

Hi Opens Season Losing To Eastis

(Continued from Page One)
The ball slipped away from his left hand and he was standing up. The try for a touchdown failed.

Miller got two yards at right guard, and Billie Brown slipped off left tackle for 11 yards and a first down on his own 41 yard line. The drive was halted when quarterback Hughes elected to punt on third down after two tries had cost him two yards loss.

Again Eastis started down the field through a disorganized Seminole line that couldn't stop the charging Bulldogs. E. Horne hit center for five yards, and a Sanford offensive penalty made it first down. Horne slipped through center for eight yards, and his pass to Dean for 14 yards gain declared good when Seminole's interference with the catch.

A pass, R. Horne to Thomas, was good for seven yards at right end, and another pass, R. Horne to Ernest netted seven yards at left end as the quarter ended scoreless, with Eastis on the Seminole 55 yard line.

Thomas cracked center for five yards but his backfield was in motion so he was penalized five. A pass, R. Horne to Thomas was good for three yards, but a second pass, R. Horne to Thomas, was the 19 yard line and the drive had ended.

Miller and Doker made three yards total at center before Hughes ordered another punt by Horne who had replaced Brown. The punt was short and Eastis took the ball on Seminole 43 yard line. Thomas and R. Horne made five yards off right guard but a bad pass cost Eastis five yards on the third play so Thomas punted 35 yards to Hughes who returned eight yards to his own 23 yard line.

Horne went around right end for 10 yards, and after Miller, Horne, and Doker had gained 9 yards off the tackle, Horne punted, the ball being downed on the Eastis 33 yard line.

Eastis punted back on the third play when two line plays failed Seminole taking the ball on its own 23 yard line. Brown lost six yards, but Horne picked up five on a reverse play. Miller then electrified the big crowd by slipping off left tackle for 41 yards before being brought down by the feet-footed Thomas on the Eastis 23 yard line. But, Miller's pass to Brown was intercepted by center MacDonough and Eastis took the ball on its own 23 yard line. Thomas punted on first down, and the first half ended on the next play.

Seminole failed to get beyond the Eastis 48 yard line during the third quarter, a fumble by Brown stopping one drive after the touchdown had been scored. Brown made good his fumble by intercepting a pass on his own 43 yard line and running to the Eastis 47 yard marker. The third quarter ended just after Hughes was thrown for an eight yard loss, trying to pass.

Opening the last quarter, O. Horne returned Miller's punt 12 yards to his own 42 yard line. Heavy penalties came on the next two plays, however. Eastis was penalized 15 yards to its own 28 yards for holding on the first play, and on the next play, Eastis was penalized half the distance to the goal line, or 18 yards, for slugging. Thomas hit to punt from his goal line, Seminole downs the ball on the Eastis 40 yard line.

LONGWOOD

The Home Demonstration Club with Miss Boydston in charge met at the library Wednesday afternoon when the following officers were elected: President, Mrs. C. B. Searcy, Vice-President, Mrs. Joe Avenue, Secretary and Treasurer, Miss M. Fisher, Promoter, delegate, Miss Williams, Harlow, Pattern, and songs were played and songs sung. The club meets second and fourth Wednesdays of each month.

Captain and Mrs. Pope Washington have returned to their home on Greenwood Lake after spending the summer at their cottage at Peas Island, Md.

On Sunday Mr. and Mrs. G. L. City entertained several relatives from Lakeland at a family dinner.

Mr. and Mrs. W. J. Nelson and children have returned from Asheville, N. C. to their home on Greenwood Lake.

John Bistline's eleventh birthday was celebrated at home with a birthday dinner on Saturday evening. Those present were Mrs. F. J. Niswonger, Mrs. Ethel Beale, Bobbie Blankenship, Mr. and Mrs. J. A. Bistline, and Frederick Bistline.

County Commissioner C. E. Searcy attended the all-day business session of County Commissioners in Sanford on Monday.

Mrs. Kate Barhart, widow of late Major Barhart, long-time resident of West Longwood, died on Wednesday night after a short illness. Funeral services and burial were held in Apopka.

Many teachers for the coming year at Lyman School have arrived and have arranged homes in various homes in town.

The Women's Missionary Union of the Baptist Church, in commemoration of this week of Prayer, will hold an all-day meeting at the church on Thursday. The morning session will be in charge of Mrs. F. F. Schellfield and the afternoon will be led by Miss Cora Dooly. Luncheon will be served at noon.

On Thursday evening at the Oviedo Woman's Club, Mrs. T. W. Lawton and Mrs. W. J. Lawton were joint hostesses for the "Home Builders" class of the Methodist Church at which time the class was divided and turned a class for the men and one for the ladies. Each class elected new officers for the coming year.

After the business a social hour was enjoyed.

EDWARDS IS CONVICTED OF KILLING GIRL

(Continued from Page One)
John Phillips' defense counsel announced later that appeal would be taken.

The jury was out since last night at 8:54 o'clock, retiring for a few hours when the jury returned and again resuming deliberations at 6:00 o'clock this morning.

Impassioned pleas of "send him to eternity to meet the mother of his unwelcome baby" dashed last night with demands of outright acquittal for Robert Allen Edwards in the case.

Miss Perkins predicts end of walkouts.

(Continued from Page 1)
Miss Perkins said that to make the peace agreement truly effective, both employers and workers must turn to these methods willingly.

Agreed plans to have the federation convention elected by negroes in their campaign for economic equality failed to materialize up to the time Miss Perkins spoke.

The convention, however, adopted resolutions designed to assist negro workers. One of these resolutions precipitated a very battle on the floor, but it was passed in amended form.

Supreme Court Rules Against Slot Machines

(Continued from Page One)
The lower court decision was granted on motion of Doker, who contended the machine in question was not gambling.

Two line plays net Seminole one yard to Hughes took to the air again only to see Horne's pass to Miller intercepted by Thomas on the Eastis 23 yard line. That was the second time that Seminole had a chance to score, as completely as it happened by the hands of Doker and Seminole's Captain Thomas.

