NUMBER 257

ECONOMIC BATTLE FOUGHT BY FRENCH AND GERMANS IN INDUSTRIAL REGIONS

RAILWAYS RUNNING ON REDUCED SCHEDULE ABOUT FORTY PER CENT

BANK REOPENS

And Funds Are Coming in Regularly Despite Berlin's Recent Decree

(By The Associated Press) DUSSELDORF, Jan. 22.—The Germans and French are both claiming the advantage in yesterday's movement in the economic battle which has been in progress here for the past ten days. The Germans hold that the strike of the miners is a complete success, but the French declare that the order for a general strike has not been followed by the miners, many of whom, although they did not report for work in the morning, went down into the pits later in the day.

The Associated Press correspondent visited the mines in Altenessen, which is the junction for Essen, and found practically the entire force at work. Coal was coming to the surface in quantities averaging between thirty and forty per cent of the regular output.

The railways are running on decreased schedule, about forty per cent of the trains having been cancelled. The tramway service is normal in both Essen and Dusseldorf, while the steel and iron trades are, as yet undisturbed.

Telegraph and postal rates have been tripled and the railway fares doubled. It now costs 1,550 marks a word to telegraph, to London and 900 to Paris, while the postal rates on a letter from Dusseldorf to Paris is 150 marks.

The reopening of the Dusseldorf branch of the Reichsbank is regarded with great satisfaction by the French as it will ward off for the present the crisis in paper marks and postpone the necessity of the French issuing new Ruhr currency. Despite Berlin's announcement that the government would no longer send marks to the occupied area, funds have been coming in regularly in a semi-clandestine manner. The French have been taking the greatest care not to interfere.

General Devigness is of the opinion that Germany is doing all possible to prevent a new and sound currency from being issued in the Ruhr, as never again could the depreciated mark be circulated among the population if the entire Rhineland and Ruhr occupied zones became independent of Berlin with a monetary system of their own.

The miners' strike to the unprejudiced observer appears to be a failure. Originally it was intended that the miners should go down into the pits, fold their arms and not work. After a few hours of idleness in the pits however, the miners became restless and began to work "just to pass the time away."

Yesterday afternoon, pit heads visited by the correspondent about forty per cent of the regular tonnage was being turned out. "What can one do in a coal mine but work?" a grizzled old foreman asked the correspondent with a show of great seriousness.

The workmen in the Thyssen plants at Muelheim and Essen have not yet carried out their threat to strike if General Simon, military governor of Dusseldorf did not release Fritz Thyssen. They are now awaiting the result of the trial of Thyssen and the other magnates at Mayence today.

Although there is a great state of ferment in the occupied regions, the populace is still refraining from interference with the French troops, except in the Bochum area, where the French have been called in several times to quell incipient riots or put down disturbances between the communist element and the organized national syndicates.

The communist element is gradually going over to the French in the region of Bochum. At Gelsenkirchen, the center of the Stinnesism and nationalism, the communists twice have asked French protection against the nationalists. Communist workers formed the greater part of the minority delegates voting against the strike at Essen last night.

The French continue to take measures of expulsion against state officials who refuse to obey instructions. Herr Spiess, president of the Wiesbaden region, was expelled yesterday.

Seven Refuge Ships, Filled With Russians, Lost in China Sea

Missing Vessels Have Not Been Heard From in Two Weeks

(By The Associated Press) MANILA, Jan. 23.—Fear was expressed here that the seven Russian refugee ships with more than 500 persons aboard had been lost in China sea enroute from Shanghai to the Philippines as part of Admiral Stark's fleet of Vladivostok exiles, five ships of which are anchored near here. The missing vessels have not been heard from in two weeks.

Police Search Automobile Camp For Missing Boy

Thought to Be Jimmy Glass, Member Prominent N. J. Family

(By The Associated Press) TALLAHASSEE, Jan. 23.—Police searched the surrounding tourist camps for a young man described to them yesterday by passing tourist as Jimmie Glass, member of a prominent New Jersey family kidnapped several years ago. Informant told police he knew boy well and recognized him on the highway southeast of this city.

GIRL ANARCHIST

(By The Associated Press) PARIS, Jan. 23.—Germaine Berthon, 20-year-old woman anarchist, entered the offices of the royalist newspaper, l'Action Francaise, yesterday, and fired two revolver shots, killing Marius Plateau, one of the officers of the paper. She then turned the weapon on herself and was taken to a hospital with a wound in the breast.

Don't fail to see "Miss Civilization," High School Wednesday night, 8:45. Admission, 25c. 257-26

A delegation of workmen of Thyssen from the mines at Mulheim, yesterday called upon General Simon, military governor of Dusseldorf, and demanded the release of Fritz Thyssen, who is awaiting courtmartial at Mayence on a charge of refusing to cooperate with the occupational authorities. The workmen threatened to strike if Herr Thyssen was not released.

General Simon refused, declaring that the magnate would remain in jail until his case was disposed of by the courtmartial.

LONDON, Jan. 23.—The critical situation in the Ruhr is a subject of much anxious comment by the morning newspapers, which regard the outlook as so dangerous that it is imperative that some way of relieving the deadlock be found.

Fear is expressed in some quarters that Great Britain be forced into some form of activity against her will. In some circles, also, it is feared that if France pursues the present line of her policy, she will be obliged to increase her forces greatly in the occupied district with the result that Germany may follow with military action which would mean war.

Some commentators entertain the belief that France is convinced she has miscalculated the German temper, and finding the results of the occupation not what she expected, she seeks a means of withdrawal, if possible without loss of her prestige.

To this end, it was stated here, that France is re-examining the British and Italian proposals, which she rejected at the Paris conference.

Meanwhile developments in the Ruhr are awaited with much anxiety. Strikes of miners in the Ruhr valley, called yesterday by the labor conference at Essen, were in progress at various pits throughout the valley today.

The strikes, complete or partial, were in the privately controlled workings, whose directors were arrested by the French last week.

Withdrawal of the occupying troops from the state owned mines properties that had been seized was followed by resumption of mining in these workings, although on a scale reported somewhat reduced.

BORAH ATTACKS FRENCH POLICY IN RUHR MOVE

SAYS IT IS RUTHLESS MILITARISM, VIOLATION OF ARMISTICE

(By The Associated Press) WASHINGTON, Jan. 23.—The French policy in the Ruhr was attacked as "ruthless militarism," a violation of the armistice terms and the treaty of Versailles, and "an offense against humanity," in a statement issued last night by Senator Borah, of Idaho, a Republican member of the senate foreign relations committee. Senator Borah also criticized the state department for what he said was its policy of silence and inactivity, and declared the United States at least should declare its attitude by formally protesting against the French policy.

"This is a situation," said Senator Borah, "in which the United States cannot with honor remain silent. The first duty of a nation is to protect its life when assailed, and its highest honor and glory in victory is to be just to a fallen foe. It is this rule which distinguishes the savage from the civilized nation."

"It was American principles," announced by President Wilson upon which the armistice was signed and it was upon these principles that Germany laid down her arms.

"It was our soldiers that made possible the defeat and disarming of Germany. According to these announcements and principles we declared officially and many times that with the German people as a people we had no quarrel, but a feeling of sympathy and friendship. In other words, we furnished the soldiers, the principles upon which the armistice was based which resulted in disarming and rendering Germany helpless, and we also made definite and certain pledges as to the treatment of Germany. After all that takes place, and at a time when Germany has been disarmed, and rendered powerless, her territory is invaded, military rule is established, all of which will bring in its wake indescribable suffering and untold misery to the German people, as a people, and in addition to that, great financial and economic loss to our own people.

"Even before the invasion took place this government had been advised by its own representatives that great suffering must obtain in Germany, throughout the winter and that thousands of women and children must die of starvation. The action of France accentuated that condition.

"The action of France is, in my judgment, without authority under the Versailles treaty. It is a defiance of international order and peace. It is an offense against humanity. What she is doing will not bring compensation but it will bring supreme suffering, not only to the Germans but to the people throughout Europe, and incalculable loss to our own people."

PLEADS NOT GUILTY

(By The Associated Press) WASHINGTON, Jan. 23.—Benedict Crowell, war time assistant secretary of war, pleaded not guilty in the District of Columbia Supreme Court yesterday to the indictment returned against him and six others here charging conspiracy in connection with the construction of army camps.

In a public statement issued upon his appearance in court, the former assistant secretary declared he had been given no opportunity to present the "facts" in the case to the grand jury which indicted him, and added that such procedure, by giving circulation to a "false charge," had constituted a wrong against "Every American citizen." Henry L. Stimson, who was secretary of war in the cabinet of President Taft, appeared as counsel for Mr. Crowell and also issued a statement in which he declared the charges brought against his client were "preposterous."

"It would be a sorry precedent, Mr. Stimson added, if the war work of men like Mr. Crowell was rebranded by 'suspicion and dishonor.'"

STAFF CAPTURED

(By The Associated Press) DUBLIN, Jan. 23.—The staff of the first southern division of the irregular military forces, together with all its records for the last six months has been captured by a column of national troops operating from Macroom County Cork.

