

India's Potentates

loved, at the cross-roads of their existence. They are on their way out, but the manner of their exit will be determined as India progresses in self-government.

The so-called native states ruled by the princes comprise two-fifths of the territory of India and have a population of some 90,000,000, over one-fifth of the total population.

These two vast areas present entirely different problems. In British India we have the Hindu Moslem feud which has resulted in that part of the country being partitioned into two independent states -- Hindustan (Hindu) and Pakistan (Moslem).

However, the All-India Congress Party, which is dominant in Hindustan, has announced that it is against any native state declaring its independence of the two new dominions of Pakistan and Hindustan.

There we have the makings of more strife, and it may be bloody. The great native states of the viceroy and Hyderabad already have signified their intention of declaring their independence, and they have standing armies with which to back up their intentions.

Several important native states have indicated their intention of joining Hindustan, and the likelihood is that many others will affiliate themselves with either Hindus or Moslems.

How far any native state, no matter how powerful, will get in an effort to establish sovereignty is problematical. It will have opposition from Hindustan and perhaps from its own people.

But the Nizam is a Moslem, and three quarters of his people are Hindus. The All-India Congress Party is powerful in Hyderabad and has signified its intention of resisting any attempt by the Nizam to establish an independent state.

So there are plenty of prospects of further civil strife before the princely problem is settled. While the extent of that can't be foreseen, one thing is clear: the whole set-up is such that the Indian potentates are headed for eventual extinction.

Father Kills Two

Deas had killed his children for fear they would be taken from him and put in a home. The detective sergeant said Russell blamed the Wolfe's for his "troubles."

Deas, in reconstructing the affair, said Russell apparently killed his children, and then, "berserk," rushed into Wolfe's office and shot the couple.

At city-owned Jackson Memorial Hospital, physicians said both Wolfe and his wife, Ethel, might die from their wounds. Wolfe was shot twice, one bullet entering his throat and the other his left hand. Mrs. Wolfe also was wounded twice, in the left shoulder and in the left side.

The shootings occurred at 8:40 A. M., Deas said, in the thickly populated northwest section of Allapattah where stores were being opened and children were thronging into Andrew Jackson summer school across the street.

Charges were not immediately preferred against Russell, a slight, wiry man. Deas said he was informed that Russell was separated from his wife.

The slang phrase, "third degree," is believed to have been suggested by the third masonic degree, that of master mason, which is conferred with considerable ceremony.

This is the highest country in the world, consisting of tablelands averaging 16,000 feet above the sea and valleys between 12,000 and 17,500 feet above the sea.

DOC PILLSBURY'S ADVICE TO A FRIEND

Greeks Plan

(Continued from Page One)

to the Greek government on May 26, that the \$300,000,000 American program had been authorized by Congress, a note from the Greek government on June 15 expressing thanks for the "benevolent interest of a great and friendly nation in the welfare of Greece," and a note of June 18 from the United States accepting the Greek assurances.

The latter note stated that Ambassador Lincoln McVeigh has been authorized to negotiate a formal assistance agreement with the Greek government.

That agreement is supposed to be signed in Athens today or tomorrow. Of the \$400,000,000 Greek-Turkish aid program, \$300,000,000 is to be spent for relief and military aid to Greece.

The United States note today declared "this government notes with satisfaction the assurances of the Greek government that American aid will be effectively utilized in accordance with the purposes for which it is being extended."

President Truman has defined those purposes as being first to promote Greek reconstruction and second to prevent the spread of Communism and totalitarian government into that country.

The Greeks said they recognized that the "extensive aid of the United States will not alone be sufficient to meet the large costs of restoring public order and reconstructing reproductive facilities over a period of years."

The Greek government accepted responsibility for the task before it and declared: "This responsibility entails the composing of internal differences, the collection of more revenues, the rebuilding of foreign trade, the conservation of foreign exchange, the reconstruction of public works, the improvement of government administration, assistance and guidance to agriculture and industry, establishment of protective labor measures, encouragement of democratic organizations among economic and social groups, measures to control inflation and ensure equitable distribution of supplies and services, and the restraint of excesses and extravagances on the part of any segments of the population."

The stink pot terrapin of North America is so called because of its offensive, protective odor which it secretes.

DE OLE 'OMAN KEEP MAH HAD SO FULL O' BUMPS, DE BARBUH CAIN' USE DE CLIPPUHS ON ME?

Socialist Leader Hits Wallace On Communist Policy

NEW YORK, June 18, (AP)—Socialist Leader Norman Thomas asked Henry A. Wallace today in an open letter: "Do you reject the theory that Communist totalitarianism, using the Red army and its other army, the International Communist Movement, is relentlessly, patiently and boldly seeking world power?"

Writing as chairman of the Post War World Council, Thomas continued in a letter he made public: "If you reject this theory, on what grounds do you explain the Russian tactics in Korea, Manchuria, the Balkans, Hungary, Austria and Germany—or the Communist party policies throughout the world?"

Thomas, commenting on the former Vice-President's speech in Washington Monday night, told him: "With a great many of your specific proposals and with your estimate of the value of a third party (but not if it is controlled) I am in agreement. Emphatically, I agree that peace must be sought boldly on better lines than the Truman administration is now following."

"But I have grave doubts about your own program for peace," Thomas declared, adding that Wallace might "possibly" remove some of the doubts by answering his questions. The New Republic magazine, which Wallace edits, said the letter had been received but Wallace had not seen it.

France, Britain Agree

(Continued from Page One) gely a planning board and that the new commission would be an operational and functional organization.

Russia already is a member of the U.N. Economic Commission for Europe, but the new body was considered important enough to warrant a separate status. France asked Russia last week if she would exchange views on Marshall's proposals for the overall reconstruction and recovery of Europe, but Moscow has not replied.

Bidault will go soon to London to exchange ratification accords on the French-British alliance, the cabinet decided. Bidault and Bevin conferred before the French cabinet met. The National Assembly's foreign affairs committee, headed by Communist Leader Marcel Cachin, demanded from Bidault a report on his current diplomatic negotiations. The committee also directed that a report be prepared on the foreign ministry's budget credits.

The presence of a leading Communist at the head of the assembly's foreign affairs committee had necessitated some caution by Bidault, for domestic reasons, in his talks with Bevin. It was for this reason that France suggested an exchange of views with Russia before entering full scale negotiations on the Marshall plan.

De Nicola To Resign As Italy's President

ROME, June 17 (AP)—Umberto Terracini, president of the Constituent Assembly, told newsmen today that provisional President Enrico De Nicola had agreed to continue in office for a "brief period," but indicated that the latter would resign as soon as the assembly chose a successor.

Terracini, who said that he and Premier Alcide De Gasperi had conferred for two hours with De Nicola, gave ill health as the reason for De Nicola's decision.

While the delay in De Nicola's resignation gave the Christian Democrats time to submit their cabinet for a vote of confidence by the assembly this weekend, the impending withdrawal of the chief of state threatened to revive last month's political crisis.

