Only 43 Left On Relief Rolls In This County

Hundreds At Work On Many Projects, Large Number On 2 Sanford Streets

35,419 Taken Off Relief In State

Unemployed May All Be Assigned Work In Next Two Days

The names of only 43 persons remained on the relief rolls in Seminole County last night, officials of the local WPA office were advised. Three government projects were completed yesterday or will be finished today, and this may cause the temporary increasing of the roll by a few names, but all are being rapidly reassigned work. WPA officials stated today that those on relief will probably be assigned work today and tomorrow. The three government projects completed or being completed are the Tuskawilla road, the Elm Avenue road and the Lake Mary Longwood road. In their place come two large projects in the City of Sanford—the resurfacing of Park Avenue and First Street pavement—and these are providing employment for the largest number of workers.

Officials of the state headquarters of the WPA in Jacksonville announced yesterday that the new works program for Florida had taken 35,419 persons from the ERA relief rolls. The employment figures in the Orlando district were given in the report as 3,728. The largest number, 1,160, have been given work in the Tampa district, with 6,176 in the Pensacola district rating second, and Jacksonville district ranking third with 6,064. In the Gainesville district employment has been found for 2,229. Madison district 2,672. West Palm Beach district 1,848. Miami district 1,688, and Key West district 1,221.

Figures based on workers' lists of last Monday indicated the WPA had surpassed its quota by 413 persons, opening the way for the ERA to close down direct relief activities by Nov. 30.

Most of the nine districts had taken more than their quotas, but Orlando, according to WPA officials, due principally to the citrus industry, had fallen short. The Jacksonville district, they said, is "about even."

Monday's figures showed 34,956 were employed in the nine districts, 260 on administrative staffs and 213 on state-wide projects. The administrative jobs listed, the officials pointed out, were only those given to relief clients.

ABOLISH MIDNIGHT MASS

SAN FRANCISCO, Nov. 21.—(AP)—Archbishop John J. Mitty has ordered the midnight mass on Christmas abolished throughout the archdiocese of San Francisco because "a preponderance of opinion was against the midnight mass."

FIGHT HOLDING ACT

PHILADELPHIA, Nov. 21.—The United Gas Improvement Co. late yesterday filed a bill in the U. S. district court here attacking the public utility holding company act of 1935 as unconstitutional.

Florida At Head Of Procession On Prosperity Road

Sholtz Tells Other Governors Of Good Times Returning

ATLANTA, Nov. 21.—Florida "is leading the nation back to prosperity," Governor Dave Sholtz of Florida told a conference of governors here yesterday. Signs of "returning prosperity" were also noted by the governors of eight other Southern states.

"Our development this year has been safe and sane," said Sholtz. "From every standpoint the year 1935 has been the best in Florida since the boom period, we had more visitors last winter than any season since 1926, and all indications are the coming winter will be even better."

Gov. Eugene Talmadge of Georgia, outspoken against the Roosevelt Administration, said "Georgia is making sturdy, strong efforts to a sound, fundamental recovery. She is getting results in spite of the New Deal."

South Carolina's Governor Olin D. Johnston said his state has made "remarkable" progress.

In the neighboring state Gov. J. C. B. Ehringhaus of North Carolina said better business conditions and improved methods of tax collection are being reflected in increased state revenues.

Gov. Ruby Laffoon said things have picked up in Kentucky but that he was unsure of the future. Refraining from any prophecy about the future, Gov. Sennett Conner of Mississippi called attention to a surplus in the treasury as representing a healthy condition in the delta state.

Seminole County Being Advertised In A. C. L. Booklet

A Seminole County celery field and the Giant Cypress between Longwood and Lake Mary are prominently featured in the 1935-36 edition of "Tropical Trips," published by the Atlantic Coast Line. Copies of this interesting publication described as "a ready reference booklet wherein representative Southern resorts are located on the Coast Line or its connections, and therefore reached with ease and comfort," are widely distributed throughout the United States and Canada and is considered a most valuable means of obtaining publicity and advertising for the sections mentioned on their pages.

Besides the photographs of a celery field and the Giant Cypress, with appropriate titles, and information regarding Sanford's hotels and golf courses, "Tropical Trips" carries the following interesting item:

"SANFORD, FLORIDA—The Celery City," on the shore of Lake Monroe, head of navigation on the St. Johns River, on main line of the Atlantic Coast Line. Sanford is the center of one of Florida's most prosperous sections, has finest soil in the state; fine tourist hotel, The Mayfair. The largest and oldest cypress bog in America and beautiful Sandhills Springs are nearby. Hunting, fishing, golf.

So, again, the thanks of Seminole County folk are extended to the Coast Line for lending such able co-operation and material assistance in promoting the advancement and development of Sanford and Florida.

Lawton Chosen President Of Teacher Group

Seminole County Man Is Elected By West Coast Association To Succeed Lynch

T. W. Lawton, superintendent of public instruction in Seminole County, was yesterday elected president of the West Coast School Officials Association at a meeting held in Lakeland. He succeeds the late Captain George M. Lynch, of St. Petersburg. Fred T. Williams, chairman of the Seminole County school board who with board member E. T. Haines of Altamonte Springs attended the convention, said that the honor was given Mr. Lawton because of his long and active service in the association. He has been superintendent of schools in this County for about 20 years.

One of Mr. Lawton's first official acts after being inducted into the office of president of the educational group was to appoint a committee to report on the application of teacher salary schedules as suggested by R. M. Evans, state director of school financing. This schedule is based on the teachers' training and experience. The committee is composed of Superintendents H. B. Hines of Osceola county, Hollingsworth of Polk county and Turnley of Hernando county. Their report will be made at a meeting of the association to be held in Dade City of Dec. 14.

The main discussion at the Dade City meeting, Mr. Lawton forecasts, will be on the proposal to ask for an amendment to the State Constitution that will place the schools on the same level as other departments of the government. He said today that under the recent ruling of the State Supreme Court the educational department of the state is a "step child" with no standing in the matter of financing.

Mr. Lawton appointed W. J. Walker, chairman of the board of instruction of Manatee county, to lead the discussion on the proposed constitutional amendment.

According to the new president of the educational group, most important in the discussions at yesterday's meeting of the educators in Lakeland was that having to do with school finances and the ability of schools to borrow necessary funds. Speakers said that school boards can borrow only up to 80 percent of the state revenue estimated by the State Superintendent of Public Instruction, W. S. Cawthon, superintendent of the state, as compared to the governor's assurance of 89,000,000.

E. L. Robinson, vice president of the association and superintendent of schools in Hillsborough county, declared most of the counties face shortened terms unless funds in excess of lawmakers' estimate are raised. Already, he said, boards had pledged most of the money in sight, against loans.

Only one county is assured of a nine-month term, said W. J. Walker of Bradenton, Manatee county superintendent and chairman of the association's resolutions committee.

He added three counties could count on eight months, three on seven and the rest of the 47 counties answering a poll looked for terms ranging from four to six and one-half months.

