

UN Voting On Demands New Suez Clash Erupts

By THE ASSOCIATED PRESS
Egyptian and Israeli troops clashed at the Suez Canal for the third day today as the United Nations prepared to vote on demands for the withdrawal of Israeli troops and Israel said thousands of Arab refugees could return home.

The Israeli army said the canal's west bank fired for 20 minutes at Israeli soldiers on the east bank near El Qantara, about 25 miles from the canal's northern entrance.

The Israelis said the Egyptian forces in the canal fired a second time two hours later, but the Israeli troops returned the fire and the Egyptians quit shooting.

Israel, which captured nearly all of Egypt east of the canal in June 1956, reported three such machine gun and mortar attacks Sunday on its positions near El Qantara. The Israelis said they allowed the Egyptian gunners each time.

Radio Cairo said Egyptian forces in position on the east bank of the canal fired at Israeli tanks and destroyed six tanks and nine armored cars in two days of fighting.

The two sides clashed Saturday night on the east bank. Egypt claimed to have had 12 there all along. Israel said about 100 Egyptians had crossed the canal and penetrated about nine miles into the Sinai Peninsula.

Fun Day To Spark '4th' Here

(Continued From Page 1)
The South Seminole Jaycees, beginning at 10 a.m. and lasting until 10 p.m. at the atmosphere of a madcap gala will be enjoyed on 5th and Altamonte Springs across from the Home Builders Supply Store.

Live bands will fill the air with music and the dancing of a big band will add to the competitive fun. Booths, games, rides and all the fair-activities of past Jaycee events will be found.

The first daytime fireworks display will take place at 8 p.m. and will be repeated in a second show at 10 p.m. This will include both aerial and ground displays. Sky divers will add to the day's exciting events and a barbecue supper will be held at 6 p.m.

Over in the eastern part of Seminole County the Greater Oviedo Jaycees are putting on a grassed pig contest and sack races.

A baseball game will begin at 7:30 p.m. in John Courrier Park between Oviedo and Maitia.

Oviedo merchants have donated prizes that will be given out during a ticket drawing in late afternoon and the midway with rides and games will be in progress from 4 to 8 p.m. with a chicken barbecue cooked by the Jaycees served at 6 p.m.

All Oviedo events are planned to accommodate local residents and will be so that these desirable to attend the Altamonte or Oviedo events will still have time to go see the fireworks displays.

For local benefactors, the Oviedo group will sponsor a dance with music provided by the "Fops."

Final Memo To Shoppers

Shoppers can still take advantage of Downtown Sanford's special Pre-Fourth Clearance bargains, according to Joe Garrett, chairman of downtown events.

Planned to acquaint Sanforitians with the gala events to take place in downtown Sanford Tuesday, the "We Care" merchants are sponsoring the sales so shoppers can buy those last minute needs for the Fourth of July and vacations at low prices.

The "We Care" merchants are sponsoring the free radio event at the public library Tuesday at 12 Noon.

U. S. Casualties Heavy

SAIGON (AP) — U.S. Marines halted an infiltrating force of some 3,000 North Vietnamese regulars Sunday in a savage battle that cost 250 American casualties—31 dead, 19 missing and 170 wounded.

The Marines said they counted 65 Communist bodies and that planes, artillery and naval guns probably killed many more.

The battle took place in the long-threatened 1st Corps area just below the demilitarized zone. The Communists kept up heavy pressure today with thousands of big bang grenades and mortar shells. North Vietnamese planes were shot down.

The war mounted in intensity on the ground and in the area above North Vietnam with these major developments:

1. The Marines stopped the infiltrating force Sunday.
2. South Vietnamese headquarters said that about noon today a Communist force jumped a 100-truck supply convoy moving from Da Nang to Con Thien.
3. Troops of the U.S. 1st Cavalry, Airborne Division, beat off a guerrilla force Sunday of perhaps 250 men holding a concealed underground fortress in the foothills of coastal Bong Son Province. In a nine-hour fight the cavalrymen killed 75 Communist troops but had 10 dead and 32 wounded.

The sharp increase in action led to speculation that the Communists wished to show their muscle on the eve of America's July 4th celebrations.

Demos Probing Spending Bill

TALLAHASSEE (AP)—Democratic legislators have hired an accountant to check the state's general spending bill against a budget proposed by Gov. Claude Kirk. The bill is a television address.

House Speaker Ralph Turlington, D-Gainesville, hired Bill Hester, a certified public accountant in Tallahassee to make the audit. He bypassed the House of Representatives and went directly to an independent accountant to get an independent opinion.

