

Lake Monroe Jottings

By MRS. H. L. JOHNSON

Well, I don't know what I could say good about the weather this week except that we women folk did get the weeks wash dry between dust, wind and rain storms. There seems to be no end to it. Guess we are just lucky we are down here instead of up north where it is really cold. Last Friday was Sloopy day at the Monroe school. Even the teachers came dressed that way. Richard Hittell, Susan Orsano and Linda Stapler won prizes for their outfits. Games of tug war over a mud puddle, balloons full of water batted back and forth and other sports were played and then refreshments were enjoyed before going home time. The school children will go to Skate City Friday evening for a skating party. Larry and Chris Errett came slipping home last week from their trip to Missouri and Kansas. Said they couldn't take that snow and really cold weather! Looks like we will make Florida crackers out of them yet. Robert Mann, a Monroe boy is the acting postmaster for the Monroe Post Office now. Miss Annie left us Friday to reside in Miami. Her smiling face will certainly be missed in the post office but we will enjoy seeing Robert there. Good Luck to you Robert. I heard Claude Hittell won a tape recorder the other day at an automobile convention. Carmen and Bob Gladwell of Greensboro, N. C. stopped at the Claude Hawkins home on their way down to fishing to see the J.H. Edwards family. Tonight is craft night for the Home Demonstration club members at the home of Olga Hunter. Fourteen Sanford bus drivers and their families enjoyed a fish fry Saturday at the home of Herbert Muse on the Wekiva River. All the trimmings that go with fish were served and every one agreed that this should be done more often. For once the weather was nice and the children had a good time playing while the adults talked over old times. Two of the drivers were honored with gifts as they resigned this past week. Mrs. Alma Robinson of Lake Mary is leaving

this week for Georgia to reside and Mrs. Margaret Tindel has asked for a leave of absence. Roy Howell, bus supervisor, Mrs. E. E. Walker from the school office and Miss Hattie Kirk, sister of Mrs. Robinson were special guests. Monroe was certainly proud of the beautiful story on that wonderful lady Clover Marrs. We want to thank Jack Trim of the Herald for coming out and taking the picture of her and doing this story on her. Saturday we saw Constable Bob Carroll come to the rescue. A lawn mower had caught fire and was really burning and he used the fire extinguisher that he keeps in his car to put it out. Had a sweet letter from that big fishing mother of Sammie Keels. Bessie Kendrick and Papa have returned to Bainsbridge, Ga., but she said they hoped to come back here and make their home. And they might just do that, soon. Papa will be retiring shortly and he would like to come and sit on the banks of the Wekiva River and show Bessie he can fish too. There is a new home being built on the Paola Rd. that sure takes my eye. It is located just past Woodruff Springs. On the left side of the home is a big shadow box window and over the carport is a mammoth bird house. It will certainly be a beautiful home when it is finished. I heard that Louise Thompson and Mable Thompson of Granite City, Ill., and Naomi Sapp took in the big city shopping yesterday. Mable wanted some souvenirs to take home with her. Glad to hear a new bridge is being constructed on the Upsala Rd. The old one has been bad for a long time. It will kind of inconvenience the ones living on the other side of it for a while as the road will be closed for at least 30 days but that is another sign of progress. John and Jane Mero, the rose bush you two gave me at Christmas time has lots of buds on it. I know that home owners down in Monroe are glad that the street has finally been paved. The lime rock on the road has really kept the homes down there so dusty and white. Now they can get to spring cleaning too.

Realtors Protect, Funds, Ads, Commitments

Preparing for Realtor Week proclaimed by Gov. Bryant for April 22-30, the Seminole County Board of Realtors is explaining the realtor's Code of Ethics, established in 1918 as a guide to honorable business dealing.

The last three articles of Part I of the code relate to three practices, each of which must be required of the realtor if he is to sustain a professional standing.

Each provision is for the protection of the public but also is essential to the protection of both the client's and the realtor's interest. The articles provide:

ARTICLE 8. The realtor should keep in a special bank account, separate from his own funds, monies coming into his hand in trust for other persons, such as escrow, trust funds, client's monies and other like items.

ARTICLE 9. The realtor in his advertising should be especially careful to present a true picture and should not advertise without disclosing his name or his firm name, nor permit his salesmen to use individual names or telephone numbers, unless the salesman's connection with the realtor is obvious in the advertisement.

ARTICLE 10. The realtor, for the protection of all parties with whom he deals, should see that financial obligations and commitments

regarding real estate transactions are in writing, expressing the exact agreement of the parties and that copies of such agreement, at the time they are executed, are placed in hands of all parties involved.

Article 8 is the law in most states. It is recognized that irrespective of how wealthy or solvent a broker may be, if he misleads the funds of his client with his own, he takes the chance that the funds of his clients may become involved in legal actions or in personal affairs entirely unrelated to the clients interest.

The mingling of funds never protects the client's interest, but always endangers it. Therefore, any violation of this article also would be held a violation of Article 11. It is a specific instruction to the realtor. Irrespective of state law, it may not be violated without endangering his position as a realtor. His local board is obliged to enforce the provision.

Article 9 relates to "blind advertising" and likewise, in many states is prohibited by law. Again the local board is not expected to await legal action insofar as its members may be concerned but is expected to enforce this provision. It is clearly and specifically stated. If, in a state in which the

practice is a violation of law, the realtor feels that he is placed at a disadvantage in competition with non-members, then he and the local board are justified in taking action under the terms of Article 3 to insist upon enforcement of the law in the public interest. Any failure of officials to enforce the law cannot be an excuse for failure of a board to enforce this ethical practice among its members.

Article 10 expresses a well known legal principle and must be practiced for the protection of all parties to a real estate transaction. Real estate transactions usually are intricate. They involve a multitude of detail which frequently cannot be expressed to assure a meeting of the minds except as they are in writing; furthermore the laws of most, if not all, of the states provide that unless such agreements are in writing, they are unenforceable.

While the article refers only to "financial obligations and commitments" most documents in a real estate transaction are of a nature that include a financial commitment. This is true of a realtor's listing agreement. It is true of an agreement in which he receipts for a deposit to bind the transaction.

Altamonte Chapel Trustees Vote To Remove Trees

By ATLANTA MCGINNIS

Altamonte Springs Chapel trustees, meeting in the Educational Bldg., voted on tree removing bids, piano repair and purchase of an electric mimeograph machine. Attending were Clifford Sands, W. Roy Waggoner, Milton L. Tinsley, Curtis J. Jones, Edgar Burdett, A. G. Burroughs, chairman; Douglas L. Scott, Miss Constance Maley, church clerk and Jess Boude, treasurer.

Sands, chairman of the building and grounds committee, presented bids for cutting down two pine trees on the Chapel grounds with the work awarded to Mr. Bevens. Waggoner and Burdett reported that Mr. Patter will repair the piano in the Educational Bldg. for \$175. The work will include replacing the bass strings, new hammers, a complete key board, the piano tuned and the case refinished. The bid was accepted.

Boude advised that he had six new keys made for the Educational Bldg. and six for the Chapel. Sweeney's Office Supply of Sanford was awarded the bid for an electric mimeograph machine and a Steel Master Stationary cabinet. At the suggestion of Burroughs, trustees decided to change the monthly meeting dates from the first Thursday to the first Tuesday of each month and also to discontinue the meetings during July and August.

Geneva P-TO Names Officers

New officers of the Geneva Parent-Teacher Organization were named at the April meeting of the group and will be installed at a Spring School Program to be held in May.

The new officials are Mrs. John Brumley, president; Mrs. O. T. Kinnard, vice president; Mrs. T.R. Summerrail, secretary and Mrs. L. E. Spaulding, treasurer.

Mrs. John Hughey and Mrs. Horace Johnson will be delegates and Mrs. Windel Braddy, alternate.

Avery Urges Longwood Road Paving

District 3 County Commissioner James P. Avery called Orange Ave. in Longwood "extremely dangerous" and urged the County Commission Tuesday to join with city and school officials to pave the road.

