

CENTRAL FLORIDA WATER TRAFFIC LEAGUE TO HOLD HEARING HERE JULY 27

Plans Being Made For Most Comprehensive Report to Lemen BIG MEETING HERE

THAT WILL BE ATTENDED BY ALL THE BUSINESS MEN, GROWERS AND SHIPPERS

The Central Florida Water Traffic League is now preparing additional data to be submitted to Major Lemen at the meeting, which the latter has called for June 27th at Sanford. While those in charge of this work will not disclose their plans, they have advised that this date, when completed, will be the most concise that has ever been submitted in support of the St. Johns-Indian river project. They feel confident that it will be an irrefutable argument and that the government engineers, on the basis of the facts shown therein, can take no other course than to endorse this project.

Never before have the sections tributary to the St. Johns river realized the importance of the completion of this project means to them. In addition, the entire East Coast south of Titusville, is also cognizant of the great possibilities which an opening into the St. Johns river would give them. The interest aroused in these sections has also facilitated the compilation of statistics upon which will be predicated the plan made by the supporters of the St. Johns-Indian river route for government action.

The most influential citizens of these sections will be present at the meeting June 27th to give testimony showing the urgent necessity for the government engineers recommending this route, and this testimony will support the brief which will be submitted by the Central Florida Water Traffic League. At the conclusion of the hearing Major Lemen will then submit his recommendation to a board of six army engineers, who in turn will approve or disapprove, and their recommendation will be referred to the chief of the army board of engineers. The chief of this board in turn makes a recommendation to the Secretary of war, and from him it is transmitted to congress for whatever action they care to take in the matter.

It is obvious that before the nihersity of the St. Johns-Indian River canal can hope to see their efforts rewarded, it is necessary that all the sections in the territories tributary to the St. Johns river maintain an active and militant campaign, following it up to the halls of Congress. To insure the success of this campaign the Central Florida Water Traffic League is preparing plans along well thought out lines, which have proven uniformly successful in similar campaigns of this kind. Within the near future an active movement will be started to secure 5,000 members for the League at \$10.00 per member, to give it the necessary financial sinews to see this fight through to a finish.

Fighting valiantly for the same end in the Sanford Chamber of Commerce, its efforts are successfully being expended to secure the necessary financial and moral support of the commercial organizations of these sections, in assisting the representatives of the League in the compilation of statistics for the brief the latter is preparing. It is indeed gratifying to those who have watched the development of this proposition, to know that such capable men as ex-Congressman W. T. Bland, formerly of Missouri, and S. J. Sligh, of Orlando, are giving so liberally of their time and ability to the furtherance of this project. Ex-Congressman Bland, for several terms represented his state in congress, led the fight in that body to secure appropriations for the deepening of the Mississippi river. No one is better qualified than he to know the sequence of moves necessary to secure governmental appropriations for waterway improvements.

His handling of the situation at the hearing in Titusville was favorably commented upon and drove home the impression that those behind this movement are determined to win out. Letters from prominent merchants and growers of the interior and lower East Coast sections of the state

STATE POLICE GUARD JAIL OF MURDERER

GEO. STUART, ALLEGED SLAYER OF MISS MELLETT MAY BE MOBBED

(By The Associated Press)
LANSING, Mich., June 15.—State police today continued the guard the city jail where George Straub, the alleged confessed slayer of Miss Alice Mellett, being held in safety last night as several scores of Jackson men demanded the prisoner. Local officers on guard all streets in the vicinity to disperse crowds or prevent demonstrations that might lead to another attempt at violence.

SENATOR GLASS DENOUNCES BONUS BILL

NOT IN FAVOR OF YOUNG MEN TAKING VACATION TO BE PAID BY PARENTS

CHAPEL HILL, N. C., June 15.—United States Senator Carter Glass, delivering the annual commencement address at the University of North Carolina yesterday morning, denounced in emphatic terms the soldier bonus bill, and rendered high praise to Woodrow Wilson, whom he termed the "real author" of the federal reserve system.

The senator's address was heard by an audience that packed the University auditorium to capacity, and his tribute to the former president brought spontaneous and prolonged applause.

Governor Cameron Morrison made a short address following Senator Glass. It was a word of appreciation for the senator's address. "Whether you agree with his views or not," the governor said, "I know you will recognize in him a man, an American, a deeply sincere statesman."

Porary degrees were conferred yesterday morning by Dr. Archibald Henderson on the following: William Preston Byrum, William Robert Webb, David Franklin Houston, Cameron Morrison, Charles Edward Madry, and Edward Victor Zoellar.

Senator Glass in his address traced from its infancy the growth of the banking system of the nation, calling it the vital problem facing the young men and women about to leave the university. He termed the banking and currency system a problem of vital importance to every member of the graduating class, regardless of the professions they will pursue.

Senator Glass declared that the Wilson administration put an end to nation wide panics. "We made it so that no two or twenty banks may fail in New York and not affect business in North Carolina or any other state in the union. We have panics now in New York, but they never get beyond the walls of that great money center."

The senator, in explaining opposition to the bonus bill, said: "I am opposed to burdening the people with it, for the same economic reason that he would not surrender to the 'printing press' remedy for the currency problem. Many, he had asserted, had actually been in favor of turning to the printing press to relieve the country, a method that had been employed in Germany, Russia and other countries where money now is practically worthless." Although he had two sons in the war, and a sister in the Red Cross, Senator Glass said he was opposed to the sentiment appeal of the bonus. He was not in favor of the young men taking a vacation to be paid for by parents, themselves, and posterity. His words were applauded vigorously.

The speaker urged the graduating class to put character above everything else.

