

### Fern Park Resident Reports On Conditions Behind Iron Curtain

By WILLARD CONNOLLY

Mrs. Ruth M. Hamilton of Fern Park, who returned Oct. 1 from a trip to Finland, Norway, Denmark and Sweden, today termed Finland one of the "most amazing" countries in Europe.

Without aid such as is afforded to some countries by the Marshall Plan, the Finns have practically paid a billion dollar war debt to the Russians, she declared.

While in Helsinki and other Scandinavian cities, Mrs. Hamilton studied government problems, overseas for three months, and during that time was written up many times in the newspapers of cities visited.

On Swedish descent, she speaks Swedish, Danish, and Norwegian fluently. She revealed that she went overseas to gather material for lectures and radio talks. Last winter she directed the Better American Speech program over Station WTRB.

Mrs. Hamilton is the widow of the late Dr. G. Carter Hamilton, who in 1924 pitched for the Cleveland Indians, and who later became an x-ray specialist. She came to Fern Park last year and purchased a home which she has remodeled. A son, Peter Hamilton, is a junior at Lyman School and is a fullback on the football team.

A member of the Business and Professional Women's Club of Sanford, Mrs. Hamilton serves as legislative chairman. She is well qualified for this work, having served in the New Hampshire Legislature in 1941-42, to which she was elected on the Democratic ticket. She is chairman of the County Council of the Parent Teachers Association.

When Russia demanded reparations of Finland in the way of locomotives, ships, machinery and tools, the Finns set to work to produce these, and somehow met the payments on time, she said.

Everybody in Finland reads, studies and takes courses, she declared. The women are doing an

"amazing job as technicians, engineers and chemists and are on an equal pay basis with the men. Finland was the first country to give women the vote, she pointed out. She said that she found no war scars in any of the Scandinavian countries, and was told that America's fear of war is unnecessary. On the way from Helsinki to Stockholm, Sweden, the train on which she rode passed behind the Iron Curtain. This necessitated a change of crew, Russians taking over, and a bright blue Russian locomotive then drew the train. She found the Russian crew to be very pleasant and attributed this to a Danish pin that she wore.

### Blues In The News

By JIM MEYERS

The Baptist Young People's Halloween Party was a great success. Monday night the alliance of the Sanford Yacht Club was broken by shrieks, shouts, and laughter as the entertainment changed its pace. If anyone is curious about this nocturnal disturbance, just ask someone who was there. Of those who came in all manner of dress were Lillie Hardy, Beverly Thorsen, Jean Wilson, Jim Smith, Ray Babko, Bobbie Merion, Gloria Studstill, Rosemary Cullum, Dorothy Wild, Jim Stempel, Jo Ann Strawder, Steve Gontchoy, Herbert Benson, Betty Gontchoy, Douglas Thomas, Eugene Barnau, Raymond Mader, Harold Dekle, Kenneth Dakle, Sam Williams, Charlie Beard, Betty Ann Eagle, Richard Walker, Allen Driggers, Don Reagan, Jack Perry, Dotty Von Herhull, Kay Holtzclaw, Norma Faye Harvey, Mrs. Bea Anderson, Mrs. Margaret Reynolds, Mrs. Pearl Hansel, Buddy Mock, Faye Johnson, Barbara McNab, Rachael Johnson, Martha Shannon, Ann Whitaker, Frank Wilson, Douglas Ogilvy, Peggy Clampton, and your reporters Ralph Gasman and Jim Meyers. I think a "well done" should be given to Buddy Mock and Faye Johnson for contributing so much to make the party a big success.

Congratulations to Thomas L. Rogers, on temporary duty with FASRon 821, and Joyce Spivey of DeBary, Fla. Tom and Joyce will be married on Nov. 1 at the home of the bride's parents, Mr. and Mrs. C. S. Spivey of DeBary.

Phil Meunter, FASRon, spent a quiet peaceful weekend in Jacksonville. Some of the men in FASRon are bearing dreary reminiscent expressions found on the faces of those just back from leave. John Lourea, Allen Chaffin, and Jerry Phillips are all just back from New Orleans, La., while Donald Goales just returned from his home in Delmar, Indiana. All are suffering leave hang-over.

Last night Sanlando Springs was the scene of the FASRon Operation Department party. After many weeks of waiting and planning the men in Operations and their division officer, LCDR J. J. Deihom, enjoyed a grand time, while refreshments were served, and Chief Homer Parker headed the barbecue. From those who know, we've learned that he's a master at the task.

Some of the servicemen's wives who attended the recent "Columbus Women's Silver Tea Party at Indian Mound Village were: Thomas Mae Trappin, Beverly P. Scott, Marie Louise Crane, Betty Burns, Mildred Duclon, Mary Johnson, Emma L. Johnson, Mary Johnson, Josephine Johnson, Loretta Smith, Rosemary Harris.

In answer to the request of many wives and families who have been waiting for the names of the base movie each week, the feature will be shown in the big starting room. The movie is "How Green Was My Valley." Those interested should see it.

C. T. T. FASRon, returned after three weeks of instruction in the basic course. The course was very interesting and many others are still away.

On Oct. 28, FASRon returned after three weeks of instruction in the basic course. The course was very interesting and many others are still away.

On Oct. 28, FASRon returned after three weeks of instruction in the basic course. The course was very interesting and many others are still away.

### Recent Summer Is Declared To Be Hottest On Record

JACKSONVILLE, Oct. 31—(AP)

Continued heat this past summer in Florida made it the hottest since records were begun in 1801, the Weather Bureau said today.

R. L. Anderson, meteorologist in charge for the Florida section, said records just compiled showed that for the June-September period the average was 81.10 degrees in the northern division; 81.80 in central division and 81.90 in the southern section, per cent.

The average for the state was 81.63, Anderson said, and the closest approach to this was in 1915 when the average was 81.00. Coldest summer on record was in 1864 when the average was 79.45.

Average for all summers for the 61 years is 80.83, Anderson said. The meteorologist explained the summer was notable for its persistence rather than extremes. The high temperatures and contrary to popular axiom it was not the humidity but the heat and little air movement that made it so uncomfortable. The relative humidity average slightly below normal for each of the four months.

"The record for extremely high temperatures was not approached. The highest temperature recorded during the year was 103 degrees at the Pensacola airport on August 30, while the all-time record high temperature for the state is 109 degrees recorded at Monticello on June 29, 1931.

"The persistence of the hot weather is shown by the number of days with 90 degrees or above. This summer the number was about 7 per cent greater than last year. Wind movement over the state averaged about 18 per cent below normal, and precipitation for the 6-month period was about 12 per cent below normal.

### Democratic Chairman

(Continued From Page One)

"Never in the history of the Democratic Party has there been such a need for a man of courage, determination, and vision and ability, than there is today. With a troubled world and with carping critics on all sides we must choose a man whose name will lend competence, dignity and prestige to the office." McFale, said that William M. Boyle, Jr., whose resignation was accepted by the committee, had served "faithfully and loyally" as national chairman "to the best of his ability."

In resigning, Boyle gave his health as the reason. There had been charges, which he denied, that he had attempted to influence RRC loans.

McFale said the committee must have a chairman who "possesses character and has a record that will stand inspection and investigation."

He said that McKinney passes this test. Outlined McKinney's services as an official of the Marion County, Indiana, party organization, his military service and his chairmanship of the Military Housing Commission, McFale said all of McKinney's services "have been

### DeBary Doings

By KAY HENNINGER

Halloween, the night the witches hold sway, is upon us and DeBary is alive with parties, and appeal to all ages enjoy it equally. The older folks not only like to get together for cards and music but also to watch the doings of the younger ones who prefer dancing and costume parties.

One of these get-togethers was in full swing last night at the Mansion. The committee, consisting of Mrs. George H. Griffin, Miss Nella Banks and Mrs. James Genov worked hard making plans designed to appeal to all tastes. Some folks came in costume; some played pencil and paper games while still others enjoyed Halloween stunts. The fortunate ones won prizes to take home with them but all had fun.

Another group, under the auspices of the DeBary Civic Association, Inc. had a Halloween party in the building of the DeBary Builders Supplies. The room was gay with the traditional Halloween colors of orange and black and the ladies had certainly out-done themselves in the preparation of attractive and delicious refreshments. In another room, Halloween games were in progress for those who did not play cards.

The adults of our community chose last night to celebrate because tonight really belongs to the youngsters. The parents will take their children to the school building in Enterprise where entertainment, refreshments and Halloween fun will be provided. How wise to keep the children busy and happy on this spooky night.

A number of private parties, as well as those held in churches and club houses were in progress on these two evenings and we dare say there isn't a family in DeBary that is not Halloween conscious. For any who are not, don't be alarmed at sounds other than those of the well-known frogs, armadillos and hoot-ows. The unexpected noises you hear are only the witches riding over the house tops on their broomsticks.

### Kiwanis Meet

(Continued From Page One)

major collection agencies and many smaller ones, spends 3 per cent. He highly commended State Representative Volle Williams, Jr. for his "complete mastery" of crime legislation on which he had worked hard and long with the Attorney General, and which was passed at the last session. Declaring that he was as confused over the moral situation in government as with the situation in Korea, he urged Kiwanians to vote only for men of ability and integrity for public office.

The Kiwanians decided, at the request of President Joel Field, to cancel their meeting next Wednesday in order to attend the Jaycee sponsored joint Civic Club meeting on Thursday noon at the Parish House.

Two South Side Primary School pupils, Tommy Butler and Myra Francis Strickland were introduced by Mr. Pierson, Tommy, impersonating Uncle Sam, told of the birthday of America, and Myra revealed the birthday of the American flag. Mrs. M. R. Strickland, president of the South Side Primary School, was also introduced.

Lloyd T. Tarbuton, AN, of the Naval Air Station, expressed thanks to the City and other agencies in behalf of the men at the Station for the recreation facilities provided for the men at the Navy Center. Guests included Volle Williams, Jr., J. H. Wilson of New Smyrna, Malcolm MacNeill and Forrest Brockenridge.

### Protestant Group Recalls Promises Regarding Vatican

NEW YORK, Oct. 31—(AP)

America's leading Protestant group said today that President Truman twice gave assurances that the sending of a representative to the Vatican was a "temporary expedient" that would "certainly terminate with the signing of the peace treaties."

The National Council of the Churches of Christ in the U. S. A. made public a record of conferences and correspondence with Presidents Roosevelt and Truman on the question of Vatican relations.

An emergency session of the council's general board, an interim policy-making body, was scheduled here today. It was called by the Rt. Rev. Henry Knox Sherrill, president of the council.

The meeting was called after Mr. Truman named Gen. Mark Clark ambassador to the Vatican. The appointments have been held up.

In a statement, the council said that neither the late President Roosevelt nor Mr. Truman had indicated American diplomatic relations with the Vatican would go beyond the previous appointment of Myron C. Taylor as personal presidential representative.

The council reported these assurances by Mr. Truman: On June 8, 1948, and again on Nov. 14, 1947, Protestant delegations called on President Truman, who told them that Taylor's appointment was temporary and would be terminated with a full peace.

In a letter signed by the late Charles G. Ross, presidential press secretary, the head of the Associated Church Press was told of the President's intentions to maintain this policy while in office.

No date was given for this letter, but the council statement described it as "the last word to be received from the White House regarding the Vatican issue."

