

Britain Joins U.S. In Protest Over Korean Politics

Syngman Rhee Asked To Lift Martial Law In Pusan Area

PUSAN, Korea (AP) — Britain today joined the United States in protesting to President Syngman Rhee over recent political developments in this temporary South Korean capital.

Alec Adams, charge d'affaires, orally outlined the British position to Rhee, then handed the acting leader a written note. Earlier he told correspondents the statement backed up the policies of the U.S. State Department given there in a note Tuesday.

The American embassy also handed Rhee a note from President Truman which called recent political developments in Pusan shocking.

Informed sources said the British and U.S. notes expressed the views on the South Korean political crisis as the United Nations Commission for the Unification and Rehabilitation of Korea. The commission recently asked Rhee to lift martial law in Pusan and release 12 opposition assemblymen under arrest.

The U. N. representatives voiced the opinion Rhee was attempting to control the presidential election in the Assembly late this month by jailing his opponents.

Rhee softened his policy today, apparently as a result of the double barreled protests from the U.S. and Britain.

A government Public Information Office announcement said Rhee would not dissolve the National Assembly now. Earlier he was reported on the verge of disbanding it.

Also at Rhee's order, military authorities released a newspaper editor who had been arrested after criticizing the government.

Martial law authorities were ordered not to arrest any more assemblymen not directly involved in what Rhee has called a "Communist plot" against his administration.

The Assembly went out of business Tuesday when 32 pro-Rhee members announced they no longer would work with lawmakers they labeled "corrupt."

Rhee and a majority of the assemblymen have long been at odds.

MINSAN, Korea (AP) — United Nations and Communist truce negotiators today exchanged strongly worded notes on prisoners of war.

The Reds backed their war with a renewed threat that Red armies in Korea might march.

North Korean Gen. Nam Il laid out the Panmunjom conference table a written protest against what the Reds termed "barbarous and cowardly" treatment of captured Reds on Koje Island.

He reminded the Allies of earlier warnings that Red armies would not lift while Communist soldiers are "manacled."

Major Gen. William K. Harrison Jr. demanded that the Reds "with out further delay" account for nearly 1,000 United Nations soldiers believed captured by the Reds but never listed by them.

The senior U. N. Command delegate's note listed 91 names, mostly Americans, to add to 893 names compiled by the U. N. since December.

The notes will not be made public, Allied officers said, to avoid raising false hopes among relatives.

A 34-minute session produced no progress toward settlement of the truce-blocking issue of what to do about 100,000 captured Reds which Allied screening showed refused to be repatriated in the event of an armistice. Only 70,000 Allied-held POWs have said they would return to Red soil without a fight.

The Communists demand that all their captured soldiers be returned. The Allies say no one will be forced to return.

At Communist insistence, another session is scheduled Thursday.

Brig. Gen. William P. Nichols, U. N. spokesman, said the Allies since December have been compiling names of Allied soldiers captured by the Reds but never accounted for by them. He said the names were obtained from Red broadcasts, letters, Communist publications and confidential sources.

SEOUL (AP) — Allied fighter-bombers attacked North Korean targets in force today. Bains Tuesday had cut down air assaults to only a few sorties.

Seven B-26s bombed Communist front-line positions in early morning darkness after heavy clouds obscured targets farther north. The B-26s reported 22 supply vehicles destroyed in the night.

The rains muddled the 153-mile ground front.

Allied tanks southwest of the Munson force camp caught about 75 Chinese in the open Tuesday afternoon and reported killing or wounding about 80. The tanks spotted the Reds near the junction of the Imjin and Han Rivers and fired from the opposite bank.

IGNORANCE IS BLISS
ALEXANDRIA, Va. (AP) — A man who said he didn't know Virginia residents had a great federal income tax has been convicted of failing to file on \$28,540 income for the years 1948-50.

Dr. Victor L. Meyers, 55, Alexandria chiropractor, told Federal District Court Tuesday he had not filed federal returns since moving to Virginia in 1921.

He said he had been told by a friend that if he moved to Virginia he wouldn't have to pay federal taxes.

COST OF OPERATION
WASHINGTON (AP) — All it cost you to operate the steel mills while they were under government seizure was the price of a series of telegrams and phone calls.

Officials said today no cost estimates have been made yet for the eight weeks of government operation, but they said the only added cash outlays will be for two rounds of steel to be made and the other calling it off.

The Commerce Department was in technical charge of the steel industry but operations actually were carried on by steel industry management and workers throughout as if nothing had happened.

Irony General Edmund Brown, Warren's rival ticket was pro-Taft but technically pledged to Hip Thomas, U. S. Senator of California.

In Alabama's primary, a firm supporter of Russell was trailing a candidate who says only that he "leans" to the Georgian. The contest will round out Alabama's 22-member Democratic delegation.

