Has Given Indications of Becoming Dangerous in the South

ON CONDITION

OF THE COTTON FARMERS THE STATUS OF PELLAGRA SEEMS TO HANG

(By The Associated Press) WASHINGTON, Aug. 12.—Review of federal health activities during the past year issued today by the Public Health Service contains re-affirmation by Surgeon General Cumming that pellagra "has given indications of becoming dangerous owing to the economic depression among farmers and especially among tenant cotton growers of the South." These people, the Review says "Have been rendered practically penniless by condition of the cotton market and are forced to live on salt pork, corn bread and molasses which, when eaten exclusively for a few months are almost certain to cause pellagra."

SILESIAN QUESTION WILL BE REFERRED TO LEAGUE NATIONS

Involves Drawing Frontier Between Poland and Germany

(By The Associated Press) PARIS, Aug. 12.—France and Great Britain have decided to refer the Upper Silesian question to the League of Nations, it was announced today. This question, which involves the drawing of a frontier between Poland and Germany in Upper Silesia threatened yesterday to bring about a break in the meeting of the Supreme Allied council. Decision considered here today to have solved the crisis that arose between France and England.

NO EVIDENCE OF FOUL PLAY IN DEATH OF MAUDE GILBERT WHO WAS DROWNED AT MIAMI

On Automobile Ride the Girl Drove Car Into Canal

MIAMI, Aug. 12.—No evidence of foul play in the death of Maude Gilbert, twenty-nine, whose body late yesterday was found in Tamiami canal following the report to authorities by E. F. White, her companion, on an automobile ride the night before, had been found by the sheriff's office. The coroner held an inquest this afternoon but said this morning he believed White, who is in jail without bond, he released after the inquest. White said the girl drove the automobile into the canal and drowned.

MIAMI, Aug. 12.—The body of Miss Maude Gilbert, twenty-nine, was taken from Tamiami canal near here by divers late this afternoon at the point where the touring car in which she was riding with E. F. White last night is alleged to have plunged into the water. Her body was only partially clothed. White is being held in the county jail without bond.

White early this morning walked into the sheriff's office and calmly declared that his automobile had gone into the canal and the girl, who he said was driving it, had been drowned. County officials at first doubted the man's story, as his clothing was neatly pressed and bore no evidence of his having been submerged. He insisted, however, that he had gone to his home first and changed clothes after walking for about seven miles, then begging a lift to town on a farm wagon.

Deputies were dispatched to the canal and located the machine. When it was pulled out of the water by a derrick, articles of feminine apparel were found in the car, including a corset and underwear. Divers work-

MASKED MEN TAKE MAIL CLERK OUT FOR TARRING.

ELREN, Okla., Aug. 12.—Masked men took L. P. Matthews, twenty, mail clerk, from his home here last night, blindfolded him, and drove several miles out of town and returned soon after dumping him out into the street with a coat of tar and feathers. Matthews, with several other persons, was arrested yesterday on a charge of disorderly conduct.

ENGLAND'S SPEED BOAT WILL BREAK RECORDS ACCORDING TO REPORT

(By The Associated Press) SOUTHAMPTON, Eng., Aug. 12.—The English motorboat Maple Leaf, seventh challenger for the international cup to be raced for off Detroit in September has attained a speed of eighty miles an hour in trial in Solent, it was announced here today. This is said to be the world's record. Previous record was 77.85 miles an hour held by the motor boat, Miss America, owned by Car Wood, of Detroit and made at Detroit last September.

HOUSE ACCEPTS SENATE CHANGES ON ALL TAX MATTERS

(By The Associated Press) WASHINGTON, Aug. 12.—Republican members of the senate finance and house ways and means committee reached a tentative agreement today on the modification of the American valuation plan for passing duties in the next tariff law. The house members it is understood has accepted practically all senate committee changes which did not alter the principle of the plan.

ed for hours, finally coming upon the body about 5 o'clock.

White told the authorities that he had chanced upon Miss Gilbert late last night while she was waiting for a jitney and asked her to go for a ride with him, both being acquainted. White is an employe of the Southern Utilities Corporation here, and Miss Gilbert, who came to Miami in October, 1920, from Bridgeport, Conn., formerly having been with the same concern. White is thirty-one years old and has a wife and two children, who left the city yesterday for South Carolina.

TAKEN OUT AND WHIPPED AT LONGWOOD

SPECIAL OFFICER A. R. STILES OF LONGWOOD WAS KLUX-ED LAST NIGHT.

Word was brought to the Herald office today that special policeman A. R. Stiles, of Longwood, was taken out in the woods by a band of masked men last night and whipped and then brought back and dumped on the streets with a warning.

As far as can be learned there has been bad feeling engendered in Longwood by Stiles in arresting motorists several years ago when he was acting as constable and recently he was appointed special policeman to enforce the speeding ordinances of Longwood by Mayor Henck and it seems that the actions of the band last night in taking him out and whipping him was the result of former actions on his part coupled with the fact that he had again taken the position of motor cop.

But little can be learned of the affair and of course it will be laid on the Ku Klux Klan as usual.

Longwood is an incorporated town and Mayor Henck is very desirous of enforcing the automobile ordinances.

It is alleged that Stiles was taken out of the Allen store about nine o'clock.

Telephone call at Longwood this afternoon said that Stiles had been taken in front of Allen's store last night by a band of masked men, that he claimed afterward he was not whipped but that he had been taken some distance from Longwood. Just what it was all about no one seems to know except the band of men and they will never tell.

