

Sanford Police Chief Retiring

By Deane Jordan
Herald Staff Writer

In an unexpected move today, Sanford Police Chief Ben Butler announced he will retire at the end of this month.

His retirement on April 30 will end 34 years of police work with the Sanford Police Department, 17 of them as chief of the second largest police department in the county.

Butler, 55, who had said he wanted to stay on as chief until at least May, 1987, said his decision to retire was based solely on discussions with his

family. He emphasized he was under no pressure from any city official to retire and has been eligible to retire for several years.

"After I talked with my family, I decided that now is the time I want to retire. I need to relax a while. I have no specific future plans at the moment but while I am relaxing, I will be thinking about it," he said today.

A year ago Butler, who joined the police department as a rookie on July 7, 1951 and rose through the ranks to chief, said that his retirement date was

"only an estimate" and he planned to stay on the force through 1987 and perhaps two or three years after that.

"I certainly won't be leaving before 1987," he said during a previous interview about city leaders nearing retirement.

Butler's decision opens one of nine key positions in the city that are expected to open because of retirements during the next three years.

Butler hand-delivered the one-paragraph resignation to the

mayor, city commissioners and the city manager.

It read: "I hereby tender my letter of retirement from services as the police chief of the city of Sanford. My retirement shall be effective at midnight, April 30, 1985."

Butler was promoted to traffic sergeant in 1956, lieutenant in October, 1962, captain in 1965 and chief November, 1967.

During his years on the Sanford police force, Butler earned numerous certificates of training, including one in firearms

from the FBI. He also received a distinguished service award.

In August, 1974, Butler was appointed to be criminal justice advisor to the East Central Florida Regional Planning Council which was at the time developing programs to reduce crime in the Central Florida area.

Butler, who's married to Nancy Butler and has three children, served in the U.S. Coast Guard from 1947 to 1950 and joined the police force a year later.

Ben Butler

Residents Win First Round Against Shopping Center

Residents near a 10-acre playground across from Sanford Middle School won the first round Thursday in their fight to keep a shopping center from going on the property.

About 80 residents packed the commission chambers at city hall and cheered when the vote was tallied. By a 7 to 2 margin the Sanford Planning and Zoning Commission voted to deny developer Don Huber's request to rezone most of the parcel from residential to commercial. The frontage of the property along French Avenue is already zoned commercial.

The P & Z board's recommendation will go to the Sanford City Commission April 22.

In February Huber, of Huber Construction in Orlando, offered to purchase the land from the Seminole County School Board for \$600,000 on the condition that it be rezoned and the school board agreed. Huber wants to build a 110,000-square-foot center complete with a grocery store, department store and smaller shops. The school board wants the \$600,000 to fix Sanford Middle School's roof, repave the parking lot and make other improvements. And it wants the land back on the tax rolls to increase school revenues. But the homeowners feel the center would create traffic, draw a criminal element and they want to keep the grassy field as a

'It's our oasis in the jungle of civilization.'

residential playground for youths and adults. They say other money could be found to improve the school.

A group of 18th Street residents have been circulating a petition calling for the commission to deny the rezoning. As of 7 p.m. Thursday about 350 signatures has been collected, according to Sylvia Smith, of 425 W. 18th St.

"I do not want a shopping center in my front yard," Ms. Smith told the commission. She said the commissioners, whom she termed as "our public guardians," would be setting a dangerous precedent if it approved the rezoning of the residential area.

Reading from the petition, she also said there were already enough shopping centers "within a five minute drive from anywhere in the city."

Seven other residents spoke against the rezoning, with one woman, Dot Young, of 220 W. 18th St., saying she didn't care if the school board got "\$600 million" for the property.

"It's our oasis in the jungle of civilization," she said.

See REZONING, page 5A

Knowles' Memo To Commissioners

MEMORANDUM
April 4, 1985

To: Sanford City Commission
From: City Manager

I understand each of you have received a letter of retirement from Police Chief Ben Butler with the effective date of retirement at midnight, 4/30/85.

I suggest the City Commission immediately meet to consider the needed actions. April 15th is a very short time away.

1) The police chief position is a civil service position and must follow their procedures for the City Commission to receive a list of applicants. The City Commission needs to request this list from Civil Service. Advertising, reviewing, etc. can be expected to take 45 days. Their procedure requires in-house advertising before outside advertising.

2) In-house, the only applicant with the requirements on the highest level, is Mr. Steve Harriett with a master's degree in Criminal Justice plus five (5) years as a Sanford Police Officer and five (5) years as the assistant city manager. Attached is a copy of the written and adopted criteria for a police chief. Note it requires a college or university graduation (4 year degree) and progressive experience including supervision and administration.

3) To avoid turmoil within the department, I suggest immediate action by the City Commission to get an individual into the department by April 15th to work with Chief Butler for the remaining fifteen (15) days.

4) Steve Harriett is the only person with the stipulated qualifications; the experience, the administrative ability, the personnel management knowledge to step in and run the Sanford police department with the minimum of turmoil.

It is recommended the City Commission immediately appoint Steve Harriett acting police chief pending the time for the Civil Service Board to meet and to get in their normal procedure. Once the Civil Service Board has reviewed the available criteria, it is recommended the City Commission appoint Steve Harriett, the police chief.

5) The search for applicants for the position of assistant city manager shall commence immediately.

6) Mr. Harriett is in accord to accept the appointment as police chief. This has been discussed with Mr. Frank Faison.

WJL/ed
Enclosure

CC: Civil Service Board

Above, the memo Knowles sent to commissioners recommending appointment of Steve Harriett as acting police chief, then permanent chief.

Butler's Move Surprise; City Manager Says Hire Harriett

By Rick Brunson
Herald Staff Writer

All of Sanford's city commissioners as well as the mayor said they were surprised today over Police Chief Ben Butler's announced retirement, but they're almost evenly divided over the city manager's recommendation that Assistant City Manager Steve Harriett be appointed to the post.

Butler hand-delivered the announcement of his retirement effective April 30 to each of the commissioners today.

Mayor Betty Smith said she knew Butler was going to retire this year "but I didn't know it was going to be so soon."

Commissioner Milton Smith said, "This was a surprise to me ... but after talking with him, he feels good about it and so I feel good about it ... He's been a good chief and he deserves some time for some real living."

Commissioner Bob Thomas said he was surprised and "saddened" by word of Butler's early retirement.

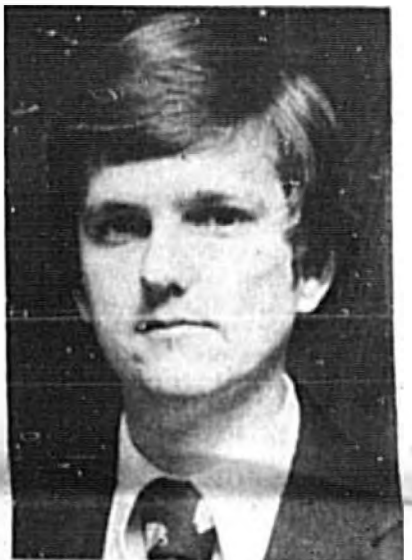

"I was hoping I could work with him for another one or two years," Thomas said. "It kind of strikes a sad note with me. I would have liked to see him grow — especially in his dealings with black people." However, Thomas said he resents the city manager putting what he termed "pressure" on commissioners to name Harriett police chief.

The commissioners are scheduled to meet at 4 p.m. today at city hall to discuss appointing an acting chief to work with Butler until he retires. They will also request the city's Civil Service Board to begin a search for a replacement for the chief. The board will advertise for the post and review the applications it receives for the next 30 to 45 days, according to City Manager Warren "Pete" Knowles.

But Knowles said in view of the chief's impending departure, the department needs an acting chief to work with Butler right away. He has recommended Harriett be appointed acting chief immediately, and that Harriett be named permanent chief after the Civil Service Board completes its procedures.

In a memo to the commission obtained by the *Evening Herald*, Knowles said, "Once the Civil Service Board has reviewed the available criteria, it is recommended the city commission appoint Steve Harriett the police chief."

Knowles said Harriett is the only city employee he knows

Steve Harriett

who is qualified for the job. Harriett has a master's degree in criminal justice and was a Sanford police officer for five years, three of which he was assistant police chief, Knowles said.

But Commissioners Thomas and John Mercer were tiffed at the recommendation and said it's up to the commission to decide whom to hire.

Thomas said he resents the city manager putting what he termed "pressure" on commissioners to name Harriett police chief.

