

Auto Union Strikes Ford

DETROIT (AP) — The United Auto Workers Union struck Ford Motor Co. today, paralyzing operations in 25 states.

Negotiations were in recess with no new talks scheduled. The walkout stopped production at Ford, which normally produces 8,000 cars a day, and raised the possibility of damage to its standing in the highly competitive market that General Motors and Chrysler will continue to feed with 1968 models.

By then, and with no sign of progress in eight weeks of bargaining, many of the UAW's 150,000 members at Ford plants already had walked off the job anticipating the strike.

The company, second in size with GM in the automaking field, was last struck nationally in 1961. Just 30 minutes before the Wednesday midnight expiration of the old two-year contract, Ford rejected a proposal by UAW President Walter P. Reuther for binding arbitration to dissolve the impasse.

By then, and with no sign of progress in eight weeks of bargaining, many of the UAW's 150,000 members at Ford plants already had walked off the job anticipating the strike.

President Johnson has said he fears the stoppage will damage the nation's economy. Minutes after the strike began, Reuther told newsmen at Ford headquarters in suburban Dearborn that he was "most disappointed."

He had said earlier this year "this union is going to be tested like it has never been tested before," and he told the news conference: "I think Ford workers are able to stand the test."

Henry Ford II, board chairman and grandson of the company founder, assailed the walkout as "totally unjustified and completely unnecessary."

He called it "a bludgeon against the public interest," and "tragic in its implications for the whole nation."

The gap between the opposing positions was reflected in another news conference when Ford's top negotiator, Malcolm Denise, was asked if the two sides ever came close to a settlement.

"I think I can answer that with a flat no," he said. General Motors and Chrysler, the other members of the Big Three, also stiffened Wednesday to the union demands. While agreeing to continue production and pay wages and benefits to workers according to contract provisions, they refused to extend the three-year pact that expired with Ford's at 11:59 p.m.

Union and company spokesmen said a decision on when to resume negotiations may not come until Monday.

There was no indication that Ford would present a new offer. Only a day earlier, Denise told newsmen Ford had no new proposal and was not preparing one.

In its only proposal thus far, Ford offered a general wage boost of 15 cents an hour, plus 2.5 per cent the last two years of a proposed three-year contract. The company said this would total a minimum of 34 cents.

The union demands, which Reuther calls "the longest and most ambitious in UAW history," have been estimated at from 60 cents to \$4 an hour per worker, compared to \$4.70 an hour per worker the company now pays in wages and benefits. Top UAW demands are for a substantial wage increase, an additional wage boost for skilled tradesmen, higher pensions, elimination of the disparity between Canadian and U.S. auto plant pay, and guaranteed annual income.

Ford made no mention of the last two items. The union said the Ford offer on the other issues was unsatisfactory. The UAW strike fund, totaling \$68 million, would last about 18 weeks against Ford. The fund would go out in strike benefit payments of \$20 to \$40 a week.

TOOTHBRUSHES are being sold by Altamonte Springs Community Library Association at bargain prices in current fund-raising drive. Group of three, sold at one minimum price, is displayed by Mrs. Graham Fuller.

ASSISTANT helpers at Altamonte Springs Community Library, Mrs. Edgar DeBeer (left) and Mrs. James Augustine, look over well-stocked supply of books now available to the public. The library is open on Tuesday, Thursday and Saturday of each week.

AVERAGE income of \$100 monthly derived from Thrift Shop sponsored by Altamonte Springs Community Library Association is used to benefit the library. Showing a few of the items available to the public at bargain prices in the shop, which is located just back of the library, are Mrs. Darrel Hart (left) and Mrs. Joseph Seapelliti, two of the assistants to Mrs. M. G. Pate, manager. Donations will be accepted by any of the three or by Mrs. Beulah Kemp, also an assistant.

Safe Driving Responsibility

Safe driving is a parental responsibility, Dr. Frank Leone, Seminole County Health Department director, stressed today, in releasing the following list of rules and regulations to be used as a guideline. Use safety belts at all times, even for short rides in town. Do not allow children to sit on the front seat or stand up in the car. Do not allow children to put their heads, hands, or arms out of the windows. Do not allow children to hold toys out the window or to throw trash out. Never ride in a car with all the windows and vents closed unless the car is air-conditioned. Keep all the doors locked at all times. Use safety locks on rear doors. Have behavior rules in the car to prevent distracting the driver. Remember that drunk is the most dangerous time of day for driving. On long trips stop frequently (at least every two hours), walk off the road, get out of the car and stretch and walk. Take something along to keep the children quietly occupied.

Noted Artist To Be Guest Of Sanford Club

Reginald B. Strang, noted artist and second vice president of the Florida Federation of Art, will be guest of Sanford-Seminole Art Association at its first program of the new year scheduled for 8 p.m. Sunday at the Cultural Arts Building (former Sanford Library) located on Fifth Street between Park and Oak Avenues.

Cub Pack 510 Needs 'Mothers'

An appeal to mothers who "want to share in a rewarding experience" was issued today by Cub Scout Pack 510 of Sanford, which has two open positions for den mothers now available. Clyde Smith Jr. and David Swartz, pack officials, urge that mothers contact them by telephone if they are interested in "helping young boys to become young men."

TOBY KASSELL of Oviedo holds coral male measuring more than 40 inches in length which was killed near his home by his father, Edward C. Kassel.

Nurses To Meet District fall meeting of the Florida State Nurses Association will be held at 7:30 p.m. Monday at Seminole Memorial Hospital auditorium. Mrs. Cora Middleton will discuss the by-laws, purposes and goals of the association.

RVAH-I Honors Pair At Farewell Cookout

RVAH-I officers, their wives and guests enjoyed a steak cookout at Lake Golden, Aug. 29.
Guests of honor were Fred and Rosemary Walter, who will be leaving the squadron soon to return to civilian life and will make their home in Maryland.
Cdr. Ray Murphy, skipper of the squadron, bid farewell to the couple and wished them success in their venture.
On Sunday, several squadron members gathered at the home of Cdr. Bert Larkins, squadron executive officer, for a pool party. A good time was had by all and as the Tigers wound up their busy weekend, they extended a hearty thanks to their "tigerific" host.

Miss Barbara Bolger Bride Of G. N. Smith, Jr.

Miss Barbara Ellen Bolger, daughter of Mr. and Mrs. Robert Leo Bolger, 200 Forrest Dr., and Gerald Nelson Smith, Jr., son of Mr. and Mrs. Gerald W. Lovett, Hartford, Conn., were united in Holy Matrimony, Aug. 26 at 2 p.m. in the Church of the Nativity, Lake Mary.

