SOUGHT IN RISING FUND U. S. FLEET

Annual Appropriation Provides For Navy Maintenance Is At Present

In Strength of Marines Rejected

Plane Program Continued In Measure Even Solons Today

WASHINGTON, Jan. 3.—(AP)—Proposing a cut of \$1,000,000 in the funds for the activities of the United States fleet, but otherwise providing for maintenance of the Navy about as it was, the annual Navy department appropriation bill reported to the House today carries a total of \$114,552,660 for all branches of the Navy for the fiscal year beginning next July.

TRIO OF COLLEGE STUDENTS TAKE THEIR OWN LIVES

Youths Commit Suicide After Concluding That Life Held Nothing In Store For Them; One Jumps From Bridge

NEW YORK, Jan. 3.—(AP)—Three students, home on Christmas vacation, have committed suicide after concluding that life had nothing more to offer them.

Rigby Wile, 16-year-old student at the University of Rochester, found life "barren and futile"; Joseph Moore, 21, of the University of Illinois, believed he had experienced all that life had to offer; while Alfred Kehoe, 21, of Brooklyn, a simple and a student at the University of Rochester, thought himself "too queer" to marry.

Wile, son of Dr. Ira S. Wile, author of books on mental disturbances and abnormalities in children, and director of the mental clinic at Mount Sinai Hospital, shot himself with a rifle Saturday night in New York after retiring at his home.

"Everything is dark and worthless," he wrote in a farewell note to his parents, stating he had found life "barren and futile."

Dr. Wile said he thought his son's act was the result of convincing but faulty interpretation of his philosophy of life.

Jean Charles Hoing of the University of Rochester, characterized him as an extraordinarily brilliant student, while fellow students said he seemed normal in all of his college relationships.

Joseph Moore, whose father is a physician and Guston Justo, a Mexican, died in a hospital at Auroles, Ill., yesterday of bullet wounds self-inflicted during a New Year's eve party. He left a note in which he said he "had experienced all that life had to offer, and therefore, was better off dead."

Kehoe, who jumped from Washington bridge over the Harlem river in Manhattan yesterday, left a note in which he referred to a girl, Eleanor, who believed he was "too queer" to marry.

He became depressed at a New Year's eve party at which his friends danced but which was impossible for him due to his lameness.

ROBBERS GET \$14,000

AND RAPIDS, Mich., Jan. 3.—Two men robbed the Kent branch bank on Fulton street this morning, overpowering employees and escaping with \$14,000.

Democratic Presidential Prospects
Given Much Attention in N. Y. Papers

NEW YORK, Jan. 3.—(AP)—Democratic presidential prospects have attracted considerable attention in New York papers.

Reports of Governor Alfred E. Smith have already begun to form with party leaders in various parts of the country as an indication of his presidential ambitions.

Such a move has been deemed necessary, it says, because of the governor's apparent unwillingness to further his own candidacy.

Senator Smith, in his fourth annual address at Albany on New Year's day, said: "I have no idea of the future has in store for me."

Everybody else in the United States has some notion of this except myself. No man would stand up at an assembly like this and say he was not receptive to the offer of office in the gift of the people.

But I will say that I will not be seeking it except to give the people of this state the kind of service that will

New York Newspaper Finds Supply of "Suckers" In The Night Clubs Is On Decrease

NEW YORK, Jan. 3.—(AP)—A decrease in the supply of "suckers" in night clubs was noted by the New York World today. It says the clubs at their best are no more than poor substitutes for the old time saloon back rooms and at their worst hangouts for white collar thieves.

The ever increasing prices, the newspaper asserts, are but camouflage for dwindling patronage; the better class of citizen, it says, declines to be further lured a "sucker" by "the educated group of money seekers as this city has developed in its sophisticated history."

"Poor food, worse liquor and cheap entertainment," says the World, are offered for "the boys from the Bronx or Brooklyn or from Yale, Harvard or Princeton, or for the male or female spender sucker, fall guy, easy mark, or whatever you want to call it."

On New Year's eve, the World says, the clubs with cover charges as high as \$40 an empty plate, synthetic liquor at \$20 a quart, and

not fit to drink, and water at \$2 a pitcher, set the stage for the greatest clean-up in Broadway's history.

But according to the World, the "clean-up" failed to materialize. By 3 o'clock, when gaiety was supposed to be at its height, many of the clubs were already dark. While reservations were heavy, it was only the "sucker" and the "elderly playboy" with money to squander who remained, says the World.

Night club prices quoted by the World follow: Half pint ginger ale \$1; 10 ordinary brand cigarettes in special package \$1; four small roses arranged as a boutonniere \$4.50; Rhine wine with bicarbonate of soda, known as champagne, \$25 a quart; 2 orders potatoes \$1.50; 2 celery and olives, with bread and butter \$2; 2 coffees \$2; and one quart of liquor \$20.

The New York American today estimates that \$2,500,000 was spent at New York's celebration of New Year's eve, and at this amount, \$1,000,000 was for taxi fares.

