Climbing for Cata A boy in northern Michigan was out husting and saw two cats up a tree. The family needed a pussy about, and so he laid down his gun and took a clumb. What he didn't know until too late was that the animals were wildcats. Before he could lay hold of the cats they laid hold of him, and the doctor who attended his hurts counted up 41 bites and scratches. In hunting for cats be careful that you don't get the wrong breed.

The Man That Counts. "Remember each of you that the chance for heroic endeavor of a rather spectacular kind does not often count; that the man who really counts in this life is not the man who thinks how well he could do some hit of heroism if the chance arose, but the man who actually does the humdrum, ustkaday, every-day duties as those duties arise. --- Theodore Roosevelt.

Prize Steers Not Good Mest. The meat of more than one prise steer has proved disappointing in the esting, though fine to look at. In the development of the animal for competition his flesh is sometimes, if not always, seamed with small veins of fat which are dilated by cooking into tough strings. Hence, the range-fed steer, not nursed into prominence, affords the better steak or reast.

Hurt Fishermen's Business. A strange story comes from Frontignan, Herault, France. Recently 700 gallons of confiscated wine wate throws into a canal there by the cus-toms officers. But the wine had the effect of intoxicating the fish, which swim on the top of the water and can be picked out by hand. The housewives refuse to buy fish when they can get them for themselves, and the fishermen in the district have united to protest against the action of the sustoms officers.

Historical Spring Flowing For Hurried Readers

Rear Admiral Benjamin P. Lamberton, U. S. N., retired, who, as Admiral Dewey's chief of staff, received the surrender of the officers of the Spanish fleet after the battle of Manilla, died suddenly at his home at Washington late last night.

A company of United States marines, commanded by Capt. Edward B. Manwaring., engaged on guarding El Cuero mines near Santiago was attacked this morning by insurgents, who were repulsed after considerable firing. There were no casualties among the marines. The insurgents' loss is not known.

Baltimore awaits the coming of the delegates to the Democratic National convention, the preparations for which have practically been completed. Already the advance guard of boomers for candidates for the Presidential nominations, have pitched their camps on the battle ground and are laying the final plans of the convention.

It was somewhat of a reflection on the Republicans of Florida that the head men for their contesting delegations at Chicago were both negroes. Joe Lee and Alston did the talking for Florida Republicanism before the high court of the party. This spectacle is enough to make the self-respecting Republicans of Florida turn Democrat or something else.

American marines will be available for serving shortly after noon today. The battleship Rhode Island and the cruiser Washington left Key West early today and should make the run to Havana in six hours. Each ship, in addition to her regular complement of sixtyfive marines, carries 125 extra men. These will be landed only in case of direemergency, along with the bluejackets if necessary.

Zack Hayman Shoots and Kills in Self Defense at Osteen Volusia county, generally very peace-

able, was the scene of four murders and homicides last week. Three were told about in the last issue of The News, two occurring at Seville and one at Daytona. The fourth took place at Osteen on Saturday, when Zack Hayman, in charge of the still there, was compelled in self defense to shoot a negro who was about to shoot him. The negro had been in some trouble with others employed at the turpentine camp, and Mr. Hayman had threatened to discharge him. This word was evidently carried to the negro, who appeared at the store, knocked on the door and Mr. Hayman went to the door and opened it. The negro began to abuse Mr. Hayman and tell him that no white man could disarm him. At the same time the negro kept hitching up his trousers with his left hand and Mr. Hayman noticed a bulge in his trousers pocket. Mr. Hayman pulled his gun shot the negro through the heart, from which he died instantly. When examined a loaded and cocked revolver was found in the negro's pocket. He had been trying to edge the revolver so that it pointed to Mr. Hayman, when he evidently intended to shoot. This is said to be the fifth negro that Mr. Hayman has killed, all in self defense and under

similar circumstances. When Mr. Hayman was a young lad, he was walking along with his father, holding his father's hand, when a negro shot and killed his father. Hayman has certainly "evened up things." DeLand News.

Sheriff Smith Acquitted

Gainesville, June 7.-After deliberation for about an hour with only one vote taken the jury this afternoon brought in a verdict of not guilty in case State vs. E. H. Smith of Volusia county, charged with the murder of William C McCaskell, a white fisherman on Lake George, September 28 last. The verdict was no more than was expected, as many prominent citizens of Volusia county volunteered as witnesses to testify to the good character of the defendant, who has recently been nominated for the third term as sheriff of Volusia.

The case went to the jury by agreement without argument, but Judge Wills charge was a lengthy one and covered nearly an hour.

The New Tourist Hotel Wakes Up Property Owners

LAKE FRONT TO BE BULKHEADED

Hotel Property Will Start Movement Along The Whole Lake Front

One of the greatest improvements destined to follow in the wake of the new hotel is that of improving the lake front by bulk heading and filling in the low land all along the city front. At a meeting held this week the majority of the property owners along the lake shore agreed not only to take stock in the tourist hotel, but they will continue the work of bulk hording along the lake shore and in this way this great work will be commenced by individuals and carried out With the construction of the hotel all the lake front property will increase in value and in time smaller hotels and fine residences will grace the lake front that is now given over to weeds and piling and rotten hulls of old boats. In filling in this land a deeper channel will be made for the pleasure yachts and steamers and tourists coming to Sanford on the river will get a better idea of the city than they can at the present time. With a new hotel, a new Masonic temple, a government building and the improvement of the lake front Sanford need not fear the future, and even the Presidential election cannot retard the onward march of improvements.

