Accused Florist's Killer Found Hanged In Jail Cell

By Susan Loden
Herald Staff Writer

The 16-year-old accused killer of a Forest City florist apparently hanged himself in his cell at the Seminole County jail this morning.

Edwin Paul Bateman was found dead in the single-man cell at about 6:40 a.m. today.

Bateman, the accused cold-blooded killer of robbery victim Diane McGinnis, was arrested along with his girlfriend, Suzanne Marie Phillips, 15, of Forest City, June 26.

McGinnis, 39, of Longwood, was murdered June 23 by a single shot to the back of the head, behind Floral Creations, where she worked in Hunt Club Corners.

The floral shop had been robbed of less than \$100. Both Bateman and Phillips have been charged with first degree murder. He was being

Edwin Bateman Suzanne Phillips

held in the Seminole County jail and she remains in the Seminole Juvenile Detention Center, next door to the jail in Sanford. A jail guard, in a routine cell check, found Bateman's body. He apparently hanged himself

with a pillow case suspended from a shelf in the cell. He was not in isolation, but was in a single-man cell in the juvenile section of the jail, Seminole County sheriff's Capt. Roy Hughey said.

Bateman had given no indication that he was considering suicide and he was not under a suicide watch, meaning a guard would check on him every 15 minutes, Hughey said.

Bateman was dressed in "prison blues," a loose fitting two piece garment. It had not been determined when he died, Hughey said at about 9 a.m. Investigators were awaiting the arrival of Seminole County Medical Examiner Dr. G.V. Garay. Investigators had left Bateman's body as it had been found, with the pillow case around the neck, Hughey said. An autopsy will be scheduled at Central Florida Regional Hospital, Sanford.

Phillips had not been notified of Bateman's

death early today, Hughey said.

When McGinnis was murdered Bateman was living with Phillips at her parents home at 1532 Frances Drive, where the couple was nabbed after witnesses identified them from composite drawings of suspects in the killing. The drawings were issued by the Seminole County Sheriff's Department, and sheriff's investigators made the arrests.

On his arrest report Bateman's address was listed as Miramar Fla. He had been living with Phillips for about six weeks before the murder and is said to have stayed with several other families in that area while he attended Lake Brantley High School. Phillips' home is about one mile from the murder site. The couple is said to have stayed close to than home after the murder

Mill Creek Foot Bridge Opens Today

By Diane Petryk
Herald News Editor

Sanford will formally open a Mill Creek foot bridge today, almost five months after a four-year-old Sanford boy lost his life attempting to leap across the flooded channel.

A 4 p.m. ribbon cutting ceremony will be held at the bridge, just east of the Westside Recreation Center, toward the rear of the building.

City Manager Frank Faison said he did not know the cost of the bridge, a truss type of prefabricated steel with wood plank floor. The cost was also unavailable from City Engineer Bill Simmons.

The body of Arthur Bradshaw Jr. was found April 5 after he fell into the creek March 30 after trying to leap across the four-foot wide creek, which flows into Lake Monroe. The boy, of 29 William Clark Court, was swept away as a nine-year-old companion watched, police reported. Up to 50 people searched the area for several days before his body was found. The boys were on their way to the recreation center.

The ribbon cutting was announced at Monday's Sanford City Commission meeting. An effort will be made to encourage youngsters to use the bridge rather than jump the creek.

In other business the commission: Agreed 3-0 to postpone public hearings on closing, vacating and abandoning a portion of an east/west utility easement lying east of and

Larry Thompson of Sanford crosses the new Mill Creek bridge to visit friends in the William Clark Court housing area.

abutting Hidden Lake Drive and lying between Ramblewood Drive and Eastwind Court and closing, vacating and abandoning a portion of north/south utility easement lying south of and abutting Anthony Drive.

Agreed 3-0 to consider an ordinance change rather than a special exception with regard to the request of Terry Conley, 103 Wildwood Drive, to operate a home business in an area zoned "modified PUD 'A'." Commissioners agreed, so long as the business generates no traffic, the home occupation license for a firm performing feasibility studies, site analysis, demographic studies and competition

studies, should be allowed, but by ordinance rather than exception. City Engineer Bill Simmons, in a memo to Faison, likened the business to that of using a personal computer in the home, which has been determined to be an acceptable home occupation. Home occupations are specified as a conditional use in the SR-1 zoning district but are not specified as allowable conditional uses in either SR-1A or PUD-A. "If it's fair and equitable let's change the zoning code," Eckstein said. Staff was directed to bring back proposed wording for an ordinance change.

Grindle Favors Tax Vote Vogt Opposes Referendum

From Staff and Wire Reports

Although Democrats in the Florida House of Representatives began huddling Wednesday to seek an alternative to Governor Bob Martinez' proposed referendum on the sales tax on services, state Rep. Art Grindle thinks the referendum is the right route to take. Senate President John Vogt, D-Cocoa Beach, disagrees.

"I think it's a great idea," said Grindle, referring to the referendum.

"The governor's decision to put it on the ballot and let the people speak is a good idea," said Grindle, an Altamonte Springs Republican.

Grindle said he is unsure whether the service tax would survive a referendum, noting the issue appears to be split about 50/50 and could be a close call. He said many people who provide services or work for businesses that do are against the tax. "Nobody likes to be taxed."

But, Grindle said, the service tax also has many supporters, including educators and consumer advocates. He said if the service tax is knocked

down by voters in March, the Legislature will have to consider alternatives such as a sales tax increase or a constitutional amendment to allow a personal income tax, which he says he opposes.

