DEBT PLAN OF HOOVER MEETS FRENCH FAVOR

Great Satisfaction Is Expressed In Euro- pean Capitals Over Final Acceptance

(By The Associated Press)
Negotiations already started in Paris for a conference of experts to work out technical details of applying President Hoover's moratorium plan and the British government has renewed its invitation for a conference of world powers chiefly concerned. In all the capitals of Europe and Washington the agreement between France and the United States was received with great satisfaction. London is of the opinion, however, that much remains to be done, and Rome announced it was ready to participate in any conference regarding the operation of the plan.

The German government promised that the money released by the moratorium will be used only to assist that country's economic recovery. At Washington President Hoover announced the agreement with obvious pleasure, and the State Department has gone to work on the mass of details which will probably occupy it for weeks. Stock markets of all large cities reacted favorably to the announcement of the accord with prices rising.

France accepted finally to the United States' contentions of what major points had to be respected. Remarking that the terms are subject to the approval of the other interested powers, the President said that under these certain payments are to be made by Germany for reparations according to the substance of this proposal. It is stated as the sums so far are immediately released to Germany.

The agreement was one in principle, with an understanding that the details would be worked out by financial and technical experts. Solution of details involved in the complexities of the situation will take many weeks, but the President remarked the moratorium was already "in effect morally as of the first of July."

The settlement contemplates a continued payment by Germany during the moratorium year of her unconditional annuities under (Continued on Page Three)

Marentette Tells Of Experiences On Fishing Expedition

It seems that all good fish stories begin and end with the "Big one that got away." And Joe Marentette, manager of the Milano Theater, proves to be no exception, for, returning to Sanford after a four day fishing expedition off the coast of Bimini, tells of an eight foot marlin, "the biggest fish hooked," which he had on his line, but let get away.

Mr. Marentette was one of 19 veteran anglers of the E. J. Sparks Enterprises Inc., who were invited to be guests of Mr. Sparks on the tour to Bimini. He left Sanford Friday afternoon, departing from Miami Saturday night on the ocean-going yacht, "Riwatha," and arrived off the coast of Bimini early Sunday morning.

The party spent four days at various points along the coast-line of the tiny island, and hauled in hundreds of pounds of fish of practically every tropical species variety with the exception of tarpon and sharks. Dozens of snappers, mullet and barracuda were landed, much to the accompanying thrill to the fishermen, according to Mr. Marentette.

The group left Bimini Wednesday night of last week, and arrived at Miami Thursday morning, where, after being photographed with more than four huge racks of fish they had caught, they left for their homes.

Business cares were entirely forgotten. Mr. Marentette said, Mr. Sparks refused to let even the smallest detail of his extensive theatrical interests be discussed. All the men enjoyed what was termed one of the most restful vacations they had ever taken, and were said to be eagerly anticipating next year's expedition.

SHE SUES

Josephine Dunne, film actress, above, was awarded \$75 monthly alimony in a Los Angeles court from Clyde E. Greathouse, pending trial of a contested suit for divorce.

TEXT OF HOOVER WAR DEBT PLAN IS MADE KNOWN

French Government Reveals Basis Of Moratorium Accord

PARIS, 7.—(AP)—The text of the war debt moratorium accord, approved by France and the United States, was given out last night by the French government. It follows:

"After exchanges of views, the French government states that it is in agreement with the United States on the essential principle of President Hoover's proposal and on the following propositions which may be expressed thus:

"First—The payment of inter-governmental debts is postponed from July 1, 1931, to June 30, 1932.

"Second—However, the Reich will pay the amount of the unconditional annuity.

"The French government agrees to accept as its proposal, that the payments to be made by the Reich shall be placed by the Bank for International Settlements in bonds guaranteed by the German railroads."

"Third—The suspended payments will be made by the Reich on the following basis: (Continued On Page Three)

Sanford Has Quiet Fourth With Only 3 Law Violations

That Sanford was a quiet spot over the week-end is revealed in the fact that Municipal Judge R. W. Ware had but three cases of alleged law violations brought before him in police court yesterday afternoon.

