Perpetual Is Ill On Eve Of Trot Race At Goshen

GOSHEN, N. Y., Aug. 5.—(AP)—Don Parshall's chances of becoming the first owner of a train to drive his own Hambletonian winner became slim last night when it was discovered the veteran Ohioan's highly-regarded Perpetual was a doubtful starter in Wednesday's renewal of the nation's No. 1 trotting stake.

The brown colt, because ill after winning a race at Historic Track last week and has not responded to treatment. As Good Time Park opened its six-day meeting yesterday—featured by the Hambletonian—Wednesday was the best that could be said for Perpetual was that he has only a slim chance of getting to the starting line.

Perpetual has been the leading money trotter of the season, having captured three stakes to date. With this son of Protector, Parshall only hoped to become the first owner to drive a Hambletonian winner, but also expected to win the \$45,000 stake for the third time.

Justine Barry To Get Jones' Job

LOS ANGELES, Aug. 5.—(AP)—Justine M. Barry, veteran University of Southern California basketball and basketball coach, it was generally believed, will succeed Howard Jones as football mentor—but it isn't official.

The Times printed a story Monday that Barry had accepted and that only the formality of a contract-signing remained.

To this Barry retorted, from Catalina island, that it was news to him.

Jones died July 27. Barry was his assistant for 20 years, 16 of them at U. S. C. Barry attended Lawrence college and the University of Wisconsin. He coached at Madison, Wis., high and Knox college before joining Jones at Iowa in 1922.

10 three-year-olds still were listed as expected starters for the annual Corn Tassel Derby Wednesday, and of these, two others also were on the doubtful list. They were the Kentucky-bred Fay, owned by Harkness Edwards of Dorrville, and Colleen Scott, from the stable of the veteran Ben White of Lexington.

The eight regarded now as definite starters are the favored Bill Gallon, owned by R. H. Johnston of Charlotte, N. C.; Bill Strang's His Excellency; E. T. Gerry's F a s Train; Ardum Homestead Stable's Florinda; Lucy Hanover, from the Hanover Shoe Farms; Mermynna, whose \$500 starting fee already has been paid by her owners, Sullivan and Mahoney of Machias, Me.; Double Guy, owned by Dr. Anderson Arbury of Midland, Mich.; and Dunbar Bostwick's Hollywood Anna.

Dimaggio's Salary May Amount To \$80,000 for '42 Baseball Season

By WHITNEY MARTIN NEW YORK, Aug. 5.—(AP)—We'd like to put in our two-bit's worth of worrying over the salary Joe Dimaggio will draw from the Yankees next year. You can't tell when the government might want you for some treasury department job, and it is a good idea to get used to juggling figures, even if you have to start with fractions like \$80,000.

DIMAGGIO'S 1941 salary is strictly a personal matter between Dimaggio and Ed Barrow, so it's only natural that several million fans should horn in with their private opinions.

They feel that he pay a sports figure, receives in their business, inasmuch as they are the ones who pay the freight, but that is a peculiar type of reasoning as they have no particular desire to know what a grocery clerk gets simply because they happen to trade at that store.

It has been reported that DIMAGGIO will ask for \$80,000 for his 1942 efforts, and based on his value at the gate this year he probably is worth it.

It's impossible to say just what this value is, but at a conservative estimate he probably has drawn \$50,000 extra, customers around the league, and on any one of several days at the Yankee stadium has paid his 1941 salary.

What he will be worth next

year is problematical. He might start the season with a slump and go along indefinitely on the same level. He might crack a finger, or develop housemaid's knee, or galloping indigestion. There is no definite guarantee when the human element is involved.

What DIMAGGIO really will be doing next year is collecting the money he earned this year. A ball player's salary always is based on past performance, although a club might put out real money for a young fellow on the basis of what it thinks he might do.

Therefore, if DIMAGGIO were a total flop in 1942, he still wouldn't be robbing anybody. He brought in enough money for the club this year to pay any reasonable salary.

There will be two different opinions as to a reasonable salary when contract time rolls around. One will be Barrow's, and the other DIMAGGIO'S. Right now it would appear that DIMAGGIO has most of the talking points on his side, and the Dick Wakefield incident provided another for him.

If the untired Wakefield can get upwards of \$45,000 merely for signing with the Tigers, shouldn't the well-tried DIMAGGIO be worth indefinitely more?

As indicated before, it's strictly personal business, but it's fun to roll figures like \$80,000 around

Snively To Coach College All Stars

CHICAGO, Aug. 5.—(AP)—Carl V. Snively, of Cornell, one of the nation's topflight grid mentors, will direct the 1941 College All-Stars in their game against the Chicago Bears on the night of Aug. 28.

It was announced last night that Snively would head a coaching staff made up of Fritz Crisler of Michigan, Lynn Waldorf of Northwestern, Homer Norton of Texas A. and M. and Orin Holmberg of Washington State.

Snively and his colleagues will work with 70 college stars who were chosen in a coast-to-coast poll.

Britain Will Guard Thailand's Security, Commons Is Advised

British Said To Be Concerned Because Base At Singapore Would Be Affected

Secretary Hopes Warning Heeded

Reinforcements Are Sent To England's Far Eastern Base

LONDON, Aug. 6.—(AP)—Foreign Secretary Anthony Eden told the House of Commons today "anythink which threatened the integrity or security of Thailand would be of immediate concern to Britain."

Eden said Britain was especially interested because a Japanese move into Thailand would threaten the security of Singapore.

"I hope," he added, "these words may yet be heeded."

A great showdown of tremendous importance in the United States was developing in the Pacific yesterday.

