NUMBER 22

AMERICAN COMMISSIONERS APPOINTED BY HUGHES TO NEGOTIATE WITH MEXICO

FOR CLOSER UNDERSTANDING WITH REPRESENTATIVES OF OBREGON

NO TIME DECIDED

But at Early Date Charles Warren and John Barton Payne Will Act

(By The Associated Press) WASHINGTON, April 24.—Secretary Hughes announced American Commissioners to negotiate for closer understanding with representatives of Obregon government in Mexico City, would be Charles B. Warren, of Detroit, former ambassador to Japan, and John Barton Payne, former secretary of the interior, now chairman of Red Cross.

The time for meeting of commission in Mexico City has not been fixed but will be determined at an early date. The American commission will be guided in their discussions by board considerations of policy which have actuated the administration in all dealings with Mexico. It is emphasized there is no desire to interfere in Mexico's internal affairs or suggest what laws that nation shall enact.

Legislature Takes Cognizance of the Patterson Case

TALLAHASSEE, April 24.—The Florida house of representatives yesterday took cognizance of news reports that Frank Patterson, of Orlando, had been mistreated in a Michigan penal institution, by adopting a resolution calling upon its three members of the joint legislative committee inquiring into convict abuses in this state, to bring the case to the attention of the committee and have it take such action as it may deem necessary.

The resolution was introduced by Representative Fred H. Davis, of Leon county, and adopted with but little discussion, an amendment being made to its preamble by Rep. A. Y. Milam of Duval county. As introduced the preamble recited that the Florida legislature was now investigating the death of a convict in the private camp in this state, but owned in Wisconsin, into the death of a North Dakota boy, in response to a request from the legislature of that state, and then called attention to the reports of Patterson's alleged mistreatment.

As amended by Representative Milam, the preamble reads: "Whereas, the fair name of the State of Florida has been called in question by certain charges as to mistreatment by a foreign corporation of a North Dakota citizen in a timber camp operated in this state, and etc."

The resolution was referred to the investigating committee.

The Clermont Hotel, Clermont, is being remodeled.

S. H. Peacock, jr., is erecting a business building at Perry.

Avon Park will have a new business block, costing \$70,000.

JAIL SENTENCE FOR LIQUOR SELLING WAS KNOCKED OUT IN THE LEGISLATURE TODAY

Vote Stood 39 to 29 on Jail and Disenfranchisement Features

(By The Associated Press) TALLAHASSEE, April 24.—The house voted down 29 to 39 the committee bill that would have made jail sentences compulsory for liquor violators and also carrying disenfranchisement for liquor law violators. The bill was defeated after a fight of more than two hours during which a charge of political trickery was hurled by Representative Mial against Representative Taylor, chairman of the temperance committee.

TALLAHASSEE, April 24.—The general educational bill, endorsed by Superintendent of Public Instruction Cawthon, setting up strict prerequisites for applicant teachers and abolishing flying squadron of teachers examiners went under fire in the senate today. The measure withstood two onslaughts by Hodges to kill its main effect in tightening up on qualifications by teachers and was still subject of debate when the senate adjourned to return later to keep abreast of its calendar.

PRESIDENT HARDING TO MAKE TRANSCONTINENTAL TOUR, BEGINS FIRST PART OF THE TRIP TODAY

Arrived in New York This Morning on First Lap of the Journey

(By The Associated Press) NEW YORK, April 24.—President Harding arrived at the Pennsylvania Station shortly after 6 o'clock this morning prepared to make the first of a series of addresses planned for this spring and summer. He will speak to members of the Associated Press in their annual meeting. The president and party arrived on a special train of three cars and were greeted only by a handful of newspapermen and a few police officers and plain clothes men who had been detailed to remain with the party throughout their stay in New York.

WASHINGTON, April 24.—Departure of President Harding from Washington last night for New York, where he will speak today at the annual luncheon of the members of the Associated Press, marked the real beginning of a series of speaking trips to be made by the executive during the spring and summer to various parts of the country.

Through these addresses, of which about fifteen will be made during the transcontinental tour starting in June,

PAVING BIDS WERE OPENED YESTERDAY AT CITY HALL, QUESTION NOT DECIDED

Hutton and Adams, Evans Companies Are The Lowest Bidders

Bids were opened yesterday at the meeting of the City Commissioners for that purpose and there were many of them for all kinds of material. After a careful summing up of the bids and going over the figures it was found that Adams, Evans Co., and the Hutton Engineering Co., were the lowest bidders and there was only a slight difference in the bids. Nothing definite was decided upon yesterday and the City Commissioners will go over the two lowest bids today and the matter will probably be decided next Monday at which time Mayor Lake will be back again from his duties at Tallahassee and the matter will be decided. The following is the official report of the various bids as submitted yesterday:

- Bids on Contract No. 2 for Paving Second Street (Oak to French), Third Street (Sanford to Magnolia), and (Oak to Avenida), Avocado Avenue (First to Third), Fifth Street (Magnolia to Myrtle), Ninth Street (Cypress to Park), Thirteenth Street (Sanford to French), Central Street (Sanford to French), Palmetto Avenue (Central to Hughey), and (Commercial to Lake Monroe), Oak Avenue (Tenth to Thirteenth), Laurel Avenue (Sixth to Thirteenth), Asphalt Concrete, Stone Foundation With Combined Curb and Gutter

CO-OPERATIVE CAMPAIGN PLANNED TO SECURE FOR FLORIDA DEEP WATERWAY TRANSPORTATION

Co-operation is to be the keynote of the drive to secure deep waterway transportation for Florida.

Under the stimulus of the Florida Waterway Traffic League all the many organizations and associations directly interested in a deep seaway to open all markets to Florida products and manufacturers are to labor under one banner and for the one aim of securing the urgently needed appropriation for a deep water channel in the St. Johns river.

Pending arrangements, likely to be completed shortly, will bring this about and then all the interested units are expected to work along identical lines.

Steamship lines, truck and motor lines, farming interests, producer of winter products, merchants, wholesale organizations—all are to work systematically and in harmony to bring about the better transportation system as planned by the Florida Waterways Traffic League.

