WINTER AGAIN MAKES ATTACK UPON COUNTRY

General Snows Occur Over North While Severe Blizzard Is Sweeping Westward

(By the Associated Press) A belated winter blew a spiteful blast at Spring today. Snow was reported almost generally from the Atlantic seaboard to beyond the Rockies, while high winds and rough seas troubled Southern California. Trees blew down and high tension wires snapped in Lee Angeles.

One of the worst blizzards of the year swept south of Colorado Springs.

Philadelphia brought out railroad and city snow plows for the third time this year and traffic was hampered. Fresh thunder and lightning started Chicago's North Side. Snow hit the Loop and later became general. Snow is falling at Cleveland, New York, and Pittsburgh.

Spring, a contrary miss, arrived yesterday, flouting weathermen's predictions of lowered temperatures.

Only in western states was her official debut—at 2:45 P.M., Eastern Standard Time—in keeping with warnings of chilly blasts and snow. In most sections the sun, northward bound, crossed the astronomical line into the vernal season without accompaniment of any decided temperature changes.

At Washington the brilliant sunshine caused President and Mrs. Hoover to walk back from their Quaker meeting to the White House, eschewing the motor car which had taken them to the service.

In New York City, where lower thermometer readings were scheduled, seasonal sunshine brought out Spring finery. In the Baltimore vicinity, highways carried increased numbers of motorists. Chicago and other midwestern cities expecting wintry weather greeted a somber first day of Spring but without the promised snow.

But reminders of Winter lingered on near Cleveland with ice remaining in Lake Erie's bay. (Continued on Page Two)

Roumanian Slayings Blamed Upon Russia

BUCHAREST, Mar. 21.—(A.P.)—Reports reaching here from Roumanian villages on the Ukrainian border today said a number of women were shot down by Soviet troops "in bloody Sunday" while defending their churches. The reports were described by an alleged eye witness. He gave an account of Soviet church wrecking activities which were resisted by villagers. In Tashkent Soviet soldiers attempted to destroy the church and were faced with a crowd of 300 women. The soldiers fired machine guns and killed and wounded several. Others were shot down at Mihailovitza.

ENTIRE WEST IS SEEN AS STRONG FOR ROOSEVELT

Senator Wheeler Returns From Trip In Optimistic Spirit

WASHINGTON, Mar. 21.—(A.P.)—Senator Wheeler of Montana returned to the capital yesterday with a prediction that the entire West would support Governor Roosevelt for the Democratic presidential nomination, and in the election too, if he wins at Chicago.

One of the leading congressional advocates of the New Yorker, Wheeler returned from a tour in Roosevelt's behalf that took him into North Dakota, Minnesota and Montana. He said he found all indications pointing toward a Roosevelt victory.

The Montanan joined Senator Fraiser, North Dakota Republican, an independent, in the view that the North Dakota primary law made it mandatory on the 11 Republican delegates chosen last Tuesday, to support former Senator Krasner of Maryland, who won the preference vote. President Hoover was not entered for the preference vote, but nine of the 11 delegates elected were pledged to him and two for a "progressive" slate.

North Dakota officials declined to rule on the contention. Although James Morris, state attorney general, said his prece-

POWER TRUST ISSUE SAID TO BE IMPORTANT

Efforts To Influence Presidential Nomination Charged By Legislative Group

WASHINGTON, Mar. 21.—(A.P.)—A joint declaration that the power question will be a major issue in the fall campaign and that the "power trust" is trying to influence the nomination of presidential candidates was laid before the nation yesterday by 16 Senators and 22 Representa-

Millard R. Smith, former state attorney for the 2nd Judicial Circuit, who is seeking election to the judgeship of the same circuit.

IRISH SITUATION ASSUMING MORE SERIOUS ASPECT

Trouble Lies Around Intent To Cut All Ties With England

BELFAST, Northern Ireland, Mar. 21.—(A.P.)—Authorities in Northern Ireland watched an increasingly serious situation in the Irish Free State, where President Eamon de Valera is intent upon further severance of the ties to England with anxiety and alarm yesterday.

The declaration was carried on the cover of a 47 page pamphlet reviewing the records of President Hoover and Democratic presidential candidates on the power question and forecasting what each would do in connection with it if elected.

Heeded the "power trusts" of the presidential candidates, a non-partisan analysis for the information of voters," the statement over the signatures of the 31 Senate and House members, said.