DEFENDANTS IN LIQUOR PLOTS NABBED AGAIN

Thirty-Seven Men Arrested 3 Years Ago File Demurrer In Federal Court And Are Rearrested Early Today

Trial Not To Begin Until Next Month

Former Federal Employees Now Living In Washington Listed Among Defendants

JACKSONVILLE, Fla., Jan. 3.—(AP)—Thirty-seven defendants, including 15 Washington men, arrested three years ago on charges of a liquor conspiracy, appeared in federal court today, entered a demurrer to the first indictment, and were immediately arrested under a second indictment which had been held in reserve.

Each in the sum of \$1,000 bail was set. United States District Attorney Goble said the trial probably would not begin before the first week in February.

The Washington men made a vigorous "at against extradition to Florida." It was notified that each of the "must" appear in federal court on \$2,000 or forfeit bond of \$1,000 which was assessed in the first indictments.

The Washington defendants include Joshua L. Sprinkle, lieutenant of police, former deputy United States Marshal, Newman, Bartman and Marshall.

The conspiracy was exposed when Federal court today, prohibition and misdemeanor cases will be tried the first two weeks of the January term.

The conspiracy case involving defendants reached the third Monday in this month.

Judge Boylan M. Call and Lake Jones of Tampa will officiate on the bench. Prospective witnesses for the defense have been drawn from all portions of South Florida and more than 1,000 witnesses will testify in the various counties during the term.

One hundred and twenty-five cases are on the docket. Among the felony cases is that of alleged fake medical license ring in which the indictments were returned against 15 men at the December session of the federal grand jury.

The indictments reached to nearly every portion of the country; court attaches said. The trial is expected to begin some time in February. No announcements as to whether all the indicted men have been arrested are forthcoming.

Eight men, including Dr. George A. Munch, Tampa, accused leader of the ring, have already been arrested and are at liberty under bond.

Sanford Bonds Are Rated Very Highly In N. Y., Says Mayor

Interviewed upon his return from New York, where he went on business pertaining to the sale of municipal bonds for the city, Mayor Forrest Lake stated today that the many complimentary remarks made about Sanford in the financial circles which he visited made him feel highly optimistic over the business outlook for this city during the year 1927.

Sanford is placed on the same footing as Jacksonville and Tampa, in the financial district, and the remarks made to him by representatives of large bonding houses made him feel proud of his city.

Bonds now for sale by the city are to be purchased at a high premium by the same houses which handled previous issues, Mr. Lake stated. Arrangements have already been made, he declared, for the purchase of the bonds necessary to erect the proposed hospital, providing the voters approve the measure at the polls on Jan. 10.

"The average Sanford citizen does not know just how highly the securities from this city are rated in New York and if they could visit some of the people whose business is the buying and selling of municipal bonds they would soon get a good idea how Sanford securities are rated."

APPEALS ARE DISMISSED

WASHINGTON, Jan. 3.—(AP)—Appeals by Armour and company and Swift and company seeking to nullify the consent decree by which the packers agreed to withdraw from unrelated lines of business were dismissed today by the court of appeals of the District of Columbia on the grounds that the court lacked jurisdiction.

NEGRO MAY FACE TRIAL FOR CRIME HERE JANUARY 11

Confessed Slayer Of L. P. Hilton Expected To Appear In Circuit Court At Sessions Which Open In Eight Days

The trial of Robert C. Pittman, confessed slayer of L. P. Hilton, Sanford barber shop owner, is expected to be held at the session of the circuit court which is to open Jan. 11. Authorities do not believe that Pittman will attempt to make a defense at his trial. Conviction, it is said, will send him to the electric chair at Raiford.

Whether or not Pittman will retain counsel is not known. In case a lawyer fails to appear, the court will, as is customary, appoint some member of the bar to defend him. The trial is expected to last only a short time.

Further details of the murder, declared one of the most brutal in criminal court history in this state, came to light Friday night when Pittman, en route to jail in another city, is said to have added to his confession by telling the officers who had him in custody of his actions of the evening of the killing.

Mr. Hilton, he is said to have told officers, pleaded with him not to kill him but to take the money and let him live. Frightened at the prospect of being arrested later for attack upon a white man, Pittman completed his brutal job and then attempted to do away with all incriminating evidence.

That Pittman is an educated negro is evident from several letters found in his possession, both two and from his wife. He is said to be a graduate of a negro college in Massachusetts, where his wife and one child are now living. He intended studying for the ministry, his letters reveal.

Local authorities steadfastly refuse to divulge information as to what jail Pittman is being held for safekeeping. That he was carried to a city in the northern part of the state is believed to be probable.

Both Sheriff C. M. Hand and Chief of Police Roy G. Williams have received a number of congratulatory messages from authorities of other cities upon the manner in which they and the men under their control up what appeared to be one of the most baffling murders in years. Many local people have praised both forces for the quick solution of the crime and the arrest of the murderer.

