

Where Do Women Conceal Firearms in Police Work?

BALTIMORE, Md.—Official brows in Baltimore's police department are knit in worrisome wonder these days over a problem to challenge the agency of Christian Dior.

Where does a lady carry a pistol? Baltimore's policemen have been given guns for the first time in departmental history.

Commissioner James M. Heppron said the, until now, the distaff cops have been used primarily in juvenile cases. But in the future, he said, they will perform more dangerous criminal work.

The weapon is a specially designed snubnosed .38 caliber revolver known as the "cobra." Several holsters for carrying it are being tested by the department.

There are various schools of thought on where to carry the cobra. And all have certain advantages and disadvantages.

The old who-does-it standby, a purse, apparently has more of the latter than the former.

The women, Heppron said, will be used as decoys in an effort to halt the growing number of purse snatch cases in the city. As the purse went, so would go the gun. Then how would she make the arrest?

Should holsters beneath deftly tailored suits have been suggested?

But how about summer when suits aren't normally worn by women?

During warm weather, chief inspector Fred Ford said, the holster could be fitted next to the skin inside a suitably plunging blouse. But to allow a quick draw, the decolletage would have to be something frightening and there are straps which might ensnare the cobra.

Then there's a holster that fits into the top of the stocking. But it might cause stockings to droop and seem to go awry. It also requires a certain bearing of the thigh in order to draw.

Warren Takes Pot Shot At Opponent

MIAMI BEACH, Fla.—Fuller Warren warmed up for his gubernatorial campaign today by taking a pot shot at one of his opponents, retired-Lt. Gen. Sumner Lewry of Tampa.

In a statement, Warren said Lewry, "has been shelling me sharply with a barrage of verbal blanks."

"A little later on, I may fire a few salvos of light ammunition at this one-star political general. At present, I am too busy assembling the heavy artillery for more formidable enemies to take time to lob a few shells into the general's walnut-paneled, Persian-carpeted foxhole on the Tampa 'front.'"

Lewry, who is campaigning on a platform of maintaining segregation, said Tuesday that Warren, when he was governor, vetoed a clause in a 1951 appropriations bill which would have taken public school funds away from counties permitting a mixture of the races.

Fire Department Has Active Week

The Sanford Fire Department had a busy week said Chief Mack N. Cleveland Sr. this morning.

However, the Chief said, most of the fires did not claim heavy damage.

"At one time last week, on Friday night, all of the equipment was out," said Chief Cleveland as he reviewed the week's firefighting.

The heaviest damage was done, the Chief reported Friday morning when a frame home at 413 East 5th St. was at least 60 percent destroyed. The rental house is owned by D. C. Brock, according to the Fire Department Chief's records.

Other fires occurred 26th and Grapeville Ave, outside the City limits and on the south side of Sanford Ave. on Onora Road when a frame dwelling was "practically well burned out," said the Chief.

Another house fire was put out, said the Chief, on Southwest Road. "We were fortunate in that we contained the blaze Friday morn-

The U. S. Constitution as part of their repertoire are probably the only Americans who can recite the Constitution from beginning to end.

In 1955 they made a three-month USO tour of Europe, including England, France, Holland, Belgium, and Germany, to sing for American service men, along with General Dwight Eisenhower, whom they entertained at his farewell party for SHAEP in Frankfurt.

The program tomorrow night includes 15 selections with two dances as part of the presentation. Two of the selections to be heard are Tchaltkovsky's "Blessed Art Thou, Oh Lord" and Kedroff's "Lord's Prayer."

B. R. Morrow Makes 2,000th Catapult Off Ticonderoga

Lieutenant Commander Billy Ray Morrow and his crew were prepared for a routine catapult launching when they stepped onto the flight deck of the USS Ticonderoga one day last week. Instead, they learned to their pleasant surprise that their launch was a little more than routine - it was to be 2,000th catapulting of an aircraft off the ship. Pausing only long enough to admire the description on the nose of their A-1J, Morrow and crew then launched on another routine mission in support of the U. S. Sixth Fleet somewhere in the Mediterranean Sea. A huge cake, suitably described, awaited them in the hangar's ready room upon their return. After the cake-cutting, speech and photo, all hands present made short work of the cake. LCDR Morrow's comment: "We'll leave the 2,000th one for VAR-5!"

College Students To Conduct Revival At Local Church

Preaching services are being held next week, March 4-9, at the Ebenezer Methodist Church on the old Sanford-Orlando highway. The leadership of these revival services will be entirely in the hands of three pre-ministerial students from Florida Southern College at Lakeland. The theme chosen for the week is "New Life With Christ."

The speaker throughout the week of services beginning this Sunday will be the Rev. John Tindell, a 19-year-old sophomore student from Miami. During this past summer he spent six weeks teaching Vacation Bible School for children in Cuba and also preached evangelistic services in the same Cuban towns of the Oriente Province. In addition to this work in Cuba, he has preached in Starks, in the Miami District; and here at the Ebenezer Church.

The song services will be led by the Rev. Eddy Debie, a junior student from Williston. His father is a former chaplain at the Florida State Prison and is now the pastor of the First Methodist Church in Williston. Eddy is active in music activities at the college. He will also bring the message this Sunday morning at 11 a. m.

The pastor of the Ebenezer Church, C. E. Murlin Jr., also a junior at Lakeland, announces plans for the showing of color slides each evening depicting the life of Christ. Also he will bring messages to the children by his scriptural magic. The church extends a warm invitation to all of this community to attend and take part in these services.

State Market Here Suffers Spreading Decline Last Week

"Fairs, shows and expositions are invaluable in the development of all phases of agriculture and Florida is extremely fortunate in that its Commissioner of Agriculture, Nathan Mayo, recognizes this fact," according to L. H. Lewis, Director of Florida's market system. "It is through Mr. Mayo's foresightedness and his intense interest and desire to improve Florida's agricultural industry that some of the finest facilities in the south have been provided for this purpose."

Florida is particularly fortunate in the fact that most of our major shows involving agriculture, horticulture, animal husbandry and the like are staged during the winter months when they serve the double purpose of spurring our own folks to new achievements, and offering thousands of visitors from other states an opportunity to see our products and catch a vision of the possibilities for future development.

"Volume-wise and price-wise we experienced a 'spreading decline' at our Sanford State Market last week," Manager Sandy Anderson bemoaned in his weekly report. "We only sold 62,980 units valued at \$101,137.55, a decrease of 32,597 units and \$53,656.45 value. A good portion of this decrease was brought about by slow trading in cabbage, celery, iceberg lettuce, cauliflower, which is our heaviest volume. Good supplies of most items are expected this week."

Peanut oil forms the base of many face creams, shaving creams, hair lotions, and other cosmetics, because it energizes the skin.

Soil erosion has forced U. S. farmers to abandon over 25 million acres of crop land. Average loss is 500,000 acres a year.

Poll Shows 90 Pct. People Opposed To Federal Aid Bill

About 90 per cent of the people of the Fifth Congressional District are opposed to the federal aid for school construction bill now being considered by the Rules Committee of the House of Representatives, if the results of a poll now being taken by Congressman A. S. (Syd) Herlong Jr. are an accurate barometer.

In his annual questionnaire to the people of the district, Congressman Herlong asked this question: "Several bills have been introduced calling for federal assistance in a school construction program. One will no doubt soon be considered by Congress. We are confronted with the possibility that aid under any such program may be denied states which have not made 'satisfactory' progress toward integrating their school systems. Under these circumstances, do you favor the federal aid for school construction program?" Replies to this question in the Congressman's office so far are an overwhelming "No."

"No doubt the integration issue has had a great deal to do with this tremendous opposition to the program," Congressman Herlong said. "In previous years, when questioned on federal aid to school construction, a slight majority of the people replying to the questionnaire had favored such a program. The fact that there is a possibility of Florida residents having to pay taxes to support a program and not receive any of the money unless we integrate our schools certainly must have had its effect," Herlong continued. "Another thing - Gus Kelley, author of the bill, told me that there was no question but that any person who wanted to could bring suit and obtain an order which would prevent any of the money from being spent toward the construction of any schools which were not integrated. The NAACP has already served notice that such suit will be brought in Florida. I am glad that our people understand what the problem is and have expressed themselves so conclusively on this program," the Congressman concluded.

The federal aid to school construction bill has been passed by the Education and Labor Committee of the House and is now before the Rules Committee. Unless the bill passes that committee, there is little likelihood of its being brought up in the House of Representatives this session.

Driver's License Activity Report Revealed Today

The driver's license division of the Department of Public Safety today released its December activity report showing the following Seminole County and statewide actions against Florida drivers.

The division revoked 817 licenses, suspended 356 and canceled 145.

In addition, 101 were returned by the parole commission with restrictions.

Following actions were those in Seminole County: Ovelo-Frank Kostik, Nathaniel Whittney, Revoked; John Pinkey Hart, Canceled; Nash McNeil, Returned by the Parole Commission with Restrictions.

Sanford, William Green, Suspended; Everett Raymond Snyder, Sylvester Burley, Abner Gehart Haug, Returned by the Parole Commission with Restrictions.

Lake Mary, Edward Lareau, Suspended; Geneva, Alex Levine, Suspended.

Paraplegia Victims Are Eliminating Major Handicap

CHATTANOOGA, TENN. (AP)—Victims of paraplegia here aren't throwing away their crutches and wheelchairs, but many of them are eliminating one major handicap—the sense of dependency the disabled often feel because they can't land a job.

Directly responsible is Disabled Enterprises Inc., a rehabilitation center for paraplegics.

Chattanooga's tri-state chapter of the National Paraplegic Foundation, whose leaders worked tirelessly to establish the center, knows of no other center which opens its own grounds, building, is open to veterans and nonveterans alike, furnishes transportation, is operated by paraplegics for paraplegics, and, most important, combines therapy training, employment and public information in one project.

The Chattanooga Junior Chamber of Commerce recently presented its distinguished service award to three paraplegic war veterans for their roles in the development of Disabled Enterprises. They were Gordon Scott, Charles Miller and Mike Lawrence.

Scott was the tri-state chapter's first chairman when it was organized in 1951, with a membership of 14 paraplegics. Since then, more than half the approximately 200 paraplegics in the area have become affiliated with the chapter.

In 1952, Scott purchased a site for a workshop with \$15,000 of his own money. A fund-raising campaign brought in \$3,000.

With contributions of materials, equipment and labor by Chattanooga building and labor organizations, the chapter converted the lone building on its property into a work, sales, training and recreation center with emphasis on physical therapy.

By November 1954 the chapter was able to buy the property from Scott at the same price he paid for it.