LASKER DEFENDS POSITION ON SHIPPING BOARD VESSELS, SELLING LIQUOR AS STATED

Will Continue Until the Supreme Court Renders a Decision

(By The Associated Press)
ST. LOUIS, June 15.—The Anheuser-Busch Brewing Company is willing to produce witnesses to support the charges that the United States Shipping Board is violating the prohibition law and the Volstead act in event congressional inquiry it was made known here today by representatives of the firm.

WASHINGTON, June 15.—The House Merchant Marine Committee adjourned today until tomorrow without action on the Bankhead amendment providing no steamship lines on which liquor is sold should obtain any part of the federal ship subsidy funds. Continuance of selling liquor aboard the American ships "justified charge that Uncle Sam is engaged in bootlegging" Representative Cooper, Republican, of Ohio, declared in a statement announcing he would support the amendment in the ship subsidy bill to stop it.

WASHINGTON, June 15.—Definite steps through legislation to stop the sale of liquor on American ships was started today through presentin by Bankhead, Democrat, Alabama, of amendment to merchant marine bill which would cut off government aid provided in measure from any ship carrying intoxicating liquors. Alabama representative offered amendment at meeting of house merchant marine committee of which he is a member. Considerable doubt expressed that amendment would be accepted as indications of the majority members of the committee would vote to report the bill as framed by the committee.

WASHINGTON, June 15.—Attorney General Daugherty will be asked for a new ruling on the question of the sale of liquor on shipping board vessels it was indicated today at the treasury.

WASHINGTON, June 15.—Sale of liquor on shipping board vessels at sea will be continued, Chairman Lasker reiterated last night, until a supreme court decision has been rendered holding such practice illegal under the prohibition laws, or until he "has been convinced of its illegality."

Mr. Lasker maintained throughout the day the position taken by him in his letter to Adolphus Busch, third vice-president of the Anheuser-Busch Brewery Company, St. Louis, despite indication that it would be made the subject of attack in congress and by the Anti-Saloon League and other dry organizations.

AMERICAN FEDERATION DISCUSSES SUPREME COURT DECISION URGES CONGRESSIONAL VETO

And Denial of the Power of Lower Federal Courts to Set Aside Law

(By The Associated Press)
CINCINNATI, June 15.—Officers of rail unions will not interfere to stop the strike of one million two hundred and twenty-five shop craft and maintenance of way workers, H. M. Jewell declared today in addressing the Federation of Labor convention here. Jewell is president of the railway employees department of the federation.

CINCINNATI, June 15.—Without opposition or debate the Federation of Labor convention today killed the resolution proposing radical change in the form of organized labor movement in the United States by the amalgamation of all unions into single organizations, each covering an industry.

CINCINNATI, June 15.—Organized labor indicated a determination at the American Federation of Labor convention here yesterday that it would start a drive for a constitutional amendment for a congressional veto of the supreme court decisions, and for the denial of the power of lower federal courts to set aside a federal law as unconstitutional. This

The delegates were informed, would overcome decisions which labor has regarded as inimical to its interests.

The only formal action, however, was unanimous adoption of a motion creating a special committee to frame a policy, which action was taken after the proposal for the amendment had been made by Senator LaFollette of Wisconsin. Other speakers, most of them leaders in the labor movement approved the program as practicable, while the delegates voiced approval with applause.

The suggestion of a drive for the amendment came in the midst of a program devoted to condemnation of child labor. The address of Senator LaFollette, centered attacks on the supreme court, which for a second time recently declared the federal child labor law unconstitutional. In authorizing appointment of the special committee, the delegates voted to vest in it authority to consider all decisions of the last few years which the federation has branded as inimical to organized labor.

Officials of the department of justice refused to comment on the situation, but in other quarters attention was called to an opinion on file there which was rendered by former Acting Attorney General Frierson in 1920. Mr. Frierson held that the national prohibition act was effective upon ships flying the American flag wherever they might be.

According to high department officials an opinion of an attorney general remains the official interpretation of law until it has been revoked by court decision or by a superseding opinion. Furthermore, they added, such opinion always stands unless request for a review comes from the same department or agency which originally requested the ruling.

Mr. Lasker's stand as to liquor sales on board American vessels was taken, he informed Mr. Busch, on the authority of an opinion rendered by General Counsel Schlesinger of the shipping board.

The chairman conferred yesterday with Attorney General Daugherty and while there gave him copies of the correspondence with the St. Louis brewer. The matter of liquor sales at sea was not the primary purpose of the conference, Mr. Lasker indicated later, but it was brought up incidentally.

Refusing to discuss his talk with Mr. Daugherty, Chairman Lasker declared he would not ask the department of justice for a new opinion, being entirely satisfied with that rendered by Mr. Schlesinger. He added that he would not answer further letters on the subject of liquor selling.

Representative Upshaw, Democrat, Georgia, publicly announced yesterday he would offer an amendment to the ship subsidy bill providing that no part of the federal subsidy fund should be used by steamship lines on whose ships liquor is sold. A leading Western Republican previously had announced that he would offer the same amendment, and friends of the bill said it seemed certain the issue would have to be met unless the bill was reported by the rules committee with a stipulation that none but merchant marine committee amendments would be considered.

There was talk last night that such an amendment would be put squarely before the committee itself, probably today, although its defeat there was predicted.

One ardent prohibitionist went so far as to express the opinion that "by next summer a law will be enacted prohibiting the landing in the United States of foreign ships on which liquor selling is permitted."

ALL OF EUROPE'S HOPES ARE CENTERED TODAY IN THE HAGUE CONFERENCE

BOOZE FIGURES IN BIG RIOT ON STEAMER

BETWEEN WASHINGTON AND POTOMAC RIVER RESORT LAST NIGHT

(By The Associated Press)
WASHINGTON, June 15.—Dispute over a quart of whiskey is said to have started a riot on a steamer between Washington and Potomac River resort last night, in which four hundred excursionists took part and one man was killed and a score injured, one probably fatally, before the disorder ended when one of the contending factions left the vessel at Alexandria, Virginia, several arrests were made. Pop bottles and knives inflicted most of the injuries.