Rev. Cyril J. Kennedy officiated at the double ring ceremony. The church was decorated with arrangements of white daisies, chrysanthemums and greenery in two crystal urns on pedestals and two tall white baskets. The bride, given in marriage by her father, was radiant in a formal length white crepe gown featuring a bateau neckline, long sleeves and calla points fastened with six covered buttons. The high waist was emphasized with a wide band of heavy fringe and the cathedral length train was attached at the high back waistline with a wide band of fresh lace forming a panel down the center. Her four-tiered veil of silk tulle, fashioned in bouffant of feet with short face veil, was attached to six white crepe petals trimmed with pearlized tulle. The entire bridal ensemble was designed and made by the bride. She carried a cascade bouquet of starburst and roses, showered with white ribbon streamers interspersed with lily white Sweetheart rose buds. Mrs. Roy D. Lovett, sister of the bride was maid of honor and Mrs. Tom Albert, daughter of the groom, was best woman. Mrs. Roy D. Lovett, sister of the bride was maid of honor and Mrs. Tom Albert, daughter of the groom, was best woman. Mrs. Roy D. Lovett, sister of the bride was maid of honor and Mrs. Tom Albert, daughter of the groom, was best woman.

Homemaker's Corner

now on the market. Pressure the ribbon with a warm iron, will attach it in place for steaming effect. Such a contrasting stripes on skirts, military chevrons on sleeves or pockets and vertical lines of color on knee socks.
Homemade articles which can be manufactured by machine or hand, may be given infinite variety and beauty with the use of fresh fruits and different varieties of fabrics and color combinations at the same time. During the year more than 100 kinds of fresh produce are marketed at the same time. The number of fresh fruits and vegetables is 28. Even in mid-winter, a shopper in one of the super-markets probably can buy 45 to 50 different fresh fruits and vegetables, plus various varieties.
What is your CANNED FOOD IQ?
Question No. 1. How long will "canned food" keep?
Canned foods keep indefinitely. A good general rule is to have a regular turnover, once a year, for example.
Question No. 2. Where should canned foods be stored?
Almost any place. Best storage, however, is in a dry, cool place.
Question No. 3. Is it safe to leave unopened cans of food in the can? If the can is damaged, just as you would any cooked food.
Question No. 4. Does damage to the outside of the can mean the food is damaged?
Just, dents or label stains never or if it bulges, it should be discarded.
Question No. 5. What is a "tin can" made of?
Tin cans are made of steel sheets covered inside and out with a layer of pure tin.
Homemakers who do their own sewing will be glad to know that a new type of adhesive hank nylon velvet ribbon that can be permanently bonded to any fabric without sewing, is now on the market. Pressure the ribbon with a warm iron, will attach it in place for steaming effect. Such a contrasting stripes on skirts, military chevrons on sleeves or pockets and vertical lines of color on knee socks.

ALSAC Benefit Scheduled Tuesday

A benefit skating party for ALSAC (Aiding Leukemia Stricken American Children) will be held from 7 until 10 p.m. Tuesday at Melodee Skating Rink.

Donations will be asked for children and adults alike. Proceeds will be given to Seminole County ALSAC Chapter.

Mr. H. McGibbeny, director of the local chapter, urges all clubs and organizations to take advantage of this opportunity to arrange a skating party for their groups and help a worthy cause at the same time.

"Local ALSAC is now paying transportation charges for three children from this area and their parents to and from St. Jude Children's Research Hospital in Memphis, Tenn. where free care and treatment is provided those of all races and creeds stricken with leukemia and other catastrophic diseases.

To relieve financial strain from parents of a stricken child, St. Jude provides a bed in the child's room for the parent who also eats in the hospital cafeteria free of charge.

Funds for this care and transportation are raised primarily by young people who participate in the annual Teenagers March, slated this year for Sept. 22-24.

McGibbeny urges all teenagers to call 222-6825 to volunteer their services and to attend the skating party.

Due to the number of trips made by Seminole County children to the hospital since June, local funds are getting low and need replenishing very badly, he reports. All help will be greatly appreciated.

Women To See ALSAC Film

By MR. JOHN LEONE
 Mrs. William Whitcomb, grand secretary of the Masonic Grand Lodge of Florida, will be speaker for the Delany Wayfarers Club at opening luncheon meeting of the season slated for 12:30 p.m. Monday at the Delany Civic Center on Shell Road.

The local club is a strong supporter of the Masonic Home at St. Petersburg and Whitcomb's talk will cover the solid portion of the earth known as the lithosphere.

on the facility will be shown by Howard Middleton handling the projector.

Glenn Smith is chairman of the arrangements committee for the luncheon.

In regular business meeting following the luncheon, Whitcomb will present a 56-year service pin to Hans Wilde of Doloma.

All Masons of the area are invited to attend.

The solid portion of the earth is known as the lithosphere.

North Orlando Adopts Criminal Code

By RAYMOND E. WARE
 Ordinance 42, entitled "Criminal Code of North Orlando," consisting of 66 sections in 19 pages, was adopted by the village council.

The new ordinance covers violations from throwing rocks to assault. In the first section, it is stated that violation of any provision shall be punished by a fine not to exceed \$500 or 60 days imprisonment, or both.

A section pertaining to trailers is included both in the criminal code and the new comprehensive zoning ordinance now up for council action. Any trailer used for living quarters can be parked only in a trailer park unless a special permit, which provides for temporary parking for a period of three weeks, is obtained from council.

Zoning ordinance states no house trailers will be permitted in residential areas. Campers, camp trailers and boats and trailers will be permitted if kept in a garage, carport or rear yard, providing no one occupies them.

A curfew is set in the criminal code for 11 p.m. for unaccompanied persons under 16 years old.

It also is stipulated that when an icebox or refrigerator, or any other air tight container, is discarded, the lid or lock will have to be removed.

It is expected that a new dog ordinance, now being prepared, will come before council in the near future. Main change will be reduction of the 10-day limit on keeping captured dogs in the pound to a three-day regulation.

China issued the oldest known paper money in the 14th century. It was printed on mulberry paper.

Marines Locked In Fierce Battle

SAIGON (AP) — American Marines and some 4,000 freshly equipped North Vietnamese regulars locked in a fierce battle over the bloodstained rice paddies of the Que Son valley today.

The Communist soldiers and 20 Marines reported killed. More than two battalions of Marines sleeping through the paddies and bamboo stands west of Tam Ky hit the Communist force late Wednesday. The battle raged through the night with the Marines and the North Vietnamese alternately charging.

There was frequent hand-to-hand fighting beneath the flickering yellow glow of parachute flares.

The battle raged less than a mile from the scarred field where 150 North Vietnamese soldiers were cut down Monday and Tuesday. The Reds have lost 338 killed and 22 captured in the valley in these two battles, and 219 Viet Cong were killed and 16 captured in an abortive attack on the town of Tam Ky early Wednesday.

Marine casualties in the Que Son valley fighting now total 124 killed and 278 wounded.

The battle 20 miles below Da Nang in the northern war zone was the only significant fight listed in the day's war communique.

A storm over North Vietnam limited American strikes Wednesday to 64—the least day in three months—by U.S. Air Force Thunderchiefs blew up tracks on the approaches to the Lang Con railroad bridge only 25 miles from the Red Chinese border.

U.S. headquarters reported 157 Americans died in action last week and 1,588 were wounded, about an average casualty figure despite the full in the fighting during that period. But enemy casualties of 1,835 killed were reported, nearly 500 less than the week before and the lowest enemy total since last April.

The U.S. casualty totals were up from 125 reported killed and 1,078 wounded a week earlier.

Enemy casualties last week were 1,507 in the previous week. The enemy total was the lowest since the week ending last April 22, when 360 were reported killed.

