 Evangelistic Hour 7:45 P.M.  
 Prayer and Praise Wednesday 7:45 P.M.  
 Remember Daily Vacation Bible School with Rev. Clyde Rodgers, the chalk artist, as special speaker. Starts July 18 to 21.  
 Revival every night starting July 19.

**THE CHURCH OF GOD**  
 2509 Elm Avenue  
 Rev. Joe C. Crews, Minister  
 Sunday School begins at 9:45 A.M.  
 Classes for all ages.  
 Pastoral service at 11:00 A.M.  
 Subject for the pastor.  
 Evangelistic service at 7:45 P.M.  
 Sermon by the pastor. After call for prayer after the message.  
 Prayer meeting and Bible study Tuesday evening at 7:45 P.M.  
 W.M.B. service Thursday evening at 7:45 P.M.  
 V.L.B. service at 7:45 P. M. each Friday evening.  
 The church string band will furnish the music and the public is invited to attend.

**HOLY CROSS CHURCH**  
 Rev. H. Lytleon Zimmerman, R. D. Rector  
 Fourth Sunday after Trinity  
 9:30 A.M. Holy Communion  
 9:30 A.M. Nursery School  
 Rev. Llewellyn B. Hastings—Priest-in-charge

**FIRST CHRISTIAN CHURCH**  
 1601 Sanford Avenue  
 J. Randall Ferris, Minister  
 "The Transforming Power of Christ" will be the sermon subject the minister will use at the morning hour Sunday morning at the First Christian Church.  
 "On the border land of Canaan" will be the evening subject the minister will use. This is the second of a series of people who start but never reach their goal. The church school will meet at 9:45 A.M.  
 A most cordial welcome is extended to all.

**THE CHURCH OF GOD OF MILLER FARMS**  
 Rev. B. W. Miller, Pastor  
 Service Sunday at 3:00 P. M.  
 The kind of teaching you like Congregational singing and old fashioned testimony service. Prayer for the sick.  
 Thursday evening prayer meeting at 7:30 P.M.  
 Come expecting a good time. Send your requests for prayer to the Pastor.

**SEVENTH DAY ADVENTIST**  
 Seventh Street and Elm Avenue  
 Elder A. E. Deyo, Pastor  
 Elder L. A. Sheffield and Elder L. H. Shepard, Assistants  
 Thomas Waller, Sabbath School Superintendent  
 Sabbath School, 9:30 A.M. Saturday. Church service, 11:00 A.M. Prayer meeting 7:30 P.M. Wednesday. All are cordially invited to attend.

## Dr. E. J. Daniels To Start Two Weeks' Revival July 10

The E. J. Daniels Revival Party will start a two weeks' revival here July 10 in their tent at Ninth Street and Laurel Avenue. Dr. Daniels, whose tent seats 1500 people, is one of the outstanding Evangelists of America, and has held successful evangelistic campaigns in almost every part of this country. He comes here from The People's Church, the

largest Protestant church of Canada, at Toronto, with a nightly attendance of about 2000, and from Stark, Fla., where he had overflow crowds.

The party headed by Dr. Daniels consists of Rev. Lowell Leistner, outstanding musical director and radio singer. Rev. Martin Edwards, a noted pianist, and other workers.  
 The revival will open Sunday night at 7:30 o'clock. On Monday night Dr. Daniels' subject will be "What Would Jesus Do If He Came to Sanford". The message for Tuesday night will be "Coming 3rd World War—Unless". The Wednesday night service will be Christian Family Night, and the subject will be "What Happens When A Christian Sins". Dr. Daniels' message for Thursday night will be "How To Know Positively Whether Or Not You Are Saved". Friday night will be Youth Night.

The meeting is sponsored by Central Baptist Church with Rev. S. L. Whitley as pastor. Rev. Whitley said that he felt Sanford was unusually fortunate in securing Dr. Daniels and was sure the people of Sanford would avail themselves of the opportunity to hear these messages.

## Roberts Named To Fill Court Vacancy

TALLAHASSEE, July 8—(AP)—B. K. Roberts, Tallahassee lawyer and one of Governor Warren's closest friends and advisers, will succeed Paul D. Barnes as a justice of the Florida Supreme Court.

The Governor named him yesterday. The appointment is effective Sept. 1 when Barnes retires from the bench to become a lecturer at the University of Miami law school.

Roberts' appointment will run until the November, 1950, general election. He will be a candidate in the election to fill Barnes' unexpired term ending in January, 1949.

Roberts resigned immediately from the non-salaried State Improvement Commission to which he was appointed just three weeks ago. As Supreme Court justice he will receive \$10,000 a year.

Makers of early American hand-made glassware dropped a "hot potato" into pots of molten glass to get rid of bubbles. The potato caused the glass to form extra large bubbles which rose and escaped into the air, carrying the smaller bubbles with them.

## Take Your Family To Sunday School

Over the years I have been deeply impressed with the fact that the families participating in Sunday school activities are also the families most interested in establishing a genuine home and progressive, wholesome community life.

The principles of religion taught in our Sunday schools are vital in the training of our youth and the continuance of this instruction in adult life strengthens parents in the guidance of their children and

provide spiritual benefits derived from this source.  
 Parents who do not carry out their duty of instruction by example fail to assume their responsibility in a manner which is detrimental to our Christian society and increases the need for teaching by organized religion.  
 If we would have an enduring Christian nation we must strive to reduce crime. The plain and simple maxims of the Bible contain the essential rules which govern human conduct.

## Safety Department Launches Program Against Speeding

TALLAHASSEE, July 8—(Special)—"Speeders lose!"  
 With this warning, today, the Florida Department of Public Safety launched its July program against the dangers of excessive speed. This concentration on speed is part of a continuing, year-round traffic safety program conducted nationally by the National Safety Council and locally by the Florida Highway Patrol.

Too much speed is a contributing factor in one out of every three fatal traffic accidents according to the Patrol. This means that too-high speeds play a part in the deaths of more than 700 persons yearly on Florida streets and highways.  
 Fully as important as posted speed limits if not more so are the speed limits that each motorist should impose upon himself.  
 These may be called "Conscience Speed Limits," but in every driv-

er there should be a sense of responsibility toward his driving—a realization that posted speed limits are an interpretation of what constitutes safe speed on a road under ideal circumstances.  
 Too seldom, however, is the road traveled under ideal circumstances. Night, rain, fog, other traffic, the road surface, the driver's physical condition, and countless other factors must be taken into account. Posted speed limits should be a guide. Often conditions make them too high for safety.

Take it easy when you ride. The minute you might save by speeding is never worth a fraction of the life you risk trying it.  
 The following seven tips on speed are listed by the Florida Highway Patrol:  
 1. Heed both legal and common sense speed limits.  
 2. Maintain control over your car at all times so that if a quick stop is necessary it can be made safely.  
 3. Remember that intersections and traffic signals are slow-down spots. Be prepared to stop.  
 4. Keep an adequate distance between you and the car ahead.  
 5. Remember that there may be

a car right behind you—keep an eye on it in the rear view mirror, give proper hand signals, and avoid on-a-dime stops.  
 6. Slow down at sundown. Your speed at night should be no greater than that at which you can stop within the range of your headlights.  
 7. Probably the most important rule of all is—never forget that speed kills and cripples thousands annually.

CALL ON MACARTHUR  
 TOKYO, July 8—(AP)—Emperor Hirohito made a courtesy call on General MacArthur today at the United States embassy. As usual, the subject of their conversation was not disclosed.  
 One of the earliest examples of Roman bronze is a coin minted in 20 B.C.

Where are the DEAD?  
 OPENING MESSAGE FOR REVIVAL.

Evangelist E. J. Daniels will begin a revival in Sanford Sunday, July 10, 7:30 P. M.  
 These Perplexing Questions Will Be Answered  
 What is the soul? Where does it go at death of body?  
 Do the dead retain their identity after death?  
 Will we know each other beyond the grave?  
 Do babies remain babies in heaven?  
 Do the dead know what is happening on earth?  
 Can we communicate with the dead now?

## YOU CAN'T AFFORD TO MISS THIS STARTLING SERMON

ALL HALLS  
 A REVIVAL THAT IS DIFFERENT

This revival will be different from many of the so-called revivals of our day. There will be no high pressure methods used either in finances, or appeals from the pulpit. The old-fashioned gospel will be preached and the results left with the people and God.  
 The revival is different in that a bus load of equipment is used to make the gospel attractive and effective. An unusual musical program is presented under the direction of Martin Edwards and Lowell Leistner. Several instruments will be used.  
 A Gospel Film Each Night  
 Each night two gospel films are shown. One at 7:15 for the boys and girls and one during the main service for everybody. Only the best modern sound gospel films are used.