Russell and Kefauver each have seven. The others are uncommitted.

Democrat nomination at the July 21 convention requires 610.

Lake Kefauver, California Gov. Earl Warren held a 2-to-1 lead in the West Coast state's primary, winning 70 GOP convention delegates. Nearest him is Georgia's Sen. Richard Russell with 66 1/2, followed by Mutual Security Administrator W. Averell Harriman with 53 1/2.

Senate Rejects Plan Over WSB Powers

WASHINGTON (AP) — The Senate today rejected a proposal to retain the present 3-way membership of the Wage Stabilization Board (WSB) and the board's dispute-settling powers. The rollcall vote was 58 to 25.

The vote was on an amendment to a bill to extend the economic controls law and was offered by Sen. Douglas (D. Ill.).

Under the plan set forth by Douglas, the board would continue to have members representing labor, industry and the public.

It would also retain the board's power to recommend terms for settling strikes.

The Senate action leaves still pending a rival proposal to bounce labor and industry members off the board and to strip it of its power to recommend settlements.

President Truman has urged rejection of that plan.

BUS STRIKE
JACKSONVILLE (AP) — Bus drivers today voted a 20-day truce in their strike which has halted the Jacksonville bus transportation system for more than a month.

Wage negotiations will be carried during the truce period, favored by drivers 138 to 72. The vote followed a talk by Mayor Hayden Burns urging consideration of the public in determining the issue.

WILDCAT STRIKE
FARMINGDALE, N. Y. (AP) — Full production was resumed today at the huge plant of Republic Aviation Corp. after a 2-day wildcat strike which the company said cost several weeks' action in Korea.

Picket lines were withdrawn Tuesday night, and there was no interference when the day shift reported for work today. The pickets had been posted by production workers who had defied their union leaders in the AFL International Association of Machinists.

The Shop Stewards' Council, which was behind the walkout, instructed the union men to return to work. The strike started Monday morning over grievance machinery.

Truman Plans To Visit Demo- cratic Convention

But President Won't Go Until After Nom- ination Is Made; No War This Summer

WASHINGTON (AP) — President Truman said today he will attend the Democratic National Convention after it has chosen its presidential nominee and he will not go until after the nomination is made.

The President added that he'd like to attend the whole Chicago convention but won't do so because his presence might create a disturbance.

Mr. Truman was told at his news conference some Republicans have said he is engaged in a "devious" plot to get the nomination for himself.

This he denied and said such charges usually originate in warped minds.

On Wednesday's statement by Dwight D. Eisenhower that the Democrats have been in power too long, Mr. Truman replied it is up to the people to decide that.

He declined further comment on Eisenhower's opening campaign speech saying he is not at all interested in the Republican pre-convention race.

Likewise, Mr. Truman declined to get into the controversy between Eisenhower and Sen. Robert A. Taft over Eisenhower's airport views. He said with a grin that the GOP's quarrels please him very much but he's not going to get into them.

On other matters today, Mr. Truman said:

—He does not plan to send any legislation dealing with the steel strike, and he won't comment on the possibility of invoking the Taft-Hartley Act.

—He has no comment, and never will have a comment, on the Supreme Court's ruling that his signature of the atomic energy law is illegal. A reporter recalled his previous statement that nobody can take away his powers of signature in an emergency, and asked if he would initiate Mr. Taft's bill, which would be passed at a later date.

—He doesn't expect war to break out in Europe this summer. He said the President said, he would let his own people and a friend go through with his proposed European tour.

—The Democratic Party surmounted difficulties in 1948 and he expects it to do so again. This he said in reply to a newsmen who asked if he thought the victory of Republican Sen. Knowland in California's Republican and Democratic primaries meant the end of California's fight against the administration's foreign policy.

Mr. Truman's acceptance of an invitation to visit McGrath caused a buzz of speculation in the capital.

—He did his agreement to talk over the party outlook this afternoon with Sen. Estes Kefauver of Tennessee, a leading contender for the Democratic presidential nomination.

—The President told newsmen there is no political implication whatever in his forthcoming week-end visit to California, which will be a top-level row over the corruption in government investment.

—Mr. Truman said his visit to Michigan later would be purely a social occasion.

—As for Kefauver, for whose candidacy he has shown no enthusiasm, the President said he didn't know what the senator would do to talk to him about this afternoon.

KIDS OF AMERICA

WASHINGTON (AP) — President Truman has agreed to honorary citizenship of the Kids of America Blood Bank, but he has refused to sign an invitation to give a plot of his own blood for the bank in Korea.

"I think you will find that the blood of a 21-year-old man is not fit for the boys," Mr. Truman told 12-year-old Jimmy Carrick, Pittsburg, Pa., who extended the invitation Wednesday. The President said that this is the view of doctors.