August 26th Will Be a Special Sales Day and One Big Event

The Woman's Club of Sanford is one of the real live organizations of the city and are always in the forefront of every good movement for the benefit of the city and county.

Among their latest efforts to help humanity is the idea of hot lunches for the school children that bid fair to revolutionize the old idea of allowing the school children to go to school hungry and keep them hungry all day long. This movement started in the Welfare Department of the Woman's Club and the ladies have held several very interesting meetings on this matter and now have it in shape to present to the people.

It was figured out that one thousand dollars would erect a suitable building at the grammar school where the hot lunches could be prepared under competent supervision and served in the proper manner. Since the world knows that there is no school funds available for building or any other purpose now when many schools are being closed for lack of funds it was impossible to build this building without a popular subscription and despite the fact that the city has been "driven to death" by various drives these ladies faced the music and solicited the families of the city and county in the effort to obtain the money from those mostly concerned and also to bring the matter home to the mothers and fathers of the children.

The campaign has been successful but more money is needed than was collected and the Woman's Club has conceived the idea of having a big time here on Friday, August 26th, at which time they will give the people plenty of entertainment in the form of a street dance, a public wedding and many other attractions.

It will be arranged in order that the money that is needed for the school lunches can be raised in this manner instead of making another canvass of the city and county and begging for something that should be gladly given. They have not solicited the business men and will not solicit them but the business men have agreed to assist the ladies in this great movement by helping to advertise this great event and the merchants will also make August 26, a special sale day and put on special sales on various lines and this will be an added inducement for the people to come to town.

A prominent professional man will be married in public right on the streets and a fine wedding has been arranged that will eclipse any social event ever pulled off here.

Watch for future announcements and remember the date.

ARMAMENTS BE LESSENER AT CONFERENCE

UNITED STATES INVITES THEM TO UNITE IN PRACTICAL EFFORT

WASHINGTON, Aug. 12.—Putting into definite terms its proposal for a disarmament conference, the United States yesterday invited the great powers to unite in "a practical effort to remove the causes of misunderstanding" and so facilitate reduction of the world's enormous outlay for the materials of war.

In formal identic notes of invitation forwarded to Great Britain, France, Italy and Japan, the American government pledged its unstinted co-operation in such an effort and further defined as follows its own conception of the principles involved:

That there can be no hope for peace or stability until the tax burden resulting from heavy armaments has been reduced;

That such a reduction is possible only if troublesome international problems are solved by common consent;

That among these problems the Pacific and Far Eastern questions occupy a position of "unquestioned importance";

That although there is no intention to dictate the scope of the conference the discussions should touch upon matters "which have been" of international concern as well as those now admittedly controversial; and

That the question of naval armaments might well be considered first, though there should be no barrier to a full consideration of armaments of every sort.

PREACHER KILLED PRIEST LAST NIGHT AT BIRMINGHAM, HAD WORDS OVER DAUGHTER'S MARRIAGE

Minister Says Klan is Good Organization

TULSA, Okla., Aug. 12.—Many crimes have been committed by the cowardly in the name of the Ku Klux Klan, but the order, of which he is a member, is composed of law abiding citizens, Dr. Caleb R. Ridgeley, Atlanta minister, declared in delivering a lecture on the aims and belief of the "invisible empire," here last night. The aims of Ku Klux, he said, are three fold: to protect the weak, the innocent and the defenseless from the outrages of the violent, the lawless and the brutal; to protect the constitution of the United States, and to aid in the administration of all constitutional law. The proviso of its membership, barring negroes, Jews and Catholics, has led many people to believe, said Mr. Ridgeley, that the organization is negative and not positive in its aims.

Nearly \$50,000 For The Past Month Which Was Smallest

MOSTLY HOMES

BUT MANY BUSINESS HOUSES AND ONE HOTEL ARE CONTEMPLATED

Sanford is having no building boom in the boom sense of the word. It is just a steady growth of the city in the business portion and the residence section of the city and the growing of the city along substantial lines. Buildings are being built that will be occupied as soon as they are finished and they are not being built with the idea that at some time in the future tenants can be procured for them—the tenants are all ready to move in as soon as the buildings are finished.

In the residence section of the city the amount of building is phenomenal and causes great surprise from the visiting people as they see in this steady growth the future of the "City Substantial."

July was a good month for building but not as big as June. July permits are estimated at \$46,895 and in this month of August now the 12th day the permits have totalled \$20,368 estimating 16 permits. Building permits do not always mean that sum for a building. People contemplating building give in a small figure for their permit always and it is probable that the actual figures for the past month would be nearly \$100,000.

These figures do not comprise the contemplated First National Bank building that will reach \$100,000 or more, or the Rod and Gun Club building that will total \$20,000 and many other buildings that are contemplated and the plans for same now being drawn. The figures given above are for permits to build houses that are now being built and the figures are low, thus giving no actual values but demonstrating beyond any doubt that in the building line Sanford is doing as much or even better than any other city of similar size.

In the business portion of the city many new buildings are contemplated for early spring after the celery and lettuce crops have been shipped and the money has returned to be placed in trade channels. Just now many owners of valuable property who are engaged in trucking are holding off until the farms can be financed and this can also be said of the banking institutions. When the crops are off in the spring this city will witness a real building boom that will show the world that Sanford people have the proper faith and the proper spirit to build homes, stores and hotels and everything else that is coming to this city will follow.