Sue Everglade Land Concern

Three suits have been filed in the Inited States Circuit Court at Jacksonville asking for receivers for the Ever glades Plantation Company, the Miami Everglades Land Company and the Lauderdale Realty Company. The suits were all brought by purchasers of land, most of whom reside in the middle west. It is alleged that all of these companies writers' Corporation, composed of New York capitalists. Another allegation of importance is that the purchase funds have not been used according to agreement in digging canals, building canals, and making other improvements; but have been used to improve other properties controlled by the same interest controlling corporations.

It is alleged in the same complaint against the Miami company that the corporation owns 17,000 acres of land and is indebted by several outstanding notes totaling \$42,520, and is being sued by residents of Missouri and Kansas. The Plantation Company is alleged to own 10,000 acres of land and to be in debt by notes in the sum of \$132,814. The Lauderdale case is brought by a stockholder of the company, who is a resident of this

He was one of the oldest members of St. Johns Lodge, No. 8, K. of P., and an honorable, high toned and greatly respected gentleman.

Surviving him are a broken hearted widow and eight children, to whom in their great bereavement and sorrow the deepest sympathy and condolence of our entire populace go out. The funeral will be held from the late home of the deceased this afternoon.

A coroner's jury was impanelled by Justice Marshall this morning and an exhaustive and thorough investigation of the case made at the court house. Nine witnesses testified, all of whom stated that the drivers of the cars, Mensrs. Howard Rowton and Herbert Miller, were not going at a high rate of speed at the time and that the blinding rain which was falling prevented them from averting the sad occurreance. A large number of friends of all parties were present at the hearing and intense interest was manifested in the evidence adduced. The jury was taken to the scene of the deplorable occurrence and shown by eye witnesses the manner in which the accident happened, also by a diagram which had been prepared for the purpose.

After due deliberation the six talesmen rendered a verdict to the effect that Mr. Bruce came to his death as a result of an unavoidable accident and recommended that the county authorities require the city council to forthwith enact and have enforced such ordinances relative to automobiles as will compel them at all times to be provided with proper horns and signals of danger and the prevention of the standing at long periods of other automobiles or vehicles of any sort on the streets, which may in any way obstruct said thoroughfares or impede traffic.

EVEN THE GATE POST NOT IN IT

Chief to Among Ye Taking Notes f faith, He'll Prest 'Em"---So Says Saunterer.

T What a difference the rains make in the disposition of people. Since the steady downpour has taken up its residence with us it means that every man and his brother have lost their last friend on earth and even his mother-inlaw. I have it straight from the weather prophet that the rains will continue until the moon changes and when that occurs can best be told by the calendar. But meantime the rain continuss and we can't attend revival meetings or base ball or the moving picture shows or even go fishing and life is hardly worth living even in Sanford.

There was a rumor last week that the city council had held up the building of the new depot, but such was not the case. If the work is held up it is on necount of the recent rains for all that the city council wants is request in the usual manner for the right to construct a depot. Every individual and corporation and what not asks this permission and the railroad company is not exempt. I hardly think that the city council wants to retard the work of comtraction on the new depot, for every one is anxious for the work to proceed. There is a way to do all these things and the right way should be followed. No hitch in the new arrangements of the railroad should occur and we hope the fine new structure will be pushed through in time to gladden the eye of the fall tourist. The new depot should prove a drawing card for this city and all of us are proud of the fact that we are to have the depot and that it will be on the main line.

. . .

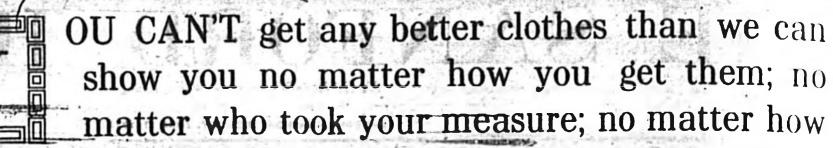

It would seem that Sanford will now have a tourist hotel commensurate with her many advantages and growing population. I have not seen the plans as yet and do not know that the hotel will be built in time for fail tourist trade but a I sincerely hope so for of all the many uchemes tried to make a bigger city here has never been anything that quite came up to the idea of a tourist hotel to bring more business to this city and a class of business that will benefit every one. It seems that the projectors of the new enterprise want the good will of the people here first, and to show their inin the hotel each inhabitant will be requested to subscribe to at least one share of the stock. This will not be a great hardship even on the smallest wage earner and stock in your own hotel will mean that you are with it and have faith in it. There is no reason why this stock should not pay dividends, and in putting in your mite you are not giving away your money, for it will be returned to you in many ways. As I learn the plans of the promoters I will have more to say on this great work and meantime let it go forward, for all of us will help in every way possible.