When asked why the Legislature doesn't consider removing the 5 percent sales tax on services, at least temporarily, and raise the current state sales tax on purchases to 6 or 7 percent until the entire services tax question can be re-examined and a determination made as to its feasibility, Grindle said he didn't know. "but I think that's a good idea and one I'll take before the Legislature."

Opponents of the service tax say a nightmare has been created for businesses of all sizes in that it was passed too hastily and without proper planning for implementation or without a determination of its cost-effectiveness.

Vogt said several members of the Senate are not "too keen" on having the service tax issue put on the ballot.

"We're going to be looking at some

State: Issues Should Be Settled By City

FDLE Declines Probe Of Police Chief

By Jane Casselberry
Herald Staff Writer

The Florida Department of Law Enforcement has turned down Longwood's request that the agency investigate allegations against Police Chief Greg Manning. The agency said the issues should be settled within the city.

In an Aug. 7 letter received Aug. 17 by City Administrator Ron Waller, Jack Fenwick, FDLE director of executive services, stated that the more recent allegations brought forward by Commissioner David Gunter against Manning involve areas of management disagreement between those individuals and no criminal misconduct on Manning's part.

Fenwick said he had discussed the matter with State Attorney Norman Wolfinger. Waller said today he plans to

report on the investigation request to the commission Monday at a work session on the city budget and what he proposes to do. He said he would ask the commission's guidance and direction.

Waller said, "I was hoping the FDLE would investigate, but they declined so it's back in my lap."

The city commission voted unanimously on July 6 to investigate charges made by Gunter in an 11-page statement. Four days later Waller wrote to the FDLE requesting the investigation. Gunter had asked Waller to investigate alleged violations of the city code and diversion of public funds by the police department to the Police Benevolent Association, a private organization.

Gunter said the commission voted for Waller to investigate

and now it's back to him to do his job. "I still think the city is due an explanation on funds from identification checks, fingerprinting and making copies besides the auctions," he said. "We have absolutely no idea over the last 10 years how much went to PBA, a private entity, which as operated in public facilities, using public personnel, files, typewriter and paper"

Gunter also wants an accounting of the police department's SWAT team fund, what funds were spent on and where items are. He said it is time Manning quits being so secretive with public funds.

Gunter said, "If the other commissioners want to let it slide, so be it."

He said he will have no more to say until after Waller makes his recommendation at the work session.

Waller said he turned the investigation over to FDLE because of the seriousness and scope of the allegations. He said neither he nor his staff had the time or expertise to go through all the details.

This was the second time the city had asked FDLE for an investigation of Manning this year. Waller made the request in January that charges that Manning improperly reported a 1983 Lake County boating accident involving his boat and that of another police officer. As a result of an investigation FDLE found that although the accident was improperly filed for insurance purposes in Longwood rather than where it occurred (a misdemeanor), there was no evidence of misconduct. The statute of limitations expired in 1984 for any action on the misdemeanor.

Expressway Authority Approves Toll Booths

Toll booths on entry and exit ramps at the State Road 46 interchange with the Orlando beltway in south Seminole County were approved by the Seminole County Expressway Authority Wednesday afternoon.

The toll booths, which will be manned part-time, will collect 25-cent tolls from drivers.

The authority also approved engineering plans for the half-mile segment of the expressway. Bids for construction of the segment are expected to be approved next month. Work on the project, estimated to cost \$6 million, is scheduled to begin in November and take about 13 months.

The authority also voted to ask the Florida Department of Transportation for a \$500,000 loan to pay for preliminary

engineering design on the part of the expressway north of State Road 434 and to do a more detailed study of projected traffic and toll earnings along the entire route of the eastern leg of the beltway.

The route of the eastern leg, which was approved by the authority last month, cuts through Sanford, crossing Highway 17-92 at Airport Boulevard. A map identifying the properties in the path of the proposed expressway north of SR434 is scheduled to be ready for approval at the authority's October meeting.

Once approved, property in the path will be reserved by the state for up to five years, with another five-year extension possible. A citizen group in Sanford plans to challenge the reservation of the property through the courts if funds can be raised.

7th Graders To Learn About Venereal Diseases

Board Plans 1988-89 School Boundary Shifts

By Richard Whittaker
Herald Staff Writer

Elementary school students could face shifts in what schools they will attend in the 1988-89 school year.

The move towards new attendance lines came Wednesday night, when Seminole County School Board members approved a plan for rezoning elementary schools in the district this year. School administrators will use the plan when it begins the rezoning process next month.

A curriculum guide developed to teach students facts about AIDS (acquired immune deficiency syndrome) and other sexually transmitted diseases was approved for use in seventh grade

science classes.

The curriculum entitled, "Educator's Guide to AIDS and other STDs", will be taught to the students in a two-week course on venereal diseases starting this year. The school board hopes to someday teach information on the diseases at other grade levels.

Marion G. Dailey, assistant superintendent for instructional services for the Seminole schools, said a start on the process of rezoning of the district's elementary schools is needed this year because of the opening of a new school and additions to existing ones.

The need to rezone is contained within the school board's comprehensive plan for 1987-

1992., which lists the rezoning under annual priority five.

Dailey called the rezoning an important step for the board and said the goal will be to determine viable, supportable and realistic attendance lines for district elementary schools.

Robert W. Hughes, superintendent of Seminole County schools, said the plan approved by the board leaves a lot of avenues for parents, teachers, administrators and other interested people to share information and give ideas to the rezoning process. "It's a great system," Hughes said.