Avery estimated that the cost of labor would be about \$2,800 and said that the city would furnish the materials with aid from the county school system.

Avery asked that the road be paved from Grant St. to Hwy. 17-92 past the Longwood Elementary school.

The board took the matter under advisement although District 4 Commissioner Vernon Dunn said he was "against it."

"I can't see turning down a request from one municipality and approving a request from another," Dunn said.

Avery asked the board to consider it and said he would bring it up again next week.

GA's Hear Program On Teenagers

Mary Flannigan presented a program on the subject of "A Changing Role" at the meeting of the Intermediate G. A.'s of the First Baptist Church of Lake May, which brought out the difference between a Moslem teenager and an American teenager.

Anita Ferguson read the names of the missionaries from the Calendar of Prayer and Mrs. Ann Fisher gave the prayer for them.

For their community mission project in April, the girls will gather books and religious material to be given to the New Samaritan Home.

The meeting was dismissed with prayer by Mrs. Jerry Lusk. Refreshments were served.

Sunbeams Continue Study On Africa

The Primary Sunbeams continued their study about Africa at their meeting last week at the First Baptist Church in Lake Mary.

Mrs. W. T. Wansley was in charge of the group and Westa Anderson was her assistant. Refreshments were served following the program.

Children present were Angela Hay, William Anderson, Donna Avery, David Bryant, Carol Dodson, Claudia Boman, William Mixon, Herman and Joe Flannigan, Ricky Wilbanks, Curtis Crawford and Judy Gainsy.

Nurses To Hear World Health Talk

Dr. J. A. Jerigan will speak on "World Health Problems" at the monthly meeting Tuesday of the District Eight Florida Nurses Assn.

The meeting is scheduled to begin at 7:30 p. m. in the Orlando Red Cross Bldg., 2401 E. Central Ave.

Methodist Men's Club Discusses Group Projects

Members of the Methodist Men's Club met for the third time since reorganization of the group Thursday with Boyd Coleman, president, directing the business session. Objectives of the club were discussed. The need for parking space near the church so that elderly members will not be forced to walk great distances to attend services were stressed.

Plans were made to sell shrubbery from the Moughton home location which the Methodists recently purchased for use by the young people. Ashby Jones was named chairman of the project.

Pats McKnight showed a film, based on the parables, which illustrated the urgent need for Christian Fellowship among Churchmen. Members believe that this principle should guide their activities.

W. P. Chapman, who will serve as Club Chaplain, will be in charge of preparing devotions for each meeting to further enact this principle.

Longwood Pupils Back In Swing After Measles

Measles have been on the rampage at Longwood Elementary School, especially in the primary grades.

Mrs. Wheelless reports that most of her children are back in class now and are enthusiastic about learning the days of the week. They are reading and writing stories about their study. Since it is nearing May Day, students in Mrs. Bucher's second grade have learned two songs for the occasion. Also, within the room, a May Pole has been erected and children are learning to skip around it while wrapping the beautiful streamers. They soon will learn to braid the colorful wrappings and by May Day should know the meaning of the observance and the intricate steps of a delightful dance as they wind their way around the Pole.

Mr. Ira Wilson Dies Thursday

Mr. Ira B. Wilson, 75, died at the New Smyrna Beach Fish Memorial Hospital early Thursday.

A native of Norwalk, Conn., he had made his home in Longwood for the past 12 years at 228 Warren St. He was a retired building contractor and had been president of the Longwood Tourist Club for several years. He was a member of the St. Johns Masonic Lodge 6 of Norwalk.

Survivors are his wife, Mrs. Ruth Wilson, Longwood; a daughter, Mrs. James Soltesz, South Norwalk, Conn.; three sons, Donald B. Wilson, Wilton, Conn.; Howard Wilson, Joshua Tree, Calif.; and Robert Wilson, National City, Calif.; 11 grandchildren and one great grandchild and one sister living in Norwalk.

Service will be held at 3 p. m. Saturday at Brison Funeral Home with F. Stewart Helmly officiating followed by Masonic services. Burial will be at a later date.

Please omit flowers.

Mr. C. T. McCulley Dies In Hospital

Mr. Charlie Thomas McCulley, 71, of Oviedo, died in a Winter Park Hospital Thursday.

He was a native of Oviedo, a retired mechanic; a member of the Oviedo First Methodist Church and of the Woodmen of the World. Survivors include two daughters, Mrs. G. G. Hall, Orlando; Mrs. Guy Iverson, Memphis, Tenn.; one son, Charles R. McCulley, Oviedo; two sisters, Mrs. Paul Slavik and Mrs. Dora Kelley, both of Oviedo and eight grandchildren.

Services will be held at 3 p. m. Sunday in the Oviedo First Methodist Church with Rev. George Carlton officiating. Burial will be in the Oviedo cemetery.

Pauline B. Brown Dies At Home

Mrs. Pauline B. Brown, 63, died at her home in Lake Monroe Wednesday following a brief illness.

She had made her home in Lake Monroe for the past two years where she operated a gift shop.

The body will be sent by Brison Funeral Home to Byron Mich., for services and burial.

The ancient Egyptians used sand molds to form bottles and jars 4,000 years ago.

Never Killed Any Jews "Personally" Eichmann Says

JERUSALEM (UPI)—The voice of Adolf Eichmann today told a special court trying him for the murder of millions of Jews that he personally never killed any.

Eichmann's voice, crackling through the courtroom from a tape recorder, said he was a mere transportation expert—the man who routed the Jews to extermination camps where other men stripped and gassed them by the millions.

The recorded testimony was part of a statement Eichmann made shortly after he was kid-

napped in Buenos Aires and brought to Israel to stand trial. While confined at Camp Lyva he agreed to make a statement on Germany's planned extermination of the Jews.

The prosecution is offering parts of the 400,000 word statement in evidence.

Much of it sounds more like testimony for the defense because all through the lengthy statement runs the same refrain: Eichmann was a minor official who never helped formulate the policy of mass murder. He was not anti-

Semitic and in fact was distantly related to the Jews through his stepmother. "Aunt Dorschi" was a Jewess and he helped her daughter to escape to Switzerland at the height of the Nazi terror.

Eichmann said he obeyed his Nazi leaders blindly. "In those days if someone had told me 'Your father is a traitor' and I had been ordered to kill him, I would have done it. In those days I obeyed my orders blindly."

First U. S. interurban line began operation on Dec. 28, 1888, between Granville and Newark, Ohio.

People Make This Bank Friendly

Presiding over the friendly personnel of the Florida State Bank in their beautiful new home is affable T. E. "Gene" Tucker, president of the bank.

Mary L. Douglas, vice president and Patty Gatchel, assistant cashier, are the attractive and unofficial "hostesses" of the institution.

These three are quietly responsible for the amiable atmosphere of the bank, which is proud of its reputation for being "the friendly bank."

Assisting them and no less helpful is head cashier Roland Weason, who presides over the bookkeeping department and assistant cashiers Richard Keogh and Edward Davis. All of these people have their desks along the south wall of the lobby, where they are always available for consultation and assistance to the bank's customers.

Bill Wade, customer consultant, also has his desk in the lobby and does his part to take care of perplexing problems for people.

Priscilla Talley is the official receptionist of the bank and is glad to assist, explain and direct both new and old customers and visitors in finding their way

around the huge institution in its new quarters. She is assisted in this and other fields by "everybody's" secretary, Joan Wright.