¶ Building fever has struck Sanforth again and for the benefit of my friends who are intending to build bungalows the following from the Pensacola Journal may be profitably followed:

There is probably nobody in this world who hasn't at some period in his career desired to own a bungalow. A bungalow is a long, rakish looking house with a porch in front and an ash can behind. You get into it by going on your hands and knees and you crawl out backward for there generally isn't room inside to turn around without upsetting two or three hundred dollars worth of furniture. The roof is so close to the floor that when you get into a bungalow you feel like a porcine portion of a ham sandwich.

One way to build a bungalow is to folzette. low the advice of magazines. According to them you can build a bungalow for any price from \$4.50 up to \$3,000, 000 and you can go a little higher than the last named figure if you want to have in the city for several hours on Saturday

A FLORIDA RATE FIGHT

Chicago Dealers File Complaint Before Commission

Chicago, June 8.-Last week a complaint was filed with the Interstate Commerce Commission against the Atlantic Coast Line railroad and other partici pating roads in ICC tariff 205 governing the rate on Florida vegetables.

Several leading Chings hand ling fruits and vegetables are the complainants, being represented by A. O. Davis, a local traffic auditor.

The complaint alleges among other things that in the handling of a considerable volume of Florida vegetables to this market during last year excess freight charges were collected on a number of cars-in fact, all shipments in a car lot way originating on the Atlantic Coast Line. The tariff in question provides that estimated weights for different kinds of vegetables shall be based on a crate whose dimensions are 8x14x22 inches, which with contents are estimated at 50 pounds. As a matter of fact, Meade, and the operation is alleged the contents of a number of cars were weighed out here over railroad scales and in a room over a fruit store on July 3, were found to run far short of the weights 1911. A few days later she died. and given in the billing and on which freight Dr. Johnson was arrested. Dr. Johnson charges were assessed and payment enforced. In other words, local dealers paid out money for Weight that was not due, according to the contentions set out in the complaint. What lends especial emphasis to the complaint is that dealdealers in other markets who have paid similar excess freight charges under the tariff in question may have an oppor tunity to secure reparation if the commission should find in favor of the Chicago circumstantial to secure an acquittal. complainants. Those named in the com- Thomas Palmer, .defending Johnson, plaint are the Geo. Middendorf Co., A. G. Zulfre & C.o, Peter Bros., and M. George & Co. It is understood, however, that several other local houses will also become involved in the controversy and will help to finance the fight against what they consider an unreasonable and unjust enforcement at the hands of the Atlantic Coast Line and other roads participating in the tariff in question.

By actually weighing packages of different kinds of vegetables on which charges are assessed under authority of ICC 205, it is declared in practically every instance that from 25 to 75 per cent excess charge has been made. The tariff provides that in case packages having greater cubical contents than the standard of 8x14x22, estimated to weigh 50 pounds, shall take a proportionately higher rate. But the actual weighing of eggplant, beans, cukes and peppers would seem to indicate that the railroad people figured on the safe side when they were looking after making the tariff. The arbitrary standand crate, dealers say, is one used only for shipping potatoes from Florida, and that reckoned on | can have it made and delivered by leavweight units in a given cubical space the railroad people very adroitly selected the Latest improved machinery insures the er was re-elected secretary. the case will come up before the commission before some time in the fall, as it usually requires two or three months to bring such matters to an issue. Dr. Johnson Found Guilty

In the trial at Bartow last week of Dr. Johnston charged with manslaughter, defendant was found quitly.

Dr. Johnson was charged with having performed a criminal operation on a young woman of Lakeland, as the result of which the young woman died. The victim, who was of a well-known and respected family, went to Fort to have been performed on her there was alleged to have been procured to perform the operation by a young man named Robinson. The latter was tried at a recent term of court, convicted and sentenced to ten years' imprisonment.

In the trial of Dr. Johnson the defendant did not take the witness stand in his own behalf and did not produce any witnesses for himself, relying on the fact that the evidence was purely thus got the closing argument before the jury, but his efforts in behalf of his client and protestations against conviction on circumstantial evidence proved of no avail.

The Only Way

An elder, while baptizing converts at a revival meeting, advanced with a wiry, sharp-eyed old chap into the water. He asked the usual question, whether there was any reason why the ordinance of baptism should not be administered. After a pause a tall, powerful looking man, who was looking quietly on, remarked, "Elder, I don't want to interfere in yer business, but I want to say that this is an old sinner won't do him any good; you have to anchor him out in deep water over

There is a widespread feeling between local receivers of Florida vegetables that thatime has now come to force the issue with the railroads regarding the Florida vegetable rates which are held to be entirely too high for as free movement in shipments from that state to Chicago as would follow if those rates were more reasonable. In other words, if freight charges are properly assessed a greater covered that the new school has never volume of trade would result.

