than the time limit.

Big Bill Ferrazzi held the Indians scoreless until the sixth inning when two solid blows and a ning when two solid blows and a to couple of scratch infield hits accounted for their two runs. In Leesburg's big fifth inning they batted around, Perranzi first man up walked and took second on Hogan's neat sacrifice. Medlin lined a hot one to Hopkins and all hands were safe when he elected to try for Perranzi at third. Come walked dillegal and took second on the latest and the second of the property of Duval county.

Some 1,500 requests already have been received alone from Duval county. Mr. Stockton estimated that the office would begin by making loans within 15 does not be making loans within 15 does which came in less than two minutes in the 15th inning, were responsible for the defeat which amazed a large crowd that sat through the interesting game.

That 15th inning opened omitorially enough, for Red Burnsed, which had gone hitless all day, burned a bunt toward Dennis. The hall took a crasy hop to the right just as Dennis started to jick it up, and Red was perched afaly on first.

Then came the pay-off. Joiner funted in front of the plate, and been a Burnsed had scored; It had been lower, Burnsed would be and Burnsed to get Burnsed. If the ball took a great had scored to get Burnsed to throw to the plate and Burnsed had scored; It had been lower, Burnsed would be then two minutes later both the and Burnsed had scored; It had been lower, Burnsed would be then two minutes later both the count to age at hurling duel which showed Dennis up as the dependable hurler most of the game.

The ball took a crasy hop to the right pay retiring the side.

The Feds got their final-run in the fourth. Abbott singled to right, sending Abbott to third. Maxwell singled to right, sending Abbott to third. Maxwell left field wall.

After that inning, the tilt settled into a great hurling duel which showed Dennis up as the dependable hurler most of the fans have felt he is. Cusack had the count two strikes and one ball he dependable hurler most of the fans have felt he is. Cusack had the count two strikes and one ball he dependable hurler most of the fans have felt he is. Cusack had the count two strikes and one ball he fans have felt he is. ARREST ALLEGED MURDERER

BARTOW, Jury 29.-Sought for venport negro, was arrested Thurs-Chief L. G. Kemler at the home of his sister in Davenport. West in October, 1926, for the pistol slaying of Jim Johnson, negro. was indicted by the grand

James R. Stockton, manager

mated that the office would begin making loans within 15 days after receipt of applications. A circular containing general information as to how the act op-

issued also yesterday by the head-quarters. The public's attention was called to the explanation of

Here is the information con-

tained in the circular:

"Home Owners' Loan Corporation was created for the relief of
home owners in distress with their mortgages, taxes and other liens, and the corporation proposes to make every effort to carry out the purpose of the bill. This does not mean that a mortgage must be in the process of foreclosure; however, it must be borne in mind that the act creating the corporation is a relief measure and will administered primarily for relief purposes and not for general refinancing of mortgages.

"The corporation can acquire in nortgages or other liens on real dwelling, for not more than four families, which is used by the owner as a home, or held by him as a homestead, not having a value of more than \$20,000.00 If the property is not an owner-occupied home or held as a homestead, or loans from the corporation and if it exceeds \$20,000 in value, no loans from the corporation and should be submitted with com-

#### The Florida Exhibit

Letters from Karl Lehmann, now at the Century of rogress Exposition in Chicago where he is director of ivic club participation, dispel all doubt as to the success of the exposition and the crowds which are in flaily attendmee there. Mr. Lehmann devotes the greater part of his ime to visiting various civic clubs, luncheons, dinners, and o forth where he tells the guests and members present if the trade and residential possibilities of this state and particularly of Sanford and this section.

Recently he wrote. "This Fair gets bigger and crowds | re increasing from day to day. We compiled some figres yesterday for the first 63 days of this Fair, until July 28th inclusive, and they show there has been an average of 45,000 people a day in the Florida Hall, 25,000 a day in he Florida orange grove, and 13,000 a day in the Florida louse, a total of 83,000 people a day, though, of course, mands or even requests until a late and the late of the many of these people visit all three of these larger Florida shibits, and are, therefore, counted three times.

han 5,000,000 people have seen the Florida exhibits, and if jut the said hour will be an injuse each hour you cut these figures in half, which I think is conservative, to account for those who visit both the Fiorida Hall and Florida House or orange grove, it still gives us two for to and a half million different people who have seen Florida's exhibits at the World's Fair. That's about twice as emany as the pre ent population of the state. The Fair still has ander the proposed closing hours. three months to go and the heaviest attendance is still white almost all negro field hards, before 1 to 1, 1986 and be joyful, O carth; and break chead of us. It is hard to estimate the amount of good are going to work, grocery doors this exhibit is doing Florida.

