NUMBER 96

EARTHQUAKE ROCKS CALIFORNIA CITIES

RAILROAD COMMISSION WILL PRESENT THE CLAIMS OF CELERY GROWERS

TO THE INTERSTATE COMMERCE COMMISSION IN FORMAL CASE SOON

COMBINED CLAIMS Of Overcharges Running From Twenty-five to Fifty Dollars Per Car on Celery

(By The Associated Press)
TALLAHASSEE, Fla., July 23.—The Florida Railroad Commission has decided to combine claims of overcharges running from \$25 to \$50 per car it is alleged on shipments of celery and present formal case to the Interstate Commission on behalf of shippers of this state.

What is considered one of the most important moves for the celery growers of the state of Florida was inaugurated today at Tallahassee as the above would indicate. The growers here in the Sanford celery delta will be glad to learn of this move on the part of the Railroad Commission as the past year was a bad one for the growers and if they can save any money on their shipments of celery for last year it will be a big saving to them. It will also lighten the growers who expect to grow and ship celery this season as the overhead last year was large and they cannot expect to make anything on their perishable crops under present rates.

FEUD IS BACK OF VILLA'S MURDER, OBREGON INFERS

President of Mexico Calls It Disgrace.

(By The Associated Press)
MEXICO CITY, July 23.—President Obregon intimated his suspicion that Francisco Villa's assassination was due to a personal feud, in a statement given to the newspaper correspondents this afternoon. "It is disgraceful that the dagger and treason are still employed," the president declared. "Villa had numerous enemies; it is possible that one of them revenged himself treacherously. I have not received any advice that would allow me to express a opinion of the causes of the assassination. It is certain, however, that Villa having been given guarantees of security by the government, should have had an opportunity to enjoy them."

A supplemental report to President Obregon from J. Felix Lara, commander of the garrison at Parral, relative to the killing of Villa, says: "The assassin, estimated at between seven and nine, waited for three days in a vacant house at the corner of Benito Juarez and Balbino Barredo streets, from which they opened fire. The dead were Villa, Trillo, Daniel Tamayo, Villa's assistant, Rosario Rosales, Villa's chauffeur, and an unidentified civilian who unfortunately was present. Two others of Villa's escort were wounded.

"Forty shots pierced the automobile, while Villa fell with nine bullets through his body. The wounded cannot identify the assassins; they say that Villa died without a chance to fire his famous pistols. It is believed that the assassins had been following Villa for four or five days, from his ranch at Canutillo. A hundred shots were fired."

A telegram to the president from the superintendent of Villa's hacienda at Canutillo, begged the president to order the troops which are proceeding to Canutillo to be withheld, as the Villistas at that place are fully capable of guarding the property. About a year ago Villa declared he had 1,800 men fully armed upon the hacienda, within call.

Cotton Exchange Opened Today in its New Quarters

Smash in Prices Carried Level of Stocks Down on Cotton

(By The Associated Press)
NEW YORK, July 23.—Opening of the new board room of the Cotton Exchange today witnessed the heaviest business in many weeks with smash in prices that carried level of leading points off sixty to seventy points or three to three and a half dollars per bale under closing prices last Friday. Break in Texas drought largely responsible for big selling movement as traders believed crops in that state would show material improvement with effect that might be noted in the next government report.

Woman's Club Building to Have Opening Friday Night, July 27

Beautiful New Structure Will Have Informal Opening.

In view of the fact that the Woman's Club is to be thrown open to the public on the evening of Friday the 27th, a few facts concerning its building may be of interest.

Mrs. R. E. Tolar, the faithful and devoted president of the organization is in her second year of office and it is her good fortune to claim for her administration the greatest single achievement in the history of the club—the building of a commodious and suitable home for all the many activities of its five departments. Year after year small sums have been set aside from time to time for a building fund, and each president in her turn has added her own share of effort and enthusiasm, so that now, each one may feel her own share in the culmination of the long dream, and each club member feels a thrill of pride in the lovely building which takes permanent shape after the time spent variously, in refitted rooms or in the old adapted church house.

Mrs. E. M. Galloway was especially well chosen as chairman of the building committee. As president at one time of the Sanford Club, she is thoroughly familiar with local conditions and as vice president at large of the Florida Federation she has visited every club house in the state and so has been in a position to choose the best features of all, and adapt them to Sanford's peculiar needs. Her committee consists of the following ladies: Mesdames Puleston, Mero, Holly, Smith, Newman and Tillis.

All through the hot summer weather this committee has met from time to time to plan ways and means, for it has taken much man-handling to bring their work to its present stage in this year of unusual money stringency. Every slightest question has been thoroughly threshed out in discussion, and each member has had a voice in all discussions. Mrs. Tolar, who by the dignity of her office is an ex-officio member, has been as constant as any other committee woman, and has done everything in her power to put the work forward.

I. I. Board Recessed After Hearing Argument Submerged Land

(By The Associated Press)
TALLAHASSEE, July 23.—The Internal Improvement board recessed at 1 o'clock after listening to arguments for and against the sale of submerged lands at Palm Beach. Another session will be held later today.

These are dull days for science. Hot as it is, not a single girl has developed sufficient temperature to burst a thermometer.

ENTIRE TIER OF SOUTHERN CALIFORNIA COUNTIES SHAKEN BY EARTHQUAKE SHOCKS LATE LAST NIGHT

Two Men Were Injured and Buildings Badly Damaged at Los Angeles and San Bernardino—Extends to the Arizona Line.

(By The Associated Press)
LOS ANGELES, July 23.—The entire tier of Southern California counties was rocked by an earthquake of from 11 seconds to 20 seconds duration at 11:28 o'clock last night at San Bernardino where the greatest damage was caused feeling a second heavy tremor at 1 o'clock this morning. Three sleeping men were injured seriously at San Bernardino when roofs fell in although there has been no reports of deaths. Much damage was caused to property, buildings on streets running east and west being the chief sufferers. Santa Barbara was the extreme northern point from each earthquake reports received and San Diego the farthest south. The shocks extended eastward across the Imperial Valley nearly to the Arizona state line. No serious damage was done.

GEORGIA LEGISLATURE WILD, INTRODUCES ALL KINDS OF BILLS AGAINST FLORIDA PRODUCTS

Would Restrict Peas and Beans, Soak the Klan and Hit Darwinism

ATLANTA, July 23.—Bills introduced in the Georgia house today would quarantine the state against importation of green peas and green beans from Florida, would require all fraternal secret organizations to record names of membership and forbid wearing masks in public and would prohibit teaching of Atheism, Agnosticism or Darwinism as facts.

Hines Gives Orders To Protect Colored Clerk at Tuskegee

MONTGOMERY, Ala., July 23.—A report reached the Advertiser Saturday night from its Tuskegee correspondent to the effect that General Hines, head of veterans' bureau had ordered John Calhoun, negro, who is reported to have left Tuskegee shortly before a Ku Klux Klan parade two weeks ago, to report for duty at the new government hospital for disabled soldiers at Tuskegee. General Hines, according to report from Tuskegee, has ordered Colonel Stanley, in charge of the military guard at the hospital to give the negro full protection.

Calhoun, who is said to be in Atlanta, reported to the hospital about two weeks ago to serve as a clerk, replacing a white woman. He is said to have left Tuskegee a short time before a parade of the Ku Klux Klan was held.

Many Improvements Made in Tampa— Good Roads Program

TAMPA, July 23.—According to an estimate made by the industrial bureau of the local board of trade more than \$14,000,000 will be spent in and near this city during the next three years on construction work. This figure does not include normal repairs and building operations which are estimated to amount to \$2,000,000 per year. Computing the two figures the sum of between \$18,000,000 and \$20,000,000 is reached.

The estimate of \$14,000,000 is based on figures furnished by local bonding and investment companies and includes contracts which have been let and work begun, also proposals which are assured facts.

The largest item on the list printed below shows that the county will spend \$3,500,000 during the three years on good roads. Bonds for \$3,000,000 of this amount have been sold and work of building 150 miles of additional roads in the county has been under way for some time.

The \$3,100,000 for public utilities improvements includes \$1,300,000 to be spent on reconstruction of the local water works plant which was recently purchased by the city and the balance will be spent by the gas, electric light and telephone companies.

Churchwell's adverse today in the Men's and Boys' underwear department. Note the very low prices quoted on pajamas, night shirts, union suits and shirts and drawers. See the prices in this issue.

Kill 6 and Wound 15 in German Riot Over High Cost of Living

BRESSLAU, Germany, July 23.—Six persons have been killed and fifteen injured in rioting which broke out here Friday and kept up until Sunday morning because of the rising cost of living. Large crowds of people gathered in the important sections of the city and made raids on the shops and hotels, carrying off all kinds of loot.

For a time the police were hard pressed in fighting the infuriated crowds. It was only after reinforcements of volunteers appeared that order was restored.

Hardee Gets a Buyer For Big \$3,500,000 Drainage Bond Issue

TALLAHASSEE, July 23.—Governor Hardee brought back with him from New York where he has been for several days on business for the state an agreement with Spitzer, Rorick & Company to buy the additional \$3,500,000 issue of Everglades Drainage bonds authorized by the last session of the legislature. He returned to Tallahassee Sunday.

The same concern heretofore has handled all issues of the Everglades bonds, totalling \$7,750,000. The present sale, which brings the total up to \$11,250,000, was made at 95, the governor stated. This is slightly better than previous sales it was stated, although the present issues bear 5-1/2 per cent interest compared to 6 per cent for the others.

Two Unidentified Aviators are Burned to Death in Fall

DETROIT, Mich., July 23.—Two unidentified aviators were burned to death late yesterday two miles from West Sandwich, on the Canadian side of the Detroit river according to word received from the provincial police at Windsor, Ont.

The plane in which the men were riding is reported to have fallen to the ground in flames. Provincial police at once made arrangements to bring the bodies of the two men to Windsor to be held for identification.

Dr. Deane Adcock pastor of the Baptist church in Orlando and Gage McBride, travelling freight agent of the L. & N. Railway with headquarters in Orlando were in the city today and attended the meeting of the Rotary Club.