Rev. Stephenson and Father Coyle Mix With Fatal Results

(By The Associated Press) BIRMINGHAM, Aug. 12.—From his cell in the Jefferson county jail here Edwin R. Stephenson, barber and itinerant preacher, who late yesterday shot and killed the Very Reverend James E. Coyle, will be able to hear the funeral oration spoken for his victim. The jail adjoins the church property and Stephenson's cell is within earshot of the auditorium of St. Paul's. Stephenson had little to say regarding the shooting. "I remonstrated with him for marrying my daughter Ruth to a man against whom he had lodged objections," said the prisoner. "I called him a dirty dog; he struck me and then I shot him." Father Coyle was shot on the porch of St. Paul's rectory at 8:30 last night and died an hour later without regaining consciousness.

Father Coyle was dean of North Alabama.

### PLAN TROPICAL FARM SCHOOL AT UNIVERSITY.

TALLAHASSEE, Aug. 11.—The following resolution was adopted by the board of control at its recent regular monthly meeting in Tallahassee:

"Whereas, The State of Florida possesses many undeveloped agricultural resources, peculiar to its own climate and natural conditions, and

"Whereas, The development of tropical and sub-tropical crops would be of inestimable value to the agricultural prosperity of this state and would, in addition, foster and encourage a closer relationship with the West Indies and South and Central American, and

"Whereas, There is no institution in the United States at present training young men for agricultural development work under tropical and sub-tropical conditions, therefore,

"Be it resolved by the board of control, in session at Tallahassee, Florida, this eighth day of August, 1921, that it is the sense of said board that there should be established in connection with the College of Agriculture, at the University of Florida, a 'School of Tropical Agriculture' and further, that it is the purpose and intention of said board, with the consent and approval of the State Board of Education, to establish such school of tropical agriculture at the earliest practicable time, as soon as finances therefor are available, and,

"Be it further resolved, that the officials of the University of Florida, the College of Agriculture and the School of Tropical Agriculture, when established, be instructed and authorized to co-operate with the Institute for Research in Tropical America, and with such other institutions, bureau or organizations as shall undertake bona fide and meritorious investigations and activities for the development of tropical and sub-tropical agriculture in America."

It's an ill wind that blows nobody good. Thousands of teachers during the war left that underpaid vocation to work in factories, for the high wages then prevalent. Now they are coming back, and the stringency for lack of teachers in educational circles is being slowly relieved.

## TWELVE MILLION RUSSIANS ARE STARVING TO DEATH, SITUATION GROWING WORSE

### Two-Thirds of Entire Population On Hunger Rations

BERLIN, Aug. 11.—The American relief workers who are about to go into famine-stricken Russia will probably find 12,000,000 persons in the Volga basin actually starving, and two-thirds of the entire population of Russia on hunger rations, according to Mrs. Marguerite E. Harrison, the American newspaper woman recently released from a soviet prison.

This Mrs. Harrison attributes to internal economic and political disintegration under soviet rule, and also to the ravages of the internecine wars against Admiral Kolchak and General Wrangle and to the drought. What the drought failed to accomplish, destruction of farm hands and the requisitioning of grain for the red armies completed.

The result is that the Ukrainian republic, normally the granary of Russia, is barely able to sustain itself. Siberia virtually is in the same predicament. Neither region is willing to surrender grain to the famine sections, and the migration of peasants is now proceeding, which constitutes a threat against next year's crops. The food situation, Mrs. Harrison says, will also have a decisive bearing on the public health, although the Russian sanitary corps had the cholera situation in hand when she left Moscow, at the end of July.

The famine area begins between Nizhni-Novgorod and Kazan, on the north and extends southward in a broad belt to Tzaritsain, on both sides of the Volga, embracing the Tatar republic provinces of Simbirsk, Samara, Saratov, Penza and Tambow, the Tcherkask republic, parts of Riazan and Tula and a large part of the province of Ufa at the foothills of the Ural mountains.

Famine conditions have been made worse by poor transportation and the inefficiency of local distribution organizations, which have been vigorously attacked by the newspapers during the last few weeks. For instance, 85 per cent of the milk spoiled by the Moscow government could have been

saved but for the defective organization of the receiving stations.

Pitiful stories of suffering are told on all sides. The peasants of Tambov are reported to be eating bread made of straw, potato parings and weeds. It is called "lebedya" in the Novenski prison, where Mrs. Harrison was detained, the bread was adulterated with a flour which appeared to have been made from cowpeas. Kasha, the staple cereal of the peasants, has been replaced by flawolet beans, which are imported.

Mrs. Harrison visited the Volga basin with the British labor delegation a year ago, when she observed symptoms of the approaching food shortage. This, she says, is not the result of the crop failure, but of the economic conditions prevailing since the beginning of the revolution. During the Kolchak campaign the Volga provinces were overrun, with the result that the fields were not cultivated, and the population was scattered. This was one reason why the official figures for 1920 showed that the number of farm workers in Russia had increased 50 per cent since 1916.

GAINESVILLE.—Professor J. B. Thompson, since October, 1919, associated with the State Agricultural Experiment Station here, as a specialist in grass and forage crops, has resigned to accept the directorship of the experiment station at St. Croix, Virgin Islands. Professor Thompson, whose resignation became effective August 9, was considered an authority on forage and grass experiments and his knowledge of grasses adapted to the Florida conditions, caused his advice to be frequently sought by farmers and cattlemen throughout the state.

Recently the treasury department offered \$300,000,000 of short term certificates of indebtedness, bearing interest at 5 1-4 to 5 1-2 per cent. The subscriptions amounted to nearly one billion dollars, which shows there is plenty of money in the country ready for investment in tax free securities.

## One Born Every Fourth Minute

A lady who had a family of three children didn't want any more because she had heard that every fourth child born in the world was a Chinaman.