Big land, air and naval reinforcements reached Britain's Singapore base coincidental with speculation spreading through the Orient that the British apparently were preparing to occupy swiftly key points in Thailand to head off the Japanese, who are now surging eastward in a military drive from Bangkok in a bid to capture Rangoon and Manila in easy reach of Japan bombers and warships.

The Thailand government clearly was on the verge of a great decision—whether to enter Japan's orbit or to cooperate with Britain and the United States.

That the Japanese were making certain demands on Thailand was not denied by Thai officials.

What their nature would be was still in doubt, but the Thai government announced significantly that a task headquarters had been set up in Bangkok for a conference at which the Japanese, only 35 miles from Siam, had just landed.

This suggestion, though it did not establish a precedent, was being widely reported in the Japanese press.

The Thai government granted formal recognition of the Japanese puppet government of Manchukuo, Tokyo, and announced that it would be furthering its cooperation with the Japanese.

Dr. Lynch Killed In Plunge From Hotel Window

Dr. F. Justin Lynch, whose wife is the former Elizabeth Shoemaker, daughter of Mr. and Mrs. A. D. Shoemaker of Sanford, was fatally injured yesterday when he fell or jumped from the 12th floor of a hotel in New York City, the Associated Press informed the Sanford Herald today.

Dr. Lynch and Mrs. Lynch were married last January, and Mrs. Lynch visited her mother at her home on Park Avenue two weeks ago. She had been teaching in Washington, D. C., and formerly taught school here.

Mid-town crowds saw Dr. Lynch land on the marquee of the recent Roxy theater. He was still alive when police reached him by climbing a ladder.

"My name is Lynch," he murmured, "I am a Catholic. Get me a priest."

A priest, passing by, administered the rites of the church to the dying man.

Police said they found no notes in his room, which he and Mrs. Lynch engaged last March 10, registering from Sanford.

Mrs. Lynch was informed of her husband's death when she returned from a shopping trip. Dr. Lynch, 35, formerly practiced dentistry at Cleveland, O.

Hull Voices Concern About Jap Activity

Nipponese Move Into Thailand Seen As Menacing Security Of This Country

WASHINGTON, Aug. 6.—(AP)—Secretary of State Hull said today that Japanese intentions toward Thailand and the south-west Pacific area were matter of increasing concern to the United States government.

The Japanese move into Thailand, Hull said, would be considered a step menacing American security and endangering American territory in the Pacific.

The House yesterday approved a Senate bill giving President Roosevelt authority to requisition private property essential to national defense production.

The measure, which goes back to the Senate for concurrence in minor amendments, would empower the President to requisition such property on "fair and reasonable" terms after other methods of acquisition had been exhausted.

Property subject to the order includes military and naval equipment, supplies or munitions and machinery used in their manufacture, existing and operating.

The bill is a modified version of one originally requested by the army which would have authorized seizure of any personal property without restriction.

Republican members denounced the revised measure as "sheer, unadulterated national socialism."

Representative Short (R., Mo.) said it was "filled with symbols and tyrannical and bureaucratic control."

The legislation is designed to break "bottlenecks" which have been delaying mass production of essential armaments.

One amendment adopted provides that the owner of any property taken over who is dissatisfied with the price offered—be not less than the "market value"—shall be paid by the government.

County Will Pay Caretaker's Wage

In one of the briefest business sessions in recent months the Seminole County Commission yesterday agreed to pay the full amount of the salary of caretaker at the County home, so that the building and the property will be protected, O. P. Herndon, clerk, said today.

Formerly the City had gone 50-50 with the County in paying the caretaker's monthly salary of \$75, but recently decided against this. The County will take care of the entire amount, Mr. Herndon said.

Russian Field Army Fallen, German News Agency Claims

U. S. Intelligence Officers Report Russian Orders In This Nation

WASHINGTON, Aug. 6.—(AP)—The United States, it was learned today, has unfrozen billions of dollars worth of Soviet orders in the country and presumably the flow of American supplies to the fighting Russians already has begun.

The amounts and details were undisclosed, however, despite the fact that high officials here and elsewhere disclaimed any knowledge of such a meeting.

The reports apparently sprang chiefly from the unusual secrecy surrounding President Roosevelt's cruise aboard the presidential yacht Potomac in northern waters. Linked with this was the announcement in the British House of Commons that Churchill would not participate in a forthcoming debate on the conduct of the war before Parliament recesses for the summer.

Element Attlee, lord privy seal and British Labor party leader, explained the prime minister was preoccupied "with urgent matters connected with the war."

2 Soldiers Killed In Bus Fare Fuss

FAYETTEVILLE, N. C., Aug. 6.—(AP)—Two soldiers were killed and six others wounded, one seriously, in an outbreak of gunfire inside a private bus carrying 25 or 30 negro soldiers from Fayetteville to nearby Fort Bragg early today.

The dead: Sergeant Edwin L. Graves, 20, Corcoran, Texas; and Private E. B. Turman, 27, Ashton, E. C., negro member of the 76th Coast Artillery.

Detective Roy Godwin said he had told the police started after Hargrave was kicked in the face when he intervened in a bus fare dispute.

Music, Singing Feature Meeting Of Kiwanis Club

A musical program, during which Harry Kudell played the piano and members joined in singing several songs, was presented at the weekly luncheon of the Kiwanis Club at the Valdez Hotel today. Father J. J. Kellaghan acted as master of ceremonies, introduced the songs and led the group singing.

The club unanimously voted to buy a \$100 defense saving bond as its share in helping bear the cost of the preparedness program.

O. P. Herndon, president, named Walter Coleman, P. P. Campbell and G. D. Workman as a committee to purchase the bond and see bank officials for having it kept safely.

A letter was read from Charles E. Bradshaw, chairman of the USO drive, in which he thanked the Kiwanis Club for its share in helping Seminole County exceed its quota by a larger percentage than any other Florida county.

