Tonight the victory hungry Celery Feds face a critical test when they meet a strong team of Leesburg Wildcats, who are smarting for revenge from a recent defeat from Eustis. It is hoped according to Coach McLucas, that Bill Fleming will be able to get back in the game if his ankle is better.

The Seminole High School Band, aided by Prof. Earl Kipp, may be added, is due a lot of credit for fine inspiration at the games, as well as the cheer leaders, Ann Stine, Valerie Wells, Neil Powell, Keny Echoes and Lucy Hodges.

## Chaotic Fighting Rages Across Nazi Russian Lifelines

Axis Casualties Total 115,600 As Reds Attack Rear Of Retreating Invaders

On the flaming Stalingrad front, chaotic fighting raged across the lifelines of Hitler's imperiled siege armies today and the fast wheeling Red armies were driving back from the west to strike at the invaders' rear.

The Soviets said the eight-day offensive had rolled up a tally of 115,600 Axis troops killed, wounded, captured and possibly 150,000 wounded.

A Soviet Russian Army sweeping across the Don River elbow west of Stalingrad and attacking frontally inside that ruined city occupied more railway points yesterday and knocked out an additional 16,000 Germans, the Soviets announced.

Two communiques indicated that the Soviets already had cut off the retreat of big segments of the 300,000 Germans caught between the Don and Volga Rivers in an arc of destruction that already has cost the Germans a total of 114,000 dead and captured.

Attempting to extricate their troops from the blow, German masters are offering desperate resistance in fortified positions, the regular midnight communiques said of the battle northwest of Stalingrad.

This was the area where the Red Army has driven across the Don River on its northern side, then apparently turned eastward to cut out German troops holding positions here on the east-central part of the Don directly west of Stalingrad.

A special communiqué selling this retreat inside the Don Bend said Lyapachov, 40 miles behind the German forces bogged down at Stalingrad, had fallen to the advancing Russians.

The seizure of Groznyak, only 20 miles below Lyapachov, suggested that a German escape corridor between the two main rail lines leading westward out of Stalingrad was being narrowed rapidly by the Russians who already held other points on both railroads.

In Stalingrad the Russians said their troops under Maj. Gen. Alexei Rodzin, 16-year-old "hero of Stalingrad" because of his timely arrival and hard fighting during the early stages of the siege, also was gaining ground.

Russians troops holding the Nalchik-Tsipsk corridor of the Caucasus were holding firmly at the greatest offensive at Stalingrad rolled ahead.

The special Soviet communiqué said 12,000 more German prisoners had been taken, and the regular midnight bulletins listed more than 4,000 Germans killed during yesterday's operations.

In the Don River Bend area, the communiqué said, the Red Army had taken six more villages to the eastern banks of the River Don.

This clean-up inside the Don indicated that part of the Soviet forces that crossed the river on the north side of the loop had become United States to what might be a new low for the Thanksgiving festival.

At 8:00 P. M. (EST) only 18,000 German troops had been accounted for in President Roosevelt's cabinet.

Under the plan the functions of the War Manpower Commission will be transferred to the labor department and Harold Ickes will become Secretary of Labor instead of Interior Secretary.

Fourth Line Of Hymn For Marines Changed

WASHINGTON, Nov. 27.—From the far Southwest, the American Marine Corps face a change in their musical habits.

They have to learn a new fourth line to the first verse of their famous hymn.

Lieut. Gen. Thomas Holcomb has formally ordered revision of the song. Marine headquarters said Thursday, in giving recognition to those Marines who fight the air as well as those who fight on land and sea.

Here is the way it goes now: "From the halls of Montezuma To the shores of Tripoli; We fight our country's battles In the air, on land and sea; First to fight for right and freedom."

And to keep our honor clean, We'll always be glad to claim the title Of United States Marine." Previously the fourth line said "On the land and on the sea."

Curtailment Of Gas Keeps Down Accidents

By The Associated Press Gasoline rationing and holiday work in war production plants yesterday held the fatal traffic accidents throughout the consciousness United States to what might be a new low for the Thanksgiving festival.

On Nov. 27, (EST) only 18,000 German troops had been accounted for in President Roosevelt's cabinet.

Under the plan the functions of the War Manpower Commission will be transferred to the labor department and Harold Ickes will become Secretary of Labor instead of Interior Secretary.

122,085 Pounds Of Scrap Remain On County Campuses

With over 122,085 pounds of scrap, metal still remaining in school yards in the County, the school officials are asked, and according to Capt. T. W. Lawton uncollected due to shortage of truck drivers by the WPA, the certified totals of scrap collected during the whole campaign cannot at present be given.

"We may be however, hopes that we may be able to induce the American Legion to pick up this remaining metal and thus be able to get our County total of weight," Mr. Lawton added.

Practically all the scrap salvaged by the Sanford pupils has now been collected, Mr. Lawton said, adding that at the Oviedo, Geneva, Lake Monroe and Wilson schools, the total amount of 12,000 pounds pounds remains, while various colored schools throughout the County have an estimated 50,000 pounds of metal awaiting collection.

