ANNOUNCING... Installation of the Latest Designed Machinery in Block Making Industry

**CHAPMAN & PEZOLD**

Commercial & Myrtle Avenue

TO THE HOME BUILDER—

During the past two years the Block Making Industry has made great strides in the "Know How" of making blocks for your home— We are making a conscientious effort to keep abreast these advancements.

"Be Sure the blocks you buy are the best Obtainable"

**Chapman & Pezold Block Plant Makes Progressive Steps**

The Chapman and Pezold Block Plant, now in operation for over two years, has made rapid strides in the block business and has forged ahead in making "special" blocks for the building trade.

They now manufacture 23 different kinds of blocks, each designed to save money and time in construction. Two of these "special" type blocks, the slotted door jamb, allowing for a weather strip, and the foundation form block are Mr. Chapman's own idea and are a definite benefit to the builder. Other special type blocks, including the "U" lintel, the "vent", the "bull nose" window jamb and pilaster blocks are meeting a hearty approval of the building trade.

Mr. Chapman says he believes there will be constant improvements and innovations in the concrete block industry in the future and it is his aim to pass these benefits on to the public.

Installation of the latest designed equipment is in line with Mr. Chapman's policy of real service to his customers. The company has recently added the Asbestoline Line of waterproofing material for roofs and walls which carries an absolute 10 year guarantee. Mr. Chapman invites inspection of his plant, located at Myrtle and Commercial Avenues, at any time.

**Plant City Market Reports Last Week Sales Are Highest**

JACKSONVILLE, Apr. 19.—(Special)—Growers selling through the Plant City State Farmers' Market had their best week of the current season during the last six-day sales period, ringing the cash register for a gross total of \$224,679.60, according to reports supplied Jacksonville officers of Florida State Markets. R. E. Johnson, manager of the Plant City Market, reported the handling of a total of 76,343 units during the report period, offerings including four varieties of beans, green corn, cucumbers, eggplant, okra, peas, peppers, potatoes, four varieties of squash and a light run of tomatoes.

Okra has consistently held a top position from the price-standpoint, since its appearance recently on the Plant City Market, and during the last week the 85 hampers of this commodity averaged \$12.20, with a price range of from \$9 to \$15. Fancy bell pepper led in volume, the market handling 25,745 hampers, for a gross return of \$80,657.05. Pepper growers received substantial additional revenue from several thousand hampers of other grades.

Manager R. B. Alvarez of the Starke State Farmers' Market reported the sale of 1,180 crates of strawberries, at an average of \$9, for a gross revenue of \$10,440 during the week. Shipments of beans are expected from that area during the coming week.

During the last weekly report period the Fort Pierce State Farmers' Market handled 18,332 crates of tomatoes. Market Manager M. E. Williams reported, Greens ranged from \$4.20 to \$11.50 in price, pinks from \$4.99 to \$12.25. The Fort Pierce Market also handled 719 bags of golden bantam corn, five dozen to the bag, at a price of \$2.50 to \$3.

Plans for the seasonal opening of the auction sale of produce on Palmetto State Farmers' Market tomorrow, were announced at the week-end by Market Manager Jack Taylor, Jr. The Palmetto Market handled light offerings of produce during the last week. These included 365 bushels of No. 1 tomatoes, which sold for an average of \$8.57, grossing \$3,125.75.

**Hints To Housewives**  
By Isabelle S. Thursday

**MUD MARKS**

Mud is a familiar spring problem in most households—muddy shoes, mud-stained clothes, and mud on rugs and floors. Textile specialists of the U. S. Department of Agriculture offer some suggestions on removing it.

Shoes. Even though dry mud comes off shoes more easily than wet mud, the specialists advise against the common practice of letting it dry on before brushing it off. Mud stains leather, and the longer it stays on, the worse the stain is likely to be. Scrape off moist mud as promptly as possible and then wipe the leather clean with a soft cloth. Let shoes dry slowly and then polish. Mud should be wiped off leather gloves promptly.

Clothes. Scraping wet mud off clothes is likely to spread and rub into the fabric thus leaving a larger stain. Therefore, the specialists advise letting it dry, then brushing well, and sponging with clear water. Sponging with alcohol will help remove any last traces of stain. On colored material or acetate rayon, dilute the alcohol with water, using twice as much alcohol as water. Washable clothes should be soaked first in clear lukewarm water, and then washed with soap.

Rugs. Scrape off as much of the wet mud as possible with the dull side of a knife. Allow the rest to dry and then brush off. If a stain remains, sponge with a damp cloth, providing the rug is of the type which can take moisture. (Water removes the twist from the pile of some rugs.) Floors. Wipe up mud promptly with a damp cloth and apply wax if the floor is waxed.

War II ended and Communist Russia's expansion was accelerated, I have emphasized that the need for such an air force is completely urgent.

"The international situation is critical. In the face of this ever-increasing Communist threat, the Congress has no choice but to act with dispatch on the 70-group air force plan. As a spearhead of an adequate, balanced, over-all program to secure America's position in a threatened world, there should be prompt congressional authorization of a 70-group air force."

Bridges told reporters previously there is little chance the measure providing money for a 70-group air force will get a clearance signal from his committee this week. He said the Armed Services Committee should decide first what to do with the Draft-Universal Military Training Bill it is considering.

### John L. Lewis, UMW Fined On Contempt Of Court Charges

Mine Chief Is To Pay \$20,000 And Union \$1,400,000 As Recommended By U.S.

WASHINGTON, Apr. 20. (AP)—John L. Lewis today was fined \$20,000 and his United Mine Workers \$1,400,000 for contempt of a court's stop-strike order.

Judge T. Alan Goldborough accepted a government recommendation for those fines, but said it had been his own inclination to send Lewis to jail.

The fines are just double what the bushy-browed UMW chief and his miners had to pay after they similarly were found guilty in 1946 of contempt for ignoring a court's stop-strike order.

Then Goldborough fined Lewis \$10,000 and the union \$3,500,000. But the Supreme Court cut the union's fine to \$700,000.

The fines Goldborough imposed today were only for criminal contempt. The judge granted a government motion to consider a penalty for civil contempt against Lewis and the union on Friday.

Lewis and the union each were held guilty by the judge yesterday.

### Legionnaires Plan Headquarters Site Bid For Sanford

Members of Campbell Loring Post 83 of the American Legion met last evening at the Legion Hut and made final plans for the presentation of Sanford's bid for permanent department headquarters.

It was announced that Sanford's bid will be presented at the Legion State Convention starting Friday at Panama City, by Brig. General J. C. Hutchinson. The bid includes the City's offer of the lake front site now occupied by the soft ball diamond, and in event Sanford is chosen as the location for a Legion department headquarters building, the free use of space in the City Hall for five years, pending construction. The Legion post in turn offers \$6,000 cash and will maintain the grounds at the new site.

Commander James Binearity announced that the Sanford delegates are to attend the convention unrepresented as to voting.

Delegates from Campbell-Loring Post 83 at the convention will be: Ned Smith, J. J. Rocco, Joel Field, James Binearity, and James Wright. Alternates will be: Brig. General J. C. Hutchinson, John Sauls, Chester Miller, Frank Pavlick, and Ed Montfort.

One thousand bunches of celery, donated by Andrew Duda and wrapped with Sanford labels will be available for the convention.