Some Democratic leaders in the House of Representatives are disappointed in the bill which they say was drawn up by the governor's budget office.

"Let me say now that what ever else this bill may be, it most certainly is not any bill of mine," Kirk said in a message to the lawmakers telling which part of the measure he had vetoed.

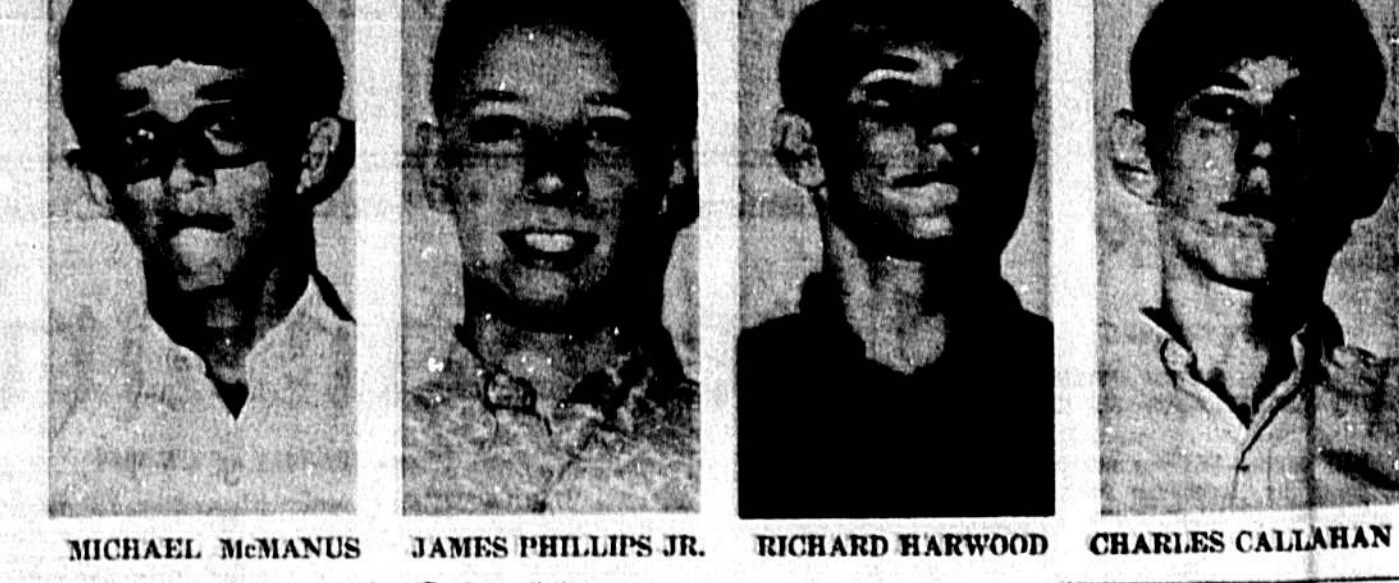

"We want to find out once and for all if it is or if it is not," Turlington said after hiring the accountant. "I am confident it is."

"Claude Kirk is the only governor in my 19 years in government to get exactly the budget he asked for. I can't understand why he vetoed parts of his own bill," Turlington said.

The Legislature has set a state bill calling for \$1,246 billion in state spending. He vetoed it.

Later, Kirk sent an appropriation bill for \$1,238 billion and a supplemental appropriation bill for \$174 million. He used the line-item veto to cut the total to \$1,233 billion.

Close Call For Orlando Novice Pilot

MANCHESTER, N.H. (AP)—A novice Florida pilot caught in heavy clouds was guided to safety by an airline pilot Sunday night and made his first instrument landing with only one-half hour's fuel in his tanks.

Joseph Myers of Orlando was en route from Metropolitan Airport in Springfield, Mass., to nearby Barnes Field in Westfield, Mass., in a small single-engine plane but was unable to land because of poor visibility.

He was advised to attempt a landing at Keene, but became lost in heavy clouds.

A Northeast Airlines twin engine turboprop, piloted by Capt. John Stumpf of Long Island Sound, N.Y., was en route to New York run to assist the small plane.

Myers tried to "talk" Myers down through the clouds, but visibility was too poor.

He gave Myers a heading for the Manchester airport, where he landed with only 15 minutes of fuel left.

Myers said he had only 40 hours as a pilot, and had never made an instrument landing, or landed at night.

He flew to New England several days ago to visit friends.

How Sam Kept His 'Pledge'

(Continued From Page 1)
Statue of Liberty and made a pledge to someday own his own business, has his own flag pole and fly his own country's flag daily. That was in 1955.