RESULT RAILROAD COMMISSIONER RACE IS STILL IN DOUBT

(By The Associated Press)
JACKSONVILLE, June 15.—With the counting of votes in the recent primary still in progress at the office of Secretary of State Crawford at Tallahassee, the result of the contest for membership on the state railroad commission remained extremely in doubt.

The official count of first and second choice votes from 53 out of the 61 counties shows R. L. Eaton leading A. D. Campbell, incumbent, by several hundred votes. But on the face of incomplete returns from seven of the remaining eight counties, compiled by the Florida Times-Union Mr. Eaton's margin is cut down to 367. Okaloosa is the county from which no official or newspaper returns have been tabulated, and Mr. Campbell claims to have substantially carried this county. The vote of the seven counties compiled by the Times-Union does not take in the second choice votes.

Regardless of the final outcome of the race it will remain as one of the closest in this state since the memorable contest between the late W. A. Blount of Pensacola and Judge Nathan P. Bryan of Jacksonville, for the United States Senate in 1912.

Mr. Campbell was appointed a member of the commission by the governor to fill the vacancy caused by the death of Newton H. Blitch.

Dedicated to the Task of Bringing Russia into Concert of Nations FIRST SESSION

STARTED TODAY FRAUGHT WITH MANY RESPONSIBILITIES FOR WHOLE WORLD

(By The Associated Press)
THE HAGUE, June 15.—The conference to consider the Russian affairs was called to order in Peace Palace this afternoon by Dutch Foreign Minister H. A. VanKarnbeek, with sixty delegates representing about thirty countries present.

THE HAGUE, June 15.—All Europe centered its hopes today in opening international conference dedicated to task of making practical arrangements for re-entry of Russia into the concert of nations.

THE HAGUE, June 15.—Two notable meetings will be held in The Hague peace palace today. At 11:30 o'clock this first annual session of the permanent court of international justice was opened and at 2:30 this afternoon the conference arranged to consider Russian problems began its effort to settle those questions which the Genoa conference abandoned after weeks of unsuccessful wrangling.

Two more dissimilar meetings it would be difficult to find under the same roof. The first will be purely judicial, with the solemnity and restraints which the serene casts about its doings, while the second will be a continuation of the spirited sessions at Genoa, devoted to attempts to untangle vexatious problems arising from the war.

The Hague is not especially pleased, particularly the officials of the capital, in having the Genoa troubles transferred here and sheltered under the peace palace. P. A. Van Karnbeek, Dutch minister of foreign affairs, will extend a welcome to the conference and then turn it over to the representatives of the various European powers which have sent delegates.

Until the Russians arrive and begin participation in the conference on June 26, interest in it will probably not reach a great height, as the interim will be devoted chiefly to arrangements preliminary to dealing with the Bolshevik delegation. Great uncertainty and lack of organization characterizes the affairs of the conference to which Holland apparently does not wish to give great publicity or prominence, as the Dutch did not seek the conference, but merely offered neutral territory for the meeting, without desiring herself to direct or influence its development.

Delegations from the major countries arrived yesterday or late last night, but some of the representatives of the smaller countries will not reach The Hague until after the opening of today's meeting. The British delegation, headed by Sir Philip Graeme, numbers 50, and the Italian delegation, headed by Baron Avezzano, former ambassador at Washington, 25. Some of the smaller countries like Czechoslovakia, may not dispatch representatives until June 26, when the meetings with the Russians will begin.

Baron Avezzano remained in Paris for several days to discuss Italian viewpoint at a conference with the French officials, endeavoring to bring about harmony and close co-operation between the two countries.

The Japanese delegation is headed by M. Sato, councillor of the embassy at Paris, who is a son of Almaro Sato, former ambassador to the United States, and one of the Japanese representatives at the Portsmouth peace conference.

Hugo Stinnes is expected to arrive here today from Berlin.

SHIP SUBSIDY BILL REDRAFTED BY HOUSE INTRODUCED TODAY

WASHINGTON, June 14.—The administration ship subsidy bill redrafted by the House Merchant Marine Committee, was introduced today by chairman Creen of the committee.

SOUTHEAST RAIL LINES OFFER CUTS IN FREIGHT RATES

ATLANTA, June 13.—(Special.) Substantial reductions in freight class rates from the southeastern cities to points in Florida are proposed by the railroads of the South now offering testimony before the southern class rate investigation of the Interstate Commerce Commission here. The inquiry is considered the most important ever conducted by the federal commission, its purpose being to readjust completely the freight class structure of the southeastern states.

The carriers, through their witnesses, propose large reductions between Atlanta and other southeastern key cities and interior Florida points, but propose increases in the class rates to coast points such as Jacksonville, which have all rail rates they say, that have been depressed to an unfairly low level by water competitive influence. For instance they propose a maximum rate of 140 in cents per hundred pounds first class from Atlanta to Jacksonville instead of 96 as at present; and they propose a rate of 140 instead of 160 as at present, from Atlanta to Lake City.

N. B. Wright, assistant freight traffic manager of the Central of Georgia Railway; James Menzies, general freight traffic manager of the Atlantic Coast Line, and W. H. Paxton, general freight agent of the Southeastern system, testifying on the proposed rate adjustment of the carriers between interior southeastern points, discussed Monday the rates between Atlanta and Florida points. The adjustment between all origins and Florida points, which was scheduled for Monday, will be heard Tuesday, Mr. Menzies being the witness.

Among the comparisons of rates proposed by them, and present rates given by the carriers, were the following:

Atlanta to River Junction, Fla., present rate, 136 1-2; proposed rate 145; to Monticello and Miccoakie, present, 174; proposed, 145; to Jasper, present, 180; proposed 140; to Suwanee present 20; proposed 145; to Baldwin, present 183 1-2; proposed 145; to Lake City present 165; proposed 140; to Madison, Greenville, Tallahassee and Quincy, present 177; proposed 145; to Woodville present 215; proposed 160; to White Springs present 192 1-2; proposed 140.