Truman Calls On Public To Reduce Highway Fatalities

WASHINGTON, June 18, (AP)—President Truman today applauded a "sharp and gratifying decline" in the nation's traffic casualties, but called on highway users and officials to reduce still further the "appalling" annual toll.

"We have won a major victory in the campaign against carelessness," said Mr. Truman in an address prepared for the opening session of his Second Highway Safety Conference.

Noting that at least 4,500 lives were saved last year as measured against "the black record" of prewar 1941, when 40,000 fatalities occurred, Mr. Truman declared the safety campaign is "well started, but it is by no means done."

"Last year 33,500 men, women and children died as a result of highway accidents, and well over 1,000,000 were injured," he said. "That is a tribute to inefficiency; this nation cannot afford to pay."

Mr. Truman urged improvements in the state licensing of drivers. He recalled his assurance at the first conference last year that the federal government has no desire to "encroach on state jurisdiction in this field," but he said Congress will "not sit idly by in the face of a grievous national accident toll."

In too many sections, Mr. Truman declared, "the licensing laws are nothing more than revenue measures and their administration a travesty on public safety."

Uniform census systems which eliminate the "dangerously unfit and the dangerously irresponsible from our streets and highways," he said, are a basic weapon in the war on accidents.

Dulles Hits Red Policy As Leading To Possible War

EVANSTON, Ill., June 18, (AP) John Foster Dulles, State Department adviser, said today that the Russian policy of setting up "police states" may lead to widespread violence and even war.

Dulles, in an address prepared for the 89th annual commencement at Northwestern University, said "there is no reason to believe that the effort of Soviet leaders to impose widely their system of government will stop of its own accord."

"If it stops, it will be not because something stops it," Dulles declared, adding "that something will be either violent resistance, or a moral resistance so solid that to oppose it would be futile. Clearly, Americans must see to it that there is a peaceful stoppage."

Dulles said the United States was "in an awkward position to organize" such a movement, "because, at the moment, our motives are suspect. That suspicion is found even among such historic and understanding friends as the British and French."

The first phase of the United States' quest for peace must be to restore the nation's moral influence, Dulles said. "The United States, he added, must make it clear, beyond a doubt, that it has no thought of using economic or military might to impose on others its particular way of life."

The State Department adviser, who accompanied Secretary of State Marshall to the recent ministers' conference in Moscow, received the honorary doctor of laws degree.

Kiwanis Meet

(Continued from Page One) Women, the two million dollars for an Everglades State Park, the bill allowing State Highway patrolmen the right to make arrests of criminals, the financial liability bill for motorists. He praised the work of State Highway Patrolman L. C. Bender.

He told of the defeat of a bill that would have cost Florida \$100,000,000 in bonus payments to veterans, and of granting free license tags to 100 percent disabled veterans.

Frank Shames announced that for the third time a novel for juvenile readers by Milton B. Sackett had been accepted by the Junior Literary Guild. The new book, "Everglades Gold" tells of the discovery of oil in Florida and will be published by Random House. Mrs. Eleanor Roosevelt and Angelo Patrie are on the Junior Guild committee that approved the new book.

U.S. Paper Executives Confer With Atlee

LONDON, June 18, (AP)—The 21 American newspaper executives making a world tour talked informally today with Prime Minister Atlee after flying in from Shannon with one of their Constellation plane's four engines dead. A crew member said the engine got "a little rough" and was shut off as a precaution.

Immigration and customs officials at the London airport checked off the editors and Publishers swiftly. From the Prime Minister's residence, they were to go to a party given in their honor by U. S. Ambassador Lewis W. Douglas. Lord Beaverbrook, publisher of the Daily Express and Evening Standard, will give them a dinner tonight.

Professor Reports On Rocket Ships

CHICAGO, June 18, (AP)—A Purdue University professor said today that an orbiting rocket ship capable of shooting out beyond the pull of gravity can be developed as soon as problems of cooling and controls are solved and without awaiting the advent of atomic power.

Dr. J. M. Zucrow, professor of jet propulsion and gas turbines at Purdue, said a multi-step rocket, constructed so that each step or section drops away as soon as its propellant is exhausted, could be developed with available materials and fuels to attain the required speed.

FSU Application Is Sent To Washington

JACKSONVILLE, Fla., June 18 (AP)—Charles L. Ledford, district construction office manager of the Jacksonville office of Housing Expediter, said he had forwarded to Washington the application of Florida State University to construct a music hall for \$1,500,000.

Ledford said his office was not empowered to approve such an application but could reject any application exceeding the million dollar mark.

State officials authorized the construction in 1941 but work on it was deferred because of the war. Plans call for revolutionary design and perfect soundproofing throughout.

NO. 156

Senate Passes Bill To Limit Wool Imports

Administration Opposes Measure As Undermining U. S. Efforts At Geneva

WASHINGTON, June 19.—(AP)—The Senate passed by voice vote and sent to the White House today legislation to extend rent controls through next Feb. 29. The measure allows a 15 percent increase in rent controls where a landlord and tenant agree on a lease which will carry through 1948. Otherwise, no general increase is provided.

WASHINGTON, June 19.—(AP)—Senate approval sent to the White House today Administration-opposed legislation permitting higher wool tariffs or restrictions on imports. The vote for the measure was 48 to 38. Backers say the measure is designed to protect the American wool market against low prices resulting from imports of foreign wool.

Administration leaders, including Secretary of State Marshall, have argued that the policy it lays down will undermine United States efforts at the Geneva Trade Conference to lower world tariff barriers. The House, which wrote the controversial tariff provision into the bill, approved it earlier this week by a voice vote.

Just before the Senate vote, Senator Taft (R-Ohio), told his colleagues that objections to it are "utterly unfounded."

"The bill won't interfere at all with our foreign trade program," he shouted.

The bill continues through 1948 the requirement for the government to support wool prices at the level now being paid.

Bumper Farm Crop Expected Despite Floods

WASHINGTON, June 19.—(AP)—Midwestern floods have destroyed thousands of acres of early planted crops but the total effect on the nation's food supply is expected to be relatively small.

Agriculture Department officials are still optimistic over prospects of another bumper output of farm products. They said final harvest figures probably will show production not equal to last year's record but still far above pre-war levels. The largest wheat crop on record is virtually assured.

Floods in Iowa, Missouri, Illinois, Kansas and other Midwestern states are making spectacular news and they are bringing losses and tragedy to farmers and others living in the affected areas. However, the total amount of crop land flooded is far less than 1 per cent of the nation's total cultivated land. Still, the flooded land is some of the country's richest.

Spring floods cause some damage almost every year. Some years they are worse than others. This year, as in the case in most wet years, losses resulting from inability to get wet fields planted are greater than those caused by river floods.

Affected most by this season's floods and wet fields are feed grains such as oats and corn and the important soy bean crop, which is a source of vegetable oil. Not all the intended corn acreage will be planted. Furthermore, some of the planted acreage is late. The latter will run the danger of early frost.