She has proposed school board action on the

COMING EVENTS

Public Employee Drug Use Is Topic Of UCF Conference

The impact of drug use upon productivity among public employees and costs to taxpayers is the theme of an Aug. 28 conference sponsored by the University of Central Florida Institute of Government. Seven representatives from area municipalities and agencies will discuss programs to curb drug use and legal aspects of testing of employees and possible reactions from labor organizations and the public. There will be group sessions with question and answer sessions. The \$35 registration includes materials. Advance registration is required. For information, contact W.E. "Pete" Knowles at 275-2123.

Seminar For Health Workers

The Florida Affiliate of the American Diabetes Association, Inc. will hold its annual Health Care Professional Seminar in Orlando, Friday, Aug. 28 at the Holiday Crown Plaza. Speakers in morning sessions will include Pomeroy Sinnock, PhD, who will speak on Third Party Reimbursement; Anne Cimador, RN, on Diabetes Educator Certification; and Patricia Schultz on Recognition for Patient Education Programs. A teaching team from Joslin Diabetes Clinic, Jacksonville, will speak in the afternoon. Exhibits will be provided by national drug firms who serve the diabetes community. The seminar is approved for 6.0 contact hours. The \$30 registration includes a buffet lunch.

AA Groups Schedule Meetings

The following Alcoholics Anonymous groups meet on Friday:

- Reboas AA, noon, Reboas Club, 130 Normandy Road, Casselberry (closed), Clean Air AA for non-smokers, first floor, same room, same place and time.

IN BRIEF

Lawyers For Condemned Killer Going Back To Appeals Court

STARKE (UPI) — Condemned killer Beauford White's lawyers, stymied by a federal judge in their efforts to stop his scheduled execution, were expected to lobby a federal appeals court today for another stay.

A federal judge in Key West refused Wednesday to grant White another stay of execution. White, who was sentenced to die for the drug-related killing of six people in Dade County, was originally scheduled to die Wednesday morning, but U.S. District Judge Stanley Marcus issued a 48-hour stay Tuesday night, postponing it until 7 a.m. Friday.

Marcus refused White's latest appeal late Wednesday. His lawyers said they would take their case today to the 11th U.S. Circuit Court of Appeals in Atlanta.

Gerald Eugene Stano also was supposed to die in Florida State Prison's electric chair Wednesday — for the killing of a 17-year-old Volusia County woman, one of 41 women he has confessed to murdering.

Stano won a six-hour reprieve from U.S. District Judge Patricia Fawcett in Orlando Tuesday afternoon and then a 48-hour stay from the appeals court in Atlanta a short time later.

His execution has been rescheduled for 1 p.m. Friday.

Regents Approve UCF Film Court

ORLANDO, (UPI) — The state Board of Regents, with an eye on Florida's increasing stature in the motion picture industry, is moving cautiously toward establishing new film degree programs at two state universities.

The full board approved Wednesday a committee recommendation to begin planning a master's of fine arts curriculum in motion picture, television and recording arts at Florida State University.

The board also approved a feasibility study into establishing a bachelor's degree program in film at the University of Central Florida in Orlando.

Regent Robin Gibson of Lake Wales cautioned, however, planning for the FSU program must include ways to raise money from private sources.

Apopka Fire Kills Four

APOPKA (UPI) — Two adults and two children were killed early today when fire of undetermined origin swept through a duplex, firemen said.

The fire was reported about 3 a.m. Arriving firefighters were able to put out the flames quickly, but later found the bodies of the four victims.

Two other people who lived in the other half of the duplex were able to escape the flames with no serious injury.

Damage to the building was heavy, firemen said, and investigators are trying to determine the cause. Names of the victims were not immediately released.

State Buying More Hammock Land

The state Cabinet's approval of the purchase of an additional 67 acres of Spring Hammock in Seminole County came as no surprise to county officials who have long urged the state to put a high priority on purchasing the environmentally sensitive land.

The Cabinet this week approved the expenditure of \$166,000 from the state Conservation and Recreation Lands (CARL) program for purchase of the property.

Tony Van Derworp, director of county planning, said negotiations between the state and property owners have been under way for some time before the Spring Hammock purchases were reduced in ranking on the state priority list from seven to 15.

The purchase will include about 14 acres on both sides of State Road 419 just south of U.S. Highway 17-92. The Cabinet action means the state can buy the 14 acres by October.

The Cabinet also approved an option to buy another 53 acres, valued at \$938,000, just west of Highway 17-92 and south of

General J.C. Hutchison Parkway. The option gives the state until January, 1989 to buy the parcel.

Spring Hammock is a 1,522-acre watershed and greenbelt area between Lake Jesup and County Road 427. About half of the land is already either owned by the state or Seminole County.

The county has sponsored an environmental education program for about 16,000 students a year in parts of the nature preserve it owns. County-owned land in the area includes Big Tree Park and Soldiers Creek Park.

The county commissioners sent a letter to Gov. Bob Martinez last month protesting lower priority of the Spring Hammock area on the list of areas to be preserved by state purchases under the CARL program. However, Van Derworp said he does not expect that the lower priority listing will have much affect on the state's commitment to land purchases in the area.

—Brad Church

Attendance Up Despite Bomb Threats, Boycott

ARCADIA (UPI) — Attendance was up at Memorial Elementary School Wednesday despite bomb threats and a boycott of some parents protesting the admission of three hemophiliac brothers with the AIDS virus.

