SANFORD, FLORIDA, WEDNESDAY, MARCH 14, 1923

NUMBER 300

HEARING ON WATERWAYS DEEPENING ST. JOHNS RIVER HELD HERE TOMORROW

AT THE COURT HOUSE AT 10 A. M. AND WILL BE WELL ATTENDED

MUCH INFORMATION

Has Been Collected by the Various Committees of Chambers of Commerce and Traffic Men

A meeting, which is recognized as being one of the utmost importance to the future of Sanford, will be held in the court house tomorrow, beginning at 10 o'clock.

This meeting has been called by the War Department pursuant to authorization in the River and Harbor act approved Sept. 22, 1922, whereby the Secretary of War is authorized and directed to cause preliminary examination and surveys to be made of the St. Johns river from Jacksonville to Sanford. It was through the efforts of Senator Fletcher introducing a bill that this preliminary examination is being made to ascertain the advisability of improving the river to a 20-foot depth. The hearing will be conducted by Gilbert A. Youngberg, Lt. Col. Corps of Engineers, U. S. Army, and Lieut. Herbert B. Loper, Corps of Engineers, U. S. Army. Principal Assistant Engineer J. M. Braxton and Mr. W. A. Dunnett, who will receive testimony of those supporting the contention that this improvement is necessary.

The information particularly desired by the government has been prepared by the Water Traffic League and will be presented in the form of a brief. It shows that the needs of navigation between Jacksonville and Sanford are sufficiently urgent to require the construction of a twenty-foot channel in order to provide facilities for the potential tonnage of this and tributary territory. It contains data showing the navigation now operating on this waterway, boats now existing on different points on the river, together with a schedule of trips, drafts and dimensions of these river craft. It also shows the character, tonnage and value, present outgoing and incoming commerce from this vast territory, giving in detail the principal commodities which are shipped and the proportion of tonnage now moving by rail and water. Valuable information is also contained in the brief stressing the resources of this section and the influence improved navigation would have in developing these resources. Rate differentials are shown to points having competitive rail and water transportation facilities, as against those served only by rail.

The brief, including the exhibits attached thereto, proves conclusively the enormous saving that could be effected to shippers and growers if the 20-foot project was approved permitting deeper draft vessels to carry the freight to and from the eastern seaport cities without the necessity of breaking bulk at Jacksonville as is now done. This saving on citrus fruit and perishables alone would amount to over two million dollars. In addition, to the arguments in the brief there will be a number of prominent shippers and business men of other sections whose oral testimony will emphasize the necessity for this improvement.

The Jacksonville Chamber of Commerce will be represented by Hon. J. D. Callahan who is Port commissioner of that city, and Mr. H. T. White, Florida agent of the Clyde Line. Mr. H. M. de Montmolin will be the principal spokesman for the Palatka Chamber of Commerce and Mr. G. A. Dreks of DeLand will represent the DeLand Commercial club. M. T. Bland of Orlando will be the principal representative of the League. It is urged at this time that all the growers and business men of Sanford be present at the hearing as this movement is not only of the utmost importance to the development of the section but more especially to Sanford. The eventual success of this proposition requires continual agitation and unceasing efforts. The Florida Water Traffic League is an organization formed for the purpose of securing this much needed improvement and Sanford is to be congratulated

GENERAL COUNSEL VETERANS BUREAU KILLS HIMSELF

FOUND IN WASHINGTON HOME WITH BULLET WOUNDS SELF-INFLICTED

(By The Associated Press) WASHINGTON, March 14.—Chas. F. Cramer, who resigned a few weeks ago as general counsel of the Veterans Bureau, was found dead here today. Police reported that he committed suicide. Cramer's body was found in his home by the police who said death was apparently due to self-inflicted bullet wounds. He was 45 years of age and came here from San Francisco in 1921 to become general counsel for the veterans bureau. Cramer's body was found in the bathroom in his home where he had locked himself after saying good bye to Mrs. Cramer when she left on the midnight train for New York. Police found no message to explain his act, but friends say the nervous strain which had resulted from his connection with the bureau had undermined his health.

Tent Well Filled For Tuesday's Show, Keno Top-Notcher

Many Went Home Looking Like Santa Claus, Gift-Laden

There was a much larger crowd at the tent last evening, and there was more enthusiasm exhibited over the "circus" than on the opening occasion. The specialties were excellent, although there should be a plan adopted to keep the spiclers quiet during the musical selections of the musical duo. The cries of the hawkers last evening spoiled the effect of those performers, and disappointed many who were anxious to hear their clever playing.

The great event last evening was Keno, and the immense mass of premiums would duplicate that nothing more in those lines would be sold in the city for some time to come. All around the pyramid of premiums the tables were filled with those who practiced on saying "keno" from the time the first grain went on as a coxer. The callers were hoarse long before the interest died out.

This evening there is promised a change in some of the specialties, and it is possible that some of the "later" attractions may be given earlier. Many of the older class visit the circus to see the wonderful dogs, which have been the final act on the program, and are disappointed because they are forced to leave before the exhibition is made. However, as the dogs are well worth the effort, it will repay all who may remain for the purpose of seeing their clever work.

Speer's Easter Sale For Five Days Only

Speer & Son are pulling a big Easter sale for five days only. They have a page advertisement in this issue, calling your attention to this big sale and it means that for five days you will have an opportunity to make money on nainsook, and long cloth, Swiss voiles, crepes, pongee and gingham. On hosiery, bathing suits, dresses and capes, collars, lace, bags, umbrellas, in fact, there is too much to mention here. Suffice it to say that Speer & Son are having one of their big sales that you have been waiting for because you knew it meant a big saving to you when Speer put on a sale of any kind. Read the advertisement and then attend the sale. It starts Friday and will last just five days—not much time if you wait but plenty of time if you get there on time. And Easter is only three weeks away.

that through the efforts of the league a renewed interest in being shown by other communities; resulting in a practical cooperation which is bound to assure success.

SENSATIONAL STORY OF PLOT TO MURDER CABINET MEMBERS AND COMMIT OTHER CRIMES

Printed in Daily Sketch in London Today Reveals Alleged Scheme

LONDON, March 14.—Sensational story of a plot by the Irish Republican organization to murder the British cabinet ministers and commit other outrages was printed today in daily sketch. The newspaper connects the alleged scheme with the activities of the Irishmen recently arrested in Great Britain. It says persons marked for assassination included Premier Bonar Law, David Lloyd George and Sir Hamar. Employment in the households of the intended victims thus became able to supply outside persons with details of the men's movements.

SECOND DAY OF MEETING DIRECTORS OF WOMEN'S CLUBS IS REPLETE WITH IMPORTANT WORK

And Luncheons and Visits Over the City Closed a Perfect Day

Yesterday was a full day in the board meeting of the Florida Federation of Women's Clubs. In the morning session, Miss Elizabeth Skinner reported the general progress of her work and was elected to represent the Federation in Tallahassee during the meeting of the legislature.

Mrs. E. M. Galloway, vice-president at large, gave a good account of visits to clubs and county organizations and dwelt especially upon the initiation of junior work which is just now her most important new duty.

Mrs. Meade Love, of Quincy, legislative chairman, gave most of her time to a discussion of the Board of Education bill, and Mrs. Julia F. Hanson, of Fort Myers, clinic of Seminole Indian work, gave quite fully the report and recommendations of Captain Spencer.

Mrs. Seymour, chairman of the Applied Education Committee, held her audience in very close interest as did Dr. Roemer, of the State University, in the address which followed hers.

T. W. Lawton, superintendent of the Seminole County Schools, spoke briefly on local conditions and aims.

The president had previously announced the dedication of a new song to the Florida Federation by its author Madame Pampillon, of St. Petersburg, and the singing of "Come Away to Florida," by Mrs. Lucille Aspinwall Takach, was a pleasant variation in the routine of business.

At the noon adjournment, the entire delegation was taken over to the grammar school lunch room to watch its actual operation. The building and management of this lunch room being the work of the Sanford Woman's Club.

At 12:30 upon the skillful direction of Mrs. Fred Williams, a complimentary luncheon was served to the members of the State Board and visiting club women.

The afternoon session was largely given over to discussion of bills proposed for introduction at the next session of the legislature, except for the fine illustrative and inspirational address of Mrs. J. Brevard Jones, of

Tick Inspector Was Arrested for Cow Stealing

Bound Over to Court at Hearing in Tallahassee

(By The Associated Press) TALLAHASSEE, March 14.—J. H. Jeffries, county tick inspector of Georgia, was bound over to await action of the grand jury following a preliminary hearing before County Judge Willis on a charge of larceny of a cow. The case grew out of different views on cattle dipping of Grady county, Ga., and Leon county, Fla. J. B. Strickland, Leon county farmer living near the line, charged Jeffries with taking one of his cows into the Georgia county and impounding it.

WATER AND LIGHT PLANT

(By The Associated Press) GREENVILLE, March 14.—The city council has called an election for the near future to decide whether this town shall bond itself for \$30,000 to install water and electric light systems.

JAPAN REJECTS CHINA'S PLAN, EXTENDS LEASES

ON KWANG TUNG PENINSULA INCLUDING DALMY AND PORT ARTHUR

(By The Associated Press) TOKIO, March 14.—Japan today rejected the Chinese proposal to abrogate the Sino-Japanese treaty of 1915 which contains noted "twenty-one demands" and extended for fifty years the Japanese leases on the Kwang Tung peninsula, including Dalmy and Port Arthur.