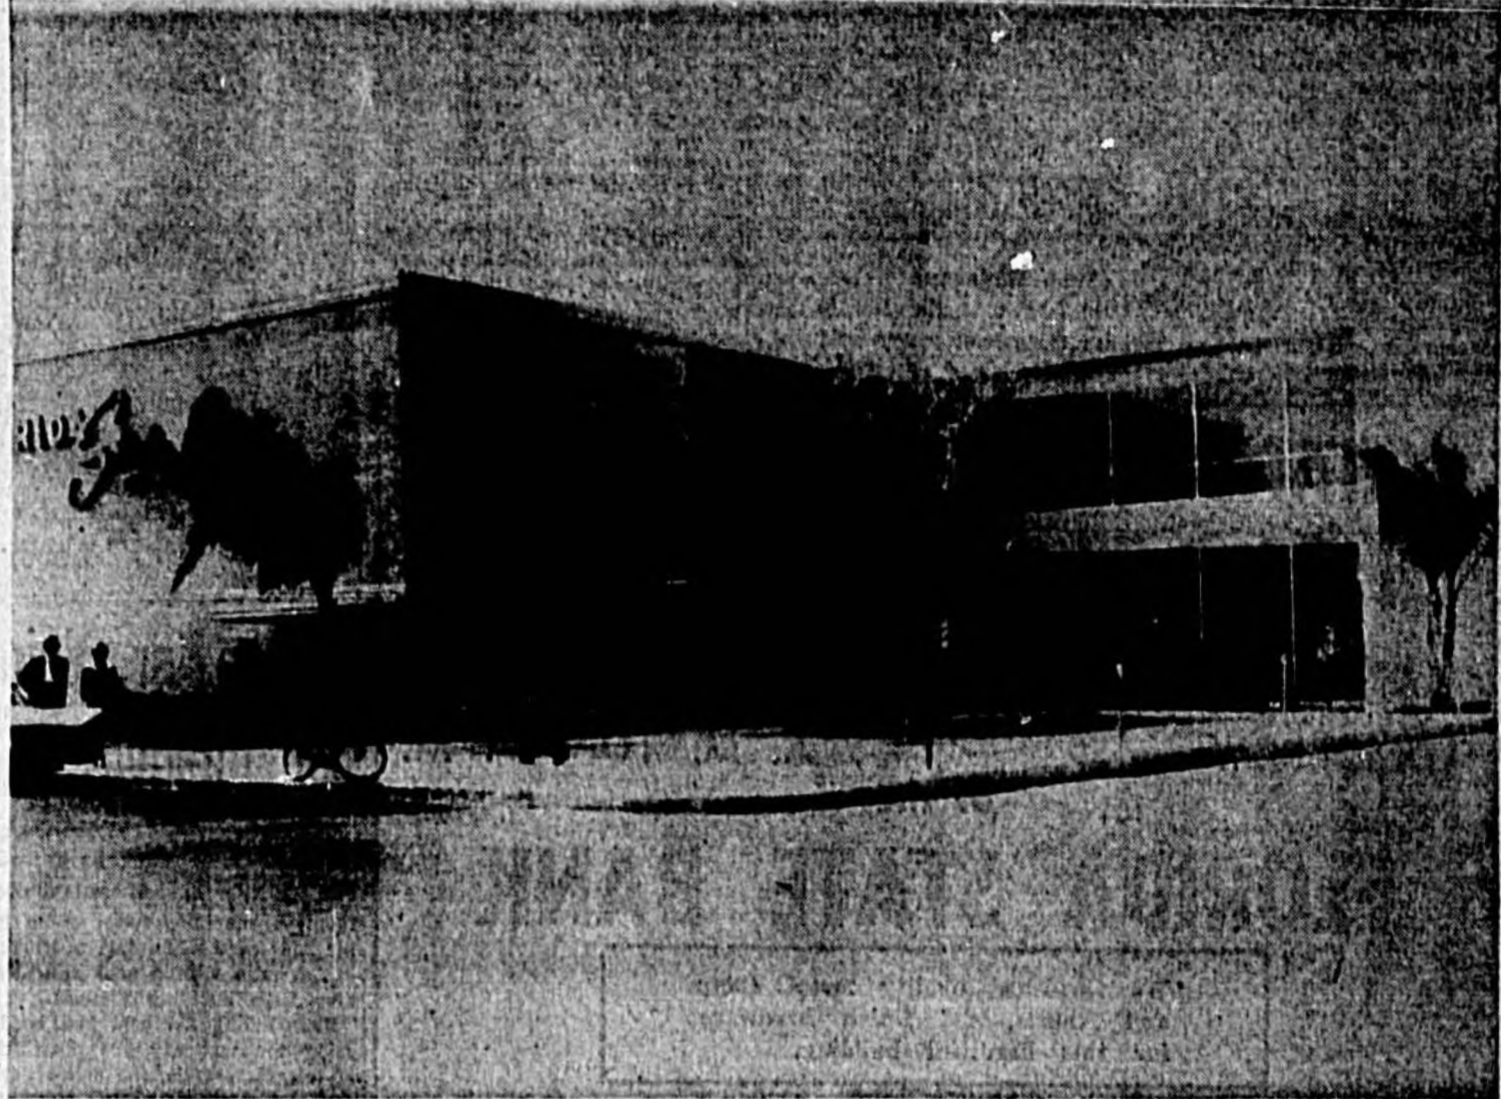

Directly across the lobby from the entrance is the office of the loan and discount department, supervised by David Berrian and Mary Ferguson, and farther to the right is the desk of vault custodian Lois Walker and the private booths for vault and safe deposit box customers.

In between, in the island of booths reaching out into the lobby are the stations of the tellers, who see the most customers and do the most business with the most people in their jobs of cashing checks, making deposits, issuing drafts, cashiers checks, money orders and traveler's checks.

This department is under the supervision of head teller, Harold Brooks, and the tellers are Faye Stafford, Barbara Harvey, Marie Bowen, Judy Bentley, Carol Lane and Dot Raines.

The tellers area, known as a finance center, was built and installed by Remington-Rand, Inc.