Jack Johnson, colored, arrested Officers Williams and Wilcox, and charged with disorderly conduct, was fined \$20. He pleaded not guilty.

Ervin Warren, colored, charged with drunkenness, after his arrest by Officer Anderson was fined \$4.50.

Tom Campbell, colored, charged with reckless driving, was fined \$5. He had been arrested by Officers Williams and Shafer.

A negro named Henry Hall, who once served a term at Raiford and who is now in the county jail awaiting trial on charges which may see him placed at Raiford again, received much comment when police yeeted a long list of crimes which had been attributed to him.

The negro, a resident of Groveland, but known to have been here during the past two weeks, is charged with breaking and entering, stealing automobiles, and other crimes, all of which will be aired at the December term of circuit court.

Sunday afternoon he is said to have stolen a new White truck from the Wight Grocery Co. garage on Fourth Street, and then entered the National Biscuit Co. warehouse where he stole several boxes of food. Later that day, after joy-riding about the county in the truck he returned to Sanford and is said to have entered the C. F. Marshall place on Sixth Street, stolen several articles of clothing, and returned that act by entering the home of W. F. Shelly at sixth and Pine Avenue, where he appropriated more clothing.

J. C. White, who lives on West First Street, found his asleep in the waiting automobile, and brought him to the police station yesterday morning. The negro had evidently attempted to steal White's automobile, for he had broken the door in an effort to start the car.

SOLON HURLES MORE CHARGES AT GOVERNOR

Robineau Says Car- lton Administration Hocked Obligations Of State To Banks

TALLAHASSEE, July 7.—The Carlton administration has "hocked" obligations of the state to New York banks in defiance of the constitution, Representative S. F. Robineau of Dade county charged in a statement last night. It took up item by item the Wauchula statement Governor Carlton directed at Robineau and purported to prove false much of what the governor had claimed.

"I said his administration hypotecated credits of a department of the state in violation of the constitution," the Robineau statement says. "I ask Mr. Carlton to tell the people whether a board of which he is a member, has not pledged obligations of the state with a certain bank in New York, and whether that does not constitute a violation of the constitutional provisions which prohibit the pledging of the credit of the state. There are records in the treasurer's office and in the minutes of the trustees of the internal improvement fund to prove that there was such a pledge of the state credit."

Robineau referred to the method by which money was borrowed to meet flood control debts, by pledging anticipated receipts of the trustees.

"Governor Carlton's assertion that what I charged was totally false is itself false," Robineau's statement said. "When in my speeches at Miami, Tampa and St. Petersburg I denounced the administration's attempt to extort more revenue by imposing new tax measures upon the people, and exposed the wrongs practiced by this administration, I read from the budget report presented to the Legislature. This report was prepared by the budget commission of which Governor Carlton is chairman, and of which the secretary of the state, the state comptroller, state treasurer, the state superintendent of public instruction and the attorney general are the other members."

Club Committees Named By Rotary At Meeting Today

Members of the Sanford Rotary Club, meeting at the Montezuma Hotel today, set aside most of their business and social activities, and heard and discussed the selection of various members as committees for the fiscal year beginning July 1, 1931.

President S. G. Gray announced that the following rotarians will be expected to serve on committees:

Aims and Objects Committee: S. G. Gray, H. M. Watson, S. O. Shiholster, W. A. Luffler, B. F. Haines, and W. L. Cooper.

Public Relations Committee: W. M. Haynes, A. W. Epps, Arthur Millis.

Club Service Committee: S. O. Shiholster, H. Irving Loutitt, G. W. Spencer, A. T. White, L. L. LeRoy, W. M. Haynes, and Paul Stine.

Vocational Service Committee: B. F. Haines, S. Puleston, and H. R. Stevens.

Program Committee: H. I. Loutitt, W. M. Haynes and S. O. Shiholster.

Boys Work Committee: Paul Stine, H. R. Stevens, and W. A. Luffler.

New Members Committee: G. W. Spencer, H. M. Watson, and A. W. Epps.

