Building Called Public Hazard

Inspection has revealed the Woodruff Building at 100 W. First St. to be "dangerous to the general public" and "a health menace and hazardous to adjoining and surrounding buildings," Fire Chief Mack Cleveland Sr. reported to the City Commission Monday night.

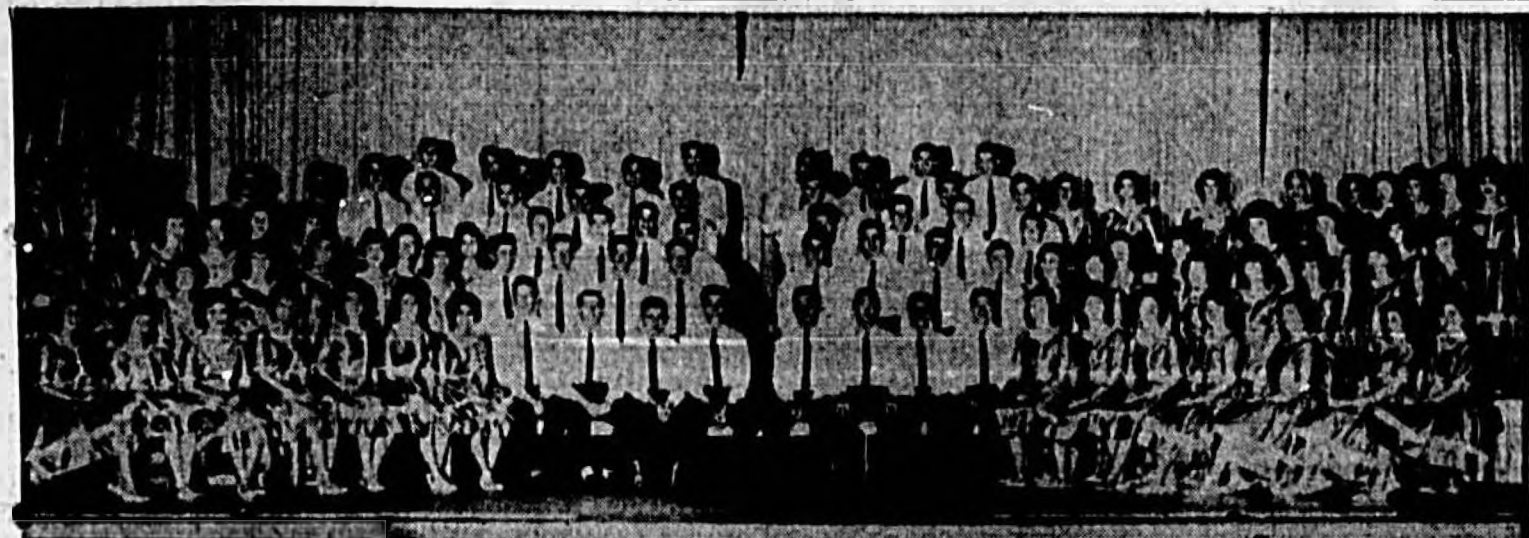

The chief recommended "compliance with both local and state fire laws and regulations, otherwise that the building be condemned, and/or removed."

Cleveland made the report after the commission asked him and the city building inspector to make the inspection.

Mayor Joe Baker said he thought such reports were in the public interest and agreed with Commissioner Tom McDonald, who requested the inspection of the Woodruff building, long discussed as a sub-par building for such a strategic downtown location.

Cleveland's report listed these details:

"All electric wiring and fixtures should be removed. The canopy, plastering and floors, ceilings and plumbing are all in a dilapidated condition. I also found the roof defective and leaky. In my opinion, these conditions make the building hazardous to any kind of occupancy, from both a fire and safety standpoint."

THE SEMINOLE HIGH SCHOOL CHORALIERS will present their annual Spring Concert in the high school auditorium at 8 p. m. today. A variety program is scheduled with special numbers by the glee club's top rank-

ing soloists, and songs by the Triple Trio and the Double Quartet. A massed-voice, two piano performance of a famous old hymn will be one of the highlights of the show. Admission is free and the public is invited.

Explanation

A detailed explanation of the urban renewal proposal for Sanford, outlining many factors apparently misunderstood in connection with it appears on Page 6 of today's Herald. Reading this information from the chairman of the committee which saw the need for urban renewal and acted in the public interest in proposing the bill will eliminate misinterpretations.

News Briefs

Violation Charged
TOKYO (UPI) — Communist China charged today that an American aircraft violated Chinese air space Monday for 11 minutes.

Ben-Gurion To Visit
WASHINGTON (UPI) — President Kennedy plans to see Israeli Prime Minister David Ben-Gurion in New York City May 30. Ben-Gurion, after a brief visit to Canada, will spend several days in the New York area.

Peace Jobs Set
WASHINGTON (UPI) — President Kennedy announced Monday that the third project of his Peace Corps will be the supplying of 300 volunteer science and English teachers for the Philippine republic.

UN Day Set
WASHINGTON (UPI) — President Kennedy has designated Oct. 24 United Nations Day. He called on American citizens Monday to stay local observance programs to demonstrate the faith in the world organization as a force for peace and human advancement.

Flight Mark Claimed
SAN FRANCISCO (UPI) — American Airlines today claimed a flight record between New York and San Francisco of four hours, 43 minutes for a passenger airplane. The Boeing 707 Astrojet, with 65 passengers aboard, left New York at 7:18 p.m. EDT Monday and arrived here at 9:01 p.m. PDT. Capt. Harry L. Clark was the pilot.

32 Polio Cases
JACKSONVILLE (UPI) — Florida recorded 32 cases of paralytic polio in the 12-month period ending May 15, the State Board of Health said Monday.

30,000 Foes Jailed
BELGRADE, Yugoslavia (UPI) — Albanian Communist Boss Enver Hoxha was reported today to have jailed 30,000 political opponents since last year when he started siding with Red China against Russia. But despite the arrests and a series of executions, Hoxha is struggling for his political survival and "lives in fear of his shadow," a former high Albanian official said.

Dozer Bought
The Dozer Company of Orlando was awarded a contract for an angle dozer for a D-6 tractor, belonging to the county, at the low bid price of \$2,710 upon the recommendation of the county road department supervisor.

Tax Complaint Registered Again
Hibbard Casselberry, who had appeared before the county commissioners previously concerning taxes that he claimed were unfair, appealed to the commissioners again today for relief.

Class Still Open On Water Safety
Miss Sally Neider, instructor of the water safety class which started Monday night, announced today that there is still time to register this week.

City Accepts Low Bid On Insurance
The city accepted the low bid of Gulf Life Insurance Co. as carrier of the employe health insurance program for the next year, effective Monday night.

Casselberry Calls Special Session
A special meeting of the Casselberry Board of Aldermen has been called for 7:30 p. m. Wednesday in the Town Hall, Mrs. Lillian Beisel, town clerk, reported today.

Joan Davis Dies
PALM SPRINGS, Calif. (UPI) — Joan Davis, rubber-faced comedienne who once earned \$1 million a year on radio and starred in the "Married Joan" television series, died today of a heart attack. She was 55.

Guard In Control In Montgomery

MONTGOMERY, Ala. (UPI) — National Guardsmen kept quiet but firm control today in the city of Montgomery, showing in force at every incident or near-incident. The guardsmen even zipped a group of American Nazi Party storm troopers through town so fast they didn't get a look at Confederate Square.

In Washington, Atty. Gen. Robert F. Kennedy's office said there was an uneasy calm in the Alabama capital and described the situation as "touch-and-go." Bryant R. White, top aide to the attorney general, flew from Montgomery to Washington Monday night to keep the administration

up to date. The force of U. S. marshals here was placed at 860.

The least sign of trouble brought an immediate response to any part of the city, but the nearest thing to a clash between race rioters and guardsmen was a brief "incident" Monday night at Greyhound bus terminal, scene of Saturday's bloody rioting.

About 100 additional guardsmen joined the assigned troops at the terminal when rumors that more "Freedom Riders" were due in brought a small group of hardcore segregationists to the terminal.

Five white men were ordered out of the station by a squad of guardsmen after one of them told Maj. Gen. Henry Graham, guard commander, that "we've come to meet them niggers."

A Montgomery man, Claude Hentley, 42, was arrested early today in connection with an attack on NBC cameraman Morris Levy and H. W. Riser during Saturday night's violence. Police identified Hentley as "the man with the cigar" who, witnesses said, helped direct the mob. He was charged with assault and battery and released under \$200 bond.

The guardsmen, many of them farm boys, seemed to have the

No Government Role Expected In Castro Deal

WASHINGTON (UPI) — President Kennedy intends to keep the government completely out of the "tractors for prisoners" proposal made by Cuban Premier Fidel Castro, Democratic congressional leaders said today.

Kennedy wants all the negotiations to be handled privately.

The president "does not propose to let this become a tribute to Mr. Castro's bullying tactics," Sen. George A. Smathers said following a meeting with Kennedy.

Redistrict Plan Commended By Area Officials

The proposed redistricting of Seminole County as set out by the planning committee was presented for approval at a joint city and county commission meeting today.

The plan explained by zoning director Robert Brown is designed to divide the county as equitably as possible, taking into consideration the miles of roads in each district that commissioners must maintain and having each area represented by more than one county commissioner.

As proposed now, the city of Sanford would be served by three commissioners, Longwood, two; Altamonte Springs, two; North Orlando, two; Casselberry, two and Oviedo, one.

A former Sanford Naval Air Station officer has been killed on a flight in which a speed twice the speed of sound was being sought.

Lt. (jg) Raymond Hight, who was stationed here a year and a half ago, died in the crash in New Mexico. He was the radar intercept operator on a new supersonic bomber being tested for speeds up to 4,000 mph, news reports of the accident said. Hight had escaped two other air accidents in his flight career.

Dr. C. L. Brothers will speak to the Kiwanis Club Wednesday on the work of the local county health office unit. The noon luncheon meeting will be at the Civic Center, R. C. Whitmore is the program chairman.

The Jaycees will hold a business meeting at their luncheon meeting at the Civic Center Thursday. Retiring president John Alexander will give his president's report on the year's activities.

The Civitan Club will hold its weekly supper meeting at the Sea Shell Restaurant Thursday at 7 p.m. followed by a business meeting.

UN, Korean Junta Fail To Agree On Troop Use

SEOUL (UPI) — The new ruling military junta and the United Nations Command failed today to reach agreement on the return of all South Korean armed forces to the control of UN Commander Gen. Carter B. Magruder.

of changing the relationship of their forces to the UN Command.

"Gen. Magruder desires all front line troops to be returned to the front line areas," Pak said. "Mine are the same. But we must consider the security of the capital."

Board Cancels Road Discussion

The county commissioners voted today not to make a previously planned trip to Tallahassee to talk to the State Road Dept. after Chairman J. C. Hutchison said that he had been in contact with Max Brewer, 5th District Road Board member, and Brewer had assured him that the road department knows of the problem of SR 436 and that at a conference in Tallahassee Wednesday the file will be reviewed on the basis of need, traffic and available money, in an attempt to gain early approval for improving the road.

Chandler Critical

CULVER CITY, Calif. (UPI) — Doctors at Culver City Hospital said today actor Jeff Chandler is still on the critical list, although he has shown improvement. He underwent a 14-hour emergency abdominal operation last Thursday and has been listed as critical ever since.

State Drags Out Sewer Rule Again

A technical big stick that has been waved over the heads of Sanford city commissioners intermittently for several years was poked out again Monday night in connection with a housing developer's plans for expansion.

This came out when representatives of Fairlane Estates appeared to ask the city's advice on procedure for securing a permit of the State Board of Health to approve extension of water and sewer lines until the city does something about building a sewage treatment plant.

The state board made in several other instances. A compromise was reached at one stage by a previous commission in which the city agreed to set up procedures and funds to attempt to get enough money for a treatment plant.

"The city has complied with this commitment to the exact letter, but the fiscal agent advised that securing the funds for such a project would be difficult, if possible at all," Hutchison said.