EVERYONE INVITED TO COOPERATE  
 Although the meeting is sponsored by the Central Baptist Church, all churches and Christians are invited to cooperate. This is a meeting for EVERYBODY, regardless of church preference.

# Portrait of a Soul

Did you think a soul was invisible? Did you even suspect that it was a theological concept that only ministers could understand?  
 Well, look into this boy's eyes! Do you see happiness... the certainty that life is full of beauty and truth? Do you see hope... the assurance that every tomorrow will be better than every today? Do you see courage... the fortitude that will look through defeat to victory? Do you see faith... the confidence that God hears, and knows, and cares, and helps?  
 You're looking into a soul! You're seeing the spark of Himself which God has put into every one of us. And you're seeing it still unblemished by the cares and disappointments of life.  
 You can see a soul through your own child's eyes. But unless you give that soul a chance to grow up with the body and mind that possess it... soon you'll no longer see it in your child's eyes... and perhaps, someday, you'll no longer see it in his life.  
 The Church, through careful religious education, develops that spiritual inner-being which we call the soul. Your child deserves the advantage of the Church's instruction. And, in church worship, you will rediscover the beauty and strength of your own soul.

THE CHURCH FOR ALL...  
 ALL FOR THE CHURCH  
 The Church is the greatest factor in worth in the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the Church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to Church on Sunday.

FRIDAY, JULY 8, 1949
TODAY'S BIBLE VERSE

There is a vast difference
between wisdom and knowledge.
Wisdom is always charitable, and
helpful. Knowledge puffeth up,
but charity edifieth.—1 Cor. 8:1.

We note with interest that Senator
Pepper and Senator Holland
rarely ever vote together on any
bill that comes before the Senate.

The British announce they are
to quit buying in the American
market, and the price of New York
stocks moves \$2 ahead. Maybe we
would be better off without the
British trade.

AEC Chairman Lilienthal says
atomic bomb production "is in
the best shape ever" and quotes the
Bible to prove it. "By their fruits
ye shall know them," he says,
meaning that it is results that count.
Quite true. But do we have to take
his word for it?

At least 152 persons are reported
to have died of the heat wave during
the last few days, mostly in the
North and East. We have lived in
Florida a long time, and we have
never heard of anyone in Florida
dying from the heat. Moral: if
you would live long, come south
to Florida and escape the heat.

"Frontier frugality" as practiced
these days in Tallahassee does not
include awarding State contracts
to the lowest bidder. The contract
for printing 1,400,000 drivers' licenses
was given this week to the
Apopka Chief for \$8,290.80, despite
the fact that the M. G. Lewis
Printing Co. of Jacksonville had
submitted a bid of \$7,656.30. The
Lewis Printing Co. is one of the
best in the state, is fully qualified
to do the job right, but evidently
it did not have the inside track. So
the State loses \$634.50. And the
people pay.

Dean Pound of Harvard Law
School explains American foreign
policy toward China. "Our nation,
to whom the Chinese could rightly
have looked at least for moral
support, has discredited their govern-
ment systematically, has impaired
their morale, and threatens recog-
nition and even economic support
of the Communists. Instead of
ranging ourselves with constitu-
tional government in China, we
have been doing what we could to
destroy it and thus are threaten-
ing constitutional government
everywhere."

Rep. Pooster of Jackson county
insists that the real power behind
the throne in Florida is Senator
Pepper and that even in Tallahas-
see his voice is the law. "Many
people believe as I do," he says,
"that our gullible plowboy Govern-
or is merely heeding his master's
voice, and that the affairs of Flor-
ida are being directed, not from
the mansion in Tallahassee, but by
the shrewd hand and cunning brain
of Senator Pepper in Washington."
However that may be, Floridians
who are politically conscious at all
are only too well that it is
Senator Pepper and his powerful
Senate bureaucracy in this state
which elected Warren last year, and
his reward will come next
when State officials go all
out for his return to the Senate.

Children are coming back. That
is the spacious kitchens where the
family can get together and
supper right out of the ice-
box. This, at least, is what the
people who never had much
to do with these holes in the
wall, but more than one person
has said at a time. "I say have a
look at this New York
kitchen," and bring your guests
to the kitchen to watch
them bring their dinner. You pay
for the kitchen in French restaurants
and then bring out the con-
ditioned and prepared a meal
before your eyes. Why not bring
the kitchen into the house? You
could have the same and then
have a good dinner.

Making Jobs

The American Legion has really got its hands on some-
thing, if it can muster the continuing energy to follow
through on a job-making project the national organization
has just announced. It proposes to get each local Legion post
to set up a group of working committees to survey the local
community and find out what kinds of goods and services,
not now available, people want and are prepared to buy. The
committees then will try to stimulate commercial projects
to supply those wants.

The idea is taken from the town of Burnet, Tex., which
set such a program in motion in 1947. Burnet increased its
lists of going business concerns by about 20 per cent, and
raised the number of people at work about the same amount.
This was done by supplying real consumer needs not pre-
viously met; the Burnet people really went out and found
new business, new ways for individuals to earn a living.
Old business heads will advise that a period of stagnat-
ing business activity is no time for new business ventures.
But they are only partly right. Many a thriving industry or
commercial enterprise of today was born in depression. It
takes vision and courage to find what people are willing to
spend their money for in a slack time, and set out to sell it
to them. It's one way to lick a slump.

Aged Leaders

When 89-year-old Themistokles Sophoulis, who has just
died, took the office of prime minister of Greece in Septem-
ber, 1947, it reflected clearly the scarcity of good timber for
high office in Greece. Sophoulis had been prime minister at
least twice before, and for many years served as presiding
officer of the popular branch of the Greek parliament. He
was undoubtedly one of Greece's most eminent citizens, but
at that would not have been considered to head the govern-
ment in times of stress, had there been younger qualified
statesmen available. He has held the country together; it is
to be hoped that his successor will do as well.

France's experience with the octogenarian Marshal Pen-
tain as head of state and Germany's with the aged Von Hin-
denburg were not entirely satisfactory. Their age, with the
slowing up of their faculties, contributed to their failure.
The champion old man in all history was very possibly
Enrico Dandolo, the "blind old Dandolo" whom the poet
Byron celebrated. Blind and over 90 (some say 96), he cap-
tured Constantinople in 1204, and could, if he had wished,
have become emperor. That is a mark of energy at which
future elderly folk can shoot.

Spread Of Pensions

A century ago or even fifty years ago few American
citizens would have dreamed of pensioning office holders.
If the idea had been broached, the response would probably
have been twofold: "They don't deserve it, for they are all
lazy loafers; and they have probably feathered their own
nests so well that they don't need pensions".

Now we know that neither idea is necessarily true.
There are plenty of shirkers and political appointees, but
there are also great numbers of serious, hardworking offi-
cials who do valuable work. There will be more as cities pay
better, and make more provision for retirement.

It is good news therefore to hear from the International
City Managers' Association that 981 American cities with
populations of 10,000 or more have retirement plans in
effect for their employees, in whole or in part. These are
foresighted communities, which are not giving way to senti-
ment when they install pension systems, but are recognizing
that a humane policy of retirement allowances is good
business, and that it is inaugurated if city governments are
to compete with big industries for capable men.

Foreign Grass Found Growing

By LES JACOBSEN
Soil Conservation Service

A foreign grass has been discovered growing in Seminole
County. The grass resembles
Panicum Grass, growing to about
the same height and rooting at the
nodes. The seed produced appar-
ently is very good, which fact is
making this grass volunteer on
many cery fields in the county.
Mr. Meriwether, local farmer,
was riding with L. A. Jacobsen,
Soil Conservationist, a few weeks
ago past some cery fields, when
he inquired of Jacobsen if he
knew what kind of grass that was
growing in the field. Jacobsen and
Meriwether stopped to examine
the grass. Jacobsen did not recog-
nize the grass, so he obtained
some specimens to mail for iden-
tification. Some days elapsed be-
fore a letter was received from

THE WORLD TODAY

By JAMES D. WHITE
AP Foreign News Analyst
(For DeWitt MacKenzie)

The anti-American incidents re-
ported from Shanghai occur in a
Communist setting, but are not
necessarily the direct work of the
Reds.

The police who beat up a young
American vice-consul are the
same ones who served before
Shanghai went Red. They might
have done the same sort of thing
before, if they had thought they
could get away with it. They have
no love for Americans, but con-
siderable envy and prejudice.

The former employees of the U.
S. Navy who helged the U. S.
consulate-general in Shanghai at
the same time, demanding more
severance pay, also could have
stayed the same stunt before the
Reds came if they had thought
it would do them any good.

The point is that they now think
these things may do them some
good. This is because the Reds
have been filling the air with anti-
American statements for purposes
considerably bigger than Shanghai.

