## 2618, 2619, 2620... --Leaders Are **Final Winners** By DONNA ESTES Herald Staff Writer

"It's great to win," agreed County Commissioner-elect William Kirchhoff and Commissioner Richard Williams, given a second term by the voters of Seminole County, Tuesday, as completion of the counting of absentee ballots by Supervisor of Elections Camilla Bruce's office confirmed their victories at the polls. The two Republicans increased leads they held in unofficial returns when official results were released late Friday by Mrs.

Mrs. Bruce's office, with assistance from persons of both major parties, worked three days counting the 2620 absentee ballots and some 700 presidential ballots.

Williams' lead went from 298 over his Democratic opponent, Dave Gunter, to 691 in official results; Kirchhoff's lead increased Fewer Votes Cast For President Than Others, Page 2A

from 584 to 888 over former County Commissioner John Alexander, a Democrat. Final results gave: Williams 20,475 over Gunter's 19,784 and

Kirchhoff 20,071 over Alexander's 19,183. "Winning is always fun," said Williams, expected to be named chairman of the new county commission when he and Kirchhoff

- are sworn in Nov. 16. Williams said it would "naturally be an honor to be selected as chairman and would be a real experience." He predicted plans would proceed to create a county legal department with full-time personnel
- and does not expect to return to the law enforcement career he held before running for election. He said he will continue his service on the Seminole County Port Authority and his political endeavors with the local Democratic Executive Committee. Altamonte Springs Police Department.

He congratulated Williams on his victory, adding, "Williams won the battle, but he did not win the war. His next four years in office will be the war." "It's nice to win. It's better than losing," said Kirchhoff. Saying

he, family, friends, in-laws and neighbors walked the precincts, knocking on the doors of at least 5,000 homes during the campaign, Kirchhoff said the door to door canvassing continued through Monday "I learned a lot from the people, a lot about different problems

in different areas," he said. Kirchhoff agreed that it appears that Williams will be the next 16,523 and J. Christopher Ray (R) 21,072. county commission chairman, but he predicted that political State Senator, 17th district - John Vogt (D-incumbent) 21,715 party "will not be the big determinant in a lot of issues as seen in the past.

"You are going to find county commissioners working together more than they have," he said. Kirchhoff noted that he and Democratic Commissioner-elect Bob French have compatible backgrounds and interests and "we'll work pretty well together." the courthouse together, talking to officials and employes, 7,073. "learning all that we can," Kirchhoff said. Alexander was not available for comment.

## **FLORIDA** IN BRIEF 12-Year-Old Escapes

#### Adult Murder Trial Fate

MIAMI (AP) - A 12-year-old boy who says he killed a younger playmate for calling him a bastard will undergo rehabilitation by state authorities for the next nine years.

A murder indictment against Wallace Mosely was dropped Friday. Officials said the boy will be treated at a youth center instead of being tried as an adult.

"It's what I've wanted since the beginning," said Michael Von Zamft, an assistant public defender. "The state has realized the problems in this case, that Wallace Mosley can't be tried as an adult."

#### 'Tax Sunset' Bill Proposed

TALLAHASSEE (AP) - A "Tax Sunset" bill to require that all state taxes be periodically repealed for re-examination has been proposed by Sen. Robert Graham.

"The only way to reform Florida's taxes is to repeal each tax law until it justifies itself in the face of serious and complete examination," Graham, D-Miami, said Friday.

#### All-Male Group Under Fire

MIAMI (AP) - A federal complaint of sexual discrimination is threatening to silence the Indian war drums of Iron Arrow, the so-far all-male honor society at the University of Miami.

Dr. Henry King Stanford, UM president and an Iron Arrow member, said he will force Iron Arrow off campus if it doesn't admit women.

## **IN BRIEF**

### Natural Gas Rate Hike May Add \$18 To Bills

WASHINGTON - The Federal Power Commission's approval of new price increases

on natural gas may add \$15 to \$18 a year to the average homeowner's bill, but the rate hike is expected to be challenged in the federal courts.

The commission issued a new rate hike order late Friday, estimating it would cost consumers who use natural gas some \$1.5 billion to \$1.8 billion each year. The FPC estimated that that would add some \$15 to \$18 to the annual average residential gas bill.