Fellowship Committee: A. T. White, B. F. Haines, L. L. LeRoy, E. L. Markell, and S. Puleston.

Interclub Relations Committee: L. L. LeRoy, R. Chase, B. F. Haines, and E. L. Markell.

Community Service Committee: W. A. Luffler, H. R. Stevens, and E. L. Markell.

International Service Committee: W. L. Cooper, E. L. Markell, G. W. Spencer, J. L. Thomas, and S. O. Chaud.

Music Committee: F. C. MacMahon, E. L. Markell, and Arthur Millis.

PALM BEACH—Hadley Gillings purchased Helmo pier at Gov. Baha for consideration of \$60,000; improvements totaling \$22,000 planned.

AS RESCUED CREW OF NAUTILUS REACHED SHORE

Sir Hubert Wilkins, surrounded by members of the crew of the submarine Nautilus, photographed as they arrived in Queenstown, Ireland, after having been towed into port by the U. S. S. Wyoming. The submarine was enroute to Spitzbergen to prepare for its attempt to reach the North Pole.

INCREASE IN GAS TAX IS ADVISED BY COMMITTEE

Florida Solons Hear Suggestions Which May Bring In Cash

TALLAHASSEE, July 7.—(AP)—An added one cent tax on gasoline, and taxes on kerosene, luxuries, amusements, intangibles, and other commodities was recommended by a select committee today as the Florida Legislature opened its second extraordinary session.

The committee reported to the House its findings and recommendations after deliberation over the legislative program since July 1. The report adopted with its provisions for more than \$4,300,000 in new revenue, and for a state expense reduction.

Both the Senate and House held organization meetings with the House wrangling for an hour over a resolution, eventually adopted, to reduce from 87 to seven, the number of standing committees for the session.

During the discussions charges were made that Governor Carlton and the Legislature as whole and as committees, and various divisions of the state were responsible for the extended legislative period.

A resolution by Representative Watson, Hillsborough, which would place the House on record as refusing to pass any taxation measure until a one cent gasol tax revenue was diverted from the state road department of the general revenue fund was referred to the resolutions committee. The Senate passed one local bill before adjourning until this afternoon.

(Continued on Page Three)

Farm Board Backs Its Position Taken Upon Sales Policy

WASHINGTON, July 7.—(AP)—The Farm Board stood by its wheat sales policy yesterday during a two hour conference with Vice President Curtis and Senator Capper of Kansas, but it did assure them it would not sell any of last year's surplus "at the present range of prices."

The two Kansans demanded the board refuse to sell any of the 200,000,000 bushels of wheat carried over from last year until the price of this year's crop has reached 85 cents a bushel.

The board clung firmly to its announced policy of selling the surplus at the rate of 5,000,000 bushels a month when and if prices improve.

Capper termed the position of the board "unsatisfactory." Curtis was displeased but said he was "hopeful."

Both apparently were willing last night to rest their case with the board and had abandoned temporarily a plan of appealing to President Hoover.

Senator Watson of Indiana, the Republican leader, previously had gone to the board with a demand that last year's surplus be held off the market entirely during the marketing of this year's crop. He, too, was ready last night to leave the issue with the board.

Ex-Broward Sheriff Is Under Indictment

MIAMI, July 7.—(AP)—Paul Bryan, former Broward county sheriff and 18 others were indicted for conspiracy to violate the prohibition law it was learned today. The indictment was returned by the Federal grand jury and charged that the liquor was landed and transported at Pompano and an attempt made bribe C. S. Sout, Hollywood policeman, by offering him \$1000 cash and 36 cases of liquor.

SPEAKER TELLS HOW ASHEVILLE SOLVED PROBLEM

Says Young Citizens Came To Rescue Of Grant-Ridden City

ORLANDO, July 7.—How Asheville, N. C., citizens recently took a hand in the government of their city after the loss of several millions of dollars and succeeded in extending bonds and changing the officials and form of government, was related to the Junior Chamber of Commerce at its monthly evening meeting last night by Phil Cooke, judge of the municipal court of Asheville.