RECEPTION TO DR. BROWNLEE AND VISITING MINISTERS UPON TENTH ANNIVERSARY HERE

Presbyterian Church Has Made Fine Progress in the Past Ten Years

The ladies of the Presbyterian church tendered Dr. Brownlee a reception last night together with his visitors, Dr. McCallie, missionary to Korea, and Dr. Hutcheson, missionary to China, who are here this week. The reception was to have been held in the new manse but owing to the illness of Mrs. Brownlee it could not be held there and was changed to the spacious home of Mr. and Mrs. H. R. Stevens where the beautiful home was made more beautiful by flowers and ferns, the entire lower home being thrown ensuite for the occasion. It was a most happy event with the various church members of the city being present to congratulate Dr. Brownlee upon the anniversary.

Mrs. Henry McLaulin in announcing the program for the occasion read the following poem:

There's joy and gladness in this hour,
When we as friends do meet
To show our love in our pastor
Brethren,
And our own missionary greet,
When he came to us he was a single man,

He looked our girls all over,
The choice he made was for Lillian
And since he has been in clover,
Ten long years he's labored with us,
And shared our joys and sorrows,
And each day is drawn nearer to us,
And will never be, in the tomorrows,
There's been clouds and shadows,
rain and sunshine

But we always know where our
preachers to find,
Whether day or night, hot or cold,
He's been ready to come, if he was
told,
Right here my dear friends a secret
I unfold,
Your preacher knows not your ills,
unless he is told,
He has had sorrows, in which we all
shared,
And our true feelings were to him
then bared.

It's these joys and sorrows that bind
us together
And I am sure Father Time, will not
these bonds sever.
Our church has grown from a little
band

To one that is known all over the land
And instead of being on the mission-
ary list,
We're supporting a missionary with
our very best.

The following most interesting program was rendered and greatly enjoyed:

Piano solo—Carmen Guthrie.
Reading—Miss Margaret Cowan.
Violin Solo—Claude Herndon.
Solo—Miss Mildred Holly.
Reading—Miss Geraldine Muriel.
Solo—Miss Herminia Lehman.
Dr. Hutcheson gave a funny Chi-

nese song or rather it was in English and about the Chinese lad who mistook the humble bee for a butterfly and suffered accordingly. Dr. McCallie gave the song, "Jesus Loves Me," in the Korean language and both of these songs were great. In fact the Presbyterian church has been greatly blessed by having these two fine workers in foreign fields here at the same time as they are old friends and class mates of Dr. Brownlee when he was in Princeton College and their presence here has been a great inspiration to the church. It was fine to have them all here together at the anniversary reception last night.

At a late hour delicious cake and orange ice were served and each guest presented with a bunch of sweet peas and they departed with the wish that the church could enjoy many more anniversaries. The radio was brought into play during the evening but Mr. Stevens announced that there was so much "static" in the atmosphere outside and inside that it could not be heard.

The Presbyterian church in Sanford has been greatly blessed in the past ten years under the leadership of Dr. Brownlee and the efficient board of elders and deacons. The new church and church plant finished several years ago is said to be one of the most complete plants for the size in the state and the church is a well built structure that adds much to the city of Sanford. Other changes will be made in the adjoining property from time to time with the addition of more Sunday school rooms and other equipment as the church has already outgrown the new edifice.

The new manse recently erected at the corner of Palmetto avenue and Ninth street is something of which the church is extremely proud. It is built of pressed brick and is two stories in height, containing seven rooms and sleeping porch and being most convenient and modern in every respect and is built most substantially and yet with an eye for the beautiful architecture. The new manse adds much to the value of the Presbyterian church property in Sanford and above everything else affords a nice home for Dr. Brownlee and his family and is a home of which every member of the church and the city in general is proud.

The anniversary reception last night was the culmination of the desires and hopes of the congregation to have a fine church building and manse and to keep building not only in church equipment but in the building of character, in disseminating the Christian religion in this city and in foreign lands and to do all that is needful in the great work of christianizing and evangelizing the earth.

COUNTRY CLUB POSTPONES BRIDGE PARTY UNTIL NEXT MONDAY NIGHT

Do This Rather Than Interfere With Party to be Given by Social Dept. of Woman's Club

At the time plans and arrangements were made for the large social event of the season at the Country Club which was to have taken place tonight, the ladies in charge were not aware that the Social Department of the Woman's Club was planning something for this night also. But now that it is known, the Country Club ladies are very anxious to co-operate with the other clubs and for that reason will postpone their party in order that the Woman's Club party will in no wise be interfered with.

They wish it announced, therefore, that all the different ones that have made arrangements for tonight at the Country Club, will change their plans and be present Monday night instead, keeping in mind always, that the bridge party is not confined to members of the club only, but every one in Sanford and any visiting friends are invited. This party is a subscription bridge and the proceeds will go for the further furnishing of the Club house and all the members of the Country Club are urged not only to be present themselves but to see that all their friends are invited.

The Woman's Club, in appreciation of the fact that the Country Club has changed their plans on their behalf have already signified their willingness to co-operate with the Country Club and with the fine arrangements already made, backed up by the social department of the Woman's Club, this party is bound to be the biggest and best social event of this nature ever pulled off in Sanford.

All bridge players who have not as yet made arrangements or reservations for this event, now that they have another week in which to plan, are urged to phone Mrs. S. O. Chase at once and make reservations for their party. Reservations can be made by phoning 125.

The Club House, already one of the best in this part of the state, will be beautifully decorated and prepared to accommodate this large crowd and the ladies will leave no stone unturned and will spare no efforts to see that every one is made comfortable for this affair, and inasmuch as these ladies are making such large plans it will be of help to them to know as far in advance as possible, just how many will be present and they urgently request that every one bear in

ANXIETY WIDE SPREAD REGARDING ENGLISH PART IN THE RUHR SITUATION

RUM FLEET IN POSSESSION OF THE OCEAN

DRIFT AROUND NEW JERSEY COAST LIKE DUCKS AND CLUTTER UP THE OCEAN

(By The Associated Press) NEW YORK, Jan. 23.—Substitution of a twelve mile limit for the three mile limit now drawn by international law has been recommended to Washington as a means of combating the rum fleet off the New Jersey coast.

This recommendation, it was said, was an outgrowth of the conference Saturday between Acting Collector of the Port Stuart and prohibition enforcement authorities.

The theory that extension of the customs limit would check liquor smuggling was based, prohibition agents said on belief that the small boats running liquor from the rum fleet to shore would find it dangerous to ply far from shore.

The rum fleet off the coast is taking on the proportions of an armada and is well armed according to officers of two vessels which arrived today. The captain of the Roquette which arrived from Sierra Leona Africa, estimated the fleet at from twenty-five to fifty vessels.

Captain Ernest Clarke, of the Orbits, saw a continuous line of rum runners extending from Fire Island to Ambrose Channel Lightship, while Second Officer Martin declared he had seen nothing but rum boats. The Orbits was delayed five hours picking her way through the fleet.

"The rum boats were drifting around like a lot of ducks," Martin said. "There was a heavy fog when we passed Fire Island at 2 o'clock in the morning. From then until 4 o'clock when we passed Ambrose lightship my heart was in my mouth. They were ringing bells, blowing horns and firing guns to give up their positions. It was like New Year's night on Broadway, only more so. I slowed down to half speed when I found what the situation was, but once I had to order full speed astern and throw my helm hard over to keep from cutting a steamer in half."

"They were ringing bells, blowing horns and firing guns to give up their positions. It was like New Year's night on Broadway, only more so. I slowed down to half speed when I found what the situation was, but once I had to order full speed astern and throw my helm hard over to keep from cutting a steamer in half."

NITRATE PLANT MUSCLE SHOALS SHARP CONTEST

IN THE SENATE OVER INTRODUCTION OF AMENDMENT

WASHINGTON, Jan. 23.—Introduction by Senator Norris, of an amendment to the army appropriation bill proposing appropriation of two million dollars for development of the nitrate plant No. 1 at Muscle Shoals paved the way for sharp contest later in the senate over the Shoals project.

EXTRADITION OF PEACOCK SET FOR AFTERNOON AT GOVERNOR'S OFFICE

(By The Associated Press) TALLAHASSEE, Jan. 23.—A hearing on the application of North Carolina authorities for the extradition of Dr. J. W. Peacock was set for this afternoon in the Governor's office. Dr. Peacock's attorney is here to appear at the hearing and inspect the charges brought by the Carolina officials.

The "Scrap Iron Class" in the Princeton theatre will be treated to a violin solo next Sunday morning at 9:40 a. m. by Miss Mary Stoinoff, daughter of M. Stoinoff, one of our leading Celery avenue farmers. It will be an agreeable surprise as Mary is coming to be an artist on the strings.

mind that the party will take place Monday night, January 29th, starting at 8 o'clock sharp and that reservations should be made at once. Phone Mrs. Chase today, and your party can't be too large, every one will be taken care of.

