Rita Hayworth Is Not Planning To Return To Prince

By BOB THOMAS
HOLLYWOOD (AP)—Rita Hayworth says she will take a month's motor tour of the Southwest and then drive to Reno for her divorce from Prince Aly Khan.

The flame-haired actress finishes work for her picture today. She has purchased a station wagon and will drive to Southwest sun resorts with her secretary, Margaret Potter. Then she will report to Reno to pick up her divorce from the playboy son of Aga Khan, Moslem leader.

In an exclusive interview, Miss Hayworth scooped recurrent rumors that she is planning a return to Europe to reconcile with Prince Aly. She told me she has not been in touch with him. She agreed that the Aly Khan chapter in her fabulous life is ended.

Miss Hayworth will retain full custody of Yamin, their daughter. She offered no comment on other terms of the separation. She will not be required to remain six weeks in Reno for the divorce, since she is legally a citizen of Nevada.

"I am a resident of Glenbrook, Nev.," she explained. "I established residence there when I returned to this country. The divorce could be a matter of hours, but I may stay around Reno for a few days. I like Nevada very much."

"When I saw her Tuesday night, the actress remarked that she was weary from the movie-making routine. She said she had not been started out with six weeks of divorce rehearsals."

"I don't know where I'll go on this trip. We'll stop wherever we feel like it, for I do want to get some sun. We'll probably spend some time in Tucson and Phoenix, Ariz."

De Bary Doings
By KAY HENNINGER

The DeBary Democratic Club has gotten off to a fine start. On Thursday evening State Representative James Sweeney, Jr. of DeLand was the guest speaker and made a very fine impression on those who heard him. Among other things he made the point that interest in the political problems of a community constitutes a duty to our government. He asked for equal enthusiasm after election as before, and invited everyone to consult him on any matter of the State.

"Your representatives cannot know what you think about public questions unless you take the trouble to let them know," said Mr. Sweeney. He was followed by L. L. "Line" Jacobs, candidate for County Commissioner, who made a brief address. On Saturday evening at about 6:00 o'clock, approximately 100 DeBaryites gathered in Christberger Manor to meet Dan McCarty, candidate for governor. Those present enjoyed Mr. McCarty's straightforward manner of speaking and were glad to hear him pledge his interest in the problems that concern us all.

In reporting the names of the officers of the DeBary Democratic Club we inadvertently omitted that of Henry Klepper, chairman of the By-Laws Committee.

Progress Is Seen In Secrecy Meet On POW Exchange

New Strategy Is Taken By UN In Effort To Move Reds

MUNSAN, Korea (AP)—Truce negotiators displayed "much more progress" today in seeking a compromise on exchanging prisoners—one of the three key issues blocking a Korean armistice—an Allied spokesman reported.

"Some slight progress" was made behind the screen of a news blackout, Brig. Gen. William P. Nuckols said, "but they have not gotten down to brass tacks."

Simultaneously he disclosed a change in the U. N. Command strategy on the key to the deadlock. The Allies have rephrased their demand for "voluntary repatriation" of prisoners to "no forced repatriation."

"There is no fundamental difference in the two concepts," Nuckols said, but the new term might be more palatable to the enemy. No forced repatriation means the U. N. Command does not endorse and will not employ force to compel a man to go over to the other side if he does not choose to go.

Simultaneously, Nuckols said, U. N. negotiators have been telling the Communists repeatedly "there is every indication that the great majority of their captured personnel now in our hands desire to return."

The Communists have been insisting they want all prisoners returned and have objected to Allied proposals for interviews to determine the prisoners' wishes.

The U. N. Command took the new tack on the problem more than 10 days ago, Nuckols said. But he disclosed it to newsmen for the first time today.

Apparently this new policy did not enter directly into Wednesday's off-the-record talks. Nuckols said off-the-record talks. Nuckols said a broad scale largely couched in general terms and dealt primarily with the Reds' latest proposals.

His disclosure came after a second group of staff officers cleared the decks for tackling the sole key issue remaining before it—whether Russia should help supervise the truce.

A U. N. Command communique said they cleaned up the last of their minor problems by reaching "complete agreement on the points of entry question."

The Allies then proposed the key issue be solved by dropping Russia and Norway, leaving four "neutral nations" to police the armistice. The Communists wouldn't consider it.

The deadlock is so firmly established that Russia was not even mentioned by name during the discussion.

The third deadlock in the way of an armistice is Communist insistence they be allowed to repair airfields. The airfield question is not now under discussion.

Claude Whitten To End Naval Course

Claude M. Whitten, fire chief at the U. S. Naval Station, Sanford, is scheduled to graduate with the Disaster Relief Class on Friday at the U. S. Naval School, Civil Engineering Corps Officers, Naval Construction Battalion Center, Port Huenehme, Calif.

The Disaster Relief Course is designed to acquaint officers and key civilians of the Naval establishment with the principles of Disaster Relief Planning, particularly as it applies to engineering requirements for disaster operations. Basic instruction is given to enable graduates to organize units for the protection of personnel, control of damage and restoration of essential services in the event of a catastrophe.

Fire Chief Whitten saw service during World War II with the U. S. Army in Italy. After the war he resumed his duties as a lieutenant in the Fire Department of the City of Sanford resigning in August, 1951 to be fire chief of the naval station in that city. His wife, Mrs. Mary E. Whitten and four children reside in Sanford.