### Auto Workers Eye GM Strike

DETROIT (AP) - After reaching agreement on a new contract with Chrysler Corp. - just before a strike deadline - the United Auto Workers is turning to General Motors.

A three-year pact covering 109,000 U.S. and Canadian production workers at Chrysler was announced just minutes before the 6 p.m. EST strike deadline Friday.

Hanging On Some candidates die hard. Take In-dependent County Commission candidate Tom Binford, for instance. "There are eight more votes left to count,"he muttered as he paced in front of the courthouse late Friday, "and I refuse to concede."

# **Fewer Votes** Cast At Top

#### By DONNA ESTE Herald Staff Writer

Seminole County voters, who went to the polls 83.23 per cent strong Tuesday, proved their independence by hop-scotching across the ballot, apparently voting for the "man rather than the party.'

And, although political prognosticators say a presidential election brings the voters out, fewer Seminole Countians marked a choice for president than any of the other contests on the ballot. The most popular race, evidenced by the highest number of voters casting ballots, was the less glamorous contest for state treasurer and insurance commissioner between popular Bill

Gunter of Orlando and Betty Armistead of Brevard County. Locally 42,011 made a choice in that race, more than any other on the ballot. Gunter, a Democrat, an ex-congressman and a former state senator whose district included Seminole County, was given the nod by more voters -31,122 - than any other candidate, receiving little more than 5,000 votes less than the combined total of all presidential candidates.

In the presidential contest, only 36,811 of the voters marked a John Vogt, a winning Democrat and state senator, and a losing

county commission candidate, Dave Gunter, also a Democrat, polled more votes than did President-elect Jimmy Carter. In the District one county commission race between a Democrat, a Republican and an Independent, it had been surmised that current Independent and former Democrat, Tom

Binford, would pull votes from Democrat Bob French and thus become a spoiler, handing the election to Republican Vince Actually the contrary happened as French emerged victorious, carrying 1,500 to 2,000 fewer votes than losing Democratic county

commission candidates, John Alexander and Gunter. With 39,506 electors casting ballots in that contest, Perry received 6,000 votes less than winning Republicans Dick Williams

and William E. Kirchhoff, while Binford received 7,073. For the district 33 and 34 Florida House of Representatives races, losing Republican Greg Drummond in district 33 (which comprises about 60 per cent of the county) received 300 votes more than Vince Fechtel, Republican incumbent and winner in

Some 1,004 more voters cast ballots in the district three county commission race between Republican incumbent Williams and Democrat Gunter than voted in the district five contest between John Alexander (D) and William E. Kirchhoff, winning Republican

The second most popular race, in number of votes cast on the ballot, was between Katie Nichols, (D-Tallahassee) and Republican incumbent, Paula Hawkins of Maitland. Some 41,779

voters made a choice and Mrs. Hawkins received more votes than did President Ford, or any other Republican on the ballot. The contest with the least interest evidenced in numbers of the city of Orlando will give requested permission for persons - 33,074 - casting ballots was for non-partisan member City Council a progress and construction of an Episcopal of the school board. Incumbent Robert G. Feather was victorious.

## **Energy News** Isn't All Bad

Not all energy news is bad news. If industry sources are noted, much good news can be found. The Mining Record, a publication serving the mining industry for 87 years, reveals a good many bits of news relating to progress in the field of source energy

Just recently an article gave details on a new method of developing uranium reserves. In favorable locations a system called Solution Mining appears to have a great potential for recovering uranium at lower cost and with very little disturbance of the environment.

The method involves the injection of a leaching solution into a uranium bearing zone. The injected solution dissolves the uranium. Then the uranium loaded solution is pumped back out and is stripped by an iron exchange method.

A zone can get into production in about onefifth the time necessary for conventional installation at a considerable savings in capital costs. Because of this, lower grade formations can be mined economically. Operating costs are also less with the solution process.

The demand for electrical energy is bound to increase and as industry brings alternate sources of fuels into use, nuclear plants and the use of uranium will become of greater importance.

Coal and uranium offer the best in the shortterm picture for alternates to petroleum for fuel. Winds, tides, solar and geothermal sources have vast potential but cannot be figured into the energy picture except as long-term goals.

There has been a great deal of scare tactics used by "environmentalists" in regard to nuclear power. Here again is an area where people need to keep all hazards of modern living into proper perspective.