An anonymous telephoned bomb threat forced evacuation of the school Wednesday morning for the second straight day, but nothing was found.

The school has been in turmoil since Monday when the sons of Clifford and Louise Ray enrolled in regular classes under federal court order.

The boys — Richard, 10, Robert, 9, and Randy, 8 — apparently contracted the virus through blood-based medication to control their hemophiliac condition in which the absence of a blood clotting factor results in prolonged bleeding from even minor wounds or injuries.

A group of parents has called for a boycott of classes and some have enrolled their children in a private Christian school. Others

are reported to be instructing their children at home.

Attendance at Memorial Elementary on opening day was projected to be 632 but only 337, or 53.3 percent, showed up.

School Superintendent Larry Browning said at that time the projected enrollment was somewhat of a guess because of a realignment of elementary school classes and said he expected a gradual increase in attendance once the impact of reporters and photographers eased and families returned from vacations.

Tuesday, attendance was at 380 and on Wednesday it climbed to 410, or 65 percent of projected enrollment.

The bomb threats caused concern for some parents who had ignored the call for a boycott and several took their children out of school after the first hoax calls Tuesday.

"I talked to one woman who was with five children and she said, 'I can put up with the Rays,

but not with bombs,'" said DeSoto County Sheriff Joe Varnadore.

Two anonymous bomb threat calls were made to school board offices Tuesday, and after it was

announced tracing systems that lock in or originating telephones had been installed on telephones at all schools and the school board, an anonymous male called a threat to a radio station Wednesday morning.

Suit Claims Medics Should Have Treated Man Who Refused Help

By Deane Jordan
Herald Staff Writer

The father of a Sanford teenager who died after refusing medical aid has filed suit against City Ambulance claiming its paramedics failed to treat the 19-year-old.

Jack E. Holt Jr. filed suit as representative of Timothy D. Holt. The younger Holt died Nov. 4, 1985, of a brain hemorrhage two days after he was knocked to the ground and hit his head. Paramedics were called to the scene but Holt refused treatment, according to reports. Police arrested a man after Holt's death and charged him with manslaughter but the state dropped the case before taking it to court.

The elder Holt states in the suit that the ambulance paramedics failed to take care of his son, failed to treat him, failed to transport him to a hospital and failed to inform Holt and his wife that their son should receive medical attention. He also claims in the suit the paramedics knew the medical consequences of that type of head injury.

According to Sanford police reports, Holt was injured about 2 a.m. Nov. 2, a Saturday night, after receiving a ride in a truck from The Barn, 1200 French

Ave., to a Lil Champ food store, 1920 French Ave.

After the truck arrived at the store with three men in it, the driver of the truck reportedly got out along with Holt and struck Holt, knocking him to the ground. Holt refused treatment and was taken home by his father, records show.

At noon Sunday, after Holt's parents could not wake him, he was admitted to Central Florida Regional Hospital in Sanford. A diagnosis showed he had irreversible brain damage from bleeding inside the skull, which then pressured the brain. The medical examiner said the bleeding was apparently caused from the impact Holt had with the ground after he was struck. Holt died Monday, Nov. 4, after becoming an organ donor.

Medical Examiner Dr. G.V. Garay said the symptoms caused by such an injury mimic the symptoms of being drunk, so people may not have suspected Holt was injured. Garay said Holt probably would have survived the injury had he accepted immediate medical attention.

Holt is seeking unspecified damages in excess of \$5,000. The case has been assigned to Circuit Judge Kenneth M. Lefler. No hearing date has been set.

Altamonte Mayor's Race Has Bates In, Constantine Out

Three-term Altamonte Springs city commissioner Dudley Bates became the lone candidate for Altamonte Springs mayor Tuesday afternoon after fellow commissioner Lee Constantine decided not to run.

Bates, 45, who served as chairman of the city's comprehensive land use plan update, announced his candidacy Monday.

Constantine, after indicating Monday that he would also run, decided not to just before the 5 p.m. Tuesday deadline for resigning his District 2 seat if he wanted to enter the mayoral race.

Mayor Ray Ambrose has decided not to run for a third term and has said he is considering entering the race for Seminole County Sheriff.

A five-term commission member, Constantine headed the committee that drafted the city's transportation study.

Both men said they had similar views about the city's future.

Bates, general manager of Koger Properties, which operates an Orlando office complex, said the city needs leadership in carrying out the updated comprehensive plan, and that the next few years will be critical for Altamonte Springs.

Indians' Rookie Returns To Haunt 0-For-4 Molitor

United Press International Paul Molitor was the first batter to get a hit off Cleveland's John Farrell. The rookie right-hander returned to haunt Molitor Wednesday night.

Farrell, 25, making only his second major-league start, held Molitor hitless in four trips, halting his hitting streak at 39 consecutive games.

"I approached the game like any other game," said Farrell, who only started because scheduled pitcher Rich Yett twisted an ankle. "I can't be on an emotional roller coaster. I have to keep on an even keel."

With Molitor on deck in the 10th inning and Farrell out of the game after nine innings, pinch-hitter Rick Manning singled home Mike Felder from second base amid a chorus of boos from the County Stadium crowd of 11,246. The hit lifted the Brewers to a 1-0 victory over the Indians.

"It shows you the distortion of priorities when the home team wins the game in extra innings and the crowd goes silent," Molitor said.

Manning, a former Indian, had mixed feelings about the hit. "Paul told me to get a hit," he said. "I was saying to myself, 'Yeah, an infield hit.'" That way, the run would not score and Molitor would have a chance to extend the streak.