"We regard the power question in its most economic, financial,

Engineering Firm Named To Obtain Data Upon Canal

With the appointment of a transnational engineering firm which will gather statistical data for the next four months, the next step in securing the early construction of the St. Johns River project is being taken.

A Thompson machine gun has been used in Irish republican guerrilla warfare in last one instance close to the border.

The automobile of Captain J. H. Murphy was stolen at Dundalk last week and was under guard by members of the St. Johns River Improvement Association as being one of the more important of several already made and others contemplated.

Meetings in Jacksonville Sunday afternoon, in Sanford, Deland, and Jacksonville affected the Association decided that prompt action was the most vital need of the canal project at the present time. They propose to make the first nation-wide sale of Senator Dan Coonan's bill recently passed Art providing that pleasure craft tonnage is to be numbered equal in value to that of commercial tonnage in the consideration of waterway construction or improvement by the War Department.

With the material to be gathered during the next four months as a basis, a complete survey of the present and future tonnage of the river will be prepared and presented to the War Department in general, together with a mass of associated detail. It will include the names of all persons invited to all meetings attending the association.

Mr. Mottinger, a retired railroad man, was born in Cincinnati, Ohio, Aug. 10, 1875. He had lived in Florida many years and was a resident of this city for the past two and one half years.

He is survived by his widow, Jennie Mottinger, two sons, H. S. Mottinger, Jr., of Palatka, Tenn., and Thomas Mottinger of Plant City, and a sister, Mrs. C. R. Barber, of Rock Hill, S. C.

2 Miami Men Rescued From Drifting Boat

MIAMI, Mar. 21.—(A.P.)—Frank Oxfeld, 48, and George Matey, negro, were brought safely back here today after spending eight days adrift in Bahaman waters in a disabled fishing boat. Weak from hunger and exhausted from continuous work at the pump to keep the boat afloat, the two were picked up by the steamer Cayampa enroute to Honduras.

Later they were transferred to a coastguard cutter and brought to shore.

They said they had drifted 150 miles after the vessel was disabled while they were fishing near Fowey Rock south of here.

Their food was exhausted—two days before their rescue. They sighted the steamer Saturday night and made a flare to attract the rescue boat.

Arrangements have been made to have the lecture at the same location and time, and the general public is again invited to attend.

Parents and friends of children are particularly urged to be present.

JOHNSON BACK IN LIMELIGHT IN KIDNAP CASE

(Continued from Page One)—
Johnson's knowledge of the case.

When he was arrested for robbing a fraternity house he said he had not heard of the kidnapping until he reached Weber, Utah.

Pocatello police quoted him as saying he had driven west with two other men involved in the abduction. He was reported to have supplied an address at which the child could be located. Deputy Police Chief Brez, of Newark, after his telephone conversation with Einstein early yesterday, said what he had learned was important enough to warrant his sending two of his best men to question the prisoner.

But late yesterday, to a representative of the Pocatello Tribune, the Brooklyn man told his third story—that he first heard of the kidnapping on Mar. 2, when he was traveling by bus between Salina, Kan., and Denver, Colo.

A new theory was projected when Baltimore police said two Newark detectives had been working on a tip the kidnapped baby was in the hands of a couple who had substituted it for their own child.

They said they believed the parents' real child, resembling Charles Augustus Lindbergh, Jr., may have been taken to Europe on the Baltimore mail liner City of Baltimore, which left for Havre the day after the abduction.

Their theory is that by switching the two infants in this fashion, the Lindbergh child could be held by the couple without arousing suspicion.

Ten children were aboard the City of Baltimore when she sailed. One was approximately the age of the Lindbergh boy, 20 months. This child was said by officials of the line to be on its way to visit relatives in Germany under the care of a friend of its parents.

Major Cohen said that in his judgment Roosevelt's opponent in the Georgia primary had said he would support Speaker Garner for the nomination. The Atlanta Georgian, a Hearst paper, has advocated Garner for president.

Mr. Howell said Roosevelt's successful campaign in North Dakota and the heavy Democratic vote cast there is particularly significant because "it means that the spirit of unrest and disorder" at the time of the Republican party has waned the West as never before."

Major Cohen said that "never in the history of the Democratic party have the chances been so right to elect a Democratic president."