Envy and prejudice against the
foreigner, always present in
China, are coming to the surface
just as they did when Chiang Kai-
shek triumphed in 1927 and after
V-J day. The difference between
now and then is this.

Chiang needed help from abroad
more urgently than the Reds do
now and so his Nanking govern-
ment could not allow such inci-
dents to continue. The Reds might
be able to stop them now, but
are not likely to because their
need for immediate help is by no
means urgent.

Meanwhile such things can be
expected to continue. A great
many Chinese need little urging
to let the foreigner -- who has
been around more than a century,
living far better than most of
them could hope to -- know that
he is tolerated at best and un-
welcome at the worst.

The Reds have capitalized upon
this because as the Nanking gov-
ernment grew weaker in the civil
war, it became more dependent
upon American aid or the prom-
ise thereof.

The Reds said this showed that
Nanking was a "puppet of Amer-
ican imperialism". They wanted
Nanking to grow the better this
argument sounded to a lot of
Chinese.

Their resentment of foreigners
focused more and more on Amer-
icans with the Reds helping at
every turn.

The Reds have chosen this
course partly because they are
Communists, but also because they
occupy a certain strategic posi-
tion in world politics. First of
all, the Communist formula has
worked in their case.

Mao Tse-Tung, the Red chair-
man, shows not the slightest sign
of going back on it now. Instead,
he has said, again and again,
that his China stands firmly with
Russia in the cold war and will
fight for her if it gets hot.
Mao is being more than just
a good Communist in this. He is

DR. ATLEE, WE PRESUME!

YOU'RE TELLING ME!

By WILLIAM RITT
Central Press Writer

SANARIEB according to
photographs, have very poor
tearing cloth, how can they
tell when they're out in tune?

A Massachusetts judge says
luck only makes food addicts
of people. That's a pretty ac-
curate statement.

An octogenarian congressman
got into a hectic maulup with a
colleague. At 83, he still retains
his fighting qualities.

News that nylon suits for
men may soon be on the mar-
ket tickles Granddaddy Jensen.

Looking at the world power pic-
ture, it is too big to be contained in mere
titles. China will enjoy bargain-
ing power with the West because
of trade and the hope that she
may never be quite as Red, or
quite the same Red, as Russia.

GEN. VAUGHN UPSET
WASHINGTON, July 7.—(AP)—
Harry Vaughn, military aide to
President Truman, is back from a
10-day vacation in Guatemala,
rather angry that anyone would
ask him about the financing of his
trip.

"That is nobody's God damn
business and you can quote me,"
Vaughn told a reporter who asked
about it on his return last night.

Vaughn went on to explain,
however, that there were 11 per-
sons in the vacationing party and
each paid \$341 fare for the trip.
The boat trip was aboard a ship
of the United Fruit Company.

The general declined to discuss
a scheduled congressional investi-
gation of so-called "five per cent-
ers." Paul Grindle, a Massachu-
setts manufacturer, set off the
investigation by saying that James
V. Hunt, a management counselor,
had claimed to have influence with
Vaughn and some other govern-
ment officials.

The bow and arrow were first
used in the Old Stone Age.

RUSSIA HAILS NEWSPAPER

MOSCOW (AP)—The Soviet
Union now has 7,200 newspapers.
They appear, according to a lead
editorial in the newspaper "Prav-
da" in a total edition each time
they come out of 51 million copies.

The Soviet Union this year cele-
brated the 87th anniversary of the
first "mass" edition of "Pravda"
itself—the organ of the Bolshevik
Party—as "Bolshevik Press
Day."

"Ivestia" on this occasion stated
that before the revolution there
were in Russia altogether 859
newspapers with a total one-time
edition of 2.7 million copies.

Newspapers are now published
in 80 languages of people of the
USSR in the Soviet Union, in-
cluding 20 languages which were
not written languages even before
the revolution. This compares with
24 languages in which newspapers
were issued in Imperial Russia.

VISITS CHURCH

BRIGHTLINGSEA, Eng.—(AP)—
The council of 700-year-old
All saints Anglican Church set
down and tried to figure out how
to keep visitors from carving
things in the stone walls.

They formed a plan. They had a
wooden board nailed to a nearby
tree with a sign saying:
"If you must leave your name
or initials, please put them on
this board and not on the church
walls." That was 26 years ago.

So what happened? Report from
the war, the Rev. Charles H.
Nichols, a single initial has ever
been carved on the board. Visitors
still carve their initials on the
walls, at the rate of several hun-
dred a year.

NICHOLS COACHED HERE

AP Newfeatures
MARSHALL, Mo.—Little Mis-
souri Valley College, noted for its
postseason football bowl perfor-
mances the past several years,
has more than passing interest
in Charles (Kid) Nichols, recently
nominated to the Baseball Hall
of Fame.

Nichols, one-time pitching great
for the Boston Braves, coached
baseball at Missouri Valley for
two seasons after retiring from
the professional game.

Nichols' team had a losing sea-
son in 1916, but missed the con-
ference championship by one
game in 1918, losing only to the
Northwest Missouri State Teach-
ers of Kirksville.

Try and Stop Me
By BENNETT CERE
DR. SLOAN BOARDMAN, the Park Avenue physician, told the Freshman class of a big medical school how he got his first group of patients. "I had moved to a smaller town with my bride and brand new shingle, and waited anxiously for my first patient—who was a long time coming, it seemed to me. Looking out of the window, I spied a lot of kids clustered around a tree full of green—very green apples.
"Just then the Bradley kid from down the street delivered my afternoon paper; I called to him, 'How would you like to make an extra quarter?' All I had to do was teach him the gentle art of ring leadership. He was shinning up one of those green apple trees ten minutes later, with the other kids close behind. And not long after that, I had my first group of patients. They were not very difficult cases, nor remunerative—but I met a lot of parents—and made a lot of kids know I could cure a stomach-ache."
Dr. Boardman concluded, "Of course, you understand, I am not suggesting that you go and do likewise."

MONDAY, JULY 11, 1949 TODAY'S HIGHLIGHTS

You are fortunate if this is true. Ailly conceit is characteristic of weak, shallow people.

After the stock market had made steady gains for five days, President Truman declared he is "bullish" on the state of the nation.

"I never knew of anyone to die from a snake bite," said a friend of ours once who did not seem to realize how poisonous a rattler can be.

Abolish fraternities! shouts the mob. They indulge in such atrocities as paddling nephews.

Checks are being mailed to the State's aged and needy this week, trimmed from \$50 a month to \$42.

That the Ku Klux Klan is through and that well meaning citizens should be making a mistake to encourage it as a means of combating crime is indicated by the sentences handed a Klansman.

Howard Cullman, chairman of the Port of New York authority, and angel of a dozen Broadway play hits, returned from France aboard the Queen Mary recently, and occupied a deck chair next to Beverance Millikin, the Cleveland industrialist.

Accidental Drownings

Unsafe practices in water sports are chiefly responsible for making July the peak month for drownings, and the highest mortality is among boys and young men at the "reckless ages" of 15 to 19, according to the Metropolitan Life Insurance Company.

About half of the 5,500 accidental drownings yearly in the United States occur in the three summer months, with the daily average rising markedly during June, reaching a peak in July, and then falling off sharply in August.

The company warns of the dangers of swimming alone, swimming considerable distances without being followed by a boat, entering the water too soon after eating, and undertaking feats beyond the ability of the performer.

"Means must be found to make persons - particularly boys and young men - realize that it is only common sense to learn to swim well and to handle oneself properly in boats and around water," the Metropolitan advises.

"It is especially important that young people be made aware of the tragedies that follow such fool-hardy actions as rocking the boat and pushing swimmers off docks. Parents and others in charge of young children can never take it for granted that the child is safe around the water even if in familiar surroundings.

Competent supervision would prevent most child drownings."

Realizing that present international tensions are likely to continue through much of the lifetime of children now in public schools, the National Education Association, through the agency of its policies commission, has formulated a plan for teaching students how to handle the problems involved.

The commission's report states that if teachers do their part in training youth the cold war will not develop into a shooting war. The positive contributions that have been made by a democratic society must be emphasized, but the students also must be taught about the principles and practices of totalitarianism, and must be led to understand how dictators come to power and how the Communist Party functions in the United States and elsewhere.

The commission recognizes that the schools form the logical means for inculcating intelligent patriotism and an understanding of the advantages of the American way of life. Only through comparison with other systems can Americans clearly see the advantages of the one under which they live.

Patriotism which is worth something is produced in this manner.

What seems like an innocent summer amusement may be an occupation to be discouraged. This is the amateur archaeological expedition, seeking and unearthing Indian burying grounds or such. The participants may get a lot of fun, but they also may mess the remains up for the future-trained archaeologist.

