A grandmother at 82 enters work at the gymnasium in St. Louis says a dispatch. With eight per cent beer in St. Louis most any kind of miracles can be performed.

A raiding party in Orange county yesterday captured a still, some clothes, and a Ford. If this bootlegging continues some of the raiders will get a house and lot.

Old Mount. Aetna continues to spout. Good place for some enterprising Italian to start a bootlegging joint. All the smoke would go up through the crater, as it were.

Higginbotham who whipped a lad to death in the Putnam Lumber Company camp is on trial for his life this week. We believe he will get a fair trial and that justice will be meted out at Lake City where the trial is in progress.

SEMINOLE COUNTY FAIR.

Seminole County should have a county fair and steps should be taken to have a real fair grounds before the price of lands in this vicinity go too high to make it a profitable enterprise to own a fair ground. There are several good locations near this city that could be purchased now and that could be used for fair purposes for the next ten years or more and in that time would be worth ten times as much for city lots. Aside from this feature of the project the county fair would be a great thing for the entire county of Seminole. It would stimulate county pride to an extent never reached in taking a county exhibit to the Orlando Fair and it would bring the various units of the county closer together in a great working body. The fair grounds would also be the athletic grounds and the new ball park and a general place of amusement and all year round place to gather. There is nothing quite like a county fair grounds in a great farming community as Seminole County. We should begin getting together on this great project and at least take an option on several sites this year even if nothing else is accomplished. Other counties are going after the county fairs as the following from the DeLand News would indicate:

"Active work looking forward to the organization and promotion of a Volusia county fair has started. Committees have been appointed to ascertain what the requirements for the first year will be in buildings, race track and other improvements, to gauge sentiment in every nook and cranny of the county and to appear before the board of county commissioners in an effort to obtain some financial assistance from this quarter.

"A county fair in Volusia will be of untold benefit to the entire county. It will benefit no one section more than the other. Having the fair here in our own county, instead of taking exhibits to other counties, will mean that larger and better prepared exhibits of our agriculture, horticulture and manufacturing interests can be had and that as large numbers of visitors may be expected as at other fairs in this section of the state.

"A county fair will give renewed impetus to agricultural and horticultural development. It will open the eyes of thousands of visitors to the possibilities in the soil of Verastile Volusia county. It will be the means of inducing many to invest and make their homes here. It will encourage better methods of growing among the farmers and grove owners in the county. It will promote a feeling of friendly competition between the various sections of the county which should be of untold benefit to all.

"No reason against having a county fair has been advanced and reasons for having it are too many for enumeration."

"Less Than Fifty Quarts Found in Deputies Home," says the Jacksonville Journal. Well, forty-nine quarts at the present price of liquor is just about forty-eight quarts more than the average family possesses. The Jacksonville deputy was right well fixed for a poor man.

According to the geological survey Florida is the "lowest state in the union." At the highest point it is only 325 feet above sea level. We should worry about the sea level. It is much cooler in Florida than in any of the northern states at present and that is on the "level."

Laws were being openly violated in a county in Oklahoma to such an extent that the Governor of that state put Okmulgee county under martial law until such time as the people would come to their senses and agree to obey the law. This is a fine state of affairs in a civilized country. We certainly have nothing on Russia these days.

UTILIZATION OF A GREAT RESOURCE.

Bringing hydro-electric current from the Florida Power Company's plant on the Withlacoochee river to Ocala will, unless the Star is much mistaken, prove a great thing for this territory. We have heard people from several towns, notably those to the north, inquiring about the feasibility of using it. A prominent citizen of McIntosh says his town would be glad to obtain it, and in his opinion Micanopy would also. If the Camps can make arrangements with Gainesville similar to those they have with Ocala, they could not only have that city cheaper current but could add greatly to the power of their auxiliaries, as Gainesville has a plant of about the same capacity as that in this city, and the two would form a battery that could handle almost any emergency that could arise.—Ocala Star.

WOODROW WILSON.

We will not say that Woodrow Wilson is the most loved man, because that does not express the idea, but we will say that he is the most venerated and admired man in the United States. To think of Woodrow Wilson is to think of a man of iron who has been broken. It is to think of a man of great purpose who the Fates have thwarted. In the "face to face" canvass which Collier's Weekly is having conducted to see who the people want for president and in which Henry Ford is running away ahead of President Harding, it is surprising to see how many people insist on voting for Mr. Wilson. They know, of course, that he can never hold public office again. They do not vote for him to express a preference for a candidate. They simply want to show how they honor him. When the colossal gathering of Shriners assembled in Washington City a few days ago and had their great parade before President Harding, twenty thousand strong, thousands of them, with bands of music, afterward marched before Woodrow Wilson's home to show him how they honored and admired him. He is the man of history.—Gainesville Sun.

