**People's Congregational Church**  
 Sunday School 10 o'clock. At this hour there will be a Ladies' Bible Class organized. Preaching at 11 a. m. by the pastor subject—Have You Touched Jesus? At night Mr. Kirkland will deliver the first of a series of lectures to young men and women on modern plagues, and deadfall in society. He will take for his text—Ex. 8:6. The frogs came up and covered the land of Egypt. These lectures have been published in some of our leading daily papers and we believe will be of interest to our Sanford young people. The Sunday School of our church is preparing to give an outing some time in May. Those who come into the Sunday School now will be entitled to a free trip on that day.

The new Congregational church has become a thing of certainty. The contract will soon be let. It is to be made of concrete stone and will cost between \$5000 and \$6000 about \$1500 of that amount is yet to be raised. Dr. Kirkland is pushing a subscription list to that effect. Then Sanford will have another church building worthy to be proud of.

**Services at the Catholic Church**  
 Second Sunday after Easter—Sunday school 9 a. m., mass and sermon 10 a. m. Monday—Instructions for children at 3 p. m.

**Presbyterian Services**  
 Rev. J. F. McKinnon, the pastor will preach morning and evening. All are invited to attend.

**MURRELL & MINSHEW**  
**REAL ESTATE BROKERS**

Present to the Investor the Best Opportunities in Florida

Unimproved celery lands, flowing wells guaranteed, \$25.00 to \$200.00 per acre

Celery farms, with flowing wells all tiled, drained and ready for crop, \$500.00 to \$1000.00 per acre.

City property, improved and unimproved. 303,000 acres timber land, with finest site in Florida for crate factory.

Others tell you what can be done. MURRELL & MINSHEW are practical farmers as well as real estate brokers, and are here to show you what has been and can be done.

**MURRELL & MINSHEW**

**Electrical Association Met in Orlando**  
 The Florida Electrical Association organized in Orlando—20th and 23rd. H. A. Grant of Orlando was elected President, W. H. Bostick Jr. of St. Augustine Vice President, George I. Doig, of Gainesville, secretary and treasurer.

F. E. Fletcher of Tampa and C. H. Ellis of Tallahassee were elected directors. A very interesting session was held for the benefit of the electrical interests in general. A delightful banquet was tendered the association by the Florida Electric Co. of Jacksonville. The next annual meeting will be held in Tampa on March 10, 1910.

**Bicyclists From Daytona**  
 Mr. and Mrs. W. H. Branch, of the Willmar hotel, Miss Lillian Mubette and Dr. W. S. Snead, all of Daytona, were in the city yesterday, having made the trip on their wheels, via DeLand and Orange City. They report the road as very sandy in places, but that the trip can be made safely on bicycles. They saw plenty of alligators and were delayed several minutes by a huge turtle that blocked their path. They intend to wheel through the country to Tampa, if possible.

The city is filled with people this week, all anxious to invest in city property and celery lands.

**J. A. THOMPSON**  
 DEALER IN  
**CHOICE FLORIDA AND WESTERN MEATS**  
 Park Avenue in Spear's Grocery

**To Build New Garage.**  
 The Sanford Machine & Foundry Works will erect a two-story brick building on Oak Avenue upon the site now occupied by their foundry. The old building will be moved to front on the railroad, and the new building will be of ample dimensions for the repairing of automobiles and storage of same. The celebrated Buick cars will be carried in stock.

Items of Interest Gleaned From Various Sources

### HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Harried Readers

By a vote of 436 Mrs. Matthew T. Scott was elected president of the Daughters of the American Revolution at the convention in Washington last week, over Mrs. William Cummings, who received 428.

A gang of smugglers who have been operating in New York for the past ten years, have been detected and investigation indicates that the government has been defrauded out of the duty on \$10,000,000 of dutiable goods, most of which was on Paris-made gowns.

A Chicago widow offers to give \$200 to a church fund if the pastor will secure for her a suitable husband.

A most unusual spectacle was to be seen last week in an ice jam in the Niagara river. It was twelve miles long and sixty feet thick and contained unknown millions of tons of ice, enough, if moved at once, to wipe out all the villages along the length of the river.

A party of Des Moines college students were seriously poisoned last week by the drinking of milk at a club supper.

For some time burglars have been busy in and around Ocala. Last week one of the gentry was arrested after being run down by Deputy Sheriff Hutson. Stolen goods were found in possession of the arrested man.

George L. Lilley, Governor of Connecticut, died last week at the executive mansion in Hartford.

A tornado of ten minutes duration in northeastern Ohio caused the death of ten persons, the serious injury of many others and the destruction of a considerable amount of property, the past week.

Mrs. Sarah E. Thompson, aged 71, said to be the only woman carried on the pay rolls of the United States as a soldier, was run down and fatally injured by a street car in Washington a few days ago. Mrs. Thompson served as a Federal spy during the war between the states, and it was her who discovered and made known the whereabouts of the noted Confederate general John T. Morgan. She was a Tennessean, and was employed by the post-office department.

The Norwich Life Insurance Co. of England has taken out license to do business in Tennessee. This is claimed to be the first British company to do a life insurance business in the United States.

The loss of life in the recent boarding house fire in San Francisco numbers nineteen. The building was known as the St. George hotel.

Mechlenburg hotel, sanitarium, at Chase City, W. Va., was recently destroyed by fire. Loss \$200,000; insured for \$75,000.

Fred Camer, assistant manager of Symphony Orchestra of Boston, is dead.

The Czar of Russia has conferred on President Diaz of Mexico the order of the grand cross of Alexander Nevsky, one of the highest honors the Czar can bestow.

Edward Salomon, former governor of Wisconsin, died at Frankfort-on-Main, last week, aged 82 years.

The Illinois Central railroad is now using telephones instead of the telegraph for train dispatching on their lines.

This is said to be the coldest spring in twenty years in the Winnepeg section of Manitoba. Zero weather was reported the past week.

The battle flags captured from the Alabama Tigers by the Fourth Ohio cavalry at the battle at Selma, Ala., have been returned by the captors.

Thousands upon thousands of persons not of the Moslem faith have been massacred and their homes and villages devastated in Turkey. Tarsus and Antioch and the country for miles around is practically laid waste, and people who have escaped the sword are dying of hunger.

Gus Dentsol, inventor of the "flying Jenny," died recently in Philadelphia. The first "jenny" was built in 1863, and Dentsol was 63 when he died.

The site for a new skyscraper to be built in New York has been bought for \$6,180,000. The building will cost \$8,000,000 more, making a total of over \$14,000,000.

## NEGRO ASSAILANT LYNCHED

Caught Near Bartow and Confessed the Crime

Bartow, April 28.—Charles Scarborough, the negro who attempted criminal assault upon the person of Mrs. Taylor Frierson yesterday morning, was caught by a posse this morning near the outskirts of the city and lynched.

Mrs. Frierson is a well known lady of Fort Myers. She is here on a visit to Dr. F. M. Wilson's family. About 2 o'clock yesterday morning the lady was awakened by a movement of the bedclothes. In the dim light she saw the figure of a man bending over her bed. She screamed and the fellow leaped out of the open window and was gone in an instant. The noise awakened the household. Mrs. Frierson soon told her story and a search was organized.

Suspicion was directed against Scarborough. All day yesterday the posse hunted through the negro quarters and in the surrounding country. It is supposed that the man was hidden in the house of some of his intimates as he was caught close to the outskirts of the town shortly after daylight this morning.

One of the party searching near the edge of a swamp this morning described the man in the top of a bushy tree. The party gathered at the foot of the tree. There was one deputy sheriff in the posse and he asked the men not to violate the law, but to allow him to convey the scoundrel back to the jail. He was told that the man must die if he was the assailant of the lady. Scarborough was ordered to come down. He obeyed. With a rope around his neck he was told to make his statement. He said he had entered the room, but further than this would make no statement. He was then swung up and riddled with bullets.

M. J. Gordon, former chief justice of the state of Washington, has been indicted for embezzlement of railroad funds.

## PROHIBITION MEASURE PASSED

Goes Through Both Houses in Whirlwind Finish

The question of prohibition for the state of Florida was left to the vote of the people. The measure passed the house by a vote of 52 to 16 and the senate by a vote of 24 to 7. The measure provides for statewide prohibition and will be submitted as a constitutional amendment to be voted upon by the people at the election of 1911.

The passage of the measure was marked by brilliant speeches. Senator McMullen leading the prohibition movement and refusing to attend the deathbed of his mother in order to lend his aid and support in passing the amendment.

The campaign for prohibition will probably commence after the legislature adjourns and for eighteen months the state will witness a spectacular campaign.

### May Stop Everglades Drainage

By request of the trustees of the Internal Improvement fund, Hon. A. C. Croom, comptroller of the state of Florida, went to Jacksonville last week to confer with Chief Engineer Spaulding and Special Government Engineer Kavanaugh, sent out from Washington by the United States government. Mr. Croom reported today that Mr. Kavanaugh stated at this conference that the United States claimed jurisdiction over Lake Okeechobee and warned the trustees against draining off the waters of the lake, either by tributary streams, canals already in operation, or by tapping the lake itself. The engineer further stated that the war department would not take the matter up for adjustment and advised that the trustees take steps to have Florida's representatives in congress procure legislation that will allow the work of draining the Everglades to progress.

The question of federal jurisdiction is a mooted one which will be thoroughly threshed out by the state. In the meantime it is the determination of the trustees to go on with the work now in hand.

### Capt. J. C. Higgins Returns

Much to the delight of his many friends, Capt. J. C. Higgins returned to the city last Monday from Baltimore, where for the past month he has been ill with pneumonia. He has entirely recovered, and will soon be able to resume his duties as division superintendent of the A. C. L. He has been greatly missed by the Booster Club, but all hope to see him get in the ranks of the workers again and assist in the booming Sanford.

## SANFORD A PAVED CITY

Principal Streets of the City Paved With Brick

### MILES OF PAVING WILL BE LAID

City Council Decides to Pave Seven More Streets, Making Best Paved City in State

One of the greatest needs of Sanford for many years has been good paved streets, and our people now realize that this most valuable asset of any city should be pushed to completion. First street is now being paved from Sanford avenue to French avenue. The work will not stop at French avenue, however, as at first proposed, but will reach to Cloud creek. In conjunction with First street, the principal streets and avenues of the city will be paved at once, and the matter having been taken up at the meeting of the council last Monday night, the final arrangements were completed on Tuesday.

The Georgia Engineering Company of Augusta have the contract and being already engaged upon First street, the council decided that the time was ripe to pave the principal streets at once while the force of men and all the construction material was at hand and could be utilized without loss of time. Messrs. Frank R. Clark, president of the Georgia Engineering Company, and F. T. Warren, the chief engineer, met the council, and on Tuesday the contracts were signed and all preliminaries arranged for the work to be completed at once. This is one of the greatest improvements ever undertaken by the city of Sanford, and the paving of a few streets at a time pales into insignificance when one considers that this will make Sanford pre-eminent among the cities of the South as having more good paved streets than any city of similar size in the world.

The line of march toward a Greater Sanford will comprise the following streets and avenues:

First street from Sanford avenue to Cloud Creek, a distance of twelve city blocks, sixty feet wide.

Sanford avenue, from First street to Tenth street, a distance of ten blocks, thirty-two feet wide.

