

Mrs. George Otto Is New Demonstration Clubs President

Mrs. George Otto, Longwood, was elected president of the Seminole County Council of Home Demonstration Clubs at a meeting Thursday at the Lake Mary Community House.

"This was one of the best meetings ever held by the Council in Seminole County," said Miss Lila Woodard, county home demonstration agent.

Other officers elected were: Mrs. Carl Williams, Sanford, first vice-president; Mrs. C. E. Hill, Lake Monroe, second vice president; Mrs. Lucile Norton, Geneva, secretary; Mrs. J. N. Azarolo, Sanford, treasurer and Mrs. J. E. Robinson, Lake Mary, delegate.

"Famed Bethune-Cookman Choral Ensemble in return Engagement."
By popular request, the famed "Bethune-Cookman College Choral Ensemble" is re-appearing at Trinity Methodist Church, for one hour only, tomorrow night, Tuesday March 20th, 7:45 to 9:15. You will miss the season's best if you fail to hear this wonderful group.

Pioneer Night

(Continued from Page One)
cannot go on forever. As a preface to his talk, he told of the founding of Florida by early pioneers and their struggles with the Seminole Indians.

G. P. Brassington, president of the Lake Mary Chamber of Commerce, introduced Mr. Evans, who in turn presented the speakers and the Lake Mary Orchestra.

Gifts were presented by Mr. Evans to the five oldest ladies present. These were Mrs. Wheelass, 89 Mrs. Louise O. Smith, 85; Mrs. Josephine Collins, 84; Mrs. George A. Pelley, 85, (the mother-in-law of Mr. Evans); Mrs. Elizabeth Cuppy, 82, and Mrs. Lotie Perry.

The oldest men prizes in the form of hand carved canes were given to those who had not formerly received them. These included Mr. Tony, Charles E. Vandevord, 86; Pat Fox, 85; W. E. Randall, 83; Col. J. A. Lee, 85; I. T. French, 84; N. P. Fields, 81; M. G. Nelson, 86; D. J. Pearson, 83 and C. B. Davis, 83.

Former U. S. Senator J. A. Lee of Kentucky quoted from the sayings of famous exponents of freedom, told of his ministerial work in his home state, and sang a hymn that he had composed, leading in group singing in the second chorus.

Korean War

(Continued from Page One)
Whether the U. N. would drive back across 38 was a knotty problem before the world's diplomats and military leaders.

The Chinese appeared to have given up their last main military base south of the Parallel-Chuncheon, eight miles below the line. Reports to Eighth Army headquarters also indicated the Reds had abandoned well-prepared defenses along the Hongchon river, south of Chuncheon.

The Eighth Army said Monday mid-afternoon there had been no contact worthy of the name with Reds in 72 hours.

Twenty-four F-80 Shooting Stars, flying under cover of 122 F-80 Sabre jets, firebombed Red Sinsuho on the Yabu River banded and strafed the airfield at dusk between Manchuria and Korea. The attack was within sight of the Red air base at Antung, just across the river in Manchuria.

Several Russian-made MIG-15 air field but did not attack the jets took off from the Antung American planes.

Twelve more F-80s joined the flight attacking Sinsuho. The 36 Shooting Stars then pounded rail targets near Sinsuho and Huichon and destroyed three locomotives and 50 railroad cars.

U. S. Far East Air Forces B-29s dropped 220 tons of bombs Sunday on Hungnam, port of evacuation for Allied troops last December.

The Superforts piled 160 tons of explosives Monday on a Red supply center nine miles northwest of the east coast port of Wonsan.

Boy Scouts

(Continued from Page One)
At the Executive Board meeting tonight, plans will be made to use the information that we have received through the survey and the Council will start a project to make use of this valuable information.

The Central Florida Council serves in seven counties in Central Florida having some 4500 boys in membership and 207 Packs.

MATINA NEWS BY NATINA DUNNING

Mr. and Mrs. William McDaniel have as their guest their daughter and children for some time. Buster Colley left Monday for Makin Field, Ga. where he is stationed.

Mr. and Mrs. George S. Snyder of Butler, Pa. visited H. H. Hosack and Mr. and Mrs. G. C. Hosack over the weekend.

Mrs. Ann Gendell and children of Macon, Ga. have returned home after spending a week with her parents Mr. and Mrs. William Colley.

"City Slicker" was presented at the school auditorium Friday night and the play was very good.

Mrs. Mattie Pell and Mrs. J. W. Colley visited Mrs. Pell's daughter Mrs. T. W. Hawkins in Daytona Beach Tuesday.

Mrs. Clarence Snyder is quite ill at her home.

The Home Demonstration Department met with Mrs. J. Masters Tuesday for an all day meeting. The project for the day was making plastic pocket books in different colors.

Russian Strength

(Continued from Page One)
Atlantic Pact countries have not built up their armed forces on as large a scale as the Russians, but if we are forced to do so we can do it without putting any intolerable strain on ourselves.

Russia, he continued, has a perfect right to maintain her large Army, Navy and Air Force, "but the inevitable consequence is that the Soviet Union is putting a great strain on her resources. Both forces, it said, are permeated by vast informer networks so that 'nearly all ranks live in fear of denunciation.'

War Office figures said the Soviet army has 175 line divisions, excluding artillery, anti-aircraft and other supporting formations. These last are grouped into rifle and mechanized armies.

The report said the Soviet equipment includes "very great numbers of excellent tanks and artillery weapons."

The Russians were "greatly helped," the report added, when the Allies turned over to them a great deal of lend-lease equipment after World War II.

Hemisphere Defense

(Continued from Page One)
political cooperation among the Americas in the face of world wide Communist threat.

While the United States is primarily interested in building up military cooperation, the Latin American Ministers are known to be more immediately concerned with avoiding a repetition of what they assess as the economic squeeze in which their countries were caught by the last war.

Essentially their complaint is that money they earned in selling the U. S. raw materials at controlled prices was spent after the war in buying American goods at uncontrolled prices.

Listed as a separate item on the three point agenda of political, military and economic cooperation, is the issue of strengthening the internal security of the American republics against Red subversion.

American officials do not regard this as a particularly difficult issue since many Latin American countries have gone further than the United States in clamping down on the Communists. All but five of them - Argentina, Uruguay, Mexico, Ecuador and Cuba - have outlawed the Communist party.

Reds Battle Fiercely Near 38th Parallel

Dug In Communists Repel U. N. Assaults As News Blackout Is Clapped On War

TOKYO, Mar. 20.—(AP)—United States troops battling northeast of Hongkong on the central Korean front today ran into "very stiff" Communist resistance.

Red troops fighting from well dug in hill positions hurled back an American battalion after a day-long fight.

In Tokyo, General MacArthur ordered a news blackout on the distance to a certain line on the Korean peninsula.

(Correspondents were not allowed to say specifically what this line is, but it obviously refers to the politically important Parallel 38.)

It is one of the most rigid news restrictions placed on correspondents since the war began.

At latest reports, sent before the line, the Allies were reported less than 17 miles from the border to Red Korea.

The U. S. Eighth Army said holding elements were on the line at 10 scattered points across the peninsula. Patrols were known to be operating much closer to the border.

In the action northeast of Hongkong, Allied and military attacks failed to knock out the Communists. The Reds fought back.

The contested hill commands a junction of the road leading northeast of Hongkong and a lateral road running east. Much enemy activity has been reported on both roads during the last two days.

Elsewhere on the central front Allied troops advanced against increasing enemy resistance.

An armored patrol advancing on Chunchon met some mortar and grenade fire. Allied officers said they would not attempt to take Chunchon without a fight. Chunchon was still believed the city will fall once the Chinese headquarters in South Korea. It is about 100 miles from the old boundary between North and South Korea.

North of Seoul on the western front American units ran into heavy small arms, mortar and artillery fire. The resistance was south of Uijongbu. The exact location is not known.

Foggate Company Plans Open House For Citrus Plant

Open house to visitors will be held at the new Foggate Citrus Concentrate plant at Forest City, Fla., from 11:00 A. M. to 4:30 P. M. tomorrow and thousands of growers and business men from throughout Central Florida are expected to attend the opening.

Forest City is located in a picturesque citrus growing section of Seminole County and may be reached from Sanford by following south on the Orlando Highway, and a short distance south of Casselberry, turning to the right on the Altamonte Springs-Apopka Road which passes through Forest City.

Built at a cost of more than one million dollars, the plant, the first of its type in Seminole County, includes nine buildings and machinery of the most modern type capable of producing more than 8,019 six ounce cans of frozen concentrate an hour, or nearly 25 million cans during a season.

The equipment includes Carrier-Howard evaporators capable of producing more than 10,000 pounds of orange concentrate an hour. Six cans of juice a second come off the production line.

Fruit growers throughout Central Florida hail the new development, and it is anticipated that more than a million boxes of fruit a year grown by members of the Foggate co-operative, will be used.

J. M. Pike, Foggate production manager, and his staff of efficient engineers, designers and draftsmen, laid out the plant.

The machinery in the plant, including the unloading and conveying equipment, was built by the Food Machinery Corporation's division at Lakeland.

MENCKEN RECOVERS
BALTIMORE, Mar. 20.—(AP)—Baltimore's leading man of words, H. L. Mencken, is up and at 'em again today.

To a limited extent, anyway. The 70-year-old critic and authority on the American language is leaving the hospital today for the second time in three years.

Doctors had warned him off when he went in last Oct. 11 with a heart attack so severe he was not even expected to regain consciousness. Mencken did the next day.

Four weeks later he was demanding cigars and beer.

Montgomery Is Named As Deputy To Eisenhower

British Air Marshall Appointed To Head European Air Force

PARIS, Mar. 20.—(AP)—General Dwight D. Eisenhower today named British Field Marshal Viscount Montgomery as his deputy commander in the Atlantic Pacific Area.

General Eisenhower also appointed eight other high ranking officers to his staff.

He chose Air Chief Marshal Sir Hugh Saunders of the British Royal Air Force as his air deputy.

A senior naval officer may be named later "if the need becomes apparent," a headquarters spokesman said.

The French cabinet announced, meanwhile, that General Alphonse Juin, commander of France's army forces, has been made available to General Eisenhower to serve as ground troops commander in the Atlantic Pacific Area, Juin 62, is inspector-general of French armed forces, a post created after Eisenhower's survey tour of that area.

The French cabinet also announced that Vice Admiral Robert Juillard was named to the Eisenhower staff.

Eisenhower announced that Juin's title would be commander in chief of the Allied army forces in the central sector of Europe, and Juillard will be Naval Flag Officer, central sector, Europe.

Other appointments include Lt. General Lauris Norstad, commander of the U. S. Air Force in Europe, and General William H. Tunner, commander of the U. S. Army in Europe.

