Charlie Chaplin Barred!

Of all the astute pieces of legislation with which the American public is treated from time to time by a well-meaning but thoroughly narrow-minded Congress, the so-called Dickstein bill is a blue ribbon winner. Under the terms of this measure, if it is finally enacted, no foreign actors or actresses would be admitted to our sacred shores unless they could win the approval of the Labor Department of our government.

Just at the time when the President is calling upon Congress to give him bargaining powers for tariff reductions to the extent of 50 percent so that he may be enabled to increase our foreign trade, and thus avoid the pitfalls of economic isolation, Congress has come along with a bill which carries nationalism to the point of absurdity and further invites recriminations on the part of foreign countries.

Among those well known artists of the stage and screen who might be barred under the provisions of the Dickstein bill are George Arliss, Greta Garbo, Clive Brook, Marlene Dietrich, Anna Sten, Elissa Landi, Victor McLaglen, Marie Dressler, Charlie Chaplin, Colin Clive, and Maurice Chevalier, for all of them had their origin in foreign countries and were attracted to this country chiefly by the better opportunities offered by Hollywood. How much they have contributed to American enjoyment of the movies goes almost without saying.

But the chief trouble with such a bill as the Dickstein measure is not that the country would be deprived of the work of such artists as these we have mentioned, but it is the narrow-minded, prejudicial principle back of the bill which might easily be carried further and further and applied to countless other professions and articles of foreign origin. And the bill is based primarily on a fallacy that the exclusion of foreign products would tend to promote better business in this country. It is a part of the great international hokum of the day, "Buy British," or "Buy American."

If we are going to exclude actors and actresses because they happen to have been born in England or China, then we should also ban the artists of the concert circle such as Chaliapin, Paderewski, Rachmaninoff, and Kreisler, or the books and plays of Hauptmann, Ludwig and Ibsen, and the music of Bach and Beethoven, for they, too are of foreign origin. Scotch woolens, Bordeaux wines, Flemish linens, Brazilian coffee, and Chinese teas and silks should also be excluded.

What pure bunk all this really is! And then what would American cotton growers do with their surplus cotton, half of which they have been selling abroad?

Safety Hints

There were 521 persons killed in automobile accidents in Florida last year. There were 18,236 accidents, involving 16,636 motor vehicles, and injuring 12,168 persons. The loss in human life is estimated at \$2,605,000 and the property damage at \$400,000. Of the 521 people killed, many of them were pedestrians and most of them were children. Improper driving, or improper action on the part of pedestrians, was responsible for 85 percent of the accidents.

Calling these facts to the attention of the public, Asher Frank, head of Governor Sholtz's State Safety Committee, makes the following recommendations on how to avoid accidents.

1. Remember there are two sides to every story and only half of the road is yours.
2. A skid can be stopped before it starts if you drive slowly on oily or wet streets.
3. DON'T park on the highway, with or without lights. If you must park for repairs, use only one foot of pavement.
4. Inspect your lights before dark.
5. Be prepared for the reckless moves of the other drivers on the road.
6. Remember DANGER signs are not erected without reason.
7. Don't back your car unless you are certain you won't regret the move—look where you drive!
8. A train or trolley car can't pull over, so give them room.
9. Children may be thoughtless, but you are a man and should not be. Blow your horn and give them all the room you can.
10. Give all the signs possible when making turns or stops—you know you expect them from the fellow ahead.
11. The old problem of "Right of Way" will always be argued after the accident. Slow down and blow your horn at intersections and the chances are you won't have to argue.
12. Driving is like every other business—fair play pays and is a great ease on your conscience.
13. Never try to pass another vehicle going in the same direction on curves or when going up or down a hill. This is a violation of the traffic law in every state of the United States.
14. Don't expect to blow pedestrians off the street with your horn—they have the right of way—use your brakes—be courteous.