Tenth street, from Sanford avenue to Park avenue, a distance of three blocks, twenty feet wide.

Park avenue, from Tenth street to Second street, twenty feet wide, and from Second to Commercial, forty feet wide, a distance of eleven blocks.

Union avenue, from Sanford avenue to Pump Branch, a distance of three blocks, twenty feet wide.

Oak avenue, from First to Third street, a distance of three blocks, thirty feet wide.

Commercial street, from Park avenue to depot, one block.

In all, this will give Sanford nearly fifty blocks of street paving, which places the city at the head of the procession in the matter of brick-paved streets. There are also several other streets mentioned for paving, and ere another year, our city will delight the eye of the visitor with miles of fine streets and grass plots.

### Runaway Team Plays Hayoc

A horse belonging to Frank Powers decided to break loose and leave for home last Wednesday morning and the street in its present shape being too sandy he took the sidewalk and everything else that happened to be in his way. Another horse took fright at the same time and dashed down Park avenue. The gray, however decided to investigate the different stores. An awning pole at T. J. Miller's happened to be in his way and he broke it off like a pipe stem. Part of the show window suffered a like fate as did a show case of Kanner's and several screens and some enamel ware of Harry Wilson's. His march was finally obstructed by a pile of vitrified brick and he will now be content to take the street in a peaceful manner.

### A Well Dressed Window

Very few stores have enough front for good show windows and where they have any space for such display Sanford merchants always make a good showing. At the store of Harry Wilson one of his windows deserves special mention. It comprises all kinds of fishing tackle, hooks and lines, artificial bait, minnow buckets, poles and nets and the artistic arrangement cannot fail to attract the attention of the public. The display was arranged by Albert Brady, who though new at the business of window dressing, shows a remarkable ability in this line.

## PROMISES GREAT ATTRACTION

Concert for the Benefit of the Library Next Week

The concert announced in our last issue conducted by Mrs. Likins, under the auspices of the Sanford Library Association, will take place at the Opera House, Thursday evening, May 6th. Mrs. Likins, in her choral training, has been ably assisted by E. T. Woodruff. Both have had several years experience in choral work, and the numbers presented on this occasion will be very select, and ably rendered.

The chorus, which will consist of about fifty voices, will be seated on elevated seats which, with two pianos and several other instruments, will occupy the entire stage. The piano numbers, rendered by members of Mrs. Fannie Munson's class in piano forte, consist of duos arranged for two pianos, which will prove very effective. The choruses of twenty-five young ladies, who will sing The Bonnie Blue Flag and Dixie, have a charming little surprise for their audience, (but this is a secret). By the way, we challenge any town of some population in the state, to produce a like number of girls as pretty and attractive as these.

The little fairies will be as sweet and pretty in their childish way, as are their older sisters.

A double mixed quartette has been arranged, with high soprano solo sung by Mrs. Likins, which, with her other number, will be one of the chief attractions.

The solo work of some of her pupils will also be enjoyed, as well as the quartettes trios, and duettes.

### Clark Will Make Address

Hon. Frank Clark will deliver the annual address at the commencement exercises of the Sanford High School to be held in the opera house, Friday, May 21st. The exercises will be most interesting, and the brilliant statesman will receive a most cordial greeting from his many Sanford friends.

## DID NOT CENSURE FRANK CLARK

House of Representatives Modifies the Alexander Resolution

A modification of Representative Alexander's resolution of censure for Frank Clark for his attack on William Jennings Bryan, resulted in an interesting debate in the house Tuesday, but the substitute which was introduced by Mr. Alexander himself, finally passed by a vote of 29 to 22. The modified resolution is as follows: "Whereas, The Hon. Frank Clark, member of congress from the Second district of Florida, has upon the floor of the congress of the United States assailed the democracy of the Hon. William J. Bryan, who has three times gallantly led the democratic hosts therefore, be it

Resolved, by the house of representatives of the legislature of Florida, which is entirely democratic, that we, the people's representatives, heartily endorse the democracy of the matchless, peerless leader of the democratic party, William J. Bryan."

Thus the passage of the resolution carried no censure, but even those who opposed it did not endorse Clark's attack, but they did not deem it the duty of the legislature to take up the matter.

### Retires From Business

B. B. Minshew, for several years associated with K. R. Murrell in the real estate firm of Murrell & Minshew, has retired from the firm. Mr. Minshew has a merchandise business and orange grove at Pierson, a cattle business at Astor and large timber interests in various parts of the state, and felt that he could no longer take an active part in the affairs of the firm in this city. During his residence here Mr. Minshew has made a host of friends who regret to see him depart. He is a man of sterling worth and character, kindly impulses and broad views, and holds his friendships as a sacred trust.

K. R. Murrell will carry on the business at the same old stand, and will continue to "sell the earth" to all who are interested in Sanford "pay dirt."

### Band Concert Tonight

The Sanford band will give another good concert tonight in the park pavilion. The program will be rendered as follows: March, The New Administration. Floyd J. St. Clair Medley Overture, The Favorite. Dalbey March, Sorella. L. Gallini Schottische, Song and Dance. Primrose. Dalbey March, The Handicap. George Bussey. Charlet Walters. Ripley Mabel McKinley's Golden Rod. W. H. Mackie Medley Overture, Around the Town. H. C. Miller March, King of All. H. C. Miller Star Spangled Banner. Ella Brooks

By the sinking of the Norwegian steamship Edith off the coast of Norway, April 23, nineteen lives were lost.

## ALL AROUND FLORIDA

The General News of "The Land of Flowers"

### CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain

Bids are being advertised for for the construction of jetties at the mouth of the St. Johns river.

Mrs. Nellie Reed of Eustis was last week elected grand treasurer of the Order of the Eastern Star, at the fifth annual convention of the Grand Chapter held in Jacksonville.

Hon. H. H. Spagr, aged about 78 years, died at his home in Chattahoochee on the 21st inst.

At a special election held in Bartow last week it was decided to issue bonds to the amount of \$50,000 for the purpose of putting in a thorough sewerage system.

A general jail delivery took place at DeLand last week. Five prisoners held for murder, manslaughter and adultery, secured their freedom Thursday night by digging through the cement floor of the corridor. The jailor had left the prisoners in the barred enclosure little thinking of their escaping until in the morning he found they were gone. After getting beyond the corridor bars they dug a hole through the brick wall of the building, and getting into the yard, had no trouble in scaling the fence.

The Spanish colony in West Tampa is to have a casino costing \$60,000. Land for the building has been donated and work will begin as soon as plans are completed. The location is near the factory of Y. Pendas & Alvarez and that of Bustillo Bros., and the structure will be one of the finest in Greater Tampa.

Mrs. Margaret Ann McMullen died at her home at Largo last week Wednesday at the age of 74. She had been bedridden for thirty-three years. Mrs. McMullen was a native of Florida, having been born in Hernando county in 1833. She was the mother of a large family, among them being Senator McMullen of the present Florida legislature. Until the death of her husband, last year, at the age of 83, there had not been a death in her family.

Now that Palm Beach county has been created out of the north half of Dade, a movement is already on foot to change the new county's name to Flagler.

Mose Daniels, confined in Walton county jail under sentence to be hanged May 15, refuses to eat or drink and is thus striving to starve himself to death to escape being hanged.

Judge Willis has refused to allow bail for J. M. Kelly and D. M. Davidson, charged with the murder of night watchman Sellers of the Atlantic Coast Line at High Springs some time since.

Marion county is to have a public hospital to cost about \$8,000. It will be located in Ocala, will be complete in every department, and will have separate accommodations for white and colored patients.

The residence Truby Wainwright at Starke was destroyed by fire Sunday night while the family were at church. No insurance.

Walter Wilde of Yulee was run over and killed by the cars near that place last Sunday.

A cargo of 12,000 bales of cotton left Pensacola this week on the British steamship August Belmont, bound for Havre.

The big lumber mill of the Camps at White Springs was damaged by fire last Saturday to the extent of \$15,000. Fire is supposed to have originated from sparks from the furnace. The old shingle mill was entirely destroyed.

Senator McMillan is trying to have the state authorities pay over to the state fair association the \$30,000 due from the state to pay premiums. The prospect for success is not overly bright, as the senator was informed that there were other appropriations to be provided for prior to the state fair appropriation.

Mrs. V. E. Gonzales was killed in Pensacola last Monday by a street car crashing into an automobile in which she was riding.

Ex-President Castro has returned to Germany, being denied the right to land in Venezuela or adjacent territory.

**CURBSTONE GLEANINGS**

**A Budget of Opinion "Just Between You and Me"**

**EVEN THE GATE POST NOT IN IT**

**"A Chief is Among Ye Taking Notes, and Faith, He'll Prent 'Em"—So Says Saunterer.**

A newspaper is not altogether published to tell the people what they would like to know, but has to give much of its space to telling them what they ought to know.—Greely.

Special Correspondence to The Herald.

The Saunterer in his perigrinations meets all sorts and sizes of people, hears tales from every source, and has the bright and sorrowful side of every phase of life thrust upon him. He is always pleased to chronicle the rejoicing of his friends and is ever ready to share their sorrows. Among the stories which were poured into his ear last week was a tale of woe recounted by the victim himself, a gentleman well known to The Herald readers. It is nothing but a little love affair, and as a result of it there is one man who is much wiser for his experience, and who asks The Saunterer to point out to his fellow men the danger of flirting with a widow. He is sailing at widows with all of his might and he alone is to blame, for he should have known, like the elder Weller, that one "vidder" was equal to twenty-five or more ordinary women in "p'int of comin' it over you." A widow knows all a man's weakness; she knows exactly when and how to lead him into the labyrinthine kind of conversation from which the only escape is a proposal, and she can use her arms and all her personal charms with an effectiveness impossible to the most attractive maiden. She can always press her escort's arm just hard enough, but never a feather's weight too heavily; she can conjure with a fan and weave spells with an opera glass; she can assume an ignorance of the world and its wickedness that would do credit to a child, or can, if necessary, speak with the skeptical wisdom of a French courtier. She is many-sided, brilliant, experienced, dangerous, and she can teach a man more objectively, of the moth and candle business in an evening than he can forget in a lifetime. The only way to court a widow is in earnest or by proxy. Propose or fly is the alternative offered by the average widow to the man within range of her attraction, and if he expects any other outcome he is either ignorant or insanely rash. Courting a widow for fun is like kindling a fire with dynamite—a man never tries it but once. Courting a widow in earnest, if she be the right kind of a widow, is the summit of earthly bliss. But never court a widow for amusement, unless you want to make a fool of yourself.

While making a trip through central Florida the other day I was greatly amused at an incident that occurred on the train. At one of the smaller stations a genuine specimen of the Macaroni Delta type boarded the train. It was evidently his first experience on a railroad train and he was as full of exuberance and excitement as a small boy on circus day. He started to walk down the aisle just as the express struck a pretty sharp curve, and the sudden swerve carried him off his feet and tumbled him into a seat on top of a clergyman who had been trying to enjoy a cat nap between stations. The rural traveler extricated himself as soon as possible, and, without making any apology to the minister, began swearing with a volubility which proved him an expert in profanity. The clergyman bore this for a while in silence, and then touching the farmer's elbow quietly said: "Stop! My friend, do you know where you are going? If you don't, let me tell you. You and your immortal soul are bound straight for perdition."