Admiral Sir Patrick Brind, commander in chief northern Europe, and General Robert K. Taylor, commander of the U. S. Air Force, northern Europe.

General Eisenhower announced he would appoint seven army commanders.

TB Association Moves From Health Center

The Seminole County Chapter of the Red Cross and the Seminole County Tuberculosis and Health Association moved yesterday from the Health Center, Fifth Street and Oak, to new quarters on the second floor of the Takah Building facing Commercial Avenue.

Mrs. Joe Gonzales, Red Cross home service secretary, stated this morning that she is well pleased with the new quarters, which include a large room which provides office, reception and storage space, and smaller private offices.

The new office of the Tuberculosis Association adjoins these quarters. Mrs. Helen Zitrower is secretary.

Volunteer assistants to Mrs. Gonzales on two afternoons a week are Mrs. Dick McLaughlin and Mrs. John Hargrett. Two colored zone teachers, Ola Brock and Zonnie Tucker, assist on Saturdays.

Submariners Play Grim Cat And Mouse Game In Atlantic Depths

(EDITOR'S NOTE: The writer of the following dispatch has been on a four-day, underwater training cruise aboard a U. S. Navy nuclear submarine in Atlantic waters.)

By ELTON C. FAY
ABOARD SUBMARINE GRAMPUS, Mar. 7.—(Delayed)—(AP)—The Navy is playing a cat and mouse game out here in the restless Atlantic.

This submarine is the mouse, the planes and blimps wheeling and circling above are the cats, waiting to pounce if their human or electronic eyes and ears spy the quarry.

It is a small but tremendously important exercise, this practice of the technique of undersea and anti-submarine warfare.

From it, the airman learns what they must look for, when on some tomorrow, sea hunting becomes again a real and grim necessity. The American submarines also get the opportunity to sharpen their skill, to develop or perfect evasion technique or to test toward a theoretical enemy convoy guarded by aircraft or surface ships.

As part of the anti-submarine warfare program, Navy airman

AEC Announces New Atomic Tests On Eniwetok Atoll

Security Regulations Blanket Details Of New Experiments

WASHINGTON, Mar. 20.—(AP)—The Atomic Energy Commission indicated today it is now conducting new atomic blasts at Eniwetok.

The commission said in a statement that a major project "is being carried out" at the secret Pacific island test grounds.

In order to assure the safety of vessels and aircraft operating in the central Pacific, only units of the (testing) task force are permitted within the danger area around Eniwetok Atoll," the statement added.

Asked directly if new atomic tests are being conducted, Commission official said they could add nothing to the statement.

The Commission had previously announced that further tests would be held at Eniwetok.

While today's announcement did not flatly say the blasts were actually underway, the language strongly indicated as much.

The announcement said the new series of tests include provisions for measuring the effects of atomic blasts "on structures and materials of various kinds" and "debris."

"This information will be made available to the civil defense administration."

The Commission said it had had inquiries from the American Institute of Architects (AIA) about the tests. It added:

"The commission has advised the AIA that a major project is being carried out to supplement data already obtained from other atomic blasts, with instrumentation specifically arranged to provide data for the development of design criteria needed by architects."

"The test program at Eniwetok is being carried out by joint Task Force 3, commanded by Lieutenant General H. H. Arnold, USAF, and is made up of personnel of the armed services, AEC, other civil agencies of the government, and AEC contractors."

"Full security restrictions as required by the Atomic Energy Act apply to all phases of the test program. No further information as to the composition, movement or operations of the task force is authorized for public release at this time."

After last month's experimental nuclear detonations near Las Vegas, Nev., Chairman Gordon Dean of the AEC told a news conference that other tests would be held.

Easter Egg Hunt Is Planned By C. Of C.

The Seminole County Chamber of Commerce will sponsor two Easter Egg hunts Saturday, Manager Ed Whitney announced today.

A hunt for white children will be held between 10:00 and 12:00 A. M. in Fort Mellon Park with five prizes to be awarded to the best hunters. Mr. Whitney said more than 1,000 eggs would be distributed.

A second hunt, for Negro children, will be held between 2:00 and 4:00 P. M. Mr. Whitney added.

The Coca-Cola Co. will furnish refreshments.

Housing Plan Approved By Senate Group

Secretary Testifies On Attempted Purge Of RFC Director Walter L. Dunham

WASHINGTON, Mar. 20.—(AP)—The Senate Banking Committee approved a \$1,500,000,000 defense housing program today, but it was only half the amount requested by President Truman.

Most of the new housing envisaged by the bill would be built by private industry, with the \$1,500,000,000 serving as additional government insurance of mortgages on the projects.

A similar measure in the House was stalled by a coalition of Republicans and Southern Democrats last week.

Mr. Truman's nomination of William McCleskey Martin, Jr., as a member of the Board of Governors of the Federal Reserve system was approved by the Senate Banking Committee. Martin, now assistant secretary of the Treasury, has been designated by the president to succeed Thomas H. McCabe as chairman of the board.

Meanwhile a secretary to RFC director Walter Dunham has testified another director urged her on Feb. 20 to rush over to the White House and give President Truman notice of resignation for her boss. Dunham was out of town.

Mrs. Florence M. Shook, the secretary, said Director C. Edward Rowe also proposed revoking Dunham's resignation letter. Dunham had left with her for delivery to President Truman if the president asked for it.

She gave her testimony behind closed doors yesterday to a Senate Banking Subcommittee, whose members have complained of being misled by Dunham and "can't find the truth" in conflict. Rowe. The group made it public today.

Mrs. Shook was called as a witness because Dunham has charged that Rowe tried to get him to resign and be "the goat" of the Senate investigation of alleged influence peddling. Rowe (Continued on Page Six)

Influenza Depletes Staff At City Hall

City Clerk H. N. Sayer is finding his staff at the City Hall much depleted this week by influenza illness. Absent are Miss Ellen Hooton, city collector, Miss Sarah Warren Edgley, Mrs. Clarence Hotundu and Mrs. Nell Brown.

Asked how he himself was feeling this morning, Mr. Sayer said, "Not too good." Also on the sick list due to the flu is Police Chief Roy G. Williams.

Mrs. Gale Michael, secretary to City Manager Clifford McKillop, has been aiding in Mr. Sayer's department.

French President Sails Tonight For State Visit To U. S. And Canada

By CARL HARTMAN
PARIS, Mar. 20.—(AP)—President Vincent Auriol sails tonight to spend 11 days, make 30 speeches and preside at 16 official meals in the United States and Canada.

With him will go his wife, an entourage of 29 officials and packers and a huge load of steamer trunks and suitcases. Ten big chief Jacques Dumaine could gather for such a trip.

Schuman has too much work here at home to make the whole trip. He returns to France when Auriol goes to Canada for four days.

A week ago the packing cases from the President's Elysee Palace left France on the Liberté. The French embassies in Washington and Ottawa lack some tableware and cellar stock needed for the big dinners and receptions. The government at home filled the need.

In the Auriols' two large steamer trunks and five big valises, Mme. Auriol is taking 30 gowns and suits, a carefully chosen line of fashions from big Paris fashion houses. Preferring the creations of Christian Dior and Jacques Fath, she has become one of this world's fashion centers' most elegantly turned-out ladies.

In addition to the state occasions at which he will be guest or host, the president will be the honored guest of the National U. I. is the smallest group protocol

O'Dwyer Claims Gang Leaders Build National Crime Empire

Maximum Age For Voting Suggested By Statistician

Oldsters Said To Be Riding Piggy Back On Younger People

GAINESVILLE, Mar. 20.—(AP)—Should the states forbid citizens to vote after a certain age just as they now set a minimum age for casting a ballot?

Dr. Frank G. Dickinson, economist and statistician for the American Medical Association, asked the question today at the closing session of the first southern conference on Gerontology.

He didn't answer the query but he told the conference "we are now rapidly approaching the point where our aged population will be in a position to force their demands on us." When the elderly workers of today retire, he said, they "will have the votes."

Dickinson prefaced his address with a statement he is not speaking for the American Medical Association or expressing its views.

"The tremendously increased life expectancy at birth—from 49 years in 1900 to 69 now—constitutes a major social and cultural revolution—the greatest since the fall of Rome. I believe that this revolution is the basis for the cradle-to-the-grave sentiment," he said.

"May I put the proposition quite bluntly: 'Cradle to the grave' is a scheme whereby those close to the grave would fasten themselves on the psyches of those closer to the cradle and ride piggy back—or piggy bank—to the grave."

Dickinson—who said he will be a witness in about a dozen years—asked "Do we of the older generation want to have our paychecks stopped as a salubrious favor and then retire with the assistance of those closer to the grave?—anything you want to name while we spend our income during the years of our life?"

"Do we want to see this exploit youth?"

He suggested workers of 45 and older should make larger Social Security payments than younger citizens because they will benefit from the pensions so soon.

Dickinson also proposed varying the age at which workers retire by letting them retire at an earlier age if they had a given life expectancy left. This would make the retirement age for women slightly higher than for men because they have a greater life expectancy. It also would make the retirement age lower for non-whites than for whites.

Older women ages would rise under that plan as a result of science increases the average life expectancy. This would help to eliminate the need for a greater life expectancy. This would help to eliminate the need for a greater life expectancy.

Irving L. Webber of the Florida Improvement Commission, who is (Continued on Page Six)

HOSPITAL MEET

A special meeting of the Federal Hospital Association will be held Wednesday afternoon at 4:30 o'clock at the Court House. It was announced today by Mrs. R. E. True, secretary.

Tourist Farewell Party Is Attended By Over 180 People

More than 180 persons attended a tourist farewell party last night as guests of the Seminole County Chamber of Commerce at the Tourist Center and enjoyed a lively program of quiz games, singing contests, music and entertainment.

Ed Whitney greeted the visitors and expressed the hope that next season will be even more successful. He served throughout the evening as master of ceremonies and quiz master and introduced Mrs. P. M. Gingles, hostess, who had aided in planning the entertainment. Miss Rachel Johnson assisted Mr. Whitney in the quiz program.

Mrs. William E. McCarthy, of Chicago, II, president of the Sanford Tourist and Shuttleboard Club, thanked the Chamber of Commerce and the City for cooperation in the tourist program and in supplying equipment and improvements at the shuttleboard courts. Invention was by Roy Ball.

Pointing out the "grand time" that the tourists have had here this season, she stated that the club has been represented by residents of 31 states and Canada.

The visitors sat at tables during the early part of the program and during the serving of sandwiches and coffee, and the quiz program. The floor was cleared, however, for the grand march and dancing to the music of a four piece string orchestra.

Identifying the "mystery man" impersonation by Douglas Whitney was one of the big fun events of the night. Whitney was a false with a rat in it and wore a false face. Howard Hamley of Forest Lake, Minn., won this event and a suit of clothes from Yowells by identifying the impersonation as that of Robert Taft, whose initials give the clue to the solution of the problem. Mr. Hamley also led in group singing, the orchestra accompanying.