WASHINGTON, March 14.—China's latest move to abrogate the famous "twenty-one demands" treaty of 1915 has led Japan to inform her such proposal is contrary to accepted international practices and "will fail to contribute to advancement of friendship between our two countries." In note delivered to Chinese charge at Tokio and made public at Japanese embassy here Japanese foreign office not only flatly rejected proposal that the treaty and kindred agreements be abrogated but declared it could see "absolutely nothing" in them which is "susceptible" of further modification.

WILLIAM JENNINGS BRYAN TALKS ON WATERWAYS AND KNOWS HIS SUBJECT

PRESIDENT AT MIAMI PLAYS GOLF ON WATERWAYS

AFTER PLAYING ALL THE SAND BARS AND LOSING OUT

(By The Associated Press) MIAMI, March 14.—President Harding arrived at the end of the Florida Journey shortly before noon and immediately began playing golf on one of the Miami Beach courses. The houseboat Pioneer is still several miles north of Miami traveling slowly to avoid numerous sand bars. Carl Fisher's speedboat met the houseboat at the North end of Biscayne Bay and the president and other members of the party were persuaded to come aboard and come to Miami for lunch and a game of golf.

TENNESSEE BURIES DEAD, REBUILD TOWNS

SEVENTEEN KNOWN DEAD AND TWO SCORE WERE INJURED

(By The Associated Press) JACKSON, Tenn., March 14.—Pinson and Deauburg, storm swept Tennessee villages, buried their dead yesterday and began the task of digging themselves from under the debris of the tornado which laid waste the greater part of the two towns and exacted a toll of 17 lives, while Red Cross workers put into effect relief measures to aid in the work of rehabilitation.

In addition to the 17 known dead, approximately two score injured were still under treatment in Jackson hospitals and in private homes. Several are seriously hurt, but with one exception all now are expected to recover. J. E. Ervin, the most seriously injured was reported in a critical condition. Two of the children of the Ervin family were killed when the Ervin home at Pinson was wrecked. Mrs. Ervin was injured but not seriously.

Relief work was systematized last night under the direction of Carter Taylor, the southern regional director of the Red Cross who arrived late yesterday from Atlanta. Miss Annette McClaren is executive head of the local chapter of the organization. A fund approximately of \$2,000 was raised by the Jackson committee yesterday to aid in meeting the needs of several persons made homeless by the storm. Additional subscriptions are expected to increase the fund to \$5,000 more.

The bodies of nearly all the storm victims were buried yesterday or sent to their homes. At Pinson, funeral services were held for Mrs. B. G. Vantress and her two daughters, Madge and Mabel, twins. Mrs. J. L. James, wife of Rev. J. L. James, Methodist pastor, was buried in Hollywood cemetery near Jackson. Mr. James is in the hospital seriously injured. Bodies of other victims of the storm were sent to other cities for burial.

At Pinson and Deauburg yesterday survivors began the work of clearing the debris and salvaging what few of their possessions remaining intact. Here and there a chair or table was found in condition to be saved but as a rule the work of salvaging brought small results, so complete was the storm's havoc.

53 YEARS FOR BOY BANDIT

(By The Associated Press) NORFOLK, March 14.—Donato Siravo, alias Duke Sarabo, alias Ben Liverman, self-styled "boy bandit" was sentenced to 53 years imprisonment in the state penitentiary at Richmond when he pleaded guilty to six charges of robbery in corporation court here today. Siravo, whose home was in New Bedford, Mass., is 17 years of age.

BUYS BIG TRACT

(By The Associated Press) LAKE WALES, March 14.—B. F. Lewis, of Reading Mass., has acquired the 200-acre tract six miles north of here on the Scenic Highway known as the Barber tract and plans immediately to develop it. The price paid for the property is understood to be around \$300 an acre.

F. H. Talpmeyer of New Point, Ind. who is touring the state was among the arrivals here yesterday.

W. R. Craig of Jacksonville spent the day here yesterday transacting business.

Mr. and Mrs. Sanford Doudney spent the week end very pleasantly in Lakeland.

Mrs. Frank G. Gonzalez of DeLand was the charming guest of Mrs. Frank Miller yesterday.

Mr. and Mrs. V. Relyea of Pittsfield, Mass., are among the tourists arriving in Sanford yesterday.

Jno. S. Graham was among the business visitors here yesterday from Jacksonville.

Sid Rive and Deane Treadwell motored to Tampa where they spent the week end as the guests of the former's relatives.

L. D. Rogers and family, of South Hampton, N. Y., were among the arrivals here yesterday and are stopping at the Montezuma for a few days.

V. C. Hohn and family of Jackson, Tenn., arrived in Sanford yesterday and will spend a short time here, making their headquarters at the Montezuma.

Jim Carter and James F. Abbott were among their many friends at Lake Mary Friday and end enjoyed the delightful dancing and weenie roasts.

Mrs. J. L. Strong of Havana, Cuba, who has been the attractive guest of Mrs. J. N. Robson at her home on Park ave., left yesterday for Palatka where she will visit her mother and sisters.

Mr. and Mrs. Dan U. Wilder of Jacksonville arrived here Sunday and were the guests of the latter's parents Mr. and Mrs. John T. Brady. Mr. Wilder returned to Jacksonville, while Mrs. Wilder will spend the remainder of the week here.

S. M. Schwarz, of Chicago, Ill., arrived in Sanford yesterday and will spend some time here looking after his property. Mr. Schwarz owns a lovely place here and has scores of friends here who will be interested to learn that he will remain for some time.

"THE SEASONS"

A charming program representing "The Seasons" has been arranged by Mrs. A. F. Mac Allister and Mrs. C. J. Ryan for the music department of

the Woman's Club for Wednesday afternoon, March 14, in the club house, at 3:30. This program will be "open" and club members and their friends are cordially invited to attend.

The program will be as follows:

"Goodbye to the Leaves" (Soprano solo,) Miss Lillie Ruth Spencer.

"Winter Lullaby" (soprano solo) Mrs. Glenn.

Mendelssohn's "Spring Song," (Piano solo) Miss Virginia De Coursey.

"Roundelay of Spring" (soprano solo) Mrs. Julius Takach.

"Summer Is A Coming In" (contralto solo) Mrs. Leake.

"Roses, Roses Everywhere" Women's Club Chorus.

Solo Dance, Little Miss Ellen Tilford.

BIRTHDAY PARTY

Saturday afternoon Master Lewis Wright invited a number of his young friends to help him celebrate his fourth birthday anniversary.

Bowls of bright hued nasturtiums were used in the rooms and the lovely birthday cake iced in white and topped with four tiny red candles, centered the dining table.

Games of all kinds were played, the feature of the afternoon being an Easter Egg hunt. Late in the afternoon refreshments of ice cream and cake were served by the host's mother, Mrs. Mahlon Wright, assisted by Mrs. J. E. Pace and Mrs. Forrest Gatchell.

About twenty children enjoyed this happy event and the host was the recipient of many beautiful gifts.

NELLIE TURNER CIRCLE

The members of the Nellie Turner Circle were delightfully entertained at the home of Mrs. C. J. Wolf last Wednesday afternoon with eleven members present. The attendance and interest of the circle is increasing. The principal business to come before the meeting Wednesday was our new missionary book. Dr. King made a very interesting talk on the first chapter, "The Wandering Jew in Brazil." Some very interesting plans were discussed for an Easter cooked food sale, also colored easter eggs. After the business, the hostess assisted by Mrs. Methvin, served ambrosia and cake. Those present were Mrs. Fields, Thomas, Freeman, Walker, Roll, Wigam, Bragg, Estridge, Climons, Methvin, Huff, visitors, Mrs. March, Mrs. C. H. J. R. Wolf and Dr. King. On account of the special services at the church the circle will not meet Wednesday but will meet next Wednesday, March 21 at 3:30 with Mrs. Wigam.

ST. AGNES GUILD

The regular monthly business meeting of the St. Agnes Guild was held yesterday afternoon at the home of Mrs. S. M. Lloyd on Park ave.

Reports were read by the officers and plans perfected for the annual Easter ball which will be held at the Parish house, Monday, April 2. A splendid orchestra has been secured and the dance will be bigger and better this year than ever.

The members of the Guild are asked to contribute to the annual linen show for the hospital and all articles are to be turned in to Mrs. Fred Daiger either Friday or Saturday of this week.

All articles for the box for the girl at St. Mary's school are to be brought to the meeting Monday afternoon at the home of Mrs. Wm. Belding, as the box is to be sent next week.

After the business had been attended to a social half hour was enjoyed, the hostess serving iced tea and cake.

Among the members present yesterday were Mrs. Julius Takach, Mrs. R. W. Fearman, Mrs. Claude Derby, Mrs. Paul Biggers, Mrs. W. M. Belding, Mrs. Raymond Phillips, Mrs. Fred Daiger, Mrs. M. Minarik, Mrs. Chris Mathews, Mrs. Howard Overlin and Mrs. J. N. Robson.

ALBANY, N. Y., March 12.—The anti-saloon league of New York must file statements of expenditures in connection with political campaigns according to a decision handed down by Supreme Court Justice Stanley today. The order was granted upon application of a group of residents of Troy, who contended that the anti-saloon league was a political organization and should be compelled to comply with the provisions of the election law.

LOCALS

J. H. Huddleston of Geneva was in the city today.

James Kincaid and Billie McCredie of Orlando were among the prominent visitors to the city today.