"That's the first time I've gotten booed for a game-winning hit at home," Manning said. Molitor's hitting streak was the sixth longest in baseball history and the longest since Pete Rose hit 44 straight in 1978.

"The fact that it's in the top five or six hitting streaks makes you realize you're pretty fortunate to have it," Molitor said. "I enjoyed it and I'm happy I was able to contribute to the team. Now that it's over, I'm sure the pride will continue to grow with each game."

Brenly's Homer Ruins Rawley's Bid For 17th

United Press International

Philadelphia Phillies left-hander Shane Rawley said he pitched his best game of the season Wednesday night, yet failed to add to his league-leading 16 victories.

Bob Brenly's two-out, two-run home run in the ninth inning lifted the San Francisco Giants to a 2-0 victory over the Phillies and snapped Rawley's eight-game winning streak.

The victory was the Giants' fourth straight, while the Phillies lost their fourth straight. It also gave the Giants a 2-1-2 game lead over the Houston Astros in the NL West.

Rawley yielded four hits, struck out a career-high 10 in going the distance for the fourth time this season. He did not allow a hit until Mike Aldrete singled leading off the sixth.

"Did I know it was a bad pitch? I knew it when he hit it," Rawley said of Brenly's home run. "That was probably as good as I've been this year. I made good pitches most of the night and I was hitting the corners."

Rawley's mistakes were few, but they were one too many for Philadelphia. "He gave me an off-speed pitch that was up a little more than he wanted and I hit it down the line," said Brenly of his 15th home run.

San Francisco's Don Robinson, 8-6, retired all four batters he faced after relieving starter Dave Dravecky.

Leach Found Safe, Sound; Yanks Acquire Gullickson

DETROIT (UPI) — Toronto Blue Jays outfielder Rick Leach, who mysteriously vanished before Tuesday night's game with the Mariners in Seattle, is "safe and sound," according to his father.

Leach, a native of Flint who lives in Farmington Hills, and his wife, Angie, arrived late Wednesday night at Detroit Metropolitan Airport on Northwest Flight 712 and left by car.

His whereabouts had been unknown for about 16 hours until he showed up Wednesday morning at a Seattle airport hotel after disappearing Tuesday afternoon from a downtown Seattle hotel.

He missed Tuesday night's game against the Seattle Mariners and the American League team's charter flight to Toronto. Blue Jays traveling secretary Mike Mitchell said Leach's disappearance stemmed from a "personal problem" involving Leach, his wife and the team. He did not elaborate.

"Rick is embarrassed, but he wants to get on with it," Mitchell said, adding Leach "will be ready to play when the team opens its home stand Thursday night against Oakland."

"He's all right; that's all I can say," Leach's father, Dick, 55, of Flint, told the Detroit Free Press Wednesday. He said his son didn't go into any detail.

"He's all right and that's really what we care about at this point," Dick Leach said. "I'm sure he'll talk with me later. He's safe and sound."

NEW YORK GIVES UP RASMUSSEN TO REDS NEW YORK (UPI) — The New York Yankees Wednesday acquired right-handed pitcher Bill Gullickson from the Cincinnati Reds in exchange for left-hander Dennis Rasmussen.

In another deal Wednesday, the Yankees acquired infielders Jerry Royster and Mike Soper from the Chicago White Sox for minor-league pitcher Ken Patterson and a minor-league player to be named later.

Coleman also scored the winning run from third base on Tommy Herr's grounder to draw-in shortstop Dale Berra with one out in the seventh inning.

SPORTS

IN BRIEF

Garcia's No-Hitter Lifts Irvine, Dominican Topples Nova Scotia

WILLIAMSPORT, Pa. (UPI) — Aron Garcia of Irvine, Calif., pitched a no-hitter to lead his team to a 13-0 victory over Dover, N.H., in the quarterfinals of the Little League World Series.

In another game, Wilkie Pichardio and Juan Santos hit back-to-back fourth-inning home runs to spark Moca, Dominican Republic, to a 6-4 victory over Glace Bay, Nova Scotia.

Irvine will play Chesterfield, Ind., and Moca faces Hua Lian, Taiwan, in the semifinals Thursday. The championship game is Saturday.

Garcia, 12, walked three and struck out seven, including the final seven batters. He helped his cause by going 4-for-5 with a two-run homer as Irvine raised its record to 17-0 in the tournament.

Garcia is 10-0, eight of those wins shutouts. He has given up one run in his last 60 innings.

Dover pitcher Brian Stewart walked the game's leadoff batter Geoff Ebdon, then surrendered Garcia's homer. Irvine catcher Ryan Jones hit a two-run shot in the first.

In the other quarterfinal, Pichardio homered to left with Carlos Paulino on base. Juan Santos hit a 220-foot homer on the next pitch.

History Is Pohl's Big Obstacle

AKRON, Ohio (UPI) — History may well be Dan Pohl's biggest obstacle in his quest to defend his title in the NEC World Series of Golf.

Since the event was added to the PGA Tour in 1976, no player has repeated as champion. From 1962-75, the event was contested as a four-player exhibition and Jack Nicklaus won in 1962-63.

In fact, only two former World Series champions qualified for this year's \$800,000 event on the Firestone Country Club's 7,173-yard South Course: Pohl and 1977 titlist Lanny Wadkins.

"I think this shows how competitive the World Series has been," says Pohl, who is 15th on the PGA Tour's money list with \$335,275. "You have to win in the previous year to be here. That makes all players here favorites. Everybody here has played winning golf."