A ludicrous, perhaps, as an old misconception some skeptical folks used to have about advertising.

There was a time, when some advertisements had to be taken with a grain of salt. A few misguided advertisers thought they could sell their goods better by misrepresenting them. Those advertisers have long since gone out of business or mended their ways. Hard experience taught them that untruthful advertising didn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers, and build up good will was to TELL THE ABSOLUTE TRUTH about their goods in their advertisements.

You can depend on the merchant or manufacturer who advertises. The concern that tells you frankly what it is doing is a good concern with which to do business. The store that advertises is a progressive store that has something really worth while to say to you. And companies that advertise their products or their service have confidence in them. You can safely share their confidence.

Inferior merchandise cannot masquerade in the quality clothes of advertising.

# OVIEDO

A special election was held Tuesday for bonding the Oviedo school district for the purpose of building a new school house in Oviedo. There were only two votes cast against the question, so the people of Oviedo, and especially the children, are looking forward with great pleasure to a new building in the near future. The plans for the new building have already been drawn and passed upon at a mass meeting Monday night and are now on display in the window at C. S. West's store.

Mrs. T. W. Lawton and family visited Orlando Monday.

Mrs. B. F. Wheeler and children and Mr. and Mrs. R. L. Wheeler and children have returned from Daytona Beach where they spent several weeks.

John Robertson spent Sunday in DeLand.

The losing side in a Christian Endeavor choir contest very delightfully entertained the winning side on Tuesday evening at the home of Miss Virginia Wright. The winners in the contest were told to dress for a "tacky party" while the losers were told to "dress up." Gingerbread, water and tooth picks were served after which punch and cookies were served. A very delightful evening was spent and the crowd dispersed at a late hour feeling very much delighted over the fact that one side of the choir contest were losers.

Mr. and Mrs. E. A. Farnell visited Sanford Tuesday.

Many homes in Oviedo are being greatly improved this summer by new coats of paint, new roofs, new fences around the yards, etc., and it gives the town a much better appearance, especially to strangers.

T. L. Dumas, superintendent of the A. C. L., third division, and one of the other officials of the road were looking over the Oviedo branch of their line Tuesday.

## SOME HEN EGG.

Mrs. Bowman sent a hen egg to the Herald office one day this week that was some egg. It weighed almost six ounces and was of large size. Mrs. Bowman stated that an ordinary hen laid the egg but if the hen keeps it up she will be an extraordinary hen all right.

### DELAND POST OF THE LEGION MAY HAVE HOME.

DeLand Post of the American Legion and the Woman's Auxiliary to the same organization may have a home of their own. A committee of Messrs. Vic Fountain and S. M. McElroy was appointed at the last meeting and this morning they saw Mr. E. K. Conrad and received a number of propositions to rent the second floor of the store building being erected on West New York avenue.

A special meeting of the post has been called for Monday night, the 15, at the court house promptly at 8 o'clock at which time the propositions will be considered and voted upon. Tentative plans of the Legion call for the leasing of this floor and the furnishing of the rooms. One year's lease and the furnishings to cost approximately \$1,000. As there is \$3,000 in the treasury it is also believed that the balance be invested in stock of the Building and Loan which will pay the Legion a higher rate of interest than they are now receiving and also help build up the city.—DeLand News.

### WEATHER AND CROP CONDI- TIONS

In Florida for the Week Ending  
August 9, 1921.

Temperatures were near the normal much of the time with moderately high midday temperatures during several days.

Rains, mostly moderate to heavy showers, fell daily in some localities, becoming locally heavy in the several divisions, except the southern, where the week's rain was least. Some of the weekly totals, inches and tenths, were: Jacksonville, 3.4; Glen St. Mary, 5.6; Bradentown, 2.9; Pensacola, 1.8; Titusville, 1.2; Merritts Island, 1.5; Gainesville, 1.3; Fenholloway, 3.2; Orlando, 1.0; and DeFuniak Springs, 3.4 inches.

The weather has been too wet in much of the northern, western and central divisions, and locally heavy rains have done some damage; but the benefit to cane, peas, sweet potatoes, peanuts, and citrus fruits more than offset the ill effects of too much moisture. Cotton, also, has suffered from too frequent showers, resulting in an increase of weevil, but reports indicate that the damage therefrom, as yet, is not extensive, and that plants continue to fruit very well; picking continues in some localities, although the opening of bolls is delayed by cloudy weather. A week's sunshine would prove bene-

ficial to crops throughout the section, except locally in the central and southern divisions, where the rainfall has not been so widespread as elsewhere. Ranges are good to excellent, although low lands are too wet.

About the only difference between the old-fashioned dime novel and the popular novel of today is \$1.00.

### OBELISK OF JEFF DAVIS UNVEILED ON JUNE 3, 1921

LOUISVILLE, Ky., Aug. 12.—The Jefferson Davis obelisk, crowning monument to the president of the Southern Confederacy, will be unveiled June 3, 1922, at Davis' birthplace in Fairview, Ky., on his 114th anniversary.

The Davis homestead is about 140 miles from Hodgenville, Ky., where Abraham Lincoln was born. The obelisk, which will be 175 feet high, is today within five feet of completion. It was planned originally to erect a shaft 350 feet, to be excelled only by the Washington monument, but the Jefferson Davis Home Association with the wish of Confederate veterans. Anxious to participate in the ceremonies, the thinning ranks urged completion as soon as possible. The work was started in 1917 and interrupted by the World War.

Profiles in bronze of Mr. Davis and his daughter, Mrs. Margaret Davis Hayes, one of the most beautiful women of the South, ornament the base of the monument, which is 43 feet square. It contains a room for relics.