The same person who decries the use of nuclear power on the basis of danger, will think nothing of getting into a car and riding anytime, anywhere. While he is in that car he is in thousands of times more danger than he would be if he were working right in a nuclear plant.

As a user of nuclear power, the person has zero chance of being injured or killed; this based on past performance of nuclear power plants. What are his chances of injury or death when he enters an automobile?

If the pseudo experts calling themselves "environmentalists" can be relegated to a place more in keeping with their expertise; if the political and bureaucratic fad-riders can be held in check; industry will meet the needs and desires of the people.

What the energy problem needs today is more removal of obstacles and no new regulatory road blocks set up by empire-building political bureaucracy. Then we can look for big good news concerning energy instead of bits and pieces gleaned from industrial publications.

## **Computer Controls**

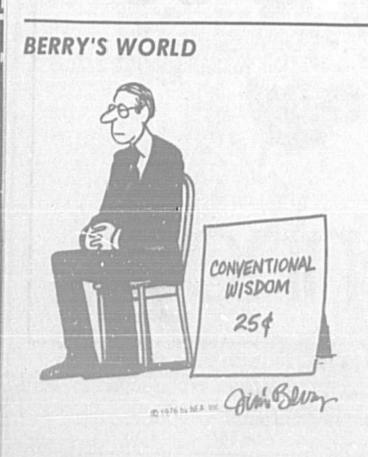

The computer is acknowledged to be a useful and - most recently - essential tool.

But, unchecked, it could also be a dangerous weapon. A commission established in Washington to recommend laws to regulate electronic tranfers of funds has been warned of the potential for large-scale invasions of individual privacy when cash and checks have been replaced by the electronic payment system.

The computer memory bank upon which the system depends will, according to privacy experts, make possible "unprecedented feats of surveillance" by government agencies and private firms

Alan Westin of Columbia University said the data banks would be able to locate individuals at any moment and track their movements, develop spending and savings profiles and "identify their money-based political, religious, civic and sexual affairs."

The commission in its report to Congress must recommend strong safeguards to protect privacy in the coming cashless era.

The Clock By AUDIE MURPHY

## RAY CROMLEY Lawmakers Have Hit The Limit WASHINGTON - As we head toward a new

our-year term in the presidency and a new Congress, it becomes more clear each day how little the man in the White House and the Congress can do. Regardless of the philosophy of the men in power. The president can propose. The Congress can

vote laws. But recessions run their course. Competition forces prices down or it doesn't. Men and women look to the future with hope, start new businesses, invest or expand - or they don't.

If the president's pronouncements and the lawmakers' edicts suit the mood or the morality of the times, then men and women move slowly and painfully into a new era in race relations. But if the mood of the times is not identical with the new laws, the law fails, as with Prohibition. Men find loopholes, as in the payment of taxes all quite legally - or in the evasion of the spirit of election laws. The best a president and a Congress can do

ien is to sense the mood of the nation, and mak laws to fit it that are consistent with their own ideals. When they're right, as were the men who developed the white - or yellow - stripes down the center of highways to prevent accidents, they hit the jackpot. Otherwise, as happened in the most recent period of price and wage controls, TOM TIEDE they so distort the picture, in this case the economic picture, that grave injuries are inflicted on many. Recovery becomes slow and

There are observers who suggest, not wholly in jest, that it might be better for us all if Congress were to take a two-year holiday, give

complication, it is impossible, I suspect, for any constitution. They were led by Alexander to-do. "All communities divide themselves into breaking several. I have heard a public official brag as much; he bet a group of average people We have not this Bicentennial heard much hour or so.

the few and the many," he wrote. "The first are the rich and well born, the other the mass of people (who seldom judge right). Give therefore to the first class a permanent share in the government."

# Another U.S. Military SNAFU

changes in the funeral and burial industry In some cities, even now, there is talk of creating "high-rise cemeteries," because of the land shortage.

What if this trend continues? A few hundred years from now every third building will be a highrise cemetery.

Perhaps the dead will be placed in huge spaceships and launched into outer space. But those problems are in the future and future generations will have to deal with them-if there are any future generations.

The fact is, right now the high cost of dying is a real and pressing problem. As usual, those who can least afford it are hit the hardest.

It is something to think about, but funerals and burials are subjects most people choose to ignore until they are forced to confront them.