Fish Commission To Meet On Monday

TALLAHASSEE (AP)—The Game and Fresh Water Fish Commission will hold a formal meeting here at 10 a. m. Monday, April 7, Director Ben L. McLaughlin announced today.

Any matters of interest to sportsmen and others may be considered, he said. All persons wishing to appear were requested by McLaughlin to apply in writing before April 5 so that their names and subjects may be placed on the agenda. Subjects not on the agenda will not be considered, he said.

Items already listed for discussion include:

Prohibition of airboats on the marshes of Lake Okechobee during the duck hunting season.

Appeal of a law specifying that duck hunters may not legally shoot from a boat in a blind if the motor is attached to the boat.

Declaration of snook as a species of fresh-water fish.

COUNTY UNIT VOTING
WASHINGTON (AP)—The federal government today asked the Supreme Court to consider the validity of Georgia's county unit voting system.

In a brief filed with the court, Solicitor General Philip B. Perlman said the Georgia State Supreme Court made a "patently erroneous ruling" as to federal constitutional issues in a decision upholding the voting system. He said the federal court should set aside the Georgia court's decision.

Kiwanis Meet

(Continued From Page One)
State League is building a new ball club.

He told of the co-operation given by the Seminole County Chamber of Commerce, and a committee which he headed in securing funds to get the team under way, and of the selection of 15 directors who are also stockholders on a non profit basis.

Expressing the opinion that the club can operate or break even on a \$50,000 income this year, he pointed out that in 1949 more than 75,000 persons attended the games. He praised City officials for their wonderful co-operation and complimented local sportswriters for their loyal coverage.

Joel Field appealed for Kiwanis attendance at the games, and told of plans for selling tickets, including that of the 1st 100 Club.

Rupert Strickland and Howard Monteith, who recently attended the Kiwanis Minirel in Kissimmee which will appear here on Apr. 5, reported that the show was better than ever and predicted that more than 1,000 tickets will be sold for the local show, benefits of which will go to the Kiwanis underprivileged children's fund.

Guests present were A. S. Sherman, Sidney, Ohio; A. W. Lawrence, Winter Park; A. S. Van Middelen, Gainesville, and D. N. Jones.

New Plan Is Tried On Rent Problems

The landlord-tenant conference plan, a new device for clearing up misunderstanding on rental problems without recourse to official procedure, has proven a great success in this area, W. R. Williams, Area Rent Director, said today. Many cases have been handled in this area since last Jan. 24.

Mr. Williams also said the plan brings landlord and tenant together face to face in the local office to settle the problem on the spot.

What's Your Notion of Magnificent Motion?

What admit that we're taking in a lot of territory when we use a word with the definition shown above. But no lesser term can do justice to all the things that make a Buick such a joy to drive and to own. Splendor and sumptuous adornment you'll certainly find in its rich interior—precisely you'll certainly find in the masterwork of its power. But there's only background for what is the million-dollar ride. Yes, magnificent is the word for this Buick in motion. There's a smooth, earth-heating, mile-a-minute ride as it glides along

It holds a straight course without weave or wander—seems to snug down to the road on curves. A massive X-braced frame gives it solidity. A torque-tube firms its keel. End-sway and side-roll are neutralized. The engine is Hi-Poised mounted on rubber pillows—and big, soft-acting coil springs on all four wheels soak up the jabs and jolts. float you over road-ripples, "washboard gravel" or weather-pocked macadam as if they weren't there. Even its Dynaflow Drive* contributes to the smoothness of its forward motion by cushioning the transmission of its power.

How about taking one of this year's Buicks—SPECIAL, SUPER or ROADMASTER—on a cruise of discovery all your own? Touch off its Fireball 8 Engine that's a gas-saving high-compression valve-in-head—head it out for the roads you know by past experience—and let it speak for itself. Even the price tag is eloquent proof that this is the car for you.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional on other Buick models.

Ike Reported Set To Resign At Any Time

Chicago Daily News Says General Plans To Return To U. S. Last Part Of May

MILWAUKEE (AP)—Gov. Earl Warren's call today for Eisenhower's resignation "can best serve their own interests" by voting for Warren in next Tuesday's Republican presidential primary. The California Governor, whose 20 delegates candidates already have served notice they will support Gen. Dwight D. Eisenhower if Warren drops out of the race, thus leaving Gov. Harold E. Stassen of Minnesota in leading for Eisenhower backing in a race where the general's name is not entered.

CHICAGO (AP)—The Chicago Daily News said today that Gen. Eisenhower will resign his present job at any moment pending news of a favorable settlement of the paper "from sources usually regarded as completely reliable." The newspaper, in a story without any date line, said it was told Eisenhower plans to submit his resignation as chief of the North Atlantic Command through Secretary of Defense Lovett.

"The general will explain," the newspaper said, "that his political position makes it desirable that he leave SHAPE (Supreme Headquarters, Allied Powers, Europe) before the Republican convention, which is expected to return to the United States in the latter part of May, the informed sources said."

The Daily News added that its informants stated that one of Eisenhower's major backers, Sen. Lodge of Massachusetts, will visit the general in Paris within "the next few days."

