  
Experiments with wireless telephony within a radius of 800 paces have been carried out with success with the government's commercial radio station at Nauen.  
Officials of the ministry of post and telegraphs announced they have talked with German officials in Buenos Aires, Tokyo and London as plainly as on a telephone call. The experiments were conducted on the most complete 10 meter wave length sending apparatus which was turned especially for the work's transmission of pictures.  
A broken umbrella has brought 3,000 francs to the city of Rouen, an English visitor to the city recently recollected that on his last visit to the town, ten years ago, his automobile in leaving to enter the race course broke a boy's umbrella. Considering himself entirely to blame, as he had not sounded a warning, the Englishman handed over the mayor 3,000 francs to be equally divided among the hospital of the poor and the disabled of the war.  
Even at the present rate of exchange the city of Rouen finds the sum ample compensation for a broken umbrella and due appreciation has been expressed by the municipal authorities.  
Although President Domergue, chief magistrate of France, shaved closely every morning he had to go over his face again at night if he is going out to an official dinner or reception.  
This secret leaked out recently when the outgoing ninth French cabinet came to Rouen to the Elysee palace at seven o'clock in the evening to present its collective resignation. A lack in con-

Press Agent Scores Again

Joyce Kilmer, who took a somewhat public bath that washed Earl Cautel's criminal court in New York, sampled Chicago's courts too at noon as she got to that city. She was arrested for speeding, driving with no lights and talking rudely to the cop who pinched her, and she shows her in police court, where she got a \$50 fine. Her lawyer is Truman F. Wilcox, who arrested her.

D. 1926, at the Court House in Sanford, receive bids for building of approximately 2000 feet of hard surfaced road known as the Geneva Cemetery Road, same to be built of Lime Rock base Finley Method, plans and specifications may be had from Fred T. Williams, County Engineer bids must be in the hands of the Clerk on or before 10 o'clock A. M. August 2nd, A. D. 1926. The Board reserves the right to reject any or all bids.  
Witness my hand and official seal this the 10th day of July A. D. 1926.  
(Seal) V. E. DOUGLASS  
Clerk Board of County Commissioners.

**SANFORD GROVE**  
"Amid Majestic Pines"  
  
In What Direction Is the City Growing?  
  
A question that many people ask themselves and never take the trouble to look up the answer. A brief study of local history will show that Sanford's residential section is moving east and south.  
  
In the southeast section of the city many people are buying home sites. Many shrewd investors, having studied the trend of building for many years, are placing their money in this section of the city. They can't go west, nor south—the lake cuts them off on the north and directly east is the St. Johns river.  
  
Sanford Grove occupies a prominent position directly in the heart of Sanford's great residential district. It deserves your consideration as a future place in which to build.

**You can pay more—but there is no better**  
  
REGARDLESS of how much you pay, no other cigarette is so satisfying as a lighted Camel. No other is so good, so full of quality through and through.  
  
No other cigarette ever made such a hit with the world as Camel. Millions cheered the arrival of this famous cigarette—because of its ever-dependable quality. Camel is overwhelmingly the world's favorite smoke.  
  
Camel championship lasts through the years, because for satisfying pleasure, for downright enjoyment no other cigarette is within a mile of Camel. It's simply impossible to smoke enough Camels to tire the taste. They never leave a cigarette after-taste.  
  
And mere money has no voice in Camel preference. Millions who could easily afford to pay the highest price, buy and smoke only Camels. In all walks of life, "Have a Camel" is recognized as quality password to the utmost in cigarette.  
  
We invite you to try Camels. Into this one brand the world's largest tobacco organization puts the utmost that money can buy. If you want the tastiest smoke that ever came from a cigarette—  
**Have a Camel!**  
R. J. Reynolds Tobacco Company, Winston-Salem, N. C.