Karlisle Housholder, who has volunteered for the Army, and will leave Friday for Camp Bland, was given a military membership by the club. Howard Long made the presentation, and declared that "we are sorry to lose you, but we know that you will give the best you have."

Among the songs which Mr. Kudell played for the Kiwanis members was "Alexander's Ragtime Band," which he was one of the first to play.

Before playing the popular old number, Mr. Kudell told how it was introduced in Chicago in 1911. Irving Berlin came to a music publishing house where Mr. Kudell was working, and brought a copy of the song he had written. Mr. Kudell was given the assignment of seeing that it was introduced, and he secured Sophie Tucker to sing it at one of the theaters in Chicago. It later became one of the most popular songs in musical history.

Other songs played by Mr. Kudell and sung by those at the luncheon included "Old Black Joe," "My Buddy," "When Day Is Done," and "Tea for Two."

Dr. George Putnam was welcomed back after having been ill in a Jacksonville hospital for several weeks.

Soviet Has Lost Over 1,000,000 Troops Before Onslaught, Officials Declare

Red Army Says It's Resisting

Thousands Of Planes, Guns, Tanks, Men Reported Captured

BERLIN, Aug. 6.—(AP)—Russia has lost close to 4,000,000 men and the Russian field army can be regarded now as having fallen before the Nazi onslaught, the official news agency asserted today.

The battle of Smolensk, it was said, ended in a German victory. It was added that the Russians have been beaten back in every major war zone, and have suffered staggering losses of men and arms.

Adolf Hitler's field headquarters, picturing the Russian leadership as utterly befogged, reported today the capture of 825,000 Red Army prisoners and the destruction or capture of 12,145 armored cars and tanks, 10,358 guns and 9,082 planes.

The Russians, however, asserted they were resisting everywhere.

Hitler's headquarters detailed at length what it described as lunges through the Soviet defense system at "three decisive points"—south of the Pripet marshes, the Smolensk sector on the road to Moscow, and south of Lake Peipus below Leningrad.

"As apparent from numerous reports, Soviet leadership no longer possesses a reliable picture of the situation on their own front," a Nazi communique said, adding that "successes have been achieved which are surpassing the most optimistic expectations."

Despite the intensity of the attack on the Leningrad front, in the Smolensk salient and twin thrusts into the Ukraine, the Russians said they were holding firm and in some sectors counter-attacking.

Delayed dispatches from Ankara said Britain had assured the Turkish government that its right would not be trampled on in any post-war settlement.

The German command, apparently subordinating for the time being its long and costly effort to break the Red defenses on the Moscow approach, appeared last night to have turned part of its main army of the front sharply southward to add to the enormous pressure being put upon the Ukraine by the southern Nazi wing.

This suggested the development of the most grandiose maneuver for encirclement attempted since the beginning of the invasion, if not in history.

Too, it supported earlier indications that the Germans were preparing a supreme effort at whatever cost to conquer the Ukraine before the approach of bad weather.

Moscow's regular communique only this morning merely reported continuing fighting in the Ukraine—about Bel Tserkov to the southwest of Kiev and Korosten to the northwest—about Smolensk at the center—and in the Eastern sector. The intonation was that Soviet positions had not materially changed.

News of the surprising deflection of the central German thrust came in the claim of the Nazi command that its forces had made a widening breakthrough to a point 62 miles southeast of Smolensk, the heart of the Soviet center, and in the process had "partly annihilated and partly encircled" a Russian body of untested size.

This was accompanied by the claim that German shock troops advancing far to the south below Kiev had overrun strong Soviet field positions, taking 47 bunkers and at least 6000 prisoners and killing twice that many Red soldiers.

In this area, it was said in Berlin, the apparent assignment of the Nazis was to smash through for an eventual swing northwest to meet the erstwhile German forces of the encirclement which now are moving southeast. The grand purpose would be not only to isolate Kiev itself but the Ukraine hinterland from the Black sea.

Keeping Prices Down

High administration officials in Washington appear to be seriously concerned these days over the dangers of inflation. Now that rising prices have got down to the cost of a loaf of bread which the average housewife has to pay, they are beginning to anticipate the political repercussions which were bound to result from an extravagant fiscal policy and some rather quaint economic theories about reducing production.

For some years now the New Dealers have been telling us that we must get prices up, so we took some six million little pigs and converted them into fertilizer and then paid farmers not to raise any more. We plowed under every third row of cotton, lent more money per bale to cotton farmers than the cotton was worth on the market, and told wheat farmers how many acres they could plant.

All this was in the interest of giving the public less bread for its money. The same goals were pursued with industry only in a little different way. At one time there was actually a federal law which prohibited anyone from going into certain lines of manufacturing at all if he could make a better mousetrap than his neighbor, he better keep it to himself or the G-Men would get him.

Laws were also passed making it a crime to press a pair of pants for less than a certain fixed sum, higher generally than was ordinarily charged. The price of milk, laundry, ice and many other commodities was fixed by law and it became a serious offense punishable by fine or imprisonment to sell for less than the fixed price. If a man wanted to open a new factory to compete with certain other factories, he had to get the consent of the high moguls in Washington.

At the same time the currency was repeatedly tinkered with in order to get prices up above what the people could afford to pay. For a while a new price for gold was announced almost every day, the theory being that prices fluctuated in accordance with the price of gold. When this didn't work, the power to issue greenbacks was given to the President, and the gold content of the dollar was drastically reduced.

Meanwhile the government launched itself on a huge spending program which was cunningly called "priming the pump." A mere bookkeeping transaction by which the government borrowed billions of dollars from the banks and then re-deposited it in the banks to borrow again from the banks finally resulted in increasing the bonded debt of the government by about 30 billion dollars and created the base for a credit inflation of staggering proportions.