Among the Floridians present at the inquiry are Railroad Commissioner Burr, who is one of a committee of five southeastern state railroad commissioners invited to sit at the hearing; C. S. Hoskins, representing the Tampa Board of Trade; N. D. Nelson of the Jacksonville Traffic Bureau, and Thomas P. Puckett of the Taylor County Chamber of Commerce. The last three named will have an opportunity to take their first active part in the inquiry at the cross-examination of carrier's witnesses beginning July 16. They have been in attendance making notes and preparing their briefs for presentation when the shippers have their opportunity to testify at the September hearings.

Although the carriers seem to favor Florida in the rates they have proposed up to this time, it is considered that the Florida shippers will strenuously resist the proposals to increase the rates into the coast cities to the rates to Tampa, Miami, and St. Petersburg will be discussed Tuesday.

Mr. and Mrs. J. H. Kennedy and young son are here from Lakeland the guests of friends for a few days. The Kennedy's are old Sanford residents where Mr. Kennedy was for many years with the A. C. L. shops and he is now master mechanic of the shops at Lakeland. They have a host of friends here who are always glad to see them.

State Bar Ready For Annual Meet Orlando Today

Members of the Florida State Bar Association are expected to begin arriving in Orlando today to attend the annual convention which opens here tomorrow. Officers of the association are anticipating the most successful convention the bar of the state has ever experienced.

Judge Charles O. Andrews, president of the association, announced yesterday that the Rosalind Club had offered the use of its club house on Rosalind avenue for the business sessions of the convention. The offer, he said, had been gratefully accepted and the since 7 thanks of the association extended to the club.

There have been no changes in the program as it was announced some time ago, Judge Andrews said. Final plans for the big meeting were perfected without encountering the slightest difficulty. The supreme court has adjourned for the week as have most of the circuit courts in the state and virtually every lawyer who is a member of the association is free to attend the sessions insofar as court work is concerned.

In addition to the annual banquet which will take place at the Orlando Country Club on Friday evening, the committees of the bar of the seventeenth circuit have arranged several entertainment features. The visiting attorneys will be shown the beauties of Orlando and Orange county on Wednesday afternoon and on Thursday afternoon the bar of the circuit will be host at a banquet and entertainment at the Country Club. Other features have been arranged by the committees.—Orlando Sentinel.

HEATED SESSION FOLLOWS ACTION REMOVAL CROWD IN MEETING AT PALATKA

(Continued from Page One) was insistent at all times that state division was not an issue before this meeting, and that it was assembled for the one purpose of making plans for securing an expression from the people of the state as to whether or not they desire capital removal. He said that if Mr. Shackelford was named by the proper Hillsborough county authorities to represent that county, that they should at least have sent a man who was in sympathy with a proposal to permit the people to express their wishes, whether they were in accord with his own or not.

Other members of the board, during the debate, took the position that while there was no doubt of a very strong sentiment for state division, that this desire would in no wise be hampered or interfered with by favorable action on reapportionment and capital removal.

Palm Beach, Orange, Manatee and Osceola counties representatives said that they are sure that the sentiment for state division in their counties is unanimous, but that they feel that reapportionment is a necessary step to the attainment even of that desire. They concurred in the general sentiment that capital removal would not interfere with any further activities that might be undertaken for capital removal.

On resolution, just before the close of the session, President George Wilder was given authority to name vice-presidents who are also members of

ARTHUR YOWELL CAUGHT WHALE

Arthur Yowell, J. D. Davidson and Osborn Herndon went to Boca Grande fishing Monday and they had some great sport. Arthur Yowell caught the largest tarpon weighing over 100 pounds and he will have it stuffed and brought back to Sanford for exhibition. Davidson and Herndon also caught some good ones but none as large as this one. They had fine sport and say the tarpon fishing is the life.

SPRAYING WITH KEROSENE REMEDY AGAINST LAWN ANTS

To get rid of lawn ants entomologists of the United States Department of Agriculture suggest drenching the nests with boiling water or pouring in a small quantity of kerosene oil. Similar treatment may be applied to nests between or beneath paving stones. Spraying the lawn with kerosene emulsion or with very strong soap wash is also recommended. For large and nests disulphid of carbon injected into the nest by means of an oil can or a small syringe is recommended to kill the ants. The fumes of disulphid of carbon have a very disagreeable odor and are inflammable, but they are not injurious to higher animals in the open air.

CITIZENS ARE VERY TIRED OF CAMOUFLAGE.

The editor of The Times has been permitted to read some interesting and illuminating correspondence, which recently passed between J. W. Hart, of Palatka, secretary of the capital removal association, and H. P. Adair, president of the Jacksonville chamber of commerce.

It appears that the Jacksonville chamber of commerce was invited to send representatives to the sessions of the capital removal association held in Ocala and Orlando, but both

invitations were ignored; but a more insistent invitation that Jacksonville be represented at the meeting of the capital removal association being held in Palatka today at least "smoked 'em out." Mr. Adair says Jacksonville purposes to be neutral on this question which has been agitating the people of the state for years.

"If I should attend this meeting representing the Jacksonville chamber of commerce, it seems to me that I would thereby definitely pledge that body to a present active campaign for capital removal. The mere membership in your Florida State Association for Capital Removal would offend the good friends of Jacksonville in middle and western Florida; to oppose it would offend the good friends of Jacksonville that comprise the Florida State Association for Capital Removal.

"I believe that at the present time Florida is the most prosperous state of its area in the world. The whole United States knows this, and the eyes of the whole country are upon Florida. I believe that during the next few years we will see the greatest influx of population and the greatest development that this state has ever known during a like period in its history.