Just 34 years later, in 1959, Sam did that. He opened his first service station in New Jersey, then about ten years ago he came to Seminole County and opened his service station at Five Points, west of Sanford.

Along with the flag flying, Sam saves 6 cents per day and at the end of the year he cashes in the nickels for a check and forwards that to the United States Treasury for "keeping of the flag."

Sam will celebrate the Fourth of July in De Moines, Iowa. His son, Frank Samuels, flew in last Friday to take Sam to Vancouver, Washington, then back to Iowa for a four-generation reunion.

Kidnaped In Algeria

Congolese Hunt Tshombe

KINSHASA, the Congo (AP)—The Congo government has asked Algeria to extradite former Premier Moise Tshombe to Kinshasa so it can execute him on charges of treason and plotting to overthrow President Joseph Mobutu.

Since most African nationalist leaders consider Tshombe a puppet of the colonialists, it was assumed that Algeria's anti-Western regime would turn him over to the Congo government.

Tshombe is being held in Algeria after the apparent hijacking Saturday of the British charter plane in which he was traveling from Palma de Mallorca to the nearby Mediterranean island of Taha, in the Spanish Balearics.

Algerian officials said several mercenary soldiers and Belgian citizens were on the plane with Tshombe, along with three British subjects, the pilot, copilot and hostess. Reports in Paris from Algeria said Tshombe's arrival was a surprise to the government of President Houari Boumedienne. Algerian officials denied arranging the landing at Boufarik military air field west of Algiers.

Algeria and the Congo broke diplomatic relations in 1964 under Tshombe's regime and have not formally resumed them. But Congo's Embassy spokesman in Paris said his government has assigned representatives to open extradition talks with Algeria.

The 49-year-old Congolese leader has been in European exile for 12 months. Living most recently in Madrid, since Mobutu took power in a bloodless coup, Tshombe's political party has been banned in the Congo, his property confiscated and his supporters thrown out of their positions.

Tshombe was sentenced to death in absentia by a Congolese military tribunal last March after it found him guilty

Girls Dumber Than Boys?

LITTLE ROCK, Ark. Yet the majority of behavior problems are boys. Girls get better grades. The fact is that boys are not prepared to achieve on the same level with girls."

HUD Grant To FTU

Florida Technological University over the weekend received good news regarding its dormitory construction program.

Florida Tech President, Dr. Charles N. Millican, was informed by U. S. Senator Spessard Holland, George A. Smathers and U. S. Representative Edward J. Gurney, that the U. S. Department of Housing and Urban Development has reserved \$1,500,000 to be applied toward total construction project costs of four dormitory units to house 422 students.

The next step, Dr. Millican explained, beyond the reservation of the funds for the project, would be the preparation and processing of a loan agreement to be prepared in the Atlanta Regional Office of HUD. Normally, this step requires 90 to 120 days for completion.

Dr. Millican stated that there are almost an endless number of procedural steps necessary to fully coordinate the loan agreement through all the required levels of state and Federal government and to implement this project with the dormitories being ready for the opening of Florida Tech in September of 1968.

However, the university has already laid plans to actually hand carry various agreements at every stage of the processing in order to reduce to an absolute minimum the normal time required for the paper work involved.

The Federal loan will be repaid through collection of fees which will be charged FTU students living in the dormitories, Dr. Millican explained. The Federal funds will be matched, by approximately \$200,000 in state funds.

Keep Seminole Beautiful

KAB — Keep America Beautiful. KSB — Keep Seminole Beautiful. These phrases — reminders, if you please — are more important to us than just the aesthetics that make life here more enjoyable.

Recently in Chicago, the National Packaging Conference heard American Can Co.'s chairman, William F. May, explain some of the economics of roadside litter.

Our commissioners are reminded time and again that the trash—along Upsala Road, Vinton Road, S 427 Five Points to Longwood, etc. — is an eyesore, and somebody ought to be jailed "because of it. And now comes the word that is increasingly mentioned in public service dialogue — "pollution" — that stresses adverse effects on "the good life."

Some of our citizens indicate that they feel that "surely everyone is dumping their trash on our roads." But other folks must have some problems, too.

The Science Advisory Committee established by our President reports that EACH YEAR the nation's citizens dispose of more than 48 Billion cans (250 per person), 25 Billion bottles and jars (155 per person), 45 Billion metal cans and crowns, plus Billions of other packages.

The Harvard Business Review says that collecting and disposing of this refuse, plus garbage and other rubbish, costs municipalities more than \$1.5 Billion each year.