It is not enough to know that such and such a skull or piece of pottery comes from a particular excavation. Its relation to other objects there should be noted before anything is disturbed. There may be several layers of prehistoric tools and remains which, unless handled by experienced people, are almost certain to get mixed up.

One of the great archaeological discoveries of history was Heinrich Schliemann, who discovered the ruins of ancient Troy. Archaeologists now can hardly speak his name without emotion, for Schliemann dug hit-or-miss and removed objects without precise records as to just where they lay with relation to other objects.

Facts that a trained worker could have discovered are irreparably lost because of Schliemann's amateur enthusiasm.

So, would-be archaeologists, don't be like Schliemann Dig if you must, but take an expert along.

When we returned to Washington after the recess over the Fourth of July weekend, the House and Senate had both moved out of their chambers in the Capitol. The Senate is now meeting in the old Supreme Court room in the Capitol Building. This room was used by the Senate about a hundred years ago when we had fewer Senators. It was crowded then, so you can imagine how they are almost literally sitting in each other's laps now.

The House is meeting in the Ways and Means Committee Room in the New House Office Building.

THE WORLD TODAY

By JAMES D. WHITE AP Foreign News Analyst (For DeWitt MacKenzie)

For the first time since 1943, Generalissimo Chiang Kai-Shek has left Chinese soil.

This time the stated purpose is to talk over the Communist question in Asia with President Elpidio Quirino of the Philippines.

Accompanied by such aides as his publicity expert, Wang Shih-Chieh, the Gimo has flown into northern Luzon from his island retreat on Formosa. An official source said Chiang and Quirino talked about forming a non-military Pacific front against Communism.

The visit is another example of the Gimo's real if reduced importance. He operates in a kind of political sub-atmosphere. He has retired, as president of China, but not resigned. While no longer the acting titular head of the Chinese government, he remains for many reasons the No. 1 non-Communist leader in his country.

He is still the acknowledged head of the Kuomintang, the government party. This position entails the following:

The government - still the legally recognized government of China - is answerable to him through the party. So is the army. So are the navy and air force, which have cut off Red China's foreign trade and enforcing the closure of Red ports without calling what they have done a blockade.

"Retired" or not, Chiang still is firmly in the picture. When he called for American aid against the Communists last week he commanded widespread attention in the American press.

One thing he and Quirino talked about is the idea of a Pacific front against Communism - to be underwritten by the United States. This would be a big step beyond the political alliance proposed by the Pacific front against Communism.

This idea has been in the heads of non-Communist Asiatic leaders ever since the Atlantic Pact was announced. Quirino himself has discussed it, but he appears to have given up the idea of economic union. Chiang, whose armies have lost most of their American equipment to the Reds, would probably like to see a military defense arrangement which would give him more arms.

In any case the United States has been cool to the idea from the beginning. Even Prime Minister Nehru of India pointed out that Asia is too confused politically to make such a pact work now.

Nehru asked specifically for, for instance, would sign such a pact for a place like French Indo-China? - the French, or the Indo-Chinese Nationalists who have been in rebellion against French rule nearly four years?

Under such circumstances, the prospect for a Pacific pact don't look too bright at the moment.

However, Chiang's visit to the Philippines is another way of keeping the idea alive. It also serves to keep his person in the news at a time when there is sentiment in Washington to try giving him some more help against the Reds.

The Communists have given him the biggest boost, however, in Shanghai they let the police work over a young American vice consul. One American beaten up in Red Shanghai probably does Chiang Kai-Shek's cause more good in this country than a dozen political conferences.

Homes Are Sprayed With Insecticides

More than 3,349 homes and premises in Seminole County were sprayed with insecticides in the recent malaria and insect control program.

This service cost the county \$1,454 or 43 cents per premise sprayed, he reported.

Two spray crews visited 3,349 premises on which porches and outbuildings were sprayed. A total of 2,401 entire houses, including 10,198 rooms and 2,773 mattresses were sprayed as well as 4,628 outbuildings.

MURRAY-GO-ROUND TROUBLE

Arab And Jewish Hostilities Date Back Many Years

By CLARKE BEACH

WASHINGTON—Stories about how Arabs and Jews can't write a final peace for Palestine after months of truce and negotiations have an ancient ring. These two nations, next-door neighbors and cousins, members of one of the oldest families on earth, have lived in a kind of armed truce with each other all through the ages—except when they were actually fighting.

It all began in the time of Abraham, about 4,000 years ago. The lore of both nations relates that Abraham was the father of both Arabs and Jews. One of Abraham's sons was Jacob, and the Jews claim that Jacob was the ancestor of the Arabians. He left his father's land to raise his family in the desert country east of the Jordan River. Israel's sons settled down in towns and cities and took pride in scholarship and the building of permanent structures such as the Temple of Jerusalem. Ish-

mael's sons just wandered, camped by the oases, led their flocks hither and yon to follow the grass where it was green.

In the Old Testament you read repeatedly of bloody contacts between the Israelites and nomads to the east. It is quite clear that by the time of the prophet Nehemiah (5th Century B.C.) the Israelites regarded their cousins across the Jordan as barbarous and intrepid yokels and robbers.

Despite having the same blood and a language with the same Semitic root, they have gone their separate ways all through the ages. The same enemies threat, and overwhelmed them, time after time, but they never teamed up for common defense. The only time you read about an Arab and Jew fighting on the same side is when an Arab army helps out one Jewish faction which is being beaten up for common defense.

Assyrians, Babylonians and Persians picked off the Israelites and Arabs, one at a time. Greeks and Romans took over all of Israel and seized control of the caravan routes of the Arabs. In one of Israel's final, desperate battles against Rome, the attack by Titus in 67 A.D., an Arabian leader loaned Titus 1,000 horses and 5,000 foot soldiers.

With the Mohammedan sweep across most of the Mediterranean world in the seventh and eighth centuries, Arabians became the masters of Palestine and of Jewish colonies in the lands they conquered. Under Islam the Jews didn't face too badly. Although the Prophet's policy was to slay all persons who did not embrace the faith, he made an exception, of which many Jews took advantage. They could retain their own faith and still live if they paid a generous poll tax and were "reduced low"—accepting a kind of second-class citizenship. Actually, many Jews became prominent statesmen, bankers and scholars under the Islamic rule.

One reason the Jews and Arabs never joined in a common front probably was that they were never in the ascendancy at the same time. When Israel was relatively strong in the times of David and Solomon, and later of the Hasmoneans, the Arabs were a negligible people, capable of no sustained military campaign.

After the Romans razed Jerusalem in A.D. 70, the land was actually plowed under, and only a few thousand Jews remained alive in Israel.

Only the Mohammedans—the Arabs—were strong when the Crusaders invaded Palestine. It was the Mohammedans who finally drove the Crusaders out. The Jews were nearly exterminated in the later major invasions—by the Man-

luka of Egypt, the Mongols, the Ottoman Turks and, finally, the Allied forces in World War I. Israel and Arabs are now more nearly equal in strength than ever before.

Pacific Pact

(Continued From Page One) aims of the proposed union," it said.

Chiang said "although I have come to the Philippines upon the invitation of President Quirino to confer with him in my private capacity, I shall as (head) of the Kuomintang (Nationalist Party) undertake to advise and request the Chinese government to give its full support and to take steps to complete the agreement announced in the above joint statement."

It was not expected that India would participate in the union. Japan's participation was considered "out of the picture at present" because a state of war technically exists until the signing of the peace treaty.

Earlier informed sources had listed Dr. Syngman Rhee, president of Korea, as an immediate participant. Invitations were extended to Siam, Indonesia, Korea, Australia and New Zealand. It was felt that the sooner the union could be brought into being the sooner the United States would take an interest.

State Employee Takes Own Life

TALLAHASSEE, July 11—(AP)—J. Edward Bell, 44, merchant and former purchasing agent for the State comptroller's office, shot and killed himself here last night, Sheriff Frank Stoutamire said.

Bell, who moved here from West Palm Beach, resigned from the comptroller's office in 1945, and has been engaged in private business since then.

Photographing The Stomach

By W. V. Biting Touchson Drug Co.

One of the many modern aids used in diagnosis of disease is an instrument that can be called a stomach camera. It is a tube two inches long and less than a half inch in diameter, having an upper and lower photographing unit with a small lamp between.

The stomach camera is taken into the stomach just as any other tube and with its tiny eye completely photographs the lining and any defects thereon. The complete process after the camera is in place takes about half a minute.

This is but one of the many means doctors can employ to promptly locate and treat illness. Call upon a reliable druggist for medicine your doctor advises.

This is the 255th of a series of Editorial advertisements appearing in this paper each Monday.