And if it develops that the fight which has just started here is won it will pave the way for the trade generally to take up the matter and push it for the benefit of their markets or sections. Thousands of readers of the Packer all over the state of Florida, and especially along the and coast, will no doubt read with interest about what has just been started in Chiesgo. Return Candidates Money

At the meeting of the Democratic committee of Polk county, after canvassing the returns and determining who received nominations, the matter of for the conduct of the committee's affinances was discussed. It was decided fairs. by the committee to retain four or five hundred dollars in the treasury for the next campaign and return what was left to the unsuccessful candidates. This method, it was found, provided for a return to each unsuccessful county candidate of 50 per cent, of his assessment. Thus, according to this plan, the unsuccessful candidates for clerk will receive back fifty dollars, and so on with the other "also rans" in the same proportion .- Lakeland Telegram.

Bun Power Wasted.

Measurements have shown that on a clear, sunny day the sun transmitted to the earth energy which corresponded to about 7,000 horsepower per acre. At present all that is practically wasted, or rather generally in localities where any addition to the temperature could well be dispensed with. Attempts have from time to time been made to utilize this enormous supply of energy, but not with any great measure of success.

_0___ Orange county is already noted for its good roads-having probably more miles than any other county in Florida. A movement is now on foot to bond a "roads district" comprising Sanford and all the "Celery Delta" and use the money for the construction of vitrified brick main roads and shell, clay and mari laterals. If the proposition carries, several hundred thousand dollars will be expended on good roads in and around Sanford. -DeLand News.

) ----0--The Ocala Banner and the Tampa Times are having an argument as to whether Woodrow Wilson was born in Ohio and Virginia. That is easy. If he wants the support of the solid south he was born in Virginia and if he wants the support of the north he was born in Ohio and if he wants the support of both sections of the country he was born either in Missouri or Kentucky. If all the people that claim Vir ginia as their natal state were placed in a row they would reach around the world. It seems to be a foregone conclusion that to be strictly en regle a man must be from Virginia and yet our own Park Trammell is a Florida cracker.

Get here on Thursday evening in of them are almost impassable. The road from Sanford Heights is in bad shape and has washed so badly in places that the city council will be obliged to do something and do it at once. The people living on the Heights refused to be taken into the city limits because they stated at the time that the city would never give them any improvements and House Friday night. In the name of it begins to look now as though their contentions were well founded. There is no reason why they should not get a part of itor in Florida. Come and we will do the improvements that are being made in Sanford proper, and if nothing more than sand filling and dragging this road the people are entitled to it. Sanford Heights will pay city taxes now and they should get some improvements. Old Pavorites Here The Maddocks-Field Players at the Star this week are drawing large crowds in spite of the rains and last night rendered "The Girl of the Eagle Ranch" to a good house. Matinee today and tomorrow night the play that is said to take the house by storm; "When Man Turns to Brute" said to be one of the strongest plays ever produced in this city. This company is putting on some real good stuff and at the popular prices deserve the liberal patronage accorded them. Remember the great play tomorrow night and don't fail to see it. THE SANEORD MERALD

Everybody for Greater Sanford It is indeed time that Sanford was on the map and not as a place where they grow celery only, but as a tourist resort and better still, a commercial center. Sanford has opportunities lying before her to which she is utterly indifferent. Golden opportunities that she is sleeping iver. Other towns, which cannot be compared with hers in the same breath are pushing right out and taking the lead. How long will Sanford continue to grope along the same old beaten path and be pushed aside to make room

for progress? Sanford offers the tourist every kind of sport, among these we note several main ones. Boating on the beautiful St. Johns, where the lover of nature will find scenery that cannot be surpassed in the state. The angler will find the water to be full of fish of various species. All manner of game can be found within short distances of Sanford either by water, auto or horse. The autoist will find several pleasant drives before him. One to the coast passing through Orange

City, DeLand and Daytona, another to Kissimmee, via Longwood, Maitland, Altamonte, Winter Park and Orlando, and still another to Leesburg through Eustis and Mount Dora.

The commercial man would be glad to make this a center, as from here he would reach any part of the state in the shortest length of time. It would be a great saving of expense for him to be near his route and Sanford certainly has these advantages. What the traveling man wants is a good comfortable home. To do these things Sanford must have a hotel and one that will be up to date in every respect. A hotel that will afford every comfort and rank among the best in the state. If Sanford expects to progress she has simply got to buckle right down to it and make this hotel an assured thing. If she doesn't do this she might just as well give right up and see other little places take this business, 0 which is hers by right and pass her in the 0 onward march.

A hotel has been proposed and will be placed on what is known as "The Sanford House Park." This will necessitate running the park out 600 feet in the lake. To do this a sea wall will be built and the space behind it filled in. It will be only a question of a few months after the building of this wall until the entire lake front from the Coast Line to the Clyde Line dock will be made one wall. It can be readily understood what this alone will do for Sanford. It will get rid of an unsightly water front and make a clean-

er and healthier city than ever before. The building of this hotel will be the opening wedge for greater prosperity. Clyde Line from Jacksonville and the numerous daily freight trains over the Coast Line she can offer inducements to wholesale houses and manufacturers and show them opportunities that they have long passed over. Sanford can make herself one of the greatest shipping centers in the state. These outsiders must be shown and Sanford cannot sit back and wait for some one else to do it all for her. She must show she is confident in herself before she can expect others to put their faith in her. This chance is afforded you in the new hotel. You can take stock in this hotel whether you are a merchant, professional man or a salaried man. The building up of the town helps you, no matter what you are or what you do, but you have got to get right into it and help. You have a chance to make Sanford a city or let it degenerate into a village. What are YOU going to do about it7Sanford must furnish at least half of the stock of this hotel before outside capifal will take the rest, so do your part for a greater Sanford and take stock in the hotel.