Judge Cooke said that the action was the result of the formation of a Young Men's Council on the order of the Junior Chamber of Commerce. Failure of a large bank and several others cost the city and county \$10,000,000 in deposits.

(Continued on Page Three)

Flames Induced By Intense Heat Burn California Acres

SAN FRANCISCO, July 7.—(AP)—Flames left blackened wastes in more than a dozen different parts of California today as hundreds of weary fire fighters continued their efforts to subdue blazes in heat stricken hills and plains. Mountain towns, ranch houses, herds of cattle, timber, ripened grain, and valuable pastures, fell before the fire.

A force of 700 men are attempting to control the 25,000-acre blaze which swept three sides of Mount Diablo. The damage was estimated at \$100,000. Firemen were attempting to keep blaze from west slope of mountain where dozens of summer homes and ranches are located.

Man, Ill, Is Brutally Attacked With Club

MILWAUKEE, July 7.—(AP)—Unconscious since the fourth of July when he was attacked in a sick bed and severely beaten, Joseph Tomaszunas, 46, carpenter, was found by three small children today and taken to a hospital where doctors said practically every bone in his body was shattered. Doctors said he would probably die.

Police are holding his wife, Mary, and a boarder, Nicholas Kramer. They said the pair confessed to taking turns at slugging the helpless man with a baseball bat but the motive for the attack was not determined.

CRESTVIEW—Garrett Adams purchased Valcrest Trolleying plant.

COMPLAINTS IN TAX MATTERS HEARD BY CITY

Thirteen Persons Express Dissatisfaction With Assess- ments On Property

The Sanford City Commissioners, sitting last night as a tax equalizing board, heard 13 taxpayers express themselves as being dissatisfied with assessments now levied against their properties. Each taxpayer's complaint was filed and will be investigated by a committee of Commissioners.

While the meeting was held primarily for the purpose of accepting tax assessment complaints, the Commissioners were also approached on other subjects, taking action on some, and deferring action on others until the regular meeting next Monday night.

Matters upon which the Commissioners last night acted were: Awarding The Sanford Herald the contract for printing the delinquent tax list, after learning that the Bondholders' Protective Committee had agreed to pay \$1800 of the \$2500 printing costs; deciding to send a bill, validating the present City limits, to Tallahassee with the request that no referendum be attached.

Commissioners Luffler and Byrd were both of the opinion that it would be useless to hold a (Continued On Page Three)

State Senator Of Maryland Indicted On Perjury Count

WASHINGTON, July 7.—(AP)—Casper L. Godolts, Maryland state senator, yesterday was indicted for "aiding in the commission of perjury" at the recent E. I. Smith company embezzlement trial in the District of Columbia supreme court.

Similar indictments were returned against G. Bryan Pitts, former head of the investment company, Miss Helen L. Schneider, his personal secretary; John H. Edwards, Jr., former vice president, and Henry O. Hart, an accountant and who testified for the defense at the trial.

The indictments charge that authorizations introduced by the defense at the embezzlement trial, all signed by Coblenz or Pitts, and purporting to warrant Pitts in taking money the government said was embezzled, were fraudulent.

The authorizations, of which Coblenz signed 31, were said to have been prepared at the Pitts Florida residence shortly before the trial for purposes of "fraudulently obstructing justice."

Newspapers Score Pope For Action In Row With Il Duce

ROME, July 7.—(AP)—The war of words between the Vatican and the government was resumed yesterday when Rome newspapers attacked the pope on the score of his encyclical issued Saturday. The government lifted its restriction on editorial attacks and newspapers vigorously utilized the opportunity to criticize the pope for sending the document abroad in what is described as a secret manner.

The government called attention to the fact that the encyclical was allowed to be distributed in churches in Italy and the newspaper Osservatore Romano, in which it was published, was sold on newsstands.

The encyclical is called "a new fact" in official circles and the government was said yesterday to feel that the negotiations had been made "very delicate" by it. It was implied in government circles that progress by diplomats was impossible if the problems at issue between the government and the Holy See were heatedly debated in the press of the world.