### Walker Services To Be 3:00 P. M. Thursday

### Peacetime Draft Vigorously Hit At House Meeting

Norman Thomas Says Such Action Would Lead To Open War

WASHINGTON, Apr. 20. (AP)—Senator Morse (R-Ore) today called unification of America's military Frankenstein in a country which could destroy free economy.

WASHINGTON, Apr. 20. (AP)—A peacetime draft was vigorously opposed today by the Socialist Norman Thomas. Thomas told the House Armed Services Committee such a draft would make war virtually inevitable within 10 years or more.

He urged instead an American-backed program for universal disarmament under effective international control.

Thomas, who has been Socialist candidate for President several times, testified as chairman of the postwar world council.

He said the draft proposal is "dangerous and un-American," and added: "It ought to be axiomatic in a democracy that a president who demands to grave an increase in his power at cost to American freedom is unfit to be trusted with it."

"There are grave reasons to fear that consciously, or perhaps unconsciously, President Truman is trying to copy the precedent of his predecessor and to exploit a grave world situation for a continuance of personal power in an election year."

"The president has already shown a fondness for the military draft as a way to defeat strikes and that process will be made easier in the future by the surrender to even an emergency peacetime draft."

Thomas said that even military leaders cannot agree on the Armed Force strength needed at this time.

"Let us say bluntly," he said, "our supposedly unified military is at once the object of laughter and immense irritation in America because it cannot agree on any program, not even on a plain statement of the facts about the actual and desirable size of armies."

Thomas said a universal disarmament proposal backed by the United States "would tend to put a reluctant Stalin on the defensive before his own people."

"Assuming that Stalin and the Politburo would at first refuse the necessary controls for disarmament."

### Farm Land Values Reach Highest Peak Since Record Level Of 1920

By OVID A. MARTIN

WASHINGTON, Apr. 20. (AP)—The war-born farm land boom has reached the dizzy heights at which the last one exploded to bring tragedy to thousands of farmers.

The Agriculture Department reported today that farm land values on Mar. 1 had climbed to the record of March, 1920—a level that collapsed shortly thereafter.

Sparking the current boom, the department said, is the continued high farm product prices and record farm income.

### Arab Raiders Attack Jewish Convoy Lanes

Report Says Most Of Convoy, Including Agency Executives Reached Jerusalem

JERUSALEM, Apr. 20. (AP)—Arab raiders tried again today to cut the communications lifeline of Jerusalem's 100,000 Jews with the Palestine coastal belt.

The Arabs attacked a Tel Aviv-to-Jerusalem convoy in which David Ben-Gurion, chairman of the Jewish Agency executive, and other agency leaders were traveling.

Jewish sources reported that most of the convoy—including Ben-Gurion and the other leaders—got through to Jerusalem with more than 100 food trucks.

Police said yesterday that Jews withdrew after an attack on the village of Soba, which overlooks the Jerusalem-Tel Aviv convoy route.

Further down the same road, Hagannah sappers blasted an Arab filling station and four shops.

Hagannah announced last night it had imposed martial law in Tiberias, after Arabs evacuated the historic city on the shores of Galilee.

The Jewish militia said martial law was declared "to protect properties evacuated by Arabs and to guarantee the sanctity of Holy places, whether Christian, Moslem, or Jewish."

Unidentified gunmen held up a truck yesterday carrying an estimated \$80,000 in gold to a bank in Tel Aviv. The holdup occurred near the main Tel Aviv post office. The gunmen escaped.

Jews abducted Maj. J. Resner, a member of the British military corps, yesterday in Jerusalem and questioned him for three hours.

### Britain Slated To Get \$1,324,300,000 Of ERP Allotment

WASHINGTON, Apr. 20. (AP)—Britain is due for a \$1,324,300,000 slice of the \$5,500,000,000 European Recovery Program, Congress learned today.

The next biggest allotments, all of them tentative, are: \$1,130,800,000 to France, \$703,000,000 to Italy, \$599,600,000 to the Netherlands and \$437,400,000 to the U. S.-British zones of Western Germany.

In translating the dollars into the things Western Europe needs most to regain its economic feet, the recovery program planners expect to spend \$987,200,000 for grain, \$611,300,000 for cotton, \$472,700,000 for petroleum and \$110,200,000 for tobacco.

These and many other long-secret figures were submitted to the House Appropriations Committee by Paul G. Hoffman, economic aid administrator.

### Coolidge Apology Sent To The South

BOSTON, Apr. 20. (AP)—Massachusetts' Lieut.-Gov. Arthur W. Coolidge today apologized to the South for his recent attack charging "Bible belt banjo-strummers" with "kidnapping" New England industries. Declaring "I regret the offense which my words have caused," Coolidge telegraphed U. S. Senator Olin Johnston (D-SC): "Bitterness is not my nature; malice was not intended. I was stirred because the program to induce Northern industries to migrate threatens the jobs of New England workers and the livelihood of businessmen."

### Many Problems Of Newspapers Told At Meeting

Press Is Praised For Objective Reporting Despite Odds

NEW YORK, Apr. 20. (AP)—American newspaper publishers were commended today for objective news presentation despite many difficulties in the 31 months since the end of the war.

The praise was voiced by Frank Walter, co-owner and publisher of the *Harleston (Pa.) Plain Speaker* and *Standard Sentinel*. He served as chairman of the first session of the 62nd annual convention of the American Newspaper Publishers Association.

Publishers had hoped with the war's end "to turn from a wartime existence to a peacetime period of expansion and better times," Walter said.

"Problems, however, did not cease when the battle front ended, and today newspapers are more beset than at any time for a long period of years. They are confronted with dissonance in their relations with some employees; they are confronted with difficult and in some cases impossible to secure the equipment."

### Life Scout Rank Won By Donald Futrell

Donald Futrell, son of Mr. and Mrs. R. A. Futrell of 1110 Laurel, earned his Life Scout rank at the Boy Scouts of America at the Seminole District Court of Honor held at the Episcopal Parish House last night with Mr. R. A. Smith in charge. Futrell is a member of Troop 34.

Mr. Smith presented the certificate to Mrs. Futrell, since Donald was unable to attend the Court after suffering a broken leg last Saturday.

Bobby Morris, son of Mr. and Mrs. H. E. Morris, was presented a Star Scout certificate by Capt. Byrd Hudson, Scoutmaster for Troop 8, of which Morris is a member.

H. E. Morris presented Tommy Wilkinson and Walter Graham with Second Class Scout ratings.

R. W. Lippincott, scoutmaster for Troop 24, presented merit badges to Billy Clark, Robert Morris, Gene Wilkinson, Tommy Wilkinson, Donald Futrell and Garnet White.

H. G. McInnis, assistant Scoutmaster for Troop 34, was also present for the Court.

### U.S. Offers Plan To U.N. For Palestine

Document Is A Group Of 47 Suggestions For Consideration Of Trustee Plans

LAKE SUCCESS, Apr. 20. (AP)—The United States today offered the United Nations a 47-point trusteeship plan for Palestine.

U. S. Chief Delegate Warren R. Austin told the special Palestine assembly's 38-nation politics committee that his government "is not prepared to act alone in this matter."

LAKE SUCCESS, Apr. 20. (AP)—The United States today offered for United Nations consideration a 47-point trusteeship plan for Palestine.

There was no commitment of American troops. The document, labeled by American spokesmen as a group of suggestions and not a formal proposal, lodged a stand on who should maintain peace in the Holy Land.

Embodying most of the previous informal United States suggestions, the plan said merely that a group of nations to be selected later should defend Palestine and keep order.