Nevertheless officials still expect a corn crop of at least 3,000,000,000 bushels. While 227,000,000 less than last year's record, a crop of this size would be nearly 400,000,000 bushels larger than the 1935-44 average. It would be supplemented by a 350,000,000-bushel carry over from last year's crop.

Fire Breaks Out In Local Bowling Alley

Fire broke out in the rear of the Sanford Bowling Alley at 1:00 o'clock this morning but damage was confined to the rear of the building before it had a chance to spread.

A carelessly placed cigarette may have been the cause of the blaze, according to Fire Chief M. N. Cleveland. A former bowling alley on the same site was destroyed by fire of undetermined origin in November of 1944.

Urges Truman-Stalin Meeting

FORMER VICE-PRESIDENT Henry A. Wallace waves to the 10,000 persons who heard his address in the Watergate Amphitheatre on the Potomac River, Washington. He advised President Truman and Secretary of State Marshall to scrap the country's present policy and confer with Premier Stalin and Foreign Minister Molotov in Berlin. Wallace said that the U. S. must grant a long-term, low-interest loan to Russia. At left is Senator Claude Pepper of Florida. (International Soundphoto)

200,000 More Acres Of Iowa Inundated

OAKVILLE, Ia., June 19.—(AP)—Flood waters of the lower Iowa River were pouring into the nearby Mississippi today after reaching what Mayor O. D. Johnson said was a record crest of 18.6 feet here during the night.

In its wake the flood left more than 100,000 acres of eastern Iowa bottomland inundated and Johnson said much of it probably would be lost to crop production this year.

(Oakville, Wapello and Columbus junction all weathered the flood without serious damage to the towns themselves and no loss of life was reported. Water flowed in streets on the edge of Oakville today.)

This community of 440 persons was completely evacuated except for volunteers who fought successfully throughout the night to protect remaining levees. A dike break above here, however, created a lake eight miles long and four miles wide.

Failure To Heed Stop Sign Causes Wreck

Failure to heed a stop sign was the cause of a collision this morning between a Kaiser Sedan driven by G. A. Tyler of Osteen going west on Ninth Street and a 1947 Dodge truck driven north on French Avenue by Oris Roscoe Avera of Orlando, according to Police Chief Roy G. Williams.

Mr. Avera was said to have suffered a minor neck injury after his truck was turned around and onto its side following the collision. Harold M. Smith, a passenger, was not reported hurt. The front end of the Kaiser was badly damaged, and the truck left rear wheel was damaged. Tyler was charged with reckless driving.

Traffic Violator Gives Police Some Glads

Bouquets and red traffic tickets do not usually arrive at the same time at the Police Station, but such was the case recently when a traffic violator, impressed with the courtesy of the officer who had served a red ticket, arrived with his ticket, paid his 25-cent fine, and presented Police Chief Roy G. Williams with a fine bouquet of gladioluses.

Not only did the violator at the Police Station praise the courtesy of Sanford policemen, he even declared that he favored parking meters, said Chief Williams.

WASHINGTON SIGNED—John Washington, a catcher, has been signed by the Sanford Celery Feds, it was announced late this afternoon by Business Manager George Touhy. Touhy announced that Ernest Motter had been placed on the disabled list as a result of a sprained back.

Soviet-Nazi Peace Talks Are Disclosed

1943 Negotiations For Separate Pact Promised Red Support For German Effort

NEW YORK, June 19.—(AP)—An article in Liberty Magazine titled "A Secret Russian Mission that Almost Changed History," says that Russia suggested a separate peace to Germany in January 1943, at a time when the Germans had been thrown back at Stalingrad and Rommel had suffered setbacks in North Africa.

Appearing today in the July issue of the magazine, the article was written by Dr. Paul Scheuber, a member of the German Foreign Service for 20 years before the Nazis came to power, who became an American citizen and served in the O.S.S. during the war, and Guy Richards, Washington reporter.

The article said that under the Russian proposal, Germany was to remain the Soviet's "free hand" behind a line roughly from Riga on the Baltic, to the Dardanelles and aid Russia if the attack on Turkey and Russia was to be immediately "to supply quantities of raw materials, including oil and manganese, to help sustain the German war effort elsewhere."

The negotiations were ended by Russia, the article said, in the belief Germany had let word of them spread so far there was danger the offer might come to the attention of Russia's allies, then planning the invasion of France.

Similar Russian negotiations, in the fall of 1943, were mentioned briefly during the Nuremberg trial.

General States Military Power Of U. S. Is Weak

MIAMI, Fla., June 19.—(AP)—Lieut. General J. Lawton Collins said today Russian officers outnumber those of the U. S. Army 20 to 1. In addition, he declared, the Russians have "over 10,000 planes and we cannot man 4,000 aircraft today."

Collins said that in case of trouble in Europe the U. S. forces there "are so small that they could easily be overrun." He estimated that Russia is "capable of putting 200 divisions in the field, have them in the field right now," compared with ten divisions in the whole U. S. Army. He said "Russia's satellites in Europe could provide another 100 divisions."

"I simply cite these as examples of the fact that we are terribly weak today," the War Department information chief said in a speech prepared for a convocation of the Reserve Officers Association.

"In all sincerity, in all logic," Collins said, "we must review our situation now, and take the necessary steps to meet what might happen to us. We can't deal in probabilities any longer."

"This was one of the mistakes made prior to Pearl Harbor. People said the Japs couldn't attack us, but they did. Today other nations in the world are capable of attacking us."

For the sake of national security, Collins said, there should be a program of universal training and unification of the Army and Navy as proposed by President Truman.

Marie Washburn Gets Army Commendation

Sgt. Marie E. Washburn of Sanford was presented on June 4 with the Army Commendation Ribbon for meritorious service rendered as a WAC during the period from Dec. 1945 to Oct. 31, 1946.

Envoy Is Nominated Turkish Aid Head

WASHINGTON, June 19.—(AP)—President Truman today nominated Edwin C. Wilson, ambassador to Turkey, to be chief of the American mission under the \$100,000,000 Turkish aid program.

The nomination, which had been expected, was sent to the Senate along with the appointment of Charles E. Saltzman, vice president of the New York Stock Exchange, as an assistant secretary of state.

Ships Stay At Piers As Seamen Approve Sit-In

MEMBERS of the National Maritime Union, 3,500 strong, meeting in New York (right), vote approval of the sit-in tactics by 100,000 C.I.O. maritime workers, which has immobilized 300 American ships in all major ports on the Atlantic, Pacific and in the Gulf of Mexico. Top, are some of the 150 vessels trapped at their piers in the Port of New York. Continuation of the strike is expected to make 25,000 seafarers men idle in a short time as all port activity stops. (International)

Pravda Attacks Acheson Speech As Rude Slander

MOSCOW, June 19.—(AP)—The Communist newspaper Pravda today termed the Wesleyan speech of retiring Undersecretary of State Dean Acheson a "gross and vulgar slander against the Soviet Union."