COLORED NOTICE The Progressive Voters League will hold its final meeting Friday at 7:30 P. M. at the Odie Fellow Hall, Cypress Avenue. In interest of the public, it is your duty to be present. J. N. Gray, president, said today.

The biggest gold nugget ever found was 54 inches long, 8 1/2 inches thick and weighed 195 pounds.

Malcolm MacNeill and Forrest Brockenridge.

### Marshal Tito

(Continued From Page One)

In 1948) with Russia and the Cominform countries. That is to secure Yugoslavia, without political considerations."

He said Yugoslavia needs heavy artillery, tanks and planes from the United States, but is "not so badly off for light arms." He was asked what the U. S. would get in return, and he answered, with a hint of indignation: "America has been getting something already, for years. It (Yugoslavia) has proved a bulwark against aggression. That has helped not only Yugoslavia but the rest of Europe and the West. The United States has in us a friendly country on her side. If an aggressor should break out and attempt to enslave a people."

Tito vehemently denounced Russia and its actions since the break with Yugoslavia, accusing the U. S. B. R. of building up the armaments of the satellite Cominform nations with aggressive ideas in mind. He called the Soviet proposal for a five-power peace pact a "shoddy, hypocritical" maneuver advanced in the hope of obtaining new spheres "in which it can continue its policy of enslaving people without fear of molestation."

"ANIMAL ESCAPE MT. IDA, Ark., Oct. 31—(AP)—Five or six ferocious circus animals were reported on the loose in a wooded mountainous area near here today after a circus truck overturned.

Mrs. Willour Tidwell, wife of the Montgomery county sheriff, said drivers of the truck told her two tigers, two polar bears and one black bear escaped in the wreck.

## U.S. Troops Are Exposed To Atomic Blast

### No Casualties Are Reported Following First Test With Troops In Field

LAS VEGAS, Nov. 1.—(AP)—U. S. Army troops were exposed today to an atomic blast for the first time, and came off without casualties and with knowledge which may prove "greater than anticipated."

Official confirmation of the troop's participation in today's blast, which was so strong that it cracked store windows in this city more than 75 miles away, came from Maj. Gen. William B. Kean, commanding the Army's Third Corps.

Another Army spokesman, declining to be quoted by name, said "this is the one test in which troops will be involved."

This was taken to indicate that the Army is satisfied with what it learned and will not participate in further AEC experiments here.

The blast went off at 7:30 A. M. (PST) and sent a giant white cloud mushrooming over the Yucca Flat Test Center in the desert northwest of here.

Seven minutes later Las Vegas was rocked by the concussion. Police switchboards were flooded with calls from anxious residents, some of whom described the rattling jar as stronger than in a series of atomic tests last winter.

Windows were broken in at least three stores on downtown Fremont St., and the AEC quickly ordered nearby residents suffering damage could file claims.

The text of General Kean's announcement of the Army phase of the experiment followed: "Army combat troops and service troops, together with a large number of military observers representing the Army, Navy and Air Force, participated in today's nuclear detonation."

"This participation involved observation of the detonation, observation of the effects on test

## County Court Is Adjourned Until January Session

Pleas of guilty to charges of operating a house of ill fame and of selling liquor to minors were entered yesterday afternoon in County Court by Lee McLaughlin, operator of the now closed Travelers Inn, on K-9 Club, on the Orlando Highway eight miles north of Sanford.

Judge Douglas Stenstrom committed McLaughlin to County Jail pending further action by the court, which adjourned yesterday afternoon until the January term, following disposition of all criminal and civil cases. The Inn was padlocked on Nov. 15.

Charles E. Casady, charged with making an unlawful turn off the highway resulting in an accident, was not prosecuted yesterday due to the absence of a material state witness, Frank Wright of Miami.

Evidence in the case of D. K. Kersey, Oviedo storekeeper, who was charged with unlawful possession of alcoholic beverages not permitted to be sold by the license, was suppressed yesterday by the court on the ground that the evidence had been acquired by illegal search. The action followed a motion for suppression of the evidence by G. W. Spencer, attorney for the defense.

George D. Lane yesterday morning pleaded guilty to passing a worthless check.

The \$50 bond of Ozzie Bank, who had been charged with reckless driving, was exonerated.

On Monday, Clarence B. Gunn, driver of the automobile which crashed into a car driven by Norman DeForest on the Orlando Highway, resulting in injury to the latter, was found guilty by a jury of a charge of driving while intoxicated. Gunn was fined \$125 and cost of 90 days, and his drivers license was revoked by Judge Stenstrom for one year.

County Prosecuting Attorney George A. Spoor conducted the prosecution of this and the other cases during the term of Court. Gunn was represented by Tom Kirkland of Orlando.

E. Hartman was found not guilty of a charge of driving while intoxicated. He was represented by G. W. Spencer.

## Princess Elizabeth Puts Wreath On Tomb Of George Washington

WASHINGTON, Nov. 1.—(AP)—Princess Elizabeth placed floral wreaths today on the tombs of George Washington and the Unknown Soldier.

The ceremonies honoring the great architect of American independence from British rule, and the men who have given their lives to defend this country's freedom, took place under somber skies with a chill wind rattling ceremonial flags.

Finished with the wreath-laying, the visiting Princess and her heavy officer husband headed immediately into a fresh round of social activities. It began with a diplomatic reception at the Canadian embassy. Champagne and French pastries were served in a big tent on the spacious lawn of the campus-like embassy.

For the morning, Elizabeth wore a dress of slate blue silk. Her shoes and bag were black.

At the Canadian embassy, she and her husband, Philip, Duke of Edinburgh, received diplomats of the British Commonwealth in the Third Corps.

## Governor Warren Tells Sanfordites Of Achievements

### Only Two Of His 22 Political Planks Said Not Fulfilled

Governor Fuller Warren, speaking to a crowd of several thousand people at First Street and Magnolia Avenue last night, declared that he had "done good" on 20 of the 22 political planks he had laid down when he campaigned here more than two years ago.

The typical Warren humor bubbled to the surface, when he declared that he had "done good" on 20 of the 22 political planks he had laid down when he campaigned here more than two years ago.

He apologized for falling down on the promise he had made that he would see every man, woman and child in the state. He said he had received 15,000 personal calls and 15,000 telephone calls.

This morning Governor Warren spoke informally to students of Seminole High School at a special session at 9:00 o'clock. Charles Morrison led in singing with Harry Wester at the piano.

Walter South, president of the student body, informed the Governor and group that included Mayor Beasley Streets, mayor of Lake Park in Palm Beach County, Harry Tooke and Dr. L. T. Doss, who presided, participated in the discussion.

## Jaycees Call Off Political Rally Of City Candidates

The political rally for candidates for the City Commission has been called off, Tim Crawford announced today at the Jaycee luncheon in the Yacht Club.

The political rally was to have been the second Junior Chamber of Commerce sponsored meeting for City candidates to air their views.

"Count on the young people to get all the candidates together at one meeting and difficulty in getting radio time for the talks were the reasons given for cancellation of the luncheon for all Sanford civic clubs will be held at 12:15 o'clock next Thursday in the Episcopal Parish House. It emphasized that everyone planning to attend should make reservations through Mrs. King at the Jaycee booth before 5:15 P. M. Nov. 1.

"Our government is headed for a downfall unless we double our efforts as citizens," Dorothy Holloway warned the group in a speech on the challenge to today's citizens.

The 14-year-old Seminole High School freshman 1044 her listeners that "the young people of today are looking out for their tomorrow." They are, she said, "far advanced over the same aged youngsters of yesterday."

"Count on the young people to continue their plans," she said in talking of the uncertain days ahead, "but remember they are counting on you to maintain a democracy."

## Marines Raid Commie Base By Helicopter

### Peace Talks Snagged Over Whether To Place Kaesong In Communist Sector

U. S. 8TH ARMY HEADQUARTERS, Korea, Nov. 1.—(AP)—U. S. Marines successfully raided a Red Korean guerrilla stronghold behind United Nations lines in the first helicopter combat attack ever made, the Marines announced today.

The attack was made Saturday. The news was withheld until today for security reasons.

The announcement came as light snow and cold rain chilled combat troops along the battle front. The quiet was shattered during the night by a thundering 100 ton B-29 bomb raid.

Thirty-three volunteers made the flying Marine raid. Two helicopters carried them seven miles over jagged North Korean mountains to the guerrillas' mountain fortress.

The airborne raiders landed on a mountain top. They hid in the willow pricks and struck the next day.

Under cover of a frosty ground haze they charged three hills, headquarters of a band of 150 North Korean Reds operating from a mountain hideout.

In the subsequent pursuit, a spokesman said, the Marines "believe they broke up this stronghold."

Twice before First Division Marines have used this "coyote" tactic to infiltrate the front line. But never before have the flying windmill actually carried troops into action.

The ground war dwindled to "the quietest damn thing we've had in a long time," a briefing officer said at noon Thursday.

Night flying B-29s from Okinawa and Japan blasted Communist front-line troops with 100 big airplane bombs.

The medium bombers struck their heaviest blow on the central front. There seven superforts from Okinawa ripped open Chinese bunkers in the rugged hills. At the same time, 70 tons of bombs. The blasts touched off 30 secondary explosions. Pilots said several ammunition dumps were exploded.

Forty Soviet-made jet fighters fought for 10 minutes Thursday with 21 American Thunderbolts on a rail cutting mission in northwest Korea. The Air Force said nobody got hurt.

MUNSAI, Korea, Nov. 1.—(AP)—A United Nations briefing officer said tonight the Allies and Reds are in "general agreement" on the eastern half of a neutral zone for a Korean armistice.

The western half of the line is in dispute. The key issue is who will get Red-held Kaesong, where truce talks started July 10.

Negotiators "are in agreement on a buffer zone there before," said Lt. Col. L. G. (Continued on Page Six)

## Federal Taxes Go Up Today On An Average Of \$38 Per Person

WASHINGTON, Nov. 1.—(AP)—This is the day you start contributing your share of the new \$5,691,000,000 in annual revenue to Uncle Sam. That averages out of \$38 for each person but not everybody, of course, will owe that amount.

You'll notice the tax increase in your next salary check and probably in a lot of things you buy—a pack of cigarettes, an automobile, a tankful of gasoline, a bottle of liquor, a roll of film, or a fountain pen, for instance.

You may even feel it when you put down two bucks on a nag running at Pimlico or Jamaica with your favorite bookie—if he is still in doing business at the same old stand.

Not quite all the tax law changes are on the sour side, though.

The 8 1/2 per cent excise comes off your electricity bills. You now can buy baby lotion, a house trailer or a heating pad and a ticket to a high school football game or a symphony concert—all without paying any federal tax. Prices on those tickets may not come down, though, as the high school and orchestra may keep the difference.

All of these changes were in the bill passed Oct. 19 by Congress to provide more money for the military budget, reauthorization of the Truman program

## Eisenhower Is Ordered Home By President

### Pressure Growing On General To Declare His Intentions On Presidential Race

WASHINGTON, Nov. 1.—(AP)—Gen. Dwight Eisenhower is flying home this weekend for conferences with President Truman and other top ranking officials.

The White House in announcing this today, said the General is returning for talks Monday and Tuesday to cover matters affecting his Supreme Allied Command and the North Atlantic defense setup.

He will leave Paris at 10 P. M. (Paris Time) Friday and spend the weekend at Fort Knox, Ky., with top Capt. John Eisenhower. He will confer with the President and other administration leaders Monday and Tuesday, holding some of the conferences at the White House.