The same month, the organization received approval of a request for an expansion grant of \$8,000 from the Office of Vocational Rehabilitation in Nashville and Washington.

The \$3,000 has been placed in the bank and may be used for administrative salaries and office and shop equipment.

Small assembly work, such as stuffing toys and putting together pencil toys, comprises the center's major operation. There is also production of wood items.

The center hopes to have 35 paraplegics employed regularly by the end of this year, and to lease or purchase equipment needed to handle new business.

One of the major factors in planning work at the center has been the establishment of work methods and procedures designed to train paraplegics for jobs in regular industry.

Its income from total sales and services was \$23,000 last year, compared to \$6,000 in 1954.

The U. S. Constitution as part of their repertoire are probably the only Americans who can recite the Constitution from beginning to end.

In 1955 they made a three-month USO tour of Europe, including England, France, Holland, Belgium, and Germany, to sing for American service men, along with General Dwight Eisenhower, whom they entertained at his farewell party for SHAEP in Frankfurt.

The program tomorrow night includes 15 selections with two dances as part of the presentation. Two of the selections to be heard are Tchaltkovsky's "Blessed Art Thou, Oh Lord" and Kedroff's "Lord's Prayer."

B. R. Morrow Makes 2,000th Catapult Off Ticonderoga

Lieutenant Commander Billy Ray Morrow and his crew were prepared for a routine catapult launching when they stepped onto the flight deck of the USS Ticonderoga one day last week. Instead, they learned to their pleasant surprise that their launch was a little more than routine - it was to be 2,000th catapulting of an aircraft off the ship. Pausing only long enough to admire the description on the nose of their A-1J, Morrow and crew then launched on another routine mission in support of the U. S. Sixth Fleet somewhere in the Mediterranean Sea. A huge cake, suitably described, awaited them in the hangar's ready room upon their return. After the cake-cutting, speech and photo, all hands present made short work of the cake. LCDR Morrow's comment: "We'll leave the 2,000th one for VAR-5!"

Warren Takes Pot Shot At Opponent

MIAMI BEACH, Fla.—Fuller Warren warmed up for his gubernatorial campaign today by taking a pot shot at one of his opponents, retired-Lt. Gen. Sumner Lewry of Tampa.

In a statement, Warren said Lewry, "has been shelling me sharply with a barrage of verbal blanks."

"A little later on, I may fire a few salvos of light ammunition at this one-star political general. At present, I am too busy assembling the heavy artillery for more formidable enemies to take time to lob a few shells into the general's walnut-paneled, Persian-carpeted foxhole on the Tampa 'front.'"

Lewry, who is campaigning on a platform of maintaining segregation, said Tuesday that Warren, when he was governor, vetoed a clause in a 1951 appropriations bill which would have taken public school funds away from counties permitting a mixture of the races.

Fire Department Has Active Week

The Sanford Fire Department had a busy week said Chief Mack N. Cleveland Sr. this morning.

However, the Chief said, most of the fires did not claim heavy damage.

"At one time last week, on Friday night, all of the equipment was out," said Chief Cleveland as he reviewed the week's firefighting.

The heaviest damage was done, the Chief reported Friday morning when a frame home at 413 East 5th St. was at least 60 percent destroyed. The rental house is owned by D. C. Brock, according to the Fire Department Chief's records.

Other fires occurred 26th and Grapeville Ave, outside the City limits and on the south side of Sanford Ave. on Onora Road when a frame dwelling was "practically well burned out," said the Chief.

Another house fire was put out, said the Chief, on Southwest Road. "We were fortunate in that we contained the blaze Friday morn-

Kiwanis Club Receives Achievement Award For 1955 Activities

W. Brown Miller Reveals Candidacy For Reelection

W. Brown Miller announced today his candidacy for reelection to the District 1 for the Seminole County Board of Commissioners subject to the May 8 Democratic primary.

"At the urging of my friends," Miller said, "and because I want to see the Board of Commissioners complete several projects already planned, I am asking for a second term." Among those projects, he says, are State Road 413 (Galaxy Ave.) and State Road 415 (Galaxy Ave.) to be started in July.

Miller said today, "Since election, I have never missed a meeting of the Board of County Commissioners and have voted my own convictions on every question. I have favored and worked for all forward-looking projects such as the Seminole Memorial Hospital, Highway 17-92, 27th Street Branch Ave., and the General Sanford Memorial Library and Museum, as well as working for secondary roads in various parts of the county and a workshop and garage building to protect expensive road equipment.

"I am, at the present time, Chairman of the Board of Seminole County Commissioners," Miller said, "and have rendered as best a service to the public as possible." He said, "I have made it a point to take time to talk to people and explain the need for road and ditch work in any district."

Miller stated, "This effort has been appreciated by many citizens. I am the kind of man you can talk to because I am interested in your problems."

W. Brown Miller came to Seminole County in 1907, and except for the time in the Army during World War I in France, has never been out of the County more than a few days at a time. He is married and with his wife has operated and lived on his celery farm on Celery Ave. for over 35 years. He is a member of the Presbyterian Church, Men's Bible Class, a Mason, member of the American Legion, Veterans of Foreign Wars and the Seminole County Chamber of Commerce.

QUEEN MARY UNDERGOING OVERHAUL.
SOUTHAMPTON, England (AP)—Vandals have scarred and gouged clocks, furniture and cabin walls aboard the Queen Mary.

The \$1,000-ton ship is undergoing annual overhaul here.

The vandalism occurred over the weekend, while workmen were away.

The Sanford Kiwanis Club received the Florida District Achievement Award in the division represented by its club membership.

The Achievement Awards Committee for the Florida District met in Orlando Jan. 22 to grade the 1955 reports.

M. R. Strickland was president of the local club during the year for which the award was made.

W. W. "Doc" Davies, chairman of the committee evaluating the reports announced the winners late in January after the club membership was confirmed by the General Office of Kiwanis International.

Only two of the ten winners for first and honorable mention were repeaters from last year which was an indication, according to Davies who announced the awards in "The Florida Kiwanian", that competition among Florida's Clubs in activities is continually tightening.

The Sanford Club was judged in the group for the Silver Award for clubs of 71 to 100 members. Clearwater's Kiwanis Club received honorable mention.

The Gold Award, for clubs of 101 members and over, was won by the St. Petersburg Club with Orlando placing second for honorable mention.

The Orange Award for first place went to Monticello with Miami Beach receiving honorable mention.

For the Blue Award, Umaticla won first place, with honorable mention going to the North Shore Miami Beach Club.

First Place for the White Award went to St. Cloud with Jacksonville Beach receiving honorable mention.

Members of the grading committee assisting Davies were: Wilbur F. Smith, Bradenton; O. K. Goff, Sanford; Raymond R. Orelli, Clearwater; Claude J. Kendrick, Fort Walton Beach; James A. Flechette, South Jacksonville; with F. B. "Skinny" Sarguis Jr., Orlando, a member of the 1955 International Committee acting as counselor.

P-TA Meet Told
The West Side P-TA will meet Thursday at the school at 8 p. m. to hear guest speaker, Hugh Carlton, principal of the Lake Mary School.

All members are urged to attend this session and hear the "interesting and informative talk" he has prepared.

Variety Show Told
A variety show will be given for members of the Sanford Tourist and Shuffleboard Club tonight starting at 7:30 o'clock.

Mrs. John Lee is emcee and Mrs. Shirley Vihlen is director of the show.

SHS Students Hold Sadie Hawkins Day Events Tomorrow

Tomorrow, Feb. 23, beginning at 1 p. m., the students at Seminole High School will hold their Leap Year Sadie Hawkins Day events.

Every leap year the student council of the school sponsors a leap year day in which the reverse of things is carried out such as girls chasing boys, buying their refreshments and of course entering the marriage race.

The first event will be the Sadie Hawkins Day marriage race in which the girls will catch the boys and be married by "preacher" Roger Harris for a dime.

Other events such as a pie eating contest, tug of war, sack race, pillow fight, bong calling contest, and greased pig race will take place at 30 minute intervals, up till 5:30 p. m.

The different clubs of the school are sponsoring booths and will sell candied, apples, soft drinks, snow cones, waffles, sandwiches, coffee and other treats. Also planned is a balloon booth, a dart game booth and pitch-ball-at-the-man booth in which some "lucky" teacher may get a duncecap.

At 6 p. m. a square dance will be held in the auditorium of the school and will last to 9 p. m. A band will furnish the music and Lila Almer and Daisy Mae will be recognized.

The students had until 1:45 p. m. today to cast their penny votes in a jar for the lucky senior boy and girl. The Public is invited to attend the events.

SENATOR DOUGLAS STENSTROM

Board To Investigate Possibilities Of Pool

A swimming pool for the Goldsboro Recreation Area was the key discussion at last night's meeting of the Board of Sanford City Commissioners.

Commissioner John Krider said, "I realize we have no money at the present moment but the time has come to discuss a project that is definitely needed."

City Manager Warren Knowles said that it would take 40 to 45 thousand dollars as a minimum expense to construct a swimming pool for the area.

Mayor F. D. Scott told the commissioners "We don't have enough money to take advantage of a paid director to supervise the recreation program in the City."

However, Commissioner Krider said, "I am speaking of a summer program when we do have a paid director. The time has come—probably next year—when a paid director must be provided."

Then Krider said "I would like to see the City go on record for an investigation into the type of pool needed, its cost, and the method of financing for it will take a full program to attract the children to the Goldsboro Recreation Area and its facilities."

Commissioner Earl Higginbotham said "This type of facility has an intangible value that you can't put your finger on."

Surveying the present program that was put underway at the first of the year Krider told the commissioners, "We have enough money to complete what we have planned up to now."

The Board of Commissioners unanimously agreed to look into the matter of cost, type of pool, and method of financing.

Earlier in last night's meeting the Board of Sanford City Commissioners agreed to abandon 183 feet of recently laid sewer line and a seven foot sewer easement in the southern area of the City in order that new construction could be started.

A null claim deed was approved for a lot in the Marviana Section and the question of fire protection for out-of-city areas tabled for further consideration at the next meeting of the Board.

Two requests for street lights were tabled for future consideration.

February Building Permits Go Over Half Million Mark

Douglas Stenstrom Seeks Reelection To Senate Position

Senator Douglas Stenstrom of Sanford today announced his candidacy for reelection in the Democratic May primaries. Senator Stenstrom was elected to the Senate in 1952 to represent the 27th Senatorial District, comprising Brevard and Seminole Counties.

A former Judge of Seminole County, he was born and raised at Sanford, and is a graduate of the University of Florida and John B. Stetson College of Law.