United Way Boss

Thanks Givers

As 1976 Campaign Chairman for the United Way of Seminole County, I want to extend my personal thanks to the people of Seminole County for their support of this fine endeavor. Thursday evening, Oct. 28, 1976, we celebrated a true victory when we announced a total of \$198,244 in campaign contributions with more to come. Our goal was \$186.279.

It is impossible for me to list the names of all of the organizations, businesses and individuals, who gave of their time and money to provide the funds which our agencies need so badly. I also want to thank the news media whose support contributed greatly to meeting and surpassing our goal.

> J. G. Hartwig 1976 Campaign Chairman United Way of Seminole County, Inc.

Golden Age Olympics The second annual Golden Age Olympics gets off to a

fast start in Sanford Monday with a full slate of events on tap throughout the week. One of the biggest events on the schedule is track and field competition, which will take place at Seminole High

Stadium on Saturday, Nov. 12, starting at 9 a.m. Included in the track competition will be a one-mile run and dashes of 220, 440, 100 and 50 yards. The field events include the shot put (12-pound shot), discus throw, softball throw, football throw, running broad jump and standing broad jump.

All the events are open to the public and are free of Another key sport in competition will be bicycle races

with cross-country events scheduled for Tuesday, Wednesday and Thursday and dash clashes on Friday. Though some poeple might not consider it a sport, you'd better not let the participants in the horseshoe pitching competition hear such comments. These entrants take the ancient art seriously and firmly believe it's just as much a sport in trying to make a ringer as it is to can a 10-foot putt

on the green at Mayfair Country Club. Horseshoe pitching will get under way at Fort Mellon Park on Saturday at 10 a.m. while the golfers tee it up at Mayfair on Tuesday at 11 a.m.

Table tennis, or ping-pong to some, is an art that draws a lot of participants and they'll go after the top prize at 10 a.m. on Wednesday at the Sanford Civic Center. Tennis is another sport that should draw well and there

are three days set aside for this competition, beginning Tuesday at 10 a.m. at Emma Spencer's Courts, off West 25th Street. Originally, the tennis tourney was slated for only Wednesday and Thursday at 1 p.m. each day, but it was decided to add another day and move the starting times forward because of the large number of entrants as well as the possibility of inclement weather in the afternoon.

According to the latest figures, many people have signed up for the bowling portion of the Olympics, which will be held at Bowl America Lanes Wednesday and Thursday, beginning at 1 p.m. each day. Shufflers will hit the courts at the Shuffleboard Club on

at 2 p.m. The entire week will be capped off with an awards

7 o'clock. The entire schedule for the Second Annual Golden Age Olympics:

NEW YORK (AP) - Carrying out a commitment to youth, ake Howell defense, Osceola the Seattle Mariners and Toattempted to punt, but a perfectly executed block by Greg brand new baseball franchises Abbott forced the ball out of the at the American League ex-

Both teams ignored a host of tried and true names available and concentrated instead on building their clubs with many unknown players.

Occasionally a familiar veteran like designated hitter Rico Carty, picked by Toronto, popped up, but for the most part this draft was a farm director's delight with minor league prospects dominating the selec-

The trend was set on the very first pick when Seattle went for peedy Ruppert Jones, an out fielder from the Kansas City organization.

"He was one of our top prospects," said Whitey Herzog, manager of the AL West Division champion Royals. "He's a player of great potential."

The Mariners thought so too. "He was the one we wanted," said Lou Gorman, Seattle's chief of baseball operations.

After the Mariners took pleting their home schedule for Jones, Toronto's first pick was the '76 slate. Lake Howell will shortstop Bob Bailor, drafted ization. He has spent the last three seasons with the Orioles' Rochester affiliate in the Inter-26-44 national League, batting .311 91 this year.

4.38 "He is young, aggressive, has 2-1 outstanding speed and excellent 6-40 range," said Pat Gillick, vice 0 0 0 8 8-16 president of player personnel 6 0 2 0 6-14 for the Blue Jays. "We're de-

> The established teams pronames like Lou Piniella, Dick Tidrow, Elliott Maddox and Carlos May of the pennant winning New York Yankees, Brooks Robinson and Paul Blair of Baltimore, Charlie Spikes of Cleveland and a host of others open. But the Mariners and Blue Jays preferred younger, untried talent.