Action in the ground war had been relatively light for about two months until early this week, when Communist forces began showing signs of readiness for renewed action in the northern zone defended by the Marines.

Agreed to construct a holding pen for animals picked up in the city in conjunction with the animal control ordinance.

Broward Pupils Play Hooky . . . But Legally

FOUR LAUDERDALE (AP) — Pupils played legal hooky on the beach and playgrounds of locked schools in Broward County today as a computer in Washington came up with jobs for 300 of the 2,732 teachers who were released.

At one school in Pompano Beach, 10 children walked picket duty with signs pleading for teachers to return.

Meanwhile, W. Samuel Tucker, chairman of the Broward County School Board which ordered the county's schools closed to the 90,000 pupils until Sept. 25, said he had asked for out-of-state jobs and more were being processed. Pierce said he was confident jobs could be found for all the teachers who quit.

The teachers jammed a Forms on teachers could specify their qualifications and where they want to relocate. The forms were sent to the NEA's computerized teacher placement service in Washington.

An NEA report put the nationwide shortage of qualified teachers at 171,300.

Meanwhile, beaches in Fort Lauderdale, Hollywood and Pompano Beach were packed with Broward teachers. Others were laid off on the grounds of the locked schools.

Late Wednesday night Tucker sent a telegram to State School Supt. Floyd Christian asking for his personal assistance to help solve our school problem in Broward County.

Broward County Supt. Myron Johnson, David Pierce, president of the county's Classroom Teachers Association, and members of the school board held a series of emergency Wednesday night. Charles Perry, Gov. Claude Kirk's special assistant for education, said in some of the meetings.

The teachers submitted their resignations Tuesday and the school board immediately closed Broward's public schools until Sept. 25 when members said they would consider the resignations.

The action came shortly before Kirk sent on statewide telegrams to announce his program for education.

Schools Closing On Upswing

By THE ASSOCIATED PRESS
 Classes have been postponed in 11 states as the nation's school systems have closed because of teacher salary disputes. The number could increase to more than two million next week.

Detroit School Supt. Norman Drachler put off indefinitely today's scheduled school opening for 200,000 youngsters. In New York a deadlock continued to ward a Monday deadline.

Michigan has the hardest hit of the states, with almost a half-million youngsters in some 17 districts on extended vacations "until further notice."

Teachers picketed outside Michigan cities.

In New York the Board of Education accepted a proposal by Mayor John V. Lindsay's mediation panel for a two-year, \$12 million contract for the teachers' union and the state.

In a telegram to the United Federation of Teachers, the board called for a membership vote on the proposal. The union agreed to vote but the board said it would reject it as the negotiating table had collapsed.

The package would boost most teachers' salaries by 11 percent.

Portland, Ore. (AP)—A circuit court judge ruled that a mandatory ordinance banning topless dancing was unconstitutional because it violated so-called "freedom of expression."

Portland, Ore. (AP)—A circuit court judge ruled that a mandatory ordinance banning topless dancing was unconstitutional because it violated so-called "freedom of expression."

N. Orlando Ponders New Trailer Park

Request of a "local company" for permissive zoning by the North Orlando Village Council to allow location of a "high class" mobile home park on 20 acres just off SR 419 was announced Wednesday night at first public hearing on the village's new comprehensive zoning ordinance.

Clifford Jordan, chairman of the zoning board, did not reveal the name of the company. However, he explained that if requirements are met and the council approves, the trailer court will use the present sewer and water system and will have up to 300 mobile homes with a divided entrance.

The court will be primarily for retirees and trailers permitted will be a minimum of 45 feet in length and 10 feet in width, with age and appearance considered. Street setback of 10 feet and a minimum of 35 feet will be required.

Jordan said it is estimated that construction should begin within approximately 90 days after council approval is received.

In public hearing on the new ordinance, it was explained that the ordinance will not be retroactive but is to protect the village in the future. Basic points of interest pointed out by Jordan were types of districts, types of structures and minimum ground area permitted, sections pertaining to house trailers, the regulations on kennels and how to apply the law.

It is believed it is in the best interest of the village to follow and apply the law promulgated by the U.S. Supreme Court in the "judicial case."

He added that he would not have ruled that way had the defendant been a topless waitress or a showgirl. Now if the premises regularly had substantial juvenile patronage or if the premises were a truck stop upon awaiting public.

Deluge Swamps Pensacola

By THE ASSOCIATED PRESS
 Torrential rains swamped the central Gulf Coast today, overtopping storm sewers, flooding streets and pushing waters up to doorstep levels in some communities.

Pensacola was deluged with more than 11 inches of rain in 24 hours before it stopped falling at 1 a.m. Gulfport measured 7.71 inches and Mobile was belted with a 6.12-inch downpour.

A water spout spawned by the storm center hanging over the mouth of Mobile Bay in the First River area, but damage was light and there were no reports of injuries.

Pensacola Police Capt. Also Haspel reported streets were flooded in several sections of the Florida panhandle city and on one thoroughfare five blocks from downtown the water was up to the hoods of cars. He added, however, that there were no power losses and no fires.

Forecasters Raymond Kraft of the U.S. Weather Bureau at Miami said the downpour was extremely localized in some areas, noting that Milton, just north of Pensacola, reported only 1.5 inches.

A 30-foot bridge linking Snake Bayou La Batre, west of the mouth of Mobile Bay, was swept away after two shrimp boats broke loose from a dock and smashed into the bridge. The boats and a truck were left stranded by loss of the bridge.

Scattered and light to occasionally moderate showers continued in parts of waterlogged northeast Texas. But there was no indication any golfers of the seventh variety that ended in the Bonham area north of Dallas Wednesday.

Altamonte Sets Charter Vote For Oct. 10

(Continued From Page 1)
 proceeded with closing of 80 acre site for the sewerage plant with cost of \$2,000 for the property to be paid in cash, with \$10,000 from city funds and the balance financed through a bank loan.

Authorized the attorney to prepare a contract with the Altamonte Fire Control District for the Altamonte fire department to provide fire protection to the district at fee of \$10,000 per year, during the next fiscal year.

Agreed to construct a holding pen for animals picked up in the city in conjunction with the animal control ordinance.

Early Bird Aids Air Passengers

WASHINGTON (AP)—Thanks to Early Bird, the communications satellite, airline passengers of the near future may have shorter waits at international airports for immigration and custom inspection.

In an experiment Wednesday, a Trans World Airlines 707 jet with 120 passengers flew from Frankfurt, Germany, to Dulles International Airport near Washington. While the flight was under way, officials at the Frankfurt airport transmitted via Early Bird the passengers' passport photographs and facsimile reproductions of their health records, customs declarations and other information needed by U.S. immigration and customs officials at Dulles. So when the plane arrived, the passengers went through the inspection procedure in short order.

Israel Charges Duel On Suez

By THE ASSOCIATED PRESS
 Israel reported a two-hour machine-gun and artillery duel across the Suez Canal Wednesday night, the fourth breach this week of the Arab-Israeli ceasefire.

An Israeli spokesman accused the Egyptians of firing first toward Israeli-held positions in the Ikmalia area, midway across the canal. He said the Israelis suffered no casualties.