Blues In Cho News
By BOB ANTHONY

The Marine baseball team that was here from Camp Lejeune, North Carolina left the station Tuesday to return to North Carolina. From all indications since their departure, I believe they captured our Florida sunshine and took it with them.

As a result of the recent shore duty survey list, which includes the names of those men whose normal time of shore duty has expired, many MAAS men have received their orders to sea duty.

First class aviation mechanic John Hess, first class aid controller Thomas De Maria and Chiefs Earl Wilkinson, Alva Tubbs, George Park and Lewis Nader have all left NAAS and the city of Sanford within the last week for duty with ships in either the Atlantic or Pacific Fleet.

Three more men are expected to leave for their duty at sea within the next few days. These men are Walter Kraft, second class boatswain mate, Russell Transue, Fireman, and John Low, Fireman.

Raymond Brantner will be heading for his home in Durand, Wis. tomorrow to resume his civilian occupation. Raymond is a member of the Naval Reserve and will be released to inactive duty tomorrow.

Owen Seymour is counting the days between now and Apr. 9. That's the day his wife will arrive from Minnesota. Owen works in the post office here on the station and he is the person that makes sure this column gets from the station to the Sanford Herald office on time.

Owen is now frantically searching for a furnished apartment in which he and his wife can reside upon her arrival here Apr. 9. If you know of a place that is available or will be available, how about letting either Owen or myself know about it? It will certainly be appreciated.

Wayne Bakken left the station last night on leave and he made sure he had his pea coat with him. Wayne has a long way to travel before he'll be at home with his family and friends in Grand Forks, N. D. According to the weather reports we've been receiving about North Dakota, he'll have plenty of use for the pea coat. One of the main reasons Wayne is taking leave at this time is because his brother has just returned from a tour of duty in Korea and this will be the first time the two men will have seen each other in nearly two years.

Three new men to arrive at NAAS in the last two days are Paul Huninger, Richard Ledbetter and Jack Garcia.

Paul reported here straight from sea duty aboard the U.S.S. ROWAN, a destroyer serving in the Pacific.

Richard came here from the U. S. Naval Hospital in Des Moines, South Carolina while Jack has just completed a tour of duty aboard the U.S.S. MANARD.

Bob Richardson left the station recently on leave to his home in Morning View, Ky.

These rainy nights are ideal for a game of ping pong, checkers, or cards at the Navy Center. If those games don't appeal to you, remember the Navy Center keeps an up-to-date supply of magazines for your enjoyment. Stop in tonight and relax at your Navy Center.

By SAM SUMMERLIN
MUNSAN, Korea (AP)—Korean truce negotiators today swapped detailed explanations of how they want to exchange prisoners of war as the U. N. Command openly sought a compromise.

An official Allied spokesman said "neither optimism nor pessimism is justified" at this point in the secret sessions.

In a nearby tent Communist tempers flared in a dispute over whether the U. N. Command represents the Korean people.

Col. Don O. Darrow inadvertently triggered the outbreak while discussing a Korean translation of the United Nations.

Darrow told the Communists they had no right to haggle over the point since "you seem to forget that I represent the Korean people also—those allied with the United Nations."

"The Americans cannot represent the Korean people," North Korean Col. Chang Chun San retorted angrily.

Brig. Gen. William P. Nuckols, official U. N. spokesman, said the translation dispute has been regarded as a mere technicality, but "it is taking on some significance."

The Communists want the U. N. Command to be known in Korea as "Allied Forces." The U. N. prefers "International Allied Forces."

One of these is about as close as you can come in Korean to United Nations.

Today's argument was in a session on supervising the truce.

Nuckols said both Allied and Communist staff officers working on prisoner exchange made "extensive statements which are apparently well-considered views."

He declined to comment "on what the views are and the extent of their divergence, if any."

Nuckols added that the three secret sessions on prisoner exchange have "produced some clarification." He did not elaborate.

**City Manager Turns
Down Salary Boost**

MIAMI (AP)—City Manager J.W. Wilson Jr. has turned down a salary increase of \$3,000 a year.

"I appreciate the confidence you have shown in me," he told the City Commission, which had offered to raise his pay to \$25,000 a year, "but I don't want any additional salary."

"Frankly, I want to hold the line in the City of Miami in... spending money."

The commission offered Wilson no increase until he is convinced that the city employees are paid less than people with similar jobs in private industry and that the money can be made available without new taxes.

**Sen. Benton Dares
McCarthy To Push
His Slander Suit**

**Says He Can Prove
In Court Every One
Of His Accusations**

WASHINGTON (AP)—Sen. Benton (R-Conn.) target of a five million dollar damage suit brought by Sen. McCarthy (R-Wis.), challenged McCarthy today to press for trial "before his bid for re-election next November."

Commenting on the "libel, slander and conspiracy" suit the Wisconsin Republican filed Wednesday Benton said in a statement:

"I can prove in court the truth of my carefully documented charges."

"His sincerity can henceforth be judged, even by those who read as they run, by the diligence with which he seeks to bring his suit to trial. Let him insist on actual trial before his bid for re-election next November."

"An immediate review of his tactics is urgently in the interest of the people of the United States and of the tens of millions throughout the world in whose eyes our country is being discredited by his tactics."