Two Fined On Charge Of Carrying Weapons

Two men, both accused of carrying concealed weapons, were fined \$50 each in police court this morning by Judge W. E. White. They were T. H. Crew and A. J. Claus.

In addition to the charge of carrying concealed weapons, both men drew fines for alleged disorderly conduct.

Ed. W. Brown, 3574 10th St., was present when his name was called and was fined \$5 or 10 days. Bonds of Ed. B. Nelson, J. A. Crew and P. A. Simmons were forfeited when they failed to appear on similar charges.

Facing charges of being drunk and disorderly cont. J. H. Batts \$20; Frank Coleman, \$12. R. D. Hilliard arrested a band of \$25 of the same charge.

Vagrancy accusations that Alex. and Grant \$10 or 10 days; Floyd Hester and Leon Hester, with each donated \$5 on minor traffic violation charges.

Killed Nine

George Russell, farmer, killed his wife with an ax, riddled two neighbors with a shotgun, and then killed his six other step-children at his home near Farwell, Tex.

REV. BROWNLEE BEGINS 15TH YEAR OF SERVICE HERE

Pastor Of First Presbyterian Church Has Held Local Pastorate Fourteen Years; Membership Shows Increase

Dr. E. D. Brownlee, pastor of the First Presbyterian Church, began his fifteenth year of service with the church of Jan. 1, establishing a record for holding a continuous pastorate surpassed by only one other church in Florida, and never before equaled in the Sanford church, according to an announcement made Sunday.

During the 14 years of his pastorate here, Dr. Brownlee's work has been marked by the growth of the church and the revival of its activities.

The total annual gifts of the church now approximate \$5,000, an annual gift of \$1,700 when Dr. Brownlee was called to the pastorate. Recurrent offerings have increased from \$300 to \$7,249 in 14 years, a gain of 2,349 per cent.

The present home of the church, at Third Street and Oak Avenue, was erected in 1916. Previous to this the church was housed in an old wooden structure.

Commenting on the past year and his term of service in Sanford, Dr. Brownlee said: "We have received many people into the church this year than we had members when the present pastorate began, the membership standing at 155 at the close of the year."

Every department of the church is showing an encouraging growth, with special development in some departments.

"All of this encourages us for the great opportunity which we have in the present situation in our town of Sanford. We are hoping that this new year will be a year of spiritual development for those of us who are in the church and a year of unprecedented growth in the number of those who come into our church upon confession of faith.

"This can be brought about only through the consecration of ourselves to the will and the ideals of Jesus and our willingness to live the Christ life and to tell others about Him by word of mouth."

State Pardon Board Considers 2 Cases

TALLAHASSEE, Fla., Jan. 3.—(AP)—The State Board of Pardons today took under advisement a plea for the life of a two-time man under sentence of death.

The board, at a special called meeting, heard a request of Arthur R. Thompson, St. Petersburg attorney, for a commutation of sentence for Louis Thomas and Louis Carth and Arthur Thompson, Arthur Davenport, convicted in Pinellas county for the slaying of a Tampa man in 1922.

The board is expected to bring the case before the governor at the week of Jan. 11 and 12 and 13.

The board today up an amendment after Mr. Thompson's appeal.

RUSSIANS HOPE Solons Face Heavy Calendar As They Meet Again Today

Ultimate Recognition Of The Soviet Regime By United States Predicted By Men High In Russian Councils

No Comments Made Upon U. S. Denial

Speakers Deny Assurances Carried On Against U. S. In Other Foreign Countries

MOSCOW, Jan. 3.—Soviet officials reiterated today that they possess data pointing to a definite change in policy on the part of the United States in its relations with Soviet Russia in the near future which they believed "at the time would result in ultimate recognition of Russia by the United States."

These officials declined to reveal the source of their information, but declared that a high official of the report that Russia had been approached by American officials on the subject of recognition. They expressed surprise at the state department's reference to anti-American propaganda by the United States and "invited evidence as to when, where, and how the Soviet government conducted such propaganda."

"Neither in the United States, Mexico nor elsewhere," one official stated, "have we carried on anti-American agitation in any form." He, together with other officials, affirmed Soviet's eagerness to meet the American recognition terms.

The statement that during the summer "cable and personal approaches were made to Russia from the United States" and the report that government officials in Moscow Thursday, that the Soviet government was studying the proposals, however, whether the proposals were made to Russia through the United States or otherwise, through the medium of the American government, was not denied.

CALEXICO BEGINS TO REBUILD RUINS CAUSED BY QUAKE

Laborers Have Paid Damages At \$1,000,000; No Deaths Or Injuries Have Been Caused

CALEXICO, Calif., Jan. 3.—(AP)—A heavy earthquake shock was felt here Saturday before 5 o'clock this morning. No damage followed the tremor, which came at two o'clock P. M.

A railroad worker reported about 100 cars at intervals of about one hour. The movement at about 3 o'clock was the most noticeable of the shocks during the night and early morning.

CALEXICO, Calif., Jan. 3.—(AP)—The work of rebuilding the California coast city of Calexico, destroyed by a major earthquake, began today to repair damage amounting to about \$1,000,000 caused by tremors which started Saturday night and continued intermittently until yesterday.