## Tanner New Bucs Manager

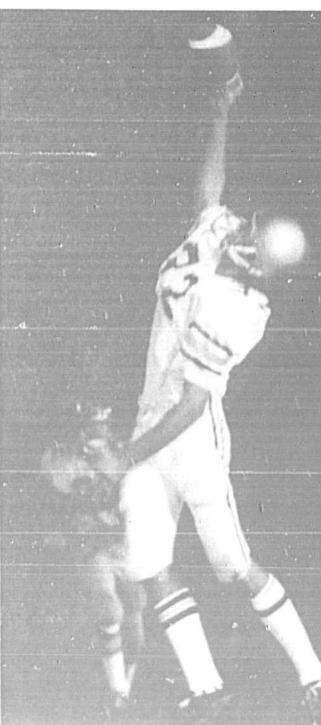

PITTSBURGH (AP) -Pirate General Manager Harding Peterson got the only manager he wanted. Oakland A's owner Charlie Finley got the "pound of flesh" he demanded. And manager Chuck Tanner got his dearest wish.

"Mr. Finley had something we wanted and we had to pay the price," said Peterson after Tanner came to Pittsburgh for catcher Manny Sanquillen and \$100,000.

"If I'm going to run a finishing school for managers, I want to be paid for it," said Finley after the bargain was struck Friday.

Peterson, a 47-year-old native of nearby New Castle, was the happiest of the three. "'Pete' called me and said let's talk contract and I said I'd sign.

"This is such a great thrill. 's like a dream come true added Tanner who has long wanted to return to western Pennsylvania.

ECONOM

RS OF SANFORD,

Maybe it will be the victim of a real auto wreck who overturned pickup truck in New Mexico. can't get help because the ambulance is racing in the other direction. Or maybe, if we're lucky, it will be the hoaxer cident was marked up as a prank.

the black eye that hoaxes are giving CBers. two people. The hoaxer is practically untouchable. urgent distress calls, one of the boats was sinking to hunt emergencies which exist only in sick minds. second boat that it was overlaoded and taking on A few hoaxes have drawn national attention, water. though hundreds of others occur each month. One

calls, eight are fake. Sometimes a hoax can be discovered early. A "Ber at the scene of an alleged accident, for in- By the time the rescue operation was called off, having to assume that the call is legitimate. stance can alert police that someone is putting out a taxpayers had lost, \$20,000.

Searchers spent five days and \$150,000 in handle on a fire box and then running into the night. manhours, equipment use and fuel before the in-

himself, beaten to death by someone enraged over In June, U.S. Coast Guard and law enforcement officers in Marathon, Florida, spent four frantic Unfortunately, it will probably be one of the first hours searching for two boats. According to the The hoax problem is nationwide. Local, state and with several people aboard, and the second boat ederal agencies spend thousands of dollars a year then took the survivors. Next time calls from the

Four hours after the first call, a woman conestimate is that out of every 100 emergency CB tacted police and said she heard three men in a the ones transmitted by the two "boats."

Putting out a false distress call carries a someone is going to die. Let's hope for the best.

emergency monitoring stations. It's like pulling the

If the hoax problem is going to be brought under control, it will have to be done by CBers and not by outside agencies. Groups that set up emergency monitoring systems - such as REACT and ALERT - have been successful in organizing CBers and cutting down the number of false calls. The groups work with law enforcement agencies, and the police and sheriff's departments rely on the CBers for accurate information

But most law enforcement agencies aren't that well organized for dealing with CBers, and even the pickup truck putting out a distress call similar to best organization can't help in all cases. The New Mexico and Florida incidents are examples of Which leads us back to where this began -

#### Former CBer Expresses Opinion 'Traveling Handles' Brings Response A couple of weeks ago, we Cover says in his correspon- your CB 'Traveling Handles.' attending from the county, the

wrote about 'Traveling Handles' and how they could create problems when you're in an area where someone else uses the same 'handle' as yours. Well, a CBer of long standing,

false report.

who has become disillusioned with the way people 'abuse' the airwaves, wrote to tell us his solution to the problem, if indeed it is a problem. Charles L. Cover of Sanford

says that the simple way to solve any problems that might arise while traveling is to use your true name along with your call letters and there won't be any misunderstandings.