There was no immediate counter claim from Cairo. Egyptian and Israeli forces fought for seven hours across the canal Monday.

The Israelis who were married Feb. 10 plan to fly to Hamburg, Germany, and then to Bremen to visit Mrs. Kirk's parents.

The parents and relatives don't speak English and Kirk doesn't speak German. Mrs. Kirk said that "I told him I would really like, not so much for me, but for the governor, to really relax, to go to the country . . . not the big cities. I prefer to stay out in the country, to get a car and ride around," Mrs. Kirk said.

The German-born Erika, a radiant blonde, married Kirk shortly after his inauguration as governor and they had little time for a honeymoon. Kirk has never met Mrs. Kirk's family.

While they're away, the care of seven-year-old daughter Adrianna will be entrusted to Mrs. Kirk's secretary from Palm Beach, Jackie Steen, Lake Mary, Fla., where Mrs. Kirk had lived for the past eight years and where she met Kirk.

Adrianna was born in Brazil and is the daughter by Mrs. Kirk's previous marriage to a Brazilian music actor. Adrianna was registered Wednesday at Tallahassee High, with the Kirks going along to watch. The school has grades one through 12.

Losers Claim Election Fraud

SAIGON (AP)—Six civilian presidential candidates in South Vietnam asked the Constituent Assembly today to void the election of Nguyen Van Thieu, claiming they have evidence it was rigged.

"Each of us is making separate complaints. I have six," said Truong Dinh Dieu, the Saigon lawyer who ran second to Thieu and his running mate, Premier Nguyen Cao Ky, in the election last Sunday.

Claude, Erika Start German Honeymoon

TALLAHASSEE (AP)—Gov. Claude Kirk and his wife are scheduled to leave this afternoon for New York City, where they will board a jet at 6 p.m. en route for a delayed honeymoon in Germany.

Adrianna said the time of departure from Tallahassee was not certain. Kirk and his first lady will travel north by the governor's private Lear jet.

Mrs. Kirk is hoping the governor will be exposed to some quiet days in the European countryside during the belated two-week honeymoon.

In an interview Wednesday, Mrs. Kirk said that "I'm really excited. I think the governor is more excited than I am, especially because he told me it is his first long vacation in his whole life."

Funeral Notice

JACKSON, MISS. BARRIE LIND—Funeral services for Mrs. Barrie Lind Jackson, 51, of Longwood, who died Monday, will be at 10:30 a.m. Friday at Wilson Memorial Home, Sanford, with Rev. Jack Lindsey of First Baptist Church of Longwood officiating. Burial will be in Evergreen Cemetery, Sanford. Burial Funeral Home in charge.

Cowley Hits 'Promises' By Governor

(Continued From Page 1)
 by 1975. All students now in school starting at the fifth grade level and up will have completed their 12 years of education by 1975.

"Mr. Kirk stated that by the end of the first year of study progress will be made in education of first graders. And he just vetoed the bill which provided for progress in pupil-teacher ratio in the first grade for this biennium. His address was defensive. He looked like a little boy talking back out of a jam by promising again to do better.

"If offered to work cooperatively with the teachers — he made the same offer to the state cabinet upon inauguration. He showed a lack of knowledge of the education program in Florida. Florida does rank 9th in pupil population, but according to N.E.A. statistics Florida ranks 24th in pupil expenditure. Florida pays \$470 per child for education. The national average is \$664 per child."

Pioneer Florida Educator Resigns

TALLAHASSEE (AP)—A man who sat at the helm of higher education in Florida for 14 years and accomplished his dream of molding a state university system announced his resignation Wednesday.

State University Chancellor J. Broward Culpepper said the education turmoil in Florida had nothing to do with the resignation, effective Jan. 1, 1968, of his 12,000-year post.

Florida education has faced crises before and pulled through, and will do so again, the 59-year-old native Floridian said.

Culpepper, the key pioneer in building Florida's university system, saw the state's universities grow from three to seven during his tenure and watched university enrollment mushroom from 10,000 to 60,000. Two more universities have been authorized.

Culpepper's statement made it clear that he's stepping down because he feels the central goal he set—molding a single university system—has been accomplished and he feels it's time for a successor to take over.

"With the passage of important legislation in the 1967 session of the Legislature a state university system has become a full reality, thus bringing to fruition the objectives we set many years ago," Culpepper said.

"I am proud of the progress which Florida has made in higher education."

He said he chose this time to quit because the Legislature also enacted a statewide study of higher education to develop a 10-year master plan for education.

"It is my judgment that the chief executive officer of the Board of Regents should not only participate fully in this study," Culpepper said, "but also should have the opportunity to follow through with the implementation of the recommendations which will emerge."

He said he wished to remain in education and said he'll be in contact with sources in Washington.

All Depends Who Is Nude, Judge Rules

PORTLAND, Ore. (AP)—A circuit court judge ruled that a mandatory ordinance banning topless dancing was unconstitutional because it violated so-called "freedom of expression."

Portland, Ore. (AP)—A circuit court judge ruled that a mandatory ordinance banning topless dancing was unconstitutional because it violated so-called "freedom of expression."

how sweet it is . . .

GROW A MONEY MELON TO SLICE LATER!

There's nothing like a program of regular savings, plus the compounding dividends, to grow a big reserve of cool cash to have when you need it. It's so nice to know there . . . and GROWING!

US UNITED STATE BANK
 17 Sanford Plaza
 SANFORD PLAZA PH. 328-1776

Spolski On Sports

I remember a childhood saying which went something like this — "You grow too smart too late . . . and too old too soon," or some such witty Pennsylvania Dutch saying.

But I sure did get the message on Labor Day while watching all the girls . . . ops, all the boys go by!

Everytime I went put-putting by that marina before, I honestly thought that we were making a big deal out of a little thing. But after walking over those "hills and dales" (Those City Fathers just gotta be kidding about not paving it, huh?), I now appreciate how really gigantic the marina will be and the tremendous effect it's going to have on all of Seminole County.

Must be my day for "True Confessions" or something 'cause I just couldn't imagine more than a few hundred coming out to watch some boats splashing in the water.

WAS I EVER OFF. (Oh, well, that and the Nebraska-Alabama . . . had considerable those are the only two mistakes I've ever . . . ah, why should I continue!)

'Til like to make another point with you, too, if I may. Don't overlook the fact that it was a success because you had all of those drivers, with their valuable pieces of machinery coming from all parts of the state and country.

They don't do it for the loot, you know. All they're looking for is the points and the prestige.

Well, what I'm leading up to is that someone had to get those people interested in the first place, and then get them to actually make the trip and know it, you've got it.

Two of these folks don't ever live here in Sanford, but are residents of Orlando, and did an excellent job. Congratulations to Mr. and Mrs. Art McLaughlin and thanks for the many nice words you relayed about our favorite journal making it a success with all of the publicity we printed.

It was our pleasure, folks!

Another eye opener was the hard-working Charlie Robinson. A shudder realized that regardless of all the volunteers you might be lucky to get, you still need a spark-plug to ignite the idea and make it come off.

Keep that kind of work up, Charlie, and I might just be able to get you our local Citizen's Salute, or something. (Look don't laugh about it. They were featuring a guy by the name of Verballi on it not too many weeks ago, you know.)

