# **View from your Window**

What do you see from your window? Another house across the street? A wheat field? A pine forest? A placidly flowing river, or an endlessly crashing sea? Your view, of course, depends on where you live. The kind of church you go to-whether it is Gothic in style or white frame, a pale pink stucco built in a Spanish manner, or a domed cathe-

dral, dependa, too, upon where you live. But whatever the size . . . whatever the shape . . . the Church is the Church. God's House assumes many forms on earth, but in all of them you will find His teachings, His word, His spirit.

THE CHURCH FOR ALL . ... ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of charac-tor and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor sivilization can survive. There are four sound reasons why every person should

Flotilla 41. U. S. Coast Guard Auxiliary, has launche Operation Decal 68, with Courtesy Examination Officer Ernie Baumeister at the helm. For the edification of local argonauts who may not know of the courtesy motorboat examination program afforded by the Auxiliary, we are incorporating in Stein Kaiser of The Netherlands who tabled 18 and 11 points rethis week's column some information on the subject.

The primary function of the Coast Guard Auxiliary, as an men's world speed skating title Baby Lions registered 58-45 adjunct to the regular Const Guard, is the promotion of safety Sunday, finishing second in the win over the Wildwood JV's afloat. As part of this program, the examination of pleasure 1.000 meter and the 3.000-meter paced once again by Parker boats as a courtesy is a service offered by the Auxiliary. The courtesy motorboat examination program is enthusiastically en-dorsed by the Coast Guard, for it relieves them of their burden to a considerable degree. The more safe-minded boatmen are, the less violations found in legal requirements governing motor bosts, the more time the Coast Guard can devote to other pressing duties, of which there are many in this busy

Courtesy motorboat examination is not a law enforcement activity at federal, state or local levels. Motorboats of Class A and Class 1 may be examined out of water subject to the following provisions:

a. Motorboats so examined must be of known stock design and construction b. Motorboats so examined must be built of a material

# Dear Abby:

from the mother whose adopted son broke her heart terested me because I have known many such cases. She wrote in part:

"We adopted that boy when he was a week old, and loved him more than our own flesh and blood. We prayed for him constantly. Yet between the ages of 15 and 19. he went from skipping scheel to robbery to rapet Our hearts are broken. Our son was raised in a good Christian home. We went to church every Sunday and never had tobacco or liquor in the house. Where have our prayers gone?"

And you speak of your prayer as the it were the premiums you paid for insurance against all ills and evils. It is not. Prayer is simply a talk with one's God. No amount of prayer will protect another rom the consequences of his own behavior. Each man ntust do his own praying, just as each man must accept the es. consequences of his own acts." you went, Abby, but you could have given that mother real consolation by pointing out that since the boy was adopted, he could have inherited had blood.