Cover says that while he was in Indiana he was secretarytreasurer of one of the largest CB clubs in the state and urrounding states and that he years before serving a two-year over 3,000. organization.

# Smoke-Free Air --How Sweet It Is

from now.

Americans are trying hard to say no to the efforts to quit, 57 per cent said they will use of tobacco. But most of them aren't definitely or probably be smoking five years having much luck. In the largest survey ever made of

behavior, attitudes, knowledge and perceptions about tobacco use, it was discovered Center for Disease Control, Atlanta, Ga. and that nine out of 10 smokers have either tried to the Division of Cancer Control and quit smoking or would probably do so if there were an easy way.

But in spite of their awareness of the smoking in America. It compares smoking hazards to their health, and despite their habits and attitudes of 1970 with those of 1975.

#### 'Smokers Have Everything - - - -Cancer, Emphysema, Heart Disease '

The proportion of adult Americans who The decline in the proportion of adults who smoke cigarettes has declined since 1970; smoke and concurrent increase in public public attitudes favoring stronger action attitude opposing smoking demonstrates that against smoking have increased, even among Americans can change their lifestyle for the those who smoke; and the shift toward sake of their health. But there are also factors cigarettes with lower tar and nicotine has other than health that determine the picture accelerated.

#### 'Old Whatshisname Smoked '

level and smoking behavior. Smoking rates greater proportion agree management should are lowest for those who never attended high have the right to prohibit smoking in its place school. At all other educational levels, the of business. proportion of smokers decreases as the Though radio and television commercials amount of education increases. The decline in smoking since 1970 has been respondents believed that cigarette ad-

## **Hospital Sale**

Nets \$1,441 A total of \$1,441 was raised at

the Seminole Memorial Hospital Halloween sale, according to Dan Rayman, chairman

Items for the sale were donated by hospital employes as well as members of the public and local civic organizations. The proceeds will be shared between the Seminole Youth Ranch and Good Samaritan Home to buy each of these facilities a substantial Christmas gift.

In addition, each department in the hospital is busy collecting small personal gifts which will be wrapped and placed around the tree at the hospital's annual Christmas party. Instead o giving gifts to each other this holiday season, all the presents will be bundled up after the party and distributed to the residents at the Youth Ranch and Good Samaritan Home.

What About Those Food Additives?

#### SUSAN ROMANS. Geneva:

"I haven't stopped buying anything yet, but I guess it's because we're unaware of the dangers, if there are any. I'd suggest they do away with preservatives. I would stop buying any food if it had been proven certain chemicals had been ad-

#### Longwood:

"It is a matter of concern. I've always wanted to get rid of the bread because it is full of preservatives. But how can you? What else do they sell? Most of the food has these things in them. We've stopped eating Cool Whip because of the ingredients. I would stop eating anything, or else just eat a little. You have to eat. You could bake your own bread. They said aspirin wasn't good for some people, so they said take Tylenol, and then it

comes out, that's bad too!'

#### anford: "You don't know what you are getting anymore. Certain things are restricted and not supposed to be put out until they are safe. I think we trusted the food industry too much. We're paying them to do a job, and they aren't doing it. Consumers should demand they do better and investigate and see who is to blame.'

SALLYE BENTLEY, Sanford "Yes, I'm concerned. I believe the cause of so much sickeness and disease is the unnatural things added to the food. I have stopped buying certain kinds of foods because of the contents. I don't feel that it is healthful

to the body. Some things 1

don't buy because there are

Meet Your Commissioners Women More Than Just Beanpickers

By MARYLIN TIPTON Herald Coorespondent

Lenora Mobley, mother of three, graduate of Orange County schools and with a degree in Social Administration, has been an avid civic and social worker for some time. She started with the PTA, serving on local, county and district levels and a number of advisory committees. Her latest appointment has been to the Central Florida Commission on the Status of Women.

"I'm on the Democratic Executive Committee of Seminole County (as are several members of the Commission; was on the committee that revised the Seminole County report cards; am on the Seminole Sickle Cell Anemia Committee - and am a member of Bethel AME Church - I always have to include my church." she says with a charming smile in her voice. "One thing I hope the

Commission will do is set up a talent bank so women, not necessarily with job experience but with talents, can get involved. And I'd like to see more women educated as to

things that will help them - whether it's making out wills or obtaining further formal education. In fact, continuing education for women and the talent bank are my two main interests."