OFFICERS ELECTED AT ROTARY MEET FOR NEW YEAR

CLUB HELD GOOD MEETING AND HAD SEVERAL VISITORS

Sanford Rotary Club held a good meeting at the Hotel Valdez today with a good attendance of members and several visitors. President D. L. Thrasher, after calling the club together, introduced the visitors who were Sexton Johnson, of Orlando, superintendent of the city schools; T. W. Lawton, superintendent of Seminole county schools, and Fred Eberhardt, of Atlanta, of the Willite Southeast Company.

Mr. Johnson gave an interesting talk on Highway Beautification, Supt. Lawton on Education and Boys' Work and Fred Eberhardt on Street Paving. President Thrasher gave one of the best talks on the duties of Rotarians that the members have ever heard, calling upon them to do their duty at all times as Rotarians and to stand together for the betterment of mankind and the upholding of the laws and that service was the greatest privilege of mankind. As it was election day he stressed the idea of standing behind the new officers to be elected and thanked the members for their hearty co-operation with him during his term of office as president.

The election followed with the result below:

- President—George W. Knight.
- Vice-President—R. J. Holly.
- Secretary—W. M. Haynes.
- Treasurer—C. L. Britt.
- Governors (two to be elected)—H. C. Dulbosc and H. R. Stevens.

H. C. Dulbosc then arose and paid a beautiful tribute to the retiring president, D. L. Thrasher, saying among other things that he had been an ideal president of the Rotary Club because he lived the life of a true Rotarian.

GOVERNOR RECOMMENDS REMOVAL OF SHERIFF JONES, OF LEON, FROM OFFICE—SENATE COMMITTEE REPORT

Will Be Made in Few Days and Sheriff Will Plead His Case

TALLAHASSEE, April 24.—The Florida senate acted promptly yesterday on the first recommendation following the legislative committee investigation of Tabert's death—the recommendation of Governor Hardee that Sheriff Jones of this Leon county, be removed from office. The governor submitted his message recommending that Jones be removed for malfeasance in office shortly after the senate reconvened, at 4 o'clock yesterday afternoon, from its week end recess, and at the same time pointed out that under an opinion by the supreme court, his own power of suspension was not effective during a session of the senate and could only recommend action. The senate went into executive session. It remained behind closed doors for one hour and thirty-five minutes, at the end of which President Turnbull made known that he had appointed Senator Stokes chairman of the investigating committee, and W. A. MacWilliams, of the committee, as a committee of two to report on the governor's message. This was the regular procedure in cases of the kind. Although Mr. Stokes and Mr. MacWilliams have heard the testimony in the Tabert case Sheriff Jones will have the opportunity of appearing before them in the light of their new standing.

The governor made no recommendation in the case of Judge Willis, the judge who it has been testified was alleged to have been implicated with Sheriff Jones. His action regarding Jones did not come as a surprise. It was known that he had kept in close touch with the progress of the inquiry since Saturday, when the two officials coming within his jurisdiction, were brought into the testimony in an unfavorable light. He followed closely the committee's investigation as fast as it could be transcribed. There was a general feeling as the day passed he was prepared to remove the sheriff and the tension about the capital became more pronounced as various reports were circulated regarding its probable nature.

Newspaper men thought they knew and fidgeted in their seats, with the thought that its consideration might be deferred. Then Senator Stokes and MacWilliams came running in from the investigating committee, grinning like two youngsters late to school. Mr. Stokes apparently knew the import of the message, and he promptly moved for its consideration. Everybody but the senators were run out of the chamber and the doors closed.

What happened thereafter is not publicly known but it is known that Senator Stokes talked for some 75 minutes, and Senator Calkins followed him briefly. The irate shadow of Mr. Stokes could be seen through the windows as he talked all over the floor.

With the executive session over, Senators MacWilliams and Stokes went back to the committee investigation. The governor's message said he understood the legislative committee was still taking further testimony, "which, however, we may assume will be largely cumulative." It submitted the transcript of some of the testimony and said:

"I wish to call your attention especially to that part of the testimony affecting Mr. J. R. Jones, sheriff of Leon county." He expressed the opinion it was not improper for him to call the senate's attention to the supreme court's ruling that the chief executive could go no farther than recommend action during a session of the senate.

RESUMPTION PEACE PACT BETWEEN TURKS AND ALLIES GIVES RISE TO SUGGESTION

CUBAN PLANTER IS ARRESTED IN NEW YORK

CHARGED WITH OBTAINING SECURITIES ON FORGED PAPER

(By The Associated Press) NEW YORK, April 24.—Diego Del Valle, Cuban sugar planter, was arrested at a hotel here today charged with grand larceny on complaint of Julian La Vin that Del Valle had obtained \$52,000 worth of negotiable securities from him in exchange for forged certificates on sugar warehouses. Another Cuban planter alleged by police to have been involved in the same transaction was arrested last January and civil suit is reported to have been begun against a third.

CELERY SHIPMENTS

Celery shipments from Sanford: 9 Patomac Yards; 5, Weyerross; 1, Florence; 3, Chicago; 2, New York; 2, Jersey City; 1, Cincinnati; 1, St. Louis.

and practiced the teaching of Rotary in his every day life. Mr. Dulbosc also asked that real co-operation be given to the officers elected for the ensuing year.

LAUSANNE, April 24.—Safeguarding of the legitimate national interests of the United States and of the principle of commercial opportunity for all nations was officially set forth today as the guiding rule of the American representatives, when the Near East peace conference resumed its labors in an endeavor to restore peace between the allied powers and Turkey, and between Greece and Turkey.

Joseph C. Grew, American minister to Switzerland, and head of the delegation, made this clear in a brief inaugural speech following similar addresses by leaders of the other delegations. The conference then divided itself into three committees, each of which will take up subjects in dispute, and tomorrow active discussions on concrete topics will be begun.