President's Secretary Joseph Short told reporters Eisenhower is coming to Washington at the President's suggestion but said that no emergency was involved. However, the arrangements for the trip evidently were quite sudden.

It is BELMAN MORIN, EISENHOWER'S HEADQUARTERS, Nov. 1.—(AP)—The press release by Gen. Dwight D. Eisenhower to declare himself, one way or the other, with respect to the 1952 presidential campaign is mounting. The general, however, he shows no signs of yielding to it.

Eisenhower is scheduled to be in Washington next Monday and is expected to be confronted with the same big questions there.

The essence of the answer to the people who have seen him at headquarters here is this:

He has been entrusted with a big job, as NATO (North Atlantic Treaty Organization) commander. At the same time, he feels that his duty to his country has been discharged, he is not in a position to speculate about any other office, or to discuss any other.

When will that moment come? At the Republican national convention, he might be able to turn it over to someone else.

Eisenhower declines to make any forecasts.

He says considerable progress has been made, the organization is beginning to run smoothly. But he points to an array of formidable problems, still unsolved, that could take a long time to close out.

In the United States some of the people who hope to see Eisenhower oppose Sen. Robert A. Taft for a Republican nomination next summer have expressed the belief that a statement from him would be forthcoming somewhere around the first of the year.

Eisenhower tells them they are better informed than he is. He continually refers to the word duty in his conversations with callers.

He says that some visitors have argued that duty now requires him to at least try for the Republican nomination and for the presidency. He calls that "rationalization" and (Continued on Page Six)

## McKinney Makes Bid For Southern Help To Re-elect Truman

SEMA, Ala., Nov. 1.—(AP)—Senator Byrd (D-Va.), in a letter attack on the Truman Administration, said today only "an immediate uprising of political virility in the South" will save the Democratic Party.

"I am calling on you to save the Democratic Party from elements now in control who have debauched its principles and made it a party of political expediency, one of its members, the downfall of the democracy and all of the freedoms we hold dear," Byrd said.

Restoration of a rule, abolished in 1936, which required a two-thirds majority for selection of the national ticket; elimination of the 1948 civil rights plank; "reaffirmation of states' rights," and endorsement of "the true principles of the Democratic Party."

Byrd's 7,000 word speech was liberally sprinkled with such epithets for the Truman administration as "fiscal trespass," "infamy," "swackness," "moral turpitude," and "the irreparable Boyle."

The best was a reference to William M. Boyle, Jr., who resigned as party chairman yesterday as party chairman.

"If Mr. Truman and the Truman Administration are to be re-elected, it is only the south-

## McKinney Makes Bid For Southern Help To Re-elect Truman

### Senator Byrd Calls For Political Uprising In The Democratic South

By JACK HILL  
WASHINGTON, Nov. 1.—(AP) Building up southern party support, National Chairman James E. McKinney, today, he believes the Democrats face a sure summer south President Truman in 1952."

McKinney, elected yesterday by the national committee to replace William M. Boyle, Jr., told a news conference President Truman has not indicated to him whether his plans to run again.

But the new chairman said he feels very strong that the President ought to be re-elected.

He proposed three changes to the national committee and Congress. He said it was his intention to call a national convention in 1952.

Restoration of a rule, abolished in 1936, which required a two-thirds majority for selection of the national ticket; elimination of the 1948 civil rights plank; "reaffirmation of states' rights," and endorsement of "the true principles of the Democratic Party."

Byrd's 7,000 word speech was liberally sprinkled with such epithets for the Truman administration as "fiscal trespass," "infamy," "swackness," "moral turpitude," and "the irreparable Boyle."

TODAY'S BIBLE VERSE

That is why men of old had the courage and strength of giants. With that help we can accomplish the impossible.

Governor Warren made a speech in Sanford last night. The mountain labored and brought forth a goat.

The Egyptians might just as well quit trying to bluff the British out of Suez now. We don't believe they or anyone else can scare Churchill.

Franchot Tone, celebrated Hollywood movie actor, is arraigned in court on charges of spitting in the eye of a woman newspaper columnist.

Illinois has joined the list of states opening welfare rolls to public inspection. It won't be long before every state in the union will do away with this kind of secrecy.

Just as we suspected, Prime Minister Churchill's decision to cut his own, and his ministers' salaries has started an epidemic.

A three year old Negro child dies in Sanford after accidentally taking sodium nitrate pills intended for an elderly woman with high blood pressure.

Anti-Truman Southern Democrats are meeting in Selma today to see what can be done about staying in the Democratic Party and getting someone for a nominee besides Truman.

In order to dispel the fog from all the charges and counter-charges that are currently being made by the local political campaign, we think it only fair to point out to our readers that A. W. Lee is running against John Kader in Group No. 1.

What you read about how some people can be so happy and joyful that you live in a democracy where the government is so good and so honest...

Purpose Of The Game

Followers of intercollegiate football doubtless have been interested in the efforts of Drake University athletic officials to find a special mask or helmet which would enable Johnny Bright to play for the rest of the season despite a broken jaw.

Bright seemed well on the way to fame as one of the most notable ball carriers on the nation's gridirons. The practice of using such devices raises questions about the game and its purposes.

What is the purpose of college football? Is it only to win victories? It would seem that hardly any other purpose could explain the jeopardizing of the bodies of men with injuries of such a nature that special protection is needed against the hazards of the field.

Savior Of Jefferson

Novellists and playwrights who probe into history for obscure figures around whom to weave a story often make real contributions to our knowledge of the past.

In June of 1781 a British force under Sir Banastre Tarleton was in Virginia, and Tarleton conceived the idea of capturing Thomas Jefferson.

As the capture of Cornwallis took place less than three months later, Jefferson's captivity would not have been long. He might have been killed in the abduction attempt.

Radar Defense Net

The surprise attack by the Japanese on Pearl Harbor has not been forgotten by military men, and constant efforts are being made to assure that such a surprise will not occur again on American soil.

The radar equipment will cost an estimated \$295,000,000. In addition there are to be units of jet fighters which will lurk behind the radar curtain waiting to intercept any attacking planes before they can reach their targets.

When Japan made the attack at Pearl Harbor the damage done by the bombs crippled America's ability to fight in the Pacific for a long time. Surprise was largely responsible.

The sum being spent for this protection seems quite large, but it is a trifle by comparison with the damage which could be done in a single surprise raid.

Senator Byrd

(Continued From Page One) man party are re-elected in 1952, Byrd said, "it will be regarded and rightly so as a mandate from the people of America to push through Congress their whole unconstitutional, socialistic program with special emphasis on civil rights legislation."

Byrd said that if the convention requests he suggested "are denied, we can take counsel among ourselves and determine our course. It would be presumptuous of me to establish a program of action."

Byrd, one of Mr. Truman's bitterest critics within the party, pointed out that the party platform is designed to destroy our fundamental freedoms.

Whelanway, Triple Crown winner who retired in the spring of 1946, is now doing stud duty in France.

Gov. Warren

(Continued From Page One) to 1428 children, and to 35 blind people.

Other "planks" laid during the two year period, included the "haste test" citrus code, which he said stopped the shipping of early green fruit and brought \$75,000,000 of new money to Florida citrus growers.

Other topics included the flood control program, benefits to municipalities of the cigarette tax refund, planting of 60,000,000 new tuberculosis hospitals, and new pine seedling building of the Governor's program of civil defense.

Whelanway, Triple Crown winner who retired in the spring of 1946, is now doing stud duty in France.

BLOOD DONOR OF THE WEEK

Income Tax

(Continued From Page One) show what the income tax boat means:

A single man with \$3,000 net income will pay \$542.40 annual tax; it used to be \$488.

A married man with \$5,000 net income and no children will pay \$843.00 annual tax; formerly it was \$760.

The next biggest revenue producer will be the increase in corporation and excess profits taxes. These will raise an estimated \$2,207,800,000 of extra money annually.

The basic rate on corporations earning more than \$25,000 a year is hiked to 52 per cent from the present 47.

But you probably will run into the tax changes most often in the long list of increases in the excise taxes. There are a few decreases and eliminations, too.

Not all of these excise tax changes will be passed along to the consumer but most of them likely will be and in some cases the price hike will be more than the new rate.

One of the excises—a tax on all bets taken by professional gamblers—blows new ground. It has aroused interest all over the country, among the bookies and numbers operators and those who like to put a bet down now and then.

Few tax experts are willing to risk a prediction on how this will turn out. Its congressional advocates said it would raise \$400,000,000 a year, about 20 per cent of the potential tax take from gambling.

Some gamblers over the country reportedly have asserted it would put them out of business. Members of the old Senate Crime Committee took the opposite view, arguing it would put Uncle Sam in partnership with the underworld.

A few gamblers have made tentative proposals toward compliance by getting a portion of the required treasury funds. It's the extensive reporting of their operations rather than the tax itself which is believed to bother most gamblers.

The tax rate is 30 per cent, levied on the gross amount received by the operator. He is supposed to keep a tally record of money bet with him, and pay the tax monthly.

Besides, the professional gambler may buy a 500-odd-odd man's tax stamp, display it prominently and give the treasury a list of his employees. All of this information would be open to public inspection, including persons a

THE WORLD TODAY

By G. MILTON KELLY (For JAMES MARLOW)

WASHINGTON, Nov. 1.—(AP)—Congress, sharp and persistent critic of the rest of the government, is being asked to draw a straight and narrow path for its own members, too.

First step under the plan would be creation of a commission of distinguished citizens to spell out the difference between right and wrong, and what is shady practice, in public office.

It is "study" and "findings would embrace the entire government set-up, but a Senate labor subcommittee which endorsed the measure counseled that Congress itself needs such guidance as much as others.

"There are fewer traditional safeguards" to keep Congress members in line said a report last month by the subcommittee, which Senator Douglas (D-Ill) heads. "Temptations are more subtle, there is no higher authority, and discipline is rare even for illegals."

"Men think with sovereignty can easily feel that the king can do no wrong," the report said, "and in American politics as it is now, it is easy to feel that many things are justified which one heartily wishes were not necessary."

Among other things, the Douglas subcommittee wants a clearer finding of just how far a Congress member properly may go to help a constituent or others.

ing district attorney. The gambling ban is illegal in all states but Nevada.

The new law does not hit legal part-time betting at race tracks. Nor does it apply to friendly, social games nor to casino gambling such as poker and roulette.

Legal's most valuable player for the past season by a 50-odd count is of the Baseball Writers' Association of America.

Too Late To Classify

By RUSSELL KAY

Would you like to be able to look into a crystal ball and see the world involved in a third World War?

Collier's Magazine, this week, in an effort to impress the people of his country and the world with the danger that confronts them in this perilous hour has devoted its entire issue to "what it terms a 'Preview of the War We Do Not Want.'"

"Employing the nation's top writers, those who would tell the story from day to day in the pages of our newspapers and magazines, on radio and television, should war break out tomorrow, Collier has painted a vivid and realistic picture that it would be well if every human being in the world could read and understand."

It visualizes all-out war with the atomic bomb and other new and fantastic weapons, pictures the havoc and ruin that would come with the terrible destruction of the world's resources and the loss of human life.