"Well," said the ruralite, confidentially, "do you know I rather mistrusted this blamed thing from the start; so I bought a round-trip ticket."

An amusing scene was enacted in a drug store a few days ago between two of our citizens. The younger approached the other and said: "Mr. K., we have always been the best of friends, and I entertain the highest regard for you. I would not for the world do anything to offend you, but please wipe that black mark off your nose." The gentleman produced a handkerchief and removed the smooty obstruction. Turning to the younger he thanked him and said: "My dear Mr. D., I appreciate your friendship very much. I have always had a kindly feeling for you and your family, and I can assure you that your action in this matter has not lessened my esteem for you in the least. I want to ask you, however, to kindly button your vest straight the next time you make your toilet." The young man glanced hastily at his gar-

ment and turned very red in the face. Calling the clerk, he ordered soda for two.

The men who were, "I would not live always," evidently did not give voice to that sentiment in spring time, when all the world is full of beauty and blossoms. There is something so enlivening, so intoxicating in the fragrance that the spring winds waft through our sanctum windows that we want to live always, and we don't marvel that old Ponce de Leon wanted to find the fountain of youth which would insure perpetual life, when we reflect that he first saw Florida in spring time. Anyone would be excusable in starting out in quest of such a fountain under similar circumstances especially in Sanford.

Spring is the season of all others that is most desirable, most beautiful and most enjoyable. It has only one fault—it tantalizes us by its short duration.

What a wonderful city Sanford is destined to be in the next twelve months. I understand that First street will be paved to Cloud Creek, Commercial street will be paved and Sanford avenue, Palmetto avenue, Magnolia and Oak avenues will be paved from First street to Tenth street. This will give our city more paved streets than any city in Florida with the exception of Jacksonville, Tampa and Pensacola. This is a good move upon the part of our city council and public works department and the cost will be but little compared to the great benefits to be derived from these fine boulevards.

Our city has never presented a good appearance on account of the miserable streets and now that so much of the work is to be done at once Sanford is bound to spring into prominence as the best city in the South in every way.

Verily, Sanford is a wonderful city and will soon be a most beautiful one.

When all these great improvements contemplated for our city take place we should not forget that shade trees and grass plots add much to the appearance of any city and in Florida especially we cannot have too many shade trees. The vegetable lands being cleared up afford the people a good chance to secure fine palm trees at a nominal cost as there are hundreds of them being dug up and thrown away every day. Nothing makes a more beautiful boulevard than a trimming of palm trees and nothing attracts the eye of the visitor from the North so much as these palms. The grass plots fronting the residences afford ample space for the planting of palms and each property owner should avail themselves of this opportunity to beautify the streets and their property.

The city council is repairing some of the sewer lines but there are others that need attention before the summer is fairly upon us and I sincerely hope they will attend to this matter at once. The health of any community depends upon the sewerage system and Sanford being well provided by nature for an ideal sewerage system should keep everlasting at this question and get the city in the best shape possible. The city has a fine drainage into the lake and being supplied with a water works system and the artesian wells should have no trouble in keeping the sewerage system up to a high standard. Give us plenty of sewers and the best that can be had.

Sanford rejoices this week at the return of Capt. J. C. Higgins who has been ill for a month in the hospital at Baltimore. In Capt. Higgins, Sanford has a friend and in every citizen of Sanford Capt. Higgins has a friend. He is not merely a resident of Sanford because his duties entail a residence here, but in every enterprise and movement for the good of the community Capt. Higgins takes a leading part and his genial manner and whole hearted Irish spirit has endeared him to the hearts of the people. May his shadow never grow less.

While strolling through the park the other day I noticed a bunch of dusky maidens with hoes busily engaged in cutting down the weeds under the watchful eye of a guard. These are some of the African brunettes that Mayor Lake is determined to rid the city of and no better way can be found than a good dose of hard labor. A fine holds no terror for these offenders but hard labor does and the best way to rid the city of this shiftless class, both male and female is to put them on the streets.

Our efficient marshal and his aids have their eye upon the blind tiger at all times and manage to make a haul every few weeks. Their last catch was eleven tigers and the evidence was strong enough to have them bound over to the Criminal Court where Judge Beggs can be depended upon to give them a situation upon the county roads.

The Webb trial will come up next month at the session of court and Sanford will be depopulated again.

**DIRT ROADS ADVOCATE**

**Farmer Shows They May be Had at Small Cost**

**HUNDRED DOLLARS PER MILE**

**Earth Highways, Scientifically Built, and Regularly Maintained Desirable When Rock Roads Cost Too Much**

P. J. Jewett, a farmer near Butler, Mo., has written to the Kansas City Star as follows on the subject of good roads:

I have been reading with interest the various letters and editorials in the Star on the subject of good roads, as I read with interest anything on this subject anywhere. Although a farmer, I am also a "good roads" man.

I am pleased to see the interest shown, and, while I don't want to "knock," I am afraid the cause is being injured by its friends who write in that they seem to think no road a good one unless it is made of rock at a cost of \$3,000 to \$5,000 a mile.

I will state as briefly as I can how the subject looks to me, and I believe I will voice the opinion of 75 per cent of the farmers in the corn belt.

It is evident that if roads are made in the country the people who live there (farmers) must either do the work or pay for it. Individually I have little interest in roads other than those in my immediate neighborhood and those leading to my market. In twenty-five years I have not driven so far that I could not get back the same day. If I have to make a trip of any considerable distance I take a train. I am not yet able to keep a motor car for pleasure and am not willing to make roads for those who are.

I live in an average township in western Missouri that has sixty miles of road. Our assessed valuation is \$350,000. To make rock roads at the lowest estimated price per mile, \$3,000, would cost \$180,000, or more than half the value of all the property in the township. To make one mile at \$3,000 would require a tax of 83 cents on \$100. A rock road is never the best road. If it was we would not avoid it, as we always do, when the ground is dry and speed rings would be made that way. It is not permanent, and the cost of maintaining six miles would be more than we now put on sixty. I know that the idea is to improve the most important roads first and the others later, but the one who lives a mile from the improved road can take no more than he can pull over the unimproved one.

I note the argument that I can take larger loads, make better time, get better prices, all of which I admit, but my present income would have to be increased very much to enable me to stand this cost. I also note that good roads will enable me to sell my farm for a greater price. Suppose I don't want to sell. We are not all speculators. Would an acre produce more if its price was \$100 than if it would if it was \$50? Without doubt I would pay twice as much tax. If I want to sell it's different, though much like life insurance—a game you have to die to beat.

Do you see why farmers promptly vote down anything along this line? In Missouri the farmers killed the ten cent state road tax, that was really in their favor, because they thought it was to build a state road, in which they had no interest.

Don't think we are "mossbacks." We want good roads and appreciate their value, but if we must make them we insist that they be of a kind that we can afford and that will suit our needs.

Why not try good dirt roads? With the exception of a few miles, say 10 per cent, near the towns, where travel converges, a good dirt road properly maintained would be the very best possible eight months in the year, a good one ten and possibly the other two. I believe \$100 a mile would make good dirt roads in our township, and with \$200 more we could grade down the hills, grade up the low places, fill out the wet ones, properly grade and ditch them and put in concrete culverts where bridges were not required—in fact, make a modern rock road without the rock.

As to maintenance, a mile of thirty foot road can be dragged once for 50 cents. An average of ten times will be ample. But let's say fifteen, and we have a cost of \$7.50. A grader should be run over the road once a year to open ditches and maintain proper shape. Two horse graders are now made that will do this work at \$20 a mile; plowing furrow in ditches, 50 cents. To sum up, then, we have this result:

Construction	\$300.00
MAINTENANCE ONE YEAR	
Dragging	\$7.50
Grading	2.50
Flowing	50-10.50

A permanently good road, getting better every year, as all dragged roads do. Looks good, doesn't it? Best of all it's true. I have kept a mile of average road for the last six years in

such condition that an ordinary good team could draw a ton over it any day in that time, and the whole cost of construction and maintenance for the whole time is less than \$100. Give us road laws based on common sense construction that will provide for constant maintenance and we can have good roads. Missouri has a very good one in the "special road district" act that will apply if we can get rid of the idea that the only good road is a rock road.

**BUILDING OPERATION ACTIVITY**

**Sanford is Making Great Strides Toward a Greater City**

There is a constant demand for houses in Sanford and despite the fact that over fifty dwelling houses have been built in the past six months, the clamor for more houses still remains insistent. It is estimated that Sanford's population will increase in the next five years at the rate of one thousand inhabitants per year, and the question that is now agitating our citizens is where all these people are to be housed.

Sanford's greatest need at present is capitalists who will erect dozens of houses that can be rented at a reasonable rate. Many new houses are being built now, and with those in contemplation, Sanford can easily boast of one hundred new dwellings for the season of 1908-09. Those in course of construction at the present time are as follows:

- W. P. Carter, on First street.
- Dr. Puleston, on Park avenue.
- B. H. Herndon, on Magnolia avenue.
- S. O. Shinholser, two on Magnolia avenue.
- R. L. Jones, on Union avenue.
- J. D. Davidson, on Palmetto avenue.
- Machine & Foundry Works, brick garage, on Oak avenue.
- Sanford Carriage Works, brick building, on Oak avenue.
- W. R. Gardner, two houses on Palmetto avenue.
- G. W. Spencer, three houses on Park avenue.
- J. H. Cowan, on French avenue.
- T. C. Carlson, on First street.
- Paul Keely, remodeling residence on Oak avenue.

**The Gospel Boat Almost Finished**

The gospel boat being built by Rev. Parrott for work on the different waterways of the state, is rapidly nearing completion, and by the end of next week will be finished and painted.

Friends, both in and out of Sanford, have been kind with their donations, so that with a little more effort the material will be paid for.

For a time the boat will be towed from point to point, as there has not been sufficient funds contributed to purchase an engine.

A number of articles, such as table and bed linen, towels, dishes, etc., will be necessary for furnishing the boat. Anyone desirous of donating any of these articles can either drop a card to Rev. Parrott, city, or send them to their room at Mr. Barrett's, foot of Laurel avenue. Please mark them for gospel boat.

Anyone wishing to see the boat will find it at Mr. Gabbott's dock, foot of French avenue.

**Monster Locomotive**

The heaviest locomotive ever built, is now on the way to Chicago. It weighs 430,000 pounds without the tender, and 605,000 pounds with it. It is 92 feet long and is for service on the Sierra Nevada mountain division of the Southern Pacific railroad. With the possible exception of one locomotive used on the Erie railroad, this is the most powerful locomotive in the world, and is two and one-fifth times more powerful than the heaviest locomotive used by the Southern Pacific on its steepest grade. Crude oil will be used for fuel. The weight on the driving-wheels is 390,000 pounds. The tender, loaded and ready for service, weighs 170,500 pounds, making a total weight of more than 300 tons. The boiler has a diameter of 84 inches, and the total heating surface is 6,172 square feet. The whole base of the locomotive is 55 feet 10 inches.

**Purchased More Land**

O. E. Walker of Topeka, Kansas, has faith in the future possibilities of the celery delta, and in January purchased ten acres of fine land on the corner of Beardall and Geneva avenues. This week he purchased a twenty-one acre tract just opposite from F. B. Martindale, and will put it in shape at once for fall planting. This gives Mr. Walker thirty-one acres of good land, both tracts being corners on two avenues, and both very desirable tracts. Mr. Walker will return in the early fall and look after his interests here.