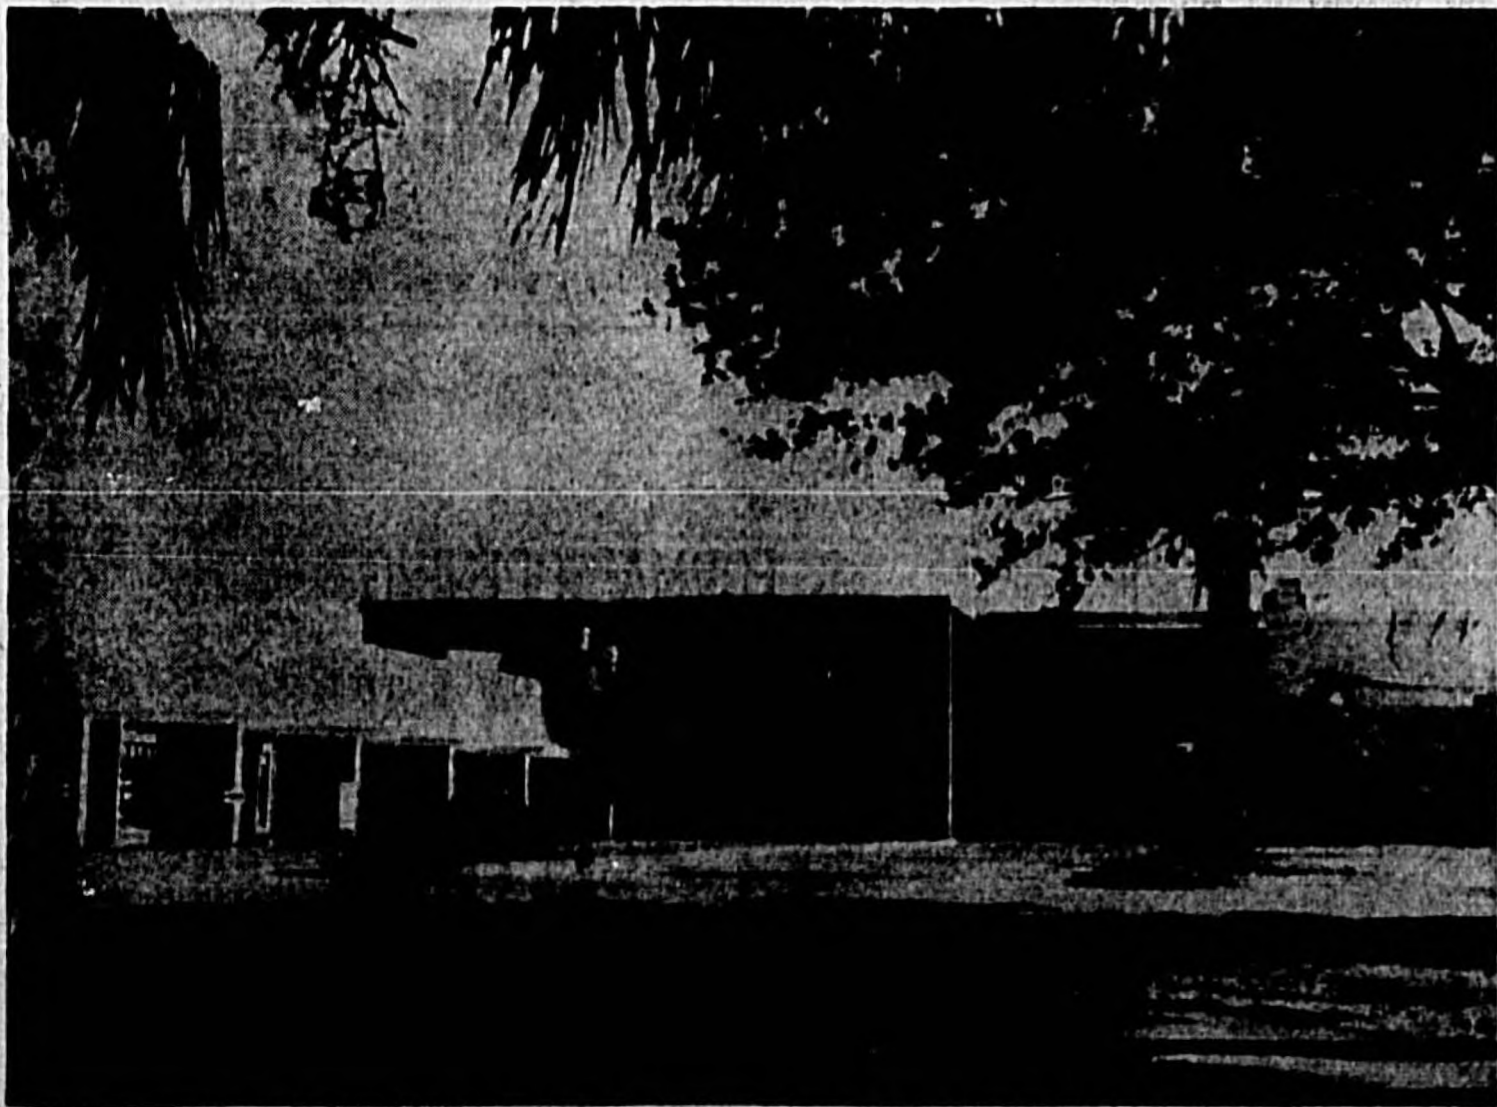

The manager of the Florida State's branch bank facility at the Naval Air Station is Wade Snyder, assisted by Miss Betty Roberson.

New Bank Building Designed By John Burton Architects
It Is Praised For Style, Economy Of Construction

President T. E. Tucker At Work

Rear Entry To Drive-In Tellers, Access To Lobby
Customer Parking Lot Is Paved, Landscaped

Local Firms Did Most Of Work

The beautiful new Florida State Bank was designed by the architectural firm of John Burton IV and built by the Carroll Daniel Construction Company under the direction of LeRoy Robb, vice president and part owner of the firm.

The huge window walls, all interior windows, aluminum work and doors were done by the McRaney Paint and Glass Company of Sanford.

Other hardware, steel doors and frames were furnished by Dunn Lumber and Supply Co. of Daytona Beach and the painting, inside and out, was the work of the Imperial Decorators of Sanford.

The Permalite roof deck of poured concrete was put in place and materials furnished by McPherson, Inc. with the other concrete work on sidewalks and floors by the Miracle Concrete Company and Holloway

Materials Corp. of Sanford. W. O. Bridges also did some of the masonry and concrete work.

The buff limestone block walls of the building were the production of the Cummer-Lime Manufacturing Co. of Ocala.

The land clearing for the building and parking lots was taken care of by the George Dangleman firm and the outside now is beautified with tropical plantings, grass and palm trees, under the direction of local landscape artist, Mrs. Fred Ganas.

Other contractors were: Millwork by Campbell Cabinets and Builders Supply; plastering, B. Edwards, and roofing work by Evans Roofing and Heating Co.

The acoustical tile ceiling of the building was furnished and installed by Acoustics, Inc. of Orlando.

Carroll Daniel Firm Contractor For Bank

The newest bank in the state is the Florida State Bank Building built by the Carroll Daniel Construction Company.

LeRoy Robb is the vice president and general manager of the Sanford branch of the firm, which has built a number of other fine structures in the county and around the state since 1936.

The half-million dollar bank, 27,000 square feet of masonry and structural steel, faced with buff-colored Ocala block, was completed at a cost of less than \$12 per square foot, including all equipment and furnishings. Robb has been with the Carroll Daniel Construction Company since 1948 and began work in

contracting and construction after World War II. He attended the University of Wyoming at Laramie, which is his home state, and studied civil engineering.

The other large commercial and industrial buildings which have been built by the company under Robb's supervision are the Sanford Civic Center, the No. 2 Fire Station on French Ave., the new Medical Center on San Carlos Ave., the Sanford Manufacturing Co. and the Anderson Moving and Storage addition, the Pierrre Manufacturing Co. building, the Pinecrest School addition and the Goldsboro School addition.

Construction superintendent for the new bank and other buildings was Larry Poff.

Recent expansion of the Naval Air Station facilities by the company involved about three years' work and the firm averages employment of 50 construction workers throughout the year.

Leroy Robb

Walk Up Window Adds To Hours

After the lobby closing hour of 1 p. m. each day, customers of the Florida State Bank may use the walk up window, located in the front of the building.

Two tellers, Marie Bowen and Judy Bentley are there to serve customers.

The floor, and the adjoining "den" office of the walk-up section are carpeted in a tweed effect wool carpet of tangerine, beige and white, and this color scheme is carried out in the other decorations.

Also available for late customers is the night depository, located on the south side of the building with its own sidewalk leading up to the depository for the convenience of business people who close and deposit their day's receipts during the night.

The Washington Monument, which has a weight of 81,120 tons, has foundations which weigh 30,912 tons.

GRAND OPENING

Coffee Bar, Dining Room Included For Employees, Friends Of Bank

The 60 employees of the Florida State Bank have their own private kitchen and dining room, a charming, large room in the rear of the building, overlooking a patio with a pool in which there is a bubbling fountain.

Surrounding the pool and bordering the walkway are plantings of tropical foliage, the entire garden closed off by a grill of carved redwood.

The dining room is carpeted wall to wall. The tables are pedestal type with round tops and the matching molded free-form plastic chairs have spring backs for added comfort.

One of the most popular spots

is the dining room is the completely equipped coffee bar, with hot coffee available at all hours, doughnuts and snacks and plenty of cups and saucers.

At the far end of the dining room is a long-banquet table for entertaining guests of the bank on special occasions.

The all-electric kitchen and all the electrical wiring of the new building was done by Sanford Electric Company under the supervision of E. C. Harper, manager.

Navy Maintains Polaris Secrecy

CAPE CANAVERAL (UPI) — The Navy gamely stuck by its new secrecy policy Thursday, refusing to admit it fired a Polaris missile from a nuclear submarine, witnessed by scores of persons on the beach.

The firing of the Polaris Wednesday from tube No. 9 in the deck of the USS Robert E. Lee about 75 feet beneath the surface was a success. The missile left a white trail in the sky and about 20 minutes after firing the rocket's instrument-loaded nose cone went into the target area about 1,150 miles southeast of here.