"Therefore, I regret to say that I cannot accept the courteous invitation that you and Mr. Wilder have extended in your letter."

President Adair's letter was not satisfactory to Secretary Hart, and in his reply he indulges in some very straightforward comment on the evident purpose of the Jacksonville organization to carry water on both shoulders.

"I have more or less anticipated such a reply, after a conversation held with Mr. Snell in St. Petersburg last Friday. I doubt there is any room for 'neutrality' in the issue, once you understand it, and in view of your public utterances, if the press of Jacksonville has correctly reported them, I am lacking in the conviction that you are neutral, even if we were to take your understanding of the objects of the capital removal association as correct—and they are not.

"The sole object of the capital removal association is to determine whether the majority of the citizens of Florida want the capital removed. You cannot confuse location with this issue. Every member of the association is bound to its principles, which clearly stand out as having no interest in where the capital is removed to, but as I have stated they are bound together to get an expression as to whether or not the majority want the capital removed. On that issue there is absolutely no room for neutrality.

"If, as you contend, you do not care to offend the sensibilities of any part of Florida, then I must in perfect frankness say to you that there are several sections of the state that do not understand a point you made in an address before the Rotary club of Jacksonville, that while you favored reapportionment, and you thought it would carry, that you had some misgivings of the amendment carrying if as a result of it any part of Florida hoped to make capital removal possible thereby. One commentator has put it that you are satisfied that the medicine is good, but that once you bought it, it should not be used.

"We are confident that if Jacksonville seeks to serve 'all Florida,' a point which your organization has stressed, that you are either for an expression of the majority on the issue I have mentioned or you are opposed to it. If we are going to have state unity, to which we subscribe, the nearest approach we will ever get to it is to abide by a decision of the majority, and that decision is impossible if there are any influences at work to defeat the rendering of an expression on it by all of the people.

"I want to be frank in another extreme. Florida is going to make progress only if we get expression of all Florida on this issue. Consequently we want Jacksonville to express itself. We do not want any influence that retards the expression. We don't think in justice to the progress of Florida that you can sanction the Jacksonville chamber of commerce straddling the issue or attempting to carry water on both shoulders, and we are confident that you will agree with us that apportionment when just is as safe in the hands of all the people as

MICKIE SAYS

unjust apportionment is in the hands of a few. We are placing our reliance on that great number of fair-minded, just, liberal Jacksonville business men to say to you that the reapportionment amendment will carry in your city, and we are very pleased.

"I think you should reconsider your decision and without subjecting you to membership in the association come to Palatka on the 13th and really find out what we are bound to bring about."

It must be clearly evident, as has been convincingly presented by Mr. Hart, that Jacksonville's position on this question—if the sentiment of the people of that city is expressed by Mr. Adair—is untenable. This is an important question, and Jacksonville, the metropolis of the state, cannot remain neutral or indifferent.

The insidious suggestion that the people of Jacksonville may vote against the pending reapportionment amendment if they get the impression that south and central Florida will use the increased power gained thereby to bring about the removal of the capital to the center of population, alleged to have been made by President Adair in a speech before the Jacksonville Rotary Club, will not promote kindly feeling in the people of this section of the state.

FLORIDA IS GETTING IT "IN THE NECK."

How, in the name of common sense and good reasoning, can the railroads expect to disregard water competition in fixing their freight rates to Tampa and other Gulf ports? This principle has been taken into consideration in determining the rail tariffs to important harbors ever since the first locomotive puffed its way down the peninsula.

Under the proposed adjustment, the railroads propose a rate of 232 cents per 100 pounds from Atlanta to Tampa, instead of the rate of 174 as at present. From Cincinnati to Tampa they propose a rate of 290 instead of 227; from Memphis a rate of 280 instead of 220 1-2; from Chicago, 340 instead of 241 1-2; from Richmond and Lynchburg, Va., 262 instead of 197.

The railroads are trying to force this increase on Tampa under the pretense of giving a decrease to the inland cities. The real truth is, according to Charles S. Hoskins, traffic manager of the Tampa board of trade, that the carriers are blinding the inland cities with reductions in freight costs over Jacksonville, but obscuring the fact that their proposals means generally higher class rates.

will always look to the Tampa jobber for his supplies. In the long run, any rate increase which hurts Tampa will hurt every other city in this territory.

Every city in south Florida should wire its representative at Atlanta to stand behind Mr. Hoskins in his fight against this destructive increase. If the inland cities allow themselves to be duped into an acceptance of this misleading proposal, all Florida will suffer. No adjustment of freight rates should be considered except one which will give every section of the state a fair and equitable reduction justified by lower costs of operation.

IN AGREEMENT WITH THE BANK.

Merchants, manufacturers and others in Jacksonville who have things for sale will most heartily agree with the Atlantic National Bank which, in a foot-note to an advertisement published in the Times-Union on Monday, says:

"Patronize Home Industries. Your local merchants can supply you with everything you need and at prices as low as any foreign competitor. Why treat your own town's business firms unfairly by sending your money to other cities and thus deprive local trading institutions of their rightful due. Keep your money here and benefit Jacksonville."

This is advice that listens good, even though it is in words. But the Atlantic National Bank does not stop with words; it practices what it preaches by using liberally of advertising space. What for? To "sell" that bank to the people of Jacksonville and of Florida. Does it pay? The answer is in the bank's patronage and assets, both most generous, and, we may well believe, brought to the bank by its broad-minded advertising policy, an institution built up, maintained and steadily increased by efficient management and courteous attention to the needs of the public.

Advertising is as much a department and policy of the bank as are its deposit and investment functions. It pays the bank to advertise, to make known its facilities, its stability, else money would not be expended for printers' ink.