Young Carrick visited the White House as "Kid of the Year," having been chosen in a competition sponsored by the U. S. Junior Chamber of Commerce and the "Kids and company" television program.

CHARGES DISMISSED

HOLTON, Kan. (AP) — Bank robbery charges have been dismissed against Albert Johnson, 23, who stood in the pulpit of a Topeka, Kan. church May 4 and confessed participation in the robbery.

The 1953 holdup of the bank at Topeka, Kan., occurred two years ago. District Judge Robert H. Kaul dismissed the charges against Johnson under a Kansas law requiring prosecution for a crime to be instituted within two years of its commission.

At the time of his public confession, Johnson said he had been directed by God to give himself up to his boss, "war younger kids to get the job that befell me." He said he wants to become a

He praised the teachers for their patience with the scholars, and in behalf of the class thanked teachers, parents and citizens of Sanford for their cooperation toward their education.

Ellen Driggers, class vice-president, reminded her fellow classmates that youth is a time for accomplishment and that those who would "reach the summit" must work their way there. "Whatever elevates the individual, elevates the community," she declared. She told the graduates that if they "built castles in the air" to "go out and work and put foundations under them."

Linda Leonard, representing the Junior Key, accepted the high honor key from Ed McKinley, told of an address of taking leave of the departing members, of their inspiration to the Juniors and ended with "We, the Class of 1952, wish you great success and happiness."

Success Of Army's Negro Integration Plan Is Described

Major Walter Turner, Sanford, outstanding Korean war veteran, told the Junior Chamber of Commerce today the Army's experiment in integrating Negro combat troops with white fighting units has proved successful.

"Being a Southerner, I was viewed with skepticism the proposed plan to integrate the colored troops with the white units," he commented.

The Army's previous experience with all-Negro units had proved them poor fighters during night defenses, though in daylight attacks they were fine, he added.

Turner described the successful results of mixing the colored troops with the white units by stating, "Through carefully planned assignments the Army found that the Negro soldier proved efficient and was accepted by white soldiers once he had displayed his willingness to fight. As long as I was at the front, we never had a single case of friction between the two groups of soldiers."

Maj. Turner admitted that the Reds in Korea are stronger now and better equipped than they were at the beginning of the Korean conflict but he said we are thoroughly entrenched along the entire 150-mile frontier and there is no longer that "fluid" front existing between the two forces.

"We may trade Korean real estate to save American lives," (Continued in Page 2)

Karl von Scholtze, chief of the radio's German staff, replied: "He is not that sick."

Election Scheduled
By Presbyterians

CHARLESTON, W. Va. (AP)—Presbyterians elect a new moderator tonight, then start a 5-day study of subjects ranging from a proposed apostles' creed change to money-raising bazaars.

The 432 commissioners from 85 presbyteries or church districts in 19 Southern states and the District of Columbia make up the denomination's 22nd General Assembly.

The new moderator will succeed Dr. James H. McCain, Atlanta, who retired last year as president of Agnes Scott College in Decatur, Ga.

More than 50 requests for changes in church order and administration will be considered by the commissioners, who represent a church membership of almost 7,000,000.

One from the Fayetteville, N.C., Presbytery, asks that the phrase "descended into hell" be dropped from an answer to a church catechism question dealing with a section of the apostles' creed.

The request contends that the phrase is confusing to many people, that it is not essential to salvation and that the Presbyterian annual has omitted it.

The Fayetteville Presbytery, along with others at Granville, N. C., and Memphis, Tenn., also has submitted a plea for a "protest in the strongest expression possible" against appointment of a U.S. ambassador to the Vatican.

Although a report of a 2-year study on marriage, divorce and remarriage is to be referred to presbyteries for study, the commissioners are expected to regulate the church's thinking on the two grounds it recognizes for divorce—adultery and willful desertion.

From the East Alabama Presbytery has come a proposal deploring "sales bazaars and the like" as a method of raising money for church purposes.

The presbytery has asked the assembly to state the "popular methods for raising money and worshiping God as good stewards of the Presbyterian Church."

The commissioners will be asked to support a two million dollar drive for Negro extension work and to support Stillman College in Florida.

HOLLYWOOD By BOB THOMAS

HOLLYWOOD — "Poppa, Won't You Dance with Me?" That tune is more or less our theme song for today's essay, which concerns Mitzel Gaynor and her search for a man. I don't mean a man to marry, because she has found one already. She's engaged to Attorney Richard Coyle and they already live in the same house with their two mothers. But that's another story.

This one is about Mitzel's search for a top-notch dance partner. At least I think that's what it is about with Mitzel, you're never quite sure.