The only failure was the Navy's effort to keep the firing a secret. Trying to hide a launching in the Cape Canaveral area is like trying to hide a new pretty secretary in a men's office.

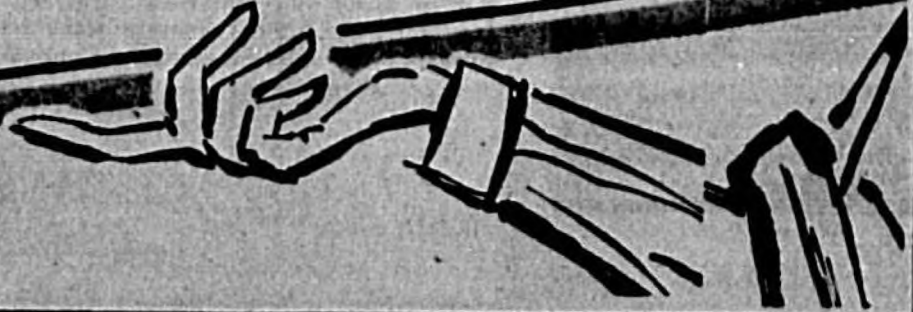

It had been known for weeks that the Robert E. Lee would make at least one more shot from beneath the ocean's surface off the Florida coast. Many beach-bound "birdwatchers" had seen the sleek black sub put to sea early Wednesday and gathered for the shot as the sub reached a point 30 miles away.

Education Plan To Aid Public Is Banker's Aim

BILOXI, Miss. — During the first and formative year of the Committee on Education its functions should be in two parts, education of "our own personnel" in banking, and education of the public, declared Alvin E. Roemershauser before the annual convention here of the Louisiana Bankers Association. He is chairman of the new Committee, and vice president, Whitney National Bank, New Orleans.

In the program of extending education of banking personnel, Mr. Roemershauser cited the American Institute of Banking and the National Association of Bank Auditors and Comptrollers as the "most potent vehicles within banking to educate our own people at the local level." He said promotion of these by the LBA is a worthy effort.

The Junior Bankers Section is well founded, and its activities will grow, he added. Continued interest by Louisiana bankers in the School of Banking of the South at Louisiana State University is an objective of the State Association.

Bank's Telephone System Only One Of Kind In Sanford

There are eight trunk lines coming into the telephone switchboard of the new Florida State Bank building and they service about 50 phones inside the building. Switchboard operator, Mrs. Ruby Combs, can ring anyone in the building but those with phones can pick them up and dial out without waiting for the operator to connect them with an outside line.

The booth where Mrs. Combs works has a "gray" glass window that permits her to see out, but acts as a mirror to anyone looking in. She has operated the bank's switchboard since the first one was installed about six years ago.

Backing up the vast network of communication, both within and without the bank is an eight by 12 foot roomful of telephone equipment which is actually a miniature central office. The present capacity could easily be doubled in future expansion.

The system has a conference-equipped network to enable several people to talk at the same time and the whole thing is a marvel of technical engineering, known as a 740 type switchboard. It is the only one of its kind in Sanford.

A SPECIALLY-ENGINEERED INTERCOMMUNICATION SYSTEM is enclosed in this room, the only one of its kind in Sanford. Dave McCloskey, customer service engineer, supervised the installation of this central office within the new bank building.

SWITCHBOARD OPERATOR, Mrs. Ruby Combs, is the lady with the pleasant voice you hear when you dial the number of the Florida State Bank.

Langford To Talk To Navy Wives

Navy wives and their guests are invited to hear Lt. Cdr. John Langford speak at the NAS ballroom April 27, 9:45 a. m. on the subject of Fourth Dimensional Warfare.

The talk will precede a showing of the controversial film strip, "Operation Abolition."

The program is being sponsored by the Officers Wives Club and refreshments will be served. Reservations may be made prior to Monday through representatives of the NAS Central Committee.

Bank Plays Host To Biggest Coffee Club Meeting

More than 100 people attended the Chamber of Commerce Coffee Club in the dining room of the new Florida State Bank Thursday morning.

Master of ceremonies Charles Morrison introduced those who were guests for the first time and said that this was the largest crowd ever to attend the Coffee Club meeting.

Winners of the four prizes awarded at the close of the meeting were Bill Brunley, one place setting of silver; Bill Fraase, a \$10 saving account and Floyd Palmer, a handful of coins from the Money Bowl, all donated by the Florida State Bank.

Cdr. Charles Tucker also won a German chocolate cake from Eddie's Bakery.

Among the guests introduced were Cdr. Paul Mitchell, NAS, executive officer; Claud Anderson, of Anderson Moving and Storage Co., Donald MacIntyre, from Handy Food Stores, Deane Raine, senior field service representative of North American Aviation, and his associates.

Also Arthur Harris, Bill Brunley and Byron Leach of Kingswood Builders, Cdr. Paul Speltz, Charlie Gaskill and Mike Bosilla.

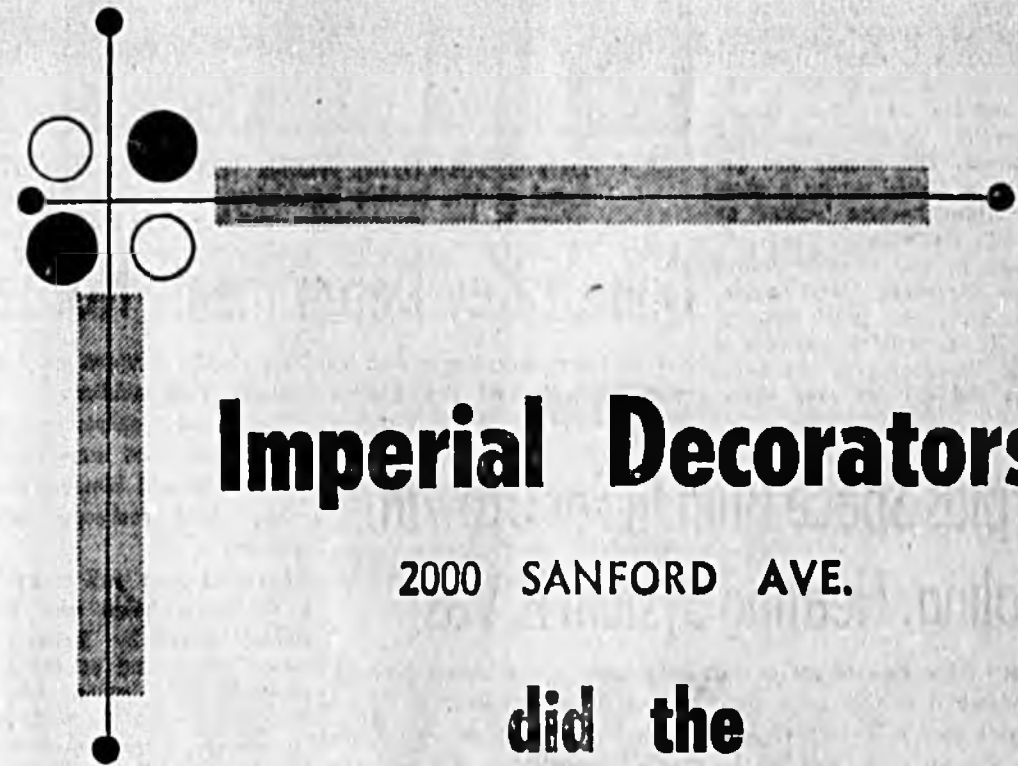

Capt. Robert Slys, NAS commanding officer, will be host to the next Coffee Club May 11 at the Naval Air Station with a pre-Armed Forces Day event.

Businessmen Fly Need To, Or Not

PARIS, Tex. (UPI) — Twenty Paris businessmen leaders fly to Dallas once a month whether they need to or not so Paris will continue to have daily air service.

MARIE BOWEN AND JUDY BENTLEY are the tellers in the patio walk-up window, open for the convenience after the lobby closes.