The work of rebuilding the California coast city of Calexico, destroyed by a major earthquake, began today to repair damage amounting to about \$1,000,000 caused by tremors which started Saturday night and continued intermittently until yesterday.

Road Sign Surveys For County Are To Be Made By Sheriff

A survey of all the important roads in the county is to be made in the immediate future under the direction of Sheriff C. M. Hand, who has been instructed by the county commissioners to make the survey and recommend to them how many road signs, for the purpose of directing the best routes between various points both within the county and to cities of other counties, would be needed. The commissioners propose to erect these signs in the near future.

For several months agitation of various kinds has occurred, usually in the shape of commerce and other public institutions, for signs and road directions throughout the county which would direct tourists and local motorists to the various towns and cities.

Members of any organization to erect the signs, the county commissioners announced, that the work would be done at the expense of the county.

Just A Few Cents Invested In

A Herald Classified Ad will bring greater returns for the amount spent than any other medium in Seminole County, small in size but a great success.

RISBERG IS OFF TO WINDY CITY TO SEE LANDIS

Former White Sox Star Not Seeking Reinstatement, He Asserts Upon Taking Train For Chicago Friday Night

"Can Tell Plenty," Says Buck Weaver

Definite Announcement Made By Cobb and Speaker That Legal Action Will Be Taken

CHICAGO, Jan. 1.—(AP)—The New Year may usher in still another baseball scandal, if Commissioner Landis is convinced by the promised revelations of Charles (Swede) Risberg, former White Sox player.

The commissioner's invitation to come to Chicago with expenses paid and "fair compensation" was accepted by Risberg, who boarded a train for Chicago at Rochester, Minn., last night. Risberg works on a dairy farm near the Minneapolis town.

Hisself one of the victims of the 1919 world's series upheaval when six of the Chicago American were barred from baseball, Risberg said he had "inside information" of far greater importance than the Cobb-Speaker tangle.

He maintained he is not seeking reinstatement. "It is too late for that," he said as he boarded his train.

If Risberg's story relates to crookedness in his own baseball days, the expected bombshell will be at least as old as the alleged plot which caused Cobb and Speaker to be invited out of big league baseball. He was a member of the White Sox from 1917 to 1920 until the Cincinnati-Chicago world's series "fixing" was exposed.

Another of the banished White Sox today said that "Risberg knows plenty if he wants to talk." Buck Weaver, the Sox third baseman who was fired in the fall of 1920, said:

"If Risberg wants to talk, he can talk. What he may tell will hit hard and may dispose of a manager or two who expect to lead clubs the coming season. I refuse to talk. Let Risberg tell what he knows. He knows plenty."

When the Sox scandal broke Weaver refused to talk of it, except to maintain his innocence. As preparations were made for the new baseball hearing, attorneys for Cobb and Speaker issued a statement in Detroit that definite action would be taken to fight charges against the former American League player, the form of that action to be announced later.

"After full discussion of all matters affecting Mr. Cobb and Mr. Speaker, we are prepared to say that we complete cooperation and unity of action on behalf of both. We will not be prepared to announce the form of which such action will take until at least some time next week," said the statement.

Speaker departed from Detroit for Cleveland after the conference with the attorneys and Cobb planned to go to his home in Augusta, Ga., today.

While the meeting was in progress the Detroit city council drew

Alabama, Stanford Primed For Clash At Pasadena Today

PASADENA, Calif., Jan. 1.—(AP)—Football warriors of Stanford and Alabama appeared in perfect form today, ready for the Rose bowl conflict, this afternoon, which will carry considerable weight in determining claims to that mythical title—the national gridiron championship.

For Coach Wallace Wade's undefeated Alabama varsity, Southern conference champions, today's tussle will make the second time the Dixie institution has participated in the annual Rose bowl clash. On Jan. 1, last, an Alabama eleven came from behind when faced with what appeared certain defeat, to triumph over the University of Washington 28 to 19.

Stanford, with its characteristic Glenn (Pop) Warner eleven, champions of the coast, equipped with the best speed and most powerful offense the Cardinals ever had, is favored to win. A tricky offense, the basis of which is Warner's famous "reverse," is boasted by the Stanford machine.

In the season recently closed Stanford amassed a total of 261 points against nine opponents. Versatile play by Alabama allowed their opponents only 20 points, while the Crimson Tide gathered 242.

Fight Results

WILKES-BARRE, Pa.—(AP)—Pete Lotzo, welterweight champion, versus Sammy Baker of New York (no title involved), 10.

NEW YORK.—Red Chapman, Boston featherweight, versus Beny Bass, Philadelphia, 10. Babe Herman, California, versus Al Winkler, Philadelphia, 10. Robert Svrain, France, versus Frankie Flak, Texas, 10.

CINCINNATI.—Chuck Wiggin, Indianapolis, light-heavyweight, versus Billy Freas, Grand Rapids, 10.

