## PRICES ARE FALLING FOODSTUFF AND CLOTHING RECORD CROPS RESULT

### Flour Now Under Ten Dollars First Time in Four Years

### CLOTHING WAY DOWN

### BUT BIG DECLINE NOT LIABLE TO START BEFORE SPRING

Price reductions in a dozen lines are reported in the day's news from commodity centers all over the country—probably induced to some extent by indications of record grain and food crops and aided by tightened credit conditions. For the first time in four years flour is below \$10 per barrel, while wheat yesterday sold for \$1.77 and corn for 78c on the Chicago Board of Trade.

The clothing show at Chicago brought first news of further slashing of wholesale prices for clothing and furnishings, while carpets and rugs went off up to 35 per cent in the New York auction market.

One national string of restaurants announces a cut of from 11 to 28 per cent and raw sugar is back at six and a quarter again on the New York market. St. Louis reports milk selling for sixteen cents a quart, an immediate drop of a cent, while in Winnipeg they are going to get a 20-ounce loaf of bread for a dime and a sixteen-ounce loaf for eight cents.

### DYNAMITED CHURCH, DISLIKED THE PRIEST

(By The Associated Press.)  
ST. CATHARINES, O., Nov. 10.—The Parish house of the Holy Trinity Czech-Slovak Catholic church, was dynamited here today. The porch was blown off, but nobody was injured. The house was occupied by Rev. John Prena, recently installed priest, whose appointment was protested by members of the church and for a time armed guards were maintained to prevent his taking possession.

### NATION-WIDE SELLING ADVOCATED FOR FARMS

(By The Associated Press.)  
BOSTON, Nov. 10.—The establishment of a "Nation-wide selling organization which shall fix the price of farm products" if farmers do not receive the "same pay for the same hours work that other receive," was predicted by Sherman J. Jewell, master National Grange of Patrons of Husbandry, at their convention here today.

### RED CROSS MAN KILLED BY BOLS

LONDON, Nov. 10.—Captain Emmett Kilpatrick, representative of the American Red Cross in South Russia, and two nurses, were brutally killed during a Bolshevik cavalry raid on Salkovo station, says a Sebastopol dispatch to Reuters Limited, last night.

### ROMAN BATHS WILL BE INSTALLED IN U. S. SENATE

(By The Associated Press.)  
WASHINGTON, Nov. 10.—The Graeco Roman baths in the United States senate, installed eight years ago and abandoned after charges of extravagance, will be put into service for the benefit of the members who pay the upkeep.

### GENERAL NIVELLE REVIEWS THE CADETS AT NAVAL ACADEMY

(By The Associated Press.)  
WASHINGTON, Nov. 10.—General Nivelle, of France, reviewed the midshipmen at the Naval Academy as the guest of Secretary Daniels, today.

### MEXICAN GOVERNMENT HAS INTERVENED IN DOCK STRIKES

MEXICO CITY, Nov. 10.—The government intervened in the dock workers and stevedores strike at Vera Cruz by taking over operation at all piers in an effort to avert the general national strike threatened.

### TENNESSEE REPRESENTATIVE IN JAIL FOR RECKLESS DRIVING IN WASHINGTON

(By The Associated Press.)  
WASHINGTON, Nov. 10.—After spending the night in the precinct police station Representative Garrett, of Tennessee, was hauled into police court to answer charges of colliding and operating an automobile while under the influence of liquor. The police charge the congressman's machine knocked down Miss Schofield on a street, resulting in a compound fracture of the hip. The police said the congressman declined to furnish bail. The case was continued until November 24th and Congressman Garrett was released on \$500 bail.

### GERMANY STRIVING FOR BETTER CONDITIONS

(By The Associated Press.)  
BERLIN, Nov. 10.—Food Minister Hermes said he was striving to better Germany's food situation by increased production and improved method of handling importations.

### OLD CLOTHES DEALERS FEEL THE EFFECTS DROP IN PRICES

(By The Associated Press.)  
NEW YORK, Nov. 10.—Dealers on Old Clothes Curb of the Bowery declared the passing of "extravagant buying" hit them hard and slashing prices fails to enliven business.

## POLICE GUARD NEW YORK'S FINANCES

### THREATS MADE AT RECENT MEETINGS OF RADICALS SCARES AUTHORITIES

NEW YORK, Nov. 10.—Twenty-five additional patrolmen personally selected by Chief Inspector Lahey, after a conference with Police Commissioner Enright, today were distributed throughout the financial district to guard financiers and financial institutions.

While official announcement was lacking at police headquarters, it was understood this action was taken because of threats alleged to have been made at recent secret meetings of radicals. At the same time the detective force in the Wall Street district was greatly increased.

The additional force has been made a permanent detail. Not only will its members stand guard over the sub-treasury, stock exchange and banks and brokerage houses, but it will keep a protecting eye on prominent Wall Street figures and also watch messengers as they carry millions in securities through the streets.

Special instructions issued "flower of the force" to permit no paring of vehicles served to recall the "death wagon" which figured so prominently in the Wall Street explosion last September in which nearly two score persons were killed and 160 injured.

It was in this wagon that a bomb was believed to have been placed. No statement was forthcoming from police officials as to whether there was any connection between today's action and that of last night when a heavy detail was sent to guard a Fifth avenue apartment house in which lived Mrs. Edith Vanderbilt, Ellih Root and other prominent families. This detail was dispatched on receipt of a bomb warning telephoned the house by an unidentified woman.