Everybody's Invited To Attend Florida State Opening Saturday

Everyone in the county, including customers, friends and all interested persons are invited to the Open House being held at the brand new Florida State Bank building, Saturday from 9 a. m. to 8 p. m.

There will be free gifts for everyone and guided tours through the whole facility by members of the staff.

Refreshments will be served through the courtesy of the Florida Power and Light Company, under the supervision of Home Economist Miss Lucy Nowlin, in the all-electric kitchen of the bank. The drawing for the wonderful

prizes which are exhibited in the lobby will be held at 5 p. m., with Charlie Morrison, in charge of the event. It will not be necessary to be present to win.

A special attraction will be a display of domestic and foreign old and rare coins by the newly formed Coin-Collector's Club, under the direction of Rudy Sloan.

Come to America Early used in ancient India and Egypt, the rectangular street pattern was introduced into America when New York planned Manhattan in 1811.

Drive-In Tellers Can Get To Work By 'The Wigwam'

"The Wigwam" is the fictitious name given to the overhead bridge that connects the Drive-In tellers stations with the main Florida State Bank.

Because of the pointed roof and the triangular sides, the overhead walkway does resemble a long wigwam somewhat, and although the drive-in tellers are reached through the outside doors leading into each booth, in inclement weather, they descend through the ceiling by means of a ladder to their stations below.

However, the main purpose of the overhead bridge is for the transportation of money from the booths to the main bank and vault and the transfer of checks and receipts to the bookkeeping department. This money and paperwork is picked up by a messenger from baskets hoisted on ropes into the bridge.

Tellers in the drive-in booths are Dee Hargraves, Albert Somka, Erna Corley and Ethel Howard.

The R. M. Wilkins Contracting Co. did the paving of the parking lot and drive-in area driveways.

IBM OPERATORS WORK WITH BIG MACHINES in the proof department of the bank's bookkeeping system. Shown are Eather LaTourneau, Mary Hearn, supervisor, and Virginia Eplin.

One Of Key Departments Not Seen By Bank Patrons

A vast department, not seen by most customers of the Florida State Bank, but which concerns

them vitally, occupies most of the upstairs of the building.

This is the Bookkeeping Department, under the supervision of manager Roland Wesson, and assistant head bookkeeper Mildred Johnson.

Carpeted from wall to wall with a turquoise, beige and brown-striped carpet by Mohawk and cooled and heated by three 3-ton air-conditioning units, this section encompasses the work of the Control Board operator, Mrs. Jean Kazee and the Return Item Clerk, Anna Mae Mulr.

It is equipped with a closed circuit television from the office to the teller booths, where the girls in the lobby can check on bookkeeping facts, without having to leave their stations.

Here, too, is the proof department, the statement clerks, customer service department and bookkeepers.

There are machines of every sort for taking care of all the bank's business, many of them with special operators.

Two of the largest are the IBM's in the proof department, which are operated by Mary

Hearn, Eather LaTourneau and Virginia Eplin.

The Pitney-Bowes postage meter is used for stamping and mailing out the monthly statements after they are put through the Dumont Graphotype, which cuts the address plates and the Addressograph, which stamps the addresses on the statements.

The Cummings Cansomatic cancellers and stamps the checks and the Recordak and Bell and Howell machines photograph checks for microfilming. Two readers are also used to read the microfilmed checks, when necessary.

The huge Le Febvre statement housings are completely fireproof and will hold a tremendous number of statement files at a height convenient to the bookkeepers.

A special lift is used in the bookkeeping department to carry papers up and down from the lobby to the upstairs departments, saving many steps for tellers and bookkeepers alike.

A Pitney-Bowes letter or statement folder is used to augment the addressograph and posting machine in getting out the hundreds of statements issued each month by the bank.

Surplus Space Built In For Growth; Cooling, Heating System Is Vast

Hidden from view of the casual bank visitor is another large area, now being used as a storage room, but is primarily designed for future expansion of the bank's facilities.

Here in the vast storeroom is 6,000 feet of available space, planned for needs to come. Just behind this storage area is the large, deep room that holds the vast

equipment of the air-conditioning system of the building.

Installed by Lee Brothers Plumbing and Heating of Sanford, the 34-ton capacity unit, is powered by a 40-horse compressor and the huge machinery is designed to heat, cool and dehumidify the building.

It has five zone-control damper motors, each controlling a different area, to vary the amount of heat or cooling needed.

The vast system is air-cooled rather than water-cooled and has completely automatic operation.

On the ground floor is the huge oil fired boiler, which heats the water used in the forced air heating system. The airconditioning is manufactured by the Trane Air Conditioning Company, and plumbing fixtures are by Crane.

Installment Loan Section Set Off

The Installment Loan Department of the Florida State Bank is a part of the lobby, but is separated from the main lobby by a carved redwood grill and has its own entrance.

In this department, where loans are made to qualified individuals and businesses and collections made, the same beautiful carpet, draperies and furnishings prevail, as it is an extended wing of the first floor lobby.

Ralph F. sold is the installment officer and is aided by assistant loan officers Jim Ducette and Mike Stranni, from their desks in the spacious wing. Adjacent to the department is a private consultation and closing room for the convenience of the officers and customers.

The rosewood paneled counters offer reception to those who do business in this department and clerks, Faye Taylor, Anne Hickson and Lessie Pauline have charge of accepting payments and keeping accounts.

American Banker Praises Building

An editorial in the "American Banker", the only daily banking newspaper, published in New York City, praises the new Florida State Bank building for its "un-banklike" appearance.

"The face of banking is being transformed" says the editorial, "not alone in Florida, but all over America and the world."

"The image of the temple and fortress is obsolescent. Blended in the new design for banking is a desire to combine warmth of modern living with a symbol of community progress."

Lobby Makes Customers At Home

View Of Bank's Spacious Lobby

The main lobby of the beautiful new Florida State Bank building is a warm, friendly place with its lovely furnishings and colorful decorations.

The most eye-catching color upon entering the lobby is the seemingly endless expanse of carpet made especially to order for the Florida State Bank in breath-taking blended jewel tones of emerald, turquoise and sapphire.

This lovely cushion-soft carpet is further enhanced by the luster of the gunstock, oil-finished walnut desks, the rosewood paneling of the teller booths, accented with stark white insets.

Comfortable, inviting couches are set in convenient places around the lobby and these are upholstered in stripes of the same color scheme as the wall to wall carpet. Accenting these couches in friendly groupings are the handsome Danish Walnut based lounge chairs in saffron, mango and white leather upholstery.

Decorator-styled lamps stand beside the lounging areas, sparked with the same turquoise and saffron colors in the shades and lamp

bases and free-form ashtrays in all shades of the chosen color schemes are conveniently placed, inviting customers to linger awhile, chat with friends or just relax in their hectic round of shopping and business.

The floor to ceiling pilasters and columns, that stand in support of the upper floors are upholstered in Belgian linen, in a design of peacock blue, brown and white, designed by the famous Frank Lloyd Wright.

Belgian linen casement fabric is used in the graceful floor to ceiling draperies, which enhance the tremendous expanse of window-walls that comprise the south and east walls of the building, in the inverted front entrance and along the north wall of the lobby.

Living plants of diffebachia, monastera and rhododendren are used profusely throughout the

building, bringing in the fresh green world of the out-of-doors that can be seen so effectively through the window walls, with the outside plantings seeming to be a part of the decor. These living plants are contained in very modern white urns on Danish walnut plant stands, suitable to the style of the other furnishings of the lobby.

All of the decorating of the new building was done by Flambeau Studios Inc. of Orlando, under the supervision of Dorothy Flambeau and Jerry McNab.

The soft music which fills all areas of the building with pleasant sound is from the Muzak Corporation, and the Cherry Broadcasting Company of Orlando.

Florida State In McNulty System

The Florida State Bank of Sanford is a unit of the McNulty system of banks in Florida. Other McNulty banks are located at Fort Meade, Lake Alfred, Melbourne, Zephyr Hills, Haines City, Mulberry, Punta Gorda, Arcadia and Lake Okeechobee.