The school outlay has been exaggerated in some estimates, running as high as \$25,000,000, Walker said. He said the highest expenditure, in 1928, was about \$15,000,000, while the total raised from state and county operating funds last year was about \$12,000,000.

Transient Camps Ordered Abandoned

JACKSONVILLE, Nov. 21.—(AP)—Abandonment of transient camps at Miami and Wabisa was announced yesterday. Efforts will be made to continue, as long as possible, the remaining camps at Jacksonville, St. Petersburg, Tampa and Ocala.

Page Demosthenes! Lost Money Found By Man On Relief

John Irwin, colored, living at 1719 Avocado Avenue in the Goldsboro section of Sanford, would delight the heart of Demosthenes. He found a pocketbook today that contained \$4.62, a watch, fountain pen and other valuables, and though he was "broke," out of a job and on the relief roll, he promptly brought his find to The Herald office in the belief that the owner could thereby be found. He was right, because shortly before he appeared a "lost" ad for the pocketbook was ordered in today's issue by Mrs. Everett M. Hinshaw of Fern Park. Irwin found the pocketbook at the corner of Sanford Avenue and First Street. He has lived in Sanford all his life.

CITY NEWS BRIEFS

Congratulations are extended to M. J. Meeks who will tomorrow reach another milestone in life's journey.

The tides tomorrow will be high at 8:37 A. M. and 5:46 P. M., and they will be low at 11:44 A. M. and 11:46 P. M.

The weather generally fair tonight and Friday, with not much change in temperature. Fog and continued cool tonight in north-west Florida. Fair and warmer Friday.

O. Raymond Ellis of Orlando, one of the several congressional aspirants in the new Fifth district, was in Sanford today. Judge J. G. Sharon, who announced some time ago, goes to New Smyrna this evening.

I. Tharpe, manager of the Western Union office in Sanford, announced today that the office will henceforth be opened at 7 o'clock in the morning, instead of 7:30 o'clock. And that it will be kept open until 10 o'clock in the evening, instead of closing at 9 o'clock as heretofore. The company has also put in a branch office at the State Market with an operator on duty from 9 A. M. to 6 P. M.

Ray T. Sherouse of Orlando, who will have charge of the temperature and forecasting divisions in this section, and R. Dawson, Seminole County farm agent, today noted on maps of the County where the stations should be located, and will next week interview owners of the designated properties. Six stations are to be located, four of them in the county.

Today's Farmers' Market reports shows the addition of apples, peaches, syrup, shell, corn and sweet potatoes to the list on which quotations are made. Apples are quoted from \$1 to \$1.25 per basket, Georgia peaches from 12-1-2 to 15 cents per pound, Georgia cane syrup at 50 cents per gallon, corn at \$1.50 to \$2 per hundred weight, and Georgia or Porto Rico sweet potatoes at \$1.50 per hundred weight.

Church Club Favors 'Billy' Zachry's Idea

Members of the Men's Club of the Episcopal Church agree with "Billy" Zachry, high school student, that proper recreational pursuits must be provided for the youth of this city to offset questionable modern diversions. Young Zachry told the Rotary Club a few days ago that Sanford should provide the right environment for its young people, and his ideas were passed on to the Men's Club at its meeting last night by W. A. Leffler, Rotarian and city commissioner, with the result that the Club voted to lend its aid to any movement to obtain more recreational facilities.

The Club also voted to endeavor to revive its Boy Scout troop and a committee was appointed to scout around for a scoutmaster. Refreshments were served at the close of the meeting which was largely attended. It was the first session of the Club under the presidency of A. L. Betts, who was elected a month ago to succeed H. H. Coleman.

AAA Officials Hold Hearing On Chase Case

Sanford Firm Denies Constitutionality Of AAA In Failing To Pay Assessments

Denying Chase & Company's contention that the AAA is unconstitutional and that therefore the Celery Control Committee was without legal authority to collect assessments on celery shipments, officials of the Agricultural Adjustment Administration conducted its hearing against the Sanford concern this morning. The proceedings were held in the Seminole County Court House by G. Osmond Hyde of the solicitor's office of the Department of Agriculture in Washington, D. C. Mr. Hyde also acted as prosecuting attorney and at times served as a witness.

It was a fact finding hearing. No decision was rendered at its conclusion, but the evidence adduced will be reported to Henry A. Wallace, Secretary of Agriculture in Washington, together with Hyde's recommendations, and the secretary will make his findings within the next 10 days.

Chase & Company, represented at the hearing by A. E. Carpenter of the legal firm of Warlow & Carpenter of Orlando, presented no evidence at the hearing, but instead filed a stipulation agreeing to the correctness of the government's report as to the number of cars of celery it shipped last season (1934) and to that fact that it refused to pay any funds to the Celery Control Committee.

A stipulation from the Secretary of Agriculture was also noted in the report that "Chase & Company did not sign the Celery Marketing agreement, opposed issuance of a license, and did not acquiesce therein or ratify the same."

The Celery Control Committee and the Secretary of Agriculture, who directs the destinies of the AAA, claim that Chase & Company owe approximately \$49 in assessments of \$1 per car on each car of celery shipped to the committee as its prorata assessment for that committee. Chase & Company did not sign the agreement never consented to the action of the committee and did not pay the assessment, though the company cooperated with the celery control committee in order not to hamper the exportation.

The Secretary of Agriculture claims a breach of terms of the license by Chase & Company's refusal to pay assessments.

Chase & Company did not dispute the facts and in offering no evidence at today's hearing, takes the position that the AAA is unconstitutional and that the Secretary of Agriculture has no power to assess a celery shipper who did not sign the celery agreement.

M. F. Miller, field investigator of the AAA, of Washington, has accompanied Mr. Hyde on a week's tour of the celery section, gathering evidence, was at the hearing, as were also Loring Raoul, of Nassau, chairman, and Chas. H. Pickett, of Sarasota, secretary of the celery control committee, and H. B. Day of Tampa, of the general crops section of the AAA.

Lord Jellicoe, Hero Of Jutland, Is Dead

LONDON, Nov. 21.—(AP)—Lord Jellicoe, British admiral and outstanding naval figure during the World War, died last night. Death came to the admiral in his 76th year. He was born Dec. 8, 1859.

Lord Jellicoe rose to his greatest fame as commander of the biggest fleet ever concentrated in the history of the world at the Battle of Jutland in 1916.

The immediate cause of Lord Jellicoe's death was illness he contracted Nov. 11 during the Armistice Day ceremony at the Cenotaph.

All the members of his family, including his wife, were at his bedside when he died at 6:50 P. M. in his home, 1, de Kensington, District of London.

Fletcher Sees No Revision Of Banking Laws

"Breathing Spell" Is To Extend Through Next Session, Says Florida Senator

(A P) WASHINGTON, Nov. 21.—U. Fletcher, Chairman of the Florida Democratic Party, Democrat, of the long over-worked Senate banking committee, forecast that so far as banking and monetary legislation are concerned President Roosevelt's "breathing spell" will extend at least through the next session of Congress. He said he saw no need for any new legislation on either subject. For the first time for several years, he added, the session was nearing without any substantial demands for revision of bank laws.