Minister Grew said the United States welcomed the resumption of the conference. It had reconvened on a substantial basis; and an understanding had already been reached on a variety of important subjects and upon this firm foundation, the United States expected soon to see a just and stable peace for which the world was waiting with eagerness. Of the position of the American representatives he said:

"We are here for the same purposes and in the same capacity as before the adjournment, participating not on the footing of a belligerent against Turkey, nor as a party to the treaty of peace under negotiation between the allied powers and Turkey, but none the less in a full representative capacity, and fully competent to speak on behalf of the government of the United States."

Concluding, he said: "We wish to assist in serving the cause of peace." No mention was made at today's inaugural meeting with the Turks of the railroad or the other concessions granted either to Americans or other foreigners, but the Chester concession continues to be the great topic of private discussion.

The Turkish delegation, through its spokesman, declared the Chester concession was entirely valid and was granted not because Chester was an American or Turkey wished to favor the United States, but because Americans knew how to do business on a business basis, without appealing to their government for help or seeking to exercise any "economic pressure" against Turkey.

MIAMI, Fla. April 24.—Arguments before Circuit Judge H. D. Atkinson this morning on the petition of R. B. Tatum, S. J. Thorp and C. W. Hill, for an injunction to prevent the city primary election May 1, revealed the fact that if the injunction is granted there can be no city primary to nominate city commissioners until the first Tuesday in May, 1925. In that case, it was said the present city commission would hold over for two years.

TURKEY'S EXPRESSED DESIRE TO CAST OFF FRANCE AS AN ALLY MEANS TROUBLE

Most Important Development in Conference as France is Economically Concerned

(By The Associated Press) LAUSANNE, April 24.—Resumption of peace negotiations between the Turks and Allies gives rise to the suggestion that Turkey's expressed desire to cast off France as her economic ally may lead to difficulties that will prove to be important development to the conference. Most Turkish debt owed to France, whose nationals also have preponderance of economic holdings in the domain now governed from Anger. The Turks express a desire to shake off French control but spokesmen of France aver they are interested only in protecting legitimate French investments in Turkey to which end they already have made extensive concessions.

LAUSANNE, April 24.—Safeguarding of the legitimate national interests of the United States and of the principle of commercial opportunity for all nations was officially set forth today as the guiding rule of the American representatives, when the Near East peace conference resumed its labors in an endeavor to restore peace between the allied powers and Turkey, and between Greece and Turkey.

Joseph C. Grew, American minister to Switzerland, and head of the delegation, made this clear in a brief inaugural speech following similar addresses by leaders of the other delegations. The conference then divided itself into three committees, each of which will take up subjects in dispute, and tomorrow active discussions on concrete topics will be begun.

Minister Grew said the United States welcomed the resumption of the conference. It had reconvened on a substantial basis; and an understanding had already been reached on a variety of important subjects and upon this firm foundation, the United States expected soon to see a just and stable peace for which the world was waiting with eagerness. Of the position of the American representatives he said:

"We are here for the same purposes and in the same capacity as before the adjournment, participating not on the footing of a belligerent against Turkey, nor as a party to the treaty of peace under negotiation between the allied powers and Turkey, but none the less in a full representative capacity, and fully competent to speak on behalf of the government of the United States."

Concluding, he said: "We wish to assist in serving the cause of peace." No mention was made at today's inaugural meeting with the Turks of the railroad or the other concessions granted either to Americans or other foreigners, but the Chester concession continues to be the great topic of private discussion.

The Turkish delegation, through its spokesman, declared the Chester concession was entirely valid and was granted not because Chester was an American or Turkey wished to favor the United States, but because Americans knew how to do business on a business basis, without appealing to their government for help or seeking to exercise any "economic pressure" against Turkey.

MIAMI, Fla. April 24.—Arguments before Circuit Judge H. D. Atkinson this morning on the petition of R. B. Tatum, S. J. Thorp and C. W. Hill, for an injunction to prevent the city primary election May 1, revealed the fact that if the injunction is granted there can be no city primary to nominate city commissioners until the first Tuesday in May, 1925. In that case, it was said the present city commission would hold over for two years.

Tuesday—St. Agnes Guild will have special meeting at the home of Mrs. Claude Derby, on Magnolia Ave., at 8 P. M.
Friday—Peter Schnul will give a script dance at the Valdez from 9 to 1 P. M.

IN A FLORIDA GARDEN

Written for The Campaign Being Made by the Woman's Club for Garden Week

When Mrs. Tolar asked me for an article for Garden Week, one thing immediately came to mind, and here it is:

There has never been a time since I have been trying to have a garden that people have not asked me about seeds, plants and bulbs to put in their gardens at the very wrong time of the year. My petunias in bloom, some one will phone to ask where they can buy plants or seeds; my calla lilies blooming after months of care, somebody wants to know where they may buy bulbs; likewise with other things. Here is the moral—if one wants "the flowers that bloom in the spring trails," one must plan for them in September, October, or even August. All seeds that are spring planted in the North must be sown in the fall as must calla bulbs be planted then.

The recent flower shows in Orlando and Wintery Park were a fascinating revelation of the possibilities of spring blooming animals. Most of those shown are already in Sanford gardens, but there are a few deserving especial notice, and in the hope that some reader will mark these names in his catalogue for fall planting in well prepared boxes or seed beds, I will name, 1st *Himmensiana*—a beautiful golden flower on the order of a California Poppy, but of greater substance and not closing up as the poppies do.

2. *Didiscus Coreuleus*—or the Blue Lace Flower, a lovely dainty thing, very easily grown.

3. *Arcioidis Grandis*, a daisy-like flower, very pale blue with black centers—lovely cool-looking pale green foliage. Stands the hottest sun and is fine for cutting.

4. *Salpiglossis*—very showy in various colors.

5. *Statice*—on the order of everlasting, but of various dainty forms and colors.

6. *Belladonna Derphinium*. This is the perennial larkspur so gorgeous in the North. It will not survive our hot dry summers, but fall-sown seed, will bloom in March and April, and the few plants I have are a perfect joy, as I know no other blue so heavenly as their blossoms.