"I really resent this. I really do. I think he could have said what he wanted to say and left the decision up to us ... Our intelligence is being questioned and he is doing everything he can to put Steve in," Thomas said.

He said someone from within

See CHIEF, page 5A

Taking Stock: Faison's First Days

How Sanford will handle growth is in the forefront of new Sanford City Manager Frank Faison's thinking. He spent his first few days on the job cruising the area and getting to know the staff at city hall.

"Growth is bumping every community up 1-4," he said. "And it's knocking on the door of Sanford."

He said he will be taking stock of Sanford's resources for coping with the growth in the early days and months of his administration.

Faison's first day was Wednesday. From his unsettled office on the second floor of city hall he has a good view of Lake Monroe across the street, a sight he says is "therapeutic."

"It's a very therapeutic thing to either

drive in morning or out in the evening past Lake Monroe. That's better than two aspirins," he said.

He and outgoing City Manager Warren "Pete" Knowles will work together until Knowles retires April 30 after 32 years of service to the city.

On Thursday he attended a brown bag luncheon with department managers at city hall. He said he plans to spend the next two weeks getting to know more of the staff and planning for the city's budget proceedings which start at the end of the month.

In the meantime, he is looking for a home in Sanford. His wife, Lyn, and their 19-year-old daughter, Patricia, will move

'Therapeutic' Faison calls his office view of Lake Monroe.

Drug Raids Put 3 Behind Bars

By Susan Loden
Herald Staff Writer

In pre-dawn raids on two Sanford homes today Sanford police and Seminole County SWAT team members nabbed three suspected drug dealers and confiscated quantities of LSD, cocaine and marijuana.

Sanford police spokesman Keith Wright said one of the homes, at 1010 Mellonville Ave., was still being searched at 11 a.m. today following a 6:15 a.m. raid. He said lawmen were pleased with their success at that address where Oscar Redden, 39, was charged with possession of cocaine.

Redden is a former Seminole County sheriff's sergeant who was convicted in

February on a charge of possession of cocaine. He was scheduled to be sentenced on that charge March 19, but sentencing was postponed.

Wright did not know the quantity or value of the drugs seized today. He said two fire arms were reportedly found in the other home raided.

Two men were arrested at that second house, which was the first hit by the officers at about 6 a.m., Wright said. At 2801 Knudsen Drive, Roy Plinge was charged with possession of less than 20 grams of a controlled substance and Claude Robertson was charged with possession of LSD and quaaludes, Wright said.

See RAIDS, page 5A

Unemployment Steady

WASHINGTON (UPI) — The unemployment rate remained at 7.3 percent in March, the Labor Department reported today, the same figure as in February. Civilian jobs were the highest on record but some 8.4 million Americans were still out of work.

"Employment rose markedly in March, and unemployment was unchanged," the Labor Department's Bureau of Labor Statistics reported. The reason, it said, was because the labor market continued to expand in March.

The unemployment rate has remained essentially unchanged since last fall although it remains high by historical standards.

Civilian employment rose by 430,000 people during the month and "the proportion of the civilian population with jobs was the highest ever recorded," the Labor Department said.

Anti-Porn Ordinance Gets First OK In Lake Mary

By Roger Simmons
Herald Staff Writer

A proposed ordinance that would regulate adult entertainment facilities in Lake Mary was given tentative approval by the city commission on a 3-1 vote Thursday night.

The proposal would make it difficult for adult book stores, adult motion picture theaters, massage establishments or adult dancing establishments to operate in Lake Mary. There are

no adult entertainment facilities in the city at this time.

The proposed ordinance will come up for final approval at the commission's April 18 meeting.

Commissioner Harry Terry, who cast the lone negative vote, wanted to toughen the measure.

Terry wanted to change the ordinance to ban adult entertainment facilities from within a 1,000 feet of a church, school or liquor store, rather than the 500 feet stipulated.

He also wanted application and investigation fees raised.

Under the proposed ordinance an application fee of \$75 would be charged by the city as well as other fees for running background checks on owners and workers.

Although the commissioners agreed to the 1,000-foot proposal, Terry's other attempts to get tougher with potential adult businesses were met with stiff opposition.

City Attorney Robert Petree said the purpose of the ordinance is to "reasonably regulate" such facilities and discourage adult entertainment facilities from locating in Lake Mary.

But, he said if the commissioners made the ordinance too tough it might be considered unconstitutional.

"In short, I wouldn't mess with it," Petree said. "If you go too far in this ordinance and

outlaw sin, it will be upset on the first attack."

Commissioner Russ Megonegal supported Petree. He likened the ordinance to "an obstacle course" which would make it difficult for adult entertainment facilities to come to Lake Mary.

Lake Mary Police Chief Harry Benson, one of the formulators of the ordinance, said com-

In House Nuptials

MONTGOMERY, Ala. (UPI) — Lawmakers stopped their wrangling over the education budget Thursday just long enough to watch the union of Frank Brunner, administrative assistant to House Speaker Tom Drake, and Beverly File, secretary to Speaker Pro Tem Roy Johnson.

Because they met in the capitol, the couple decided to stage their nuptials in the House chambers.

14-Year-Old Girl Refuses Ride, Pulled Into Man's Car, Raped

A 14-year-old Fern Park girl reported to Seminole County sheriff's deputies that she was sexually assaulted by a man who pulled her into his car.

The girl said she was walking in the area of state Road 436 at Lakeview Avenue when the man drove up beside her at about 5:30 p.m. Thursday and offered her a ride. She refused and the man grabbed her by her left arm and pulled her into his car, sheriff's spokesman John Spolski said.

The girl told deputies the man raped her in the car while it was parked alongside state Road 436 in Fern Park. After the man assaulted her, he pushed her out of the car and drove off. She said the man's car is a blue four-door with a red top. It has a loud muffler and a torn frontseat, a sheriff's report said.

Spolski said the girl was interviewed by a sheriff's deputy at Florida Hospital-Altamonte Springs where she was examined. She apparently was not injured in the attack, he said.

CHARGED WITH BOYS

An 18-year-old man who was reportedly spotted at the scene of a theft has been booked into the Seminole County jail on a charge of grand theft. Two boys who also reportedly took part in the theft face the same charge and have been turned over to juvenile authorities.

The three reportedly stole \$450 worth of batteries from behind Hotel TV Service, S. Sanford Ave., Sanford, and were arrested at the scene at 11:45 a.m. Wednesday, a sheriff's report said.

The adult arrested in connection with the theft is Tony Wayne Angle, 18, of Deltona. He was being held in lieu of \$5,000 bond.

THIEF WITH A THIRST

A thief crept into Jan Shaver's house at 703 Mattie St., Sanford, Monday morning or early afternoon and stole and eight-pack of cola and a bottle of whiskey, a police report said. Police reported the thief entered the house through an unlocked bedroom window.

ABUSING SUSPECT

A 20-year-old man facing several burglary-related charges has also been charged with child abuse because two alleged accomplices nabbed with him after a Lake Mary break-in are 12 and 15 years old.

The three were captured by Lake Mary police who were searching for three suspects who fled a burglarized home at 299 Bradmoor Ave., Lake Mary, at about 4:30 a.m. Wednesday. The three suspects were found by

Action Reports

★ Fires

★ Courts

★ Police

police at about 11 a.m. near county Road 15 and 3rd Street, Lake Mary. They were reportedly identified by witnesses who saw the burglars flee, a police report said.

After the 20-year-old was jailed on charges of armed burglary, grand theft, child abuse, two counts of burglary and use of a firearm in the commission of a felony, sheriff's deputies reportedly linked him to an April 2 burglary at 219 Teakwood Crossing, Lake Mary, and burglary and grand theft charges related to that break-in were added.

The burglars, who were reportedly looking for firearms in Wednesday's break-in, were turned over to juvenile authorities.

The adult charged in the case, Matthew Howell Napier of 328 Ruth Blvd., Longwood, was being held in lieu of \$15,000 bond in the Seminole County jail.

BURGLARIES & THEFTS

An electric range with a microwave oven and range hood worth \$1,500 was stolen from a house being built at 584 Albany Place, Longwood. The theft occurred between March 30 and April 1, according to a sheriff's report filed by Louis Eugene Scaglia, 44, supervisor for Florida Residential Communities, owner of the range.

Timothy Merriett Holcomb, 29, of 205 Shadow Bay Blvd., Longwood, reported to deputies that his boat parked across the street from his home was burglarized and a \$2,600 engine and other gear worth about \$600 was stolen between Monday and Wednesday. Damage to the boat was estimated at \$500.