# Texas Governor Jester Is Found Dead On Train

## Executive Was On Way For Physical Check In Galveston

HOUSTON, Texas, July 11.—(AP)—Braftford H. Jester, 56, serving his second term as governor of Texas, who found dead in his sleeping berth here today.

His office at Austin said the governor left there last night to go to Galveston for physical check-up. He had planned to spend several days on the west coast during the busy duties during the just-closed 51st legislature.

Lieut. Gov. Allan Shivers will succeed Jester less than seven months after the Corsicana lawyer-stockman started his second term as governor. Shivers also is serving his second term.

Justice of Peace Tom Meas said the governor was believed to have died of a coronary occlusion, a blood clot. Dr. H. L. Evans, surgeon on the staff of the Southern Pacific hospital, who examined the body, declined to say. Meas said he thought Jester had been dead four hours.

Jester had been ill with food poisoning during the last days of legislature. Apparently, he had recovered from food.

Fullman Porter Charlie Zimmerman found the governor's body at 7:30 A. M. when he went to awaken Jester.

Jester was re-elected two years ago by an overwhelming majority over Homer P. Rainey, ousted University of Texas president and his arch opponent. He took office for his second term, Jan. 21, 1947.

Jester first expressed his idea of becoming governor at the age of 7 when he asked his mother what a lieutenant governor was. His father, George J. Jester, had been elected to that office.

Told that the office was next to the governor, young Jester replied:

"Well I want to be the real governor."

Jester, who described himself as a liberal but not a loose democrat, stepped into the governor's office from his railroad commission office where he served since 1942.

He made only three contested political races, all successful. His first was for the railroad commission post to fill an unexpected two year term. In 1944 he was re-elected without opposition, the first time in 20 years that a candidate for that important oil and gas regulatory office had run unopposed.

His second contested race began this one for governor—with a prayer from his then 85-year-old mother for divine guidance. Discouraged early in the race as a strong contender, he overcame odds and ran a tough race ahead of 12 opponents, four of whom withdrew. He was re-elected last summer.

Jester has a widow, three children and a grandchild. Mrs. Jester was the former Mabel Buchanan of Texas, a descendant of president James Buchanan.

### Clark's Speech

(Continued From Page One)

As I have indicated in my opinion, this is not so.

Secondly, it is assumed that the bigger the producer the better the quality of goods and the cheaper the price to the public.

Thirdly, it is assumed that competition becomes big because they deserve to be big in other words, that they outdistance their competitors because they do a better job, render greater service or furnish better goods.

It may be that in some instances these assumptions are correct. Personally, I doubt if they are true.

Fourthly, the committee has overlooked the fundamental issue in the economy of the country is to remain free and competitive or whether it is to be controlled by private regimentation through monopoly control.

House group earlier requested a formal nod from President Truman on its look-see into monopoly picture.

Mr. Jester Saturday to Chairman Doughton (D-N.Y.) the President is "wholeheartedly in support of the objectives. And he has set up with an order of 18 federal agencies and committees to give the investigating the widest possible cooperation.

There is no more serious problem confronting our country and its people than the question of monopoly control.

Hiss Accuser Voted for Acquittal Faces New Trial

AT HIS FARM in Westminster, Md., Whitaker Chambers (left), admitted former Communist agent, receives the news that the Alger Hiss trial jury had been dismissed after reporting themselves hopelessly deadlocked Chambers was the chief counsel in the jury trial Foreman of the jury that was discharged after having the case for 28 hours, Hubert E. James (center) leaves New York's Federal Court following trial. The letter was a member of the minority in the 3 to 2 deadlock for conviction Continued in 2,000 ball by the court pending a new trial, Alger Hiss (right) told newsmen: "I have nothing to say." (International)

### Truman Message

(Continued From Page One)

Most were not drastic. They included public works planning, but not more public works; the Truman farm plan; expansion of Social Security and jobless pay; extended GI benefits.

Crisis action isn't needed, Mr. Truman said, because the economy still is strong and healthy. It can hit a soaring annual output of "well above \$300,000,000,000" in a few years, he predicted.

That is one-fifth higher than today's national production.

"But there is nothing healthy about more unemployment or less production, Congress was told.

"Such trends can and must be reversed by positive action, private and public.

"Our own people insist upon the maintenance of prosperity, and will not tolerate a depression."

The President's Council of Economic Advisers, in an accompanying report, was somewhat more optimistic in general tone than Mr. Truman. It found the business outlook reassuring. It agreed that federal action is called for.

"We may have the unique and fortunate experience of liquidating a major inflation without falling into a severe recession, the three-member council reported.

In a sentence certain to win the acclaim of business, Mr. Truman took his stand against any major increase in taxes.

Only estate and gift tax rates should be raised, he said. He added that the transportation tax rates should be raised, he said.

He added that the transportation tax on goods should be wiped out and the "carry-over" of losses in corporation taxes should be liberalized.

The expected results: (A) better profit prospects for industry; (B) a small net loss in federal revenue, in place of the thumping boost in corporation rates and income taxes which the president asked in his January economic message and for which he spoke again only a month ago.

The President flinched at legislators who insist on government economy to the point of cutting "essential national programs" like defense and foreign aid.

"Nothing could represent greater economic folly," he said.

"If we tried to avoid a budget deficit by cutting essential expenditures, we would contribute to lower national output and lower employment, federal receipts would fall further, and the burden upon federal expenditures would increase.

"We cannot expect to achieve a budget surplus in a declining national economy.

"There are economic and social deficits that would be far more serious than a temporary deficit in the federal budget.

Mr. Truman urged businessmen to lower prices where possible, to keep sales and production high. But don't cut wages, order to reduce prices, he advised, that cripples the worker's buying power and everyone gets hurt.

These were among the President's economic findings:

Prices—they have dropped mostly in "moderate and orderly" fashion to a point 8 per cent below the August 1948 peak at wholesale and 3 per cent at retail.

Wages—there were rises in some industries, offset by short hours of work. Real earnings just about stayed even.

Profits—before taxes, corporation earnings in the last six months were 13 per cent under last-half 1948.

Agriculture—farm income is 9 per cent under a year ago.

Investment—investment was down in the April-May period by 10 per cent from the level of last year.

These were among the President's economic findings:

Waymack expressed his views in a telegram to Chairman McMahon (D-Conn.) of the Senate House Atomic Committee. The committee today entered its seventh and last week of hearings in charge of "incredible mismanagement" made against the AEC by Senator Hahnke (D-Iowa).

And Chairman Doughton (D-NO) of the tax-framing House Ways and Means Committee said that it would be fully in line with the President's economic message to increase in recommended way.

He had hoped all the time that it would be the stimulus to a

of Congress in his January report—demands which Congress has largely ignored.

Now dead for certain, they include: standing price and wage control authority; allocation of scarce materials; extension of bank credit controls and installment-plan buying curbs; regulation of grain and other commodity exchanges to curb inflation.

Neither was there mention of the government building industrial plants when private capital fails to do so.

On the other hand, the President went nowhere near as far in the way of federal pump-priming as, for instance, the proposals of Senator Murray (D-Mont) and other sponsors of the "economic expansion act" of 1949 soon to be introduced.

Murray's plans for federal intervention, some advisers have told Mr. Truman, are so broad as perhaps to frighten business.

The President had kind words for many "far-seeing" businessmen who have shied away from speculation, held their stocks in bounds, kept debts low, and in many cases "made sincere efforts to avoid or minimize price increases during inflation."

Many labor unions too have used their economic force with moderation, he said. The message went on:

"Businessmen have a great opportunity to maintain production and sales volume by adjusting prices downward, even at the cost of temporarily reduced profits."

"Maintaining volume in the present situation is far more important than maintaining profit margins. The only ultimate source of sustained employment and purchasing power.

"The same concept should guide wage policies. Business cannot be prosperous unless the purchasing power of workers is maintained. While price reductions are desirable, they should not be attained at the expense of wage cutting."

### London Strike

(Continued From Page One)

a nature and of so extensive a scale as to be calculated by interfering with the supply and distribution of food and water, fuel or light, or with the means of locomotion, to deprive the community or any substantial portion of the community of the essentials of life.

"He may by proclamation declare that a state of emergency exists, and the stoppage of work on an extensive scale in the port of London, having in his majesty's opinion constituted a state of emergency within the meaning of the said act, his majesty has deemed it proper by proclamation made in pursuance of the said act and dated 11 July 1949 to declare that a state of emergency exists."

Labor Minister George Isaacs told the House of Commons (L28) men of a total dock force of 25,000 still are idle, despite government denunciation of the strike as illegal and Communist-led and despite appeals by leaders of the two unions involved for an end to the stoppage.