He also explained that the application for the federal aid in getting construction funds for a plant remains buried in a priority list in the state board files.

A meeting has been requested June 1 on the matter and Syd Berkowitz, assistant director of the water and sewage division of the board of health, will be present.

Protest Group Spurns Meeting

By MONA GRINSTEAD

Art Ferrin, spokesman for a group of North Orlando residents who have organized in protest of the 48-acre annexation action taken at a May 2 meeting of the Village Council, last night announced that he would not be present at a meeting called by Mayor Frank Fasula for Thursday.

"Neither I nor any of my group will be there. I don't feel that we should go because of the crusade we are on," Ferrin said.

Volusia Split Opposed; Teachers Pay Bogs Bill

TALLAHASSEE (UPI) — The House started debate on its \$763 million appropriations package today and immediately bogged down in argument over a merit pay plan for teachers.

Rep. Robert Mann of Hillsborough attempted to amend the merit plan to chop out a requirement that teachers must make a score of 500 on the national teachers examination before they could be certified.

Alteration Finally Due On President's School Fund Bill

WASHINGTON (UPI) — Senate backers of President Kennedy's \$2.5 billion aid-to-education bill have beaten back six attempts to change the measure. But today were ready to accept an alteration.

The newest amendment proposal would authorize a variety of spending for ranging from operating and maintenance, textbooks and library books to salaries for non-teaching school employees.

Dr. Louis Orr Dies At Orlando Home

ORLANDO (UPI) — Dr. Louis M. Orr, immediate past president of the American Medical Association, died in his sleep at his home here Monday night. He was 61.

The cause of death was not immediately determined.

Orr, a noted urologist and surgeon, was AMA president in 1958-60. He was a bitter foe of President Kennedy's plan for old age medical care financed under Social Security laws.

Class Still Open On Water Safety

Miss Sally Neider, instructor of the water safety class which started Monday night, announced today that there is still time to register this week.

Classes are conducted Monday, Wednesday and Friday of each week from 7 to 9 p.m., until the required hours are met.

All adults and children who have life saving certificates are eligible to enroll.

City Accepts Low Bid On Insurance

The city accepted the low bid of Gulf Life Insurance Co. as carrier of the employe health insurance program for the next year, effective Monday night.

The Gulf bid, one of six submitted, listed a total cost of the plan for city employes and dependents at \$17,280.48.

The insurance program includes eight retired employes of the city.

Joan Davis Dies

PALM SPRINGS, Calif. (UPI) — Joan Davis, rubber-faced comedienne who once earned \$1 million a year on radio and starred in the "Married Joan" television series, died today of a heart attack. She was 55.

Class Still Open On Water Safety

Miss Sally Neider, instructor of the water safety class which started Monday night, announced today that there is still time to register this week.

Classes are conducted Monday, Wednesday and Friday of each week from 7 to 9 p.m., until the required hours are met.

All adults and children who have life saving certificates are eligible to enroll.

Class Still Open On Water Safety

Sanford's State Flower Show Tops In Nation

NATIONAL SALVATION ARMY WEEK is proclaimed this week in Sanford by Mayor Joe Baker, center, as Ed Kirchhoff of the board of trustees, left, and Lt. Richard Clark, right, of the local Army headquarters, enlisted the Mayor's assistance in "beating the big bass drum."

Florida Exhibit Gets 10 Other Garden Prizes

The National First Place Golden Ribbon Award for the finest state flower show in the nation has been received by the Florida Federation of Garden Clubs, according to announcements from the national convention of state garden clubs meeting in Philadelphia.

Mrs. Fred Ganas, who directed and staged the Florida State Flower Show here Dec. 1, 1960, was notified by Mrs. C. R. Mayes, past state president, by a phone call from Philadelphia, that, besides the first place national award, Florida also won 10 other awards.

The exhibition in the Sanford Civic Center drew crowds of visitors from all over the state.

Mrs. Ganas was notified that out of a possible 100 points in the judging, the Florida Flower Show had taken 98 points. The high standards of the show upheld all the objects set up by the national council for judging.

The Florida Show also won a first place award for the Creative Horticultural Section. This was a plant distribution project in which new plants are being tested for cold-resistance and adaptability. These plants are imported from all over the world.

A Conservation Award was taken by the Florida Federation for the Youth Camp conducted during the summer at Lake Eaton in the Ocala National Forest under the cooperation of the Florida Federation of Garden Clubs and the Game and Fresh Water Fish Commission.

Mrs. Goodyear Sbard of Miami, who took one of the first place awards in the flower show, received a citation for her work with the blind. She has translated quite a number of garden books into Braille, for the use of blind gardeners.

The state publication, "The Florida Gardener," received the first place award in the publications division as the most outstanding gardening magazine.

Another garden therapy project receiving a citation was the Balford Greenhouse toward which all of the 80,000 members of the FSGC each contributed a small sum, to build a greenhouse at the state penitentiary. With funds from the sale of plants from the first greenhouse, plans are now underway to build two more greenhouses at the prison. Several prisoners, soon to be released, have received job offers from nurseries in recognition of their

Kansas Braces For Floods As Threat Spreads

By United Press International

Eastern Kansas today braced for an expected week of flooding and property damage along tributaries of the Kaw River, 1951 scene of the nation's costliest flood.

The threat extended along the Solomon, Saline and Little Blue rivers from southern Nebraska into Kansas, where the Kaw was expected to overflow upstream from Bonner Springs.

Observers saw no apparent danger along the Kaw from Bonner Springs to Kansas City, Kan. Flood damage along the Kaw 10 years ago totaled \$1 billion.

Severe tornadoes and thunderstorms swirled south and east of the swollen rivers Monday night from eastern New Mexico to the coast of Georgia, dumping nearly two inches of rain in six hours at Waco, Tex., and 1.21 inches at Beaufort, S. C.

At Memphis, the Mississippi River began a gradual drop today after more than a week of flooding. Levee workers abandoned their 24-hour alert at Dyersburg, Tenn., although rescue boats remained available to protect 40 families living near the levee.

Tornadoes late Monday raked Butler County, Kansas, and funnel clouds were reported at Corsicana and Mart, Tex., east of Waco. Hail up to two inches in diameter peppered Leaky, Mulshoe, Dallas and Burleson, Tex. The Weather Bureau predicted thunderstorms and showers today from the Rio Grande Valley east to the Carolinas and northern Florida, moving north to the Great Plains, Rockies and Northwest Pacific by evening.

It is estimated that there are 10 million victims of leprosy in the world.

Space Exploration To Cost Lives, Billions

EDITOR'S NOTE — The first space ventures by the United States and Russia may have looked safe and simple, but they were neither. History shows that exploration has brought death to the explorers. In space the hazards are greater, the exploration more costly. This dispatch discusses why America and Russia should pool resources in costly space projects.

By JOSEPH L. MYLER
WASHINGTON (UPI) — Man's exploration of space will cost many lives. It will cost many billions of dollars.

A presidential advisory committee said last year it might cost as much as \$40 billion to send an expedition to the moon.

Alan Shepard and Yuri Gagarin made space ventures look safe and simple. They are neither. The Space Science Board of the National Academy of Sciences said recently:

"The history of geographic exploration on earth tells over and

over again of the deaths of bold explorers. To ignore this in the far more difficult and hazardous area of man in space is foolish.

"Men will perish in space as they have on the high seas, in Antarctica, in the heart of Africa, and whenever they have ventured into unknown regions."

James E. Webb, director of the National Aeronautics and Space Administration, also has warned that sooner or later something is bound to go wrong, and an astronaut may die.

But there appears to be no doubt that from now on eager young men will vie to risk their lives and ambitious governments will invest much treasure in the conquest of space.

After Gagarin's orbital flight around the earth April 12, Dr. John P. Hagen of NASA said: "It opens the door for the very tremendous things yet to come — travel by man to the moon, and the planets.

After Shepard's suborbital hop May 5, NASA's Dr. Wernher von

Braun said: "There are greater things to come."

Considering both the costs and the hazards, President Eisenhower and President Kennedy and both American and Soviet scientists have called for international cooperation in manned exploration of space.

The head of the astronautics section of the Soviet Central Air Club has said: "The difficulties connected with the mastery of outer space will be overcome much better and sooner if several countries, and especially the USSR and United States, pool their material and intellectual resources."

Soviet scientist Leonid I. Sedov has been quoted as saying: "There are so many experiments which are so difficult and so expensive they demand cooperation between several countries."

The U. S. Space Science Board says: "An international effort would . . . eliminate the essentially absurd question of international planetary claims. It would eliminate a race whose scale is so gigantic as to raise questions of justification on the part of individual nations."

Moreover, the space board said, "it would have a unifying effect among nations as they worked together in a great effort."

National P-TA Urged To Set Four Point Program As Main Goals

KANSAS CITY, Mo. (UPI) — Lawrence G. Derthick, former U. S. commissioner of education, today proposed a four-point program for action at the 45th annual convention of the National Congress of Parents and Teachers.

Seminole Calendar

- TUESDAY**
- Blue Birds, Mrs. Richard Conrad, 7:19 Baywood, 3:15 p. m.
 - Longwood Boy Scouts, Episcopal Parish House, 7:30 p. m.
 - Longwood Fire Dept. Fire Hall 9 p. m.
 - Lake Mary Fire Dept. drill, Fire Hall, 8 p. m.
 - Longwood Elementary P-T.O. school, 8 p. m.
- WEDNESDAY**
- Camp Fire Girls, Mrs. Donald Brumfield, 906 Cherokee, 3:15 p. m.
 - North Orlando Cub Scouts, Dens 3 and 4, leaders homes, 4 p. m.
 - North Orlando Girl Scout Busy Bees Patrol, Mrs. Mona Grinstead, 61 N. Third, 4:30 p. m.
 - Boy Scout Troop 244, 110 W. Commercial Ave., Sanford, 7 p. m.
 - North Orlando Fire Dept., Fire Hall, 7 p. m.

Derthick, who is now assistant executive secretary for educational services for the National Education Association, suggested that PTA work toward:

"Putting brain power ahead of fin-tailed automobiles, recreation, alcohol and tobacco, for in all of these categories we have been spending considerably more than we have been spending for our boys and girls.

"Giving your members a clear image of what a good school looks like—clarifying your own image of a good school."

Working with school administrators and teachers in joint programs.

Providing the "great new dimensions of federal support" that are required to reach goals in education.

Mrs. Clifford N. Jenkins, a grandmother from Roslyn, N. Y., was nominated Monday as president of the organization and will be elected without opposition today.

First Graders Hear Trip Report

Mrs. Hazel Dzurus, sixth grade teacher at Longwood Elementary school, recently invited the first grade class of Mrs. Wheelless to hear an account of her vacation trip to Europe.

Gamma Omega Chapter Honors Mothers

The Gamma Omega Chapter of Epilion Sigma Alpha held a Mother's Day Tea at the home of Mrs. James Livingston in Loch Arbor, honoring the mothers of the chapter members. A corsage of red and white variegated carnations was given to each mother and Mrs. Livingston.

The home was beautifully decorated with a variety of annual flowers in numerous arrangements and refreshments were served throughout the afternoon from a lovely table of punch, coffee, petit fours and canapés.

To add a note of the latest in spring wear, a fashion show was conducted on the patio overlooking the lake, with the beautiful fashions being modeled by Mrs. Carol DeBrine, Mrs. Hope Schirard, Mrs. Lois Metts and Miss Patty Walker. The fashions were selected from the lovely array of evening wear, sports wear, and other occasion clothes found at the shop of Mary-Eather's. Esther Ridge was in charge of modeling of the smart fashions which was enjoyed by everyone.

The honored guests were Mrs. W. K. McRoberts, Mrs. John Schirard, Mrs. L. E. Walker, Mrs. Harry Seller, Mrs. J. H. Loebell, Mrs. Willard Jones, Mrs. Al Collins, Mrs. C. J. Wilkinson.