I understand that the Federal Communications Commission was swamped with letters on that deal, too.

My only regret is that I didn't get the names of those kids from Miami Beach who took me under their wings and grasped the "hydro-gospel" to S.O.S. Made an expert out of me in just 15 little minutes.

Just press the little-mag-jig and then the waltzmann will turn the little record and before you know it, you've got yourself a 280. (And if you're not real careful, you could come down with the flu, too! Oh brother!)

Seriously, I think that this revista has so much potential that it just ought to be picked up by someone like White World of Sports and be telecast all around the globe.

And then people would really hear about Sanford.

And then there'd be their 'ak you where you lived you could say Sanford . . .

And then there'd say, "Sanford? Where's That?"

Ah, what's the use? No sense in worrying 'cause nuttin' is gonna turn out right, anyhow.

Tigers Claw To Top Spot

Fighting right down to the wire the EVAB-1 Tigers emerged victorious in the Navy (Inter-Mural) Bowling League. Getting those first trophies. The Dragons took second place, EVAB-3 was third, and GCA finished in the fourth spot on the final night of league play, followed close by the Admin. Team.

Chuck Redman of GCA, not only boosted his team into fourth spot, but took over a league record for himself, shooting a 210-646 scratch set. Jim Farris had previously held high series with a 641. High averages in the league went to Ed Gallagher with a 282, but the highlight of the season was Bill Harrington's most perfect game of 288. In all, there were twenty-two

It's A Tough Deal . . .

Lock, I don't have the answer for the problem but I surely do have the sympathy and condolences to both sides of the fence.

Did you ever think about those kids who go to try out for an athletic team, AND GET CUT. I'm not thinking just of football, although it naturally came to mind, what with a hundred or so kids trying out for a roster which may carry only around 30 to 35.

It's a tough deal for the coaches and the kids.

Many is the time that a deserving youngster didn't get the proper "once over" and was dropped before he had a real chance. Take Johnny Ulas as a prime example.

But then, what's a coach supposed to do when he has so many to look at, and yet knows that his opening game is right around that proverbial corner.

Like I said at the beginning, I really don't have an answer, but perhaps this saying of Michigan State's Duddy Daugherty, might soothe a rattled feather along the way:

If you can't be a highway, then just be a trail;
 If you can't be a star, be a star;
 For it isn't by size that you win or you fail,
 So be the best in whatever you are.

CHUCK REDMAN

members who rolled one or more scratch games over the 225 mark.

Trophies will be awarded the team winners and many individual members at a party to be announced at a later date. Team captains will be notified of the event.

 Stolen Bases—Brock, S. L., 42; Willis, Phil., 27.
 Pitching (12 decisions)—Hughes, S. L., 14-5; 2.77; McCormick, S. F., 10-7; 3.71.
 Strikeouts—Bunning, Phil., 210; Jenkins, Chic., 200.

and Boston all squeezed into top spot Wednesday night in a virtual four-way tie which left baseball buffs scratching their heads to recall a similar jam so late in the season.

It took a crowbar to get a percentage point between the four as the Twins and White Sox each sported 78.61 records for a 50.1 percentage and the Tigers and Red Sox panted that point behind at 56 with 79.72 marks.

"We're surprisedly doing this," Stanky with a smile. "We want to keep football off pace."

On purpose or not the Tigers crushed in by whipping Kansas City in a two-night doubleheader.

"I hope Joe Adcock (Indian manager) plays Chicago the same way he played us," Ermer said. "He saved his best pitchers for us, knocked our hitters down and played for keeps. Cleveland has seven games left with the White Sox and four left with Boston, so the Indians could help us a great deal."

His losing pitcher, Dave Roswall, did some brooding after Luis Tiant outdusted him with a seven-inning and singled in the two decisive runs in the fourth inning.

"I was told not to throw fast balls to Tiant because he was supposed to be a good fast ball hitter," Roswall said. "So he hit a high slider."

The Twins managed two runs off Tiant, 4-8, in the sixth on Red Carter's two-run home run before Tiant shut the door.

Card's Gibson Hurls Again

By THE ASSOCIATED PRESS
 When a line drive fractured Rob Gibson's right leg two months ago, the St. Louis Cardinals' pennant hopes appeared dim. Then Nelson Bries threw his right arm into the breach, and never let go.

Now Gibson's ready to put his best foot forward again, but there's no relief in sight for Bries.

An unheralded member of the bullpen brigade until July 15, when Gibson was felled by a Roberto Clemente line, Bries was limited to the Mets to his sixth straight victory Wednesday night, scattering five hits as the National League-leading Cardinals trimmed the right arm into the breach, and never let go.

White Bries was limited to the Mets to his sixth straight victory Wednesday night, scattering five hits as the National League-leading Cardinals trimmed the right arm into the breach, and never let go.

SEC Grid Units Looking Good

By THE ASSOCIATED PRESS
 Kentucky's freshmen found out Wednesday why Coach Charley Bradshaw shifted Dick Lyons, a former tailback and the Southeastern Conference's top punt returner as a sophomore last season, to quarterback.

Lyons led the varsity charge in a 49-6 football scrimmage flagging of the Baby Wilkents, scoring on footbals of 18 and 15 yards and throwing to Chuck Blackburn for another touch-down.

The former defensive back was shifted to signal caller last week after Kentucky's No. 2 quarterback, Stan Forston, suffered an injury which will put him out for the season.

Elsewhere in the South, several coaches ran their teams through scrimmages, complaining about the weather, worried about injury reports and some expressed pleasure as players began rounding into shape.

Rain cut into practice sessions in Alabama, Mississippi and Louisiana.

At Tuscaloosa, Ala., however, Alabama Coach Paul "Bear" Bryant praised efforts of passers and receivers and said practice was much improved over Tuesday's workouts.

"What we need now," Bryant said, "is some hot weather. We've had enough of this cool stuff."

Update at Auburn, Coach Ralph "Shug" Jordan said his Tigers looked good in a game-type scrimmage. But he said he is still troubled by cool weather and may call for longer workouts to compensate for the lack of heat.

Coach John Vaughn of Ole Miss staged a controlled scrimmage and said his Rebels are progressing on schedule. Vaughn also said the team needed several days of hot weather to round into shape. Tight end and Hank Shores, a 6-foot-3, 200-pound junior, passed practice for the first time and has recovered from a foot injury.

At Hattiesburg, Miss., Coach Pie Vann adjusted the Southern Mississippi training schedule because of bad weather, and the team ran for only 30 minutes.

Steady

PHILADELPHIA (AP) — Bob Greer, one of the steady performers in the National Basketball Association, signed a one-year contract Wednesday with the champion Philadelphia 76ers.

Killed

CRAWFORDSVILLE, Ind. (AP) — Johnny Poston, who put together the first race car to hit 150 miles per hour at the Indianapolis Motor Speedway, and Blamont A. Rott, chairman of the U.S. Auto Club's rules committee, were killed Wednesday in the crash of Poppen's two-engine plane.

Signs Pact

NEW YORK (AP) — Left winger Donnie Marshall has signed his 1967-68 contract, the New York Rangers of the National Hockey League announced today.