Now this is all I have to say but if these six items are added to somebody's garden this fall somebody is going to be sure to say the suggestion was worth while.

SUSAN B. WIGHT.

The only B. A. that interests some of this year's seniors stands for Bating Average.

Dollar gasoline would at least relieve the congestion in the emergency wards.

Grim Realism in "Hearts Aflame" Tonight and Tomorrow

Realism is the outstanding feature of Reginald Barker's latest production, "Hearts Aflame," a Metro photograph which presents Frank Keenan and Anna Q. Nilsson at the head of a strong cast at the Princess theater. From start to finish, the picture carries with it an air of reality and conviction that only sincere effort could produce.

In making the production, Mr. Barker was not limited by either cost or time in his determination to get big, smashing effects and realistic thrills in the scenes of "Hearts Aflame." On one occasion during the six months consumed in the filming of the story, he took his entire company up to Cranbrook, British Columbia, where he spent seven weeks getting wonderful outdoor scenes with an extensive forest of majestic pines as a background for the action.

While in the Canadian woods, the director launched the first thrill of the picture, blowing up a dam and releasing to thousands huge logs to go racing madly down the river. He had to construct the dam especially for the scene, making it as substantial and as correct from an engineering standpoint as though it were to stay for years. This was necessary in order to hold the logs and provide the proper effect in the explosion.

But the greatest feat in the picture, and incidentally one of the most daring projects ever attempted for the screen, is the raging forest fire episode which builds up to the powerful climax of the story. Staged under the personal supervision of County Forester Stuart J. Flintham and his force of one hundred deputies, the fire sweeps through twenty acres of pine trees while Anna Q. Nilsson braves the flames at the throttle of a locomotive in a wild ride for powder to dynamite a whole mountainside.

Twenty cameras were used to record the spectacle, and the startling results on the screen are a more than just reward for the tremendous chances taken by Miss Nilsson and the fortune which went up into smoke in the name of realism. Grasping the throttle with one hand and endeavoring to shield her face with the other, the screen actress is plainly seen inside the blazing cab of the engine with the flames from the burning trees reaching out and licking the sides of the locomotive as it plunges through the doomed forest.

BRITISH PREPARE FOR MOST PRETENSIVE OF WEDDING CEREMONIES

LONDON, April 23.—Not since the day thirty years ago, when King George IV as the Duke of York led his royal bride to the altar has England prepared herself for such a gala wedding fete as will be celebrated Thursday—when Prince Albert, of York, next in succession to the British throne after the Prince of Wales, weds Lady Elizabeth Bowes-Lyon in Westminster Abbey.

All plans for the great occasion are completed and it remains only to put the finishing touches to the scenery for staging this royal pageant. London herself will be bedecked like a bride in all the finery of her silken flags and banners, and almost everybody in the United Kingdom, so it seems, will be here to join in the festivities. Those not able to come to London will be regaled with the wedding story told by wireless broadcasting.

Hundreds of thousands of people are expected to line the route of the wedding procession to and from the abbey. Stands have been erected near Westminster for spectators and every building along the route will be turned into a banneted pavilion. The windows of offices, shops and even private houses have already been rented.

The Herald delivered six times a week for 15¢.

LOCALS

Hot and dry and getting dryer every day.

A big rain would work wonders in the garden and farm and grass plots.

E. W. Kilbe and son, William, of Geneva, were in the city today on business.

Bids for the second quota of street paving will be received today by the city commissioners.

Commissioners Curlett, Entzminger and Wheeler were in the city today from their respective bailiwicks.

Dr. W. J. Carpenter expects to leave today or tomorrow for St. Petersburg where he will be absent for several days on church work.

The regular band concert will be held tomorrow night in Central Park. The program will be published in Tuesday's Daily Herald.

Born to Mr. and Mrs. Martin McDaniel, a fine baby boy. His father thinks so well of him that he will probably be named Martin, Jr.

Mrs. Fred Daiger, Jr., society editor of the Daily Herald, is spending several days in Ocala visiting relatives and friends.

Friday at 1 o'clock Mrs. J. E. Pace will entertain the Book Lovers' Club at a picnic luncheon in the park in front of the Pace home.

Mrs. Lester will entertain the Daughters of Wesley at the home of Mrs. Goodhue on Magnolia avenue at 8:00 o'clock Tuesday evening.

J. H. Dunbar and Miss Dunbar have gone to their summer home at Willow Grove, Pa., but expect to return to their winter home in Longwood before another winter season comes.

Representatives of various paving concerns and allied industries are in the city looking after the paving bids that will be opened today by the City Commissioners.

The Building Committee of the Woman's Club will hold a Rummage Sale next Saturday, the place to be announced later. The members of the Woman's Club are requested to save all their rummage for the sale.

Hon. Forest Lake is home from Tallahassee to meet with the city commissioners and also to transact other business. Mr. Lake is anxious to know just how the people feel about several bills now in the legislative hopper.

Jack Harvey, of the Southern Clay Manufacturing Co., is in the city shaking hands with his many friends. Jack says that brick is still the premier paving and he intends to pave some of the streets of Sanford before he is through.

Mr. and Mrs. H. T. Smith left yesterday for their home in West Palm Beach after spending several days here the guests of friends. Mr. Smith was formerly the cashier of the Peoples Bank here but is now cashier of one of the banks in West Palm Beach.

Owen's Studio have their add in today's paper and they have something in their ad that will interest you. Read their advertisement and see what they have to tell you. struck see Mr. Owen for he can sure do the finest work in photography, also enlargement or snapshots or photos; visit the studio and see what a nice place it is. You are always welcome to stop in at any time and see the many arrangements they have there to give you the very best in that line of work.

John Wulff, who has been employed for the past several months as Linotype operator on the Orlando Morning Sentinel, was in the city today to visit R. K. Gore, he and Mr. Gore working together several years ago on the Morning Journal at Daytona. Mr. Wulff is headed for his home in Illinois.