----0-----**ONLY SANFORD**

Orange county is to get in the front ranks of progressiveness by holding an election to allow the people to vote on a question of bonding for good roads. The Orange county citizens are to have the privilege of spending \$200,000 on their roads in event that the election is carried successfully. The step is in the right direction and should be emulated by other counties of the interior which are now suffering because of their poor roads. -Jacksonville Metropolis,

The Jacksonville Metropolis ought to subscribe for the Sanford Herald and keep posted on affairs in Orange county. It is only the Sanford district that will vote \$20,000 in bonds for brick roads and while the rest of the county may do this some time they did not grasp the opportunity as quickly as Sanford. This end of the county is usually in the fore when it comes to improvements and the Metropolis should remember this.

-0-FIRE INSURANCE GOUGE

In another part of this issue is an able article from the pen of Editor Codrington of the DeLand News respecting the exorbitant rates charged by the fire insurance companies who are bleeding the people of Florida. A glance over the facts and figures given in this article will be a revelation to the business men who have known all along that they have been robbed but were ignorant of the amount taken each year by the companies who live in other states and take the money from Florida people. As The Herald has advocated before the formation of a home insurance company by the merchants of Sanford would at until Wednesday the contest over the six least keep the money at home. But bat-ter than this idea would be for the part two delegates from the fourth district of ney for Hodges, O'Hara & Russell Com-respondent to the Horida Lasthatum to new California pension of the Florida Legislature to pass California.

Celery City At Public Sale The tract of land in the southeastern part of Volusia county known as Celery City, and sold under the name of The Florida Homeland Company to several hundred families throughout the United States, was sold before the court house in DeLand on Monday, by Cary D. Landis, master, to satisfy claims against the property in favor of the grantors, Hodges, O'Hara and Russell Company of Palatka. The property was bought in by the Hodges, O'Hara & Russell Company, the consideration being \$225,-000. The land in controversy comprised 53,000 acres in Volusia county and about 4.000 in Brevard county. The Hodges, O'Hara & Russell Company have agreed to protect the interests of innocent purchasers from the Florida Homeland Company and will deed tracts of lands to the parties who may already have paid in full for them, and extends time of payments to those who have made part payments on their purchases. SEVEN MILLION PER CENT

This Small Item Paid To The Insurance Trust.

All insurance companies doing business in Florida are required to render reports showing capital stock authorized, capital stock paid in, admitted assets, Habilities, surplus as to policy holders, risks in force in Florida, lesses incurred in Florida, losses paid in Florida, premiums received in Florida, etc., which is about the only thing required of insurance companies in this state. They are allowed to combine to prevent any other company from accepting insurance upon pain of dismissal from the Southeastern Tariff Association, with headquarters in Atlanta, which association is the trust that throttles industry all over the state at its own sweet will. No company can do business successfully in Florida unless it belongs to the trust and no company that belongs to the trust is allowed to accept insurance at a my business necessitates closer residence. prise below the price set by the trust. This is very clearly a conspiracy in restraint of trade, but for some unknown mason neither national or state government mems willing to get after this trust as they have after the Standard Oil Trust and the Tobacco Trust and the Railroad Trust, and the Harvester Trust and many others that could be named, and which have been compelled to disband for the ent Garden theater. Sam Vale was the public good.

The Insurance Trust takes money out of the pockets of every citizen in Florida and government and state officials watch them rifle the pockets of the people with gide and have not a word to may against the robbery.

Is the insurance trust bigger than national or state governments?

Are national and state governments afraid of the insurance trust?

Are'there no laws on the statute books that can protect the people against the ravages of this trust?

For instance:

In 1911 the Aetna of Hartford, a foreign corporation, required the people of Florida to pay them \$147,962.31 in premiums; the losses of this company in Florida for the same period of time were only \$66,497.29. In other words, the people of Florids paid the owners of the Aetna Insurance Company \$81,465.02 for the privilege of opening their pockets for the insurance companies to help them selves.

In 1911 the American Central Insurance company of St. Louis, another foreign corporation, too \$32,426.66 from the people of Florida, and for the same length of time their losses in Florida were only \$8,468.49. In other words the the people of Florida paid the owners of this company about 400 per cent for the privilege of insuring them. Pretty high, but Florida land is very productive and our people are hard working and do not mind a little thing like 400 per cent for their insurance.

million per cent for his insurance. Of course you won't believe this, but if you will send to the secretary of state, Hon. H. Clay Crawford, at Tallahamee and ask for it, Mr. Crawford will gladly send you a copy of the record of insurance company business done in Florida in 1911 and you can then figure it out for yourself .- DeLand News.