Fred H. McNulty of Haines City is chairman of the executive committee of the McNulty banks.

A statement of total deposits on hand December 31, 1960, listed the sum of \$10,503,924 on deposit in the Florida State Bank of Sanford.

WEATHER: Fair through Tuesday. High today in the mid-80's. Low tonight, 62-66.

VOL. 53 United Press Lensed Wire Established 1908 MONDAY, APRIL 24, 1961 SANFORD, FLORIDA NO. 176

THE SCIENCE OF NUTRITION studies made by these students won the top three awards in this field, with cash prizes from the Seminole County Lunchroom Assn. and medals from the Science Club. Seated, from left, Judy Whitmore and Bobby June Berry, sophomores, second place winners. Standing, Patty Glenn Johnson, sophomore, who won third place and Bill Leffler, sophomore, first place, all from Seminole High School.

ROBERT BULLARD

Bullard Wins Top Awards At Science Fair

The most outstanding science student in Seminole County is Robert Bullard, a senior at Seminole High School, who took six separate awards for his engineering study of a Sanford-New Smyrna Beach Canal.

Bullard received the \$100 scholarship award from Dearborn Corporation as the most outstanding student, a silver plaque from Dearborn, the gold trophy presented by the Sanford-Seminole Jaycees for the best overall science project, a \$25 award from Dynatronics for the top physical sciences project, a \$25 bond from The Sanford Herald for the best project and awards from the Florida State Science Fair, for second place in Physics and Engineering.

Judges determined Bullard's presentation, complete with thesis, photographs, maps, studies and engineering layouts, the product of nearly a year's work, study and exploration to be the finest example of scientific thought, creative ability, thoroughness, clarity of presentation, technical skill and practical value.

The 17-year-old senior is the son of Navy Chief and Mrs. George Bullard of Sanford and is a straight A student at Seminole High where he is also president of the Science Club.

There were 23 students awarded honorable mention at the Science Fair, although only one in each category had been elected.

Physical Science, junior high level: Dick Balmer, Allen Berkmyer, Randy Payne, Mike Nelson, Barbara Messimer and Ted Clark, all from Lyman Junior High School.

Biological Science, junior high level: Kenneth Puff, Sanford and from Lyman Junior High, Sheryl Jones, Ariene Smith, Don Patrick and Valeria Shay.

Senior High School, Biological Science: Mike Coalo, junior; Bobby Lankford, senior; Judy Whitmore, sophomore and Bobby June Berry, sophomore, all from Seminole High. Eugene Futch and Jeff Schembera, both sophomores at Lyman.

Senior High Physical Sciences: Bill Leffler, junior and Mark Jenkins, senior at Seminole High and from Lyman High, Thomas Foresa, junior; Charles Kurvin, junior; Bill Maher, senior and Frank Losser, senior.

Junior High School winners, who received cash awards and medals given by the Seminole High School Science Club, were in two categories.

Physical Science: First place, Danny Castellberry; second place, Ronnie Hall and third place, Larry Tuck.

Biological Science: First place, Billy Day; second place, Nancy Rusk and third place, David Evans.

Owen Cammack of Geneva, who is a junior at Seminole High School received the award from Southern Chemical Company of Sanford for the most outstanding chemistry project.

Supt. R. T. Milwee presented most of the awards to students, who were called on stage to receive recognition.

The final top award for the most outstanding student was made by science teacher and director of the fair, Don Reynolds who said:

"I feel that I would like to make this award personally, because I know this student better than any other teacher here and take great pride in his outstanding accomplishments."

Judges for the Fair were Dr. Harlan Rhodes and Dr. Forbes of the U of F Experiment Station here, Dr. E. C. Pritchard of Stetson University, and Dr. Bernard Blaiz of the Naval Air Station.

Cash prizes were given by the Sanford-DeBarry Heart Council, the Seminole County Lunchroom Assn., Kiwanis Club, Dynatronics, Inc., Southern Chemicals Co., Dearborn Electronics, The Sanford Herald and the Jaycees.

The Seminole High School Science Club was host and sponsor for the Fair and also presented gold medals to the winners. The Sanford-Seminole Jaycees co-sponsored the event.

WINNERS OF THE SEMINOLE-DEBARY HEART COUNCIL AWARDS for the best projects on the study of the heart were, first place winner and seventh grade student at Lyman Jr. High, Carolyn Thomas. Second, Jane Harward, Seminole High sophomore and third, sophomore Beverly Yates of Lyman.

PHYSICAL SCIENCES TOP CASH AWARDS, presented by Dynatronics, Inc. with gold medals from the Science Club went to Seminole High School students, from left, first, Robert Bullard, \$25; second, Leonard Himes, \$10 and third, Owen Cammack, \$5.

BIOLOGICAL SCIENCE WINNERS were from left, first place, Adrian Wahlberg, a senior at Lyman High, who received a \$25 bond from the Kiwanis Club and a gold medal, second; Margaret Jones, Seminole High senior, a \$10 cash award from Dynatronics and a gold medal and third, Roy Goodwin, a sophomore at Lyman High, \$5 cash award from Dynatronics and a gold medal.

A \$100 SCHOLARSHIP AWARD, the Benjamin S. Naven Memorial, presented to the most outstanding science student in Seminole County each year, was delivered to science teacher Don Reynolds of Seminole High by officials of Dearborn Electronics. An engraved silver tray is also given. From left, Eamonn Geoghegan, chief engineer, Reynolds and R. J. Simpson, president and general manager of Dearborn.

Castro Plans New Bloodbath

MIAMI (UPI)—Premier Fidel Castro, brushing aside the pleas of five Latin American presidents was expected today to unleash the biggest firing-squad bloodbath yet in "socialist" Cuba.

The bearded Cuban also was expected to build up his government's defenses against what he called invasions staged by the U. S.

In a four-hour-and-33-minute television Sunday, Castro said such attacks would sound the death knell of the United States.

He sneered at U. S. leaders,

calling Sen. Barry Goldwater (R-Ariz.), a "murder" and saying President Kennedy reminded him of Adolf Hitler. He threatened blows at the "very heart of the Yankee empire" — presumably meaning retaliation by Russian rockets.

Despite pleas for clemency from the presidents of Argentina, Colombia, Costa Rica, Mexico and Venezuela, Castro indicated he would deal mercilessly with 700 prisoners he said were taken in last week's fighting.

Castro also confirmed indirectly

that there was a mass roundup of Cubans after the April 10 invasion, affecting perhaps as many as 50,000 persons. He said it was necessary to arrest "all suspicious persons," but added that those proved innocent would be released.

As Castro spoke, leaders of the Cuban underground were appealing to the United States and the rest of the free world for aid which they said was necessary to keep Cuba from becoming a new Hungary.

"We believe that if we do not get U. S. help we will be doomed,"

an underground statement said. "We may suffer the same fate as our parents who died in the struggle to free Cuba from Spain."

Underground leaders also complained that the U. S. Navy was at least partly to blame for the defeat of the invasion.

They said U. S. naval vessels accompanied the invaders from Guatemala but that their commanders kept the attackers waiting too long offshore "giving Castro more time to muster his defenses and making the rebels weak with seasickness."

House Tackles Legislation On Welfare, Industry

TALLAHASSEE (UPI) — Administration-backed bills authorizing creation of private industrial development corporations and permitting the state to recover welfare payments from estates of recipients who have died were tossed into the House hopper today.

Rep. George Hollahan of Dade said he had abandoned his plan to get the House to take up of their normal order the administration's obscene literature bills. He said there was some opposition to the measures, which have already passed the House.

The Industrial Development Corporation bill was sent to two committees for study. It would not reduce the state's credit but would put the state behind moves of private corporations to lend money to industries trying to get started in Florida or seeking to expand.