LITTLE TOWN, BIG SPIRIT.

When Shelby, Mont., gave a \$300,000 guarantee for the heavyweight championship fight, it agreed to put up more than \$500 for every man, woman and child in the town, if the population figures are correct. It is on record that Shelby has 537 people.

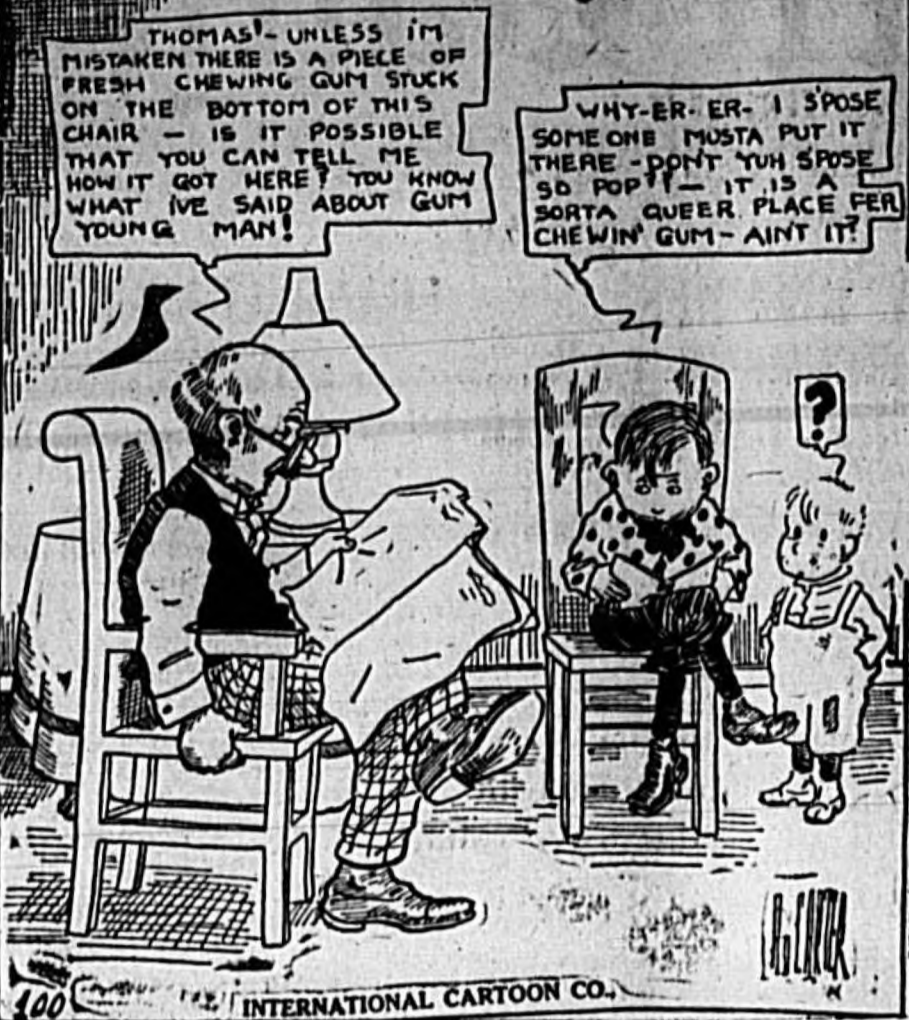

It might be expected that so great a sporting event, regarded by tens of millions as more important than any international crisis, would take place in a metropolis, or somewhere within easy reach of a great population. Shelby is a sparsely settled county of a sparsely settled section.

The sheer nerve of the Shelbyites in making their original proposition was enough to win the town lasting fame. What does it matter, then, that Shelby has failed in making good its whole big guarantee. It put up the first \$100,000, and couldn't raise the rest. Whereupon Great Falls bankers came to the rescue, for the honor of the state, and the world event is going to eventuate as per program.