What is true with reference to bank advertising is true with regard to other business that depends on the public for patronage, for growth and success. Jacksonville merchants and others generally realize this and are liberal advertisers. But, at that, some of them fail to avail themselves of valuable mediums for their advertising publicity, home institutions, home publications, such as the Atlantic National Bank advises the people to patronize.

Take, for instance, the Farm and Live Stock Record, a farm journal, published in Jacksonville, but reaching out to all the state, into Georgia and Alabama and further afield for the special information that, month by month, it broadcasts for the purpose of giving definite, accurate and therefore, reliable information to tens of thousands of subscribers and readers, with reference to Florida's most important industry, agriculture, and its close second, animal husbandry.

The Farm and Live Stock Record, by its fund of information, by its encouragement of the farming industry, and of related industries, has been the means of helping very materially to develop and uphold the state's resources, has, through its news pages, attracted the attention of thousands of people in other sections of the country, and even in foreign lands, and has aided materially in deciding them to come to Florida, bringing with them millions of dollars, in the aggregate, and here establishing themselves, making more money to add to the assets by which banks and communities, its merchants and dealers, thrive and grow prosperous.

SANFORD ELKS TO CELEBRATE IN NEW HOME

COMMITTEE IN CHARGE MAKING PLANS TO OBSERVE BIG DAY

Now that the final steps of the Elks Club's latest deal has been put across and they are once more located in a home of their own, big things will be doing from now on. The first of these big things will be the all-day celebration and initiation that takes place in Sanford all day July 13th.

The committee in charge of this big day are making plans that will make this day go down in history as one of the very biggest for Elksdom in Sanford. Fully one hundred and twenty-five new members will be taken in that day and in addition to the initiation, which will be big in itself, a program is being arranged for the hundreds of visitors, that will keep their time filled up from start to finish.

The Daytona and Orlando lodges will send their teams as well as the goats to put on the work for this large class of candidates and knowing what the teams from these towns can do, suffice to say, after the smoke clears away the new members will have received their proper introduction into this great order.

Their will be at least two bands here for the occasion and starting at 2:30 p. m. sharp a large street parade over the principle streets of Sanford will be staged for the public. Following the parade and the initiation the new club house will be turned over to the large crowd for eats, dancing and other things too numerous to mention here.

Included in this class of candidates are the majority of the old Rod and Gun Club members who were not already Elks and if you chance to be one that has not been seen by the committee, get in touch with them at once so that you can become an Elk on this big day.

Beginning with next Tuesday evening there will be a meeting of the Elks lodge once a week from now until after this big affair, and the officers desire all the old faces around the fire side once more to help revive the Elks spirit that has been waning of late and to render what assistance is necessary to the committee to give the new members the proper reception on July 13th. There will be a special program also at the meeting next Tuesday night, to be followed by a chicken pillau, so all Elks, please take notice and turn out for that night.

The big celebration takes place on Thursday in order to give all the members a chance to take in the day right as the stores will be closed during the afternoon.

Don't forget, the special meeting is next Tuesday night when all members are requested and urged to be present, a meeting every Wednesday following that until July 13th, at which time the biggest of all Elk celebrations will take place all day, and if you are a member already, brush up your card case get a fresh card for it, and help put the big day across and if you are not a member and ever expect to join the Elks, get your application in now. Invitations have been sent out to all the Elk lodges throughout this part of the state and one of the largest crowd of Elks ever seen in Sanford at one time will be here for the occasion. Daytona, in addition to the band and the "goat" will also have a fife and drum corps to help keep the day lively.

Information will be run in the Daily Herald from now on until the celebration to keep the public and especially the Elks and candidates in touch with the progress being made by the committee and we can all make up our minds now to stay at home that Thursday and extend the glad hand to the large crowds from all over the state. Keep the date in mind, Thursday, July 13th, all day (and maybe an early part of July 14th).

FORMER SUB CHASER REPORTED ON FIRE NEAR KEY WEST

(By The Associated Press) KEY WEST, June 15.—The former submarine chaser 205, owned by Ernest T. Sulzer, Brooklyn, New York, is reported to be burning near Sand Key. Vessels have come from here to her rescue. The chaser was en route from Key West to Mantanzas, Cuba.

The chaser burned to the water's edge and Mrs. Sulzer, wife of the owner, was slightly burned. The chaser later sank. Persons aboard were rescued by the Schooner Champion. The chaser was the same one which blew up in the Key West harbor in 1920, killing two men. The navy department condemned her and it was purchased by Sulzer. The fire today is believed to have originated from a short circuit in the guest room.

Maty Sanford people went to Daytona Beach today to enjoy the ocean breezes and other things.

ORLANDO INSISTS ON CLEANLINESS OF DAIRIES

ORLANDO, June 15.—Forty-nine dairies operating in Orange county, supplying milk to Orlando and Winter Park have been ordered by the Orlando City Pure Food department to keep their milk off the market in these two towns.

The forty-nine dairies to be served with the notice failed to meet after a specified time, the requirements of the state board of health governing dairies.

There were at the time of the recent inspection of the dairies of Orange county by the state board of health, 87 dairies supplying Orlando and Winter Park with its milk supply. The order of the city pure food department leaves but 28 dairies in operation.

The 28 dairies which have passed the inspection of the state board of health will be issued a special permit by the city to sell in Orlando and Winter Park. The remaining forty-nine whose product has been barred will be served with a legal notice to stop selling and any violation will subject them to arrest and prosecution.

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLOOD DER TROUBLES YOU

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

FLORIDA MAY GET U. S. AID IN FIGHTING PEST

WASHINGTON, June 14.—The department of agriculture yesterday was prepared to support an emergency appropriation of \$150,000 for the elimination of the citrus canker in Florida.

Two experts of the department were in Florida today investigating the ravages of the plague and the need for government help to aid in their eradication.