REPORT THAT FRENCH ARE EXTENDING ACTIVITIES TO COLOGNE IS DISQUIETING

French Order for Expulsion German Officials in British Zone Reaches London

(By The Associated Press) PARIS, Jan. 23.—Complete isolation of the Ruhr valley and absolute severance of its communication with the rest of Germany was announced today in government circles as the next step in the French struggle against German resistance if the resistance continues.

BERLIN, Jan. 23.—Since morning 65,000 employees of the Stinnes works and 100,000 of the Thyssen works in the Ruhr have been on strike according to information.

MAYENCE, Jan. 22.—The trial of Fritz Thyssen and five other industrial magnates arrested in Ruhr and set for today has been postponed until 9 o'clock tomorrow. It is understood that the defense attorney pleaded lack of jurisdiction and incompetence of the French court.

LONDON, Jan. 23.—Anxiety so widespread here regarding dangerous situation in Ruhr is impressed by reports that the French are extending their activities to the Cologne area. New of a French order for expulsion of German officials in the British zone reached London too late to receive much comment in the morning papers, but in a few criticisms appearing it was apparent that disquietude over the prospect that the British forces in the Cologne area might be drawn into a fresh conflict with the Germans.

BRUSSELS, Jan. 21.—Several shots were fired today at American Liaison officer attached to the Belgian headquarters at Aix-la-Chapelle, according to a dispatch. The officer was not hit.

BERLIN, Jan. 23.—The Bavarian government has declared it is unable to longer guarantee safety to the French minister at Munich, according to information, and France has been informed to this effect by the Berlin government.

BERLIN, Jan. 23.—All German customs officials at Mayence and Gussausburg, are on a strike protesting the arrest of Director of the Customs and other officials, according to information.

SANFORD TO BUILD MUNICIPAL DOCKS WITH BOND ISSUE

Announcement is made by the U. S. Engineers, office, Jacksonville, of a public hearing at Sanford, January 26 on the application of that city to construct a dock and basin in Lake Monroe for the accommodation of commercial and pleasure craft incident to increased commerce in the bustling Seminole county metropolis.

It is reported that the project, which is initiated as a municipal endeavor, calls for the construction of a dock 275 feet long by 82 feet wide with a bulkhead 125 feet by 125 feet at the foot of Park avenue, supplemented by a steamship basin stretching from the east side of the dock to the west side of Palmetto avenue.

Municipal bonds will cover the expense of the improvements it is said and the necessity is occasioned by St. Johns river improvements asked by the citizens of Sanford, a hearing on which will follow the proposed municipal dock meeting. Sanford is setting to the task of a full utilization of the waterway by meeting the U. S. Engineers' requirements of docking facilities it is claimed and which must be established or definitely arranged before improvements in the river channel are possible.—Palatka News.

WASHINGTON, Jan. 23.—President Harding yesterday sent the name of Mrs. Elizabeth J. Barnard to the senate to be postmaster at Tampa, Fla.

BAD LUCK-OR GOOD?

No luck about it when you buy Men's or Boys' SUITS, HATS, SHOES and FURNISHINGS from us, it's just plain common sense to come here and take advantage of our Splendid values from day to day. Let this fact strike you and you will be our customer.

J. J. N. CONNER, Manager

Sanford Shoe & Clothing Co.

SOCIETY

MRS. FRED DAIGER, Society Editor Phone 217-W

If you have any friends visiting you... write a card in this department...

SOCIAL CALENDAR

Tuesday—Social Department will have an Evening Bridge party in the club rooms at 8 o'clock. Mrs. Don Smith, hostess. Phone Mrs. R. A. Newman for reservations.

James C. T. Pund and Arthur Hazard of Augusta, the attractive guests of Mrs. T. L. Dumas.

Miss Ethel Gordon, of Elizabeth, N. J., is the attractive guest of Mrs. Maurice Kronen at her home on Tenth street.

Joseph Kendall Henry arrived yesterday from New York and is the guest of his parents, Mr. and Mrs. J. S. Wilson and sister, Mrs. John C. Smith. Mr. Henry possesses an unusual voice and was here about three years ago and made many warm friends who will be interested to learn of his return.

A. E. Crandall, of Pittsburgh, Pa., and Herman A. Huhn, arrived yesterday by boat and are the guests of Mr. and Mrs. J. S. Wilson. This is Mr. Crandall's fourth winter in Sanford and marks many changes here. This is Mr. Huhn's first visit south, and he is greatly pleased with Florida, particularly Sanford.

KENT-WALKER WEDDINGS

In the presence of a large assemblage of friends and relatives, the marriage of Miss Claire Walker and Mr. Beecher Kent was beautifully solemnized Saturday evening at 6 o'clock, at the Congregational church, Rev. Paul Burhans, officiating, the impressive ring ceremony being used.

About the chancel stately palms in graceful arrangement formed the background for pedestal baskets holding golden chrysanthemums and purple asters. The choir rail was covered with gold cloth and studded with purple and gold chrysanthemums. The choir loft and balconies were banked with palms and tall bamboo. The entire edifice being encircled with these.

Before the entrance of the bridal party an appropriate program of nuptial music was rendered by Mrs. Seth Woodruff, organist, assisted by Miss Grace Logan, violin, and Miss Hermina Lehman, vocal. The bridal chorus from Lohengrin was used, as processional and Mendelssohn's Wedding March used as recessional.

The ushers were: Ralph Clayman, Edward Randall and Henry Nickles and the groom was attended by his brother, Harry Kent, as best man.

Acting as maid of honor was Miss Ethel Moughton, who was attired in a beautiful gown of violet changeable taffeta, draped model, combined with gold lace. Her hat was of black velvet and lace and trimmed with ostrich. She carried an arm bouquet of gold colored chrysanthemums tied with violet tulle.

Mrs. M. Minarik, as dame of honor, was lovely in an exquisite costume of gold changeable taffeta combined with gold lace. With this she wore a black hat, trimmed with an Oriental ornament. Her flowers were purple asters tied with gold tulle.

Little Miss Mary Chapman, the winsome little daughter of Ralph Chapman, was the little flower girl, wearing a dainty frock of gold color.

Country Club to Be Scene of Bridge Party Tomorrow

Will Start at 8:30 P. M. and Will Be Open to Every Bridge Player

One of the most prominent bridge parties of the season will take place tomorrow night at the Sanford Country Club, and will be a subscription bridge, the proceeds of which will go towards the further furnishing of the Club House.

This party is open to all, regardless of whether or not they are members of the Country Club and one of the largest crowds ever attending a party of this kind is expected. The house is being prepared for the occasion and accommodations are being made for this large crowd, and Mrs. Deane Turner makes the request that all parties wishing to make reservations should phone her at once.

There are very few things much nicer than a pleasant afternoon on the golf course to be followed by a nice shower and good eats at the Club House afterwards and in order to make this possible, the necessary furnishings and equipment must be secured. The ladies have taken it on themselves to secure these furnishings and will use the proceeds of this party to that end.

In addition to the good that will result from the proceeds of this affair tomorrow night, the party itself will be well worth attending, and for that reason every bridge player should be on hand. Phone Mrs. Turner and make your reservations at once.

JENNY SPAULDING CIRCLE

The Jennie Spaulding Circle met Wednesday afternoon at 3:00 o'clock at the home of Mrs. Chas. Collins.

The meeting opened with scripture reading by the chairman, Mrs. Loring. The time and place of the next meeting will be announced later. All the Baptist ladies of the Heights are urged to attend these meetings.

HARRY FLOWERS KILLS LARGE WILD CAT

Harry Flowers shot and killed a wild cat last Thursday while hunting near the shore of Puzzle Lake. Harry said that he was a mean looking animal. The cat measured about five feet from tip to tip, and about two feet high. This only goes to show that we have the finest hunting here in Seminole county of any place in the country, as a man can go out for big game as well as small game, with as much sport to it as if you were in the jungles of Africa.

WEEK'S WEATHER

South Atlantic and East Gulf States: Considerable cloudiness with occasional rain beginning of week and again Thursday or Friday; normal temperature.

LUXOR, Egypt, Jan. 22

What is believed to be the oldest specimen of canned beef in the world, have been discovered by excavators in the tomb of King Tutankhamun. While it was not wholly palatable, being 3,250 years of preservation.

TO THE PUBLIC

On or about February 1st, the QUICK SERVICE TRANSFER CO. will put on a parcel delivery truck, a much needed service in Sanford. Parcels or packages of one hundred lbs. or less will be delivered to any place or residence adjacent to the hard surfaced streets, at a price that will be cheaper than carrying them. This company has recently added to their equipment, one Dodge Bros. ton and a half truck bought of the Sanford Motor Co., and one ton and a quarter ton truck, bought of the Wilson Motor Co. and are contemplating the addition of several more trucks to take care of their steadily increasing business. They are now prepared to handle anything from a small parcel to a piano or safe anywhere in the state of Florida. You will make no mistake in calling on them for anything in their line of business. Remember their phone number, 498. 256-Mon-Wed-Fri

LUCKY THIRTEEN

Mrs. Hal Wight entertained the members of the Lucky Thirteen bridge club most delightfully Saturday afternoon at her apartment in the Welaka. There were three tables of players.