At the same time that the police action became known, Commissioner of Immigration Walli, at Ellis Island, announced he had received information from agents of the Netherlands government that Bolshevik agitators are heading for America attempting to bribe members of crews to gain their admittance either as seamen or stowaways.

"It was upon such advices that I issued a new rule for inspection of incoming ships, requiring the crews to be inspected before the passengers," said Mr. Walli, who added he had learned radicals were making Rotterdam their port of embarkation.

## MAYOR'S PROCLAMATION FOR ARMISTICE DAY

Whereas, Thursday, November 11th, 1920, is the Second Anniversary of the signing of the Armistice in the World War, and  
Whereas, The Campbell-Lossing Post, American Legion, has made especial preparations for appropriate celebration of "Armistice Day" and,

Whereas, Believing that it is the duty of every true American to celebrate on the anniversary of so great an event in the history of the world,

I, H. R. Stevens, Mayor of the City of Sanford, Florida, by virtue of the authority vested in me, do therefore proclaim Thursday, November 11th, 1920, as a holiday in the City of Sanford, and do call upon all the officers and business houses to close business in order that all the people may join in the celebration of "Armistice Day," and I do call upon all the people, residents and visitors of the city to celebrate, I call upon the people to recognize the hour of 11:10 a. m. as the "zero" hour, and ask the churches to ring their bells, shops and mills to blow their whistles and people to remain standing and uncovered for a period of one minute at this time; offering up a prayer to the Giver of all things good, who has blessed and preserved the people of this day. Witness my hand at Sanford, Florida, this the 9th day of November, A. D. 1920.

Attest:  
L. R. PHILLIPS, City Clerk  
(City Seal)

H. R. STEVENS,  
Mayor.

## RECORD CROPS STAPLES AND ALL FRUITS

### FLORIDA COMES IN FOR SHARE IN WONDERFUL CROP IN UNITED STATES

(By The Associated Press.)

WASHINGTON, Nov. 9.—American farmers broke production records of five crops this year. Preliminary estimates announced today by the department of agriculture show the corn, tobacco, rice, sweet potatoes and pear crops surpassed in size those of any previous year in the country's history.

In addition very large crops were grown, in some instances closely approaching records, of oats, barley, rye, potatoes, apples and hay. The buckwheat production record, however, has stood since 1866 with this year's crop more than 8,000,000 bushels under it. Final crop production figures will be announced next month.

Increases were shown a number of crops, including sweet potatoes, 7,000,000 bushels; Irish potatoes, 2,000,000 bushels, and apples 8,000,000 bushels.

The condition of citrus fruit crops: Oranges, 85 per cent of a normal, compared with 69 a year ago.

Grapefruit (Florida), 78 per cent, compared with 85 per cent.

Limes (Florida), 77 per cent, compared with 71 per cent.

Corn, king of all crops, and of which the United States grows more than 70 per cent of the world's output, reached the enormous total of 3,199,128,000 bushels. That is 75,000,000 bushels more than ever before grown in any year. This is the third corn crop to exceed three billion bushels, the previous record having been made in 1912, while the crop of 1917 was the second largest.

The tobacco crop, this year, placed at 1,476,444,000 pounds by the preliminary estimate, is 87,000,000 lbs more than grown last year when all previous records were broken. Virginia, North Carolina and South Carolina, exceeded their last year's production while Kentucky's crop this year is 36,000,000 pounds less than a year ago.

Production of rice this year exceeds by 12,000,000 bushels the previous largest crop in 1917. The output this year is placed at 52,298,000 bushels, almost half of which was grown in Louisiana.

The sweet potato harvest will show 150,676,000 bushels, which is 2,000,000 bushels more than grown last year, when the crop exceeded all previous year's production. Alabama's output is larger than any other state's.

The crop of pears this year is placed at 15,558,000 bushels. The previous largest crop was that of 1917, when 13,281,000 bushels were produced. California produced more than 3,000,000 bushels while New York's production is almost 2,250,000 bushels.

Preliminary estimates of this year's crop of wheat, oats, barley, rye, hay, rice and peaches were announced last month.

Products of other crops, as shown

## GOVERNMENT TROPHIES ARE ON DISPLAY HERE

### TRUCK ARRIVES HERE TO HELP OUT LEGION BOYS ARMISTICE DAY

The recruiting department of the U. S. government is helping out the American Legion by bringing a fine display of war trophies and the army trucks are here with the stuff all ready for the big day. Capt. Freeman came in this morning with the equipment and left for Tavares where a similar display will be put on tomorrow for the Legion boys of Lake County.

Corporals Kessell and Gumerlock will remain here in charge of the display and assist in the celebration tomorrow and will also be here for several days afterward opening up a recruiting headquarters as soon as a suitable room can be obtained.

The government display is one that will create a great interest among the boys who were in the world war and those who were not and also among the people who have not had this opportunity to see all of these trophies at first hand.

by the preliminary estimates today, follows:

Buckwheat, 14,321,000 bushels, compared with 15,532,000 bushels forecast last month and 16,301,000 bushels produced last year.

Peanuts, 37,409,000 bushels compared with 39,217,000 last month and 33,263,000 last year.

The preliminary estimate of the production of corn in Southern states follows:

Virginia, 45,000,000 bushels; North Carolina, 62,840,000; Georgia, 69,405,000 bushels.

Tobacco: Virginia, 179,853,000 pounds; North Carolina, 383,922,000; South Carolina, 87,750,000; Florida, 4,820,000.