U. S. Income Again Reaches Billion Mark

(Continued from Page 1)
Nearly no increase in the million-dollar mark was to be expected.

Improving business conditions were especially pleased with yesterday's reported rise in income tax receipts from \$168,044,918 to \$216,789,804 and the \$66,000,000 gain in miscellaneous internal revenue which brought the figure to \$249,000,000.

Nearly \$50,000,000 of silver coinage came from printing certificates at \$1.29 an ounce against metal purchased at a much lower price.

Customers dropped from \$64,068,800 to \$52,372,442.

The drought undoubtedly will reduce farm income below official expectations for the year but AAA directors feel that higher prices, including crops not affected by the dry spell, will bring the 1936 agricultural income above that of 1935.

All the major commodities are bringing more per unit than they did at this time last year, the advance being marked in grains, hogs and cattle, all of which were directly affected by the drought.

On the other hand, officials of the marketing authority feel that the marketing of cotton will be affected by the drought.

On the other hand, officials of the marketing authority feel that the marketing of cotton will be affected by the drought.

104 LIE DEAD AS CIVIL WAR RAGES IN SPAIN

(Continued from Page One)
Scattered reports indicate the revolutionary strike had completely paralyzed almost all industry and transportation at many places in Spain.

Minister of Interior Aloy Alfaro, in an effort to reduce casualties, ordered all persons of the streets of Madrid, while soldiers, police and assault guards, patrolled the city.

Machine guns peered menacingly from the roofs of public buildings, residences and other strategic points and heavy guards protected the homes of members of the government.

In several clashes during the day and at dusk machine gun snuff fire rattled through the streets of the capital.

On Thursday evening at the Oviedo Woman's Club, Mrs. T. W. Lawton and Mrs. W. J. Lawton were joint hostesses for the "Home Builders" class of the Methodist Church at which time the class was divided and turned a class for the men and one for the ladies.

After the business a social hour was enjoyed.

Mrs. Ulrich spent the afternoon with her sister and father, Mr. Hall, at Daytona.

Miss Audrey Ucker, Charlotte Johnston and Stella Book are taking Post Graduate work in Sanford High School.

Walter Luther is home again from Waynesville, N. C.

Mrs. T. F. Sumner had as her guests Mrs. Loyd Kirkland and four children, Mrs. Wallace, of Vienna, Ga. and Mrs. Chitties Gibson of Akron, Ohio, and Miss Eugene Sumner.

Notable Group To Visit City On Yacht Tour

(Continued from Page One)
Sanford and on to Lake Harney and return. It is due to reach the Chamber of Commerce dock at Sanford at about 8:00 o'clock Monday night.

During the cruise, announcers at radio stations WDBO at Orlando and WRUF at Jacksonville will broadcast special greetings aimed at the official party. These announcements will be heard at 12:30 o'clock, at 12:45 o'clock, and at 1:00 o'clock.

The official party will include the following: Alfred A. Green of Daytona Beach, personal representative of Governor Sholtz.

Major E. C. Dunn, Jacksonville, district engineer of the U. S. War Department.

Attorney-General Cary D. Landis of Tallahassee.

George B. Hills, Jacksonville, member of the National Democratic Executive Committee.

Commander George W. Gibbs, Jacksonville, member of the Governor's staff.

Col. Robert L. Selner, Jacksonville, Chamber of Commerce official.

Malcolm Fortson, president of the Jacksonville Chamber of Commerce.

State Senators Turner Butler of Jacksonville, and J. J. Parish of Titusville.

City News Briefs

(Continued from Page One)
Plans for Campbell-Leasing Pop's participation in the National American Legion Convention at Miami late this month will be discussed at the Legion Hut Monday night during a regular meeting of the Post, said newly elected Commander James O. Huff this morning.

A scheduled regular meeting of the City Commission may have to be postponed until Tuesday night, it was indicated today, when all necessary members of the Commission will be present at the Chamber of Commerce on the yacht trip set for Monday.

The Commissioners may gather at the City Hall for a few minutes to declare their regular meeting adjourned officially until Tuesday, Clerk Lamson stated today.

1934-35 City occupational licenses have been selling at the

REBELS SEIZE ARSENAL AS REVOLT FLARES

New Outbreak Follows Official Report Of Civil War's Having Been Brought To End

MADRID, Oct. 8.—(A.P.)—Oviedo, seat of the huge government arsenal, was taken by rebels today in a new outbreak of revolt against the government cropping out simultaneously at several points.

Reports from Barcelona said three towns on the outskirts of the city—Matorell, Sabadell and Badalona—were in the hands of anarchists. Troops were dispatched to the trouble centers.

Reports reaching Madrid also said that troops were bombarding Ujo and Gijon in Asturias Province where rebels are reported to be solidly entrenched.

Warships were bombarding Gijon lying down a barrage for advancing troops.

Reports said the rebels were equipped with machine guns and light artillery and were well fortified within the city. Casualties are reported to be heavy.

The new flare-up of a four-day revolt that has taken an estimated 500 lives and caused some 3000 casualties came when the government announced that the backbone of rebellion was broken.

The backbone of the fierce revolt against the rightist government of the young Spanish Republic was thought broken early today.

Fighting continued in scattered spots particularly in northwest Spain but the government was generally in control in Barcelona, scene of the most severe fighting.

Transportation workers there were reported as returning to their posts today.

General Domingo Batet, in charge of government troops there reported the situation in the Catalonia capital was "vastly improved."

The ministry of interior said that Asturias was in the hands of the government, and that Gijon was tranquil after the arrival of reinforcements. Insurgents were dispersed with numerous casualties it was reported.

Lula Company, who declared Catalonia's independence Saturday, forced surrender, but officials refused to say if a verdict had been reached.

Company gave himself up yesterday after government troops bombarded principal buildings of the city for more than an hour.

He and other leaders of the insurrection are held prisoners aboard the steamship Uruguay in the harbor.

Intermittent shooting in various sections of Madrid kept troops busy throughout the night.

Chauffeurs are still on strike, but most other branches of labor complied with a government order that they return to their posts this morning.