The original of Sam Weller was Sam or Samuel Vale, who was well known as a London comedian who acted in the farce called "The Boarding House" and subsequently at Covnoted everywhere for the Wellerisms, such as "Come on, as the man said to his tight boot." "I'm down on you, as the extinguisher said to the candie." "Where shall we fly, as the bullet said to the trigger," and "Let everyone take care of themselves, as the donkey observed when dancing among the chickens." Bam Vale died in 1848.

Power of Gold.

Those who worship gold in a world so corrupt as this we live in have at least one thing to plead in defense of their idolatry-the power of their idol. It is true that, like other idols, it can neither move, see, hear, feel nor understand; but, unlike other idols, it has often communicated all these powers to those who had them not, and annihilated them in those who had. This idol can boast two peculiarities; it is worshipped in all climates, without a single temple, and by all classes, without a single hypocrite.-Colton.

Volcanic Ash for Cement. For some time a Japanese company has been engaged in the exploitation of the use of volcanic ash in connection with Portland cement and it is claimed that this combination is particularly valuable in the construction of works which are submerged in salt water. It is claimed that the cement thus formed possesses greater tensile strength, and is denser than ordinary Portland cement. It is thought that should this industry prosper it might well be extended to the Philippines, where a great deal of volcanic ash is available.

between the hours of 2:00 and 2:30 P. M., to discuss matters of importance connected with the establishing of the Special Road and Bridge District recently passed upon by the Board of County Commissioners. The Election will be held July 13 and those who believe in Progress, Development and Good Roads should attend this meeting and assist in making this latest and greatest project for the betterment of Sanford a Success. Let everybody come out and be sure and invite all your friends.

In 1911 the American Insurance Company of Newark, N. J., another foreign corporation, took from the people of Florida in premiums \$34,912.87 and the losses of this company were only \$9,-144.90 for the same length of time. Another 400 per cent company- another generous act on the part of the people of Florida.

In 1911, the Insurance Company of North America, from the City of Brotherly Love (Philadelphia), took from the pockets of the people of Florids, \$74,965.87--and incurred not one cent of loss in Florida. This is equal to 7,496,587 per cent-say it over easily and slowly and see how it sounds. Suppose you could lend a few thousand at this rate, dear and kind reader. How much would it take at this rate to give you a comfortable living?

Next week we are going to tell the people about the German-American, the Hartford, of Hartford and one or two others. We are going to figure out how many millions of dollars the people of Florida are presenting every year to the insurance company holders for the privtiege of keeping them in idleness and luxury.

The News hopes that Senator Conrad, Representative Leonardy and Representative VanValzah will make a study of this insurance business and be prepared to take decisive action when the next Legislature mosts in April next. There will of course be a strong lobby-as there always is a strong lobby-in Tallahance to prevent any action by the servants of the peoplefor the relief of the neonle, but the people are being warned this year and any man who appears at Tallahassee for the Insurance Trust in 1918 will doubties have cause to remember the last two numbers in the year.

The Lewis Vegetable Exchange of Sanford had an attachment placed on their office last week by one of their creditors and Dr. C. E. Lewis, owner and proprietor, has not made his appearance for several days.

Dr. C. E. Lewis came to Sanford several months ago and started the Lewis Vegetable Exchange. It is said he had tried to interest several in the deal but most seemed a little shy, although it is claimed that one man did go in and lost a few hundred dollars. Mrs. Lewis is at Enterprise across the river and in a letter she states that she does "not know where the doctor is, and that he is just keeping away because he cannot face people he owed." There seems no doubt that he owes many growers and shippers as well as other creditors. As matters now stand, he is regarded by his creditors as untrustworthy. His intentions may have been good, some say, but if so, he has a poor way of showing it. -N. Y.

duel in the history of the league began. A hit, a double-barreled error and a passed ball gave Cleveland a run in the third inning. That was all, but it was enough. The gyrating specter of nerve, courage and brains out on the slab was setting a new mark for rivals to shoot at, was holding back a team famed for its courage and run-getting ability, a team made desperate by the thought of victory almost within its grasp. In that situation Addie Joss was shutting out his most dangerous opponents without a hit, without a base on balls and, excepting the catcher, without any but the simplest aid from his fellow players.

When the immense crowd realized that the accidental run scored in the third round would bring victory if Joss could only last, the cheering became a steady roar. When the ninth opened and no single white-hosed athlete had yet reached first, the packed stands became a Bediam.

This was one of the two crises in the game in which the cool and smiling Addie needed a little help and Dame Fortune was his aid. Two fierce smashes went down the left field lines-both foul. Then Bradley picked up a gentle grounder, tossed it to first and ended the heart-breaking suspense.

Put One Over On Sanford

The skies held back their sobs long enough Saturday afternoon for Orlando to put a one-to-nothing defeat in the Sanford craw in one of the speediest and most interesting games ever seen here.