Isaacs said 112 ships are idle and the stevedore crews of six ships are undermanned. The number of men at work is about 15,000, he said.

Not only is the strike holding up urgently needed imports, but it has been piling up in the weeks of the strike. This is particularly embarrassing to the government now, in the light of the current dollar crisis.

Within minutes after the announcement of the proclamation, 1,700 soldiers, sent into the area last week to unload perishable goods, moved into the docks.

This supported a prediction by London newspapers that the government intended to put the emergency rules into effect immediately, without waiting for formal approval by Parliament.

The cabinet had warned the strikers last week it would take emergency action if the men were not back at work by today.

of people have been saying that the threat of a tax increase has crippled business. It looks like this message gives business a green light."

Senator Taft (R-Ohio) commented: "There is nothing new in the program, except that he has dropped his demand for new income taxes, which always was wrong."

Speaker Rayburn said repeal of the transportation tax on goods "will be popular." However, he would not attempt to say what prospects there are for raising estate and gift taxes.

He foresaw passage of the minimum wage increase, a farm bill and extension of the reciprocal trade agreement program.

He forecast House passage of Social Security expansion but said the proposal to increase unemployment benefits raises complications.

Rayburn gave his views following a presidential conference with Democratic leaders from Capitol Hill.

Vice President Barkley, Senate Majority Leader Lucas and House Minority Leader McCarran sat in. The hour-long meeting was devoted largely to discussion of the economic message.

Rayburn said he told the President the House leaders will try for passage of a farm bill this week.

Senator Murray (D-Mont) and Rep. Patman (D-Tex) said in a joint statement that an economic expansion bill which they will introduce in a few days was designed to carry out the President's program.

"We agree with the President that it would be fully in line with the President's economic message to increase in recommended way."

The President's economic message went on:

"Businessmen have a great opportunity to maintain production and sales volume by adjusting prices downward, even at the cost of temporarily reduced profits."

"Maintaining volume in the present situation is far more important than maintaining profit margins. The only ultimate source of sustained employment and purchasing power.

"The same concept should guide wage policies. Business cannot be prosperous unless the purchasing power of workers is maintained. While price reductions are desirable, they should not be attained at the expense of wage cutting."

### State Legislature

(Continued From Page One)

only an estimated \$180,000,000 to do it with.

The poll—answered by only half the legislators—showed a Senate vote of 16 to 3 in favor of raising the \$80,000,000 to support the appropriations act in full, but the House only 25 to 17 in favor. It indicated a limited sales tax will be acceptable to the Senate, but have a rough time getting past the House.

Members of the so-called economy bloc claim waste and extravagance in operation of the government, and maintain that if it were eliminated and expenditures held to their present level the State wouldn't need any more money.

"Cut out the deadwood," is their frequent battle cry.

Senator Mathews of Jacksonville, one of the leading advocates of new State program Saturday with a challenge for them to answer "what dead wood should be cut out?"

He and his cohorts cite figures to show that 84 percent of the \$940,000,000 appropriations for education, health and welfare.

The "economy bloc" hits hard at administrative expense it claims are excessive. It advocates trimming salaries.

The new revenue advocates say that is only a relative small part of the total, and if all administrative spending were eliminated the State still would need more money to continue operating its public services.

The no-new-tax group argues "if the State is getting by now on what it has, why can't it get by for the next two years?"

Rep. Andrews of Orange clips in to declare "we cannot merely demand that governmental costs be reduced. We must be specific. We have to say this function or that function should be eliminated and the cost thereof saved for the taxpayers. To do otherwise is to run the real danger of making impossible the carrying on of the essential functions of government."

And so the argument goes on. It will get hotter as time passes.

Rep. Dowds of Putnam, a leader of the economy bloc, called on the Cabinet Budget Commission to do its duty and cut back spending to meet available funds. But he said he didn't think the 25 percent

across-the-board slash the Cabinet made was proper.

As if in reply, Rep. Bedenbaugh of Columbia declared the "so-called huge appropriations bill" was written by the legislature—not the Governor and Cabinet.

Senator Sanchez of Live Oak went even further. He said the Cabinet shouldn't disregard the legislature's spending authorizations.

"When we passed a bill authorizing the expenditures of approximately \$50,000,000 for public schools in the state of Florida each year for the next biennium, it is my thought that we expected that amount to be spent and not any lesser amount," he said in money must be raised.

Rep. Odham of Seminole said "unfortunately too many of our citizens feel that every suggestion advocated by our educational leaders or welfare workers is essential to the progress of this State and should therefore become a part of our State program regardless of cost." Continued following of their plans will "destroy our system of free enterprise," he declared.

Senate President Brackin says "I am firmly convinced that government can and should render public service" in such fields as education, old age assistance, public health, public welfare and conservation "in order for the state of Florida to meet such obligations additional revenue is necessary."

But from Senator Davis of Madison comes: "It is about time to give the person who pays the taxes some degree of consideration. I believe that the leeches have had their day and now we should settle down to the thought of good hard business. The State owes no one a living."

Rep. Andrews of Orange clips in to declare "we cannot merely demand that governmental costs be reduced. We must be specific. We have to say this function or that function should be eliminated and the cost thereof saved for the taxpayers. To do otherwise is to run the real danger of making impossible the carrying on of the essential functions of government."

And so the argument goes on. It will get hotter as time passes.

Rep. Dowds of Putnam, a leader of the economy bloc, called on the Cabinet Budget Commission to do its duty and cut back spending to meet available funds. But he said he didn't think the 25 percent

across-the-board slash the Cabinet made was proper.

As if in reply, Rep. Bedenbaugh of Columbia declared the "so-called huge appropriations bill" was written by the legislature—not the Governor and Cabinet.

Senator Sanchez of Live Oak went even further. He said the Cabinet shouldn't disregard the legislature's spending authorizations.

"When we passed a bill authorizing the expenditures of approximately \$50,000,000 for public schools in the state of Florida each year for the next biennium, it is my thought that we expected that amount to be spent and not any lesser amount," he said in money must be raised.

Rep. Odham of Seminole said "unfortunately too many of our citizens feel that every suggestion advocated by our educational leaders or welfare workers is essential to the progress of this State and should therefore become a part of our State program regardless of cost." Continued following of their plans will "destroy our system of free enterprise," he declared.

Senate President Brackin says "I am firmly convinced that government can and should render public service" in such fields as education, old age assistance, public health, public welfare and conservation "in order for the state of Florida to meet such obligations additional revenue is necessary."

But from Senator Davis of Madison comes: "It is about time to give the person who pays the taxes some degree of consideration. I believe that the leeches have had their day and now we should settle down to the thought of good hard business. The State owes no one a living."

Rep. Andrews of Orange clips in to declare "we cannot merely demand that governmental costs be reduced. We must be specific. We have to say this function or that function should be eliminated and the cost thereof saved for the taxpayers. To do otherwise is to run the real danger of making impossible the carrying on of the essential functions of government."

## 73 Plane Passengers Killed And 30 Hurt In Flaming Crashes

### 13 Newsmen Lose Lives At Bombay; 11 Die In Wreck Near Los Angeles

BY ASSOCIATED PRESS  
Seventy-three plane passengers were killed today and 30 others injured in two airline crashes on opposite sides of the globe.

Los Angeles police said 11 persons were killed and 30 injured in the flaming crash of a Standard Airlines plane near the summit of Santa Susana Pass. There were 48 persons aboard the unscheduled C-46 flight.

A few hours earlier 45 persons, including 14 Americans, 13 of them newspaper, magazine and radio reporters—were killed in the crash of a Dutch airliner near Bombay, India.

Standard Airlines said the plane usually carries a passenger load of 40 persons. The liner was west-bound from New York City.

The Los Angeles air route traffic control bureau received the report from the pilot for police aid at the airport.

One of the passengers, the control bureau was informed, had been badly beaten. The pilot said he wished one of the men arrested.

It was only about five hours later that the big airliner had crashed (Continued on Page 6)

### Gives Self Up

A VIRGINIA Fisheries Commission deputy, David Acree, 31, is shown in Accomac, Va., after he surrendered to the authorities to answer a warrant charging him with the slaying of Earl Nelson, a Crisfield, Md., crab fisherman. Virginia officials said they will not give up Acree to Maryland authorities, who also seek him on a murder warrant. (International Syndicate)

## Mr., Mrs. David Levy Are Killed In Texas Wreck

### Two Daughters, Selma And Louise, Are Injured Seriously

BRENNHAM, Tex., July 12—(AP)—Mr. and Mrs. David Levy of Sanford, Fla., were killed and their two daughters, Selma Levy, 26, and Louise Levy, 22, seriously injured yesterday when their automobile smashed into the concrete abutments of a railroad overpass.

