From where I sit... by Joe Marsh

Here's to the Women-Folk!

There's a line at the heading of the Woman's Column in my paper that reads: "Women through the years have stood keepers of the flame..." Pretty easy to see what it means; whether it's the flame on the hearth, or the candle in the window, or the feeling of warmth that surrounds a home. It's the women who are guardians of the things we cherish about homelife—who are tolerant of ashes on the rug; the rings a glass of beer can leave on tables; or the comfortable but too-worn chair that we can't bear to throw away.

From where I sit, those little satisfactions become more and more important in this world of strife and change. Smoke rings curling from a mellow pipe; a glass of beer; a comfortable chair before the fire. And I'd like to salute the housewives—"keepers of the flame"—whose tolerance and understanding helps preserve them!

THANKS TO YOU

The Central Florida Experiment Station is now a reality — secured for Seminole County and Central Florida thru your efforts and donations of time and money.

Many who would have gladly contributed are not represented on this list because the drive for funds went over long before we got to everyone.

Central Florida's position in the Vegetable field will be helped for generations to come by this fine addition to our business. Future generations should be thankful for this foresight in our most important industry.