### From Early Morn Till Early Next Morning

## JUST ONE BIG DAY

### PARADE AND FLOATS AND BALL GAMES AND BIG EATS AND DANCE

For the past month the citizens of Sanford and of Seminole county have been reading of "arrangements, details" and the like in the columns of the Herald, respective to the Campbell-Lossing Post's big celebration on Armistice day, but today we shall give you the final program, knowing that our arrangements are completed and that the zero hour of a barrage of good times is only a few hours distant.

Every feature of the day has been arranged to hold the interest of the public and we guarantee you a royal good time. In short, this is our return for your help in "getting behind the man behind the gun"—it is our party and we want you to have a day brimful of enjoyment.

We shall start the day in a military manner—"Reveille" being followed by the running up of the colors and the sunrise gun. We promise that you shall not need the summons of "Big Ben" to awaken you!

All ex-service men are requested to assemble at the Court House at 8 a. m. in order that our "Daily Summary of Intelligence" may be properly outlined.

Pursuant to Paragraph 3 of the Parade Orders, all sections are asked to be in their respective positions by 9:30 a. m. in order that the column may be ready to start promptly at 10 o'clock. Consult the Parade Orders in regard to your position in the column.

Following Captain Herring's tribute to those valiant sons of Seminole county who made the supreme sacrifice, a wreath will be placed about the monument in the city park in commemoration of their sacrifice.

The hour of 11:10 a. m. has been designated as the "Zero Hour," at which time with the sounding of the (Continued on page six)

### WONDERFUL LEAP ON HORSEBACK FEATURE OF NEW BILL HART FILM

Thrills Aplenty in Latest Western Photoplay "Sand" at the Star Tonight

To leap from a high cliff, towering above the river, and land in the water while sticking to the saddle of his Pinto pony is one of the thrilling feats accomplished by William S. Hart in "Sand!" his newest production for Paramount Artcraft, which will be seen at the Star Theatre tonight.

In the effort to reach the scene of a train hold-up, the star in the role of Dan Kurrie, takes a short cut and in order to be on time, makes the death defying leap. He is a target for the bullets from the bandit's gun as he starts to swim his horse across the river, and to save the animal, he sends it back and strikes out alone. As a bullet passes his head he dives and the bandits think he is lost. Then he swims underwater and comes out in time to turn the tables and save the treasure train—doubly so because on it is the girl he loves better than his own life.

The picture abounds in thrills and in human interest—a quality that insures its reception by the public.

Mary Thurman, noted screen beauty, displays exceptional talent in her rendition of the leading feminine role and there is a splendid cast in addition. There is also a strong vein of comedy and wit, the picture is regarded as one of Mr. Hart's best.

**THE GLEANERS**

Monday evening the Gleaners Class of the Presbyterian Church were delightfully entertained by Mrs. W. M. McKinnon at her home on Magnolia avenue. A very pleasant evening was enjoyed by twenty-four members of the class. Games and refreshments added to the pleasures of the evening.

**THE POLLY ANNA CLUB**

The Polly Anna Club met with little Miss Cametta Barber Tuesday afternoon. All the members were present and had a very good time.

Auburndale has shown a marked improvement since June 1, when the Lew town officers were sworn into office. Every one seems to feel great interest in assisting him to make this one of the best towns in the state, and the way things are moving Auburndale will be heard from frequently along the lines of advancement.

**POT HUNTERS ARE OUT**

The hunting season won't be on for several weeks yet and as usual there are some would-be sportsmen, who claim that they are doing the right thing by going to the woods for "pot shots" before the season opens. Any real sportsman will tell you that when the season opens each year that every covey of birds has been scattered to the four winds by those fellows who want to get out early and beat the other fellow to it before the other man gets a chance at all. In other words they don't want to do as they should in helping to protect the game and make it unnecessary to force the sheriff or the legislature to put a ban on hunting altogether. But that is what will happen if these fellows keep on going to the woods and hunting out the game and not abiding by the laws. The Star hopes that the sheriff will take the matter in hand and catch some of those law breakers who don't seem to care except to get something for themselves. This applies to the fish as well and we hope that those who believe in fair play will report such law breakers to the sheriff or proper party.—Lakeland Star.

**SCHOOL WEEK**

**TO BE OBSERVED**  
 WASHINGTON, Nov. 10.—"School week" will be observed over the country December 5 to 11. Commissioner of Education Claxton has requested the governors and chief school officers of the states to take such action as may be necessary to cause the people to use this week in such a way as it will most effectively disseminate information regard to the conditions and needs of the schools.

**CONDITIONS IN EAST SO BAD RELIEF EXPEDITIONS WILL STOP**

NEW YORK, Nov. 10.—Conditions in Asia Minor are so serious that the Near East relief will not run the risk of sacrificing American lives by sending further relief to the war torn east.

This statement was made today by a national official of the Near East Relief organization following cables from Washington that J. P. Coombs, a native of Florida, is being held by Turkish nationalists at Samsoun. Coombs is director of the organization's relief operations in the Samsoun area. Fear for the safety of other members of the Coombs detachments was also expressed by officers of the Near East Relief.

Besides Melville Chater, a writer, who accompanied Coombs on all his tours of inspection, the party consists of five Americans, three of whom are women. At last advices these were quartered at Samsoun and reported safe for the immediate present.