There is a slight nesitation in the voice now, then the statement comes through loud, clear and firmly put. "I would like to see more minority women get involved, to show they have talents, to make it clear they are not all beanpickers!"

His little bit of luck had materialized. If East won the trick, South would have an entry to dummy to get a spade discard. If East ducked, South would go about the business of getting trumps out and even-tually lead a low diamond, duck in dummy and watch East's ace capture a couple of little-spot cards. It was good luck. South needed a club lead and had to find West with the queen of clubs and East with just two diamonds, but it came off. (2)

Defending champions Mary McPherson and Harold Herbst light the traditional torch that is symbolic of the opening of the Second Annual Golden Age Olympics in Sanford. The week-long event got off to a rousing start at the Sanford Civic Center this morning with Miss Florida, Nancy Stafford, and other dignitaries on hand to welcome the participants. The Olympics, for persons 55 years of age and older, will end Saturday night with an awards

ceremony and a dance at the Civic Center.

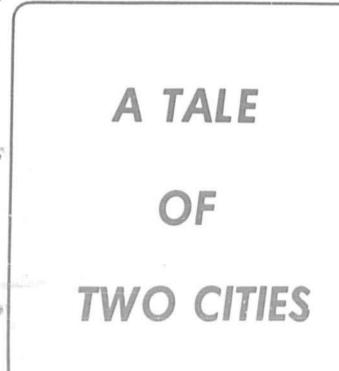

# County Will Air Garbage Hikes

An increase in the price of garbage pickup rates and an additional \$260,000 in unallocated federal funds are topics for discussion at Tuesday's Seminole County Commission meeting. Commission Chairman Mike Hattaway said the pick-up rates which would filter down to the customers at about 50 cents a month - were discussed earlier this year during budget hearings. A public hearing is set for 11:15 a.m.

The new rates, if approved, would go into effect Dec. 15. The rate adjustments as recommended by a Winter Park consultant also double the charges for individuals who dump their garbage at the county's landfill or transfer stations.

The proposed increases would provide \$719,000, the amount needed to make the refuse division self-supporting. Without the increases, the refuse division would have to dip into the generalfund dollar pile which is funded with tax dollars. Rates for the county's 15 commercial dumping firms would

increase from 68 cents a cubic yard to \$1.55. The rates for private individuals who haul garbage to dumps would go up from 50 cents to one dollar for a three-can limit and from one dollar to twice that amount for half-ton to one-ton pickup trucks.

General Accounting Office GAO) auditors will brief month before releasing the fina sults of a three-month audit of ation (SEEDCO), agency

he top-ranking who requested

along with U.S. Sen. Lawton Chiles and U.S. Rep. Richard Kelly has expressed an interest in operations of the Sanford-based poverty fighting

agency. "Generally," the interim report reads, "our findings do not substantiate the specific or implied allegations which prompted the Congressional request for our review of SEEDCO."

Though no evidence of illegalities was uncovered, the audit found and Orr agreed there were several instances of poor business management practices. In each instance, however, the GAO auditors said attempts are under way to correct deficiencies.

Orr said government auditors at the meeting later this month will inform him of audit findings. At that time, Orr said, he will be given an opportunity to respond to criticisms before the final report is made public. Orr had no prediction as to

when final audit findings will be known. SEEDCO, which came here in 1971, is responsible for pumping more than \$4-million dollars into the local economy. The agency established "ventures,"

SIOUX FALLS, S.D. (AP) - When South Dakota's director of economic development died three weeks ago, he left a wife and four children in Pierre. He also left a wife and five children less than 200 miles away in Sioux Falls. Bob Martin's double home life surfaced because

attorneys for both familles inquired about his estate after he died of a heart attack on Oct. 16 at the age of State Atty. Gen. William Janklow confirmed the

arrangement Sunday and said an investigation was under way, although he said he had "mixed feelings" about it. "All it's going to do is wreck the innocent kids. And on top of it, their father's dead," he said.