Army Bound

BOSTON (AP) — The pro basketball career of All-American Jimmy Walker of Providence College may be interrupted all most before it gets started.

Walker, who received a reported \$30,000 to sign a four-year contract with the Detroit Pistons of the National Basketball Association, was due to return home today for an Army physical examination in Boston.

Dear Abby

By Abigail Van Buren

DEAR ABBY: A few days ago my boy friend left the Vietnam and I miss him like crazy already. But that's not the problem I'm writing about.

It may sound silly, but I would like to know what I can do to help him. I have read a lot of books and haven't been able to come up with a thing, except maybe something good to eat, like cookies. But what are the chances for "goodies" arriving in good condition?

DEAR ABBY: You can't tell me if your friends (and wives and mothers, too) what those wonderful guys in Vietnam really want for Christmas?

DEAR ABBY: For years my widowed mother made her home with us and I complained. We were happy to share our home with her, and did all we could to make her comfortable and happy.

DEAR ABBY: I don't know if you are willing to use your column for safety messages.

DEAR ABBY: I don't know if you are willing to use your column for safety messages.

Jacoby On Bridge

Jacoby and Son

Fried ideas are right to have if your idea is novel. Otherwise it pays to keep a sharp mind and change your tactics.

DEAR ABBY: I don't know if you are willing to use your column for safety messages.

DEAR ABBY: I don't know if you are willing to use your column for safety messages.

Beauty after Forty

By Edyth Thornton McLeod

THIS IS A NEW STYLE OF LIVING. I'm 40. I have always worked and had very little time for myself. I had an invalid husband whom I loved very much.

DEAR POLLY—My husband and I have found a way to save money that really works.

DEAR POLLY—My husband and I have found a way to save money that really works.

Horoscope

Forecast

FRIDAY, SEPTEMBER 7, 1967

GENERAL TENDENCIES: The early part of the day is fine whatever has to do with getting things accomplished by your own resources and cleverness.

ARIES (Mar. 21 to Apr. 19): Morning is best time to handle bills and other obligations.

Taurus (Apr. 20 to May 20): Associate with more than happy to go along with your ideas in A.M., but later they become almost unyielding.

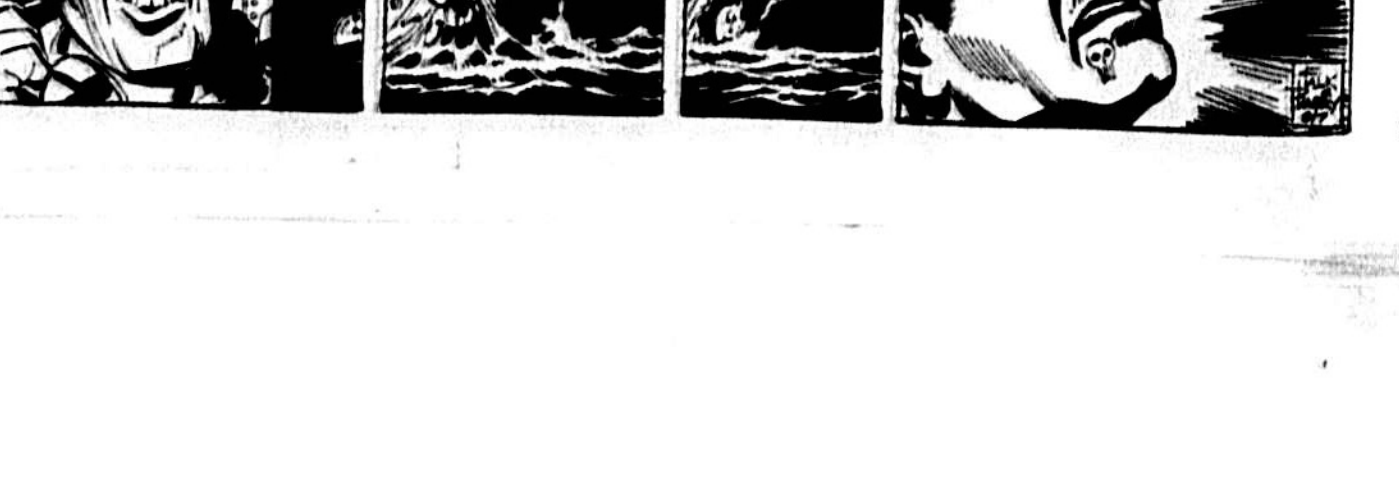

GEMINI (May 21 to June 21): You get much done during morning.

MOON CHILDREN (June 21 to July 21): You can be successful in creative matters.

LIBRA (Sept. 23 to Oct. 23): Any form of business, banking, or you will get wrong facts.

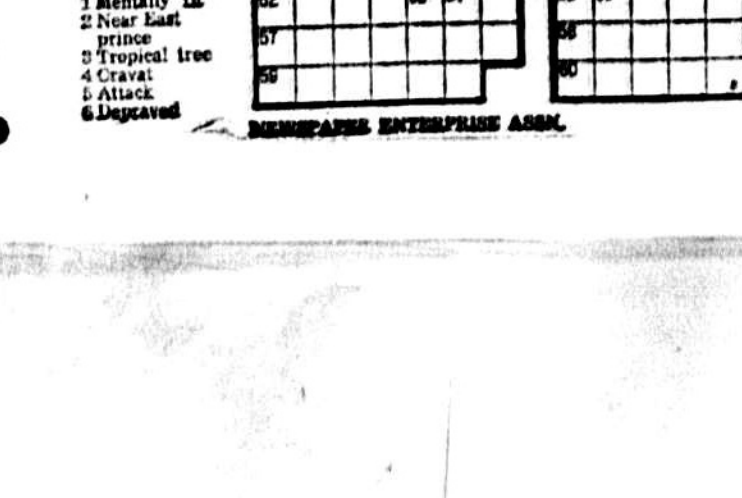

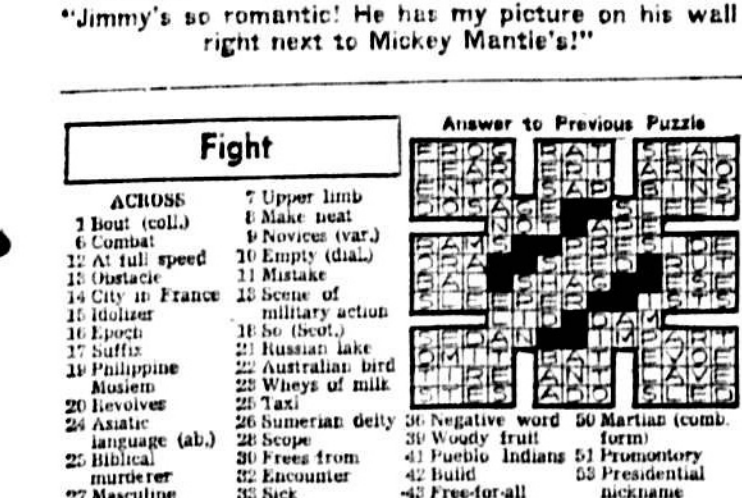

SAGITTARIUS (Nov. 22 to Dec. 21): Search for information you need in A.M.