Mr. and Mrs. John Maurer, Jr., Mr. Amon Maurer, Mr. Stanley Miller, all of New York City and Mr. and Mrs. R. S. Holly and son, Jack, of Sanford, motored to Daytona—Beach Saturday afternoon where they spent a very pleasant week-end, stopping at the Sea-Side Inn. Surf bathing was enjoyed by the party and after visiting Cattaneo's famous Grill at Daytona enjoying one of Cattaneo's shore dinners, the party motored back to Sanford.

Daily Fashion Hint

A CHIC MORNING FROCK

This slip-on frock in dark blue cashmere is a delight for shopping and other tasks of the morning. It has a round neck, but the collar prefers to wind its way downward to show a dainty trimming of buttons and braid. Deep cuffs of self-material lengthen the sleeves and below the hips there are roomy pockets for the kerchief or purse. Medium size requires 2 1/2 yards 54-inch material. Pictorial Review Dress No. 1381. Sizes, 34 to 48 inches bust. Price, 35 cents.

FOR THE WELL-DRESSED

When Fashion wants to give variety to a familiar model, she selects intriguing details of decoration for the purpose. This frock of light gray crepe de chine, for instance, is handsomely yet simply trimmed with rosettes of apricot chiffon lined with silver. The closing is at the left shoulder and the neck is in oval outline. The side gorges are gathered at upper edges, extending below the hem in points. Medium size requires 5 1/2 yards 36-inch material. Pictorial Review Dress No. 1360. Sizes, 34 to 48 inches bust. Price, 35 cents.

FOR THE MOVIE FAN

A roaring sheet of fire sweeping thru the big timber—

That sounds interesting, now, doesn't it?

This is a part of what is in store for you in "Hearts Aflame" at the Princess tonight and tomorrow night.

This is a Reginald Barker production and this sweeping fire, swifter than the racing wolves before it is played only as Barker production can show it.

Nothing but blasting could check it and the dynamite must be brought through. A plucky girl and brave boy do it—giving thrill after thrill.

Mr. and Mrs. Bill Bossidy and Mr. M. D. Tarbell, Sr., are the invited guests for this big feature tonight—the treat on the house.

"The Eternal Flame" and "Adam's Rib" are the two other big features this week. That makes three features in one week, don't miss a one of them.

The management announces that every picture this week there will be a comedy or some kind of extra. That is going some when you consider the merit of the features themselves. A good program every night this week.

GERMAN CROWD SEES FRENCH UNFURL FLAG OVER HEART OF RUHR

(By The Associated Press) ESSEN, April 23.—The French flag today flies over Essen for the first time. A battalion of French troops today presented arms while curious crowds of Germans watched the tri-color hoisted to the top of the flagstaff over the Kohlensyndikat, where the Ruhr coal barons once centralized a business of 100,000,000 tons. The bands of the French played the Marseillaise. The ceremony was short.

At French headquarters, it was said, the ceremony was merely a matter of form in order to have the French flag flying in the heart of the Ruhr.

For quick results try a want ad.

NOTICE, CO. D. BAND!

All members of the 154th Infantry Florida National Guard Band are requested to be present at the Court House tonight (Monday) at 8:00 p. m. by order of Major Stevens.

THE HERALD'S PLATFORM FOR 1923

- 1.—A new Library Building in the center of the city. 2.—Extension of the present bulkhead on the lake shore. 3.—The new pier and boat basin finished before January, 1924. 4.—A big Auditorium that will seat at least 5,000 people. 5.—New home for the Campbell-Lossing Post, American Legion. 6.—A Community Chest out of which all funds will be drawn. 7.—Two mill tax for publicity purposes. 8.—Municipal ownership, starting with water works and soft water. 9.—Systematic mosquito campaign and cleaner city. 10.—Ten thousand people here one year from today.

HERALD COLLECTIONS

The Herald carriers manage and control their routes, pay in advance for all papers drawn, and absolutely depend upon their collections for their running capital and profits. When subscribers neglect to pay them it is the CARRIER and not THE HERALD that stands the "brunt"

AND THIS IS FLORIDA

FROM WEST PALM BEACH TIMES. What other state can invite you to Florida sugar cane will produce eleven thousand pounds of sugar? Florida is the Italy of America, the rendezvous of art, and the world's Garden of Eden. It will be the land of wonderful cures, for it has some of the largest and healthiest springs in the world.

A Scene From Reginald Barker's Production "Hearts Affair"

Last Times Tonight at the Princess

getic and patriotic citizenship live, labor and love. As someone has said in more poetic words and phrases than the way in which I would express it: "Florida is the playground of the Western Continent, the garden of the United States, where babbling brooks, rippling lakes, silver rivers and crystal seas blend in eternal melody with stately palms georgous magnolias, flaming poinsettias and myriad songbirds; where generous sunbeams, salt sea breezes, and mellow moonlight make one forget his troubles—and his enemies—and where amid climate luxury, incomparable beauty and the fragrance of flowers, he may hear Nature's seductive invitation, abide with us forever."

DEPUTY SHERIFF KILLED BY NEGRO

KISSIMMEE, April 24.—Harold Kempfer, a deputy sheriff of Deer Park, was shot by a negro named John Fleinaway yesterday afternoon in about two miles of Deer Park, in Ocala county.