ROTARY CLUB CHANGES DATE OF MEETINGS

HEREAFTER CLUB WILL MEET ON TUESDAYS INSTEAD OF MONDAY

Sanford Rotary held another interesting meeting at the Hotel Valdez today at noon with a fine attendance and every member who was in the city being present. President George Knight called the meeting to order promptly at 12:15 and asked Dr. Deane Adcock, of Orlando to give the invocation after which all sat down to a good dinner that was interspersed with songs and the regular order of business. The chairman of the club of the day not being present on account of a misunderstanding the gavel was given to R. J. Holly, the chairman for the month who again rang in Deane Adcock to assist him and as ever the affable Deane was there with the goods and gave the members a side splitting story about the old negro whose wife was away and who wanted a nurse for the "black fever."

Gage McBride, of the L. & N. Railway with headquarters in Orlando, was also a guest of the club and made a few remarks. Deane Adcock's special song was sung and several of the members were asked to give some of their history to which none of them would respond for reasons best known to themselves.

A communication from the Woman's Club inviting the Rotarians to the opening of the new club house Friday night was accepted by the club.

The Rotarians will meet with the Chamber of Commerce Friday at noon and the same will be a joint meeting of the Chamber of Commerce, the Kiwanis Club and the Rotary Club.

It was decided that the club would hold their weekly meetings on Tuesday's instead of Monday's as the Tuesday date seemed to suit the majority of the members. Other matters of interest were taken up by the club for the benefit of the city and county after which the club adjourned to meet Friday with the Chamber of Commerce and next week to start meeting on Tuesdays instead of Monday's.

There was a fine feeling of comradeship and good fellowship at the meeting and the members are determined to make the Rotary Club stronger and better each week of the coming year.

HIRAM JOHNSON RETURNS TODAY ON LEVIATHAN

Refused to Indicate
Whether Hat Was in
the Ring or Not

(By The Associated Press)
NEW YORK, July 23.—United States Senator Hiram Johnson, of California, boomed by his friends for the Republican presidential nomination in 1922, returned from a tour of Europe today in Leviathan, refusing to indicate to reporters or crowd gathered to greet him whether his hat was in the ring.

Johnson enthusiasts professed to see two good omens in incidents of his home-coming. One was a fact that in fleet of craft that went down the bay to meet him was the tug Menomine. Other was fact that while he did not shy his hat into the ring capricious wind shied it for him into the bay. The senator only laughed, however, when asked to comment on omens. Friends of the senator indicated they expected important news from him Wednesday when he addresses a testimonial dinner being arranged in his honor.

Never underestimate a silent man. He may surprise you when he gets into a row or eats soup.

POINCARÉ STUDIES TEXT REPARATIONS DOCUMENT RECEIVED FROM LONDON

Fifth World Championship Battle of Year '23 Be Fought Tonight

Benny Leonard Risks His Title With Low Tandler Tonight

(By The Associated Press)
NEW YORK, July 23.—The fifth world's championship battle of 1923 will be the magnet that is expected to attract throng of nearly 80,000 tonight when Benny Leonard risks his lightweight title in a 15-round match with Low Tandler, of Philadelphia, at the Yankee stadium. This season has been one of adversity for ring champions, three of four world's crowns having changed hands to date but Leonard is not less confident on that account. Leonard pronounced himself in the best condition of his career. Tandler also is ready for a slashing struggle.

Producing Their Feed is Farmer's Great Trouble Keeping Live Stock

Balanced Rations Are Next in Importance to the Stock Raiser.

WASHINGTON, July 23.—Producing or otherwise obtaining their feed economically is the most troublesome problem of farmers who keep livestock. This is brought out by a department of agriculture questionnaire sent out to farmers scattered throughout the entire country, nearly 500 of whom answered. The replies showed that general economy in rations, the cost of grain and the cost of protein represent about 52 per cent of the difficulties in feeding.

These men classed balancing of rations next in importance. Other things next in importance. Other problems, such as labor, increasing production, difficulties in wintering stock, short pastures, and variety and palatability of feeds apparently were thought of only in connection with the principal difficulties. That these opinions are worth considering is borne out by the fact that all the men questioned were progressive farmers and breeders and the average period of their experience was 20 years.

During the two decades these stock raisers have been working to get ahead, many changes have been taken place in the ways of feeding animals. The outstanding progressive step taken has been the wide adoption of the balanced ration. Other improvements in the order given by most of the five hundred farmers are more liberal feeding; feeding more legumes, better water supply, providing minerals, feeding according to production, feeding more protein and more regular feeding. At the same time they list the common errors in feeding which are responsible for poor results, poor combinations of feed being the one most frequently mentioned, followed by underfeeding as the next most effective reducer of profits. Lack of protein, lack of water, lack of legumes, sudden changes of feed, poor housing, parasites, lack of salt, waste of feed, poor equipment, and overfeeding should be avoided.

Father and Son Perish in Fire at Vero Today

Residence Burns and Two Are Caught in Building

(By The Associated Press)
FORT PIERCE, July 23.—George Howard, 45, farmer, and son, Batus, 18, perished in a fire that destroyed residence at Vero early this morning. Younger son escaped. The cause of the fire was undetermined.

The Herald for first class job work.

WENT OVER DOCUMENT WITH SEVERAL ADVISORS AND WILL PRESENT IT TO HIS CABINET

Exchanges of Views Between Paris and Brussels Going on Today

(By The Associated Press)
PARIS, July 23.—Premier Poincaré, who gave the British reparations document received from London last week careful reading Saturday, began serious study today on proposed reply to Germany. He went over the document with several advisors with a view of presenting the whole situation to the cabinet tomorrow. Exchanges of views between Paris and Brussels are going on actively meanwhile. Reply to London probably will be made before the end of the week.

LONDON, July 23.—J. Ramsay McDonald, leader of opposition in the house of commons, moved a resolution deprecating the increasing expenditures in military preparations which he asserted formed the beginning of another race for armament. He urged the government to take immediate steps to call international conference for limitation of armament.

DRY LEGISLATION GROWS IN FAVOR IN MIDDLE WEST

Fourteen States Have Made Stronger Laws

CHICAGO, July 23.—The question of enforcing prohibition laws came up recently in the legislatures of fourteen central states, and action was taken as follows: Illinois—The 53rd general assembly enacted no "wet" legislation. Two "dry" bills were passed. One of them provides for a fund for the enforcement of prohibition drawn from fines collected for violations of the law, prosecuted by the state's attorney and the attorney general. This bill will relieve tax-payers of the burden of enforcement, and it is believed, create a surplus.

The other bill makes the man who sells poison liquor which causes death punishable the same as if he committed murder.

Indiana—Four bills, two of which amended laws already in force, having to do with strengthening of the state prohibition law, were passed by the Indiana general assembly at its recent session and have been signed by Gov. Warren T. McCray.

Iowa—Seven new prohibition laws were enacted by the Iowa legislature, which adjourned April 27. A summary of them follows:

Bills defining the sale of liquor that causes death as manslaughter; declaring illegal the possession of materials with which to make liquor; extending search and seizure laws to cover these materials; making the driving of a motor-car while intoxicated subject to a penalty of \$1,000 fine or one year in prison; applying a special penalty for the misdemeanor of furnishing liquor to a minor; providing for the confiscation of vehicles used to transport liquor, and defining any person twice convicted of liquor crimes as a persistent violator.

SAINT AUGUSTINE TO EXTEND LIMITS

St. Asmanga SHRD. CMFWYF ST. AUGUSTINE, July 23.—An election will be held soon on a proposition to extend the city limits of St. Augustine to include White City, New Augustine and a portion of Anastasia Island. This would add hundreds to the city's population. September 11 has been suggested as the date for the election.

SOCIETY

MRS. FRED DAIGER, Society Editor
Phone 217-W

If you have any friends visiting you—
if you are going anywhere or coming
home, or if you are entertaining, write
a postal card to this department, giving
details, or telephone the item. It will
be greatly appreciated.

Mrs. George Moran of Jacksonville
is the guest of Mrs. F. R. Savage at
her home on Park avenue.

Mr. and Mrs. A. J. Richardson
were among the Sanford people en-
joying the cooling breezes and surf at
Daytona Beach Thursday.

Mr. and Mrs. S. S. Baumel, Misses
Ann and Mildred Lee, Martha Brown,
and Grace Gilson motored to Daytona
Beach on Thursday afternoon.

Among the Sanford folks at Day-
tona Beach on Thursday were Miss
Ethel Tiller, Max Stewart and Dr. J.
N. Robson.

Volie Williams spent the day at
Coronado Beach on Thursday with
his family. He was accompanied to
the beach by Dr. R. M. Mason.

Mrs. E. M. Galloway was the guest
of Mrs. Raymond Key at her cottage
at Daytona Beach from Monday until
Thursday evening.

Lesley Brown, city manager of
Tampa was a visitor in the city,
coming over for the birthday anni-
versary of Mrs. J. M. Moye.

Mr. and Mrs. Frank Lossing an-
nounce the birth of a daughter July
20th. Here's hoping Marjorie Edith
will be able to attend camp with
daddy.

Mrs. C. L. Britt and children and
Mrs. Archie Betts motored to Day-
tona Beach Thursday morning, where
they spent the day as the guests of
Mrs. S. M. Lloyd. They were joined
in the afternoon by Messrs. Chas.
Britt, Archie Betts and S. M. Lloyd.

HOUSE WARMING OF NEW CLUB HOUSE.

The public is most cordially invited
and urged to attend an informal
house warming, at the New Woman's
Club building on Oak avenue, on Fri-
day evening, July 27th, from 8:30 to
11 p. m.

All of Sanford is indeed proud of
this new and complete building and
this will be an opportunity for every
one to inspect the new club house.
Come out and bring some one with
you.

INFORMAL DANCE.

Last evening Miss Mae Holly en-
tertained at an informal dance at
her home on Park avenue, honoring
her brother Robert, whose twentieth
birthday anniversary it was.

The spacious rooms of this lovely
home, were opened in suite and beau-
tifully decorated with baskets and
vases of bright hued zinnias and other
flowers.

Dancing was enjoyed until a late
hour, the music being furnished by
Reginald Holly. During the evening
delicious fruit punch was served.

About fifteen couples enjoyed this
delightful affair.

NEW CLUB HOUSE.

