RUSSIA AWAKES

A rather obvious admission on at least one of the basic elements of competition came today from Russia and should be of paramount interest to the people of the United States as they contemplate putting their national defenses in order to meet whatever challenge may come from across the seas. Russia has decided to increase the length of the work week in order to build more guns, tanks and airplanes.

WHICH WILL BE TURNED BACK?

This revolution in working conditions should be of particular interest to the peoples of western democracies who in an endeavor to imitate communist Russia, have been limiting by law the work week to a point of hopeless inefficiency. It was in Russia during the early days of the communist regime that a man who wanted to work was limited by law in his efforts to do so.

Uncle Sam Finds Himself Wallowing In Foreign Gold

By CLAUDE A. JAGGER

Uncle Sam, like Midas, finds himself wallowing in gold. Will he, like Midas, be flabbergasted when he finds he cannot eat gold?

This question has been propounded frequently of late, as the yellow metal has streamed from war-ridden Europe to America.

The United States treasury currently holds more than \$12,150,000,000 worth of it—some 10 percent of the known monetary yellow metal stocks of the world.

In addition, the Federal Reserve Bank of New York has in its vaults huge stores of glittering bars, for the account of European central banks. The total as of May 31 was \$1,272,000,000, and a good chunk has been added since, perhaps \$500,000,000.

The money held by Uncle Sam (these figures do not include gold in mines and watch cases and otherwise employed in industry and the arts) has almost

trebled since the value of the dollar was fixed at 1/35 of an ounce of the stuff by the Gold Exchange Act, Jan. 31, 1934.

The money metal, in the form of bars about the size of a small ear of corn, worth \$12,000 each and neatly boxed, rolled in from overseas at the rate of about \$250,000,000 a month during the early months of the war, until May, when the total jumped to \$440,000,000. Early in June, between \$500,000,000 and \$600,000,000 arrived in New York from Canada in three days alone, supposedly brought across the Atlantic by conveyer.

Most of the gold comes through the big banks, in their usual international transactions. They immediately sell it to the treasury at 35 an ounce. The treasury issues certificates to the Federal Reserve bank in payment, and the commercial banks receive deposit credits for them. They are required to keep a certain volume of reserves with the Reserve Bank, but they now have reserves of more than \$600,000,000 in excess of requirements, principally due to the gold influx.

Nazis proclaim that they are fighting against, among other things, "the tyranny of gold." Soon after the Hitler government came into power in 1933, it shipped out all but a few million dollars worth of its money metal, in payment of debts, and processed thereafter to do business with the rest of the world on a barter basis.

It has not hesitated to use gold to make foreign payments, however, when it could get it. Holland and Belgium are believed to have shipped out most of their gold before they were invaded, and other countries threatened with invasion have rushed much of their yellow metal treasure to this continent.

A part of the Nazi philosophy as proclaimed by its spokesmen in Washington and Wall Street expressed confidence that gold will remain the chief international method of receiving value, and that Uncle Sam will have no difficulty in putting his metal to work when the time comes.

TOBACCO CONTROL

RALEIGH, N. C. June 27.—Faced with a warning that should farmers reject tobacco-chop control, prices might be forced down to 10 cents a pound or less this year, 200 warehousemen, bankers, merchants and growers voted today to support a three-year test curtailment program.

WANT A HIPPOPOTAMUS?

LONDON, June 27.—Any one in whimsy to play for-fer-gam in a strapping young hippopotamus in the London zoo for the duration of war—providing he pays about \$4.45 weekly for the animal upkeep. A sleek young hippo can be adopted for \$2.25 weekly, or a porcupine for about \$2 cents per week. Labels bearing the adopter's name are fixed to their cages. About 230 animals have been already adopted.

Hundreds of young Malaysians have entered training at Singapore as summer for the British navy.

Stetson Gridders Go Through Paces At Summer Session

DELAND, June 27 — Seeking to get the jump on Florida gridiron rivals, Stetson University coaches this week opened summer football workouts with a group of 12 athletes who are attending the University's summer session.

In the absence of Head Coach Brady Cowell and Assistant Coach Pen Clemons, the football men are being guided by Carl H. Johnson, director of men's activities. He is putting them through the throwing, every afternoon and drilling them in the fundamentals of passing, kicking and blocking.

Appraising Hatter chances, Johnson predicts that 1941 will bring "far better squad than last year's." He believes that despite the loss of 14 men by graduation and ineligibility, the Stetson team will have balanced ends and tackles and a faster, more experienced backfield.

"It is encouraging to see how serious the boys are in keeping themselves physically fit," he declared. "The full summer of training will enable us to have our team in as trim condition as any other college team in the state."

Much Hatter offense next season will probably be centered through the throwing. Every afternoon and drilling them in the fundamentals of passing, kicking and blocking.

Women college graduates did not suffer seriously from unemployment during the depression, a survey shows.

DeLand Citizens Act To Preserve League Franchise

\$2100 Is Needed To Last Out Remaining Weeks Of Play

DELAND — Seeking to preserve the Florida State League franchise at DeLand, civic leaders gathered yesterday to discuss means to finance the club for the remainder of the season.

Immediate action is needed to retain the franchise, it was stated, as the June payroll must be met before midnight Sunday. Directors disclosed that about \$2,300 is needed for the remaining 10 weeks of play while there is but \$100 in the club

Hitler Jubilant As French Accept Terms

BERLIN, June 27 — (AP)— Adolf Hitler jubilantly crashed his fist in his palm when the news reached him that the French had signed his armistice terms, the radio said yesterday in describing the preview of a German news reel of the French's reaction on that occasion.

"For the first time since the outbreak of the war the Germans people will see the man whom they definitely consider the greatest man in German history recording emotions," said the broadcaster.

Hitler's look of "stern poise" is replaced by an expression of "joy and exultation," said the announcer. "He stretches his arms as a man who is freed from a heavy burden" and then in elation "hits his palm with his fist."

LONDON BUS FARES UP

LONDON, June 27 — (AP)— London bus fares, about two cents, will be raised to about three cents after July 3, the government announced yesterday.

Montana has shown a consistent gain in per capita wealth while the figure for the nation as a whole has fluctuated.

Considered as the team most likely to beat out Sanford when the season opened, the Hatters have slumped into sixth place. Attendance here has been one of the league's lowest, averaging but 275 for home games to date.

It was learned that Palatka, a league member in previous years, and Lakeland are bidding for the first franchise available.

Thirty-five fans turned out for the special meeting at the Chamber of Commerce. A committee composed of Pat Bama, Bill Peck, J. H. Tatum, F. J. Calkins, Robert O'Toole, Jim Fribble, Bill Cooley, Earl Burns, G. M. Milson, Walter Lahrman, and Charles Kirkconnell pledged itself to raise the necessary operating funds. Madwin Peck presided. In the past, DeLand has sold more players to higher ranking leagues than any other club in the circuit, including Jack Bellinger who went on to the Philadelphia Phillies, and Huck Gentry, now starring at Minneapolis.

League President Henry Gray could not be reached at Gainesville last night. However, on his visit to Orlando last week he stated that to the best of his knowledge all teams were financially sound, though two franchises could be "placed within 48 hours if necessary."