The shaft is situated in Jefferson Davis Park, which takes in part of the farm on which the president of the Confederacy was born on June 3, 1808, less than a year before Lincoln. The park comprises about 22 acres. The town of Fairview gains its name from one of the most beautiful landscapes in the South.

The cost of the monument to date is about \$100,000, which was raised by popular subscription. Mrs. Roy McKinney, of Paducah, Ky., president general of the United Daughters of the Confederacy, at the head of a committee of Daughters and Confederate veterans, organized every county in the state to complete the shaft.

Gen. William B. Haldeman, formerly owner with Col. Henry Watterson, of the Louisville Courier-Journal, is president of the Jefferson Davis Home Association, succeeding the late Gen. Bennett H. Young, of Louisville, four times commander-in-chief of the United Confederate Veterans. Gen. Geo. W. Littlefield, of Austin, Tex., and Gen. Julian S. Carr, of Durham, N. C., were promoters with General Young of the original conception.

#### SUSPECT HELD.

MIAMI, Aug. 12.—E. F. White, a clerk, is being held here without bail in connection with the alleged drowning of Miss Maude Gilbert, 29, in the Tamiami trail canal, six miles west of this city, late last night. The body of the girl has not been recovered. White said he and Miss Gilbert were out riding along the Tamiami trail near the canal, Miss Gilbert driving. Suddenly the car swerved and dashed into the water. He extricated himself and swam ashore but was unable to locate his companion, he claims. Divers found the automobile in about eight feet of water this morning and found in the machine a woman's corset and underclothing, but the body was not in the car. White's wife and two children left about two weeks ago for a visit in the north.

### FLORIDA DAILIES ASSOCIATION TO MEET AT DELAND

Florida Associated Dailies association will meet at DeLand on Saturday and at Daytona on Sunday. The business sessions of the association will be held here and the trip to Daytona on Sunday will be principally to accept the hospitality of Editor and Mrs. T. E. Fitzgerald of the Daytona Daily News, and to enjoy a dip in the briny.

Between forty and fifty editors and publishers and their wives and families will be present. Hotel Putnam will be headquarters while here. The first business session will be held promptly at 9 o'clock Saturday morning at the DeLand Commercial Club, the program consisting of the following:

Advertising—E. S. Wadsworth, of the Thomas Advertising Service.

Collections—D. H. Conkling, of the Palm Beach Post.

Subscriptions—Goode M. Guerry of the Palatka News.

How to Get Business—Major Quimby Melton, of the Jacksonville Metropolitan.

Labor—R. B. Brossier, of the Orlando Reporter-Star.

Newsprint—W. A. Elliott, of the Jacksonville Times-Union.

The DeLand Commercial Club will serve a buffet luncheon at DeLeon Springs in the afternoon, and the visitors will be given an auto ride around town. Dinner will be served at Putnam Inn about 8 o'clock, the visitors and officers of the DeLand Commercial Club being the guests of this event of the DeLand Daily and Weekly News. There will be no long, tiresome talks at this dinner, the only talk being by Jack Worthington, of the Lake Wales Highlander, on the subject, "The Legislature."

A special show will be tendered the guests at the new Dreka Theatre at 9:15 in the evening. This show will not be for the public, but only to the visiting editors and a few invited guests.

Daytona will send after the guests on Sunday morning and take them to the beach.—DeLand News.

### Skirts Will Be Longer, But Not Too Long, is Latest Dress Decree

The American woman is governed by the principles of good taste and not by the laws of fashion, according to Harry Collins, customer to Mrs. Tardant, who spoke yesterday afternoon before the students studying clothing, textiles and design at Teachers' College, Columbia University, on the prevailing fashions of today.

Mr. Collins pointed out the need of conservation in dress if one wished to be well groomed and took issue with the prevailing impression that women must change their style of dress with the seasons if they wished to be fashionable. He said that if a woman exercised care in her purchases she could wear a gown two or perhaps three seasons, and in order to impress this point he produced a model who wore a gown designed three seasons ago, with only a few touches in trimming and sleeve cut making it the latest word in style. He also laid stress upon the need for good materials.

Interest seemed to center in the length of the skirt, which is to be eight and one-half inches from the ground, if women are to follow the dictates of Mr. Collins. He explained that this applied to street costumes alone, for evening gowns will be considerably longer, some of them reaching to within three inches of the floor.

"There seems to be a positive inclination to lengthen the skirts here, although the skirt length will not drop as it has in Paris," said Mr. Collins. "This year we will find them eight or nine inches from the floor and perhaps a little longer next year."

"Except in the case of a few exaggerated models that have reached the public either from abroad or from the more extreme designers here, the silhouette has remained the same for many seasons. The variation has been in the trappings, such as the panels and soft effects that can be added to the taste of popular demand. The silhouette found night after night at the Metropolitan Opera House, where the best dressed women of the country assemble, has not changed in the last ten years."

"Nor are we to have a much corseted figure again. Such echoes have reached us from Paris, but when these rumors were followed to their source it has been found that the designer of Paris decreed that the well dressed woman should wear a girdle or something in the nature of a corset to hold the garment in place."

Montverde Chamber of Commerce objects to treatment of the A. C. L. says headline in daily press. There are whole families like that.

If all reports are true that the travelling public brings to Sanford, this city can shake hands with itself every day. We seem to be the best city in the state right now.

Despatches from Alabama say that hogs were killed by the heat. It must be rather warm in that part of the country. We never knew the heat to kill hogs in Florida.