On the strength of an alarming cable received at the commission headquarters today, passage of six relief workers who were to have sailed for Constantinople on the Panonia today has been cancelled. The cable signed by the general director of the Near East at Constantinople read: "Situation very serious, send no more personnel."

The commission's office here has received no direct advices regarding the plight of Coombs, who is from Apalachicola, Fla. He served with the American forces during the war as lieutenant colonel of the 106th engineers and after the armistice was liaison officer in Berlin between the German government and the American military authorities.

**RAISE IN WAGES IS REJECTED BY 12,000 BALTIMORE BUILDERS**

BALTIMORE, Nov. 10.—12,000 workmen, members of building trades in Baltimore, have declined to accept an increase in wages. At a meeting of representatives of the workers a motion was made to accept a wage advance from ninety cents to one dollar an hour was tabled by an overwhelming vote. One year ago the union rate for carpenters was fixed at ninety cents an hour, with the understanding that on December 1 this year the increase would become effective. The agreement was signed by contractors, builders and representatives of the trade. The employers made no attempt to recede from the agreement. Some of the men say, that as prices are falling and there are indications of steady work at the present wage they are satisfied. Plasterers alone of the building trades, have gone on strike for an advance.

**BISHOP FOLEY WARNS IRISH**

BELEFAST, Ireland, Nov. 10.—Bishop Foley declared the other day in Kildare and Loughlin Roman Catholic Cathedral that it was not improbable that before long parts of Ireland would be plunged into a sea of bloodshed and slaughter unless something in the line of a moral miracle were performed. He could not see by what means the Irish people were to be preserved from the dreadful evils which threatened them; the destruction of life and property on such a scale as would fall little short of that which befell northern France at the hands of the Germans. Their duty as Christians and Catholics was clear, he said. They must have no hand in act or part in murders and they must not give the slightest encouragement to them.

**Six Kinds of Safety**

Have you every paused to consider the safety of the bank where you deposit your money?

The first consideration is the capital, which should be ample to meet the requirements of the community the bank is to serve.

The next question to consider is the officers in charge. They should be men of experience, high character and successful. Without men of ability no institution can succeed.

Then there is the question of confidence. The public should have confidence in the officers and in the bank.

These three principles determine the success of a bank.

We adopted these principles in the outset of our career and we expect to live up to this high standard and increase our usefulness to the community as the years go by.

**We Offer You:**

- 1ST: LARGE CAPITAL AND WORKING RESERVE.
- 2ND: TRAINED MEN IN CHARGE—MEN OF SEVERAL YEARS EXPERIENCE.
- 3RD: THE CONFIDENCE OF THE PUBLIC, WHICH IS PROVEN BY THE DAILY ADDITION TO OUR LINE OF DEPOSITORS.
- 4TH: PROTECTION BY TWO EXAMINATIONS EACH YEAR BY THE STATE BANKING DEPARTMENT, TWO AUDITS EACH YEAR BY AN INDEPENDENT RECOGNIZED PUBLIC AUDIT COMPANY AND TWO SWORN STATEMENTS SUBMITTED TO THE STATE COMPTROLLER BY THE CASHIER, GIVING THE BANK'S CONDITION IN DETAIL, ALL OF WHICH INSURES REGULAR, SYSTEMATIC AND THOROUGH OPERATION OF THE BANK.
- 5TH: THE ADVICE OF A COMPETENT BOARD OF DIRECTORS, WHO MEET WITH THE OFFICERS REGULARLY EACH MONTH AND ADVISE THEM AS TO THE OPERATION OF THE BANK.
- 6TH: INSURANCE OF ALL DEPOSITS EVERY DAY OF THE YEAR, THIS IS A PROTECTION NOT COMMONLY FOUND IN BANKS AND IS AN ABSOLUTE PROTECTION FOR YOUR FUNDS, IN ADDITION TO ALL THE OTHER USUAL SAFEGUARDS.

THESE ARE REASONS WHY YOU SHOULD DO BUSINESS WITH US, AND WE BELIEVE THAT NO BANK CAN OFFER BETTER INDUCEMENTS.

Just Lay Them Down and Nail—That's All There is To It

The Shoulder of Protection keeps hot or cold air—rain, sleet, etc., from forcing its way through the roof.

The Shoulder of Protection is also the Self-Spacing Device. Makes laying easy and rapid—thus saving time and money.

These Asphalt Shingles are surfaced with natural colored Red or Green Crushed Slate. Each rain washes away the accumulated dust—reviving perpetually the original rich colors.

Where these shingles are used the insurance rate is lowered—because they are fire-resisting.

Give us the dimensions of your roof. We will estimate the cost free of charge. Samples and prices furnished free.

**Armistice Day tomorrow.**  
And the boys are all primed to go.  
It should swell their chests and that of their parents, relatives and friends to see them in uniform again.

The boys should never let Armistice Day go by without a big celebration. It is the greatest occasion in American history of modern times. And there are just as many patriots among the older ones who stayed at home and kept the home fires burning.

And they will keep the home fires burning tomorrow by helping the boys celebrate in a most fitting manner. Get down with the boys at "chow" time and help them entertain at the dance at night. They just want harmless amusements and an outlet for their roystering spirits and the dance is the best fun they can have in the evening after the strenuous day is over.

Some day, some time the people who have been renting homes here for so many years, will discover that they could have made money and saved money by owning their homes instead of paying rent. They will learn that a few dollars will buy a lot and they could have bought these lots very cheap a few years ago and this small sum put in the hands of the Building & Loan Association would have built them a comfortable home where they could spend the rest of their lives without paying rent or be put out at any time. And in case they wanted to move away they could have sold the house and had their money back with good interest. Some day, they will learn this but it takes time to educate people and make them home owners.