SANFORD, TWENTY YEARS AGO

Mr. and Mrs. George Lovell and the baby from Key West are in the city as the guests of Captain and Mrs. M. W. Lovell. Their many friends are glad to see them again. G. C. Sperring has resumed his duties at the Seminoles Pharmacy after a trip to Live Oak on the sad mission of the burial of his father. His sister, Mrs. Fletcher, has also returned home. A building permit has been issued for the erection of a \$10,000 ten plant in Jacksonville. This new plant is to be a two-story brick structure and will be one of the most modern of its kind in Jacksonville. Pensacola wants a channel from the sea to the city docks that will accommodate the biggest vessels afloat. They are now asking for an appropriation to secure 25 feet and very likely the government will accede to their demands. Pensacola is one of the most important ports of the country and their commerce is growing daily. The United States is also building larger battleships and there must be places for the super-trend-

LEGION TERMS SINISTER CANCER UPON U. S. LIFE

Gotham Minister Hits Lobby At Capital As 'Political Banditry'

NEW YORK CITY, Mar. 22.—Activities of the American Legion lobby in Washington were called "shameless political banditry" recently by the Rev. Dr. W. Russell Bowie, who described the organization as "a sinister and deadly cancer upon American life" in his sermon at Grace Protestant Episcopal Church, Broadway at Tenth Street.

Congressmen who voted last week for the bonus revealed themselves willing to "buy their reelection with tens of millions of dollars taken out of the Treasury of the United States, Dr. Bowie charged.

"These senators and congressmen are not without excuse," he said. "They assert the Legion and their supporters care what they do, while the great majority of the people are apathetic and indifferent."

"It is a poor excuse which any man of conviction would be ashamed to give; but it is an excuse which does at least involve the rest of us in a common guilt. During the years of prosperity we did not care much what happened in Washington. Money came easily, and we were willing to let it go the same way; but meanwhile, 12 hours' principles were suffering, and the time has come now when

the people of this country, in the face of such insolvent abuse as this for which the American Legion conspicuously stands, must make it known that there is going to be some difference in this country between patriots and parasites.

"The shame of what has gone on in Washington lies not simply in the material plundering of the Treasury. It lies in the corrupting influence of those moral sophistries which turn the nation's pity for real war suffering into a cloak for indiscriminating greed, and it lies in the corrupting influence which runs through all representative government when it becomes evident that an implacable lobby can so play upon the fears of representatives that they will deny their own intelligence and insult their own conscience because they are afraid of the power which the lobby is allowed to wield."

Dr. Bowie maintained that men had been retired on pensions based upon alleged incapacities "utterly unfounded and ridiculous."

"In the last two weeks the United States Congress, following the demands of the lobby, has passed bills which would practically cancel all the reforms of abuses which the President accomplished last spring, and would add some 200,000,000 more dollars to the government's tribute to this lobby which boasts that it can get what it demands. Why does it get it? Because senators and representatives, coming up for reelection, are afraid to antagonize the bloc of votes which the American Legion can mobilize."

ROCKEFELLER WINS SUIT

TARRYTOWN, N. Y., Mar. 22.—John D. Rockefeller, Jr., won a suit for \$25,000 from the town

of Tarrytown for taxes improperly assessed but his victory will cost him \$4,000. To make up the loss, the town raised the tax rate \$1 a thousand. Rockefeller's property is assessed at \$4,000,000.

TANKER'S CREW KILLED

ROUEN, France, Mar. 22.—(AP)—The entire crew of 12 men of the gasoline tanker La Glisafe were killed yesterday by a violent explosion and fire at the dock of the Port Jerome oil refinery. Would-be rescuers were unable to approach the ship because of the terrific blaze.

Drive it only 5 miles and you'll know you're satisfied with any other car you've ever driven.

CHEVROLET factories are breaking records, trying to give America all the cars it wants. 4000 units a day are rolling off the assembly lines. February output was twice that of January. March output, according to present indications, will be three times that of January. Chevrolet cars are now being produced faster than any other make of automobile in the world. And today, Chevrolet is happy to report that all its dealers will soon be in a position to make immediate deliveries.

When you consider how short a time the new Chevrolet has been in production—when you consider, also, that the 1934 car is not last year's model improved, but a basically new automobile, with sweeping changes in design—this production record becomes somewhat of an accomplishment. But, a still greater accomplishment, in our opinion, is the way that these cars have been produced!