The container industry, strange as it seems, has found that it isn't the fellow who throws the beer can on the road or puts the "easy-open" beer can top in the parking meter that gets

Political Notebook

WASHINGTON (NEA) — Struggling with the difficult question of how to rectify the Middle East, East, the United Nations stands in danger of seeing its already limited usefulness shrink still further.

In effect, the case of victorious Israel has been tried in free world newspapers and returned on the charge of aggression leveled by the Arab world and its somewhat shaky council, the Soviet Union.

Against the now well-trodden story of the six-day war and its verdict of Arab-Soviet reprisals, the indictments in the U.N. reverberate with an unreal clarity.

It is widely appreciated that the heathen Arabs and their sometimes friends in Moscow must act out their frustrations in this current charade. The danger lies in the probability that all too many U.N. mem-

ber states — East European, African, Asian — will accept of how to rectify the Middle East. It will be seriously ramming in the U.N. if its final verdict reflects heavy contamination of this uncertainty.

Much of the English-speaking world, Western Europe, western Asia and perhaps other lands would likely accept any significant endorsement of the outrageous actions open in Cairo and Moscow.

Such an endorsement would strain the breaking point of the U.N.'s credibility as even modest verbalizer on the subject of war and peace. And if they do not have much choice, the day has long passed when any but incorrigible dreamers look upon the United Nations as an agency able either to enforce or to restore peace in major international disputes.

James Marlow Analysis Of The News

WASHINGTON (AP) — This is a turbulent month, and for no one more than President Johnson. June was full of hazy beginnings and nothing fully settled, neither war nor peace. But by month's end Johnson seemed poised for a new beginning. June was his nimble month, one of his best ones. He hoped around, looking good, sounding good, feeling good. Yet, there was little positive to point to in the results as yet.

What he did was keep his cool in hot weather. He was subtle and simple. The temperature went up when the Israelis fastened their punitive Arab might upon the Arabs and took chunks of their land. Ordinarily, this might have been the end of trouble in the Middle East for some time. There was nothing ordinary about June. Anything but.

There is no peace. Before the war the Arabs talked of blasting Israel to smithereens. Now they can't even take back their own lands and have to ask the United Nations to get it back for them.

As part of their surge the Israelis absorbed all the gains they won. Everybody knew this. But this week they did it formally. It was greeted as a triumph. Ever the Johnson administration said this was a hasty action it couldn't approve.

This was Johnson's first rebuke to Israel. Until then he hadn't rebuked either side although the Arabs thought he was cozy with Israel, and it annoyed them. In this case stand aloof with his technique. He didn't want to see Israel squashed. But he didn't want to

"Dr. Crane," he said as we lunched together recently in Philadelphia, "I believe heartily in your idea about stopping allowances to children."

"So Pagger and I have told our kiddies that they can't have all the money they want if they don't do their chores around the house and lawn."

"But we have gone a step farther. In order to teach them to do a little original thinking, we have told them they may also suggest the jobs which they think need to be done."

"This helps them become more observant. Maybe it even encourages some creative thinking at an early age."

"Now they'll eagerly come to their mother or me to suggest chores which should be performed."

"So it works out very well and they never grumble about not having enough spending money."

Jim and Peggy Cusack rate a big salute for their clever strategy.

Where Did He Come From?

MONTREAL (AP)—Billy Casper is the invisible man of golf. He was subjected to constant television coverage in two nations—and no one noticed him until the last five minutes. But suddenly he was there, center stage in the high drama, on his knees and his arms raised in exultation. Casper shot a 69 Sunday and Wall a 72. The playoff starts at 2:15 p.m. EDT, and will be televised nationally on CBS. CBS TV from 5-6 p.m. in the United States and CBC-TV from 4:30-5 p.m. in Canada.

Watch It Leo

It's been 16 years since miracles for dapper Leo Durocher but he's got a dandy going right now. Durocher, who piloted the New York Giants to the 1951 pennant with a storied finish, has his trusty volume out again and what's more he's got all Chicago believing it.

Natives Are Getting 'Pennant' Fever

Ken Boyer doubled home one run and tied the game with an eighth inning homer for New York. Steve Carlton hurled a six-inning nightcap as the Cardinals climbed back to tie for the top spot.

'Bleak' Future For War On Poverty

WASHINGTON (AP)—Sergeant Shriver is betting Congress for the life of his command post—the Office of Economic Opportunity—and the usually optimistic antipoverty director concedes the future looks bleak.