Benton said he had formally waived his constitutional immunity from legal action in this case—congressmen are not liable for anything they say in Congress—"to compel him (McCarthy) to sue me if of course his reckless accusations." He added:

"I sought to bring him before an impartial tribunal—a procedure which he has avoided by consistently shielding himself behind his own immunity."

Benton's statement was put out by his office. He is en route to Los Angeles.

The suit was based on Benton's charges under oath last September of a Senate elections subcommittee that McCarthy committed perjury, fraud and "calculated deceit" in pressuring his Communist-in-government charges.

Benton made the charges before a Senate election subcommittee in a letter repeating the offer. McCarthy called that a "cheap, phony bluff" and added it would leave Benton with the right to claim immunity in court.

In his suit, however, McCarthy

**Lattimore Called
Agent Of Stalinism**

WASHINGTON (AP)—A Yale professor testified today he regards Owen Lattimore as "probably the principal agent of Stalinism" among American far Eastern specialists.

Prof. David N. Rowe made the statement in testimony before the Senate Internal Security subcommittee.

The committee is investigating the Institute of Pacific Relations, a private research organization of which Lattimore, a John Hopkins professor and one-time State Department consultant, is a trustee.

The inquiry is designed to determine whether the IPR exercised a subversive influence in U. S. Far Eastern policy.

TRUCKING ROUND-UP

DANVERS, Mass.—(AP)—FBI agents today began a roundup of all former employees of the U. S. Trucking Corp., one of whose armored trucks was robbed of \$681,000 in Danvers Square Tuesday while its three guards slipped coffee about 20 feet away.

The Federal Bureau of Investigation maintained an official silence on the matter but the information was divulged by a source close to the investigation.

The source, who asked that his name not be used, said he believes new gaps in Red rail lines.

Carrier-based Marine pilots knocked out a Communist village used as a command post for enemy troops.

The cruisers Manchester and Rochester with escorting destroyers smashed enemy positions along the eastern coast.

The FBI hopes to determine if one of the former employees kept a key to the truck when he left the employ of the armored car service or divulged how a key could be obtained.

Jaycee Meeting

(Continued from page 2)

It appeared that Senator Boyle was actively opposed to the dog track bill to limited ownership.

The candidate from Titusville added that he would, if elected, introduce a bill to prohibit any legislator or senator from being on the payroll of any dog track in either a direct or indirect way, such as being paid in the form of an attorney's retainer fee.

To this Senator Boyle said he opposed this bill on the grounds that it should be applied to all special interests such as banks, grocery chains, railroads, etc. If you passed this bill to limit the members of your legislature from being retained by any business, then you would remove the most capable lawyers in the state from any part in your government.

Meantime, A. T. Rossetter presented his background as being raised in Florida and as present city attorney for Melbourne.

He would remove the most capable lawyers in the state from any part in your government.

Mr. Rossetter continued, "There are 90 state agencies in Tallahassee today that eat up two-thirds of our tax money. We need men who will correct this fallacious situation and I am against this and if elected I will try to do everything in my power to eliminate this spoils system in our state government."

Mr. Rossetter went on to say he was opposed to slinging mud in this campaign and was going to stand on his record.

Mr. Shipp spoke briefly of the need of younger men in the Jaycees to take an active part in leadership. "We need to institute a leadership program for the Jaycees so they be trained for jobs of leadership, a thing the Junior Chamber was designed to do," he said.

Mr. Shipp thanked the Jaycees for the opportunity to visit them and promised to uphold the ideals of Junior Chamber, if elected at the Jaycee convention on May 9-11 in St. Petersburg.

The Jaycees elected Mrs. Harold Ring and Gordon Bradley as their nominees for the Kiwanis Club's annual Minstrel Show's annual and king.

**Montgomery Named
Beverage Director**

TALLAHASSEE (AP)—John F. Montgomery, former Tallahassee police chief, has been named director of the State Beverage Department by Gov. Fuller Warren.

Montgomery's commission was filed with the secretary of state's office Wednesday evening, about two hours after the closing hour. He posted his bond and took the oath immediately, but there was no announcement of the appointment then.

Montgomery succeeds Lewis M. Scott, who resigned a week ago to become assistant to the president of the New York construction firm of Merritt, Chapman and Scott. Since Scott's resignation, Joe E. Bowen has been acting beverage director. He was assistant to Scott.

Montgomery is a former member of the Jacksonville police force, a one-time special agent for the Federal Bureau of Investigation, and former chief investigator for the Florida State Forest Service. He is a Navy veteran.

He resigned recently as Tallahassee police chief without announcing a reason.

WHITE HOUSE WINDOWS

WASHINGTON (AP)—Bullet-proof windows have been installed in the refurbished White House, the Washington Post said today.

The president moves back to the 1600 Pennsylvania Ave. address today on his arrival from Key West, Fla., after more than three years in Blair House.

Secret Service officials declined to comment on the bullet-proof windows.

It was while the Trumans were living in Blair House in 1950 that an attempt was made on the president's life. His family was uninjured but a guard and one of the two assassins were killed.

SCOTTISH RITE CLUB

All Scottish Rite Masons in Orange, Seminole and Osceola counties, and their wives are invited to a dinner meeting of the Acacia Scottish Rite Club at the Masonic Temple, Winter Park, on Friday, Mar. 28, at 6:15 p.m. The regular meeting will be at 7:30 p.m. It was announced today by President Stuart Clarke.