Despite continued nationwide pressure for more and more volume, every car that has left the factories has been built and tested to meet Chevrolet's highest standards of care, precision and quality. The result? When you place your order for a new Chevrolet, you'll not only get a big, rugged "Knee-Action" car—you'll also be assured of getting a typical Chevrolet car in economy, dependability and long life.

## STATES CITRUS PRODUCTION FOR YEAR ESTIMATED

### 15,300,000 Boxes of Oranges Will Move To Market Is Report

**WINTER HAVEN, Mar. 23.**—The commercial estimate of Florida orange production for the 1933-34 season has been increased by 1,400,000 boxes, to a total of 15,300,000, while the estimate on grapefruit remain the same, namely 7,000,000 boxes of commercial fruit, according to H. F. Willson, manager of the Federal-State Market News Service at Orlando, formerly of this city.

In the summary released for the press recently, Willson stated that California reported an estimate of 32,35,000 boxes of oranges which included 12,205,000 boxes of navels and 20,093,000 boxes of Valencia, Texas reported an estimate of 885,000 boxes of oranges, Arizona of 143,000 boxes, Louisiana of 218,000. In grapefruit, Texas reported 1,035,000 boxes, California 1,563,000 and Arizona 700,000 boxes. California's lemon crop is estimated at 6,400,000 boxes.

The Mar. 1 forecast of orange and grapefruit production for the 1933-34 crop is placed at 62,701,000 boxes consisting of 49,603,000 boxes of oranges and 13,098,000 boxes of grapefruit. As now forecast, the 1933 crop of oranges and grapefruit combined would be about 6 percent less than the crop of 1932 and about 1 percent below the average for the five years, 1929-32. The orange crop would be about 3 percent less than last year but about 2 percent above 1 1/2 average. The grapefruit crop as now forecast would be about 15 percent under the 1932 crop and about 12 percent less than the average for the five years 1928-32.

Carlot shipments of oranges up to Mar. 10 amounted to 32,276 cars as compared with 31,630 cars moved to Mar. 11, 1933. Carlot shipments of grapefruit up to Mar. 10 were reported at 12,934 cars as compared with 12,156 moved to Mar. 11 last year. Shipments of both oranges and grapefruit have been considerably heavier during recent weeks than for the corresponding weeks of 1933.

Weather conditions over much of the citrus area have been favorable during the winter to date, Willson explained, adding that the main sections have escaped serious injury from the cold weather during February.

## Subscription Dance Is Given At Country Club

The Sanford Country Club was the scene of one of a series of informal subscription dances given last night with a large number of persons in attendance. The club rooms were opened en suite for the occasion and decorated with quantities of pink and aster.

Dancing was enjoyed from early in the evening to music furnished by Peckham's Merry-makers. Between dances the guests seated themselves at small tables, lighted with bright colored candles, which were placed in the dining room. Refreshments were served throughout the evening.

Among those present were Mr. and Mrs. Gordon Barnett of Fern Park, Mr. and Mrs. A. L. Betts, Mr. and Mrs. T. R. Melling, Mrs. John Kelley, Mrs. J. N. Robson, Jr. Mr. and Mrs. J. E. ## G. O. P. Minority In House Hits Tariff Issue As Illegal

**WASHINGTON, Mar. 23.**—(AP)—The tariff issue, long a badge of political faith, was brought to the fore Monday by a Republican minority report to the House that flayed the Administration's reciprocal tariff proposal as "unconstitutional."

Republican views that the tariff plan would delegate to the President rather than Congress the discretionary legislative power in tariff making were vigorously expressed in the report. It was filed by the 10 Republican members of the House ways and means committee, headed by Representative Treadway of Massachusetts.

The report was made public as Democratic chieftains decided to delay until late in the week the opening of 22 hours of general debate on the measure.

The conflicting talk will take on added importance as the tariff probably will be one of the big issues in the approaching congressional campaigns.

Action on the measure probably will not come until late next week, despite plans of Chairman Doughton (D, N. C.) to expedite consideration.

WASHINGTON, Mar. 23—(AP)—The Public Works Administration yesterday allotted \$250,000 to the receiver of the Savannah and Atlanta railroad as a loan to be used in purchase of 100 new steel box cars to be manufactured this spring and summer probably in car shops in Atlanta.