Wednesday is the last day to name Dr. Robson's Sanitarium. \$5.00 will be given to the person sending in the selected name.

Born and to Mr. and Mrs. J. R. Head, a little daughter. She arrived at Dr. Robson's sanitarium last evening.

Mr. Hauser, who was injured a few days ago having his skull fractured and after a serious operation, is improving nicely. He is still confined to his bed at Dr. Robson's Sanitarium.

The Butt-Guernsey Co., through their manager, G. D. Cleveland, are advertising used cars in this issue. They have some unusual bargains in this line. Look them over.

Hon. Seth Woodruff was in the city today for a few hours enroute to the big meeting of cattlemen in DeLand. His many friends were glad to see him again.

Cold words freeze people, hot words scorch them, better words make them better, wrathful words make them wrathful. Kind words make people good natured, they do not cost much, they accomplish much. Kindness is the keynote of the Seminole County Bank.

J. B. Weldon, representing W. S. Rice, rupture expert, will be at the Valdez Hotel Thursday to demonstrate the Rice Rupture Method free to any and all those who are interested. Every ruptured person in this vicinity should take advantage of this offer. See the advertisement in this issue.

Roscoe King, representing the Hodson Company, fishing tackle, was in the city yesterday and today shaking hands with his many friends and calling on the local trade. Roscoe is an old Sanford boy and resided here many years ago. He sees many changes here every time he comes and says that Sanford is one of the best cities in Florida.

Mrs. W. M. Pepper of Gainesville was a pleasant caller at the Herald office today and was shown through the best plant in this part of Florida. Mrs. Pepper is the wife of W. M. Pepper, editor of the Gainesville Sun and president of the Pepper Printing Co. of Gainesville and is here attending the state meeting of the Federation of Women's Clubs.

Piggly Wiggly has an advertisement in this issue calling attention to the special sales for Wednesday and Thursday in "dependable eatables" and the prices just right. Read the advertisement and save money by trading with the Piggly Wiggly. They are running special sales all during the week and have special inducements in the grocery line.

Hon. T. Baxter Lanier, the sage of Tavarez, was in the city yesterday and paid the Herald office an appreciated visit. But is the handsomest man in his bullwink and admits it. He is also one of the oldest and does not admit it. And lastly he is one of the best old friends we ever had during our younger days in journalism in Florida and we have not forgotten him and never will.

Florida: Mostly cloudy Tuesday; probably local rains in north and central portions; Wednesday, fair; cooler in north portion.

A Beautiful Complexion of Satin-Like Texture

The incomparable beauty of thousands of women—that smooth, satin-like skin texture so much admired—is the result of **Nadinola Cream**, which has proved itself for a quarter of a century, the standard bleaching and beautifying cream.

Scientists long ago discovered and combined in **Nadinola Cream**, elements which bleach the skin and remove tan, freckles, pimples and other discolorations. Of its own peculiar virtues, it rids the skin of impurities and leaves it smooth and beautiful.

The 50c. package will remove mild cases, the \$1.00 size more stubborn cases.

Directions and guarantee in each package, at your toilet counter.

Tampa Tribune headline says "After Four Attempts at Suicide Girl is Sent Back to New York." We should think so. If she could not die in Tampa after four attempts she should be sent back to New York for life. And this only carries out the assertion made by Florida real estate men that no one ever dies in Florida.

That rain for two nights has been the salvation of the celery growers and those who are starting spring crops. The weather is much cooler and the celery can stand a few more days without shipping if the markets are not just right. And we would like to say again that there is no valid reason why the celery markets are not better. Our present brand of celery is the best that has been shipped in a long time and it should be bringing a much better price.

The president and his party are having a hard time getting anywhere in the East Coast canal. The water is so shallow and the sand bars so frequent that the reports say the party is getting tired of "being shoaled" in the canal and they want to get out and walk. If the president and party would take a real river trip on the St. Johns river they would have plenty of blue water, plenty of real scenery and plenty of golf and amusements and they would be in the best country in the world.

We were down to Winter Park yesterday afternoon and while the hour was late and we were very busy we could not see the signs of prosperity on every hand. There is a new hotel getting ready to build on Park avenue and will have several fine store rooms on the ground floor; another business block is ready to start, many fine new homes are going up everywhere and they tell us that the people can get all the money they want to make these needed improvements. Winter Park is one of the most beautiful cities in Florida and it is also one of the most progressive and we predict that in the next five years it will double in population.

MR. BRYAN, THE PEOPLE'S FRIEND: William Jennings Bryan was here today and he has lost none of his pristine vigor, none of his power, none of his logic, none of his keen analysis of political affairs and affairs of state. He is deeply interested in Waterways in Florida. He gave the editor of the Herald an interview on waterways and he had only a few minutes to be interviewed, but he spoke much in that time. The great Commoner knows what Florida needs, he knows what America needs, and best of all he knows what the common man should have and if he is ever put in a position again where he can fight he will show up the people who are putting the burdens on the necks of the people today. And unless we are badly mistaken Mr. Bryan will have a chance to show them in the next two years and when that time comes the Sanford Herald will be behind him for one newspaper in Florida and we fondly imagine that every newspaper in the state that is not

owned by the railroads and other corporations will be behind him. Until that time comes we will have nothing more to say along this line and we have said nothing to Mr. Bryan about these immature plans but Mr. Bryan is the greatest man in Florida today even if he has gone into political seclusion.

We wish to congratulate Orlando upon the opening of the Anglebilt hotel. It means much for the beautiful city of Orlando and it also spells success for the band of energetic men who were behind the movement to build this hotel. They had a big job but they "put it over" and with the completion of the new addition to the San Juan Hotel, Orlando will have some of the best and biggest hotels in the state. The Orlando papers played up the opening of the new hotel with special editions not only showing the world that Orlando was opening a fine new hotel but that the Orlando advertisers were also alive and on the job and best of all that the two daily newspapers were there with the goods. Congratulations to the whole bunch.

EUROPEAN REASONABLENESS.

One of the latest converts to a policy of American helpfulness in Europe is Senator Edge. After spending several weeks abroad, studying foreign conditions, he says:

"I am convinced that conditions in Europe are now so acute and in some cases so appalling that the necessity for our help and co-operation will demand and assure an entirely new reception of our willingness to 'sit in' if properly manifested."

This country's "waiting policy" was all right, he says, "while the selfishness of European nations was so manifest," and saved "unnecessary complications." But he thinks that continuation of that policy now would be too costly to Europe and America both. And "Europe, generally speaking, is so prostrated that the stricken countries must and will now listen to reason."

If that time has not come, it can hardly delay much longer. The Old World seems incapable of saving itself, and will have to "listen to reason" from the New World, if there is to be any salvation—provided the New World has anything to submit the reasonableness of which will be self-evident.—Jacksonville Journal.

WATERWAYS MEETING TOMORROW.

One of the most important meetings that has confronted the people of this city and county in the past twenty five years is that of the waterways hearing to be held here tomorrow morning starting at 10 o'clock in the court house. If the Sanford people could but see the manner in which Orlando and other sections are taking hold of this matter they would come forward and assist in a manner that would be quite different from that of any in the past. We are speaking now of those business men and other folks who while profiting the most from the deeper water in the St. Johns river have never assisted or tried to assist in the movement and as usual have sat down and let others do the work while they raked in the shekels. Many Sanford men and especially those active members of the Chamber of Commerce, have worked early and late on this most important matter and they deserve the highest praise and commendation for this good work. But all that is past and now that we have this big meeting tomorrow it is up to the people of Sanford to attend the meeting and show the engineers that Sanford is alive to the possibilities of water transportation. A big crowd interested in the proceedings has a good effect on the men in charge of the meeting for it shows that public interest has been aroused. Let every business man of Sanford attend the meeting tomorrow and show his colors. You are either with the city of Sanford or you are against it and unless you are taking an active interest in this waterways movement you certainly are against the best interests of Sanford.

LAKELAND ABOUT TO DECIDE ON MODERN GOLF COURSE

If the temper of the meeting of approximately seventy-five citizens at the Elk Grill on Monday noon is to be accepted as an index to public feeling generally, Lakeland will, by next season, have a real golf course. Thirty thousand dollars is the goal set by the committee of the Chamber of Commerce having the campaign in charge. This amount of money, so those who know about such things say, will be ample to provide all the essentials of successful country and golf club operation. No argument would seem to be necessary in favor of Lakeland breaking into the list of Florida cities possessing this feature of recreation for citizens and visitors. Miami has somewhere around twenty golf courses; that Lakeland with at least one third the population of Miami should have none at all, is preposterous. So it is up to Lakeland, to

take advantage of the golden opportunity to render itself a service. The golf committees will interview the people Wednesday morning and on Thursday morning between the hours of 9 and 12 o'clock at their homes, their places of business—wherever they are to be found—in an effort to add another valuable asset to the community.

ALL AFRAID OF HENRY FORD

That Congress and the higher officials of this country and especially the big trusts are afraid of Henry Ford has been proven time and again and the greatest proof is their attitude toward his offer on Muscle Shoals. If they were not afraid of little Henry they would at least give him a chance to take over the Shoals and show what he could do and even if he annexed the entire works he would be doing no more than the big business men of this country are doing every day and with Henry in charge the common people would at least get a fair show and some of the gravy. The Jacksonville Journal says:

"Administration leaders in congress have come out unqualifiedly against acceptance of Henry Ford's offer on Muscle Shoals. In fact, they will not let the bill come to a vote in the house."