Selma Levy suffered a fractured skull, broken jaw and fractured lower leg and severe lacerations about the eyes and head.

The family was en route from Sanford to Los Angeles for a vacation.

The condition of Miss Selma Levy remained critical today, a Brenham, Texas, doctor informed Dr. Leonard Munson of Sanford in a telephone message this morning.

Miss Louise Levy was taken to Houston this morning for treatment of a broken leg, but is reported to be out of danger and is expected to recover, said Dr. Munson.

Mr. and Mrs. Herman Jacobson, brother-in-law and sister of Mr. Levy, left Orlando at midnight last night on an EAL plane, and were due to arrive at 11:00 o'clock this morning in Houston, 70 miles from Brenham.

Mr. and Mrs. Levy came to Sanford about 25 years ago from Long Island, N. Y., where Mr. Levy was formerly engaged in the automobile and garage business. He owned a citrus grove 1947. During 1944-45 and '46 he near Silver Lake until January, worked the H. and A. Store on Sanford Avenue. He was a veteran of World War I and member of Campbell-Lossing Post 53, American Legion.

Mr. and Mrs. Levy were both members of the Jewish Community Center. They lived at the San Lanta Apartments.

For the past year and a half Miss Louise Levy has served in office manager of Florida Fashion, Inc.

## Truman May Enter Steel Strike Debate

### President Indicates He Will Intervene To Stave Off Walkout In Industry

PITTSBURGH, July 12—(AP)—A meeting of the CIO United Steel workers expected to result in a strike order for 500,000 workers began today. There were indications that President Truman personally may intervene to stave off a walkout in the basic steel industry.

The union's 170-man wage policy committee was in session when word came from Washington that the President may use his emergency powers in the steel labor dispute.

Philip Murray, leader of the union, said last night he would recommend a strike this weekend in support of the union's wage and pension demands. The strike call would be effective at midnight Thursday or Friday, dependent on union contract expiration dates.

Speedy approval of Murray's recommendations was expected from the policy committee.

News that President Truman might intervene was telephoned to the union meeting. There was no immediate comment from the unionists on Page 5A.

## Atlantic Pact Okay Is Urged By Sen. Dulles

### New Yorker Takes Issue With Text; Alliance Is Called "A Step Forward"

WASHINGTON, July 12—(AP)—Senator Dulles (R-NY) today urged Senate approval of the North Atlantic Pact. He said it is the only measure that promises to save "our hopes for a peaceful and free Europe."

Dulles said the pact should save Germany for the West and spike "the Communist twin guns of false promise and threat."

The New Yorker, appointed only last week by Governor Thomas E. Dewey of New York, took sharp issue with Senator Lathrop (R-Ore.) in his last Senate speech.

Without mentioning the Ohio senator by name, Dulles disputed Lathrop's contention that the pact commits this country to a tremendous foreign arms program.

Answering Lathrop's assertion that the security pact could not be regarded as a supplement to the United Nations charter, by any stretch of the imagination, Dulles declared:

"I have heard it said here that this North Atlantic treaty does violence to the spirit if not the letter of the United Nations charter and that it represents a step backward. If I believe that, I would, of course, oppose the treaty."

"It is my opinion that the North Atlantic Treaty far from being a step backward, is a step forward."

Dulles, who has served as adviser to four secretaries of state, told his colleagues that by offering a solid front among the free nations, the treaty may keep the strategically placed Germans from turning toward a Soviet alliance under which "all our hopes and plans for a peaceful and free world are dashed."

Mr. Hunter was careful and free (Continued on Page Two)

## Legislative Group Seeks System Of Job Classification For State

TALLAHASSEE, July 12—(AP)—A Florida legislative committee recommended today that steps be taken to set up a system of job classification and standardization of wage rates of state employees.

It also proposed action to change the "well entrenched practice" of State agencies employing private attorneys.

Bills designed to carry out both those recommendations were drafted in the last legislative session.

It suggested bills should be prepared for introduction in the next Legislature to "eliminate the necessity for the performance by various boards and agencies of unnecessary functions."

The report came from a House subcommittee of the joint legislative committee on governmental reorganization.

The subcommittee reported to Rep. W. C. Lanford, Miami, chairman of the larger group, that it had looked into the operations of only 53 of about 150 agencies and departments. It suggested the investigation be continued.

Most of the agencies it checked were those with duties involving inspection of various commodities, professional and related professions and occupations.

The committee said further study was needed on the "proper design" of a bureau of inspection or a central board for administering professional and related professions and occupations. However, it said the authority of the administering board should not include preparation of examinations or policy making powers.

Other recommendations:

There should be further study to learn whether it might be advantageous to use more State-owned motor vehicles for travel of State employees instead of the widespread system of paying mileage on private cars.

"Cases in which travel allowances or employee and officials' salaries are greater than the salaries received" should be looked into further.

The committee found "there is not the degree of overlapping and duplication of services commonly thought to exist and much of that which does exist is inevitable."

It said "Apparently a fairly consistent effort is being made by department heads to keep travel expenses down, but they would be assisted by an overall study of that question."

The subcommittee report was signed by Reps. C. Farris Bryant of Ocala, Thomas T. Cobb of DuPont Beach, Neil C. McMullen of Tampa and T. E. David of Fort Lauderdale.

## City Commission Approves Rent Decontrol Plan

The City Commission last night passed a rent decontrol ordinance which will be sent to Governor Warren for his signature, said City Manager Clifford McKibbin today.

From the Governor's office the ordinance will be sent to Federal Housing Expediter J. Wood. Due to their action, rent control cannot be reimposed in Sanford at the discretion of the housing expediter, Mr. McKibbin pointed out.

Purchase from the County of one lot on the north side of East Second Street between Pine and Cypress Avenues was ordered in order to complete City holdings and to allow replating of the block. East Street, as platted between Cypress Avenue and Pine Street, has been ordered narrowed to 14 feet (Continued on Page Two)

## Stan Musial, Ralph Kiner Rap Homers For National League; J. DiMaggio Stars

By TED SMITH  
BROOKLYN, July 12—(AP)—The American League All-Star team defeated the National League 11 to 7 today in a wet and wobbly all-star game that set records for scoring and errors.

Joe DiMaggio, \$90,000-a-year New York Yankee outfielder who has been out of action most of the season, led the American attack with a powerful double in the sixth that scored two vital runs.

Stan Musial and Ralph Kiner hit homers for the Nationals.

A crowd of 32,577 paid \$79,235.02, less taxes, to see the game that lasted three hours and four minutes.

The National Leaguers made five errors, one more than the record made by the American in 1939. The total run output of 16 topped the previous high of 16 set in 1944 when the Americans won 9-7.

This was the twelfth American League victory in 16 All-Star games and came despite the orders of President Ford Frick of the National League to beat down the American Leaguers.

The American Leaguers scored four runs in the first inning on three singles and two errors.

Stan Musial's homer behind Jackie Robinson's double got two runs for the Nationals in the first.

Don Newcombe's sharp smash that Ted Williams caught running with his back to the plate brought Willard Marshall home, after the catch. For the third National run in the second, Jackie Robinson scored while the Americans were executing a double play in the third, following which Gil Hodges, running for Johnny Mize, scored on Eddie Karak's second single to put the National leaguers ahead.

It was a wild and woolly game. By the end of three innings the National League team had tied the unenviable All-Star record of four errors in a game. Both starting pitchers were promptly driven off the mound. Virgil Trucks of Detroit relieved Mel Parnell of Boston for the Americans in the second, and big Don Newcombe of the Dodgers went in for Warren Spahn of the Braves in the bottom half of the same inning.

FIRST INNING  
American went down swinging. DiMaggio went down swinging. Karak made a nice stop of Kell's homer but the runner was safe when Mize failed to come out with Karak's low throw. Newcombe charged with an error.

Williams was called out on strikes. Kell was credited with a stolen base as Semitek's throw pulled Reese off the bag.

Joe DiMaggio, on a 2-1 count, lined a single to left scoring Kell. The run is unearned.

Just walked on four straight pitches.

Don Newcombe, Brooklyn right-hander began warming up in the (Continued on Page Six)

### Actress Robbed

VICTIM of burglars who looted her Hollywood home of \$50,000 in gems, along with her pet Boxer dog, was actress Louise Brooks today. She was reported to have been kidnapped by a man in a dark suit, who took her to a rooming house in Hollywood. Brooks was released after a two-hour search by police. (Continued on Page Two)

## Pleasant Summer Weather Forecast For Most Of U. S.

BY ASSOCIATED PRESS  
Pleasant summer weather was today's forecast for most parts of the country, with temperatures around normal levels.

There were some hot spots, however. It was hot and quite humid in most parts of the Southwest and most of the Gulf states and hot in the interior of California. Coolest temperatures are in northern New England.