The members of the Woman's Club
are rejoicing in the beauty and con-
venience of the new club house which
has just been accepted by the build-
ing committee from the hands of the
architect and builders. Groups of
members are busily at work to get
the furnishings all complete before
the club year begins in October, but
so much interest has been evinced
that an informal opening has been
planned for Friday evening the 27th,
just to show the building as it stands
now. There will be no program, ex-
cept for a brief one of music, but
there will be light refreshments, and
the public is not only invited, it is
cordially urged, to spend the evening
as guests of the Woman's Club.

LESTER-GARRISON.

The following announcement will
be of interest to the many friends of
Mrs. Ben Leigh formerly of this city,
but now of Orlando:

Mrs. Rosa Garrison
announces the marriage of her
daughter
Mary Louise
to
Mr. Robert Lester

Tuesday evening, July seventeenth,
nineteen hundred and twenty three
Macclenny, Florida.

Friends of the couple will learn
with interest of their marriage and
will extend best wishes. They are
spending their honeymoon in Orlando
with the former's mother, Mrs. Ben.
R. Leigh, and before returning home
will spend a few days on the East
Coast.—Jacksonville Times-Union.

In connection with our transfer, we
have storage room, where you may
store your goods until you need them
at a nominal cost.—QUICK SERVICE
TRANSFER. Phone 498. 83-1fc

ENTERTAINING WITH EASE.

By Helen Harrington Downing
You do not need a corps of trained
servants in order to entertain leisurely.
If you plan your dinner carefully
and start your planning when you buy
the food, you can be an ideal hostess
even though you are your own kitchen
maid.

Too often foods are judged by price
and not enough attention is paid to
the quality and time saving features.
Both are highly important and should
be considered with especial care when
the guests are coming.

Two good rules for the woman who
would be an interesting, care-free
hostess are: Make sure of absolute
high quality in all foods by insisting
on dependable brands, and keep on
hand some of the approved foods all
ready to serve. With these precau-
tions observed, entertaining becomes
truly enjoyable.

There is now so wide a variety of
prepared foods on the market that it
is an easy matter to make out an en-
tire menu of unusually good things to
eat which require practically no pre-
paration within the home.

Delicious canned meats, boned
chicken, or chicken a la king, meat
loaves, all varieties of vegetables and
fruits, besides relishes, cheese and
other accompaniments, purchased all
ready to serve, all cut down the num-
ber of hours formerly spent in cook-
ing and give the housewife more time
to enjoy her family or guests.

With a small emergency shelf sup-
ply, ready for unexpected occasions,
and a few suggestive menus all ready
to choose from, the fear of unexpect-
ed guests is entirely allayed.

EASILY PREPARED DINNERS

- Canned Roast Beef
- Corn Fritters
- Baked Potatoes
- Shortcake with Whipped Cream
- Coffee
- Cream of tomato Soup
- Canned Pork and Beans
- Sauted Potatoes
- Hot Baking Powder Biscuits
- Fruit Jelly
- Coffee

STRAWBERRY SHORTCAKE

Make dough as for Standard Bis-
cuit, adding a heaping tablespoon of
sugar to the baking powder and flour,
if sweet shortcake is wanted. Divide
into two parts, butter the dough and
bake 15 to 20 minutes in moderate
oven. Brush with melted fat. Crush
the strawberries and add sugar
enough to make juicy before spread-
ing between the layers, and on top
of shortcake. Whipped cream sweet-
ened and flavored to taste can be
added.

STANDARD BAKING POWDER BISCUITS

4 cups flour
1 or 2 tablespoons butter or lard.
4 level teaspoons Calumet Baking
Powder.
1 level teaspoon salt
About 2 cups of milk or water, more
or less, enough to mix a very soft
dough.
Sift flour, salt and baking powder
together thoroughly. Rub in short-
ening with fingers, flexible knife,
known as spatula, or rounding edge of
a large spoon. With a little practice
the spatula or spoon can be made to
do better work than the fingers. Add
milk or water, as cold as possible,
mixing to a very soft dough. Mix
with a spoon or flexible knife, in pre-
ference to using the warm hand. Turn
dough on a well floured board, and
roll out lightly till half an inch thick.
Cut into biscuits and lay in baking
pan, not too closely. Bake in hot
oven from 12 to 15 minutes.

LONGWOOD

J. E. Phipps attended the big road
celebration at Lake City last week.
Mrs. S. A. Huston and Miss Mil-
dred Huston were the guests of Mrs.
J. S. Dinkel Tuesday.

Mr. and Mrs. E. L. Dinkel have
moved to Winter Haven where they
expect to make it their future home.

H. Miller of Jacksonville was the
guest of J. E. Phipps Tuesday.

Mr. and Mrs. C. W. Entzinger
left the 12th for Georgia where they
will spend several weeks and from
there go on to Virginia where they
will remain till fall.

Mr. and Mrs. Delmore McWork-
man were visitors in Orlando Satur-
day.

Mr. and Mrs. F. J. Neimyer motored
to Coronado Beach Saturday for
the day.

Miss Bunker was shopping in Or-
lando Saturday.

Cards have been received announc-
ing the engagement of Jasper J.
Driggers to Miss Evelyn Smith of
Andover, Maine, the wedding to take
place the 21st of July.

Miss Louise Allen returned Tues-
day from Plant City where she has
been the guest of her cousin, Miss
Katherine Entzinger.

Rev. Warren Entzinger has been
holding services at the Baptist church
all this week.

LOCALS

Mrs. Moreland of Jacksonville is
the guest of Mrs. Savage for a
few days.

Roy Symes of Winter Park was in
the city today on business and his
many friends were giving him the
gladhand.

W. M. Catha and Claude Couch
are busy with the income taxes of the
various corporations and business
houses and have been for the past
two or three weeks.

Elsewhere in this issue you will find
probably the lowest prices ever quoted
on the best Tires and the dealers,
Ray Brothers, wish you to know that
their personal guarantee goes with
each and every Tire and Tube pur-
chased from their list.

Mrs. W. I. Hughey and daughter,
Esther, left Thursday morning for
the north on a visit to her mother
and other relatives in New York
state. While away they will visit
friends in Philadelphia, Quakertown
and other places. They expect to be
absent about six weeks.

W. A. Zachery arrived in Sanford
yesterday after a visit to North Car-
olina. He reports that he had some
big time up there, with plenty of good
things to eat and that business is
good up there. We are all glad to
see him back again even if he hated
to come back after being so royally
treated while in Carolina.

A picture of the Seminole Cafe
chef in this issue says "let me cook
for you this summer" and this would
be a bright idea. Look over the Sun-
day menu for the Seminole and you
will engage the Seminole Chef to
cook for you always. Try one of
those famous dinners tomorrow.
Menu in this issue.

Lu-Beth Cafeteria have a dinner
for tomorrow that will tickle your
palate and it is one of the best this
enterprising cafeteria has served
since they have been pleasing the
discriminating Sanford public. Just
look about everything in the way of
something good to eat in the menu
which is published today.

The Valdez Grill wants you to be
their guest tomorrow for one of those
famous Sunday dinners. That man
Palk knows how to get up the most
tempting and appetizing menus for
hot weather and he will please you
in every particular. See the menu in
this issue of the Herald and eat your
Sunday dinner at the Valdez.

ANNUAL ELECTION OF OFFICERS STOCKHOLDERS MEETING.

All the stockholders of the Florida
Vegetable Corporation are requested
to meet in their offices in the Ball
building Tuesday, August 7th, at 8
o'clock. The annual election of of-
ficers will take place at this meeting
and such other business as may come
before it.

RALPH CHAPMAN, President.
BEN GUTHRIE, Secretary. Sattie

A MUSICAL TREAT.

W. S. Sewell, the manager of the
Lake Mary Casino has been fortunate
in securing the Hartzell Famos Or-
chestra for the Wednesday night
dance and everybody will be at Lake
Mary Wednesday night to enjoy the
music and the finest dance floor in
this part of the state. See the ad-
vertisement in this issue.

MARRIAGE ANNOUNCEMENT.

Harry I. Gordon of Sanford and Miss
Helen C. Mills of Hawley, Pennsylv-
ania were married at the court house
today at three o'clock; Mrs. Schultz
performing the ceremony. Mr. Gordon
has been a resident of this city for
the past year and lives on the west
side where he and his bride will reside
for the present.

Pardoned Prisoner Escaped from Hospital for Criminal Insane

Was Pardoned by President Wilson
For Preventing Jail Delivery.

(By The Associated Press)
PHILADELPHIA, July 21.—Edwin
Wilson of Brookline, Mass., who was
pardoned by President Wilson for
preventing a jail delivery at Fort
Leavenworth, where he was impris-
oned escaped early today from the
state hospital for criminal insane at
Fairview, Pa.

There are other Transfers; but
none with SERVICE for their middle
name.—QUICK SERVICE TRANS-
FER. Phone 498. 83-1fc

CHURCHES

CHRISTIAN SCIENCE SERVICE

SUNDAY, JULY 22, 1923.
Subject:
"LIFE"
Church Service 10:45 a. m.
Services will be held in the
Palm Room of the Valdez Hotel.
All are WELCOME.

PRESBYTERIAN CHURCH

It is expected that good congrega-
tions will be present at each of the
preaching services Sunday. They will
be the last preaching services at the
Presbyterian church for several weeks
as Mr. Brownlee will leave next week
for a vacation of several weeks.
The Sunday services will be:
9:45 a. m.—Sunday School.
11 a. m.—Morning Preaching ser-
vice.
7 p. m.—Senior Christian Endeavor.
8 p. m.—Preaching service.

FIRST METHODIST CHURCH

W. J. Carpenter, Pastor
Sunday is our Rally Day—a Got-
together Day—or an Every-Member-
Present-Day.
How would it look to see every
member of the church at service some
one day? Well, that will be tomor-
row when we expect every one pre-
sent unless seriously sick, or have re-
cently inherited a great fortune.
Soul stirring music will be sung.
Steve Shiholser will make the
principal address.
Zeb Ratliff will read a report.
W. A. Hagan, the modest man, will
deliver his important address. Do not
bring a lunch nor a grouch.
No special collection. Think of
that.
Pastor will preach at night to the
people now on earth.
Epworth League at 7:00.

THE SCRAP-IRON CLASS.