"On the other hand, Herbert Hoover, Secretary of Commerce, who is by way of being an administration leader himself, is strongly in favor of Henry Ford as against any attempt at government operation or manufacture of nitrates."

"During the hearings on the third deficiency appropriation bill, Mr. Hoover said: 'I am in favor of the development of Muscle Shoals for making nitrates. I would like to see Mr. Ford do it. I do not know whether Mr. Ford's terms are the terms congress ought to adopt, but I would like to see anybody who has the capital take Muscle Shoals and turn nitrates out of it tomorrow and I would be especially more than pleased if we could take hold of this 4,000,000 horse power in Arizona and make nitrates out of that. But Muscle Shoals is nearer production than the other and we can start right there. I am not in favor of government operation or manufacture of nitrates.'"

FROM OTHER SANCTUMS

"Now that seems clear enough, does it not? And undoubtedly Secretary Hoover speaks by the book. 'But if the administration doesn't propose to consider Mr. Ford on the one hand or permit any consideration of government operation on the other, what in the name of logic does it propose? Several thousand Florida farmers representing many billions of annual food production are mightily interested even if their government is not.'"

TWO DOLLARS A TAG.

The Palatka News has started a proposition which is sure to cause much discussion throughout the state and which admits of considerable argument for and against.

The News advocates a change in the present automobile tax law, fixing the price of a license tag at two dollars, without regard to the size of the car, and placing a tax of two cents a gallon on all gasoline sold in the state.

The News argues that this would be a much fairer system than the present one, because, it says, a car paying eight dollars for a tag may use the roads a great deal more than one paying fifteen dollars. The paper points out that the two dollars fee for tags would pay the expense of buying the tags, registration fee and all the work required, and still leave at least one dollar profit to the state. This profit could either be allowed to accumulate or put into the road fund.

The gasoline tax would be collected by the dealer, who would remit to the state every month. The state would retain one-half cent of this tax and distribute the remaining one and one-half cents to the county where it was collected, for county road fund.

It would require considerable calculation to ascertain the probable difference in the revenue collected under the present system and that which would be derived from the one proposed. The main difficulty in the new plan would consist in providing for the proper collection of the two cents on each gallon of gasoline sold. Again there is nothing unfair about the different prices of tags, because the larger and more expensive car ought to pay more than the smaller, cheaper one. The matter of the comparative use of the roads is beyond computation. The principal objection to the present plan of collecting a large sum for

ALCOHOL AS SUBSTITUTE FOR "GAS" OF LITTLE COMFORT TO MOTORISTS DECLARES SEN. LAFOLLETTE IN REPORT

Unless Standard Oil Co., Which Completely Controls Oil Industry Will not Monopolize Patents

WASHINGTON, March 14.—The suggestion that alcohol might eventually be utilized as a substitute for gasoline was characterized in a statement today by Senator LaFollette, the chairman of the senate oil investigating committee, as bringing no comfort to motorists unless there is also assurance that the "Standard Oil will not monopolize the patents and processes for the manufacture of alcohol for motor purposes."

In a reply to statements of President Teague of the Standard Oil Co. of New Jersey; President Kingsbury of the California company and others, Mr. LaFollette said the report of the investigating committee covering months of arduous labor and returned by a unanimous vote, required neither "explanations nor defense."

"It is all important," said Mr. LaFollette, "that neither interviews of possible dollar gasoline or any other future contingency should be permitted to divert the public attention from the present dominant fact established by the sworn testimony in this investigation that:

"The Standard Oil Companies completely control the oil industry of the United States. They have partitioned the territory of the United States among the member companies of the Standard group as spoils, and acting in perfect accord they (1) fix the prices with the producer of crude oil received at the well; (2) the price which the refiner receives for gasoline and kerosene and (3) the retail price which is paid by the consumer."

"Through the control of pipe lines connecting the great producing fields of the West with the consuming territory of the Middle West and the East, the Standard companies monopolize the transportation of oil, nullify the law declaring pipe lines common carriers, render the possibility of effective competition by independent producers and refiners utterly futile and constantly menace their very existence, or cripple and destroy any of the more troublesome of them at will."

"The reference by the committee to the possibility of dollar gasoline seems to be the principal point of the Standard Oil attack and the Standard officials hasten to assure the public that there is no danger of dollar gasoline, but the reason they give for this assurance (and herein lies the significance of their statement) is that before gasoline reaches a dollar a gallon some substitute for it will be found."

"The Standard does not deny either the will to make the price of gasoline a dollar a gallon or the power to do it under the conditions described in the report, but its answer simply is that before gasoline reaches a dollar a gallon a substitute will be found for it. And alcohol is the substitute suggested."

"If this is to be regarded merely as another evidence of that grim humor for which the Standard Oil is noted, it is understandable. But until there is some suggestion as to the product out of which the alcohol is to be manufactured in quantities of hundreds of millions and billions of gallons to take the place of motor gasoline, and a reasonable certainty that Standard will not monopolize the patents and processes of the manufacture of alcohol for motor purposes, the suggestion to the motorist that he can use alcohol instead of gasoline as motor fuel will not bring much comfort."

THE STOCK INDUSTRY IN FLORIDA

In the stirring appeal of the secretary of the Cattle Raisers' association for united opposition to tick eradication and a no-fence law, printed in The Times of yesterday, occurs this expression: "The stockmen, all of us, are being forced to face unreasonable, unjust and unfair treatment in the form of class legislation." Now isn't that argument enough to bring a big smile on the face of a graven stone image? Coming from the beneficiaries of the rankest class legislation that was ever adopted by any civilized country; legislation that gives its beneficiaries the right to graze their stock on another man's land without so much as saying, "By your leave," that exempts the cattle owner from any claim for damage that his wild stock may do to the crops of his neighbor; that has run along for more than half a century, in spite of the most vigorous protests of farmers and grove owners, who outnumber the stockmen five or ten to one, the cry of "class legislation" is so absurd as to be very laughable if it were not gravely made.

The idea that a handful of stockmen can force their will upon a majority of the people of a great state, devoting their time and money to its development, making a barren wilderness into a beautiful and productive farm and garden land, is contrary to the first principles of democracy, which declares that the majority shall rule. It is allied to the Soviets of Russia who have taken the land from the owners and distributed it among the communists, who are too lazy and ignorant to use it to advantage, and prefer to subsist on charity.

The argument against tick eradication is worthy of no more respect than the false cry of class legislation. Who knows better than the stockmen themselves that the markets of the world have been closed to the ticky cattle of Florida by the federal quarantine? They have suffered heavy losses during the past two years because of it. Do they expect to have it raised because of their stubborn opposition to a measure which has worked well in other states? It is a base-

less hope that will never be realized. How long will the stockmen persist in raising ticky cattle for which there is no market outside of the state? It might be supposed that any man with intelligence enough to put two and two together to make four would see the supreme folly of it. It is the stockmen themselves who are killing the industry by their insane and suicidal adherence to an antiquated and out of date policy. The salvation of the industry lies in fenced pastures, tick eradication, better feed and better stock. These are the only measures that will get it out of the quagmire in which it is now wallowing. If the stockmen are bound to kill the industry, they can do it with another such "victory" as they achieved two years ago in the legislature.

Moreover, the position of the stockmen is the greatest bar to progress and prosperity of the state. Men come here from other states where the cattle are cared for by their owners, and the industry thrives beyond the conception of the cattleman of Florida. and when they see the wholly wild and half starved range cattle of Florida, eaten alive by ticks, and learn that they are free commoners, protected by "class legislation" of the rankest kind, and that the farmer and fruit grower has no protection whatever against these starving hordes, he shakes his head in disgust and leaves the state which is so careless of the best interests of its citizens. So the "back country" will remain back country to the end of time unless those who would develop it are protected in their rights. The land of Florida is too productive to be given up to wandering herds of wild cattle.—Tampa Times.

Morehouse Grand Jury Approaching Investigation End

BASTROP, La., March 14.—The Morehouse parish grand jury, because of the rapidity with which it progressed yesterday, was believed to be approaching the end of its investigation into the operation of hooded men in the parish.

There were numerous witnesses on hand when the inquiry was resumed yesterday afternoon, but they were disposed of so quickly the jury is understood to have run out of material during the afternoon. So far as was known last night only one more witness remained to be examined, Harris Neelis, of New Orleans, who was expected to arrive some time today.

Neelis formerly operated a garage in Bastrop and was the employer of T. F. Richard when Richard was kidnapped a short time before his second abduction on August 24 and questioned concerning an alleged attempt upon the life of Dr. B. M. McKoin, former mayor of Mer Rouge. On August 24 Richard and Watt Daniel, were kidnapped and never heard from again, until two bodies identified as theirs, were found in Lake LaFourche December 22nd.

SAVE WITH A FIXED PURPOSE. The reason why comparatively few people get anywhere in a financial way is because they do not save with a fixed purpose. The man who gets the best results deposits a specified amount with this institution weekly or monthly. By following this plan, success and financial independence will follow you. Rupture Expert

FOR MEN, WOMEN AND CHILDREN

VALDEZ HOTEL

SANFORD, FLORIDA

Thursday MARCH 15TH

Demonstrates the Famous Rice Method that has Restored Thousands to Full Bodily Activity

FREE TO ALL

If you are ruptured, your big opportunity has now arrived. If you want to be free from the slavery of gouging, chafing trusses that make life a burden and misery, then HERE and NOW is the time to act.