The crowd was somewhat slim, but those fans who had faith in the tryst of the weather man whooped a plenty. The one tally that fetched the victory came in the third ibning, when Vaiden, who twirled for the locals, got to first on an error. Doc Wilson took the bag to run for Vaiden, and promptly stole second. Bennett, spirited youngster, came to bat and put a neat one over the second baseman's head, and Doc came home Despite the wet grounds, only two errors were made, one by each team. Each

Chickens For The Ladies

Chicken raising for profit or pleasure or both could be taken up by more ladies In Sanford. The greatest difficulty in this city seems to be lack of space, although by the system of closed coops but very little space is required. Chickens in Florida are very profitable and according to poultry authorities the price of chickens and eggs this year will reach the record mark on account of the scarcity of young chickens in the north.

From the Pensacola Journal we take the following, which shows that the women of that town are going to week to raise their own chickens, thereby giving themselves something to do which is both profitable and pleasant:

"There is a surprising number of women in Pensacola who have developed into chicken fanciers during the past year or two; the very absorbing and profitable business being the attractive hobby of some charming sanely-ordered women, who know and love the advantage of daily contact with living and growing things. .

"There is always so much that is new to be learned about the wee biddles and their sturdy elders; such a lot of actual science to be mastered if the chicks are to attain the actual perfection that every chick lover hopes for, that there is no excuse for any woman to lose interest in herself and life with such an opportunity at hand.

"Indeed, there are several 'backyard chicken farms' in the city that are quite he blesses them. He waves above pretentious in themselves."

Negro Fireman Killed W. M. Sweet, the colored fireman on passenger train No. 27, was run over by his own engine Wednesday morning, just before the train pulled out of the passenger station for Tampa, and received injuries from which he died. One of his legs was severely mangled, being almost severed from the negro's body. Surgeons were soon on the scene, and had

the negro removed to Dr. Love's office where the mangled limb was to have been amputated, however death relieved the man's sufferings before the operation could be performed. It appears that the engine of the paspassenger train was disconnected from the remainder of the train, and the cars were being shifted back and forth on the track by the switch engine. Without apprising any one of his intention, Sweet went under the disconnected engine to oil some parts, and not knowing he was there the train was coupled up to the engine and Sweet was crushed under the wheels, the engine having moved about six feet before the train could be stopped. Sweet's home is at Orlando and he was known in Sanford, where he stopped on the regular run.

CAMPAIGN TO BE MADE AT ONCE

The Matter of Bonds for Brick Roads In District Will be Thoroughly Explained

Pursuant to a call from the Commercial Club yesterday afternoon a representative crowd of citizens of the new road district met at the city hall and being called to order by President Lake the object of the call was explained and the necessity urged of every citizen working for the passage of the bonds at the special election to be held on the 13th of July. The following campaign committee was elected:

A. T. Rossetter, D. L. Thrasher, P. M Elder, W. N. Leffler, Forrest Lake, T. K Bates, G. W. Spencer.

The following committee was appointed to solicit the funds for the campaign: W. T. Field, L. P. McCuller and R. J Holly.

A map showing the new road district and the sections reached by the brick roads will be made at once and literature explaining the bond issue fully will be printed and sent out at once fully acquainting each one and every one who

is qualified to vote the exact status of the bond election. The time is short and the various committees have alalready gone to work to make a thorough campaign for the brick roads and if the tax payers vote as they talk the bond issue will go through with a large majority in favor of this great improvement.

> Sanford has been made a special road district and the bond issue will be spent for brick roads in this district only. Said brick roads being the only cost for the next half century, as the brick roads are almost indestructible and have been proved by the city of Sanford to be the

Chicago, June 13 .- The "Missouri compromine" decision and the quickly following and entirely unexpected adjournment of the Republican committee this afternoon brought about a situation full of uncertainty and conflicting rumors, which lasted throughout the evening and refused to crystalize

into any definite form.

Explanations traversed a long and varied acale, all the way from the statement that the compromise and sudden adjournment presaged a general getting together of the Taft and Roosevelt factions, to the naive theory that it was to give the convention carpenters a chance to finish their sawing and hammering in the neighborhood of the committee room.

The explanation which best fits the various known facts is that the Taft supporters were glad to take advantage of the three or four hours of time saved by the compromise on the Missouri cases to take account of stock and prepare for the struggie expected over the Texas and the Washington contests.

Boosevelt Forces Elated

Roomvelt supporters profemed to be greatly elated over the seating of their delegation at large from Mismuti, and amurted that the outcome in the whole. Missouri business exceeded their most sanguine hopes The Taft people, on the other hand, method to take the outcome complacently, and abated none of their claims on that account.

Successful Man's Polley.

I have tried to make all my acts and commercial moves the result of defilite consideration and sound judgment. There were never any great ventures or risks. I practiced honest, slow-growing business methods, and tried to back them with energy and food system,-Marshall Field.

Allen-Harkey

A very quiet wedding and one that was quite a surprise to their many friends was that of Eva Allen and Luther Harkey, who were married at 8 o'clock Wednesday evening, May 16. The bride is the oldest daughter of Mr. and Mrs. J. T. Allen. The groom is a popular young man of Matthews, North Carolina.