INDIANAPOLIS.—Merle Alte, Indianapolis, versus Joe Ortiz, Milwaukee, 8. Tommy Loughran versus Johnny Bieko, 10.

PHILADELPHIA.—Carl Treman versus Al Foreman, 10.

NEWARK.—Jack Hood versus Young Jack Dempsey, 12. Willie Harmon versus Al Mancini, 12.

KANSAS CITY, Kan.—Pete Sarmiento versus Joe Rivers.

Extension of the Korean railway system around the entire coast and across from Pingyang to the upper reaches of the Yalu is planned by the Governor General.

Mrs. J. H. Melihony of Kingman, Kansas, has a Bible, printed in 1890, which has been in the possession of her family for 37 years.

up a resolution of confidence in the players. A new angle to the baseball situation was presented with the statement of Representative Clyde Kelly, of Pennsylvania, that he was considering legislation to create a government commission to take charge of the game. Commissioner Landis declined to comment on the proposal. President Ban Johnson, of the American League, declared he would welcome any legislation which "will make our national game clean and free from crookedness."

New Dunedin Isles Golf Course Will Be Opened For Play New Year's Day

DUNEDIN, Jan. 1.—The new 18-hole golf course at the Dunedin Isles Golf and Country club will be opened for play today with two trophy cups and other valuable awards for players with low scores. A general invitation to all Florida golfers has been issued by officers of the club and many devotees of the royal and elegant pastime are expected to start the new year with a round over Florida's newest course.

In other that visiting golfers may have ample opportunity to enjoy the delights of this hill and dale course overlooking Clearwater bay and the Gulf of Mexico, there will be no exhibition matches and very little ceremony.

At one o'clock New Year's afternoon, E. S. Frickhorn, president of the Frickhorn Florida company, developers of Dunedin Isles will drive the first ball from No. 1 tee. Following this brief function the course will be opened to the golfing public. There will be no fees, all golfers being the guests of the Frickhorn Florida company on the opening day. The cups that will be awarded players with low scores are being

presented by the Dunedin Chamber of Commerce and the Frickhorn Florida company. The Frickhorn Florida cup will go to the winner of the blind handicap and the Dunedin Chamber of Commerce trophy will be awarded the player with the lowest gross score for the 18 holes.

Frank C. Bligden, manager of the Dunedin Isles Golf and Country club, has arranged for other awards including a dozen balls for the lowest gross score for the first nine and a like number for the lowest gross for the final nine.

The Dunedin Isles course was designed by Donald Ross and has been ranked by experts as one of the really great golf layouts of the country. It is on high rolling ground overlooking Clearwater bay and the Gulf and is replete with aptly difficulties, including several attractive water holes.

Every variety of golfing test is provided within its 6,431 yards, yet because of the extra tees all types of golfers from the duffer to the expert will be able to enjoy themselves over its greens and fairways.

Ty Cobb and Tris Speaker in Fighting Mood

Ty Cobb (left) and Tris Speaker are pictured here as they conferred in Cleveland, Ohio, on ways and means of fighting the charges of "Dutch" Leonard that they framed a 1919 Cleveland-Detroit baseball game. The two ex-managers consulted with a Cleveland lawyer.

Several Celebrated Winning Streaks In Sports World Checked Last Year

NEW YORK, Dec. 31.—(AP)—Several of the most celebrated winning streaks on record in sports world were checked last year. Those of Dempsey, Hornsby, and Tilden were checked by the devastating influence of 1926, but at least a half dozen remain to add interest to the new year's calendar of competition.

One of them is at stake tomorrow, in the annual intersectional football classic at Pasadena. Alabama's southern championship eleven carried an unblemished eleven year record into battle against Lehigh Stanford.

Now that Baltimore's International League pennant streak has been broken after seven straight victorious years, the foremost existing winning streak is that of America in Davis cup tennis. But

the United States must beat back a formidable French threat to make it eight straight next summer.

Johnny Weismuller, the lanky Chicagoan, who lifted the swimming mantle of Duke Kahanamoku in 1921, has been king of the aquatic sprinters for six straight years. He yielded one of his titles to the famous Swedish star, Arne Borg, last summer, but retained the 60 and 100 yard championships, and seems likely to make it seven years in front.

Yale, in varsity rowing, and Walter Hagen, in American professional golf ranks, have three-year winning streaks to their credit. Both will have a fight on their hands before making it four years in a row, both, likewise, have a habit of being at their best when the going is hottest.

Sarazen Captures Miami Tournament And Prize of \$750

MIAMI, Fla., Jan. 1.—(AP)—Gene Sarazen, the only golfer with an impressive string of wins over Walter Hagen, the professional champion, prepared to leave the state's own stamping ground today, richer by \$750 and with the Miami open championship somewhere about his person.

Sarazen sank a 20-foot putt at the home hole for a birdie three and a total score of 289, one stroke better than Willie Klein of Wheeling, Hills, who won the title last year with the same score. Klein collected \$200 second money. Harry Hampton of Memphis finished third with 294.