### 60 Year Old Mother In "Who's Who" Is "Mother Of Year"

NEW YORK, Apr. 20. (AP)—The 60-year-old mother of the largest family listed in "Who's Who in America" was named today as 1948's American Mother of the Year.

She is Mrs. Helen Gattiside Hines, of Springfield, Ill., the wife of publicist Herbert W. Hines and the mother of 10 children.

Mrs. Hines was named mother of the year by the American Mothers' Committee of the Golden Rule Foundation. She becomes the 13th mother to hold the title.

Mrs. Hines was chosen from a long list of State Mothers of the Year and several "extras" selected by the committee.

She will fly to New York for her official reception at the Waldorf-Astoria Hotel on Friday, May 7, and other events culminating on Mother's Day, May 9. Later she will preside over sessions of the American Home Institute, May 12-14.

A daughter, Mrs. Marion Hines Derringer, 27, is a secretary at Rollins College, Orlando.

Nine of the 10 children were in service during the war.

### NATIONAL GUARD Capt. Roy Green, Company 1 Commander, Today Picked Out That Under The Provisions Of Present Draft Bill, Young Men Eligible For The Draft Who Join The National Guard Prior To Its Passage, Will Have To Register, But Will Not Be Called By The Draft.

By becoming members of the National Guard they will be enabled to complete high school and college training.

Building In And Near Sanford Amounts To Over Million Dollars

By WILLARD CONNOLLY  
Construction in and near Sanford during the past 12 months has amounted to more than one million dollars, it was estimated today by Gerald Duncan, city building inspector.

This includes alterations to older structures, and improvement to buildings continually going on.

Nearing completion now is the new 60 by 150 foot Seminole Truck and Tractor Co. plant at Eleventh Street and French Avenue.

Nearing completion now is the new 60 by 150 foot Seminole Truck and Tractor Co. plant at Eleventh Street and French Avenue. It will be opened as soon as material for the shop doors arrives. Another fine plant of concrete block and steel construction is the Britt Tractor Plant on the Orlando Highway. In the vicinity is Lammert's Restaurant, completed during the past year, two new cabins by Marcelle Cabin Court, Dr. Bass' Animal Hospital and Dobson Trailer Park, and the Tucker Sales and Service Co.

Motoring into town one passes the fine new Big 'N' Whistle Barbecue Stand, and not far from it on Sanford Avenue is the new Powell Grocery.

In the busy Sanford State Market section, one notes a new concrete block addition to Patrick Fruit Co. and the large quonset type Gulf Station and repair shop. The Market Restaurant has been moved and enlarged. On Fifteenth Street nearby is the new Hely Solly Laundry.

Down town are many new structures and improvements. These include the concrete block ACL Freight Depot, the \$50,000 Greyhound Bus Station, the quonset type constructed Holler Motor Sales plant, the attractive new sales room of Holler the plumber, the north French Avenue, the South Atlantic Gas Company's modernistic office and show room on Palmerton Avenue. The Jaycee sponsored City constructed Tourist Information Booth is on the Lakewood.

Other new construction includes the Hunt Tuxedo Feed Store, Second and Sanford Avenue, improvement and painting of the Amoco Station opposite, and the new Clark building on Sanford Avenue. The Von Herbulis Candy Mfg. Co. has a neat little plant on North Maple Avenue. Near Laurel and Sixth Street is a small building erected by a post card distributor. Hicken's new Machine Shop is at Fifth and Laurel.

Attractive new churches have gone up during the past year. These include the Free Methodist Church at Fourth Street and Laurel Avenue and the Assembly of God Church at Second Street and Elm Avenue. Work has started preparatory to erection of the First Baptist Church Annex on Park Avenue.

Extensive improvements have taken place in the downtown section including the doubling of size and improvements of the Touchton and the Roumillat and Ant.

of them to see.  
There is an extremely small amount of fast-radiating actinium in uranium ore, Dr. Hagemann said. But there is so little of it that about 10 tons of uranium ore would have to be worked to get out just 1/28,000ths of an ounce of actinium.  
The possible uses of the pure actinium are not yet known, atomic scientists said. But study of it promises to give a better understanding of the man-made radioactive elements like plutonium, americium, and curium.  
In another report, Prof. B. B. Cunningham of the University of California told how the first weighable amount of americium had been obtained. The fact that americium had been isolated was

made two years ago. Americium, element 95, is produced by radioactive decay of a form of plutonium, which is turn is made from uranium 235.  
Prof. Cunningham produced americium in pure compounds that have a delicate shade of pink. This color is different from any other known compounds of the heavy radioactive elements, he said.  
There was so little americium to work with that its purification had to be carried out under a microscope. Test-tubes used were only a little larger in diameter than a fine sewing needle, he said, and were only a fraction of an inch long. The pure stuff was weighed on scales that can weigh as little as one-billionth of an ounce. Americium has a half-life of 500 years.  
The amount of plutonium oc-

curing in nature is a million times scarcer than radium. Prof. Glenn T. Seaborg and O. S. Garner of California and Prof. N. A. Bonner of Washington University, St. Louis, reported. They studied the ores pitchblende, carnotite, fergusonite, and hutchinsonite, all good sources of uranium, radium, and other heavy elements.  
Their work showed that plutonium possibly existed in the pitchblende and carnotite to the extent of one one-hundred million millionth of a pound of plutonium per pound of ore.

sembly's 58-nation political committee, which began consideration of the whole Palestine problem. The fate of the assembly's 1947 decision to partition the Holy Land will be decided during the debate.  
The American document was a combination of 15 general principles put before the Security Council by Austin and the draft statute for the city of Jerusalem prepared by the U.N. Trusteeship Council. The plan was circulated privately to council members last week but Austin received clearance from Washington only yesterday for public presentation.  
The trusteeship could be terminated by Assembly agreement on a permanent plan of government or by successful plebiscite on a permanent plan. The vote could not be taken for at least three years. In theory, this would mean that partition could eventually be put into effect. However, Arab opposition to the splitup scheme is not expected to diminish.  
On the pertinent issue of Jewish immigration, the plan said: "Immigration into Palestine shall be permitted in accordance with the absorptive capacity of Palestine as determined by the governor-general and shall be subject to the requirements of public order and security and of

public morals and public health. As a temporary measure the immigration of Jewish displaced persons for a period not to exceed two years, shall be permitted into Palestine."  
The plan provides for a U.N.-appointed governor-general with virtual dictator powers. He would rule the Holy Land with an advisory council until a trusteeship government could be set up.  
That government would include legislative and judiciary branches and a cabinet, topped by a prime minister. The upper house would have 30 members, half Arabs and half Jews. The lower body would be selected on a proportional population basis, which would mean a heavy Arab majority.

Activities were baseball, diamond ball, tennis, general play, movies and swimming parties. The two latter were the most popular with double the attendance of those who participated in general play.  
Roy L. Jones, a returned veteran, did a creditable job in Georgetown and Goldsboro on colored recreation supervision and more than 4,100 children participated. It was a handicap to have two districts too far apart for general play, Mr. Holler stated. Possibility of procuring the block north of the primary school, and equipping it was proposed.

and materials necessary to expand their service to the public."  
Walser said he was sure newspapers will continue to improve and, "in the uncertain times ahead, as the public looks more and more to newspapers to keep them informed, newspapers will not fail in this high trust."  
David W. Howe, publisher of the Burlington (Vt.) Free Press and ANPA president, welcomed the 1,000 newspaper executives gathered for the convention.  
He pointed out that the association membership publishes 90 per cent of the daily newspaper circulation in North America and said the organization hoped to raise its membership to cover 95 per cent.