MODELING AT THE MOTHER'S DAY TEA are from left, Mrs. Jack Schirard, Mrs. James DeBrine, Mrs. John Dickey, Mrs. Willard Jones, Mrs. T. V. Metts and Miss Patty Walker. (Herald Photo)

Circle Ten Holds Meeting At Butner Home

Members of Circle 10 of the W.S.C.S. of the First Methodist Church held the final meeting of the year with the present officers, at the home of Mrs. Mildred Butner.

Co-hostesses were Mrs. A. O. Roberts and Mrs. C. W. Brantley. Hamburgers were served, followed by a short business meeting and a social hour enjoyed.

Those attending were Mrs. W. H. Bostrom, Hugh Carlton, Wilma Colbert, Richard Graham, R. T. Hatchett, E. W. Marcel, R. E. Mitchell, J. H. Pigott, Martha Rowland.

W. S. Higginbotham, Blake Sawyer, Betty Getzinger, Mary Farrell, Norm Thom, W. A. Yeomans, Bill Glenn, E. H. McAlexander and two visitors, Mrs. John T. Adams and Mrs. Louise Harris.

Loch Arbor Splash Party Honors Miss Gwynne Williams

ENJOYING THE SPLASH PARTY for Seminole High School graduate, Gwynne Williams, at the McRoberts home are left to right, Mrs. John Dickey, co-hostess; Miss Williams, the honoree; her mother, Mrs. John Williams and Mrs. W. K. McRoberts. (Herald Photo)

Mrs. W. Kenneth McRoberts and Mrs. John Dickey were co-hostesses for a splash party at the McRoberts home in Loch Arbor honoring Miss Gwynne Williams.

The honoree and a group of friends and classmates enjoyed swimming in the McRoberts' private pool. Refreshments were served on the screened patio, connecting with the pool.

Tables were covered with black and white cloths and a black and white terrier, surrounded by white gardenias, stood in the center of each table holding a 1961 banner.

The girls roasted tiny sausages on a Japanese habachi and enjoyed various dips from black bowls and cold drinks.

Gwynne received a beach towel and bag from the hostesses and the other guests each received a ball point pen, topped with a spring flower.

Others enjoying the afternoon "splash" were the honoree's mother, Mrs. John Williams, Evie Doasey, Gennie Gorman, Deanna Nichols, Penny Anderson, Phyllis McDaniel, Vicki Ferguson, Eileen Myers, Susan Tallman, Betsy Williams, Helen Pittard, Sandra Kader, Barbara Bradley, Madeline Derkiss, Susan Haush, Sunny Skinner, Dede Dietrichs, Rita Brasley, Barbara Moses, Niki Ashby, Pat Smith, Judy Ludwig, Sandy Wood, Mary Anne Watson, Carol Trepanier and Debbie Bruce.

Garden Circles

MINOSA CIRCLE

The final meeting of the club year for the Minosa Circle was held at the home of Mrs. H. R. Rice, in DeBarry, with Mrs. H. Lederhaus as co-hostess.

Mrs. Jo Peck, chairman, announced that the members will have a "penny-jar" to help send a child to camp. Mrs. Don Smith will attend the short course in Gainesville this summer.

Plans were discussed for a garden therapy project. Mrs. J. W. Schwarz was presented with a bon voyage gift. She and her husband plan to leave this week with the Federated Garden Club members on a European tour.

Mrs. Peck was also presented with a gift for her leadership during the past year and Mrs. Mary Swankhouse gave each member present a planter.

A plant sale was held at the conclusion of the business meeting, followed by a delicious luncheon. Mrs. James Askew was welcomed as a guest.

Others present were Mrs. W. E. Moye, Alice Robble, G. Behrens, Walter Price, H. Behrens, W. S. Willis, Kay Henninger, Alice Coris, Roy Partin, C. L. Wallis and Don Smith.

Brownies Help Ella Boutwell Celebrate Birthday

Members of Brownie Troop 106 gathered at the home of their leader, Mrs. Olan Boutwell, in Little Venice, and helped her daughter, Ella Boutwell, who is also a member of the troop, celebrate her ninth birthday.

Mr. and Mrs. L. B. Beach invited the girls over for a swim party, at their pool. While they were there, Mrs. Alvin Kilpatrick, co-leader of the troop and water safety instructor in Seminole County, gave the girls diving and swimming tips.

Following the swimming party the group enjoyed a lunch of finger sandwiches, potato chips, carrot sticks, baked beans and cold drinks, served on the lawn.

A large birthday cake decorated with scout emblems was served with punch by Mrs. Milton Sorokowsky, while troop members sang "Happy Birthday" to Ella. Miss Dianne Beach also joined the brownies for the celebration.

Seymour - Evans Wedding Announced

Mrs. Helen McComb of Denver, Colo., has announced the marriage of her daughter, Patricia Jeanna Seymour, to Daniel Miller Evans III, son of Mr. and Mrs. Benjamin R. Evans of Casselberry.

The wedding took place at the First Universalist Church in Denver on May 13.

The bride is reservationist for United Air Lines and is a graduate of the University of Denver.

The groom, an engineer with the U. S. Dept. of Reclamation in Denver, graduated as a mechanical engineer in 1958 from the University of Colorado.

Mr. and Mrs. Evans soon will be leaving Casselberry for a visit with the newlyweds. While in the west, they also will visit their daughter and son-in-law, Mr. and Mrs. Paul Hult in Tucson, Ariz., where Mr. Hult is station manager for Frontier Air Lines.

Seventh Birthday Celebrated With Swim Party

Four youngsters helped Jennifer Anne Burke celebrate her seventh birthday, at her home in North Orlando. Her mother, Mrs. Roy Burke, chaperoned a day of swimming and luncheon at Sandalando Springs.

After the recreation at the springs the group returned to the Burke home for birthday cake and drinks. The cake was elaborately decorated with white icing and red roses.

During refreshment time the gifts were opened and Jennifer's friends sang "Happy Birthday."

Those enjoying the day were Patty Shook, Anita Stodden, Debra Ward and the honoree's brother, Jeffery. Baby sister, Robin, was also there to look the situation over during the celebration.

Thirteen Families Welcomed To The Sanford Area

Families welcomed to the Sanford area by Welcome Wagon hostesses include Mr. and Mrs. C. R. Sims, Ray, Donna Gail, Eldon, Kathy and Janelle, from Gainesville; Mr. and Mrs. Richard Baird and Jane Ann and Rhonda, from Binghampton, N. Y.

Mr. and Mrs. David Lapham, Bruce, Brian and Jennifer, from Columbus, Ohio; Mr. and Mrs. Richard Webster and children, Donna and Dudley, from Binghampton, N. Y.

Mr. and Mrs. Robert Izzard, Burt and Brenda, Mr. and Mrs. W. A. McDade and Mr. and Mrs. Bradley Thayer, Richard, Michael, Douglas and Diane, all from Columbus, Ohio.

Families transferred here by the Navy are Mr. and Mrs. Dale Owens and two children from Pensacola; Mr. and Mrs. John Heath from Norfolk, Va.; Lt. and Mrs. Edward Mater, Robin, Danny and Jamie, from Newport, R. I.

Mr. and Mrs. Kenneth Keigler, Kathy and Tracy, from St. Louis, Mo.; Mr. and Mrs. Larry Kee and Kimberlee Ann from Newfoundland and Lt. and Mrs. Michael Durant, Michael and John from Pensacola.

New Arrivals

Mr. and Mrs. John A. Sarth Jr. of Riverview Ave., announces the birth of a 7 lb. 15 oz. daughter, May 12 at Seminole Memorial Hospital.

This is the couple's first child and they have chosen the name, Kimberly Sue, for the new arrival.

Mrs. Sarth is the daughter of Mr. and Mrs. Fred W. Pope, Sanford and paternal grandparents are Mr. and Mrs. John A. Sarth Sr. of Piquette, Miss.

Garden Club Holds Annual Crazy Hat Luncheon Meeting

Mrs. Russell Dallas won the prize for the cleverest hat, at the Sanford Garden Circles joint luncheon at the Capri Thursday with her spring hat made of a long curving sansiviera leaf, embellished with a cluster of hen and biddy succulents.

Mrs. J. M. Fahey took first place for the craziest hat, with a fabulous creation constructed from palmetto leaves and wild flowers.

Judges for the show were Mrs. A. C. McReynolds, Mrs. R. L. Andrews and Mrs. Irving Pryor, who had a hard time selecting the winners from the dozens of creations by the ingenious ladies of the garden circles, made out of every type of material imaginable.

Guests of the Sanford Garden Club were Mrs. Arthur Coe of Jacksonville and Mrs. A. C. Frank of DeLand, president of the DeLand Club.

Mrs. Eric Vihlen presided at the business meeting and Mrs. John Callahan gave the invocation.

A roll call was taken of the charter members of the Sanford Garden Club and it was found that only two remain. They are Mrs. Charles Cole of Geneva and Mrs. A. W. Epps, Sr. of Sanford.

SANFORD - ORLANDO

Attractive Cities Get Business, Industry

One of the best ways to attract a community which has a reputation of being progressive, clean and healthy. When corporations consider expanding into new localities, a specially trained staff is sent to examine various possible locations, he went on. A new industry is attracted to clean, attractive city or town.

rates high because it is apparent that its citizens are interested in better living.

"Needless to say," Powell said, we want new business and industry in Sanford. The Clean Up-Paint Up-Fix Up campaign is one way of attaining this goal.

"As our community improves its appearance, reduces health hazards, cuts fire losses and shows the world a cleaner face, it will be apparent to everyone that our citizens are progressive and civic minded," he said.

"There will be an increase in economic activity and tourists will be attracted by our beauty and cleanliness. They'll stop here for lunch while driving through or even remain for a day or two. And this means that they'll spend money in our community.

"It's good business for everyone of us and an investment in the future to participate in the Clean Up-Paint Up-Fix Up campaign and make it a success."

Garden Clubs Add Support To Drive For Improvement

Mrs. Eric Vihlen, president of the Sanford Assn. of Garden Clubs today added her organization's support of the community's 1961 Clean Up-Paint Up-Fix Up campaign.

Garden Club members will be available to lecture on planting and flower arrangements at meetings. In addition, according to Mrs. Vihlen, the members will advise anyone on how to organize a plant swap to diversify area gardens.

Mrs. Vihlen urged all residents to include the plumbago, parkinsonia tree and mountain ebony or orchid tree in their spring planting plans.

The new callistom or bottle brush is another flowering shrub which is hardy, grows fast with little care, is bug-resistant and blooms several times a year.

Special instructions on how to successfully grow these items are available from the garden club bookshelf in the city library on Fifth St.

"Plant Up and beautify your home at Clean Up-Paint Up-Fix Up time," Mrs. Vihlen concluded.

Before you select a tree, it is important to choose one that will go well with your property. Your type construction ranch, two-story or more, will determine the right tree. An oak would dwarf a small rambler, for example, while a naturally stunted tree would look foolish in front of a tall building.

MODEST HOMES LOOK LARGER, lovelier with well-executed landscaping. Shrubs, hedges and flowers can hide unsightly features, break up harsh lines and add beauty. Look around the yard for easy ways to improve your property.

Home Made Safer By Clean-Up Drive

Homes, where more than 40 per cent of all accidents occur, can be made safer by participating in the current Clean Up — Paint Up—Fix Up campaign.

Remove everything from stairways, particularly cellar stairs. Light stairways well and paint the steps a light color.

Other safety pointers include tacking down scatter rugs, checking wiring to prevent fires, cleaning out medicine chests, replacing rotted boards on outdoor steps and porches, checking on outdoor railings to be sure they are not rotted or rusted.

DeBary Women Sponsor Films

Auxiliary members of the DeBary American Legion Herbert D. Gibb Post 239 sponsored the showing of two films on Communist activities in the U. S. at their meeting last Wednesday.

The films, entitled "Operation Abolition" and "The Story of Communism in Action," were shown by Dr. Lewis Earle of the Sanford Naval Air Station who also led a following question and answer period.