**CHAIRMAN FOREST LAKE**

Many of the state papers are pointing out the fact that now the state road department can get down to real constructive work. The issue to bond the state is dead and will not be resurrected in the next two years at least. There is no reason for the road department to build experimental roads here and there over the state and no reason for their building a part of a road here and a part of a road there many miles apart. Under the leadership of Forest Lake, who knows what the state needs, the work of building state roads should go right ahead and settle down to a real basis. During the first year of the department's life it naturally did not know exactly what to do in the matter of supplying the many needs of the state. They did some fine work in many parts of the state and probably made some mistakes and the new board will probably make some mistakes but the people who know Forest Lake the best know that he is a level-headed business man who knows what good roads should be like and having lived in a county where they have tried out about all the different kinds of roads that exist in Florida and knowing the good and bad combinations and being one of the pioneers in road building there should be no fear from any quarter of the state that the new board will not get the proper results.

In fact since a change had to be

made according to the appointments of the governor it is just as well that the important program of road building in the state be in the hands of a competent man such as Mr. Lake has proven to be and that the people who know him give him that credit and alleviate any fears that might linger in the minds of the people that do not know him that any of the roads might be neglected. Mr. Lake will make the state money go as far as possible and will build constructively wherever he builds, looking toward the future of the state that he knows so well.

**NOW FOR GOOD ROADS**

Now that the bond amendment is defeated it is up to the legislature to devise some means of increasing the mileage of hard surfaced roads in Florida more rapidly than it has been increased heretofore. Considering the state as a whole we have made as good progress as could have been expected under the circumstances, and some of the counties have done much more than could reasonably have been expected. They have spent money but they have not lost by it. A system of good roads is the best kind of an investment.

But the legislature should not follow the lead of men who have hats in their belfry. We have heard a good deal of talk of building no road in Florida less than sixteen feet wide. The state ought not to put a dollar in any road as much as sixteen feet wide. The roads should be built with room enough to pass, and no wider, for the simplest soul must know that to the extent the roads are widened to the extent is their mileage decreased. We want as great a mileage as possible for the money—not for all the money there is in the world but for the money that Florida can afford to spend for that purpose.

The roads should be constructed as economically as possible and it may be that the costliest roads would be the most economical in the long run. This is a matter for the investigation of men who are capable of investigating the subject—not by prattling cranks.

But the idea that we should have the greatest mileage of any state in the Union and the best roads of any state in the Union, while in keeping with the babble of some who dream they are prominent, is not in keeping with common sense.

This state is one of the richest in possibilities but one of the poorest in the Union in actual development. It has a large area and is very thinly settled. We have more than seven times as great an area as Massachusetts with little more than one-sixth of the wealth of that state. Massachusetts has more than a million dollars of wealth for every square mile of territory, while Florida has only about \$25,000 of wealth per square mile. The man who does not realize the difference is not fit to lead in any movement. We must do the best we can. That is all we can do, but we should try to devise plans for making that best come as near as possible to supplying our needs.

The Times-Union seems to be credited with playing a greater part in this fight than it claims to have played. It was only one of a number

of papers that tried to save the state from an intolerable burden of debt. The fight succeeded but the credit for it should be distributed justly. Some would say "the blame for it" instead of the credit for it, but that is a question the people of Florida have passed on very satisfactorily to us.

We have been represented as attacking the motives and the characters of the members of the state road commission, but they all know this charge is not true. We have not attacked the characters of members who have gone or of those who have taken their place, though we blame two of the members who have gone and one who remained for going into politics on this road question. We thought it was their business to build roads with the money given them for that purpose and not to tell the people of Florida how the money should be raised or how much of it should be raised. We are confident the board will never make this mistake again. We are ready to co-operate with the state road commissioners in all their intelligent efforts to secure for Florida as great a mileage as possible of hard surfaced roads, and equally ready to do what we can to thwart them if they make plans that we think would be injurious to the people of the state. As for the fight we have passed through we have passed through it an dno man who has got right good sense wants to keep on snarling about it.—Times-Union.

**WEATHER AND CROP CONDITIONS IN FLORIDA**

**Temperature.**—The week's temperature average from 2 degrees below the normal to 2 degrees above. Mid-day temperatures were rather high on several days, approximately 90 degrees at several stations in the south and central divisions.

**Precipitation.**—The week was much drier than the normal in all portions of the section, except locally on the southeast coast, where rainfall exceeded an inch at one station. The average distribution, however, was less than one-quarter inch.

**Condition of Crops.**—Droughty conditions delayed farm work generally on uplands in most of the peninsula, and the oat crop is backward; much planting has been delayed in all divisions. The mild temperature has favored the growth of cane, but that factor has been minimized to some extent by the absence of rain. Cane on low lands, however, continues to advance; much is being made into syrup, but the work is delayed in some instances for cooler weather. Sweet potatoes are being dug. The setting of cabbage, celery, and berries continues, and moderate quantities of beans, cucumbers, cauliflower and other truck are in market. Citrus fruits are ripening satisfactorily, although lower temperatures would prove beneficial. The dry weather is causing citrus leaves to "curl" in some groves, but light showers gave some relief.