The senator's statement marked a turning point in New Deal legislative history. Ever since the stock market crash, the banking committee has been continuously laboring virtually rewriting the nation's banking and monetary laws.

Landis Okeys Using His Name In Two Job Cases

TALLAHASSEE, Nov. 21.—(AP)—Attorney General Cary D. Landis today consented to the use of his name in court proceedings to contest the employment of members of the 1935 Legislature in other state departments. He told Joe C. Jenkins, Gainesville attorney, to proceed with an action in the Second Judicial Circuit against the right of 19 members of the House and Senate to be employed by the State Road Department, the motor vehicle commissioner and the livestock sanitary board. The permission was given, Landis said, with the understanding that all costs of the case be paid by M. A. Collins, of Jacksonville, Jenkins' client, and not by the state.

T. R.'s Grandson Says He Is Not Guilty Of Charges Of Assault

CAMBRIDGE, Nov. 21.—(AP)—Cornelius VanShaack Roosevelt, 26, grandson of late President Theodore Roosevelt, and a college classmate both today pleaded innocent of charges of assault with a dangerous weapon. They appeared in the district court on charges of assault on two policemen and a newspaperman with air pistols. The cases of Roosevelt and Peter DeForez, both of Pomfret, Conn., were continued for hearing on Nov. 26, and they were released on bonds of \$500 each. They are students at the Massachusetts Institute of Technology. They are charged with making pot shots at passers by from windows, and charges specifically said they shot at two policemen and a newspaperman.

Dinner Arrangement Nearing Completion

Arrangements for the dinner party in honor of Mr. and Mrs. Karl Lehmann, to be given in the Mayfair Hotel on Monday evening will be completed tomorrow afternoon when the committee, consisting of B. F. Haines, J. L. Marquette, H. B. Pope and W. H. Schmidt, meets in the Chamber of Commerce office.

It is expected that this affair will be one of the largest and outstanding of the season, and members of the committee urge all who have not yet purchased tickets or made reservations to do so immediately at the Chamber of Commerce office, telephone No. 81.

WAR ON ACCIDENTS

WASHINGTON, Nov. 21.—(AP)—President Roosevelt yesterday authorized a public conference early in December to determine ways of reducing accidents on land, sea and in the air.

Ellsworth Renews Attempted Flight Over The Antarctic

NEW YORK, Nov. 21.—(AP)—The New York Times and the North American Newspaper Alliance reported today that Lincoln Ellsworth had hopped off in his second attempt in 24 hours to fly across the Antarctic continent. Ellsworth and his pilot, Herbert Hollock-Kenyon, had been forced to give up their first flight and return to their base ship because of an oil leak in their motor after three hours and 11 minutes in the air. They again had favorable weather today.

'Corn' Belt Would File Briefs For AAA Process Tax

Farmers Ask Permission To Help With Government's Case

WASHINGTON, Nov. 21.—(AP)—A group of "corn belt" farmers asked the Supreme Court today for permission to file a brief supporting the government in a case expected to decide the constitutionality of AAA processing taxes. Vernon A. Vrooman of Des Moines, Iowa, who filed it, said the brief was for a League of Economic Equality, an "organization supported by farmers and friends in four of the corn belt states, Iowa, Minnesota, Nebraska and South Dakota."

Earlier, John W. Davis, one-time Democratic candidate for President and critic of New Deal activities, asked the court for permission to join the Hoosier Mills in contesting validity of AAA taxes.

A brief presented by Vrooman said the Hoosier Mills case, set for argument on Dec. 9, involves matters of vital concern to the farmers. "The supreme subject of the constitution as a whole is the general welfare of the people of the United States," it contended. The brief argued that the framers of the Constitution who approved tariffs would have found the AAA "equally unconstitutional."

Rev. George Hyman, Former Resident, Is Stricken In Miami

Dispatches to morning papers report that the Rev. George Hyman, formerly pastor of the First Baptist Church of Sanford, and now pastor of the Temple Baptist Church in Miami, was stricken with cerebral hemorrhage while addressing a meeting of the Pilot Club in Miami night before last. Reports were that he remained in a serious condition yesterday, but that physicians were hopeful improvement would be shown in his condition within the next week or two.

The Rev. Hyman was pastor of the Baptist Church in Sanford from 1913 to 1917 when he entered the service as a chaplain overseas. He returned to his parsonage in this city after the war and guided the destinies of the local church for three more years when he went to Tampa as assistant pastor of the First Baptist Church, later organizing the Bay Shore Baptist Church in that city. He has been pastor of the Temple Church in Miami for about three years.

Miami Will Continue Slot Machine Fight

MIAMI, Nov. 21.—(AP)—The City of Miami defied the State of Florida again yesterday by providing severe penalties for operation of slot machines.

Courting threatened mandamus action, the city commission curtly rejected the plea of prospective operators for licensing of slot machines as provided by the 1935 legislative act legalizing the coin devices.

This done, the commissioners specifically banned operation of slot machines and fixed the maximum penalty for violations at 90 days imprisonment and \$500 fine, the top sentence allowed under Miami's municipal charter.

Persons who play the forbidden machines also may be prosecuted.

Soldiers Are To Grow Crops For Mussolini

11 Duce Orders That 100,000 Lay Down Arms And Help In Sanctions' Fight

Haile Selassie Escapes Air Raid

Italian Planes Flew Over Same Area As Surveyed By Ruler

By The Associated Press
Premier Mussolini released 100,000 Italian troops from military duties for three months today to strengthen Italy's resistance to the League of Nations' sanctions. An official statement said that troops granted leaves would assist in speeding up industrial and agricultural production. The government stated the action had no "international significance."

As French and British experts revived peace talks in Paris, another French quarter said Mussolini would not be interested in any peace proposals until the new Italian commander, Marshal Pietro Badoglio, had "a chance to win a few battles."

Emperor Haile Selassie was back in Addis Ababa today, having completed an aerial tour of the southern war front shortly before two fascist airplanes flew over the section he had surveyed. Unexpected rains slowed the advance of the Italian southern army while the northern army was busy building roads, camps, and bringing up supplies.

Autonomy Move In North China Suddenly Halted

(By The Associated Press)
The autonomy movement in five provinces of North China came to an abrupt halt today and indications were seen in Tokyo that Imperial suggestion was responsible for the sudden hiatus. Official sources in Shanghai expressed fear that the halt was only temporary, but both Japanese and Chinese quarters agreed it was definite.

The Japanese army's high command in Tokyo instructed its subordinates on the Asiatic continent that officers conniving in Chinese separatist movements were exceeding their authority. Japanese military leaders in China were reported to have told Chinese national leaders to undertake their own reforms in North China, introducing into the area regime and public attitude more acceptable to the Japanese.

Certain Chinese officials, however, pointed out that the Japanese army on the continent often exercised independent action and expressed fear it might do so again.

W. F. Reetz, Former Sanfordite, Is Dead

Walter F. Reetz, 58, former resident of Sanford, died at his home in Wagner, this state, at 6 o'clock this morning. He had been ill two weeks.