A male and female cockatoo were stolen from a fenced area at the home of M.L. Sweat, 60, of 1071 U.S. Highway 17-92, Longwood, on Monday or Tuesday, deputies reported.

A thief raided game and music machines at the Club Two Spot, Brisson Avenue and state Road 48, Sanford, and took \$200 cash on Monday or Tuesday, according to a report owner George H. Murphy, 42, of 2514 S. Park Ave., Sanford, filed with sheriff's deputies.

About \$2,000 worth of tools

including a \$100 wheel barrow, a \$600 air compressor, a \$180 power saw, a \$95 sabre saw and \$800 worth of hand tools were stolen from a construction site at 3585 Ohio Ave., Sanford. Richard G. Radebach, 44 of Lake Mary, reported his loss to sheriff's deputies.

Several cameras and a gold watch with a combined value of \$3,590 were stolen from the home of Stanley Weiss, 59, of 219 Teakwood Court, Lake Mary, on Tuesday, a sheriff's report said.

FIRE CALLS

The Sanford Fire Department responded to the following calls.

Tuesday

—10:23 a.m., Ridgewood Arms, false alarm.

—1:21 p.m., First Street and Mangoustine Avenue, rescue. Patients involved in an auto accident refused treatment.

—1:40 p.m., Seventh Street and Pine Avenue, rescue. A person who appeared drunk refused treatment.

—11:03 p.m., 1209 Eighth St., rescue. A 75-year-old man who had difficulty breathing was taken to the hospital.

Wednesday

—12:36 a.m., North Orlando Drive, fire. Firefighters put out a brush fire. There were no injuries or damages.

—12:37 a.m., 700 Wiley Ave., rescue. A 75-year-old man who had a possible stroke was taken to the hospital.

—10:55 a.m., Eighth Street and Elm Avenue, rescue. A 1-year-old girl who was choking on a hot dog was taken to the hospital by her mother. Rescue workers said the girl's mother dislodged the hot dog before they got to the scene. She was giving the girl mouth-to-mouth resuscitation when they arrived, the report said. The girl was revived but dizzy, the report said.

DUI ARRESTS

The following persons have been arrested in Seminole County on a charge of driving under the influence:

—Denise Ann Hamke, 27, of 112 Autumn Drive, Longwood, was arrested at 1:25 a.m. Thursday on Georgia Avenue at county Road 427, Longwood, after another motorist reported her erratic driving to police.

—Kim Villar Morgan, 24, of 1230 N. Grassie St., Longwood, after her car failed to maintain a single lane on U.S. Highway 17-92, Longwood.

Court Overturns Judge's Decision Not To Try Young Burglary Suspect

A Seminole circuit court judge's decision not to try a juvenile because "... it would not be in the best interest of the child..." has been overturned by the 5th District Court of Appeals.

The high court overturned the decision of Circuit Judge Kenneth Lefler in reference to a child, whose identity is unavailable because of his age, charged with burglary and grand theft.

According to appeal papers, the state charged in March, 1984 that the juvenile had committed the crimes. The child, enrolled in a program at a boys ranch, was not available at arraignment to have a trial date set and Lefler gave the state two weeks to decide whether to have the youngster tried or defer prosecution.

The state decided to proceed. When the juvenile later appeared with his mother at an adjudicatory hearing — the juvenile equivalent of trial — he did not have a lawyer.

Lefler learned that the boy was not eligible for a public defender and then said he was frustrated with the State Attorney's office for not deferring prosecution.

The state attorney said the boy was a codefendant in the case and that it would be

unfair to the other youth to defer prosecution. Lefler, according to the appeal papers, said the state attorney was not cooperating.

"I tell you what I am going to do. I am going to take it upon myself and let the state appeal this. I am going to order that this petition be dismissed. If the state wants to appeal it, let it do it," Lefler said.

He then dismissed the charges on the grounds that it was not in the best interest of the child that he be prosecuted at that time, and because the state did not accept his recommendation that prosecution be deferred until the boy completed a program at a boys ranch.

The high court, ruling last week, said the discretion to prosecute or not is a vested sole in the state attorney.

"Prosecution of a juvenile may be deferred where a plan of proposed treatment, training or conduct is presented in lieu of a plea, but in delinquency cases the plan shall include the state attorney's consent to defer the prosecution of the petitioner," the justices wrote.

The case will be rescheduled for trial before later. No trial date has been set. —Deane Jordan

Youth Who Tried To Garrote Woman Gets 21 Months

An attempt to strangle a woman with a belt netted a Longwood youth 21 months in juvenile detention.

William R. Dukes Jr., 17, of 1201 Homosca Court, was sentenced by Seminole Circuit Judge S. Joseph Davis Jr. Wednesday who will later decide what type of counseling the youth will receive during his detention. Dukes is to be held until his 19th birthday in December, 1986.

Dukes was arrested in September after he attacked a 37-year-old Lake Mary woman. He pleaded guilty to aggravated battery in January.

According to police reports, Dukes entered the woman's home at about 2:30 p.m. Sept. 18. The woman, who was lying on her couch reading a book, said Dukes stood in the doorway, and said he was looking for the woman's 16-year-old son. When she told him he would not be home until 3:30 p.m., he left, according to the report.

After lying back down she said she saw Dukes standing in the dining room, this time saying he needed a cassette tape he had loaned to her son. The woman and Dukes then went to her son's room to look for the tape but did not find it.

As they left the room, the report said, Dukes wheeled around, grabbed the woman by the throat and started choking her. During the struggle, he managed to wrap a belt around her throat and tried to drag her back into the bedroom, according to the report. During this time, the woman said she almost passed out twice.

She fell to the floor screaming. Dukes then let her go and ran out the door, threatening to kill her, according to police.

She then called authorities. Dukes was arrested soon afterward about a block from the woman's house.

At the sentencing hearing, Assistant State Attorney Steve Brady characterized Dukes as a

young man with a dislike for women, particularly those about his mother's age.

Dukes is facing trial as an adult on charges of rape and armed robbery of a 35-year-old woman stemming from a 1982 incident in Longwood. No trial date has been set in that case.

Dukes was found not guilty in February in connection the Oct. 23, 1984 rape of an 18-year-old Longwood woman.

Lake Mary Stops Short Of Trashing Mandatory Garbage Collection Law

By Roger Simmons
Herald Staff Writer

A proposed ordinance that would allow Lake Mary to award an exclusive franchise for garbage collection and make collection mandatory has been put on hold.

At their Thursday night meeting, commissioners voted to table the proposals until the city's engineering firm of Camp, Dresser and McKee studies it and recommends changes that other cities have adopted in similar ordinances.

The commissioners found several problems in the statute prepared by City Attorney Robert Petree, primarily how to give the law teeth.

"I have difficulty seeing how the city is going to enforce mandatory collection," Commissioner Paul Tremmel said.

He made reference to a provision of the proposal that said on the one hand that residents must have their garbage collected by the franchised firm, but then adds that if a resident did not pay for collection, the company would not be required to pick up the waste.

That could lead to residents disposing of their garbage by either dumping it somewhere in the city or burning it. Both would lead to pollution, the commissioners concluded.

Also, commissioners were unsure about what would happen to residents who do not live in the city year-round under the mandatory collection provision. They wondered if they would be forced to pay for garbage collection during the part of the year

when they were residing elsewhere.

Jim Bible of Camp, Dresser and McKee said his company has been involved in the preparation of several similar ordinances and just finished working on one for Manatee County.

He said he thought the firm could look over the proposal and suggest solutions to the problems voiced by commissioners.

The commission voted 4-0 to table the proposal until its April 18 meeting. Commissioner Colin Keogh was absent and did not vote on the motion.

In other action, a proposed landscape ordinance that would require the planting of trees, shrubs and ground cover at new commercial and multi-family developments was given tentative approval.

Without discussion, the commission also gave preliminary approval to a proposed ordinance establishing guidelines for the city's police and fire department to fine burglar and fire alarm owners who have an excessive number of false alarms.

Also getting a first-reading OK was an ordinance updating the city's traffic regulations. Under the plan, the city will now be able to issue parking tickets. Also, horses will not be permitted on paved streets in the city and riders must dismount and lead horses across roads.

All of the proposed ordinances are scheduled to come up for final approval at the commission's next meeting on April 18.

...Rezoning

Continued from page 1A

civilization," she said. But one woman drew the loudest applause when she stood and asked, "Where are the children going to play?"