One of the most forceful and elo-
quent addresses ever made at the
Scrap-Iron Class was delivered last
Sunday morning by Mr. A. Raffeld,
and tomorrow morning Hon. F. P.
Forster will speak on the subject
"Christ—the Man." There was a good
attendance last Sunday and it is
hoped that a large number will hear
Mr. Forster's address tomorrow on
this important subject. Dr. Carpen-
ter will also give one of his interest-
ing talks on the Sunday school les-
son. Princess Treater, 9:30 a. m.

FIRST BAPTIST CHURCH

Sunday school 9:30 a. m.
Morning worship and sermon 11 a.
m. Subject: "And He Went a Little
Farther." An imperative appeal to
the churches.
Baptist Young People's Unions at
7 o'clock.
Evening worship and sermon at 8
o'clock.
Reports of the Baptist summer as-
sembly will be given by some of the
twenty who attended.
Evening subject, "A Voice Out of
the Remote Past Heralding Help for
Modern World Restlessness."
Prayer meeting Wednesday evening
at 8 o'clock.
The musical feature of the Sunday
School hour will be numbers by Band-
master Edgar A. Ball.

LOST—On golf links or on road to Country Club Masonic emblem. Finder return to Herald office and receive reward. 97-3tp

THE WEATHER

For Florida: Partly cloudy
today and Sunday; probably
scattered thundershowers;
light to gentle variable
winds.

THE TEMPERATURE

JACKSONVILLE, July 21.—The
maximum and minimum temperatures
of representative cities furnished by
the weather bureau from records com-
piled at 8 p. m. last night follow:

Cities	Max.	Min.
Atlantic City	96	64
Albany	86	68
Boston	94	66
Buffalo	78	70
Chicago	90	74
Cincinnati	94	64
Des Moines	94	64
Eastport, Maine	74	48
Kansas City	90	74
New York	94	66
Pittsburgh	90	60
St. Louis	94	74
Toledo	92	70
Washington	96	64

CHANGE OF LIFE

Florida Lady Was in a Miserable
Condition, But Says She Found
Cardui Helpful, and
Got Well

Altha, Fla.—In explaining how she
found Cardui so helpful during change of
life, Mrs. Ella M. Bailey, of Route 2, this
place, said:
"I became so weakened it was an effort
for me to get around. I knew what was
the matter, but I felt like I couldn't give
up."
"I just dragged, and I certainly was
nervous. I was so restless I could not
sit down long—yet so weak I couldn't
get about. It is a most miserable and
such a helpless feeling."
"I would get depressed and out of
heart."
"I began to feel, after awhile, there was
no use to try to get well. This is all
wrong, for it makes a person worse."
"I had heard of Cardui, and thought it
might strengthen me. A neighbor had
used it with good results."
"I took one bottle (of Cardui), then I
saw I wasn't so nervous, so kept it up."
"Gradually the nervousness left me.
I began to eat and sleep better. Was
soon well, and all right. Cardui did
wonders for me, and I certainly do
recommend it."
Thousands of other women have writ-
ten to tell of the beneficial results obtain-
ed by taking Cardui, and to recommend
it to others.
Sold everywhere. Try it. NC-146

Foreign Advertising Representative: THE AMERICAN PRESS ASSOCIATION

It might be all right for newspapers to confine their editorial page to national affairs but we believe the readers want something about local affairs also. The Herald endeavors to give the readers a slant on national, state, county and city.

Despatches from Mexico say that a feud is back of the death of Villa. No doubt of it and it was surprising that he was allowed to live as long as he did. After all the rough stuff that his notorious bandits pulled off not even his strong bodyguard could prevent his killing at the first opportunity that presented itself.

Editor Benjamin of the Ocala Star says he is not getting our paper. It is going to you, Ben, old boy, but the postoffice is on a strike and we cannot insure any deliveries until the Democrats get in again and give the people real postoffice service. The present system is the greatest joke of the season and mails are going any old way.

That the progressive spirit dominates Bartow was well shown in the election Tuesday. When a city of little more than 5,000 can carry five separate bond issues in one day by wide majorities it is a sure sign that that city is called home by some live builders-for-the-future who are going to accomplish something worth watching. Congratulations are in order and they are coming in from all over Florida.—Bartow Record.

An announcement in the Winter Park Herald says that Laurence Lynch of St. Paul, Minnesota, has assumed the position of managing editor and in the future will have charge of the policies of the paper making it a real weekly newspaper and covering all of the immediate territory. We welcome Mr. Lynch to the field and wish him well on the Winter Park Herald in which we will always have a fatherly interest as Ed Menden has a grandfatherly interest.

We note by the special articles in newspapers that the Anti-Klan laws in New York state have failed. We would like to see and remark that Anti-Klan laws will fail in any state. Unless these charges can be proven on the Klan how can anyone declare that the Klan has ever perpetrated any of the so-called outrages. And it is also our opinion that if the publicity was withdrawn from the Klan and the knocking ceased that the Klan would never be heard of in many sections of the country. "Every knock is a boost" and you can always bet on it.

This prohibition business is merely a matter of education and honest officials. The middle west is passing stringent laws now to assist in the prohibition movement and one state makes it a death penalty for a man to sell poisonous liquor. This ought to be the law in Florida. A man who would deliberately sell liquor that is poisonous should be executed in fact he should be hung to the nearest tree without any trial. But the different states that are passing these stringent laws are beginning to see that the only way to give the Volstead act a real try out is to back up the government and find out whether it is a good or bad law and no sane man will question the abolishment of the saloons.

Mr. Carl Lehman, in his speech at the get-together picnic at Silver Springs on the 19th, made a strong plea for people to spend their money at home with the home merchant, going so far as to almost declare citizens who do not are disloyal. Women who would have sold it told that

some merchants have their advertising matter printed in other states and sent in. He probably would not even imagine such a merchant having the nerve to ask for the trade of the people of his community. Such things occur, however—sometimes.—Ocala Star.

If that excellent little daily, the Eustis Lake Region would not persist in wrapping up their paper with a steam roller, we could get at it much easier. The wrapper must be made with some of Gilbert-Lench's saw grass.

The Plant City Courier shows Solomon wisdom in the following remark: "Another reason why we take no little stock in the proposal to push Florida as a summer resort is that if they don't stay at home and work in the summer they can't afford to come down here in the winter."—Ocala Star. But, how about the busy business man in the north who cannot take time in the winter to come to Florida? You should be in Sanford now and see these excursionists on the Clyde Line coming here three times a week from all the eastern states. They are taking their trip to Florida in the summer because that is their vacation time and they are having the surprise of their lives in the fine summer climate of Florida. We believe that Florida is getting more good advertising from these people than from those who come in the winter.

ANOTHER CALIFORNIA EARTHQUAKE.

The Sanford Daily Herald carries on the front page today the story of another California earthquake. The Herald is the first paper on the streets of Sanford with the news of the day which is something we would like to call to the attention of the Sanford people. But what we want to say in regard to the earthquake is that California being in the earthquake district is liable to have these disturbances any time. California has our sympathy but we would like to say right here that with all their boasted climate and attractions that it seems to us Florida offers a much safer sanitarium for the afflicted and the seeker after health. We do not want to boast for "pride goeth before a fall" but Florida is undoubtedly the best all the year round state in the great American continent, bar none. And it does seem that we have been greatly favored and have fewer handicaps than any other state in the Union. We hope that the earthquake in California will do no more than damage a few buildings. We would hate to learn that a severe shock had caused a holocaust or real disaster like that at San Francisco several years ago but it may happen and we would rather be in Florida today than any other state in the Union. We may be slow, we may not have the big money that exists in California, we may not have the cheap freight rates and the many good things that go to California, we may not have the railroads with us like California has but we are coming and Florida will yet be the greatest state in the United States and we are coming into our own.

BANDS OF GOLD.

The Orlando Reporter-Star has a fine human nature story under the foregoing headline—"Bands of Gold." It is a story of a Florida railroad conductor and beautifully pictures a characteristic of that splendid body of men whose duty it is to look after the traveling public.

"A conductor on the Coast Line Railroad," says the Reporter-Star, "wearing four gold bands and a star on his sleeve hopped down off the step of a coach as the train came to a halt in front of the passenger station. A weatherbeaten old farmer and his wife approached the conductor and said: 'We want to send these little gals up the road with you. They have their tickets.'" The conductor smiled good naturedly and replied: "All right, daddy, I'll take good care of them." The very countenance of that conductor was a guarantee bond that gave assurance to the old grandparents who released their little grandchildren to his temporary custody.

Those two little girls were plainly, even poorly dressed, demure and retiring. The big, kindly conductor showed them to a seat and each time he passed them as he went back and forth in the performance of his duties he gave them a pleasant word to reassure them that he would not forget them.

A seat hog came in and proceeded to occupy two seats even when seats were in demand by those not yet seated. The conductor with gold bands approached him quietly and pleasantly and called his attention to the shortage of seats in such a gentlemanly manner that Mr. Hog ungrudgingly released the seat occupied by his feet.

This conductor wore those gold bands and that star because of doing his duty to the traveling public.

JUST KIDS—Two For A Nickel.

alone to his employers, but that larger service to the public which means far more to the operating company. He had learned more than the routine of taking up tickets and punching them, in his long years of service as a conductor. He had learned the beautiful lesson of kindness and had become a student of human nature. He inspired confidence in little children and gray-haired grandparents. He held the mirror of self-respect up before a man in such a manner that he saw his own selfishness. That conductor gave distinction to the gold bars that gave distinction to him."

VACATIONISTS GETTING WARM RECEPTION.

Florida beach resorts are enjoying an unprecedented patronage this summer, not alone from Florida but from all parts of the country. The old bugaboo that the weather is torrid here during summer has been exploded. Those so fortunate as to be able to enjoy the vacation at any of the Florida beaches have found that the heat is less oppressive than is true at many of the northern resorts, better and safer bathing beaches and unrivalled sea breezes. There is no such thing as a land breeze, the state being a peninsula every breeze that blows is a sea breeze.

In the meantime vacationists from here who are in the North report frequent. The weather records there a warm reception which is lasting, whir grat comfort may be obtained. They realize that in seeking a place where greatest comfort may be found they simply failed to take advantage of the resort at their very door.

Vacationists are invited to visit the state in summer with the assurance that the warmest kind of reception will be given but of entirely different character from that which results in heat prostrations.—Fl. Pierce Tribune.

MONEY SPENT IN ADVERTISING YOUR COMMUNITY IS MONEY WELL SPENT.