After all it is spirit, not numbers, that makes a city. Shelby deserves credit accordingly. A championship prize fight, we take it, is next to a presidential convention in importance and publicity power. Shelby and Montana deserve whatever financial and other perquisites they win from the venture. And perhaps the invasion of Montana by a horde of pugilistic fans with a couple of million dollars will do the invaders even more good than it does Montana. All this, too, quite regardless of which gentlemen licks which.—Orlando Sentinel.

A GROWING SUMMER RESORT.

"Florida's Greatest Summer Resort" is the caption of the following editorial in the Daytona Journal:

"The Morning Journal today devotes considerable space to the attractions of Daytona Beach as a summer resort. It is a subject that can hardly be covered in one issue, for Daytona Beach has in the past few years become Florida's greatest summer resort and one of the south's most popular.

"For a score of years people have been coming to Daytona Beach for the summer, but it is only within the past seven or eight years that the beach has really gone after summer business. From year to year the crowds are increasing and the fame and popularity of the beach is ever spreading. The building of good roads' roads to almost every section of Florida has made the beach more accessible—the bathing, motoring, fishing and other attractions appealing to thousands.

"Awake to the possibilities of becoming the 'Atlantic City of the South' Daytona Beach is constantly building and growing and becoming more attractive to visitors, and as entertainment features are provided the throngs will continue to increase."

DELAND ON THE FOURTH.

Everything is set for Volusia county's largest celebration at DeLand in commemoration of Independence Day. From nine in the morning until 12 that night there has been something planned to occupy the attention and hold the interest of the big crowd that is expected to be here.

It has been many years since DeLand has staged its own Fourth of July celebration and the DeLand Legionners are going to make up for lost time and their plans include having events for every minute of the day that will entertain all of their visitors.

How the American People have been taught to eat Florida Grapefruit

Ten years ago it was reliably estimated that less than five per cent of the people of the United States knew anything about Florida grapefruit. Grapefruit from Florida are now more or less regularly eaten in about twenty-five per cent of American homes, according to recent investigations.

Millions of housewives buy Florida grapefruit for their families and insist that dealers supply them with grapefruit bearing the Sealdsweet trade mark.

The introduction of Florida grapefruit to such a greatly increased number of people has been accomplished by the educational advertising we have done as members of the Florida Citrus Exchange.

We, the growers who cooperate in that organization, realized ten years ago that to absorb the future production of Florida grapefruit would require an immensely greater consumer demand than existed.

Consequently, at that time we decided to systematically develop such demand by telling the public about Sealdsweet grapefruit and educating the housewives as to the food and health values they possess.

This work we were forced to do by ourselves unaided by growers outside of the Florida Citrus Exchange and under the very serious handicap of ruinous competition from the fruit of our fellow growers who market through non-cooperative and speculative channels.

We have succeeded mightily well, the results of our work making the grapefruit industry a substantial one, with a future of promise. There yet remains the task of convincing the other three-fourths of the American people that they should also eat grapefruit.

Why not cooperate instead of competing? Why not join us for mutual benefit and profit? Do you want your grapefruit and oranges as advertised that the consumption may absorb the production without reducing prices to an unprofitable level? Then join the Florida Citrus Exchange and market under the Sealdsweet trademark, of, by and for Florida. Consult the manager of the nearest association or sub-Exchange or write the business manager at Tampa, Florida.

Overstreet is the New Head Local Picture Company

Reorganization of the Associated local motion picture industry, with election of Senator Moses O. Overstreet as president, was announced yesterday. Mr. Overstreet succeeds R. E. Grable who will devote his entire time to the Orange Court Apartment hotel.

Donald A. Cheney was re-elected vice-president, Cary Hand treasurer, and W. H. R. Hecht secretary. The officers and F. A. Pepperscorn, Chas. Hapsburg Liebe, Harry S. Wilson and Harry M. Voorhis, make up the board of directors.

Declaring that the future of the company and the motion picture industry in Florida was promising, Mr. Cheney said plans are now under consideration for making several more feature pictures here. He did not disclose the nature of the plans, indicating the company will do so later. "The Broad Road," the company's first picture, has been listed as a "First National" attraction in New York and New Jersey, according to word from the distributors, the Lee-Bradford corporation of New York. Mr. Cheney pointed out that this gives the company prestige, and will increase the revenue from the picture. One of the comedies made here also will be presented as a feature after re-editing in New York, he said.—Orlando Sentinel.

Development Board Will Meet in Orlando Tuesday, July 10th

A hundred Florida business men representing chambers of commerce, banking and land interests, railroads, newspapers and other businesses will meet here with directors of the Florida Development Board July 10 to discuss the board's Greater Florida movement.