**A Name For The New Park**

The Sanford Ball Association is desirous of naming the new ball park, and gallantly leave the selection to the Sanford ladies. The one sending in the most eulphonic cognomen for the park will receive a season ticket as a compliment of the association. The contest is open to all, and the names are to be sent in to The Herald to be published each week.

**The High Price of Living**

During the past six months prices on various food commodities have increased at a rapid rate, much to the dissatisfaction of hotel and restaurant owners, and the inconvenience of people who make barely enough to "keep body and soul together." Present indications do not point to a decrease in any line.

Complaints to the above effect are being made throughout the entire country, but little hope is held for relief during the Taft administration. The dolings of Patton, the Chicago operator, have also sent wheat and flour prices skyhigh, with the top not yet reached. The only consoling feature of Patten's coup is that the suffering experienced by the poorer classes may force congress, at the next regular session, to pass a stringent law preventing stock gambling in foodstuffs. According to Washington dispatches, a number of votes sufficient to pass the bill have already been promised. Whether these votes will fade when the crucial moment comes, however, remains to be seen.

Get ready for the flies and Mosquitoes. Largest stock and lowest prices on screen doors and windows at Harry J. Wilson's.

THE SANFORD HERALD

Published Daily, morning at Sanford, Fla. R. J. HOLLY, Managing Editor

Subscription Price, \$1.00 a Year in Advance

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Burhans Advertising Company, Jacksonville, Representative.

Office First Floor in the Bishop Block, First Street Telephone No. 148.

WELL DONE, GOOD AND FAITHFUL SERVANTS!

The HERALD congratulates Mayor Lake and the city council upon their action last Monday night in deciding to pave the principle streets of Sanford with vitrified brick. No move of such vital importance in the future development of the city has ever been made and the vast amount of good engendered will not be demonstrated this week or next but in the years that are to come. Good roads are a most valuable asset for the county and good streets are twice as valuable for a city and in a city growing as rapidly as Sanford are a necessity. No city can advance and prosper without the co-operation of every citizen and no city can advance unless the progressive movements are led by the city officials. Sanford is blessed with a citizenship of progressive, wide awake people and the mayor and city council are not afraid to inaugurate these movements for the advancement of the city because even if there are some kicks the majority of the citizens are always willing to lend their aid and hearty co-operation. Considering that this means over three miles of paved streets the project seems rather large for Sanford. It was not done without mature deliberation and thought and many studious meetings together upon the subject. The council while endeavoring to advance the city's interests does not purpose to place a yoke upon the neck of the tax payer and in the present case while the project seems stupendous the arrangements for payment are all that could be desired and probably at no time in the future history of Sanford could this paving be done with less expense to the tax payers. No money ever spent by the city of Sanford will ever prove as valuable an asset as this paving and our citizens will never derive any greater benefit from any public work or take as much pleasure therefrom as they will in these same paved streets. The appearance of the city will be enhanced, the valuation of all property will be doubled, the credit of the city will be better, the name and fame of Sanford will be greater and every citizen will be proud of the fact that he resides in a progressive, clean and up to date city as Sanford will be in the future. Therefore a boquet is due to the city officials for their action in this affair, for their ability to grasp these ideas and carry them out successfully, for their faithful adherence to duty as public servants and the cool, business judgment that governs all their actions. May these streets be a lasting monument to your memory long after you have ceased to exist and may future generations while enjoying the fruits of your labors rise up and call you blessed.

BITTINGER ON SANFORD

Editor Bittenger of the Ocala Star passed through Sanford last week enroute to DeLand to attend the I. O. O. F. Grand Lodge meeting and while only in our city a few moments seemed to have grasped the idea very quickly that Sanford was the real article. In the last issue of the Star is the following:

"Then came Sanford, the celery city, which is growing and expanding like a green bay tree with genuine prosperity. Everywhere is seen evidences of growth and prosperity. New buildings are springing up everywhere and when you ask the reason of all this you need but pass in review its miles of celery fields, beans, tomatoes, and strawberries, etc."

Mr. Stafford, a former section man in Ocala a few years ago for the A. C. L., but of late years a conductor on the Leesburg and Sanford branch of the A. C. L., said to the writer, two years ago he purchased ten acres of wild land for \$50 an acre and this season refused \$200 an acre for same. Lands are in active demand in their wild state at from \$75 to \$250 an acre, depending on location. Sanford has a fortune in its irrigating facilities, alone. They tile their land several feet below the surface, bore a hole in the ground a short distance and a flowing well is the result. Those who live in and around Sanford say only one Sanford and nature has provided for her greatness. It is said there are more one-gallus millionaires in Sanford than any other place on earth and the knights and kings of celery are so common they no longer excite comment in that section. Here is located Editor Holly, a Herald, the liveliest journalist wire in the state, and Holly is a celery shouter from Kalamazoo, sure.

The "sick man of Europe" can now go to the hospital and have an operation performed for appendicitis. His only fear is that they may cut off his head instead of the appendix.

Senator McMullen has earned a niche in the Temple of Fame for his devotion to his duty as he saw it.

A resolution has been adopted by the legislature making the orange blossom the state flower of Florida.

Low Brown of the St. Petersburg Independent should be made Poet laureate of the state press. His latest poem "Responsibility" is a literary gem.

Sanford district is not the only one in Orange county that is wondering where the road tax has been spent. There will be a day of reckoning later on.

Now that our people realize what a great boon the paved streets are to become they are not content to stop at First street but will pave several of the principal residence streets.

The Tampa Tribune says it will not discuss prohibition for at least one year. Does Lambright intend to take a year's vacation or how does he expect to side step this issue for a year?

Elsewhere in this issue is a letter from C. R. Walker, chairman of the board of school trustees, in which he explains the action of the board regarding the sale of the bonds for the school extension, and assures the public that Sanford school will soon have the much needed improvement. This will be good news to the friends and patrons of our public school.

PROPERTY OWNERS ONLY

The question of voting bonds for city improvements should be left to property owners only. There is no valid reason why a property owner should have his taxes raised by the man who has no property and nothing at stake. The present bill in the legislature regarding bond issues for Sanford should be amended to specify property owners only, just as several other cities have done.

B. B. Tatum, president of the Miami Metropolis publishing company, has sold his interest in that concern to A. J. Bendel of Colorado Springs, Colorado, a capitalist largely interested in Miami's prosperity. S. Bobo Dean retains full management of the Metropolis, being secretary, treasurer and editor. The Metropolis is a power for public good and a leader in journalism on the East Coast.

ET TU, BRUTE!

It is safe to say that the good citizens of Sanford district do not endorse the editorial regarding Orange county's roads published in last week's Sanford Herald. It is even easily believable that Bro. Holly after considering the matter, don't want to hog all the good roads for his own corner of the county. At any rate he can't get them, so what's the use of talking.—Orlando Sentinel.

OUR NEW COUNTY SOLICITOR

Hon. Geo. A. DeCottes is now county solicitor for the county of Orange, his election having been confirmed this week. Mr. DeCottes, though young in years is well versed in legal lore and has made a remarkable record as an attorney. He can be depended upon to fill the position of solicitor in a manner that will be a credit to his constituency. While a citizen of Sanford, Mr. DeCottes has held several positions of trust and performed the duties of the same in a most commendable manner. His fellow citizens are especially proud of his success and will watch his future with great interest. Hon. T. P. Warlow, the retiring solicitor is a gentleman of sterling worth and character and though only an incumbent of the office a short term made an enviable record as a fearless prosecutor devoted to the duties of the office.

WHEN, OH, WHEN?

- When will the coal chute be moved and the gates at the railroad crossings be placed in position?
When will other sections of the county outside of Orlando get good roads?
When will that Fourth of July celebration committee have a meeting?
When will the engines in the yards be muzzled after dark?
When will Sanford get that new opera house?
When will it be possible for a poor man to buy a city lot large enough to turn around on once?
When will Railroad Way be paved?
When will the lake front be made a boulevard and the old rookeries torn down?
When will the city limits be enlarged?
When will an editor be able to own an automobile?
When will the legislature cease making a crazy quilt of the constitution?
When will the division bee lodge in the bonnet of Orange county?
When will Sanford get a new postoffice building?
When will THE HERALD be published to suit everybody?

Sanford will have fifty blocks paved with vitrified brick. What do you know about that?

SWINDLED IN JACKSONVILLE

The state papers swindled by the Jacksonville winter exposition in the advertising contracts will appreciate the following little bit of satire from the Lakeland News:

"The Jacksonville Metropolis, in a recent issue, has an excellent editorial on the payment of one's honest debts. We trust that the Metropolis will continue its good work until its advice strikes in on some of the businessmen of its city. Meanwhile, in this connection, perhaps we may be allowed a little sermon to the newspaper publishers of Florida. We would say to them, 'get cash in advance for any advertising you are asked to do for public amusement enterprises lunched by citizens of Jacksonville.'"

IT PAYS TO ADVERTISE

Last week the "Herald" advertised the fact that a ten dollar bill had been lost, and stated that if the person finding it were honest said person might leave the money with the Herald, and if dishonest said person might keep it. Up to the time of going to press we have received no ten dollar bill. Therefore the person finding the money must have read the item and kept the bill.—DeFuniak Herald.

An escaped murderer, who had been at large for three years, and for whom the officers had been hunting all the time, was found last week in Ft. Myers. And where do you suppose he had been hiding all this time? He was merely clerking in a store that didn't advertise, and would doubtless never have been found had not the sheriff entered the store to attach the goods.—Taylor County Herald.

LILY WHITES GAIN A POINT

The Lily White Republicans, who have been down and out for several years in Florida, recognize an ally in President Taft and Secretary Root, and according to the resolution recently passed by the House and forwarded to the President, the Lily Whites will soon be in the ascendancy. The Jacksonville Metropolis has the following in regard to it:

"The resolution introduced is directed at Joseph E. Lee, the colored collector of internal revenue, and urges the representatives from Florida in Congress to do all in their power to see that Lee is displaced. Lee runs the Republican machine in Florida and has a few white men who stand with him. Mr. Chase's object is to have Taft appoint members of the so-called 'lily whites' who will be acceptable to a majority of the white Republicans and white Democrats of the state. Representative Chase's resolution met with thunderous applause, and passed with enthusiasm. Mr. Chase believes that it is in the province of the Florida delegation to show President Taft that 'lily white' Republican can bring about more harmonious relations in the state, and break up a machine which, as it is alleged, eliminated thousands of white Republicans from participating in party politics."

Sanford Building & Loan Association

At a meeting of the directors of the Sanford Building & Loan Association, April 27, it was found that the association was in a very prosperous condition, having sold seven hundred shares of stock to date, and the association has loaned money for the construction of five houses, and has applications already for \$12,500 to construct other houses.

A careful inspection of the books show that very few of our merchants and business men hold shares, and with the present membership the association is unable to furnish money anything like as fast as it is needed to construct new houses in the city. Every new building that we can arrange for certainly serves to keep money in circulation, as well as to improve the city and provide employment for all classes of labor.

It was therefore resolved by the board of directors to appeal to the business men

and citizens of Sanford to come forward and more loyally support the association, so that the good work of building and improving may go on. We should readily have sold our shares with the progressive people and great progress in every way, at least two thousand shares of stock, and if each man will take this appeal individually we will have that number within another month. This appeal is to you!