Fletcher Qualifies As A Fisherman

From sparring with the captains of American banking and industry to catching black bass may be a far cry for United States Senator Duncan U. Fletcher, but he could have been no more elated over his successful tiff with the former group than he was at Beresford this morning when he landed a three-pound black bass.

Urged to try his hand at fishing while he and his party awaited the arrival from Sanford of trade body officials who were his hosts on the St. Johns River today, Senator Fletcher removed his coat, seated himself comfortably on the stern of his yacht, and awaited results. Ten minutes later he was wreathed in smiles as he displayed, proudly, a wiggling black bass which had given him a lively tussle before he landed it.

"Who says I can't fish!", the Senator asked with justifiable pride.

ROOSEVELT TO OUTLINE NEW VIEWS ON NRA

Federal Judge's Ruling Banning Fixing Of Prices Held As Highly Significant

WASHINGTON, Oct. 8.—President Roosevelt was to outline his views on the future of the NRA to that agency's new governing board today at a meeting given added significance by a federal court ruling banning price fixing under codes.

The red flag was raised against this major NRA policy by Federal Judge Harry B. Anderson in Memphis, Tenn., in a case involving the sale of hardwood below prices fixed in the lumber codes.

In granting the plea of 600 manufacturers for an injunction against prosecution for disregarding minimum code prices, Judge Anderson held Recovery officials had gone beyond the intent of Congress in including price control provisions in NRA codes.

The NRA struck back swiftly. Blackwell Smith, acting general counsel of the NRA and associated with the new Recovery board, said the decision would be appealed. He insisted the Recovery Act authorized the fixing of prices.

The court decision came as the lumber code dealers, meeting in Chicago, gave emphatic endorsement of the price provisions in its code and demanded strict enforcement.

The question of price fixing has given Administration officials more headaches than any other single project launched by the NRA. It has cut sharply across conflicting theories of the brain-trusters and touched off one explosion after another in the ranks of the NRA.

President Roosevelt has never given a public expression of his views on the controversial issue. He acknowledged the widely divergent opinions on price-fixing and production control, however, in his message to the nation last Sunday night.

At that time, Mr. Roosevelt said that these problems would be studied carefully by the new Recovery board and the new policy making committee headed by Donald Richberg, on leave of absence as chief counsel of the NRA.

CHAIR SHADOWS BOBBY EDWARDS IN FATAL LOVE TRIANGLE

Convicted of killing his childhood sweetheart, Fred McKechnie, in order that he might marry Margaret Crain, Robert Edwards (left) in hopes of escaping death in the electric chair. In the center is Miss McKechnie, at the right is Miss Crain, a music teacher at East Aurora, N. Y., and in the background is shown Harvey's lake in which Edwards was accused of killing Freda after the fashion described in Theodore Dreiser's novel, "An American Tragedy." Associated Press Photos

HAVANA AGAIN NORMAL AFTER DAY OF RIOTS

One Dead, 15 Wounded Is Toll Of Trouble Started By General Strike That Failed

HAVANA, Oct. 8.—(A.P.)—The mob violence and incendiarism that accompanied a start of the general strike called by radical labor unions today subsided as the day wore on, leaving one dead and at least 15 wounded.

Rifles and machine guns that spoke early in the day were quieted, and Havana returned to almost normal activities excepting for tram and bus services which were partly manned by police and soldiers.

The office of the newspaper Ahora was destroyed by fire after the Diario de La Marina office was made a target for machine gun bullets which wounded a policeman.

Only 25 street cars were operating in Havana.

At Santiago, bakers, builders and printers were on strike but other branches of the trade were back at work.

At Ciego de Avila the strike was a failure. Camaguey was nearly normal.

ADVANTAGES OF FUTURES TRADING IN CITRUS TOLD

Stabilization Of Market Is Goal Of Exchange Which Plans Action

NEW YORK, Oct. 8.—(A.P.)—Stabilization of the citrus fruit market is the goal of the New York Produce Exchange, which plans to launch trading in that commodity for futures delivery.

Oranges and grapefruit will be admitted to trading when the necessary machinery is established. Lemons will be listed if there is a demand, said Samuel Knighton, exchange president.

Advantages of futures trading as outlined by Joseph H. Matthews, chairman of the committee completing arrangements, will be price stability, elimination of a price of fruit in any one market, "price insurance," and creation of a market which will allow the natural law of supply and demand to operate.

Producers representing interests in Florida, Texas and California have been in touch with Matthews. The strongest demand for creation of a futures market comes from them, he said.

When grading regulations have been established under Department of Agriculture sanction and trading contracts drawn, citrus fruits will be ready for trading. The exact time has not been set.

Citrus fruit purchases now are made from the producers at auctions, with prices depending on national and local marketing conditions.

Exchange members say a producer could sell a contract in a futures market in an amount equal to his growing crop, and by thus hedging his crop, he could insure himself against violent price swings.

Middlemen also can take out such "price insurance" by purchasing futures contracts, as a hedge (Continued on Page Two)

MANUFACTURERS OPPOSE PLANS TO CONTROL PLANTS

Federal Operation Of Mills Would Bring Damage To Industry

NEW YORK, Oct. 8.—(A.P.)—The board of the National Association of Manufacturers expressed opposition yesterday to the operation of manufacturing plants by the federal government as a means of unemployment relief, and at the same time endorsed the statement of President Roosevelt that relief to all possible extent should be handled through local agencies.

The position was based on an inquiry recently submitted to the association's membership, which registered disapproval of competition with private enterprise as a move which "simply shifts employment from private to public enterprises and serves to retard attainable recovery."

In a statement announcing the stand of the membership, the board also reported receipt of a petition signed by 17 large trade associations opposing the expansion of government manufacturing plants into new fields through the Federal Emergency Relief Administration.

"Entrance of the government into the manufacturing business in competition with its own citizens," the board stated, "even to supply relief for the unemployed, constitutes an extravagant use of taxpayers' money in further experimentation. It simply shifts employment from private to public enterprises and serves to retard stable business recovery."