Now Mr. Leon Henderson, humorously called the Price Control Administration, announced in his report for 1941 that the cost of living is going up. "A most pronounced increase in the cost of living," he says, "is inevitable." Well, well, well, so they have finally found that out, have they? He says the nation is on the "brink of inflation." And he seems to think that inflation is a bad thing, after all these years. He wants the power to place an arbitrary political ceiling on prices.

A more simple direct plan, preserving some of our time-honored traditions of free enterprise, might be to re-establish our monetary system on a sound financial basis, quit paying farmers not to produce, give them the right to plant what they want, when they want, as much as they want, remove the shackles from business and repeal punitive taxation, distribute defense contracts fairly among little business and not all to big businesses, and cut out government extravagance and waste.

No Neckties Now

Man is simplifying his dress in these progressive times, perhaps seeking to imitate woman in the search for comfort and brevity.

The hats went with the winds some years ago, and now the necktie joins that disappearing procession, with the style set by no less a person than President Roosevelt himself. During this hot weather he discards this excess decoration and encourages his visitors to do likewise. When the chief executive adopts this custom, it ought to be all right for the humble citizen.

It is common to see men attending meetings without their coats, with soft collar and sleeveless shirts, and sans the necktie. Even the presiding official may be so arrayed. Thus many of the non-essential fashions are abandoned for the sake of comfort and convenience during warm days. Cuban men may still wear their coats. Southern aristocrats may still insist that gentlemen will always wear their coats when in the presence of ladies. But as a whole trend is away from bulk and unnecessary extras during the hot days.

Man is following the ladies in this tendency and is to be commended in this manifestation of sense. — Miami Herald.

WASHINGTON DAYBOOK

By JACK STINNETT

WASHINGTON, Aug. 2.—(AP)—Young America is a great deal more patriotic, more intelligent, better informed and less rebellious toward laws laid down for it than young America was in World War I.

This conclusion can be drawn from some figures from the Department of Justice. After approximately 10 months since the first selective service registration, the department tells me it has had 20,000 complaints of violation of the selective service laws. There have been 320 individuals convicted and there are 865 persons awaiting trial.

If these seem startling figures, compare them with World War I. In World War I, when the World War I draft law was only a shadowy draft law, there has been hardly a mention of "slackers" and "draft dodgers."

In the Spring and summer of 1918, when the World War I draft law was only a shadowy draft law, there has been hardly a mention of "slackers" and "draft dodgers."

SANFORD FORUM

Editor Sanford Herald Dear Sir

A short time ago I saw an item regarding a Geo. A. Welch 63 years old, of the U. S. District Court who had just returned to his home from a 67-mile trip on a bicycle.

On the same page was an article asking for the conservation of gasoline.

Now as a follow-up of the idea, I find an item in today's Florida Times Union, (which I enclose) suggesting greater use of bicycles.

What I am driving at, if you have not already guessed it is this: I would like to see Sanford lead the state in a bicycle campaign to conserve gasoline, and use the cash savings to buy defense bonds, and collect a big interest on an investment in good healthful exercise.

There are three excellent reasons for the project, so let's go. Respectfully, C. E. McSharrow

Bids "In Twenties" Made For Tobacco

YALDOSTA, GA., Aug. 6.—(AP)—Gold-tinted cigarette-making became cash for growers throughout the Georgia-Florida bright leaf tobacco belt Tuesday as bidders in the market centers changed steadily on bids "in the twenties."

Buyers following the picture-glass-in-the-glass-writer warehouses apparently kept their prices well ahead of the 19.6 average set by the United States Department of Agriculture as a guaranteed minimum. Correspondents of the Associated Press told of strong bidding in the 22 to 26 cents-a-pound brackets.

TO RESUME RELATIONS

LONDON, Aug. 6.—(AP)—Norwegian courts said Tuesday despite public relations are to be resumed between the Norwegian government in exile and Soviet Russia, Trygve Lie, Norwegian minister, called on Ambassador Ivar Hauge and exchanged letters Tuesday expressing a desire for an exchange of ministers.

Stewart Says:

Here's One German Who Wants Hitler Wiped Off the Map

By CHARLES F. STEWART Central Press Columnist

NOW and then Washington gets a hint, from one apparently pretty reliable source or another, indicating that all isn't entirely well with the Axis right in Herr Hitler's and Signor Mussolini's own countries.

Dr. Frank Bohn ought to be a fairly good authority. He's a German-American. There's been plenty of talk of Nazi funds in the United States, but Dr. Bohn isn't a member of any of 'em. The organization he belongs to and is chairman of, is the German National Congress for Democracy, and he's appealed to friends of his in Uncle Sam's government for an immediate "Yes" entrance into the war against Hitler.

War against Hitler, he says, wouldn't be war against the Germans—not against a majority of 'em, anyway. What Adolf undoubtedly does have a certain number of genuine followers, the doc insists that a majority of the Fatherlanders violently hate him. Their difficulty is, he explains, the minute one of 'em shows it, the Gestapo promptly "liquidates" him. However, it would physically pitch in, on the side of the democracies, the doc's convinced that the German majority he mentions would be so stimulated that they'd rise up en masse against the Fuehrer; that they'd be our outright allies. As for the Italians, the doc double that ANY of them are still faithful to the Axis; they simply are conquered, but the doc's sure they'd grab at the first good chance to tear loose from Berlin's domination.