Based on information available today such writers as Robert E. Sherwood, Lowell Thomas, Edward R. Murrow, Philip Morris, Stuart Chase, Walter Winchell, Hal Boyle, Erwin Canham, Walter Reuther, Allen Nevens and many others tell the story of what our world and mine would be like should mankind fail to avert such a tragedy as another war.

The period covered by the amazing picture is the next eight years from 1952 to 1960. It is fiction today, of course, but might well be a reality if the peoples of the world do not come to their senses and perfect a world order powerful enough to preserve the peace and prevent another terrible war.

Picture yourself seated on a powder keg watching a fanatic sneaking up to light the fuse that would match you into eternity. Imagine your home situated on the edge of a gigantic volcano that is just ready to erupt and throw thousands of tons of hot lava a mile in the air. It isn't a very comfortable thought, is it?

With such a situation staring you in the face you wouldn't be so concerned about whether you get a raise in salary, or won the golf match next week. It would just be you and God and the powder keg or volcano and you would watch the second hand on your watch and pray, wondering how many minutes or seconds you had left.

TRUTH we have been told is stranger than fiction. While the

Collier story is fiction, it has basis enough to be the stark naked TRUTH, and that is why you and your neighbor should read it and try to grasp its full import.

The mad men in the Kremlin are no different than Hitler or Mussolini or any other would-be world conquerors who have had their way down through the world's history. The fact that they have all failed makes no difference. If the men of the Kremlin miscalculate as did the others, the job will immediately be torn out of them in the most terrible and destructive war in history.

None of these tyrants would have taken the fatal step if they had known beforehand that they were about to be immediately torn out of them in the most terrible and destructive war in history.

It is imperative that the United Nations draw closer together and strengthen their position as rapidly as possible, building their military strength to more than match the Kremlin's.

It is even more important that the free world set in motion a movement to establish law and order for the world, with all nations large and small contributing their fair share to maintaining a police force so powerful that no single nation or group of nations would dare oppose it.

This can be done if each nation is willing to sacrifice some of its sovereignty and in return receive the greater security that united power and effort would insure. America alone cannot hope to do the job all by herself. She needs the aid and cooperation of every free nation large and small, and the present United Nations provides the groundwork for a new world order that can prevent war and eventually insure the peace that all the world wants.

Leaders in the effort to bring about a world of law and order united to maintain the peace are the United World Government. Thinking men and women throughout the nation have worked through this splendid group to avert war through the strengthening of the United Nations, to a point where it can enforce its laws and prevent any criminal nation from taking action that endangers world peace.

ELECT JOHN KADER City Commission Group 1. Wiener Roast Given For Church Class

A hayride and wiener roast was enjoyed by the newly organized Westminster Sunday School Class of the First Presbyterian Church, Dick Aiken, teacher, on Tuesday evening. The party was held at a camp on Banana Lake.
Motion pictures, singing and games were enjoyed during the evening by the following: Misses Mary Stallard, Peggy Fraser, Mary Wamack, Jane Holt, Eloise Henton, Carol Beard, Margaret Malloy, Nora Belle Clause; also, P. R. Hach, John Kridler, Jr., John Keeling, Don Howard, Stanley Brumley, Thomas Fraser, Hob Mero, Hob Insure, Hob Gaston, H. F. Ganns, and Mr. and Mrs. Harris Folds and daughter Cathy, and Mr. and Mrs. Dick Aiken.

Princess Elizabeth

(Continued from page two)
wore heavy coat. The Duke wore a naval uniform.
There was polite handclapping and oohs and aahs—the latter mostly from baby-sitters and apparently in admiration of the handsome Philip.
Mr. Vernon lives 15 miles down the Potomac River from Washington on the Virginia side. For many years it has been maintained as a monument and showplace. Several hundred persons had gathered there.
A dinner was given last night at the Blair House for the Princess and her husband. The Princess was wearing a white and gold lace gown, and looking regal with her diamond tiara and diamond necklace, responded to the President's toast:
"Thank you very much, Mr. President. I propose a toast to the President of the United States."
The dinner was followed by a reception at which the other guests, since only 18 persons could be seated at the oval table in the Blair House dining room.
The White House didn't put out the guest list for the reception. It included most of the top White House staff, reporters noted.
Presidential Secretary Joseph Short said the reception was attended by members of the Supreme Court, the Cabinet and other officials of government, with their wives. He said members of Congress were there, that they came from the Senate and House, and that Republicans were included, but he declined to name any.
Just about the time the dinner guests were arriving in limousines a taxicab drove up in the rain in front of the Blair House.
A bespectacled young man in brown suit and brown coat got out. Newsmen did not learn his name.
To the Secret Service men who accosted him, he explained that he wanted to have dinner with the Princess and the President, too, although he could wait another night.
The man walked him down the street and gave him some advice and a quick "good night."

Mrs. Jean Kittrell Weds Mero Bernard

Mrs. Jean Kittrell and Mero Bernard were married in Lakeland on Oct. 28 in an afternoon ceremony in the First Baptist Church, with the Rev. T. S. Boehm, pastor, performing the ceremony.
The bride is the daughter of Mr. and Mrs. F. J. Krell of Auburndale, and the granddaughter of Mr. and Mrs. T. O. Tyner of this city. The bridegroom is the son of Mr. Joseph Esposito of Lakeland.
The bride, given in marriage by her father, wore a ballerina length gown of ice blue satin with a nylon overskirt. She carried a white prayer book covered with a white orchid and showered with tuberoses and satin strassers. Miss Betty Murphy of Lakeland, was maid of honor, and Miss Betty Krell, of Auburndale, was bridesmaid.
H. O. Martin, of Lakeland, served as best man, and Allen Martin of Lakeland served as usher.
Following a two weeks' wedding trip in Miami, the couple will make their home in Lakeland.

Church Group Meets With Mrs. Coghurn

The finance committee of the Episcopal Auxiliary, which is sponsoring its annual bazaar, met recently with Mrs. J. D. Coghurn at her home on East Second Street with Mrs. S. O. Chase, Jr., presiding.
A full report of the purchase and delivery of chairs for the Parish House was given and letters read regarding the purchase of new tables. Mrs. Chase stressed the importance of the annual bazaar this year as an Auxiliary project since all proceeds are to be applied to the chair and table debt.
Reports were given by all bazaar department chairmen and proposed lists of articles for sale were approved.
During a round-table discussion of new suggestions refreshments of punch and sandwiches were served by the hostess, assisted by Mrs. Fred W. Hall.
The following were present: Mrs. Fred Dyan, Mrs. J. St. Clair White, Mrs. Roy Heller, Mrs. Chas. Mrs. J. L. Ingley, Mrs. P. J. Christerson, Mrs. Irving Polenberg, Mrs. H. H. Coleman and Mrs. Ball.

LAKE MARY By VIRGINIA F. ANDERSON

Mrs. J. H. Skewes was visiting friends in DeLand last week.
Mr. and Mrs. A. N. Scott returned after home some six weeks visiting in Canada, New York and Philadelphia.
Mr. and Mrs. W. Struthers left Tuesday for Cornwall, N. Y., their former home.
Henry Freeman has been transferred to Atlanta by his employers, Swift and Co.
Mrs. J. A. Peckham, who was a patient at the Florida Sanitarium for a week, is home again.
Mrs. Freda Garland has been moved from the Fernal Laughton to the home of her son-in-law and daughter, Mr. and Mrs. W. F. Thorne, Jr.
Mr. and Mrs. Glenn Russ of Afton, N. Y. were in town Wednesday calling on friends. She will be remembered as the former Lois Ferguson.
The Westminster Group of the Community Church sponsored a covered dish supper Wednesday evening at the Chamber of Commerce. It was well attended and the evening refreshments of fruit punch and cookies were served to the guests.
Mrs. J. R. Williams was hostess Friday evening at a Stanley Bush Party. Mrs. Hall and her assistant Mrs. Phillips of Orlando, demonstrators, were in charge of the games played and later of the demonstration of the products. At a late hour refreshments of fruit punch and cookies were served to Mrs. Frank Minshaw, Mrs. C. P. Brasington, Mrs. James M. Thompson, Mrs. H. R. Heckler, Mrs. P. D. Anderson, Mrs. G. R. Patterson, Mrs. B. B. Franklin, Mrs. Hall and Mrs. Phillips.
Lester Tillis of Waycross spent the weekend with his parents, Mr. and Mrs. L. C. Tillis.
Mr. and Mrs. Floyd Johnson at 1515 Friday from Indianapolis, Ind. to visit his mother, Mrs. G. E. Johnson.
I. Kent who has been in the Veterans Hospital in Atlanta, is visiting his brother, C. T. Kent.
Roy C. Brannon left Monday to attend the Meeting of the Preachers of the Church of the Nazarene at Bradenton. He will be gone until Thursday.
Miss Mary Elizabeth Sjoblom of Holtville, Mich., arrived Saturday to spend a month with her parents, Mr. and Mrs. C. W. Sjoblom.
Mr. Al Bryant, Jr. and sons, Randy and Kevin are visiting her parents, Mr. and Mrs. W. F. Thorne, Jr., arriving Saturday from their home in Winter Haven.
Saturday from 10 day visit with relatives in Tampa. Accompanying her home were Mr. and Mrs. Buddy Whidden.
The Home Demonstration Club met Thursday at the Chamber of Commerce. Mrs. Joe Ervin gave a report on the County Council meeting. The needs of the L-H Club were discussed. There are 17 girls who want to join. If a club can be organized, Mrs. James Dingman appointed the L-H Leaders. Members exchanged recipes and enjoyed a demonstration of cotton materials, as shown by Mrs. Robinson.
Mr. and Mrs. Cecil Nixon were hosts Thursday evening to a quartet Service supper at their home. Enjoying this were: Mr. and Mrs. Louis Humphrey, Mr. and Mrs. C. Castleberry, Mr. and

Servicemen's Party Is Given At Center

A servicemen's party, sponsored by the Anna Miller Circle of Elks Club, was held last night at the Navy Center with about 40 people in attendance.
Ping pong and card games were enjoyed and a highlight of the evening's entertainment was fortune telling by Mrs. R. C. Maxwell.
Refreshments of cake, cookies, coffee and orange juice were served to those present.
Hostesses in charge of the party were Mrs. Henry Thurston, chairman; Mrs. Pete Duker, Mrs. Helen Hale and Mrs. A. B. Telford.
LEGION AUXILIARY MEET
The American Legion Auxiliary honoring servicemen's wives, will hold a social hour in connection with its regular meeting to be held on Friday night at 7:30 o'clock at the Legion Hut. Anyone eligible to join the Auxiliary is cordially invited to do so.
Mrs. H. E. Butler, Mr. and Mrs. A. L. Oney, Mr. and Mrs. C. W. Wicks, Mr. and Mrs. W. W. Milson, Mr. and Mrs. Richard Keogh, Mrs. L. Morton, Mrs. Ellis Lloyd, Jr., Mrs. H. B. Greer and Mrs. E. Lawton.
Mrs. J. L. Bullard, Mrs. Frank Minshaw and Mrs. W. P. Burke and daughter Gayle spent Sunday afternoon with the M. Flanders in Winter Park.
Mrs. J. Matthews of Waycross spent the weekend with his brother-in-law and sister, Mr. and Mrs. L. C. Tillis.
Mr. and Mrs. P. D. Anderson were in Orlando, Sunday afternoon, the guests of Judge and Mrs. E. G. Duckworth.
Mrs. Ernest J. Cole was called to Clearwater Friday by the death of her sister following a long illness.
Mr. and Mrs. E. Vechter of New York have purchased the Mrs. Lloyd, Jr. house on Wilbur Avenue.

