Three clubs were pleased to make definite gains during the period in question and two of them were the Phillies and St. Louis Browns where experted into the cellar by all concerned and unconcerned weeks before a mayor threw the first ball or someone threw out the first mayor. The third club to advance precepitably since Monday last was the St. Louis Cardinals, who, getting the finest of pitching from Rhem, Sherdel and Alexander, jumped from sixth to second place with four victories and no defeats.

The other St. Louis club did almost as well, winning four out of five and advancing from fifth to second place. The Phillies won four in six played but remained, as is, in fifth place, in spite of the fact that, barring the Cardinals, their week's record was the best of any National League outfit.

The trio mentioned and the Tigers, Athletics, Pirates, Giants and Braves were the only clubs to play better than .500 baseball during the seven days. The Cubs, hitting around .190 as a club and scoring only eight runs in five games, gained only a single decision since last Monday and dropped from fourth to sixth place. The Indians hit a trifle better, averaging close to four runs a game. Leader a year ago but Uhle was lambasted on several by, St. Louis, .445. occasions and the club won only two out of five. The Dodgers, getting only fair pitching as against the most inapt hitting or none at all and an infield defense that couldn't stop a standing army, tossed off four out of five again. Even the Red Sox improved on the Dodgers' record by winning two out of five.

It is well, at that, that the latter were available or the Senators might be as badly off as their list of injuries entitles them to be Washington broke even in six Player games but, of their victories since Hornsby the opening of the season, at least Cobb four have gained at the Red Sox Ruth

The Yankees and Athletics, although playing a series against other, had the same record, the Yanks breaking even in six games and the Athletics winning three out of five.

The local entry finished last Brown week without a defeat but in the Traynor meantime they lost Pennock and the rest of the staff fell away simultaneously. A slump from the remarkable hitting pace of the first week also did the club practically no good.

The Giants likewise weren't so hot during the seven days. They continued their hitting, except in one game, and won four out of seven but the idea that the Giants were to fatten on the weak east-Ruth, 3; Simmons, 2; Tobin, 2. lingering death.

The Pirates enjoyed a fair week with three out of five, showing a decline from the murderous hit-ting of the season's first few days. The Braves also kept ahead of the situation with four out of seven, pitching carrying the club, The The Phils hit well, as usual, and get fair pitching. Also the club is hustling for McInnes and may yet live to make an awful bum out of this writer, among others. As for the Brons, Dan Howley admits that he hasn't much but the club s getting him more than a fair return on the investment.

The Tigers, looking good and bad by turns, won three ond lost two while the White Sox won only plently of runs but the other team usually ends the discussion.