We hear good reports from our soldier boys in Jacksonville. They are not only good soldiers, but they are good citizens, and can be depended upon to uphold the good name of Seminole county.

If you have money to invest put it in your home enterprises. Don't let the stranger tell you about something else "just as good." There is no better investment in the world than Sanford real estate.

Nearly \$47,000 worth of building permits for the month of July is not bad for this little old town. We are having a steady growth and not any building boom that might be pricked by the bubble of adversity.

The hot weather must have something to do with the great number of murders and suicides and other catastrophes that are filling the newspapers. It seems that a wave of trouble is sweeping over the country just now.

The Allies have decided to let the Greeks and the Turks fight it out and this is the proper solution to many of the Asiatic problems. Let the Greeks and the Turks fight it out. The Greeks have suffered enough from the hands of the Turks and if they wipe out the Turkish nation it will be no loss to the world. Let them go.

The greatest out-door amusement is suing newspapers in Florida. The very latest is the Miami Metropolis and the Orlando Reporter-Star, that have been sued for \$50,000 each, by a banker in West Palm Beach for a statement in these papers that seemed to connect him with the Lena Clarke case. If he is depending upon this money to buy bacon with, he will surely starve to death.

St. Augustine is taking up the ice question with a vengeance and the Business and Professional Women's Club have asked for a better price on ice or else. As there is another ice factory started up in St. Augustine there is a come down in prices all along the line but the various organizations over there are asking the people to stand by the company that brought down the price. This is the kind of assurance the new ice company wants from the Sanford people before they start operations here.

The clothing manufacturers say that silk shirts and other "luxuries" are a thing of the past. Well, silk shirts never worried us any and while we rejoice for those fellows who thought they should wear them it is with no feelings of sorrow that we note the passing of the silk shirts.

They were one of the fool fads that the nearly and the get-rich-quick people brought to us after the war and like many other war fads they will soon go into the discard along with the excess profit tax, the cold drink tax and the luxury tax.

The members of the Associated Dailies of Florida will meet at DeLand tomorrow and at Daytona Sunday and we hope to be with them for a short time. They are the finest bunch of "pen pushers" in the state and comprise all the live wires in the business. It is always an inspiration to meet with them and hear about their experiences and their trials and tribulations and to have some of those good times that only newspaper people know how to have when they get together.

We hasten to congratulate our old friend, Stanley Lichty, of the Melbourne Times, upon his moving into his fine new building. Stanley is one of the Florida newspaper men who went to a small city and by his energy and staying qualities has helped his town to grow and in growing has also helped his newspaper plant grow and now he is in a fine new home of his own. Newspaper men are the greatest builders in any community if the public will only help them to grow larger and better and there are few papers in the state now that are in rented homes. The Tampa Tribune for instance, not only owns its own fine home but Col. Stovall owns some of the finest business property in that fast growing city. Editors have faith in their own towns.

DADE COUNTY NOT RESPONSIBLE

Dade county and especially Miami, are not responsible for the present condition of the Dade county schools. There is much talk about Miami allowing her schools to get so far behind in their financial status that they could not hold school this year and the comment naturally swings to the opulence of Miami and Dade county and the people wonder why they should be behind in finances. It matters but little how large or how rich a county may be they can only levy a certain amount for schools according to the state law and until this law is changed all the populous counties of the state will be up against the same proposition. They are only allowed to levy a certain millage for school purposes, they have thousands of new scholars every year, they need new school houses and new equipment and more teachers and are obliged to go ahead with a certain sum of money and attempt to do the impossible.

It can't be done. Any sensible lawmaker at Tallahassee should and did know this and yet nothing was done to alleviate the condition. Miami and Dade county will go down in their individual pocket books and keep the school going. They will levy a sum of money sufficient to keep their schools open but this does not solve the question of school houses and new equipment and more teachers.

Sanford saw the crisis coming last year and before the city schools opened the people raised a sum of money sufficient to meet the large deficit and keep the good teachers employed that had been here for some time instead of allowing them to get away to other states where they could get more money. Sanford saw the opportunity of keeping the schools going by private subscriptions and while a certain few dug down as usual the sum raised was sufficient to keep the schools going upon the same high plane as in the days of yore when a certain millage was sufficient.

It is strange that men of brains who are supposed to compose the Florida legislature do not change the school status and allow the counties sufficient leeway to take care of their growing needs. No business man would operate his own business on the plans that seem to predominate the legislature and yet they expect the various school boards of the state to meet the changing condition of the post-war period with the same amount of money that was sufficient ten years ago. It can't be done. Hence the closing of schools.

ROUGED CHEEKS AND DRESS REFORM

There has been a great deal of talk—too much, in fact, for the results attained—about the rouged cheeks, the movement towards a meeting point of the upper and lower extremities of the gowns, the silk hosiery and such like of the young girls of today. Almost everyone from preachers and college professors to the prize fighters and street sweepers has had his say so about the matter, but things have gone from bad to worse, that is so far as morals and not sight are concerned. The advertisement given to the existing mode has served but to accentuate the evils complained of. Bans and interdictions have been placed by ministers of the gospel and school principals on the styles of school girl clothing, but the misses

have continued to a large extent to have their own way.