**NAZI IDEALS SAID OFFENDED BY U. S. MOVIE, 'TARZAN'**  
**German's Protest Idea Of Jungle Man Being Fit For Matrimony**

PARIS, Mar. 23—The recent prohibition by the Reich's higher film control board ban of further showings in Germany of the American film "Tarzan of the Apes" was based, it was learned here recently, on the contention that the film was dangerous to Nazi principles of race-consciousness and offensive to Nazi ideals of matrimony and womanly dignity. Also stressed were the "de-

...moralizing and distasteful effects of mistreatment of animals by humans."  
According to a copy of the Berlin film board's decision obtained here, the "Tarzan" picture was branded as dangerous because, it was declared, by intensive propaganda during many months, "the German nation's sensibilities have been sharpened as regards questions of hereditary biology."  
"A picture," the ruling said, "which places mere instincts in the foreground and which has a tendency to argue that a jungle man even a monkey, is capable of the noblest sentiments and is worthy to be a partner in matrimony, is in contradiction to the repopulation policy and the tendencies of National Socialism. Considering the increased sensitiveness in wide circles of the nation to these questions of the dignity of woman and the laws of heredity of the picture must be rejected."  
"In its effects, the picture works against the official propaganda and enlightenment in this sphere, even if the naive spectator should not realize it immediately. . . . The picture is liable to hurt the sense of race and to work against the government's efforts on behalf of enlightenment. It is of vital importance for the state to uphold a vital sense of race."  
Referring to the animal scenes, the decision scores the cruelties in the fights of humans and animals in "Tarzan" and those of the animals themselves, as "liable to excite sadistic sentiments in the spectators."  
The ruling was made at the request of the Wuertemberg Minister of Interior.

**Some Are Doubting That Spring is Here**

(By The Associated Press)  
This burlesque called "Spring" continued over a large section of the nation today to the accompaniment of record-breaking low temperatures.  
Unseasonal cold gripped the North and middle Atlantic states. Freezing weather prevailed west and south through Kansas, Missouri, Kentucky, and the Virginia, and below zero temperatures were reported at various places from northern Michigan eastward across New York state and New England. Snow fell in the Ohio valley.  
It was 46° below at Dover, Quebec and 26 below at Mount Washington, Maine.  
The forecast was for rising temperatures tonight and tomorrow.

area wrecking cars and beating chauffeurs as they went. In their wake they left a trail of shattered latals landing in the middle of streets, their doors flopping open crazily and their drivers nursing cuts and bruises.  
Mayor LaGuardia, who earlier in the day declared the strike had been taken over by racketeers and strong arm gangs, was out to lunch when the marchers reached city hall.

**Purposes Of School League Are Explained**

(Continued From Page One)  
In his opinion a road-building holiday is in order and that the day of low salaries for teachers should be eliminated at once.  
A comparison of teachers' salaries with those of stenographers and convict guards was Mrs. Gladys Morris Williams' contribution to the impromptu discussions which followed a reading of the by-laws.  
C. R. Dawson of Oviedo stated that the situation needed some sort of guarantee that if \$7,500,000 is appropriated for the schools of the state, the sum will be turned over to the schools.  
Prof. W. J. Wells Jr., of Longwood pointed out that the gasoline fund is the most stable source of revenue and that some of it should be released for the benefit of schools.  
Prof. C. W. Ishill of Lake Mary explained that an effort should be made to destroy the impression that the schools of the state are receiving a considerable amount of money from various tax sources.  
H. R. Stevens of Sanford, declaring himself in favor of the movement, urged all persons to pay poll taxes so that by means of the ballot, officials who are in sympathy with the school problem may be elected to office.  
After the open discussion, members of the faculty of Seminole High School and some of its pupils presented a one-act play entitled "Hills of Politics."  
Those in the cast included M. Helen Verna, Mrs. Gladys Williams, Earle Kips, Miss Clifford Shimholzer, Rodman Lehman, Miss Elizabeth Shoemaker, Quillian Jordan, Miss Margaret Cox, Miss Ruth Hand, Ann Jones, Roderick Adams, Dorothy Mitchell and Robert Altmann.