The regular meeting at 7:30 in the Lodge Room upstairs is very important, he said, and deals with the yearly budget of the Tampa Consistory, also in conferring the 4th to 14th degree, which the Acacia Scottish Rite Club now has the authority to do. Sixty eight Masons will be required for this. Reservations should be mailed to the Secretary, George H. Bpohn, P. O. Box 416, Winter Park.

(Continued from Page One) out that he was born and raised here and stated that he would make a good sheriff.

J. L. Hobby urged the voters to elect men who put principle and high ideals above selfish gain, and stated that a sheriff should enforce the law without fear or favor.

Sheriff P. A. Nero told of "streamlining his office," equipping three cars with radio, and adding other equipment. He told of his F.B.I. training when a member of the State Beverage Department.

J. Clay Williams warned that another man in Seminole County had purchased a federal "gambling stamp," and declared that if elected sheriff he would investigate all who purchase such stamps. He urged the voters to elect men who will enforce the law.

Police Chief Roy G. Williams told of the ability and experience gained by him in more than 30 years of law enforcement, including study of the latest in FBI methods. He advocated modern files and records for the Sheriff's office and advocated systematic patrol of the county roads by a uniformed deputy. He asked the people of Seminole County for a promotion, he said.

Declaring that he is in more vigorous health than ever, Supt. T. W. Lawson, incumbent, which he did not attribute to his opponent. One was that he would resign if re-elected, and another that he would fire his opponent, which he declared to be untrue due to contract laws. He also denied saying four years ago that he would not run again.

His opponent, Principal R. T. Milvas of the Lyman School, declared that if elected, he would endeavor to keep the public constantly informed on the condition of the schools, and would seek the advice of citizens in planning improvements. He suggested that each school be allowed to have its own budget and stated that he would work for the welfare of teachers.

Candidates for the County Commission in District No. 3, W. A. Forward, Forest City and O. B. Fournier, Leesville, incumbent, outlined their qualifications. Mr. Forward told of engineering experience gained in six and a half years of duty with the Marines, and responsibility in keeping heavy equipment in order while serving in the Pacific Theater.

Mr. Fournier also told of experience in civil engineering and of 10 years of work as a road contractor. He reminded the voters of his ability to get roads built, and asked for support.

Three speakers appeared as candidates for Justice of the Peace in District No. 4. Hugh Duncan stated that he is running at the request of numerous friends and offers four years of good service. J. R. Lytle told of his Spanish-American war record, service in the Philippines and Boxer uprising, told of his record in the State Legislature and of his retirement in 1944 after 45 years of railroad service.

Lewis Tate declared that he had studied some law, and that if elected Justice of the Peace, he would study more. He told of his long service with the Atlantic Coast Line Railroad and drew a laugh when he said that he wanted now "an easy at-home job." Charles Bridges, another candidate, was not present.

Robert E. Browning, James G. "Blime" Galloway and Ralph Gible in District No. 4. Mr. Galloway spoke as candidates for Coroner. Browning declared that 243 people had been killed in traffic accidents in Florida since the first of the

At the north table where the President speaks will be Govs. O. W. Williams, Michigan; Paul A. Dever, Massachusetts; and Frank J. Lausche, Ohio.

The only avowed candidate for the Democratic presidential nomination expected to attend is Sen. Russell of Georgia. Sen. Kefauver of Tennessee will be campaigning in the Midwest, and Sen. Kerr of Oklahoma, a contender if Mr. Truman steps out, will be speaking

at a similar party dinner in Salt Lake City. Officials said Russell probably will sit at a floor table since the two head tables are usually reserved for governors, Senate and House leaders and assistant leaders, and officials of the national and congressional campaign committees.

FEDERAL RESERVE

WASHINGTON (AP) — The Federal Reserve Board voted, 3 to 2, today to order a breakup of the Transamerica Corp.'s big banking empire in five Western states. The majority found that the corporation—which controls seven billion dollars in bank deposits and half the bank loans in California, Oregon, Nevada, Washington and Arizona—tends to "lessen competition and restrain commerce."

Job Inventory Is Issued By State

TALLAHASSEE (Special)—The Florida State Employment Service under Dr. Fans A. Hathaway, today issued a Job Inventory containing a list of several hundred available jobs in Florida ranging from a retail salesman at \$40 to \$50 per week, to electrical engineer (Tallahassee) at \$5000 to \$8000 per year.

Among the openings in other categories are biological chemist starting at \$4205; civil engineer, \$484 month; accountant, \$3300; mechanical draftsman, \$3410-\$4100, and many other jobs available to any who can qualify. This list may be found in any of

The neighbor whom we telephoned for the first time was asked if he found the experience trying. "The only trying thing," he replied, "was to be told by my kind friends, 'I didn't think you could look dumber than you do, but, boy you did!'"

Mr. Truman seems to be having a hard job getting someone to take his place in the White House, that is, someone who will continue to carry out his policies. Currently he is reported working on Gov. Stevenson of Illinois, said to be a very good man. No doubt he has tried Chief Justice Vinson and others. It is reliably reported he wanted Eisenhower to run until he found out he was a Republican. But none of them wants the job on the Fair Deal ticket, that is, none except Senator Humphrey.