Seventeen players are competing in the World Series for the first time, and the 45-entrant field is the largest in the tournament's history.

King Wants Money, Not Glory

LAKE LANIER ISLANDS, Ga. (UPI) — Betsy King makes it clear. She's on the LPGA Tour for the money, not the glory.

King, this year's leading money winner with \$381,775 and winner of \$1.15 million over the past four years, goes after another \$81,500 in the women's World Championship which begins today at Pineleaf.

"Some people will tell you they are more interested in winning titles than money," said King, 32, who has earned \$1.48 million since joining the Tour out of Furman University a decade ago. "Not me. I can't imagine myself playing out here if money wasn't an incentive. I don't think I would play just for a title."

King, who has won three titles this year, including last week at Atlantic City, has a nearly \$28,000 edge over second-place Jane Geddes in her bid to become the Tour's top money winner for the second time in four years.

Tawara Sweeps 3 Cycle Heats

VIENNA (UPI) — Japan's Nobuyuki Tawara, who Wednesday became the world champion professional sprint cyclist for the first time, alma to follow in the footsteps of his countryman and friend Koichi Nakano, who won 10 titles.

Tawara outwitted his Japanese compatriot Hideyuki Matsui in three heats of the final at the Ferry Dusika Velodrome.

Matsui, also runner-up last year when Tawara was third, blasted through the first heat, charging the entire last 250-meter lap around the outside to win in 11.28 seconds.

On the next heat, Tawara forced Matsui off stride when he tried the same maneuver and won in 11.08. Tawara captured the final heat in 11.13.

Lyman Sports Dinner Saturday

Lyman High School's Athletic Boosters are sponsoring a spaghetti supper on Saturday from 6 to 8 p.m. in the Lyman cafeteria.

Tickets for the event to raise money to support student athletics at Lyman can be obtained from student athletes, cheerleaders, coaches and the school's administrative office. They cost \$3 per person.

Parents and the public are invited to attend a multi-sport demonstration by students participating in fall sports at 4:30 p.m. before the meal.

A free dance, sponsored by the boosters and student council for parents and students, will be held after the meal in the school's multi-purpose room.

Soccer Team Seeks Performers

The Seminole Pepal Changers, a soccer team, is looking for players with competitive experience and born in 1975. The players will be coached by Steve Lyons and will play out of the American Soccer Center at Five Points.

There are several openings at various positions. The team will compete in 3 to 5 tournaments a year, participate in the G.O.A.L. League and have professionally coached mini-clinics.

For dates and times of tryouts and practice schedule, call 788-2638.

Sukova Trims Bowes At Classic

MAHWAH, N.J. (UPI) — Helena Sukova of Czechoslovakia downed Beverly Bowes 8-1, 8-3 Wednesday night to reach the quarterfinals of the \$150,000 United Jersey Bank Classic.

Sukova, the top seed, won eight of the first nine games against the four-time All-America at the University of Texas. Bowes turned professional three months ago after making it to the NCAA semifinals.

"I played very well at the beginning, but my game is still not at the level it has been at," Sukova said.

Lundgren Upsets Chesnokov

RYE, N.Y. (UPI) — Peter Lundgren of Sweden upset Andri Chesnokov of the Soviet Union Wednesday 6-3, 7-6 (7-4) to advance to the quarterfinals of the NY/NEX Open.

Javier Sanchez of Spain then reduced the number of remaining seeds to three by outlasting No. 6 Dan Goldie of McLain, Va. 7-5, 3-6, 7-5.

Lundgren, who relies on strong topspin ground strokes, broke an inconsistent Chesnokov in the second and fourth games with his aggressive service returns to take the first set.

WUEZ Expands Sports Lineup

Chris Fister
HERALD
SPORTS
WRITER

WUEZ-1400, Sanford's AM radio station, is gearing up for its most complete fall sports coverage to date as it has added more prep, college and pro football broadcasts to its lineup along with some new feature programs.

Program Director Gordon Lewis said Z-14 will carry live four home games each for Seminole High and Lake Mary High this season along with 11 Florida Gator games, seven Miami Hurricanes games, eight Miami Dolphins games and also has reached an agreement with CBS Radion Network to carry 30 regular-season NFL games and 10 post-season contests — including the Super Bowl.

"We are getting ready for a very busy and exciting fall sports season," Lewis said. "We are working hard to make Z-14 Your Sports Connection for Seminole and West Volusia Counties."

Z-14's football coverage goes far beyond the field, too, as it will carry daily (Monday through Friday) reports for the Gators, Florida State and state colleges.

The Gator Football Report with David

Steele (4:50 p.m.); Florida State Seminole Report with John Anthony (4:20 p.m.) and College Football in Florida with Rod Meadows (8:50 a.m.) will all begin Aug. 31.

The station will also broadcast the High School Football Report with Mike Kirby on Tuesdays and Thursdays at 3:50 p.m. High School football coverage begins Tuesday, Sept. 8 with Kirby's report.

Kirby, who works for the Sanford Recreation Department, and Tracy Clayton will handle the broadcasts of the prep games.

The first game broadcast will be Friday, Sept. 11 as Seminole High hosts Titusville Astronaut in the season opener. The other

September game to be broadcast is the annual Seminole-Lake Mary clash at Lake Mary on the 25th.