J. B. WELDON

Expert in rupture cases, trained under the personal direction of W. S. Rice, of Adams, N. Y., the famous discoverer of the Rice Non-Surgical Rupture Method, will be at the Valdez Hotel, Sanford, Florida, Thursday, March 15th, and at the Williams Hotel, Daytona, Fla., Saturday, March 17th, to give free demonstration and trial of the safe and painless Rice Method to every man, woman and child who is ruptured.

You have, no doubt, heard and read much about this famous Rice Rupture Method and the wonderful cures which thousands have reported from it. Now, you have the chance to find out all about it—to have it personally applied to your own rupture and learn just what it can and will do in YOUR OWN case. Just call at the hotel and this expert will give you personal attention, best advice and complete demonstration entirely free.

Are you tired of that binding, hampering, uncomfortable old truss? Would you like to be done with truss wearing forever? Then investigate this Rice Method and learn the wonderful opportunity for help and cure it offers. Remember it is different from everything else and is accomplishing cures where all other treatments, and even operations have failed. It is modern, up-to-the-minute, foremost of the latest scientific developments. It is the one Rupture Method that you are not asked to take on faith alone—the one Method that is positively demonstrated to you right in your own rupture, without any charge whatever.

Don't let this great opportunity get away from you. Your call on the Rice Expert is sure to prove one of the best things you ever did. He will be there only one day then your opportunity will be gone. Remember, you do not spend a penny unless, after having a complete demonstration, you decide this is the Method for you and you—you alone—are the sole judge of that.

Call any time from 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 evenings. Simply ask at the hotel desk for the Rice Expert and he will do the rest.

Don't miss seeing this Rice Expert.

WM. S. RICE, Inc., New York

Cowboy Contests Features of The Cattlemen's Association

FOURTH ANNUAL MEETING MARCH 13-14 TO HAVE UNIQUE FEATURE

The famous annual meeting of the Cattle Raisers' Association of Florida will be held in Deland today and tomorrow, with a number of strong speakers on the program and President Garret Murph in the chair. A feature of the program will be a rodeo on Wednesday afternoon, in which cowboys will take characteristic parts. This is expected to be one of the important gatherings of the season and a large attendance is expected from all sections of the state. The townspeople are preparing to assist in the celebration, the merchants are arranging a feature sale, large prizes are being offered by the DeLand Commercial club and the cattlemen will be shown some of the interesting points in and about this city.

So far as known the rodeo arranged for the afternoon of Wednesday is unique in the history of the state. It is believed that the like has not been seen in many years, if ever, in Florida. The contests of the cowboys will be similar to those held in the far west in the early days and combined with it will be the lance contest and the ring contests which are survivals of the days of knighthood, coming through the mountain people of Tennessee, Kentucky and the Virginias. Among the features of the rodeo will be horse-racing, poicking articles from the ground, whip popping, combats, lance and ring tournament and so forth. It will be seen that if the events turn out as planned, there will be something of unusual interest on the program of the cattlemen's meeting.

All cowboys and cattlemen are invited to take part in these contests. It is expected that a large number will enter and that this will mean that the rodeo will be a regular feature of the annual meeting hereafter.

The merchants of Deland have decided to make March 14, the second day of the meeting, a Dollar Day and this means that hundreds of people will visit the city on that day who will also take advantage of the cattlemen's meeting, and hear the addresses and attend the rodeo. The merchants plan to make this a great event, with real bargains for the buyers and an interesting day for all who come. This is not a part of the program of the meeting, of course, but is arranged to assist the cattlemen in making the Deland meeting of the association a noteworthy event.

The program started this morning in the court house with roll call at 10 o'clock.

Address of Welcome, Dr. Lincoln Hulle.

Response, Garret Murphy, president of the association.

Tick Eradication Recommendation, Dr. J. V. Knapp, state veterinarian.

Problems of Cattlemen: Gathering and Dipping Cattle.

Tuesday, March 13, 2:30 p. m. Beneficial Results of a No-Fence Stock Law to the State, S. Bryan Jennings, Jacksonville.

Would a No-Fence Stock Law be detrimental to the Live Stock Industry, Wednesday, March 14, 9 a. m.

How Cattlemen should utilize the College of Agriculture and State Experiment Station, Prof. John M. Scott, vice director at the University of Florida.

The next legislature affecting the cattle industry, W. J. Epperson, Bronson, Florida.

Comparative market prices for live stock in Florida and other markets, L. M. Rhodes, Florida State Marketing Bureau, Jacksonville.

Business meeting and election of officers.

Wednesday, March 14, 1 p. m. Tournament or rodeo at Merryman's Field on East New York avenue, DeLand. This rodeo will include the features already mentioned.

All cattlemen from all parts of the state are cordially invited to attend this meeting. It is pointed out that many of the important problems facing the industry are to be taken up at this meeting and some of them probably will be started on the way to their solution. The best results cannot be obtained if a large representation of the cattlemen is not present.

All the cattlemen and cowboys are invited to bring their ponies and enter the tournament and other features of the rodeo. The Commercial Club of DeLand has secured \$200 in prizes and there will be a large crowd to witness the contests. All who plan to enter the events are asked to send their names at once to Belford Jones, De Leon Springs, Florida.

Free quarters and feed will be furnished all horses and the cattlemen and cowboys are urged to bring their horses so that DeLand will have the appearance of a regular western cow town for the two days of the meeting.

PLAYER PIANO—Cost new \$850, used two years. Owner moving north, will sell for \$450, terms to reasonable party. \$25.00 down, \$10 per month. P. O. Box 211, Sanford, 200-47p

Good Meeting at Kiwanis Today

President J. G. Sharon presided today with his usual austerity at the Kiwanis meeting at the Valdez. The opening solo was rendered to an appreciative audience by Mr. John Gillon in his electrical but none too magnetic tenor. We are sorry for Liza and trust she is sorry for us.

Messrs. W. M. McCrory and J. B. Waters, of Jacksonville, while dining in the Valdez dining room, heard the enrapturing Kiwanis songs and excused themselves from their dinner companions, and rushed into the room whence came the melodies. They announced themselves as Kiwanians from Jacksonville and asked permission to unite their voices and appetites with their brother Kiwanians. They were loudly welcomed, and responded with genuine Kiwanis talks, full of enthusiasm and wind. The secretary read a very polite note of regret from Irvin Bachelor of Winter Park. Mr. Bachelor had been invited to visit the Kiwanis club of Sanford in the near future, but declined in his very elegant literary phraseology, wishing the club success and happiness ever after, etc.

A letter from the Kiwanis club of Tampa inviting members of the club to meet with them on their Ladies' Night was read by the secretary. No action was taken on the matter.

Mr. E. F. Lane gave a complete report of the recent successful entertainment given by the Kiwanians at the high school auditorium, and Mr. Lake presented Dr. Marshall with a lovely doll, all of his playthings having been lost during the confusion following the play. The smiling doctor received the gift with thanks, but declined to respond to the request for a duet, asking that he be permitted to give it in all of its parts at the next meeting when he will be accompanied and assisted by his twin sister, Col. Mines.

Fred V. C. Ball and Bulek Moore were welcomed as new members, and intimated a "solo for two" upon the audience, the finale of which was graciously applauded.

The MUMMY SONG at this time refreshed the weary spirits of the fast filling Kiwanians, followed by a plaintive rendering of NELLIE EIGHT SUM ORSTERS, which wouldn't stay at all.

Mr. McCrory, one of the visitors, here arose and stated that as he had lived for a time in Atlanta, Ga., and had been blowing horns of various kinds most of his life, he just couldn't stay "put" any longer. So, the members resigning to the fates for a while Mr. McCrory proceeded to play some tunes about Florida, Jacksonville and Sanford, stating that in his opinion, the future of this state and these cities lay almost, if not entirely before us.

Mr. A. P. Connelly spoke briefly on water ways, calling attention to the hearing to be held tomorrow at the court house before the government engineers, and urging as many as possible to attend the meeting.

The club was saddened by the absence of their chief scribe, Brother Neal, the cub reporter, who is still on a liquid diet, due to the loss of his meat choppers. The matter of renting another set will be submitted to the club next week if our suffering brother continues to bless us with his absence.

Host Weegman was "there with the goods" and the members of the club will await next Wednesday with eager hearts and appetites.

Adjutant General Derelict in Duty Regarding Herrin Riot

(By The Associated Press) SPRINGFIELD, Ill., March 14.—Charging that Adjutant General Black had been derelict in his duty in failing to send troops to Herrin during rioting last June, Representative Igoe of Chicago today presented in the house of representatives a resolution appointing a committee of five to make a complete investigation of the rioting.

Catholic Priest Has Disappeared at Virden, Illinois

(By The Associated Press) VIRDEN, Ill., March 14.—Stirred to action at inability of authorities to bring them any word of their pastor, sixty members of the Catholic church of Virden left for Venice this morning to undertake investigation of a report that Rev. Fr. John Vranjak had stopped at the Venice garage on his way back to Virden from St. Louis last week. The pastor has been missing for several days.

BUSHNELL, March 14.—Prospects for the coming cucumber crop of this section indicate that approximately 200 cars will be shipped. This applies to the yield of track farms within a radius of one mile of Center Hill. The first shipment went forward several days ago. The shipment of string beans is expected to begin about March 20, with a record-breaking season predicted.

Waterways Plea Will Be Made in Sanford Tomorrow

The statistical committee of the Florida Water Traffic League met Tuesday afternoon in the rooms of the Orlando Chamber of Commerce to prepare a brief to be presented to the U. S. government engineers at the hearing to be held at the Sanford court house Thursday, March 15 at 10 a. m.