Truman Doctrine Said Cause For U. S. Loss Of Foreign Prestige

MOSCOW, June 19.—(AP)—The Communist newspaper Pravda today termed the Wesleyan speech of retiring Undersecretary of State Dean Acheson a "gross and vulgar slander against the Soviet Union."

The article in Pravda, the Communist Party newspaper, was the sharpest attack yet on U. S. foreign policy in the Russian press.

"Acheson knows very well with what distrust progressive circles throughout the world appraise American foreign policy and it includes appraisal in the United States," the article said.

Experiment Station Addition Progresses

Work is proceeding on the addition of four more rooms and an attic to the Central Florida Experiment Station building on Celery Avenue, Fred A. Dwyer is contractor.

The new addition on the front will provide for one general office and three combined offices and laboratories, according to Dr. R. W. Ruppert, experiment station director. The money for the addition was appropriated two years ago from the state building fund, he said.

It is expected that the work will be completed on or about Aug. 10, Dr. Ruppert said.

Oldest Active State Peace Officer Dies

TALLAHASSEE, Fla., June 19.—(AP)—George W. Bass, 87, believed to be the oldest active peace officer in Florida, died at a local hospital today.

Bass, known as "Pop" or "Dad" to thousands of girls who have attended Florida State College for Women, now Florida State University, has been a member of the Tallahassee Police Department since 1914, and served as chief of police at one time.

Although far past the retirement age, he refused to leave the department and remained active until he was taken ill a few weeks ago.

State FFA To Honor Prominent Floridians

DAYTONA BEACH, June 18.—(AP)—Honorary membership in the Florida Association of Future Farmers will be conferred on prominent Floridians at the association's annual banquet here tonight.

State FFA President Doyle Conner, Starke, will present the degrees. According to State FFA Advisor H. E. Wood, only 103 honorary state farmer degrees have been awarded since 1923.

GOP Predicts Veto Friday Of Labor Bill

Southern Democrats Try To Persuade President To Sign Labor Legislation

WASHINGTON, June 19.—(AP)—Anticipating a veto of labor legislation, Republican congressional leaders passed the word today for all their party's members to stay in Washington tomorrow and Saturday. If there is a veto, they want a quick showdown on enacting the bill over the President's disapproval.

President Truman was keeping mum of what he will do. A group of Democratic party officials from the South, who were White House callers during the day, said the President refused to listen to one of them who tried to appeal to him to sign the bill.

They said Col. Marion Rushton, Democratic National Committeeman from Montgomery, Ala., raised the matter, but Mr. Truman cut him off.

The President has until tomorrow midnight to act on the measure which put restrictions on strikes and certain labor union practices. The White House has announced he will send Congress a message about it tomorrow, but has declined to say whether it will be a veto.

While this big moment of the congressional session was awaited, studies went ahead on a variety of matters. These included:

Steel—A Senate subcommittee, inquiring into whether the country has enough steel-making capacity, got from Wilfred Sykes, president of the Inland Steel Company, Chicago, this prediction: "By the end of this year ample steel will be available to satisfy demand."

Health Program Carried Out In Local Schools

An aid to health program for school children was carried out during the past year, according to Health Unit Director Dr. Frank Quillman who pointed out that 2,517 Seminole County children had received dental inspections by the dentist and doctor, and that 2,321 corrective measures and dental prophylaxis were given by the mobile dental clinic. Approximately 2,022 children were examined by Dr. Quillman. Seven health films were shown to 5,000 children.

This information is contained in the Seminole County Health Unit report, monthly report of the Seminole County Health Unit.

All school water supplies were examined, Dr. Quillman reported. A few of the schools have pitcher pumps and the water is not as safe as it might be. All lunch rooms were inspected periodically and some changes were made for the better. Some of the schools were baited for rats and mice and adults were killed.

Although there have been no cases of mumps in Florida reported, Dr. Quillman said that there had been several cases in the Carolinas and urged that all persons who have not been vaccinated against this disease, or who were given this treatment more than five years ago, to report for vaccination either to their private physician or to the Health Unit office.

For children he recommended the following vaccination schedule: Infants, six months to one year of age; again when they start to school, and again at the end of the school career. All infants should receive immunization against diphtheria, whooping cough and tetanus before they are one year old, he stated. A combination vaccine is used for this.

Dr. Quillman warned that with the hot weather more people will go swimming and that this is the season for fungus infection of the ears. This is annoying but not serious. If there is an itching in the ears, have your physician make a diagnosis and give proper treatment, he advised. These infections are refractory to treatment and many times several trips to the doctor's office is necessary to get a cure, he pointed out.

Defense Rests Case In May Fraud Trial

WASHINGTON, June 19.—(AP)—The defense rested its case today in the May-Garson war-crime trial and took a motion for a delay in continuation of the case, Charles J. Magliotti, chief defense attorney, asked for a suspension until a key witness, Joseph P. Freeman, recovers from a heart attack.

But Judge Henry A. Sweeney directed that the case proceed with the final few witnesses, the prosecution wants to call in rebuttal.

Sweeney said he expected all testimony to be concluded by Monday and the court and attorneys could go to Freeman's hospital bedside to receive the balance of his testimony in statement form for later reading to the jury. This would leave final arguments and the court's charge the only things remaining before the case goes to the jury for a verdict.

WASHINGTON, June 19.—(AP)—Maj. Gen. E. L. Parks said today that Gen. Dwight D. Eisenhower has been "approached" regarding the presidency of Columbia University, New York, but has no intention of quitting as Army chief of staff this year.

Peace Talks

(Continued from Page One) Washington said they had "no information on that subject whatever," and other official informants there said a search of German state papers brought to this country made no reference to such an early peace offer.

Associated Press efforts to check the report in Moscow produced no results. In Nuernberg, however, Friedrich Gaus, former general counsel for the Nazi foreign ministry, held there awaiting indictment, told an American interrogator that a Russian representative in Stockholm made secret overtures toward negotiating a separate peace early in 1943.

Nazi Foreign Minister Joachim Von Ribbentrop, later hanged, talked hopefully of effecting "some sort of division of Eastern Europe between the Soviets and the Nazis," Gaus related, adding that the Russian terms were not revealed.

According to Gaus' version, Von Ribbentrop sought to maneuver the Russians into making the first definite proposal, finally recalling his emissary with the expressed belief that "the Russians are just playing with us."

Dr. Robert Kemper of Philadelphia, American war crimes prosecutor in Nuernberg, also said Von Ribbentrop told him during the 1945-46 international military tribunal trial that the Russians put out secret peace feelers in 1943, but gave few details.

Gaus, the American informant said, recalled the name of the Russian emissary to Stockholm as "Aleksandro" and said a German named Kleist represented Ribbentrop. He said Madame Alexandra Kollontay, Soviet ambassador to Sweden, knew of the negotiations but they were not carried on through the embassy.

The Liberty account said the Russian emissary was A. M. Alexandroff, assistant chief of protocol in the Russian Foreign Office, and that Russia dropped the matter upon learning that the Ger-

Chinese Report 2nd Mongolian Incident

NANKING, June 19 (AP)—The government-controlled Central News Agency reported today, without confirmation by any other source, that Mongolian bandits had carried out a punitive raid in China proper in the second "Mongolian incident" of recent weeks.