There is no money that will bring in such returns in many ways as the money that is judiciously spent in advertising the resources of your own community. This is proven beyond any question of doubt by the remarkable growth of those cities in Florida that have spent money in advertising. Mark the five cities in Florida and you will find they spend thousands of dollars on advertising where the mediocre cities spend one dollar. To some people the sum of five or ten thousand dollars in publicity seems like a fortune squandered in printer's ink. It is the best investment that any community can make and returns in many ways in the bringing in of hundreds of new people who invest their money and become citizens. If you want new people to come to Sanford you will have to interest them here first with good literature and then when they get here see that they are made to feel at home while they are looking around. A stranger in a strange land welcomes that friendly feeling that goes with the live and progressive city and it is here that the Chamber of Commerce earns its money. First it gets the people here, second it makes them feel at home after they get here and third, it keeps them feeling that way even after they become citizens. The St. Augustine Record says:

"Advertising that is successful is not an on-again, off-again proposition, but a steady, consistent, and ever-growing effort, points out the Manufacturers' Record in an interesting article, which tells how for the past twenty-five years California

with publicity as the main avenue for such progress. Publicity brought capital. Capital brought the marvelous improvements, which are the wonder of the country, and these in turn brought the hundreds of thousands of tourists, and yet more capital.

"Richard Edmonds says that the South must maintain such a campaign of publicity, if it is to attain the place it deserves to have in the national scheme of things. When Richard Edmonds talks about the South, he always has Florida tucked in the back part of his mind, for he spends several months here each year, and is a wonderful booster for the state. His article, as a whole on California, the South and Advertising, is as follows:

"The opinion of the Manufacturers' Record is the same opinion which we have been expressing regularly for the last forty years, and that is that the South must make itself known persistently, ceaselessly, tirelessly, energetically, in every way possible, and must keep on doing it year after year. It must spend money freely. Every business concern in the South should, for instance, carry on its letterhead or on its envelope a few striking facts about its own community or about the South in general, changing this from time to time. Every letter which goes out of the South should carry some little printed slip of facts about the South, its healthfulness and its attractiveness, its progress and its opportunities for business. Every railroad and every business concern in this section should energetically spend money, and spend it freely and broadly in a publicity campaign, never wearying in well doing, and never growing discouraged because of failure to get immediate results.

California has been busy since 1849 in making its advantages known. Its progress has indeed been wonderful. It is known throughout the world for its resources and its rapidity of growth. The wealth which has been made in California and the wealth which has been carried there for investment are almost staggering in amount. It would seem to many thoughtless people that California would no longer feel the necessity of advertising, and that it could take the ground that the accumulated power of advertising effect of the last 75 years would make further advertising unnecessary. But instead of lessening its publicity campaign, California keeps on increasing it. It spends money with greater freedom than ever. Its railroads and its business people and its land owners pour their millions into publicity until every man, woman and child in the East or West has ever before him a longing desire some day to visit California. Contrast this with the little that the one can gain an idea of the limitless South has done in real publicity, and field for exploitation of the South's resources.

"Some years ago a patent medicine owned in Baltimore was advertised to the extent of \$500,000 a year. Its advertising managers, were among the shrewdest which this country has ever produced. The demand for this medicine was world-wide, and those who owned it were making fortunes out of it. But the chief owner died and the head of a big wholesale dry goods house was elected president. Not having been accustomed to advertising dry goods, and looking with envious eyes upon the half million dollars annually spent for advertising, he decided that they could save that half million dollars and that the momentum of the advertising that had been done would keep up the business. Within about two years,

the business was in a shaky state, the company was in bankruptcy, its bus-

ness was sold out for little or nothing, and today no man ever hears the name of that oil for rheumatism which at that time was one of the most noted remedies in the world. That lesson needs to be learned by the South in its advertising campaign, and by everybody else.

FROM OTHER SANCTUMS

A LITTLE FRIENDLY TALK ON CO-OPERATION.

For a long time we have been preaching the doctrine of supporting Lakeland institutions and Lakeland business firms and we have been sincere in our declarations BECAUSE:

1. We know that Lakeland citizens, Lakeland men and women need advice of that character. They need to learn the home spirit.
2. Unless a newspaper can get the support and co-operation of the business men and citizens of a town, the effort of trying to drive home the principles of trading with home merchants and keeping money at home, falls flat and is time and money wasted.
3. This newspaper as well as practically every loyal newspaper in every community spends thousands of dollars every year in news articles, editorials and other features, boosting the game of the real estate man, the banker, the grocer, the merchandise man or woman of every description—because we boost everything in Lakeland and about the home town that we possibly can. This represents the intangible effort that a newspaper puts into the heart of every business in its home town and the Star-Telegram is doing that very thing for Lakeland every day.
4. We have been preaching the doctrine of being loyal to home interests because a lot of printing is going out of Lakeland that should stay here, just as a lot of mail order business in every line goes out of town; a lot of printing is going to cut-throat, cut-rate printers who in a short time will be pulling stakes or who live from hand to mouth and have no investment in Lakeland worth speaking of, and who even send work to Jacksonville and other places because they have no investment or equipment here to handle it.

The price-cutter or mail-order house or the cheap out-of-town solicitor hits the newspaper office just the same as it hits every other line and in a way we are selfish, but at the same time we are the biggest boosters for Lakeland—that Lakeland has, if we do say it ourselves. We spend more money trying to build up this community every year and in that way building up every business in it, than any other five lines of business in the whole city. And the best part of it is that we do it gladly, realizing that what helps the other fellow also helps us, and that when the town is caused to grow and gets a direct boost from any source, practically everyone in business in the town reaps some sort of a benefit.

5. Naturally it is customary for the fellow who boosts your game, who helps your town, who backs up your campaign for trading at home, to in turn show the same kind of a spirit in returning the favor in every possible way and at every turn of the road. This thing is not being done; like some of the ladies seem to think, regardless of what the price is or the article secured, if it can just be gotten out of town it must be just a little better than the local merchant can handle. But that is all bosh; we must learn that every dollar kept circulating among the merchants and citizens of Lakeland is just multiplied about as the distance is in miles, in proportion to the dollar that is spent away from home or with the cut-throat or price-cutter who won't be in business long and who cannot understand what the real trade-at-home spirit means to Lakeland.

6. Every community believes in supporting its newspaper if the community is loyal to the town. Certainly loyal merchants cannot expect that newspaper to give column after column, thousands of dollars in space everyevery year and keep it up month in and month out, and at the same time send business out of the city that keeps that newspaper going. We refer specifically to commercial and job printing. Too much of that business is going on and we just wonder what would happen if the newspapers also started the same kind of a practice that some merchants do in some towns, what would become of that town? Not only will the merchants go broke but the town will split up; the stores will go musty and the stocks shelf worn and the public spirit that once prevailed will have long since passed into oblivion while some enterprising, out-

getic, forward-looking community will step in and walk away with the prize.—Lakeland Star-Telegram

WHY NIGGARDLY ACTION WHEN SURPLUS IS LARGE?

With a surplus of three hundred and eighty million dollars in the general fund of the federal government, it would seem that there might be a transfer of that odd thirty millions to the postoffice department, thereby making it possible to conduct the department in a more accommodating manner, and furnishing an allowance for an extra clerk here and there. Probably the sum suggested would do all that and even allow the newspaper and all publications to be carried through the mails for about double the old-time rate, in place of figuring educational and fiction publications on the zone system.

Along the present line of retrenchment in all that has to do with the mail service it might be well to mention that the last year receipts of the department totaled a greater amount than the twelve-month period in the history of the department, with the exception of 1918. For the fiscal year ending July 1 the total receipts reached the enormous sum of \$633,000,000, as compared with \$474,900,000 of the previous year. These figures are official, and are compiled by the government.

Notwithstanding the past excellent standing of the postal department there is now a demand by the postmaster general for still further scrimping in the overhead and a retrenchment in the underfoot; in other words, there may be a cut-down in the number of deliveries, each day and a lessening of the "pickups" from the mail boxes on the corners. All these things do not please the people, and they will continue to besiege their representatives in congress to "do something." In these days of much ruthless expenditure, however, it is doubtful if any immediate deliverance from the platform outlined by the head of the department will be brought out.

There might be some sort of change early in the coming year—when the matter of politics shall loom a bit more strongly.—Palatka News.

PEOPLES BANK OF SANFORD

SANFORD, FLORIDA

A NEW PARTY WILL BE FORMED IN NORTHWEST

BIG VICTORY OF JOHNSON IN
MINNESOTA, WILL MAKE
IT POSSIBLE

OKLAHOMA CITY, Okla., July 20.

Influenced by the victory of farmer-laborites in Minnesota in electing Magnus Johnson to the United States senate, leaders of the farmer-labor reconstruction league of Oklahoma today were discussing the advisability of withdrawing from the Democratic party in 1924 and organizing an independent farmer-labor party, according to a story published here by the Daily Oklahoman. The gist of the newspaper article follows:

"Using the Democratic party last year, the farmer-laborites swept the state. Since that time, however, old line Democrats have refused to bow to the leaders of the farmer-labor movement. Gov. J. C. Walton, standard bearer of the farmer-laborites, has generally sided with the reconstruction league policies despite heavy bombardment from those who claim to be true Jeffersonian Democrats.

"Leaders of the farmer-labor reconstruction league, in discussing the withdrawal from the Democratic party in 1924, let it be known they also have been influenced by the belief that Henry Ford, favored by many leaguers as a candidate for the presidency, intends to seek the office on an independent or new party ticket.

"League officials today admitted consideration of the new party proposal and freely discussed the advisability of the move, expressing the opinion that the new party might be considered practicable in the next campaign.

"Ford enthusiasts, feeling that the Detroit manufacturer plans to run independently of either of the major political parties, declared that should Ford carry the state next year he would sweep the balance of his ticket with him. They also look upon Ford's candidacy as a solution to the question of campaign funds for launching a third party. Several farmer-labor leaders, however, declared they would oppose a departure from the past plan of campaign, believing that the farmer-labor movement can better gain expression through the Democratic party of the state."

The statement congratulating "the

farmers and toilers of Minnesota," on their victory was issued by Governor Walton yesterday.

"I predict soon we shall see written across the southern skies the words 'Industrial Liberty,'" Governor Walton said.