Mr. Reetz was formerly proprietor of a miniature golf course on North Park Avenue, but moved to Wagner about four years ago. He is survived by his widow, Mrs. Betty Reetz.

The deceased was born in Scribner, Neb., and the body will be taken to Hooper in that state for burial.

THE HUNGRY FILLED: He has filled the hungry with good things and the rich he hath sent away empty.—Luke 1:53.

French Plan Plans Race Around World in 1937—headline. Yeah, and by that time they may have some German planes right behind them.

"Hort of Mad" At His Wife: Breaks Three Shop Windows—headline. Heaven! What would he have done if he had had a tantrum?

President Roosevelt is in the precarious position of having to allow England to dictate our foreign policy, or of being forced to line up against 52 countries applying sanctions under the League of Nations.

One-sixth of all the people in the United States now on relief are between the ages of 16 and 25, according to Aubrey Williams, National Youth administrator. It must be a pretty discouraging start in life for them.

Another automobile accident cut short a promising career the other night when Miss Kathleen Wells, radio singer, crashed into a milk truck on her way home. Miss Wells was only 25 years of age, but had already had six years experience as a radio singer.

"It is my greatest regret," says Ed Howe, the "Sage of Potato Hill," that "American statesmen are not as honest, useful, and efficient as American business men." Why should they be? Very few ever go into politics until after they have failed in business.

Physicians and surgeons should be prepared to guarantee satisfactory results, when they hear of an incident which occurred in New York the other day after Dr. Ercole Pizzo had performed a sinus operation on Giuseppe Palumbo. After shooting the doctor three times in the chest, Palumbo explained to police that the operation had not been successful and that his nose still hurt him.

Eighty nationally known economists warn the country against the dangers and the evils of inflation if the soldiers' bonus is paid next winter, particularly if it is paid in greenbacks. President Roosevelt did the same thing when he raised the bonus bill last winter. But the people, it seems, are in favor of bigger and better spending, even bigger and better than New Deal spending. And the veterans take the position with some justification, that they are as much entitled to a handout as anyone else.

We see where the WPA has allotted \$675,002 to Westchester county, New York, for multi-raid control program. Citizens of White Plains, the county seat, were greatly alarmed over the news as they were not aware there was any malaria in the county. "We haven't heard of a case in over a year," said Dr. Richard Rice, deputy health commissioner, who pointed out that this must be another case of those hoodlugging projects.

The President of the League of Nations pointed out that the nations of the world are paying attention to the fact that 45 percent of the nations of the world are in debt. At the same time, he pointed out that the nations of the world are paying attention to the fact that 45 percent of the nations of the world are in debt.

Television At Popular Prices

Television, at popular prices, is one of the toughest problems that was ever put up to practical scientists. A practical television set, that works perfectly, is now in use at Camden, N. J., according to Collier's Weekly, but the set represents an investment, including research and experimentation, of more than \$4,500,000. And it is fairly obvious that the American public is not going to pay four million dollars for even one million dollars, or even a trifling one thousand dollars—for a home receiving set, even if the results approach perfection.

A recent survey made by Collier's indicates that television sets, in mass production, will have to come down to a retail price of about \$100 before the whole matter comes into the realm of practical everyday life. The magazine's report on its duty says in part:

"Public demand for television is urging the manufacturing companies on, and the minds of great scientists are responding to this demand. For 75 years there has been patient research along the lines which are only now beginning to show results,—which have recently succeeded in producing the most marvelous device known to man.

"The scientists have produced a television machine which is practically perfect. But note this: they have produced it only in the laboratory. Television as it was inspected and evaluated by this group has never yet been given a practical try-out in the field where it will have to come in contact with its 'public.' That part of it, though, does not worry the scientists a bit.

"As far as the reaction of the public to television is concerned the attitude of the men who perfected the iconoscope and the kinescope is exactly the same as that of the two Frenchmen who transmitted the first picture. They don't give a darn. Having created an eye which not only substantiates their theories but also functions perfectly, they have washed their hands of it because they just won't be bothered with testing it in the field, taking the bugs out of it, if it has any, and commercializing it.

"Not ten percent of the men who do research work are at all interested in perfecting their devices for practical use. And therefore, television, which is about to emerge from the laboratory for a thorough workout, will from now on be in the hands of a set of men whose business it will be to determine the means whereby a television system acceptable to the public eye can be set up.

"The question, therefore, in which we are deeply interested, as to when we will have television in our homes is now being decided. But don't get excited about it, and think that before long you are going to have a modern mirror in your living-room, because it will probably be quite a while yet before a television set that is of real value to the public is on the market."

Cancer Cures

The New York City Cancer Committee has issued a warning against "quacks, cranks and cranks," who claim to be able to cure cancer through salves, injections, pills or electric belts, which should prove of value elsewhere throughout the country. Cancer, the committee reported, can be cured only through destruction by X-ray or radium or removal by surgery, and all claims to the contrary serve to mislead patients.

The committee listed the following alleged "cures" which have been brought to its attention, all supported by testimonials:

1. "A glandular extract prepared in Japan, neatly wrapped in cellophane and beautifully packaged, but useless in the cure of cancer.
 2. "A piece of blue glass to concentrate the sun's rays on a cancer patient. The sun's rays are valuable to health but not in treating cancer.
 3. "Florida water. This proved as valueless as the fountain of youth sought by Ponce de Leon, but it was endorsed by the mayor of the town from which it came.
 4. "Chinese perfume sticks, backed by many testimonials and a Senator of the United States. It was to be burnt before the patient while a manure salve was applied.
 5. "Capsules containing some sort of a blood and iron solution.
 6. "A solution of sulphuric acid from the steel mills of Pennsylvania where it was reported to have cured a worker when it spilled accidentally on his arm. He did not have cancer and the solution would not cure him."
- "These examples," the committee said, "may seem a little ridiculous. In reality they are a tragic index of the ignorance and of the fears of those having cancer. It is the function of the New York City Cancer Committee to educate the public to seek prompt treatment from a licensed doctor when one of the cancer signals—a swelling that persists, a sore that does not heal, unexplained bleeding or discharge, or long-continued indigestion—appear. Only treatment by surgery, X-ray or radium can cure cancer."

Time Change For City Of Chicago May Go To L. C. C.

WASHINGTON, Nov. 21.—When the Chicago city council decided to change to Eastern Standard Time, it voted itself into an unusual situation.

There may be complications with the Interstate Commerce Commission, depending on whether Chicago considers itself in the Eastern Standard Time zone or if it just wants all-year daylight saving time.

The regulation that set the same of time in the United States was agreed to at an international conference in Washington in 1884. Since 1815, the Interstate Commerce Commission alone has had power to decide which time zone a city shall maintain.

The time system was established after years of confusion resulting from inconsistency of the calendar. Before 1884 every town and railroad set its own time. There was no one time standard.

Finally Charles Dorr, of Burlington, Vt., decided that a standard time should be set. He proposed that the time be based on the solar time of the meridian passing through Washington, D. C.