"Our entertainment features including the Orange people, and will have morey upon Blossom Male Quartette from the Negro Agricultural School at St. Augustine, are averaging five appearances a day, in therefore respectfully segment that Among the citations which complified Florida Hall in the Court of States, broadcasting once prised the Lemmbermon walls day over the public address system which is heard from the following from the Bulle amplifiers all over the grounds, and at least once a day over will be which complay more follow "And we share known and indexed patter. An average of 15,600 Florida folders, are given the love that God bath to us God away daily in the Florida Hall and an average of over 1400; is love; and he that dwelleth inframes a day of those registering for Florida's information of the way, and this way, and this way, and the way, tall Grocer the National Whole is love; and he that dwelleth in fames a day of those registering for Florida's information of will the laboring class of the as Green A section of Sanford be a to be been the laboring class of the companies and others interested in Florida."

Such figures are certainly illuminating as to the tremendous advertising benefits of this Pair. In addition a then in for a it bes in your Ito the thousands of persons who are getting the "Florida power to help our group." nrye" from seeing this state's remarkable exhibit, there are literally millions of people in the whole United States who are reading about it in all the newspapers of the country which are practically unanimous in agreeing that Flor-Mount thruld Wouldn't we ida's exhibit excels all the others.

There will be some positive return on Florida's investmult in this Pair when another warm gets under way.

#### Hurricane Warnings

A prominent Orlandoan has been taking Issue with one of that city's newspapers over the publication of hurricane that were to common during that warnings days in advance of the storm's arrival or before reflected in the applicate which period are not a part of the New its definite and final epurse can be ascertained for certain. PROPRIETOR - MANAGER

UNTIL WE LEARNED BETTER

Until we learned better, we used to mix wood and steel in our car bodies and wheels.

It was the best way to make bedies-then: But the state of the art

Of course, it is more expensive to make an all-steel body than to make a wooden frame and nail steel panels on to it. The better way involves an initial expenditure of several millions of dollars for new dies, which renders a change very costly, Cars, especially large expensive cars which are produced in small volume, cannot afford this, because the dies cost as much for one car as for a million. That alone explains why allsteel bodies are not used in all cars.

But our basic policy from the beginning is to make a good car better,

regardless of cost. For example, when we discarded wood-steel body construction, it was not because we lacked wood. We still have some thousands of acres of the best hard wood in America. Economy would urge us to use up the wood first, and then adopt the better all-steel body. But we decided that

quality was more important than expense. We weighed the reasons, for and against, before we made the change. We could see only one reason for retaining a mixed wood-and-steel body -- nailing the metal on, instead of welding an all-steel body into a strong one-piece whole. That reason was, it would be cheaper -- for us.

Our reasons for adopting an all-steel body were these: A wood-steel body is not much stronger structurally than its wooden frame. In all American climates, wood construction weakens with age. Every used car lot gives evidence of this. Rain seeps in between joints and the wood decays. A car may have a metal surface, and yet not be of steel construction. Under extreme shock or stress the steel body remains intact-dented perhaps, but not crushed.

Steel does not need wood for strength or protection. Wood is fine for furniture, but not for the high speed vehicles of 1933. In the Ford body there are no joints to squeak, no seams to crack

or leak. The all-steel body is more expensive-to us, but not to you.

By all odds, then, steel bodies seem preferable.

Wheels also have become all-steel. No one argues that an electrically weldwd one-piece steel wheel, such as the Ford wheel, needs to be "strengthened" by adding wood to it.

The one-piece all-steel body is the strongest, safest, quietest, most durable body made. That is our only reason for making them.

Cocoanuts?

I WANNA bottle of ice cold 3.2 beer and a big swias cheese sandwich like Dossey serves—and I can always name the kind o' beer I like 'cause' Dussey's carry's a big line. Wahl—my last 80 cents would buy me a whole meal there with meat 'n po-tatoes and bread 'n butter and dessert an'—Oh, where is that rescue ship?

J. G. Michael

Corner Second & Palmetto

We have signed the President's Re-Employment Agreement and will abide by its regulations.

We appreciate the co-operation the people of Sanford have given us in the establishment of this Market and solicit your continued patronage.

Those in authority are handing us a "New Deal." We are trying to play our hand fairly and squarely to increase employment, adjust working hours and wages and give the people of Seminole County an up to date Fruit and Vegetable Market. Thank You.

attle marigation, according to the linerary after the linerary attention of Elbert, of Des Moines, grad. definite, but in a general way, or of the Columbia University Mr. Elbert said, the route will lead toward Australia and the trips.

The trip will take approximate the white trip will take approximate. this is merely an estimate, as the duration of the joursey depends on many things, among them "supplies and the weather." The student members of the party have temporarily left their courses at Cornell University, intending to return on the completion of the trip. They do not intend to remain idle in this respect, however, but will pursue independent states in midition. The supplies in midition to the course of the A.B. C's of exploration and navigation.

The supplies the supplies of years ald, hirady knows the light there were been been a pious craft of many occasions. The explain is the sale paid member of the craw. The suppness of the trip, including the cost of the scheoner, is shared by the seven participants in the yearsure. It is intended