SCORPIO (Oct. 23 to Nov. 21): Get yourself out of a rut in A.M. and prepare to take on your duties.

MEET'S FOUR LOVERS MANUAL

We The Women

By Muriel Lawrence

(Excerpted from "Reasons and Emotions" Second Edition, by Faber & Faber, Inc., 1962. Reprinted with permission of Barnes & Noble, Inc.)

What is the moral problem of sex? It is the problem of subordinating the sexes to their relation as persons.

It is the problem of taking the sexual aspect of life into the personal aspect. And making it one of the differences of sex between persons through which their personal life in relation to one another is enriched.

It is that we find so difficult. We seem unable to regard sex as part and parcel of the normal personal life. We are so afraid of sex that we try to keep it apart.

It is the problem of taking the sexual aspect of life into the personal aspect. And making it one of the differences of sex between persons through which their personal life in relation to one another is enriched.

AROUND THE CLOCK

By LARRY VERSHEL.

At 1:30 p. m. yesterday I would have given anything to have been in Pete Knowles' office. At 11:40 p. m. I would have given anything in getting out of there.

Follow me down. GSA officials met with City Commission in the early afternoon. I was asked to leave. Even though it was raining and I had a cold achoo!

For some four hours last night the City father tried to hack away at the budget in Pete's office—everyone went home at 11:45 exhausted, drained, empty, deflated, weakened, depleted, overworked, prostrate, fatigued, spent and impoverished and still needed \$35,000 to keep the millage at 16.

On July 6 Capt. Arnold Williams submitted his resignation to the police department. At 2 p. m. yesterday I asked the chief of police to resign. The resignation was not accepted. He didn't know what I was talking about. At 8 p. m. Pete Knowles handed him Mr. Williams' resignation.

The other day Sup. of Schools Bill Phillips said Pine Crest Elementary must avoid elementary reasons by having classes in the auditorium right now.

City must be planning to make a list of arrests next fiscal year. The fine and forfeiture funds has skyrocketed from \$41,000 to anticipated \$56,000.

SOME LEFT OVER CITY COMMISSION NOTES . . . Apparently Joe Baker is not seeking re-election. He proposed a 50 cent monthly hike in garbage collections . . . City Father's finally acknowledge demo Paulino's offer to help pay the lakefront . . . after close to two weeks . . . Agreed to write a letter thanking Joe for the offer but that the taxpayers would pick up the tab if the job is realized . . . Of course the paving will not be done this year.

AND SOME MORE . . . Vince Roberts proposed eliminating city commission salaries this year. Since the church page in page 2 I won't mention the resignation proposal met with the whole reappraisal . . . City attorney asked \$4,000 more in contingency for handling courthouse suit and mandamus action in Hickory case . . . City cut it down to \$2,000.

AND SOME MORE . . . City will be forced to throw out the whole reappraisal . . . state law requires municipal bodies to reduce the millage if they take valuations . . . Sonny Raborn suggested increasing valuations another 10 percent (ouch).

Sanford will have a new industry soon employing between 400 and 500 people . . . will take over about 25 acres near Sanford Ave. . . Can't say anything else yet.

About three months ago the president of Seminole Community Action and the vice president cornered the executive director and told him they want his resignation. They gave him 60 days to get another job. Wednesday night the president resigned and the executive director is still on the job.

At the start of the Community Action meeting the other night there was a quorum present . . . When the president resigned one member left . . . So no quorum . . . so legally, contained on page 318 following explanation on the reasons for the Korean War.

"Important Dates and Facts in Florida History" which are neatly listed end with "1950-1953—The Korean War" and the list of governors of the state end with "LeRoy Collins 1955."

The book was originally brought into the school by Principal Charity Harp, in the Seminole school system in 1960. Despite the book being so out of date new copies of it still not updated, were purchased for use this year.

Harp loaned the \$1,100 loan in funds to his school this year through the 20 cent cut in recently. Attending the study yesterday were Chief George Harriett, L. J. T. Bennett and E. B. Wright and Fireman I. E. Waldon.

2 New Industries Boost Potential Here

Location of two new industries in Sanford, bringing "great potential" to the area, was announced today by Seminole County Chamber of Commerce President DeWitt Matthews.

Acme Conveyor Co., Inc., located in the former Nohl bottling plant at Sixth and Pecan Avenue, is shooting for an Oct. 1 opening.

Expected to be in operation by Sept. 18 is a branch plant of Hardy's Furniture Restorers, which is going into the former Seminole County Laundry building at 819 W. Third Street.

Acme Conveyor, an engineering-manufacturing operation, is headquartered in Orlando, with Joe G. Wilkie Jr. as president. Details as to size of the local operation and number of personnel employed will be announced by Wilkie as soon as complete plans are finalized, Matthews said.

The Hardy plant, branch of the Winter Park company owned and operated by Ernest Hardy, will be located in Sanford for the prime purpose of handling Government contracts for Federal installations, Armed Forces bases, post offices, etc., but also expects to fill private enterprise. There will be a complete showroom of drapery fabrics in addition to services of upholstery, anti-pirating and rug and carpet reworking.

Local people will be employed as much as possible under a training program which will train personnel to reach a possible 30 persons, Hardy said.

It is expected the business will gross at least \$25,000 annually in its Sanford plant.

Hardy's restoration line for generations in London, England, where he worked from the time he was 12 years old until coming to the United States some 12 years ago. The Winter Park plant has been in operation for six years.

Major City Here Predicted

Consolidation of governmental agencies in Seminole County is an eventuality, in the opinion of Harlan L. Hanson, planning director of the Orange-Seminole Joint Planning Commission.

Hanson told members of the Sanford city zoning and planning commission last night that he does not "see consolidation in the very near future" but that "taxpayers will bring about the formation of one . . . or maybe two . . . major municipality in order to ease the burdens on their pocketbooks" by the elimination of duplicating governmental services.

Studies of future needs . . . to 1985 . . . in Seminole and Orange Counties are being conducted by his office, Hanson told the Sanford group. Studies are being made for transportation needs, land use, community facilities, financial resources and disaster shelter plans.

The planner pictured an express bus system connecting Sanford, Orlando, Disneyworld and Cape Kennedy, a bus system for Sanford, and expansion of the Wekiva River area and Big Tree Park area into recreation grounds. Recreation in Seminole County, he said, is below standards, and advanced the reason that it is because of natural assets.

Touching on water pollution, Hanson said that it is possible within "10 years lakefront property will be a liability instead of an asset because of pollution."

Picturing 100,000 persons in the Sanford area by 1985, Hanson envisioned these four-line highways . . .

West Highway 46 into Sanford; Seminole Boulevard from the I-4 intersection along Lake Monroe to the Sanford east city limits and south to East Highway 46; a new freeway from the I-4 and 17-92 intersection south to Lake Mary; a new freeway from Lake Mary east along Onora Road beyond Sanford Naval Air Station and then north to Osteen Bridge; an enlarged Sanford Avenue south across Lake Jessup to Tuskuville Road and on to Aloma Avenue, and then east to the new Florida Technological University, bypassing Oviedo; Highway 434 east from U. S. 17-92 to Tuskuville Road, and Red Bug Lake Road.