### Dodger's Roy Campanella Named Leagues Most Valuable Player

By HALPH RODEN  
NEW YORK, Nov. 1.—(AP)—Roy Campanella will always remember 1951.

Throughout the year the husky, hard-hitting catcher of the Brooklyn Dodgers was hampered by injuries, but now Campanella has reaped the fruits of his labors. He was named yesterday as the National League's most valuable player.

Campanella is only the third catcher since 1931 to win the coveted award. The other receivers of the honor were Gabby Hartnett of the 1935 Chicago Cubs and Ernie Lombardi of the 1938 Cincinnati Reds.

The 29-year-old Dodger star collected 440 points out of a possible 500 to win in a breeze. Stan Musial of the St. Louis Cardinals, winning his fifth batting title with a .355 average, finished second with 191 points.

Campanella reached in Houston where his All-Star exhibition team in stopping was surprised when he formed that he had won the award. "I had forgotten all about that award," he said. "After we were beaten in the playoff by the New York Giants, I just didn't think about it any more."

Campanella's selection marked the sixth time since 1931 that a player not on a pennant winner won the award. The others were Chuck Klein, Philadelphia, 1932; Ducky Medwick, St. Louis, 1937; Lombardi, Cincinnati, 1938; Bob Elliott, Boston, 1947 and Musial, St. Louis, 1948.

The star backstop drew 11 first place votes while Musial, only player named on every ballot, collected two. Trailing Musial were Monte Irvin, New York, third, Hal Maglie, New York, fourth, Frenchy Hoer, Brooklyn, fifth, Jackie Robinson, Brooklyn, sixth, Richie Ashburn, Philadelphia, seventh, Muzzy Dickson, Pittsburgh, ninth and Ralph Kiner, Pittsburgh, tenth.

Some 58 players received votes of honorable mention but Jim Konstanty, Philadelphia's relief pitcher and the 1950 winner failed to draw either a vote or honorable mention.

Campanella enjoyed a great season despite his series of injuries. The collapse of the Dodgers who blew a 13 1/2 game lead and lost the pennant to the Giants in a playoff, was no fault of his.

The well liked receiver's injury string began last August when an oil-burner in his home exploded and nearly blinded him. Campanella suffered a slight fracture of his right thumb during spring training.

During the season he was spiked on the head by arm trouble and was hit on the head by a pitched ball by Chicago's Turk Lown. On the final day of the regular season he sustained a sprain in his left thigh and caught only the first of the three playoff games against the Giants.

Despite these injuries Campanella played in 144 games, collected 235, fourth highest in the league, drove in 108 runs and pined 58 home runs.

**Football Fatalities Decrease Sharply**  
LOS ANGELES, Nov. 1.—(AP)—Football fatalities have decreased sharply this fall compared to the same period a year ago, Dr. Floyd R. Eastwood, chairman of the American Football Association's committee on football fatalities, disclosed today in a mid-season report.

To date there have been five deaths traced directly to football, and five indirect fatalities. Last year at this time there had been 12 direct and four indirect deaths, or 17 compared to this year's 10.

Colleges totaling are the same, with one direct and one indirect fatality. The biggest drop was in high schools. Only two direct deaths have been recorded this fall, compared to nine a year ago at the same time last year.

Five of the total fatalities were caused by head or neck injuries. Dr. Eastwood said the head and neck injuries indicate the use of faulty, inadequate or no proper padding. He stressed the importance of careful examination and adjustment of helmets.

Dr. Yancy, sophomore sportsman at Syracuse University, has an ace in the hole. He is from Baltimore, Md.

The vision of the U. S. mint is established in Philadelphia, Pa.

### Junior High To Tackle Ocoee In Pilot's Benefit

Varsity Travels To Hollywood To Take On South Broward

The Seminole High School Marching Band will be out in force tonight when the Junior High football team clashes with the Ocoee team at 7:15 on the local field in a benefit game for the Pilot Milk Bank.

The holy Celery Feds will be trying to repeat an earlier win over the Ocoee outfit when Coach Howard Gord's boys came out on the top end of a 27-18 score. Big threat to Sanford victory hopes will be Mickey Cox, fleet Ocoee halfback. "If we can keep two arms wrapped around his legs we'll be alright," said Coach Gord.

The coach is keeping his start-line line a secret until game time but promises that some of the boys will be starting their first game as he pulls some switches in the lineup.

Tomorrow night the varsity team travels down the East Coast to Hollywood where they will play the South Broward eleven. The Broward boys have not had an outstanding season to date and the game may prove a chance for the Sanford team to even up their win-loss record.

The local sound met and came close to heating one of their toughest opponents of the season when they lost to a St. Augustine team that is currently unbeaten in conference play.

If the team plays the same brand of football tomorrow night, they should come out with a victory over the South Broward outfit.

**Michigan Normal Dispute Quieted**  
YPSILANTI, Mich., Nov. 1.—(AP)—Merrill Hersey returned to his job as trainer of the Michigan State Normal football team today and the school said peace had been restored to its athletic department.

Settlement of the two-day dispute was announced by Ralph Gliden, chairman of Normal's Board of Athletic Control.

Head Football Coach Harry Ockerman removed Hersey Monday. He said the trainer was not inflicting his training room duties properly.

Following Hersey's removal rumors developed that there had been "irregular" use of force on injured athletes who were returned to the games in which they were hurt. Novocain is a pain reliever.

Gliden called a lengthy meeting of the athletic board failed to discover any foundation for the rumors.

**Wooden Is Nation's Leading Pass Snager**  
NEW YORK, Nov. 1.—(AP)—George Wooden, Oklahoma A & M end, who failed to catch a pass in the last two seasons, leads the nation in pass receiving for 1951, statistics by the NCA Service Bureau showed today.

Wooden moved to the head of the class by snaring eight passes against Detroit last Saturday. This boosted his output to 58 caught and increased his yardage gained to 865. Dewey McConhill, Wyoming and Fred Snyder, Loyola (Calif.) are tied for second with 27 each.

Bobby Wilson of Alabama was revealed as the major college punting leader. Wilson has averaged 43.4 yards on 34 punts. Joe Devers of Drake is second with an average of 43.0 yards on 33 punts.

Harry Babcock of Georgia ranks fifth among the pass receivers with 28 passes caught in six games for 602 yards. Two were touchdowns passed.

Georgia Tech's Dave Davis ranks tenth as a punter. In six games he booted the ball 23 times for a 40.7 average.

He is scheduled to leave for Seattle on the first leg of the trip on Nov. 10.

### Gator's Sullivan Slips From List Of 20 Top Aerialists

NEW YORK, Nov. 1.—(AP)—What happened to football this year? Is there something out of kilter that has turned it into a scoring race instead of an even contest between offense and defense? When you see scores like 60-42, 53-20 and 42-85 popping up all over the country, you begin to wonder. You can't blame those on short fences and the lively ball.

One of the better thinkers in the coaching business, Columbia Lou Little, thinks personnel and offensive-minded coaching may have something to do with it. Fordham's Ed Danowski agrees. "We've lost the art of tackling," he says. "The coaches have coached such things, you keep close watch on such things, goes on with an explanation that makes it appear possible that the rule-makers have lost that fine balance they were so careful to preserve back in the block-of-granite days when they loosened up the offense a bit to get away from screeching games of the past."

Greater offensive weapons at their disposal than they had a few years ago. The attacking front is from sideline to sideline. And there actually are four teams in each class under the platoon system so when you get two strong offensive units against two weak defenses, you're bound to have a lot of touchdowns. "Maybe it's a change now, but its tough trying to pick the winners when a team can score four times and still take a beating."

**Plakin Pirkin**

By Laurie Lee  
Those Tar Heel tacklers sure will tell.

**Michigan vs. Illinois**  
The Wolverines can ease the pain by drinking a toast in fine champagne.

**Brown vs. Princeton**  
Kaz.

**Easy Does It**  
When the Boston Celtics started basketball practice this fall, Coach Red Auerbach named his big star, easy Ed Maculey, as team captain. "After a few games, Ed announced the coach," "Loak, Red," he said, "I'm down there in the pivot all the time and can't see what's going on. Why don't you make Bones McKinney captain? He can see the plays and he's a great guy to holler at the referees." So that's the way it is and Ed can take it easy.

**Cleaning The Cuff**  
Andy Kerr, who spends his time scouting talent for the East-West game, chuckles that his real objective is to collect royalties from the guys now using his old double wing formation. "Alice Archer, who collected as many handshakes as if of Texas ticket manager as Blair Cherry ever did coaching football, resigned in mid-season to go to the Penn State coaching staff as Iowa's head football player since 1949. First big individual duel of the basketball season should be the one between Dick Roberts and Duke Temple Dec. 1. Great was major college high scorer last season and Mikky had the best per-game average. Quite a week for Mrs. Sunny Engle, wife of the Penn State coach. "Rip stuffs himself with vitamins."

**HALL OF FAME**  
NEW BRUNSWICK, N. J., Nov. 1.—(AP)—A 12-member Football Hall of Fame honors committee will hold its first meeting Saturday to choose 10 to 30 gridiron greats to immortalize.

More than 200 former stars have been nominated for places in the football shrine to be set up on or near the Rutgers University campus.

George DeLoach, played on the New York Giants, played football and baseball at Ohio State University.

He fills the first three days of the week, then I have to fill him with sedatives the last three."

**BEAUTIFUL BLOOMS**

### Neyland Taking No Chances On Vols Losing To North Carolina

(By The Associated Press)  
Rain slowed some of the Southeastern Conference teams in practice yesterday and drove Vanderbilt indoors, but Gen. Bob Neyland had his Tennessee Vols through another long session.

Although North Carolina has one of its less successful teams this year, Neyland is taking no chances on the top-ranking Vols losing their first game in 16 starts.

Three offensive units spent the afternoon running the famous Tennessee single wing power plays. Tailbacks Hank Lauricella, Hal Payne and Larry Crowson practiced at length kicking the wet field.

The rain gave Alabama Coach Red Drew a chance to test Quarterback Clell Hobson at wet ball handling and the Tuscaloosa, Ala., junior came through with flying colors.

On the defensive side, the Tide worked all afternoon on formations designed to stop the touchdown passes of Georgia's Zelle Frankowski.

Two injured Georgia guards returned to action at Athens and another was shifted from offense to the defensive platoon. First stringer Jeff Hurgumy, out since early in the season, and Sepha Moore Turner (Griffith) were the returnees. Griffith will supplant Ed Greenway at the number one offensive right guard. Greenway was moved to defensive right guard.

Vanderbilt stayed indoors and saw movies of last year's game with Chattanooga. The Moccasins led Vandy at halftime last year before losing, and Coach Bill Edwards warned his charges that their Saturday opponents should not be taken lightly.

Kentucky worked out lightly in a cold rain at Lexington and worried about Miami's pass defense, which did not allow Mississippi a completion last week.

Underneath Georgia Tech emphasized defense with a "wrench or Duke's split-T" attack. The Yellow Jackets haven't faced a split-T offense all year. Coach Bobby Dodd praised two senior members of the Tech defense line, Ed Pete Ferris and Tackle Lamar Wheat.

Dodd called Wheat, 200-pound team captain from Chattanooga, "one of the finest defensive linemen I have seen at Tech."