Exceptionally interesting was the game of bridge played and the prize for high score, silk hose, was awarded Mrs. H. B. Lewis.

Following the card game, the hostess served a tempting salad course and coffee. Favors of dainty baskets of salted peanuts and mints were given.

The guests for the afternoon were Mrs. M. S. Wiggins, Mrs. H. B. Lewis, Mrs. A. B. Wallace, Mrs. Claude Howard, Mrs. Fred Walama, Mrs. E. P. Householder, Mrs. B. J. Perkins, Mrs. A. W. Fitts, Miss Mable Bower, Mrs. E. F. Roumillat.

BOOK LOVERS' CLUB

Miss Annie Hawkins was the charming hostess Friday afternoon when she entertained the members of the Book Lovers' Club most pleasantly at her home on Celery avenue.

The rooms were adorned with quantities of sweet peas in the pastel tints, and the afternoon was spent with discussion of books and current events.

Late in the afternoon, the hostess, assisted by Mrs. Brown, served fried oysters, hot rolls, nut bread, fruit salad, coffee and strawberries topped with whipped cream. Each guest was presented with a large bouquet of sweet peas as favors.

The guests included Mrs. R. J. Holly, Mrs. Henry McLaulin, Mrs. J. E. Pace, Mrs. Stella Arrington, Mrs. J. C. Bennett, Mrs. Harry Ward, Mrs. I. P. Hogan, Mrs. Fred Williams, Mrs. A. E. Hill, Mrs. E. P. Morse and Mrs. Brown.

SOCIAL DEPT. EVENING BRIDGE

Tomorrow (Tuesday), the members of the Social department of the Woman's Club will have an evening bridge party at the club rooms at eight o'clock. All the members and their husbands are invited and expected to come. Please phone Mrs. R. A. Newman (26) and let her know if you are coming, as a large crowd is expected.

LOCALS

And our weather is great right on.

We would advise the growers to hold to what they have until they know more about it.

P. J. Feitner of Osceola was in the city today on business and shaking hands with his many friends.

The County officials are being congratulated upon the quick work in getting the drunken speeder Sunday.

J. C. Snyder of Chuluota was in the city today and stated that he and Mrs. Snyder were on their way to California for a visit with relatives and they will be gone until early summer.

Lon Burton of Orlando was in the city yesterday the guest of his cousin, Robert Deane. Mr. Burton is an old newspaper man who is now in the moving picture game but he has not altogether renounced the pen for the cinema.

Al Crandall of Pittsburg has arrived in the city and will be the guest of Mr. and Mrs. J. C. Wilson. Mr. Crandall comes to Sanford every winter and finds marked improvement in his condition thereby. In fact, Mr. Crandall says the Sanford sulphur actually cured him of rheumatism. His many friends are glad to see him again.

Mr. and Mrs. J. C. Wilson are happy in the possession of their son, Joe Henry of Pittsburg, who is down for a month's visit. He has not been here since the war at which time he was with the Marine corps at Sullivan's Island and spent a short furlough here. Joe has a wonderful voice and his many friends are hoping to hear it often while he is here.

THE WEATHER

For Florida: Local rains tonight and Tuesday; cooler in North portion Tuesday.

TO YOU UNCLE FRANK FORSTER

There is a little squib in this issue that tells about Hon. F. P. Forster entering the banking business here just forty years ago. This is some record and proves that good men enter at the bottom of the lists and by close application to their work eventually get to the top and the top is where Frank Forster stands today—the dean of the bankers of this county. Forty years ago when Sanford was young and Mr. Forster was young he came to this section from his old home in Washington Court House, O.

That booze fleet outside of New York harbor is certainly a joke on the prohibition laws of this country.

The celery crop at Sanford is all right. The growers are cutting and shipping and getting good prices for their celery and should keep a stiff upper lip. Don't let anything interfere with the crop.

There are all sorts of rumors put out here every year about the crops and the prices and they should be stopped. There is only one thing that governs the prices of all articles and that is the law of supply and demand.

Orlando is preparing for a big floral parade and Flower Day on the order of the great celebrations at Los Angeles every year. This is a move in

U SELL YOUR REAL ESTATE WHEN U LIST IT WITH US. We feature auto insurance and we are ready to explain all the different kinds of policies you can have written on your car. Call us up.

Maxwell & Britt REAL ESTATE AGENTS. Fire, Casualty, Auto Insurance. 105 W. First St., SANFORD, FLA.

the right direction. Florida has flowers in profusion and they should be displayed for the benefit of the winter visitors and Orlando can do this just as well as Los Angeles. Have the flower parade by all means.

A ride over this country will convince anyone that the Sanford section is built upon a solid foundation and it is the greatest section in the world. All we need to do is to keep everlastingly at it and we will win in the end. This city and this county are on the eve of a wonderful growth. Keep it going strong and don't let anything deter you.

A gentleman who was here about seven years ago and has not been back since until yesterday said that he had not seen such a marvelous growth in any city in the United States and he travels from coast to coast. The last time he was here he had no hotels and now he claims that he had better service at the Valdez than he has received anywhere in the south at a very reasonable rate.

The trouble in Germany will be adjusted and the world will settle down to an era of peace and prosperity if the various nations will forget about conquest and more power and more territory. Let them follow the attitude of the United States and they will become as great a country as America. Get the greedy, grasping spirit out of their systems and forget all about war for the next hundred years and go to work.

SEE THAT WE GET GOOD STREETS

Now that the contract for the first portion of the city streets has been let for sheet asphalt, it behooves the city commissioners to see that the tax payers get a square deal. These streets are to be better than any other kind of material that is made for the price. They are to last at least fifteen years without any maintenance charges. They are to be as good if not better than the present brick streets. They are to cost less than the brick streets. All of these claims have been made for the asphalt streets and while the contractors who put them down will not be here in the next five or ten or fifteen years the City Commissioners will be here and they will either have the compliments or the curses of the taxpayers and it will be up to them to make good. As this paper said before the contract was let—eighty per cent of the taxpayers wanted brick. The City Commissioners are doing what they think is best but they will have to prove it to the satisfaction of the people who pay for the streets.

DRAINAGE FOR HEALTH'S SAKE

Solomon said "To everything there is a season and a time to every purpose under the heavens—a time to cast away the stones and a time to gather the stones together." Digging ditches was not specifically referred to by the wise man, but everyone with any experience knows that ditch digging is an occupation to the general rule, with this as with everything else, there is a time when it can be done to the best advantage.

How many farmers, however, know that one of the best times for ditching in the southern states, if not the very best, is during the late winter months. At this season of the year the farm labor at least has some choice in the selection of work. During the summer rush there can be none. Then, too, soil conditions in the Southern states are apt to be exactly suited for ditch digging in January and February. Our heaviest rain fall in the south at two periods, during January and February, and during June and July. But, someone says, you would not expect us to do our ditching in standing water with the soil saturated like a sponge? Not entirely. We were thinking of the outlet ditches, the biggest part of the job and the most expensive. The small laterals can be dug at any time but if the farmer wants to save money and time he will dig his main outlet ditches with dynamite when the ground is wet. The wetter the better.

Dynamite works much better in wet soil than it does when the soil is dry, because under these conditions dynamite will give a complete ditch, requiring very little if any hand cleaning; three hundred to four hundred feet of ditch can be shot at one time, thus requiring only one blasting cap; all stumps can be removed cleanly; and the dynamite holes which must be spaced 1-1/2 to 2 feet apart can be put down much faster and also cheaper.

In ditching with dynamite where the soil is well saturated with water material can be moved at a cost of from twelve to eighteen cents per cubic yard. Under favorable conditions a crew of three men can complete a mile of main outlet ditching in four days by using dynamite properly spaced and loaded.

Ponce de Leon crossed the Atlantic Ocean and searched the Western Hemisphere in vain for the fountain of youth. Any southern farmer can find it, or something just as good, on his

own little farm by draining the mosquito breeding swamps and ponds and by protecting himself and his family against malaria and the other preventable diseases. Your state health department employs experienced sanitary engineers who will advise you upon request relative to ar drainage as a health measure.

GET ON THE WATER WAGON

The Attorney General, Mr. Daugherty, says a wise thing in his message to the people when he urges them to obey the laws—and all of them. Mr. Daugherty says: "Obey the laws in the spirit, and the letter—all of them, even though there be some that, in your opinion, hurt." That is good advice and should be followed. Citizens, you can not kick against the statutes, for they are law, and you will suffer in the end. We refer to the prohibition law, as does the Attorney General. It stands at present as part of the Constitution, and it is doubly dangerous to break it. Those who manufacture, buy or sell liquor may be arrested, while those who drink it may die or become blind. It is dangerous to traffic with bootleggers in these days. The stuff they sell is poison, and if it does not kill outright it destroys the eyesight. If men will swear off they will be better for it; they will at least not run the risk of swallowing poison and they will have more money when 1924 comes. Prohibition may not last forever; well advised persons expect beer and wine to come back in a year or more, and until then, and until the stuff is known to be real and pure, our advice to folks is to get on the water wagon and stay there.—Tampa Tribune.