"Where those in distress cannot (Continued on Page Two)

Fort Myers Men Held For Attempted Murder

Two Men Were Under Arrest Here Last Night As Police Investigated a Story of 'Attempted Murder for Two Dollars'

FORT MYERS, Oct. 8.—Two men were under arrest here last night as police investigated a story of "attempted murder for two dollars."

T. P. Downing, former dairyman, was arrested on the reported confession of William Lee, who said Downing agreed to pay him \$25 to kill Horis Richardson last November. So Lee shot Richardson, he said.

But Richardson's wounds were so slight that Downing paid him only \$2, officers said Lee had charged in his confession.

Both men are held on a charge of assault with intent to murder.

EDITORIAL FAVOR LESS CONTROL OVER BUSINESS

Questionnaire Shows Desire For Independence Of Operation

NEW YORK, Oct. 8.—(A.P.)—The National Industrial Conference Board, a statistical organization maintained by large industrial corporations, announced yesterday that replies to a questionnaire made by more than 5000 editors of newspapers and farm journals throughout the United States, indicated a desire for less government in business.

The board stated the questionnaire was sent to 12,076 editors and replies were received from 5050 whose publications had a total circulation of 24,843,677. The main questions covered unemployment insurance, old age pensions, cost of government, relations of government to business and labor. (Continued on Page 3)

STATE NEARS END OF HOLIDAY FROM RELIEF PROBLEMS

Federal Government Expects Florida To Help Pay For Costs

JACKSONVILLE, Oct. 8.—(A.P.)—The end of Florida's "holiday" from unemployment relief problems may be in sight.

Since the beginning of the economic depression the federal government has shouldered the load with hardly a boost from the state, its counties or cities.

Comparative figures tell the story. Since July, 1933, Uncle Sam has poured more than \$38,000,000 into the state for the Emergency Relief and Civil Works Administration programs. Local contributions during the same period, the combined total of funds put up by the state and all of its political subdivisions, reached less than \$2,500,000. And of recent months local help has dwindled—from \$85,920 in July, 1933, to one-tenth that amount last April.

Of late, Harry L. Hopkins, federal relief administrator, has shown increasing signs of restlessness. (Continued on Page Two)

Paralysis Epidemic Rages In Havana

Statements of the National Department of Health that the Infantile Paralysis Epidemic in Havana is on the decline, it was learned yesterday the disease is continuing to claim victims here.

HAVANA, Oct. 8.—Despite recent statements of the national department of health that the infantile paralysis epidemic in Havana is on the decline, it was learned yesterday the disease is continuing to claim victims here.

The epidemic has raged for three months with 126 cases reported. Thirty-six patients, more than one-third of the stricken, have died.

Another Banker Finds Out That You Can't Win

CLEVELAND, Ohio, Oct. 8.—(A.P.)—Federal Judge West "reluctantly" sentenced James Arthur House, once the highest paid bank president in Cleveland, to serve six years in a federal penitentiary and fined him \$10,000.

House, for 16 years president of the Guardian Trust Company, which closed for liquidation in March, 1933, was convicted on 25 counts of misapplication of funds and false entries in connection with the purchase of bank stock from an employee's pension fund.

Lindbergh Again Tells Grand Jury About Kidnaping

NEW YORK, Oct. 8.—(A.P.)—Charles Lindbergh went back to Washington, N. J., today for the second time in half a year to grand jury his story of the kidnaping of his son, who is in custody here.

It was the second time the famous flyer had been called upon to tell the story to a Hamilton County grand jury.

The first occasion was a little more than two years ago when he testified before the body which indicted John Dillinger, Charles Campbell and other members of the kidnaping gang.

Lindbergh was given by the grand jury a general subpoena which was served by Sheriff Justice Thomas W. Smith on Lindbergh's home in the town of Hamden, Conn.

It is believed that Lindbergh's testimony will be given in the case of the German spy, who was arrested in New York on Oct. 7.

66 DEAD IN TYPHOONS

SAIGON, French Indo-China, Oct. 8.—(A.P.)—Two typhoons which swept across Indo-China Sunday and Monday killed 60 persons, surveys showed. Scores of houses were wrecked and many boats were swamped by a tidal wave which followed the typhoons.

NEGRO EXECUTED

RAIFORD, Oct. 8.—(A.P.)—Walter Williams, negro was executed in the electric chair today for a criminal attack on a white woman in Dade county. He walked calmly to the chair and prayed softly as the straps were adjusted.

Propose \$1500 Tax On All Slot Machines

JACKSONVILLE, Oct. 8.—Operators of slot machines would be taxed \$1,500 annually under a proposed city law, which city council will consider tomorrow night.

The city now collects a \$25 tax annually for the operation of a slot machine. This is collected from the establishment in which the machine is operated.

Under the provisions of the proposed law, persons who run companies or establishments operating machines would be subject to the \$1,500 tax.

Strawberries Being Plucked At Starke

STARKE, Oct. 8.—(A.P.)—It's an old Bradford county custom to pluck and display publicly here the first red, ripe strawberry of the season, earlier—if possible—than any other farm neighbor.

Yesterday, that honor went to W. Woodward, who said his one and-a-half acre "patch" was with young berries and that he expects to be "plucked" much earlier this year.

Americans In Spain All Believed Safe

WASHINGTON, Oct. 8.—All Americans residing in Spain are safe, according to advices transmitted by Ambassador Bowers from Madrid to the state department here.

The department announced that Bowers is in close touch with the American consuls in the Spanish cities and that so far no Americans have suffered injuries, or even subjected to inconveniences.

Roosevelt Intends To Continue CCC Feature Of His Recovery Program

WASHINGTON, Oct. 8.—(A.P.)—President Roosevelt intends to continue indefinitely the Civilian Conservation Corps phases of his Recovery program.

He made this known yesterday in a letter to Robert Fechner, corps director, acknowledging the latter's enthusiastic report on a recent visit to 125 camps in 10 Western states.

"I have been greatly interested and encouraged by the fine report from your visits to CCC camps in many parts of the country," Mr. Roosevelt said.

"This kind of work must go on. I believe that the nation feels that the work of these young men is so thoroughly justified and, in addition, so beneficial to the nation that it is clear that the actual amount of work will be met without much opposition or much complaint."