Rain fell over Kansas, northern Missouri and eastern Iowa and the northern Rockies. But there were no heavy falls of rain in the drought areas of New England, New Jersey and New York.

Showers waited an area from West Virginia southward along the Appalachians.

The hot section covered parts of Kansas, Missouri, Oklahoma and Texas and into the Gulf states. Temperatures reached 100 yesterday at Fort Worth, Texas, and McAlester, Okla., and 101 at Bartevport, La.

Highest readings in inland California were 104 at Bakersfield and 107 at Fresno. But on the coast, San Francisco had a comfortable 70 and the high at Los Angeles was 79. Readings in the Midwest and Eastern states generally were in the 80's, around normal.

## Defiant Dockers Join Walkout At Port Of London

### British Send Troops To Unload Supplies, Food

LONDON, July 12—(AP)—Defiant dockers by the hundreds joined a wildcat walkout today as the British government seized the strike-crippled port of London.

The cabinet assumed virtual wartime powers to break up the stoppage officially blamed on Communist agitation.

The army and navy sent 2,380 soldiers and sailors to the wharves to unload food.

But the strikers, who numbered 10,222 yesterday, were joined by another 2,728 men today. Fewer than 13,000 of the 25,000 who make up the London dock labor force reported for work.

The national dock labor board said 127 ships were idle and eight (Continued on Page Two)

## Recreation Group Gets Craft Supplies

Several local citizens and concerns have donated materials to help carry out the extensive craft and recreational activities planned for boys and girls during the summer by the Recreation Department.

Among the individuals who have made contributions are Roy Holter, B. C. Steble, Earl Higinbotham, H. B. Pope, and C. K. Ellis. Firms which have donated material include Clark's Woodcraft, Yowells, Beumilgat and Anderson and Loney Drug Co. The Sanford Public Library has also given materials.

## Mr. E. Thurston, 62, Dies After Extended Illness

Mr. E. Thurston, 62, died in the local hospital at 5:30 P. M. yesterday after an extended illness. He was born in Jersey City, N. J., on Feb. 25, 1887, and moved to Sanford with his wife, Mrs. Thurston, in 1921, when they made their home on the West Side. Mrs. Thurston was a member of the Congregational Church.

Survivors besides the husband include one daughter, Mrs. P. W. Martin, Jr. of Athens, Ga., one son, George E. Thurston, Sanford, five grandchildren, George E. Thurston, Sanford; Theodore and Frederick Martin of Athens, one cousin, Miss Marie Hartwig of Elizabeth, N. J.

Funeral services will be conducted at Erickson Funeral Home at 3:00 P. M. Thursday with Dr. J. B. Root and Dr. E. D. Brown officiating. Interment will follow in Evergreen Cemetery.

Active pallbearers will be Earl Higinbotham, Andrew Carraway, F. D. Scott, J. L. Galloway, W. V. Hitting and W. H. Vihlen. Honorary pallbearers will include Donald O'Neill, Dr. Shearer, John Fath, George Lee and George Henry of Deland; also Leo Butler, Jesse Lodge, Al Cox, Dr. T. Doss and Harry Kudell.

## DeWitt Hunter Is Man Of The Month

ORLANDO, July 12—(Special)—DeWitt Hunter of Seminole County has been named to the honorary "Man of the Month" Club of the Florida Farm Bureau according to that organization's monthly publication, which came off the press this week.

Mr. Hunter was nominated by Geo. D. Swartz, president of the Seminole County Farm Bureau. Members of this group are selected throughout the state on the basis of outstanding service to their organization. From their community, to farming or to other lines of business, they are chosen at the Bureau's state convention in St. Petersburg next November.

Dr. J. W. Wilson, also of Seminole, was among those nominated last month.

## Judge M. B. Smith Denies Petition To Exhume Chalker

Circuit Court Judge M. B. Smith today denied a petition of State Attorney Murray Overstreet to exhume the body of Joe Chalker of Chuluota following a hearing and testimony of witnesses lasting nearly 2 1/2 hours this afternoon, and started at 9:30 o'clock this morning. Mr. Chalker died on May 2 in Chuluota.

Judge Smith pointed out that the probable cause of the death was due to foul play, and stated that it was the duty of the court not to disturb the body unless it was established that the death was due to criminal causes.

Among the witnesses was Dr. J. W. Martin, Oviedo physician, who declared that he had made a superficial examination of the body of Joe Chalker and had pronounced the death due to a heart attack.

Mr. Chalker, widow of the deceased, was questioned and denied that she had inflicted any injury on Mr. Chalker prior to his death, and objected to disintering the body.

E. F. Housholder, her attorney, summing up evidence of witnesses, declared that he did not see any evidence that Mr. Chalker came to his death by other than natural causes, including continual intoxication.

## Radio Contact With Highway Patrol Office Is Authorized

The City Commission last night passed a resolution authorizing radio contact with the Highway Patrol Office in Sanford.

The resolution was passed by a vote of 14 to 2. The two dissenting votes were cast by the members of the commission representing the business community.

## Burglars Find Video Set Is Fascinating

ELIZABETH, N. J., July 12—(AP)—Why both a burglar alarm? Just keep your television set in working order when you go away from home.

Police reported today that burglars apparently were so fascinated with the television set in the home of Mr. and Mrs. William E. Weber that they didn't get around to taking anything of value from the house.

The police found the floor around the machine littered with cigar and cigarette stubs, empty whiskey bottles and looted sardine cans. But although the house was thoroughly ransacked by the burglars, police said nothing seemed to be missing.

## Jester's Body Lies In State In Austin

AUSTIN, Tex., July 12—(AP)—The body of Beauford H. Jester lay in state today in Texas' red granite capitol.

Jester whose heart gave out before he finished many a self-assigned task of re-making Texas, died yesterday on a train between Austin and Houston. Death came a few hours before he was to see two heart specialists for a check-up.

The first of two funeral services will be held in the senate chamber at 2:30 P. M. Then the body will be flown in a private plane to Corsicana, Jester's home town, where funeral and burial rites will be held tomorrow.

Allen Shivers of Fort Arthur, lieutenant governor who automatically assumed the powers of the governor, returned to the capital yesterday and announced there would be no major policy changes under his administration.

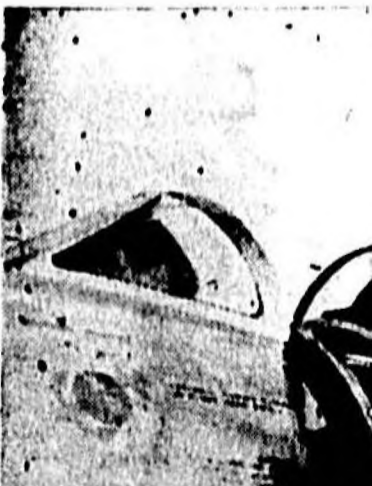

## WALK OF THE STATES ARM SPRING, 62, July 12

—(AP)—A rock walk of stones from each of the 48 States is a current project of the Franklin D. Roosevelt Memorial Commission.

The "walk of the stones" will lead to the main entrance of the "Little White House" on the President's Georgia plantation.

Governors and national representatives of the 48 States are being asked to contribute a stone each to the project.

## Qualifies As Jet Pilot

Official U. S. Marine Corps Photo  
EL TORO, Calif. (Special)—Marine Capt. John P. Bolt, 28, son of Mr. and Mrs. T. C. Bolt of 205 West Seventeenth Street, Sanford, recently qualified as a jet fighter pilot in the First Marine Aircraft Wing based at the Marine Corps Air Station here. The veteran flight instructor has his wife and children here, and is now serving as instructor officer with headquarters, Marine Air Group 12.

## NEWSPAPER STRIKE

SPRINGFIELD, Mo., July 12—(AP)—The Springfield Daily News published its regular final edition today despite a strike of union printers. The final edition came off the presses two and a half hours late.

The printers struck last night over wages and hours. The first edition of the morning paper was not published.

Arch Watson, business manager for Springfield Newspapers, Inc., said the printers had asked an increase in pay and a 37 1/2 hour week for the second week in 48 hours.

## BEATTY GETS LIFE

LANSING, Mich., July 12—(AP)—Dudley Beatty, the good-looking young factory worker who brutally murdered four-year-old Walter (Fee Wee) Eaton here last month was sentenced today to life imprisonment.

Beatty pleaded guilty on his arraignment a week ago.

Sentence was pronounced by Ingham county Circuit Judge Louis E. Cosh after a two-hour hearing to determine the degree of the crime.

## RECREATION SCHEDULE

Wednesday morning 10:00 o'clock—Seminole High School Fundamentals of Football, Coach Kettles.