Mack LaZebny, the engineering consultant for the project and Huber's representative at the meeting, acknowledged that the parcel has become home for "sandlot heroes" and "duffers trying to improve their game." But he said it is "unrealistic" to think the lot will stay undeveloped.

He detailed plans for the center, saying the property would have a 7-foot high wall around the center, set back 22 feet from the street. It would also be bordered by sidewalks wider than those required by the city.

Huber would agree to put in turnlanes, traffic signals and crosswalks to ensure the safety of the students and other pedestrians.

trians who cross congested French Avenue, LaZebny said. The center would call for paving 80 percent of the 10 acres, but he said the drainage of the lot would be improved.

Huber would agree to replace the trees torn down as a result of construction and the landscaping around the property would be better than most that exist on most site plans, LaZebny said.

"Not just a few shrubs and a 30 inch hedge and a few other things... When I saw this it took on more of the characteristic of a garden than it did a landscaped area," he said.

Students would temporarily be able to continue parking their bicycles on a section of the property. As for the land's use as a playground, LaZebny said Huber would compensate by making a "contribution" to the city's Parks and Recreation Department.

But when it came time for a vote, the presence and concerns of the residents tipped the scales.

Evening Herald, Sanford, Fl. Friday, April 5, 1985-5A

"You're here. You're the people of Sanford." Commissioner Brent Carl said, motioning to deny the rezoning request.

But Commissioners Cliff Miller and John Morris told the residents growth is inevitable in Sanford, especially on that piece of property.

And because the frontage is already zoned commercial, Morris said, "If somebody purchased that land and wanted to put a strip center in, there's not anything we could do about it."

But the commission denied the request 7 to 2 with Commissioners Carl, Miller, Gary Davidson, C.B. Franklin, Darrell Grieme, Sheila Roberts and Ed Keith voting for the denial and Com-

missioners Morris and J.Q. "Slim" Galloway voting against it.

Jalaine Lee, of 423 W. 18th St., who started the petition drive said afterward the residents will keep hitting the streets collecting signatures.

"We made a difference tonight and hopefully we'll make a difference on the 22nd," she said.

LaZebny declined comment and Huber could not be reached today.

He said Wednesday his contract with the school board is negotiable for 6 months. If the rezoning is ultimately denied, he said he possible could find another use for the property.

...Raids

Continued from page 1A

When lawmen arrived at the homes they announced their presence over a loud speaker and said they had search warrants. Wright said. They kicked in the doors of the homes to gain entry and Wright said they met no resistance and there were no injuries.

He said today's raids were similar to raids on 11 reputed

drug supply houses in Sanford on March 24 during which 13 persons were arrested.

About 25 lawmen working in two teams executed today's raids, Wright said.

Plunge was being held at the Seminole County Jail today in lieu of \$5,000 bond and Robertson was being held in lieu of \$500 bond.

Bond had not been set for Redden early today and Wright said he may face additional charges after the search of his home is completed.

...Faison

missioners had to be careful in the restrictions they want to put in the proposal. "Anything here that appears to be repressive will be thrown out in court," he said.

He urged the commission to "go along with this ordinance" and "leave well enough alone."

With the objections voiced,

Terry withdrew his other amendments to the ordinance. "This seems to be a sacred cow," he said. "I won't attack it anymore."

The commission voted 3-1 to give preliminary approval to the ordinance. Commissioners Megonegal, Burt Perinchief and Paul Tremmel voted in favor of the ordinance while Terry voted against it. Commissioner Colin Keogh was absent.

...Chief

Continued from page 1A

the police department should fill the post temporarily until the commission can make a decision.

Knowles said in his memo an acting chief is needed by April 15 "to avoid turmoil in the department."

Thomas said he doesn't "buy" that.

"If there would be turmoil, then the department hasn't been run effectively," he said.

Mayor Smith said she would wait and follow the proper procedures for hiring a chief before acting on any recommendation.

"I have a totally open mind at this point," she said.

Mercer said he has no problem with Harriett being chief, but noted, "The city commission will make the decision and not the city manager."

City Manager designate Frank Faison said it would be "inappropriate" for him to voice an opinion "for or against any appointment" until after he officially becomes city manager May 1.

Harriett said today he is "available for service" and would await the commission's action.

Of Butler's retirement, Harriett said, "I hate to see him go... but if he's made up his mind to retire it looks like that opens a door for me."

The police chief's position pays from \$27,872 to \$30,991. Butler presently is paid the maximum figure. The assistant city manager's post pays \$26,661 to \$38,779 and Harriett is paid \$36,356.

Commissioners David Farr and Milton Smith said they favor the appointment of Harriett to police chief.

"I've got a lot of confidence in Steve Harriett. I think he'd make a good police chief," Farr said. "I think the city of Sanford would be happy to have Steve Harriett as police chief. I think there's a whole lot of community support for him," Farr said.

The commissioners and Knowles praised Butler, saying a man with his 30-plus years of experience will be missed.

"He was police chief through the trying times of the '60s and '70s," Knowles said. "It's times like that the people lean back and say 'I'm glad I'm not the police chief.'"

RAINES RATES: Montreal's Tim Raines ranked on the top 10 in seven offensive categories last year. The Expo left fielder was the N.L. leader in total average.

Winningham Makes Left Right For Raines

**By Sam Cook
Herald Sports Editor**

Left is right. That's the philosophy Tim "Rock" Raines is adopting for the 1985 baseball season which opens for the Montreal Expos Monday in Cincinnati.

Moved to center field last year as a replacement for Andre Dawson's ailing knees, Raines covered the ground of a center fielder but didn't measure up with his arm, according to Expo publicist Richard Griffin.

This year, however, he will return to left field and he couldn't be happier.

"They (the Expos) asked me during the winter which position I wanted to play. I told them that I felt a lot more comfortable in left field, said Raines."

If the request is granted, it may be the first

Baseball

shuffle-free year that Raines has enjoyed. Although Raines has always been an all-around athlete, the Expos have been indecisive about where to use their June 1977 fifth-round draft pick. He has batted first, second, third and cleanup in the batting order. He has played second base, left field and center field.

Raines, who will be 26 years old Sept. 16, was groomed as a second baseman during his three minor league stops at West Palm Beach (A), Memphis (AA) and Denver (AAA). He was the all-star second baseman for Memphis. He was *The Sporting News* and *Topps* Minor League Player of the Year for Denver.

When he batted .354 and stole 77 bases in just 108 games at Denver, the Expos knew he was ready. But they already had second baseman Rodney Scott, who was a good base stealer and had an excellent glove.

The Montreal braintrust decided Raines could adapt his versatile skills to the outfield where he had an opening in left. Raines didn't have trouble adapting. In the '81 strike-shortened season, Raines stole 71 bases in 88 games and batted .304. The *Sporting News* selected him as Rookie Player of the Year. Only Fernando Valenzuela kept him from being the National League's Rookie of the Year.

One year later, the Expo manager Jim Fanning had other ideas. Impressed with Raines' explosive offensive skills and disappointed with Scott's salary demands and attitude, he decided to return

Raines to second base on May 8.

It didn't work. Raines had grown fond of the serenity of left field where he could concentrate on his offense. He had also grown rusty on the double-play pivot and had trouble with it when he returned to the second sack. A season-ending injury to Terry Francona returned him to left field on June 16.

Andre Dawson's knees limited his coverage in left field. Raines made the move to center field because of his ability to hit in the clutch (.368 with runners in scoring position). Fanning moved him to the third position in the batting order.

He fared much better in center field than third in the order. Making the best leadoff hitter in the National League and moving him to left field didn't

'Gades Get 1st

ORLANDO (UPI) — Horns honked on nearby Church Street and fans milled around Orlando Stadium for more than an hour.

This was no championship witnessed by the meager crowd of 21,223, merely a maiden victory. But for the Orlando Renegades, there was nothing more about it.

Behind three touchdown runs by quarterback Reggie Collier, the Renegades earned the first USFL victory in franchise history, Thursday night by dousing the slumping Memphis Showboats 28-17. In 1984, the team played at the Washington Redskins and finished 3-15.

Collier clinched the inaugural triumph with a 63-yard scoring ridd with just 33 seconds remaining.

"Our philosophy this week was that if we could win this game, we could wipe out all the other games ... and get respect," said Orlando Coach Lee Corso, who anguished over the club's 0-6 start. "I really did, in clutch situations, just give the ball to Collier. I said all along that we were becoming a better team each week."