The program included a Tourist Talent Show. Among the prize winners were Raymond H. Smith, M. Vernon, N. Y., who won over P. H. Hasky King of Sanford on a soft shoe dance and Mrs. Nancy Deans, who sang "My Wild Irish Rose."

Mr. and Mrs. R. P. Culley of New Jersey won the mixed duet singing contest on "Let Me Call You Sweetest." Mr. and Mrs. Charles E. Strauss of Wolf (Continued on Page Six)

Iran Capital Placed Under Martial Law

TEHRAN, Iran, Mar. 20.—(AP)—Martial law was proclaimed in Tehran today.

A proclamation was broadcast by the state radio declaring that "dangerous elements have been trying to upset the security of Tehran."

Shah Mohammed Reza Pahlavi took the drastic step in a move to suppress the error which has brought the assassination of American-supported Premier Ali Razmara, Mar. 7 and of the deputy chancellor of Tehran University, Dr. Abdul Zangeneh, yesterday.

The new military government general, Abdul Hejazi, made an appeal by radio to all groups in the capital to maintain peace. The city was quiet, although unbridled government workers demonstrated in front of the parliament building.

MASSON MEETING

Sanford Masonic Lodge No. 62 will meet tonight at the Masonic Temple and the masters degree will be conferred. Refreshments will be served.

Despairing Parents Tell Of Youth Corrupted By Narcotics Peddlers

BALTIMORE, Mar. 20.—(AP)—"Mom, I'm helpless." "Then you can't leave it alone." Mrs. X said in despair.

That's part of how a mother told the Baltimore Evening Sun she finally realized her 15-year-old son was a dope addict.

He started smoking "reefers" as she was naming possessions for a "needle"—heroin.

Mrs. X said she then had to give him money for drugs.

"Oh, I know it sounds awful," she sobbed. "But I talked it over with my husband and we didn't know who to turn to. We thought if we did anything else we'd get our child in trouble."

The son, Paul, now 16, is in jail. Mrs. X visits him and describes him rolling on the floor in agony, crying: "I got to have a needle! I got to have a needle!"

The story of Mrs. X and her son is one that has aroused Baltimore to an all-out battle against drugs. And a self-searching query how they can better help those who have succumbed.

Mrs. X tells how she and other worried parents tried to do their

Kovacs Urges U.S. Bombard Russia With Pamphlets

Dinner Club Is Told Russians Misled On American Intentions

Declaring that in the eyes of Europe, the American people seemed to be lying behind an increasing number of bayonets and a mountain of atom bombs, Iure Kovacs, minister, lecturer, and authority on Balkan problems urged the Seminole Dinner Club last night to use its influence toward bombarding Russia with pamphlets expressing American goodwill for the Russian people as the best way of securing peace.

The people behind the Iron Curtain are eager to learn everything they can about America, Mr. Kovacs said, adding that in Yugoslavia people stood in line for hours just to get a short look at a Sears-Roebuck catalog. If American pamphlets did nothing else but keep the Russian Communists busy picking them up, causing the peasants to wonder what was going on, or to say, "Look, the Americans do not want to kill me," "The Americans say they love me," such a pamphlet would be worth while.

Mr. Kovacs' address followed a dinner at the Mayfair Inn which was presided over by President F. A. Palmer. A discussion of whether to continue the club next year was introduced by Dr. H. W. Hucker, and following short talks on the subject by President Palmer and Secretary R. A. Smith, it was voted to continue the club and to have a special meeting next summer to complete plans.

Mr. Kovacs, who was introduced by Mr. Smith, said there are 250 dinner clubs in the United States which are helping to make steel, which is vitally affecting American foreign policy. Declaring that history is being made right here tonight, Mr. Kovacs explained that the way he acts tomorrow is the way he acts tomorrow.

"If you know of a way to save the highways," (Continued on Page Two)

Federal Farm Groups To Attend Meeting

Representatives of all agricultural groups in the county will meet today.

A proclamation was broadcast by the state radio declaring that "dangerous elements have been trying to upset the security of Tehran."

Shah Mohammed Reza Pahlavi took the drastic step in a move to suppress the error which has brought the assassination of American-supported Premier Ali Razmara, Mar. 7 and of the deputy chancellor of Tehran University, Dr. Abdul Zangeneh, yesterday.

The new military government general, Abdul Hejazi, made an appeal by radio to all groups in the capital to maintain peace. The city was quiet, although unbridled government workers demonstrated in front of the parliament building.

MASSON MEETING
Sanford Masonic Lodge No. 62 will meet tonight at the Masonic Temple and the masters degree will be conferred. Refreshments will be served.

Bill Is Introduced To Plug \$1 Million Gasoline Tax Leak

TALLAHASSEE, Mar. 20.—(AP)—The Florida Legislature will be asked to meet next month to plug a leak through which an estimated \$1,000,000 a year in motor fuel tax is escaping collection.

Comptroller E. M. Gray said he will sponsor a bill to make station operators responsible for collecting the regular seven cents a gallon tax on diesel fuel and liquid petroleum used to run motor vehicles on the highways.

At present, the whole obligation to pay is on the user. He gets a permit to operate, and he is supposed to meet regular reports of his fuel consumption and remit his taxes.

Operators of fleets of buses and trucks, turning more and more to use of diesel and bottled gas, have been making their payments. But comptroller's agents have had trouble checking on individual users—particularly truckers from outside the state.

Gray said "It is physically impossible to administer the law now. We're trying to plug a big hole. It would give us at least a million dollars a year in new revenue."

The state got \$449,600 last year from the source. It all goes to the road construction fund.

The proposed bill, drafted by a committee from several states as a model for a uniform national (Continued on Page Six)

Big Time Racketeers Cannot Be Curbed By Local Officials, Ex-Mayor Maintains

NEW YORK, Mar. 20.—(AP)—Former Mayor William O'Dwyer told senate investigators today there is a growing "national empire" of crime, and urged big-scale government appropriations to stop it.

O'Dwyer, now U. S. ambassador to Mexico, testified that crime in America "will be widespread" until "we get an appropriation of \$25,000,000 to \$50,000,000 for a continuing investigation of it."

"There is a national crime empire growing," he said, "and it will get stronger if it isn't stopped."

He urged a standing committee be set up to supervise a continuing inquiry.

O'Dwyer, who has clashed heatedly with the Senate committee during two days on the witness stand, paused in his testimony today to praise it for doing what he called a "marvelous job."

"Big-time racketeers can't be curbed locally," the ex-mayor said, in demanding the permanent federal action.

"As long as 15,000,000 people want to get twenty millions of dollars," he said, "and as long as you've got wires, information, racing sheets and newspapers giving full publicity and full information on that \$25,000,000, you have something that is not entirely local."

"You've got something that is national and until we get help from the national government in getting it off, we're in trouble locally."

Committee counsel Rudolph Halley said this is what the committee is seeking to do. But he added pointedly that "if something has been done locally" racketeer Frank Costello might not have gained power over Tammany Hall, against Nathan Leopold's opposition.

"You know more about that than any other man," Halley said to O'Dwyer.

"That's not true," O'Dwyer protested. "You heard Costello yesterday."

"Well," Halley said slowly, "perhaps Costello knows more about it than you."

Costello, reputed eastern crime ruler, admitted at the public hearing yesterday that he had close friends in Tammany Hall, and used his influence once in picking its leader.

Earlier, O'Dwyer told the committee he did not believe hospital bookkeeping could exist without public production.

Speaking testily with the crime (Continued on Page Six)

TODAY'S BIBLE VERSE

Overwhelming backing gives complete confidence. Assurance in turn gives victory. I can do all things through Christ that strengthen me.—Phil. 4:13.

Don't be in too big of a hurry, you tourists, to rush back up North. They are still having snow storms in some parts of the mid-west and in New England. A few more weeks spent in sunny Florida may pay you big dividends all summer.

We see where the Reconstruction Finance Corporation made 139 loans in Florida last year totalling more than \$5,280,000. Among them was one to a citrus plant in Polk county which later went bankrupt, and another to a Fort Lauderdale ribbon writer corporation which also went broke. Some of the loans, we suppose must have been good.

Chief Silvertoque of the California Hoopa Indians, now preaching in this state, advocates that the Seminole Indians should be compelled to attend the public schools so that they can "gain an education and learn how to help themselves." Before we start trying to force them to go to school, however, it might be a good idea to see if we can get them to sign a treaty of peace.

Are women smarter than men? It has long been recognized that they are, about some things. But now comes the University of Florida to show that they are smarter in school too. Some 1,587 girls at the University made an average of 2,292 for the first semester this year. But 8,654 boys made an average of only 2,164. The girls maintained their lead over the men in every division with the girl members of sororities winning over fraternity men by 2,3528 to 2,1424. If this thing keeps on, time will come when this man's world will become a woman's world.

FBI Director J. Edgar Hoover warns this country that the danger to our internal security from Communist directed sabotage is growing. In the event our current difficulties with the Soviet Union degenerate into all-out war, you can expect that one of the chief secret weapons which the Russians will use against us will be our own Red sympathizers and other misguided people. What they can do toward interrupting production, stirring up civil strife, blowing up factories and bridges, inciting riots and revolutions, is awful to contemplate. Drastic action may have to be taken to prevent such treacherous attempts upon the life of the nation.

Virginia Hill who testified before the Kefauver committee last week is quite a lady, she insists, even though she had a big fight with "Bugsy" Siegel, before he was murdered, because he said she wasn't a lady after she had hit another woman on the head at the Flamingo Club, and just to prove it she knocked a camera out of a photographer's hand and locked a woman reporter as she left the hearing room in New York's court house. Where did she get the \$5,000 mink cape she was wearing? A friend of hers gave it to her. Did she pay an income tax? She certainly did, but she didn't show where the mink came from. Where did she get the \$40,000 in Miami Beach? Why? Siegel gave it to her. Here she got the \$20,000 she got...

Exporting Coal

One of the interesting possibilities of the post-war world situation is that coal conceivably might become one of the important export materials of the United States. In the past there has been some exporting of coal, a few million tons a year, mostly to relatively near neighbors. The United States is the only producer of important quantities of coal in the Western Hemisphere. Nevertheless the exports in ordinary times have been a small item in respect both to the total production of coal and to the total export trade. In two or three of the years since World War II foreign sales of coal have been sufficient to make coal significant among export items and also to make the exports an important element in the coal market. The additional exports went chiefly to Europe, and in part the demand there was a result of post-war conditions. The mines and transportation systems of important coal producing nations on the continent, Germany, France, Poland and the Low Countries, had suffered extensive damage in the war, and could not be brought up to anything like normal production. Demand also was less than normal, because many other industries were not functioning normally, but was greater than the supply. Presumably this situation will be righted, although higher exports to Europe appear likely in 1951. The falling off of coal production in the United Kingdom is more complicated. British coal producing capacity has been largely restored, but inadequate labor is available at the mines. The situation is not improving but apparently is growing worse. The shortage is generally blamed on the policies brought by nationalization apparently is in Britain to stay; but the government find a way to restore coal production to its former level? Presumably the British will make every effort to lift coal production. Export of coal is important to the island kingdom, which can ill afford to import it. In the meantime, Europe's needs for coal becom to the American coal industry, which could very well use a few new markets.