The details of the affair are as follows: John Fleinaway, a negro, living at Hopkins, near Melbourne, shot and killed a negro woman at that place on Friday, and escaped. The deputy sheriff of that place came over and told Mr. Kempfer to look

AN INDEX TO CHARACTER. There could be no better index to character than a savings pass-book. This will serve you well at all times and under all circumstances. THE PEOPLES BANK of Sanford is ready and anxious to help you to help yourself. An interest-bearing account is your best recommendation. PEOPLES BANK OF SANFORD Sanford, Florida

out for the negro and yesterday while Mr. Kempfer and wife and mother-in-law were riding along the highway near Deer Park, they met a strange negro in the road. Mr. Kempfer got out and asked where he was from and he said "Deer Park," but Mr. Kempfer knew better than that, as he was acquainted with all the citizens of that place. He told the negro to hold up his hands to be searched and the negro drew out a gun and shot Mr. Kempfer down the first time, and then shot him five times. Mr. Kempfer shot the negro three times, after he (Kempfer) was down. The negro escaped, but was captured later at Melbourne. He is not expected to live. Mr. Kempfer was rushed to the Orange General hospital in Orlando but died before he reached the hospital. Mr. Kempfer was 25 years old and very prominently connected in Deer Park, was an exemplary citizen in every way and a fearless officer. He was married less than a year ago, and leaves his wife, who was with him at the time of his death, and his parents, who live in Pennsylvania. His body will be shipped to Pennsylvania tomorrow for burial. The Herald delivered six times a week for 15c. RELIEVES BACKACHE "Have had kidney trouble and backache for many years and I tried several doctors but got only temporary relief. A friend advised me to try Foley Kidney Pills, and before I used two boxes I was entirely well," writes A. C. Perkins, Summer Shade, Ky. Kidney and bladder trouble requires prompt treatment. Foley Kidney Pills give quick relief. Refuse substitutes. Insist upon Foley's. Sold everywhere.—Adv. McKimmon-Markwood Company will have a complete line of Hart Schaffner & Marx clothing, new store, new stock. 124c

"It Pays to Swim With the Current". This is about two spark plugs. At the moment they are lying on the sales manager's desk in the establishment of a large middle-western hardware jobber. One spark plug bears a name known wherever automobiles are used, the other a name seldom heard. Both, says the sales manager, are good plugs. On the score of quality they run neck and neck. "But," he adds, "we are discontinuing this line"—and he holds up the plug of unfamiliar name. "Yes, and our discount on it is larger, too." "What's wrong with it? Not a thing. It's a good plug—mighty good plug, but—no one knows about it. It isn't advertised—the other one is. The demand is for the advertised make. And we've learned it pays to swim with the current, not against it." More and more jobbers in every line of business are learning every day that it pays to swim with the current of popular demand. "Our job," said one jobber, "is to supply markets, not create them. Let the manufacturer make a market for his goods, and we will handle it." Said another—"Our salesmen carry a catalog with thousands of items in it. They haven't the time to push unadvertised goods. Their work is principally taking orders." If you go among these wholesalers today to introduce a new product in competition with merchandise nationally advertised, unless the article is exceptional, you will be met everywhere by the injunction: "First go out and get a reputation for your goods through advertising." The wholesaler knows by actual contact with dealers how they value speed of turnover, goods which move with a minimum of effort, goods people know about and ask for.

"America's greatest asset is that every live American is up to his neck in debt. I started in debt; am in debt now; I'll be in debt as long as I live." This from the lips of one of America's greatest captains of industry, Samuel Insull, is worth pondering. Debt does not spell insolvency. Indeed, the man who never operates on borrowed capital is far more likely to be insolvent if he be a business man than his more venturesome neighbor. Nothing ever yet has been accomplished in commerce or industry except by those who are willing to take a chance. Our railroads, arteries of trade, our elevators for the storing of grain, our ship lines, all have been established on borrowed capital. Our mines have been developed by men who were willing, if we may use the vernacular to place themselves in lock temporarily because of the promise of large profits. Debt is a blessing, not the curse it so frequently is considered by badly-balanced persons.—Tampa Tribune.

MORE FORDS SOLD THAN EVER BEFORE SAYS EDWARD HIGGINS

"More people want Ford cars than ever before," says Ed Higgins, local Ford dealer said today.

"Fifty thousand more Fords were sold at retail in March than in any one month in the history of the Ford Motor Company, according to word from Detroit. The March sales totaled 197,764 cars and trucks.

"Here in the Jacksonville branch territory of which Sanford is a part the March sales were 3,801 cars, a big increase over last year for the same month. The demand for the Ford is just as great proportionately right here at home as it is anywhere else in the country.

"The company is now operating on the greatest manufacturing schedule in its history, so there are more Ford cars being built than ever before and improvements in all the different types make the Ford the best it ever has been.

"And Ford cars are now easier to obtain than ever before because of the new Ford Weekly Purchase Plan which makes it possible for more families to have a car. Father, mother, sons and daughters all can participate in the plan and it is rather surprising the number of families who are taking advantage of it so as to enjoy the pleasure that come with automobile ownership.

What is Earth Like Inside? Old ideas in regard to the high heat on the unknown inside of the earth may have to be revised, if the inconclusive evidence adduced by temperature tests in 107 deep wells in the United States by Dr. C. E. Van Orstrand, physical geologist of the United States Geological Survey, should be confirmed by later investigations.

Notice is hereby given that W. A. Stapler, purchaser of Tax Certificate No. 8, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

Twenty Cameras Used to Film Forest Fire in "Hearts Aflame"

At the Princess for the Last Times Tonight

Twenty cameras, the largest number ever trained on one scene, were employed by Reginald Barker to record the spectacular forest fire which was staged especially for the big climax in "Hearts Aflame," Reginald Barker's production, released by Metro, and tonight at the Princess theater.

Working under the supervision of Percy Hilburn, chief photographer on the production, the cameramen were stationed in pairs at various points along the twenty-acre stretch of pines set afire for the picture, many of them being so close to the flames that they had to have sheet iron blinds to protect the cameras from the fire. In spite of this provision, two of the cameras were put out of commission entirely by the terrific blaze and intense heat, and five of the cameramen were severely burned in the experience that they had to report for medical treatment when the scene was completed.

Half the number of cameras employed could probably have covered the necessary angles just as well as the twenty used, but the cost of the forest fire sequence reached such an enormous figure and the thing was such a tremendous undertaking that Mr. Barker decided on the greater number of cameras to insure getting the full value of the spectacle for the screen. And an even better reason was the importance of catching Anna Q. Nilsson at the cab of the locomotive which she drove through the flame—a daring feat that nearly cost her her life. With all her leky in the wild ride through the fire, she was so badly burned about the neck and shoulders that she required constant medical care for a week.