Germany Tells Italy: Announcement of the recall of a number of our American news agencies' correspondents from Italy, because the censorship's become so tight that there's no use in keeping 'em there any longer, gives considerable plausibility to this assertion. The point is that it wasn't the Italian government which did the tightening. It was the German government, which has taken charge of Signor Mussolini's censorship. It wouldn't seem as if Benito himself, would fancy having

GETS PAROLE DIES CUMMISS PRISON FARM, Ark. Aug. 6.—(AP)—Cooker Taylor, 25-year-old negro convict, fell dead Tuesday when he was told the Arkansas parole board had granted him a 60-day furlough. The prison physician said he succumbed to heart attack.

Why Herr Hitler may be anxious for a spell of peace at the present moment of course is quite understandable. If peace is made on the status quo, he'll have won. If war continues, he may lose in the end, which unquestionably would be his personal finish. Furthermore, it's perfectly conceivable that he wants time to rest while consolidating his conquests to date, after which, getting up a fresh head of steam, he can take the warpath again, when ready. And, finally, if Dr. Bohn is right about the volume of discontent he has on his hands at home, it's quite likely that Adolf knows it, and fears it will break out on him unless he's careful.

The doc's objection to a present peace, is equally obvious. His ideal is peace, but a democratic peace, and his argument is that the quickest way to arrive at it is through Hitler's extermination. He wants peace, but he wants it on his terms, for he already is being eaten alive by Adolf and the longer the thing lasts, the more of him the Fuehrer will devour.

Hitler and Peace: The doc's scheme includes encouragement of German and Italian democrats to organize "agreements in exile" here.

It isn't altogether clear why they can't do it without any particular encouragement. If they choose to, most of the small Nazi-occupied democracies have such exiled governments, and there's no special objection made to 'em by the various countries that they're exiled in. Asking us to go to war is a different matter, but an exiled government appears to be harmless.

Dr. Bohn's as much opposed to any American listening to expected peace suggestions from Axis sources as President Roosevelt and Mayor LaGuardia are.

COLUMBIA, S. C., Aug. 6.—(AP)—South Carolina's third junior United States senator, who took office today, when Governor Mack Roper appointed Roger C. Brown, a leading publisher of the Columbia News-Piedmont, to succeed the late Senator James F. Byrnes, who became a Supreme Court Justice July 8.

Mary Wathen Will Wed Jack Grant

Mr. and Mrs. J. E. Wathen are announcing the engagement and approaching marriage of their daughter, Mary Wathen, to Arthur Jack Grant, 111, son of Mr. and Mrs. A. J. Grant, Jr., of Detroit, Mich.
Miss Wathen has lived in Sanford all of her life and attended the local schools. She became a member of the Phi Alpha Kappa sorority while in Seminole High School from which she was graduated in 1939. She was among the debutantes who were presented at the second Apollo Ball which was held in Orlando in 1939. At present she is employed in the office of Fred H. Wilson, city attorney.
Mr. Grant was reared in Detroit and was graduated from Cooley High School in that city before coming to Sanford to make his home. He is now employed by the Kluge-Egan Company.
The wedding will take place at an early date.

Strike Vote Ordered Among Rail Employees

CHICAGO, Aug. 6.—(AP)—Representatives of 19 unions Tuesday ordered a strike vote taken among the nation's 1,150,000 regular railroad employees after railway management had rejected pay increase demands totaling \$600,000,000.
The big five brotherhoods embracing 300,000 workers in the engineer, conductor and fireman brackets, called for a strike vote shortly after 14 non-operating unions had taken a similar step among their 850,000 members.
The action involves virtually all employes of train and yard crews of every railroad in the nation.

Curtailling Of Air Conditioning Seen

WASHINGTON, Aug. 6.—(AP)—Congress was told Tuesday that the electrical demands of defense production might necessitate curtailling use of air conditioning, street lighting and electrical signs.
Testifying before the House Interstate commerce committee, Leland Olds, federal power commission chairman, said private industry in some cases might be called upon to reduce power consumption by one-third if the present shortage continued.
Olds went before the committee to endorse legislation authorizing President Roosevelt to order daylight saving time for all or parts of the nation.

Retail Merchants See Higher Prices

ST. LOUIS, Aug. 6.—(AP)—Retail merchants are buying just about everything they can get their hands on now in anticipation of a shortage of merchandise and higher prices next fall.
This and increased business activity due to the defense boom has them literally clamoring for goods at the American Retailers' association convention. Officials predicted that prices will be raised sharply on smaller sizes of clothing as the largest wholesale buying jamboree in years.
Some 100 of a downtown St. Louis store turned into a buying center more than 100 times the size of the store. All but one of the stores were new.

Tallahassee Reports Two Paralysis Cases

TALLAHASSEE, Aug. 6.—(AP)—Dr. L. J. Graves, county health officer, today reported two infantile paralysis cases in Tallahassee.
Graves said both cases had been isolated and housed in a private home. He said one was a white man and the other a Negro child.

French and German Relations Delicate
VICHY. Unoccupied France, Aug. 6.—(AP)—French-German collaboration talks, involving defense of French colonies and the attitude of the United States toward them, have reached a difficult point at which "delicate problems" must be settled. Fernand de Brinon, representative of the Vichy government in German-occupied Paris, declared Tuesday.
The Vichy regime has been reported holding out against strong German pressure for closer collaboration which would include joint German-French defense of French African possessions, among them Dakar.

25,000 Fans Are Expected For Hambletonian

GOSHEN, N. Y., Aug. 6.—(AP)—It's Hambletonian time again and that means upwards of 25,000 will pour into this village today to watch nine picked three-year-old trotters battle over Good Time park's triangular course in the 16th "corn-tassel" derby.

The lineup for the \$30,725 race was completed Tuesday morning when the owners and trainers of the five colts and four fillies posted the starting fee of \$500—final payment of the \$900 necessary to qualify a trotter for the richest of all light harness horse racing stakes.