Clean-Up Campaign Can Be Big Aid Prevention Of Fires In Homes

Fire prevention is one of the most important aspects of the Clean Up-Paint Up-Fix Up campaign now going on in Sanford, according to Fire Chief Mack Cleveland Sr. By removing fire hazards now, you will protect your loved ones and your most important possession, your home, he stressed.

Chief Cleveland offers this check list for fire safety:

Furnace and heating systems should be checked carefully.

Electric wiring should be tested to see whether it can carry the heavy loads of today's living. Fuses that blow out frequently, flickering lights, and appliances that run at less than top efficiency are signs of inadequate wiring.

Extra Insurance Comes From Effort

You guard your safety and eventually reduce your fire insurance rates when you actively and completely support the Clean-Up-Paint Up-Fix Up program. Insurance rates are dependent on the number of times a certain event occurs. The more fires, the more money paid out and the greater risk undertaken when fire insurance is granted; contrastingly, the fewer fires, the lower the rates.

To protect your family and reduce your insurance costs, here are a few suggestions.

During the coming campaign, clean-up these fire hazards: loose paper, rubbish in the attic and basement; ashes dumped in basement, yard, or vacant lot; leaves and needles on roof, or around foundation; gasoline stored in the garage or house, dirty rags any place around the premises, oily dust rags or mops lying loose in closet or hallway; dusty light fixtures and frayed electrical cords, cracked or dirty chimneys or furnaces.

Firemen have a saying, A Clean House Seldom Burns, and insurance men heartily agree.

Protection and decoration. Those are the two reasons to paint your home. Protection against the elements—rain, sleet, snow and sunlight—and fresh eye-appealing color are most easily and economically provided by today's long-lasting quality paint. And whether you do it yourself or engage a painter to do all or part of the job, the great advances in paint technology in the past few years give you longer-lasting, more easily applied protective and decorative coating and a myriad of enduring colors from which to choose.

Old clothing, rags, furniture and newspapers should be removed from closets, attics, basements and garages.

Oily rags, and paint stained cloths should be disposed of or be stored only in airtight metal containers. Oily mops should be hung up to permit air to circulate about them.

Leaves and grass cuttings should be kept away from foundations.

Shingles should be checked to see whether they have dried out. Cords for lamps and other appliances should be checked to be sure the insulation is intact.

Regular fire drills should be held so that everyone knows what to do if a fire breaks out and how to use an alternate means of escape.

"The one sure way to successfully fight a fire is before it starts, so take advantage of the current campaign and Clean Up now," Chief Cleveland advised.

Fire Chief Cleveland added that residents should make it a point to keep leaves and pine straw swept off their roofs. When it accumulates in heaps it damages roofs by rotting the shingles and is also a fire hazard if sparks light in the leaves or straw.

That Litter You Throw Is Costly

The litter thrown in the street by pedestrians and motorists is more than paper and trash—it's taxpayer's money.

"No citizen would knowingly throw money into the streets and highways of our community, yet that's exactly what the litterbugs are doing," Police Chief Roy Williams said. "Debris that is tossed heedlessly away means additional sanitation employees and equipment must be utilized and these extra clean-up jobs are paid out of tax funds."

"In addition, this trash often collects in gutters and sewers, clogging and flooding them during heavy rain storms. The damage resulting from this overflow often means further expenses for the city government and can cost the property owner money, too," he explained.

"It's just good sense to prevent these needless expenditures. Pedestrians should spot trash receptacles and utilize them; motorists should always carry a litterbag in their autos. During Clean Up-Paint Up-Fix Up time, make a resolution that you won't be a litterbug."

Antique Finish Is One Way You Can Make Change

Antiquing is the process of putting a transparent colored glaze over enameled or varnished furniture to give it an antique look that seems to be the result of natural wear and age. It is often also called glazing.

Glazing adds a note of elegance to otherwise undistinguished pieces and permits them to blend well with more important furniture. The glaze coat plays up and highlights beautiful carvings and molding and at the same time helps to tone down over-decorated surfaces.

The oil color you select will determine the final color of the glaze. Raw umber is most often used and will produce the following colors: Over yellow; a brownish color; over red, a brick red; over white, an old ivory look; over blue, a blue-green coloring. Burnt umber produces a darker effect than raw umber. Lamp-black is used on dark paint to achieve a very old look. Raw sienna and yellow ochre produce a golden tone. If a frost antique finish is desired, use a quality white enamel undercoat in place of umber.

Antique glaze is made by combining in a can or cup the following: 3 tablespoons of turpentine and 1/4 teaspoon of raw umber oil color; mix thoroughly. Add 1 tablespoon of quality varnish and mix again. Apply the glaze with a brush or spray over the entire area or section by section, depending on the size of the piece being antiqued. After the glaze has been applied to the entire surface, wipe off with a clean, lint-free cloth. Flat surfaces should be wiped with a circular motion, starting at the center and working out toward the edges. Using a small dry brush, stipple the glaze to soften the edges and bring the color back toward the center again.

A clear coat of quality varnish over an antique finish will protect the old look. If extra protection is needed on pieces such as tables, apply several coats of varnish, sanding lightly in between with fine sandpaper.

One of the greatest advantages in antiquing painted surfaces is that if you don't succeed in achieving the effect you desire with the first coat, you can try again. Wash off the entire glaze with turpentine before it has dried and then apply another coat, changing the formula slightly.

1,591 Attend Final Witness Meeting

Jehovah's Witnesses overflowed Sanford's Civic Center during their semi-annual Florida Circuit No. 5 assembly here this past weekend.

A total of 1,591 attended the lecture, "The Twentieth Century in Bible Prophecy," by James Hinderer, the district supervisor. Saturday the witnesses added 34 new ministers to the local circuit.

In an analysis of their activity Hinderer commended the group for a 6 percent increase in ministers during the last six months.

Concert To Aid Altamonte Library To Be Held Today

The benefit performance of the Winter Park Concert Orchestra for the Altamonte Springs Library Assn. will be held at the Altamonte Springs Elementary School today at 8 p. m. with Arthur Bell conducting.

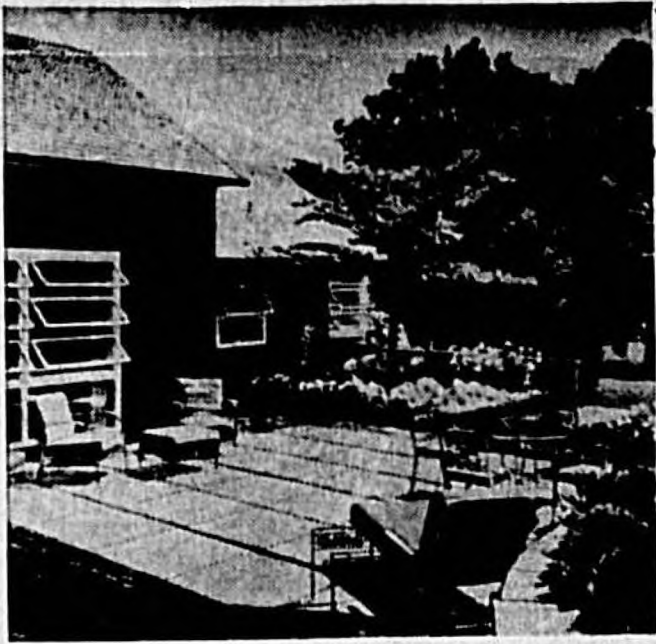

Mrs. Grant Fuller, chairman in charge of concert arrangements, has announced that tickets will be available at the door for a small donation.

The event is being sponsored by the ways and means committee of the association for which Mrs. Glen Humes is chairman. All proceeds will be applied toward the needed \$7,500 to purchase the building and property of the present library location.

Enterprise Class Nearly Filled

Prof. L. O. Hayman, principal of Enterprise Elementary School, has announced that 28 children already have been accepted for the 30-student capacity kindergarten for next term.

Parents of children who will be five years of age before next January and who wish to enroll a child in the class should make immediate arrangements, Hayman advised.

OPENING THE HOUSE with new windows and installation of a comfortable patio is one way to fix up during the summer months. Well kept exteriors and improved homes add much to the neighborhood values.

HOME IMPROVEMENTS are made easier by materials such as the panelling and acoustical ceiling tile shown here. They add good looks to the room and help project the high fidelity set sound throughout.

New Products Help To Postpone Costly Work On House Roofing

Costly re-roofing jobs can be postponed five to eight years or more by using the new aluminum roof coatings and paints recently introduced by the paint industry. These coatings can be made with and without asbestos.

Available in a choice of pastel colors, these paints are of three general types: asphalt combined with aluminum flakes, alkyl-based aluminum paints and synthetic rubber-based aluminum paints. The alkyls usually contain asbestos fibers for greater strength, body and insulation. The asphalt coatings are made with and without asbestos.

In addition to water proofing and sealing the roof, these paints can also reduce under-roof temperatures by ten to fifteen degrees because they reflect a large proportion of the sun heat. During the winter, this same reflective aluminum shield will also turn heat from inside back down, thus reducing heat loss through the roof. This means lower air conditioning and heating bills.

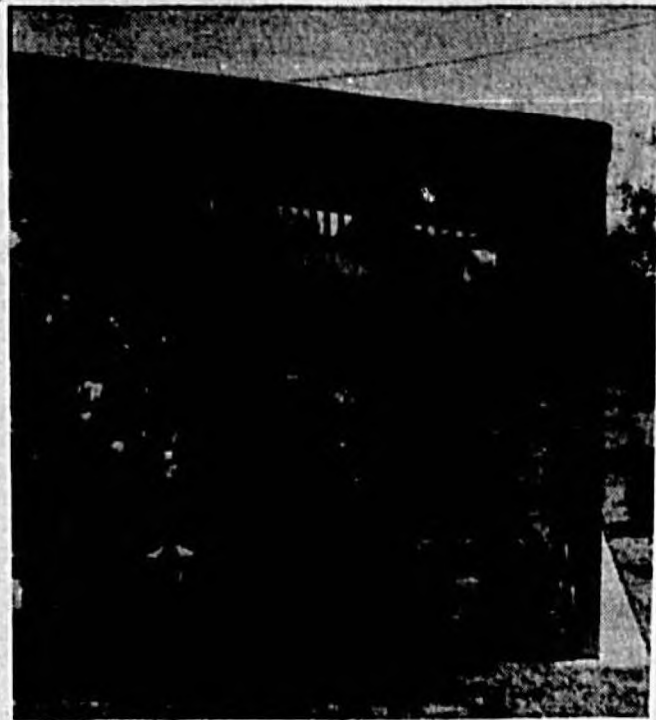

As noted previously, these coatings cannot be used on wood roofs, but they can be applied to built-up composition or felt roofing, to metal roofing to asbestos-cement shingles, tile, slate or asphalt shingles.

Before the coatings are applied, the roof should be absolutely clean and any loose material, including blistered paint or rust, should be removed. Loose or blistered areas should be nailed down. Small breaks in the surface are sealed with roof cement. Badly damaged areas and large cracks and holes should be patched with roofing felt, securely attached with roofing cement.

It is generally not necessary to repair small cracks, nail holes or other tiny leaks because both types of coatings will form a water-proof, weatherproof film which will stay flexible for years without drying out.

Since the covering rates of aluminum paints and coatings vary with the type of surface being treated and the type of paint, fibered or not fibered, be sure to read label instructions carefully.

Litter has been variously described as a blot on the beautiful face of America, a drain on the taxpayer, a threat to health and highway safety, and a national disgrace. These are costly by-products of carelessness. And there is still another, according to Keep America Beautiful, Inc. Litter is also a fire hazard.

RENOVATIONS are needed once in awhile to keep property comfortable and to spruce up residential areas which attract new residents. A new screen porch or refinishing an old one can help.

Sanford Can Be Made Healthier City Through Hazard Removal

Sanford can be made a healthier place in which to live if everyone pitches in and makes the Clean Up-Paint Up-Fix Up campaign a success, Health Director Clyde Brothers said.