Senator Stenstrom stated, "I have appreciated the privilege of service in the Florida Senate afforded me by the people of the 27th District. I hope that my public and private conduct has been such as to merit your continued confidence and support."

"I like to feel that the vote I have cast in the Senate has been in the public interest and that in some small way, I have contributed to the ideal of clean government in Florida."

"I will continue, if re-elected, to cooperate with county, city, and school officials of both Brevard and Seminole Counties when called upon, and to work for the growth and development of our two counties, as I have done in the past."

During the 1953 legislative session, Senator Stenstrom served as Chairman of the Senate Citrus Committee and also on the Inter-County Senate-Bureau Committee. He is a member of the Inter-County Senate-House Joint Committee on Mental Health.

In 1953, Stenstrom was voted the "Most Promising First Term Senator" by his Senate colleagues. In the traditional poll of capital correspondents, he tied for fifth place in the St. Petersburg Times "Most Valuable Senator" award.

An active civic worker, Stenstrom has served as president of the Seminole County Children's Committee, the American Red Cross, Junior Chamber of Commerce, and the Sanford Kiwanis Club. A veteran of World War II, he has served as Senior Vice-Commander of the Florida Department of the Disabled American Veterans and as Chairman of the Sixth District American Legion Boys' State Program. He is a past vice-president of the Florida Juvenile Judges' Association, and is presently vice-president of the Seminole County Bar Association. Senator Stenstrom is a past vice-president of the Florida Bantled Brotherhood. He is 34, married, and has two children.

EXCHANGE AGREEMENT
MOSCOW (AP)—Five American medical men have arrived in Moscow for a month's visit under an exchange agreement with the Soviet Union. A Russian medical delegation now is in the United States.

Four of the pledges to Pi Lambda Phi fraternity were sent to Sanford to complete the project.

Sheldon Huffer of Coral Gables, Martin Horwitz of Miami, Jules Lion of Miami, and Pete Mula of St. Petersburg were sent here and spent the night in the City Jail Friday night on arrival by direction of the fraternity.

Saturday morning, under the direction of Mrs. Gertrude Ditzfelder, chairman of the local Cancer Society Unit, the fraternity pledges went to work cleaning and repainting the two rooms at 105 East 12th St.

The two day project was one of eight different projects in as many cities in Georgia and Florida undertaken during the "Help Week" efforts of the fraternity.

On hand to see that the boys were steadily at work, and to see a project well done, were Mrs. Don Bales and Mrs. Ditzfelder of the Seminole County Unit, American Cancer Society, and Casfield Willetts, chairman of the Community Service Committee of the local Jaycee organization.

The boys said, "We're happy that we've given an opportunity to help in worthy projects throughout the State."

Building permits for the City of Sanford will go over the half million dollar mark for the month of February this year.

According to John M. Gillon, Building Inspector for the City, permits up to today total \$502,570.

The continued growth of Sanford is marked in the new building that is under construction at this time with prospects of continued advancement and an influx in the permits for the future.

In comparison with February of 1953, building permits for the month of February 1954 are more than double with two more days to add to the total.

Construction for February, as shown in the permits issued this month, will include commercial construction as well as homes and churches.

Acceleration is expected in the number and total value of construction apparently planned for the future.

The opening of the French Ave. thoroughfare will, no doubt, expand the commercial and industrial building for the future.

Construction permits issued in February of 1953 were for building valued at \$243,078, Gillon said as he revealed the more than half million dollar total for the first 27 days of this month.

Sen. H. M. Kilgore Succumbs Today
WASHINGTON (AP)—Sen. Harley Martin Kilgore, the first West Virginian ever elected to three successive terms in the U.S. Senate, died early today.

Death came at 2:23 a.m. to the 63-year-old Democrat at Bethesda Naval Hospital.

He became seriously ill Feb. 23 when he suffered "a minor stroke" at the hospital. He had gone there 12 days before for a physical checkup and treatment for high blood pressure.

Prior to the stroke he had responded favorably to treatment and had expected to leave the hospital within a few days.

Harold C. Miller, Kilgore's administrative assistant, said the senator suffered another cerebral hemorrhage early this morning and died soon afterward. He had been in a semi-coma for most of the past two days, Miller said, and was unconscious at the time of death.

Mrs. Lois Kilgore, his wife, a son, Robert, and a daughter, Mrs. Albert T. Young Jr., visited the senator yesterday evening.

Miller said doctors at the hospital attributed death to a stroke stemming from high blood pressure.

With Kilgore's death, the Democratic majority in the Senate was reduced to one seat, 48-47. The West Virginian was the first senator to die in this session of Congress.

Court House Will Close So Employees May Attend Rites

The Board of Seminole County Commissioners, because of their intense interest in the progress of value of the French Ave. project, has agreed that the Seminole County Court House will close Friday March 9 in order that County employees may attend the dedication ceremonies which will be held at 4:30 that afternoon.

Seminole County Clerk of Circuit Court said this morning that the Court House will close and all employees will avail themselves of the opportunity to attend the ribbon-cutting ceremonies that will be held immediately in front of Seminole High School.

The Seminole High School point was chosen, said James A. Wright, chairman of the Seminole County Chamber of Commerce French Ave. Dedication Committee, because of its vantage point in viewing the entire project and because of the large area available for parking and in placing the speakers platform.

Interest is increasing in the dedication which is scheduled to take place in approximately ten days.

It is expected that many dignitaries from over the entire state will be in Sanford for the event with hundreds of road minded citizens and officials from the entire Central Florida area coming here for both the ribbon cutting ceremony and the banquet which will be held at 7 o'clock that evening at the Mayfair Inn.

Names of the dignitaries who have accepted invitations have not as yet been released but they are expected to include well known figures from the State's political and governmental offices as well as interested citizens.

The banquet, to be staged by the Seminole County Chamber of Commerce, and headed by James A. Wright as committee chairman, is expected to be a sellout affair with reservations and tickets made available more than three weeks ago.

The French Ave. project is the first major road building for Seminole County in 23 years.

Interns In County Schools Revealed

Spring semester interns in Seminole County Schools, their major assignments, and the public school supervisors are as follows:

Robert T. Bush, Deland, social studies, Seminole High in Sanford; C. F. Kettles.

Caroline McFalls, Sanford, fourth grade, Southside Primary in Sanford; Mrs. W. W. Davis.

Richard Silvers, Jacksonville, physical education, Seminole High School, Sanford; Fred Ganas.

GROUND IS BROKEN FOR THE LUTHERAN CHURCH of the Redeemer chapel and church last Sunday. The Rev. Phillip Schlessman is shown turning the first spadeful of earth. Among others taking part in the service are: (left to right) W. H. Knaster, David Green, Jerry Senkark, J. C. Jorgensen, Building Committee chairman; the Rev. Schlessmann, J. Marlon Harman Sr., president of the congregation; Dean Taylor, Henry Thurston, John Schmidt, Marvin Page, and Walter Atkinson. Those not shown in the picture, but taking part in the service are: Jim Ekern, John Senkark and P. M. Campbell, the contractor. (Photo by Jameson)

Films To Be Shown
The CPO Wives Club will have a showing of films on cancer tonight in the CPO Club on the base starting at 8 o'clock. All members are urged to attend this meeting. Light refreshments will be served afterwards.

U Of F Fraternity Pledges Redecorate Gift, Loan Closet
Not long ago, the Pi Lambda Phi, a social fraternity at the University of Florida, was looking for projects for their "Help Week" efforts that were being made to replace their "Hell Week."

GARFIELD WALLETS, CHAIRMAN of the Jaycee Community Service Committee directs the work of Pi Lambda Phi pledges at the Gift and Loan Closet of the American Cancer Society, Seminole County Unit. Doing their printing chores are: Sheldon Huffer, Coral Gables; Martin Horwitz, Miami; Julie Lipp, Miami; and Patsy Alala, St. Petersburg. All are U of F students. (Staff Photo)

Just For Fun, Try These Tests

BY HERMAN R. ALLEN
AP Newsfeatures Writer

So they don't teach 'em in high school like they did in your day? So they can't read, or write good grammar, or think out problems—or just plain think?

Maybe so, but just for fun why not sample the tests the some of today's seniors take to win National Honor Society college scholarships?

Last year, about 10,000 students in more than 2,500 high schools went after the awards. This year's tests will be held March 20 and 28 awards are available, totaling \$17,500. The largest is \$1,500—divided \$500 for each of three years. Highest test scores in recent years have run a shade over 80 per cent. The full test takes 90 minutes. You should get through the following questions—samples selected from several different examinations—in 15 to 20 minutes. You'll find the answers below.

Part 1. Four of the terms in each of the following series of five are alike in some respect and one is different in that respect. Circle the word in each series that does not belong with the others. Score one point for each correct answer.

1. Honestly honor legality probity uprightness
2. Freud Jenner Koch Lister Pasteur
3. Hindu Mongolic Shinto Taoist Zoroastrian
4. Egotistical exhibitional ostentatious pompous pretentious

Match the numbered terms with the lettered terms. This is a test of ability to make fine distinctions. Score one point for each correct matching.

1. Capriciousness of chance
 2. General matter of chance
 3. Favorable development
 4. Single circumstance
 5. Train of circumstances
- A. Fortuitous
B. Fortunate
C. Lucky
D. Prosperous
E. Successful

Part 3. For the following set of words

find one group of five letters which can be arranged to spell a synonym for each of the words in the set. Score five points for the set.

- Here's a sample—
1. Portion share
 2. Rabbits hares
 3. Cut shear
- Got the idea? Now you're on your own:
1. smallest
 2. rob
 3. raucid
 4. stories
 5. blackboard

Part 4. Below are four quotations from speeches or writings of American presidents. Following them are the names of five presidents. Match each quotation with the name of the proper president. One point for each correct answer.

1. "The only limit of our realization of tomorrow will be our doubts of today."
 2. "The responsibility of the great states is to serve, and not to dominate the world."
 3. "The American spirit of rugged individualism."
 4. "I should like to be known as a former president who (tries to) mind his own business."
- A. Calvin Coolidge
B. Dwight D. Eisenhower
C. Herbert Hoover
D. Franklin D. Roosevelt
E. Harry S. Truman

Part 5. At an imaginary point in the United States three rivers unite to form a fourth. One river flows south, one flows southwest, one north and one west.

The bed of River A is dry half of the year. Excessive fog tends to form over River B. The water in River C is warm and muddy, but that in River D is cold and clear. If a dam were constructed in River B for power generation purposes it would soon become useless because of silt deposits.

From your knowledge of the general topography of the United States and from the facts given above, in which direction does each river flow? Score one point for each correct answer.