A large attendance is desired to demonstrate to the representatives of the government that there is a widespread and popular demand for the much needed waterways in this state, particularly as it relates to the deepening the channel of the St. Johns river from Jacksonville to Sanford.

This development will revolutionize freight shipments to and from Florida, and it is of the utmost importance that all interested parties be present at Sanford on Thursday.

The committee has prepared a complete and comprehensive brief which, supported by elaborate and conclusive statistical exhibits, will have tremendous weight with the engineers at the hearing.

Orlando and all Central Florida will benefit greatly by the work of the Florida Water Traffic League.

Judge W. T. Bland, Orlando, is the chairman of the statistical committee and presided at the meeting on Tuesday. Others present were: A. P. Connelly, president of the Sanford Chamber of Commerce; S. J. Sligh, Orlando, president of the league; Geo. W. Knight, vice-president of the Sanford branch of the league; W. T. Leffler, Sanford, chairman of the traffic and transportation committee, Sanford Chamber of Commerce; R. W. Pearman, secretary of the Sanford Chamber of Commerce, and Karl Leimann, Orlando, secretary of the Orange county chamber of commerce.—Orlando Sentinel.

LONG DISPUTE BETWEEN POLAND AND RUSSIA

May Be Ended By Decision of Allies Council

(By The Associated Press) PARIS, March 14.—By a decision of the Allies council of ambassadors rendered today finally fixing the frontier between Poland and Russia in the Vilna district is attached to Poland. The decision ends a long dispute between Poland and Lithuania with dramatic incidents beginning with a raid on Vilna by the Polish General Zeligowski in 1920.

JAX TEAM INVITED

(By The Associated Press) CHICAGO, March 14.—Six more state high school champions were selected today by the University of Chicago and invited to the annual inter-scholastic basketball championship tournament here April 4, 5, 6 and 7. Sixteen teams, all of them sectional leaders, have been invited thus far and acceptances have been received from six. Among the teams announced today are:

Simpson High of Birmingham, Ala., state champions, and Sidney Lanier, Montgomery (runners up in Alabama); Duval high, Jacksonville, former state champions.

An acceptance was received today from the Point Bluff, Ark., high school state champions.

Extend Orlando Limits to the City of Winter Park

Extending the city limits of Orlando northward to the southern limits of the town of Winter Park is to be proposed by a special committee at the Chamber of Commerce meeting, it has been announced here.

The committee met Monday when it is understood it adopted the plan. It also will ask that the limits be extended three-fourths of a mile westward, and a half mile to the north and east.

The board of directors of the chamber of commerce announced several days ago it favored extending the limits in all directions and at the time it was suggested by members of the board that half a mile in all directions would probably be sufficient, although the board did not take a stand on the question of how far the extensions should be made.

Careful study of the plan, however, is said to have led the committee to

believe it would be best for all concerned to extend the north limits to Winter Park. That would mean that the city of Orlando would begin approximately half a mile north of Forest at the southern limits of Winter Park.

Part of the committee's plan of action, it is understood, to set aside next Tuesday's meeting of the chamber of commerce as a day of general discussion of the question. It was indicated this meeting would be open to anybody who cares to discuss the matter.

The committee, it was said, has a draft of a bill which would provide for the extensions. Its members, enthusiastic about the plan, believe it will be advantageous not only to the citizens living in the districts lying just outside the present limits, but to the city itself.—Orlando Sentinel.

Come to Jacksonville For A Delightful Spring
The spring months are most enjoyable in Jacksonville. April and May weather is ideal, giving to each day a fresh charm.
Northern visitors may enjoy the delights of spring to the utmost, in Florida's largest city. Florida people, also, will find much to amuse and entertain at this season.
The country surrounding Jacksonville abounds in points of historic interest. In the city there are attractions for all, grave or gay, and hotel and other accommodations to suit every taste and to fit every purse.
Visit Matchless Ocean Beaches Enjoy the Daily Band Concerts
All visitors will be welcomed and provisions have been made for wide variety of entertainment.
Band concerts are given daily in beautiful Hemming Park. Golf, tennis and like games afford ample recreation facilities.
The finest ocean beaches in the world are reached in a few minutes by motor car or train.
Start bathing here is safe and fascinating in spring. Motoring on excellent roads is particularly pleasing at this season. The broad St. Johns River affords magnificent boating and "sporty" fishing.
Baseball games are frequent and other clean sports abound. Splendid theatres and other attributes of a metropolitan city are available.
Visit Jacksonville this spring and you will be pleased.

FRENCH PLAN TO OPERATE ENEMY PLANT

(By The Associated Press)
RECKLINGHAUSEN, March 14.—Plans for operating the government owned coke plant at Westerholt, near here, which has been taken over by the French authorities as part of their scheme for obtaining reparations from the Germans, were announced yesterday. Members of the engineers' mission, which has the work in hand, are reported to have made arrangements to load into cars 15,000 tons of coke taken with the plant. The first train of this coke started for France last night.

Tanks were used in the operation and a cavalry patrol has been placed around the plant; infantry guards have replaced the Germans, 400 of which quit work this morning. Four thousand miners in an adjacent coal mine also went on strike as a protest against the occupation of the coke plant, but even should the strike continue, there is enough coal on the surface to run the plant for several months.

Assurances were given the German officials by the French the coal would not be interfered with, but at the same time the directors were cautioned that if any difficulties arose in the coke plant, the coal mine, which also is state property, would be seized and shut down tight.

The arrival of 800 French troops and engineers was announced at the plant by the blowing of the great siren which is used as a danger signal. This created a stir throughout the district, in which the town of Buer is situated, but the occupation went off like clockwork and within a few minutes after their arrival, the military commanders and the German director of the coke railway were questioning each other.

The coke furnaces are cooling to-night; the French are going ahead with enthusiasm and expect to have the operating again within a few days.

If the strike continues, the French plan to bring in their own men, having 45 on hand ready for a start; these are Poles and Germans who signed for service and were put to work the first thing loading coke cars.

Grapefruit King of Fruit Market Now; Prices High

Grapefruit is standing proudly at the top of the citrus-market this week after having slumped along through the early months of the season at low prices. It is selling almost as high as oranges on the northern markets at this time, according to reports obtained from local fruit companies yesterday.

Good grapefruit is selling for from \$2.75 to \$3.25 a box f. o. b. Orlando. Oranges are bringing approximately the same with sales of extra quality fruit reported at \$3.50 and \$3.75.

Grapefruit shipments, in view of the favorable prices, are unusually heavy, having averaged more than 100 cars a day from the state for the last week. Approximately 32,000 cars of citrus fruit have been shipped by rail from Florida since the beginning of the season, according to reports.

Recent showers have helped the groves in this section of the state, but heavy rains are still needed badly, the shippers said. It is feared in some quarters that a prolonged drought may be encountered and the chances for next year's crop reduced. With the orange bloom as heavy as it has ever been in the state a bumper crop is expected next season unless favorable conditions arise to offset the bloom.

Valencias are being shipped now in small quantities but there is no tendency on the part of growers to flood the markets with their late product. Better prices are sure to prevail a little later, it is said, and most of the crop will be held back. It is too early to ship Valencias, anyway as they have not fully matured in most instances.

Orlando packing houses are working at top speed and cars of fruit are leaving here every day in greater numbers than is usual at this time of the year.—Orlando Sentinel.

DAYTONA, March 14.—Three resignations were handed to city Manager W. B. Hodges yesterday. They were from Chief of Police Frank T. Flowman, sanitary inspector Julian Denazarie and Patrolman E. W. Tullis. The trio of resignations makes the fourth since the election of an anti Ku Klux Klan city administration last week.

M. G. Rowe, municipal judge, was the first to resign.

"An Evening in Hawaii" at Redpath Chautauqua

"An Evening in Hawaii," an original musical production to be given at the coming Redpath Chautauqua by Vierra's Hawaiians, instrumentalists and singers, portrays most vividly the music and customs of Hawaii.

With the aid of novel lighting and scenic effects and appropriate costuming, an atmosphere of artistic beauty and realism is secured. In this setting Vierra's Hawaiians play the instruments peculiar to Hawaii, among them the steel guitar. Most expressively they sing the songs that are a part of the true Hawaii.

APRIL FOLLIES PROMISES FUN AT JACKSONVILLE

WILL MAKE AN ESPECIAL APPEAL TO WINTER VISITORS

JACKSONVILLE, March 14.—An energetic effort will be made this season to capitalize the spring climate of this city by presenting its appeal to winter visitors to other parts of Florida who have been making their first "stop-offs" en route north at Carolina and Georgia points.

The advertising committee of the city council has appropriated a considerable sum for space in South Florida daily newspapers in which the spring charms of Jacksonville are to be emphasized. In cooperation with other civic bodies, the chamber of commerce is planning an extensive program of March, April and May entertainment festivities.

Daily outdoor band concerts have been provided for Jennings Park, located in the center of the city. A day of fun and frolic, to be known as the "April Follies" has been decided upon for April 10. An automobile show and other events of like character are now scheduled for early dates and tentative arrangements have been made for numerous other attractive celebrations.

Largely increased accommodations for golfers have been provided by the completion of the new and "sporty" eighteen hole course of the Timuquang Club, on which President Harding will play before he leaves Florida. The links of the Florida Country Club retain their popularity and, while not to be open for play until October 1st, the municipal course is even now a center of attraction to visitors who are interested in golf.