"Health hazards can be removed easily as part of the regular Clean Up effort," Dr. Brothers said. For example, make sure that

You'll probably be using a ladder during the current Clean Up-Paint Up-Fix Up campaign, and here are some tips on how to avoid falls. If it's a step ladder you're using, be sure that it is fully opened and locked before you mount it. The bottoms of all ladders should be on a solid, even footing, to prevent the ladder from toppling. Finally, never stand on the very top step; you can lose your balance. If the ladder isn't tall enough, buy or borrow a longer one. Rung-type ladders should be placed so that the distance from the bottom of the ladder to the house is approximately one-quarter of the length of the ladder. If the angle is greater, the ladder may break; if it's too close to the house, it may tip over. Again, be sure that the legs are solidly placed on an even footing.

garbage and trash cans are covered so that flies cannot feast and breed and dogs can't knock the cans over as they hunt for food.

"Don't let trash and rubbish accumulate, because such piles provide a fine breeding place for rats and mice which spread disease," he went on.

"Examine all screens and repair any holes and tears so as to keep insects out," Dr. Brothers continued. Be sure that there are no stagnant ponds or pools, or swampy areas in which mosquitoes can breed. Cut down weeds for the same reason.

"By following these suggestions and giving your home a thorough cleaning, you will be taking a major step toward insuring your own health and that of your neighbors."

Restore Storage Rooms To Order, Cleanliness During Campaign

Do you have trouble finding enough room in the garage for your car because it is filled with an accumulation of discarded furniture, outgrown toys, odd pieces of lumber, old newspapers and magazines?

Now, during the Clean Up-Paint Up-Fix Up season, is the time to restore the garage to its original purpose by organizing its contents, cleaning it, painting the inside, if necessary, and planting the outside.

Start by taking everything outside so that you can give the garage a thorough cleaning. Sweep the floor, hose it down, and scrub if necessary. You may want to paint the inside with a light, bright color which will make the interior more visible at night because light colors reflect more light. At the same time, replace any broken window glass, securing the panes with putty or glazing compound.

Before returning the contents to the garage, see what doesn't be-

long there. Useless articles should be put out with the trash. Old newspapers and magazines can be given to your favorite charity, along with furniture and old clothing from other parts of the house. Get rid of oily, greasy and painty rags. Be sure that any gasoline is in an airtight container. Old toys should be given to orphanages or local groups which restore them at Christmas time.

Organize the interior for better storage. Large sheets of perforated hardboard can be attached to the walls to hold almost any article from ladders down to screwdrivers. Utilize the ceiling beams for storage, too, placing nails and hooks in strategic places.

Now turning to the exterior of the garage, cut back bushes and hedges that obscure vision. Flower boxes or climbing plants such as roses or morning glories or a sapling strategically placed, will help change the appearance of the garage from an eyesore to an attractive adjunct to your home.

Urban Renewal Misunderstood

Editor:

Much false and misleading information has been talked and published with regard to the Urban Renewal bill that the Downtown Improvement Committee of the Chamber of Commerce has sponsored. Some clarification of some of the actual provisions of the bill should be presented to the people. The following information is not opinion, or hearsay, or third hand information but is a presentation of the actual provisions of the bill.

The bill is permissive only, and does not require the City of Sanford to enter into any urban renewal project whatsoever. On the other hand, the City will have the necessary authority to enter into a renewal project should such a project ever become desirable. If the present bill is passed, it is unlikely that a plan could be prepared in less than two or three years. Therefore, the passage of an Urban Renewal bill NOW will give the city a tool with which to make plans for the future.

The bill proposed for Sanford is almost identical to similar bills passed in this session of the legislature for the cities of Orlando, Plant City, Fort Lauderdale, St. Augustine, and Daytona Beach. These bills are patterned after the Tampa bill which has been tested and held constitutional by the Florida Supreme Court. The Sanford bill has one major addition to the Tampa act in that, the Sanford bill provides for a referendum of the voters of the City of Sanford before the city can acquire lands for a project, before any such plan for a project is finally effective, and, before any urban renewal project can be commenced.

The basic steps required before a project can be started are as follows:

1. The city commission must find and incorporate such finding in a resolution that (a) one or more slum or blighted areas exist in the city, and (b) the rehabilitation, conservation, redevelopment, or a combination thereof, of such area or areas is necessary in the interest of the public health, safety, morals, or welfare of the residents of the city.

2. A plan for urban renewal of a slum or blighted area is submitted by the city or other public or private body and referred to the city planning commission to determine whether the plan is compatible with the overall city plan, and if so, the planning commission makes its recommendations to the city commission approving the proposed plan or making changes to the plan.

3. If the city commission approves the plan, a public hearing is held at which any person

may attend and express his views. The hearing must be advertised and notice given of the time, date, place, and purpose of the meeting and describe the area included in the plan.

4. Following the public hearing, the city commission may approve the project if it finds (a) a feasible method exists for the relocation of displaced families in safe, sanitary, and decent housing within their means to afford, (b) the plan conforms to the general plan of the city, and, (c) the plan affords maximum opportunity for the work to be done by private enterprise in rehabilitating or redeveloping the area. Additional restrictions are provided for the acquisition of vacant lands for these projects.

5. Finally, before any plan shall become effective and before any project shall be commenced, the project for which the plan has been approved by the City Commission must be submitted to the voters of the City of Sanford for their approval. If approved, the project must be begun within two years, if not begun within two years the project cannot later be begun without again being approved by the voters.

The Sanford bill, as with the other bills passed in this session of the legislature, gives the City certain powers to carry the project to completion. Most of these powers the City of Sanford has at present, such as the power to enter in contracts with the parties, build streets and sewers, cooperate with other governmental agencies, obtain financial assistance, and like powers usually exercised by a municipality.

The basic additional power given to the City would be the right of eminent domain to acquire lands for urban renewal purposes. The City presently has this right and can acquire any lands necessary for public purposes such as building streets, recreational facilities, public buildings and other purposes. This bill would merely expand the definition of "public purpose" to include a project which would rid the city of a blighted or slum area thereby making the city a safer, cleaner place in which its residents might live, and cutting down on breeding areas for crime, filth, and disease.

Any lands acquired by the city would have to be paid for, and the owners would have to be paid a just and full value for their property. A jury of twelve men would be empaneled in a suit brought by the City of Sanford in the Circuit Court of Seminole County to determine a just and full value for all lands taken by the City. In addition, the court would determine if the City had the right to take any property,

and if shown that the City was abusing its right to take any lands, or intended to take the lands for other uses, the City of Sanford would be denied the power to take any lands. Therefore, the same safeguards as exist in our courts today would and could be used to protect the landowner from abusive use of the power of eminent domain (condemnation) by the City of Sanford.

All powers granted by the bill would be exercised solely by the City of Sanford, and not by any outside governmental agency, or by the county, state, or federal governments. If the voters of the City of Sanford did not want an urban renewal project, they cannot be forced to accept such a project. The operation of the project would be in the hands of the elected public officials of the City of Sanford.

Financing of an urban renewal project need not be by the federal government, but this plan is available to the City of Sanford should it elect to use federal aid. If feasible, the City could finance a project by use of its own funds, however, any bonds issued by the City to finance a project are required to be paid solely from the incomes, revenues, and other funds derived from the project itself, except that the federal government may guarantee the payment of principal and interest from funds appropriated by Congress for such purpose. The bonds need not be purchased by the federal government, but are made legal investments for purchase by banks or other lending institutions in this community. To say that this bill would cause the City to raise taxes to provide debt service for these bonds is not true.

Provision is also made in the bill to prevent public officials or any member of a governmental body from acquiring an interest in an urban renewal project, or otherwise having business dealings in such a project.

In closing, we would like to point out that this committee is rather puzzled as to why elected officials are so reluctant to sponsor and pass this bill. We feel that, by failing to unanimously endorse this legislation, they are denying their constituents the right to vote and make up their own minds. The bill provides for a referendum by the people. What's wrong with asking the people what they think?

We have stood by too long and let our neighboring communities outstrip us. Our ultra conservatism in the past has cost us dearly. Now it our chance to show some foresight.

We must have this bill passed if our city is to progress.

Very truly yours,
F. E. Roumillat Jr., Chairman.
Downtown Improvement Committee.

Ups and Downs

Dr. Crane's Worry Clinic

CASE H-482: Dick D., aged 16, is the sluggish student mentioned yesterday who wanted to quit school and get a job. Let's use the parallel comparison, showing Dick now and his son 20 years hence: Dick says he's tired of school, so he wants to quit. Assuming he does drop out and get a job at maybe \$1.75 per hour, then what? He will have to work till he is 65, so he will face 49 years of continuous work, regardless of whether he gets tired of it or not! Yet he has had only 10 years of high school and wants to quit. Suppose he does drop out. He works so he can buy a ja-

lopy. Then he starts dating a girl. They marry. Meanwhile Dick threw away his chance at a high school diploma worth (\$40,000 in higher income the rest of his life.) And he never went to the university, so he lost another \$25,000 for each year he might have continued. His smart pals went on through high school and some college. Dick marries early and is constantly in debt to pay for doctor bills or hospital insurance premiums, so he has several children. He soon gripes at the "economic royals," though he sold out his own chance to be one. The jalopy is the modern Esau "mess of pottage."

Then his son Dick, Jr., arrives, to listen to the constant quarreling and gripes about lack of money for a new car or a home in the better section of town. Dick, Junior, soon adds his grumbling to the family discord because his parents aren't members of any social clubs. They can't afford a new car. They live in a poorer section of the city. Meanwhile, Dick, Sr., watches his former high school pals drive past in ritzy new automobiles, as they head for their executive or medical and dental offices. "It ain't fair," he grumbles. So he wishes to divide up the wealth of those who stayed in school.

Peter Edson's

Political Notebook

WASHINGTON — (NEA) — If there's a speck of truth in it, the silliest story to come out of Washington in years is the (Newsweek) magazine report that President Kennedy will send a special message to Congress after his return from Canada, asking for an increase in the draft and price and wage controls. This has been officially denied by Speaker Sam Rayburn and Senate Majority Leader Mike Mansfield. White House Press Secretary Pierre Salinger says the President may make a rather speech or send up another message before he goes to Europe, but it will be on other subjects if he does. But there is always a smattering of fact behind even the wildest of such stories. Reporters don't dream them up. Somebody tells them things. In this case, it is known that an increase in the draft has been considered as one means of alerting the country to a realization that the United States national security is now in danger. This smacks of propagandizing the American people. Selective Service headquarters in Washington had issued no draft call at all up to May 15. In April only 1,500 men were called up. In March it was 3,500; January and February, 6,000. So there is no manpower shortage in the armed services. Volunteers and re-enlistments are maintaining authorized strength. The United States stepped up training of anti-guerrilla forces over a year ago. With this nucleus to use as instructors, the training program has now been tripled. But it is still not a big force, and it might not be too smart to advertise a further increase now by stepping up the draft. It is an old rule that, any time the American government starts telling the people untruths, just make them aware of some unneeded sacrifices they should make, it is in dire trouble. This applies particularly to the report that price and wage controls might be imposed. There is no threat of inflation in the United States today. The cost-of-living index has climbed only 2 per cent in the last year. There is no shortage of goods and services. There are surpluses of everything from food to automobiles. The average hourly wage rate in manufacturing — \$2.22 in 1959 — advanced to \$2.39 in 1960 and to \$2.52 in the first quarter of 1961. There is high unemployment, which tends to hold wages down. The Kennedy administration itself has just put through a new law to increase minimum wages. To put a wage freeze on top of that would be the height of inconsistency. The government does have a planning expert for economic stabilization in the Office of Civil Defense and Mobilization. He is Edward F. Phelps Jr., and he has been on the job since 1955. But he worked in the Office of Price Administration under the Democrats in World War II and the Korean War, and he has been retained by Kennedy's OGDMD director, Frank Ellis. Phelps says any idea of trying to freeze prices and wages now is news to him and he ought to know about it first, if it's cooking. Or if this an idea that has been dreamed up in the White House and not relayed across the street to the executive office building, why he'll be the first to leave. If a national mobilization were ordered because the country was under attack, that would be something else again. The long-drawn-up plans for imposing stabilization controls might then be invoked by the President to put the whole United States economy on a cold or hot war footing. But there is no such emergency at the moment and there is no psychological reason for trying to whip the country into one by imposing a lot of controls like price censorship. Even Kennedy's letter to Garden City, N. Y., publisher Alicia Patterson said that rationing, doubling the draft quota and increasing taxes would not help.