SALT LAKE CITY, July 19.—The farmer-labor party will nominate early next year a full ticket for the coming presidential election and also will name full tickets in all states where party organizations can be perfected, Parley P. Christensen, farmer-labor candidate for president in 1910, said last night.

THE DESIRABILITY OF SOFT WATER.

(Contributed.)

Very much can be said as to the quality of the water to be supplied to the city. Ordinarily we can expect the water to be put to the following uses: For drinking, for domestic purposes, for manufacturing and last though not least for extinguishing fires.

Suitable water for drinking should not only be free from harmful bacteria and from much color or mineral matter, but should have an agreeable taste. Some of the very hard artesian well waters of the state are very disagreeable to drink yet can not be said to be positively detrimental to the health of the average person. There has been much said about hard waters being objectionable from a standpoint of health, but it is very doubtful if the waters of such hardness as that from most of the wells around Sanford, could be shown to affect the health of the average person either for better or for worse, due to its hardness.

For domestic purposes the uses of water are divided into washing, cooking and for flushing sewers. For kitchen purposes water should be free from harmful bacteria, as infection may be spread from the preparing of uncooked food or from the washing of dishes in unboiled water. Excessive hardness of water gives a disagreeable taste to some foods cooked therein, slightly affects the taste of others, and produces objectionable color in others. The vast advantages of soft water appears when considered for laundry and for bathing purposes. The Florida boy who rubbing the head of a new acquaintance in New York, said, "I know you are from Florida, 'cause your head feels just like the back of an airdale dog." That may be rough

on hard artesian water, but there is plenty of truth in it just the same. The mineral waters which contain sulfates and carbonate of lime and magnesia are the most objectionable for both laundry and bath. The mineral matter in these waters combines with the soap forming an insoluble compound. Before a lather can be made with soap in such water, sufficient soap must be added to combine with and neutralize the minerals with which the soap combines.

One part of carbonate of lime requires about eight parts of soap for neutralization, so this can be seen as an economic problem of considerable importance. From exhaustive investigations by Whipple it was shown that a hardness of 325 parts per million depreciates water to the extent of \$32.50 a million gallons, or that it requires \$32.50 worth of soap to soften every million gallons of water used in Sanford for bathing and washing purposes. Of the water used in Sanford fully 100,000 gallons a day is used for purposes in which soap is used; this amount of hard water will waste soap to the cost of \$3.50 a day for the people of Sanford. This will amount to \$1,170 a year or will almost pay interest on \$25,000 invested toward getting a supply of soft water. The additional saving in damage which hard water does to delicate fabrics in the washing, in the amount paid for drinkable water by the citizens and in personal comfort which has a real monetary value, will far more than offset the cost of obtaining a supply of soft water.

New Laws Made by the Late Legislature

Because of the predominant interest in a few leading issues during the 1923 legislative session at Tallahassee, many Florida people are under the impression that only a few laws were passed. But this is far from being the case. As a matter of fact, this was one of the busiest sessions a Florida legislative body has ever known and some of the new laws that were enacted are of great importance and have a direct interest for practically the entire population.

Including the local bills, the acts of this legislature will fill such a voluminous book that few citizens will care to read it but the acts of a general nature cover such a multitude of subjects that it will be of interest to recite them briefly. Following is a fair index of the acts of a general nature: Tick eradication zone law.

State tax levy law.
Law defining building of state highways by road department.
Three cent gasoline tax law.
Search warrant law requiring search warrants to be properly issued and all criminal warrants to be issued in duplicate and copy served on the prisoner.

Law making it maximum jail sentence of 30 days and \$25.00 fine in addition to violate prohibition law.
Law prohibiting drinking liquor except under order of the court for evidentiary purposes.

Law making jail sentence for a drunken auto driver.
Law making adulteration of liquors with potash or wood alcohol a penitentiary sentence offense.

Law amending fertilizer laws.
Law for incorporation of co-operative marketing associations.

Law further prohibiting the issuance of bad checks.
Law prohibiting any person from voting county bond election who is not a free holder of the county.

Constitutional amendment limiting the issuance of school bonds by special tax school districts to 20 per cent of assessed valuation of district.

Amendment to school law abolishing "flying squadron" and creating new method for examining teachers.

General appropriation bill for expenses of the state.
Creating one additional justice of supreme court.

Creating four additional circuit judges.
Bill to provide for elimination from pension rolls deserters and persons who did not serve in the Confederacy, who are drawing pensions under special acts.

Bill abolishing convict lease system in counties.
Bill giving further authority to the State Road Department over roads.

Bill reducing license on airless cushion tires.
Bill requiring every auto owner in Florida to register his car with the comptroller and receive certificate of title, cost being \$1.00 and same to be done by July 1st, 1923.

Bill providing that auto dealers may buy license tags and put them on cars for sale with cars and other provisions for dealers.

Lindsey convict inspection bill.
Law providing for preference to be given Florida architects, material men etc., in letting state contracts, all things being equal.

Usual state drainage district law.
Law prohibiting the use of saccharine in lieu of sugar for food.

Law for assistance of oyster industry by replanting oyster bottoms.
Law increasing powers and duties of hotel commissioners.

Law providing for special school tax districts to get benefit of new constitutional amendment allowing increased levy.

Law creating November 11th official holiday for schools and others.

Law providing for Women's Clubs and American Legion to have same tax exemptions as fraternal orders when used for fraternal purposes only.

Amendments to corporation law.
Law eliminating necessity of authenticating copies of original exhibits to supreme court.

Law requiring executors and administrators to make their returns under penalty of non-compliance.

Increasing powers of Railroad Commission to require new depots.

Bill putting coastwise running gasoline vessels under railroad commission.

Amendment relative to service of process. Abolishment of the lash state and county convict camps. Establishment of electric chair in place of hanging for capital punishment.

Removal of disabilities of any female under 21 years of age who marries, thereby putting her on same status as a man under the state laws.

Law fixing form of ballot for special tax school district elections.
Law for \$25,000 additional appropriation for completing work on capitol building and improving grounds as well as hiring landscape gardener for all state grounds in Leon county.

Law making it unnecessary for the widows or husbands of deceased wives to get administration papers to get money out of bank or collect debt owing deceased under \$1,000.

Law creating scholarships from each county, one to Women's College, and one to University at Gainesville, to benefit of one boy and girl in each county who might be unable to pay their way through college.

Law allowing judge to sentence man to life imprisonment for capital offense, if entitled to recommendation to mercy, where he pleads guilty.

Amendment to replevin law to correct defects.

Law saving \$100,000 a year to state by serving juries by registered mail where practicable.

Law making it possible to enforce specific performance of contract on service by publication.

Law allows widows of special pensioners to draw their husband's pension after death of the husband, there-

by putting special pensioners on the same basis as regular pensioners.

Constitutional amendment relative to levy of inheritance and income taxes, providing that the state of Florida will not levy such taxes which have been appropriated by the federal law to the use of the U. S. government, and preventing double taxation on the same subject by state and national government.

Constitutional amendment relative to special rate of taxation on intangible assets, to relieve real estate and visible property from assuming the entire burden of taxation.

Law allowing lodges to issue bonds for building new lodge buildings.

Law repealing all provisions of law allowing leasing of state convicts.

Law reducing expense of appeal to supreme court.

Amendment to retain title contract law for protection of securities.

Amendment to cruelty to children law so as to protect Christian Scientists and others who believe in Divine healing.

Law requiring non-residents to take out automobile license in Florida after staying in the state 30 days.

\$3,500.00 state appropriation for the prosecution of the Higginbotham case.—Leesburg Commercial.

STANTON DISCLAIMS USE OF BANK FUNDS IN FIGHT PROMOTION

GREAT FALLS, Mont., July 22.—The Stanton Bank and Trust company, which closed July 7, was allowed to go into voluntary liquidation today, after L. Q. Skelton, state superintendent of banks, had completed a ten day examination of the institution's affairs. The assets were given in the last call at about 1,000,000 and the liabilities, not including capital stock and surplus as \$723,000, of which \$650,000 are deposits.

George H. Stanton, president, is said to have lost heavily while promoting the Dempsey-Gibbons fight. He has denied that the bank had any part in the promotion of the fight.

Gary is right. Those who work long hours don't make money enough to buy golf balls, anyway.

An undeveloped people is one that has no thermometers to enable it to worry about how uncomfortable it is.

All is vanity, and nothing lives forever except the soul and the one about the two Irishmen.

IMPORTANT ANNOUNCEMENT!!

We have secured the distribution of the well and favorably known Hanson Automobile, the "Made in Dixie" car, which is too well known to need any extended introduction. We are distributors for seven counties, from Seminole to and including Hillsborough, and Sanford, on account of its superior shipping facilities, will be our main distribution point. We have ordered and will carry in stock at all times a complete line of parts and accessories. We have several different models of this popular car now on the floor and can make immediate deliveries. Excelling in that service to owners which show in true form, those qualities of staunchness and flexibility to cope with every demand made upon it, the Hanson Six is filling the need for which it was built without regard for price or class—steadily performing in a way to delight both owner and dealer.

Hanson Special Six	\$1,295	66 Big Six	\$1,550
Hanson Special Six Roadster	1,250	70 Big Six Sport Touring	1,650
Hanson Special Six Sport	1,395	Big Six Roadster	1,500
Hanson Special Six 4-door Sedan fully equipped	1,595	Big Six Sedan, fully equipped	1,950

All f. o. b. Sanford.

We are always ready to give demonstrations of any of these cars, and can offer attractive terms. You are invited to call.

FOR THE MOVIE FAN

A good one tonight, so don't miss it. Gladys Walton in "The Gossip"

Gladys Walton will win you in spite of yourself in the romantic story "Gossip," in which she plays the role of an unsophisticated southern girl—the spirit of 1865 mingling with that of the present day.

Also Bull Montana in "The Twins" a two-part comedy.

And tonight the honor guests will be Denzil Stafford (the "little" electrician employed by Gillon & Fry) and his lady friend, and will see this fine picture without cost to them, the treat being on Osborne.

Tuesday—Henry B. Walthall and Mary Aiden in an amazing photo drama of self-sacrifice, "Parted Curtains," also round five of the "Leather Pushers."

Wednesday—Hoot Gibson in "Double Dealing," and an added attraction too.