Harry McKenney, starting his first Hambletonian, will get the field away for the first of the best two out of three heats at 2 P. M. Eastern Standard Time. The weather promised to be fair.

Favorites Advance In Eastern Net Tourney At Rye

RYE, N. Y., Aug. 6.—(AP)—The second round of the eastern grass court tennis championships was completed Tuesday without a hint of trouble for the favorites. From top-seeded Bobby Riggs of Clinton, S. C., right down to Arthur Marx of Hollywood, California, a youngster who is making tennis fans forget to refer to him as the movie comedian's son, the players who were expected to win did win—and usually in straight sets.

Riggs gave his strokes a good workout at the expense of Bill Canning of Hidden Valley, Calif., winning 6-4, 6-3, after running his opponent from baseline to net and back again with a mixture of drop shots and deep-driven backhand placements.

Marx, who will take on National Champion Don McNeill of Oklahoma City in the third round, knocked off Ronald Edwards of San Jose, Calif., 7-5, 6-3. McNeill seeded second in this tourney, whipped William Umstaedter of Milburn, N. J., 6-3, 6-0.

In between, these extremes, Frank Kovacs of Oakland Calif., Ted Schroeder's National champion doubles partner, Gardnar Mulloy of Coral Gables, Billy Talbot of Cincinnati, Ladislaw Hecht of New York, Charles Glenwin of Santa Monica, Calif., Sidney Wood of New York, Ed Amark of San Francisco and Bryn Grant of Atlanta all came through to complete the round of sixteen.

Frank Riker of Spring Lake, N. J., Wayne Sabn of Reno, Nev., seeded fourth and fifth, and upsetter Earl Cochell of Los Angeles, who meets sixth-seeded Schroeder tomorrow, had won their third-round brackets earlier in the tourney.

Amateur Links Champ Is Busy With Army Life

MONTGOMERY, ALA., Aug. 6.—(AP)—Richard (Dick) Chapman, the dark and handsome 20-year-old king of United States amateur golfers, isn't claiming he'll be there at the finish when his title goes on the line at Omaha Aug. 25-30 and has picked himself a quarter from which he thinks a new champion Haly will come.

But at the same time he concedes "my game is more consistent, straighter, and a lot less work" than it was a few weeks ago when he defeated Duff McCullough of Philadelphia, 11 and 9, over his "home" course, Winged Foot at Mamaroneck, N. Y., for the title.

He'll lay it on the line with confidence, too, because he's better competitor, although the only golf he gets in now is after 6 P. M. week days, except Wednesday and Saturday afternoons and Sundays. From 8:30 A. M. to 6:30 P. M. he's busy as assistant physical director at the Southeast air corps training center at Maxwell field here.

and the track fast.

Although Bill Gallon has won only one of his five heats in two races this season, the son of Sandy Flash from R. H. Johnston's Charlotte, N. C. stable, figures to go postward the three to two favorite to take the winner's share of the purse, amounting to \$20,365. He whipped all of the top two-year-olds in 1940 in hanging up a record of 2:04. This year he has bowed only to older horses—in a handicap event and to Vekstedt, a three-year-old not eligible for the Hambletonian.

Perpetual winner of the Matron, National and Historic stakes this season, might have pushed Bill Gallon for honors in the probable odds book had he not been taken ill after winning the Historic last Friday at the nearby half-mile track. As it was, his owner-driver, Dr. H. M. Parhall of Urbana, Ohio, didn't decide until a few minutes before deadline to start the speedy son of Protector.

Parhall said he hoped to become the first owner to drive a winner of trotting's derby. The Ohio veterinarian won with Lord Jim in 1934 and Peter Astra two years ago, but they carried the silks of other owners.

Parhall said he was not sure if Perpetual would be his best for the supreme test. As a result he was quoted as no better than 12 to 1.

Runner-up honors in pre-race quotations at 8 to 6, went to Bill Strang's filly Excelsior, a Brooklyn-owned colt who never has won a heat. But he was a consistent second to Bill Gallon in the 1940 Juvenile stakes and this season has been bidding for the big money almost every time.

Ganas Asked To Report For Grid Team At Murray

MURRAY, Ky., Aug. 5.—(Special)—Under a re-vamped coaching setup at Murray State, Fred Ganas of Sanford was one of the 33 varsity prospects that have been asked to report here Sept. 8 for initial football practice. Athletic Director Roy Stewart announced today.

Jm Moore has been promoted from assistant to head football coach, allowing Stewart to devote his entire time to directing the health department and the athletic program. Rice Mountjoy, former Danville, Ky., High School coach, will be assistant football coach.

For the first time in history, Murray will have a parity football game on the opening day of school—with Culver-Stockton of Missouri here on the night of Sept. 22. The eight remaining games are all S. I. A. A. encounters, three of which are with Murray's sister institutions, Western, Morehead, and Eastern. Stewart hopes that the state college will likewise play each other in basketball.

Only two varsity prospects have been definitely lost on account of the national defense program, according to Stewart James Nanney, Fulton, Ky., seabeck, and Sergei Bychewsky, New London, Conn., guard, both of whom have enlisted in the air service. Others, of course, may be called before the season gets under way. One or two, in addition, have scholastic difficulties to overcome, Stewart intimated.