The meeting will last only one day, but will be crowded with conferences to obtain the counsel of the invited business men in making out the program for a state advancement.

"We believe the time has come for Florida to accept the challenge hurled at her by California and other progressive states," Jules M. Burguières, president of the board, said in a letter to members of the board here, the text of which was made public yesterday.

"The conference will discuss Florida's needs, present and future, and will outline a state-wide program of activities to be carried on during the next two or three years. A short program has been prepared, but the rest of the day will be taken up with informal discussions of several subjects which are to be presented," Mr. Burguières added.

It is conceded that the development board has been highly successful in its work for the state during the last year and its organization has been constantly strengthened. At present both the county and city chambers of commerce here are affiliated with it along with the commercial organization of most of the other important cities of the state. William Edwards, president of the Orange county chamber of commerce, is a director of the board and is actively interested in arrangements for the approaching meeting.—Orlando Sentinel.

GIBBONS OUTRANKS ALL OTHER BOXERS DEMPSEY HAS MET

(By The Associated Press) NEW YORK, June 28.—When Tommy Gibbons, St. Paul heavy-weight, steps into the ring at Shelby, Montann, July 4 against Jack Dempsey, the champion, he may be compared in some respects to "Gentleman Jim" Corbett when that dapper boxing wizard squared off against John L. Sullivan at New Orleans in 1892. Gibbons' chances against Dempsey have been belittled by a majority of the experts, and indeed, the Minnesotan hardly appears heavy puncher enough to flatten the Coloradan. But like his middleweight brother Mike, "The Phantom," Tommy is a master boxer, cool in combat, always clever, always fast, and a puncher of no mean ability.

At least a year older than Dempsey, an inch or two shorter and really a light-weight, Gibbons may not be able to stand before the champion for 15 rounds. Except in age—Corbett was nine younger than Sullivan when they met at New Orleans—Gibbons and Dempsey will be like "Gentleman Jim" and "Terrible John L." in that famous scrap of 31 years ago.

Sullivan's terrific punching power, like that of the Dempsey of today, caused many a sturdy opponent's knees to quak when he thought of it, and many of them were defeated by fear before Sullivan laid a glove on them. Not so Corbett. When Jim took his corner at New Orleans John L. scowled, shuffled his feet and spat on the ring floor, his customary greeting. Ji laughed and chatted with ringsiders as the gloves were being pushed upon his hands. He paid no attention to Sullivan.

Through the rounds, as agile Jim sidestepped Sullivan's bull-like rushes, the champion became infuriated. Came then the famous twenty-first round, Corbett still strong and smiling. The wear of the fight had told on Sullivan; he was angered, but even then had he been able to punch Corbett solidly he would have retained the title. Corbett landed five crushing blows to the jaw.

Sullivan kept his feet, but his eyes began to roll. He was tottering. Corbett measured his man. The right landed on the jaw point. Old John's knees sagged and he keeled slowly over.

The great champion, batterer-down of a hundred heavy-hitting opponents, had been defeated by a master-boxer.

Dempsey, no champion, has never met a man as well-versed in the game as Gibbons. Carpenter, the one-punch man, could not evade the Dempsey rushes. Bill Brennan was more than once a punching bag. Awkward Billy Miske was another. Willard, stunned by the first of Dempsey's blows, was an easy target until the end.

Tracy Withdraws as Chief Executive of the Championship Fight

SHELBY, MONT., June 28.—Dan Tracy, pioneer Great Falls mining man and hotel owner, suddenly withdrew from the position of executive in charge of the business management of the Dempsey-Gibbons fight last night. Tracy said his withdrawal was due to his inability to adequately protect the new capital put into the promotion at the time the second \$100,000 installment was paid Jack Dempsey June 15. Mayor Jim Johnson, treasurer of the fight, said that Tracy's withdrawal would not prevent the holding of the bout.

Tracy was placed in charge of the business management of the fight ten days ago at the request of Great Falls business men who contributed to the \$100,000 installment due Jack Dempsey at a time when it appeared that the money would not be raised.

"I came here to see that the Great Falls men who have \$17,000 tied up in this fight, got their money back," Tracy said. "It's not in sight now and I'm going back to report to them. I am through with any further connection with the fight. I cannot say whether the Great Falls people will send somebody else here to represent them."