As long as the mothers of the nation were not actively and unitedly enlisted in the cause there was little hope of its success. This fact appealed to the mothers in the little town of Smith Center, Kansas, and they have gotten together to do what all others have failed to do. They met and decreed that there should be no more of the vampire makeup about their daughters. It will be bad news to the misses of Smith Center, no doubt, to know that in the future they must wear a regulation costume of white middie, with blue wool collars and cuffs, plaited navy blue skirt and shoes with Cuban or military heels. Ordinarily, also, there would be walling and gnashing of teeth over a maternal decree that hereafter skirts must not be more than 10 inches from the ground, but the harshness of this order is very much modified by the fact that stockings in the future must be of cotton or wool. If we mistake not, the girls will not care to have the skirts even the regulation height when the intervening space is filled with cotton rather than silk.

However, the mothers of Smith Center, seem determined in their stand and, both literally and figuratively, they hold the whip hand. The method of reform tried in some places of sending back home all girls that were dressed improperly could not succeed as long as they were allowed to leave home in such garb. If the misses are not possessed of clothes that shock, they cannot wear them; and if they do not leave home in such attire, they will not appear on the streets in it. The Kansas mothers are tackling the evil at its source and they should not fail.—Tampa Times.

WILL HAVE AUTO CAMP AGAIN

After deciding to discontinue the auto camp the city commissioners of DeLand have reconsidered their decision and decided to open the camp again under different circumstances and regulations. The DeLand News publishes the proceedings of the meeting as follows:

"The commissioners met in regular monthly session last night and transacted considerable business the most important of which was the motion to re-open the auto camp October 1st. This action was made at the suggestion of the board of governors of the Commercial Club Messrs. Campbell and Brown were appointed to frame regulations for the proper control of the camp and a suggestion was made that a nominal charge be made to all parties stopping more than a week at the camp. The communication from the governors of the Commercial Club stated that the auto camp had been one of the advertising features of DeLand, that it was considered a model camp of the South, that it brought many people to the city who have purchased property here and become residents, that it provided a labor supply for the moving of the citrus crop and that its operation under supervision would prevent auto campers from camping on vacant property in the city where no sanitary rules could be carried out. This committee will report back at the next meeting of the commissioners."

CROSS WILL MARK PLACE WHERE LIFE PAID CARELESSNESS

ATLANTA, Ga., Aug. 12.—A white cross, about three feet high, inscribed: "Be careful, a life was lost here as a result of carelessness," will mark the spot at West Peachtree and Fifth streets where J. Douglas Edgar, former holder of the southern and Canadian open golf championship, was killed here Monday night, presumably by a speeding automobile, according to plans of the recently organized Junior Chamber of Commerce.

Similar crosses will be placed at the railroad crossing near Fort McPherson where J. B. Turner of Norman Park, lost his life, Tuesday, the second fatal accident to mark "no accident week," inaugurated by the Junior Chamber, and at spots where others may be killed in accidents, the organization announced today.

The peculiarity of the wound, which caused Edgar's death, a deep gash in his leg that severed the femoral artery, caused the coroner's inquest to be postponed yesterday until today in an effort to get additional testimony. A physician testified such a cut might have been caused by contact with a speeding machine. Police have been unable to obtain an ycle to the driver of the machine which is believed to have struck him.

It's an even break. Congress favors prohibition, and the country refuses to co-operate; and the country favors government economy, and congress refuses to co-operate.

CONCERNING THE ICE QUESTION.

The Business and Professional Women's Forum, in accordance with the action taken at its meeting this week, has written to the city commissioner outlining its stand on the question of ice furnished locally, and calling attention to the fact that on December 14, last, the forum wrote to the local manager of the Southern Utilities company protesting at the high prices of this commodity, the communication being completely ignored.

The committee from the forum has sent a copy of the letter to the commission, to the Evening Record, with the request that it be published, and it is printed herewith as follows:

"To the Commissioners of the City of St. Augustine, Gentlemen:

"On December 14, 1920, the Business and Professional Women's Forum of this city wrote to the local manager of the Southern Utilities company protesting against the high price of ice and asking if there could not be some decrease in the price of this very necessary commodity. No recognition has been taken of that letter nor of the protest, now eight months old, although the forum had hoped that the company would see fit to reduce its charges of its own volition. This hope appears to have been unfounded, and in view of the lowered prices of other necessities and the fact that the same company sells ice for less elsewhere, the Business and Professional Women's Forum appeals to your board for any assistance you may be able to give which will tend to induce the Southern Utilities company to bring their charges within reasonable bounds.

"Another company is now selling ice in St. Augustine, and though all members of the forum are heartily in favor of patronizing home industries, they will feel under no obligation to do so if the charges of the Southern Utilities company continue so in advance of the other dealers, and will in all probability throw their influence and patronage to the Jacksonville concern. Before the forum takes any definite steps in this direction, however, they take the liberty to approach your board to ascertain if there be no remedy for the present condition.

"Very truly yours, The Business and Professional Women's Forum."

**SANFORD'S TEMPERATURE**

Yes, it was hot in the sun yesterday. It is hot today. It will be hot tomorrow unless we have some of those cooling showers. That's what keeps Florida in the front ranks as the greatest state in the union as the coolest in the summer regardless of the fact that we are the farthest south. It was 92 yesterday and it is 92 today but at that Sanford is cool and comfortable if you are situated to get the breezes that blow from some quarter all the time.

**NEW YORK BOOZE HOUNDS SEIZE TWELVE MILLIONS WORTH OF LIQUOR ONE YEAR.**

NEW YORK, Aug. 12.—Deputy Police Commissioner Leach, who is in charge of the enforcement of the announced yesterday that since the department instituted its crusade in April liquor having a noproximate value of \$12,000,000 has been seized. The arrests totalled 7,880. The articles seized were 85,885 bottles, 4,065 barrels, 1,991 cases, 1,317 cans and 71 kegs of liquor. The police department also became custodian of a motor junk boat, 11 suitcases and 24 copper vessels.