Lots Of Beer, Nude Dancers, Peppy Weather, Gas Taxes, Bonds, Make Florida News

Tallahassee drink lots of beer, one of the dancers who appeared in a recent New York artists' show which was raided because the police said they danced with clothing residues in St. Petersburg, the coolness in the air is just what is wanted in Fort Myers, special gas taxes are looked upon with disfavour in Umatilla, and Homestead decided this carry only 45 percent of its bonded debt.

These are some of the news events as recorded in the Florida press during the last few days. Since residents of the Capital City drank 276,000 bottles of legal beer during the month of September, the Tallahassee Democrat figures that each person must have consumed 10 bottles. "Figured on a per capita basis," says the Democrat, "there were 10 bottles of beer drunk for each person during the month. At 10 cents a bottle, the amount spent is more than \$1 for every person living in Leon county."

The St. Petersburg Independent prints on its front page a picture of Collette Nicka, beautifully attired in a long white gown, together with a long story about the girl who is the daughter of C. S. Nicka of the Gulf Coast town. Collette is one of the five girls arrested at the charity show given by New York artists which police stopped because of alleged nudity on the part of some of the actresses. All were dismissed when the case came to court.

The Independent says that Miss Nicka has posed for such noted artists as Howard Chandler Christy and Charles Dana Gibson. During a ball in President Roosevelt's honor at the Waldorf-Astoria Hotel Christy chose Miss Nicka to present a picture to the President.

According to the Fort Myers News Press, "that little 'tech' of coolness in the air must have been just what we've needed" to cool our "we've needed" browns. All seem to have more pep in their step and a bigger stock of good humor and tolerance was on hand.

Florida cities which have levied a municipal tax on gasoline have found that it is not an expedient move, according to the Umatilla

THE COMING ISSUES

By PROF. REXFORD GUY TUGWELL

What is needed in these months in come is an access of confidence among all progressives, a submission to discipline under leadership and a drive for complete victory against the most powerful reaction ever organized in this nation.

If we cannot achieve unity we shall lose—and we shall deserve to lose. This Administration is committed to Democracy and to equal justice. Autocrats fear nothing so much as the Democratic idea; and our financial and industrial autocrats are no exception. They have been used only with our national resources but with us.

We have no reason to expect that the disestablishing of our plutocracy will be pleasant. These historical changes never are. We have, however, the duty of avoiding violence as the process goes on.

And this is why I regard the coming months as among the most critical of our history. For the movement will go on in any case; it lies in the brain; and the blood of a people bringing into substance the staff of old racial dreams.

With all the materials at their immediate command; with the technical skills already cemented firmly into a universal educational system, no power on this earth can stop the progress of our people toward national well-being.

We have been pitiable grubbing creatures up to now, laboring in sweat and sorrow to make money, to multiply it at other's expense and to hide it away like

ANOTHER BRIDGE WANTED JACKSONVILLE, Nov. 21.—Formal application was made yesterday by John A. Long, engineer for the David Hall of county commissioners, for a United States War Department permit to construct a highway bridge across the St. Johns River from Main St. to Ocean Street.

Only \$25,000 To Pay For Potato Control

WASHINGTON, Nov. 21.—Only about \$25,000 will be available to start the potato control program on Dec. 1 and carry it forward until Congress, meeting in January, can appropriate funds for the program, the Agricultural Administration indicated in making public the final ruling of Comptroller General J. R. McGill on the problem.

The Comptroller General's ruling on the sources for funds to start the potato-control program, which its sponsors have insisted that Secretary Wallace inaugurate on Dec. 1 despite the failure of Congress to pass the deficiency bill carrying an appropriation for the purpose, held that emergency relief funds were not available for administration of the act.

The Hormonique Glandular

Skin Treatment

consists of 3 essential preparations especially compounded for the 3 important phases of skin care. Frequent treatments are recommended for young as well as old. Occasional treatments by a recognized cosmetician are particularly beneficial.

Congregationalists Will Give Supper

A turkey supper and bazaar, sponsored annually for the benefit of the Congregational Church by the women of the parish, assisted by the Triangle Society and the Christian Endeavor Club and the Christian Endeavor Society, will be given Saturday afternoon at 2:30 P. M. at the Congregational Parish House, corner Park Avenue and Third Street.
The bazaar will include a booth stocked with homemade cakes and candies with Mrs. Evelyn Bauer, and the Misses Virginia Lundquist, Jane Gantt, Alean Bellamy and Marjorie Hallard presiding; a country store booth in charge of Mrs. Hortense Witte, Mrs. Theodora Powers, Mrs. Betty Butler, and Mrs. Bernice Stinson of the Triangle Club; a magazine subscription booth with Mrs. Russell Mason in charge; and a fancy work booth.
Waffle irons, floor lamps, medicinal lamps, groceries, canned goods, the latest model safety razors and almost everything else from yeast cakes to roofing paper, will be displayed at the country store booth, while the fancy work booth will contain a varied assortment of aprons, pillow slips, table scarfs, and children's clothes as well as unusual and dainty gifts. A flower design quilted comforter will also be on sale.
At the magazine booth, by special arrangement, any magazine published may be subscribed for and the church will receive the agent's commission. Many are taking advantage of this opportunity of subscribing for magazines as Christmas gifts.
The supper, featuring a typical Thanksgiving menu, will be served at 6:00 P. M. and reservations have been made to accommodate 200 diners. The members of the committee are Mrs. George Hahn, Mrs. Henry Nickel, Mrs. Olga Hunter, and Mrs. J. E. Ballard. Others aiding in preparing the dining room and kitchen are Mrs. George Schmidt, hostess, and the Misses Alean Bellamy, Audrey Neese, Irene Lundquist, Virginia Lundquist, Lois Wulfer, Ruth Meisch, Clara Meisch, Helen Witte, Jane Gantt, Kathleen Adams, and Ruth Parish.

PERSONALS
Meriam Moys, daughter of Mr. and Mrs. Morris Moys, is receiving treatment at the Florida Sanitarium in Orlando.
Mrs. Clyde A. Byrd of Daytona Beach, formerly of this city, spent yesterday here with Mrs. W. B. Zachry, Magnolia Avenue.
Word has been received here that William Thigpen, son of Mr. and Mrs. W. M. Thigpen of this city, has been pledged to the Pi Kappa Alpha social fraternity at Emory University in Atlanta.
Mr. and Mrs. L. H. Harvey and son, Leslie, have arrived from South Carolina to spend the winter season here at 1801 Park Avenue.
Miss Theresa Meeks will arrive tonight from Jacksonville to spend the week-end with her parents, Mr. and Mrs. M. J. Meeks, Central Apartments.
Mrs. Walter Routh returned Tuesday from Detroit, Mich., where she spent a short time visiting her mother and other relatives.
Mr. and Mrs. D. L. Grow of Atlantic City, N. J. are spending a few days here with Mr. and Mrs. Zerrener, Laurel Avenue. They are en route to Miami.
J. M. Wilson, Jr. of Miami is spending a few days here with his parents, Mr. and Mrs. J. M. Wilson. He plans to leave Saturday for North Carolina where he has accepted a position with the J. C. Penney Co.