Officers of the association will cheerfully explain its methods and workings. It is purely a co-operative home building association, and in addition to being a good investment, all will be benefitted by making it possible to loan a large amount of money this year to build houses.

WANTS

Regarding The School Building

To the Editor of The Herald: Noting your inquiry in last weeks issue of your paper as to progress of plans for enlarging our public school buildings.

Allow me in this connection to call the attention of yourself and that of our citizens and patrons of our schools to the fact that our school year will now soon close, May 21st, so that the time is short for you to visit our schools and see for yourself just what is being done, the needs of the school, etc.

Thinking you for bringing this matter to the notice of our citizens, and for the kindly assistance you through your paper have many times given to the school and to the board of trustees, I am

In the senate the bill giving you and other sub-school districts the right to bond I will write him today and ask him if he cannot have this matter advanced.

Yours truly, J. D. BEGGS, Letter From Senator Massey

Dear Sir—In reply to your letter of the 20th inst. I state that a bill allowing special school district trustees to issue bonds was introduced at an early stage by Senator Dayton. As I was not sure whether it would meet all the requirements of our case, I also introduced a bill, prepared by Judge Beggs, covering the necessities of your case, and the two bills are on the Calendar together.

Yours Very truly, LOUIS C. MASSEY.

CLOSING OUT My stock of Guns and Rifles. New and second-hand. Bargains if you want them. Harry J. Wilson.

### I. O. O. F. ANNIVERSARY

#### Sanford Lodge Attends Lecture At Congregational Church

#### ADVANTAGES OF ORDER GIVEN

#### Large Numbers of People Attend The Services and Dr. Kirkland's Interesting Lecture

In honor of the ninetieth anniversary of the foundation of the order, the Sanford lodge of Odd Fellows attended the Congregational church in a body last Monday night, and listened to a masterly address by Dr. Kirkland.

He took for his subject Odd Fellowship, is it of God or Men? He took for his text, 1st Samuel, 20th chapter, 42d verse. "Jonathan said to David go in peace, for as much as we have sworn, both of us, in the name of the Lord, saying the Lord be between me and thee and my seed and thy seed."

Jonathan was a young man, and he was as sacred as high heaven. Jonathan was the son of King Saul. His father is now on the throne. He is a vicious, blood-thirsty wretch. He has been jealous of David because of his success and his popularity among the people. He has set in his heart to take the life of the young man. David, knowing this, left the king's table and the king's palace to wander into strange lands. It seems that Jonathan went with him a distance, we cannot tell just how far, but we know it was far enough to guarantee safety to the coming young king. Here Jonathan and David held a conference, and organized between themselves a secret society, having a covenant and signs to guide it; the basis of which Odd Fellowship today is now operating upon. Jonathan said to David you stay here in the field and I will return to the king's palace and have a talk with my father, and I will come back tomorrow and bring a lad with me. I will draw near where you are in the field, and will shoot three arrows as though I shot at a mark. I will say to the lad go fetch the arrows. If I say to the lad the arrows are on this side of thee you may know by that that there is safety for you, and you may come home. But if I expressly say to the lad the arrows are beyond thee, you may know by that that my father is determined to kill thee, and that you must go away into strange lands. It was necessary for the preservation of Israel's great king that this secret society of Odd Fellowship be organized. Otherwise the world would never have had the sweet singer of Israel, and the book of Psalms. But God put it into the heart of these men to organize themselves into a secret society, swearing faithfulness to each other as long as life should last, and to their children. This covenant was kept. Jonathan was killed in the Hebrew war. He had one little boy at the time of his death. When the nurse heard of Jonathan's death, she became excited and let the little fellow fall, and he became a life cripple. Later, in the providence of God, David became king over the land and sent for the families of King Saul. Remembering his covenant with Jonathan, he ordered that all these families have their land and property restored to them. Then he came to the cripple man, who was a pauper and beggar, and said whose son are you? He answered Jonathan's son. Then David's heart welled up within him, for he remembered the covenant he made with this man's father. Then the king said to the crippled man I restore to you all your father's property. I give you an income, besides all that, you shall eat at the king's table with the king's family. Thank God for such an organization. Thank God for such a covenant and thank God for such a people.

Odd Fellowship proposes to do for the world what this secret society did for these two men and their children. It proposes to guide men by signs and signals into safe paths. I hope that on the occasion I evidently saved my life. I was leading a little child along the street and reached the corner of a short block. On the opposite corner was a policeman, and a saloon between us. The officer was an Odd Fellow and knew that in that saloon was a riot brewing. He gave me the danger sign. I snatched the little child and ran. The policeman reached the saloon door, and was shot down from firing within. When I looked back and saw the dead officer, how thankful I was for such a brave man, and how thankful I was that God ever gave this world such an organization, that by such signs that not only the life of the immortal David might be spared, but even my life, as unworthy as it might be. Whatever I am, and whatever I may be to the world; I owe it to the dead officer. I owe it to his uplifted hand. Yes, I owe it to the Noble Grand on high, who gave these signs to guide the sons of men. Odd Fellowship proposes to visit the sick, and relieve the distressed. Well do I remember my first acquaintance with Odd Fellowship. I was pastor in a city. One of my men took sick. He was a very poor man,

A shoe cobbler by trade. When I heard of his sickness I called at the house, expecting to find the family on starvation, but to my surprise I found one of the best physicians in the town attending the sick man, a high-priced nurse at his side, medicine on the mantle, and groceries in the kitchen. I asked the wife whence came these things. She said my husband is an Odd Fellow, and this is what they propose to do. By and by he died. Instead of being hauled off to the Potter's field in a spring wagon, he was given a Christian burial by his friends. The banker was there, the lawyer was there, the merchant was there, the shopman was there, the judge of the court was there, and the God of heaven was there. After the funeral I could see no future for the poor widow and her fatherless children. I called again at the little humble home, found her very busy getting ready to take the next train. I am going to the Odd Fellows orphans home, where my children will be raised and educated, were her words. Oh! brother, do you know of a religion better than this? Can this dear old book—the Bible—teach you better religion than this? The man who best serves his fellow man, best serves his God. James says pure religion and undefiled before God is this: to visit the widows and fatherless in their afflictions. Again the Bible says: to him that is afflicted, pity should be shown from his friends. There is a weekly income to every Odd Fellow unable to work. Should he die, his funeral is paid for, his widow cared for, and his children educated. Could a man do more for his fellow man than to follow him through life, to administer to him in the dark moments; and when his life's work is done, and he is cold in death, to give him a Christian burial. I see hanging on yonder tree a dead man. A friend comes and begs the body. The people say he is an imposter, but Josephans and says I can't help what you say, I loved him and I want to bury him. So he buried the dead Christ. He buried him in his own grave. One by one we follow our brethren to the end of the race. Oile by one we lay them away until Jesus comes. Here our password changes, but by and by we are going to come to the great hall on high where Jesus Christ is the Noble Grand. Where the regalia of heaven will be righteousness of saints. Where the password in the grand lodge will be Jesus, Jesus, Jesus. If you have not the password tonight, brother, I beg you to get it. Our brothers are going up one by one to the grand lodge. Some have gone with the password. Some I fear will answer in that awful day and say to the Noble Grand I never had the password.

#### UNKNOWN, YET FAMOUS

#### A New Kind of Potato That Beats The Whole Bunch

J. F. Hancock, who farmed on the Alex. French place this season, introduced a new Irish potato here that bears no name, but takes the prize for the largest yield. Mr. Hancock, through G. R. Calhoun, shipped several hundred bushels of this potato in here this season, and all the growers who planted it declare it to be a world-beater. From one barrel planted on the French place, forty-one barrels were dug as a yield. From one and a half acres one hundred and seventy-four barrels were raised.

W. O. Nolan, who has a farm on Soldier Creek, in Mettinger hammock, planted this potato, and five potatoes in one hill weighed seven pounds.

The potato is a smooth, white variety, and grows uniform in size, the hills making as many as twelve to fifteen potatoes.

Mr. Calhoun has ordered several carloads of this new variety for next season's planting, and expects to fill as many orders as possible, as many of the growers in this district, and also at Hastings, have expressed a desire to plant this kind.

As the potato came originally from Michigan, and gained fame in Florida, The Herald suggests the name for the new potato of Fla-Mich, or, leaving out the hyphen, call it Flamich.

#### Early Closing of Stores

We the undersigned merchants and business men of Sanford as an evidence of public spirit and progressiveness agree to close our respective business places and offices Thursday of each week at noon beginning with May 1st and ending with Oct. 1st, 1909. This will allow all employees and citizens a half holiday each week for rest during the dull summer months:

#### Lady Kills Large Alligator

Mrs. J. M. Troublefield, who tends the drawbridge for the A. C. L. is a good shot with rifle or revolver. Last Monday morning Mrs. Troublefield killed an alligator that measured ten feet and ten inches, with a 38-pistol.

#### FROM MACARONI DELTA

From The Herald's Special Correspondent By Wireless Telephone

Si Blizzard's wife is having much trouble in raising her last pair of twins on a bottle. One of 'em has sucked the rubber nipple off the bottle twice and swallowed it and Si's afraid the rubber will get absorbed in its system and the kid will become a rubber-neck.

Sister McSwatt's bunions are becoming quite painful again.

Aunt Mirandy Smoot, who slipped on her front door step the other day and sat down with much emphasis on the south end of her spinal vertebra, is having spiral curvature and nervous prostration to beat the Jews.

Mose Updyke and his goggle eyed sister Samantha visited the Korjeter family at Mudsack last Sunday.

Bud Peadody and Punk Jones called on the Slocum girls last Sunday. It is whispered that Punk and Skinny Jane are engaged.

Three Nights in a Row. — Going to be played three nights next week in the Cameron City opera house, and after the show an egg sucking contest is to be pulled each night.

Ephriham Boneset has been elected deacon in the colored Hardshell church and will take up the regular collection on Sundays for the benefit of the benighted heathens in Africa and incidentally its Indiana avenue annex. On account of the danger of the state going dry, Rev. Deuteronomy Jones has laid in three gallons of gin.

Owing to indiscretion in his eating, Columbus Jenkins' dun mule was quite overcome with colic last night.

Ophelia Paterbaugh and Melinda Hostetter were set up with by the Billingsley boys last Sunday night. Both boys very sensibly went home at ten o'clock instead of wearing out their welcome.

Violetta Bikkins is stricken with chicken pox. She caught 'em from the hired man every Sunday night, and it is said he brings the dread malady from the west side near Brady's store.

A hundred dollars reward can be raised in our town for any kidnapper who will kidnap either one of the cursed Bixler boys and not get caught before he gets 'em out of the community.

#### A STEADY DRAIN

Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed

Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broad cast through the system, sowing the seeds of disease. — Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, cricks in the back, gravel and kidney stones. The proper treatment is a kidney treatment, and the best remedy is Doan's Kidney Pills. Great Sanford cures prove it.