Exactly what the government will do, if anything, and the tone of its next note to the Vatican, will be determined at Thursday's cabinet meeting.

WINTER GARDEN—Construction of new city water reservoir started.

NO FOULIN

Unable to secure transportation... Manager Bert Chapman's Colery Feds had to cool their heels along First Street yesterday afternoon instead of hitting St. Augustine, where they were scheduled to play the only game they have been able to beat this year. As a result, the Saints won the game by a 9 to 0 score today, and through Wednesday, the Feds will work out for the rest of the first half, which ends Thursday when the Cocoa Indians come here.

At Daytona, Olin Hatto shut out the Winter Park side by a 9 to 0 score. It was his fourth shut out of the year, and the sixth which the Islanders' batters have inflicted on the enemy. It was also the fourth straight game the Daytona entry has won from the Parkers. By the victory, the Islanders were assured of three half hours, regardless of whether a game which Winter Park won from DeLand two weeks ago, is thrown out. That game is scheduled to be played tomorrow, but last minute information today says it may not be played or not.

The situation is this: President Morgan, upon hearing DeLand's protest of the game because the umpire used was a son of the manager of the Winter Park team, called together a group of outside men to decide the case. This group allowed DeLand's protest, and suggested that the game be played off here tomorrow. However, directors of the league, who were not notified of any action taken until the meeting was over, yesterday expressed themselves as wishing to vote in the matter. They will do this tonight at a regular league meeting in Daytona. I do not think they will agree to allow DeLand's protest. Whether they do or not, DeLand has only the barest chance of winning the first half for they will have to win three straight games.

They lost to Cocoa yesterday by a 3 to 1 score. Murdock held them to six hits, while the Indians took advantage of five hits off Sibley. If league officials were 14, lost five, DeWinter Park-DeLand game... standings of the clubs will be Daytona, won 12, lost five, DeLand, won 12, lost six, if DeLand beats the Islanders will be like this: Daytona, won 14, lost five, DeLand, won 12, lost six. If that happens, the last game of the season at DeLand on Thursday will be a knockout because DeLand and Daytona tie up in a battle. If DeLand wins, both clubs will have won 14 and lost six games, and another play-off will be necessary. So, you see, DeLand will have to win three games to win the pennant. More fun!

This National League race is a bit, judging by the performance of the Robins during the past two days. On Saturday they whipped the Giants 4 to 0 and 6 to 0, and yesterday they whipped them again, 4 to 3. The win put them only a game out of second place. The Robins got a dozen hits off Walker and Mervell. Ott hit a homer too.

The Braves outscored the Phillies by a 4 to 2 score when Frank Jones won his fifth straight game. Washington hit a homer for the Braves. Sheely's single was two on won the game for the Braves in the fifth inning.

What was intended for a piece of smart baseball turned a well played game into a defeat for the Braves when the Cubs beat them 2 to 1 in 10 innings. Malone, who had a sensational ball after the game, got to him for a run in the 10th. Malone sacrificed him to third. Duvigneau, under orders from the coach, then walks English Caylor to fill the bases, and Wilson coming up. Only one was out. The idea seemed to be that Wilson, who has been in a slump, would roll weakly into the infield or something, but he batted them all by singling and scored the winning run.

WASHINGTON'S SENSATIONAL YOUNG SHORTSTOP WHO IS NOW PLAYING EVEN BETTER THAN HE DID LAST SEASON

© McClure Newspaper Syndicate

jumped all over St Johnson of the Reds, and got four runs, enough to give the Pirates a 6 to 4 win. Four singles and a triple did the trick.

In the American League, another crucial series has started. The Senators beat the Athletics 4 to 2, to cut the Mackmen's lead to four and one half games. Cochrane hit a homer in the sixth, and the Mackmen outlit the Senators, but Earnshaw, who was chinking, contributed a costly error which put a man on who later scored. The Macks made four errors.