Pennywise Folly

One popular notion which is definitely wrong is that public officials in general get too high salaries. There may be too many of them, and certain individuals in office might be overpaid at one quarter of their present pay. But by and large the cost of government cannot properly be attributed to recklessly high remuneration to office-holders. The real expense may come from offering too little and therefore making it hard to get or keep good men. That is why Judge Charles R. Hayes has resigned from the South Dakota Supreme Court. He was protesting against the legislature's failure to raise the salaries of Supreme Court judges. They now get \$7,200, the lowest salary among top courts of all states, Judge Hayes says. He adds truly, "It is a dubious distinction to be a judge of a court of last resort drawing the poorest pay in the entire nation." The government is constantly finding itself opposed, in lawsuits, by counsel getting ten times the salary paid to federal attorneys. It is a tribute to the public spirit of the government lawyers that many of them continue to hold their posts when they could get much more outside. Good pay for national, state and city employees is no extravagance when it is received by a good man. The outgo will come back many times.

Deadlier Than War

If some enemy really wants to kill off as many Americans as possible, the way lies open. He should encourage in every way the production of automobiles, enabling us to do the job of killing for ourselves. The National Safety Council has published some figures showing that the automobile is deadlier than wars. In all our wars from 1775 to Korea, to the end of 1950, less than a million servicemen are estimated to have lost their lives. Automobiles since 1906 have cost the lives of 969,000 Americans. The first successful automobile in this country was made in about 1892, but apparently it did not become sufficiently lethal to prompt the collection of death statistics until after the turn of the century. By the end of this year it is expected that the millionth victim will have met his end in a traffic accident. But some fear that these dismaying statistics will undoubtedly be far exceeded by the losses which will occur when every man has his private plane.

French President

(Continued From Page One) Press Club in Washington. Since protocol forbids him talking politics, he can not conform to the club's usual pastime of answering questions afterward. Mme. Auriol, however, will answer questions when she lunches with the Women's National Press Club in Washington. Some of the queries already have been foreseen here and the answers are ready. She will say that she plays neither bridge nor canasta but prefers conversation after dinner. She thinks women ought to have cabinet posts if they can fill them. And she is a feminist because women get the same education as men nowadays. She is prepared to talk about French styles, but will admit ig-

Dope Addicts

(Continued From Page One) ly have caught several with the "stuff." Their court testimony told of the growing sale of drugs in Baltimore. Of peddlers giving it to teen-agers to make them addicts to build up a trade. Mrs. X is getting some help now, although it may be too late for her own jailed son. Parents from all over the city will respond to a "call to arms" tonight at a meeting by the citizens' committee on youth problems. They'll map plans to fight drug addiction among Baltimore's youngsters. Mayor Thomas D'Alesandro this week named an emergency youth council of leading citizens for the same purpose. And yesterday he asked the city solicitor to study legislation to compel drug addicts to remain in a hospital until cured. The city's legislators are joining the attack at the general assembly now in session in Annapolis. House speaker John Luber last night introduced a bill to confiscate any cars carrying drugs. Already signed into law is his bill to give mandatory prison sentences to anyone convicted of selling drugs to minors. A Baltimore State Senator also has introduced a bill to give progressively stiffer mandatory sentences to anyone selling drugs.

Kovacs Urges

(Continued From Page One) your son from being a casualty of war, he asked, "would you be interested? If you could save 100,000,000 Americans or a billion people all over the world, from death and destruction, would you be interested? I believe there is such a way. I believe we could let the people behind the Iron Curtain know that we do not hate them, that we love them, that we do not want to fight them, as they are being told every day, war could be avoided." There are not enough American boys in this great country of yours to rid the world of Communists, but the people of those countries now dominated by Russia will get rid of the Communists if they are given a chance. Your State Department believes that the people over there cannot be counted upon, but the State Department has been wrong before, and it can be wrong again. Over 500,000 Ukrainians fought with Hitler against the Russian Communists, and they will fight again against the Communists if they have a chance. Hitler could have won the war against the Communists if he had tried to "liberate" the Russians instead of trying to "conquer" them.

"Communism is so unpopular behind the Iron Curtain," he added, "that it takes you out of every Communist plot to keep the Communists in power." Declaring that the people over there are told every day that the Americans are a bunch of blood-thirsty profit-mad butchers, Mr. Kovacs said that the Voice of America programs are ineffectual in reaching the Russian peasants. They do not generally get through to the people themselves, he said, and when they do the programs sound as if they were "written by college professors for college professors." He said that the State Department was afraid to bombard Russia with pamphlets because the Politburo might regard it as an act of aggression and start its armies rolling across Western Europe. Meanwhile, he added, Russia has been flooding your country for more than 30 years with a constant deluge of the most vicious destructive propaganda.

During the discussion period Kovacs said that the Voice of America programs are ineffectual in reaching the Russian peasants. They do not generally get through to the people themselves, he said, and when they do the programs sound as if they were "written by college professors for college professors." He said that the State Department was afraid to bombard Russia with pamphlets because the Politburo might regard it as an act of aggression and start its armies rolling across Western Europe. Meanwhile, he added, Russia has been flooding your country for more than 30 years with a constant deluge of the most vicious destructive propaganda.

Submarine Exercises

(Continued From Page One) operating out of the Naval Air Facility at Weeksville, N. C. This is shop talk. No landsman could understand it; probably no surface sailor. These are specialized business, in a way, the skipper an "exec" are on one team, the flier on the opposing side. But no Digger is a member of the sub's company. He just grins when the submariners mention "zombies," "the Air Force" and "fly boys."

Both sides—air and submarines—have a collection of gadget for either locating the enemy or evading him. Some of them are better versions of World War II equipment, some of them new and secret devices. Among the former there is the sonobuooy, the automatic listening device-radio transmitter. Dropped by parachute from plane or blimp, it goes into operation upon reaching the water. Hydrophones on the floating buoy pick up the sound of a submarine moving underwater (sometimes) and feed the sound into the tiny radio transmitter for relay to the aircraft.

The World War II technique is to drop these floating "fence posts" in a pattern around an area in which it is suspected a submarine might be lurking. The increasing or diminishing signal from each buoy shows whether the submarine is moving toward or away from that buoy, giving a clue to the direction. In the military world there is always a constant swing of the pendulum, the development of a weapon followed by creation of another weapon to foil it. So it is with undersea warfare. Noise is one of the weak points of a submarine—but it can be overcome to considerable degree. In the jargon of submariners, most of the underwater noise of a submarine is produced by "cavitation." Simplified, cavitation means the formation of a cavity or vacuum around a propeller when it revolves at a certain speed, or around the conning tower, periscope masts and deck fittings and deck guns of a submarine.

One of the reasons for the ultra-quietness of the modern submarine which followed among those who spoke were Frank Evans, of Lake Mary, Maximilian Shepard of Longwood and E. A. Monforton of Sanford.

streamlining of the guppy type submarine hull (the primary reason is to provide greater underwater speed) is to reduce cavitation. A guppy boat is a marvel of sleek, unbroken lines. Up to now, no one has found a means of eliminating entirely the cavitation of propellers. Their beat on the listening gear is unmistakable—the slow, thump-thump of a freighter floundering along, the high-pitched noise of the screws of a hurrying destroyer, the particular sound of a submarine's propellers.

However, the natural characteristics of the sea provide escape means for a submarine. In the era of temperature and density, sound is retarded or will not transmit at all through layers of cold water or with certain degrees of both. A submarine, hunted by destroyer and aircraft, seeks such a layer. Diving, it conceals the sound of its cavitation. One of the surprising things about a submarine is its excellent concealment from searching aircraft when operating on snorkel. A submarine's hull and superstructure is not far below the surface when the snorkel breather is working, but it is deep enough to escape detection in anything but an absolutely calm sea. Except at fairly close range and in mill-pond calm water, the radar of an aircraft or ship has trouble spotting the submarine's snorkel, a small object less than a yard in diameter at the top. Radar waves will not penetrate water.

Through the periscope (which can be used at snorkel depth) planes and blimps can be seen close in, sometimes at less than 1,000 yards, looking vainly for the tell-tale snorkel or the dim, elusive underwater loom of the sub's hull. Because this is a training exercise, the Grampus sends a radio message to the hunting aircraft to help them find the target. Or she may send up a smoke flare or release a big air bubble to show her position. Even when surfaced, the guppy submarine is difficult to locate at any distance. In an average sea condition, nothing remains above water for more than a few seconds at a time except the dull grey conning tower and mast housing structure, a comparatively low silhouette. Visually, the submarine is almost impossible to see even on a clear, star-lit night at sea. Part

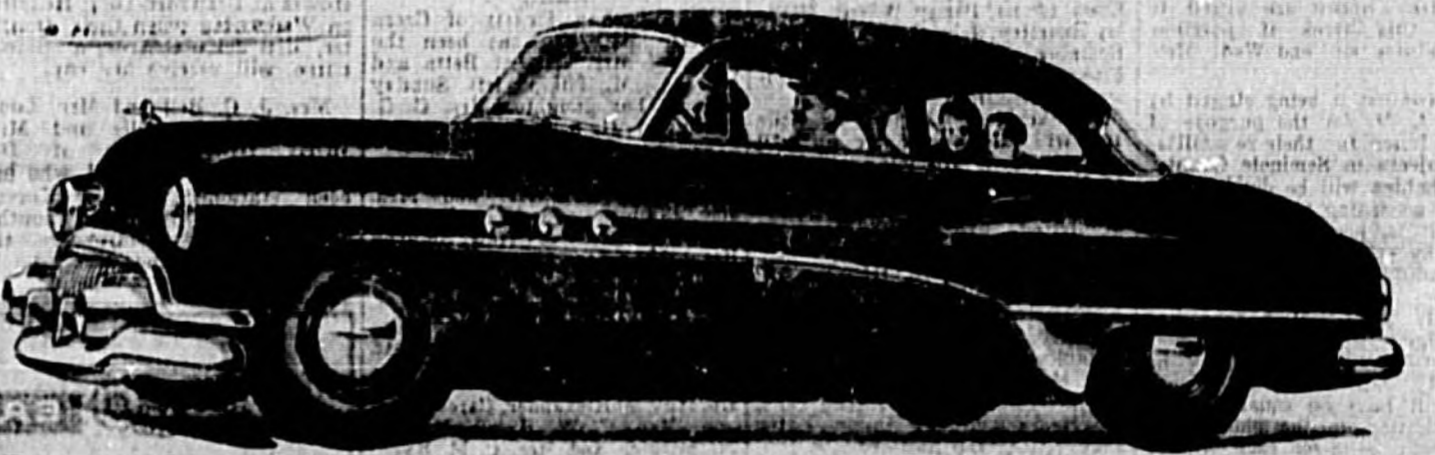

of this practice out here is to locate the submarine by LARA. From the submarine's bridge, the planes can be seen banking around to make a "run" over the boat. Suddenly the sea, which until now has been a dark, surging blanket in the night wind picked out here and there by the phosphorescent crest of a comber, is revealed in brilliant white light. And so is the submarine. The crew of a merchant ship must have been surprised the other night. The freighter was steaming along with only her running lights visible when a plane searching for the submarine, apparently mistook her for quarry. Flares came floating down around her. The Grampus, seeing what was happening, radioed her an explanation and reassurance.