W. A. Taylor, chief of the plant industry bureau at the department, was in telegraphic communication with Dr. Wilmon Newell, state plant commissioner of Florida in connection with the proposed appropriation.

Taylor, it was said, then promised the Florida authority that government help would be recommended if the Florida reports were supported by the bureau's investigators.

USING WORD STOP PLAYED HAVOC WITH FLORISTS ORDER

FORT MYERS, June 15.—When distant florists mingle telegraphic punctuation with floral techniques there is apt to be confusion.

There is the case of a local florist who wanted some wreaths from a Tampa dealer. He sent a telegram setting forth his wants and used the word "stop" as a means of denoting the end of the sentence.

The local dealer sent the following message: "Substitute for wreath cross of rose number seventy-two for seventy five stop also two sprays number forty-three ten dollars each stop one wreath roses five dollars stop half dozen peonies stop spray of roses five dollars stop wire immediately if can ship this afternoon stop ship balance on sure."

He followed this with a later message ordering additional flowers and continuing the use of his pet punctuation.

The Tampa man was with a clear conscience, however, for he wrote: "Your of recent date received and I can assure you that I regret the mishap of the different floral pieces you wanted and your disappointment and my loss."

I enclose herewith the wires received from you and you will see that the trouble has been somewhere else. I could have easily furnished all the flowers if you had not countermanded your orders as you will see by the telegrams containing the word "stop" received from you which are enclosed herewith.

Incomes Reported in U. S. For 1920 Show Four Billions Gain

WASHINGTON, June 15.—Net incomes of individuals reported to the government during 1920 increased by nearly \$4,000,000,000 and the number of returns by nearly 2,000,000 according to preliminary statistics issued by Internal Revenue Commissioner Blair.

Returns for incomes between \$1,000 and \$2,000 increased by more than 500,000 in 1920 as compared with 1919, while those for the larger classes of income dropped heavily—returns from incomes of \$1,000,000 and over falling from 65 in 1919 to 33 in 1920.

The average net income on returns for 1920 was \$3,269.40; the average amount of tax \$148.08, and the average tax rate 4.53 per cent, while as relating to the entire population of the country subject to the federal income tax the proportion filing returns was 6.85 per cent, the per capita net income reported was \$223.87, and the per capita income tax was \$10.14.

For the calendar year 1920, there were 7,259,944 personal income tax returns filed reporting a total net income of \$23,735,629,183 and yielding a total tax of \$1,075,053,686, as compared with 5,332,760 returns, for a total income of \$19,859,191,448 and a tax yield of \$1,269,630,104 in 1919.

Incomes reported by various states for 1920 included: Alabama, \$156,604,933; Florida, \$141,105,124; Georgia, \$228,619,716; Kentucky, \$243,879,230; Louisiana, \$237,109,145; Mississippi, \$83,951,352; North Carolina, \$163,799,837; South Carolina, \$102,246,657; Tennessee, \$212,600,195 and Virginia, \$273,235,229.

AFTER VACANCY IN STATE ROAD DEPT.—SOUTH FLORIDA ACTIVE

TAMPA, Fla., June 15.—With three men already in the field for appointment to succeed the late W. W. Clark, the race for the vacant place on the state road department has opened in earnest.

The three men so far put forward for the appointment are T. Ed Bryan, of Tampa; Frank A. Walpole, of Sarasota and L. L. Bean, of Fort Meade.

Mr. Bryan was "placed in nomination" by Tampa friends and by the Charlotte County Board of Trade, the Punta Gorda Commercial Club, C. C. Carleton, mayor of Punta Gorda, W. H. Johnson of Punta Gorda, and by the chamber of commerce of Perry, Fla.

The Sarasota County Chamber of Commerce, by A. B. Edwards, its president, is behind the candidacy of Frank A. Walpole and is actively advocating his appointment to the vacancy created by the sudden death of Mr. Clark last Sunday.

The name of L. L. Bean, Fort Meade, banker and capitalist, was put forward at a meeting at Avon Park of the associated boards of trade of central south Florida. Mr. Bean has the support of the Lakeland Chamber of Commerce as well as that of organizations as far south as Fort Myers. At yesterday's meeting at Avon Park sentiment was definitely crystallized in his favor, and Mr. Bean's consent to serve if appointed was obtained.

ORDERS CUT IN FREIGHT RATES FOR THIS STATE

TALLAHASSEE, June 15.—The Florida Railroad Commission has ordered that all intrastate freight rates shall be reduced in an amount equal to the cut recently ordered by the Interstate Commerce Commission, 12.5 per cent, effective July 1.

The order making this slash effective is as follows: To all railroads and railroad companies doing an intrastate business in the state of Florida:

Whereas, the Interstate Commerce Commission, in case No. 13293, decided May 16, 1922, held that there should be a decrease in interstate freight rates, using the following language:

"That the existing freight rates and charges, including charges for switching and other accessorial services and all other charges applicable to freight service which were increased by authority of increased rates, 1920, will be on and after July 1, 1922, unjust and unreasonable to the extent that they may respectively include more than the following percentages of increase over the rates in effect immediately prior to August 20, 1920, in and between the various rate groups as defined in increased rates, 1920. 58, I. C. C. 220, 489 and Authority to Increase Rates, ibid. 302.

"In the southern group, 12.5 per cent instead of the 25 per cent so authorized."

The railroad commissioners of the state of Florida, having had this matter under consideration with reference to intrastate rates, and being fully advised in the premises,

Find, that effective July 1, 1922, intrastate freight rates between points in the state of Florida should be reduced by the same amount and in the same manner as outlined in the above quoted finding of the Interstate Commerce Commission.

Wherefore it is considered, ordered and adjudged by the railroad commissioners of the state of Florida:

That, effective July 1, 1922, intrastate freight rates between points within the state of Florida be reduced by the same amount and in the same manner as outlined in the above quoted finding of the Interstate Commerce Commission.