Person Drug Stores, the modern-
istic Perkins-Robson Men's Wear
Shop, and improvements now be-
ing made at McCrory's. The
Walker Electric Shop was estab-
lished in the Takach Building, al-
so the St. Johns Electric Co. The
Amoco Station on North Park
Avenue was improved. Batten
Electric Co. was established on
Sanford Avenue, and nearby at
the corner of First Street, Gar-
rett's clothing Store was started.
The Central Florida Quick
Freeze and Storage Plant was
established at the former citrus
canning plant site on West Thir-
teenth Street by Alex R. Johnson
and Forrest Gatchel. Opposite a
frame structure was built for
market sales to truckers, and is
now occupied by the R. F. Ragin
Feed Company. West of San-
ford the Peninsular Concrete
Pipe Co. made new additions and
American Fruit Growers Inc.
erected its big wash house.
Hotels caught the contagion of
improvement. The Mayfair Inn
was repainted and renovated, a
fine new swimming pool and ten-
nis and shuffle board courts were
constructed. Radio Station WTRR
went in with its extensive altera-
tions and nearby tower. Opposite
the hotel, W. A. Patrick con-
verted into a neat storage gar-
age, the former tumbled down,
fire wrecked structure. The Val-
dez Hotel was repainted, and the
Florida Hotel improved its front
and exterior.
The Municipal Airport, a city

in itself, underwent many build-
ing improvements and painting.
Florida Fashions improved its
newly occupied building near the
hangar, the Patterpad Co. instal-
led machinery for making baby
pads and Tee Bilt Homes started
operations.
The Provision Co. took over the
cold storage plant. Central Flor-
ida Foods moved into the con-
crete block commissary, the
Thompson Lithograph Co. was
started, the Gibson Grill was es-
tablished in Ships Stores, Fellow-
ship Front did painting and im-
provements. Fernald-Laughlin
was established after building
improvements.
The New York Giants took over
the JOQ Building and re-equipped
the kitchen, and added new of-
fices. Shower room facilities and
locker space was provided for 600
men. Eight fine baseball dis-
tants, complete with backstops,
also club house facilities were
constructed with City and County
aid. The Dusty Boots Riding As-
sociation built a new race track
and fitted up a club house.
At present the Florida Fashions,
Inc. are renovating their former
quarters on First Street for a
dress-making plant, with more
than 50 sewing machines being
installed on the upper floor.
Ned Smith had his Sanford
Furniture Company painted in-
side and outside. Bill Kirk Mot-
ors took over the former Wight
Plymouth Chrysler Agency on
Sanford Avenue and Tenth Street
and is now improving it. Nick
Constantine established a new ice
cream making plant on Sanford

Avenue. The General Truck and
Equipment Co. moved into the
former Heller Motor Sales site
with George Touhy as manager.
Eddie's Restaurant was re-paint-
ed. The Tower Cement Block Co.
was established. Tom Brown
started manufacture of septic
tanks on North French Avenue.
One of the major improvements
of the year was the re-surfacing,
as a state, farm to market road,
of French Avenue. Filling in of
the area west of French Avenue
on Seminole Drive presages im-
portant new industrial construc-
tion and a terminal, according to
Edward Higgins, manager of the
Seminole County Chamber of
Commerce. He today expressed
great satisfaction at the many
improvements that have taken
place during the year.
City work includes re-painting
of the Municipal Ball Park
stands and fence, laying out base-
ball diamonds for the Giants and
Seminole High School, Shuffe-
board Courts were put into con-
dition and a miniature auto race
track improved and new improve-
ments at the Municipal Zoo. Proj-
ects pending include painting
and waterproofing of the City
Hall, and construction of a roller
skating rink for negroes in Golds-
boro.
One of the most attractive four-
ist courts to be built in Sanford
is the Colonial Court Tourist
Court project erected in the
form of four duplex units on
Seminole Boulevard by Carl
Mynes. Everbody's Hardware
Store moved into its new building
on Sanford Avenue. William Vin-

Florida Power & Light Company
works constantly to improve your
service. Often, to avoid even
minor service interruptions,
crews work on high voltage lines
while they're "hot."

For this purpose, "Hot Sticks" and
other ingenious tools have been
developed. Linemen literally go to
school to learn their use.

This is but one of many modern
methods used to help assure a
constant supply of "Sunshine
Service" in your home.

FLORIDA POWER & LIGHT COMPANY

SAFETY FIRST

In addition to providing special training and tools for "hot
line" work, an alert Safety Department constantly trains all
employees in safety procedures. Safety engineers make
periodic visits to all districts, give lectures, prepare booklets
and bulletins, and conduct special safety demonstrations.

This Safety program pays real dividends in increased effici-
ency, improved service, more power for Florida.

Speaker Joe Martin says he  
would like to talk to Joe Stalin  
in the interest of peace. Does he  
mean talk "to" him, or "with"  
him? Stalin might not be inter-  
ested in being talked to, though  
he might consent to a confer-  
ence.

We wrote the other day of the  
bad publicity Bogota got as a  
result of the rioting in that city  
during the Pan American confer-  
ence. Of further interest is the  
fact that more than 1,000 persons  
were now reported to have perished  
during the street fighting. To  
each one of those who died it  
made little difference whether he  
was clipped by a machine gun  
bullet, or was struck by an  
atomic bomb.

A visitor at The Herald office  
Saturday was Richard Mack of  
Miami, a candidate for re-election  
as Railroad Commissioner. We re-  
member Dick Mack as a little  
boy, and a mighty fine boy he  
was too. He is just as fine a  
man, we gather from the record  
he has made during the war and  
since as Railroad Commissioner.  
We had not seen him for a long  
time and it was a lot of fun re-  
calling the early days in Miami  
when there were more Indians  
there than white people.

Dan McCarty was back in San-  
ford last night for the second  
time since launching his campaign  
for governor, looking better than  
ever despite the strenuous sched-  
ule he has been adhering to, and  
exuding confidence that he will  
be in runoff, come the May 4th  
election. Many people who are in-  
terested only in beating Fuller  
Warren are seeing this young  
man from Fort Pierce as the  
most likely man to do it. He has  
none of the sales tax controversy  
or the state school issues with  
which to be beaten over the head  
as with a club wielded by so  
expert a hatchet-man as Fuller  
Warren.

How are we going to tell whom  
to vote for among the numerous  
candidates for delegate to the  
Democratic National Convention  
where the next Democratic nomi-  
nee for President of the United  
States will be selected, is a ques-  
tion we are being asked more  
and more every day. We do not  
think the average person will  
have any difficulty identifying his  
choice. If you are against Tru-  
man, the anti-Truman candidates  
are clearly indicated on the bal-  
lot. In addition, there are some  
big name candidates like former  
Governor Doyle Carlton, Governor  
Millard Caldwell, Rep. Joe Hend-  
ricks, who might be classified as  
middle of the roaders. Senator  
Pepper has a slate of candidates  
in there too, and probably they  
will be identified before election  
day.