The bride wore a lovely embroidered dress, with slippers to match and carried a bouquet of white oleanders. The groom wore a becoming suit of blue. The following Sunday they left on their bridal tour. They first visited Mr. Harkey's parents in North Carolina for several days, then to Chicago, Ill.; Kansas, Colorado, Texas, California and a number of other points of interest in the United States and Canada. Mr. and Mrs. Harkey expect to be gone three months.

The bride's traveling suit was of blue corduroy, with hat and gloves to match. Mr. and Mrs. Harkey expect to make their home in Lakeland, Fla., after Sept. 1st, where Mr. Harkey has a position as engineer with the Atlantic Coast Line. Their many friends wish them happiness and prosperity.

Star,

living because of financial reverses and bad health, S. W. Sidebinder committed suicide on Wednesday afternoon by drinking a bottle of carbolic acid. He resided on the Hudson place west of town and had been living there with his wife for the past winter. He was known to the people of this city through business relations and while apparently in poor health did not seem despondent. Yesterday before his wife was aware of his intentions he called her to him and informed her that he had just drank carbolic acid and kneeling down on the floor to pray, before she could summon medical aid he had expired. No cause can be assigned to the rash deed of Mr. Sidebinder other than that he had been in poor health and had met with business reverses. But little is known of the couple here except that they came to Florida for a change of climate and decided to purchase a farm and reside here

The remains of the unfortunate man were shipped to Bellfontaine, Ohio, his old home. The sympathy of every one is extended to the bereaved wife.

Child Drowned in Well

Miami, June 13.-Randolf Alden, five year old son, and youngest child of Mr. When thirty feet from the ground and and Mrs. A. Lee Allen, of Allapattah. was drowned yesterday afternoon in a well near the Allen home, while playing with his sisters and other children. The well is used by Mr. Allen for irrigating purposes, and while the other children were walking over a plank laid ground with terrific force and both men across the top, the little boy attempted to do what he had seen the other children do. When about half way across the plank he fell, and before he could be rescued, was drowned.

Congressman Killed by Train Representative Robert C. Wickiffe of Louisiana was run down and killed at Washington last Tuesday by a Southern Railroad passenger train as he was crossing the tracks in Potomac park. Cuba Don't Need Us

Havana, June 13. - The secretary of the interior bureau stated today that the proposition to send Major General Wood or Brigadier General Crowder on a mission to Cuba would be regarded with disfavor by the Cuban government if they they came with authotiry to arrange terms of settlement between the government and the insurgents.

More Aviators Killed

College Park, Md., June 12. Lieut. Leighton, W. Hazelhurst, Eighteenth In fantry, U.S. A., of Macon, Ga., and A. L. Wulsh, of Washington, were killed here at 6:10 o'clock Tuesday night, when a new aeroplane of the Wright type in which they were flying fell to the ground at the army aviation field and waws wrecked. Lieut. Hazelhurst and Welsh had just started on their trip. Death to both was instantaneous. The machine was wrecked. Welsh was flying the machine and Lieut, Hazelhurst was with him as a passenger. They had ascended a distance of about 200 feet when they dipped to come down again and go up again, going at a speed estimated by eye witnesses at between fifty and sixty miles an hour, the machine collapsed and came to earth. Apparently the weight of the engine and the two aviators caused the collapse. The machine struck the were instantly killed.

Friday ,the 14th of June, which will be Flag Day, will be observed with appropriate exercises in many places throughout the dominion of the Stars and Stripes. The occasion will be one of significance to the patriotic, marking the anniversary of the adoption by Congress of the United States flag in its present design.

The first colonial flag was hoisted by George Washington at Cambridge, hut this bore a similarity to the English ensign, in that it had in its corners the crosses of St. George and St. Andrew, There were thirteen stripes, but these were perpendicularly arranged, instead of horizontal, as at present.

When Vermont and Kentucky were admitted to the Union two more of these perpendicular stripes were added. In 1818 Congress passed an act, which limited the stripes to thirteen and provided for stars to represent the states, in the space before occupied by the crosses of St. Andrew and St. George.

Tennessee, the sixteenth state admitted into the Union, never had a stripe in the flag, as the nu,ber had been cut down to thirteen and limited before her a'.mission.

A Happy Editor

Our people are all happy once more. The primary is over and we lost and won, and now we have buckled down and gone to work in earnest. We are shipping spuds, and they are bringing a good price; a few tomatoes, and they are doing well; having plenty of rain to make them grow. The future prospects for a bumper orange crop were never better. Two or three farms sold to new folics, or at least land to make farms. None of our improved farms are for sale unless the chap is getting too old to work and wants to retire. New hardware and furniture store just opened up and plans being made for two or three more brick blocks which will be occupied at once when built, engineer at work on the big drainage canals in Black Hammock; new road to Sanford being pushed by county camp; health of the community never better; our merchants don't know that it is the dull sesson; and many other things too side.-Oviedo Advance.