Part 6. I can build a fence in 4 1/2 eight-hour days. After I have worked on the job for three days my brother says: "Who is the faster fence builder, or is there no difference?"

Part 7. If different, in what ratio? (See as 5 to 7, 4 to 3) Score one point for each correct answer.

TEST ANSWERS
AP Newsfeatures
Here are the answers to the college scholarship questions.

Part 1: 1. legality; 2. Freud; 3. Mongolic; 4. egotistic.

Part 2: 1. a, 2-b, 4-a, 3-d, 5-c. Part 3: least, steal, staid, tales, slale.

Part 4: 1. 1. a, 2. b, 3. c, 4. a. Part 5: a. north, b. southwest, c. south, d. west.

Part 6: 1. 1 am faster than my brother. Ratio: 7-3.

Part 7: At the beginning of 1953 the value of U.S. farm machinery and motor vehicles was 26 per cent above 1950.

This notice shall be valid for six months from the date of publication. Witness my hand and the seal of the County of Seminole, Florida, this 15th day of February, 1954.

duous reign—more than 10 million persons in audience.

Since he was elevated to the papacy on his birthday in 1939, he has thrown open the ponderous bronze doors of the Vatican palace to an extent never known in history.

His audiences have included not only kings and queens, but humble pilgrims and sometimes merely curious tourists. Those who have received his blessing include members of all races on earth.

The doors of the palace have not always been open. During the 19th Century struggle for the unification of Italy, the provinces of the pope were confiscated. For 60 years the pontiffs of the Roman Catholic Church remained voluntary prisoners of the Vatican.

That period ended in 1929, when Pius XI reached an agreement with Italy's fascist government creating the state of Vatican City. Pius XI then increased the number of his audiences, describing them as his "window on the world."

But it remained for Pius XII to shatter completely the image of an austere, distant and unapproachable supreme ruler on Peter's throne, the most ancient in the world.

Pius XII not only opened wide the window. He instituted such tremendous audiences that St. Peter's Basilica, biggest in the world, would not hold all those who came. The crowds sometimes spilled into the open expanse of St. Peter's Square.

Until relatively few years ago, said one Vatican writer, "he who was not a prince or a minister thought about it three times before requesting an audience."

But the tall, dark-eyed and seemingly frail Pius XII has walked freely among both royalty and the humble, bringing to all a word of blessing and frequently a word of counsel.

The demands of so much activity have been a heavy drain on the strength of the spiritual leader of more than 45 million people—one fifth of the world's population.

Yet this trying task is the one he least willingly relinquishes the few times that sickness has compelled him to do so.

Even last year—a so-called year of convalescence following the gravest illness he has yet suffered during his pontificate—he received more than 370,000 people. Among them were the premiers of France, Turkey, Thailand, India, the King of Ruanda, West Germany's foreign minister and U.S. secretary of state, John Foster Dulles.

There was—to pick one—the American Indian boy in glittering heads and shiny feathers who brought a broad smile to the pontiff's ascetic and patrician face. Happily he exclaimed, "Ah, an American Indian... a real Indian."

It was difficult to say who was more pleased, the Indian lad, or the vicar of Jesus Christ, successor of the prince of the apostles, supreme pontiff of the universal church, patriarch of the west and sovereign of the state of Vatican City.

These audiences, his unending fight for peace, his especial devotion to the Virgin Mary whose bodily assumption into Heaven he proclaimed dogmatically, his numerous addresses and writings, and his ceaseless opposition to atheistic communism have been and continue to be the highlights of his reign.

Over pumping of wells in Florida has led to seepage of sea water as far as eight miles inland in some places.

Piggy-Back Freight Service To Texas To Start In March

MOBILE, Ala. — Pan-Atlantic Steamship Corp. of Mobile will begin a revolutionary type of seaborne piggy-back freight service between the East and Texas next month.

The line will use ocean-going tankers to carry both bulk and general cargo. The tankers will take aboard a usual bulk cargo. Loaded truck trailer bodies then will be placed on a special deck built on the tankers.

J. K. McLean, president of Pan-

Atlantic, a subsidiary of McLean Industries, Inc., said two tankers, the Ideal E and Almema, have been converted by Bethlehem Shipbuilding Corp., Baltimore, for the new service. Each has a deadweight tonnage of 18,500.

The trailer bodies will be shipped without their detachable chassis. The 33-foot bodies, with a load capacity of 40,000 pounds each, will be lifted to the special deck by large cranes.

The containers will be unloaded

in the same manner to a chassis for highway delivery to the consignee. Each tanker can carry 50 bodies, permitting a deck load of almost 1,200 tons of general cargo.

The new service will be started in April between Port Newark, N.J. and Houston, Tex. Date of the first sailing will be announced later.

McLean said the service is the first phase of Pan-Atlantic's sealand program that includes construction of seven trailships at a cost of 72 million dollars.

Surplus military weapons, including flares and grenades, are used by the U. S. Fish and Wildlife Service to scare off crop-destroying birds.

These ships will provide roll-on, roll-off service for loaded truck trailers. The trailers will remain on the chassis.

The specially designed ships will be used for piggy-back service through Boston, New York, Philadelphia, Baltimore, Charleston, S.C., Jacksonville, Miami and Tampa, Fla., Mobile, New Orleans, Houston and Galveston.

Crowded Areas In State Of Alarm

NEW YORK, N. Y. — Life in the cities and the suburbs today is under growing pressure on two counts: middle income housing and transportation.

The nation's tremendously growing population and personal income have led to dislocations which have brought about a state of alarm in crowded areas.

The man in the middle income bracket has become, quite frequently, the Man-in-the-Middle. He fled the crowded city in the vast postwar rush to the suburbs. Now he finds in many suburbs the same conditions he sought to escape: jammed transportation, inadequate school facilities, high taxes.

Meanwhile, as the nation prospers, more and more people join the middle income group, such as between \$5,000 and \$10,000 a year. Some 41 per cent of American families have incomes of \$5,000 a year or more, according to the Commerce Department.

By 1960, it is unofficially estimated, 60 per cent will have incomes between \$5,000 and \$7,500 a year. The average non-farm family had an income of \$6,200 in 1953, Commerce Dept. figures show.

This means surging demand for the good things in life usually associated with suburban living or better-class city living. But the suburbs are becoming overcrowded and middle income rentals in the city are hard to come by.

The housing problem is linked closely with the transportation problem. Even on the crowded Eastern seaboard there is plenty of vacant, green land but not enough mass transportation to make it practicable for suburban development.

Transit has reached a crisis stage in such huge population centers as the New York City-New Jersey metropolitan area. A joint commission set up to work on the problem said transit in the area "is on the brink of catastrophe."

"Congestions have become strangulations," said the commission. "The economic losses are authoritatively estimated at well over a billion dollars a year in New York City and may well pass a figure of two billion dollars in the entire metropolitan area."

Ironically, while auto traffic chokes the cities, railroad commuter service loses money. The railroads are always seeking permission to drop unprofitable commuter lines.

But in Los Angeles, Police Chief William Parker said he believes that only by a rail network, supplemented by shuttle buses and facilities for auto connections, can the transportation snarl be untangled. The area is a "stagnation unless the problem is solved," he said.

The San Francisco Bay area has announced a nine county, billion-dollar plan embodying a high-speed rapid transit and commuter network, coordinated with auto and surface transit services.

"The cities, no less than the railroads, are on trial for their lives," said Robert R. Young, board chairman of the New York Central recently.

STATE'S POPULATION HAS INCREASED

JACKSONVILLE — The Bureau of Vital Statistics says Florida's population has increased approximately a million since the 1950 census.

It said in a report yesterday that excess births over deaths accounted for about one fourth of the increase and immigration, the rest. The 1950 census showed Florida's population was 1,771,000.

Nickel silver, an alloy of copper, nickel and zinc, is used extensively for decorative hardware in railroad passenger cars.

Man Has Theory On Heart Disease

OMAHA, N. Y. — A 43-year-old Omaha electrician is trying to solve one of the mysteries of heart disease by putting it in terms of electrical law.

Harry Lobel's theory contends that the malfunction of the circulatory system called hypertension — high blood pressure — is not a great deal different from what happens when an electrical system goes wrong.

Two years ago Lobel walked into the Creighton University Medical Center, an organization active in heart research, to handle a minor wiring job. He noticed some students measuring blood pressure and decided they were ignoring some vital elements of the problem.

Today he is working under a grant from the Nebraska chapter of the American Heart Assn. and Creighton has poured almost \$10,000 into his research project.

When Lobel first watched the students, he thought of a standard term used by the electrician — impedance. He felt they were ignoring this.

Impedance, in an electrical wiring system for example, results when voltage and amperage are out of phase. It means malfunctioning of the machine, loss of efficiency and excessive pressure. On the other hand, when the system is in phase, there is resonance.

Roughly speaking, resonance can be compared to a water system in perfect working order — the water flows evenly and smoothly out of the faucet.

To test his theories, Lobel has constructed a simple mechanical pump made to set like a sick heart by means of controls.

He hopes to build a pump — or series of pumps — that would measure impedance in the body and in so doing would diagnose hypertensive tendencies before the blood pressure actually rises to dangerous levels.

His device, if successful, might be able to differentiate between various causes of impedance in the circulatory system, study the effects of various drugs upon impedance and even predict electrolyte failure before the critical stage is reached.

BOY ADMITS SETTING FIRES ST. PETERSBURG — Police reported a 6-year-old boy admitted he set a \$15,000 fire because "I like to see smoke."

Policeman M. J. Morrissey said the boy described how he wadded up newspapers and rags yesterday set them on fire, and tossed them onto a heap of cardboard boxes piled up beside a neighborhood store building.

The building, containing a grocery sundries store and an auto parts shop, was destroyed.

MAN KILLED IN CRASH JACKSONVILLE — E. E. Edward J. Markey, 24, of New Rochelle, N. Y., was killed when his Navy jet crashed in bombing practice yesterday.

The Ruffed Grouse has the sharp nose of a fox but its body is like that of a meadow.

FIGURE IT THIS WAY! For as little as 95 cents a week more than you'd pay for a small hardtop in the "lowest price field"—you can step up to the biggest, best looking, most luxurious hardtop in the "medium price field" . . . the Dodge Coronet V-8 Lancer!

Your King Size Buy-by far! '56 DODGE Coronet

Here is the value that will change your idea about "price class." The King Size Dodge Coronet actually brings you more length, looks and luxury, more big car roominess and big car ride, than other cars in the "medium price field"—even those costing a thousand dollars more!