Rain put a stop to the Cleveland and Detroit game after seven innings, but not too early to assure the Tigers of a win by a 5 to 1 score. Sorrell and Ferrell were in the middle of a pitcher's duel when the rain started falling. Morgan hit a home run with two on in the fourth inning.

what they called a comedy of errors took place in New York yesterday where the Red Sox took advantage of the misplays and beat the Yanks 6 to 4 in an 11 inning game. Warstler gave the Yanks two runs, one of which tied the score in the ninth. Chapman hit a homer in the second, while Pickering got one in the fourth.

The White Sox and Browns split a double-header. The Browns took the first, 3 to 1, while the Sox nabbed the second 6 to 5. Hebert got credit for the loss in the second game, after winning six straight games. Kress got a homer in the first affair, while Kimsey and Fothergill hit them in the second affair.

PALMETTO—1,959 cars of tomatoes shipped from here since shipping season opened.

METROPOLITAN ATHLETES IN STIRRING FINISH

This stirring action picture was taken during track and field championships of the New York Metropolitan A. U. and shows the final of the 100-yard hurdle. Left to right: Carlton Pennant, James Rapp, Don Taylor, A. Harriers, Perry Beard (winner) and Henry Updegrave.

New Plan to Be Started Soon in Soviet Industry

Continued from Page One)
velop its own "intelligentsia" of such skilled workers as engineers and technicians.
To change the policy toward specialists of the old crust is to attract more of them to industry.
To increase the interior sources of industry and develop the piecework system.
He also proposed the reversal to individualistic from collective business administration, saying that "new conditions demand new methods of work and leadership."
Stalin accused some of his comrades of continuing to work on the old lines despite a fundamental change of conditions of developing industry which required new methods of management. Notwithstanding this, he asserted that "the production program of 1931 is real and accomplishable."
"Fulfillment of the production plan depends solely on ourselves and on our ability to utilize the existing wealth of opportunities. This is proved by the fact that the large numbers of factories and industries already have exceeded our plans."
The reality of our production plans is insured by millions of toilers creating new life, by our will to labor and our readiness to work anew with determination to fulfill the plans.
"Even under social-m wages must be paid according to the work done and not according to the needs of the workers."
He added that as a result record...

THE SMOOTHNESS OF AN EIGHT . . . THE ECONOMY OF A FOUR

WALTER P. CHRYSLER ANNOUNCES NEW PLYMOUTH FLOATING POWER . . . and FREE WHEELING

TO produce in 1931 an achievement in motor car design, engineering and pricing so revolutionary that it transcends every previous standard of quality, performance and value in the field of lowest price is to challenge the world.
That is precisely what the New Plymouth does.
For years, while designing fine Sixes and Eights for Chrysler, Dodge and DeSoto, Chrysler Motors engineers have worked unconsciously for the perfected Five.
Now they give you the results of their labor and discoveries.
The New Plymouth, a quality car of lowest price with the smoothness of an Eight and the Economy of a Four—this is Plymouth's exclusive Floating Power.
Here is power, unshakable, yet power as smooth as satin, as soft as velvet. Here is power without vibration—broadly spreading power so silent that even a whisper could not make the number of cylinders under the Plymouth hood, and many guessed the New Plymouth to be an Eight.
Plymouth now also gives you Free Wheeling which makes it possible to shift gears between all forward speeds without de-clutching.
Besides Free Wheeling Plymouth offers a new Easy-Shift transmission which makes it possible to shift not only from second to high at speeds of 25 or 45 miles an hour but back into second at these speeds, when you need sudden acceleration, without de-clutching or grinding.
The new Plymouth engine develops 54 brake-horsepower — with actual step-up speed of 65 to 70 miles per hour; pick-up from 0 to 40 miles in 8.7 seconds.
Among all cars in the lowest-price field, only Plymouth has weather-proof hydraulic brakes—simplest and unexcelled for safety and smoothness.
Chrysler Motors engineers have given Plymouth's double-drop frame. Plymouth has a still lower center of gravity, still greater safety, still greater riding ease, still finer style.
We believe the new Plymouth establishes in the field of lowest-price a new degree of intrinsic achievement.
NOW—SPECIAL DISPLAY—NEW PLYMOUTH AT ALL CHRYSLER, DODGE & DESOTO DEALERS.