STOPPED HIS PAINS

"I was suffering with a severe cold, headache and pains in my abdomen," writes J. B. Dring, Newport, R. I. "After taking Foley's Honey and Tar in conjunction with Foley Cathartic Tablets I was entirely relieved of my cold and pains." Coughs resulting from Bronchitis, Asthma, Hay Fever, Croup and Whooping Cough are quickly relieved with Foley's Honey and Tar. The largest selling cough medicine in the world. Sold everywhere.—Adv.

The Seminole Athletic Club invites any resident in Seminole county, who desires to further their efforts in foot ball and basket ball to see the manager of athletics, Victory Check or Gus Schmah, or better still, come out to any regular Monday night meeting at the Monroe School House, and sign up for teams now being formed.

No League of Nations Or World Court Will Stop Fulfillment

Of Scripture Says Evangelist Dudley at the Big Tent.

"No league of nations nor world's court will stop the fulfillment of the Scriptures which predict the battle of Armageddon when all nations will be in deadly combat at Jerusalem and God will take a hand to vindicate his down trodden authority," declared Evangelist Dudley at the big tent on Palmetto avenue.

"It would seem that the awful struggle through which the world has just passed would be enough to cause them forever to end war," continued the speaker, "but it will not," he said, "for the causes of the world war are being reproduced daily which in time will bear fruit more deadly."

"Four conditions may be cited as causes of the war: First, preparedness on the part of the nations between 1895-1914. Second, the balance of power in Europe brought about by the triple alliance, and the triple entente. Third, the desire of the European nations for control of the Dardanelles. There can be no preparedness without war eventually. There can be no balance of power without involving many nations when trouble does start, and there will always be a squabble for the territory of the Turk. His seat is a bone of contention. Germany's desire for this southern part led her to be an artful aggressor in the war to keep Russia from controlling Constantinople."

"Now while the world, especially Europe, is in an economic dis-equilibrium with a 350 billion dollar debt the causes of the former trouble are reappearing."

"The first cause is not so much a preparing of dreadnaughts and machine guns but aerial equipment with half a million more men under arms than there were in 1913. It is said that Germany is manufacturing commercial airplanes at the rate of 100 a month with the ultimate view of putting them to military use."

"The four power pact, among England, France, Japan and the United States will in time no doubt lead to something similar in Asia, supplemented by Germany to set in."

LIGHTWEIGHT BATTLE ON TONIGHT IS EXPECTED TO FEATURE GLOVE HISTORY

NEW YORK, July 23.—One of the most spectacular battles on record for the world's lightweight championship is expected tonight at the Yankee stadium when Benny Leonard, of New York, the titleholder, defends his crown in a fifteen round match with Lew Tendler, Philadelphia southpaw. Leonard, in the opinion of a majority of critics, will enter the ring a favorite to retain his laurels but those who recalled the slashing fight this pair staged just a year ago at Doyle's Thirty Acres, believe that the hard hitting Quaker City southpaw will extend the champion to the limit. Leonard emerged a victor, according to ringside opinion, in their last encounter, but saved the verdict only by a sensational rally after Tendler had him wobbling in the eighth round.

Close to 80,000 may witness the title battle, Promoter Jimmy Johnston declared yesterday, basing his estimate on an advance sale that established a new record for lightweight encounters. Receipts were already beyond the \$350,000 mark, he said, with indications that by tonight more than

\$500,000 would be taken in. The seating capacity of the stadium is 75,000. Both boxers were pronounced to be in perfect condition yesterday when they wound up their training campaigns, the champion at Tannersville, N. Y., in the Catskills, and the challenger at Delanco, N. J. Both are below weight now, it was said, Leonard scaling 134, a pound under the limit. The titleholder rested up yesterday and today in New York while Tendler spent the interval before the fight in Philadelphia.

If he wins, Leonard will rank with Jack Dempsey as the only titleholder able to defend world laurels this year. Dempsey retained his heavyweight title by a decision over Tommy Gibbons at Shelby, but three others crossed his path into new hands. Mike McGuire, veteran Irish-American, lifted the light heavyweight crown from the dusky brow of Battling Siki; Eugene Criqui of France, bowled over Johnny Kilbane for the featherweight title, and Pancho Villa, of the Philippines, removed the flyweight championship from Jimmy Wilde, of England.

There is much talk now about Asia rising against Europe. Shortly after the armistice Afghanistan rebelled against the British Empire. Now she is independent and is supplying herself with arms. Egypt has been granted independence on many vitally important points. Mesopotamia is no longer quiet. India is in a nationalist agitation. China has even managed to cancel a number of rights and privileges granted to the great European powers, not long since it was reported there is trouble throughout the Mohammedan world, in Spanish Morocco, in French Algeria, in Italian Libya, in British Egypt, in French Syria, in Greek Smyrna, in British Palestine, in Arabia, in Persia, in Central Asia because of supposed restriction of the Turks by the treaty of Sevres Islam.

"The Scripture declares that the Turkish Empire will be dissolved. This will bring the Islam hordes, 250,000,000 strong, to defense of their religion which is headed by the Sultan and Armagaddon will be ushered in. The Bible says Spirits of devils are going forth to the king's of the earth, to gather them to this battle."

"There is no peace in sight," continued the speaker, "and will not be because men do not and will not follow God's way of making peace. As long as men are selfish and think more of gold than they do of human life, war will prevail. The war spirit seems to be in the very air we breathe."

"Personally, I am a lover of peace. I hate strife of any sort but I will not falsely talk peace when there is no peace coming. I had rather be a truthful pessimist than an optimistic liar. Where the Bible speaks I speak. There are many movements for peace, and men talk peace, and at the same time prepare for war. This is as the Scriptures say. Isaiah, the Second Chapter, tells what men will say. Joel, Third tells what they will do. God will soon set up his kingdom, then the days of sin and war will be at an end."

G. E. VINCENT.

WOODEN CHECK GIVE COMPTROLLER MUCH TROUBLE

(By The Associated Press) TALLAHASSEE, Fla., July 23.—Five thousand letters are written every year by the State Comptroller to make collections on bad checks sent into the comptroller for payment of automobile license tags and to meet other requirements.

Although Comptroller Ernest Amos says he sometimes finds it necessary to trace those issuing some of the checks through several states before they are located, he is not inclined to believe there is intent on the part of the makers to deliberately attempt fraud. A large percentage of the bad checks are the result of carelessness, he believes. They gum up the works of the comptroller's department, nevertheless.

Most of the checks are paid after the receipt of one letter by the maker calling his attention to his mistake. The exceptions are the ones that give the most trouble. Recently it was necessary to follow a woman through several states with letters trying to locate her. She had sent a check to cover an automobile license tag, and then withdrew her account from the Florida bank without leaving funds to take care of the

comptroller's check. She finally was located in Kentucky. More than 25 letters were written in her case.

Comptroller Amos says the bad checks come in sometimes at the rate of 25 and 50 a day. He of course has to make good any losses resulting from instances where he issues a liability to collect money on the check.

FUTURE EDUCATION IN UNITED STATES

WASHINGTON, July 23.—The National Education Association, which has just closed its convention in San Francisco, has a very definite and concrete policy, which it is putting before the American people with every force in its power. Summarized, it is working for adequate public school finance, rigid Americanization of the foreign-born, a new rural school policy, a drive against governmental parsimony in education, and the passage of the Education bill.

The central features of a forward looking program, covering at least the next decade of service are—

- (1) A comprehensive education program to aid in the assimilation of the foreign-born;
- (2) Such a reorganization of school curricula as will adapt the schools better to new conditions and needs in a national life;
- (3) The reorganization and redirection of rural education, that the best of American farmers may be retained on the farms;
- (4) A much more general equalization of both advantages and the burdens of education through a more extensive pooling of the costs for maintaining what is for the common good of all;
- (5) Provision for the placing of an adequately educated and adequately trained teacher in every class room in the United States; and
- (6) The nationalizing of education in the minds of our people with some intelligent form of national aid in school support to insure a better equalization of both the advantages and the burdens of education as between the states.

WOMEN ARE SAFE FROM JURY DUTY

(By The Associated Press) TALLAHASSEE, Fla., July 23.—There is no law in Florida authorizing women to serve as jurors. So states Attorney General Rivers Buford in a letter addressed to B. L. Blackburn, supervisor of registration at Tampa.

"The constitutional amendment providing that the right of no person to vote shall be denied or abridged by reason of sex has nothing whatever to do with statutory qualifications for jury service," the letter reads. "A bill was introduced at the recent session of the Florida legislature, the purpose of which was to amend the constitution so as to include women among those qualified to serve as jurors, but the bill did not pass."

A hick town is a place where people wonder excitedly whether he will save her from the fire in the next installment of the serial.

If you take a dollar and give it back, that's a stricken conscience. If you take a million and give it back, that's philanthropy.

Swimming Meet at Pensacola September

WINTER PARK, July 23.—(Special)—Ray Greene, A. A. U. Commissioner for Florida, is in receipt of a letter from Mayor H. H. Bayliss, of Pensacola, and chairman of the committee who will have charge of the Southeastern Association Swimming Championships. Mayor Bayliss states in his letter that the meet will be held September 1st and 3rd and that one of the events of the program will be the National Championship mile swim.

This year the Southeastern Association will place a four-man relay team in the meet to meet the challenge of the Central Association of the A. A. U. The Central Association has several fast men and Mayor Bayliss has requested Commissioner Greene to advise him as to the possible participation in this relay of High School Swimmers who have starred in the Interscholastic meet at Rollins. Jack Geier, of Orlando, holds a record for the state of 1 min. and 3 sec. Billy Covodo of Tampa and Billy Bulmer will also have favorable mention.

The Pensacola Athletic Association will pay the traveling expenses of the four men selected for this relay team.

Mayor Bayliss states that the local Athletic Association is making extensive arrangements for this meet and is constructing a new course on Bay-view Park Speedway.

DeMolay Dormitory For Florida University To House 200 Members

Masons of Florida Will Build \$150,000 Dormitory

A dormitory to house the 200 members of the Order of DeMolay at the University of Florida will be built in the near future at Gainesville by the Masons of the state, according to the plans now being completed.

The new building will provide sleeping accommodations for 100 boys, in addition to containing lodge rooms, recreation rooms, and dining room, and will be erected at an estimated cost of \$150,000, which will be subscribed by the 18,000 Masons in the state.