Headed by Miss Nilsson and Frank Keenan, the cast embraces such notables as Richard Hendrick, Russell Simpson, Richard Tucker, Stanton Heck, Lee Shumway, Irene Hunt, John Hill, Ralph Clomberger, Martha Mattox, Walt Whitman and Joan Standing. Craig Ward, the leading man, is a "find" of Reginald Barker's, whose excellent work in this picture marks him as one of the coming favorites of the screen. J. G. Hawks and L. G. Rigby portrayed the scenery from the famous novel, "Timber," by Harold Vitus. The photography was produced for Louis B. Mayer.

EARLY HISTORY OF DETROIT

Interesting Now to Read of Forts Erected for Protection of Citizens Against Indians.

For nearly twenty years following the American occupation of Detroit in 1770 the Indians of the Saginaw valley harassed the citizens by threatening attacks upon the town, and by stealing their cattle from the public common through which Washington boulevard was afterward surveyed. Fort Shelby, which then centered about the present site of the post office, did not intimidate the Indians from invasions of the common, so a circular earthwork fort was constructed just east of where High and Park boulevards now converge for additional protection. The work was performed by soldiers from the fort during the year 1806-7.

SNOW HOUSE NEEDS CARE

The Eskimo makes constant changes in the thickness of the roof of his snow house, or igloo, to keep its interior heat uniform. Vilhjalmur Stefansson, the Arctic explorer, tells about a snow hut built at 60 degrees below zero. Each block of snow used in its construction was necessarily of the same temperature and contained what might be wrongly termed a great deal of "latent cold." To neutralize this cold it was necessary to keep the inside of the hut for a considerable time at a temperature of 60 degrees Fahrenheit.

CO-OPERATIVE CCAMPAIGN PLANNED TO SECURE FOR FLORIDA DEEP WATERWAY TRANSPORTATION

(Continued from page 1)

of her waterways, handle at least 40 per cent of her citrus fruits and 30 per cent of her vegetable crop to market by refrigerator steamers. The relative cost of this improvement, because of the absence of costly excavation in removing rock, and because of the low cost of maintenance resulting from the fact that there is no appreciable current in the St. Johns river and no rapid currents creating bars and other deposits, render the proposition from a construction standpoint most attractive.

Present steamer rates from California to Atlantic seaboard points permit the deduction that Florida can save at least 50 per cent in handling all fruits and vegetables via water. Based on only 16,000 cars there would be a saving of \$2,800,000 which in itself would justify the expenditure to develop this waterway.

The average freight rates on vegetables and citrus fruits by rail from Florida points to Eastern points is one dollar per package. Rail facilities at New York, Philadelphia, Baltimore, Boston and other Atlantic ports are inadequate and congested. The rail lines entering New York are now developing a produce delivery depot on the New Jersey side, approximately ten miles from New York.

This will necessitate cartage charges and will further advance the transportation costs to the Florida shippers. Steamship lines can land all Florida products right in the heart of all these cities and they can be distributed at a minimum cost.

During the season of 1921-22 there were several thousand acres of cabbage in the State of Florida that were not harvested for the reason that the freight rates from Florida to the consuming markets was more than the cabbage could be sold for. The freight rates on this commodity is about \$10 per ton.

All the time that Florida cabbage was going to waste in the field, because of exorbitant freight rates, ship loads were being brought into Atlantic ports from Holland and Denmark by ocean steamers.

The topography of Florida lends itself to the development of waterways as no other state in the union. Of the total area the land surface comprises 34,712,500 acres, while the waterways and lakes total 37,231,520 acres.

There are no mountains that will interfere with the construction of lateral canals joining up these various lakes and waterways with deep water.

Counter for Golfers.

An instrument designed to keep an accurate account of the strokes made between holes, and worn like a wrist watch, is a novel appliance for the golf enthusiast, and is described with illustration in the Popular Mechanics Magazine. On the dial of the instrument is a small pointer which is moved after each stroke.

Fair Enough.

"I'm surprised to see such an eminent lawyer defending a bootlegger." "Turn about is fair play." "That's it."

Used Up.

A naval officer in Washington who has had much experience in the Arctic exploring line was once giving an account of his stay in ice fields.

NEWTON FLORIDA'S BEST ATHLETE

GAINESVILLE, April 24.—Day by day, in every way, "Ark" Newton is proving the wonder athlete at the University of Florida. By winning the Southern Pentathlon championship on Fleming Field from a coterie of stars representing Centre College, Georgia Tech, Oglethorpe and others the Arkansas boy proved conclusively he is by far the best all round athlete in the university just now and one of the greatest, if not the greatest athletic marvels in the school's athletic history. Besides track, "Ark" is a star in football, basket ball and baseball.

In capturing the Pentathlon, Newton was in form, showing clearly the effects of lack of training, caused by his baseball of late. Otherwise, the "Gator" star would have been an easy victor instead of being pushed to the limit to win by a one point margin over Leonard of Centre College, who was runner-up. Middlekauff, also of Florida, made a "surprisingly" good showing, coming third in the Pentathlon.

Roberts, of Oglethorpe, was high point man in the meet, a re-check Sunday shows. He tallied 11 points, the markers being the result of firsts in the 16 pound shot put discus throw and fourth in the javelin.

Lamar Golf Tourney Starts For Saints

ST. AUGUSTINE, April 21.—By no means does the end of the winter season mean the end of golf in this city, and the Lamar tournament is now on at the St. Augustine Country Club.

This is the first big event of the summer at the club, and the entry list is one of the largest entered on the home links, winter or summer. Over fifty are in the play.

FOR THE MOVIE FAN

Reginald Barker's production—"Hearts Aflame."

At the Princess last night and again tonight.

Nothing need be said of this picture if you will just ask those that saw it last night.

Seeing the picture without cost tonight will be John Schirard and his family.

Tomorrow night, Norma Talmadge in "The Eternal Flame." Never before has Norma Talmadge created a role so magnetic, so radiant as the Duchess, gorgeous to behold but never to be held.

"The Eternal Flame" will be shown at the Princess two nights—Wednesday and Thursday with extras attached to the program.

Friday and Saturday—"Adam's Rib."