"I understand you're on the prowl for a male star to dance with," I said, throwing out a line. "Ah, yes," she squealed. (Mitzel often squeals. "I'm dancing with tears in my eyes 'cause the man in my arms is a girl." Or something like that.)

"I understand that you have been in all the pictures and have danced alone in just about all of them," I added, trying to pursue the matter.

"Why, certainly, sugar," she gurgled. "A normal reaction for you. You don't suppose there's something wrong with me?"

"I assured her there wasn't; any fool can see that. I continued: 'With whom would you like to dance?'"

"Well, doll, there are only five name dancers in pictures."

"Such as—"

"Such as Fred Astaire. Oh, he's cool. He is precision, class. Gene Kelly is the genius; every dance he does is inspired. I love dancing with Dan Dailey; he's so loose and limber. I had one number with him in my first picture, 'My Blue Heaven.' That's about the only dance partner I've had, darn it."

"And then there's Donald O'Connor. He's solid. What a dancer! People have found out he can do tap dancing as well as comedy stuff. The other fellow is Gene Nelson. Wow! He is just about the greatest. He had a number in

"Tea for Two" that was impossible to do. She mentioned that there are other up-and-coming dancers, such as Gene Champion. But so far he has been monopolized by his dancing spouse, Marge. Does she prefer dancing with men?

"Well, doll, I'll tell you, honey. It's harder. It sure is. You have to learn two whole parts—your partner's and your own. But I don't mind. I like men."

With that Miss losted a kiss at a passing actor. Don't be alarmed, Mr. Coyle. You should know by now that your fiancée tosses kisses at everyone.

Truman To Visit Howard McGrath In Rhode Island

President Sees Ke- fauger On Demo- cratic Situation

WASHINGTON — President Truman's surprise acceptance of an invitation to visit in New England with J. Howard McGrath, the attorney general he ousted two months ago, stirred political speculation today.

So did his agreement to talk soon to P. M. Ke-
fauger with Sen. Estes
Leflore of Tennessee, a leading
candidate for the Democratic presi-
dential nomination.

McGrath got the April 3, less
than four hours after he summarily
fired Newbold Morris, govern-
ment corruption investigator.

McGrath has seen Mr. Truman
a number of times since that date.
A White House spokesman said the
president would spend the June 14-15
week end at "Campbreak,"
that is McGrath's farm on the
Old Point Judith Road, at Great
Salt Pond, Narragansett. It is
said that both men will be in
Rhode Island to let bygones be bygones.

The White House said Mr. Truman
will be accompanied by his staff
and McGrath said there was no
political significance whatever to
a week end get-together of friends.

Mr. Truman's acceptance of the
invitation, however, revealed the
swift developments of April 3. Mr.
Grath dismissed Morris and dis-
ferenced over a Morris question
nature calling upon McGrath and
other government officials to dis-
close confidential financial affairs.
Then Mr. Truman announced Mr.
Grath's departure from the cabinet.

McGrath called his sudden re-
versal to James H. Dole, presi-
dential candidate, "a great relief."
He said he was glad to accept
of standing up for a principle.
The Boston Globe said in a
Washington dispatch that the Pres-
ident "has communicated to friends
he has felt badly about the abrupt
dismissal of McGrath" and
wrote a letter in London to ex-
press his feelings. Announced
Mr. Truman's acceptance of the
week end invitation, the dispatch
means the President wants all
the world to know that he has
never ceased to be friends with
McGrath.

Meanwhile, Ke-
fauger, fresh from
new victories in California
and South Dakota, returned
and the White House confirmed
that he will call on the President
this afternoon. He has been in
his campaign travels around the
country. Questions as to whether
he will ask Mr. Truman's sup-
port, he said the President
said he is going to remain neu-
tral, and said, "I think that's
what the President should do."
Mr. Truman has shown no in-
clination for the Tennessee can-
didacy.

Tighter Rules To Govern Sale Of Gambling Stamp

WASHINGTON — The govern-
ment means to make it easier for
tax collectors to convict gam-
blers who evade paying the con-
gressional tax on their earnings
imposed on them last fall.

Now, they're required only to
require numbers operators to pay
their numbers, and other bet-takers to
pay their occupational tax by the
month. They're required only to
pay the gambling business. And it's
hard sometimes to prove that they
are operating long enough to be
operating on their tax payment.

It seems they always just
started operating, "an official told
reporters. "Our agents caught a
guy in Pennsylvania the other day
with a desk loaded with numbers
tickets. He told them: 'I
just started an hour ago—that's
my story and I'm sticking to it.'"

Changing a tax regulation in-
volves so much red tape, however,
that the paybefore you go rule for
gamblers can't be made effective
before Sept. 1. The bureau has to
give people a month to state any
objections they have, draft con-
siderations, publish notice of a rule
change and wait a month to put
the effect.