All real estate upon which the 1960 taxes have not been paid and against which certificate has not already been issued to City of Sanford, will be sold at public auction on the 31st day of May, A. D. 1961, commencing at 10:00 o'clock A. M. at the front door of the City Hall in the City of Sanford, Florida.

H. N. Tamm, Jr., City Clerk

LOW PRICE IS ONLY HALF THE STORY

(The other—and even more satisfying—half you'll discover the first time you drive a Corvair!)

And when we say "low price," we mean more than merely the pint-sized figure on the window sticker of a new Corvair. You're going to be saving like sixty on gas. And on the antifreeze you won't buy next winter, and the radiator repairs you'll never have to pay for. About the only things Corvair doesn't skimp on are room, smoothness, style and pure driving joy. But that's the other half of the story. Talk to your Chevrolet dealer about it soon!

THE SENIOR LIFE-SAVING CLASS conducted by the American Red Cross water safety corps resulted in this large group, mostly high school students, who have studied, practiced and learned the techniques of protecting and saving swimmers. From left, kneeling, front row; Bobby Johnson, Cliff Hagen, Gary Rowell, Gene Freeman, Colleen Stuart, Lamar Ethridge, Charles Fry-

man, David McLean and Johnny Higginbotham. Middle row, Instructor Peg Horner, Joe Slade, Russ Pearson, Dede Dietrichs, Wanda Gaddie, James Wright, Edith Avenal, Shirley Conkey, Reba McFarlan, Instructor Martha Kilpatrick and Instructor Bill Weber. Top row; Hulian Grier, Mike Bartosek, Jack Horner, Emmett McCall, John Bergstedt, Ladd McCoy and Doug Gordon.

Regan Keeps Tigers' Margin Intact

By MILTON RICHMAN
United Press International
Phil Regan, proud owner of a perfect 5-0 pitching record for the first place Detroit Tigers, must wonder what it takes to convince some people.

Several American League hitters are more impressed by Regan's size—6-8 and 200 pounds—than by his fast ball. One of them even remarked recently, "if that guy is a big league pitcher, then I'm Babe Ruth."

Well, maybe we'll had better get ready to hall another Ruth because Regan, with four consecutive complete games to his credit already, begins to look more and more like the pitching find who may help the Tigers to their first World Series in 16 years.

Regan, who was 0-4 with the Tigers last year, enabled them to maintain their 3 1/2 game lead Monday night by pitching them to a five-hit 10-2 victory over the Kansas City Athletics. One of the hits off him was a homer by pinch-

hitter Don Larsen in the eighth. But by that time the Tigers had pounded loser Norm Bass and two relievers for eight runs and nine of their 12 hits, including Norm Cash's sixth homer in the fourth. Detroit kayoed Bass with a six-run rally in the fifth.

Cleveland beat Minnesota, 7-5, in 15 innings; New York downed Baltimore, 8-2; Boston defeated Chicago, 4-1, and Los Angeles topped Washington, 6-4 in other AL games. San Francisco beat St. Louis, 3-1, to hold on to the National League lead by mere percentage points over Los Angeles, which nipped Cincinnati, 2-1, in 10 innings. Pittsburgh defeated Milwaukee, 2-1, in the only other game scheduled.

Reliever Frank Funk was the key man in the Indians' victory over the Twins. He yielded only two hits and struck out seven over the last eight innings to post his fifth victory against two losses. The Indians won the marathon

four-hour and eight-minute contest by stringing together four singles off Ted Sadowski in the 15th. Woodie Held hit two homers and Harmon Killebrew hit one.

Tony Kubek and Cletis Boyer each drove in three runs after loser Jack Fisher (1-5) of the Orioles had held the Yankees hitless until the sixth. Reliever Jim Coates was credited with his fourth victory against two defeats. The Yanks broke a 1-1 tie with four runs in the seventh. With runners on first and third in that frame, Baltimore second baseman Mary Breeding started what he hoped would be a triple play after Elston Howard hit a liner at him. Breeding threw to third but Un-

dered Larry Napp ruled he had trapped the ball. When Breeding insisted he had caught the ball without a bounce, Napp then asked him why he hadn't thrown to second.

"Don't tell me how to play second base," Breeding snapped. "Then don't tell me how to umpire," Napp retorted. Bill Monbouquette hurried his third straight one-run game for the Red Sox and lowered his earned run average to 1.98 with a seven-hit effort against the slumping White Sox. The Red Sox clinched their fourth victory in five starts with a three-run outburst off ex-teammate Frank Baumann in the fourth.

Gene Leek collected two doubles and a single and Earl Averill contributed a two-run homer to lead the Angels to their victory over the Senators. Eli Grba was the winner and now is 4-4; Pete Burnside (1-3) was the loser. Willie Tasby and Jim King homered for the Senators.

The Giants saddled Ernie Broglio of the Cardinals with his fifth defeat when they scored two runs in the sixth with the help of two errors. Orlando Cepeda's 11th homer in the eighth provided an insurance run. Jack Sanford won his third game with help from rookie Bob Bolin in the eighth.

Tommy Davis' third hit of the game, a single in the 10th inning, scored Willie Davis from second base in the Dodgers' triumph over the Reds. Stan Williams limited the Reds to four hits and struck out eight in winning his third game. Bob Purkey suffered his second defeat against four victories.

Practice Football Game Scheduled Friday For Seminole High Squad

Football fans can get a free introductory look at the 1961 Seminole squad Friday at Memorial Stadium.

There'll be an intra-squad game for 44 boys who have been working out in sizing-up sessions.

Coach Jim Pigott announced today. The public is invited to watch, starting at 4:15 p.m.

"We're going to let all the boys see some action and hope to get an idea of how our new single wing series attack may work for us this coming season," Pigott said.

The coaches have been looking over prospects for the 1961 squad in the workouts in an effort to get the attack instituted as early as possible. Regular practice will begin Aug. 31 and the Seminoles open the season with a home game Sept. 15 against Titusville.

Blind Partner Winners Listed

Myrtle Adams and Crela Higginbotham were the first place winners in the blind partner tournament play of the Sanford Women's Golf Assn. last week at the Mayfair Country Club.

In second place were Augie Russell and Jeannie Foulk and in third was Jimmie Livingston and Jackie Crawford. Augie Russell also won the low putts place with a 29.

The final tournament of the season will be the four-ball tournament, to be by draw at the finish of play. Players are advised to make up their own games for the day.

The annual banquet will be held Saturday at the Capri Restaurant, with Jane McKibbin in charge of arrangements. The championship trophies will be presented at the dinner.

Navy Runs Up 20-0 Little League Win

Navy ran up one of the biggest scores of the Little League season Monday night while holding the opposition to the minimum in defeating George's, 20-0 at Roy Holter Field.

Fight Results

CHICAGO (UPI) — Bobby Stinson, 172, Cleveland, stopped John Bonner, 174 1/2, Chicago, 6.

Shrine Golf Meet Entries Sought

Sanford area entries are being sought for the first golf tournament staged by the Bahia Shrine at Pine Meadows Golf Estates at Eustis.

The tournament, open to all Shriners, will be held Friday at the Eustis course, with prizes for each foursome, Al Wilson, Orlando, secretary of the Shrine, said.

Entry fee of \$5 includes green fee, barbecue and cost of the prizes, he said.

Any Shriners who want to enter are asked to contact Wilson at the Bahia Shrine in Orlando.

Dear Abby:

By Abigail Van Buren

DEAR READERS: When a 10-year-old boy wrote and asked me what kind of pet he should get...

DEAR ABBY: I am writing this for 'Wants a Pet.' He says turtles are no fun.

I am ten years old and have a pet turtle called 'Pokey.' Little 'Pokey' follows me around and eats out of my hand.

DEAR ABBY: If children want pets, they should try ants. I bought an ant farm. The 'farm' comes in a large box with glass sides so you can see the ants work.

DEAR ABBY: The best pet we ever

had was a chipmunk named 'Shirley.' We bought her in a pet shop for ten dollars, and kept her in an old parrot cage.

DEAR ABBY: I suppose you will think I am crazy, but snakes make marvelous pets. Even the most poisonous snakes can be made safe.

DEAR ABBY: You can't be serious in recommending hamsters as pets. We had hamsters and they are the filthiest things alive.

Getting married? For Abby's booklet, 'How To Have A Lovely Wedding,' send 50 cents to ABBY, Box 3365, Beverly Hills, Calif.

We The Women: By Ruth Millet

In Nottingham, England, a new 360-room hotel designed for bachelor girls stood nearly empty for four months. Then the owners took some smart pills and announced that the hotel would accept men.

And just to add a little excitement to the over-all drabness, when a bunch of women live together they form little cliques devoted to the sole purpose of talking about each other. It's depressing for a woman to be in such a clique—and even more depressing not to be in one.

Women never outgrow this feeling that an environment that is strictly female is deadly. As one bright-eyed little old lady in a wheel chair once remarked, "The worst thing about living in an old ladies home is being around nothing but old ladies. Now if there were just a few old men around—it wouldn't be half so bad."

Jacoby On Bridge By Oswald Jacoby

When a good partnership is sticking away it is a pleasure to watch it operate. Mervyn Key and Bobby Nail of Houston are one of these good partnerships and it is worth-while to see how easily they reached three no-trump with the North-South cards.

Both vulnerable West North East South ♠ AK65 ♠ AKQJ ♠ AKQJ ♠ KJ74 ♠ Q710 ♠ A83 ♠ AK876 ♠ 9852 ♠ QJ ♠ 1066 ♠ 852 ♠ AKQ ♠ 4A ♠ 3 ♠ 2 ♠

dence in the fact that Mervyn would know about the bonus for bidding and making a game. Sure enough, Mervyn went to three. There was nothing much to the play. West opened the queen of spades. Mervyn won in dummy and led the jack of hearts.

Red Compliance With Cease-Fire In Laos Reported

GENEVA (UPI)—United States officials were heartened today by reports of increased Communist compliance with the cease-fire in Laos and opposition to Soviet veto demands by two neutral nations.

American sources said the report received here Monday night from the three-nation International Control Commission showed considerable lessening of cease-fire violations by the rebels during the past three days.

But they emphasized that the United States still does not consider the situation sufficiently stable to warrant disclosure of its comprehensive plan for guaranteeing and policing a neutral and peaceful Laos.

U. S. Ambassador Averell Harriman was said to believe there can be no real assurance the truce will last until India, Poland and Canada—the three members of the ICC—have enough equipment and manpower to inspect the country effectively.

The 14-nation conference here has been somewhat handicapped by the refusal of the pro-Western royal government to participate as long as the Communist Pathet Lao and neutralist delegations are given equal status.

Thailand was reported coming up with a plan which would bring in some of the political parties represented in the government in place of an official government delegation.

Nine Workers Die In Lab Explosion

ROCKET CENTER, W. Va. (UPI)—Investigators today sought the cause of an explosion at the Allegheny Ballistics Laboratory that killed nine workers.

Six other workers were injured Monday in the blast that destroyed a powder casting building and a motor testing structure at the Navy's missile center nine miles west of Cumberland, Md.

Four of the injured were hospitalized and two were treated for minor injuries and released.

The Navy said loss of the two buildings would not affect its missile program. Damage was confined to the solid propellant division, it said.