Growers Will Meet To Discuss Problems

Reports regarding the recent convention of the Florida Farm Bureau at Miami will be given when the Seminole County unit of this bureau meets at the Court House at 8:00 o'clock Tuesday evening. C. R. Dawson, county agent, said today. Lee Butler, president of the County Bureau, will act as chairman.

"South Pacific tall dates and Langosteens" will be the topic of the meeting.

Collins secretary, who added that the committee in charge of the meeting was A. C. Maden, W. P. Fields and himself.

All members of the Lodge are urged to present, he said, and invitations to attend have been sent to members of the Orlando, Lakeland, Winter Garden and Jacksonville lodges of Woodmen.

F. D. R. Asks Nation Rationing Start Dec. 1

WASHINGTON, Nov. 27. (AP)—President Franklin D. Roosevelt Thursday directed that Nation-wide gasoline rationing start Dec. 1, as he scheduled that the Nation's rubber needs were growing more critical and "Victory must not be delayed" through failure to support the Army and Navy.

Mrs. G. F. Moore, mother of R. C. Moore, died at her home in Wilkesboro, Penn., Wednesday, and her son left Wednesday afternoon to attend the funeral services. Mrs. Moore has visited often her son and daughter-in-law, who have lived in Sanford.

Fall Retail Sales Reach Record Peak

NEW YORK, Nov. 27. (AP)—Retail sales throughout the country this week went ahead to a new record peak for Fall selling despite early and unusually mild weather, in many sections a Dus & Dunham's report said today.

The dollar volume of trade exceeded last year's record level by a substantial margin with soft goods sales showing the decline in durable goods line.

Circuit Court will review Monday morning at 10:00 a.m. with Justice M. E. Smith presiding, O. P. Hornman, County Clerk, announced today. The civil cause docket for trial are three cases against the Atlantic Coast Line Railroad, two cases by Jules Garey, and one by Belgian Am-

### Miss Jane Ellison Weds S. Richardson, Jr.

Quite simply accented the bridegroom in light blue suit and Mrs. J. M. Ellison, to Sidney Richardson, Jr., son of Mr. and Mrs. S. M. Richardson of this city, at the First Baptist Church on Wednesday afternoon at 3:30 o'clock. The Rev. W. P. Brooks officiated in the presence of only the immediate family and close friends of the couple.

The bride was dressed in a two piece powder blue wool dress with a matching hat. Her other accessories were of Navy blue. Her shoulder corsage was of sweetheart roses and lilies of the valley.

Mrs. Richardson is a native of Tennessee having moved to Florida several years ago. She attended the Orlando High School and was graduated in the class of 1942. Since that time she has been employed at Groff's Hardware Store in Orlando.

Mr. Richardson was born in Sanford, attended public schools here and was graduated from Seminole High School in 1940. He joined the Hospital Corps of the United States Army last year and is now a hospital apprentice first class.

Following the ceremony the couple left for a brief wedding trip after which Mr. Richardson left to resume his studies at the U. S. Naval Hospital in Charleston and will be joined later by Mrs. Richardson.

Cattlemen Told How To Get Rid Of Grubs On Cows

CAISSEVILLE, Nov. 27.—(Special)—With the Army needing huge quantities of leather for its armed forces, for civilians, for replacing rubber belts on engines, and for hundreds of other uses, the State Experiment Station is urging Florida cattlemen to take control measures against the grubs that attack and damage their herds.

Dr. A. L. Shealy, head of the Experiment Station animal industry division, advised the use of raw hide leather to make thousands of pairs of shoes to ruin annually by these pests in Florida herds.

He explained that the grubs, commonly known as "wolves" or warwicks, are the larvae of the heel fly, which gets on the heads of cattle and lays its eggs.

The grubs that hatch from these eggs burrow their way up through the animal's body, cut a hole through the skin, and rest several weeks in the back.

The grubs may be removed from the animal's back by applying pressure with the thumb and forefingers on each side of the area where the pest is located, but this is hardly practical when large numbers of cattle are to be treated.

It may be done without much difficulty by farmers who have only a few milk cows or in dairy herds.

Dr. Shealy said the grubs are easily killed by applying pressure with the thumb and forefingers on each side of the area where the pest is located, but this is hardly practical when large numbers of cattle are to be treated.

## Allied Combined Forces Close In On Tunis, Bizerte

### Fighting In Africa Gains In Intensity; Raging East Of Axis Strongholds

**ASSOCIATED PRESS** Aerial supported British and American forces stormed to within less than 12 miles of Tunis today all but isolating that city and Bizerte, chief Axis stronghold in Tunisia. Fighting, increasing in intensity and raging east of Djededa, 12 miles northwest of Tunis, indicated the Allies are driving a wedge between Bizerte and Tunis.

Air attacks continued at Tunis, Bizerte, Tripoli and Sicily and British troops in North Africa have been reinforced by armored units.

Allied troops have thrust a wedge between the Axis positions in Tunisia by capturing the town of Djededa, only 12 miles from Tunis, which controls the road and rail communications between the capital and the Bizerte naval base. Allied headquarters announced last night.