Fechner reported that the cost of the CCC during its 18 months of operation had amounted to \$443,000,000. Eight hundred and 50 thousand young men, war veterans and Indians received \$194,000,000 in wages, of which \$112,000,000 went to their families.

The present authorized enrolled strength is 289,832, and enrollment of 100,000 is now under way to fill vacancies resulting from discharges. Fechner said 10,000 were dropping out each month to take private jobs.

In that report Fechner said the CCC had advanced the nation's forestry program from five to 25 years, and added 6,000,000 acres to national forests and 97,000 acres to national parks.

A Major Operation

In other columns of this page we are publishing a statistical analysis of the effect on state and county taxes of the proposed Homestead Exemption Amendment. This analysis was prepared by Muri E. Pace, a certified public accountant, who is president of the Tax Assessors' Association of Florida. It represents in our opinion an impartial study of the tax situation with regard to the Homestead Amendment as it is possible to obtain.

No attempt is made in this analysis to deal with municipal taxation as it will be affected by the amendment. It is a well known fact that practically all city revenues are derived from ad valorem taxes on real estate and that the homes constitute a fairly large portion of this real estate. It is equally well known that the various cities will be seriously affected by the exemption of homesteads. However, that particular feature of the problem is not dealt with by Mr. Pace.

It will be noted in the accompanying chart that the state, counties, and various taxing districts levied \$32,890,602.10 against all the real estate in Florida during the year of 1933. Of this amount some \$12,071,317.39 was for debt service, and hence will not be affected by the proposed amendment. We believe it is fairly well understood by this time that the homes cannot be exempted from that portion of taxation which goes to the payment of interest on bonds and to their retirement.

This leaves \$20,819,284.71 for operating expenses. This, of course, does not include gasoline taxes or any other items not connected with real estate. It represents only the actual revenue derived from ad valorem tax on real estate for the purpose of operating the state and county governments. Of this amount, it is estimated—and his estimate is probably as accurate as it is possible to obtain—that 30 percent is derived from the homes.

In other words, if the Homestead Exemption Amendment carries, the revenue derived from real estate for the operation of government will be reduced by \$6,236,755.42. Mr. Pace then shows that this loss of revenue will be divided as follows: The schools will lose the largest portion, or \$2,948,558.45. The County Road Fund will lose \$805,925.62. The County General Fund will lose \$917,130.39. Other county funds will lose \$805,700.24. And other state funds will lose \$759,440.70.

It goes almost without saying that some very prolific source of revenue will have to be uncovered by the Legislature to make up for this loss in revenue to the state and counties. It goes also without saying, that if the new source of revenue is to be a sales tax—and there is no other—then it must be a very substantial sales tax, to raise \$6,236,755.42. And the cities will have to levy their sales tax on top of that.

The Canal

The proposed cross-state canal is out. That at least is the conclusion to be gathered from the report of the special board of engineers appointed to study the project by President Roosevelt who personally appears to be very sympathetic toward the plan. Reviewing the various efforts which have been made to have the government dig a canal across Florida, the Tampa Tribune says:

"This board, the third to make a survey of the project, was named to ascertain if the widely varying reports of the two previous boards could be reconciled. The PWA engineers estimated the cost at \$115,000,000, the War Department engineers at \$200,000,000. The third board, made up of both Army and PWA engineers, puts it at \$143,000,000; and reports that after an exhaustive study of the entire plan, it is outside the normal, self-liquidating requirements under PWA regulations for repayment and amortization."

"These engineers found that the canal could not be expected to liquidate its cost within 50 years; that it would have to depend almost entirely upon toll traffic to be self-supporting and that this traffic would not be sufficient, besides being a rapidly decreasing resource; and that operators of shipping, accustomed to have free use of public highways, have displayed a singular apathy toward the proposed improvement."

The President having submitted the project to this third board evidently for a final and conclusive verdict, it is regarded as certain that its report will be accepted by the government—and that the cross-state canal is out as a federal project. The government already has spent a great deal of money only to ascertain that the big scheme is impracticable.

But now that the cross-state canal is definitely out of the picture, there should be a better chance than ever of getting the St. Johns-Indian River Canal. This project would not prove expensive, could easily pay out, and would be a vast improvement to this part of the state. No effort should be spared now toward getting this project approved.

SANFORD TWENTY YEARS AGO

War News—Renter dispatch from Antwerp says: Bergeshaut, Antwerp suburb, burning. Bombardments been terrible, according to Antwerp dispatch dated last night. Germans reported throwing incendiary bombs. Many parts of city burning.

Mr. and Mrs. Charles E. Henry and their children, Ethel, Florence, and Ruth, have arrived in the city for the winter after spending a most delightful summer at Wildwood Beach near Philadelphia. Alderman David H. Smith happy in the possession of his Overland car. A half-toned and wholly stowed driver ran into the Davidson car on the Orlando road several days ago, breaking it up badly and setting back a pretty sum to have it repaired.

An out-of-town wedding of interest to the many friends of the groom is that of Miss Viola Grace Howard of Sarasville, Ga., to Mr. Louis Tompkins of Sanford. The wedding will take place at Sarasville Wednesday afternoon, Oct. 31, at the First Baptist Church.

It will be of interest to the bridge players in Sanford to know that the bridge club has been organized for tobacco, coffee, and grain

HOW HOMESTEAD AMENDMENT WILL AFFECT COUNTY AND STATE

Analysis of the proposed Homestead tax exemption on State and County Revenue under 1933 Tax Rolls as a basis. No account is taken herein of the effect on Municipal Taxation. The basic data is taken from OFFICIAL STATE RECORDS, but the percentage of loss is an estimate. Prepared for the Tax Assessors' Association of Florida by Muri E. Pace, President, Tallahassee, Florida (Certified Public Accountant—Registry No. 714, 1933).