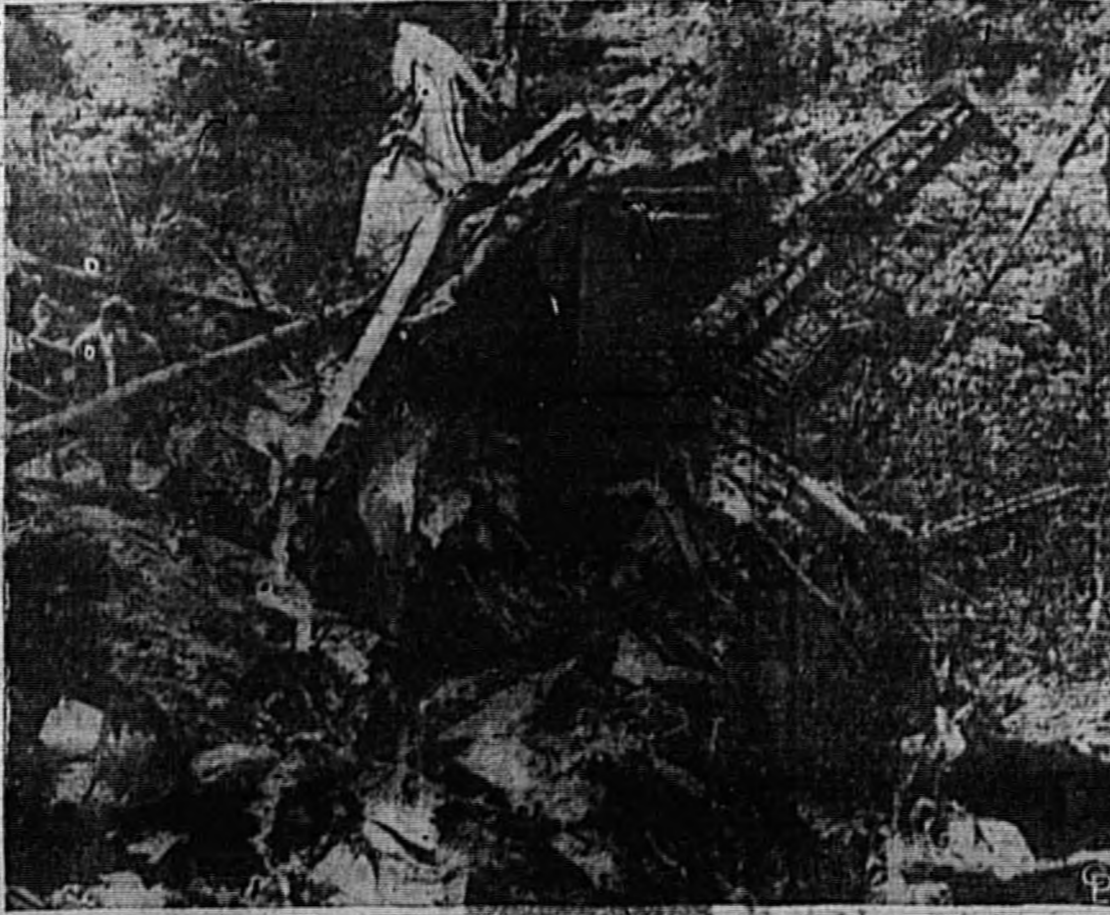

The dispatch from Kalgan said more than 1,000 Mongolian irregulars attacked North Chahar Province, burning, looting and killing. The report described the bandits as "Russian-speaking" nomads apparently from Inner Mongolia but actively opposed to the central government.

Inner Mongolia has been demanding autonomy, already won by neighboring Outer Mongolia.

man Foreign Office, at Hitler's insistence, sought through Bulgarian diplomatic channels to learn if Alexandroff were a Jew. Gaus told the American interrogator that the Swedish contact was maintained and in the fall of 1944 Von Ribbentrop received what purported to be Russia's conditions for peace. These terms, he said, were "so harsh" that Von Ribbentrop was afraid to show them to Hitler.

The tulip is a member of the lily family.

The tuning fork was invented by John Shore in 1711.

HERE IS A CLOSEUP OF THE WRECKED B-29 which crashed against Hawkes Mountain, near Springfield, Vt., bringing death to twelve Army men who were aboard. Caught in a heavy thunder storm, the plane failed to top the 2,300-foot summit. The bomber was en route from Tucson, Ariz., to New Bedford, Mass. The bodies of the victims were burned beyond recognition and strewn around a 1,000-foot area. (International)

ANGRY FLOOD WATERS pour through a gap in the Mississippi River levee (top) south of Alexandria, Mo., forcing the entire population of the town to evacuate the area, adding to the thousands driven from their homes as a result of the disastrous flood sweeping through eastern Missouri. Al Canton (below) the awing flood surrounds the municipal power station, partly protected by a wall of sandbags. Only one generator was in operation at the time this picture was taken. An estimated 22,000 persons were made homeless and 12 were reported dead as the floods inundated thousands of farm acres in Iowa, Illinois and Missouri. (Intermag)

Wallace Proposal

(Continued from Page One) any suggestion of Mr. Truman taking the initiative in inviting the Generalissimo to a two-man parley certainly would call for much burning of midnight oil before it was adopted. There has been the Red coup in Hungary, resulting in the overthrow of the Democratic government and the substitution of a Communist regime. There have been other developments in numerous countries, including the United States, indicating that aggressive Communism is on the march.

John Foster Dulles, State Department adviser, in a speech yesterday at Northwestern University, declared that the Russian policy of setting up "police states" may lead to widespread violence and even war. He said there is no reason to believe "that the effort of Soviet leaders to impose widely their systems of government will stop of their own accord." And the U. S. Army is having printed for distribution to troops a pamphlet which says the Communist Party in America is an agent of Russia and that Communism is a danger to Democracy.

However, without attempting to read Mr. Truman's mind one ventures the view that he would be delighted if Premier Stalin should feel able to accept invitations already extended to him to visit Washington. The President revealed a year ago that Stalin had declined two invitations with regrets, saying his doctors wouldn't let him make long trips. For that matter, there seems no reason to believe Mr. Truman wouldn't accept an invitation from the Soviet Premier for a conference in Berlin or some other European city. The Premier, it may be noted, isn't laboring under any ailment which might give rise to a suggestion of appeasement on his part.

As a matter of fact, the United States (and the rest of the Western Democracies) are anxiously awaiting Moscow's response to a pressing invitation from Secretary of State Marshall to all of Europe to join hands for economic rehabilitation. Britain and France are going to urge Moscow to cooperate.

Should Russia decide to participate wholeheartedly, and without reservation, in this great program of European construction, the entire picture of the strained relations between the Russian bloc

U.N. Inquiry Group Is Boycotted By Arabs

JERUSALEM, June 19, (AP)—Four Arab city councilors boycotted the municipal reception given the United Nations special committee on Palestine at Haifa today.