In a decision destined to earn Memphis a fine from the league office, General Manager Steve Ehrhart closed the locker room to media — a direct violation of USFL regulations. One by one, the Showboats trudged to the team bus, a sullen, beaten club embarrassed by their status as Orlando's initial victims. Memphis suffered its fourth straight setback following a 3-0 start.

Collier had completed just 43 percent of his pass attempts entering the game, but he hit on 12 of 19 for 136 yards against Memphis without an interception. Counterpart Walter Lewis, the league's top-rated passer after six weeks, was yanked in favor of Mike Kelley early in the fourth period after completing 6 of 13 passes for just 64 yards, including a 10-yard TD strike to Mark Raugh in the first quarter.

Making his first appearance of the season at quarterback, Kelley had the crowd fearful of a replay from Orlando's 21-17 loss at Denver last week, a game which the Renegades led 17-0 at halftime. Kelley entered the game with Memphis down 21-7 and his 30-yard pass to Raugh set up a 13-yard TD run by Harry Sydney, who paced all

Herald Photo by Gregory Gohm

Reggie Collier bolts for a 63-yard TD to clinch win.

runners with 95 yards. A 34-yard completion to Ricky Porter on 3rd and 23 led to Chuck Bushbeck's 26-yard field goal that made it 21-17 with 4:25 remaining.

Kelley completed 7-of-15 passes for 152 yards, but misfired on four straight attempts to turn the ball over to Orlando with a minute left. Three plays later, Collier outran a tired Memphis defense down the right sideline for a 63-yard run that gave him his ninth rushing TD of the season.

"I wish the world for Bernie Kosar, but I don't have the time to worry about him," said Collier, referring to ongoing talks between Orlando owner Donald Disney and the agent for the University of Miami's coveted quarterback. "I have no control over the situation."

Collier also scored on a pair of 1-yard runs and Jerry Parrish gave the Renegades an electrifying start when he returned the game's opening kickoff 87 yards for a TD.

Pitts Doubles Distance, Sets Mark

WINTER HAVEN — Harold Pitts, Chris Bogham, Matt Palumbo and Ken Rohr all turned in personal bests Thursday as the Lake Mary Rams finished seventh among a tough field at the Winter Haven Invitational at Winter Haven High School.

Pitts, a transfer from Kansas, had specialized in the 440 the past three years until moving to the 880 this year. Pitts ran a 1:59.1 which was good for third behind Lake Brantley's John Mondo (1:57.7) and Oak Ridge's Percy White (1:57.4).

Bogham, a four-year varsity runner, ran a 15.4 in the 120 hurdles for his best time ever. Bogham also ran a 44.5 to take fifth in the 33 hurdles.

Rohr and Palumbo, both seniors, turned in an incredible double, according to Lake Mary coach Mark McGee.

Rohr ran his best mile ever in 4:28.4 and Palumbo was right behind in 4:29 as they finished second and third, respectively. "They're closing in on (Derek) Tangeman's record," said McGee on the 4:26 standard. "Both kids ran

Track/Field

great races and good two miles, too, since there was only about a 30 or 40 minute break between races."

Rohr came back with a 9:55 two mile for second place while Palumbo was next in 9:55.8. Seminole's Billy Penick, the only Tribe performer who went to the meet, ran a 9:44.3 to win it. Penick's time tied Palumbo for the county's best this spring.

Also in the mile, Lake Mary's Eric Peterson lowered his freshman record with a 4:41.2 clocking.

Winter Haven Invitational at Winter Haven High School
Oak Ridge 99, Lake Gibson 51, Evans 47, Winter Haven 42, Lake Brantley 31, West Orange 28, Lake Mary 26, Haines City 19, Edgewood 17, Colonial 11, Lakeland 7, Palmetto 11, Lakeland 16, Auburndale 4, Lake Highland Prep 7, Sanford Seminole 7, Frostproof 7.

Old Broncos 'Fearless' Flaherty 1-Hits Boone, 11-1

**By Sam Cook
Herald Sports Editor**

Facing one of the top teams in the state in one's initial varsity start is enough to grind the rotator cuff on any pitcher's arm. Anyone, that is, except Sean "Flake" Flaherty.

"He's fearless," confirmed Lake Mary coach Allen Tuttle after his sophomore right-hander had handcuffed the Boone Braves on just one hit and the Rams continued their stampede through the losers' bracket in the Colonial Classic with an 11-1 victory Thursday at Colonial High School.

Lake Mary, which lost to Oak Ridge Tuesday, has won three straight to improve its record to 19-5 overall. The Rams have a return match with Oak Ridge today at 4:30. Mike Schmitt, Lake Mary's mononucleosis-stricken junior, will also return to the lineup, according to Tuttle, probably as designated hitter.

A win this afternoon would push the Rams into a 7 p.m. game against Edgewater. The winner of that duel would have to beat Apopka twice Saturday (3 p.m. and 7 p.m.) for the championship.

Due to a rash of sore arms, Tuttle summoned Flaherty from the junior varsity with a 24-hour call. "I was just hoping he was home when I called Wednesday night," said Tuttle. "He had to wear 'The Whip's' (Eric Hagen) uniform. But he sure knows how to pitch."

And the fun-loving right-hander wasn't about to be intimidated by a team which was ranked 10th in the state just a few weeks ago. Flaherty's past accomplishments lent credence to that. As a 12-year-old, he was key

Baseball

member of the Seminole Pony Broncos who finished second in the World Series. Last year, he

Sean 'Flake' Flaherty made the most of his first varsity start, hurling a one-hitter against Boone.

See FLAHERTY, Page 8A

Hysell Pumps Life Into Rams' Huriers

**By Rob Laria
Special to the Herald**

With the his pitching staff ravaged by injuries, Lake Mary Coach Allen Tuttle turned to untried hurler Kelly Hysell and the Rams hitting corps for help Thursday morning against Winter Park.

Hysell, himself recovering from tendinitis in both elbows, hadn't pitched all season. As expected he was not especially sharp, but thanks to a responsive group of teammates that pounded out 17 hits, the Rams came up winners, 16-9, at Colonial High School.

Hysell, a sophomore, went the distance, yielding 13 hits. Not exactly a Cy Young Award performance but for his courageous effort, Tuttle gave him the game ball. The win raised the Rams record to 18-5, while Winter Park fell to 18-8.

"It felt rough," said the right-hander. "It really felt weird getting back on the mound. No way I thought I was going all the way. Coach told me I'd pitch only a couple of innings to get the feeling of pitching again, but we started hitting so I stayed in."

The hitting assault started slowly but turned into a full-scale barrage in the third inning. With the score knotted at 2, Lake Mary came up with four runs on four hits. With two runners on

Baseball

base, Donald Grayson jumped on a Mark Wagonhausen fastball and rode it over the left field fence to give the Rams a 5-2 lead. They added another on a two-base error by shortstop Rich Esposito and an RBI single by Kevin Hill.

Winter Park made it 6-3 in the bottom half of the inning on a sun-aided triple by Duane Maddill. The hit was just one of several in which the cloudless morning sky played havoc with seemingly routine fly balls. The Rams got a run in the fourth on a Rod "C.J." Metz line-drive home run to left field before Winter Park closed the gap to one in its half of the frame.

Lake Mary, though, put the game away with three runs in each of the final three innings. In the fifth, Wagonhausen was knocked out of the box on singles by Ryan Lisle, Ron Natherson and Hill. A walk and two errors also contributed to his demise. In the sixth, a Hill double scored Grayson for one run and a two-run blast by Brent Mollie accounted for the others. Four straight hits in the seventh led to the final tally.

See HYSSELL, Page 8A

Bowers' Relief Job Turns Back Patriots

**By Chris Flister
Herald Sports Writer**

ALTA MONTE SPRINGS — In only his second varsity game, Randy Ferguson was 2 for 3 with a home run and two runs scored. Scott Bowers, who had been cut from the junior varsity team last year, turned in two innings of solid relief on the mound.

When you get these kinds of unexpected contributions, you're usually going to come out on top. The performances of newcomers Ferguson and Bowers along with the steady play of veterans like Mark Hofmann and Mark Merchant enabled Oviedo's Lions to claim an 8-7 victory over hard hitting Lake Brantley Thursday night in prep baseball action at Lake Brantley High.

The Lions improved to 9-14 with the win while the slumping Patriots fell closer to the .500 mark with a 12-11 overall record.