BLOWOUTS

You'll "wonder what became of" your car worries when you drive the CHEVROLET for '51. It is designed for easier handling, greater comfort and safety, more economical and longer service.

Powered for thrills - Priced for thrift!

HERE, packed in 3,615 nimble pounds and 204.8 inches of over-all length, is the car marvel of '51.

In the few short weeks since it started to roll off the assembly lines, it has written a bright new page in automotive history for the low-priced field.

What Buick engineers have done is come up with a brand-new high-style body—new in every contour and dimension.

They've designed a brand-new, weight-saving frame, exclusively for this SPECIAL.

Then they've added the power-packed F-263 Fireball engine—which was new in the 1950 SUPER—and just wait till you see

what that does for this nimble performer. There's a power-to-weight ratio that spells thrill and thrift in operation—at a first cost that's just a breath away from the lowest price level.

We'd like you to see and drive this newest Buick marvel—find out for yourself what a honey it is to handle, and what a cinch it is to buy. Why not drop in and see us the very first chance you get?

Social And Personal Activities

Social Calendar

TUESDAY

The Unity Class will meet at 7:30 P. M. at the Valdez Hotel with Mrs. Carolyn H. Parsons as teacher.

The American Home Department of the Woman's Club will meet at 8:00 P. M. at the Woman's Club.

The Y. W. A. of the First Baptist Church will meet at 7:45 P. M. in the T. E. L. class room.

The Ladies Auxiliary to the Brotherhood of Trainmen will meet at the home of Mrs. W. A. Cagle 1903 Maple Avenue at 8:00 P. M.

WEDNESDAY

The Civic Department of the Woman's Club will have a luncheon at 12:30 o'clock at the club. The program will be on safety.

The Prayer Meeting at the First Baptist Church will be at 7:30 P. M.

The Training Union Executive committee meeting of the First Baptist Church will be held after the Prayer Meeting service in the Phebean Class room.

The Primary Dept. of the Methodist Church will have its annual Easter party at 3:30 to 4:30 in McKinley Hall.

THURSDAY

The Douglas John Junior Brotherhood will meet at the First Baptist Church tonight at 7:30 P. M.

Maundy Thursday Communion Service at 7:30 P. M. in the Methodist Church.

The Nursery Dept. of the Methodist Church will have its annual Easter party at 3:30 to 4:30 in McKinley Hall.

FRIDAY

The Sanford Townsend Club will meet at the City Hall at 8:30 P. M. for a covered dish supper.

The Woman's Missionary Union of the First Baptist Church will have an Executive Board meeting at 3:00 P. M. and a business meeting at 3:30 P. M.

Special Attention To Mothers

To the parents who are interested in entering their kiddies in the Prize Contest are urged to do so this week if possible. Registrations will end Wed., Mar. 28.

This contest is being staged by the D. A. V. for the purpose of raising funds for their rehabilitation projects in Seminole County.

The babies will be divided into groups, according to age and sex, and will be accompanied on the stage by the parent or some other adult. Judges will consist of three out of town persons. The only identification furnished the judges will be the child's registration number; thus no partially can be shown. Every baby will have an equal chance.

In addition to the photograph which will be given each winner through the courtesy of the local photographers, each baby will receive a souvenir.

Mothers, please enter your babies with one thought in mind, good sportsmanship. If he or she wins a surprise, if not, no disappointment. All babies are beautiful to their mothers!

As a contribution to D. A. V. Post No. 30, Tod and Neal Swaim of Raymond Studio will contribute a complimentary photograph of each qualified entry to the parents and make pictures of the winners available to the press.

There is no obligation to parents in rendering this service. Mr. Swaim emphasized. The Grand Champion winners will receive \$210 Oil Colored Photos; first place winners, \$610 black and white picture; second place, \$47; and all others, 3x5 photos.

Remember, it costs nothing to enter your baby, so hurry and get your baby qualified so as to get the pictures taken before the contest comes off.

Come in today and let Mrs. Smith explain in detail the small requirement of each mother entering her baby in the contest. Every mother within an area of 30 miles is invited to enter her baby.

Through the courtesy of Touchton Drug Co. registration headquarters are maintained at the entrance.

Thank you for your cooperation. Disabled American Veterans Post, 30, Lin. Twyman, Comdr. Mrs. Jessie J. Smith, director of registration. —Adv.

Mona Ruth Mills Is Given Shower

Miss Mona Ruth Mills, bride-elect, was honored with a miscellaneous shower given by Mrs. Charles B. Flanders at her home on Catalina Drive on Saturday. Several games were played and prizes were won by Mrs. O. C. Gibbs and Mrs. Benny Austin.

The St. Patrick's Day Theme was carried out and refreshments were served on the large porch consisting of cup cakes, potato chips, open face sandwiches, nuts, and eokes.

Those enjoying the afternoon with Miss Mills, were Mrs. B. F. Mills, Sr., Mrs. O. C. Gibbs, Mrs. John D. Callahan, Mrs. A. J. Peterson, Mrs. R. E. Thomas, Mrs. Paul G. Brown, Mrs. A. L. Wilson, Mrs. Robert H. Stansland, Mrs. Donald Knight.

Also Mrs. Benny Austin, Mrs. Spencer Harden, Mrs. G. O. Maybury, Mrs. W. H. Pugh, Mrs. Gilbert J. Blocker, Mrs. J. Roy Britt, Miss Barbara McNab, Miss Margaret Hunt, and Miss Betty Doris Williams.

Music Service Slated By Presbyterians

In the Easter tradition of the local First Presbyterian Church an all music service will be given at the church next Sunday, Mar. 25, at 7:30 P. M. It was announced today by the Rev. A. G. Melnick, pastor.

The service will be sung by the Youth Choir under the direction of Mrs. George Touhy, Minister of Music, and will include six anthems and three organ numbers. Solos in the anthem will be sung by Caroline Melnick, Carolyn Patrick and Stanley Bramley.

The choir is composed of teenagers who during the year have received many compliments for the fine work they have done in the church services. Rev. Melnick said, this program will be the last opportunity of local music enthusiasts to hear them in an all music service.

Those who make up the group are Rosa Coke Boyle, Patsy Collins, Donna Lou Harper, Caroline Melnick, Mildred Miller, Carolyn Patrick, Patsy Walker and Penny Wallace.

Also Mary Ann Wilke, Peggy Wright, Dial Boyle, Sandra Dunn, Ellen Lyons, Peggy Wilson, Stanley Brumley, John Krider, Rodman Brumley, Clarence Claus, John Fite, Ronnie Garner, Donald Howard and Jimmy Krider.

The service will last an hour and will start promptly at 7:30 o'clock. Those attending are asked to be seated by that time to avoid interruptions and everyone is invited, Mr. Melnick said.

EIGHTH BIRTHDAY

Mrs. G. A. Maffett entertained a group of children at her home Saturday honoring her niece, Cordelia Ryerson of Kinada, Va. on her eighth birthday.

The children were served cake, ice cream, and egg candy. Later they visited the Sanford Zoo.

Those present were Dorothy and

Personals

Mr. and Mrs. R. C. Maxwell had as their guest last week their son Dick Maxwell of Jacksonville.

Mr. and Mrs. Calle Parks of Battle Creek, Mich. are the guests of Mr. and Mrs. Fred Bender.

Mr. and Mrs. Herbert Hayne left Saturday for West Palm Beach where they will make their home.

Miss Joan Dampier spent the weekend in Jacksonville with her sister and brother-in-law Mr. and Mrs. John Skinner.

Pvt. Harold Kastner who is stationed at Ft. Custer, Mich. arrived Sunday to spend a two weeks furlough.

Miss Anna Lough left yesterday for Charlottesville, Va. after visiting Mr. and Mrs. D. C. Howard for some time.

Halter Bower of Kingston, Pa. returned home Sunday after visiting his cousin, Miss Rebecca Stevens, for the past week.

Mr. and Mrs. Jack Deal of Lancaster, Pa. are spending some time with Mrs. Deal's parents, Mr. and Mrs. Charles Wilke.

Mrs. J. W. Mero had as her guests Sunday Mr. and Mrs. George Mero and daughter Sarah of Daytona Beach.

Mrs. Sam Alfred and sons were called to Anderson, S. C. by the death of Mrs. Alfred's father, Howard Brown.

Mrs. A. K. Powers and children will arrive tomorrow to spend some time with Mrs. Powers' parents Mr. and Mrs. Fred Bender.

Mr. and Mrs. Ralph Tolar and small son, Gregory, will arrive this weekend to spend about two weeks with Dr. and Mrs. J. N. Tolar.

Friends of Mrs. Fred Clay will be glad to learn that she has returned home after being confined to the Fernald-Laughton Memorial Hospital due to a tonsilectomy.

Mrs. Deshay Pickett of Cross Timers, Mo. who has been the guest of Mrs. Ernest Letts and Mrs. A. M. Phillips left Sunday to visit her daughter Mrs. C. G. Nixon in Gainesville.

Mr. and Mrs. Ashley Kelly of Ferrandina and Mr. and Mrs. Joe James and Miss Dorothy Ellen James of New Smyrna Beach have been the recent guests of Mr. and Mrs. John D. Abraham.

Dr. and Mrs. J. N. Tolar had Denise Tyler, Dianna Haynes, Dorothy McAlexander, Carol Ryerson, Mrs. C. W. Hamill, Mrs. J. N. Burdick and Mrs. C. M. Ryerson.

James Clifton Bullard, three year old son of Mr. and Mrs. W. H. Bullard and grandson of Mr. and Mrs. E. C. Golson, was the third child registered in the Disabled Veterans Baby Contest to be held Mar. 30 at 8:00 P. M. in the Seminole High School Auditorium.

Use cold-slaw with slices of canned meat for hearty luncheon salad. Be sure the cold-slaw is made with a tangy salad dressing.