"I want to run this in the  
paper," a fellow said to us the  
other day, "and if you don't do  
it, you can stop my paper." Of  
course, there wasn't anything to  
do but hand it back to him and  
tell him to go to hell. But isn't  
it funny that persons in this coun-  
try can go all the way through  
public school, play baseball and  
shoot marbles, grow into adult  
manhood, get a job and earn his  
living, read the daily newspaper  
and listen to the radio, and never  
learn that there is a way to do  
things, and a way not to do them.  
When we see a fellow like this,  
we always wonder if he says to  
his wife when he gets up in the  
morning, "Get me my ham and  
eggs or I'll beat you over the  
head with a big stick," and we  
have a sympathetic feeling for  
her.

**The Italian Election**

The long awaited Italian election has been held and from all ap-  
pearances at this early hour after the polls have closed, the anti-Com-  
munist forces have won a sweeping victory. In this country, the out-  
come would have been decisive enough to drive the opposition into their  
holes where they would no longer be a menace to society or a threat  
to the country.

Unfortunately, that may not prove to be the case in Italy. Demo-  
cracy is not so firmly entrenched there as in Britain or America, and  
the Communists are more numerous, more active, more adequately fi-  
nanced and more strongly supported by the other Communist countries  
to the east. Though they have lost the election, they are still there.  
And they will continue a constant source of trouble.

They may try to seize control of the government by force. That  
has been their practice in other European nations where they never had  
a majority of the voters with them but where they have gained control  
by force of arms. Or they may be content to bide their time, hoping  
to catch the government napping, the other western nations off guard,  
when they can pull a coup d'etat with perhaps less opposition.

One thing the Italian people will have to learn is "Eternal vigilance  
is the price of liberty". The Christian Democrats will forever have to  
keep their ranks closed against the ever present threat of Communism.  
They will have to remain united, alert, watchful, and ready at all times  
against treachery, fraud, murder and revolution. The Communists will  
stop at nothing to win. They are not defeated; they are merely re-  
quired.

It is a big order to expect of a democratic government. The  
struggle may continue for years. Tisote, the Pope's appeal, the influ-  
ence of the United States, these and many other factors which carried  
this week's election may not be always present. But the Communists  
will be there, always boring from within.

What is the answer? We wish we knew.

**Change at Manila**

The death of Manuel Roxas and the succession of Elpidio Quirino  
to the presidency of the Philippines can be expected to result in some  
change in the official attitude of the new republic toward the United  
States.

Roxas was almost more an American than a Filipino. When the  
Japanese swarmed over the islands he went to Corregidor with the  
Americans, and remained there until the fortress fell. The heart attack  
which caused his death a few days ago came at the end of a speech in  
which he had pledged that if was came again the Filipinos would fight  
beside the Americans again.

Quirino is not less friendly to the United States, and as vice-pres-  
ident and foreign secretary of the Philippines he has followed and sup-  
ported Roxas. But he is opposed to military involvement with the  
United States.

The military bases which the United States retains in the Philippines  
are held under long-term treaty, in the negotiation of which Quirino re-  
presented the Philippines. He drove a hard bargain in the effort to re-  
move American installations as far as possible from the seat of govern-  
ment in Manila. Quirino may be less eager than was Roxas to stand  
beside America amid the World's troubles.

**Italian Voting**

(Continued from Page One)  
Returns on the senate vote, counted  
first, gave the Christian Demo-  
crates 8,171,669, or 44.4 percent  
of the vote. The Popular Front  
coalition of Communist and left-  
wing Socialists got 5,382,976 votes,  
or 31.3 percent.

Returns from 4,478 of 41,525  
sections in vote for the chamber  
gave the Christian Democrats  
2,131,008; the Front, 936,207, and  
the anti-Communist Socialists,  
269,393.

The votes for minor parties  
swelled the anti-Communist total.  
Alcide De Gasperi, Italy's Chris-  
tian Democratic premier, said the  
returns were beyond his fondest  
dreams.

The returns were running stead-  
ily at two to one against the  
Communist Popular Front.

De Gasperi said his party's vic-  
tory showed Italy's "firm inten-  
tion not to be Bolshevized."

The Communists had little to  
say. Pietro Ingrao, director of  
the Communist newspaper L'Unita,  
said in a formal statement that the  
Front "without doubt will repre-  
sent a decisive element in the  
future parliament and in the  
country."

Pope Pius XII, smiling happily,  
told American newsmen that he  
will give them a formal statement  
within a day or two. There was  
no mistaking the Pope's obvious  
satisfaction with the returns thus  
far in this monumental struggle  
between Moscow and the West.

The Vatican-backed Christian  
Democrats triumphantly invaded  
the so-called "Red North." Re-  
turns in Milan showed the Chris-  
tian Democrats Party and its allies  
running two to one ahead of the  
Communists in the chamber elec-  
tions. In Genoa, a Communist  
stronghold, the anti-Communists  
had a comfortable lead. In Com-  
munist-governed Florence, the  
Popular Front was trailing.

Violence flared again at some  
points.

Milan police said unidentified  
rioters attacked an army munici-  
pals dump near the city early

today. It was the second such  
attack there. Troops repelled a  
raid two nights ago.

At Codogno, on the Po River  
near an army dump, police re-  
ported a raid but gave no details.

In Bologna, known as the "Ital-  
ian Kremlin," a bomb exploded in  
front of a Christian Democrat  
campaigner's store, but no one was  
injured.

During the hatching season,  
wild turkeys make a hissing  
sound in imitation of a snake as  
a protection against disturbers  
seeking their eggs.

**Legionnaires**

(Continued from Page One)  
be given away at Panama City  
as part of Sanford's program, it  
was announced by Joel Field.

Calvin T. Gibbs and Corbett  
Rudd were approved as post mem-  
bers. Raymond Kader, who was  
not present, was appointed as the  
Post Boys State Committee chair-  
man to secure the co-operation of  
local civic clubs in sponsoring  
the sending of boys to the Legion  
sponsored Boys State at Tallahassee.

Commander Singletary was out-  
spoken in his praise of the fine  
service rendered by a National  
Guard firing squad under com-  
mand of Sgt. Ralph Geiger at the  
funeral Sunday afternoon of Pfc.  
Charles Bradbury, whose body  
was returned from overseas for  
burial, and announced that the  
funeral of Cpl. Hugh Lesher, an-  
other returned veteran killed over-  
seas, will take place here Wednes-  
day afternoon at 4:30 o'clock in  
Evergreen Cemetery. He requested  
the members to attend.

**Farm Lands**

(Continued from Page One)  
further decrease in the year  
ahead.

A heavy portion of farm sales  
were for cash, the department  
said. Individuals and commercial  
banks made almost three-fourths  
of the loans advanced for farm  
purchases.

**Draft Hit**

(Continued from Page One)  
armament," Thomas said, "their  
refusal need not be forever. No  
iron curtain is completely im-  
penetrable."

Opposition to a draft also crop-  
ped up in the House Committee  
with Rep. Short (R-Mo) prom-  
ising to fight any return to  
selective service. But, he said he  
thinks Congress will pass such  
a law.

**ROXAS' FUNERAL**

MANILA, Apr. 20—(AP)—The  
famed Philippine scout and other  
U. S. Army units will form part  
of the funeral cortege for Pres-  
ident Manuel Roxas, who will be  
buried Sunday with full military  
honors.

A 20-man honor guard from  
the British Crusier Constance will  
participate.

The Filipino leader, a brigadier  
general in the American-Filipino  
force during the dark days of  
Bataan, died Thursday.