Mrs. Anna Erickson, Third St., Sanford, Fla., says: "For years my kidneys were weak and I had but little control over the passages of the secretions. I also suffered almost constantly from backache, accompanied by pains across my loins. Some days I could hardly get around, having but little strength or energy. I finally obtained a box of Doan's Kidney Pills and they soon proved to be what I needed. My kidneys gradually became stronger, my back ceased to ache and the pains across my loins disappeared. Since taking the contents of this box, I have been able to rest well and as a result, have felt much better in every way. Doan's Kidney Pills certainly have my highest endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Celery Avenue News

There will be a basket picnic and fish fry at the shell mound, on J. N. Whitner's place, Wednesday, May 5th, given by the celery growers of Celery avenue. All truckers and their families are cordially invited. There will be music, lemonade and ice water furnished free by committee. A grand time is anticipated. Come out and let us socialize and become better acquainted on that day. Any information regarding picnic can be had of the chairman of the committee, John T. Edwards, box 74, city.

T. P. Conpropt's mother has returned to Chicago, after a pleasant visit to her son, and to the land of celery, sunshine and flowers.

Roy Carter and family have returned to Long Island to spend the summer.

The celery delta is now advancing and becoming settled up at a rapid rate. At present there are two stores going up at the south end of Cameron avenue, also several residences, among which is a cozy five-room cottage just completed by Ed. Hess. At Cameron City there is the foundation of a store under construction. We learn there is a large colony of Michigan people just moved into Cameron City. We would say to them, as to all new comers, come out to the picnic on May 5th, and let us older settlers welcome you to the delta.

The writer passed the editor of this paper with his family on the streets of Sanford recently, and from the size of his little brood, we would suggest to brother Holly to buy a truck farm.

[Ed. have taken your suggestion and bought one.]

## COUNTY HAPPENINGS

### A Budget of Interesting Items From Correspondents

#### THE EVENTS OF ORANGE COUNTY

#### Efficient Staff of Reporters Weekly Covers the Territory for The Herald

[We invite correspondence on live topics from all sections of the County, also news items of interest. Brevity will insure prompt publication. Articles contrary to the views of the Editor will be published, but abusive and anonymous communications will be rejected. We will not be responsible for opinions expressed by contributors. All communications intended for current issue must be in hand not later than Tuesday p. m.]—Ed.

#### GENEVA GLEANINGS.

Special Correspondence to The Herald:

Mrs. McClintock of Orlando is the guest of her friend, Mrs. Mary Taylor.

Mr. and Mrs. Oscar Nicholson, formerly of Geneva, but now living in Daytona, are visiting the latter's parents, Mr. and Mrs. T. D. Peters.

Mrs. Aubrey Moran has had as her guests the past week, her sister and brother, Mr. and Mrs. Samuel McBride, of Lake, Mary.

Mrs. Geo. Geiger's sister from Orlando is visiting her.

David Speer made a business trip to Jacksonville last week.

Mrs. Williams of Miami is visiting her daughter, Mrs. Chas. Harrison.

The Ladies' Society was entertained last Thursday afternoon by Mrs. Pattishall at her handsome new home. There was a full attendance, and a pleasant afternoon was spent by all.

Don't forget the entertainment at the city hall on the evening of May 7th. Admission 10 and 25 cents.

Mr. Gilmore left last Wednesday for Atlanta, Hot Springs and other points, to be gone about five months.

Mrs. Rhebinder's school closed last Friday after having had a very successful term. On Saturday they gave a picnic at Lake Blanche, which was very much enjoyed by all. A program was rendered at 10:30 which gave credit to all the pupils and teacher. Immediately following dinner was served, after which eating ice cream, drinking lemonade and "general picnicking" was the order of the day. At a late hour all went home reluctantly, hoping to have many more such pleasant days.

Two young ladies, Misses Olive Taylor and Millie Rhebinder graduated from this school, and were presented with diplomas by Mr. Palmer Taylor, trustee.

#### OVIEDO OCCURRENCES

Special correspondent to The Herald.

The Oviedo Magazine Club was delightfully entertained by Miss Helen Lawton, assisted by her mother, Friday afternoon.

After the usual preliminaries, the subject: "Glassworks of Venice" was taken up. Interesting extracts were read by Miss Mary Aulin and Mrs. Mead, bearing upon the manufacture of exquisite glass and the beautiful mosaic work, for which the Venetians are so skilled. A brief sketch of Marion Crawford and his works, read by Miss Kinney, completed the program. Then followed the conversation period, the enjoyment of which was further heightened by the delicious refreshments served. Miss Helen was charming in her grace and engaging hostess, and all bade her adieu with genuine expressions of pleasure for so delightful an afternoon.

Mr. and Mrs. Finch of North Carolina are visiting Mrs. Luther. They seem to enjoy angling for the flny tribe, from their daily trips out equipped for a "catch."

Father Fox from Orlando spent several days here last week, as the guest of Mr. and Mrs. Yonge. We are always glad to welcome this good man into our midst.

Dr. Crawford made two visits to our village last week.

"Faint heart never won a lady."

Mr. and Mrs. Luther gave a little fish-fry one day last week in honor of their visiting guests, Mr. and Mrs. Finch. Among the party were Mrs. King and her daughter, Miss Anita.

Mrs. Balte Jones and baby, accompanied by Miss Ella Belle, left recently on a visit to Valdosta.

#### LAKE MARY MELANGE

Special Cor. to The Herald.

Mrs. M. Nelson from Tampa is visiting her mother Mrs. J. A. Nylun. She intends to spend several months here.

Mr. and Mrs. Samuel McBride spent last week visiting relatives and friends at Geneva. While they were gone they attended the Buda school picnic and also made a little visit in Oviedo.

Miss Margret J. Rogers from Kissimmee is expected Wednesday. She will sing every evening except Saturday, May 1st, for a week at the Presbyterian church commencing the 28th. All are cordially invited to come.

Mrs. A. Keely and Miss Mary Nicholson left last Saturday for Tampa where they

will spend a few days with the former's son and daughter, Mr. and Mrs. Keely.

The Merry Circle met last Saturday at the usual hour at Mrs. J. G. Martins and spent a pleasant hour making badges for the members of the society.

Mrs. Walter Schucht was here last week having her furniture packed and shipped to Fernandina where she and Mr. Schucht intend to make their future home.

Mrs. H. Wood, who has been visiting her sister, Mrs. J. G. Martin returned to her home in Tampa last Friday. All were sorry to have her go and hope that she will soon come again.

#### PAOLA POINTS

Special Correspondence to The Herald:

Summer seems to have descended upon us all at once, this last week. If "mother Slimmer" had only waited another week; she might have escaped all danger from a too sudden change.

Some days ago a car, loaded with sawmill "properties," was put in on our siding, and a rumor was current that another sawmill was to be located in this vicinity. This was verified later by the visit of Messrs. W. A. and A. D. Zachary of Tallahassee, selecting a site for their mill. We understand it is to be put up immediately between this place and Markham, and hope to have these gentlemen and their families for our neighbors, in the near future.

Mr. and Mrs. Bullock of Island Lake leave this week, Wednesday, for their home in Steubenville, Ohio.

Mrs. Edna Sabin, of Cleveland, Ohio, who has been the guest this winter of her aunt, Miss Icenhour, of Twin Lakes, left last week for her northeast home.

Miss Mary Hunter, of Sanford, has been visiting Mr. A. A. Hicks and family the past week.

We are glad to see Mr. Victor Schmelz of Sylvan Lake, out again. He has been laid up with an attack of sciatica for some little time.

"On the Square"—empty hours.

Wanted—Companionship by a lonely young man.

#### Get the genuine

When you wish to buy The Sanford Herald, a Stetson hat, Sanford celery, a Butterick pattern, a package of Quaker oats or a can of Royal baking powder, would you feel satisfied if your dealer should send you some other brand for the same money, claiming that it was "just as good?"

When you put down your nickel for a bottle of coca-cola, will you expect coca-cola or some other "just as good" imitation?

No real good article has ever been put on the market, that there were no imitations made after it, and the more imitations there are, the better is the guarantee for the wholesomeness of the original, and also there was never an imitation made to equal the original.

There have been on the market more than two hundred cola drinks, and whatever their name may be, they are nothing but imitations of coca-cola, trying to profit from the tremendous favor coca-cola has with the public, on account of its superior qualities.

Talk about cocaine in coca-cola, the state chemist of nearly every state and the department of agriculture have all pronounced it pure, with not a trace of cocaine, and only about one-third as much caffeine to the bottle as a cup of strong coffee contains.

Dr. Abbot, state chemist of Texas last year, said that out of eight cola drinks examined by him, coca-cola was the only one without cocaine or artificial sweetening.

Therefore, if you want what you pay for, when you call for a bottle of coca-cola, be sure and inspect the crown or bottle for the well-known trade-mark, and do not allow him to palm off something on you which he can probably buy for less money. Get the genuine.

Sanford Coca-Cola Bottling Co.

CHEAP ROAD MATERIALS.

Sand-clay Combination is a Good Substitute for Macadam. In connection with the good roads movement in Kansas it is worth while calling attention once more to the stretches of sand-clay roads built out of Dodge City and Garden City last summer by the field force of the office of public roads of the department of agriculture in Washington.

In a macadam road the dust ground of the fine bits of rock with which the surface is made acts as a binder, forming a tight roof that sheds water if properly constructed. In the sand-clay roads the clay serves as the binder. The proportion of clay to be used depends on the quality of the sand.

The proper proportions of the mixture are determined by filling a glass with the sand and then filling it up with water. The water is poured off and not mixed. Since it just fills the space between the sand grains it represents about the amount of clay necessary to be mixed with this quantity of sand.

The sand-clay road when well constructed makes a fairly good highway even in the spring rains. But the government experts don't suggest it as a substitute for macadam except in territory where rock is so scarce as to make the cost of macadam roads prohibitive. In territory of this sort sand beds are often found in connection with clay, and the sand-clay combination is infinitely better than the ordinary or barnyard variety of dirt highways, into which the wagons sink to the hubs when the spring rains set in.

The department estimates that the sand-clay roads can be built at a cost of from \$300 to \$800 a mile, depending, of course, on the distance of hauling. The expense of maintenance is not heavy. If the road becomes muddy more sand must be hauled on, and if it becomes sandy more clay must be used. The surface must be kept crowned with a drag.

Macadam roads cost about ten times as much for construction, but the department believes they are worth the extra expense whenever it is at all practicable to construct them.

It is understood in Washington that the roads built in western Kansas have proved serviceable and that extensions are to be constructed by the communities that have tried them.

EVILS OF POOR ROADS.

Cost of Hauling Cut in Half by Good Highways.

The average cost of carrying a ton of goods a mile by lake is eight-tenths of a mill and by rail 7-14 mills. The average cost of carrying a ton of goods a mile on first class roads is said to be 7 cents and on common country roads 25 cents.

The latest report (made by the department of agriculture for 1904) shows 2,151,670 miles of public roads in the United States, of which 7.14 per cent were improved. In old, populous and rich states, such as New York, Pennsylvania, Illinois and Michigan, improvements were reported on less than 10 per cent of the public roads.

Almost every pound of freight originating upon or destined to a farm moves over a country road, most of it over a "common" country road, at a cost some three times as high as it would be if the road were first class. Sometimes the goods actually pay a heavier toll for a few miles' carriage between railroad station and farm than for all the remainder of the journey.