SOUTH FLORIDA ROADS

Of course Polk county found it possible to spread her good roads money over an immense mileage by using clay as a foundation for the sheet asphalt, but the upkeep is proving very expensive. It is a favorite saying of road-building engineers that a road is no better than its foundation, and Polk county is certainly furnishing a demonstration of the truth of the axiom. The roads immediately north of Lakeland are in particularly bad condition, and it is evident that the fault at every place where the road has "gone bad" is with the foundation. The brick road—the main highway—in Osceola county is also in bad condition, because of neglect; and there are several wood bridges which are actually in dangerous condition and are likely to bring on damage suits which may cost the county more than would the replacement of these dilapidated structures with modern concrete bridges.

The same road extending through Orange county is also in bad condition, although this county is having rock shoulders laid on each side of the 9-foot brick road, which will make it safer and easier for the traveler. The roads in the vicinity of Orlando are excellent, especially the new road from Orlando to Winter Park. This is constructed of vitrified brick with asphalt filler.

The enormous travel carried by these roads makes it incumbent upon the boards of county commissioners to keep them in good condition. The development of a county is materially influenced by the condition of its roads. A traveler viewing the country with a view to location will be favorably impressed by being jolted over rough roads, and possibly having his car damaged.

The substantial roads which Hillsborough county has built in recent years stand out conspicuously by comparison with the roads in many other south Florida counties. After long years of experimenting with various materials, we have been convinced that the best is the cheapest. We have had permanence in view, rather than great mileage, and we have found it a profitable policy.—Tampa Times.

A LESSON ON BUY AT HOME IDEA

The Star-Telegram is in receipt of an unsigned communication, written in good faith, do doubt, which refers to the matter of buying at home. This newspaper, like all other well regulated offices, seldom pays any attention to unsigned letters which contains statements oftentimes that are severe and which leaves no way to get at the real proof, but the sentiment expressed is pertinent and should be recognized just the same. The writer of the article cut out an editorial from one page of the Gainesville Sun's plea of trading at home and out of the same issue from another page cut a reference in an ad from a Lakeland store, which told about how they were selling goods bought from another city not far away. When such a proposition as that is put up to a newspaper there is no way out, except to say that people who sell and people who buy both need a little education.

The writer of the article says he is a farmer, and also tells about how the farmers cannot sell their eggs

THE HERALD'S PLATFORM FOR 1923

- 1.—A new Library Building in the center of the city.
2.—Extension of the present bulkhead on the lake shore.
3.—The new pier and boat basin finished before January, 1924.
4.—A big Auditorium that will seat at least 5,000 people.
5.—New home for the Campbell-Lossing Post, American Legion.
6.—A Community Chest out of which all funds will be drawn.
7.—Two mill tax for publicity purposes.
8.—Municipal ownership, starting with water works and soft water.
9.—Systematic mosquito campaign and cleaner city.
10.—Ten thousand people here one year from today.

and their produce in Lakeland markets and how there is no encouragement for them when they do come to Lakeland to trade. There is evidently something wrong when such a sentiment as that gets out and both farmers and merchants should do all in their power to correct it. Merchants are entitled to a fair profit just as the farmer and every other person is entitled to a reasonable price for his wares and we all want to work together to correct the faults that are in the present trading system, so that we can make Lakeland the best place and the most attractive center in this whole section. If this farmer and others who feel that they are not getting the right kind of a deal will just go to the point of contact to help solve the problem directly with the standing will be eliminated.—Star-Telegram.

DILIGENCE IN COLLECTING

The following from the October bulletin of the Canadian Press Association is worth reading, and if religiously followed would place many a newspaper office on the right side of the ledger. Too many publishers are seemingly afraid to make their collections, and postpone the day of settlement just as long as possible. Have a monthly settlement, and collect what is coming to you and pay what you owe, also. The Bulletin says: "Many men are able to produce an article and sell it; but it takes a very able man to make, sell and collect. It is about collecting promptly that the attention of our members is desired. More time should be set aside in weekly newspaper offices for this important task. Job printing should be billed for and collected monthly. Some of our members who are successful send the bill along with the delivery of the printing. Advertising accounts may be sent out monthly to regular advertisers, and certainly not less than quarterly. By constantly looking up the delinquent subscribers the circulation can be kept fairly well paid up. Reports for the past year show that collections are slow. The member who is always diligent in sending out accounts is not feeling the tightening-up process quite so much as those who have not made it a practice to collect promptly, and who have, therefore, much money on their books. Farmers, during the fall, are more able to take care of their bills. The crop is off, and they are likely to be in better spirits. Members are urged to see that the front office work is kept up, and the books and subscription lists are gone over regularly. Keep up the work of collecting."

TAKING INVENTORY

At this season of the year business and professional men are taking an inventory of their assets. The Chamber of Commerce, the most important industry in the city, is taking an inventory of its greatest asset, its manpower. It cannot hope to succeed without this potential force, expressed time of the annual drive for funds without which the organization can not function and perform its duty to the city.

Persons in the community who have anticipated a possible defection in the ranks of the membership and who thereby might hope to have an ex-

cuse for shirking their own responsibility, will find little comfort in the spontaneous response from all quarters last night at the membership meeting which started the drive. Any lingering hope was completely shattered when the opposition leaders in the last election, led by the man who was the defeated candidate for president, headed the list with their usual generous contributions. It was a particularly striking confirmation of their statement during the heated campaign that the personal element was not entering into the position they took and that the Chamber of Commerce is bigger than any individual or set of individuals in it.

It is also worthy of comment that their subscriptions which had voluntarily been handed to President Coburn were read by that officer as the formal announcement of the opening of the drive for this year. It behooves every man and woman in the city to get squarely behind President Coburn and the Chamber of Commerce just as these men have done.—St. Petersburg Times.

"MISS CIVILIZATION"

"Miss Civilization," a one act play by Richard Harding Davis, will be given at the High School on Wednesday, January 24th, at 8:45 p. m. In addition, a short musical program with readings will be given.

This play is produced only by special permission of Collier's Weekly and the Walter H. Baker Publishing Co., of Boston, Mass. It is highly dramatic and has a thrilling climax which holds the audience in deepest suspense.

This play will be given to raise money for the High School orchestra. The admission is only 25 cents to all. Remember the date, Wednesday evening, 8:45, after church. 257-21

THREAT AGAINST SOUTH

WASHINGTON, Jan. 22.—Calling attention to published reports that the shipping board is planning to discontinue certain gulf and south Atlantic lines, Senator Fletcher, democrat, Florida, declared in the senate that if such action was taken he would demand an investigation to determine whether it was designated as a punishment for "those communities whose representatives are opposed to the ship subsidy."

"The explanation that the lines are showing heavy operating losses will not hold water," Mr. Fletcher asserted. "It's simply a threat," he said, "that if the subsidy bill fails these parts will not have the ship."

"Miss Civilization" at the High School" Wednesday night at 8:45. 257-21

NOTICE

The Honorable Board of County Commissioners in and for Seminole County, Fla., will receive bids at their next regular meeting to be held on Tuesday, February 6th, A. D. 1923, at 10 o'clock a. m. for the purchase of one 1-ton truck. Board reserves the right to reject any or all bids. E. A. DOUGLASS, 1-15-o.a.w-tfc

Fish Shipments For Past Two Years Totalled 116,915,000 Lbs.

(By The Associated Press) TALLAHASSEE, Jan. 23.—Shipments of scale fish in Florida, in the past two years totalled 116,915,600 pounds, according to a statement issued today by T. R. Hodges, shell fish commissioner, while those of shrimp amounted to 19,552,000.

Oyster shipments for the same period totalled 190,000 barrels, while 9,206,000 sponge were marketed. Describing saltwater fish, oysters and sponge as the most valuable natural resources of this state, Mr. Hodges stated that the combined industry was worth approximately \$28,563,000 for the past two years.

The industry is "today affording employment to more people than any other industry except perhaps farming, and a great many farmers are fishermen for half the year in the coast counties," the statement said.

Explaining that he felt the people of the state "who are the sole owners" of the industry should have an accounting of his stewardship as shell fish commissioner, Mr. Hodges stated his department had "credits" to the amount of \$23,988,200 the first of the year. In this connection he listed the following items: Cash in treasury, \$9,877,584; cash in bank to be deposited in treasury January 1, \$4,954,611; cash deposited in general revenue fund, \$2,455,241; boats and other property acquired, \$3,688,614; replanting oyster bars, \$2,792,231; total credits above running expenses \$23,988,200.

"This department," the statement continued, "without appropriation and relying entirely on license taxes collected from those engaged in the industry has been able to control the entire coast line and enforce the laws. "Our records show we have been able to secure about 75 per cent convictions for violations of the law and we have a warehouse full of illegal gear and nets that were taken without prisoners."