**"PAROLED" ALIEN**

NEW YORK Apr. 20 (AP)—A  
six-month-old boy—born in Italy  
of an American-born mother but  
ruled an alien—was in this coun-  
try "on parole" today while im-  
migration authorities thumbed  
further through the book of re-  
gulations.

Babies born in the world daily  
number about 175,000.

BIBLE VERSE TODAY

GOD HAS PLANNED ABUNDANT HARVESTS FOR OUR PHYSICAL AND SPIRITUAL NEEDS.—Ps. 65:4: Thou crownest the year with thy goodness, and thy paths drop fatness.

Speaker Joe Martin says he would like to talk to Joe Stalin in the interest of peace. Does he mean talk "to" him, or "with" him? Stalin might not be interested in being talked to, though he might consent to a conference.

We wrote the other day of the bad publicity Bogota got as a result of the rioting in that city during the Pan American conference. Of further interest is the fact that more than 1,000 persons were now reported to have perished during the street fighting.

A visitor at The Herald office Saturday was Richard Mack of Miami, a candidate for re-election as Railroad Commissioner. We remember Dick Mack as a little boy, and a mighty fine boy he was too.

Dan McCarty was back in Sanford last night for the second time since launching his campaign for governor, looking better than ever despite the strenuous schedule he has been adhering to, and exuding confidence that he will be in runoff, come the May 4th election.

How are we going to tell whom to vote for among the numerous candidates for delegate to the Democratic National Convention where the next Democratic nominee for President of the United States will be selected, is a question we are being asked more and more every day.

"I want to run this in the paper," a fellow said to us the other day, "and if you don't do it, you can stop my paper." Of course, there wasn't anything to do but hand it back to him and tell him to go to hell.

The Italian Election

The long awaited Italian election has been held and from all appearances at this early hour after the polls have closed, the anti-Communist forces have won a sweeping victory.

Unfortunately, that may not prove to be the case in Italy. Democracy is not so firmly entrenched there as in Britain or America, and the Communists are more numerous, more active, more adequately financed and more strongly supported by the other Communist countries to the east.

They may try to seize control of the government by force. That has been their practice in other European nations where they never had a majority of the voters with them but where they have gained control by force of arms.

One thing the Italian people will have to learn is "Eternal vigilance is the price of liberty". The Christian Democrats will forever have to keep their tanks closed against the ever present threat of Communism.

It is a big order to expect of a democratic government. The struggle may continue for years. Trieste, the Pope's appeal, the influence of the United States, these and many other factors which carried this week's election may not be always present.

Change at Manila

The death of Manuel Roxas and the succession of Elpidio Quirino to the presidency of the Philippines can be expected to result in some change in the official attitude of the new republic toward the United States.

Roxas was almost more an American than a Filipino. When the Japanese swarmed over the islands he went to Corregidor with the Americans, and remained there until the fortress fell.

Quirino is not less friendly to the United States, and as vice-president and foreign secretary of the Philippines he has followed and supported Roxas.

The military bases which the United States retains in the Philippines are held under long-term treaty, in the negotiation of which Quirino represented the Philippines.

Italian Voting

(Continued from Page One) tions on the senate vote, counted first, gave the Christian Democrats 3,171,569, or 44.4 percent of the vote.

De Gasperi said his party's victory showed Italy's "firm intention not to be Bochevized."

The votes for minor parties swelled the anti-Communist total. Alcide De Gasperi, Italy's Christian Democratic premier, said the returns were beyond his fondest dreams.

The returns were running steadily at two to one against the Communist Popular Front.

De Gasperi said his party's victory showed Italy's "firm intention not to be Bochevized."

Pope Pius XII, smiling happily, told American newsmen that he will give them a formal statement within a day or two.

The Russian-backed Christian Democrats triumphantly invaded the so-called "Red North." Returns in Milan showed the Christian Democrats Party and its allies running two to one ahead of the Communists in the chamber elections.

Milan police said unidentified raiders attacked an army munitions dump near the city early today.

Martha McVay Weds Frank Swaggerty

Of interest to friends in Sanford is the announcement today of the marriage of Miss Martha McVay of Tupelo, Miss., daughter of Mrs. Carrie McVay also of Tupelo, to Frank Swaggerty, son of Mrs. H. C. Swaggerty of this city. The ceremony was performed on Sunday afternoon at 4:00 o'clock at the home of Rev. Dr. P. H. Mears in Orlando, pastor of the Christian Church of Ocoee. The rooms of the Mears' home were beautifully decorated with white gladioluses and greenery.

The bride wore a dress of white waffle pique fashioned with a ballerina skirt. She wore a halo hat of starched white net and a lavender orchid corsage. Her maid of honor and only attendant, Miss Erna Simmons of Johnston, Pa., wore a two piece suit of shell pink sharkskin with a ballerina skirt. She wore a pompadour hat of pink ostrich tips and white carnations formed her corsage. The brother of the groom, Lee Swaggerty, served as best man.

Following the ceremony a buffet supper was given by the maid of honor and Miss Carolyn Adkins at the home of Mrs. Orville R. Davis of Crystal Lake Drive in Orlando. The long buffet table was centered with a tiered wedding cake and spring garden flowers were used in decorating. A large number of friends from Sanford attended the wedding.

Upon their return from Key West where they are spending a week Mr. and Mrs. Swaggerty plan to make their home in Sanford. Mrs. Swaggerty is a native of Tupelo but for the past two years has been making her home in Orlando where she has served

# Santford Giants To Meet Leesburg Pirates Here Tonight

### Locals Drop Wild 16 To 2 Contest To Daytona Beach At Islet Diamond

Art Dunham, portside fireballer, who pitched the Sanford Giants opening contest against the Orlando Senators at Tinker Field, will get another starting assignment tonight for Manager Hal Gruber's aggregation, when they meet the Leesburg Pirates at 8:00 o'clock at the Municipal Park.

Last night the Giants dropped a lopsided contest to the rejuvenated Daytona Beach Islanders under the direction of Manager Sam Demma by a 16 to 2 margin.

The Daytonans rapped five Sanford hurlers for 17 base hits, while the locals were booting five opportunities afield.

Charlie Peipo did not appear in the lineup again last night, and is being confined to the bench with a pulled muscle in the right leg, however, he is responding to treatment and is expected to return in the next few days, Manager Gruber declared.

Johnny McManus was the only Giant able to solve the offerings of Wally Gaddis, Islet pitcher, for more than one inning, but Manager Demma and Hank Filipki rapped four hits in five trips to the platter for the home club.

### Brislie Makes Good Showing In First Game On Philadelphia Club

By JOE REICHLER, Associated Press Sports Writer

Joe McCarthy is back in baseball today—but please, mister, don't remind him.

The former manager of the New York Yankees still doesn't know what hit him in yesterday's American league opener—his first day back since he went into his self-imposed exile a year and a half ago.

Old Connie Mack brought his upstart Philadelphia Athletics to Boston for a patriots day morning-afternoon double header, and proceeded to rip McCarthy's Red Sox apart with a double-barreled 4-1 and 4-2 triumph.

Mack used two World War II vets—pitchers Phil Marchildon and Lou Brissie—to lead the charge.

Marchildon, shot down by the Germans while he was flying for the Canadian Air Force, and held a prisoner for nearly a year, spaced seven hits over 11 innings to win the first game.

Brislie, for whom doctors once gave up hope after his left leg was nearly torn off by German shrapnel, limited Red Sox sluggers to four hits to win the afternoon game.