**COLORED EXHIBIT. BIG FAIR FEATURE**

**Demonstrates That Negro Race Is not Laggard in Understanding and Discharging Obligations.**

Jacksonville.—A distinctive feature of the Florida State Fair, in Jacksonville, Nov. 18-27, will be exhibits showing accomplishments of the colored boys and girls of the State in the home demonstration field, as well as in agriculture and livestock. This work has assumed tremendous and important proportions, and strikingly illustrates what these young people, guided by the hand of intelligence are doing in preparing themselves to become useful citizens of their race.

The displays will cover the canning field, as well as work achieved by the pig and corn clubs. A large number of thoroughbred Duroc swine have been allotted to colored boys, and the pigs are being groomed for exhibition at the fair.

The Colored Building and exhibits will continue to be—except on a larger scale than before—one of the main assets of the fair. It will afford

thousands of fair visitors an opportunity of realizing that the negro race is not laggard in understanding and discharging the obligations which the times have placed upon it. These exhibits will show that the negro race is performing these duties with honor and with credit to the race.

This display is not only a source of pride to the negro race, but it affords equal gratification to the white races in the South, whose pride in it is also equal to theirs, and who desire by their co-operation to demonstrate to America that the real friend of the negro, in times of stress, as well as in peace, is the white man of the South.

In all departments, cash prizes are awarded along the same lines as those outlined for the white exhibitor, and that there may be fair competition among the race, it is confined solely to colored people.

**ORDER ARMISTICE PARADE TOMORROW**

The following military orders for the parade have been issued from the headquarters of the Campbell-Lessing Post and everyone interested should cut out this program and be on time the morning of the parade. Strict attention to these orders will avoid all confusion and start the parade on time:

This gives us an opportunity to render first class service and, by eliminating all unnecessary overhead expense by combining under one distributor, will enable us to give real service at a minimum cost. There will be no advance in the price of any dairy product. The regular morning and evening delivery will be continued as before the merger, and in addition we will make auto deliveries at all hours of the day from the store, where the milk and cream is kept in our cold storage plant.

Patrons will please co-operate with deliverymen by putting out bottles and tickets, so as not to cause a delay. Where there are no bottles or tickets there will be no milk delivered—this being the only way we can serve you promptly and efficiently.

Tickets can be secured at the store or from the delivery man. The patronage accorded us during the past week has far exceeded our most sanguine expectations and we earnestly ask a continuance.

## 400 CHAPTERS ARE READY FOR 4TH ROLL CALL

Rivalry Keen Among Southern Towns To Get Quota Of Red Cross Members First.

Atlanta, Ga., Nov.—More than four hundred chapters of the American Red Cross and about three hundred chapter branches are organized in the southern division for the Fourth Red Cross Roll Call, November 11-25.

"By organization is meant that these chapters and branches have chairmen, committees and the enthusiasm to make the Fourth Roll Call a sure success in their communities," said J. L. McMillin, southern division manager of the Red Cross, today. "We have reports from every one of them that they are only awaiting the date to begin the campaign. First the workers themselves will renew their memberships in the Red Cross. Then every old member will be called upon to re-enlist under the Red Cross banner. After that, every effort will be made to get in the territory of each chapter as nearly as one hundred per cent membership in the Red Cross as it is possible to get."

The southern division includes the five states of Georgia, North Carolina, South Carolina, Tennessee and Florida. Last year the division, for its population, made as fine a record as any part of the country in enrolling Red Cross members. This year it is the eager purpose of every chapter to put the southern division on top again.

A friendly but keen rivalry exists among the various chapters to be the first to report that their quotas are secured. A different system has been used this year in assigning quotas to the various chapters. Instead of determining the quota for the division first and then dividing this out among the various chapters, each chapter carefully estimated the amount of money needed to finance its needs and its plans during the coming year. The chapter's quota was then based on this amount, and the quota for the entire division made up from the various chapter quotas.

Thus, the Roll Call this year is more than ever a local proposition in each community. When local people subscribe to the Red Cross, they are subscribing to meet local needs, and for every dollar paid for membership in the Red Cross, fifty cents will be kept by the local chapter to finance its plans for next year. The other fifty cents goes to national headquarters, to maintain the national work of the Red Cross.

"We challenge every other chapter in the southern division to beat our Roll Call record," wrote one Roll Call chairman in North Carolina. "We intend to be the first 'over the top,' for we are laying our plans to get our full quota of members early in the morning of November 11."

This spirit is typical of the way the vast majority of chapters are awaiting the Fourth Roll Call. It is a rare exception where chapters are not thoroughly organized and plans worked out to secure the quota of members easily and quickly.

Hundreds of newspapers throughout the southern division will cooperate with the local Red Cross chapters to make the Roll Call a success. Speaking of the view with which most Americans regard the Fourth Roll Call, one Atlanta paper already has called upon Atlantans to join the Red Cross in the following editorial language:

"The Red Cross Roll Calls are not 'drives,' not attempts to raise large sums of money for untried causes, but they are institutions in the nation's life, the one time of the year when the American people, old and young, are asked to renew their memberships in the organization that is so expressive of the national spirit and so great a benefit to the nation as a whole.

"The American Red Cross is different in this respect from the Red Cross of other nations, in most of which it is maintained by large contributions from the wealthy. The American Red Cross is essentially democratic. It was founded by the American people. They maintained it for nearly forty years. In the war, thousands of them found in it the opportunity to serve they so ardently sought.