Jack Hutchinson found the going rough after a two months layoff and after a windy first round that cost him four strokes found it difficult to produce his real game. He finished well down the list for a \$50 prize.

Frank Fall, the English professional, spent the first round acclimating himself at the expense of any hope to win, but burned up the course on his last nine holes. His card of 70 for the last 18 was not bettered by Sarazen.

Tony Manera, who succeeded Joe Turman as professional at Fairview, was the one shot sensation for the tournament. While Sarazen last round he dropped his third shot in the cup from 150 yards away for an eagle. He was fifth in the final rating.

Izaak Walton Body To Hold Convention Shortly At Capital

TALLAHASSEE, Fla., Jan. 1.—(AP)—The 1927 convention of the Florida division, Izaak Walton League of America, will be held at Tallahassee, according to an announcement here by Hugh Galley, divisional representative at large. All state officials of the organization have voted to hold the meeting here "some time in April, during the first month of the legislative assembly. Each chapter will send delegates. Florida now has 52 chapters, with an average of a new chapter each week being added, Mr. Galley said.

Speaker by outstanding sportsmen of the country will be made and the annual election of officers held. A general discussion of betterment of the game and fish laws of the state, and the formulation of a plan of procedure to that end, is also expected to feature the 1927 gathering.

The Tallahassee chapter, of which State Game Commissioner J. B. Royall is president and Gov. John W. Martin and other state officials are members, will have charge of entertaining the delegates.

The officers of the Florida division, Izaak Walton League of America, are: A. F. Knotts, Yanketown, president; George McGhan, Tampa, first vice-president; C. S. Graham, Jacksonville, secretary, and Dr. F. P. Thompson, Orlando, treasurer.

The 1926 convention of the league was held at Orlando.

All-Star Teams Are To Master Only Few Plays For Big Game

SAN FRANCISCO, Jan. 1.—(AP)—College football stars from the east and mid-west who meet a western eleven in the annual east-west charity game here hope to win by mastering a limited number of plays rather than through a series of complicated formations in which many of them figured as key men last fall.

Eight plays, including two pass formations, comprise the eastern offensive, it was indicated yesterday when "Navy Bill" Ingram of Annapolis, organizer of the squad, and head coach, arrived from Chicago and immediately ordered an intensive signal drill. The team went through more than three hours of hard practice as evidence of their efforts to retrieve honors lost a year ago when the west won by a single touchdown.

Cal Hubbard, end, and three other players who followed "Bo" McMillan to Geneva when the coach left Centenary college were declared by Oglethorpe officials to be ineligible to play under rules of the Southern Intercollegiate Athletic Association, which forbid members to play against "transfer men." Oglethorpe representatives said their standing would be endangered should the men play.

Geneva officials, on the other hand, insisted that the four players were eligible to play and would play if the team carried out its contract.

A committee of three had the matter under advisement as game time neared. It was composed of Fred M. Vals, chairman of the Jacksonville Chamber of Commerce sports committee, sponsoring the game; President Pearce of Geneva and Frank Anderson, director of athletics at Oglethorpe.

Geneva-Oglethorpe Game Threatened By Disagreements

JACKSONVILLE, Fla., Jan. 1.—(AP)—Officials of Geneva College of Beaver Falls, Pa., and Oglethorpe University of Atlanta conferred for the third time this month in an effort to reach an agreement whereby football teams of the two schools may play this afternoon. Disagreement as to the eligibility of four Geneva players threatened to result in abandonment of the game.

Cal Hubbard, end, and three other players who followed "Bo" McMillan to Geneva when the coach left Centenary college were declared by Oglethorpe officials to be ineligible to play under rules of the Southern Intercollegiate Athletic Association, which forbid members to play against "transfer men." Oglethorpe representatives said their standing would be endangered should the men play.

Geneva officials, on the other hand, insisted that the four players were eligible to play and would play if the team carried out its contract.

A committee of three had the matter under advisement as game time neared. It was composed of Fred M. Vals, chairman of the Jacksonville Chamber of Commerce sports committee, sponsoring the game; President Pearce of Geneva and Frank Anderson, director of athletics at Oglethorpe.

A Good Remedy For A Dangerous Evil

We had scarcely gone to press last week with the issue of The Herald containing a warning against crooks, thieves and murderers under the caption, "Make Sanford the Safest City," when one of the most atrocious crimes in the history of the city was committed.

For the paltry sum of fifty dollars, a negro probably temporarily insane at the sight of money in the hands of a defenseless man, beat and clubbed to death with almost incredible brutality his own employer who had for a long time been furnishing him with the very means for his bread and butter.

But our purpose here is not to dwell upon this sordid incident. It is too late now to lock this particular door. But before we go on, we would say a word of praise for Sanford's police force and the sheriff's office, who combined their efforts in solving what promised to be one of the most baffling crimes in the whole country. Their work showed a high degree of intelligence worthy of similar organizations in the largest cities.