ST. AUGUSTINE BLANKS

PALS; COLEE IS MASTER

PALATKA, April 24.—The Saints got sweet revenge for the laces they received earlier in the week, by blanking the Pals 3 to 0 Sunday. Cliff Colee, on the mound for St. Augustine let the Pals down with two measly hits, and struck out nine men. Eight of his nine strike-outs came during the first five innings.

SIGHT OF MONEY WON H

Prospector Refused \$100,000 for Mi but Sold for \$10,000 Actual Gold Money.

Money's an odd sort of commodity and some persons know very little of actual cash from intimate acquaintance.

Harry Veness tells of an odd sort of dough of the Klondike, who had a valuable claim after several years of dangers and hardships in the North. He came to Seattle and operators who realized the value of his holdings had tried to buy him out for \$100,000, but it was no use, the prospector held on. Then came the wise man who made the deal, and for one-tenth of that sum. The stage-managed proposition was worked like this:

The operators cornered their man on the main street and induced him to accompany them to a dark little office off Marion street. There they talked Alaska and mining until they thought they had their man in the proper frame of mind. They opened up the subject of a deal and he admitted he had been offered \$100,000.

"And you'll never sell for that?" one said, and when the miner said "No" the would-be purchaser went to a table near by that was covered with a cloth and snatched the covering away. There, stacked in neat but careless appearing piles, was \$10,000 in bright, new shiny \$20 gold pieces.

"There's what we'll give you," shouted one of the operators as he saw the miner's eyes gleam. "You just sign the deed, and take the money."

And the miner, unused to money, carried away by the sight of real coin, signed.—Portland Oregonian.

Uniform Traffic Laws For State is Planned

TALLAHASSEE, April 24.—Six measures approved by the Florida League of Municipalities have been turned over to Representative A. T. Stuart of Hillsborough to be introduced in the house, and City Attorney P. H. Odom of Jacksonville is

preparing a seventh to be introduced. The seventh measure will establish uniform traffic laws in cities and towns of Florida. Mr. Odom is expected to send it on here next week. One of them prohibits burning woods or marshes, except between February 15 and March 31, or except upon giving two days notice to every person living within one mile of the area to be burned.

Another would authorize cities and towns to fix rates for water, gas and electric rates, another allows cities and towns to fix toll rates for use of bridges by public utilities; yet another forbids the erection of direction signs along public highways except as authorized by boards

of county commissioners or the legislature; a fifth bill would give counties power to acquire by gift or purchase land for park purposes, while a sixth gives cities and towns the right to buy by condemnation or otherwise public utility plants.

Swallows Cover World.

Swallows, it has been established by experiment, migrate from England to South Africa, 5,000 miles. A man in Berkshire, in 1921, fastened a mark on a swallow and turned it loose. The bird was reported as having been caught five months later at Jansenville, South Africa. Other marked swallows, liberated in England, have been reported from Natal, Orange Free State, Cape Province and the Transvaal.

What Did He Get Then?

Benny, small scion of a Montgomery county family, is at the age when instruction on etiquette seems necessary. Sunday, the family was invited out for dinner. While at the table, the hostess served Benny with a second piece of cake. On his noncommittal acceptance of the favor, he was admonished by his mother:

"Now, what do you say, Benny?" Hastily gulping down the last fragment of the second slice, Benny replied, with difficulty:

"Got any more?" — Indianapolis News.

The Herald for first class job work.

The four banks of St. Petersburg now have deposits in excess of \$13,000,000.

Chesterfield

"If you ask me, it's the best cigarette ever made!"

Cause

Taste is a matter of tobacco quality. We state it as our honest belief that the tobaccos used in Chesterfield are of better quality (and hence of better taste) than in any other cigarette at the price.

and Effect

NORMA REALIZES CHERISHED HOPE IN "ETERNAL FLAME"

Norma Talmadge has registered many screen achievements starring under the First National releasing banner. One of her most successful pictures, it will be remembered, was the emotional Spanish drama, "The Passion Flower." More recently came her notable triumph in "Smilin' Through." But Miss Talmadge has not yet been fully satisfied with the semicostume pictures she had appeared in. She was consumed with ambition to attempt a monumental all costume production, which ambition she has at last realized in "The Eternal Flame," a production which will be shown at the Princess theater Wednesday and Thursday.

MAKE WAR ON "BABY TALK"

Cincinnati School Authorities Have Issued Special Appeal to Women's Clubs of the City. An appeal has been made by the school authorities of Cincinnati to the mothers of that city to enlist in a war against "baby talk," and its effects on their children, and a special speaker has been appointed to carry this cause to the mothers' clubs.

ARMIES OF WOMEN WARRIORS

Amazona, According to Ancient Writers, Were Fierce Fighters—Some Records of Their Deeds. According to ancient writers, the Amazona were a nation of female warriors, who allowed no men to live among them, but marched in battle under command of their queen. They held occasional intercourse with the men of neighboring states. If boys were born to them, they either sent them to their fathers or killed them. But the girls were brought up for war, and their breasts were burned off so that they might not be prevented from bending the bow. From this custom they received the name of Amazona, which is "breastless."

WRITER'S NAME WILL LIVE

Superficial Critics Have Misjudged the Work Given to the World by Sir Walter Raleigh. It is something of a paradox that the last work of Sir Walter Raleigh, "The War in the Air," should have been the history of a great modern adventure, written upon a large scale.

AS TO DIVISION OF LAB

The division of labor is one of the principles evolved from the study of political economy, or economics, and is based on the claim that industry can best be carried on when each man has a special work to do. Constant practice in doing the same thing leads to a perfection which could not otherwise be attained.

FIVE LIQUOR BILLS PASSED BY THE HOUSE

TALLAHASSEE, April 24.—The house came back to work yesterday afternoon and passed five of its thirteen bills despite the repeated efforts to interrupt their discussion with motions that business be given over to the introduction of bills. Only the lesser drastic bills of the lot were considered, their floor champions having them ahead of the hard ones in view of the short time in which the body had to work.