On every hand there is recognition of the wonderful appeal of the ocean beaches close to the city and the motor roads leading thereto have been greatly improved during the winter. The national highway leading from Jacksonville west, now under construction by the State Highway department is open to MacClenny and beyond. That historic black spot in Florida's highway system, the Waycross road through Nassau county, is also rapidly changing character, the hard-surfacing by the department being more than half completed.

Once Jacksonville was the winter resort city of Florida. Years ago her sordidness was yielded to more fortunately situated and more progressive places further south. The preceding local movement to "come back" in the entertainment of northern visitors fully and frankly recognizes these facts and offers Jacksonville as a supplement to, rather than as a substitute for, other Florida tourist centers. The campaign will be extended, in the late spring, to cover Inland Alabama, Carolina, Georgia, Mississippi and Tennessee points with advertisements of the ocean-front joys of Florida life in summer.

State Budget Now Ready for Printer

(By The Associated Press)
TALLAHASSEE, March 13.—The budget commission came out from under its mass of figures yesterday with the finished product of its several weeks work ready for the state printer. Hence, it will go before the legislature at its meeting next month and offer that body, according to the proponents of the budget system of state finances, its first comprehensive grasp on the subject.

Its contents will not be made public until the program is submitted to the legislature, it was officially stated.

Bithlo's Mayor and Treasurer Are in Trouble

Sensational developments centered about the peaceful little Orange county town of Bithlo Tuesday, when it became known that charges had been made against Mayor H. E. Trowbridge and City Treasurer Barton Pittman, both of whom live here.

Several thousand dollars, said to belong to the town of Bithlo, had disappeared, it was alleged, and the mayor and the treasurer are charged with responsibility for the missing money. Their accusers, who number several persons interested in development of Bithlo, assert the officials have used the town's money to pay their living expenses here in Orlando and diverted the public funds into other private channels.

Mayor Trowbridge came here several months ago from Ohio, and with Pittman bought the Bithlo Development company's holding. The town was incorporated last fall and the two men were named to fill the two most important positions in the government. It was understood, citizens of Bithlo state in affidavits, that the mayor and treasurer were to serve without salary.

When an accounting was demanded it is said that the mayor claimed he had been drawing a salary of \$200 a month, which is twice what the mayor of Orlando receives for his services. The treasurer was satisfied, according to statements made by the officials' accusers, with a mere stipend of \$250 a month. The two salaries, modest as they may seem, exceed the tax income of Bithlo which the home for approximately two hundred persons.

G. M. Sherman, a local real estate operator with offices in the McElroy building in East Church street, made the history of the case public when a local newspaper man learned of the difficulties.

He said a mass meeting was held in Bithlo Monday night and that citizens of the town were indignant. Affidavits were exhibited, purported to be signed by members of the Bithlo council, which revealed that Mayor Trowbridge and Treasurer Pittman had agreed to serve without salary.

Mr. Sherman said the town records could not be found, but when citizens broke into a desk in which the officials kept the books they found cancelled checks which had been issued by the mayor and treasurer for what is alleged to have been payment for personal bills.—Orlando Sentinel.

COLDS ARE CONTAGIOUS

Coughs and Colds are contagious and require prompt treatment as they spread or develop into Flu and Grippe. Take no chances when you can get Foley's Honey and Tar for a few cents and quickly check coughs and colds. The constantly increasing demand for Foley's Honey and Tar, for three generations, has made it the largest selling cough medicine in the world. Contains no opiates—ingredients are printed on the wrapper. Refuse substitutes. Insist upon Foley's. Sold everywhere.—Adv.

NOTICE
NOTICE IS HEREBY GIVEN that a meeting of the stockholders of SEMINOLE SECURITIES COMPANY, a corporation, will be held at the place of business of said corporation in the City of Sanford, Seminole County, Florida, on Friday, the 6th day of April, A. D. 1923, at the hour of 10 o'clock a. m. for the purpose of holding an election of the stockholders of said corporation upon the proposition of increasing the capital stock of said corporation and doing all things incidental thereto.
Dated, this 7th day of March, A. D. 1923.
R. C. MAXWELL,
Secretary of Seminole Securities Co.

Girl With Temperature Was Only Faking, and Used Hot Water Bottle

ESCANABA, March 12.—Miss Evelyn Lyons, the young girl who had astonished the medical profession by reports that she had been running a temperature of 114 degrees was discovered today as a practical joker who had a normal temperature.

A small hot water bottle concealed under her arm was the secret of the high temperature. While her temperature was being taken, according to the physicians, she would start coughing violently, remove the thermometer and place it against the hot water bottle, sending the mercury up to the top of the tube.

By coughing just before they put the thermometer in her mouth, she would cause a delay just long enough to put the bulb against the small bottle, which was but six inches in length and four inches wide, and by its color resembled the light gown perfectly, the doctors said.

"When we placed the thermometer under her arm, she would cough and in this way would cause another delay. By these means the girl completely fooled everybody who came to see the remarkable temperature readings. Her mother brought the hot water bottle to the girl unsuspectingly because of "Evelyn complaining of a sore on her back."

When confronted with the charge of employing ingenious methods of raising her temperature, Miss Lyons declared:

"You took my temperature. You saw the readings. It is not my fault if you read wrong."

Further questioning on the part of friends and newspaper men were of no avail as she would neither affirm nor deny the charge.

According to Doctors R. T. Woodruff and Morris Fishbein of Chicago, who came to Escanaba Sunday morning to observe the strange case, the temperature of Miss Lyon never was 114 or better. They declared the girl was very sick and was suffering mentally than physically.

Dr. Defnat last week gave the Associated Press a signed statement in which he said that the temperature readings of 114 were correct.

The girl, according to Dr. Fishbein, was formerly a nurse and was familiar with the temperature readings. She would remove the thermometer from her mouth during tests and yawn it about, he said, simulating hysteria, and touch the water bottle with it, causing the mercury to shoot to the top of the tube.

"We found it to be another case of hysteria the great enjoyment of the 'patient' manifested in reading reports in the newspapers of her own case," said Dr. Fishbein.

FIRO LOOKS FOR MORE WORLDS NOW

NEW YORK, March 14.—Louis Angel Firpo, South American pugilist whose stick in heavyweight circles has taken a big jump by his knockout of Bill Brennan in the 12th round at Madison Square Garden, is looking for more worlds to conquer.

The giant from the Argentine discussed future plans with Promoter Tex Rickard and a virtual agreement was reached for Firpo to box the winner of the match between Jess Willard and Floyd Johnson, scheduled at the Yankee stadium May 12.

The bout, Rickard said, probably would take place in June or July at Yankee park. If victorious again Firpo is assured of his ambition, a match with Jack Dempsey for the world's title, probably in September.

Rickard has made no premature plans for a Firpo-Dempsey contest, despite reports to the contrary, but should such a match materialize, there is a strong possibility it will be held in Buenos Ayres, capital of the Argentine republic, where Firpo is something of a national hero just at present.

BABE HAS SORE ANKLES

NEW YORK, March 14.—Partisans of the New York Yankees were worried yesterday by word from New Orleans that Babe Ruth, whose effort to start off in tip top condition to regain his home run honors, was baffled, first by influenza, now his sore ankles, due to over exertion.

His ankles were heavily bandaged yesterday and he watched the practice from the stands. Bob Meusel, a slugging outfielder, has signed a 1923 contract.

At the Giants camp at San Antonio Capt. Baneroff got into the infield.

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida

Notice is hereby given that R. Pitt, purchaser of Tax Certificate No. 211, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: NW 1-4 of NW 1-4, Sec. 19, Twp. 29 S., Range 32 East, 40 acres. The said land being assessed at the date of the issuance of such certificate in the name of Unknown. Unless said certificate shall be redeemed according to law Tax Deed will issue thereon on the 4th day of April, A. D. 1923.

WITNESS my official signature and seal this 27th day of February, A. D. 1923. (SEAL) E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Fla. 2-27-23. By: A. M. WEEKS, D. C.

GUSTAV DEFEATED IN TENNIS MATCH

(By The Associated Press) NICE, March 14.—King Gustav, of Sweden, was eliminated in the first round of the men's doubles of the Nice lawn tennis tournament, just like any common ordinary plus-thirty player.

The king played fine tennis during the first set, which he and Hunter won 8-6, but the heat and his advanced age told (Gustav is 64) and it was a very tired royal that netted the ball for the point which gave his opponents 6-1 in the third set and a victory for the match. The score of the second set was 6-2.

Mrs. Molla Bjurstedt Mallory, the American woman champion, is much more at home on the local courts than at either Monte Carlo or Mentone. She had little difficulty in getting past the first round of the women's singles, disposing of Mlle. Sainte Omeroy with the loss of only two games and for these her own errors were responsible. The score of the match was 6-1, 6-1.

Cross-State Road Will Be Kept Open

Due to the enterprise of the Union Cypress Company Traffic between Melbourne, St. Cloud and Kissimmee is not being interfered with in the least. In fact the road over the detour is much smoother than is that portion of the road which is now closed. Quick service is given by the train crew at all hours of the day, or night, and the auto tourists seem to be the more anxious to get on to get to the St. Johns river on flat cars. The entire distance covered by the detour is about seven miles, two miles of which is handled by the railway.

Cowing to reports sent out several days previous to the opening up of this detour, that the cross state road would be closed, many tourists traveled the way along to avoid getting from the west to the west coast. But since the Melbourne Chamber of Commerce has sent out notices to the Chambers and Motor Clubs all along the line, the usual number of cars are again resuming travel over the Melbourne Kissimmee short route across the state.—Melbourne Times.