The bureau has considered about
a hundred cases of evading the occu-
pational tax since it was imposed
in November. But it's trying to
make sure that the law is being
enforced last fall to nick gamblers
for 10 per cent of the amount of
they bet.

For one thing, the bureau asked
Congress for money to hire 1,000
additional agents to make the
gambling crackdown. Congress
didn't give it. And Congress didn't
give extra men, so the bureau
has to rely largely on local
police for tips and evidence against
gambling numbers.

Seventeen receipts from the two
states have been filed so far in com-
pliance with the law. The bureau
has even one per cent of the
amount of the bets. A report
indicated they would bring down
the total to seven months. The
law says that only the tax on
the bets is to be paid.

East-West Tug Of War Is Continuing With Kidnapings

Russians Renew Ban On U. S. Patrols On Berlin Autobahn

BERLIN — The East-West tug of war in Red-occupied Berlin continued unabated today after a night of further kidnapings and shootings.

The Russians stepped back their ban on American patrols operating in the neighborhoods of Berlin in a last-minute move and the Communist press threatened a further tightening of the ban unless the city.

The Red papers spoke contemptuously of these moves.

The West German police increased preventive measures along the perimeter of the city.

In the British sector, British troops and East German police clashed and their bodies out but no blood.

The radio stated by German Communists and claimed by 29 East Army tank gunners, stayed on the autobahn.

Tricker Harry, Russian soldier in the district of the autobahn, played at least twice Wednesday.

In one incident, a U. S. military policeman, Pvt. Wilfred R. Bennett, North Canton, Mass., was seized on the left by a bullet fired by an East German soldier.

The American soldier was found near the autobahn.

In a letter to Soviet Foreign Minister, the U. S. State Department said that the American soldier was found near the autobahn.

Sen. Benton Says He Helped Banish Reds In Capital

WASHINGTON (AP)—Sen. Benton (D., Conn.) testified today there were Communists in the State Department in 1945 and 1946 and that he took a leading part in getting rid of them.

But he declined to give any names, and this led to heated exchanges with his antagonist, Sen. McCarthy (R., Wis.), at a pre-trial hearing on McCarthy's two million dollar libel slander suit against the Connecticut senator.

McCarthy repeatedly pressed Benton to tell whether he knew the names of any Communists fired from the State Department in the years right after World War II. Benton was an assistant secretary of state at the time.

"I don't propose to name any names," Benton replied, adding that he wouldn't trust his memory that far back even if he desired to give them.

"On what grounds do you refuse?" McCarthy asked. "On the grounds of my incrimination?" Theodore Klend, Benton's attorney, interjected: "Senator, you're fantastic."

Benton himself said: "No, on the grounds it may incriminate me. I don't propose to indulge in the practices under discussion here this morning."

This was a reference to his contention that McCarthy has hurled unsubstantiated charges in his crusade against Communists in government.

Benton testified he was sure there were Communists in the State Department and other government departments in 1945. He said the bars had been let down during the war.

But he said many were fired in 1945 and 1946 and that he himself was responsible for working out a "reasonable doubt" procedure under which most of the dismissals occurred.

Benton added that in 1947 he suggested to Gen. George C. Marshall, then secretary of state, that the Federal Bureau of Investigation be called in to help on security checks of department employees. This was done, the senator said.

McCarthy and Benton argued constantly at the opening session of the hearing.

McCarthy at one time accused his foe of not telling the truth. He asserted Benton was giving evasive answers and once commented, "If you continue this way, we'll be here for months."

"Don't worry about that, senator," Klend put in. The lawyer, in turn, accused McCarthy of taking up issues that had nothing to do with the case.

Today's hearing was without a referee and with McCarthy asking the questions. Later, he will be quizzed by Benton's counsel.

Owners Of Canine Pets Found To Be Democratic Group

By IAL BOYLE
NEW YORK (AP)—How much real democracy is there among dog lovers?

Quite a bit, according to Bartender Bill O'Brien, who forked over \$50 to a customer for a puppy that looked like a 4-legged gray mop and has turned out to be a blue ribbon show dog.

I have written about Bill before. He's a big ex-Army sergeant who blew the alarm bugle at Pearl Harbor.

O'Brien is night maestro at Morriery's Midtown Bar and Grill, an establishment two doors from Toots Shor's that has become a rendezvous for newspapermen, dancers, singers, actors and musicians.

One of his customers was Pat Hanrahan, an NBC electrician who often brought in one or two of the Schnauzer dogs he raises as a sideline.

"I just got dog hungry looking at them," confessed Bill. He finally bought a male pup from Pat for \$50 and figured it was a real bargain as Schnauzers, a kind of long-haired German terrier, are growing in popularity in America and easily bring \$75 to \$125.