There were two other openers yesterday—one in each league—and they ran true to form. The world champion New York Yankees spoiled Washington's annual inaugural by defeating the Senators, 12-4, behind a 16-hit attack. President Harry Truman—part of a 31,728 turnout—was on hand to throw out the first ball. The way things went for the Nats, he might as well have thrown the

The British government advised British subjects yesterday to leave Palestine as soon as possible, if they do not normally live there.

The announcement said there might be "possible danger" after the British mandate is ended May 15.

### Celery Feds To Meet Jackets In EFC Tournament

Seminole High School Baseball team will meet the St. Augustine Yellow Jackets in first round play in the East Florida Conference tournament to be held in New Smyrna on April 29, 30 and May 1, it was announced today by Coach Carl Kettles.

New Smyrna drew a bye, Palatka will meet Eustis and Leesburg drew a bye.

In the event the Feds trim the Yellow Jackets, they will meet New Smyrna while the winner of the Palatka-Eustis victor meets Leesburg in the semi-finals.

"It looks to us like we have a good chance of getting into the finals this year," Principal Herman Morris of Seminole High declared yesterday afternoon.

Palatka has the edge in the bottom bracket, since they will meet Eustis, a team which has not shown outstanding bids for honors in conference play.

 day of both civil and criminal contempt.

In civil contempt, penalties are usually based on damages done. So penalties are often fixed to increase if damages continue. This might result in Goldsbrough's imposing a daily penalty in event the miners do not work in protest against the criminal contempt fines.

Many were out of the mines today, waiting to see the outcome of the case.

Lewis's attorney, Welly K. Hopkins, filed notice of intention to appeal the contempt conviction. This was done right after sentence was imposed.

"While Lewis sat stony-faced, Goldsbrough told him in passing sentence:

"If this court was to use its individual judgment it would impose a prison sentence."

But the judge added that he was only one man and was accepting the advice of the government.

Assistant Attorney General H. Graham Morrison had recommended only the fines and said nothing about prison.

When he proposed them, Morrison reminded the judge that Lewis and the UMW were "second offenders."

Morrison said the court should "discipline" these defendants sufficiently to impress upon them permanently that they must obey the courts.

He recommended that consideration of a possible, additional penalty for civil contempt be reserved until next Friday.

Presumably, Morrison, when making this suggestion, had in mind a wait-to-see what happens in the coal fields. Many miners walked out yesterday after the contempt finding.

There were threats of a full-fledged walkout if Lewis should be sent to jail.

Under civil contempt, it would be possible to impose a fine that increased with each day the mines were idle; a fine of \$5,000 a day, for instance, for each day the miners stayed out.

Morrison said that the defendants (Lewis and the UMW) "have chosen to set themselves above the procedures of law and to disregard entirely a law of the United States and the mandate magistrate court issued pursuant to that law."

**PITTSBURGH** Apr. 20 (AP)—United Mine Worker leaders said today it was "anybody's guess" what the miners would do about the \$1,420,000 in fines slapped on them and John L. Lewis.

Already more than a fourth of the soft coal diggers were idle in recent protest against the contempt of court conviction of their union chief.

Reaction to the fines levied in Washington today ranged from the bitter "it's a dirty deal" voiced by Morgan, Pa., miners to relief on the part of one UMW official.

"That wasn't so bad," declared a representative of UMW District 5 in Pittsburgh. "A jail sentence would have been bad. All the miners would have gone out then and that's for sure."

Frank Hughes, president of UMW District 3 in the Greensburg, Pa., fields, declared fining Lewis and the union would not settle the issue.

## Top Candidates Beat The Bushes All Over Florida

### Only 2 More Weeks Of Campaigning Are Left Before Voting

By ASSOCIATED PRESS

Wherever you live, you won't have to go far to hear a candidate for governor of Florida today. With the election exactly two weeks away, they are scattered all over the state in their quest for votes.

Colin English is in the Jacksonville area, Dan McCarty and Dick Cooper in Central Florida, Fuller Warren in Miami enroute across the Everglades to the west coast, Tom Watson in the northwest.

F. D. Akin, Bennett MacFadden and Basil H. Pollitt, as usual, are home in Miami. W. A. Shands has suspended his campaign until tomorrow night because of the death of his brother.

Their vote appeals were nearly as varied yesterday as the locales of their campaigning.

In a Miami radio speech, English said water and flood control projects are in the nature of sound investments and the benefits are so great that "in the long view" the costs are self-liquidating. He will speak in Callahan, Hilliard, Fernandina and Jacksonville today.

McCarty, in eight speeches between Maitland and Deland, said water and flood control went hand in hand with soil conservation, which he called the most important single item in the welfare of agriculture. He will wind up a tour of Seminole, Lake, Marion, and Sumter counties today with a speech in Leesburg.

Pollitt, from Miami, advocated a state housing authority with power to condemn property and issue self-liquidating revenue certificates if necessary to wipe out "slums and blighted areas" with modern low-cost rental dwellings.

While Shands attended the funeral of his brother in Green Cove Springs, his friends carried on his campaign in the Orlando area. State Senator Walter G. Walker of Daytona Beach told the Orlando Junior Chamber of Commerce Shands is the only candidate squarely facing the tax issue by proposing measures to meet "a deplorable financial aspect."

Warren, at Key West, said Florida schools need "an adequate long-range financial program" to pay for higher teacher salaries, improved working conditions, renovation and construction of school buildings. He will address a Collier county rally at Naples tonight.

There are more hooped animals in America now than when the buffalo roamed.

## Many Attractive New Homes Built In Sanford During Year

By WILLARD CONNOLLY

Many attractive homes have been and are now being built in the various, improved subdivisions of Sanford. Not only are residents and those employed here building homes, but outsiders and retired business men are being attracted to this city by its beauty, and the economy offered by reasonably priced lots.

Within Sanford proper are many vacant lots at a very reasonable price, varying from \$200 to \$500. These are on paved streets, and some are beautifully shaded.

Prospective buyers in Central Florida register astonishment when they find that they can buy in Sanford fine lots, in good neighborhoods at such unflattering prices, said Grady Duncan, city building inspector.

In company with Mr. Duncan I took a trip yesterday to where various home building activities were going on and was astonished at their extent.

Our first search was for new tourist cabins, and as I had already inspected the fine new Colonial Court built by Carl Mynes on Seminole Boulevard, we motored out Park Avenue and in so doing passed new homes under construction at Fourteenth Street and at Twenty-second Street. These are of concrete block construction.

At the Marcella Cabin Court we saw a fine new duplex unit, tinted a green color. A bit further out we noted the Stewart Cabins, two white duplex units with office.

The county has been extending roads in this direction in a rough and unfinished sort of way. These include an extension of French Avenue and of Hiawatha Drive in the Dreamwood Subdivision. In this vicinity, small and neat little homes are springing up on every side. Three homes are being built in a row by M. L. Nickola of West Virginia, who smilingly paused from lifting rafters to assure us that he is now proud to become a "Florida Cracker."

Nearby was Mr. and Mrs. Bob Karne's new and unfinished home, also the new home of Mr. and Mrs. Marcel Faille who came here from Quebec. There were five or six other new homes going up outside the city limits which we did not have time to inspect.

Motoring back to Highland Park, we passed the Forrest Gatchel home, completed last year and proceeded to where Joe Moss is completing two new homes for sale purposes. Mr. Moss proudly showed us the interior of one of them. It is of concrete block construction and turquoise blue exterior. The interior appears very pleasant and well ventilated. Lighting fixtures are concealed in the ceiling. The three bedrooms were well located, and Mrs. Moss who did the plans, added a housewife's touch with plenty of closet and cupboard space.