Governor Carlton's Great Chance

When Governor Carlton delivered his last message to the combined House and Senate, he said to the members present, "If you do not like my tax program, for God's sake find one that you do like."

Everywhere the people are excited. They are distressed over events which have already transpired at Tallahassee and they are fearful of what may take place during the next twenty days.

If Governor Carlton and his followers in the House and Senate have been watching the trend of opinion throughout the state, they have seen the unmistakable signs that the people are thoroughly satisfied with the boom-time policies which, in spite of state and national depressions, are still continuing at Tallahassee.

When Governor Carlton ran for office in 1928, this paper supported him, and we believe this county gave him the largest majority in proportion to population of any county in the state.

We have not entirely lost faith in Governor Carlton yet. He has a great opportunity during the next few weeks to do something really big in Florida.

The Need For Capital Ships

Reduction of expenditures for armaments has been pointed out as an important step towards alleviating the present economic depression. Plans for reducing the size of navies have been suggested by various countries and the principle of the suggestions should be well received in the United States.

"Writing in the current 'Naval Institute Proceedings,' Commander T. C. Kinkaid gives as clear and authoritative an explanation of the reason for the capital ship as has come to our notice.

"This vessel, commonly known as the battleship, is the only ship that can take the sea and remain there for long periods, regardless of naval bases. It is also the only ship which can withstand reasonably well the attack of modern weapons.

"To perform these functions a certain size is necessary. The larger it is, according to Commander Kinkaid, the better it can be safeguarded from air, surface and submarine attack.

"The present size limit of 35,000 tons is hardly adequate to give full measure to each item. Yet a movement is on foot to reduce this size still further.

"In this light the movement to reduce ship size instead of concentrating on reduction of total tonnage becomes clear. We consider the battleship important; other powers possessing a strategically located chain of bases desire a large number of cruisers; and still others 'met' upon a large submarine tonnage.

A specialist is a man who wants all your teeth pulled before he tries another piece. Los Angeles Times. Then he says, 'don't chew get excited!'

The Boston Transcript says: "An expert, addressing the Advertising men's convention in New York city last week, was demanding better values. He said that the advertiser's job is to get the most out of every dollar he spends. He said that the advertiser's job is to get the most out of every dollar he spends."

NEW YORK INSIDE OUT

NEW YORK, July 7.—Yes, the New York still produces its Cinderella stories. Here is one about a girl named Emma Bertani and to kill off your interest at once, it is true. Emma was born in New York, of Italian parents, and she has that beauty that occasionally blossoms from the blood of Italy.

Emma went to school, and high school and then got a job as a telephone operator for the New York Telephone Company. She took her place with 200 other girls at the Jersey Toll Board at 15 Day street.

One day not long ago a telephone operator was needed on the switchboard of the studio of the Paramount Company in Long Island City. Emma applied for the job. She got it.

Here was Emma's chance—a chance to work in a motion picture studio, to answer the calls of film stars, to obtain phone connections for directors, to be part of the great organization that ground out love and romance for people that had to work at switchboards, desks and counters all day.

Then the chance came. A picture called "Personal Maid" was being produced. In one of the scenes Nancy Carroll has a telephone chat with Pat O'Brien. The director of the picture, Monta Bell, wanted the film to show Nancy on one end of the wire, Pat on the other, and a telephone operator between them.

Emma plugged in and was told to report to the stage. "What for?" "Want you to play a part," said the casting director, and hung up. This left Emma semi-hysterical, but she managed to struggle downstairs.

She was afraid to tell the other girls. It might not be true—"to play a part!" She was plainly frightened when she appeared on the stage. In her eyes was a prayer. A make-up man hurried her into a dressing room that had been rigged near the set for Miss Carroll. The star's dressing room! Dazed, Emma was worked upon. Her face changed. Her eye-crowns and lips brushed in a new becoming way. Her face and neck were covered with make-up. She looked into the mirror and saw that she was beautiful.