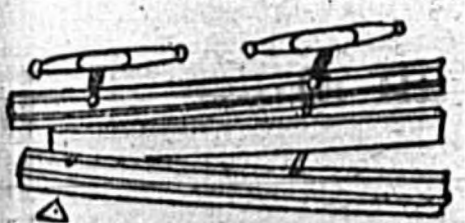

The railroads themselves spend millions to clip off 1 or 2 per cent from operating expenses here and there, and if farmers were presented with a feasible scheme for reducing their railroad freights, even one-quarter, they would feel that there indeed was a burning issue.

Road improvement receives much more attention than formerly, but much less than it deserves.

SIMPLE ROAD DRAG.

How to Make and Use One Composed of Railroad Iron.

Two pieces of railroad iron five feet long are required to make the road drag shown in the accompanying illustration. Drill holes in each end of

ROAD DRAG OF RAILROAD IRON.

these irons and bolt them with iron rods two and a half feet apart on one end and two feet on the other.

Hitch a horse to each end of this drag and drive the narrow end toward the ditch every time. This brings the dirt to the center of the road. By spiking a plank through the center one can ride on the drag. Drag the roads after rains as soon as the mud dries.

A Deserter. Hewitt-Green has been arrested for being a deserter. Jewett - Wife or Army? - New York Press.

Notice of Application for Letters Patent for "The Crescent Orange Company."

Notice is hereby given that on the 1st day of May A. D. 1909, we will apply to the Honorable Albert W. Gilchrist, Governor of the State of Florida for Letters Patent upon the proposed Charter hereto attached:

S. O. Chase, C. Chase, B. W. Herndon. Sanford, Florida, March 29th 1909.

PROPOSED CHARTER OF "THE CRESCENT ORANGE COMPANY."

1st. We, the undersigned, have hereby associated ourselves together for the purpose of incorporating and forming a corporation under the laws of the State of Florida under the name of "The Crescent Orange Company," with its principal place of business at Sanford, Orange County, Florida.

2nd. The general nature and character of the business to be carried on by said Company is to buy, sell and lease real estate; to purchase, plant, improve, operate and sell orange groves; to buy and sell oranges; to erect and use packing houses; and to pack fruit for shipment; to construct and operate tram roads over property owned or leased by them, or from which they are to gather fruit; to own and run steamboats for the proper carrying on of their business; and to do such other and further acts necessary to the successful operating of the business above mentioned.

3rd. The amount of the capital stock of said Company shall be Fifty Thousand (\$50,000.00) Dollars, divided into five hundred shares of the par value of \$100.00 per share, and is to be paid in cash or in land and orange groves at actual cash value, all stock to be paid for in full when issued.

4th. This corporation to exist for one hundred years.

5th. The business of the Company is to be managed by a Board of Directors consisting of not less than three or more than seven in number, and the following officers, to-wit: A President, Vice-President, Secretary and Treasurer, who are to be elected on the first Tuesday in July, 1909, and the first Tuesday in July in each and every year thereafter; and are to hold their office for one year and until their successors are elected and qualified.

6th. The highest amount of indebtedness or liability to which this Company may at any time subject itself is \$30,000.00.

We do hereby subscribe for the number of shares of stock in said Company set opposite our names and residences, to-wit:

S. O. Chase, Sanford, Florida, Fifty shares  
C. Chase, Jacksonville, Fla., Twenty-five shares  
B. W. Herndon, Sanford, Fla., Twenty-five shares

In Witness Whereof, We have hereunto set our hands this 30th day of March A. D., 1909.

In presence: S. O. Chase, W. R. McQuinn, C. Clavel, F. H. Farwell, B. W. Herndon, A. S. O. Chase, Wm. Leffler, & B. W. Herndon (D. F. Whitner, Jr., Notary Public.)

STATE OF FLORIDA, COUNTY OF ORANGE. I, B. F. Whitner, Jr., Notary Public, do hereby personally name S. O. Chase and B. W. Herndon to me well known as two of the persons who signed the foregoing Articles of Incorporation, and acknowledged that they executed the same in good faith for the uses and purposes therein set forth.

In Witness Whereof, I have hereunto set my hand and official seal this 27th day of March, A. D., 1909.

My Commission Expires February 9th, 1913. STATE OF FLORIDA, COUNTY OF DUVAL. Before me personally came J. C. Chase to me well known as one of the persons who signed the foregoing Articles of Incorporation, and acknowledged that he executed the same in good faith for the uses and purposes therein set forth.

In Witness Whereof, I have hereunto set my hand and official seal this 20th day of March, A. D., 1909.

Notary Public State of Florida at Large. My Commission Expires Nov. 6, 1911.

Notice of Application for Tax Deed Under Section 8 of Chapter 4888, Laws of Florida

Notice is hereby given that I. V. Strunstrom, purchaser of Tax Certificate No. 324, dated the 3rd day of July A. D. 1905, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Orange County, Florida, to-wit: Beginning 30.04 Chs. E. of S. W. Cor. of Sec. 35, Tp. 10 S., R. 30 E., Run W. 15 Chs., N. 15 Chs., E. 7 1/2 Chs., S. 10 Chs., E. 11 3/4 Chs. to R. R. S. W. by along W. side of right of way to beginning 14.07 acres. The said land being assessed at the date of the issuance of such certificate in the name of C. H. Lindsay. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 3rd day of May A. D. 1909.

Witness my official signature and seal this the 30th day of March A. D., 1909.

33-4 Clerk Circuit Court, Orange County.

In the Circuit Court of the 7th Judicial Circuit of the State of Florida for Orange County

City of Sanford, Bill in Chancery to Enforce Tax Lien. M. B. Bronson vs. Tax Lien.

To the defendant, M. B. Bronson: It appearing from the affidavit of the City Solicitor of the City of Sanford herein filed, that he believes that you are a non-resident of the State of Florida, and that your residence is unknown, and that there is no person in this state the service of a subpoena upon whom would bind you, and that your age is over the age of 21 years.

It is therefore ordered that you do appear in this court to the bill herein filed, upon Monday, June 7, A. D. 1909.

It is further ordered that this order of publication be published once a week for eight consecutive weeks in The Sanford Herald, a newspaper published in the City of Sanford, in Orange County, Florida.

Witness my hand and the seal of said circuit court, this 27th day of March, A. D. 1909.

## IN THE SOCIAL WORLD

### Items of Interest Concerning Society People.

### POINTS PURELY PERSONAL

#### How Celery City Vanity Fair While Away the Golden Hours— Social Gossip.

Never before has a prettier party been held in Sanford than that given by Mrs. A. W. Brown and Mrs. O. W. King at the hotel Bye-Lo on the afternoon of April 15. The decorations were in pink and light green crepe paper and palms. These, together with the rich dark furnishings of the room and the filmy gowns worn by the ladies, transformed the parlor of the Bye-Lo into a perfect bower of beauty. After the guests had assembled each was presented with a red or white rose procured from Mills, the florist, of Jacksonville.

Prizes \$500 was played. The first prize, gold vanity pin, being carried off by Mrs. R. S. Keeler, and the second prize, a sterling hat pin, by Mrs. Jerome Bruce. A guessing prize, a hand-embroidered lace-trimmed handkerchief, was also given in which Mrs. Fred Schumpert was the lucky one.

At the close of the afternoon's entertainment, the guests to the number of twenty-eight were seated at one long table, and it made a picture fair to behold. The hostesses very gracefully served the following:

Lobster salad, with half hard-boiled eggs on parsley  
Olives  
Bread and Butter Sandwiches  
Roquefort Cheese Sandwiches, clover shape  
Marshmallow Loaf with Whipped Cream  
Cake with pink icing, diamond shape  
Coffee

All departed, having spent a most enjoyable afternoon.

#### An Enjoyable Trip

Mrs. Nellie Turner, from New Smyrna, Fla., past grand matron of this state in the order of the Eastern Star; Mrs. Dr. Bruce, of Tampa, present grand matron, and Mrs. Brunson left Jacksonville on Sunday last on the steamer City of Jacksonville for Sanford, Fla. Mrs. Zora Brown, of New Smyrna, also took the

round trip on the steamer to Sanford for the pleasure of the trip and to accompany her niece, Mrs. Turner, that far on her journey. They were met at Sanford by Mr. Robbins, of Hotel Robins' Nest, driven around the city for an hour, and then the ladies boarded the steamer again and came back as far as DeLand. They all report a delightful trip.—Jacksonville Metropolis.

#### Changing the Sewers

A large force of men are busy this week putting in new sewer pipe and making the grade considerably lower in the line near The Herald office. The old pipe was too near the surface and the level of the new street paving necessitated a change. When finished this line of sewer will be in first class order.

It is announced that the Seaboard Air Line railroad, now in the hands of a receiver, will be sold by order of the United States court, July 1. The company will be immediately reorganized thereafter.

## CELERY BUILDS A CITY

### Savannah Will Try Raising This Great Crop

## VEGETABLE CROP BUILDS CITIES

### Sanford's Great Prosperity Attracts Attention of Other Cities Who Wish to Follow Example

The celery crop has been a great advertising stunt for Sanford, aside from its money-making features, and so celebrated has our city become that every section of the United States has been attracted by the great possibilities of the vegetable crop. Even the larger cities are seeking to profit by the voluminous advertising inaugurated by the celery, as the following from the Savannah News demonstrates:

"The Morning News published a little item from The Sanford Herald yesterday to the effect that Sanford, Fla., was growing at a wonderful rate, and that it was becoming the home of many industries. Sanford is the place where so much fine celery is grown. Until it became famous for that vegetable the town was comparatively unknown, except to tourists. Now it is almost as well known as Kalamazoo, Mich., another place famous for its celery."

Does Sanford owe its prosperity, its many small industries, to celery? That is a question that is interesting this city just now. If celery has helped Sanford why wouldn't it help Savannah? We do not mean, of course, the help that would come from the sale of the vegetable if it should be grown here in quantities, but the help that would come from the advertising that it would give the city and county. In every city in which the celery was sold the name of Savannah would become familiar. Inquiries would be started respecting the city's advantages for business and factories and if they were answered favorably, as they would be, the result might be the coming of many immigrants and considerable capital.

We have had an expert examine the soils of the county and we have his opinion that the conditions for the growing of celery here are the best. It has been suggested that an effort be made to form a small company to make an experiment with it. It is possible that this suggestion will be acted upon. It certainly ought to be. We have published a communication in which it was stated that the Chatham Agricultural Club would make such an experiment. That shows a commendable spirit on the part of the club. But the experiment by the club wouldn't interfere with efforts on a larger scale by a company.

The secretary of the Chamber of Commerce has asked the County Commissioners to secure a celery expert and see what can be done in the direction of growing celery on the country farm. A favorable response to the secretary's request would meet with very general approval. It is probable that the right kind of soil could be found on the farm. What would meet the situation exactly, however, is a company with sufficient capital to secure a few acres of land, put it in prime condition for growing celery and to pay the expenses of an expert for one season. If such a company were organized nothing more would be needed. The reputation of the county for growing celery would be established and every acre of celery land would be put into cultivation in a very short time."

### Union Young People's Service

The Epworth League will meet with the H. Y. P. U. in the Baptist church at 8:30 Sunday evening next. Mr. A. W. Gustus will conduct the service, using the topic, "Called to Service." These union young people's meetings are always looked forward to with pleasure and a warm invitation is extended alike to young and old. Those of other churches having no young people's organization will be specially welcome.

### Report of Advertising Committee

Next week the report of the advertising committee will be made in full. The report will cover the entire work of the past season, and contain a list of the subscribers. Mr. C. H. Loffer is collecting this week in order to have all the subscriptions paid before the report is published.