As far as the present and the future are concerned, we can only reiterate our former admonition to be careful and to be on the watch for crooks. Do not answer doorbells without first ascertaining who is on the outside. Do not go to bed at night carelessly leaving a door or window unlocked. Under no circumstances display jewelry or money in public and not even in the presence of a second or third person, if possible, unless he be very well known.

For the woods are full of thieves. Not more than a week or two ago, in Coral Gables, probably the best managed and most ably protected city in the state, a resident answered his doorbell and allowed a person to enter who claimed to be a Western Union messenger boy. The "boy" turned out to be a negro who knocked the resident unconscious, attacked his wife and then robbed his house, finally making his escape.

Such occurrences are known to be not uncommon to those who read the newspapers of the state. In one Florida town a prominent man was held up and robbed twice in one week, both times being struck and left unconscious. The Miami papers carry from one-half to a full column of holdups every day, which look very much like the personals on the society page.

The cause for this unusual state of affairs in Florida is not difficult to see. In the first place there are a great many persons in Florida who came here from other places with the idea of making a great deal of money in the shortest possible time. They had heard wonderful stories about the margin of profit on options, first payments and quick sales.

But with the collapse of the real estate boom and the consequent unemployment of thousands, many not only saw their prospective millions vanishing into thin air, but also found it difficult to make a meager living. They hated the lives of their friends which they knew would come if they returned home and they dreaded still worse the pangs of hunger.

But these are not the only ones who are now preying upon the public. Professional criminals from the big cities have long considered Florida a most admirable mecca for their illegal activities. While the stories of Florida millionaires with their diamonds and emeralds, their Packards and Rolls Royce, their almost childlike inexperience in handling large sums of money, drifted into northern slums, crooks turned their eyes southward more longingly than ever.

To combat this desperate situation on Florida has only the most woefully inadequate laws. It is an almost unheard of event for anyone to be convicted for anything more serious than speeding or violating some traffic ordinance. The police may arrest, but unless the courts convict and provide punishment commensurate with the crime committed, lawlessness will continue.

In North Carolina there is a law which provides the death penalty for any robbery by force. A burglar entering a house by breaking a lock is sentenced to hang. A holdup man, whether he gets anything from his victim or not, may be sent to death. It is not strange that North Carolina has very few law violations of this kind.

If Florida would improve the abominable conditions which exist, it might copy a page from North Carolina's law books.

The "Worship In Church Music"

Listening over the radio one Sunday night not long ago we heard a vocal gymnast produce a soprano solo. The lady was evidently singing something about "peace in Jesus," as those words could occasionally be separated from the trills and the warbling, but just how the noise she was making and the general style of her singing could be considered part of the worship in that church we could not see.

Perhaps there are people who receive spiritual benefit from fantastic singing by church soloists and church choirs. If they do that is something else we do not understand. The point is, how many more people are there who would greatly like to see simple singing restored to the churches? How many people are there who get nothing better than amusement out of the noisy anthems and the high-faluting solos that take so much of the time of a church service these days?

It seems that there must be a number of people objecting to that sort of music in the churches. We read in a report from the Committee on Church Music of the United Lutheran Church of America that "All the choir's acts must be acts of worship, and if an anthem be sung, it must be chosen with due reference to the day, season, or occasion, and be sung in a manner to inspire devotion."

There you have it, "sung in a manner to inspire devotion." We heard a music ballad sung the time with so much beauty and feeling, rough men wept, and while they were in this mood a Salvation Army man prayed. They "got" that prayer. On the other hand we have heard a hymn dressed up in such operatic music, melody was affected by its words. The man who followed it with a prayer brought nobody into a state of nearness to God. They were not in the mood for prayer.

Other churches as well as the Lutheran might do well to examine the amount of worship represented in their church music.

Several All-American football teams having been chosen as usual, why not a fictitious honorary newspaper staff? "Myself and my (pretender) (name or request) have agreed upon the following as the big All-American sheet," says Editor Henning of the Tarpon Springs Courier.

Editor: Henry Ford; Publisher: Red Fisher; Managing Editor: W. J. Rogers; City Editor: Arthur Brisbane; Hammett; Hugo Robinson; The Sanford Herald picks Cor-

As Brisbane Dees It

All Ready for 1927. Earth's Three Greatest. Rabbis, Heretics, Water. Introductory P. Lease. BY ARTHUR BRISBANE

VICTORVILLE, Calif., Jan. 1, 1927.—The new year of work begins. In the country everything is ready for those able to continue hard work with intelligence, and money, machinery and intelligence are here.

IF INTELLIGENCE can be granted to the government mind we shall also have victory. We lack that now and offer the ridiculous spectacle of a great nation trying to make itself safe with battalions and cruisers. A folly as great as though we tried to solve a transportation problem with hansom cabs and red wagons.