SUBSCRIPTION BRIDGE PARTY

The members of the St. Agnes Guild will give a Subscription Bridge party at the Parish House, Wednesday afternoon, January 24th at 3:00 o'clock. Phone Mrs. Archie Betts (222) or Mrs. S. M. Lloyd (45) for reservations. A good time is assured. Make your reservations early. Price 50c. 250-1-15-17-19-22-23-c

Principals and Teachers, of Florida H. S. Received Training

(By The Associated Press) GAINESVILLE, Fla., Jan. 23.—Forty-four of the leading high school principals and more than 1,000 teachers in this state received their training at the Teachers' College of the University of Florida, it was stated at the university today in connection with the campaign to raise \$250,000 for a student activities building.

"Citizens of this state," said Dr. James W. Norman, dean of the Teachers' College, "are not familiar with the work being accomplished by this branch. The Teachers' College not only educates men for public school service but it also helps the state in other ways. Lectures are frequently given through the state by prominent educators. Teachers and principals are advised of new educational practices. Bulletins, containing worth-while suggestions are distributed. More than 1,050 of our students have been placed in teaching positions in different communities throughout the state."

In the past five years the enrollment in the regular sessions of the Teachers College has increased more than 50 per cent, according to Dr. Norman. The increase in the summer school enrollment has been still greater. From 74 students in 1910 to 890 in 1922 is the advance he recorded more than 890 per cent.

RECOVERS FROM LA GRIFFE COUGH

"Was very bad with La Grippe and had a severe cough. Took Foley's Honey and Tar and it stopped my cough and I got better," writes Mrs. Mary Kibby, Spokane, Washington. Coughs resulting from La Grippe, influenza, Bronchitis, Whooping Cough, Asthma and Spasmodic Croup are quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the world. Refuse substitutes. Insist on Foley's Honey and Tar. Sold everywhere.—Adv.

666 is a Prescription for Colds, Fever and LaGrippe. It's the most speedy remedy we know, preventing Pneumonia.

Be Sure and See the New STUDEBAKER and Chevrolet. Models at our beautiful Show Rooms and Filling Station—High Grade Mechanic in charge of our Repair Department. Prompt Service and Courteous Treatment—Pay Us a Visit. —LADIES' AND GENTLEMEN'S REST ROOMS— San Juan Garage Co.

HERALD COLLECTIONS. The Herald carriers manage and control their routes, pay in advance for all papers drawn, and absolutely depend upon their collections for their running capital and profits. When subscribers neglect to pay them it is the CARRIER and not THE Herald that stands the "brunt." Subscribers who do not care to pay the carrier each week may pay the Herald two or more months in advance and they will pay the carrier each week from this fund. This system of delivery is known as the INDEPENDENT CARRIER PLAN and is used by most of the larger newspapers of the country and has proven beyond doubt to be the very best plan of delivery. When a boy manages his own route, buys and sells at a profit he is in business for himself in exactly the same sense as any merchant. He knows he must give service to be successful and build up his business. He knows that every new customer he secures means more profit. In short, he knows he must conduct his business in a capable and efficient manner to be successful. The Herald earnestly requests its subscribers not to discourage these boys in this, their first business venture, by refusing to pay promptly each week for their newspaper. THE SANFORD DAILY HERALD.

ROTARY CLUB FINE MEETING, MANY GUESTS

ONE OF THE MOST INTERESTING MEETINGS OF THE YEAR

Sanford Rotary had a meeting, filled with pep, good songs, good talks and plenty of the right kind of spirit today at the Valdez Hotel when the club members and many visitors sat down to one of Cattaraugus' popular repeats. President Thrasher called the club to order and asked Dr. Blackman to invoke the blessing. F. L. Wooltagel, the "sweet singer of Zion," one of the guests, then rendered "Friend of Mine" with Miss Mildred Simmons accompanying him on the piano and he did it so well that he was forced to give "My Little Banjo" for an encore. The visitors were then introduced and made to stand after the entire club had stood up in honor of Miss Mildred Simmons, the only lady guest. The following visitors arose to their names:

Major Wilson, of St. Augustine; Ted Gates, of Fairhaven, Mass.; J. P. Holbrook and Walter Ross, of Orlando; Dr. King, of Sanford; and E. L. Wooltagel, of Asheville, N. C. Dr. Blackman, of Sanford; Mr. Gentry, former president of the Bell Telephone Co.; Dr. Hutcheson, of Hankow, China. The latter gentleman was introduced by J. G. DeRose and gave a fine talk on his work as a missionary to China, his particular work being in the medical department of this great field. Dr. Hutcheson exemplified Rotary in "real service" and Dr. Hutcheson talked most interestingly on China and the joys of this nation for America because the great heart of America has ever beat for the oppressed of all nations. We are doing a great work in China especially in the missionary field and the work in hygiene and sanitation is bearing fruits. Among other things, Dr. Hutcheson mentioned our work in suppressing the opium habit and the habit of binding the feet of the young children in China and other ideas of the heathen ages.

Ted Gates, of the New Bedford, Mass., Rotary Club, said he was a banker but he was also a Rotarian and had the feelings of a human being even though it was hard to believe among the people of his business. He said that he was glad to be here and he looked it.

Dr. Blackman made a fine talk in his usual humorous style and also called the attention of the club to the fact that their work in "beautifying the highways" would be exploited at Lake Monroe next Friday night at which time Carl Lehman, secretary of the Orange county chamber of commerce would be present to talk on this important subject and many of the Rotarians will be present.

Dr. King told of how glad he was to be present and invited all of them up to the Baptist church to the revival services and Mr. Wooltagel put them all in good humor with his inimitable talk telling them how glad he was to be in Sanford and invited the whole club up to Asheville to see him "come at a time." He then gave another song "My Little Home on the Hill," probably inspired by his home in the mountains.

President Thrasher reminded the club that on January 13th the District Governor Porter Pierpont would be here as the guest of the club and it was decided to make it the night meeting and give him a rousing reception. President Thrasher also called attention to the fact that on February 1st the Euclid Club would be chartered and that they wanted Sanford to put on some stunts and it was decided to take the stunt committee over there and show those boys a good time.

The singing of "America" closed the meeting and members and guests mingled again for the final hand shake.

Shine Shocked-Negro Injures Several People in Automobile Collision

COUNTY TRAFFIC OFFICER WAS RIGHT ON JOB AND ARRESTED NEGRO DRIVER

A Sanford negro named Oscar Worthy filled up with shine and taking the whole road collided with the car of Mr. and Mrs. Eugene and Mr. and Mrs. Staples Sunday afternoon on the Sanford-Orlando road near Glandville. The negro's car was swaying back and forth on the road and the Eugene car was pulled as far off the right hand side of the road as it would go but the curves inside by the negro struck the car and both cars were badly damaged, but as usual the drunken driver was not injured. Mr. Staples had several ribs broken, Mr. Eugene had one of his eyes badly cut, Mrs. Staples had a bad gash on her forehead and all of them were badly bruised and shaken up by the collision. County Traffic Officer, C. C. Stephenson was just back of the negro running him down when the accident happened and he saw that the injured were immediately taken to the hospital in this city, and arrested the negro driver putting him in the county jail.

It was thought at first that Mr. Eugene would lose the sight of his eye, but Dr. Stephenson said that he thought this would be saved and all of the injured are recovering nicely.

This reckless driving on the roads and streets must be stopped and the officials of the county and city have determined to break it up if possible and the extreme penalty of the law will be invoked wherever the case is as plain as this one of Sunday. It is dangerous for people to drive on the roads with drunken people at large.

STETSON OUTFIT EASY PICKINGS FOR SANFORD BASKET BALL OUTFIT

Sanford Play Visitors With Ease and Win Hands Down--All Sanford Players Get Chance

Things looked mighty easy to the fans that witnessed the fray between the Sanford High Basket Ball outfit and the supposedly fast team representing the Stetson Y.

Sanford took the lead from the very start and the further the game progressed the harder it was for Stetson to score and the easier for Sanford.

One of the main reasons for the visitors down fall was their inability to shoot. Time after time they tried for goals from the field, but never being allowed to get the ball close enough they were forced to shoot from the center of the floor and only once in ever so often did one of those shots take effect.

HILL LUMBER CO. Building Materials

Vic McLaulin, playing center for the first three-quarters, was an outstanding star, with the many baskets he was able to shoot, getting as many as either of the forwards.

Sanford, with the loss of only one game, and a chance to even that one up when Duval plays here, still has a wonderful chance to be eligible to participate in the meet in Gainesville for state honors and the entire crowd of Sanford fans are behind them and pulling for more victories.

Table with columns: Sanford, Position, Stetson. Rows include McLucas, Moyer, E. Moyer, McLaulin, Stone, Peck, Cowan, Smith, Wilson.

Free goals: Smith 3, Mankovitz 2, Rhodes 1. Referee, Whitcomb. Time of quarters, 10 minutes.