Done and ordered by the railroad commissioners of the state of Florida in session at their office in Tallahassee, the capital, this 10th day of June, A. D. 1922.

A. S. WELLS, Acting Chairman.

WILL TACK PROHIBITION ON SHIP SUBSIDY

WASHINGTON, June 15.—Announcement that he would offer an amendment to the ship subsidy bill providing that no part of the federal appropriation should be allowed steamship lines on which liquor was sold was made yesterday by a western republican member of the house who declined to permit use of his name at this time.

Reports were current around the house that similar amendments were being prepared by prohibition members, who said if put to a vote would be passed by the same vote that passes anti-liquor legislation.

YEN ACTING PREMIER

PEKING, June 15.—Dr. W. W. Yen former foreign minister, has been re-appointed to that post in the new Central Chinese government of President Li Yuan-Hung. Dr. Yen also has been named acting premier and is expected to be made premier in the event Wu Ting Fang, the foreign minister of the southern government at Canton, refuses to be President Li's prime minister.

Gen. Wu Pei Fu, the outstanding military figure of China by reason of his recent defeat of Chang Tso Lin, the Manchurian leader, has been chosen minister of war in the Peking cabinet. Dr. Wang Chung Hue, a lawyer of international repute, will be president Li's minister of justice.

FARMER'S WEEK AT FLORIDA UNIVERSITY

GAINESVILLE, June 15.—The week of August 14 to 19 inclusive will be farmer's week at the University of Florida and the work will be designed to take the place of the ten day short course in agriculture which for several years has been given in January. Heretofore only strictly agricultural subjects have composed the program, but during the August session there will be in addition subjects of particular interest to the housewife under the direction of the home demonstration staff of the Agricultural Extension Division.

FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound" which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking small strand at a time. By morning the gray hair disappears; but delights the ladies with Wyeth's Sage and Sulphur Compound in that, slides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives an appearance of abundance.—Adv

DEEN-WILLIAMS MARRIAGE
SOLMENIZED

Mr. P. A. Williams announces the marriage of his daughter Ora Estelle to

Mr. John Cooke Deen of Sanford Monday morning, June twelfth at 10 o'clock, nineteen hundred and twenty-two

The wedding took place in the home of the bride's sister, Mrs. R. E. Beverly, on Plum street, Murray Hill and was witnessed by relatives and a few intimate friends of the contracting parties.

Rev. Dr. Walker, pastor of the Sanford Methodist church, officiated, using the impressive ring ceremony.

The bride was unattended, and was married in a becoming suit of navy blue Poiret twill, with gray hat and accessories. She wore a corsage bouquet of brides roses and lilies of the valley.

Mr. and Mrs. Deen left immediately following the ceremony for White Springs and points in Georgia where they will spend their honeymoon, and on their return will reside in Sanford.

Mr. Deen is in the drug store business in Sanford and both he and his bride have a wide circle of friends who will extend congratulations and good wishes.—Times-Union.

LOVELY BRIDGE PARTY FOR
VISITOR

Mrs. B. W. Herndon entertained last evening at the Seminole Hotel, at a lovely bridge party, in honor of Miss Louisa De Cottes, the charming guest of Mrs. George De Cottes. There were nine tables of players.

The dainty color motif of green and white was beautifully carried out both in the decoration and details of this pretty party. Bay blossoms, combined with ferns were effectively arranged in tall wicker baskets, and hanging baskets, forming a lovely floral background.

In the card game, the first prize, a box of colored linen handkerchiefs, was presented to Mrs. R. A. Newman, while the men's prize, a box of cigars, was won by Judge Householder, while the consolation prize, a bottle of bath salts, went to Mrs. C. E. Henry. Miss De Cottes the honoree, was given a Japanese parasol. Punch was served throughout the evening and at a late hour, the hostess served a tempting salad course.

Mrs. Herndon was assisted in entertaining her guests by Mrs. A. P. Connelly, Mrs. Frank Miller, Mrs. George De Cottes, Mrs. Ed Lane and Miss Katherine Wilkey.

MERRIE MATRONS BRIDGE
CLUB

A very enjoyable social event of yesterday was the charming bridge party given by Mrs. Harry E. Lewis at her home on Magnolia avenue, the guests including the members of the Merrie Matrons Bridge Club.

Quantities of fragrant roses, in the various tints of pink were used with charming effect in the rooms where the card tables were placed.

During the morning several absorbing games of bridge were played, high score being made by Mrs. D. P. Drummond, who was awarded a lovely picnic basket, which she presented to Miss Louisa De Cottes, the guest of Mrs. George De Cottes.

Following the awarding of the prize, the hostess served chicken salad, sandwiches, olives, pickles, iced tea, peach ice cream and cake.

Mrs. F. E. Rounillat, Mrs. George De Cottes and Miss Louisa De Cottes of Jacksonville acted as substitutes for absent club members. The members enjoying the pretty party were Mesdames Fred Walsman, C. E. Henry, Harry Heeren, R. J. Holly, and D. P. Drummond.

STATE DRUGGISTS' CONVENTION ENDS TODAY AT ST. PETER

(By The Associated Press) ST. PETERSBURG, June 15.—

Florida druggists listened to serious addresses, passed on committee appointments, waded through various reports, ballyhooed for favorite convention cities next year, and ended the first day of the Florida State Pharmaceutical association convention with a shore dinner, swim and dance at Pass-a-Grille.

Five cities are seeking the convention, Eustis, Orlando, Ocala, Jacksonville and St. Augustine.

More than 300 delegates are attending the convention.

J. H. Houghton, secretary of the state pharmacy board, in a talk yesterday afternoon, urged that pharmacists be college trained men. A committee was also named to work out the plan for a membership drive.

The convention will elect officers and choose the next convention city at the closing session this afternoon.