Auburn lost its second tackle in two days and is grateful for Saturday's breather with Louisiana College. Gene Mulhall pulled a thigh muscle and joined Bill Turner, leaguer on the sidelines.

Mississippi State sharpened its attack with a scrappy scrimmage in the last contact work before Saturday's meeting with Tulane. Coach Arthur Morton used Frank Branch, Tom Hurston, Wally Beach and Bill Stewart as his line backfield. This unit topped Georgia, 6-0 four weeks ago.

There were indications at New Orleans that Fred Dempsy will replace "Pie" Clement as Tulane's starter at quarterback Saturday. The 165-pound Chicago junior has been standing out in this week's drills.

Coach Gaynell Tinsley surprised his Louisiana State gridders with the first light mid-week workout in weeks. Still experimenting with his low scoring offensive backfield, Tinsley had Freshman Cliff Stringfield running at the No. 1 quarterback spot. Stringfield, the team's extra point specialist, fills the first three days of the week, then I have to fill him with sedatives the last three."

### Prospects Are Dim For Providing Korean Fighters With Better Jets

By ELTON C. FAY  
Associated Press Military Affairs Reporter

WASHINGTON, Nov. 1 (AP)—Prospects are dim that the Air Force will get for use in Korea new jet fighters definitely superior to the enemy's Soviet-made MIG's, unless the war drags on for a long time.

Air Force experts said today they knew of no radically new type fighter now in production which can out-perform the F-86 or other American jets in their almost daily duels with MIG's in the high, thin air above the Yalu River boundary area. The F-86 and the MIG-15 are rated about equal.

There are in the U. S. better planes and engines in development or approaching the production stage—no there probably are in

### Establishment Of Post On Religion Is Urged By Editor

NEW YORK, Nov. 1 (AP)—Establishment of a government Department of Religion with Cabinet status was proposed last night by Alexander F. Jones, executive editor of the Syracuse (N. Y.) Herald-Journal.

The department should include representatives of all the leading church groups, said Jones, who is president of the American Society of Newspaper Editors.

Speaking at a meeting of the Queens County Medical Society, he opposed socialized medicine and President Truman's recent security news curb.

He also touched on party politics, saying: "Twenty years of any one party with the same old gang in office leads to a closing of the eyes to things that came up like the Reconstruction Finance Corporation and the Internal Revenue thing."

A word from the top, whether it is government, a medical society or a pants factory, always straightens out the morals of the organization."

### Leap Year Lobby May Be Newest In Pressure Politics

By HAL BOYLE  
NEW YORK, Nov. 1 (AP)—The country may face something new in the way of pressure politics in 1952—a leap year lobby.

Labor is organized, farmers are organized, manufacturers are organized, dog owners are organized. They banded together long ago to get what they want out of government.

But spinsters? So far they have gone it alone.

Next year, however, is election year. It is also the one-year-in-four when old maids and bachelors traditionally can openly put a half-nelson on the man of their choice and lead him to the altar.

And it seems like a good time for the lonely ladies to get wise and organize—to create a solid voting bloc and tell each political party: "Never mind all that usual foible about equal right for the bleaker sex. How about putting a plank in your platform pledging government dowries for doughless dames?"

There are millions of husband-seeking ladies in America of voting age. And it will take a mighty high-principled advocate of economy in government to stand up against them if they make a feminine pass en masse for a handful of the gold buried at Fort Knox.

A number of girls hold the belief that dollars make sense when it comes to snaring a wary male. "I got a guy I could marry today if I could buy him the car he wants and make a down payment on a decent house," said one. "But all my spare change has been going into paying income tax. Why shouldn't Uncle Sam give us a dowry as a kind of tax rebate like some corporations get, payable right after the wedding ceremony? The government would get it all back later—in more taxes."

And another said: "If Congress doesn't give me some kind of allowance to finance me, I'll surely get an old maid. All men seem to want from a girl these days is money, money, and more money. I've been buying my trousseau for years, and you know what keep it in? A cigar box."

A widow I questioned said she thought widows ought to be given a double dowry—just to make things fairer.

My old friend, George Durst, a reader from Jamaica, N. Y., is already planning for a national matrimonial week during leap year.

"They have all kinds of special weeks now, from candy week to macaroni week," he wrote, "and you don't love your mother unless you buy her an ostrich during national ostrich week."

"A national matrimonial week might convince millions of well-to-do unmarried women it is more logical to own a husband than a paid income tax receipt."

Durst feels the government's recent grant of \$2,000 to a sociologist to study love and marriage in America is only a drop in the bucket. He favors the creation of "a federal matrimonial bureau as a department of romance" to bring single guys and girls together. He suggests it could be done by printing a federal matrimonial bulletin, listing the eligibles.

"The U. S. Postage Office already publishes 1,000 varieties of leaflets ranging from how to fry snoballs to how to dance like a penguin with ants in his tux."

Those are a few signs of the pre-leap year groundswell in the problems of love and matrimony across the land. It looks like there'll be something new in '52.

In Great Britain the autumn foliage seems dull when compared to North America's.

UNITED NATIONS NEGOTIATORS leave the conference tent at Panmunjom after Communist delegates agreed with the U. N. contention that an armistice line for the Korean war must be "related to current battle positions." Two M's stand guard outside the tent as Maj. Gen. Henry Hodges (left) and Rear Adm. Arleigh Burke leave. (International)

### Sen. Taft Raises Old States Rights War Cry Of South

KNOXVILLE, Tenn., Nov. 1 (AP)—Sen. Robert A. Taft revived the Democrats' own ancient states rights battlecry last night as he opened a campaign to widen the breach in the Solid South and gain conservative Democratic support.

"We must put on an all-out campaign in all Southern states in behalf of the Republican nominee," he said in his first Dixie invasion as an avowed candidate for the GOP nomination.

He spoke as a Republican ally in the center of strongly Republican east Tennessee, but he drew some Democrats to a \$25-a-plate GOP dinner.

"We must seek support for (Republican) nominee from all Democrats, whether in north or south, who don't believe in dishonesty of

Socialism, and who want to see an American foreign policy," he said.

Turning to foreign policy, Taft said, "The Korean war is wholly unnecessary and was brought on by the bad judgment of the President. The State Department practically invited the Communists to move in."

He added: "The net result has been to show that the little aggressor gets stepped on but the big aggressor gets away with it."

Taft said Republicans must make an all-out campaign against these features be attributed to the Truman Administration:

1. Increased government power and government spending.

2. Carelessness in government and influence peddling.

3. Foreign mistakes in foreign policy.

4. The soft attitude toward Communism.

Chapin gave his first speech at the age of nine.

Russia—but they aren't ready now although they may have advanced to the experimental model stage several years ago.

The warplane coming out of American factories now are aircraft designed and ordered before or in the early days of the Korean war.

A recent news conference remark by Secretary of Defense Lovett points this up. He said we'll begin to get early in 1952 completed aircraft which were provided for by funds appropriated in 1950 (either before the outbreak of the Korean war or soon thereafter).

Because there is some flexibility in the design of a plane even when mass production lines have started, certain changes made in equipment or parts may produce some degree of improvement. Therefore, the present series of North American F-86's flying in Korea will not be as good as F-86 "E" series planes now starting to come off the line.

Modern, specialized types of jet fighters, like the Northrop F-80 and the Lockheed F-94 "all-weather" planes, are in production. They are particular-purpose planes, equipped with extensive radar to help them find a target in any kind of weather—day or night.

The performance and general characteristics of the two jet fighters or types which engage each other most frequently are strikingly alike (which is not strange, since many of their features grew out of the same common design by Germany's Luftwaffe engineers in the latter days of World War II). Here they are:

The MIG-15—speed at high (25,000 feet or more) altitude 600 to 650; rate of climb, 10 feet per minute, between 8,000 and 9,000; total weight with fuel and armament about 11,000 pounds; angle of sweep-back in the wings 40 to 45; maximum speed about 700; engine 5,000 pounds thrust in original design copied from Britain's Rolls-Royce Nene engine although this probably has been stepped up lately.

The F-86—speed and rate of climb approximately same as MIG; range slightly longer, perhaps by about 100 miles; weight slightly over 10,000 pounds; sweep-back angle 35 degrees; armament six 50-caliber machine guns, up to 10 five-in. rockets; power, 5,200 pounds thrust.

Why does it take so long to build today's warplanes?

The Air Force and the industry have a handy, cover-all phrase to answer the question: "Lead time." Actually, "lead time" isn't the whole answer but it accounts for a large part of the interval between a congressional authorization to start buying a certain type plane and the time when the first production model rolls, shiny and new, out of the factory.

The lead time for a fighter is about 18 months. For a bomber it is 24 months.

Police received a telephone call from an unidentified man who said the Medical Society Building would be blown up by a time bomb.

Four hundred people were ordered out of the building while police searched it. When the "bomb" was given, members of the society fled back in and Jones finished his talk.

Reliterating his opposition to President Truman's directive to government departments to withhold information which they think might be harmful to national security, Jones said:

"I know of no single incident of violation of national security by any newspaper in the past 15 years."

Jones said he asked presidential press secretary Joseph Shero for a definition of security, and the answer: "We tried to figure it out for six months and haven't been able to do it."

"It's not that difficult," Jones declared. "Security may be defined as any information of value to the enemy, balanced against the right of the people to know it."

In wartime, any item published in the newspaper may be of value to the enemy—weather, carloading, production figures. All of these are of value to the enemy but must be known to newspaper readers."

On the subject of socialized medicine, Jones said this country never will have it as long as doctors inform the press of their common daily accomplishments. "The grass roots" must be the source of successful opposition to socialized medicine, he said.

Nearly one-third of the sky visible from the U. S. has been photographed and recorded out to a distance of 350 million light years.

The "sky survey" being made at the Palomar Observatory of the California Institute of Technology is being recorded through the giant 18 inch "Big Schmidt" telescope.

### Ex-Polish Leader Brought To Trial On Tito Charges

WARSAW, Nov. 1 (AP)—Poland's Communist-ruled parliament today authorized a trial on charges of "dangerous" activities for Wladyslaw Gomułka, former vice premier who has been accused of treason, and two other former high-ranking officials.

The chamber was only half full when the Sejm parliament adopted a resolution taking away Gomułka's life term. Marian Spychalski, former minister of defense, and Dr. Jozef Patek, former minister of post and telegraph.

The trial was authorized on the demand of the prosecution general. Spychalski is to be tried for crimes against the state, Gomułka for "activities especially dangerous during the reconstruction of Poland," and Patek on charges of embezzlement.

No date for the trial has been announced, but there has long been an expectation that Gomułka would be arrested as a "deviationist" from Stalinist policies. He has been accused of "nationalism" and of activities in competition with Titoism.

(Titoism means, in today's parlance, independence of Moscow. It was for such independence that Tito's Yugoslav Party was thrown out of the Cominform, and that former Communist leaders in other satellite countries were tried and executed.)

Evidence for the cases against Gomułka and Spychalski has been obtained from the trial last August of a group of army officers, the announcement indicated.

Spychalski, 46, was a witness during the Warsaw trial. There was

### Penny Will Buy Little, Yet Is Much In Demand

By SAM DAWSON  
 NEW YORK, Oct. 31.—(AP)—The penny is worth so little in the market-place these days that it will buy you practically nothing. And yet it is so much in demand and so scarce that some companies are offering to pay a premium to get a supply of pennies. They need them in their business and can't get enough.