The ABL said one of the buildings destroyed was the "pilot plant east building" where casting powder, one of the ingredients used in propellant systems, was poured into molds.

The other structure levelled by the explosion was located near the east building and was known as a "conditioning" plant where missile motors were subjected to temperature tests ranging from 1,000 degrees to 65 degrees below zero.

Officials said the laboratory primarily was involved in making solid propellants for rockets and missiles but also built and tested engines for rockets under construction.

Softball Players Seek Competition

The North Orlando Ladies' Softball Teams are hunting some competition.

Mrs. W. W. Anderson, manager of the two teams organized within the community, asks that any other such groups in Seminole County get in touch with her to arrange playing dates.

At present, she says, the North Orlando team plays each other on Thursdays at 8:30 p. m. and on Saturdays at 5 p. m. However, if arrangements can be made to meet competition from other communities, she says, the best players from each will be chosen to make up the Village Team.

Long-Promised Expense Report Is A Whole Lot Of Nothing Definite

WASHINGTON (UPI)—The House was in print today with a long-promised report on expense accounts of its members in the 12 months that ended June 30, 1959.

At first inspection, the 418-page book appeared likely to embarrass nobody.

For one thing, it was ancient history. A similar book on House expenses for the last fiscal year has yet to go to the printer. For another thing, the book was not indexed. Expense items were filed in chronological order. Many of the entries left something to be desired by the reader in pursuit of detail.

An unspecified number of unidentified members of the Committee on Interior and Insular Affairs, along with unidentified and uncounted staff members, went somewhere to investigate something in June 1958. Wherever it was, the tickets on Eastern Air Lines cost the government \$1,297.62.

Members of the Merchant Marine Committee and staff—again unspecified as to name or number—conducted an inquiry about the Panama Canal Nov. 28 through Dec. 11, 1957, and brought back two bills from the El Panama Hotel totalling \$1,536.10.

Individual members frequently found it necessary to investigate matters in their home states, their expense reports showed. These trips were charged to their respective committees. One member of the Foreign Affairs Committee—not identified in the report—ran up a \$298.81 bill sending telegrams from India to the United States.

The House commissioned a portrait of a former speaker, not named, Painter Boris B. Gordon got \$2,500 for the job.

In September 1958, members used \$246 worth of ice. They bought robotypes, duplicators, mimeographs, dictaphones, calculators, addressographs, auto-

graphs, and electric typewriters. Despite the mountains of waste paper produced by these and other legislative machines, they periodically bought shrouded newspaper from the Salvation Army, at the rate of \$6.22 per 470 pounds.

To pack things in, officials reported.

Promenaders' New Officers Installed

The newly elected officers of the Starlight Promenaders, Sanford's own square dance group, sponsored by the Recreation and Parks Department, have taken office. Re-elected as president is Harold Jenkins; vice president, Bob Lockwood; secretary Shirley Burkholder, treasurer, St. Clair White.

The planning board met at the home of Louise Drebert to plan the events for the coming year. Some of the highlights for the season are the Central Florida Square Dance Association's Annual Election Ball on May 27, with the Promenaders as host club.

The club Anniversary Party is to be held at the Shrine Club June 3. Mr. and Mrs. James Jernigan, director of recreation and parks, will be the guests of honor.

There will be beach parties and picnics during the summer months. Thanksgiving weekend the Promenaders will be host club for the Third Annual Holiday for Rounds, for the Round Dance Association.

The club has elected to continue their regular dances each Wednesday night throughout the summer.

Some of the largest onion fields in the world are located near Kenton, Ohio.

Juvenile Names To Be Published

TALLAHASSEE (UPI)—It will be legal to publish the names of juvenile traffic offenders under a highway safety bill which became law Monday without Gov. Farris Bryant's signature.

Bryant also allowed two other safety measures to become law. One eliminates half-points in the traffic violation point system and requires that all offenders' points be counted at full value up to 36 months.

Another requires a driver to report to police any accident resulting in property damage of \$50 or more.

Members of the West Lake Brantley Home Demonstration Club will meet Wednesday for the last time this season. The 12:30 p. m. session will be held at the home of Mrs. Allen Burns on Triangle Ave. with the topic to be "Selecting Your Furniture."

Lake Brantley Club To Meet

Members of the West Lake Brantley Home Demonstration Club will meet Wednesday for the last time this season. The 12:30 p. m. session will be held at the home of Mrs. Allen Burns on Triangle Ave. with the topic to be "Selecting Your Furniture."

Slaughter Of 300,000 Romanian Jews Is Blamed On Eichmann

JERUSALEM (UPI)—Adolph Eichmann drove 300,000 Romanian Jews to slaughter and fought bitterly to prevent any slipping through his dragnet by emigration or other means, the Jewish court trying him for mass murder was told today.

Eichmann, pinched and grey-faced but otherwise apparently none the worse for two slight heart attacks in recent weeks, listened to the testimony sometimes intently, sometimes with seeming boredom.

The Israel prosecution brought forward two witnesses and a mass of documents designed to prove that the former Gestapo official was the master killer who drove nearly half of Romania's 600,000 Jewish population to their deaths.

The testimony showed that Eichmann angrily vetoed a single emigration to Palestine of any Romanian Jews, including 1,000 children.

The testimony supported the prosecution argument that Eich-

mann was not merely a big-time policy planner in the extermination of European Jews but a man who took time out to deal with the smallest details of individual cases.

When the Romanian government offered to let millionaire industrialist Max Ausschmitt emigrate if his property was confiscated by the state, Eichmann vetoed this and ordered him to listen to the testimony.

Dr. Theodor Loewenstein-Lavie, a prominent Romanian Zionist and one-time professor of Jewish history at the University of Bucharest, told the court that the 300,000 Romanian Jews who perished were about one-half of the total pre-war Jewish population of the country.

Loewenstein-Lavie said 10,000 Jews were killed in a single program in the city of Jassy in 1941 and 160,000 were exterminated in the provinces of Besarabia and Bukovina between July and September 1941.

Krushchev Choice As Successor Reported Ailing

LONDON (UPI)—The Daily Telegraph said today that Frol Kozlov, Soviet Premier Nikita Khrushchev's apparent choice as his successor, is ill with heart trouble.

The report came from David Floyd, the paper's Soviet affairs specialist, who said Kozlov has not been seen in public for more than a month.

Observers recalled that similar reports circulated last year about First Deputy Premier Anastas Mikoyan. He was not seen at important functions for several weeks, but it turned out he was on vacation.

The report on Kozlov led to speculation among Western observers of the possible effects of such a development on the power alignment in the Soviet Union.

Kozlov, 52, is a secretary of the powerful Communist party central committee and a member of its presidium.

The New York Times quoted diplomatic sources as saying Kozlov suffered a mild heart attack late last month and now is convalescing. It said Western diplomats learned about Kozlov's illness from Soviet officials who were asked why the top official was absent from some important functions.

Shop To Close

Mrs. June Brown has been called out of town by the serious illness of her brother, Oda E. Freeland of Clarksburg, W. Va. She expects to be gone about a week or ten days and the beauty shop will be closed during that time.

Intangible Tax Cut Passes

TALLAHASSEE (UPI) — A House bill rolling back the intangible tax on stocks and bonds cleared the Senate today. But an amendment tightening enforcement to offset any revenue loss from the lower rate was tacked on.

The bill, passed by a vote of 34-1, now must go back to the House for concurrence in the Senate amendments.

Sen. Charley Johns of Starke cast the lone dissenting vote. The bill passed the House without the enforcement features which it has included in a separate bill not yet passed. The Senate amendment, adopted by voice vote, requires all domestic and foreign companies to file a list of their Florida stockholders with the state comptroller.

A company could by-step this requirement by voluntarily paying the tax for its stockholders.

The bill would reduce the tax from \$2 per \$1,000 of stocks and bonds to \$1.50 next year and to \$1 the following year.

Sen. B. C. Pearce of East Palatka led the move to tack on the enforcement provisions. He said otherwise, there is a chance the lower tax might become law without the enforcement provisions which the governor said would not guarantee the state would not suffer any revenue loss.

Sen. John Rawls of Marianna failed in an effort to hold the reduction at \$1.50 in the coming biennium and give the 1963 Legislature a chance to study its effect before any further reduction is made.

The Senate adopted an amendment by Pearce which reduces the penalty for failure to pay the tax from 25 per cent to 10 per cent of the amount of tax due.

The Senate rewrote the House redistricting bill Tuesday and passed its version which included putting Seminole County in the Fifth District with Volusia, Citrus, Sumter, Marion, Lake and Osceola. The House had split Volusia.

TALLAHASSEE (UPI) — The House, working its way through a proposed constitutional revision, today turned down a move to elect House members to four-year instead of two-year terms.

Efforts to abolish the Game and Fish Commission as a constitutional agency also failed. It was the second day of work on the constitutional rewrite by the House.

The House spent a full day on the constitutional rewrite Monday, but the going was slow. Members adopted a slightly changed preamble and two minor articles and added a new provision calling for 45-day legislative sessions each year.

The Legislature now meets for two months every two years. Tuesday, the House approved and sent to the Senate a \$767

million budget bill which included a \$200 across-the-board pay raise for all teachers and provision for \$400 merit raises for superior teachers.

The Senate last Friday passed a \$755 million budget bill. But it didn't include any raise for teachers. The Senate Education Committee, however, unanimously approved and sent to the Appropriations Committee Tuesday a \$200 teacher pay raise measure.

Differences in the House and Senate appropriations measures will be worked out in a joint conference committee.

Attempts to change the spending package, including efforts to in-

crease the teacher raise, were shouted down during the day of debate in the House.

In other House action Tuesday, the Public Schools Committee killed a bill to let the state pay the school bus transportation expense of children living within two miles of public schools. Under present law, children may be picked up inside the two-mile limit, but the counties must pay for it.

The House Public Health Committee, meanwhile, approved a bill authorizing state financial aid to all counties for mosquito control. Only counties under mosquito control districts get the aid at present.

Gov. Ross Barnett of Mississippi issued an immediate appeal urging citizens to "just let the officers handle the situation."

But he said the inter-racial group would be arrested if it violated Mississippi segregation laws.

More than 250 National Guardsmen and highway patrolmen ringed the Montgomery bus terminal to protect the students while they boarded the bus. Only a few bystanders watched from across the street. There was no evidence of the mob that mercilessly beat several of the students when they arrived in Montgomery Saturday.

About a dozen U. S. marshals were reported to have arrived at Meridian during the night. The city's police force was alerted and scores of highway patrolmen poured in to augment local forces.

Mississippi Safety Commissioner T. B. Birdsong arrived at Meridian, about 18 miles from the border, to take charge of the patrol units which have moved in there.

All city and county police units in Lauderdale County (Meridian) were mobilized and coordinating their efforts through Birdsong, a source reported.

The bi-racial group was made up of 10 Negroes, including two white girls, and two white men. The white was Paul Dietrich, 29, of Washington, D. C. He said he was making his first freedom ride.

"I'm a little anxious," he conceded before the bus left Montgomery.

Take Part!

This is official Clean Up-Paints Up-Fix Up Week in Sanford. Everyone is asked to take some part by sprucing up their own property. See editorial on Page 4.

News Briefs

Food Short
BERLIN (UPI) — A food shortage was reported today in Communist East Berlin, with only two kinds of fresh vegetables and no fruit at all in the stores.

Florida Grows
WASHINGTON (UPI) — Florida's population has risen above five million, the Census Bureau reported Tuesday. The 1960 census placed the state's population figure at 4,931,560.

Grace Is Guest
WASHINGTON (UPI) — President and Mrs. Kennedy entertain at a White House lunch today for Prince Rainier of Monaco and his wife, Princess Grace, the former motion picture star Grace Kelly.

Medal For Dooley
WASHINGTON (UPI) — The Senate approved and sent to the White House Tuesday a bill authorizing a posthumous medal for Dr. Thomas A. Dooley III for his medical service to the people of Laos.