Varsity prospects listed by Murray's athletic director: Centers: Sanford Braxton, Shafter, Ala.; Harold Fuson, Corbin, Ky.; Gill Lee, Paducah, Ky.; Guards: Roger Fuller, Carrollton; Jack Dempsey, Carmi, Ill.; Everett Craig, Blytheville, Ark.; Perkins Marquess, Hopkinsville; Bush-Hendrickson, Jansons; Mike Nicholas, Ithaca, N. Y. Tackles: Jess Hann, LaPorte, Ind.; Clifford White, Cleveland, Ohio; Jerry Glover, Pontiac, Mich.; Tom Johnson, Marion; Champ Rushing, Olathe, Ill.; George Speth, Buffalo, N. Y. Ends: Jim Tucker, Georgetown, Ill.; Ray Moore, Waverly, Tenn.; Bob Salmons, Beloit, Wis.; Wild Ellison, Corbin; Don Mandola, West New York, N. Y.; Fred Ganas, Sanford, Fla.; Jack Haines, South Bend, Ind. Quarterbacks: Peter Koss, Moosup, Conn.; Gene Syers, Paducah, Ky. Wingbacks: Leo Hott, Bridgeport, Conn.; Steve Levanolaki, LaPorte, Ind.; Joe Russell, Portsmouth, Ohio; Harold Gish, Central City. Tailbacks: Jack Thompson, Centerville, Tenn.; Teddy Sasseen, Mayfield; Bob Perkins, Ithaca, N. Y. Fullbacks: Jack Lambert, LaPorte, Ind.; Carl Ferrara, Neptune, N. J. "We have two splendid prospects this year—Pete Koss in the backfield and Jack Haines in the line; hence we should have well-balanced squad leadership. Both are top-notch performers," Stewart said.

Murray's 1941 Varsity Schedule: Sept. 22—Culver Stockton at Murray. Oct. 4—Eastern Kentucky at Richmond. Oct. 10—Union University of Jackson, Tenn. at Murray. Oct. 15—University Tech of Covington at Owensboro, Ky.

Douglas MacArthur Carries On Family's Tradition In Philippines

By Associated Press

Lieut. Gen. Arthur MacArthur shipped clear the Spaniards out of Manila in 1898. Later the defended Manila against the forces of Aguinaldo, and still later he served two years as military governor of the Philippines.

Newest chapter in the story of the MacArthurs and the Philippines was started when President Roosevelt named Arthur MacArthur's son commander of combined U. S. and Filipino forces in the islands. The son is Douglas MacArthur, military adviser to the Philippine government since 1935.

The younger MacArthur, with the current rank of lieutenant general, has in a period of 30 years held five different assignments in the Philippines, but there was time between these jobs for him to become best known to the American public as a leading leader of doughboys in France and as an army chief of staff who insisted on modernization of U. S. armed forces.

His record in brief: Born at Little Rock, Ark., 1890. Graduated from West Point at head of his class in 1913. Assigned to Philippines as an officer of engineers. Aide to President Theodore Roosevelt. Chief of staff, later division commander, 42nd Div. Oct. 25—Morehead (Homecoming) at Murray. Oct. 31—Delta State at Cleveland, Miss. Nov. 9—Memphis State at Murray. Nov. 15—Middle Tennessee at Murfreesboro at Murray. Nov. 22—Western Kentucky at Bowling Green. Night Games—3 P. M.

Reds Seek To Halt Drive On Leningrad

Nazi Columns Strike In Two Directions And Are Only 75 Miles From City

Moscow Officials Remain Confident

One German Division Said Routed With 2,500 Casualties

Russian troops were reported today fighting fiercely to stem a two-headed drive on Leningrad, with Nazi columns striking from the south along Lake Peipus shores and German-Finnish forces attacking from the north on the Karelian Isthmus, within 75 miles of the city.

The Soviets said the push from the north was temporarily abated overnight but that there was heavy fighting to the south.

A Reuters Moscow dispatch said the high command is confident the Germans will reach neither Kiev nor Leningrad, let alone Moscow itself.

A Red bulletin said Russian troops had routed one Hitler "Heer-Kopf" (dead head) division, hitting the field with 2,500 killed and wounded.

The Russians reported stubborn fighting continuing early today in the main line of the eastern front, indicating that the power of the Red Army remained unbroken despite the extraordinary German claims of some 4,000,000 Red Army men killed or captured, not to mention the wounded.

The Soviet commission said the battles were raging in the Lake Peipus region, where the German divisions of the Karelian Isthmus on Lake Ladoga, was the first regarding that far northern front in many days. Kakizimi, was cited as Russia at the conclusion of the Finnish-Russian war, a victory last year.

In other sectors of the eastern front, the Russians said major operations were being conducted. The Germans covered their retreat of Russian soldiers with a report of a "strong military fighting opponent" who was still offering savage resistance.

The estimate seems to be that there was no longer to be whole of western Russia an effective defense, but from Moscow the Red troops were reported fighting bitterly and often from the vicinity of Leningrad in the center south in the latest Ukraine.

The German High Command said that the Red Army had broken through the German lines in the Ukraine.

Senate Votes Longer Term For Army Men

Wicks Sees Shortage Of Aviation Fuel Here Unless Production Increases

Control of "dollar-down-dollar-up" buying as a means of curbing inflation was recommended to congress Wednesday by Henderson, head of the Office of Price Administration.

WASHINGTON, Aug. 7.—(AP)—The Senate voted today to keep Army selectees, guardsmen, reserve and enlisted men in uniform 18 months beyond the present active service period. The fixed maximum service liability of selectees was set at two years and half, and that of one, three year enlistees could be retained four and a half years.

WASHINGTON, Aug. 7.—(AP)—Petroleum Administrator Wicks announced today that American tankers have been turned over to Russia to haul aviation gasoline.

Wicks also said a shortage of aviation gasoline is likely in this country unless the capacity of production is increased immediately.

Control of "dollar-down-dollar-up" buying as a means of curbing inflation was recommended to congress Wednesday by Henderson, head of the Office of Price Administration.