Tracy left last night. Whether his withdrawal leaves the business affairs of the fight entirely in the hands of the original promoters was uncertain last night, although they assumed immediate charge.

GREAT FALLS, Mont., June 28.—Expressing himself as hopeful that the \$100,000 due Jack Dempsey as the final installment of the \$300,000 guarantee to fight Tommy Gibbons July 4, would be in sight today, Geo. H. Stanton, a Great Falls banker, declared last night that the money would be raised without a doubt before July 2nd, the date the amount is due Jack Kearns, Dempsey's manager.

Stanton, who advanced \$50,000 to help make the payment of the second \$100,000 installment ten days ago, said efforts were being made to have the money advanced by the Great Northern railroad. If this proposal failed, the business men and bankers of Great Falls would be asked to advance it.

"We raised the second \$100,000 without much effort and it is my belief we will not have much trouble getting the final installment," Mr. Stanton said. "All that we need to make the show a success is the final installment for Dempsey."

"It is my honest opinion that Montana will not allow this thing to result in a failure. The state would never live it down."

With Kearns in Shelby in the interest of financial matters, Dempsey continued training, boxing six rounds with a trio of light sparring partners and doing other exercises that made up a workout equivalent to nine rounds.

Grandmother Enters Gym Work at Age of 78

ST. LOUIS, June 28.—She's 78 years young and attends gymnasium regularly.

That's the proud record of Mrs. Dorothy Schulz—more familiarly known as "Grandma" here.

Her friends say no bob-haired flapper is more athletic than she.

"How come?" interrogated the perplexed reporter.

"Plenty of exercise, lots of time spent in the gym, and 24 hours a day devoted to loving fellow beings," she answered.

"How about dancing. Does that help keep one young?"

"During my youth I was very fond of dancing," she said. "We often stayed up till the wee sma' hours, in those days. But dances were different than they are now."

"You can say I am 78 years young—not old. And that I expect to be here for a long time to come. Prob-

A New and Better Buckeye Service for Growers in the Central Lake Region

In the future Buckeye Nurseries, will maintain an office in Orlando, Florida, under the direction of Mr. Harry E. Doty. This office will be located in the Drew Building, 30 East Church Street. It will be especially devoted to the interests of citrus growers in Seminole, Orange, Lake, Osceola, Sumter and Volusia Counties. The territory covered by these counties, commonly known as the Central Lake Region of Florida, of which Orlando is the citrus center, is rapidly forging to the front in grapefruit and orange production. Not only are there greatly increased plantings and corresponding enlargement of output in this section but the growers who operate therein are paying more and more attention to the quality of the fruit they produce. Buckeye Nurseries firmly believe that all danger of over-production in Florida citrus fruits may be easily avoided by the growing of grapefruit and oranges of the better grades—for which there will always be demand—and by the use of proper marketing methods. The history of Buckeye Nurseries, since 1880, when they became part and parcel of the citrus industry of Florida, is consistent in advocacy of the production of better fruit and they have contributed notably thereto in better trees of standard varieties and in new varieties of the better kind. In view of the speedy development of the citrus interests of the counties composing the Central Lake Region and of the many advantages they possess for quality as well as quantity output, Buckeye Nurseries feel that their service should be available in a form convenient and accessible to the growers. Consequently, Mr. Harry E. Doty, associated with Buckeye Nurseries since 1913 as citrus advisor and salesman, and a substantial stockholder, has been assigned to the management of the Orlando office. Mr. Doty's connection is on such a basis as to permit him the utmost freedom in advising whatever he regards as best for growers, without reference to immediate sales of trees. The new Orlando representative of Buckeye Nurseries is a man of parts, with a splendid record for business performance, civic service and personal integrity. His familiarity with the citrus industry has been gained through twelve years as secretary and treasurer of the Cleveland-Florida Grove Company, which has 44 acres in bearing trees—from Buckeye Nurseries. Mr. Doty has regularly attended meetings of fruit growers, like the Citrus Seminar and the State Horticultural Society. All fruit men who have come in contact with Mr. Doty have been impressed alike by his ability and honesty. Buckeye Nurseries have the greatest confidence in him and in his capacity to properly represent them in the important territory of which he has been placed in charge. The advice and services of Mr. Doty are now at the command of every citrus grower in Orange, Lake, Osceola, Seminole, Sumter and Volusia Counties, who is interested in making his participation in the citrus industry more profitable, either through increased acreage or better methods.