Dimes don't buy what they did either. And yet they too, are often scarce and in great demand. It's because we're in a slot or vending machine age, needing more metal coins. And there are only about as many coins per person now as there were at the turn of the century before money-in-the-slot became so dominant in our economy.

The Federal Reserve Banking System pleads with the kiddies to empty their piggy banks and bring in the pennies to help out the banking system, which can't supply the demand.

The U. S. Treasury, which is looking for several billions of dollars to make up an expected deficit, takes time off to ask housewives, please, empty the sugarbowl of the penny hoard and take it to the bank.

Federal mints are turning out more than eight million pennies a day and can't keep up with the demand.

And banks sometimes can't give their customers all the dimes they want.

The dime cut the nickle out of

the popularity parade when prices went up on many things. Now it takes a dime in most telephone booths, most transit turnstiles, most vending machines and parking meters. The dimes dropped in these receptacles are apt to take a week or 10 days rest before getting back into circulation again.

The penny's popularity seems the more remarkable since it does not buy much anymore. But there are explanations of the great demand.

In many cities the sales tax means that the cashier asks you for some pennies when you pay for your meals or other purchases. Bus drivers are likely to ask you for 12 cents instead of 10. Knowing this, many passengers try to keep a supply of pennies on hand to get around the nuisance of making change while the bus is lurching down the street.

Vending machines often need pennies to make change. In Lorain, Ohio, the Cigaret Sales Co., which distributes cigarettes through vending machines, says it needs 600,000 pennies a week to insert into cigarette packages. It says it will pay you \$102.50 if you bring \$100 worth of the coppers.

The growth of vending machines, meters, and other automatic coin devices, along with the sales tax, and the tendency of stores to mark goods at \$1.97 instead of \$2 as of old, may be the cause of all the shortages in coins.

The Family Economics Bureau of the Northwestern National Life Insurance Co., Minneapolis, Minn., reports that there is only a little more than \$10 worth of coins for each person in the nation today. That's just what there was per capita in 1900.

Folding money, however, has gone up from \$12 per person in 1900 to \$170 in 1951. Back in 1900 it was the other way around. Two out of every three dollars in circulation was in hard coins and only dollar in paper.

The bureau notes that in the early days of the Republic nearly all money transactions were handled in coin, and during most of

### De Bary Doings

By KAY HENNINGER

If there is such a thing as a typical New Yorker, Henry W. Klepper is a perfect example. He was born in the Greenpoint section of Brooklyn and lived there until 1940 when he moved to Long Island, first to Hollerose and later to Jamaica. His father was a native of Hanover, Germany, but came to this country

the last century in paper money. But today out of every \$100 in commercial transactions, the bureau says only \$10 worth of currency is used, compared with \$80 in checks. But still the demand for small change grows and spot shortages in pennies and dimes crop up from time to time.

The director of the U. S. Mint says that since the war started in Korea the mints have turned out more than 867 million pennies. Where they all went to, the director doesn't know. But a lot must be in piggy banks, sugar bowls and bureau drawers.

Since copper is one of the scarcest of defense-needed metals, the mint would like to see the copper it uses for pennies be utilized to the fullest.

when he was 16 years of age. His mother was born in Greenwich Village, New York, of Alsatian parents.

As a little boy, he attended the local public schools and was later graduated from Boys' High School in Brooklyn and from Wright's Business College. His first job was in the office of Registrar of Deeds of Kings County where he worked as a clerk for one year, from April, 1922 until Mar. 17, 1923. He next went to the Department of Water Supply, Gas and Electricity. Three years later, he received his appointment as "Water Measure". This title was later changed to "Inspector of Water Consumption". At the time of his retirement on Nov. 1, 1949, he was assistant to the Chief Inspector of this same bureau, having given good and satisfactory service to the City of New York for 17 years.

During these years, he became interested in Free Masonry and had an extremely busy and interesting career as a Mason. He joined Greenpoint Lodge No. 403, F. & A. M. This was on June 20, 1907, and in 1921 he became the Master of this Lodge. He is Past High Priest of Altair Chapter 237, R. A. M., Past Commander

of Pilgrim Commandery, K. T., Past District Master of Huntington Council 70, R. S. M., Past Patron of Radiant Chapter 35, O. E. S., and Past Representative of Grand Chapter of Iowa, U. A. M.

When we remarked that we considered him a story teller of no mean ability, he smiled and said, "Both my parents could tell a story well." He was frequently called upon to tell some of his yarns and gradually found himself doing all sorts of amateur theatrical work. He took part in minstrel shows, amateur circuses and musical comedies. After he had been in a prominent part in a "Gillie-Girlie" show. As the bride in a sun-shot wedding, the mother in a mother and baby skit, and in an impersonation of Billy Watson, he was a decided "hit". It was in this last number that he introduced his now famous Schults story. His retentive memory stood him in good stead on De Bary last May when he told a story in German Dialogue which he had heard Gus Williams, the raucavillian, tell 40 years before and he had heard him do it just once.

In New York, he was active in

politics in the Democratic Party and was a member of the organization in the various districts in which he lived. His father gave him his first lesson in Civic Government and father and son talked politics constantly. He is still a Democrat.

At the age of 52 he met and married Helen who says she took so much of his time that his organizational work was curtailed. He appears to have thrived on the change.

Here in De Bary, he has taken his place as "a quiet leader." Frequently, at meetings of the residents, when discussions have been lengthy or have, perhaps, wandered from the point, Harry has quietly risen and, in a few well-chosen words, clarified the situation. He does not, however, desire any special notice or acclaim. He has just one ambition at present, namely, to beat Lou Hofman at shuffleboard.

Today, on the second anniversary of his retirement, we congratulate Henry Klepper on his successful career based on loyalty and faithfulness to duty, and we want him to know that we of De Bary consider ourselves fortunate in being associated with him.

## 5 Killed In Anti-French Morocco Riot

### Iranian Reds Demand U. S. Oil Install- ation; Egyptian Situation Tense

CASABLANCA, Morocco, Nov. 2—(AP)—French authorities reported today five persons were killed and 70 injured by bullets and stones in anti-French nationalist riots to prevent voting yesterday in Moroccan local elections.

About 500 rioters were jailed. French sources said "calm seems definitely to have returned." Soldiers, called out last night to guard the Arab quarters of Casablanca, returned to their barracks today without having had to use their weapons.

French officials had warned earlier this week that nationalist feeling in Morocco was becoming explosive. French sources said yesterday's trouble was started by a group of Moroccan youths who stoned voters and pulled benches to the battle cry of "long live Istijlal (independence party) — long live Morocco."

Police were said to have fired submachineguns into the air. Answer shots splattered from the terraces of the white Moroccan homes. Rioters attacked an armored police car. Police fired back at them.

Police were attacked in several sectors of the city. A military truck carrying troops was destroyed, but none of the soldiers was reported injured.

## Royal Couple Bid U.S. Farewell Following Quick Sightseeing Tour

By ED CREAGH  
WASHINGTON, Nov. 2—(AP)—President Truman, saying goodbye to Princess Elizabeth and the Duke of Edinburgh, told them today their visit has strengthened prospects for world peace.

"Your visit here has tightened the bonds between us," Mr. Truman said. "I am sure you will go back to your country with a 'welcome' message to your people."

Elizabeth and Philip, who left for their sightseeing tour of the United States last week, were seen today at the White House.

On behalf of her father, King George VI, Elizabeth presented to Mr. Truman a rare pair of English candelabra and a carved gilt landscape mirror with a huge flower painting inset above it.

The farewells, winding up a busy 48-hour visit by the royal couple to the U.S. capital, were held at the White House.

Elizabeth said she hoped they would be a "welcome ornament" to the renovated White House. The executive mansion is now undergoing its most extensive reconstruction since the British burned it in 1940.

The president called it a "magnificent gift" and said the King was "very thoughtful and generous" to send it.

Elizabeth and Philip packed a white wind-sighting trip into their final hours this morning.

First they had a quick look at the beautiful Washington Cathedral, then went from there to Capitol Hill to see the Capitol itself, the Library of Congress and the nearby Supreme Court building.

The day was cold, drizzling rain. The princess wore a forest green, long velvet, close fitting coat over an olive green crêpe tulle dress with short sleeves and soft belt. Her hat was a lighter color green, off the face and close fitting and trimmed with feathers on the right side. Her accessories were brown. Her husband, Philip, was in naval uniform.

They were met at the cathedral by Angus Dun, Bishop of Washington. With him was Francis B. Sayre, Jr., dean of the cathedral and grandson of the late President Wilson.

The Bishop walked with the Princess and Philip dropped behind to bid them farewell.

Despite the weather, a crowd of about 2,000 had gathered in the cathedral grounds to see the royal couple.

The cathedral, dedicated in its entirety as the fifth largest in the world, is an Episcopal Church. Of all the tourists who have visited it, Elizabeth and Philip may have had the fastest time. They walked through the place and came out the other side in 14 minutes.

Elizabeth was presented with a hibernian from the cathedral's Glasgow thorn. The thorn is a cutting from a tree at Glastonbury, England. Legend says the tree was once the staff of Joseph of Arimathea.

## Reds Press For Korean Buffer Zone

WASHINGTON, Nov. 2—(AP)—Gen. J. Lawson Collins today expressed the opinion that there would "ultimately be a truce in Korea." The Army Chief of Staff returned yesterday from a world tour. His last two stops were in Korea and Japan.

By WILLIAM JORDEN  
MUNSAN, Korea, Nov. 2—(AP)—Red troops negotiators pressed Allied delegates today to accept the Communist proposal for a cease-fire buffer zone across Korea—but balked at issuing an ultimatum.

Brig. Gen. William P. Nuckin, United Nations command spokesman, said the Communist subcommittee at Panmunjom urged the Allies to give up their demands for Kaesong and accept the Red line.

Major Gen. Henry I. Hodges, head of the U. N. subcommittee, asked the Reds if they were issuing an ultimatum.

"They refused to answer directly," Nuckin said, "and were evasive, saying they were necessary on both sides."

Two meetings during the day wound up with "no progress," Hodges said.

While the truce teams argued, small fights erupted between patrols all along the snow-covered battlefield. No heavy fighting was reported as ground troops waited to see what happened at Panmunjom.

The air over northwest Korea flared with nine jet battles—four for a single day. One Red jet was shot down and four damaged. The Fifth Air Force said no Allied planes were lost.

The Red jet shot down was the 100th MIG-15 reported by Fifth Air Force pilots. B-29 superfortresses have been credited with 26 others.

Two small Red probing attacks and a foray by an Allied fighter plane in the night were reported in a U. S. Eighth Army Communiqué Friday evening. The Red attacks were beaten back south east of Kumsong. The Allied probe was a Red B-29 superfortress north of Yangju.

## Jet Battles Rage As Fifth Air Force Pilots Knock Out 100th MIG Jet

WASHINGTON, Nov. 2—(AP)—The Air Force today announced the 123rd fighter-bomber wing is being sent to Europe. It will be stationed in England but come under command of the 12th Air Force, which is active duty in Korea. Col. Philip P. Ardery of Frankfurt, Ky., commands the wing.

WASHINGTON, Nov. 2—(AP)—The Defense Department today issued its "Christmas Gift" lull in drafting men into service by asking for 59,650 in January—the largest number for any month since last spring.