From Secretary Mayo, Florida's Commissioner of Agriculture, comes a nice letter about our recent special edition. "I do not think I have ever seen more attractive pictures," he writes. "I want to thank you for the fine contribution you made in reference to the State Fair Market at Sanford. I sincerely trust this edition will have a wide circulation in our sister states. My hat's off to you for this very wonderful job."

How often does it happen that those who can dig it out with the greatest relish can take it only with the least amount of grace? And so we find Senator McCarthy of Wisconsin, who has made it a point at one time or another to slander just about everyone in the United States, bringing suit for libel against Senator Benton of Connecticut who had accused him of fraud and deceit. Compared with the epithets which McCarthy habitually and promiscuously hurls about, Benton's mild mannered descriptions seem harmless enough. Yet McCarthy claims his reputation has been damaged \$2,000,000 worth.

What did "Mr. Big" expect to get out of the next Governor of Florida when he contributed \$400,000 to his campaign fund? The answer to that question is not supplied alone by Mr. Big's interest in a number of dog tracks. But it was coupled in part at least the other day when the Miami Daily News revealed that shortly after Gov. Warren took office a corporation was formed in which "Mr. Big" put \$40,000. This corporation subsequently received over half a million dollars worth of State Department contracts. There is of course here the usual story but this time they have a name to dig up to far.

For reasons yet buried in the work while holding jobs, the federal government's lack of them would resign over. This speaks Attorney General Howard McGrath. But it matters not whether the resignation is accepted or not.

Science And Weather

The United States Weather Bureau recently opened one of the highest complete weather stations in the world, about a mile from the summit of Mauna Loa on the island of Hawaii. Like all the rest of the Weather Bureau's stations it is equipped with the latest meteorological devices. It has the additional advantage of being located at a great height in a climate totally produced by a tropical marine air mass produced by continental influences. It should provide valuable information about atmospheric conditions in the Pacific. But valuable as is the information supplied by the Weather Bureau, the weather remains an unpredictable force. It refuses to yield to scientific prediction. Like human nature, it is predictable only within narrow limits. Weather patterns are constantly being interrupted by unforeseen conditions. In spite of the many technological advances he has forged, man is still a helpless victim of weather.

Perhaps man needs such a dwarfing agent as the weather to make him realize his finite nature. He may be able to soar through space and bomb distant cities by pushing a button, but a heavy snowstorm or dense fog grounds airplanes and slows train and automotive traffic to a crawl. Witness the disasters following in the wake of the recent western tornadoes.

Weather is still able to reduce man to a helpless creature. And all the meteorological stations in the world haven't convinced him that the twinge in his leg isn't more reliable as an indicator of the weather than the voluminous data coming every day from the Bureau. He might be right, too.

New Northern Frontier

In a tone reminiscent of the admonitions of Horace Greeley to young Americans in the last century, Canadians are now urged to look to the northern regions as a land for development and opportunity. The noted explorer Dr. Vilhjalmur Stefansson has pointed out to Canadians and other North Americans that the Russians are already taking advantage of the northern regions to establish settlements and raise crops. He advises against merely building isolated military settlements and proposes instead that defense of these regions be effected by colonization.

The idea of defending a country by colonizing areas which might be vulnerable to attack from a hostile power is not new. It provides two advantages. Military defenses combined with civilian settlements are easier to protect and at the same time the plan promotes extension of national production and wealth.

The days of the pioneer may not be so dead as many people believe. There will be those hardy souls who venture into the wilderness with a hope of making a better life for themselves. The spirit of the pioneer has not died in men although the frontiers are not so well defined as they were in the past. Perhaps the time may come when the far northern regions will be a source of productivity for the world instead of a region of chill terror.

Recalling Cleveland

"We love him for the enemies he has made!" With these bold words Gen. Edward S. Bragg of Wisconsin, at the 1884 Democratic convention, defied Tammany Hall and the other machine politicians who opposed the nomination of Grover Cleveland. Their hostility availed nothing; Cleveland was nominated and served two terms, with one intervening, the only such case in our history.

Only such as was the most prominent president in the period between Lincoln and Theodore Roosevelt. Stubborn, independent and inflexibly honest, he raised the tone of public life.

Perhaps he rates less high now than in his lifetime, for today his highly conservative views are less esteemed. In his second term he seemed inclined to the view that the way to treat economic grievances is to ignore them. Except for his support a tariff reduction and his maintenance of the gold standard when it was severely threatened, Cleveland is remembered less for his policies than for his courage and rigid honesty.

But these are not bad qualities to have in the White House at any time.

Too Late To Classify

Next time you feel like griping about the tax on cigarettes, don't do it until you have visited the Southwest Florida Tuberculosis Hospital, dedicated this week at Drew Field, Tampa.

You will be amazed at what is being accomplished through the investment of those tax pennies for the aid and comfort of tuberculosis sufferers. After thoroughly inspecting the huge, modern, marvelously equipped 600-bed sanatorium you will come away with a feeling of genuine pride in the knowledge that you, as a citizen and taxpayer of Florida, had a part in providing such a splendid institution.

You will also experience a keen sense of appreciation for the administration responsible for this achievement and for the State Tuberculosis Board that directly supervised construction.