Florida potatoes are selling in New York at ten cents a quart, and New York apples are selling in Florida for five cents each. Pay your money and take your choice.

## LARGE VEGETABLE SHIPMENTS

### Statement of Refrigerator Cars Leaving This Section

If there are any doubts regarding the large shipments of vegetables made from this section this season a glance at the figures given below will convince the most skeptical.

Sanford, proper	650 cars
Rand's Siding	512 "
Monroe	21 "
S & E Ry	304 "

The celery shipment alone comprised 804 cars or 277,239 packages. Lettuce and cauliflower made 487 cars or 173,765 packages.

This does not include the shipment of strawberries and several minor crops.

The prices have remained steady throughout the season and the growers have all realized a fair profit, while many have made considerable profit.

These figures look large this year over last season's statement and next year will greatly increase the vegetable shipments as it is estimated there are twice as many people in the celery delta this season and many more will settle here this fall.

## CELERY GROWERS PICNIC

The celery growers' basket picnic held at the beautiful and prehistoric shell mound, on J. N. Whitner's place, at the east end of Celery avenue, Wednesday of this week, was pronounced by all who attended a grand success socially and in every way. The physical man was looked after by the committee, who provided a sumptuous fish-fry and lemonade, assisted by the good housewives and wives to be, who brought heavy laden baskets. The social part was looked after by the young ladies on the committee, who tried hard to introduce everybody to everybody else.

The mental man was looked after by Hon. J. N. Whitner, who was introduced to the large crowd, fully 500 being present, just a few minutes before dinner. Mr. Whitner made a splendid speech. Welcoming all new comers, he passed on to the prehistoric mound on which we stood, of whose builders history has no record. He dealt at length and interestingly on the race of mound builders, who built these mounds through South Florida, here and there, and vanished long before the white man set foot on this continent. Mr. Whitner pointed to the surrounding celery delta, dotted here and there by beautiful and comfortable dwellings and green fields, and mentioned that these same fields were ten years ago despoiled flat woods, on which many of those present had shot birds, and the cow-men had bought for a few dollars per acre to graze cattle on. Mr. Whitner gave a brief history of the trucking industry from its infancy to the present, having been born in poverty, educated by mistakes, had grown to its present size of boyhood, the next step is manhood. We hope to have Mr. Whitner with us next year to speak at our annual picnic. The writer was at a loss to decide which he enjoyed most, Mr. Whitner's speech or the dinner, but he decided that the speech did him the most good, as he gets a dinner every day, and it is only on rare occasions he hears a speech like that. The crowd broke at 5 p. m., some going home by launches, some by automobiles, and some by private conveyance, all happy and tired, with nothing to mar the day. There was quite a few Sanford folks in attendance, and numbers of newcomers. "Let us get together on these occasions, pull together for Greater Sanford, a more closely united trucking district, and all as one big family, with a common aim—the upbuilding of the trucking district, with Sanford as the hub."

### —A FARMER.

### Tyre-Takach Nuptials

Miss Florence Tyre and Mr. Gaze Takach were united in marriage on Wednesday night at the residence of Mrs. Landrum on French avenue, Rev. J. W. Boyd of the Baptist church officiating.

The bride is a sister of Mrs. Landrum and a resident of Alabama and while visiting her sister in the city formed the acquaintance which ripened into love.

Mr. Takach is a young man well known to every one in Sanford having spent the greater part of his life in this city and has a large circle of friends and acquaintances. He is engaged in the vegetable and commission business.

The happy couple left for points on the East Coast and will probably make Sanford their future home upon their return. The Herald joins in congratulations.

Let us forget that spring is here, an old-fashioned razor back with her brood and an Italian with a hungry brown bear were visitors to the city this week.

## COUNTY SOLONS MEET

### Reports of County Officers Read And Filed

## COUNTY'S FINANCIAL STATEMENT

### Sufficient Clay Found For Extension of Sanford Avenue

Tuesday, May 4th, 1909.

Board met. Present Chairman Lee, Commissioners Merrill, Overstreet and Vaughan.

Maurice Davis, Pistol, J. T. Lee and W. H. Hand, Sureties.

A. Hutchinson, Pistol, J. W. Jackson and C. N. Griffin, Sureties.

Upon motion the Petition of H. H. Pattishall, L. P. Daniel et al., for a road from north end of marl road to the new dock on St. Johns River, Geneva District was granted and the road ordered opened.

Megara Vaughan and Branham, the committee to whom the matter of clay in the Glass petition was referred, report that they found sufficient clay in said pit and it was thereupon ordered that clay for the extension of Sanford Avenue be donated by the county for the use of said extension.

Chairman Lee, who was selected to represent the Board of Commissioners at the Good Roads Convention in Palatka on April 27, made his report.

Commissioner Overstreet, who was delegated to present to the Senator of District No. 19, and to the members of the legislature from Orange County, and to other members of the legislature, the action of the County Commissioners in advocating an increase of the millage for road purposes, made his report.

The petition of J. H. Bryan, J. W. Hoard et al., for a road, laid over under the rules.

The following persons asked to be allowed to redeem the following properties at the amounts named, viz:

W. R. O'Neal, Agt., Cert. No. 1292 of 1902 and subsequent taxes, at flat sum of \$10.00.

L. G. Starbuck, Cert. No. 1066 for 1897 and subsequent taxes at flat sum of \$50.00.

F. L. Woodruff, Cert. No. 1746 of 1892 and subsequent taxes at flat sum of \$13.95.

W. H. Jewell, Agt. Cert. No. 511 of 1907 and subsequent taxes at flat sum of \$4.85.

S. G. Dolve, Cert. No. 1396 of 1898 and all tax sale cts. at flat sum of \$75.00.

Geo. T. Gaines, Cert. No. 28 of 1898 and subsequent taxes at flat sum of \$10.00.

It was ordered that the Comptroller be requested to allow each of the above petitions as prayed for.

Accounts were presented, warrants ordered drawn in payment of same. There being no further business Board adjourned to regular session in June.

## SUNDAY SCHOOL ASSOCIATION

Sunday School a business proposition, W. S. Entzinger, Loongwood.

Why not teach the children the Doctrines of our church, J. B. Rogers.

Adjourn.

## REACH TWO HUNDRED MARK

### The Celery City Eagles Are Making Great Gains

Celery City Aerie of Eagles is the youngest lodge in the state although one of the strongest. At the meeting Tuesday night forty new members were taken in, bringing up the total of charter members to 200. The hall in the Stone-Gove block has been remodeled and is now one of the finest lodge rooms in the city.

A suitable site will be purchased upon which a fine building will be erected. The members are very enthusiastic over the future prospects of the lodge, and are fitting up a nice reading room in connection with the lodge room that will prove a great benefit to the younger members.

## Death of J. H. Prevatt

After an illness of several weeks J. H. Prevatt one of Sanford's well known citizens passed away last Saturday morning. The funeral services were conducted by Rev. J. W. Boyd and Rev. J. F. McKinnon and the remains were interred in Lakeview cemetery.

Mr. Prevatt has been a resident of Sanford for the past thirteen years and held the esteem and respect of friends and neighbors by his integrity and upright and moral life.

He was engaged in the raising of celery and vegetables for the past years and being beyond the youthful side of life was preparing to erect a nice home in this city where he could enjoy the remainder of his life surrounded by his family and friends.

His summons to the life beyond was sudden and in his demise his family loses a loving husband and father and the community a valued citizen.

He leaves a wife, two sons and a daughter to mourn his loss.

## Death of J. A. Metts

J. A. Metts, for the past several years a resident of this city, died last Saturday night at his home on Third street. Mr. Metts was sixty-three years of age at the time of his death, and was well known in this city.

The remains were interred at Sylvan Lake on Monday. Mr. Metts had no near relatives, the members of his own family having died several years ago.

O. L. Taylor, chief train dispatcher of the A. C. L., with Conductor Paxton, joined a party of capitalists from San Francisco, on a tour of the East Coast, finally bringing up at Knight's Key, where they were royally entertained. They report a most delightful trip.

## THE GLORIOUS FOURTH

### Will Be Fittingly Celebrated In Sanford

## FRANK CLARK TO MAKE ADDRESS

### Big Barbecue, Parades, Games And Amusements Will Make Most Memorable Occasion

Sanford has promised the people of Florida a grand celebration on July the Fourth, and like every other movement inaugurated by our citizens, this celebration will be according to plans and specifications promised. The most important part of this celebration will be a grand barbecue and fish fry, for our hospitable citizens realize that the way to the heart is through the palate, and if our visitors' palates can be tickled and their appetites satisfied, the occasion will linger long in their memories. Not only will it be a flow of the soul, but a feast of reason as well, and wishing to give the people the best, The Herald issued an invitation to Hon. Frank Clark to make the address, and he has replied that nothing would give him more pleasure than to be in Sanford on that day and address the people. In view of the fact that Frank Clark is in the lime light of the whole country at present, his address in Sanford on the Fourth is bound to attract thousands of people, and his words, fraught with so much importance, will be copied extensively in all the daily papers of the United States. Mr. Clark will also inform the people about our deep water channel in the St. Johns and Lake Harney, our proposed government building and a number of issues of vital interest to the people of this district.

In the morning the great crowd will be entertained by an automobile parade, participated in by the owners of autos and the manufacturers and agents of cars who have signified their intention of attending and displaying their cars. A merchants' parade of floats will be a feature of the day. Various games, as catching the greased pig, climbing the greased pole, sack races, potato races, running races, etc., will keep things moving at a rapid rate, and by the time that dinner is announced the crowd will be ready to do ample justice to the viands. After this the addresses will occupy part of the afternoon, and a good ball game will prepare all for a light luncheon. The evening will be made glorious with a grand display of fireworks upon toe lake front and a feature of this part of the program will be an illuminated parade of launches upon the lake, and a mimic battle with roman candles and other fireworks.

The street paving will be partly finished by that time, and the street railway company will endeavor to have their cars running in order to carry the visitors over the city and celery delta. Come to Sanford on the Fourth and see the greatest little city in the south.

Cheap excursion rates have been granted from all parts of the state.

## NEW GOLCONDAS

### Florida Lands that Pay their Owners Better than some Fabled Gold Mines

Lakeland and Sanford are rivaling each other in the strides each is telling of the wonderful prosperity that has befallen the truckers in their respective balliwicks. Sanford tells of numerous instances where men down there cleared \$1,000 net profit on every acre of land in cultivation in lettuce and celery.

One of her big men, H. H. Chappel shipped 11,500 crates of celery, for which he received an average price of \$1.25 per crate—a neat little pile to tide him over the summer.

Sanford shippers will soon be sending forward carloads of tomatoes and eggplants, a large acreage having been planted in these esculents this season.

From Lakeland comes the story of one man (name not given) who eighteen months ago rented a small farm, of which he planted nearly two acres in strawberries. He sold 6,800 quarts receiving cash sufficient to enable him to buy and pay for a 15-acre farm with a 3-room cottage on it.

A neighbor is said to have made 500 gallons of syrup from a single acre of sugar cane, while another raised 43 barrels of potatoes from one acre, which netted him \$4 per barrel.

But the Sanford stories of the \$1,000 profit per acre in truck still remain to be beaten.—Jacksonville Produce News.