A voice called somewhere: "Bring the phone girl." The make-up man led her to the set. The other obscure people in the studio had heard that Emma was to play a part and all that could come to

And another thing, if the old city limits are still the legal city limits, it might be a good idea for the fire department to go out there to three or four houses which they have saved during the past five years and set them on fire again.

It seems that a business with a slow turnover overturns quickly.—Thomason (Ga.) Times.

BIBLE VERSE FOR TODAY

THE LONGSUFFERING LORD—The Lord is not slack concerning his promise, as some men count slackness; but is long-suffering to us-ward, not willing that any should perish, but that all should come to repentance.—Peter 3:9.

DELPHINIUMS

Delphiniums have come to call in mass against my garden wall. Letting a bunch of lupin flames As heralds of their leg name, Their presence holds my eyes in thrall.

They throw their color like a shawl About me, I am proud and tall And pledged to bravery, sweet come Delphiniums.

Surely some straphim let fall A fragment of their starchy hall, That lovely garden-plots might claim Relation with that vaulted frame— For sky lurks in the seeds of all Delphiniums.

— ANNE LLOYD

An economic gesture in Germany may become an influence for peace. The army will no longer be fed Sunday cake.

We hear lots of complaints about the warm weather lately in Sanford, and yet, we have heard of no heat prostrations.

If crowds of holiday celebrators are any indication of the return of prosperity, then the United States has certainly taken one step in that direction.

Post and Gatty had luncheon yesterday at the White House with President Hoover and probably this was the most unerring ordeal of their recent experiences.

Any impression that the Chinese are altogether stupid should be dispelled with the announcement from the Nanking government that the custom of kowtowing must stop. It's too bad we couldn't trade some of our laws for one that would ban that obnoxious practice in this country.

Orlando and Orange county have lost a valuable man with the resignation of Karl Lehmann as secretary of the Orange County Chamber of Commerce. Optimistic, dynamic, a thorough believer in Central Florida, Mr. Lehmann has rendered a big service in helping to make Orlando the widely acclaimed resort that it is.

Speaking of the warm weather, we are reminded of a sophisticated dower who was invited, on a hot summer's afternoon, to a party boasting few distinguished guests. She became thoroughly bored and weary. The hostess, observing her discomfiture, inquired if the heat was too oppressive. The dower replied, "No, my dear, it isn't the heat; it's the stupidity."

People at Daytona Beach had reason yesterday of a blazing inferno at sea as they viewed a mass of smoke drifting heavenward. Investigation by the coast guard proved that the smoke was only a puff of steam from the smokestack of the crew's mess hall. The smoke was the result of making fish oil. This reminded us of some people who, at a distance, give the impression of being a ball of fire but under close scrutiny turn out to be only smoke screens.

Some experienced one of the black nights in its history on the beach at July with snatching of the sand. A great business was done. Among other things, a man was seen to be carrying a large sack of sand. He was carrying a large sack of sand. He was carrying a large sack of sand.

Consider your Adam's Apple!! Don't Rasp Your Throat With Harsh Irritants "Reach for a LUCKY instead" Please your finger on your Adam's Apple. You are actually touching your larynx—this contains your voice box—your vocal chords. From the report of a famous scientist who studied the effects of LUCKY STRIKE'S exclusive "TOASTING" Process—"During the course of some recent investigations... we became interested to ascertain whether Ultra Violet Rays produced any change in the quality of the cigarettes. It may interest you to know that I was able to detect a very definite difference in the irritant qualities of the treated and untreated cigarettes. Several tests were made, not only on myself, but others as well, and we experienced little difficulty in selecting the treated or treated cigarettes as distinctly less irritating to the mucous membrane of the nose and throat than the control or untreated cigarettes." Sunshine mellow—heat purifies—that's why LUCKY STRIKE'S exclusive "TOASTING" Process includes the use of modern Ultra Violet Rays. Remember—LUCKY STRIKE is the only cigarette in America that brings you the added benefit of "TOASTING". And so we say "Consider your Adam's Apple" So choose in your choice of cigarettes. "It's toasted" Including the use of Ultra Violet Rays. Sunshine Mellow—Heat Purifies.