Program On China Given By Society

"The Conquest of China" was the subject of the program meeting of the Woman's Missionary Society of the First Baptist Church held Monday afternoon at the church with Circle Number Two in charge and Mrs. C. A. Anderson conducting.
The program was presented as follows:
Song, "Footsteps of Jesus" Assembly.
Scripture Reading—Mrs. J. T. Newby.
Prayer—Mrs. J. B. Borland.
"Henrietta Hall Shack in China"—Mrs. Forrest Gatchel.
Dialogues—Mrs. G. E. Rollins and Mrs. C. A. Anderson.
Song, "Hing Out the Banner" Assembly.
Prayer—Mrs. Sarah Stewart.
Mrs. G. E. McCall, Mrs. B. B. Haggitt, Mrs. A. W. Lee, Jr., Mrs. John L. Galloway, Mrs. J. O. Laney, and Mrs. James A. Wright.

Mrs. Park Entertains Sans Souci Club

Honoring the members of the Sans Souci Club, Mrs. Charles I. Park entertained with a bridge party Wednesday afternoon at her home on West Seventeenth Street. Yellow and white chrysanthemums were used as decorations and the tables bore Thanksgiving designs.
High score prize, a novelty plaid scarf, was awarded to Mrs. G. E. McCall while cut prize, a finger tip towel, was given to Mrs. John L. Galloway. Refreshments were served at the tea hour by the hostess, assisted by Mrs. Edmund Meisch, Mrs. R. G. Fox, and Mrs. A. W. Lee, Jr.
Those present were: Mrs. Clyde A. Byrd of Daytona Beach, Mrs. Edmund Meisch, Mrs. R. G. Fox.

Here Comes The Band To Be Seen At Milane

Mirth and melody blend as Ted Lewis weaves magic melodies in "Here Comes The Band," Metro-Goldwyn-Mayer's musical romance with the high-hatted master of syncopation, playing at the Milane Theater Friday.

A dramatic story dealing with the reunions of an army band, a young composer, a stolen song and a musical lawsuit that restores it to him, the new picture is packed with hitting song hits and rollicking comedy. Through it runs the love story with Harry Stockwell, singing star of "As Thousands Cheer," and beautiful Virginia Bruce in the romantic leads.

"Headin' Home" is the principal song hit of the new picture, and figures in a lavish choral ensemble "You're My Thrill" is the big production number with Ted Lewis and Spunky McKeel. "Our Gang" comedian, working with boxes of beautiful dancing girls, introduces his own hits such as "Me and My Shadow," "When My Baby Smiles," "Wear a Hat with a Silver Lining" and "Peanuts."

Virginia Bruce is gloriously beautiful and talented. Stockwell is heard in "Roll Along, Prairie Moon" and "Headin' Home."

Paul Sloane directed the new picture, in which are many spectacular highlights and an hilarious "Amateur Night" in a broadcast station. Nat Pendleton and Ted Healy provide comedy, and Donald Cook, Addison Richards, Robert Glecker, May Beatty, Ferdinand Gottschalk, Robert McWade, Henry Kalker, Charles Lane and others of note are in the cast.

Celery Feds To Go Against St. Augustine's Fast Squad In Coast City Friday Night

Sanford Boys Are In Best Of Condition, McLucas Thinks

By HENRY SLAUGHTER

The Celery Feds travel to St. Augustine tomorrow night to meet Ketterlinus High in a Northeast Conference game where the Celery Feds should regain their 50-60 standing in the conference.

Seminole High will rule as the favorite as it has won one game out of seven and the Mulletts of St. Augustine have lost seven out of seven in the same class of competition. The Celery Feds lost their last two games after putting up a good fight and winning much praise from their opponents.

Coach McLucas feels that the boys will pull through tomorrow night and beat the Mulletts. The coach is full of praise for the St. Augustine boys who had the loop leading DeLand Bulldogs to a low score last week. He said that the Mulletts out played the DeLand team and should have won the game.

Last season was the first time that the Celery Feds and the Mulletts played each other and the Seminole High team won by the score of 7-6 after a hard fought game.

After two days of hard scrimmages, Monday and Tuesday, the boys feel good and they seem to have that old pep that it takes to win football games and they all say that they are out to win tomorrow night. In the scrimmage Coach McLucas gave the boys several new plays and they worked excellent against the old plays worked in good form. The coach claims that these two scrimmages were the best of the season.

Glenn Gaocek, senior fullback for the Celery Feds, quit the team last week and will be greatly missed should Leland McClelland receive any injury in tomorrow's game. Lester Phillips, who has been playing at quarterback all this season, has been given the fullback plays, but he can not fill the position as well as he should as he has had only a few days in which to learn his new assignment.

Elwin Squires will make another bid for position on the All-Conference team tomorrow night. He is the outstanding center in the conference and should be selected on this team even though his team has lost most of its games.

Bob Williams and Billy Colbert will be the other features of the Seminole High forward wall.

In the backfield the Celery Feds will have Roy Wright at quarterback with Lester Phillips ready to relieve him at any time. Coach McLucas thinks best. It is hoped that Leon Lawson, fleetly halfback, will be back in form after a slight letdown in the last few games. Billy Zachry will be in there throwing passes and charging into the Mulletts' line. Leland McClelland will be at fullback where he is expected to play his usual game. "King Kong" Williams is back in condition and will play the whole game unless he receives an injury.

The starting line-up will be: Lt. Jack Purdon; Lt. Jim Stapp; Lt. "King Kong" Williams; Elwin Squires; rg. Bob Williams; rt. Frana Warner; rb. Billy Colbert; qb. Roy Wright; rb. Leon Lawson; lb. Billy Zachry; lb. Leland McClelland.

Stetson-Murray Squads To Play At Homecoming

DELAND, Nov. 21.—After three strenuous practices this week the Stetson Hatters expected to take it easy this afternoon in the next-to-last workout before meeting the Murray State Teachers College eleven Saturday afternoon as the centerpiece of the annual Homecoming festivities.

The Kentucky team is expected to arrive tomorrow, primed for a hard battle, and limber up on some DeLand field in final preparation for Saturday's affair. Head Coach Brady Cowell and Line Coach Chester Freeman felt that the Green and White players are in condition to give their very best in this important home game, in which victory will spell a successful season for the Hatters.

The Stetson backfield, headed by Aubrey Smith who will be captain for Saturday's contest, is now at its peak and Hatter fans are looking for some ground-gaining fireworks both in the air and on the ground. Smith made long runs against the University of Miami, Erskine College and the Spartans of Tampa in the three most recent games—all Stetson victories—and he and his mates should turn in a first-rate performance on this occasion.

The husky thoroughbreds of Kentucky were N. I. A. A. champions in 1933 and defeated Stetson, decisively last year. They are favorites, on paper, to win against the Hatters, but Cowell and Freeman are hoping to win regardless of statistics.

Florida At Head Of Procession On Prosperity Road

(Continued From Page One)

ness is much improved throughout the state," said Gov. Hill McAlister of Tennessee, "and that conditions in Tennessee have improved materially the past year. I think the state has made rapid progress during the year and expect a continued upturn next year."