WHO ARE THE three greatest men in history? One answer published today, Lincoln, Christ, Confucius. All three wrong. The name of Christ cannot be included in any historical list of men, he is a spirit apart, from earth's men and their doings. Confucius was a serene, negative philosopher, and his negative teachings are reflected in China's 40 centuries of stagnation. Lincoln, a noble man, solved with his great honesty of purpose one of earth's passing problems, slavery, which history have killed by machinery and by preventing separation of the states. He enabled us to continue our more or less successful experiment in pseudo self-government.

DO WE GOVERN ourselves? Ask the farmers. They have the votes and the numbers and a few corporation and railroad men tell them what they may and may not have with the accent on the not. The name of Lincoln will be honored as long as it is remembered. But we have millions of years to go on this earth. Science may kill Gabriel will not appear for 100 million years at least; 10,000 years hence, Lincoln, Caesar, Napoleon Alexander, Poch, will be obscure names known only to the erudite, more obscure than that of Hammurabi.

THE GREATEST MEN are those that add most to constructive knowledge. Names that will outlast 10,000 years are Pythagoras, Thales, Aristotle, Archimedes, Copernicus, Kepler, Galileo, Descartes, Newton, and 108,000,000 names of the last century. We do not mean about Jack Dempsey.

You cannot include in the list any writer, musician, painter, or philosopher who will be known to civilized men of 100 centuries hence. Their efforts will seem as uncounted as the local galaxies of the billions of people would seem to us.

THE GREAT MAN among us is he who does his best and deals justly with others weaker than himself. Other greatness time washes away as waves wash away children's sand houses. We do not recognize the great when they are with us. Leonardo da Vinci is in his writings, so far as this writer knows, does not mention his citizenship, but he is a great man, and it would amuse you to dig out the Duc de Saint Simon's thousands of pages the paragraph that he devotes to Voltaire, "son of a stable pump brings up my father and me until the time of his death."

OF VOLTAIRE Saint Simon says further that he even achieved a sort of importance among certain people. The duke, who tells how he "fell to the floor and embraced the king's knees" when France was bestowed upon him from Louis, the great king, little dreamed that Voltaire was sending Louis Fourteenth's successor to the gallows and sending French dukes to marry American girls for living.

THIS IS WRITTEN in the San Joaquin station at Victorville on the Mojave desert, 69 miles back from Los Angeles over the Cajon Pass. A good natured young operator will get a late New Year's dinner that this stuff may go over the wire.

THE so-called desert is wonderful country. You should see the 6,000-acre Verde ranch two miles west of here owned by Campbell and Sorenson. Los Angeles lumber. From a dense arroyo with water rushes, forth right and day, 25,000 gallons a minute without pumping. And where the water refuses to come up of itself, an electric pump brings up each minute 10,000 gallons.

MILLIONS WILL FIND homes, efficient health, and freedom on this and other "deserts" that are marvellously fertile lands waiting for human intelligence and water to fulfill the Bible prophecy. "On the desert shall come out of the darkness as the sun, lightning and buzzards get them. Turkeys raise their young ones if the coyotes don't eat them. Doves can prevent that."

PROSPECTORS WITH heavy whiskers and thin donkeys wander over the hills as of yore. Offer one a steady job and he laughs for he is on the verge of a great strike and will die on that verge. The Spanish proverb says, "It takes a gold mine to keep a sober mine prospector." A prospector says at twilight that:

SON MA APPRETS told a friend says he, Lease would laugh at the suggestion, but he is a great man for he represents patriotism, love of country, which is devotion to family on a larger scale and acceptance for the world's program.

NEW CHEVROLET LINE ANNOUNCED BY SANFORD FIRM

Seven New Models Declared To Be Most Beautiful In History of Company; Line Includes 5 Closed Models

Sanford, Fla., Jan. 3.—The Chevrolet Motor Company today announced an entirely new line of automobiles headed by the most beautiful in history.

Published in the new line, which runs on display throughout the country today, are hosts of improvements, many of which were first introduced only in larger and more costly cars.

The new cars are mechanically finer, entirely new in body lines, master in appearance, complete in equipment and outstanding in the display of colors.

Many Standard Features
Some of the standard features on the new models are as follows: AC air-chamber, AC oil filter, halogen head lamps, headlamps, newly designed radiator shell, one-piece full-tension springs, heavier running boards, steering wheel new instrument panel, new rear assembly and conventional suspension and steering.

Beauty and refinement has been stressed in the design. Appointments have been selected to give thoroughness that promise to please the most fastidious motorists.

Telephone officials point out that although the expenditure for new construction and replacements will be smaller, the new plant was constructed during 1925, and the plant is now being expanded to meet the needs of the future.

Any Move To Oust Solon Must Come From State Senate
TALLAHASSEE, Fla., Jan. 3.—If any move is made to oust from office State Senator M. Daniel, it must come from the state senate.

SOUTHERN BELL TO SPEND HUGE SUM THIS YEAR

Nearly Thirty Millions Are To Be Expended In Nine States In The Southeast

A building program of \$25,700,000 is planned for this year by the Southern Bell Telephone Company.

The tremendous program outlined for this year follows an outlay of \$25,000,000 for similar work during last year and of more than \$24,000,000 for 1925.