Yet, the exciting news is this! For all its size, comfort, performance and style, the King Size Dodge Coronet is priced right down with the lowest. In fact, you can own a Dodge Coronet V-8 Lancer hardtop for only about 95 cents a week

more than the same body style in the small car field. Why settle for a small car when a new '56 Dodge Coronet brings you so much more for so little more? And why settle for a "stripped down" model of one of the medium priced cars when a full-size, full-styled, full-powered Dodge Coronet can be yours for less? There's a full line of Dodge Coronets to choose from: 2-door and 4-door sedans, 2-door and 4-door Lancer hardtops, and a dashing convertible.

Come in and see the Dodge Coronet today.

Size it up with others in the medium price field	
Car "B"	Dodge is 4.9 inches longer
Car "M"	Dodge is 5.6 inches longer
Car "O"	Dodge is 7.7 inches longer
Car "P"	Dodge is 6.4 inches longer

Price it against small cars in the "low price field"	
Car "C"	Dodge is 14.5 inches longer
Car "T"	Dodge is 13.5 inches longer

Yet Dodge costs only \$4.71 a month more (less than 95 cents a week!)*

Push-button driving and record-breaking performance! At a touch of your finger, you command the greatest performance car on the road today—her nose! The new '56 Dodge shattered every record in the book—including world records held by foreign cars—in its 14-day official run on Bonneville Salt Flats. The '56 Dodge V-8 holds more records than all other American cars combined!

It's Readers With Pride

The Sanford Herald has a moral responsibility to its readers and day by day we meet that responsibility, full force, without flinching and with continued verve to present the news as it occurs and in an open, impartial manner that can be understood with- out digressing through loosely used words.

The news columns of The Sanford Herald do not attempt to paint a discolored picture for its readers. As events unfold, facts are set as they occur, in the order of their chronological occurrence.

Freedom of information is the basis on which The Sanford Herald gathers its news and avenues are opening daily through which news is channeled to our readers. Where we are not allowed, in the search for the truth, to factual form rather than colorful descriptions, our resources are used to gain access to information that is rightfully that of our readers.

There has never been an instance where The Sanford Herald attempts to hide facts or is constantly striving to bring the news before the public without hearsay and without individual opinion.

Certainly The Sanford Herald reserves its rights—in editorial columns—to express its opinion on matters of high importance to the community. And we reserve the right to stand for, in editorial columns, all of those things which will benefit the community in any way.

Progress is an effervescent word with The Sanford Herald, and it is for progress, in an open and above-board manner that we will and will support as long as editorial columns are written.

When a news item is written and published in the news columns of this paper, The Sanford Herald readers may be assured that the statements used are correct and the event is being told in a forthright manner.

There are some sources for news that The Sanford Herald, up to this time, has not been able to reach. But in its continuing efforts to make known to Sanford's citizens as much of the news that can be printed in the course of one day's events barriers are being broken down that stand in the way of factual reporting of events and occurrences of interest to readers.

A news story is a combination of facts told in such a manner that it becomes read-

able and interesting. It may be of a wreck, an address, a fire, a political event, an election, a special visitor, a meeting, or of a disaster. Each one comes to The Sanford Herald readers reported as it is seen or heard, hearsay or by rumor.

We are proud of the way we are presenting Sanford and Seminole County's chain of events and we are continually improving our presentation of facts that we know are of service.

Under no circumstances will The Sanford Herald withhold news that should reach the hands of our readers.

By building an organization throughout the county we believe that each day our resources for obtaining up-to-the-minute reports are becoming equal to the situations that might occur within the borderlines of a growing and progressive community.

We, at The Sanford Herald, are fully aware of the value of each news item and for its intrinsic value to our readers every effort is made to present the story unbiased, without prejudice, without malice, and to its fullest extent.

The duty that parallels each responsibility in keeping Sanford and Seminole County informed about the chain of events is met and reports are revealed each day in the news stories of The Sanford Herald.

We appreciate the faith and confidence our readers have in us and we shall meet, every moment, our responsibility to The Sanford Herald readers. We shall be open to governmental affairs and the hiding of facts behind power and connivance and in every instance where such a motive is apparent, continuing efforts are made to disclose the facts that are rightfully those of the reader and taxpayer.

With pride we present our news stories of Sanford, Seminole County, its citizens and events.

TODAY'S BIBLE VERSE
And this thing became a sin: for the people went to worship before the one, even unto Dan.—1 Kings 12:30.

Don't Forget March 9
Friday, March 9, is the day that citizens of Sanford and Seminole County show their appreciation for the soon-to-be-completed French Avenue thoroughfare.

We feel that with such a devoted appreciation for the first major highway project in our County in the past twenty years thousands of people will jam French Avenue at Seminole High School to witness the official opening and dedication of the newly paved thoroughfare.

Have You Registered?
Political announcements are being made day after day, now that the season for them is open.

Be sure to examine your eligibility to vote in the most important election year in history.

Only registered, qualified voters are allowed to express themselves on this most important occasion.

Be sure that you have made every necessary registration providing you with the right to cast your ballot in both the May 8 Democratic Primary and the November General Election.

Dulles, Demos Talk A Lot

By JAMES MARLOWE
WASHINGTON—It may be Secretary of State Dulles talks so much that when the Democrats get ready to what he says they forget he said it before and, between times, perhaps just the opposite.

That the Democrats are getting very vocal in a election year may be only coincidence. But Dulles is pretty vocal himself. He has not only traveled more than any secretary of state in history but may hold the record for speeches and statements too.

He set the Democrats off over the weekend by his testimony before the Senate Foreign Relations Committee Friday when he said Russia's policy of "intolerance and violence" had failed because of the world "firmness" over the past few years.

He had made the same statements a number of times before without this reaction from the Democrats. He might have added, but didn't, that the policy of firmness had been laid down by the Democrats under President Truman.

Yet Dulles last December seemed to say the exact opposite when he declared the Russians' "peace" policy had ended and they were opening dangerous new cold war fronts in Asia and the Middle East.

was a rebirth of Stalinism in Russia. On Friday he said the new Russian leaders had ditched Stalinism. In December he said Russia's new tactics "do not mark a change of purpose," meaning world communism.

He said the same thing Friday, but then he added something which threw the Democrats into a tizzy. He said the Russians are changing their tactics because they realize "they must bring their system closer to ours rather than the other way around."

If this sounds rather optimistic, it is not unusual for Dulles, whose optimism sometimes has been badly upset by later events.

Not long after President Eisenhower's summit conference with the Russians in Geneva last July Dulles said a "new spirit does, indeed, prevail" and he expressed belief the cold war might be ending and the Russians might let Ger-

Who Controls Family Income?

By HAL BOYLE
NEW YORK—Curbstone reflections of a Pavement Plato: Who should control the spending of the family income—husband or wife?

It is generally believed that women boss the spending of about 85 per cent of the expenditures in the American home.

A revolutionary movement—"The Brotherhood of the True Man"—has been formed by publicist Carl Ruoff to challenge this figure and spread the doctrine that the American male is and ought to be master of his own paycheck.

Operating under the slogan, "Never Underestimate the Power of a Man," the organization cites a magazine survey to make the following claims:

That 4 out of 5 men buy the roofing for their home, and 7 out of 10 picked out and purchased its insulation, heating system and paint.

That 4 out of 5 American men select and buy the car they drive and the gasoline to power it.

That 9 out of 10 select and buy these automobile items: antifreeze, oil, tires, car polish and spark plugs.

That 4 out of 5 select and buy the liquor, beer and wine consumed in their home.

That 4 out of 5 buy their own suits, hats, shoes, cigarettes and razor blades.

That 9 out of 10 buy their own cigars, 7 out of 10 their own shaving cream.

That 3 out of 5 pick the brand of shirts they wear, and 1 out of 2 actually go to the store themselves and purchase them.

Crying for even more masculine control over spending, Ruoff continues:

"What man would admit that he lets his wife decide what books to read, what airline to fly, what lawn mower to guide?"

"Do you want your 1957 automobile to be painted 'licked pink'?"

School Offers 13 Courses To Regular Army Volunteers

The Southeastern Signal School at Camp Gordon, Ga. is currently offering 13 specialized communications courses to Regular Army volunteers. It was learned from the local Army recruiter, M-Sgt. Henry P. Jacobsen.

The courses range from eight to 35 weeks and have been evaluated for as high as 15 college credits by the American Council on Education. The courses listed by the recruiter are: telephone central office maintenance; telephone installation and repair; power equipment maintenance; teletypewriter maintenance; field radio repair; high speed radio operation; cryptography; teleprinter operator; pole line construction; Signal Corps supply; central telephone switchboard operation; and radioteletypewriter operation.

Public Forum

This column is for Sanford Herald readers to use in expressing their opinions upon any matters of interest to the general public. We solicit your ideas and fair criticisms of any existing conditions, city-wide, state and national; comments or criticisms of individuals, public officials, groups or organizations, but be temperate, fair and truthful. No personalities. The length of your letter depends upon the importance of what you have to say. All letters will be signed by writer with address, though structure will be withheld from publication upon request. Wherever possible letters should be limited to 300 or 350 words. The Herald reserves the right to edit or cut letters to fit the space available.

LETTERS TO THE EDITOR

Sanford, Fla. Feb. 24

The Sanford Herald:
Sanford, Fla.
Dr. F. Sire:

Would like you to know how we appreciate the way you have covered the trial over in Orlando that involves our sheriff.

It seems to me you have given the public a very thorough informative and impartial coverage of this trial, it enables us to get a good picture of what is happening. Just wanted you to know I appreciate very much.

Yours sincerely,
Mrs. R. M. Fryer

THE THAT IS TAUGHT ONLY BY HIMSELF HAS A FOOL FOR A MASTER.

— (Author's name below) —

Many people, who have never spent a day in a medical university, foolishly believe that they can advise their friends how to treat an illness. They mean well, but can cause serious harm.

The proper diagnosis of a disease is an art that a Physician acquires only after years of study and internship training in a hospital. It is more important to treat the cause of an illness than to just relieve discomfort, which is usually the most any self treatment accomplishes. When you are sick be guided by your Physician.

Social Events Calendar

TUESDAY
The Band Parents Association will meet at 8 p.m. in the band hall.
The Past Noble Grands Club of the Seminole Rebekah Lodge will meet with Mrs. Ethel Moore, 711 Myrtle Ave. with Mrs. Grace Cordell as hostess.