The Swiss radio, heard by the United Press in New York, quoted the Morocco radio as saying that the British first army has driven "within artillery range" of Tunis.

The first official disclosure of the pace of the drive on Tunis also revealed that other Allied forces aiming at Bizerte were making "astounding" progress in the region of Mateur, 20 miles to the south.

The German-controlled Paris radio admitted that fighting was taking place in the Bizerte region and said "it seems certain that the British are preparing for a general offensive by deploying tanks in that sector."

Following futile counter-attacks, the Axis forces have fallen back within the semi-circular defense line around Tunis—Sfax, the Morocco radio said. Allied paratroopers attacked anti-aircraft positions near Mateur and other Allied forces stayed at the Axis defenders of Tunis, the Morocco station said.

Enemy forces south of Tunis were reported retreating and destroying their communications as they retired.

American air force headquarters in North Africa announced the Allies air forces destroyed 250 Axis planes in air combat and on the ground during the first 20 days on the North African campaign.

The Morocco radio reported tonight that fresh formations of American troops were arriving daily in Casablanca, Morocco, on the Atlantic coast.

The Germans are now thoroughly on the defensive in Tunisia, the Morocco radio said, and have started blowing up bridges in the path of the Allied advance.

Smiling Nazi Prisoner

### 10,000 Nazis Die Daily On Russian Front

#### Shock Troops Wrest Another Don River Stronghold From Retreating Enemy

**ASSOCIATED PRESS** Russian shock troops today wrested another Don River stronghold from the Germans on the Stalingrad front and were pressing westward in a blizzard in parallel offensives west of Moscow. The Germans were reported to be dying at the rate of 10,000 daily.

New German lines on the east bank of the Don were broken as 1,000 more Nazis died in siege of Stalingrad. Only in the Caucasus did the Germans' aggression and Moscow's reprisals the Reds smashed an infantry attack southeast of Nalchik.

It was announced earlier today that Russian armies had killed nearly 10,000 Germans in the new Soviet offensive west of Moscow. Only in the Caucasus did the Germans' aggression and Moscow's reprisals the Reds smashed an infantry attack southeast of Nalchik.

It was announced earlier today that Russian armies had killed nearly 10,000 Germans in the new Soviet offensive west of Moscow. Only in the Caucasus did the Germans' aggression and Moscow's reprisals the Reds smashed an infantry attack southeast of Nalchik.

A special communiqué said the assault had been made in the ten days between November 19 and November 29. The Soviet forces 60,000 German prisoners.

The Nazi held all fronts the Soviet newspaper Izvestia reported, totalled 100,000 in the past ten days—a rate of 10,000 a day.

The advancing Red Army continued to sweep over populated places and towns both before Stalingrad and west of Moscow, the communiqué said, and great masses of material were reported captured.

The regular Soviet communiqué issued shortly after the special announcement, said the Russians were continuing their two offensives and regaining more lost ground.

On Tuesday, Nov. 29, the Germans were suffering "immense losses" southwest of Stalingrad while all enemy attacks within the city, in the workers' settlement of the northern part, were thrown back and "hundreds of enemy dead were left on the battlefield."

The special war report announced the capture of Olsinovka, which is 70 miles southeast of Kostelikovsk, a city on the Stalingrad-Krasnodar railway. This placed the lower fringe of the Donets basin well down on the northern slope of the famous Ergenek Hills in the Upper Caucasus.

The youth was described as a student at Roxbury Memorial High School who worked Friday and Saturday nights at the Coronado Inn, Sunday, for the distinguished service during the Battle of Midway.

On presenting the citation to Commander Hughes, Admiral Cook gave him his heartiest congratulations.

Commanding officer of the San Francisco Air Station since it was commissioned last November, Commander Hughes only recently returned from the combat zone in the Pacific fighting areas. He participated in the Marshall Islands raids and other operations previous to his appointment at Midway.

Commander Hughes has had a distinguished career in the Navy, graduating from the Naval Academy at Annapolis where he had achieved fame as an athlete, he saw subsequent service on battleships, cruisers and destroyers. He won his "wings" at Pensacola in 1919 and has been prominent in Naval aviation ever since.

In addition to his citation for gallantry at Midway, he has been awarded the American Defense Service Medal, Fleet Clasp.

**Red Cross Makes Appeal For More Volunteer Workers**

Workers are needed immediately at Red Cross Headquarters to help complete the County quota of 115 men which must be completed by Dec. 10 for use by the Army, Mrs. C. R. Dawson, local chairman of the Volunteer Special Services of the American Red Cross, stated today.

This work, Mrs. Dawson said, will be a patriotic program, when the Army has requested a kit bag for every enlisted man going him at the port of embarkation. Kits are also requested for marines, but not for sailors who will keep supplies at a minimum.

Kit bags, 11 by 14 inches in size, are designed to hold the following contents: denouments of clothing, personal effects, soap, a deck of playing cards, pack of cigarettes or small pack of tobacco and cigarette papers, shoe polish cloth, small pencil with cap, if available, packages of chewing gum, pair of socks, lace, 40 inch water proof match box, if available; package of double edge razor blades; small book, pocket sized, detective, humorists etc., and sewing case.