The 8-week-old ugly puppy looked like a handful of dirty strings with bright eyes. Bill named him Mike Murphy.

"He grew so fast he was getting bow-legged and down in the hocks, so I began stuffing him with calcium pills," said Bill.

"But he had lots of spirit—he was no deadhead."

Mike Murphy perked up so fast, showed such carriage, that dog-wisdom customers at the bar urged Bill to enter him in a dog show. At first O'Brien held off, thinking that such honors were for the pets of millionaires rather than bartenders.

But he finally decided Mike Murphy ought to have his chance in the world. He paid a professional handler a small sum to give him a week's training. Mike was entered in the Westminster Kennel Club Show in Madison Square Garden last February, which is the World Series of dogdom.

Mike Murphy, only 8 months old and still really a puppy, strutted out to win the first prize for American-bred standard Schnauzers.

Overwhelmed by this victory, Bill entered Mike soon after in another top-flight metropolitan canine show. But Mike, still growing fast, had become underweight for his size. He placed fourth.

That has put Bill in a spot. He figures he let his dog down by entering him too soon in his second show, but he doesn't want to turn Mike over to trainers who

Food Items Priced Below OPS Ceilings

JACKSONVILLE (Special)—Hundreds of food items are selling below OPS ceiling prices in Jacksonville, Fla., it was revealed today.

W. A. Carlton, A & P Sales Director for the Southern Division, stated that the below-ceiling prices prevailing on a wide variety of items, including baby goods, cereals, canned fruits and canned vegetables, bakery products, poultry and other groceries.

"At the outbreak of hostilities in Korea, A & P pledged all its resources in the fight to keep food prices down," Mr. Carlton said. "As a result of our efforts to work harder and do a better job, we have been able to sell many items at less than ceiling prices."

"OPS ceilings represent the highest prices grocers can charge for food. But it has always been A & P's policy to charge the lowest possible prices to consumers based on the cost of food to us."

SHRIMP MEET
JACKSONVILLE (AP)—Shrimp and fish dealers in North and South Carolina, Georgia, Florida and Alabama have been invited to attend a meeting here June 23 to form a trade body.

The association, said Frank H. Fant, one of the organizers from Jacksonville, will work for protective legislation, methods for closer co-operation and will study production and marketing problems.

see him as a potential best-of-breed champion.

"I'd like to see him win another blue ribbon," Bill said, "just to make it up to him—to see he gets a square deal."

"But the handlers say they want a month to train him for his next show. Well, Schnauzers are supposed to be one-man dogs, but Mike is friendly to everybody."

"If he is gone a month, he will no longer be my dog. It would be like giving up your own baby," Bill feeds Mike table scraps, kenneled rations and soft-boiled eggs—cooked exactly three minutes, the way Mike prefers them. Every day Bill walks four flights down from his Bronx apartment to exercise Mike by unleashing him and letting him race the New York Central commuter trains into Manhattan.

"The express trains speed right on by," said Bill. "But Mike gets a big thrill out of catching up to a local train that stops at the station. He runs up and barks at it, and I am sure he feels he has run it clear out of breath all by himself."

O'Brien doesn't want to kick his dog around, but he doesn't want to lose Mike by glamorizing him into a professional canine prize-winner.

"After all, he's my dog," said Bill. "I don't want to turn him into a child star. I'd like to keep him unspotted."

Common Shares Of Biggest Companies Are Widely Owned

By SAM DAWSON
NEW YORK (AP)—The big fellow in the manufacturing field keeps growing right along. But his make-up has been changing even faster than his size.

The largest manufacturing companies are likely to have more shareholders nowadays than employees—the days of the big individual shareholdings are numbered.

They are likely to pay almost as much in taxes as they do in wages and salaries—and four times as much in taxes as in dividends.

And they have anywhere from \$7,000 to \$50,000 in assets for each employee.

The 100 largest manufacturing companies—that excludes railroads, communications, banks, insurance companies, retail and service companies—are listed by the National City Bank of New York on the basis of total 1951 assets after deducting reserves for depreciation.

They range from Jersey Standard Oil with almost five billion dollars in assets to Crane Co. with 172 million dollars. They are the top among 100,000 manufacturing corporations and 200,000 manufacturing plants owned by individuals and partnerships in the United States.

These 100 employ 4,200,000 persons and have 5,400,000 shareholders. But it must be remembered that many of the shareholders may be duplications—one man may own stock in several of the 100 corporations. Thirty-one of the 100 have more than 50,000 registered shareholders; and 52 have more shareholders than employees.

The shareholders own a total of 916 million shares, representing an

equity in the companies of almost 40 billion dollars.