Gov. George Peery of Virginia said significant accomplishments of this year include a minimum eight months' public school term, keeping expenditures within income and at the same time restoring some of the deficit and a state control plan for alcoholic beverages.

An economy program in Arkansas' state government was said by Gov. J. M. Fyrell to have brought results in trimming outstanding indebtedness and that continuation of the program would show additional results next year.

Patrol Citrus Groves

LEESBURG, Nov. 21.—Growers of citrus fruit in Lake county are organizing a grove patrol, under the direction of Sheriff W. B. Gibson, for the protection of fruit from thieves during the coming season.

Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Cromolum. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Cromolum, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Cromolum and to refund your money if you are not satisfied with results from the very first bottle. Get Cromolum right now. (Adv.)

Millions prefer it to mayonnaise—costs less!

Miracle Whip is different—different from the mayonnaise you know. It's a new, delicious dressing that's different from anything you've ever had. It's made with real eggs and is so delicious that you'll want to use it on everything. It's the only dressing that's so good and so easy to use. Get it now before it's gone.

AUTRY BROTHERS OF SANFORD ARE HATTIESBURG'S FOOTBALL STARS

"Pelican" Autry (left) and Winky Autry (right), brothers of Mrs. D. D. Welborn, are the stars on the Hattiesburg, Miss., high school football eleven. "Pelican" played baseball in Sanford last summer, functioning behind the plate, and his brother Winky visited here. Winky Autry plays center and "Pelican" is one of the tackles on the Mississippi team.

The Hattiesburg American credits "Pelican" Autry with being largely responsible for his team recently defeating Brookhaven by the close score of 14 to 12, while Winky, for two years an all Big Eight center at Hattiesburg, was the star of a 19-0 victory over Summit.

Jacksonville Wants Sanford Boy Boxers To Give Show There

Jacksonville fight fans have been hearing so much about the Seminole Boys' Athletic Club and how handy the young boys are with their mitts that they want the Sanford group to put on an exhibition in the state's metropolis. Judge S. A. B. Wilkinson, club sponsor, received a letter yesterday from a Jacksonville club asking if he could take his gang to the big city on the first Thursday evening in December. But Judge Wilkinson is undecided as to whether to accept the invitation, as he has already promised to put on an entertainment for the American Legion in this city on Monday evening, Dec. 2, and he does not know as it would be advisable to take his boys to Jacksonville three days later.

Lawton Chosen President Of Teacher Group

(Continued From Page One)

Sholtz, by resolution adopted in Lakeland, that it was relying upon him to furnish \$20,000,000 in state funds for public schools this term and thanked him for assuring school interests that amount would be forthcoming.

Another resolution approved the position of the Florida Congress of Parent-Teachers' Association and its president, Mrs. Beatrice Parvin of Bradenton, favoring the closing of schools if funds are not sufficient rather than asking teachers to wait for their salaries.

In the discussion preceding adoption of the Sholtz resolution, speakers said county school boards want some definite commitment upon which they can borrow now. Money next spring or summer, they said, will not take care of current operating expenses.

Some 50 officials attended the meeting.

OFFICIALS FACE TRIAL

MIAMI, Nov. 21.—(AP)—Preparations for bringing to trial Mayor A. D. H. Fossey and two other Miami city commissioners will be started next Monday.

60th Birthday Of Forestation To Be Observed In 1936

WASHINGTON, Nov. 21.—(AP)—The American forest is coming back, as the government works to complete the greatest tree-planting program in history in advance of organized forestry's sixtieth anniversary next year.

Nearly six decades ago—in 1876—Congress appropriated \$2,000 for an investigation of timber conditions in the United States. Franklin B. Hough was employed to make the inquiry. It was the first official government step toward controlling the devastation of timber, and it was followed ten years later by the creation of the Division of Forestry in the Department of Agriculture. In 1891 President Harrison was authorized to establish forest reserves.

New government estimates are that at least 482,000,000 trees will have been planted in 1935 by federal agencies. Of that 482,000,000 the soil conservation service has planned to set out, principally on private land, 260,000,000, and

the forest service predicts its plantings on 244,000 acres within the national forests will exceed 222,000,000 trees, or three times last year's total.

Meanwhile, a non-governmental forestry agency, the American Tree Association, is issuing a special edition of its "Forestry Primer" to commemorate Hough of 1876 as "first forest agent." Charles Lathrop Pack, president of the association, claims that date will "mark the beginning of our economic independence," just as it marked the "centennial of our political independence."

The "depression army," out in the woods now for two years, has been engaged in fire-fighting and prevention of fires, as well as in planting operations. Thousands of miles of telephone line have been strung in forest areas to aid in quickly spreading fire alarms; hundreds of fire-breaks have been created.

"The President's Home," built at Emory college, Oxford, Ga., nearly 100 years ago, has been occupied by seven presidents of the college, four of whom became bishops in the Methodist Episcopal Church, South.

Armour's BIG CROP FERTILIZERS

If you are determined to "Make Every Acre Do Its Best," by all means consider ARMOUR'S Big Crop Fertilizers.

There is no better, no more productive fertilizer for your Fall Citrus Application than Armour's... And to produce a crop that will bring a good price—citrus with thick, juicy segments and a good heart formation—you must necessarily choose fertilizer liberally with Armour's No. 1 Special F-4-5, for use under citrus.

Armour's citrus and vegetable fertilizers are made right here in Florida—the formulas are correct (both from a scientific and practical angle) and especially selected for your soil and your crop.

Your early inquiry is invited.

4 Cities Want '36 Convention Of Republicans

Party Not Expected To Delay Meeting Until After Democratic Name Ticket

Probable Date Is Early June

Party Would Lose By Waiting On Parley To Call Convention

NEW YORK, Nov. 22.—Four cities, St. Louis, Cleveland, Kansas City and Chicago, definitely are seeking the 1936 Republican convention. Detroit is expected to present the fifth invitation when the National Committee meets in Washington Dec. 16 to select time and place.

Party leaders in New York believe a movement to delay the convention until after the Democratic name ticket has collapsed. They expect the Republicans will meet early in June, as in their custom, or possibly earlier.

Some of the leaders, discussing the situation privately today, said the Republican party established last year had a better chance of success in the power struggle than the party established last year. It would be advantageous to us if the Democrats met first, but we would lose out if we began to delay the convention with the Democrats. A party convention is a costly affair, and it is necessary to have a definite date for the convention. It is in this sense, the Republican convention will be an out and out fight against the New Deal.

Papworth Appointed Delegate To Rivers And Harbor Meeting

H. H. Papworth was notified by Governor Bruce Shotts today of his appointment as one of the delegates from Florida to the National Rivers and Harbors Conference to be held in New Orleans, La. on Dec. 14. The Florida delegation will be headed by Mr. Papworth, with Mr. W. H. Robinson as alternate. The conference is being held at the request of Mr. John D. Dorn, and will be the attention of the other delegates in the form of the Governor will take part in the conference to discuss the subject of river and harbor improvement.