"So, today, the Red Cross belongs to the American people. It gives them the chance they all want in their hearts to do some good in the world. Singly, their dollars for memberships might amount to little; but matched by millions of other dollars from every part of the country, they become a mighty factor in caring for our soldiers and sailors; looking after the interests of the wounded and maimed of the war; safeguarding the discharged service man and his family; doing the same thing for thousands of unfortunate civilians; bringing public health nursing and good health to hundreds of communities; training our boys and girls in the way they should go; doing many other things that enter into the peace-time program of the Red Cross which, in the two years since the signing of the armistice, has been demonstrated to all as one of the finest agencies for public welfare in the life of the country.

"That is what Red Cross membership dollars can do. It would seem that no American citizen, with the good of his country and his own community at heart, would refuse to join."

## SCOUT PLANES ON BOARD BATTLESHIPS

Great American Naval Vessels Carry Two or More Scout Planes.

When Lincoln Beachey made the first "hop" from a specially constructed platform on board the U. S. S. Pennsylvania (the old cruiser now called the U. S. S. Pittsburgh) in San Francisco Bay in 1910, the corner stone was laid which would later

place flying boats and land planes on board great ships.

Beachey demonstrated to the world for the first time in history that it was not only possible to fly from ships but that it was practicable as well.

When we entered the Great War, we were experimenting with a catapult device for hurling planes off our ships by compressed air over a long track similar in construction to that of a railroad bridge. This arrangement was built on the quarterdeck of our large cruisers and the first attempt was made from the North Carolina at Pensacola, Florida, in the fall of 1916. In many in-

stances the measure proved a success, yet there were certain conditions which had to be overcome. One of the principal ones was putting the ship into the wind, stern to, and this could not always be accomplished especially when she was using her guns.

The catapults were removed during the war, after tests had proven them unsuccessful under certain conditions, and a platform built on top of a turret, experimented with and successfully developed. It is now possible for a fast land plane to leave the

platform on the great guns of the turrets under any and all conditions. The planes carried are fast and durable having a radius of several hundred miles.

These planes get off to a "flying start" under their own power, and generally leave the platform at about 55 miles per hour, picking up speed until they have attained over a hundred miles per hour.

The above photograph shows a platform on the upper centerline turret on the Nevada, one of our largest super-dreadnaughts. The platform is not rigged, as it is portable and may be dismantled while the vessel is at sea or when the guns are in action.

## S. P. COCHRAN IN BRONZE

Statue in bronze of Samuel P. Cochran, grand inspector general of the Scottish Rite Masons, by the famous Swedish-American sculptor, David Edstrom, to be dedicated in November at Dallas, Tex. The figure stands slightly over seven feet and surmounts an eight-foot pedestal of Tennessee marble.

**Took a Big Strap.**  
David had spent several days at Atlantic City and his idea of a large body of water was just that—Atlantic City. One day he came in from play with shoes and socks soaking wet.

"Why, David, how did you get so wet?" questioned his mother.  
"Well, mother," said he, "I stepped in 'Lantic City.'"

**Incidental Diversion.**  
"I notice that your business letters are taking on a slightly facetious turn," remarked the old friend.  
"Yes," explained Mr. Cumrox. "Competent assistance is very scarce, and I am trying to make the stenographer's work as entertaining as possible."

## SPECTACULAR ENTERTAINMENT PROVIDED STATE FAIR VISITORS

Following All Northern Fairs, Florida Gets Best of All Circuits.

Jacksonville.—The amusements offered the public by the State Fair this year, Nov. 18-27, will be unique in the history of such events.

Having established at the very start a high standard for the entertainment features, B. K. Hanaford, general manager of the State Fair, has this year planned to surpass all previous attempts in the free act line. Following all northern fairs, the Florida State Fair is able to book all the best acts from all circuits, giving our people an array of talent not gathered at any one spot anywhere in the country.

Aviation will have an important part among the amusement features arrangements having been made for a complete program of aerial stunts which will furnish thrills aplenty to satisfy even the most exacting.

Bands of nation-wide repute will furnish music during the entire period of the Fair. Acrobatic feats, spectacular aerial acts, dancing, comedy will vie with each other in their efforts to please. The widest possible variety of entertainment has been provided and each act is a topnotcher in its line. Detailed announcement of each feature of the amusement program will be made later.

## WEDDING RINGS FOR EACH MONTH OF YEAR

Sentiment Attached Appeals to the Bride Who Would be Exclusive

New style wedding rings ornamented with flowers that betoken the nuptial month have made their appearance in the jewelry shops.

This represents a new drive to crowd the plain gold band from its time-hallowed position. Up to a few years ago the circlet of plain gold monopolized the third finger of the left hand of the world's brides. Then gold rings variously embossed and ornamented began to make a tentative bid for approval. Later came sculptured platinum.

Growing competition in a world busily engaged in toppling over idols and shattering traditions may eventually consign the plain gold band to oblivion but as yet jewelers say, it still stands easily first with brides and the cash register. Its latest rival is of gold or platinum ornamented with blossoms for each month of the twelve in this way: January, wild rose; February, carnation; March, violet; April, Easter Lily; May, lily of the valley; June, rose; July, daisy; August, pond lily; September, poppy; October, cosmos; November, chrysanthemum; December, holly.

**PROMINENT VISITORS HERE**

Senator Duncan U. Fletcher arrived in the city last night and spent the day here the guest of the Hotel Valdez. He left this afternoon for Tavares where he will address the American Legion and their friends tomorrow on Armistice Day.