The average investment per employee is \$14,000—ranging from \$7,000 in the auto industry to \$50,000 in tobacco companies.

The 100 pay 17 1/2 billion in wages, salaries and such labor benefits as pensions, insurance and paid vacations. This averages \$4,100 a year per employee.

The bank also looks into the balance sheets of these top 100. Their total assets top 60 billion dollars—25 billion for land, plant and equipment, and 35 billion for cash, securities, inventories and receivables.

Their sales and other receipts last year totaled more than 78 billion dollars. Costs ate up 83.1 per cent of that, leaving less than 5 1/2 billion as net income after taxes, or 6.9 per cent of sales.

This income was divided up almost evenly between dividends and reinvestments in the business. But federal income and excess profits taxes totaled almost seven billion dollars, and other federal, state, local, and foreign taxes added more than four billion dollars for a total of around 11 billion.

The bank philosophizes on what these balance sheets of the big fellows show, as follows:

"The figures show how there is no inherent conflict, but instead a close partnership relation between the interests of employees and shareholders, with some people supplying the brains and labor, and others the tools and capital. Each group is necessary to the other."

"In addition, the reports for 1951 show the rapid ascendancy of a

third 'partner' in business—government—which although contributing neither capital nor labor now takes a lion's share of the profits."

Potato Prices Reported Up By \$2 To \$4

Removal Of Price Controls Results In Quick Price Jump; Scarcity Increases.

WASHINGTON (AP)—The government reported today that wholesale prices of white potatoes shot up as much as \$2 to \$4 per hundred pounds overnight after the removal of price ceilings.

The Office of Price Stabilization (OPS) lifted the controls late Thursday after the Senate had voted to exempt fresh fruits and vegetables from price controls beginning July 1.

Today, OPS officials quoted figures from the Agriculture Department's Marketing News Service showing the overnight advance in prices at Pittsburgh and New York for potatoes from California and the Carolinas. The prices are wholesale for U. S. No. 1, size A, 2-inch potatoes.

The report showed that California long white potatoes were selling in New York Thursday at \$6.25 to \$6.31 per hundred pounds. Today the quotations ranged from \$8.50 to \$9.50, an advance of up to \$2.25 per hundred.

Other quotations in New York were: Unwashed North Carolina cobbles \$4.75 to \$5.00 Thursday compared with \$7.00 to \$8.00 today, a maximum advance of \$3.25; washed North Carolina cobbles \$4.60 to \$5.08 Thursday, compared with \$8.00 and \$8.25 today, a maximum advance of \$3.65; South Carolina cobbles, \$5.50 Thursday compared with a range of \$7.50 to \$8.00 today.

Prices quoted at wholesale in Pittsburgh were: California long whites, \$5.98 to \$6.07 per hundred pounds Thursday, compared with a range of \$7.50 to \$10.00 today, a maximum advance of \$4.02; North Carolina cobbles, \$5.01 Thursday compared with \$8.25 to \$8.50 today, an advance of \$3.24.

WASHINGTON (AP)—Predictions that the potato soon will be back in its usual grocery bins, and at trimmed prices, followed the government's action Thursday in removing price controls on potatoes.

But price officials and produce men alike said that before the potato price goes down, it will probably go up.

Real Progress Is Reported In Steel Dispute

McFarland Says Settlement May Come Before Next Week

WASHINGTON (AP)—Government sponsored peace talks in the steel strike reversed today until 1 p.m. as the Federal Reserve Board and the American Iron and Steel Institute agreed to study bargaining proposals.

The 1-hour delay was announced by Presidential Assistant John H. Stoenman, who Thursday night reported "real negotiations" going on.

The delay was requested by Board Chairman Ben Murrill of the John and Lauchlin Steel Co., head of the management negotiating team.

Stoenman said Philip Murray, head of the 60,000 striking CIO United Steelworkers, readily agreed.

There was some hope of an early settlement of the dispute.

Democratic Leader McFarland of Arizona told the Senate Thursday night there might be a settlement by next week. The Senate also then voted Monday all legislation dealing with the strike.

Stoenman wasn't specific but said he had talked with McFarland.

"I certainly am not pessimistic," Stoenman told newsmen, "but I wouldn't want to overstate my optimism."

Stoenman said both sides had been discussing intensively all the complex issues involved. The walk-out started Monday after the Supreme Court voided Mr. Truman's seizure of the steel industry. More than 100,000 mine, rail and other workers have also been idled by the steel shutdown.

The first break in the nationwide strike came late Thursday with an announcement that the Detroit Steel Corp had reached a contract agreement with the Steelworkers, covering 4,500 employees.

Details of the agreement, negotiated in Pittsburgh, were not announced but a district union official said they embodied Wage Stabilization Board recommendations.

These called for a "package" wage increase amounting to 20 cents an hour by next January.