The first college football game to be broadcast will be the always heated Florida at Miami battle on Sat., Sept. 5 at Miami. Other Sept. broadcasts include Tulsa at Florida (Sept. 12); Florida at Alabama and South Carolina at Miami (Sept. 19); and Mississippi State at Florida and Miami at Arkansas (Sept. 26).

Professional exhibition coverage continues with the Miami at Philadelphia game on Sunday and the Buffalo at Miami game on Sept. 4. Regular season coverage begins Monday night, Sept. 14 with the defending Super Bowl champion New York Giants taking on the Chicago Bears.

Along with its live coverage of football, Z-14 will broadcast the nine remaining NASCAR races of the season including the upcoming World Crown 500 (Aug. 30), Southern 500 (Sept. 6), Wrangler Jeans 400 (Sept. 13), Delaware 500 (Sept. 20) and Goody's 500 (Sept. 27).

Drug Tests: Judge Restrains Stanford's Written Consents

SAN JOSE, Calif. (UPI) — A judge has issued a temporary restraining order to stop the NCAA from requiring Stanford to obtain from its athletes written consents for drug testing.

The order Wednesday by Santa Clara County Superior Court Judge Conrad Rushing prevents the NCAA from requiring the forms until a decision can be made on the constitutionality of the drug-testing program itself.

Rushing set Sept. 29 for a hearing on whether there will be a permanent injunction.

Stanford was the first university to challenge the NCAA over the drug-testing issue.

"I'm excited that we don't have to sign the waiver and that I will at least get to play until the 29th," said Jennifer Hill, co-captain of the women's soccer team and one of three Stanford athletes who sued the NCAA over the drug-testing issue.

Colleges

"There's an important right here, and if I don't stick up for it, maybe no one will."

Rushing, in making the order, said he would like to find a common ground between the extreme positions taken by the NCAA and Stanford.

"I don't believe there is a foolproof drug test," he said. "There may be, and, if so, I would like you to show it to me. I'm also interested to know whether there is a distinction between sports. It strikes me that some drugs enhance performance (in some sports)."

In March, the court found the drug-testing program probably was unconstitutional and enjoined the NCAA from enforcing the program against Simone LeVant, a diver who graduated in June.

Teen Resents Grandpa's New Dining Partner

Citadel Honors Longwood Student

David Sprinkle, left, son of Mr. and Mrs. James Sprinkle, Longwood, receives the coveted Mark Clark Award during recent graduation ceremonies concluding the second 1987 session of The Citadel Summer Camp for Boys. The presentation was made by Maj. Gen. James A. Grimsley Jr., right, president of The Citadel, Charleston, S.C. The Mark Clark Award is presented on the basis of excellence in sports, physical fitness, tournaments and attitude.

Getting Married

Engagement and wedding forms are available at The Sanford Herald, 300 N. French Ave. The completed forms may be accompanied by a professional black and white photograph if a picture is desired with the announcement. For information, call 322-2611.

DEAR ABBY: My son, "Charles," who is almost 14, has always had a wonderful relationship with my father — his grandfather — until a few months ago. For about a year and a half, Charles would stop at his grandpa's on the way to school, and they would have breakfast together. Charles even had a key to Dad's house and would start preparing breakfast while Dad was shaving.

This, of course, was on school days. However, one Saturday morning, Charles had to be at school to practice for a play. He went to his grandpa's as he usually did on school days, let himself in with his own key and found Grandpa having breakfast with an attractive woman — both in their pajamas!

Charles never did go to school for play practice. Instead, he stormed home and locked himself in his room. Now he will talk to no one, and rushes out of the room when his once-beloved grandpa visits us. We are all terribly upset by his attitude. Dad is heartbroken because he can't seem to get through to his only grandson. Dad has been a widower for over eight years. The woman is well-known to my wife and me. She is a lovely person and a widow.

How can we get through to Charles and persuade him that Dad has not committed a terrible crime? Don't suggest our minister, Abby. He is rather conservative and does not approve of "living in sin."
CANADIAN DAD

Dear Abby

DEAR DAD: You are assuming that Charles is angry with Grandpa for "living in sin." I think he's angry for another reason — he's jealous of the intimate relationship Grandpa has with the attractive woman. Charles needs to talk about his feelings honestly — if not with you and Grandpa, then with a counselor. When he admits to himself why he overreacted, he will be able to handle it in a more mature manner.

DEAR ABBY: A friend of mine recently received the following thank-you note for her wedding gift:

"Dear Mrs. (),
Thank you for the \$10. I know it will come in handy. Love, (signed by the bride)"

Included was the following:
"From the Good News New Testament (today's English version), fourth edition: James 4:8: Come near to God and he will come near to you. Wash your hands, you sinners! Purify your hearts, you hypocrites!"

Abby, needless to say, my friend was shocked. Don't you think it would have been better had the bride sent no thank-you note at all than to send this cruel, insulting message?
PATTI IN CHINA GROVE, N.C.

DEAR PATTI: Yes, I, too, am shocked. Perhaps the bride was more disturbed than vicious.

DEAR ABBY: Two of my relatives moved in with me and my family while they looked for a place of their own. Well, it's been a year and they're still here. This has caused a tremendous burden on us. They are in no hurry to find a place. They're not even looking. My wife, our children and I have been terribly frustrated living like this. Our two sons had to give up their bedroom. How can people be so inconsiderate of others? What should I do? I hate to hurt their feelings.
CROWDED IN CORONA

DEAR CROWDED: What feelings? These relatives have the hides of rhinoceroses, and unless you give them a time limit, they will be with you indefinitely. A solution to hasten their departure: Help them to find a place of their own.