"We're probably the best

Baseball

9-14 team in the state," Oviedo coach Howard Mabie said. "This was a big victory for us. The kids were confident in themselves and they never quit."

The Lions return to action Saturday at 1 p.m. against Father Lopez at often dreaded City Island Park in Daytona Beach. Lake Brantley returns to Five Star Conference play Monday at 7 as the Patriots host Seabreeze.

After a scoreless first frame, Lake Brantley jumped on starter Kevin Kewley for three runs in the bottom of the second. Mark "Pork" Coffey reached on an error to lead off and Mike Davis followed with a double high off the fence in right. Kevin Bass followed with a solid single up the middle to drive in Coffey. Dan Beaty then stepped up and sent a Kewley

fastball over the fence in left for a 3-0 Brantley lead.

Oviedo got out of the inning when Hofmann, the catcher, picked Blair Patten off second for the third out. Hofmann had already thrown out a Brantley runner trying to steal in the first inning.

Oviedo came back with a four-run outburst in the top of the third off Brantley starter Tim Smith. Ferguson crunched Smith's first offering of the inning over the fence in left center for his first varsity home run to cut Brantley's lead to 3-1.

Smith then walked number nine hitter Jim Barrett and Merchant followed with a single to left. With one out, Mabie sent the runners and it paid off as Tony Belflower reached on an infield error to load the bases. Smith then uncorked a wild pitch enabling Barrett to score and, with two outs, John

Gardening

Let Your Lawn Tell You When To Water

April is generally a dry month in our area, and if you want your lawn to respond in recent fertilizer application, you'll need to do a little supplemental watering. Even when the heavy rains do come, such precipitation alone won't satisfy turf needs. As your lawn's growth increases, so does its need for moisture.

Unfortunately, our soil in most instances doesn't hold moisture very well — this compounded by rapid evaporation during warm weather. Regular irrigation is essential to maintenance of an attractive lawn — especially during spring and summer. Three things — watering frequency, amount you apply, and the time of application — must be carefully watched if it is going to be effective.

There are several clues to a lawn's need for water. If bluish-gray spots appear in the lawn, and then it begins to turn brown, water is needed. If footprints remain in the grass for a long time after you walked on it, water is needed. And, if a soil sample, taken from the root zone of the grass feels dry and crumbly, water is needed.

The time between waterings will depend to some extent on changes in the environment, such as high temperatures and strong winds, which adds to plant water loss to the surrounding air through evaporation.

You'll have to adjust watering frequency to your soil's specific capacity to hold moisture. And, this will change, depending on the season of the year. In summer, grass may need watering as often as every three or four days, while in winter, it may need water only every two weeks. Too much water can be as bad as too little. Don't water until the signs of need appear. Then, water immediately. Any delay could cause permanent damage.

Watering times and the amount you apply are definitely related. You want to wet the

Alfred Bessesen
Urban Horticulturist
323-2500
Ext. 181

entire root zone without saturating the soil. Light, frequent watering are inefficient, and, too much water is both harmful and wasteful. Constant saturation retards root growth. And, if more water is applied than the soil can absorb, the extra is lost as runoff.

As a rule, apply about one-half to one-inch of water each time. This is roughly 300 to 600 gallons of water for each 1,000 square feet of lawn area. Remember, though, the best amount depends on your specific soil type.

Now that you've got that all figured, you must decide when to water. True, watering during the heat of the day will cool the grass, this practice wastes water which is rapidly lost through evaporation. To conserve both water and money, apply water early in the morning, when it is more likely to soak into the soil, rather than raising the humidity in the air.

Use common sense. You don't want your grass to die of thirst — yet, you don't want to drown it. At each application, supply only enough to wet the root zone without runoff. And, don't water again until your lawn shows the need.

Now that you know watering is essential for a nice lawn, next comes the mowing. Mowing is fairly uncomplicated. However, some folks can ruin a lawn in a hurry.

No matter what kind of grass you have, mowing can make or break a lawn. For best

appearance, regular mowing is needed. But, mowing too low severely weakens the grass plants, and the sod thins out. When you mow too low, too much of the leaves are lost and the grass is unable to produce enough food to maintain itself. The grass literally starves. When this happens, next come the weeds, insects and other pest problems.

Most of our lawns are Bahia or St. Augustine grass. Close cutting these will practically destroy them. Generally, these grasses should be cut with a rotary mower with the blade set at three inches high, the year around. Keep your blade sharp. Dull blades do a tremendous amount of damage. Avoid mowing the grass when it's wet. Dry grass is easier to cut, and won't clog the mower. And, it's wise to use a bag to catch the clippings. If clippings are allowed to build up, they tend to smother the grass, promote thatch problems, and invite insects and diseases to dinner.

Actually, when to mow should be based on the amount of growth since the last cutting. Generally, once a week will do it. You should mow often enough so that not more than one-fourth to one-third of the total leaf surface is removed at each cutting. In other words, leave more than twice as much leaf surface as you cut off. Excessive one-time mowing will shock grass severely, so it's a good practice to mow regularly during the growing season. During the winter, lawn growth is much slower, and will need fewer cuttings.

Remember, use common sense. Overwatering is perhaps the greatest problem in maintaining a good lawn. And, you will bleach out all the nutrients, too. Thus, you will need to fertilize more often to compensate for the loss. Let your lawn tell you when to water.

Happy gardening!

Spring Fashions

Michele Cameron, 12, models an Easter outfit in a Spring Fashion Show March 30 at K mart in Sanford. Twenty models from ages 1 year through adults showed K mart's line of spring fashions in a colorful parade in the store. Featured in the show were fashions for girls, boys, men and women, running the gamut from bathing suits and casual wear to dress up styles. According to Kelvin Wilson, the store's apparel manager, the toddlers stole the fashion scene. Each child model received an Easter basket and Wilson said the fashion show "was well attended and turned out great."

Smoker's Cancer Wipes Out Family \$\$

DEAR ABBY: I am hurting more right now than I ever have in my whole life. My beloved younger sister died nine months ago. I still can't believe I will never be able to call her on the phone again to gossip and giggle as only sisters do. God, how I

miss her!

I asked her doctor what actually killed her, and without batting an eye he said, "Cigarettes!" Now I feel so guilty because she took up smoking because I, her older sister, smoked. Thank God, I was able to quit in time.

Dear Abby

GULFPORT, MISS.

DEAR ABBY: Several times you have suggested in your column that writing material would be a practical gift for an elderly person.

My son, who lives in another state, went one better last Christmas. On a Girl Scout calendar he had marked the birth dates of all my grandchildren and great-grandchildren, and the wedding anniversaries of all the members of my family.

In addition, he sent a beautiful selection of cards appropriate for each occasion. On the envelope in the corner for each stamp, he had penciled in the name of the person for whom the card was intended.

He didn't forget the stamps either — even remembering the increase that was due in February 1985.

I cannot think of a more acceptable gift for this 86-year-old lady whose eyesight isn't what it used to be.

All I need to do is add a personal line or two to each card. This may help others who don't know what to send an elderly friend or relative for whom shopping is a chore.

G.K.J.,
LAGUNA HILLS, CALIF.

DEAR G.K.J.: What a thoughtful, generous son you raised. And how generous you are to want to share that idea with others. As my beloved mother used to say, "The apple doesn't fall far from the tree."

DEAR ABBY: Should you ever doubt that women are paid less than men for doing the same job, let me assure you that my personal experience will confirm that fact.

I was born a male and trained to be a computer programmer. I am also a transsexual and have had sex-reassignment surgery. I am now a female, physically and legally.

After my sex change, I took a job doing exactly the same work I had done as a man, but as a woman. I am paid \$10,000 a year less!

Comparable Worth

Florida Business Lobbyist Says It Would Cost \$5 Billion

TALLAHASSEE (UPI) — The head of the state's major business lobby claims adopting a "comparable worth" pay plan for government workers would cost Florida taxpayers about \$5 billion a year.

Associated Industries of Florida president Jon L. Shebel said that would amount to an increased tax burden of \$1,117 per taxpayer. Even deducting the taxes paid by tourists, he said, the cost of comparable worth would be about \$817 per permanent resident.

Committees of the House and Senate are considering resolutions to set up a study of "comparable worth," a system used in Washington State for basing salaries on the value each job has for the state — rather than qualifications and market demands. Comparable worth is a goal long sought by feminists, who argue that women are generally clustered in low-paying jobs, while unskilled jobs held mostly by men pay more.