Resuming his testimony before the House Banking committee in support of the Administration's price-control bill, Henderson expressed belief the Federal Reserve Board had the power under the 1933 emergency banking act to control installment credit.

"If there is any doubt of that," he said, "some such authority should be written into this bill. The economist did not go into details on that phase of the question but his suggestion found immediate favor with several committee members, many of whom have contended that private credit was one of the principal sources of inflation.

Representative Wolcott (R-Mich.) senior minority member, asked an order by the Federal Reserve Board increasing red-credit rates would tend to lower the volume of installment buying because in most cases retailers would be required by their banks to get larger down payments on their merchandise.

Mrs. Gay Dies At Elder Springs Home

Mrs. Leonard Gay, who came to Sanford from High Springs, Dec. 15, 1938, died at her home at Elder Springs Wednesday night after an illness of two months. She was born in Lafayette, La., and was a member of the First Baptist Church at Trenton.

Survivors include her husband, E. Gay of Sanford; six daughters, Mrs. R. H. Taylor, Trenton, Mrs. O. L. Turner, Ocoee, Mrs. Josie Davison, Houston, Texas; Mrs. E. B. Cross, Sanford, and Mrs. Ralph Glendon, Sanford; one son, Samuel Hubert Gay, Ocoee; a brother, General Slaughter Bell and 22 grandchildren.

The remains will be taken to Trenton Friday morning for funeral services and interment will be held in the Pine Grove Cemetery at Trenton Friday afternoon. Arrangements are under the direction of William C. Erickson.

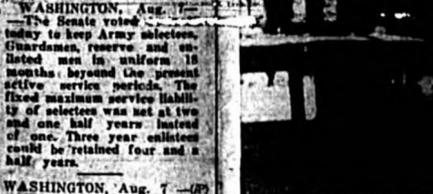

Cotton Penalty Set At 7 Cents A Pound

WASHINGTON, Aug. 7.—(AP)—The Agriculture Department said today the grower penalty for marketing 1941 cotton in excess of sales quotas will be seven cents a pound.

The penalty was three cents last year. The increase was authorized by recent legislation which also upped the loan rate from 68 to 75 percent of parity.

Special Election Ballots Ordered By County Board

Vote Affecting Hospital Slated To Be On August 19

Less than two weeks remain before a special election will be held on Aug. 19 at which time the freeholders in Seminole County will be given the opportunity to express approval or disapproval of a special act which would give the Board of County Commissioners the authority to call a second election to issue additional hospital bonds.

As the time for the election draws near, the County Commission is setting up the necessary machinery, and also has authorized the printing of circulars and literature to call the attention of freeholders to the election. E. F. Housholder, County attorney, said today.

"At its meeting on Tuesday the County Commission named a clerk and inspector for each of the election districts," Mr. Housholder said, "and also ordered the printing of ballots for the special election."

"The ballots will be in a simple form with a clear statement of the act to be voted upon. These in favor of approving the act will mark under the heading for approval and those against will mark against approval," Mr. Housholder said.

"The Commission also has authorized the printing of sufficient circulars and literature to be distributed throughout the county calling the attention of voters to the date of the election, and urging all freeholders to take part in the election."

"It was pointed out that the question of having a hospital had existed for a number of years and that it was now practically apparent that no aid would be received from the government for the project," Mr. Housholder said, "it was shown to Charles E. Bradshaw, chairman of the Seminole County, if they ever hope to have a hospital, to take part in this election and approve the law."

"This will simply make the law effective and does not approve the issuance of bonds," Mr. Housholder pointed out.

"If the law is not made effective, there would be no way for any further action until after the next Legislature. If the law becomes effective, the people will be in a position to tell the Commission what they want," Mr. Housholder added.

If the special act is approved in the election on Aug. 19, the Commission will then have the authority to call another election to approve the issue of additional bonds to enable the county to build the hospital, without outside aid.

British Warn Japanese They Are Prepared

Everything Said In Readiness To Halt Nipponese Attempt To Move Westward

Threat Is Seen To Burma Road

United States Joins England To Urge Resistance In East

In the Far East, the British warned Japan today that "all preparations are ready to smash any Japanese attempt to cut the Burma Road or move further westward."

This appeared to refer to a possible Japanese move into Thailand from an Indo-China base or an invasion of Yunnan in southwest China.

The United States and Great Britain, in parallel representations, have urged Thailand (Siam) to take a firm stand against bases and have promised Thailand Japanese demands for military supplies in event of an attack by Japan, a responsible source revealed last night.

The disclosure came soon after the United States, hinting at new economic reprisals, warned Japan to stay out of Thailand—potential powder keg for the Far East.

The warning, echoing a similar pronouncement by Britain, was contained in a press conference statement by Secretary of State Hull who declared that any Japanese thrust into Thai territory would be a matter of increasing concern to the United States.

Hull, asked whether he had had any conversations with or made representations to Thailand, replied that he was not able to go into any details now because nothing very definite had been decided.

The source said representations already had been made for the purpose of encouraging Thailand to take a "strong and independent attitude toward Japan."

This quarter indicated the two English-speaking nations have offered to implement their encouragement with more than words—military material. Such an offer would be calculated to give Japan pause before attempting to move into Thailand.

Bases demanded by Japan it was said presumably would be used as a springboard for attacks on British Burma or Singapore, the Netherlands East Indies, and China.

Units of Japanese forces which recently moved into French Indo-China have been dispatched to the adjacent Thailand border in the past few days and penetration of Thailand is regarded here in London as the next likely Japanese move.

For this reason British forces have been moving up to the Thailand boundary.

(Thailand has been very friendly with Japan, in a diplomatic sense, in recent years, and there is fear among authorities in Washington and in London that its government will yield to Japanese demands.)