Doctor's Bizarre Advice Is Very Hard To Believe

Dr. Gott

DEAR DR. GOTT — I had chest pain off and on for two weeks, and then it became permanent. It's quite severe in the center of my chest and left shoulder, and my left arm is weak and tingly.

I went to the doctor; he told me to go home and run up and down the stairs a few times to see if the pain gets worse. My concern is that I might be dead before a diagnosis is made. What do you think?

DEAR READER — Your doctor's response was so bizarre and inappropriate that, when I first read your question, I thought you were putting me on. The symptom you have — chest pain — can indicate a serious condition.

In adults, chest pain with radiation to the left shoulder and arm must be assumed to have a cardiac basis until proved otherwise. If you were experiencing angina — cramping of the heart due to inadequate oxygen supply — further strenuous activity, such as stair-climbing, could result in heart attack and death.

The doctor gave you rotten advice. Instead of advising you to exercise more, a prudent and capable physician would have encouraged you to remain quiet and undergo immediate testing, preferably in a hospital, to determine the cause of your pain.

The pain you describe also could have a cardiac basis other than angina. For example, it could indicate pericarditis — inflammation of the pericardium, the thin envelope that covers the heart. Pericarditis is common in young and middle-aged adults. It often produces pain that mimics angina. As the inflammation around the heart increases, fluid may form under the pericardium, causing progressive pressure on the heart, cardiac failure or collapse. Rest is imperative for treatment, so your doctor again missed the mark by telling you to exercise. Depending on the severity of the pericarditis, hos-

pitalization may be necessary. At times, physicians have to use a needle to withdraw the fluid, which compresses the heart, in order to permit continued cardiac function.

Finally, your chest pain could be caused by a lung ailment, such as pneumothorax — the

collapse of a lung. This condition is also common in young adults. Tiny holes can form in the membrane covering the lung. Air leaks out of these holes and fills the space outside the lung.

WIN AT BRIDGE

By James Jacoby

With favorable vulnerability the player in third seat will sometimes make a weak two-bid with only a five-card suit, as East did. South overcalled with two no-trump, showing his balanced 17 high-card points, and North was happy to raise to game.

Both declarer and defender were on their toes early. East put in the 10 of hearts, but declarer ducked. East continued with the queen and South won the king. It would now be fatal for declarer to attempt to force out the club ace, so he played K-Q and another diamond, finessing the 10 when West showed up with four to the jack. As the play of diamonds continued, East had to make four discards, and he let all of his clubs go. That gave South a blueprint. East had started with five hearts and only

one diamond, and he had discarded four clubs. He must have three spades left, obviously headed by the king. So declarer took a spade finesse and exited with a heart. East could do no better than take his remaining heart tricks and then lead away from the K-10 of spades.

All of this could have been countered by an unusual "brilliance" by West. If, on the second high diamond played by South, West wastes the jack, then declarer will be inclined to overtake in dummy to establish an extra entry there. This will allow declarer to take a second spade finesse. When East shows out after declarer overtakes his diamond queen, South will realize that he has been taken in by an extremely farsighted play by West.

HOROSCOPE

What The Day Will Bring...

By Bernice Bede Osol

YOUR BIRTHDAY AUGUST 28, 1987

Be grateful for things that come easily for you in the year ahead. If you take them for granted and are not fully appreciative, the privileges you're accorded might be withdrawn.

VIRGO (Aug. 23-Sept. 22) In a commercial dealing today, it's best to be a bit skeptical instead of believing everything you are told by one who wants to make a deal with you. Know where to look for romance and you'll find it. The Astro-Graph Matchmaker set instantly reveals which signs are romantically perfect for you. Mail \$2 to Matchmaker, P.O. Box 91428, Cleveland, OH 44101-3428.

LIBRA (Sept. 23-Oct. 23) Don't let an associate make an important decision for you today. If you're too lackadaisical to protect your own interests, you

may have to pay the piper.

SCORPIO (Oct. 24-Nov. 22) Problems you may have to overcome today could be of your own making. The aspects indicate you might fall to use your customary industriousness.

SAGITTARIUS (Nov. 23-Dec. 21) Be careful today that you are not drawn into a petty political situation: Two friends may try to get the best of one another. Both may make you their scapegoat.

CAPRICORN (Dec. 22-Jan. 19) "Pride goeth before a fall," says an old proverb. Sticky situations can be avoided today if you don't let your ego override your innate good sense.

AQUARIUS (Jan. 20-Feb. 19) In order to further your ends today, you may make some big promises to people who help you. Unfortunately, you'll be taken literally and be expected to produce later.

PISCES (Feb. 20-March 20) Your compassion for the underdog makes you rather vulnerable today. You might be drawn into something where another's excuses become your liabilities.

ARIES (March 21-April 19) Judgments you make today may lean toward what you want them to be instead of what they should be. This is a sound operating premise.

TAURUS (April 20-May 20) In an anxious attempt to expedite a difficult matter today, you might take shortcuts that are impractical and create more problems than they solve.

GEMINI (May 21-June 20) Overindulgence is something to be mindful of today. Good things will be doubly appreciated if you partake of them in small quantities.

CANCER (June 21-July 22) Wishy-washy decisions will not inspire subordinates today. If you want to impress those in your charge, be decisive and firm.

LEO (July 23-Aug. 22) Be careful today that you're not too boastful about something you've recently accomplished. It will sound better if you let others toot your horn.

ANNIE