NOTICE OF SPECIAL MEETING OF THE STOCK HOLDERS OF SEMINOLE COUNTY BANK, A CORPORATION

Notice is hereby given that a special meeting of the stockholders of Seminole County Bank, a corporation, will be held at Sanford, Florida, on the 21st day of March, A. D. 1923, at ten o'clock a. m. at the offices of said corporation, for the purpose of considering and acting upon a proposition to increase the capital stock of said corporation from the sum of \$50,000.00 to \$100,000.00, and for the transaction of any and all business necessary or desirable in connection therewith.

By Order of the President. Attest: A. R. KEY, Cashier, 2-21-23; 3-7-14-23.

The Herald for first class job work.

Miss Collett Wins at Bellair Course

BELLEAIR HEIGHTS, Fla., Mch. 14.—Miss Glenna Collett of Providence, national women's champion, won the sharks championship yesterday, when she played over the short course in eighty-four and the long course in eighty-five. Her playing yesterday was excellent and had she putted better she would have been below eighty.

Mrs. Alex Smith won in the handicap event with a score of 175 for the double round. She had a plus 3 handicap.

Cruisers to Start March 23 for Race

MIAMI, March 14.—The open sea excursions race from Miami to Havana for \$10,000 in prizes will start at Miami March 23, according to C. L. Chapman, secretary of the power boat association last night. The first day will consist of the lap to Key West and on March 24, the cruisers will finish at Havana.

The return to Miami, according to Mr. Chapman, who is acting as one of the officials of the race, will start Tuesday, March 27, at Havana, with two days allowed for the run back to Miami.

CANDLER ANSWERS SUIT

(By The Associated Press) ATLANTA, Ga., March 14.—Asa G. Candler yesterday filed in the United States district court here an answer to the breach of promise suit recently brought against him by Onezima de Bouchelle. In the answer Mr. Candler states that he became engaged to Mrs. de Bouchelle in January, 1922 and that immediately afterward Mrs. de Bouchelle proposed that they "go at once to be married." This, the answer states, Mr. Candler declined to do.

The Atlanta capitalist admits that "a member of his family visited New Orleans to investigate certain suggestions regarding Mrs. de Bouchelle's conduct, contained in letters from certain people in New Orleans.

These letters, it was said, were turned over to the petitioner's attorney and have never been returned. Most of Mr. Candler's reply is confined to either admission or denial of specific paragraphs by number only. Mr. Candler denied the position that was brought by Mrs. de Bouchelle and asks that her suit be dismissed.

NOTICE!

Notice is hereby given that a bill will be introduced at the 1923 session of the Florida legislature to prohibit scumming in the lakes, rivers, canals and streams of Seminole county, also to regulate the catch and means employed, and also provide penalty for its violation.

Seminole Chamber of Commerce, Seminole County Fish & Game Protective Association, 221-1c.

NOTICE TO HERALD SUBSCRIBERS!

On the first of this month subscription bills were sent out with notices that the subscription would be discontinued if the bill was not paid by the tenth of the month. This is a rule of the company and all who have not paid by that time will not receive a paper after that date until the bill is paid.

LEWIS SHIPP, Circulation Manager.

FOR THE MOVIE FAN

Another good crowd last night for the last family night.

Family night has made a great hit in Sanford.

But tonight will be a program extraordinary when there will be motion pictures of the auto polo games and parachute leaps and other scenes.

And besides the above Anita Stewart will star in the "Rose of the Sea" with a comedy, too.

And the above program will be well worth your while to drop in and see these features. The auto polo games and parachute leaps will also be shown Thursday.

And tonight the honor guests will be Mrs. Stella Arrington and son. This is your ticket, bring it with you.

Tomorrow night besides the Auto polo picture Katherine MacDonald will star in "White Shoulders," with "Just Dogs," a novel comedy.

And then Friday and Saturday the first motion picture in natural colors will be shown, "The Toll of the Sea."

The Akron (Ohio) Times says of "The Toll of the Sea": "Color is realistic and beautiful. But take these natural color tints away and 'The Toll of the Sea' would still be a good picture."

President Renews Acquaintance With Florida Sand Bars

FORT LAUDERDALE, March 14.—The houseboat Pioneer, carrying President and Mrs. Harding and their Florida vacation party, encountered all trials known to a pioneer yesterday in steaming, or rather attempting to steam down the Florida East Coast canal.

The boat although drawing only four and a half feet of water proved to be just a little bit too big for the

waterway she was attempting to pass through, especially at low tide, and the tide, it is well known, waits for no man—not even for the president. The result was that during the most of the day the vessel was either getting on a sand bar, was on a sand bar or about to get off a sand bar. To members of the party it seemed there always was a sand bar somewhere and when this afternoon, relief to the voyagers was offered from the shore it was gladly accepted.

The relief in the form of automobiles waiting to take the president and other members of the party to

the links of the Fort Lauderdale and county club here, was proffered by a delegation of Fort Lauderdale business men who discovered the Pioneer stuck on a sand bar above E. earstone, about half way between Palm Beach an ultra place. The President and Secretary Christian came ashore and with Edward B. McLean the president's host, who had come down from Palm Beach and Leo Diegel the gulf professional, came here for the daily game of golf.

Experimenting with off-grade or unknown motor oils is a dangerous and expensive pastime. There are undoubtedly other good oils on the market to-day, but the experience of this Company has been so large and covers so many years, that it has produced a motor lubricant of the highest quality—to retail at the lowest price commensurate with its value.

Pay more attention to your motor. Find out from our chart of recommendations just what grade and weight of oil your motor requires and, once you have determined this fact, remember that for efficiency and long-run economy you had "Better Stick to the Standard" and put nothing in your crank case but

Polarine MOTOR OIL

CROWN Gasoline

is another one of our products that has established a standard and sticks to it. Wherever you see this trade-mark displayed, you can depend on never-varying quality.

NATIONAL CAPITAL NOW DETERMINED BOOTLEGGERS HAV'N

LIST OF LIQUOR LOVERS INCLUDES THE "FOUR HUNDRED"

(By The Associated Press) WASHINGTON, March 14.—The series of bootlegger raids which in recent weeks has brought the national capital sharply into the limelight of the war of enforcement authorities against liquor violations has culminated in an order to army and navy intelligence officers to investigate appearance of names and addresses of more than fifty army, navy and marine corps officers in a list seized in a raid here March 3rd.

The list, as published Monday in the Washington Post, contains more than 400 names and was seized in a raid on the home of James M. Connor, arrested on the charge of illegal possession and selling of liquor after the confiscation of liquors valued at \$4,000. Connor, who the police declare, was one of the chief sources of bootleg liquor supply in Washington, has made no statement concerning the list and its presence in his home was the only evidence to connect it with his alleged liquor operations.

Lieut. O. T. Davis, chief of the police vice squad, who led the raid on Connor's home, was said already to have turned over the list of names to the army and navy intelligence officers. It was said also to have been given to divisional chief Read, of the prohibition enforcement bureau and to the commissioners of the District of Columbia.

The list, except in few instances, gave only the last name and address in the entries. The rank of the army navy and marine officers included, however, was indicated in each instance. These names included half a dozen high ranking naval officers and several of high grade in the army.

The police declared at the time of the raid also that about six of the names and addresses checked with those of members of congress and that several of the addresses were the premises of prominent women's and men's clubs here.

Connor was said by the police to have boasted before the raid that his clientele was so exclusive that he never would be arrested.

He and another man arrested with him, Edmund L. Craig, described as one of Connor's three assistants, were said by the police to have admitted that they handled on an average of 200 cases of whiskey a week. They were said to have stated that they manufactured most of it themselves and all of the necessary ingredients and equipment for the manufacture of Scotch and rye whiskey and gin, according to the police, was found on the premises.

An elaborate system of books was

said to have been found by the raiders, showing that a regular monthly accounting was rendered to purchasers. Experts of the police department have attempted to decipher a code found with the books, evidently arranged to connect up the book keeping system, but it was not known whether they had succeeded.

How to Insure Sales for Your Product!

The chief asset of any business is the demand for its product. As long as that demand continues, the business is on a sure foundation. But let that demand subside, and every other asset of the business is in danger of becoming a liability.

In times of prosperity and a rising market there is a general demand for the products of industry that comes to be accepted as a matter of course. It is seldom listed among the assets of the business—it is simply assumed that it will always be there.

But, overnight, conditions may change—as they have done before—and the matter-of-course demand becomes conspicuous by its absence. The business, once strong and flourishing, is suddenly found to be in a very tight place. The demand had not been insured—and yet the entire business depended upon its continuance.

The modern, economical way to insure the market for any reliable product is by Advertising to the public which consumes it. Advertising creates a steadily increasing number of customers who desire the product, and ask for it by name.

Changes in business conditions have little effect on a steady consumer demand for trade-marked articles of common use. The dealer may carry a lighter stock, and for a short time the demand through the jobber may seem curtailed; but just as sure as customers are calling on the dealer for the product, he is sure to supply it, and orders soon begin to flow in to make up for the temporary curtailment. The total consumption continues about the same.

Any manufacturer who has an article for popular consumption that can be trade-marked has the opportunity to insure his consumer market and retail sales by means of Advertising.

During the present business condition the manufacturers who have insured their demand by Advertising are in a far better position—in every way—than those who have trusted to the current demand that was not of their creating.