The committee is touring the Holy Land, seeking clues to the solution of the Palestine problem. Chairman Emil Sanstroom told Mayor S. Levy and five council members who greeted the delegation at the city hall that Haifa was chosen for the first trip outside Jerusalem because of its mixed population. The Mediterranean port city has 78,000 Jews, 40,000 Arabs and 26,000 Christians.

A crowd of several hundred applauded when the U. N. delegation appeared at the city hall. View Chairman Emil Sanstroom, a Christian Arab, and J. S. Khoury, the Arab town clerk, attended the reception.

Plane Crash

(Continued on Page Three) of surviving passengers were available.

The Civil Aeronautics Board said it is sending an investigator to Syria to look into the crash. The assignment was given Ralph Reed, a senior accident investigator stationed at Denver. He was summoned to Washington for conferences after which he will leave for Syria.

Pan American said the only details of the crash, which occurred while the plane was en route from Karachi to Istanbul, were contained in a brief message from Damascus which said the plane's No. 2 engine caught fire and the craft was destroyed at 2:00 A. M. Damascus Times, 7:00 A. M. (EST) yesterday.

First reports of the crash led to fears that it was the clipper America, which left New York June 16 with a party of American publishers and officials aboard for the inaugural flight of Pan American's commercial round-the-world service.

The company said information from the Damascus office was that the three crew members who survived were Purser Anthony Volpe, Stewardess Jane Bray, both of New York, and Third Officer Eugene W. Roddenberry of River and the Western allies would be changed. Then a meeting between Stalin and Truman, or of the Big Four, might be a highly profitable investment.

Edge, N. J. The other members of the crew, announced earlier by Pan American and presumed to be those killed, were: Capt. Joseph Hall Hart, Jr., Indian Chase Park, Greenwich, Conn., First Officer Robert Stan-

ley McCoy, Flushing, N. Y.; Second Officer (navigator) Howard Thompson, Jackson Heights, N. Y.; First Engineer Robert E. Donnelly, Bayville, N. Y.; Second Engineer W. E. Morris, Brooklyn, N. Y.; First Radio Officer Nelson C. Miller, Port Washington, N. Y.; Second Radio Officer Arthur O. Nelson, Brooklyn.

Can't Break His Good Habits!

Bert Childers was saying, it's funny how so many of our wartime habits stick with us. Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Save every single thing that might possibly be used again. From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

Joe Marsh

SEE-WORTHY VALUES for the Sunny Side of Summer

Look to TOUCHTON'S for your playtime accessories and you'll see everything that's new under the sun this season. Right here, displayed for quick easy selection, are scores and scores of things to help you look better, feel better, and have a better time on all your summer FUN-DAYS. So come in today and get the things you need at low prices that keep your budget on the sunny side of summer savings.

TOUCHTON DRUG CO. The Thrifty Rexall Drug Store SANFORD, FLORIDA

Hollywood By BOB THOMAS

HOLLYWOOD, June 19, (AP)—Here is something destined to make you feel old—Shirley Temple is eager for dramatic roles. You may still think of Shirley as bounding on Jimmy Dunn's knee, but she is a big girl now, all of 18, and anxious to cut her niche as an actress. She told me she has done too many comedies and is happy about her current film, "Mary, Queen of Scots." The picture begins with her near-suicide and she is allowed some heavy emoting. Shirley said the only thing holding back her career as an actress is her face. "No matter how I fix my hair," she pointed out, "I always look like a 14-year-old. I'll be playing baby-sitters until I'm 30."

Joe McCrea may not be able to do "Rachel" with Loretta Young for the simple reason that he is planned to spend July and August with his two sons. They come first. It's reported that Bill Williams is not happy with his fate at RKO. In several months he has done little more than pose for magazine pictures with his wife, Barbara Hale.

Bob Hope enterprises has closed shop for a while. The comic will make his next four pictures solely for Paramount. Precy Lombardi Reagan reports progress on the screen actors guild negotiating for a contract with the bosses. The new pact is expected by August 1.

"Haymex" deal with U. I. pictures, which are shaping up now. He has been away from the camera too long... that relieving you hear out on the same strip is by the night club owners who are celebrating the return of the "A. M. closure June 30. Before the war their margin of profit was made betwixt midnight and 2.

Grandmother To Bury in Miami Children South Carolina

MIAMI, Fla., June 16 (AP)—Mrs. H. Gray, of Kershaw, S. C., maternal grandmother of Peggy Zell, 11, and John Russell, 7, whose father is accused of bludgeoning them to death here early today, today made arrangements to take the bodies of children to Kershaw for bur-

ials. Gay sought court action over Judge George E. Holt after father, 59-year-old Chris Russell, refused to give her permission to make funeral arrangements after a talk in his jail.

His wife, Mrs. Mae Russell, whom divorce proceedings were started, was believed to be in Kershaw or out. She told news over the phone last night from New York that she hoped her husband at the works, he always was a trouble-maker.

The condition of Mrs. Walter Rife, who with her husband, real estate agent, were shot after the two children were killed, remained critical today. Her band was slightly improved.

CRIPPLED CHILDREN

ACKSONVILLE, Fla., June 19.—The Florida Association for Crippled Children will meet here at 3:30 to organize the national day of Florida in the occasion. Purposes of the association are to coordinate activities of all agencies interested in the bettering of crippled children.

Tom Drake will do the Robert Montgomery role in "Night Must Fall" at La Jolla's Little Theater. He hopes it will help him escape from weak film roles. Jack Carson takes his air show from CBS to NBC in the fall, following the general trend. That will leave Columbia virtually bereft of comedy stars.

John Garfield is talking about filming his next picture, a comedy, in England and France next year. He is now way to make movies of "That's Life," which is a remake of the 1942 film "Ball of Fire," began the other day and on the set were the first two rods of "Ball of Fire."

Heidi Marshall finishes "Whispering Smith" this week and is anxious to do another film right away. "I don't relish the idea of going back to being a housewife," she laughs. Commercialism is making alarming inroads in recent pictures. "Miracle on 34th Street" extols a New York apartment store at length, and "The Bachelor and the Bobby-Soxer" contains a bold advertisement for a certain airline.

Zachary Scott is eager for a rest after four pictures in nine months. Elliott Nugent was directing "Sam Waggner" in a close-up for "Ever the Beginning" and the stage-trained actor was moving his head. "Keep your head still," cautioned Nugent. "Remember it will be 11 feet tall on the screen at the music hall."

Production of reclaimed rubber in the United States increased from less than 200,000 tons in 1940 to more than 300,000 tons in 1943.

The famous Vale of Kashmir in India is about half the size of Yellowstone National Park in the United States.

BUY SOME STOCK

EDITOR, PUZZLE PAGE: Please help me with the answer to this problem. A farmer has \$100 with which to buy stock for his farm. He can get hogs for \$10 each, sheep for \$3 each, and chickens for 50c each. He wants to buy exactly 100 head with his \$100. How can he do it? — MRS. L. J. ROSS

Before looking at the answer, perhaps readers would like to try working it out!