When you're making a menu never repeat the same flavor in two courses. For example, if you serve tomato juice first, don't serve a main dish with a tomato sauce. The exception to this rule is fruit; if, for instance, you are starting a dinner off with grapefruit halves, it is perfectly all right to serve ice cream or cake with a strawberry sauce.

Mr. and Mrs. J. M. Cameron and daughter, Marty, left this morning for Atlanta, Ga. where they will attend the capping exercises at Crawford-Long Hospital on Wednesday when their daughter, Miss Jackie Cameron, a student nurse, will receive her cap.

Mrs. J. C. Bell and Mrs. Louis Flen of Jacksonville and Miss Sherri Daughenbaugh of Den Molina, Ia. and Ned Bell, who has been stationed in the Korean waters for the past eight months, now at Cecil Field, were the guests of Mr. and Mrs. A. H. Tedford over the weekend.

Mar. the 23 through the 24 marks the Florida Scholar Press Conference for about five guys and gals. Mrs. Galt, an English teacher, is taking them. So far Rudolph Smith, Ann Whitaker, Gail Biting, Carolyn Melnick and Ellen Driggers are going. We hope they have a grand time!

Seems as if Spring is here from the looks of a few kids at S. H. S. and this weather! With it comes a lot of things. Mainly the Glee Club Hall which is Mar. 29! Something you'll want to look out for! You fellows better get busy making the gals!

Our Glee Club has had a grand time in Daytona this last weekend and done a grand job of singing! The girls made a second along with the boys, although the Quintet has marked a first! Awfully proud of 'em! Mrs. Whittle also serves some praise too for her patience, don't ya think? Not to mention the time and energy that has gone to make our Glee Club a humberger!

Report cards were out yesterday! A fatal note everywhere! Every morning at 10:00 we had a short program this week. We do this every Easter and enjoy it and we were glad to have

Baseball Players Demand Voice In Choosing Next Commissioner

LAKELAND, Mar. 20 — (AP) — The rank and file of the major leagues — the players — will demand that club owners give them a voice in picking a new baseball commissioner.

The unprecedented proposal comes publicly from pitcher Freddie Hutchinson of the Detroit Tigers, official player-representative of the American League.

Sharply critical of owner policy, Hutchinson said yesterday that the owners will be petitioned in July to give the players a part in selecting a successor to A. B. (Happy) Chandler.

And if the club owners don't agree to this, Hutchinson said the players may hire their own commissioner to represent them on the official baseball council.

The players now have two representatives, one from each league, serving on the council. Their status is merely advisory.

"The first name suggested by players for their own commissioner was Happy Chandler," said Hutchinson.

The Detroit pitcher said most players favored retention of Chandler. The "average player" believed Chandler was fired by the owners because he did things for baseball players that were never done before, Hutch said.

"Players feel we could pay a commissioner \$40,000 a year to represent us. That would be an assessment of only \$100 a player for the 400 major leaguers," he said, adding:

"It would be deductible from income taxes and actually would not cost us anything."

The towering six foot two inch Detroit star said he had been quietly sampling the opinion of ball players on other American

Ted Williams Is Contemptuous Of Tampa Fans' Boos

By FRANK ECK
SARASOTA, Mar. 20 — (AP) — Next thing you know they'll be giving Ted Williams a slavia fest.

Williams, left fielder for the Boston Red Sox and possibly the most misunderstood player in baseball today, denied that any moisture seeped from his mouth in an exhibition game at Tampa's Plant Field Sunday was meant for the fans.

"I did not spit at the fans," said Williams with emphasis. "I had something in my mouth and I just got rid of it on the ground."

Since yesterday there have been many versions of what happened in the game against Cincinnati.

At least six writers in the press box said they did not see Williams spit. One baseball official said he saw Williams spit at the crowd turn away and spit.

The official added that Williams had every right to spit. He had just been fanned twice in the same inning by the Red Sox' Ed Kraatz.

Earlier in the game the fans booed Boston's \$125,000 player when he failed to run out a ball hit to the pitcher. But when he hit a home run 380 feet from home plate to account for three runs in the fifth frame, the fans' Bronx cheers turned to legitimate applause. All Williams said as he crossed the plate was:

"What do you think of those silly fans?"

Veteran writers in Tampa feel that the entire incident has been magnified because Ted and some of the Boston writers do not see eye to eye.

One Boston official said things are getting to the point where fans want to see the Red Sox play and that they do not care whether Williams plays or not. Ted never has catered to the fans. If he did he might be the greatest thing with the bat since Babe Ruth.

"I don't care whether they (the fans) like me or not," said Williams today. "What were they looking about, anyway? There's no reason to boo me."

Ted is more concerned with his left elbow than anything else. He fractured it making a great catch of a Ralph Kiner drive in Chicago's Comiskey Park in the all star game last July.

"It still hurts," said Williams. "I can feel pain when I'm playing."

Oklahoma Coach Quits Following Strange Beating

Ambiguous Answers For Resignation Given As Reason

COLLEGE STATION, Tex., Mar. 20 — (AP) — Harry Stiteler's looking for a job today.

His offer to resign as Texas A&M football coach yesterday because he hadn't told the truth about being beat up in Houston was immediately accepted.

President M. T. Harrington said the decision was made solely because of the "admittedly misleading statements made by Mr. Stiteler to college officials."

Immediately after Stiteler's beating was publicized he said he didn't know his assailant; that it was a case of mistaken identity. Yesterday Stiteler said the matter was a personal one.

"The affair was a personal one and we two have quite some time since settled our difficulty and forgotten it," Stiteler said. "I have nothing else to say. That is my final statement and I sincerely hope that everyone will be understanding and forget the whole matter."

To still refused to name the man.

After A&M announced it had accepted his resignation, Stiteler told the Associated Press:

"I'll be looking for something else. My associations with these kids down here have been wonderful."

Training Camp Notes By ASSOCIATED PRESS

SAN DIEGO, Calif., Mar. 20 — (AP) — If George Metkovich continues his fine hitting and fielding he's a sure fire bet to win regular outfield berth with the Pittsburgh Pirates.

Metkovich, a left handed hitter, is runner up in the Bucs spring exhibition home run derby with three round trippers, one less than National League home run king Ralph Kiner.

LAKELAND, Mar. 20 — (AP) — The Detroit Tigers crossed their fingers today in the hope their spring training luck might change. It could be that Virgil (Fire) Trucks might be the one to change the tide. Detroit has lost four straight exhibition games.

Manager Red Wolfe speculated on using Trucks against the New York Giants today. Trucks' mysterious bad arm kept him on the bench almost all of last year. This spring he has indicated improvement.

TAMPA, Mar. 20 — (AP) — Cincinnati won its exhibition handily from the Boston Braves yesterday, whipping them 14-2. But the victory cost the Reds the services of a bright young prospect for a while.

Newcomer Wally Post, just up from the Tulsa farm club, turned his ankle attempting to stop short between third base and home. He probably will be out of action 10 days.

Post looks like a cinch to stick and bring up as a regular Red outfielder.

BURBANK, Calif., Mar. 20 — (AP) — Russ Bauers, 36-year-old right-hander, finally signed his contract with the St. Louis Browns yesterday.

The pitcher, who had a 13-6 record with Baltimore last year, checked into camp Friday. He was injured because of severe extractions, which required false plates.

ST. PETERSBURG, Mar. 20 — (AP) — Jerry Barber, 26-year-old left-hander, signed his contract with the New York Giants.

He worked five scoreless innings against the Boston Red Sox yesterday in the Giants' 5-1 defeat and yielded only one hit. Altogether he has pitched a total of 11 innings to date and allowed only one run.

ORLANDO, Mar. 20 — (AP) — The Nats, loaded with four catchers, are going to get rid of one of them — either Frank Sacks, a .500 hitter from the Sally League, or Hal Keller.

Post looks like a cinch to stick and bring up as a regular Red outfielder.

Sacks, down with the flu the past few days, gets a chance to work to show what he can do. Harris apparently has decided to keep Len Okrie on the squad as his No. 2 man behind the plate. And Mickey Graun has the starting spot nailed down.

St. Peter's was beatup Dec. 10, 1950, shortly after he arrived in Boston to attend a banquet for Aggie Slater in nearly a decade.

Jordan Asks Support Of Auburn Alumni

ANBURN, Ala., Mar. 20 — (AP) — Ralph Jordan, Auburn's new head football coach doesn't want sympathy. He wants the support of all Auburn alumni in rebuilding the Tiger football fortunes.

Making his first public appearance since taking over here last week, Jordan told members of the Auburn Kiwanis club yesterday:

"I have a lot of faith in Auburn and am optimistic about the future. I want no sympathy, but do need the support and help of all Auburn men and women in the tremendous task ahead."

The former Georgia line coach signed a five-year contract as head mentor here last month. He succeeded Earl Brown, whose 1950 team lost every game for the first time in Auburn history. Jordan is a former star center and assistant coach here.

FRESHMAN ELIGIBILITY CHICAGO, Mar. 20 — (AP) — Freshmen will be eligible for varsity sports competition in the Western Conference beginning Sept. 1.

Faculty representatives and athletic directors voted at their closing two-day session yesterday to lift the ban which had been in effect since 1946.

Puppyry spread over Europe from Italy.

Canny Eddie Stanky Can't Run Or Hit But Drives Opposition Crazy

By JACK HAND
ST. PETERSBURG, Mar. 20 — (AP) — Eddie Stanky relishes the role of National League "brat." By worrying the pitchers, annoying the hitters and outmarrying the enemy, he earns his \$30,000 salary with the New York Giants.

"Sure I'm a base on balls hitter," he said. "It's no insult. I've been in baseball 17 years and led most every league in walks. With my physical makeup, it's the best I can do. I'm not a powerful man or fast. So I get by on what I have."

Stanky learned the value of a keen-eyed leadoff man from Milt Stock, his former manager at Macon and now his father-in-law. "Every pennant winner has to have a good leadoff man and a good relief pitcher," he said. "I'm the guy who has to be on base for the good hitters to drive home."

Eddie, of course, is more than just "the guy who has to be on base." An aggressive, brainy veteran with the knack of being in the right spot at the right time, Stanky at 33 is the key to the Giants infield.

He can't hit but he averaged .300. He can't run but he hit into only eight doubling plays. He can't throw but he handled the ball in 128 double plays.

That's why there was deep concern in the Giant camp when Stanky suffered a "hairline fracture" of the left wrist in his first exhibition game. Now they say he'll be back at work in a week.

Stanky drove the league crazy last summer with his annoying windmill rallies around second base. They had to write a new rule into the book to cover his antics.

He saw pull hitter Bob Elliott of Boston ask an umpire to move out of his line of vision behind the pitcher. So Stanky moved into the same spot. He waved his hands to add to the confusion. Elliott struck out.