Table with 6 columns: Total Assessed Value for Ad Valorem Taxes, Total Amount of State Taxes, Total Amount of County Taxes, Special School Dist. Taxes Maintenance, Special R. & B. Dist. Taxes Maintenance, and Other Special District Taxes. Rows include Total, Total Amount of State Taxes, Total Amount of County Taxes, Special School Dist. Taxes Maintenance, Special R. & B. Dist. Taxes Maintenance, and Other Special District Taxes.

DISTRIBUTION OF LOSS

CHURCH LOYALTY

R. A. WILSON

As a people we are striving for a more perfect mode of living, for a better understanding of our fellow man, and for the elimination of strife, suffering, poverty and sin. The principles of Christianity are the foundation of civilization, the source of all equity and understanding; and can only be maintained through the proper function of that institution promulgating these ideals, the Church. I recognize the church as the body of Christ and consider myself a member of that body, and therefore must respond in action to the impulse of such knowledge as I may possess. This knowledge may limit my activity to insignificance, but does not relieve my responsibility.

Hence I strive to be loyal to the church, that it may live into the generations unborn and that through their perfection may be attained; and that through its teachings and activities I may gain more knowledge and a greater source of comfort and joy in the proper discharge of added responsibilities.

Advantages of Futures Trading In Citrus Told

(Continued From Page 1) against promised deliveries to wholesalers. Fruit that has been hedged could be held off the market for more favorable prices, exchange members point out, thus preventing an over-supply at any one market. Farmers are said to grant loans more readily on a hedged crop, and in that manner a producer can obtain loans more easily than on a crop which would have to be sold at the prevailing market price. The futures market system in the citrus is recently established for tobacco, coffee, and grain

Distinguished Men Visit City, Guests Of Commerce Body

(Continued From Page One)

Enroute from Sanford through Lake Harney and beyond, it had the opportunity of seeing the type of land which is flooded over almost annually because of high waters that could be drained away through the canal, and the approximate location of the western end of the canal. Heading the party were United States Senators Duncan U. Fletcher and Park Trammell, and Congressman Mark Wilcox, J. Hardin Peterson, and Joe Sears. George B. Hill of Jacksonville, member of the National Executive Committee and accepted widely as the most important and influential political figure in the state, also was a guest, as was Alfred A. Green of Daytona Beach, personal representative of Governor Sholtz, and Major B. C. Dunt, Jacksonville, District Engineer of the U. S. War Department. The party enjoyed a fish luncheon aboard the yacht "Noah's Ark" which passed through Lake Monroe early this afternoon. Local persons who are acquainted with the upper St. Johns, were grateful to point out on maps and through other data, just what sections of the river needed improvement.

A return to Sanford was scheduled for 8:30 o'clock tonight, but when the yacht passed Sanford this afternoon, some doubt was expressed that the party could reach beyond Lake Harney and return before at least 8:00 o'clock. Others in the party included: Attorney-General Cary D. Landis of Tallahassee, Commissioner George D. Gibbs, Jacksonville ship builder and member of Governor Sholtz's staff, Col. Robert L. Settner and Malcolm Fortson of the Jacksonville Chamber of Commerce; State Senators Turner Butler of Jacksonville and J. J. Parrish of Tallahassee.

Manufacturers Oppose Plan To Control Plants

(Continued From Page One) be provided with either public or private work for which they could be paid, then public funds may legitimately be used to provide relief of actual need on a substantial basis. But to furnish the necessities required through government operated factories is the wrong way to do the right thing. The government plants will generally be producing only necessities, and these will have to be purchased from private manufacturers and dealers who are

for the FERA plants. The result is to deprive employes in private industry of work, creating unemployment at one point and unemployment at another.

Editors Favor Less Control Over Business

(Continued From Page One) and price fixing by government. On the question, "Does public opinion in your community favor control of the management of private business by government bureaus of officials," the board stated the replies were: Yes 256, or 5.2 percent; no, 4565, or 92.5 percent; doubtful, 112 or 2.3 percent. Replies were 23.5 percent for, 72.5 against, and 2.5 percent doubtful on the question of fixing selling prices by the government for farm products. The same question applied to factory products was 17 percent for, 80.8 percent against, 2.2 percent doubtful.

Also, W. F. Glynn of Crescent City, C. L. Heath of DeLand, and Karl Lehmann of Sanford, officials of the St. Johns River Improvement Association; Martin Anderson, editor of the Orlando Morning Sentinel; Roland L. Dean, editor of The Sanford Herald; John Maize, Sr., C. B. Seary of Longwood, V. E. Douglas, E. P. H. holder, representing the County Commissioners; Mayor W. A. Lytler, Commissioners V. A. Spear and H. J. Lehman, F. S. Lamskin, and Fred R. Wilson, representing the City Commission; H. M. Penworth, B. F. Holmes, and Fred T. Williams, representing the Chamber of Commerce.

State Nears End Of Holiday From Relief Problems

(Continued From Page One) now with states that have not done what he believes to be their share. Only last week he told the 1934 conference on the mobilization for human needs he was

of hearing "alibis" and named Florida as one of the 14 states from which he expected more relief funds.

Picket Removed

CHICAGO, Oct. 9. (A.P.)—A picket line of about 100 men today was removed from the premises of the Pullman Company in Chicago.

Cardinals Win Series In Amazing Game

The St. Louis Cardinals are the champions of the baseball world. They won the title of World Champions in Detroit this afternoon by scoring an amazing 13 to 0 win over Mickey Vernon's Tigers in the deciding game of the 1934 World Series. Driving Edson Acker from the mound in a savage attack in the third inning, the Cards continued the assault on "Schoolboy" Rowe and Tom Bridges, only to be halted by the veteran relief hurler, Fred Harberry, who entered the eighth inning. A feature of the tilt was the reversal from the game of the week, St. Louis left fielder, who spiked third baseman Blaine Owen when sliding into third in the fifth inning. Fans tossed so many pop bottles on the field after an argument between the two teams, that Judge Kennesaw M. Landis, high baseball commissioner, ordered Harberry removed. "Dixie" Dean, with only a day's rest, hurled six hits during the contest. The Cards made 17 hits during the tilt.

LABOR WILL FIGHT FOR 5-DAY WEEK

Delegates Unanimous In Pledge Made In Hope Of Ending Unemployment In U.S.