27th Anniversary Is Celebrated By Ware Bible Class

The Ware Bible Class of the First Methodist Church had a covered dish supper at McKinley Hall recently with Mr. and Mrs. Jack Burney, Mr. and Mrs. W. C. Coleman and Mr. and Mrs. Childress along with Mrs. Clarence Wynn and Mrs. Gretchen Crowell as hostesses and hosts.
Decorations followed a George Washington theme and the colors were red, white and blue. Drawings of different places concerning Washington and his birth place and time decorated the walls. These were done in black and white by Mrs. Crowell.
Mrs. Burney presented Judge Ware with a gift in honor of the 27th Anniversary of the class, which is named for him.
The program included David Kirchhoff, giving an imitation of "Liberace" and Mrs. H. L. Fisher, singing "Holy Hour". Bob Reely Jr. accompanied the musical pieces. The class in unison sang "America" with Mrs. Roy Tillis at the piano.
Following the program a short business meeting was held presided over by Robert Reely Jr. president. The devotional was given by Mrs. W. W. Tyre.
Approximately 50 members and guests were present.

Wiener Roast Given For Billy Johnson On 13th Birthday

A wiener roast was given Billy Johnson on his 13th birthday Friday afternoon at the home of his parents, Mr. and Mrs. Clifford Johnson at 4 p.m.
The event was staged in the backyard of the home and featured a birthday cake decorated green and white centering a table in the yard.
Several of Billy's classmates and friends were invited. He received many lovely gifts and movies were taken of the group.
The supper consisted of hot dogs, potato salad, baked beans, cake and lemonade.
Those attending were the honoree, Peter Alexander, Bill and Bob Buffalow, Johnny Kroschick, Billy Baker, Tommy Brown, Emmet McCall, Tommy Raggerly, and Cliff Ahles.
Adults attending were Mr. and Mrs. W. L. Hiers, Billy's grandparents.

Girl Scouts

By Miss C.
Hello! Hello! Hello!
Since we are nearing Girl Scout week which begins the twelfth of March I thought perhaps you would like to become better acquainted with the Girl Scout in your town.
Yesterday was the beginning of the Girl Scout Cookie Sale. We participate in this every year as our only means of raising money to use for our materials and pleasures that we have throughout the year. Please, if you possibly can, when you see a Girl Scout or Brownie (for they are Girl Scouts only too young to be called Scouts) come to your door try to buy at least one box of cookies from them. The cookies are GOOD and you will be helping the Girls earn.

We are all lone troops and therefore very little is heard of us. We only have ten registered leaders but these few leaders are working with nearly two hundred girls! Some of the leaders are fortunate enough to have an assistant or two but some are without help. Isn't that a shame? There are more and more girls on the waiting list hoping for a chance to become Brownies or Scouts. We want to grow! We want to give these girls and all girls from seven years of age on up the advantages that Girl Scouting can and will teach but this takes community support.

Friends of little Pete Reynolds will be sorry to learn that he is now in Seminole Memorial Hospital. He is the son of Mr. and Mrs. W. A. Reynolds.
Mr. and Mrs. W. D. Stine have had as their guests for several weeks their son, Albert, and family. They left last night by plane for their home in South River, N. J.
Miss Edna and Miss Dorothy McWilliams, 306 1/2 Palmetto Ave. who flew by Eastern Air Lines to Ft. Wayne, Ind. for several weeks returned home Monday.
Mrs. Willis Pippin has returned from Minneapolis, Minn. after spending six weeks with her daughter, Mrs. R. E. Watlov and family.

Dinner Is Enjoyed

Mr. and Mrs. Robert Feth of DelRay entertained at a dinner Saturday night.
Those enjoying the affair were Mrs. Bert Rink, Redding, Pa. Mr. and Mrs. Harry Schuler, Mrs. Pauline Wittje, and Mr. and Mrs. Samuel Carter all of DelRay.

Panel Program Is Planned For Meet

The program for the Southside P-TA which will be held Thursday at 8 p.m. in the auditorium will be presented by Mrs. Roy Mann, chairman, on "Juvenile Protection" which will be of interest to all parents.
Panel will be moderated by Mrs. Randall Chase. Those invited to appear on panel are Fire Chief Cleveland, Police Chief Roy Williams, and the Rev. David Cairns and a scout official.
After the panel a bus session will be held where all parents may take part.

Panel Program Is Planned For Meet

Directoire-Inspired is this spring, 1956, George Carmel coat of "real red" imported hopsacking wool in basket weave. It is fully-lined with taffeta and wearable much of the year around.

A TRIO OF LOVELY LADIES who will model fashions by Yowell's at a benefit tea Thursday afternoon at the Mayfair Inn. Shown here are Mrs. James J. Stokes, Mrs. Paul O'Dea, and Mrs. Vernon Mountcastle of the Officers Wives Club. Proceeds from the tea will benefit the Forest Park School for Exceptional Children. (Staff Photo)

Personals

Friends of little Pete Reynolds will be sorry to learn that he is now in Seminole Memorial Hospital. He is the son of Mr. and Mrs. W. A. Reynolds.
Mr. and Mrs. W. D. Stine have had as their guests for several weeks their son, Albert, and family. They left last night by plane for their home in South River, N. J.
Miss Edna and Miss Dorothy McWilliams, 306 1/2 Palmetto Ave. who flew by Eastern Air Lines to Ft. Wayne, Ind. for several weeks returned home Monday.
Mrs. Willis Pippin has returned from Minneapolis, Minn. after spending six weeks with her daughter, Mrs. R. E. Watlov and family.

Geneva News

By ADDIE PREVATT
The many friends of Tommy McAlain Jr. will be sorry to learn that he fell and broke his arm last week.
Mr. and Mrs. E. H. Grant had as their recent guests, Mr. and Mrs. Horace Wesson of Winter Park, and Mrs. Roland Wesson and children of Okeechobee.
Mrs. John Maxwell returned home Wednesday after spending about ten weeks in Ohio with relatives and friends.
Mr. and Mrs. Alvin Allen had as their guest Sunday, Mrs. Lonnie Speer of Winter Park.
Harold Geiger of Orlando spent the weekend here with his parents, Mr. and Mrs. Harry Geiger.
Mr. and Mrs. J. E. Mathieux spent Sunday in Tampa.
Mr. and Mrs. Frank Gatlin had as their recent guests, Mr. and Mrs. Broward Gatlin of Orlando.

Second In Series Slated Wednesday

The second of the series of the Church-wide School of Missions will take place in McKinley Hall of the Methodist Church Wednesday night Feb. 29 at 7:30 p.m.
The speakers will be Mrs. D. M. Paul and Judge R. W. Ware. There will be special music and a coffee break for intermission.
All members are urged to be present.
Don't add sugar to dried prunes or dried apricots until after cooking. It may toughen the fruit.

Footnotes to Fashion

By SANDRA
"YOUNGER THAN 26 AM I" is the song some of you may be singing this year, (for the fashion world, that is). If so gather ye around and hear about the most highly fashion-conscious consumers... the 16-20 age groups.
The controversial long-torso silhouette is being adopted enthusiastically by young girls, who find it new and flattering to their slim figures.
They are also accepting slimmer lines in coats and shifts for party dresses, says Nan Mizrahi, fashion coordinator for one of the country's leading teen and sub-teen dress manufacturing firms.
The most popular silhouette of the new season "is the fitted long-torso look, with skirt flaring into fullness below the hipline."
The youngsters also love "co-ordinated separates, such as skirts and shorts and shirts planned to go together. New fabrics, new colors and new silhouettes are making news in young fashions for the Easter Parade. Lightweight tweeds and shetlands are popular in both navy and pastels."
Suits accent the "boxy jacket" interest in low-placed belts, and tabs and other details, according to a recent market survey by the trade magazine, Women's Wear Daily. Gay prints are important in spring dresses, which highlight the fitted, long bodice and pleated or gathered skirt, with fullness beginning below the hipline.
"Navy or charcoal gray with white accents is good, as always, for spring, and the ensemble is high on the popularity list for all ages."
The duster and dress ensemble appears to be the top score in the young misses too.
In the young set fashions, duster coats are slim, even when poised over full-skirted dresses. Rayon linen or ribbed cottons are choice fabrics for the dusters. Side-all caftan coats are adapted for the young fry from leading Paris designers.
ACCESSORY ACHIEVEMENTS: Jewelry is the spice of fashion with the young misses (and Mrs.) this year thanks to color! Hues are hot, like bright mimosa or red-or cool-as in beige, pastels and citrus colors.
Even crystal takes on a colorful look with a rainbow of gay flecks, or swirls of color, imbedded in the crystal. Tone-on-tone effects make a striking appearance in satin finished beads.
Ever-popular white jewelry goes big, and bold when teamed with gold, rhinestones and color! Stone in new styles. Geometric shapes are also very popular especially in ceramic jewelry.

BIRTHS

Mr. and Mrs. R. E. Watlov, of Minneapolis, Minn., announce the birth of a daughter, Joanne, weighing 7 lbs. and 13 oz., Jan. 19. She is the former Gladys Pippin of Sanford.

CHAPTER FIVE
AS LORA went down the hill she saw the library door closing just ahead of her and she pulled it open and walked in. Here, too, the students had been drawn and peering around corners and windows to see if any resemblance to the girl who had been seen in the woods was to be seen.

Dons, Illinois Still Holding Top Spots In Associated Poll

By RUGG FULLETON JR.
The Associated Press
With the college basketball season nearing the tournament stage, the leading teams won't hold still long enough to be counted by the pollsters—all except San Francisco and Illinois, that is.

The unbeaten San Francisco Dons, on top of the rankings every week this season, held their place unchallenged today in the 12th weekly Associated Press poll.

Of 115 writers and broadcasters casting ballots, 66 put the Dons in first place; 22 voted them second and 11 third. One independent thinker named San Francisco for 10th place, and two omitted the Dons entirely.

On the usual scoring basis of 10 points for each first-place vote, 9 for second, etc., the Dons piled up 1,018 of a possible 1,350 points. Illinois, drawing only five first-place votes but scoring heavily in the 2-3-4 positions, received 746 points.

Most of the others who had been near the top were bumped off last week. Louisville skidded from third place to sixth after dropping a decision to Eastern Kentucky; Vanderbilt went from fifth to seventh following a loss to Kentucky; and Kentucky and Temple dropped clear out of the first 10.

Alabama, which held Kentucky Wildcats 101-77 to hold away as the only team unbeaten in Southeastern Conference competition, moved up from seventh to fourth; North Carolina State, heading into the Atlantic Coast Conference tournament with a 21-3 season record, advanced from sixth to fifth, and North Carolina went from ninth to eighth.