When Eddie tried it in Philadelphia against Andy Seminick, another pull hitter, the Phils objected. When he refused to stop he was tossed out of the ball game.

Recently the rules committee decided that its regulations banning facel play or making a travesty of the game covered the situation.

Veteran Relieves Aches and Pains

HADACOL Relieves Aches and Pains When Due to a Lack of Vitamins B₁, B₂, Nicotin and Iron

It would seem like being in two wars would almost be all one person would have to go through. But Emerson Farnell Brown, 412 South Harrison Street, Fort Wayne, Indiana, found more trouble staring him in the face just recently. As so many thousands, he put his faith in HADACOL, when he heard how it was helping folks with aches and pains due to a deficiency of Vitamins B₁, B₂, Iron and Nicotin. Here are the wonderful results that he is so proud to tell us about:

"I am a veteran of World Wars I and II. After I reached the age of 40, I had aches and pains. I also had gas on my stomach and was very nervous. After I took the first small bottle of HADACOL, I knew I had the right family formula. Then, I got a large size and I have just finished taking it. I work for the plumbing and heating company. I just started another bottle of HADACOL, and it is doing me so much good."

This may be your answer, too, if you are suffering from such deficiencies. For HADACOL supplies more than the minimum daily requirements of Vitamins B₁, B₂, Nicotin and Iron, plus helpful quantities of Phosphorus and Calcium. And HADACOL builds up hemoglobin (when iron is needed) to rush these vital elements to every part of your body. Many doctors recommend HADACOL — why not stop at your drug store today?

Montgomery Named

(Continued from Page One)
 Command of the land forces, Southern Europe, will be assigned to an Italian general.
 The headquarters announcement said that Eisenhower would Organization to transfer to his ask the five power Brussels Treaty Supreme Headquarters A111ed Power: Europe (SHAPE) the responsibilities of the Brussels Pact Defense Organization which Field Marshal Montgomery has been made with the concurrence of the commanding at Fontainebleau.
 The appointments today were standing group of the North Atlantic Treaty Organization.
 The announcement said General Eisenhower emphasized "his gratitude to the several nations for making available such distinguished representatives. He feels that

War In Korea

(Continued from Page One)
 In Seoul itself mines were being cleared from the streets and roadways while the rice rations were doled out to long lines of civilians.
 On the west central front ROK (Republic of Korea) soldiers led the Allied advance. AP correspondent William C. Barnard said the outh Koreans made the deepest penetration of Communist lines.
 Activity on the east-central front was confined to patrol skirmishes a field dispatch said an American patrol found about 100 Communists dug in on the high ground overlooking the river north of Pusan.
 Artillery and air attacks forced the Reds to withdraw.
 Twelve B-29 Superforts Tuesday pounded Hamburg on North Korea's east coast. Four other Superforts hit a bridge near Kowon, South of Hamburg.
 Field dispatches indicated the Allies were advancing against retreating Communists all along the front.
 Censorship was lifted on the capture of the Chungbyong reservoir and power station 15 miles northeast of Seoul. They were captured intact three days ago. United Nations troops, the Eighth Army said, have advanced beyond that point.
 Moderate rear-guard action was reported during the day. Chinese and North Korean Communists were reported at three widely-separated points: east of Uoljogbu, which is 12 miles north of Seoul; northeast of Hangye on the central front, and north of Allied-held Kangnung on the east coast.
 The Reds have thrown up road blocks in some places to delay the U. N. advance.
 From the central front AP correspondent Tom Bradshaw reported evidence the Chinese were only trying to slow down the U. N. advance until they can complete their withdrawal north of 38.
 He said the main resistance was met Monday on a road running northeast of Hongchon.
 Although withdrawing behind the old boundary between North and South Korea, the Communists hinted they plan to return some day.
 The Red Korean radio at Pyongyang called on Korean youths to rise against the United Nations during a "world youth week" to start Wednesday.
 The radio called on Korean youth of both sexes to "rise against the enemy" and "start people's riots everywhere."
 "Take away the gun from the American enemy and (Korean president) Syngman Rhee's group and shoot them in the breast," the radio said.
 South Korean soldiers were urged to turn on U. N. soldiers "in a righteous uprising and come to the people's (Communist) army."
 AP correspondent Nate Polowetzky reported from the central front that the Allies Monday found one of the war's biggest hauls of Red arms and ammunition. Much of it was buried, indicating the Reds planned to use it at a later date. The cache included 10 howitzers, 24 mortars, 40 machine guns, nearly 400 rifles and seven rocket launchers.
 Mountain climbing Marines in the central sector advanced slowly northward, presumably toward Chunchon. Chunchon is a former Chinese headquarters only eight miles south of 38.
 The Fifth Air Force flew a record 880 sorties Monday.

Atomic Tests

(Continued from Page One)
 He declined to say when asked if they would be held at Eniwetok. The "testing season" at Eniwetok—from the standpoint of the weather begins late in March. The prevailing winds blow from the southeast then. Thus radioactive dust and spray from an atomic blast would drift away from inhabited areas of the Marshall Islands and from Hawaii, 2,000 miles to the east. Eniwetok is in the Marshall group.

O'Dwyer Claims

(Continued from Page One)
 He said he depended "on the integrity" of his subordinates.
 "I was worried for four years," said the former mayor. "I knew I was sitting on a powder keg and anyone who is in city hall is sitting on a powder keg. You know how difficult it is to put your finger on it."
 O'Dwyer, testifying for the second day in the packed, klieg-lighted hearing room, said that in 1946, he became aware that "police at that time were unable to cope with

Gasoline Taxes

(Continued from Page One)
 law, still would make the individual user responsible for the tax. He could get a permit and pay the tax directly, or pay the dealer when he bought his gas and let the dealer remit to the state.
 Each dealer would be required to make monthly reports and tax remittances. If he sold to a private user with a state permit, he would report the user's permit number and volume of purchases and the state would have a check on the tax payment.

RFC Investigation

(Continued from Page One)
 denied it. He also disputed Mrs. Smoot's story.
 In addition to gathering testimony on this point, the senators decided at their closed session to continue their inquiry indefinitely. Chairman Fulbright (D-Ark) had favored winding it up by Mar. 31, but the six other members overruled him.

Oldsters Gain Power

(Continued from Page One)
 doing research for the State's retirement village plan, told the conference a study of St. Petersburg retirees showed the most popular recreations among them are card playing, gardening and fishing.
 Shuffleboard was fourth on the list of sports but first on the list of organized recreations.
 Webber said the oldsters of St. Petersburg—a favorite haven for the elderly—include former skilled workers for the most part. There are not a great many former professional people and few retired farmers. Small businessmen are plentiful.
 Webber's study is part of his research on the village. The state is hoping private capital will build the communities as centers for pensioners with low incomes. The small rentals would help keep oldsters off the state welfare rolls.

Allies Retake Last Red Base South Of 38th

Bitter Resistance Is Met By Vanguard Of Advancing UN Force As Chunchon Falls

By OLEN CLEMENTS
TOKYO, Mar. 21—(AP)—An American tank force today tumbled into the former Chinese stronghold of Chunchon. It met only flag-waving Korean civilians. The Chinese, who had made the central Korean road center their troop massing point in South Korea, apparently had withdrawn north of Patalal 38. Chunchon is 8 1/2 miles south of the Red Korean border. It was from Chunchon that the Chinese mounted their two massive offensives in January and February against Wonsu, deep in central Korea. On the western front, South Korean and American tank forces ranging in the historic invasion route of Korea bumped into bitter Communist resistance north of Seoul.

An American tank patrol on the road to Uijongbu ran into a heavy mine field. "The small arms and mortar fire were so intense that it was impossible for the men to leave the tanks and remove the mines," an operations officer said.

On the east coast, South Korean units were officially placed within 15 1/2 miles of the old border between North and South Korea. Patrols may have reached or crossed the imaginary line. A correspondent from the front line reported that United Nations troops were unopposed by the vanishing enemy. He said armored patrols were probing the area between the main Allied lines and parallel to the main Allied lines and parallel to the main Allied lines.

Earlier reports placed American units five miles north of Chunchon.

Three Negroes Rob And Tie Up Filling Station Operator

FORT PIERCE, Mar. 21—(AP)—Three Negro suspects in an early morning hold-up, robbing a filling station operator here, were apprehended at St. Cloud and one of them was quoted by Osceola county sheriff Young Tindall as claiming that he, too, was a kidnap victim.

Three unidentified Negroes early today held up and robbed a filling station operator at Fort Pierce, where he notified the police department. He accompanied Deputy Sheriff Vernon Christianson, police Lieut. G. Alford and Patrolman Sheldon Kemp back to the scene, where the officers said they found part of the missing clothing and other evidence to substantiate Lithium's story. While police were investigating this case, theft of a \$1,000 cash register and an estimated \$6,000 or more in cash from the Meadows Restaurant on the highway at the State Farmers Market south of Fort Pierce was reported. Entrance, police said, was gained through a window. All available clues were being checked.

Ministers Favor 3-Day Waiting Law

The Sanford Ministerial Association, at a special meeting yesterday, went on record as strongly opposing the repeal of the present three-day waiting law for marriages. The Rev. J. E. McKinley said today. The ministers met after their attention had been called to the fact that there was a possibility that the next Legislature would attempt to repeal the present waiting law.

They also voted to inform representatives in the Legislature of their action, asking them to do what they can to prevent the repeal of this legislation. The ministers also urge all interested people to express their opinion to their representatives, said Rev. McKinley.

Pioneer Night At Lake Mary

The crowded Lake Mary Community Center which on Saturday night was the scene of the 20th annual Pioneer Night program, Frank Evans, who has conducted the program annually since it was initiated 26 years ago, was again master of ceremonies. C. P. Hurlington, president of the Lake Mary Chamber of Commerce, greeted the more than 180 persons present. The program was marked by archaic ballads, singing and entertainment and a talk concerning pioneer days in Florida by Karoly Housholder, Sanford attorney.

Contempt Charge Against Field Is Declared Invalid

Millionaire Red Is Freed On Grounds Of Right To Silence

WASHINGTON, Mar. 21—(AP)—Frederick Vanderbilt Field, New York millionaire, was freed today of contempt of Congress charges. Federal Judge T. Alan Goldborough, who presided at Field's trial without a jury, granted a defense motion for acquittal. The judge held Field was within his constitutional rights in refusing to answer questions of a Senate Foreign Relations Subcommittee on grounds his answers might incriminate him.

Field was charged with contemptuously refusing to answer 24 questions during an investigation of charges by Senator McClellan (D-Wis) that Communists had infiltrated the State Department. Field, great grandson of Cornelius Vanderbilt, was linked with Communism in testimony from Louis Budenz, a former Communist. Judge Goldborough commented: "The court is of the opinion that if the defendant (Field) had answered the questions..."