**Tennessee Solon Gets 10 Years For Fraud**

NASHVILLE, Tenn., Mar. 23—(AP)—A criminal court jury yesterday convicted Joseph I. Rhee, 50-year-old former Tennessee insurance commissioner, on a charge that he stole \$100,000 of bonds from the insurance department and fixed his penitentiary term more than 10 years imprisonment, the maximum provided by statute.  
Jeff McCann of defense counsel announced a motion for a new trial would be made. The defendant was released under his original bond of \$20,000.

### Spirit Of Imperial Army Said Awake In Hitler's Germany

BERLIN, Mar. 23.—(AP)—Lieutenant General Werner von Blomberg, Reichswehr (Army)

minister and commander of the Reichswehr division, told army men recently that the spirit of the old imperial army had been reawakened in the Reichswehr since the advent of Chancellor Adolf Hitler.

Speaking to old army regulars at a huge meeting in the Sportsplatz, he said: "The spirit of true comradeship and loyalty has

### Longwood Trotters Make New Records As Training Season Reaches Height

BY MURRAY TYMAN  
LONGWOOD, Fla., Mar. 23.—Thoroughbred racing used to be called the sport of kings, but since the entrance into the game of Mrs. Payne Whitney, Mrs. Dodge Sloane, Mrs. John Hay Whitney, Mrs. M. C. Phipps and other women, one wonders if the sport of queens would not be just as appropriate. The same holds for the show horses and hunters exhibited and raced by Mrs. Bernard F. Gimble, Mrs. John V. Bourier, and Mrs. T. W. Durant, Mrs. T. H. Somerville and others.

It even applies in trotting. Not so many women own and drive standard-bred horses as engage in racing and hunting, but outstanding in this sport we find among others Mrs. E. Roland Harriman and Mrs. R. J. Reynolds, who not only own trotters but supervise training and are as skillful with the reins as veterans of the Grand Circuit. Only a few days ago Mrs. Reynolds, a young horsewoman who took to the trotters not much more than a year ago, drove Gayleta, a two-year-old filly that has not been to the races, a mile in 2:17 1-4, sensational time for a two-year-old at this time of the year.

This is the headquarters of the trotters in the winter, and of all the interesting tales that are told about the stables of the Seminole Driving Club, the legend of how Mrs. Reynolds came by Gayleta is one of the most absorbing. Also the most amusing. A niece by marriage of William N. Reynolds, wealthy patron of the game and owner of some of the greatest trotters ever to draw a sulky, Mrs. Reynolds acquired this promising filly in an unusual way.

A year or so ago when Mr. and Mrs. Reynolds were visiting in Kentucky, where W. N. Reynolds has a stock farm at Lexington, they fell to discussing the yearlings that were being turned out in a paddock. Mrs. Reynolds praised them so highly that the elder Reynolds was moved to remark with a smile: "Go right out there now and take your pick of the lot for \$200. Little did William N. Reynolds suspect that his young niece was going to pick the best of the lot. She walked to the fence, looked them over carefully, and selected a bay filly, nicely marked, by Gayworthy-Etabelle, she the dam of Dick Reynolds, a trotter that had been named for the husband of the owner of Gayleta. When the elder Reynolds saw his niece select the bay filly, the best of the crop, he smiled and let her go at that. A few days later a horseman approached Mrs. Reynolds and offered her \$1,000 for

### Murderess Offers To Test New Serum

DENVER, Mar. 23.—(AP)—A red-haired woman, 27 years of age, has asked to be one of the 12 convicts to test a tuberculosis preventative serum at the Colorado penitentiary.

She is Mrs. Pearl O'Loughlin, 36, convicted four years ago of slaying her step-daughter, Leona O'Loughlin, the child of a Denver police detective. Her application announced by Warden Best, is among several hundred which have been filed with hopes of landing among the "lucky" dozen and thus win possible executive clemency.

The prisoners will be inoculated with the preventative serum and then will have active tuberculosis germs injected into their blood stream.

Governor Johnson will select the final 12 from a list of 24 chosen by Warden Best.

She has the making of a great filly. If Gayleta goes wrong in training, it won't be because she lacks good wishes.