"I am familiar with the plan of the DeMolay committee to construct a dormitory for boys on grounds adjacent to the University of Florida," said Dr. A. A. Murphree, president of the State University. "The lots this committee has purchased on University avenue are adequate and most desirable. The dormitory is in great demand, and should be self-sustained. A wholesome moral influence generated at such a place will help to develop high moral character and stimulate the boys to noble purpose. The entire project has our unqualified approval, and to me there could be no more praiseworthy undertaking of my brother Masons in Florida than the erection of this DeMolay Hall."

Originating in a boys club of a dozen members fostered by Frank S. Land, of Kansas City, Mo., in March, 1919, it swept over Kansas City so swiftly that within two years it numbered almost two thousand members.

During this formative period the attention of neighboring cities was attracted, and with it came a demand for similar chapters. The Scottish Rite bodies of Kansas City, proud of its success, gave every encouragement to its spread until 1921, when they felt the movement should become national in scope and asked that they be relieved from the management and that the order be turned over to some organization which could make it national in character.

In March, 1921, there assembled in Kansas City, Mo., representative men from those states in which the Order had chapters. Their decision was that the work could best be spread by the organization of a Grand Council, national in character, its membership to be composed of fifty members, selected from every part of the United States. Each local chapter is under control of an advisory council selected from the members of the body fostering it. G. Elmer Wilbur, of Jacksonville, is Florida's representative on the national council of the organization.

Correct this sentence: "Excuse me for interrupting," said the hostess, "but I really don't care for gossip."

Europe's problems will be solved when somebody devises a scheme to profit everybody at the expense of everybody else.

Seven-tenths of the proletariat's desire for freedom is just a yearning to hang some darned rich man.

Damp Floor Menace Well-Being of Hens

Insubstantial Ones Invite Inroads of Rodents Besides Disease

By SETH W. SHOEMAKER, Director, The School of Agriculture, International Correspondence Schools, Scranton, Pa.

The construction of the poultry house floor has a decided effect upon the health of fowls. Dampness, particularly inside of a building is one of the greatest enemies of health.

Almost every poultry house will be damp unless special precautions are taken. The conditions surrounding the possible location of the house should be carefully looked into before the house is erected. Low damp spots with poor water drainage and slow air circulation should be avoided. The best exposure is southern with protection from the wind on the north; this allows the greatest amount of sunlight to fall on the floor of the house and also protects the fowls from cold.

An earth floor is satisfactory when the poultry building is so located that the floor will naturally keep dry and sanitary. This condition can be secured only when the house is located on a dry, well drained spot. If a dirt floor is used, however, the upper foot should be shoveled out at least once a year, preferably every six months, and replaced with fresh earth. To insure good drainage in times of wet weather, the surface of a dirt floor should be eight or ten inches higher than the ground level outside.

Board floors are frequently used in poultry houses and when properly laid makes a sanitary floor at a reasonable cost. The chief objection to a

CONCRETE CROSS SECTION

wooden floor is that it is not always perfectly dry and that rats, mice and other rodents can gnaw through it. The best floor, although the most expensive, is a concrete one. When properly laid it insures perfect dryness and keeps rodents from digging through; it also can be kept in sanitary condition with little care. The chief objection to a cement floor is that it may be cold and rough on the feet but this may be overcome by keeping a liberal supply of litter on the floor or by laying a board floor on top of the cement.

The concrete floor should be about six inches higher than the ground level outside. The same is true if a floor is made of stone or brick.

How to Construct

A cement floor may be constructed as follows: The foundation should be laid at least eighteen inches below the ground level, preferably deeper, and should extend at least six inches above the ground. The space enclosed in this area should be filled in with dry sand or ashes, solidly packed down to within six or eight inches of the top. On top of this the layer of concrete should be placed. The upper two inches of this should be faced with a coating of concrete made of two parts sand and one part cement, troweled down very smoothly and worked until the moisture comes to the top. A floor made smooth in this way will do very little injury to the feet of the fowls.

In case the poultryman desires to lay a board floor upon the concrete the upper surface need not be worked smooth as just described. Joists two by four inches should be sunk in the concrete while it is fresh until they are level with the top. When the boards are nailed down on these joists a coating of hot tar should be spread on top of the concrete and a layer of tar paper should be put down. Another made of tongued and grooved boards should be laid on the tar while it is warm. The boards should be nailed close together to prevent cracks in the floor.

DIXIE MOTOR COMPANY HEADQUARTERS HERE FOR HANSON CARS

In this issue of the Daily Herald will be found the announcement of the Dixie Motor Company, which has been appointed distributors of the famous "Made in Dixie" Hanson automobile, for seven counties in South Florida extending from Seminole county to and including Hillsborough, and the company states that Sanford will be their main shipping point to supply all their territory. They will carry a complete line of parts and repairs and accessories, and will give special attention to Hanson service. There are a number of Hanson automobiles in this section and every Hanson owner is a Hanson booster.

The man whose financial ability permits him to own but one car and that within the range of moderate price, must needs buy his car with the utmost deliberation and care, for he has at stake a much greater portion of his ready money than has the man who can afford to own several cars.

Grace of design and beauty of finish sufficient to sustain his pride in any company—comfort for himself and those who ride with him—secure knowledge that the performance of the motive power will give him the same degree of unconcern on the roughest country roads as on the smooth city pavements, as well as the unquestioned assurance that his car will have a high trade-in value even after he has gotten long faithful service out of it—these are the factors that enable a car to hold the esteem of the owner long after the first flush of elation in ownership has passed and the car and its owner become better and better acquainted business companions.

The Dixie Motor Company backs up and guarantees every claim made for the Hanson, and will be pleased to show you every model of this famous line. Call on them at their location at 111-13 Park avenue.

The Herald delivered six times a week for 10c.

\$1.00 Puts this Cabinet in your home AND \$10.00 PER MONTH PAYS FOR IT

Some will keep their Youth and Beauty

The bride who starts with old, out-of-date kitchen methods that make work hard and hours long, will probably leave her charm in the kitchen.

But if she starts with modern, time-and labor-saving appliances in her kitchen she will save herself many weary hours and many heartaches. One of the most important needs in any kitchen is a Sellers Kitchen Cabinet.

SELLERS KITCHEN CABINETS

The wide preference for the Sellers is due not only to its beauty, but to the wealth of labor-saving features, which have been developed by Sellers and which are combined in no other cabinet.

There are for example, the Automatic Lowering Floor Bin; the Automatic Base Shelf Extender; the Sanitary, Acid-Proof, Porcelain Work Table; the Extending Table Drawer Section; the Special Silverware Drawer; Ant-Proof Casters and many others.

Even with its many conveniences, the Sellers costs no more than any good cabinet. Come and see the late models. We are always happy to demonstrate.

WELFARE ASSOCIATIONS FOR LEON COUNTY WILL COMBINE FORCES

TALLAHASSEE, Fla., July 20.—A meeting has been called for July 30 to elect officers and adopt a constitution and by-laws for the Leon County Welfare Association, to be composed of a representative from each of 22 participating civic, charitable and fraternal bodies, each exercising equal authority. Organization of the body has been recommended by a committee recently appointed to investigate the need of co-ordinating common activities of organizations working for betterment of social conditions in the county.

Women in Florida Cannot Serve on Jury Barred Constitution

Attorney General Makes Decision in Tampa Case.

Women in Florida need not worry over the probability of being called for jury duty, in the opinion of the state's attorney general, Rivers H. Buford. That official says they positively cannot serve.

The eighteenth amendment to the constitution of the United States granting women the right to vote has absolutely nothing to do with the statutory qualifications for jurors in the State of Florida, according to Mr. Buford, who states furthermore that unless some succeeding legislature sees fit to depart from the precedent established by the last legislature the fair ones may never sit among the "twelve good mentrid and true."

The attorney general's opinion was solicited by B. L. Blackburn county supervisor of registration after Mrs. M. C. Faison of Plant City had been summoned for jury duty in the Hillsborough criminal court of record early this week. Mrs. Faison was immediately excused upon answering the summons, it being shown that her name in the jurors' box was due to an oversight upon the part of the county commissioners in selecting the list of electors qualified for jury service.

Following is Mr. Buford's letter in full: Mr. B. L. Blackburn, Supervisor of Registration, Tampa, Fla. Dear Sir: I have your letter of the 10th.

There is no law in this State which authorizes the women to serve as jurors.

The Constitutional Amendment providing that the right of no person to vote shall be denied or abridged by reason of sex has nothing whatever to do with statutory qualifications for jury service.

A bill was introduced at the recent session of the Florida legislature, the purpose of which was to amend the Constitution so as to include women among those qualified to serve as jurors, but the bill did not pass.

Yours very truly, Rivers H. Buford, Attorney-General.—Tampa Tribune.

Under a recent ruling the making of home wine is legitimate, and now nothing remains to make the darned stuff palatable.

RELIEVES RHEUMATISM

"I can simply say that Foley Kidney Pills gave me relief from rheumatic pains, and have not used supports for the last six weeks (had to use two), the best proof you can have that Foley Kidney Pills are effective is this, that since they cleared my system of uric acid, have been entirely free of pain and depression," writes J. W. Hunter, Los Angeles, Calif. Backache, Rheumatic Pains, Dull Headaches and tired feeling are quickly relieved by Foley Kidney Pills. Sold everywhere.—Adv.

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT. Notice is hereby given that on the 30th day of July, 1933, the undersigned will apply to the Honorable Cary A. Harbo, Governor of the State of Florida, at Tallahassee, Florida, for Letters Patent incorporating BRITT REALTY COMPANY, INCORPORATED, under the following proposed charter, the original of which is now on file in the office of the Secretary of State at Tallahassee, Florida.

C. L. BRITT, M. M. BRITT, FRED R. WILSON. We, the undersigned, hereby associate ourselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws and Constitution of the State of Florida, and under the following proposed charter:

Proposed Charter of Britt Realty Company, Incorporated. The name of this corporation shall be BRITT REALTY COMPANY, INCORPORATED, and its principal place of business shall be in the City of Sanford, Seminole County, Florida, with branch offices at such other points in the State of Florida and in the United States or foreign countries as the Board of Directors may from time to time designate.