If time had permitted, we would have found many other novel and interesting features in

## Convictions Of 2 Big Swindlers Upheld In Court

### Men Who Robbed Mergenthaler Linotype Company Held In Sing Sing

NEW YORK, Apr. 20 (AP)—The appellate division of the state Supreme Court has upheld the conviction of two men serving prison terms for participation in the \$750,000 swindle of the Mergenthaler Linotype Company in Brooklyn.

The two men, Julius Lobel, 44, better known as Jimmy Collins, and Irving (Lizy the Kel) Cohen, 46, were convicted of grand larceny last May and are in Sing Sing Prison.

The conviction of Lobel, serving 20 to 40 years, was upheld yesterday without a written opinion by the appeals court, the conviction of Cohen, serving from 7 1/2 to 25 years, was upheld by a three-to-two decision.

The minority opinion held that in the case of Cohen the "specific crimes submitted to the jury by the trial judge were not proved beyond a reasonable doubt."

Lobel, a Broadway and Hollywood figure, allegedly netted a major part of the loot. Cohen was accused of aiding Lobel in cashing checks drawn against the company.

## Drive Launched To Make Douglas Demo Candidate

### Supreme Court Justice Seen As Man To Rescue Party

ANN ARBOR, Mich., Apr. 20 (AP)—A drive to make U. S. Supreme Court Justice William O. Douglas the Democratic presidential candidate was launched here today.

A group of University of Michigan faculty members and Ann Arbor businessmen named the Justice as their choice last night and laid the groundwork for a nationwide "Democrats for Douglas" organization.

Several hundred local, state and national Democratic leaders will be asked by mail to lend their support to the movement, spokesmen for the group reported.

They said they would send out copies of a speech Douglas delivered at the University of Florida on Mar. 23.

The local Democrats rejected suggestions that they support President Truman, General Douglas A. MacArthur or Henry Wallace for President.

They charged the Truman administration with "failing to deal effectively with critical issues," MacArthur, they added, lacks "anything but a military record," and they said Wallace's policies invite divergent factions of the Soviet government.

Belief that Douglas could reunite divergent factions of the Democratic Party, including the Wallace supporters, was expressed by the group.

## 22 Separate Enterprises Are Now Operating At Former Navy Station

### Governor Dewey To Hit The Trail For Oregon Votes

The Sanford Municipal Airport territory, a city within a city, embracing an area roughly one-third the area of Sanford proper, is operating today by 22 groups or organizations, it was revealed today by W. S. Saver, city manager.

The West Virginia Training School or Fellowship Front, occupying a number of buildings including the former Administration Building of the Navy, is now painting a number of the barracks white, in contrast to the dull green which the Navy used. A new shoe repair shop and laundry and dry cleaning plant has been started in one of the corner buildings. In Ships Stores Building, the Gibson Grill is in operation.

The New York Giants farm training system of 15 clubs is a large enterprise. More than 100 men now occupy the 100-building complex for showers and lockers, adjacent to the eight baseball diamonds used for training and laid out during the past year. More than 500 men have been here during training with teams. In addition 150 men trained with the baseball school in February.

Also in the baseball picture is the five weeks training course conducted early in the year by the George Barr Umpire School. The National League Umpire has about 100 men enrolled annually, and this brings much favorable publicity to Sanford.

During the past year, the Sanford School of Aviation, under direction of Roy Browning, has trained 160 men for private and commercial flight and as instructors. At present about 30 are enrolled. Instruction in gliding is conducted by Steve Rendi. There are also uncheduled flights for passengers. Florida Airways, Inc., has regular scheduled flights, making five stops a day for passengers and freight. Their freight business is reported to be on

## Governor Dewey To Hit The Trail For Oregon Votes

### New York Candidate Expected To Make Swing Thru South

ALBANY, N. Y., Apr. 20 (AP)—With seven more presidential delegates about to fall into his lap at home, Governor Dewey made plans today to hit the Oregon trail.

He was expected to announce a cross-country tour climaxed by more than a week of heavy campaigning in Oregon, where he will come to grips again with Harold E. Stassen in the primary May 21.

The trip may be started late next week and include a swing into several Southern states.

Dewey and Stassen are the only candidates in the Oregon balloting, last big test before the Republican National Convention at Philadelphia June 21.

Although only 12 delegate votes are at stake in Oregon, political experts figure Dewey must win there to remain a leading contender for the presidential nomination.

The experts say another defeat at the hands of Stassen, on top of those he dealt Dewey in Wisconsin and Nebraska, could ruin Dewey's chances.

Dewey will go to the convention with all of New York's 97 delegates in his corner. Ninety more—delegates at large—will be chosen here tomorrow by the Republican state committee.

## 50 Cent Tobacco Is Predicted By Rep. Cooley This Year

WASHINGTON, Apr. 20 (AP)—"Fifty-cent tobacco this year" was predicted today by Rep. Cooley (D-NC).

The average tobacco price in 1948 at least will approach the 50-cent level because of the European Recovery Program in which tobacco is included and because of the approximately 28 percent cut in fluorocarbonyl, he told a reporter.

"The situation, he said, is an encouraging one as it was discouraging when exports were cut off and the British resumed their tobacco imports.

"Everything," he said, "would indicate the crop will sell above that of last year." In North Carolina, for example, the average price fell from \$47.73 per hundred pounds to \$42.43. This time Cooley said he did not expect the average to go below 48 cents a pound.

Today the House Appropriations Committee announced that tentative allotments for the first year of ERP will include \$110,000,000 for tobacco. This would buy about 200,000,000 pounds, tobacco men said.

Senator Hoey (D-NC) later told a reporter he hoped this would be "upped."

"Since this is only a tentative figure, I would like to see it increased if at all possible," he said. "Tobacco is the best morale builder. In that respect it's on a par with food. The European folks would take more tobacco than the \$110,000,000 worth although some folks in this country think we should confine the aid to absolute essential things like food. The folks over there want tobacco so much I think they will get more than this amount."

## Governor Wright May Use MBI If He Wants

JACKSON, Miss., Apr. 20 (AP)—Governor Fielding L. Wright can summon his defunct "secret police" force into action any time he chooses, he told newsmen yesterday there was no legal obstacles which could prevent him from doing so.

However, the Governor declined to say whether he would use the unit again in the event of strike violence. Newsmen brought up the subject in mentioning recent violence affecting the Southern Bus Company in Louisiana and Arkansas.

Governor Wright explained that the Mississippi Bureau of Investigation as the "secret police" officially is called, was scheduled for a legal death in the last legislature at his request.

It was created last year after buses and bus stations were fired on in Mississippi during labor unrest.

The House, he explained, in a rush to adjourn, neglected to repeal the MBI.

He said there is approximately \$86,000 remaining out of the \$100,000 originally appropriated for the MBI.

POLICE TOO SLOW

SPRINGFIELD, O., Apr. 20 (AP)—An excited resident called police headquarters last night saying he had fired a shotgun at a prowler.

Capt. Harry Schuman ordered a radio cruiser to the scene, some eight blocks from the station. He barely had the microphone down when a negro boy burst through the station doors.

"Are you the ....?" Schuman began.

"Yassuh, I see him," the boy replied. "I just couldn't wait for those slow policemen. This buckshot hurts something awful."