The December call was for only 16,900 men, with all induction suspended during the Dec. 21-Jan. 2 holiday period. The record high was 80,000 last March. The average has been about 40,000 a month.

The January total 48,000 will go to the army, 11,850 to the Marine Corps.

The Department explained the January jump by saying it made up for the December call, and provided for "an orderly build-up of the armed forces," particularly the Marine Corps which is being boosted from 204,000 to 228,000.

In another announcement today, Selective Service estimated that about 2,000,000 men have had their liability for military duty lifted in their 20th to their 24th birthday.

These are men under 28 who have been deferred from the draft since June 10, 1951, for some reason or other.

Selective Service said that conditions take a serious turn for the worse, there is little likelihood of widespread drafting of men in their 20s, partially because of the high rejection rate among them.

The Selective Service Act of 1948 set ages 19 to 26 as the period in which men would remain liable for training and service in the armed forces.

The new draft law, The Universal Military Training and Service Act, which lowered the liability age to 18½, also extended it to age 35 for all men granted (Continued on Page Three)

## Draft Quota To Take Jump In January

WASHINGTON, Nov. 2—(AP)—The Air Force today announced the 123rd fighter-bomber wing is being sent to Europe. It will be stationed in England but come under command of the 12th Air Force, which is active duty in Korea. Col. Philip P. Ardery of Frankfurt, Ky., commands the wing.

## President Will Also Confer With General On His Presidential Aspirations

WASHINGTON, Nov. 2—(AP)—Senator Taft (R-Ohio) today praised his possible competitor for the GOP presidential nomination, General Eisenhower, for a very good job in Europe. Taft, though an avowed Eisenhower plate dinner tonight, told a news conference that Eisenhower "has done a very good job of stirring up the Europeans on their feet and to arming themselves."

WASHINGTON, Nov. 2—(AP)—Gen. Dwight D. Eisenhower is expected to urge on President Truman at their conference next week a maximum speed-up in European rearmament. The aim would be to create a balanced, though small, fighting force in the shortest possible time.

The idea of striving for a completely organized small army in the next six to 12 months is already being widely discussed here. It is an advance of the Supreme Commander's visit and in the wake of conferences held by one of the President's top advisers, W. Averell Harriman.

Harriman is American member and chairman of the temporary committee of the North Atlantic Treaty Council. It is meeting in Paris to review military planning of Western European defense forces, balance this planning against civilian capacity to rearm and come up with some recommendations for "shoring the (Continued on Page Three)

## Official Accused Of Taking Bribes In Gage Games

Sol Levy Is Arrested  
For Taking \$1,000  
To Throw Big Game

By TED MERER  
NEW YORK, Nov. 2—(AP)—A basketball referee was accused today of taking \$3,000 in bribes to help fix three professional games in November at a sports arena in New York.

Sol Levy, 41, of Brooklyn, had been a full-time official for the National Basketball Association since 1937. He was charged with a charge of bribery at 3:45 A. M. He had been questioned for several hours.

Police said the basketball gambling scandal, disclosed in college games last January, has implicated an official for the first time as well as drawing into the professional side of the sport.

Altogether 82 players from seven schools, CUNY, Long Island University, Manhattan College, Yeshiva University, were involved.

"I didn't know anything," Levy declared at the Elizabeth Street police station where he was booked.

Police said the specific charge against Levy accused him of soliciting and accepting \$1,000 to use his influence to shove his team's points in the Boston Celtics-Washington Capitals game at Washington Nov. 11, 1950.

Boston won the game, 74-67.

District Attorney Frank Hogan said Levy was involved in two other NBA games last November, the Boston Celtics game at Boston Nov. 12, 1950, and the Syracuse Nationals-New York Knickerbockers game at Syracuse, Nov. 10, 1950. Boston won the (Continued on Page Three)

## Navy Can Carry On Atomic War, Says Fechteler

Chief Of U. S. Navy  
Stresses Need For  
Allied Naval Head

NAPLES, Italy, Nov. 2—(AP)—The U. S. Mediterranean Fleet is capable of delivering an atomic attack if war comes, Adm. William M. Fechteler, U. S. Chief of Naval Operations, said today.

Fechteler, and of a news conference here that the powerful U. S. Sixth Fleet in the Mediterranean "does not have a latent bomb." But the admiral declared, "We have the capability of delivering an atomic attack."

The American Navy chief declared that he believes the fleet could be made available to the fleet from their present strategic base.

A lot of people on the other side of the Iron Curtain would like to know that," he added.

Fechteler said that the seven naval force commands for the Atlantic should be "up-pointed" forthwith.

The United States, he told a questioner, "has a number of put forward immediately of an American to be given the command."

The proposal to appoint Fechteler to the Atlantic command could be made available to the fleet from their present strategic base.

Fechteler has stressed the urgency of appointing a supreme (Continued on Page Three)

## Death Count From Hidden Communist Arms Cache Rises

SAN FRANCISCO, Nov. 2—(AP)—The death toll from last night's disastrous explosion of a secret Communist arms cache here rose today to 10. The count continued to climb through the debris at least seven others were injured.

Preliminary estimates said the blast which laid waste to an entire street in this city, near the waterfront, caused some 15,000 lbs. (about 225,000) of damage.

Police reported the blast also caused seven men all of them Communist Party members to be injured. The severely wounded made their way to the hospital. A Communist Party member continued to bleed from a head wound.

Police blocked off the streets of the town and began a search for other caches of arms. Communist Party leaders and many members of the Communist Party among its population of some 16,000.

More than 400 pounds of high explosives and anti-aircraft munitions, secreted in an illegal arms cache, stored up in a deafening blast just after dusk yesterday. The explosion touched off many machine gun bullets whose lead slugs peppered the area.

Five model homes of middle class Italians were destroyed and more than 100 others seriously damaged.

Strickland, 59, father of a family, was badly damaged by the explosion.

## Plan Is Discussed For More Tourists In Central Florida

The fine fresh water fishing facilities afforded to sportmen by the St. Johns River, if properly advertised in Southern newspapers, would attract many tourists to Central Florida and this section, A. P. Clark, president of the Greater Orlando Chamber of Commerce, told members of the Seminole County Board of Commerce and visitors at an around the table meeting at the Court House last night.

Jack Hall, president, and Forrest E. Brockbridge, manager, of the U. S. G. today stated that they were very favorably impressed with the tentative plans outlined at the meeting to bring summer vacationists to Central Florida.

Other local citizens attending the meeting were Henry Simpson, Geneva, chairman of the U. S. G. Industrial Committee, Marion Harner, representing the Kwanit Club, Charles Eidel, owner of the Bluebird Tourist Court, and Fred Kirscher of the publicity committee.

Layouts of proposed advertising graphics portraying the allure of bass fishing in Central Florida waters, were exhibited by Robert Hammond, Orlando advertising man. These would be run in newspapers throughout the South.

Mr. Clark pointed out that the program, entitled, Central Florida Holidays, would require about \$25,000 and suggested that Sanford's pro rata share would amount to only about \$300. He stated that other meetings will be held in Central Florida communities during the next few weeks to explain the plan.

Among those present were H. Stewart Johnson, secretary of the Orlando Chamber of Commerce and Stanley Pogor, city editor of the Sentinel-Star.

## Cold Weather Is On Way To Florida

LAKELAND, Nov. 2—(AP)—Cold weather is on the way to our northern peninsula Florida and temperatures may be near the danger point for tender truck Sunday morning. The Federal State Frost Warning Service predicted.

Its morning temperature bulletin said:

Forecast for peninsular Florida for tonight and Saturday morning:

Occasional rain and cooler northern districts, partly cloudy and milder southern districts. Forecast for Saturday: mostly cloudy, scattered showers and cooler central districts. Partly cloudy and mild southern districts.

Future temperature outlook: colder northern districts with temperatures near the danger point for tender truck extreme northern districts Sunday morning. Cooler and no frost danger south and central districts Sunday morning.

## Dog Awarded Medal For Saving Master In Petite Paris Blaze

Baron, the golden retriever boxer dog who saved the life of his master, Albert Flitts, a firefighter on Oct. 12 by awakening him just in time to flee from the blazing building of the Petite Paris Lingette Co., on Celery Ave., was today awarded a bronze medal and citation for "dog heroism" in a heart warming ceremony this morning at the Chamber of Commerce Building.

Some of Sanford's leading citizens came to honor Baron and his master, Mr. Flitts. Baron humbly sat on a table set in front of the entrance to the building, and seemed to take a friendly interest in J. Bralley Odham, who made the presentation in behalf of the Ken-L-Ration Co., a branch of the Quaker Oats Co. of Chicago. Mr. Odham was introduced by Forrest E. Brockbridge, manager of the Seminole County Chamber of Commerce.

"Among those appearing" also to honor Baron, were Jack Hall,

## County Voters To Decide School Millage And Trustees Next Week

Local citizens were today reminded by Sup't. T. W. Lawson, that election of school trustees and voting on school millage will take place in Sanford and throughout Seminole County next Tuesday.

Voting places in Sanford will be at the Girls Scout Building, Commercial and Oak Avenue for citizens living west of Park Avenue and at the Chamber of Commerce Building for those living east of Park Avenue. Polls will open at 7:00 A. M. and close at 7 P. M.

In the trustee election, R. F. Cooper, incumbent, will be opposed by D. L. Harper, resident in District No. 1.

In District No. 2, J. R. Grant will oppose Roy Howell, incumbent of Lake Mary. Mrs. A. D. Thompson, incumbent of residential District No. 4, who is seeking re-election, will be opposed.

"The trustees," said Mr. Lawson, are citizens who are to be elected and in improving the schools they are willing to see their (Continued on Page Three)

## Good Eating Is Seen As Remedy For Early Aging

Medical Group Told  
Of Value Of Diet  
In Curing Senility

JACKSONVILLE, Nov. 2—(AP)—Evidence that old folks who seem in last stages of senility can eat their way back to health was given the medical profession here today.

An outline of how this is done was included in a speech by Edward L. Bortz, Philadelphia, regent of the American College of Physicians.

"Nutritional deficiencies and premature aging" was his subject at the opening session of a southeastern regional meeting of the college.

A case report which he said could be duplicated in the offices of the majority of general practitioners in America was presented by Dr. Bortz in this way:

"Last summer a charming little old lady of 85 was brought to her home from the seashore in a state of collapse. The heat of the sun was, in the words of her friend, her undoing.

"For some time she had been (Continued on Page Three)

## Peterson To Talk On Civil Defense

A. B. Peterson, civil defense director for Seminole County, will outline plans made for protection in local communities in case of national emergency in a talk to members of the Longwood Civic League Tuesday afternoon at 8:30 o'clock at the Longwood library.

Mrs. James A. McGrath and Mrs. Clarence Thurnender of the Citizenship Committee have charge of the program.

Invitations to attend the meeting have been extended to women's organizations in the County, including the American Legion Auxiliary "Old Girls" Unit 185, the Allstate Springs sponsored by the Seminole County Ministerial Association, were made at the regular meeting of the Association on Thursday. The service is set for 10:00 A. M. on Thanksgiving Day in the First Baptist Church. Dr. W. P. Brooks, pastor of the church, will preside. Rev. Glenn E. Smith, pastor of the local Christian and Missionary Alliance Church, will be the speaker.

The Thanksgiving Service is a union service for all churches, and all are urged to attend.