The leaders, with first-place votes in parentheses:
1. San Francisco (66) 1,018
2. Illinois (5) 746
3. Dayton (6) 684
4. Alabama (18) 658
5. N.C. State (1) 582
6. Louisville (7) 580
7. Vanderbilt (3) 506
8. North Carolina (17) 477
9. Southern Methodist (2) 267
10. Iowa (3) 235

The second 10:
11. Duke 160
12. Kentucky 133
13. UCLA (1) 126
14. Temple 66
15. Holy Cross 57
16. Oklahoma City 54
17. Kansas State 45
18. Houston 36
19. St. Louis 36
20. Wake Forest 25

Moore Knocks Out Dunlap In First
SAN DIEGO (AP)—Archie Moore, light heavyweight boxing champion, threw only about 10 punches before he knocked out Bob Dunlap, Oakland, Calif., heavyweight, in the first round of their scheduled 10-rounder last night.

Moore weighed 196, Dunlap 200. Dunlap, trying to stay away from Moore, was caught with a left in the midsection and a hard right cross to the jaw. He went down face forward and was counted out in 1:58 of the non-tit fight.

Congress Belies Moscow's Peace Offensive

WILLIAM L. SVAN
 Moscow News Agency
 The Soviet Communist party's Congress believes Moscow's peace offensive is a bluff. The congress, which opened today, is expected to reject the peace offensive which the Soviet government has launched in the interim of nations.

However, if this carefully considered Communist program is to achieve its aims, the Soviet Union must be treated warily. It must avoid a world war for at least 20 years to come.

The Congress appears to have been one of the most important since the death of V. I. Lenin, which brought about the growth of industrial might. It also laid down some starting Soviet weaknesses.

It brought peace for peace. It exposed Communist hopes that a world of peace would simply be a world dominated by the Communist leadership for all time.

It received an outline of how world communism looks toward the total economic collapse of capitalist nations, headed by the United States.

The Communist leadership by its own admission faces monumental problems — all the way from supplying sufficient food, manufacturing consumer goods and housing for the population, to the need for economic planning. It must, in the words of Khrushchev, "safeguard the motherland and the entire commonwealth of Socialist countries."

It is a matter of self-protection for the U.S.S.R. to instruct its Communist parties to avoid war, as Moscow will not survive if it is destroyed.

Top Russian representatives attended the Congress. Those were the instructions they got: Each leader must return home prepared to adapt his party's tactics to the necessities of his nation.

Communists in non-Red countries must woo all sections of society with the lure of an antiwar movement. They will make concessions in the name of "unity" of the working class and the political left. Individual responsibility, without direct interference from Moscow, will be extended to local leaders so long as they toe the general line.

Party leaders in "colonial and dependent areas" and Moscow includes Latin America in this category have the promise of Soviet help in the form of trade, economic and technical aid to advance the cause of isolating the United States.

Most important, virtually every important speaker told the Communists never to forget that their goal is revolution.

This revolution — as distinct from evolution — may be violent in some countries. In others it may be accomplished through gradual seizure or parliamentary power and working class movements. Lenin was referred to frequently in these statements, and the Lenin precept is that parliaments may be used only with the objective of destroying them. Working class movements may be used to mold them to the Communist program.

Thus the fight between communism and the free world will continue to be relentless. But the Communists must keep in mind that the time is not ripe for actions which might provoke war. The time will not come, by Soviet reckoning, until the U.S.S.R. can "overtake and outstrip" the United States in economic and industrial potential.

The Kremlin at the moment

bases its entire hopes, apparently, on the notion of the final economic collapse of capitalism. It seems resigned to waiting.

Radio-TV Highlights

NEW YORK (U.S.A.) — As in no previous election year, television and radio are going all out to achieve a complete and varied coverage of political news.

Next week, for example, a special 12-man roving radio and television reporting team swings into New England for CBS. Its target is coverage of the New Hampshire primaries for both TV and radio.

This roving task force, first of its size and scope in the industry, was conceived by John F. Day, director of CBS News, who says, "It will take a team of this size and caliber to do justice to the 1957 political story."

Permanent members of the Campaign Cavalcade include an assignment chief, a reporter, two film cameramen, a lighting technician, a film sound engineer, a radio engineer to record on-the-scene oratory and interviews, a business manager and two general assistants. On a rotating basis two CBS news correspondents will accompany the unit at all times.

Using specially equipped station wagons and switching to airplane when timing requires it, the unit will supply both CBS television and radio programs with both spot and background news coverage.

After the New Hampshire primaries the task force will fly to Minnesota for the primaries there. Wisconsin will follow. Later the unit plans a turn through the South, sampling the political atmosphere in Tennessee, Virginia and the Carolinas.

Pink-Eye And Pilfered Profits

Some disease kill from animals outright; others — like pink-eye in cattle — are more insidious than deadly.

For though pink-eye rarely kills, it is a continuous drain on cattle profits. When the disease strikes, cattlemen are liable to heavy losses from poor condition of afflicted animals and falling off in body weight.

In dairy cows, pink-eye often cuts milk flow in half.

Scientists believe that this eye inflammation, called infectious keratitis, is caused by a mixture of germs. It often is spread by flies, gnats, dust and pollen. The disease is widespread among range and feed-lot cattle throughout the U.S. and other parts of North America, and has also been reported in India and Africa.

At the onset of infection, the eye becomes bloodshot, eyelids puff up, and in severe cases, a heavy outflow of pus-filled tears keeps the animal's face soiled and moist. Left unchecked, the infection clouds the eye, dimming sight. In advanced stages, ulcers may form and lead to permanent eye damage or blindness.

Pink-eye flares up most often during warm-weather months. An infected animal quickly spreads the disease, and half the herd may be affected. Cattle of all ages are hit by pink-eye although the disease is most severe and prevalent among those under two years.

Fortunately, in recent years veterinary researchers have discovered that antibiotics are highly effective in treating pink-eye in cattle. The broad-range antibiotic Terramycin rapidly clears up the infection, gets the animal back on normal feeding routine, and thus prevents loss of poundage.

In addition to sapping cattlemen's profits, diseases like pink-eye have a more sinister forboding. Agricultural economists point out that the U.S. will have to produce enough meat for an expected population of 225 million 25 years from now. Every pound lost through disease is a setback to this goal.

Thus modern veterinary scientists, fighting livestock diseases with potent antibiotics like Terramycin, are helping to meet the challenge of greater meat productivity for the years ahead.

"When our unit covers a candidate," said Day, "it will not only find out what he said, but why he said it, whether he meant it, and what the effect is on the voters. In short, we're going to go deep into this campaign so a ramble and come up with stories that are accurate, exciting and meaningful."

Ford Wins at Stock Car Racing "Olympics"

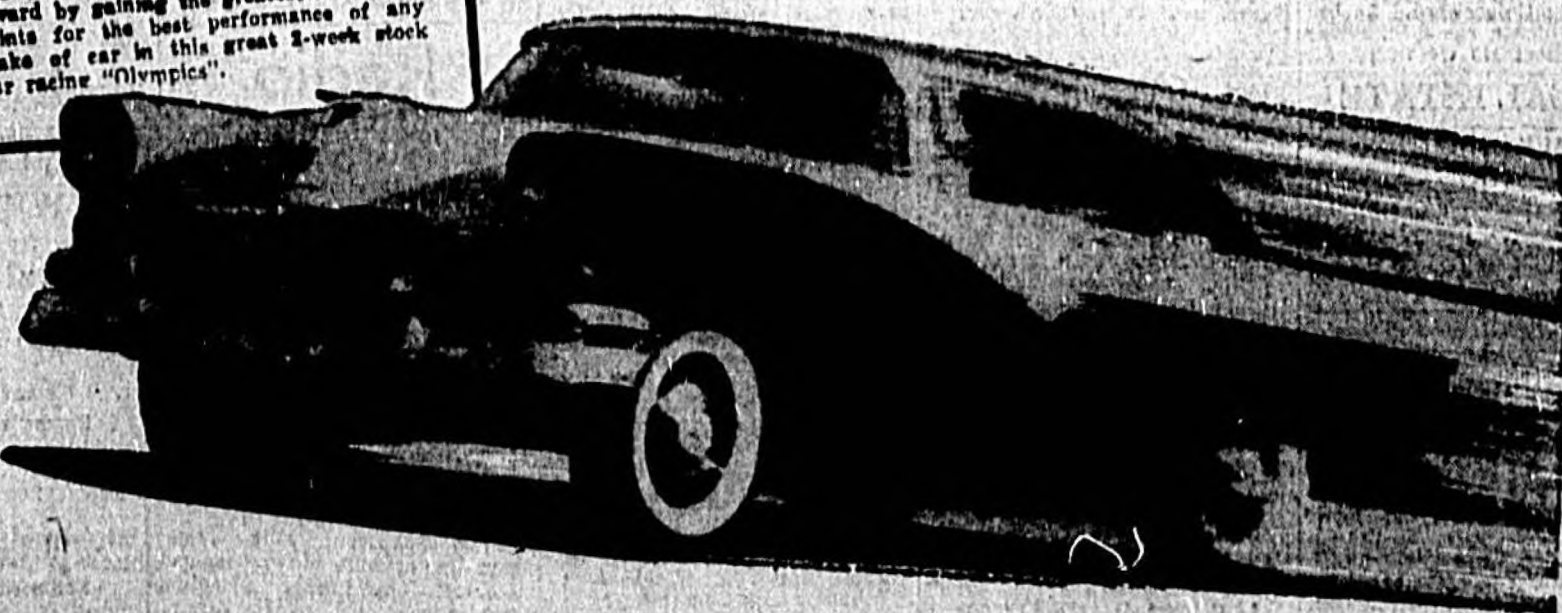

HERE'S FORD'S RECORD AT NASCARS DAYTONA BEACH NATIONAL SPEED WEEK

FIRST
 In Sports Car Acceleration
 A Ford Thunderbird set a new record for American production sports cars, sprinting a measured mile from a standing start in only 40.5 seconds—reaching a top speed of nearly 160 mph.

FIRST
 In Top Speed — Class 4
 A Ford "Bird" took top honors in the flying mile for class 4 American production passenger cars.

FIRST
 In 160-Mile Convertible Race
 Ford V-8 took 1st and 2nd place in the National convertible championship race. Ford not only won over all cars entered, but it also topped the all-time record for the Grand National Championship Race.

FIRST
 In Over-All Performance
 Ford won the Pure Oil Manufacturer's Award by gaining the greatest number of points for the best performance of any make of car in this great 2-week stock car race "Olympics".

The Ford V-8 again showed its tailight to all competitors in the "Olympics" of stock car racing at Daytona Beach, Florida.

In blazing across the finish line Ford demonstrated once more the dazzling performance that keeps it the largest-selling V-8 in the world. No other car in the field could match Ford for getaway "go" . . . for straightaway acceleration . . . for all-around roadability. To see exactly how the other cars trailed behind Ford, see the chart at the top of this page.