Willis B. Powell, secretary of the Lake County Chamber of Commerce and one of the greatest boosters in the state, was in the city today. He was accompanied by Clarence Woods, former editor of the Eustis Lake Region, and now connected with the Montverde Industrial School. Mr. Woods is one of the real boosters of Florida also and when he was in the newspaper game gave much of his attention to the upbuilding of the state. Messrs. Powell and Woods accompanied Senator Fletcher to Tavares.

**VALDEZ GRILL OPEN AT NIGHT**

The many patrons of the Valdez Hotel grill will be pleased to learn that the management has decided to keep the grill open at night until 1 o'clock.

**STATE ROAD DEPARTMENT WILL PUSH WORK ON DELEON-SEVILLE ROAD**

Chairman Forest Lake, of the State Road Department, stated that the department's first policy in road-building now is to complete those highways along which some portions have been left lying in impassable condition, thereby rendering the route useless. His position is to build in at the unworked points, making a complete connection and the highways of this kind useful and of service to the traveling public.

After that, Chairman Lake said, it is the intention of the department to go ahead with road-building on straight stretches, and that every one connected with the department in various capacities will do their respective duties efficiently, or capable workers would be employed in their places. It is not the intention of Chairman Lake and the other members of the department to make any sweeping changes. Everyone will be given ample opportunity to show their capacities, but, he added, there would naturally be a change or so in the very near future.

It was decided at the afternoon session to send an emergency force into Franklin county from Port St. Joe to the Calhoun county line and fill in a gap in the road there, so people could get in and out of Apalachicola. There will be repairs made and part of the route built at once to make the route passable.

Another piece of work of value agreed upon was to improve the road out of Jacksonville known as the St. Johns Scenic Highway. This was at one time a state road, but it is said, went back to a state aid road. The members of the department have again placed it in the class of state road. From Jacksonville there will be a long stretch of road work taking in Green Cove Springs, Palatka, DeLand, Sanford and on to Orlando from there on to Lakeland and Tampa, where the roads are good.—DeLand News.

Mrs. Lillian Deyoreo, of Kissimmee, will be the guest of Mrs. C. E. Secrest for Armistice Day.

Geo. L. Stansbury, business manager for the Hunter-Stockton Co., of Greensboro, N. C., on his way to Miami, stopped off in Sanford Friday, calling on his cousin, Mrs. S. A. Irvin.

John M. Hayes bought the beautiful home of W. J. Thigpen, located on Palmetto avenue, which is now occupied by D. C. Marlow. This sale was made by E. F. Lane "The Real Estate Man."

Corporals Kessel and Gumeell, of the recruiting arm of the service, are in the city and will be here several days. They have a quantity of war trophies with them that are creating much interest.

Chas. P. Bauman, of Orlando, was in the city today calling on the local auto garages. He sells everything for the garage in oil, pumps and supplies of all kinds. Charles is an old Oxford, Ohio, boy and came to pay the editor of the Herald a visit.

Mr. and Mrs. Henry Wight and family of Sanford, were guests on the beach over the week end. The family circle included Mr. and Mrs. Kirkley, of Chicago. Mrs. Kirkley is a daughter, and her sister was the third member of the group. Mr. Wight is a wholesale grocer of Sanford.—Daytona Journal.

**THREE-CORNERED ROW IS ON IN VOLUSIA COUNTY**

DeLAND, Nov. 10.—Volusia county politics resulted in a dramatic, tense situation here yesterday, when Judge James W. Perkins, in opening the fall term of circuit court, refused to draw a jury from the box and directed Sheriff Morris to pick up a grand jury from the body of the county. It is supposed that the grand jury will investigate and perhaps indict a number of prominent citizens for circulating a letter just before the recent election, this letter purporting to be from H. C. Sparkman, editor of the Daytona Journal, offering to deliver 2,000 white and negro votes to the white Republican party for \$2,000. The letter was circulated by those opposed to Sheriff Morris' reelection.

The following protest was filed in open court by twelve Volusia county attorneys over the judge's action:

"To the Hon. James W. Perkins, Judge of said court: It appearing that you honor has, for reasons unknown to the members of the bar, excused one-half of the panel of grand and petit jurors drawn from the box to serve at this term of court, and it appearing also that your honor has granted the motion of the state attorney to quash the entire panel so drawn from the box, and it appearing from section 1579 of the general statutes of Florida and otherwise that unless the court shall be satisfied that the public interest will be best subserved by drawing a new panel from the body of the county that it is the duty of the court to order said panel to be drawn from the box as required by law in that behalf; and it appearing further from various threats made through the press and otherwise that various matters of public and political nature are likely to be investigated by the grand jury now to be drawn in which matter the sheriff and the sheriff's office have been involved, and that if said jury be ordered drawn from the body of the county as aforesaid, it will leave the election of said jury largely to said sheriff and wholly to his discretion as to whom shall be summoned, which obligation we feel the sheriff himself would not and should not wish to assume; and it further appearing that feeling in the past has arisen over the matter of drawing juries from the body of the county instead of from the box, and the various members of the bar have objected thereto and felt aggrieved.

"Therefore, we, the undersigned members of the bar representing clients whose interests are involved both criminally and civilly at this term of court, and practicing before said court, firmly believe that the public interest will be best subserved if said jury be drawn from the box, and hereby object to such selection from the body of the county and respectfully requested your honor to order the jury to be drawn from the box pursuant to law in that behalf.