Draft Call Set
WASHINGTON (UPI) — The Army will draft 6,000 men in July after not drafting any for two months. The July call, announced Tuesday by the Defense Department, will bring to 2,008,430 the number of men drafted since the Korean War started in June, 1950.

Spellman Better
NEW YORK (UPI) — Francis Cardinal Spellman left New York Presbyterian Center Tuesday night two weeks after he entered the hospital for surgery of a detached retina. The hospital said success of the operation will not be determined for another four weeks.

Indies House Sold
DUCK KEY (UPI) — Indies House, a luxurious Keys resort hotel built by Canadian financier Bryan Newkirk, has been turned over to Virginia hotelman E. A. Stephens in a \$2.25 million lease-purchase deal, it was announced Tuesday. Newkirk opened the 101-room hotel in January, 1960, and last August announced its sale to a California syndicate for \$2.3 million. But Hurricane Donna did an estimated \$1 million damage to the hotel last September and the sale was called off. Newkirk vowed to have the hotel back in operation by December and did it.

Government Committed To Protect 'Freedom Riders'

WASHINGTON (UPI) — The federal government is prepared to take whatever steps deemed necessary to maintain order if the "Freedom Riders" encounter new violence on their Southern tour, officials said today.

Informed sources said the federal government had embarked on a course of action in protecting the Freedom Riders from which it could not retreat.

An inter-racial group left riot-scarred Montgomery, Ala. today in a Trailways bus and headed west on U. S. 80 toward Jackson, Miss.—the hard core center of segregation in the South.

They were escorted by 16 highway patrol cars, each containing three guardsmen and two highway patrolmen.

A National Guard plane and other small planes circled overhead as the caravan rode west toward the border and a scheduled stop at Meridian, Miss.

The Justice Dept. said the Kennedy administration had been given assurances by Mississippi officials that the students would not be harmed.

Gov. Ross Barnett of Mississippi issued an immediate appeal urging citizens to "just let the officers handle the situation."

But he said the inter-racial group would be arrested if it violated Mississippi segregation laws.

More than 250 National Guardsmen and highway patrolmen ringed the Montgomery bus terminal to protect the students while they boarded the bus. Only a few bystanders watched from across the street. There was no evidence of the mob that mercilessly beat several of the students when they arrived in Montgomery Saturday.

Mississippi Safety Commissioner T. B. Birdsong arrived at Meridian, about 18 miles from the border, to take charge of the patrol units which have moved in there.

All city and county police units in Lauderdale County (Meridian) were mobilized and coordinating their efforts through Birdsong, a source reported.

The bi-racial group was made up of 10 Negroes, including two white girls, and two white men. The white was Paul Dietrich, 29, of Washington, D. C. He said he was making his first freedom ride.

"I'm a little anxious," he conceded before the bus left Montgomery.

MAYOR JOE BAKER declares the week from May 28 to June 3 as Telephone Week in Sanford as Southern Bell manager Bob Shedden looks on. The telephone company is prepared to throw the switch opening the new direct dialing system Sunday at 2 a. m.

Telephone Week To Set Off New Direct Dialing

Telephone Week in Sanford begins May 28, when the new Direct Distance Dialing system goes into effect at 2 a. m. Sunday, the first of its kind in Seminole County.

Telephone users here will be able to dial 45 million Bell System telephones in 868 exchanges in the U. S.

DDD (Direct Distance Dialing) is a system enabling Sanford's one and two party line users to dial most of their long distance calls without the assistance of an operator. The system is now in effect in several other Florida

cities as well as other cities and in many towns throughout the United States and Canada.

"This new service is in keeping with Sanford's rapid rate of growth," Bob Shedden, Sanford manager for Southern Bell said today.

"This growth has resulted in a steady increase of long distance calls," Shedden pointed out.

"However," he added, "operators will still be needed to handle person-to-person calls, coin telephone calls, collect calls and others requiring the assistance of the operator."

Asians Complain About Answers

TOKYO (UPI) — Vice President Lyndon B. Johnson's easygoing Texas ways scored a hit in Asia, but some officials and newspapers complained that he left too many key questions unanswered.

From Saigon to New Delhi, Johnson was hailed for his friendly, open manner. After his departure, however, officials and those newspapers which were free enough to criticize expressed some second thoughts.

The most persistent criticism was that the vice president made no firm statement on U. S. plans in Laos, giving the distinct impression that the United States plans to pull its anti-Communist defense perimeter back to the Makong River and leave Laos to the Reds.

Swim Instructor Prospects Needed

Any Sanford citizens who have Junior or Senior Life Saving badges, or have completed the recent classes, are urged by Miss Sally Nieder to join the instructor's classes being conducted at the Municipal Pool.

The class is a 12-hour instruction course, Monday, Wednesday and Friday from 7 to 9 p. m. under the supervision of the Red Cross Water Safety Corps.

Instructors are badly needed to assist with the swimming classes for persons of all ages which are starting soon.

DONATING BLOOD to aid the depleted supply at Seminole County's Branch of the Central Florida Blood Bank is Sanford Naval Air Station's Ronald Ferrymore, who also is a new member of the Campbell-Lossing American Legion Post. Mrs. James Doucette, supervisor, has issued an appeal for donors to report at the branch which is located on the hospital grounds at 1302 E. Second St. (Galen Crandall Photo)

Realtors Hear State Head

Three out of four Florida residents lived in other states at end of World War II, Arthur Boazman, president of the Florida Realtors Assn., told Seminole County realtors Tuesday night in citing the growth of the state.

Boazman paid his official visit to the local board at a dinner meeting at the Sea Shell Restaurant.

The Florida realtor organization has kept pace with other growth and now is the third largest in the nation, Boazman said. He commended the Seminole group on its progress.

Calling on all the realtors to cooperate in aiding the growth of the section, Boazman reminded them that they are bound by their code of ethics to act in the public interest.

"It is the duty of every realtor to protect the public against fraud, misrepresentation and unethical practices," he quoted from Article 3 of the code.

A. L. Lorrann, Longwood mayor and real estate man, was inducted into membership of the realtor's board by A. P. Henderson, Ormond Beach, vice president of District 2 of the association, and one of the special guests at the meeting.

Private Effort To Deal With Castro Criticized

WASHINGTON (UPI) — Sen. Thomas J. Dodd, (D-Conn.), today accused the private committee seeking to exchange U. S. tractors for Castro-captured Cubans of "irresponsible meddling" in foreign affairs.

He called for immediate abolition of the group headed by Mrs. Eleanor Roosevelt, United Auto Workers President Walter Reuther and Dr. Milton Eisenhower, brother of the former president.

Dodd, a member of the Senate Foreign Relations Committee, said in remarks prepared for Senate delivery that "private groups must not be allowed to interfere with the conduct of our international affairs."

"The State Department should remind the leaders of this committee that we have an administration and a Congress for the making of foreign policy and for deciding whether the American people will pay tribute to the Cuban Communist dictator," he declared.

Dodd's attack was the latest in a growing congressional bombardment of the citizens committee soliciting money to buy 500 tractors — Premier Fidel Castro's price for releasing the rebels captured in last month's invasion attempt.

The foreign relations committee was considering a meeting with Secretary of State Dean Rusk on the situation unless the department clarified its policy toward the private group. But no session had been definitely scheduled.

Democratic congressional leaders said Tuesday after a White House meeting that President Kennedy had ordered the government to keep hands off the private fund-raising project.

President Kennedy called on all Americans today to contribute to the voluntary "tractors for prisoners" fund seeking release of Cubans held by the Castro regime.

Kennedy said export licenses for the tractors would be granted routinely by the State Department. But he said he thought the fund-raising campaign should be kept entirely in private hands.

Polls Dropped

WASHINGTON (UPI) — The U. S. Information Agency has dropped its controversial overseas "prestige" polls which caused a furor during last year's presidential campaign. The decision was reported today in testimony released by a House appropriations subcommittee.

The dry spell, he said, had caused "excessive droppage" of young fruit which he predicted would be reflected in the U. S. Agriculture Department's June crop condition report.

Rutledge said the industry had been looking forward to harvesting 100 million boxes of oranges next season, since it was indicated such a large crop could be marketed with a profit. This season's crop is estimated at 80 million boxes.

Board Takes Over

TALLAHASSEE (UPI) — The State Public Utilities Commission today took jurisdiction over the water and sewer system of Orange County. The action gives the commission power to determine rates of the utilities. The Orange County Commission adopted a resolution asking for the regulation.

RICHMOND, Va. (UPI) — Convicted kidnap-killer Melvin Davis Ross Jr. was brought to Virginia from Maryland Tuesday to go on trial for another murder charge.

Ross must stand trial in Spotsylvania County for the deaths of two years ago of Carroll Vernon Jackson and his 18-month-old daughter, Janet. He is under a federal life sentence for the kidnap-killing of Mrs. Mildred Jackson and the Jackson's other daughter, Susan, 6.

The bodies of Mrs. Jackson and Susan were found in Maryland. The bodies of Janet and her father were found near Fredericksburg, Va.

A preliminary hearing is scheduled Friday.

Titan Success Makes Forecast Appear Correct

CAPE CANAVERAL (UPI) — An Air Force Titan missile made the multi-million-dollar plans for having it war-ready by late summer look good Tuesday night.

The 98-foot rocket lobbed a dummy warhead more than 600 miles into space and 5,000 miles over the Atlantic Ocean in what one official described as a "slight shot."

It marked the 24th success in 33 firings of the bullet-shaped Titan since the first one left the launching pad at Cape Canaveral in February 1959.

The rocket's nose cone plunged to the bottom of the Atlantic near Ascension Island, off the west coast of Africa. But a search was made for a small data capsule which the warhead ejected seconds before it struck the water.

Highly accurate ballistic cameras also drew a fine bead on the rocket's 18,000-mile-per-hour flight, recording beacon flashes of 22 million candlepower from an instrument on the Titan's second stage.

Photographs from these cameras will be used to determine how close the rocket came to its intended flight path and its target.

New Civic Center Hours Announced

A new schedule for hours in the Civic Center Youth Wing for Junior and Senior High students was announced today by Director Jim Jernigan.

This schedule will be effective, starting Monday:

Monday, 7 p. m. — Junior High
Tuesday, 7 p. m. — Senior High
Wednesday, 7 p. m. — Junior High
Thursday, 7 p. m. — Senior High
Friday, 7:30 p. m. — Junior High
Saturday, 7:30 p. m. — Senior High

Federal School Bill Closer To Final Approval

WASHINGTON (UPI) — President Kennedy's public education bill, apparently safe from a religious fight in the House, is scheduled closer to Senate passage.

House strategists appeared to have averted the measure clear of a collision with a parochial school plan backed by Francis Cardinal Spellman. With a working solution seemingly in hand, final approval was expected today in the House Education and Labor Committee.

Senate leaders hoped to complete floor action on amendments to their bill today. That would leave only debate and a final vote on Thursday, with passage all but assured.

Pending in the Senate was a proposal by Sen. Barry Goldwater (R-Ariz.) to eliminate the payment of teachers' salaries in the \$2.3 billion administration-backed measure.

Goldwater lost on another proposal Tuesday night when the

Senate rejected, 79-10, his plan to allow property owners a deduction to \$100 a year from their federal income tax bill as rebate for local real estate taxes used to support schools.

The parochial school aid forces in the House committee were led by Rep. Herbert Zelenko, (D-N. Y.), whose plan for federal grants to build non-religious facilities at private and parochial schools has Spellman's endorsement. Zelenko had planned to propose incorpora-

tion of his plan with the Kennedy bill Tuesday.

But Zelenko held his measure back, apparently because Chairman Adam Clayton Powell, (D-N. Y.), declared it would be welcome for submission as an amendment to the National Defense Education Act extension bill.

Powell scheduled hearings on the extension measure, which provides equipment loans to public and private schools, starting June 1.

Senators rejected, 79-10, his plan to allow property owners a deduction to \$100 a year from their federal income tax bill as rebate for local real estate taxes used to support schools.