It seems that just about everything that science and engineering had to offer has been incorporated in the creation of this establishment. The five story reinforced concrete building is practically fireproof and stormproof but is nevertheless provided with the most modern fire fighting equipment including sectional divisions that can be completely cut off from one another in an emergency.

This particular hospital will serve 14 counties and is part of the splendid statewide program which provides facilities at Lakeland, Orlando, Tallahassee, Marianna and Tampa. Although segregated, race—and I do mean racial—facilities are provided for Negro and white patients. This goes for every service the sanatorium offers, including treatments, food, accommodations, recreation and the like.

The main building is 750 feet in length and of attractive architectural design; facilities include its own laundry and private radio communication system. But it matters not whether the patients have their own private rooms or not.

questions fired at him, Odham said. The candidate will be on the air continuously from 8:00 o'clock tonight until 8:00 o'clock tomorrow night when the 24-hour stretch will be completed back at the Tampa location.

While in St. Petersburg, Odham will broadcast from the front lobby of the Coliseum there, and likewise receive questions by telephone and from his audience in person.

He said he would "welcome questions from persons who disagree" with his views on any issue in the campaign.

For the first half hour of the broadcast tonight it will go out over three stations simultaneously. Radio Stations WFLA, WFTS and WTSP. After that, the various stations in Tampa and St. Petersburg will pick up the Odham talk show successively in differing intervals.

The broadcast here, Odham said, will follow the pattern of the 24-hour radio talk show he staged last week in Miami.

MIAMI — Dan McCarthy made a bid for the labor vote Wednesday night in his campaign for the Democratic nomination for governor. McCarthy called for more effective budgetary control and elimination of duplication in many state offices. He said it is impossible to remove the state sales tax now but that Florida does not need more taxes.

McCarthy charged that Brantley Odham, another candidate for governor, was "reckless with the truth" when he said that McCarthy had anything to do with the disappearance in Tallahassee of any state records. He exhibited a certificate signed by the secretary of state saying the missing records were on file in his office.

Odham earlier had said veto messages dealing with race track laws passed by the 1941 Legislature when McCarthy was speaker.

In addition to taking pot shots at McCarthy and McKeehan, Adams told a Quincey audience that if Gov. Fuller Warren "is bound and determined to get in this fight I'll take him on, too."

Adams said that he hadn't mentioned the governor in criticizing "specific evils in the present system of government" but that Warren "stands in the way of the lives of his office to obtain free public service radio time to fight me personally." Tuesday night "Let him drag out his artillery," Adams said. "I've got a few guns I can fire myself."

Adams had criticized the state's 60 administrative boards and agencies under appointees of the governor as "unwisely bureaucracy well populated with petty dictators and hoodlangers, at its worst a welter of waste, extravagance, mismanagement and downright

State Tuberculosis Board; Dr. Robert J. Anderson, Tuberculosis Division; Dr. Public Health Service; Judge L. A. Grayson, President, Hillsborough County Tuberculosis and Health Assn.; Walton McJordan, President, Florida Tuberculosis and Health Assn.; Dr. Henry C. Swaney, Chief Medical Director, State Tuberculosis Board and Frank M. Traynor, Chairman of its Dedication Committee. Several thousand people from all over South Florida attended the ceremonies and for a time guides were hard pressed to care for the hundreds and hundreds who lined up to take the specialty conducted tours. It was gratifying to find so many taxpayers interested in inspecting an institution which their tax dollars had made possible.

I sincerely hope that you and I will never have to become patients of this or any other hospital, but it is comforting to know that such facilities are available should the occasion arise. My hat is off to all who had a part in this achievement.

Congressman Herlong Reports

While a few scattering questionnaires are still being returned, we have tabulated those which have been received up through March 20th. Because there was a great variance in the total number of questions answered, we shall give the percentage of answers so that a more accurate check on the trends can be gathered. Obviously, many people by reason of lack of knowledge on specific matters did not answer all the questions on the questionnaire. Here are the results, without further comment:

	Yes	No
a. Bomb bases and supply lines in Manchuria	73% 22%	
b. Halts and eventual truce	77% 23%	
c. Withdrawal of American troops from Korea	38% 62%	
d. Support of invasion of China by Chinese Nationalist troops	50% 41%	
e. Use of atomic bomb against Chinese Red forces	68% 32%	
f. Continued arms aid to foreign countries	57% 43%	
g. Reduce production of civilian goods to speed arms production	50% 41%	
h. Send greater number of American forces to Europe	10% 90%	
i. Universal military training	65% 35%	
j. Do you favor further economic aid to leading foreign nations	32% 68%	
k. Do you favor American expenditures abroad for backward nations	31% 69%	
l. Do you favor Federal regulation of prices and wages	28% 72%	
m. Do you favor Federal control of consumer credit	28% 72%	
n. Do you favor imposing Federal quotas on beef slaughter	13% 87%	
o. Do you favor		
a. Increasing corporate taxes	11% 89%	
b. Increasing personal income tax	7% 93%	
c. Increasing excise taxes	11% 89%	
d. Adding a Federal sales tax	10% 90%	
e. Do you favor increasing social security insurance taxes to meet any further increase in social security benefits	29% 71%	
f. Do you favor the Brannan Plan	5% 95%	
g. Do you favor compulsory health insurance	11% 89%	
h. Do you favor Federal aid to education	30% 70%	
i. Do you favor development of the St. Lawrence Seaway	49% 51%	
j. Do you favor cutting down President Truman's non-defense budget	96% 4%	
k. Do you favor cutting down President Truman's defense budget	76% 24%	

As we have the occupations of most of the individuals, we think it would be helpful to re-check the questionnaires with respect to occupations, and expect to do this in the future. This will show us whether our questionnaires are being returned by all of our segment of our economy, or whether there is a general bias to one side. When these figures are tabulated we will report them to you.

