This is one of the snapshots from my vacation trip. Friends ask why I made this the frontispiece in my album rather than that shot of the bald crest of Mt. Marcy — or the telescopic close-up of the Old Man of the Mountains.

Sure, I know this scene is commonplace. I saw a hundred villages with their white steeples peering above the trees and their comfortable old houses nestled around the church. And each one had a pond with pines and birches guarding its But this picture says more than all the others. It speaks not just of beauty and natural wonder . . . it tells of a good land populated by a great people. It reminds me of God . . . and of my neighbor. It whispers that all I cherish can endure for generations.

The landmarks of a great people proudly point to Faith. The Church belongs . at the senter of our life. But only you and I can keep it there ! Convicts 1988 Editor Advertising Device, Int., Devicery, Te