Patricia Martin, the Sioux Falls wife, said Sunday that she did not know there were two families. Someday, she said, she would like to talk to the wife in Pierre. "I feel very sorry for her also," she said. "It was

RD HAY BARN FIRE SILHOUETTE FIREFIGHTE

# Flames Raze Auction Barn, Home

#### By BOB LLOYD Herald Staff Writer

Spectacular weekend fires at Sanford destroyed a former auction barn being used for hay storage and a split-level residence in the Loch Arbor

Sanford firemen today were seeking origin of the Saturday night barn fire that official reports indicated was preceded

subdivision

by an "explosion." The mid-forties vintage tin and wood barn at Airport Blvd. and U.S. 17-92 behind a drive-in restaurant and an auto dealership was formerly an auction barn. Harry Robson of Sanford said he was leasing the structure for hay storage. City and county fire units contained the blaze that was visible for more than a mile and caused a traffic backup on

U.S. 17-92 as motorists slowed to view the blaze. Firemen were still on the scene Sunday as hay in the burned down building still amoldered. Robson today said his loss will be at least \$12,000. He said in excess of 5,000 bales of hay in

the barn plus a hay baling machine and two hay wagons were destroyed. Cause of the fire is still under

investigation. Robson said he doesn't think the fire started by spontaneous combustion. He said the barn, well back off the road and surrounded by a harbed wire fance, "was attractive to beatniks." "Someone could have gone in

to spend the night and could have been smoking," he said. Police said that a citizen See AUCTION, Page 2A

1-B ATTENDANT PREPARES TO TRANSPORT WOUNDED SUSPECT

An 18-year-old burglary and assault suspect, shot in the foot early Sunday by a Sanford policeman, was listed in good condition today at Seminole Memorial Hospital. Larry Johnson, 18, of 1505 W. 18th St., Sanford, under police

guard at the hospital today, was arrested on charges of attempted murder, armed burglary and two counts of burglary, detective Lt. William Lykens said. Gloria Bennett, 18, of 32 Lake Monroe Terrace, told police a

man broke into her apartment three times. She said the third time, about 2:30 a.m. Sunday, she returned home to find a man inside the apartment. She ran to a neighbor's house and called police. She then returned to her apartment and found the man still inside. A struggle ensued and she was hit on the head with a board before the man, armed with the board and a butcher knife, chased her out of the apartment and down the street.

Auxiliary policeman Lt. Jack Hansen chased the running man and fired one shot after the man failed to halt. Lt. Lykens said the bullet may have ricocheted off a sidewalk at Olive Ave. and Fifth St. and struck Johnson in the right foot. "He probably saved her life," Lykens said, noting that the

knife-wielding man was close behind the running woman. Officers said the Bennett apartment was entered by smashing a window in a rear door. The residence was blood-spattered and trails of blood led to a curbside garbage dumpster where police found a dining room table, chairs, tables and a slashed mattress

had been crammed into the large metal container. A trail of blood also led from the apartment down a sidewalk in the direction of the intersection a block away where the suspect was shot

....Two Families, 200 Miles, 9 Kids

#### just as much a shock to her."

Mary Lou Martin, the wife in Pierre, was asked Sunday about the situation, and said: "This is not fact." She declined further comment, and her attorney, Gary Colwill, said he planned to file for the estate on Monday. He said he had been unable to find a will.

Jack Allmon, who as South Dakota's secretary of economic and tourism development was Martin's boss, described him as a reserved and quiet man who didn't socialize much. But Allmon added that he knew the family in Pierre, and he described it as "very close."

It's not known when Martin married the Pierre woman, but the youngest of their children was said to be about 12 years old. imon said a son in th tanniy nau worked

in the state tourism department the last two summers. Martin traveled frequently between Pierre - the

state capital - and Sioux Falls, where his division

was headquartered. He maintained an office in Pierre.

Attorney Steven Jorgensen, who represents the Sioux Falls wife, said she married Martin in 1968. He said he had not been able to find the marriage license. The youngest child of that marriage reportedly is 14 months old.

The wife in Sioux Falls said Martin spent Christmas and other holidays with her. Martin's last salary checks and his personnel file

have been impounded by the state pending a legal determination of how to administer the estate, Atty. Gen. Janklow said. He said the Minnehaha County grand jury would

be convened, and would take testimony from several people, including the wife in Sioux Falls. Two days before Martin's death, Janklow said, he

received an anonymous letter about Martin's i souble life. He said Martin died becare he could ask him about it.