SAN FRANCISCO, Oct. 9. (A.P.)—The American Federation of Labor yesterday pledged all its power to establish the five day, 30-hour week in the hope of ending unemployment. Amid tumultuous cheers and without a dissenting vote the federation convention approved a resolution binding the big labor organization to spare no effort in obtaining legislation for the shorter work period with no reductions in wages. "Nothing shall stop us short of realization of our purpose," said William Green, federation president, as the action was taken. The problem of shortening the working week was described by E. J. Gainer of Washington, chairman of the committee presenting the resolution, as "one which must be answered in an answered promptly."

POWER FIRM CAN'T EXIST AGAINST TVA

Official Says Court Should Give Concern Authority To Sell All Of Its Holdings

NASHVILLE, Tenn., Oct. 9. (A.P.)—Declaring that competition with the Tennessee Valley Authority would bring "very serious and disastrous results," R. W. Lamar, an official of the Tennessee Public Service Company, testified yesterday that "under all the circumstances" approval should be given for the sale of his company's electric holdings in Knoxville to the TVA. Lamar, vice president and general manager of the TPS, appeared as a witness before the State Railroad and Public Utilities Commission, which is holding a hearing on the proposed transaction. Overruling a motion by counsel, the commission decided that objections to the sale could present their protests within certain specified limits. The TVA had sought to have the objections dismissed. The Public Service Company petitioned the commission for approval of the sale of its electric properties at and near Knoxville to the government agency for \$6,191,000. Subsequently, two preferred stockholders, Mrs. W. G. Ruble and Mrs. Myrtle Johnson, and a group of Tennessee ice and coal companies filed intervening petitions, protesting approval of the transaction. After stating that competition between the TPS and the TVA would bring "very serious and disastrous results" to his company, Lamar added that "under all the circumstances" he believed it is proper (Continued On Page Three)

DISTINGUISHED PARTY HERE MONDAY

DIGNITARIES HEAR NEEDS OF ST. JOHNS VALLEY AND CENTRAL FLORIDA: Gathered at the Seminole County Chamber of Commerce, Florida notables heard plans for the proposed St. Johns-Indian River canal discussed and detailed before they left on an inspection cruise. Front row: W. F. Glynn, Crescent City; Attorney General Cary D. Landis; Mayor W. A. Laffler; H. M. Papworth, president Seminole County Chamber of Commerce; Senator Park Trammell; Representative Mark Wilcox; Representative J. Hardin Peterson; State Senator J. J. Parrish; Alfred A. Green, Daytona Beach, representing Governor Sholtz; John Meisch, Sr., chairman Seminole County Commission. Second row: Acting Postmaster E. J. Holly, Sr.; T. K. Apgar, director FERA operations, Seminole County; C. B. Seary, of Longwood; Judge E. A. Carter, Lakeland; City Attorney Fred R. Wilson; County Attorney E. F. Housholder; G. W. Spencer, president Sanford Rotary Club; J. L. Marentette; Maxwell Stewart, president Lions Club; E. H. Laney. Third row: C. L. Heath, Deland, treasurer St. Johns Improvement Association; County Clerk V. E. Douglas; County Clerk Boye Williams, Tavares; Fred T. Williams; B. F. Williams; Haines, Altamonte Springs; City Clerk F. Alexander, Yugo-Slav Monarch, Barthou, Foreign Secretary For France, Victims

Killing Occurs On Marseilles Street

Slain Ruler Had Come To France To Help Improve Relations

MARSEILLES, Oct. 9. (A.P.)—King Alexander of Yugoslavia and Louis Barthou, French Foreign Minister, were assassinated today as the Yugo-Slav monarch came to France in an effort to improve Yugo-Slav-French relations. Barthou was shot in the left arm but he died as surgeons operated upon him. Alexander died of a wound in the chest. Barthou and Alexander were shot by an assassin later identified as Petrus Kalemias, a Yugoslav said to be a merchant recently arrived in France. He attempted to commit suicide by shooting himself in the mouth, but he was cut down by police sabres. Seriously wounded, he is expected to die soon. First reports said that another assassin, unidentified, had been shot dead, but authorities denied this. They did, however, arrest two men near Kalemias, but they said they were not sure the suspects had anything to do with the crime. Barthou's wound was not serious, but that of General Joseph Georges, French Superior War Counsel, also shot in the attack, was more serious. The shooting occurred at the (Continued On Page Six)

Paul Dean Whips Schoolboy Rowe In Dramatic Contest

DETROIT, Oct. 9. (A.P.)—In the most tensely dramatic game yet played in the current World Series, 21-year-old Paul Dean whipped 22-year-old Lynwood (Schoolboy) Rowe, Detroit Tiger ace, yesterday and pitched the St. Louis Cardinals back to even terms with a hard-fought 4 to 3 victory in the sixth game of the baseball championship battle. The younger member of the celebrated Dean clan, fighting to avenge the setback to Brother Dixie Sunday, himself drove home Leo Durocher with the winning run in the seventh inning and then hurled back the last Tiger cabbage in the eighth. The supposedly weak-hitting Durocher, batting just ahead of the pitcher, led the attack with three booming base hits as the Cardinals thrashed the youthful giant who beat them in 18 innings four days ago. Pitching his second brilliant victory of the series, despite a succession of pitfalls which he and his team-mates dug for themselves, the "Lif Brother" of the Dean family accounted for the third triumph of the National League champions, brought the count to three-all and forced the issue to a seventh and deciding game today on Navis field, the American league grounds.

Broke, Eustis Lays Off Nine Employees Until Cash Comes In

EUSTIS, Oct. 9.—Empty treasury coffers starting them in the face, Eustis city council Monday temporarily laid off nine city employees until further collections made it possible for the city to meet its payroll. Every appointive employee, excepting policemen and firemen, included in the order that swung the official axe. Included among the men placed temporarily out of work were: Ralph Mulholland, street superintendent; James Baldwin, city inspector, together with all street and park employees. Eustis citizens will have to dispose of their own garbage. City garbage service will be halted until more cash trickles into empty vaults. Council members said that the city had virtually been without cash since Oct. 1. An intensive drive to collect taxes has been keeping the city departments functioning since Jan. 1. Mayor Douglas J. Igou said Monday night that the move was "temporary" and that all efforts would be made to get the city back on a liquid and paying basis through an intensive tax collecting drive.