May I again express my thanks to the newspapers for publishing these questionnaires, and to you for sending them in. The response was good, and I must say that it was a very few short of our last year's questionnaire. I hope this doesn't indicate a falling off of interest in what is going on in Washington, because certainly what goes on here is everybody's business.

corruption." Warren called Adams a "frantic and foolish little man," and "a doddered and confused candidate."

McCarthy planned to continue his campaign in Duval County today and Odham will start a 24-hour question and answer radio marathon at Tampa at 8 p. m., switching to St. Petersburg Friday morning and returning to Tampa that afternoon for the windy Adams will continue his campaign in North Florida.

WHO IS ALTO ADAMS?

ALTO ADAMS — THE CITIZEN —
was born 33 years ago in Walton County, the son of a cotton farmer. Enlisted in the Navy as an apprentice seaman during World War I. Worked as a janitor at college to earn money for board and fees. Was graduated from the University of Florida with a law degree and admitted to the bar in 1921.

ALTO ADAMS — THE LAWYER —
began practice in Pensacola, 3 years later moved to Ft. Pierce. Though no fire-eating orator, he became a highly successful trial lawyer. His friendliness, frankness and convincing logic led to the retention of jobs as well as judges established a wide reputation for painstaking thoroughness and building tenacity.

ALTO ADAMS — THE CASTLEMAN —
a man of vision with faith in Florida's future, he invented safety in the cement concrete industry. By applying great business talents with sound economy of operation, he became a man of independent means.

ALTO ADAMS — THE JUDGE —
was named Circuit Judge for the Ninth Judicial District in 1928. During his tenure as a judge, he served in 1940 as a member of the State Court of Appeals and as a member of the State Bar of Florida. He served two terms in Florida's Grand Jury and has developed a reputation for being a sound jurist. He has been a member of the Florida Bar, the Florida Judges' Assn., the Florida Trial Lawyers Assn., the Florida Judges' Assn., the Florida Trial Lawyers Assn., the Florida Judges' Assn., the Florida Trial Lawyers Assn.

Field Refuses To Answer In Senate Probe

Security Subcommittee Studies Activities In U. S. Of Subversive Groups

WASHINGTON (AP)—Frederick Vanderbilt Field, financial angel of left wing causes, refused today to answer scores of questions, including how often he attended official functions at the Soviet embassy.

Field, New York millionaire, was questioned for a second time by the Senate internal security subcommittee, which is probing for subversive influences in U. S. Far Eastern policy.

Field, 45, tall and slim, was rudely complexioned despite his recent imprisonment for contempt of court in a New York Communist bail bond case.

He readily conceded, under questioning, that the Institute of Pacific Relations (IPR) made it a practice to send its publications to high government officials, as well as officers in the armed forces. He also admitted that IPR material also was sent to all levels of the American population.

President Faces Need For Action In Steel Strike

Truman, Just Returned From Florida Vacation, Faced Prospect Today Of Having To Act Soon In Steel Labor Crisis

WASHINGTON (AP)—President Truman, just returned from his Florida vacation, faced the prospect today of having to act soon in the steel labor crisis.

Negotiations between Philip Murray, a strike-threatening CIO Steel workers and big steel companies are in recess—with every indication they won't resume until the government clarifies its wage-price position.

A strike, already postponed four times by Murray at the government's request, is now fixed for April 1.

25 Percent Cut In Foreign Aid Asked By Farm Bureau

National Farm Union Urges Full Sum Asked By Truman

WASHINGTON (AP)—One nation of farm organizations today asked a \$1,200,000,000 cut in President Truman's \$7,500,000,000 foreign aid program but another requested it in full.

The American Farm Bureau Federation, largest of the national agriculture groups, pressed the 25 per cent cut in testimony before the Senate Foreign Relations Committee.

The National Farmers Union said the full sum asked by the President should be approved "without accepting amendments and without reductions."

Name-Calling Stage Reached In Primaries

Governor Kerr Says Kefauver Has No Regard For Truth In Nebraska Drive

By The Associated Press
The presidential nomination battle gathered steam today from the heat of angry name calling between candidates.

Unrestrained word-treading shattered the heretofore polite campaign in Nebraska between Sen. Estes Kefauver of Tennessee and Sen. Robert S. Kerr of Oklahoma. They are seeking delegates in next Tuesday's Democratic preference race.

Kefauver sharply accused Kerr of trying to "sneak" him through an endorsement which criticized the Tennessee's voting record in Congress on Communist control legislation.

Kerr said Kefauver shows "an utter disregard for the truth." He also accused him of trying to inject a note of religious intolerance into the campaign.