Completion Of City Tax Roll Announced

The City tax roll is now complete, City Clerk E. S. Hanson announced today in requesting property owners to call on their account in City Hall and settle their account with the municipality. Notices are being mailed out as rapidly as possible, but it is explained that taxpayers do not have to wait until receipt of a notice before making payment. A discount of 2 percent will be allowed on taxes paid this month and a discount of 1 percent if paid in December. Both City and County taxes will become delinquent on Apr. 1.

Conditional Pardon Given Seminole Man

The State Pardon Board, in session in Tallahassee yesterday, granted a conditional pardon to Frank Goodman, colored, convicted in Seminole County of the murder of Edna Casey who was shot with a pistol. He was originally sentenced to death, but this was commuted to life imprisonment. Goodman was sent to the state penitentiary on Sept. 9, 1934.

Rural Resettlement Talked At Meeting Held In Sanford

Rural resettlement, its trials and tribulations, hopes and aspirations, were being discussed at a meeting in City Hall this afternoon. Several officials were at the confab which was called to find out why Seminole County applicants "have profited little from the administration," according to C. E. Duveman, County agent. Mr. Duveman attended a rural resettlement conference in Gainesville several days ago and brought back the information that persons who made application to the RRA "need not expect to get any help for their growing crops."

Group Plans For Annual Sale Of Christmas Seals

County Tuberculosis Society To Start Campaign On Dec. 1

Spurred by the greater need for support of health work from voluntary funds, the Seminole County Tuberculosis and Health Association met at the Montezuma Hotel for luncheon Thursday. Plans are rapidly going forward for the opening of the Seal Sale on the day after Thanksgiving. Thousands of seals will be distributed in Seminole County and the Association urges every citizen in the county to do his bit toward helping stamp out tuberculosis by buying as many seals as possible.

Mrs. Dorothy Lamb, member of the advisory committee, states that many unimproved children need milk. Clinics should be held she reported. X-rays taken and numerous other things done to safeguard public health which has been the object of the association. Statistics show that tuberculosis kills more persons in the United States in one year than were killed or died of wounds in the United States forces during the entire 18 months of the World War.

Circuit Judge Won't Reverse High Court

TALLAHASSEE, Nov. 22.—Circuit Judge H. C. Bonner ruled yesterday that while he believes slot machines are "unlawful devices of the most vicious type," he would not undertake to reverse the Supreme Court.

More Than 100 Have Obtained Tickets For Lehmann Dinner

More than 100 reservations had been made up to noon today for the complimentary dinner to Mr. and Mrs. Karl Lehmann to be served in the Mayfair Hotel next Monday evening, Secretary Ralph Beagwell of the Seminole County Chamber of Commerce reports.

Stump Wrecks Barge In Southern Italy

ROME, Nov. 22.—(AP)—At least 20 persons were killed and dozens were injured in a terrible crash which struck all southern Italy, houses collapsed under force of the wind, and officials feared there might be a great sea storm. Nothing was caught at sea.

Streets Won't Be Torn Up On Holiday Week

Engineer Arranging To Halt Pavement Crews On Dec. 20 On Both Arteries

Sanford streets will not be torn up during the holiday season. Adding one day's work to the schedule for each week for the next month and thereby getting in an extra week's work, Project Engineer W. S. Earl is arranging affairs so that merchants and shoppers will have no complaint to make during the Yuletide. He said today he appreciated the fact that torn up streets, especially in the downtown business district, would not add to the joyousness of the Christmas season, and he has definitely decided to halt work on the street projects on Friday, Dec. 20.

Stinging Cold In Northern States, Snow In Chicago

Stinging cold weather covered the Great Lakes section and the Middle West today and was moving slowly to the southeast. Temperatures were eight to 10 degrees lower than at any time before this season throughout Indiana, Illinois and Missouri. Light snow was falling at Chicago where the mercury stood at 18 after a combine no higher than 34 all day Thursday.

Atlanta is promised the coldest day of the winter tomorrow by the Weather Bureau which predicted a 30 degree reading with killing frosts extended south as far as Macon, Ga., today. The weather was generally fair everywhere except in northern Florida. North Dakota had the lowest temperature, 32 below zero at Bismarck, and the most snow—about an inch—on the ground. Roads impassable. Southern Minnesota got some snow, which also extended into Northern Iowa where it fell to two inches. In northern Minnesota below zero minimums were prevalent.

Japan Is Massing Its Troops Along China Great Wall

Chinese sources at Peking reported today that Japanese troops were concentrating along the Great Wall with 1000 already at Kupeikow, 70 miles north of Peking, and reinforcements arriving momentarily. The development came during a hitch in a plan attributed to Japanese military leaders for autonomy of five provinces of North China.

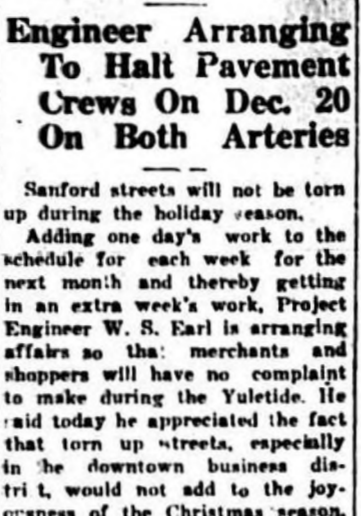

Former Congressman Convicted Of Scheme To Tax Postmasters

GRAND RAPIDS, Mich., Nov. 22.—(AP)—George Foulkes, former Democratic Congressman from the Fourth Michigan District, and Dan J. Gerow, a member of the Michigan Democratic Central Committee, were convicted in federal court Thursday of conspiracy to "assassinate" postmasters for political contributions.

One Killed, 28 Hurt In Exploding Mould

PITTSBURGH, Nov. 22.—One man was killed, a second is near death, and 28 workers were burned when a metal mould exploded at the Mesta Machine Plant late yesterday.

POISED FOR FLIGHT ACROSS THE PACIFIC

A new era in aerial transportation will open when the China Clipper inaugurates the first trans-Pacific mail and passenger service today. The giant flying boat was to hop off from Samedia, Calif., late today.

President Is At Warm Springs For Rest Of 3 Weeks

WARM SPRINGS, Ga., Nov. 22.—President Roosevelt last night settled down for a three weeks' stay in his temporary White House amid Georgia's pine-clad hills with plenty of unfinished government business to occupy his time.

Japan Is Massing Its Troops Along China Great Wall

Chinese sources at Peking reported today that Japanese troops were concentrating along the Great Wall with 1000 already at Kupeikow, 70 miles north of Peking, and reinforcements arriving momentarily. Both Diogenes And Demosthenes May Have Been Pleased

In reporting yesterday of the finding and returning by an impoverished negro of a pocketbook with valuable contents, the observation was made that his act would have delighted the heart of Demosthenes. It can well be imagined that that famous orator would have proclaimed the fact. But another ancient Greek, a certain Diogenes who patrolled the streets of his city in search of an honest man, would, too, have been delighted. He would not have needed a lantern in the home town of John Irwin, negro resident of Sanford's Goldsboro section.