President Truman again was passage of a universal training bill, declaring "We must remember about all that these men would not be training to win a war, but to prevent one."

Peace Talks (Continued)

Sanford Herald who sometimes Hank The Herald is exasperated by other newspapers might be interested in a note on the front page of the Miami Herald last Sunday which said that wedding stories for the office by Tuesday noon, that they not be typed and signed and will not be taken over the telephone, and if they are delayed a few days after the ceremony, they will be considered as copy. There are sound and sensible reasons for such rules.

Peace Talks (Continued)

Small boys should be instructed by their parents in the proper handling of firearms before they are allowed to use them without adult supervision. They should be particularly instructed not to shoot at passing automobiles or airplanes. In California last Sunday the actor Jon Hall and singer Frances Langford, who incidentally hail from Tampa, narrowly escaped death when their small cedar plane in which they were riding had to make a forced landing in a bog hit by a .22 caliber bullet. A 14-year old nearby for such a rifle, was arrested nearby for questioning.

Peace Talks (Continued)

Although the people make the laws under which we and other business are forced to operate there is scarcely a day that goes by that some well meaning individual doesn't come in and want us to break the law. For instance you take that law which the people made about publishing news about lotteries. There was a story in a recent Herald about it and it brought out the fact that the lottery law is in sight. There is no way of getting around it.

Peace Talks (Continued)

The law says "No matter concerning a lottery or gift enterprise shall be deposited or carried by the mails of the United States." Well, that word "matter" means us. The Herald, and that word "lottery" is the thing you want to operate where you give away prizes on the basis of a lucky number. And if we run anything about it, and one of our papers prints in the U. S. mails, we are going to get into hot water, or to jail. And yet, almost every day some one tries to get to do that, and gets mad if we don't.

Peace Talks (Continued)

India, whether British-ruled or independent, seems destined to be divided forever by her own unresolvable elements. Intimate differences of language, race and religion make unity an apparent impossibility. The Hindu majority, given the chance at governing India during the interim, rule last year failed miserably at reassuring the minority Moslems and still smaller groups of Sikhs, that their rights would be protected. Near civil war has grown out of this chaotic, unworkable situation.

Peace Talks (Continued)

Consequently, when Britain offered the country a division into two main states, Hindu and Moslem, with equal dominion status, Indian leaders accepted the proposal. It is now up to the Indians themselves to decide by their actions whether they will remain as dominions within the British Commonwealth, attempt to exist as separate free nations, or unite in one India.

Peace Talks (Continued)

The test of Indian sincerity and their capacity to rule themselves will now lie in their ability to control their own rebellious elements. In a very real sense it lies with three men, Nehru, Jinnah the Moslem and Sardar Singh the Sikh, to restore order and prove India's right to independence.

Peace Talks (Continued)

Plan Progresses For Korean Government. SEOUL, June 19 (AP)—The long-discussed plan to give Korea a unified, provisional government took a step up today when American officials announced that Korean democratic parties will be considered as copy. There are sound and sensible reasons for such rules.

Feds Play Leesburg Here Tonight

Sanford Drops Tilt To Pirates By 4 To 1 Count; Stanton Hurls Tonight

LEESBURG, June 19 (AP)—(Special)—In an attempt to register a victory over the Leesburg Pirates, Sanford manager Don Murray will send Bill Stanton to the hill tonight, after the Feds were defeated in a nip and tuck battle here yesterday afternoon by a 4 to 1 margin.

Sanford has not scored a victory over the Pirates this far this year, but will be in top form to meet the Lake Counties under the stars at the Municipal Park at 8:15 o'clock this evening.

Yesterday the locals came from behind with a two-run uprising in the sixth frame to trim the Feds in one of the featured events of the Water Molen Festival held here annually.

The Celery Fed artillery opened up for the first time in several days and banged out ten sacrifices off the offerings of two local chumpers.

Manager Murray paced the Sanford attack on the Leesburg Pirates pinners with three satellites in four trips to the plate. Dave Bride blasted three hits in five appearances, Jerry Hivynian hit safely twice and Johnny McManus was caught three times.

SANFORD FANS NAIL BIG FINE ON DAVE BURKE

OCALA, June 19, (Special)—The heaviest player fine in Florida State League history was handed down at league headquarters here yesterday when Pres. Al Combs ordered player Dave Burke of Gainesville immediately to pay \$100. He is suspended for fifteen days. The action followed complaints of twenty-three fans at Sanford who on Monday night claimed that Burke used vile and obscene language directed at them. Myrtle Hong of Gainesville removed Burke from the game.

The player was suspended the following morning for an indefinite term pending receipt by Combs of the umpire report as to the nature of the incident. In his letter to Gainesville club officials announcing the penalty, Combs said that Burke would be prevented from playing until July 2 unless the fine was paid.

Boudreau Retains Lead For All-Star Baseball Contest

CHICAGO, June 19, (AP)—Lou Boudreau, Cleveland Manager and shortstop and one of the American League's "forgotten men" of the 1940 All-Star baseball game, today retained an edge over runner-up Joe DiMaggio, New York Yankees center fielder, as the highest individual vote getter in the 1947 all-star poll.

Boudreau, omitted by American League managers who chose the players for last year's classic, has pulled 124,564 votes for the game to be played at Chicago's Wrigley Field July 8. Boudreau will lead the 1947 all-star poll.

DiMaggio's total vote was 123,142, while Ted Williams, Boston Red Sox left fielder, who formerly led the poll, was in third place in the individual race with 121,403.

Enos Slaughter, St. Louis Cardinals left fielder, still topped first baseman Johnny Mize of the New York Giants in the National League's individual battle. Slaughter had been named on 129,954 ballots, and Mize, 119,562. Walker Cooper, Giants' catcher, trailed Slaughter and Mize with 111,003.

Sanford manager Don Murray paced the attack on the Leesburg Pirates pinners with three satellites in four trips to the plate. Dave Bride blasted three hits in five appearances, Jerry Hivynian hit safely twice and Johnny McManus was caught three times.

COMMENTS from the SIDELINES by ARTHUR BECKWITH, JR.

Restocking Bass—The State Game and Fresh Water Fish Commission placed more than 20,000 bass fingerlings in the waters of Seminole County during the first five months of 1947. John F. Dugan, chief fisheries biologist, disclosed yesterday.

The fingerlings, produced at the commission's Winter Haven hatchery, were released in Lake Jennings, Lake Alva, Lake Cham, Lake Minnie, Lake Orienta, Short Lake, Island Lake, Twin Lake, Boat Lake and Sylvan Lake.

Applications for restocking the lakes were made by the Seminole County Sportsmen's Club.

The small bass were part of more than 1,100,000 fish released in 90 Florida water bodies throughout the state this year, Dugan stated. Of the total nearly 300,000 were broom and the remainder bass.

The chief biologist added that applications have already been received for restocking a half-million additional fingerlings to be delivered in the next few months.