Zoning and Planning Commission zoned the new lakefront motel-marina project as "commercial."

Textbook Woes

The Missile Age? Not In The Book

By DONNA ESTES

If sharp ninth and 10-year old students in the fourth grade at South Seminole Elementary were not so aware of the missile age and Cape Kennedy, they certainly would not be enlightened on the subject via textbooks on the history of the state used in their classes.

Survey of the textbook situation at the Castellberry school by The Herald showed only one textbook ready out of date, in use in the school, but that one was a dilly.

"The Story of Florida" published by The Steck Company of Austin, Tex., copyrighted in 1957, and used as a state history textbook makes no mention in the 362 page text of Cape Kennedy or missiles.

It even goes so far as to have a picture of Miami International Airport, one of the largest airports in the world, with prop planes on the field.

Continually throughout the book, population figures of the 1950 census are cited and the remarkable statement, "It's good there's no war now," is repeated.

Two small children in critical condition at the hospital because parents were not careful about spraying in their homes with an agricultural parathion . . . these words from Dr. Vann Parker, president of the local medical society. Fumes are extremely dangerous, the doctor warns.

Sanford firemen are always "boring up" on new procedures in firefighting and prevention. State yesterday burned up an old prison barracks at Live Oak.

Harp loaned the \$1,100 loan in funds to his school this year through the 20 cent cut in recently. Attending the study yesterday were Chief George Harriett, L. J. T. Bennett and E. B. Wright and Fireman I. E. Waldon.

Longwood Mayor Hits Budget As 'Give-Away'

The Longwood City Council adopted its budget for fiscal 1967-68 last night on three consecutive readings following a lively two-hour verbal battle described by Mayor A. R. Lormann as a "good discussion, not an argument."

The budget depleted by Lormann as "the big give-away, everyone gets a raise," calls for rate of taxation to be increased by .45 mill to 3.45 mills. Budget of expenditures increases is \$15,310.83 while budget of revenues totaled \$15,701.79. No explanation was given for the budget being out of balance.

Lormann, joined by Councilman Paul Maloney, stressed objections to the budget including the facts no moneys were allocated for advertising. "It's bringing good will to the city," Lormann said. "The subject of the budget is not the police department; water cost from city shop; plans for the Parks Department, \$550 for repairs of only \$500 were listed and no moneys allocated for the Humane Society despite the fact that the city has a contractual arrangement with the Society for expenditure of \$25 per month."

Also hit by Lormann was the accountant fee of \$1,000 provided in the budget. He pointed out that the city is currently paying \$1,200 annually for accountant and outdoor services.

"This budget is just not realistic," he said. "We have to have a budget we can live with."

Lormann further warned the board, budget during the present year had not been adhered to. Cited were unbudgeted expenditures including the sidewalk on Orange and Highland Avenues, purchase of a tractor and cash register.

When asked when he will sign the budget, Lormann said he will have to review it carefully before giving consideration to approving it.

AL LORMANN

Water Rate Hike Considered

Across the board increase of 25 per cent in water rates is being considered by the City of Longwood. The City of Longwood is being considered by the City Council according to budget ordinance adopted by the Council Thursday evening.

Anticipated revenues from the water department, as shown in the budget, are water bills in the amount of \$14,100.

Anticipated revenues during the current year in the water department were \$12,600.

Despite the fact Council has been stressing that the water department will operate within its revenues, excess funds from the department will apparently be used for general operation of the city. Anticipated expenditure for the water department is \$30,130.23, nearly \$4,000 less than revenues with remaining revenues apparently to go into the general fund.

Lake Mary Chamber Sets Members Drive

Lake Mary Chamber of Commerce took initial step in its annual membership drive Thursday night with appointment of Morris Hubby as membership chairman.

Hubby, working with committee, will be in charge of drawing up plans for the membership campaign in this year's all-out drive. In the meantime, any person or organization wishing to join may get membership cards from any C of C officer.

In good condition at Seminole Memorial Hospital is D. C. Johnson of 817 DeLugh St. He was shot in the right arm by his wife Joyce L. Johnson. His wife Joyce L. Johnson is being sought for questioning.

Academy Bound

Five members of the Sanford Police Department will attend a 20 week course at the Orlando Police Academy starting next week, Police Chief Ben Butler reported.

The five attending will be Edward Hughes, Ronald Gammann, Walter Jones, Jack McComber and David Sullivan.

Demo Meet

Seminole County Democratic Executive Committee will meet at 8 p. m. next Thursday at the courthouse. Meeting is open to the public and Dr. W. Vincent Roberts, chairman, will preside.

Goldsboro Youth Center Is Called 'Useless'

Dr. W. V. Roberts charged the City Commission last night with "a lack of guts" and wasting taxpayers money by promising to build a Neighborhood Recreation center.

Roberts made his angry remarks during the fourth public hearing in which the City Commission had to approve a \$161,000 to balance the budget and hold the millage to 16.

After close to four hours they were still shy some \$35,000 in which they battled back and forth on the merits of closing both swimming pools and eliminating the Goldsboro center this budget year.

These three items would add up to \$35,000. No action was taken, however. Commissioners will continue their budget hearing Monday night after they meet as a board of equalization.

Bob Roberts and Karl Higginbotham warned the rest of the board they were "going the ball to the home" and were raising the millage and other items to take care of needed services.

"If you don't do anything now you'll be hit right between the eyes next year for increased services," Higginbotham said. "As predicted at least a three mill hike during the 1968-69 year."

"We can't run a decent progressive city without money," Roberts said. "If no other agency wants the base, the city would then have a chance to purchase the property as surplus and use it for a youth center."

GSA officials, who are charged with control of all federal properties, also informed city commissioners that "pending Miami tax applied for an alternate site at the base."

Some two months ago Perching wanted the prime bungalow area to store parts of its complex, which was turned down by the city. They then decided on an alternate site in the southwest area of the base. Knowles said he would try to contact the Department of Defense selling them their own part of the base "used as a warehouse for Perching." "That's prime land out there," Knowles said.

No Assurance City To Get Air Station

Sanford could lose the Sanford Naval Air Station to civilian agencies if the government, City Manager Z. Knowles reported yesterday during a closed door General Service Administration officials and City Commission.

Knowles said GSA representatives told the city that before the base is turned over to Sanford agencies such as the Department of Health, Education and Welfare and Department of the Interior will be selected to see if they would be interested in the 1,300-acre facility.

If no civilian agency wants the base, the city would then have a chance to purchase the property as surplus and use it for a youth center.

GSA officials, who are charged with control of all federal properties, also informed city commissioners that "pending Miami tax applied for an alternate site at the base."

Some two months ago Perching wanted the prime bungalow area to store parts of its complex, which was turned down by the city. They then decided on an alternate site in the southwest area of the base. Knowles said he would try to contact the Department of Defense selling them their own part of the base "used as a warehouse for Perching." "That's prime land out there," Knowles said.

Guest Speaker

William Lauer, president of the Seminole Education Association will be guest speaker at the meeting of the Seminole County Democratic Women's Club scheduled for 8:30 p. m. next Wednesday. The subject of Lauer's talk will be school problems in Seminole (Continued on Page 1A, Col. 7)