Lakeland Man Dies Listening To Series

LAKELAND, Oct. 9. (A.P.)—A. W. Cornelius, baseball enthusiast, suffered a fatal stroke of paralysis Sunday afternoon as he was listening to the broadcast of the exciting finish of the World Series game. He was 61 years old and had lived in Lakeland for 20 years. Interest in the World Series is running high here where the Detroit Tigers trained last Spring. Hundreds of fans crowded the street in front of the Ledger and Star Telegram daily to receive play by play reports.

GOVERNMENT OF SPAIN CLEANS UP SIGNS OF REVOLT

Portugal Also Runs Into Rebellion But It Is Said Blasted

MADRID, Oct. 9. (A.P.)—The government of Premier Alejandro Lerroux today began mopping up the remaining vestiges of the rebellion in several provinces while estimates of the dead in six days of extremists outbreaks ranged from 800 to 1000. General Ochoa concentrated the government army on the outlying regions of Asturias where fighting still went on. Fragmentary reports to the capital today said he had occupied Oviedo this morning, going there from Aviles. Meanwhile, reports that Premier Antonio de Oliveira Salazar of Portugal had blasted a budding fascist rebellion in his nation yesterday were received from especially reliable official sources in Lisbon. These reports said the Premier had directed the capture of half a dozen fascist leaders during a clandestine meeting, and that later they confessed that they had been planning a movement to restore the absolute monarchist and pretender, Durt Nuno, to the Portuguese throne.

CITY NEWS BRIEFS

Local weather yesterday: High 86, low 76, rainfall .04 of an inch. The City Briefer extends many happy returns to Raymond Mollis, Jr., and other local persons who celebrated their birthday anniversaries today, and the same greeting to Mrs. John Cameron (nee Nestle Stone) who will celebrate her birthday anniversary tomorrow. Congratulations also are extended to Mr. and Mrs. Horace Walker (nee Mildred Holly) of Petersburg, Va., who will celebrate their sixth wedding anniversary. County Agent C. R. Dawson announced today that he had handed checks totaling \$825 to seven growers covering loans which they had secured through the Emergency Crop Loan agency of the Farm Credit Corporation. Agent Dawson has local representation for the Corporation. The city is about to gain a new business enterprise—the Brandon Electric Co.—branch of a Deland firm which has been operating in that city for many years. The firm expects to open for business next Monday at 821 East 1st Street in the building adjoining the Seminole Creamery. George Brandon of Deland, will be manager. He expects to specialize in electrical refrigeration work, radio repair, and house wiring, and the firm will display a (Continued On Page Three)

CONSTRUCTION OF CANAL HELD STEP Nearer Ending

Trade Body Officials Satisfied Over Result Of River Trip

Construction of the St. Johns-Indian River canal east of this city was held by Chamber of Commerce officials this morning as having been brought one step nearer as the result of the "highly successful" yacht cruise which yesterday enabled a distinguished party of national, state, and local notables to visualize present and proposed conditions on the river. It was a noticeably tired but apparently satisfied group of 45 men which landed at the Chamber of Commerce dock last night at about 8:00 o'clock after a day on the river, beginning at about 9:30 o'clock when the party left Brevard. Every member of the party was heard in some favorable comment on the trip and what it disclosed, with all local members of the group agreeing that Senators Fletcher and Trammell, and Representatives Sears, Wilcox, and Peterson received impressions which they will draw upon when pleading the cause of the canal before federal officials. "What delighted me most," said Karl Lehmann, trade body secretary who conceived and planned the trip, "was that although we made every effort to provide Senator Fletcher with comfortable quarters during the day on the (Continued On Page Six)

Farley Predicts Big Majority In Congress

WASHINGTON, Oct. 9. (A.P.)—The Democratic high command is planning to toss a bombshell into the congressional campaign in the form of a prediction that the next Congress will have the smallest percentage of Republicans since pre-civil war days. Chairman Farley probably will make the forecast on or about Nov. 1 on the basis of a survey now projected by the Democratic National Committee's headquarters. The survey indicates at present Democratic chief lieutenants say that GOP will have only about 25 Senate seats and fewer than 100 House seats in the 74th Congress provided there are no upsets the trends before the Nov. 6 elections. These figures are disputed by Republican spokesmen. Declining to acknowledge the losses in either branch, they predict gains in both.

John D. Just Can't Take That Climate

LAKELAND, N. J., Oct. 9. (A.P.)—John D. Rockefeller, Jr., left here today by special train for his winter home at Orangetown, Fla. The aged financier had been at his estate here since December 1st. A two-car special train left Lakewood over the Central Railroad of New Jersey a few minutes before 10:00 o'clock and switched to the Pennsylvania Line at Farmingdale. With the 67-year-old millionaire were his son, John D. Rockefeller, Jr., his personal secretary, Madison, and others.

Paraguay Appeals To League For Support

GENEVA, Oct. 9. (A.P.)—Paraguay demanded the immediate cessation of hostilities in the Chaco war in a message to the League of Nations Conciliation Committee today, and a special non-aggression pact with "international guarantees." Paraguay also informed the committee that it is disposed to proceed toward the conciliation with an idea of reaching a direct accord with Bolivia, on their differences, and eventually a decision by arbitration.

Tampam Gets 3 Years For Registering Twice

TAMPA, Oct. 9.—Richard Palmer convicted recently of fraudulent registration in the June primary elections, was sentenced to three years in the state prison by Judge Pettway in criminal court yesterday. The sentence was imposed as a motion for new trial was denied. Palmer was allowed to remain at liberty in bond, pending outcome of an appeal to the state supreme court. An indictment filed by County Solicitor Hardee charged that he registered in two precincts the same day, first in his own name and then in the name of Robert Palmer.