One of the secrets of Ford's performance is the tremendous torque (wheel turning power) developed by Ford engines. For example, Ford's new

225-h.p. Thunderbird Special V-8 engine develops more torque than any other engine in the low-price field. This means quicker response, smoother running in the kind of driving you do. Just a gentle nudge of Ford's accelerator and *whoosh!* You pass in instants when instants count!

Ford now offers this mighty 225-h.p. engine with any Ford Fairlane or Station Wagon model with Fordomatic. What's more, these engines are coming off the assembly lines right now! So why wait? Come in today for a Test Drive. Find out for yourself about Ford's exciting performance. Find out why Ford is the V-8 with the world's biggest following!

Southern Bell Co. Experiences Big Expansion In '55

The Southern Bell Telephone Company, which serves Sanford and 1,000 other telephone exchanges in Florida and eight other southern states, experienced one of its largest years of expansion during 1955, according to the company's Annual Report received here today.

It built the largest amount of telephone facilities for the South of any year in history. The report, distributed by Gordon Rothermel of Southern Bell, points out that Florida had another record breaking year last year with 181,800 new telephones installed for a net gain of 79,000 stations. This brings the total Southern Bell telephones in the state to 777,400.

This is 500,000 more than the company total in use in Florida ten years ago, or an expansion of 200%.

The report devotes a special section to progress made in Florida, where the company operates 73 exchanges with 10,467 employees. The theme of the report, made by President Fred J. Turner for the Board of Directors, is "Progress in 1955."

During those years Southern Bell has undertaken a tremendous expansion program to meet the demand for telephone service. At the end of 1955, it operated 4,900,000 telephones, with almost 86 percent of them dial-operated, compared with only 1,863,204, of which 60 percent were dial, in 1945.

Florida is particularly out in front in this respect with 26% of Southern Bell's service already changed to dial.

The report brings out the tremendous effect exerted on the economy of the south in the past ten years by the more than \$1.5 billion of new telephone facilities built by Southern Bell, the more than \$1.5 billion paid in wages, the \$1.5 billion paid in taxes and other contributions made by the company in the region.

Frederick To Enter Race For Office Of Representative

Gordon Frederick, Sanford Attorney, announced today his candidacy for the nomination to the Office of State Representative, Group 2, in Seminole County, subject to the Democratic Primary of May 8.

Frederick says that he is also a candidate for the election for the unexpired term of this office, this vacancy having been brought about by the resignation of former Representative Volle A. Williams Jr.

"The office of State Representative is one which affects all of the people," Frederick stated, "and Seminole County's representatives are there to see that our county is properly represented in all matters affecting the State, and particularly in matters affecting our County."

He said, "As one who has been born or reared in Seminole County, I feel that I am familiar with our problems and our needs. If elected I would direct my efforts toward any measure which would assure the continued growth and prosperity of our County, and the betterment of our State as a whole."

Gordon Frederick was born in Sanford Sept. 19, 1924 and attended the public schools here. He served in the U. S. Navy 1943-1946. Entering Stetson University, he received his Law Degree there in 1950 and has practiced law in Sanford from 1951 to date.

Frederick is a member of the American Legion, Kiwanis Club, the 40 & 8, BPO Elks, Junior Chamber of Commerce, and Veterans of Foreign Wars. He attends the First Baptist Church of Sanford and is a former employee of the Atlantic Coast Line Railroad.

He is married to a Sanford girl, the former Miss Virginia Welch and has two sons, Ronald, age seven years, and Richard, age three years.

Girls, This Is Your Year

NEW YORK (AP)—This is the year when a young lady can "bespeak a man she likes" with a tradition at least six centuries old to back her up.

And apparently quite a few very eligible bachelors are just waiting for some young lady to take advantage of the tradition.

Retired baseball star Joe DiMaggio thinks it's "quite harmless" for a girl to propose to a man, and singer Johnny Ray says he would be "right flattered."

Screen idol Tab Hunter specifies that the girl would have to be the cuddly type, but if she were: "I could only say 'Yes!'"

Comedian George Jessel says he said "Yes" to one leap year proposal years ago and is wistfully waiting for another this year. "If I were only younger," he sighs.

But judging from the statistics of leap years past, there will be no leap in the number of marriages this year.

A theory to explain this is offered by Prof. Nelson G. Hannawalt, who teaches psychology at Douglass College for Women in New Brunswick, N. J.

Plans Are Mapped For Educational, Fund Raising Drive

Comprehensive county-wide plans were mapped at a recent meeting of the Special Gifts and Special Events Committee of the Seminole County Unit, American Cancer Society.

The meeting, held at Jim Spencer's, was to lay plans for the educational and fund raising Crusade to be held April 1 to May 1.

Harold Kastner presided over the meeting when 17 Divisions were organized for the month-long event during April.

Attending the meeting and participating in the planning were: Dr. Charles L. Parks Jr., Jack Hall, W. C. Hutchison, Ed Hunt, Wilson Horns, Guy Allen, E. J. Moughton Jr., Frank Mahane, Willis Peacock, "Sandy" Anderson, Carl Williams, Tommy Thomas, R. A. Cobb, Jim Hunt, Miss Dorothy Powell, Sanford; C. R. Clontz, Rex Clontz, George Means, Oviedo and Blavia; James Stewell, Geneva; and Wilson Alexander, Fern Park.

For one day only, regular \$2.50 marriage licenses for \$2.40. That's Jones' offer.

Early purchasers also will get a double issue of sales promotion stamps offered by many San Angelo stores.

"Got to do something," Jones said. "Here it is leap year and we're way behind."

Merchants Asked To Close For Rites

Letters are being mailed today to all of the merchants in Sanford asking them to close from 3:30 to 5:00 during the afternoon of Friday, March 9, said R. J. Bauman, president of the Sanford Merchants Association.

The closing of the Sanford stores during that period will allow the merchants and employees throughout Sanford to attend the ribbon-cutting ceremonies that will officially dedicate and open the French Ave. thoroughway.

Sanford civic leaders have long known the importance of the improved French Ave. which provides six lanes of traffic on one of Central Florida's most heavily traveled highways.

An enormous crowd is expected to attend the dedication ceremonies which will be held immediately in front of Seminole High School where ample parking facilities are available and an overall view of the French Avenue project can be seen.

Already planned are the closing of the Sanford City Hall during the afternoon period and the Seminole County Court House so that both City and County employees can attend the important event.

A large contingent of State leaders and road-minded citizens from every part of the State is expected to be here for the ribbon-cutting ceremony and the banquet.

James A. Wright, chairman of the Seminole County Chamber of Commerce, French Avenue Dedication committee, said yesterday that plans are nearly completed for both the afternoon and evening event.

Concert Association Audience Thrilled By Cossack Chorus

In a three part program last night, the Don Cossack Chorus and Dancers, conducted by the famed Serge Jaroff, thrilled a Seminole Mutual Concert Association audience.

Round after round of applause greeted the 21 chorists, two dancers, and their conductor as they appeared on the stage under the masterful direction of Jaroff. Each of the 14 songs and two dances was equally well received.

Pulsing voices brought vivid meaning to singing violins, strumming guitars and the vibrating mandolins with every range of tone, from the lowest basses to the highest falsetto notes portraying the typical singing of folk songs, excerpts, psalms or plaintive melodies.

Small, in comparison with his chorus members, the diminutive Serge Jaroff had complete control of each voice as he apparently guided individual notes through their songs with the lift of a fingertip, an open palm, or a wave of the hand or the head.

With perfect, seemingly unbelievable harmony, every selection was sung in the native tongue of the Don Cossacks.

Even the clomping of horse hoofs across native meadowlands was most effectively accomplished by the combined voices of the 21 chorists. Before its audience, the chorus brilliantly interpreted the supplications of a prayer, the liveliness of folk songs, or the colorful atmosphere of Russian music.

Heard on last night's program by the Don Cossack Chorus were: The Liturgy by A. Kastalsky. In The Church by Tchaikovsky, First Psalm of David, O God, Save Thy People by Tchaikovsky. Excerpts from the Opera "A Life For The Tsar" by Glinka, Parting, a folk song, Meadowland, Down the Petrograd Road, Jaroff's arrangement of two songs "Green Grass" and "Kalinka", Cossacks in Captivity by N. Botchko and V. Sazepin.

Decision Explained Tonight

WASHINGTON (AP)—President Eisenhower announced today he is available for a second term.

The President's dramatic announcement came at a tense, record capacity news conference. He said he will go on nationwide television and radio tonight, probably sometime between 9:30 and 10:30 p.m. EST to explain his decision to the American people.

"My answer will be positive—affirmative," Eisenhower said in giving reporters permission to quote him directly.

The President declined to say at this time whether he favors Vice President Nixon as his running mate again.

However, he again had warm praise for Nixon and called him a dedicated public servant.

Eisenhower's second term announcement had been expected at today's news conference, on the basis of his own earlier remarks, but up to the moment he walked into the conference room there was no certainty it would come.

For the first eight minutes of the session, the President, calm and collected, tantalized the newsmen by talking first about various other matters—such as the Red Cross drive for funds, the pending farm bill, and a water resources measure which is before Congress.

Ex-Deputy O. Owens To Run For Sheriff In May 8 Primary

O. G. Owens, former Chief Deputy Sheriff under J. L. Hobby for the past three years, announced his candidacy today for the office of Sheriff of Seminole County, subject to the May 8 Democratic Primary.

Owens said this morning, "After praying about this matter and talking with J. Luther Hobby, I was told that he would not seek re-election but would support me 100 per cent."

"After being contacted by many friends, all urging me to become a candidate for Sheriff, I was prompted to seek this office," said Owens.

Owens was born 46 years ago on a farm in northern Mississippi and moved to Florida when he was five years old.

He is a graduate of Ocala High School and has completed two years of commercial studies in business and office management.

Owens said, "I am now taking a course in law through the LaSalle Extension University."

Prior to the last three years as Chief Deputy Sheriff, Owens was a conductor for the Atlantic Coast Line Railroad for 12 years where he still retains his seniority rights.

THE CARNEGIE MEDAL PRESENTED TO John W. Courter Jr., of Oviedo, for heroism on April 9, 1954. The bronze medal is inscribed with "Greater love hath no man than this—that a man may lay down his life for his friend." (Photo by Associated Press)

On the financial side, the report said company operations resulted in less than adequate profits. Because such a tremendous amount of construction and other activity has had to be undertaken during a period of high costs, the company's cost of rendering telephone service continues to rise, the report points out. "The rates charged for service have not yet been raised enough in rate for the