Determined Suicide Attempt Is Failure

CHICAGO, Mar. 21—(AP)—Emily Preman is convinced that he is almost irrefragable. The 58-year-old factory worker was quoted by police yesterday as saying he was surprised and disappointed that he had flubbed two attempts to kill himself. Preman related that on Saturday, in a fit of despondency, he went to a railroad siding and fired a .32 caliber bullet into his chest. He walked home and went to bed, expecting to die.

But Sunday morning he awakened, surprised. He brooded all day and Sunday night he aimed for his heart and again lay down to die. But again death eluded him, and on Monday his brother, William, saw blood-soaked Preman's shirt and called police. Surgeons who removed the bullet said Preman aimed for his heart but was close to the target but that his bones deflected the bullet. Hospital reports say Preman is "recovering nicely." Preman said the despondency set in after some drinking.

MARGARET TRUMAN NEW YORK, Mar. 21—(AP)—Margaret Truman, in her first dramatic role on radio, will star with James Stewart in a play over the National Broadcasting Company network Apr. 20.

The daughter of the President will appear in "Jackpot," a feature of the Screen Directors Playhouse series. It will be broadcast from 10 to 11 P. M. (EST). They did.

Lake Mary Concert Orchestra

Much of the enjoyment derived from Pioneer Night was from the playing of the Lake Mary Concert Orchestra. Left to right are Mrs. Helen Zetrow, guest soloist; Perry Bremer, trumpet and leader; H. R. Heckenbach, cello; Howell, saxophone; Ann Lovell, drum; H. R. Smith, piano; Raymond Hall, violin; John Prekham, leader and Robert Bremer, pianist.

Lansing Says Salt Water Fish Agency May Be Created

The Florida Legislature may create a salt water fish commission similar to that in California, Porter Lansing, president of the Florida Wildlife Federation, told members of the Lions Club today. He was introduced by Clarence Welch. Lansing pointed out that what formerly seemed to be inexhaustible fishing resources on the Florida coasts are now diminishing, he told of use by enforcement officers in the St. Petersburg area of airplanes to spot illegal use of stop nets. As a result the fishing is improving on the west coast of the state, he said.

The Florida Wildlife Federation, he declared, was organized by businessmen and sportsmen to conserve natural resources including timber, water supply, soils and wild life. Since the organization of the Seminole County Sportsman Association and the bringing of game warden here, illegal killing of thousands of pounds of fish a year has been checked, he pointed out. One result is that fishing of perch and bass has been improved, he said. More than 90 percent of the tourists coming to Florida want to fish, said Mr. Lansing.

He stated that at a recent session of the Florida Wildlife Federation, it was voted to ask the Fresh Water Game and Fish Commission to stop all fishing in Florida waters. (Continued on Page Eight)

Truman Asked To Withdraw Plan To Reorganize RFC

Senate Is Asked To Consider Abolishing Public Loan Agency

By G. MELTON KELLY
WASHINGTON, Mar. 21—(AP)—Chairman McClellan (D-Ark.) of the Senate Expenditures Committee proposed today that President Truman withdraw temporarily his hotly disputed plan to reorganize the Reconstruction Finance Corporation.

He said Congress should be allowed to work out its own solution to the fate of RFC huge government lending agency. A Senate banking subcommittee contends the RFC has fallen under the control of an influence ring with White House contacts.

McClellan made this suggestion as his committee opened public hearings on the President's proposal to abolish the five-man RFC board of directors and put the agency under a single administrator. "This plan should be withdrawn temporarily," McClellan said.

Senator Maybank (D-NC), chairman of the full banking committee who spoke as the lead off witness, said he thought that "might be a good idea." Maybank said he considers the President's plan in any event would not be a final solution, and that his committee wants to work out ideas of its own on what to do with RFC. He said he intends to call hearings immediately on several proposals to abolish the agency.

"Imagine the committee is going to be pretty rough," Maybank added. "It ought to be." The hearing before McClellan's committee was the opening of a series of public hearings on the RFC. (Continued on Page Eight)

Myriads Of Safety Devices Protect Sensitive Submarines From Disaster

By ELTON C. FAY
ABOARD SUBMARINE GRAMPUS, Mar. 8—(Delayed)—(AP)—Are submarines dangerous? The truthful answer to that is probably yes. They have more built-in hazards than other craft but that is the nature of the vessel. They must have them. But they also have a boatful of safety gadgets and techniques. Let's consider the dangers first. There is the matter of buoyancy. The margin between floating or sinking, when a submarine is operating on the surface, is less than for any other craft. It is almost a hairline difference. It has to be that way. The submarine must be able to submerge in a matter of seconds. In combat, a quick dive can save the boat, tardiness in diving will mean its destruction by aircraft or surface ships. This low buoyancy factor means the submarine is particularly vulnerable to enemy gunfire or to collisions. A ship's bow knife through the sub's hull can send her down like a stone, too fast for bulkheads to be closed. The second danger point is (Continued on Page Eight)

Costello Defies U.S. Senate Committee On How Much He's Worth

Truman Declares Highway Safety Is Armed Forces Of Vital Necessity, US Have Doubled Kiwanians Told

Russians Warned That Peaceful Countries Will Maintain Peace

Patrolman Declares Death Rate Here Is Twice That Of State

BY ERNEST R. VACCARO
KEY WEST, Mar. 21—(AP)—President Truman served notice today that the United States has doubled its armed forces since the invasion of Korea to resist "still further Communist attacks against other free nations." An exchange of telegrams between the President and Secretary of Defense Marshall declared that this country's uniformed forces now stand at more than 2,900,000 men months after Korean Reds launched their unprovoked attack June 25. Mr. Truman made his telegram public shortly before leaving at 7:30 A. M. for a visit to Fort Jefferson in the Dry Tortugas aboard the destroyer Sandfield. He is due back at 1 P. M.

The President will fly back to Washington tomorrow to spend the Easter weekend with Mrs. Truman and his young daughters, Margaret. He is scheduled to take off at 2 P. M. Thursday from the Boca Chica Air Station, eight and a half miles from this Naval submarine station.

Mr. Truman's announcement was a new warning to Soviet Russia that this country "in company with other free nations" is determined "to establish and maintain world peace."

He emphasized the speed with which this country is rebuilding its defenses by disclosing Marshall's telegram giving the size of this country's armed forces as doubled what it was on June 25. "This doubling of our strength has been accomplished here in more months after the Communist aggression against the Republic of Korea," General Marshall stated.

"For your information, the strength we have already attained—a total strength in excess of 2,900,000 men—not attained in World War II until more than 21 months after our build-up started in June 1940, following the fall of France, and more than three months after Pearl Harbor."

The President's annual message to seek world-wide disclosure of the progress of American defenses, and the exchange of telegrams was beamed around the globe by the State Department's Voice of America.

He telegraphed Marshall: "I wish to commend you and all your associates in the Army, Navy, and the Air Force for the strenuous efforts which have made such growth possible. This tremendous gain in our (Continued on Page Eight)

Cold Forecast For Entire Peninsula

LAKELAND, Mar. 21—(AP)—More cold weather tonight for northern peninsula. Florida was forecast today by the Federal State Frost Warning Service. Still colder weather was seen for Friday.

The forecast for Thursday morning partly cloudy and colder in northern districts with lowest temperatures 35 to 40 degrees in the north end of the Gainesville district, cooler in central districts and partly cloudy to cloudy and slightly cooler in southern districts.

Rare 220 Pound Dog Reported Missing

CHICAGO, Mar. 21—(AP)—Ruffy, a 220-pound Great Pyrenees, said to be the only dog of its kind in the nation, was reported missing yesterday and feared a victim of dogcatchers.

The dog's owner, Dr. Collin M. Doyle, said Ruffy vanished Sunday from the inclosed yard of the Doyle home. Ruffy has a shaggy, white coat, without markings.

Doyle said there is an American strain of Great Pyrenees, but Ruffy is the only representative in this country of the Spanish breed, raised in the kennels of the Infanta Don Alfonso of the Spanish royal family. Ruffy was a puppy when Don Alfonso gave him to Doyle in 1942. At that time Don Alfonso was a student and Dr. Doyle an instructor in the British Royal Naval Academy.

Gangster Is Sullenly Silent On Queries Concerning Wealth; Admits Bookmaking

NEW YORK, Mar. 21—(AP)—Underworld boss Frank Costello today defied Senate crime investigators for the fourth time in their efforts to find out his net worth. He said he wouldn't answer the question.

With the same sullen stubbornness he has displayed when the matter came up previously, Costello said the committee was asking for information it had no right to.

"I refused before," Costello said. "I'm not going to answer that question."

The gambler, labeled by the committee as head of a national crime syndicate, pictured himself to the committee as one now engaged in purely legitimate business.

And he said he wasn't going to talk about what assets he has. Costello pictured himself as a promoter of hot boilers for the benefit of housewives with small apartments.

He conceded before the Senate Crime Committee that the hot boiler business hadn't taken up much of his time so far.

"It's in its infancy," he said. "The boiler was described as an infra red boiler for use in apartment houses, but Costello said he didn't understand its mechanical details."

Prior to Costello's appearance, the committee issued a second invitation to New York Governor Thomas E. Dewey to appear before it about gambling at Saratoga Springs, N. Y.

Senator Charles Tobey (R-NH) said Costello's refusal to answer "makes us suspicious and I don't want to be suspicious."

"The world can't think well of a man who covers up," he added. Costello has disclosed he has some \$150,000 in cash in his home safe and in two bank accounts, but beyond that, he contended his holdings are his own affair.

"Do you have a safe deposit box anywhere else other than in your home?" asked committee member Randolph Hatley.

Costello started at the ceiling momentarily, blinking into the white, but glare of bright lights. Then he said in his hoarse, thin voice: "No."

Costello's former lawyer, George Wolf, has contended that his client is constitutionally entitled (Continued on Page Eight)

Younger To Answer Warren's Charges Before Grand Jury

TALLAHASSEE, Mar. 21—(AP)—Governor Warren today suspended Washington county judge Sam D. Max on charges of drunkenness.

MIAMI, Mar. 21—(AP)—Col. Jack E. Younger, president of the Greater Miami Crime Commission, said he would go before the Dade county grand jury today—at his own request—to answer any questions about charges made against him by Governor Fuller Warren.

Accused by Warren of associating with "one of Miami's most notorious gamblers," Younger said he would sign a waiver of immunity and testify under oath to any questions about such an association.

After he has appeared before the grand jury, Younger said he would ask that the Governor be called or support his charges with sworn testimony.

Warren charged yesterday that the Crime Commission chief associated with a notorious gambler, and alleged that a mysterious envelope had been passed to Younger under a barroom table in Dade county.

Younger declared the charges were "false and infamous" and gave the Governor 24 hours to (Continued on Page Eight)