Dugan declared that the commission's three hatcheries are currently producing an estimated 170,000 baby bass and broom each month for restocking the state's overfished lakes and streams. Hatcheries are now located at Winter Haven, Wewahatchee and Holt, and plans are being laid for still another in Central Florida.

Completion of the fourth hatchery, Dugan estimated, will boost the annual output of fingerlings to approximately 3,000,000.

Diamond Dust—The best pitcher in the league is Sid Hudson, and I honestly got a thrill out of it the way he cut in 1 to 0 in the Yankee Stadium. "Hucky Harris, manager of the New York Yankees stated in the June 11 edition of the Sporting News. We believe, too, that Sid is about the tops in the American League. He has not been a 20 game winner for the Senators, but the Senators have been a low second division club since Sid has been there. . . . We see that Jim Behan is back at his old tricks. He was sent for an early shower at Gainesville Sunday afternoon by Umpire Ellis L. Kling. Hal Stewart, former Fed, was sent as company for the rosy Behan.

Trade winds is the name given to winds which blow regularly from tropical belts, but the word "trade" is used in an otherwise obscure sense of "course."

Ponte Vedra Lad Leads Title Seekers

LOUISVILLE, Ky., June 19, (AP)—The hottest medalist in the 41-year history of the Southern Amateur Golf Tournament, hard-hitting Charley Harper from Ponte Vedra Beach, Fla., led 31 other title seekers into match play today.

Two 18-hole rounds, one to determine first and second flights and the other to open actual play of the Southern Golf Association's championship, faced the select field containing some of the top amateur strikers.

Winners in the match-play tests moved into the title bracket and the losers dropped into the second flight.

Harper continued yesterday to perform magic with his clubs as he toured the 6,531-yard Audubon Country club course in 70. Paced with the 67 he carded Tuesday, this 70 gave him a qualifying total of 137.

The medal record established in 1936 by Fred Haas, New Orleans golfer who since has turned professional.

The total was seven strokes under par for 36 holes at Audubon and gave the Florida seaside swinger a seven-stroke edge over his closest competitor, Edmund K. Gravelly, the Virginia State Amateur Champion from Richmond who had a 144.

Defending champion George Hauer of Columbia, Ga., who also leads the National Intercollegiate Title, sat out the qualifying grind.

The Clubhouse

By FRANK ECK, AP Newsfeatures Sports Editor

NEW YORK—Things are getting tough at the nation's racetracks. The people who pour their hard-earned money through racing's mutual windows are getting sicker with blinking bankrolls or have finally discovered that you can't beat the races.

A survey of attendance and wagering records made at 18 tracks during the past five months shows only three tracks with a gain in attendance figures and a money wagered over 1946 when a record shattering \$1,830,287,465 went through the windows.

The three tracks showing gains were the Fair Grounds in New Orleans which picked up 44 percent in attendance and 43 percent in money wagered over 1946 when a record shattering \$1,830,287,465 went through the windows.

There was little fiscal joy at the spring meeting at Atlantic City, one of three New Jersey tracks. Early figures showed a decline of 22 percent in patronage and 35 percent in wagering.

The seashore track backers claim that June is not one of the good months of the beach season and is hoping for better dates for future spring meetings.

Racing men realize the record amounts bet at the tracks the last two years can't be matched. The high cost of living and the fact that there are some commodities on the market today than in the last two years are reasons for the betting decline, racing men believe.

However, Saratoga's annual August meeting will continue but with only 24 days, Aug. 4 through 30, being held at Saratoga Springs, N. Y. The first 12 days of the meeting, July 21 through Aug. 2, will be held at Jamaica where the Saratoga backers can be built up for a summer letdown at the Spa where many patrons go to the races to see the horses run and not to get rich overnight.

Power Company Seeks Permission To Issue Additional Securities

McGregor Smith, president of Florida Power and Light Company, announced yesterday in New York that the company had filed an application with the Securities and Exchange Commission in Philadelphia for permission to issue \$35,000,000 in new securities to raise part of the money required to meet its \$85,000,000 construction program.

The company's construction program is being pushed forward in anticipation of growing demands for electricity in the area served by the company, H. H. Coleman, district manager said. The securities the company contemplates selling are \$10,000,000 principal amount of first mortgage bonds, \$10,000,000 in debentures and \$15,000,000 in preferred stock.

Part of the proceeds of the sale of securities will be used to retire debentures and notes of the company now outstanding. Mr. Coleman said that if the company is able to meet its time schedule the securities will probably be offered at competitive bidding some time in the first half of August.

In North Africa and Tibet blacksmiths are often considered low caste or outcasts.

Estimate on the amounts spent on recreation in the United States in recent years vary from two billion to \$20 billion dollars annually.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it causes trembling, lack of energy, getting up at night, swelling, puffiness under the eyes, headache and dizziness. Prevention or early passage with assisting and burning sometimes shows the cause is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubules rid your body of poisonous waste from your blood. Get Doan's Pills.

OSZARK IKE By Ray Gotto

MICKEY MOUSE Rise And Shine! By Walt Disney

THE LONE RANGER Salt On A Wound. By Fran Striker

ETTA KETT By Paul Robinson

RECKON HE DONE BOOTED BUCKET?
"HAW! WE GOT TRAPPED LIKE A RAT!"
"...SUBMERGED IN FAT!"
"LET'S GIT DOWN 'T BIZNESS!"
"BEFO' OZARK GASPS HIS LAS' BREATH!"
"OSZARK AINT TWITCHIN' A MUSCLE!"
"RECKON HE DONE BOOTED BUCKET?"

MICKEY MOUSE
"OH... PARKING OVER A FIRE HYDRANT, EH?"
"BUT I..."
"NOW, THEN... DONT... DONT LBAN AGAINST THAT LEVER!"
"LITTLE HELICOPTER... IF YOU EVER WENT UP, GO UP NOW!"

THE LONE RANGER
"WHERE IS 'T CONFIDENCY NO?"
"I IN VANGO VALLEY."
"TONTON, THAT MARKED FRIEND OF YOURS HAS SHIRE MADE IT TOUGH FOR US."
"MEANWHILE..."
"NOW YOU TWO ARE UP AGAINST IT. CANT HELP US."

ETTA KETT
"HOPE I WERE NOT MARRIED, BUT HE SOON WUL BEFT I USE LONG ENGAGEMENTS—ABOUT A WEEK!"
"NO EDDING!"
"I MEAN—IN— REALLY NOT— MEE BELLS— IN HIS DOUBLE— MY NAMES!"
"DONT YOU!"
"BUT YOU'RE MAKING A MISTAKE! YOU ACTUALLY ARE— AM NOT THE GIRL YOU THINK I AM!"
"OH, SURE! WELL, HERE WE ARE AT THE PRAIRIE ACHE— WHO YOU'LL SOON BE MRS. TOMMY THOMAS!"
"GULP!"
"OH— YOU MEAN YOU ACTUALLY DONT BELIEVE ME!"

Tonight and Saturday: scattered showers and high temperatures.