The controversial bill to recover from the estates of welfare pensioners was sent to two committees also. A double committee reference "always lessens a bill's chances of getting through the Legislature." The bill would put the state in line to recover if any estate is left after the widow, children and other bills and obligations are taken care of.

In committee action today, the House Public Amusements Group voted out, 7-3 another race track bill. This one authorizes a harness horse track at Vero Beach in Indian River County.

Bills authorizing plant City, Fort Lauderdale, St. Augustine and Orlando to use federal urban renewal funds were introduced in the House today.

News Briefs

Feed Date Extended
GAINESVILLE (UPI) — Florida farmers today were given a two week extension on the deadline to sign up for the federal government's emergency feed grain program. The deadline, originally set for May 1, was pushed back to May 15.

Ballard Elected
MIAMI (UPI) — The National Guard Officers Assn. of Florida has elected Col. Robert A. Ballard its president. Ballard, a World War II hero who served as a paratrooper in the Battle of the Bulge, was named to the post Sunday. He has served as commander of the Miami-area guard since organizing units after his discharge.

Institute Opens
DELAND (UPI) — The third annual Theological Institute opened today at Stetson University with more than 30 ministers of all faiths registering for the three-day gathering. Speakers include Dr. Penrose St. Amant of the Southern Baptist Theological Seminary, Louisville, Ky.; Dr. Claude Broach of St. John's Baptist Church, Charlotte, N. C. and Dr. Robert Paterson, pastor of the First Baptist Church, Eustis.

Sukarno Greeted
WASHINGTON (UPI) — President Kennedy personally greeted Indonesia's neutralist President Sukarno on his arrival today for talks which may provide a gauge of U. S. prestige in the wake of the Cuban incident. After the airport welcome, the presidents drove to the White House for a morning conference and a working lunch with Secretary of State Dean Rusk and Indonesian Foreign Minister Subandrio.

Tension Grips France

PARIS (UPI) — President Charles DeGaulle started mobilizing special army reserves today to stop a military revolt in Algeria from leaping across the Mediterranean into France itself.

DeGaulle, invested with dictatorial powers, acted after the country had gone through a six-hour invasion alert. The alarm was canceled early this morning but France remained tense.

Official sources disclosed President Kennedy had sent DeGaulle a message of support in the Algerian crisis.

U. S. Ambassador James Gavin took it to Elysee Palace Sunday night.

A brief cabinet communique at noon announced that certain army reserves could be called back into service and formed into "regularly organized reserve units."

The government also put 2,000 volunteers and said it would arm them tonight.

DeGaulle's main tactic at the moment appeared to be to isolate the insurgents. The Finance Minister said all payments, rulings

and transfer of funds between Algeria and other French territories had been suspended. Communications also were severed.

Fifteen thousand troops, police and volunteers backed by light tanks guarded key points in Paris.

In Algeria, the rebel generals who proclaimed their revolt last Saturday appeared to be extending their power without bloodshed. They claimed complete control of Algiers, Constantine and Oran—the three key military centers in Algeria.

The lawn care clinic conducted annually by the County Agent's office is expected to start in the near future.

Although little June Webster couldn't be present when she was honored last week by the Legislature for her safety story, a special assembly period at Sanford Junior High school will be held soon to present the youngster with the plaque.

It won't be long before there is another clock in the downtown area soon. A large clock and temperature chart will be constructed on the Sanford Atlantic Building within the next two weeks.

John Brunley is the new president of the Sanford Civic Club. Brunley was elected at a meeting last week. Other officers named were S. J. Davis, first vice president; A. W. Woodall, second vice president; Robert Brinson, secretary; Charles Kämpf, treasurer and James Foster, sergeant-at-arms. Directors elected were Joe Denton, Gene Estridge and F. Wade Tye.

Loch Arbor Pipe Work Set Tuesday

A major step to relieve flooding and drainage woes for residents of Loch Arbor will start Tuesday, Supt. of Roads J. C. Lavender said today.

Lavender reported that his crews will lay 782 feet of pipe-line from Crystal Lake to Lake Mary Rd. The project will cost \$10,000 and will be completed in about 10 days.

Fleet Reserve To Meet Tuesday

Members of the Fleet Reserve Association Branch 147 of Sanford will meet Tuesday at 7:30 p.m. in the Fleet Reserve Bldg. on Seminole Blvd. to discuss sponsoring a Sea Scout ship.

Objectives and future of the ship and to recruit prospective young men will also be discussed.

Traffic Toll
TALLAHASSEE (UPI)—Traffic accidents in Florida took seven lives over the weekend, the Florida State Patrol reported today.

Ohio Woman Is County's 5th '61 Traffic Victim

A 53-year-old Ohio woman became the county's fifth traffic fatality this year after a three car collision at SR 66 and Hwy. 17-92 Saturday morning, the Florida Highway Patrol reported.

Emma Louise Williams of Vienna, Ohio died on arrival at Florida Sanatorium suffering from head and internal injuries.

Her husband, Lawrence Williams, driver of one of the cars in the mishap, was listed in "fair condition" today at the hospital suffering from lacerations and head injuries.

Trooper J. L. Sikes said that Williams was going east of SR

438 and while crossing Hwy. 17-92 was hit on the right side by a car operated by George E. Waters of Orlando. Waters was taken to Orange Memorial Hospital suffering from fractured ribs and abrasions on both arms.

After the two cars hit, the Williams' vehicle skidded into a car driven by Gloria Setchfield of 133 Onyx Rd., Sanford.

Williams' car was totaled a total wreck while damages to Waters' vehicle was estimated at \$700 and \$100 to the Setchfield car, Sikes said.

Cause of the accident is still being investigated, Sikes said.

Reds, British Agree To Laos Cease-Fire

LONDON (UPI) — The British government announced today that an agreement has been reached with the Soviet Union for a cease-fire in Laos.

The announcement was made in the House of Commons by J. H. Godber, undersecretary of state for foreign affairs.

Godber said Foreign Secretary

Lord Home had reached agreement with the Russians on preliminary arrangements for a cease-fire and a conference on the war-ruptured Asian kingdom.

The agreement came after weeks of consultation between Britain and the Soviet Union, acting in their capacities as co-chairmen of the 1954 Geneva conference that settled the war in Indochina.

Godber said the agreement included three "communications" which will be published Tuesday. They are:

Show Goes On For Lucille Ball

NEW YORK (UPI) — Comedienne Lucille Ball, who collapsed on stage in the middle of Saturday night's performance of "Wildcat," said the show would go on tonight and she would be there.

The star's dance routine partner, Edith King, suffered a broken wrist trying to catch her when she fell.

Miss Ball, who took a two-week leave of absence from the show earlier this season because of a virus infection, was suffering from another virus attack Saturday night.

In Hollywood, Miss Ball's estranged husband, Desi Arnaz, was hospitalized with a severe virus infection.

A call for a cease-fire. A call to India to convene the three-power international super-virus commission. A call for a 14-nation international conference on May 13 in Geneva.

Audubon Society To Hear Reports

Nominating committee reports for a new slate of officers will be given at the meeting today of the Seminole Audubon Society.

Members will meet in the School Farm Bldg. behind the Junior High School at 7:30 p. m. with Mrs. F. Luske, Mrs. H. C. Heisel and Mrs. E. Dickerson as hostesses.

James Sims, program chairman, has arranged for Mrs. A. Walt of DeBarry to show her collection of bird picture slides.

Small Farm Boost Goal Of Study

WASHINGTON (UPI) — Agriculture Secretary Orville L. Freeman warned today that a few huge corporate farms could gain control of the nation's food supply unless Congress acts to bolster the income of family-operated farms.

The corporation farms could drive food prices up sharply, he said.

Freeman's statement was made in testimony before the House Agriculture Committee which opened hearings on the administration's new long range farm bill.

DeBarry Show Set Tuesday

DeBarry Garden Club members will stage their second annual Flower Show Tuesday at the Community Center from 2 p. m. until 5 p. m. and from 7 p. m. until 9 p. m.

Theme of this year's show is "April, the Capricious Month."