An announcement was made at police headquarters last night that Inspector Thomas McDonald, who with 21 detectives has been enforcing the liquor law in Brooklyn, had been relieved of this assignment. Chief Inspector William J. Lahey has taken over this work in the borough. The reason for the sudden shift was said to be the fact that Inspector McDonald's men had become known to such an extent in Brooklyn that they had "outlived their usefulness" as far as prohibition enforcement was concerned.

**COLUMBIAN WOODMEN BE INSTITUTED TONIGHT.**

Tonight at 8 o'clock at the Masonic Temple, a lodge of the Columbian Woodmen will be instituted by John L. Hunt, of Atlanta, Ga., district manager for this district. Read the advertisement elsewhere in this issue of the Herald.

**STRUCK BY A STINGRAY.**

Col. George W. Knight had a narrow escape from a serious danger yesterday while bathing at Daytona Beach. He dove through a big wave and felt a stinging sensation in one of his fingers. It pained him badly and the arm started to swell. Dr. Puleston happened to be at the hotel at the time and pronounced it a stingray bite or some other aquatic stinger and while looking at the finger noticed what looked like part of a stinger in the finger. It was pulled out causing the finger to bleed freely and this probably saved the Colonel from a badly swollen hand and maybe something worse. At this season of the year stingrays and Portuguese men o' war and other pests are in the ocean and it is difficult to avoid them. If struck one should seek a physician at once and get treatment.

**KNIGHTS' TEMPLAR ATTENTION**

**SLAYERS CONFESS.**

SAVANNAH, Ga., Aug. 12.—C. O. Fox and Jesse Gappins, two men brought from Augusta by automobile and placed in jail here for a few hours today gave Sheriff Plunkett, of Richmond county, a written confession as to their part in the murder of William Brazell, a chauffeur, near Lexington, S. C., Sunday last. The confessions agree very largely with that already made by W. D. Kirby, in the Columbia county jail. Sheriff Plunkett is keeping his plans as to the departure from Savannah secret.

**COL. HARVEY TAKES PART IN SESSIONS OF SUPREME COUNCIL.**

PARIS, Aug. 11.—The American ambassador took part twice in today's sessions of the supreme council, once in replying to Premier Lloyd-George that he agreed that America's traditional policy gave traders the right to sell arms to either belligerent in the near east, and again in replying to inquiries by the prime minister respecting Secretary Hoover's Russian relief plans.

Mr. Briand, the French premier, began the discussion of the Russian famine by saying that the Russian people, who had fought with the allies in the beginning of the war, might justly look to them now for help.

"I propose that all the allies join with the United States and the other nations who are interesting themselves in the administration of relief through Red Cross societies and other private sources," said M. Briand.

"I heartily agree to this," exclaimed Mr. Lloyd George. "But I wish to point out, that such efforts could not reach many of the sufferers. The Red Cross cannot perform the miracle of five loaves and the two fishes. Relief must be organized immediately on a great scale, not only for the sake of Russia, but for the sake of the world, because the typhus, cholera and other plagues incident to famine, would cause more losses than the last war."

"I have no admiration for the Soviet government, but relief is impossible without its co-operation in as much a sit controls transportation and all the official machinery. No one could move about Russia without its permission. I think for this purpose, and for this purpose only, the allies should make some arrangement with the Soviet government."

**HOSPITAL ASSOCIATION ANNUAL MEETING**

There will be a meeting of the Fernand-Laughton Memorial Hospital Association at the Court House, Tuesday night, August 16th, at 8 o'clock. All members are requested to be present as it is the election of officers and the reading of the annual reports of the hospital association. 117-5tp

**NET IS FASTENING.**

SAN FRANCISCO, Aug. 12.—A search today of the room occupied by W. A. Hightower, a baker, who last night led the police to the grave of the Rev. Patrick Heslin, missing priest, revealed a rifle, pieces of bloody burlap and clippings from local newspapers showing the amount of the reward offered for the priest's return. The police said they would confront Hightower at once with their findings.

WILMINGTON, N. C., Aug. 12.—Roy Hemenway and Calvin Brown, negro youths, are dead, and Rollins Stephens is in a serious condition at a local hospital as a result of an automobile, in which they were riding being struck by an Atlantic Coast Line train at Boardman, 50 miles from here. Brown and Stephens were brought to the hospital here and the former died shortly after reaching the city. It was said at the hospital that Stephens may recover. Hemenway was killed instantly.

**HARDING'S FATHER MARRIED.**

MONROE, Mich., Aug. 12.—Dr. George P. Harding, 76 years old, father of President Harding, was married here yesterday to Miss Alice Severns, 52, by the Rev. Frank T. Knowlts, pastor of the Monroe Presbyterian church. Miss Severns has been a nurse in the office of the doctor in Marion for several years. The couple drove here in an automobile, obtained a license to marry, and went to the home of the Rev. Knowlts where the ceremony was performed.

**Hupmobile**  
There are four real questions when you buy a car—What will it cost to run? Will repairs be heavy? How long will it last? What will it bring when sold?  
If you get the same answers as the man who buys the Hupmobile, you can be sure you have not paid too much. Hupmobile running economy is known to be truly exceptional.  
Owners will tell you their repair bills are unusually light. It is a fact that many Hupmobiles serve three or four long-time owners before they wear out.  
Used car dealers all know the car commands a price above the average.  
These things are true of the Hupmobile because it is built to last and to keep going on a minimum of outlay; and because they are true, the car is worth what it costs.