In the Washington talks, it was reliably reported the union shop—also recommended by the Wage Board—was the subject of the most bitter dispute. This would require all Steelworkers to join Philip Murray's CIO union after being hired.

Librarian Secures 250 New Books For Juvenile Readers

More than 250 new books for juveniles have been secured by the Sanford Public Library and will be placed in circulation Monday, when vacation begins, Mrs. Helen J. Moughlin, librarian, announced today.

Comprising about every type of book enjoyable by every age class of various ages, the volumes are about 50 percent fiction, and the balance non-fiction, principally biography, in which children have shown such an active interest, she stated.

Circulation of juvenile books has increased rapidly during the past year, she pointed out. During the past month it reached the 1,900 figure as compared with 1,100 books circulated in May, 1951.

In fiction, there are several shelves full of interesting books. These comprise stories about animals, sports, careers, historical themes and science fiction.

Among the titles are "Swampy Creek," "Grand Gutter Mystery," "Marooned on Mars," "Double Date," and "Lonesome Sorell," a good humor story. Sport fiction includes such titles as "Knock Out," "Double Play," "Shorty at Shortstop." Other books are "Space Cadet," "Wild Trek," "The Mystery Horse," "South Sea Adventures," "Jerry's Treasure Hunt," and many other titles.

The non-fiction group includes the fascinating Real Book series which gives accurate, up-to-date information on astronomy, baseball, magic, Alaska, Texas, rangers, horses, etc. For the younger folks there are the beautifully illustrated Real Big Books about airplanes, trains, planes and other subjects, give actual descriptions and pictures of these themes.

Biographies are written in interesting style. Some of the popular titles include the stories of the lives of Victor Herbert, America's greatest composer of operatic music, Jack London and O'Henry, popular fiction writers; Henry Ford, Bret Harte, George Washington, Abraham Lincoln, the Mayors of surgical fame, Gilbert and Sullivan, and other favorites.

In addition many new books of the "how to do it" type are now available, said Mrs. Moughlin, who pointed out that there is a large segment of Sanford's young people who like to make things.

In order to make the selections easy, covers of books will be on display.

War Contractor Saved From Suit By Demo Bigwigs

Government Auditor Testifies On Justice Dept. Record

WASHINGTON (AP)—A government auditor testified today that the Justice Department failed to prosecute a war contractor suit after former Army Gen. J. Howard McGrath and former Democratic National Chairman William M. Boyle Jr. visited the contractor.

Walter Sprague of the government's General Accounting Office named the contractor as Bernard M. Harbo, president of the Atlantic Planting Co., Detroit.

Sprague testified before a House Judiciary subcommittee which is investigating the Justice Department. The committee heard government testimony that the taxpayer was overcharged by at least half a billion dollars in war contracts.

In another case, Sprague said Clark A. Harbo, former assistant to President Truman, received a substantial fee, around \$2,000, as attorney for a corporation which settled a \$1,343,338 claim for \$25,000.

The witness said the company was the Michigan School Trust Co., adding that the General Accounting Office asked the Justice Department to recover the money on the ground the firm had charged (Continued on Page Eight)

City Playground Program Starts Monday Morning

The City's recreation program will open for the summer at the Lakewood shuffleboard court Monday morning at 9:00 a.m. for all children under the age of 13.

Recreational Director Thomas Stringer announced today the Lakewood playground will be open from Monday through Friday from 9:00 a.m. to 5:00 p.m. on the subject of the directors' meeting Tuesday night at the City Hall at 8 o'clock. Following the trip to Washington regarding the canal.

Capt. Joseph Rabek of the Canal Guard Auxiliary Unit II, will speak on the subject of the directors' meeting Tuesday night at the City Hall at 8 o'clock. Following the trip to Washington regarding the canal.

Capt. Harry B. Fazzard of the Jacksonville Coast Guard Unit yesterday suggested in a telephone conversation with Mr. Breckenridge that a group be formed in Sanford to study and promote the project, and that headquarters for it be in this area.

From the defense angle he pointed out the necessity of keeping the St. Johns River open to supply fuel oil to power plants, told of the fuel needs of the Naval Air Station, and of the value of the Indian River canal in case the mouth of the St. Johns should be blocked or railroad service curtailed in wartime.

Among those who will study the canal project here is Al Lee, chairman of the Waterways Authority of the Chamber of Commerce.

Mr. Fazzard, in a recent letter to Mr. Breckenridge stated that "some sort of organization is going to have to be formed with a direct line of communication to the Federal Government in order to have proper delegations appear before the engineers, the South and Central Florida Flood Control Board, the State Road Department, Fresh Water Fish and Game Commission and representatives of Congress, to bring this matter to a successful conclusion."