FOR THE MOVIE FAN

Going "On the High Seas" tonight? Good chance to go with Dorothy Dalton if you will.

The excursion leaves at 7 sharp at the Princess.

"The Woman He Married," "Smile in Thru" and "Star Dust" and three good pictures that will be at the Princess this week.

And in these pictures will be found all the leading stars of the season, making real pictures that shouldn't be missed.

Just a little advance tip, Osborne has booked a picture that will be shown in the very near future and should be missed by none. This picture is "Penrod." Watch for the announcement.

And by all means be at the Princess tonight to see Dorothy Dalton play in "On the High Seas" It's good.

"Miss Civilization" by Richard Harding Davis, is a royalty play and can only be produced by special permission. High school, Wednesday night. 257-2tc

Fable: Once there was a bride who had no fear that her husband's tough friends would corrupt him.

CHAMPS WIN THEIR LAST ONE OF FIRST HALF

MERCHANTS THEIR VICTIMS AND LOSE BY AN EVEN TWO HUNDRED PINS

The Champs played their thirteenth and last game of the first half of the season by winning over the Merchants last night by an even two hundred pins. Of these thirteen games, the Champs have lost but one, that one to the Men's Club. They Men's Club won that one game by six pins.

Belding rolled high score with A. Renaud a close second. Purdon rolled the best score for the Merchants.

Table with columns: Merchants, Congregationals, Standing of the Clubs. Rows include Tyler, Burdick, Rive, Purdon, Randall, Belding, Jewett, L. Renaud, A. Renaud, Pennington.

UNIQUE TESTS OF FIRE-RESISTING MATERIAL

(By The Associated Press) CHICAGO, Jan. 22.—The correct composition of cement blocks to give the highest fire resistant qualities is being studied at the fire underwriters' laboratories here, at the request of cement manufacturers.

Tests which have been under way for some time cover many different mixtures of cement, sand, gravel and other materials. In the tests, walls composed of several kinds of blocks have been built up in front of gas furnaces and subjected to five hours of intense heat, reaching 2075 degrees at the end of the period.

Through electrical heat recorders, cemented with the blocks themselves, and thermometers and measuring devices on the outside, the engineers have traced the effect of heat changes on the various materials. The walls usually buckle somewhat under the heat, the center curving in toward the fire, due to the expansion on the inner side.

In some of the tests, after five hours of baking, the red hot wall has been subjected to five minutes cooling under a two inch fire hose. The sudden cooling splits the tiny gravel in the outer surface of the block, bushels of fine particles flying thru the air, and leaving the surface pitted as though under a sand blast. Despite this treatment the walls have still stood. The blocks without heat so intense that the surface of the bricks surrounding the test walls turned liquid and flowed down the frame work.

Have you read the want ads today?

WEDNESDAY NIGHT A BIG TIME SKATING LAKE MARY ACADEMY. 255-1tc

CELERY SEED

Kind o swift, these Sanford boys, what?

If you don't believe it, ask those Stetson fellers.

And if one should ask you, just tell 'em that Vic McLaulin is some center. He shoots goals just about as fast and as often as the forwards.

And then, too, maybe we haven't some classy little guard in Smith. Not so big, but oh my.

Little George Wilson is one of Sanford's coming youngsters. Little right now but he knows how to shoot those baskets.

In act the whole darn team is good. They played rings around their opponents last night and if the coach hadn't wanted to see his subs work the score might have reached the sky.

Have you seen Mr. George about that golf elson yet? Don't wait until he is ready to go north and then start. Do it now so that you will have time to take enough lessons to do you some good. And have him fix you up some clubs to suit your style of play.

Major Wilson is a new addition to the regular golfers. He gave Doc Puleston and Col. Knight a real run for their money yesterday. The Major is some golfer.

There is more talk of a tournament at the club. This time it is a match between the Rotary and Kiwanis clubs. We are betting on the Rotes because Harry Stevens will play for them, and so will Charley Henry.

Mr. Lake will play for the Kiwanis and take care of S. O. Chase. This match will come off in the very near future, so all of you Rotes and Kiwanis men, get busy, polish up, you will need it.

The Herald will make an announcement in the next few days about the ball park that will be good news. The committee working for the Chamber of Commerce have made no report as yet, and as the fans are not willing to wait until 1925 for a park, there are some of the fans that are going to do it for them.

Already several of these fans have made offers that will mean a ball park and if the original plans can't be carried out, this committee will be asked to turn it over to these new men and the work started at once. They have plans that are feasible and can be put through with a rush.

Sanford will have this ball park and have it ready for play this summer. There will be a baseball team of the better class representing Sanford this year and the men that are getting behind this movement mean that it shall go ahead with no further delay.

Help our High School Orchestra—buy a ticket to "Miss Civilization" Wednesday night at 8:45 at the High School only. 25c. 257-2tc

A wife is a person who asks you which dress she must wear and then decides to wear another one.

Gibbons' Still Hopeful of Dempsey Scrap

NEW YORK, Jan. 23.—Opposition of the New York boxing commission to the proposed Dempsey-Gibbons match because of the disparity in weight and size resulted yesterday in the withdrawal of the Gibbons forfeit and challenge.

"Having failed to get Dempsey in this way, we will now go after the championship match in the other and the best way," Eddie Kane, manager of Gibbons, said yesterday.

"We will fight our way to the match and the commission will not be able to stop it," he said.

Kane took the action of the commission without much fuss. He seemed to think like the rest of the fight fans in New York, that the commission's ideas do not amount to much and that if Gibbons beats Johnson he will get the Dempsey match regardless of what the commission thinks about it.

William Muldoon, chairman of the commission, also said that Gibbons could find plenty of work among men of his own weight without going out of his class. He said he was opposed to any boxer leaving his class. He took the position that the commission could not put itself in the role of a matchmaker by suggesting a light heavyweight opponent for Gibbons.

In all of these statements, Muldoon shows the inconsistency for which the New York commission has become notorious all over the world.

Twenty pounds is too much of a handicap for heavyweights, he said. Willard had almost forty pounds on Dempsey in Toledo but the New York Commission had nothing to do with it. The New York Commission could have had something to say recently when Sailor Friedman, an alleged lightweight, went into the ring against Eddie Fitzsimmons with an advantage of 15 pounds but the commission didn't say anything.

The commission says that boxers should not leave their class and every boxer of importance in New York is doing it every week and the commissioners are letting them get away with it. Outside of Benny Leonard

and Jack Dempsey not one of the champions is willing to defend the title in his own class.

SENATE WILL RENEW DEBATE ON EUROPEAN AFFAIRS THIS WEEK

(By The Associated Press) WASHINGTON, Jan. 22.—America's part in European affairs, especially the reparations tangle, is promised renewed discussion in the senate, with action possible this week.

A new move, probably today, looking to the recall of Roland W. Boyden, and other unofficial American representatives on the reparations commission is under consideration by Senator Johnson of California, a Republican "irreconcilable," while several other senators have speeches in preparation.

The debate would have opened sooner but for senators' desire to place no obstacle in the path of the Capper farm credits bill, which was passed Friday. Several senators are now ready to break the two weeks silence of the senate on international affairs. Senator Robinson, Democrat, is expected to speak soon on his resolution before the foreign relations com-

mittee proposing appointment of official American representatives on the reparations commission. Further information from Secretary Hughes regarding the work of the Boyden commission is to be given to the foreign relations committee for its use in considering the Robinson resolution. This data, it is believed, will be received before the week-end.

NAVAL BILL SIGNED

(By The Associated Press) WASHINGTON, Jan. 23.—The annual naval appropriation bill which includes a request by congress that President Harding negotiate with other powers for the formulation of naval armament was signed yesterday by the president.

The president simply affixed his signature to the bill without making any public comment on the armament feature or whether he would have anything to say to congress later on the subject. He is left free under the provision to decide whether he will comply with the request and it has been indicated in administration circles that he does not regard it as advisable to do so.

The Sub-Tropical Mid-Winter FAIR

... All Roads Lead to Orlando ...

For Fourteen consecutive years it has been growing—it has cost money—time—and prodigious efforts to build the most artistic exposition in the state. It is not a mushroom growth but actually requires the constant labor of the whole year to bring it to perfection. You have your part in it.

You can help make it hum. Arrangements have been made to show the best of the products, citrus, garden, field, manufacture, home demonstration, health, stock, poultry, art, needlecraft, etc.

Johnnie J. Jones' Shows have a part. So have the Ferris Wheel Girls. Joe Kiljoy will trolle and the Earle Sisters will perform. The Dellamead Troupe of Girls are said to be the finest posers in the country.

Sixty Race horses now practicing. Kennel Club Dog Show. This is your Fair. Help to make it yours. Bring something to it.