Shebel said that if factors in the Washington study were applied to Florida's 105,000 state

workers, the cost would be \$1.12 billion. He said an AIF study of government pay scales indicated the cost would be another \$3.8 billion for city and county governments to upgrade salary brackets to bring about equality between male and female dominated fields.

Shebel conceded that AIF's interest in comparable worth was based on the fear that if state government adopts the concept, it will soon be imposed on private business. He said Associated Industries opposed the concept because it bore no relation to supply and demand in the labor force.

The comparable worth doctrine assumes that all jobs within a system have some value and that the value of each job can be related to another, he said. "The basic doctrine is fundamentally flawed."

A comparable worth resolution by Rep. Helen Gordon Davis, D-Tampa, is languishing in a House committee. It would not mandate pay equality in state government, but would create a study of salary disparities between jobs filled mostly by women and those mainly held by men.

'This Will Be Remembered As A Woodstock'

Behind USA For Africa's Making Of 'We Are The World'

By Ethile Ann Varc
Newspaper Enterprise Association

You watch the seven-minute video of USA for Africa's "We Are The World" and your heart leaps to your throat. No matter how wimpy the song — and it is wimpy — you can't help but be affected by the incredible array of talent. Bruce Springsteen, alongside Stevie Wonder, Bob Dylan, unmistakably out of tune; Ray Charles, demonstrating what soul really means; Tina Turner and Cyndi Lauper, singing their guts out; even Huey Lewis, giving the best vocal performance of his career.

What you don't realize when you watch the video are the incredible logistics that went into making it. 45 hours of documentary footage had to be pared down into that seven minutes; the 12-hour, six-camera shoot was distilled by way of 70 hours in an editing booth. Every camera, every light, every piece of tape and every pair of human hands were donated.

The video was produced by Howard Malley and Craig Golin, TV producers who had already worked with USA for Africa organizers Lionel Richie and Kenny Rogers. It should have cost more than \$1 million; Malley and Golin got it made for nothing.

"They needed someone who could put it all together, get cameras and lights and the operators," explains Golin. "And the catch was — it all had to be for free."

"I would guess that there were 200 to 300 people involved in it," says Malley. "Our first thought was, 'How are we going to put together a million-dollar shoot for free?' But everyone we talked to, their first response was 'Sure, we'll do it.'"

Golin and Malley arrived at the sound studio at 9 p.m. and left at 9 the next morning. They went home, showered and arrived within hours at an editing bay. That same day, they had a short promo clip available for broadcast. In a week, the video itself was ready. Six weeks later, a one-hour HBO program was done, as well as a half-hour home videocassette.

HBO paid \$2 million for the rights to broadcast the USA for Africa special in May; all the money goes to charity. All profits from the home cassette go to charity. All proceeds from the T-shirts, the sheet music, single and album go to charity.

"In fact," adds Malley, "the USA for Africa Foundation has only two paid employees, but they're not paid out of foundation money.

They're paid out of Kenny and Lionel's pockets."

The video is a straightforward account of the session.

"I was trying to duplicate the emotion and the feel of what was going on in that studio," says Golin. "The energy level there was so intense, it was intoxicating. You'd walk in and see all these people and you'd say, 'Am I dreaming?'"

There are moments that stick out in Golin's memory, which he hopes to preserve on the USA for Africa documentaries.

"Things like people teaching Dylan how to do his part," says Golin, "and Michael Jackson teaching everyone the chorus, Diana Ross doing aerobics at 4 a.m. to stay awake."

Six weeks later Malley and Golin are out a small fortune in man-hours; their names will certainly be overshadowed by the names of the performers. But they have no regrets about the time and love they've invested.

"This will be remembered as a Woodstock, I think," says Malley. "Someday, my daughter can tell her friends that her daddy was involved in this. That's what you do it for; you don't do it because you think you're going to get rich from it."

Lawyer Denies Goetz Tried To Buy Weapon In Florida

NEW YORK (UPI) — A lawyer for Bernhard Goetz has denied a gun dealer's claims that the accused subway gunman attempted to buy a weapon in Florida after being indicted in New York on illegal weapons charges.

The dealer's statement is "absolutely untrue," lawyer Barry Slotnick said Thursday. "One need not go to Florida to purchase illegal guns," he said.

Goetz, 37, has admitted he shot four youths on a New York subway train Dec. 22 after one allegedly asked him for \$5.

Goetz said he believed his life was threatened.

"Unfortunately, there are people who are capitalizing on the incident and the mass support that Mr. Goetz has received."

Ken Ditchfield, operator of Ken's Gun Shop near Orlando told newsmen a man ordered a .38-caliber Smith and Wesson revolver with a 2-inch barrel from the shop early last month.

The man left a \$50 deposit and returned about a week later for the gun. Ditchfield told the newspaper he refused to sell the weapon when the man could not

produce a Florida driver's license.

Ditchfield said he later recognized the man as Goetz after seeing a television newscast.

Later he searched his records, he said, and learned Goetz had bought two 9mm Star pistols at the shop Sept. 4 from another employee.

A grand jury in New York indicted Goetz Jan. 25 on illegal weapons charges, but declined to charge him with attempted murder. Prosecutors received permission to resubmit the case to a second grand jury, which last month indicted Goetz on four counts of attempted murder, one count of reckless endangerment and one count of criminal possession of a weapon.

Court: Governments Are Not Liable In Lack Of Police Powers Enforcement

TALLAHASSEE (UPI) — Cities, counties and other governmental units cannot be held liable for failure to enforce their police powers, the Florida Supreme Court has decided in a series of major decisions.

Handing down rulings in eight similar cases Thursday, the high court formulated a standard that could affect hundreds of suits pending against governmental bodies.

All levels of government generally enjoy sovereign immunity precluding lawsuits against them but the Legislature adopted a statute in 1975 partially waiving that exemption for "common law torts," such as a highway accident caused by a government driver.

Under that law, cities, counties and the state

can be sued by victims of negligence under certain circumstances and jury awards of up to \$100,000 are automatically paid. Jury awards in excess of that amount require passage of a "relief bill" by the Legislature for full payment.

In Thursday's key case, the high court split 4-3 in deciding that 65 condo owners in Hialeah's Trianon Park Condominium cannot sue the city because building inspectors approved a roof that later was found defective.

"To hold a governmental entity liable for this type of enforcement activity would make the taxpayers of the enforcing governmental entity insurers of all building construction within the jurisdiction of the entity," Justice Ben Overton wrote for the majority.

In Search Of Buried Treasure

Armed with metal detectors and a lust for riches, Urban adventurers are taking up an ancient quest

Networks Give Us Two More Detective Duds, p. 2

There's Gold In Them Thar Beaches!

By Susan Loden
Herald Staff Writer

The pirate spirit didn't die out with the washbucklers.

In fact, the lure of buried treasure has been enhanced in recent years by advances in technology that sends millions out armed with metal detectors to scan beaches, backyards and battlefields with the hope of finding, if not gold, at least a bit of history.

"I can't think of anything greater than walking along and hearing that detector beep," Mattland's Stuart Auerbach said. "It's a heart-stopping sound. You don't know what's coming up."

The 52-year-old Auerbach, owner of a metal detector distributorship, first used metal detectors 33 years ago to clear mine fields in Korea.

While 20th Century warfare may have given birth to modern metal detecting, its origins date back hundreds of years. The Chinese, history tells us, used a magnetic metal detecting system to ferret out weapons hidden on those seeking to see the emperor.

Today most detectors are in the hands of hobbyists, nearly 3 million in the U.S., Auerbach said.

About 85 of them belong to the Central Florida Metal Detecting Club. Club member Tom Killian of Winter Park says support from such a group can help the novice get off to a good and possibly profitable start.

Both Auerbach and Killian say Florida, with its beaches, history and climate is an ideal treasure trove for under-sand sleuths.

Killian, 38, was attracted to the hobby about three years ago after he saw a television report showing a pair of men pulling thousands of dollars worth of jewelry from the shores of the Atlantic Ocean.

He was lured by a lust for such riches, as most hobbyists are, and like many he has been successful.

"You always hope you're going to find that gold coin or a diamond ring. And they are out there," he said.

Last year, working mainly in church yards, parks, and old homesites, Killian found 4,512 coins and nine rings. One ring was a gold wedding band and 70 of

Tom Killian scans an old Winter Park homesite, using his metal detector to find treasures from the past.

the coins were silver. The total value of his haul was \$250, which is about what he unearthed in each of the two previous years.