There might be no war on poverty by the time we've "bleaked" the program, Shriver said recently, estimating the odds are 60 to 40 against passage of the Johnson administration's antipoverty legislation now before Congress.

Some congressmen believe the appropriation will be the same as fiscal 1967. The difference between what Congress authorizes in spending and what it actually appropriates can spell the life or death of a program, says Shriver.

Shriver's primary concerns are money and a Republican effort to dismantle the OEO and move its programs to such established departments as Labor and Health, Education and Welfare.

We The Women:

A carbon copy of a letter was forwarded to me and is herewith published for the benefit and education of our readers. The letter was addressed to the President, Dorothy Moutson and Luanna Tierney, it says:

Dear Ladies: At our last meeting a newspaper piece about you was read to our committee. It told how the UPI said you had applied for a trademark on the name MAFIA and how you want to sell mail order memberships for \$1 each in a club you are forming. I tell you we almost laughed till we cried. One of our members, who is a president of our club, said to me, 'I don't know anybody who tries to make a fast buck. Maybe you want to send your club to camp or something and we got to admit this club is better than trying to sell home-made jelly and pickles.'

Probably you already got letters from the FBI (Faint and Rustino Independent) and the CIA (Claret Inspector Association). I probably think that life inspectors are pretty funny. But you don't know how hard their guys got it today. They are not too many. If around now and the fact is they got to inspect probably half the time of our men. I am president of their union and we know where we speak. Therefore, we want you to know we don't think you are so damned funny.

We also turned thumbs down on your remark about how you think this can be a whole issue family organization. The MAFIA has always been a family organization. But we never run on revolving gates. Signed, The Coon Nostra Anti-Defamation League

Interview with men on the street to get reaction to Sen. George Smathers' bill (S. 3211) on Uniform Holiday Mondays.

REPORTER: What do you think of the Uniform Holiday Monday?

MAN: You mean the Uniform Supply house is gonna take a holiday on Monday? Man, we gotta have some clean uniforms for the week. They can't do that to us. We pay them . . .

REPORTER: No, that's not the idea. What I mean is Senator Smathers' idea — he wants to make a law of it — to have holiday fall on Monday.

MAN: Aw come on, guy, you're putting me on!

REPORTER: No foolin'! . . . Washington's birthday would be celebrated on the third Monday in February.

MAN: Chee, what's to come of the yam we tell the kids on Feb. 22 about the tree-chopper that couldn't be out of it? And that cherry pie bit. We always have cherry pie on Feb. 22. I like cherry pie, and if this Monday holiday bit is gonna louse up that treat, I'm agin it.

REPORTER: The law hopes to make that easier for you to forget. We will call that holiday "President's Day." That opens the door for a full blast of yams about all presidents. See how beneficial it all is!

MAN: Yeah, I get it. That's just all right, ain't it?

REPORTER: The next weekend for whoopee is the last Monday in May you know, that will take the place of Memorial Day.

MAN: Aw naw, you don't. That upsets all the buildup for the Indianapolis Speedway TV show. I like to hear them cars roar.

REPORTER: Well, the Indy folks probably will be glad to change a little bit just to cash in on the "long weekend." And it leads very nicely to the next one — Independence Day which will always be the first Monday in July. Great, huh?

MAN: Well, I dunno. The boss expects me to take a vacation in July, and if I have to wince at all weekend of expenses for that Independence Day blast, I'll probably lose out on some of the plans for the vacation. But it sounds pretty good, as that.

REPORTER: The next one according to our Senator's reading law is Veterans' Day. That will fall on the first Monday in October.

MAN: Hey, wait a by god minute, mister! What happened to Labor Day? If you wanna have a REAL strike on your hands — one that'll make the FEA sanctions look like kindergarten winner roast — just try taking away that Labor Day weekend.

REPORTER: Well, since that already is an established Monday holiday, the Senator didn't have to get it into the new law.

MAN: Well now, that's better. We workers' people just gotta be honored at least ONE day in the year. Yeah, and get a holiday for ourselves to make ladies' legs-for one day, any way. That's a joke, mister.

REPORTER: Yeah, your boss is splitting his sides with laughter. But the next one after that Veterans' Day on the last day in October is Thanksgiving Day.

MAN: Now you ANE giving me the business, mister. Our turkey day always is on THURSDAY, not MONDAY. . . . The President himself tells us so.

REPORTER: Well, if this bill goes through, it will take that terrible responsibility of the President. The law will then be observed on the fourth MONDAY in November.

MAN: Well, I ain't give thanks every day, I guess, 'cause I've had a lot of blase.