Filling in Gandy Bridge by June 1

ST. PETERSBURG, Jan. 23.—Filling in work on Gandy bridge causeways will be completed June 1, W. G. Thompson, engineer-in-charge of construction work on the Gandy bridge across old Tampa Bay, has announced. Mr. Thompson, in his announcement, which outlined the Gandy bridge construction plans and schedule, said:

"We expect to complete the sand fill causeway at each end of the bridge by June 1. The laying of concrete pavement will commence immediately thereafter. The paving equipment contemplated will easily lay one mile of pavement per month. Allowing conservatively for delays due to inclement weather, the pavement should be completed by October 15. Construction of the concrete bridge structure will proceed simultaneously with the construction of the sand fill and paving. We are now purchasing floating equipment of sufficient capacity to drive foundations and carry forward deck construction of the bridge proper from both ends at once. Effective co-operation of public authorities on both sides of the bay will do much to advance the completion date, January 1, 1924."

diately thereafter. The paving equipment contemplated will easily lay one mile of pavement per month. Allowing conservatively for delays due to inclement weather, the pavement should be completed by October 15. Construction of the concrete bridge structure will proceed simultaneously with the construction of the sand fill and paving. We are now purchasing floating equipment of sufficient capacity to drive foundations and carry forward deck construction of the bridge proper from both ends at once. Addison Thomas, Chicago Newspaper Man, Died Early Today

Was for Many Years Superintendent Central Division Associated Press

(By The Associated Press)
CHICAGO, Jan. 23.—Addison C. Thomas, a quarter of a century ago one of the most widely known newspaper men in the United States died in a local hospital early today after a brief illness. He was born July 14th, 1851 and was for a long time superintendent of the central division of the Associated Press with headquarters in Chicago.

the result. It is probable that in the service Thursday Mr. Jas. W. Jelks, of Macon, Ga., will sing several duets with Mr. Woolstapel, in addition to solos that have been included in the musical program. Mr. Jelks is at present in a revival meeting at the Baptist church at DeLand and was a visitor in Sanford yesterday.

Married and unmarried, those who are glad that they're married, those who are sorry they're married, those who would marry again if they had the opportunity, those who are engaged to be married as well as those who never expect to be married or wouldn't marry if they had the chance are among the women young and old whom the speaker and singer are especially desirous of meeting face to face Thursday afternoon.

Warmest Weather in Jax Since Year 1906

JACKSONVILLE, Jan. 23.—Yesterday came within a fraction of a degree of being as warm as the warmest January weather ever recorded in Jacksonville, according to the weather bureau.

The official maximum temperature was 79.3 degrees, while 80 degrees is the warmest weather ever recorded for January. That temperature was recorded January 21-22, 1890, January 22, 1898, and January 22, 1906.

The normal average temperature for January is 55 degrees.

MEETING FOR WOMEN OF SANFORD AND DISTRICT AT FIRST BAPTIST CHURCH THURS.

Special cards are being circulated announcing a meeting that will undoubtedly prove of unusual interest to the women of Sanford and the district in that the Rev. F. D. King, pastor of the First Baptist church and Mr. E. L. Woolstapel, the noted Asheville, N. C. singer will conduct a service arranged definitely in their behalf at the church Thursday afternoon at 3:30.

Where these talented men have held similar meetings, the largest gatherings of women ever known in the history of the churches has been

FALL IS FATAL

(By The Associated Press)
HAMILTON, Ont., Jan. 23.—James Wagstaff, head of Wagstaffs, Ltd., jam manufacturers, fell down the elevator shaft in the company's factory and was instantly killed.

ORDINANCE NO. 46

AN ORDINANCE REGULATING THE CONSTRUCTION AND USE OF SURFACE CLOSETS IN THE CITY OF SANFORD, FLORIDA; PRESCRIBING A PENALTY FOR THE VIOLATION OF THIS ORDINANCE; FIXING THE CHARGE FOR MAINTENANCE; DECLARING THIS TO BE AN EMERGENCY MEASURE NECESSARY FOR THE IMMEDIATE PRESERVATION OF THE PUBLIC HEALTH, TO TAKE EFFECT IMMEDIATELY UPON ITS FINAL PASSAGE AND ADOPTION.

Section 1.—It shall be unlawful for any person in the City of Sanford, Florida, to throw out, deposit or bury within the City Limits any excreta, solid or liquid, from human bodies, or to dispose of any such substance in any manner other than in a properly sewered water closet or properly constructed sanitary privy.

Section 2.—All buildings or other places in said City where human beings live, are employed or congregate, shall be provided with a properly sewered water closet or sanitary privy for the catchment or receiving of human discharge.

Section 3.—It shall be unlawful for any property owner or his authorized agent to construct, maintain or permit to exist on any property or properties under his control where sewer connection has not been made, a privy unless the same is sanitary or is constructed as provided hereinafter.

Section 4.—A sanitary privy is one so built, rebuilt or constructed that (a) the excretion deposited therein will not fall upon the ground but in a water-tight receptacle, and (b) the contents of which receptacle shall not be accessible to flies, fowl, or small animals at any time, (c) said receptacle to be placed in a fly-tight container made of strong durable material, preferably metal. Said container shall be provided with a closely fitting wooden lid, which shall be the seat of the privy, and which shall project over the outside surface of container. The seat shall be provided with a self-falling, hinged wooden lid of sufficient size to overlap the seat hole, so as to make the container fly-tight. (d) The container shall be provided with proper ventilation by means of suitably placed openings, same to be fly-proof, and a galvanized iron flue extending to a point above the roof of the building. Provided, the galvanized flue shall not be required except on metal type contain-

ers. It is suggested that galvanized iron containers be used in complying with the provisions of the ordinance.

Section 5.—Two containers shall be required in all privies used by more than six persons, and one additional container for each additional six persons. No receptacle shall be allowed to become filled to overflowing. If necessary to empty same oftener than at the regular intervals the occupant of the property is required to notify the sanitary department. The occupant, or, in unoccupied property, the owner, shall be held responsible at all times for the maintenance of the privy in a sanitary condition and for the proper observance of these regulations.

Section 6.—In order to provide for the establishment and maintenance of proper scavenger service to take care of the disposal of the contents of said privies, the following charges be made against the owner (or occupant) of each premise, lot or subdivision of lot whereon said privy or privies are located, or are used in connection with, or are maintained or used: For cleaning each closet or three months of the year. Said privy \$2.25 per quarter, (meaning charge shall be payable in advance by the owner (or occupant) of said premise on the first day of each and every quarter.

Section 7.—Any person who violates any of the provisions of this ordinance or who in any way obstructs the Chief of the Sanitary Department or his duly authorized inspectors or

the scavenger in proper discharge of their duties in connection with these provisions, shall, upon conviction in the Municipal Court, be fined in a sum not exceeding \$100.00, or sentenced to work upon public works for a period not exceeding thirty days, either or both penalties to be inflicted in the discretion of the Municipal Judge.

Section 8.—All privies that are installed to comply with the provisions of this ordinance must be approved by the City Health Officer or the City Manager.

Section 9.—All ordinances and parts of ordinances in conflict with this ordinance, are hereby repealed.

Section 10.—When the City Health Officer or City Manager directs that Health Guard privies be installed, or any other type of privy, the owner or occupant of the premises shall pay to the city the actual cost of installing same, upon the completion of the work of installing same, and shall pay to the City the actual cost of any repairs or material furnished by the city. The use of such type of sanitary privy as may be approved by the City Health Officer or City Manager is hereby declared to be compulsory.

Section 11.—That this ordinance is declared to be an emergency measure necessary for the immediate preservation of the public health and safety, and shall become effective from and after the date of its final passage and adoption.

The above and foregoing ordinance was offered by Commissioner C. J.

Marshall who moved its adoption, and seconded by Commissioner S. O. Chase, this 22nd day of January, A. D. 1923, and upon vote the same was unanimously passed this 22nd day of January, A. D. 1923, as follows:

FORREST LAKE, **Yea**
Mayor.
C. J. MARSHALL, **Yea**
Commissioner.
S. O. CHASE, **Yea**
Commissioner.

Attest:
L. R. PHILIPS, (SEAL)
City Auditor and Clerk.

Moved by Commissioner C. J. Marshall and seconded by Commissioner S. O. Chase that the requirement of a second reading of the above and foregoing ordinance at another regular meeting of the City Commission, not less than seven days from this date, shall be dispensed with by the unanimous vote of the City Commission, and upon vote this motion was unanimously passed this 22nd day of January, A. D. 1923, as follows:

FORREST LAKE, **Yea**
Mayor.
C. J. MARSHALL, **Yea**
Commissioner.
S. O. CHASE, **Yea**
Commissioner.

Attest:
L. R. PHILIPS, (SEAL)
City Auditor and Clerk.

Tire Merchants: We solicit inquiries from open territory. Write Mason Factory Branch, Union Terminal Warehouse, Jacksonville, Florida, for our dealer's proposition.

Paving

"ECONOMICAL" does not mean "cheap". A pavement is "economical" when it possesses the utmost service value per dollar of cost, be that cost what it may.

VITRIFIED Brick PAVEMENTS

sometimes cost more than others in the beginning, but when they do they are more than worth it because of their long life and low maintenance cost.