His finds have more than covered his \$500 investment in a detector, two sand scoops and trowels. And besides, he said, the hobby gets him outside and even provides a bit of exercise (walking, bending, digging) every weekend.

With the exception of the upfront capital outlay,

metal detecting is something just about anyone can do. All it takes is patience and a healthy dose of greed.

"The little child in most people wants to go, 'Yo, ho, ho and a bottle of rum. This is great.' There's a tremendous excitement of never knowing what you'll find and you can do it alone or in a group," Auerbach said.

Killian says searching with the support of a club can add to the rewards. "You'll learn how to dig for a coin properly without disturbing the property. You'll learn where to go to find coins. Some places have been worked out."

Killian's club plans a monthly trip within Florida to a forest, beach or other site where there may be elusive metals just waiting to be found.

He points out that if you search on private property you should ask permission first. And most owners, he said, are happy to grant such requests because they too are curious as to what might be hidden beneath their soil.

Most of Killian's 'hits' are found 5-8 inches below the surface, but his search is sometimes thrown off by a strong signal picked up from an oil drum buried a couple of feet down.

Soda cans and pop tops are the bane of a searcher, he said, but some metal detectors are sensitive enough to tell you whether it has located a coin or a pop top. With that type of gear, he said, you know whether to dig or not to dig.

But Auerbach said yesterday's trash is indeed today's treasure. Most hobbyists search for coins, but many are searching for history. They haunt old homesites looking for a buried trash pile that might hold old bottles or other rare clues to lives led decades ago.

Several years ago Auerbach scanned historical sites in Sanford, including Fort Mellon and the shores of the St. Johns River. He brought up bits of the past including numerous \$1 and \$2 gold pieces, cannon and musket balls, spearheads and other fragments of ancient weaponry.

RIDES AND SHOWS FROM AROUND THE WORLD

2 Defective Detective Shows: 'Eye,' 'House'

By David Handler

It used to be that networks tried to find just the right sitcom vehicle for a gifted character actor like Judd Hirsch or Charles Durning. Not anymore.

This is the season for tailoring tongue-in-cheek private-eye outings. I don't know how many more of them we can be expected to stomach, but as long as the networks keep them coming there isn't much else in which actors — no matter how successful they are — can find steady employment. Hence Hirsch and Durning join the car-chase brigade.

Durning has a little better luck in "Eye to Eye" on ABC than Hirsch does in CBS's "Detective in the House." A little, but not much. Neither mid-season show feels like it'll be around this fall.

Durning plays Oscar Poole, a pudgy Hollywood private eye who's right out of the '40s. Oscar wears baggy suits, calls everybody "pal" or "doll" and has a one-man office with a shoeshine stand downstairs for a reception desk.

Trouble is, these are the '80s and Oscar is, well, old. We find

retirement when his ex-partner — whom he hasn't seen in five years — is murdered. Oscar has to break it to the guy's dizzy daughter, Tracy (Stephanie Faracy). She wants to find out who killed her father. And wants to help. And so our latest crime-stopping Odd Couple is on its way.

She: "I can't believe I'm in an actual gun battle." He: "I can't believe I said 'freeze.'" She: "I didn't think he'd beat us up." He: "He beat me up."

Inspired by the Art Carney-Lily Tomlin movie, "The Late Show," "Eye to Eye" is reasonably professional but it's so familiar you can practically mouth the lines along with the cast.

Also, there are so many of these shows on the air that the plots are getting more and more far-fetched. The ex-partner was actually murdered with a lady's high-heeled shoe. I swear.

The plots aren't the problem with "Detective in the House." This is a weak, talky, one-joke show about a suburban family man, Press Wyman (Hirsch), who quits engineering to

Continued from page 2

It's tremendous to hold a piece of history in your hand," he said. "You wonder how it got there, where did it fit in the overall scheme. If it's something from a battle you might wonder how many shots were fired."

Auerbach has a vault full of unearthed treasures he says is worth thousands of dollars.

"The older I get the less room I have for it all."

But still he can't give up the search. He's drawn in part by the success of other searchers. Last Thanksgiving's stormy weather along the shores of south Brevard County, for example, wound up putting about \$3,000 worth of gold and silver coins into the hands of collectors.

It also brought a new slew of treasure hunters into his shop to buy metal detectors and get in on the bonanza, he said.

Every place man has been he has left residue behind. Our beaches are a gold mine replenished every day. An astonishing \$33 million worth of coins and jewelry are found along the beaches in this country every year," he said.

Ready to join this quest for riches? The Central Florida Metal Detecting Club meets the second Friday of each month at the Goldenrod Civic Center, 1763 Palmetto Ave., Goldenrod.

On The Cover

Is it treasure or trash? Tom Killian sifts the sand of Lake Maitland to find out.

What's Billy Mummy Up To These Days?

DEAR DICK — I have a slight problem. I've been a longtime fan of Billy Mummy of "Lost in Space." I haven't seen him in anything lately. Is he still acting? — J.H., Kemah, Texas.

Yes, Mummy is still acting. You'll soon see him in NBC's "Alfred Hitchcock Presents."

DEAR DICK — My wife and I both enjoy Pat Sajak and his "Wheel of Fortune" show. However, we are both curious about how his hostess, Vanna White, was selected for the job. Could it be she is related to someone in production or one of the sponsors? — J.H.C., Seabrook, Texas.

DEAR DICK — I would like to know if Vanna White and Pat Sajak of "Wheel of Fortune" are married to each other? — B.B., Muskegon, Mich.

To answer the second question, Vanna White and Pat Sajak are not married to each other. Producer Nancy Jones, the producer of "Wheel of Fortune," tells me that Miss White was selected after some 500 potential hostesses were interviewed. Miss White was one of the last. They had videotapes made of the 25 they considered the most promising, then narrowed it down to three, who all appeared on the show. Miss Jones says that Miss White appeared to be the best. "It takes some talent to turn those letters around," she says. "A girl must have good depth perception."

Ask Dick Kleiner

So Miss White was chosen at least partly because of her depth perception and not her relatives.

DEAR DICK — Could you please tell me what happened to Lee Manning, the hostess of "Sale of the Century"? I missed a few shows and now they have a new girl. — F.M.J., East Detroit, Mich.

Miss Manning, according to the show's spokesperson, "wanted to try other things and wanted to spend time with her children."

DEAR DICK — I was wondering if you could settle a bet between my friend and me. I say Lauren Tewes of "The Love Boat," Sammy Davis, Jr. and Sandy Duncan have glass eyes. — E.S., Warsaw, Ind.

Davis and Duncan do have artificial eyes but not Miss Tewes.

DEAR DICK — Please settle an argument. My husband insists that the blond in the Tic Tac ad on TV is Cheryl Ladd. I told him not so. If you tell him in print, maybe he'll believe. — J.R., Mortonville, Penn.

According to Cheryl's sister, no, she did not do that commercial.

DEAR DICK — My dad and I have a slight disagreement every Saturday night when "Cover Up" comes on. I say that's Jennifer O'Neill slugging the song "Holding Out for a Hero," at the beginning of the show and he says it's not. Who's right? If it's not Jennifer, then who is it? — J.H., Indiana, Penn.

Father knows best this time. The singer is Elizabeth Daily.

DEAR DICK — Why have you not answered my question concerning James Hall, who played with Clara Bow in "The Fleet's In" around 1929. When did he die and how old was he when he died. — E.J.A., Bandon, Ore.

Sorry about not answering your question before. You (and the rest of my readers) must realize that I get approximately 200 questions each week and have room for, at the most, 20 in my column. Hall died in 1940 at the age of 39.

...Detective

Continued from page 2

become a gumshoe. Press drives a temperamental station wagon, coaches a son's soccer team, does the grocery shopping. He's non-violent and befuddled. He could be Ozzie Nelson. He has a mentor, Nick (Jack Elam), a gruff, retired private eye, but mostly Press

seems to have no idea what he's doing. Even worse, we have no idea why he's doing it. His wife, Diane (Cassie Yates), a schoolteacher, seems confused, too. But she is supportive. "You'll find her, honey," she says of his search for an ex-starlet. "I couldn't even find the detergent," he laments. "Detective in the House" is woefully lean on plot and

action. Half the time it seems to be less about detecting than about other detective shows. At one point, Diane offers advice to Press by telling him what Jim Rockford did on "The Rockford Files." "It doesn't work that way," he assures her. "That was TV. Life doesn't work that way." (Of course, the tip does pay off, since this, too, is TV, remember?)
