## OVERSTREET'S WONDERFUL GIFT TO WOMAN'S CLUB OF SANFORD DONATES ROBINSON'S SPRING

### AND IT WILL BE USED FOR PARK PURPOSES FOR SEMINOLE COUNTY

### IS BEAUTIFUL SPOT

In Natural State But Will Be Enhanced by Thrive Busy Women of the Club

At the business meeting of the Woman's Club Wednesday afternoon, an announcement was made—splendid and momentous in itself, and promising to be the beginning of a wonderful movement towards highway beautification in Seminole county. Through the efforts of Mrs. C. M. Berry, the Robinson Springs property on the Orlando Road has been donated by Hon. M. O. Overstreet of Orlando to the Woman's Club of Sanford for park purposes. The tract includes the spring and 100 feet on each side of the roadway for a certain distance and this will mean the perpetual preservation of a noble strip of woodland from the deprivations of the campers and the wood cutter. The gift came as a complete surprise to the club, and no definite plans for development will be made at present, but it is certain that when these plans are perfected this little park will be a thing of beauty and a delight to passers by, and a source of pride to Seminole county. A movement has been quietly on foot for some weeks past to secure other beautiful spots along the Dixie highway, and to project the idea of road beautification.

Mr. Overstreet's splendid gift will be an encouragement and an inspiration. Too much praise cannot be given Mrs. Berry who has worked for more than a year towards this idea to rear her warm and loving heart of saving the beauty of the Robinson Springs property for future generations. She has kept her own counsel in the matter to such purpose that it is once more demonstrated that a woman can keep a secret. The Woman's club is most enthusiastic over their new property and a strong committee will be formed at once to plan for its care and improvement.

Thanks are also due Hon. E. A. Douglas who offered to give his time and attention in getting the titles cleared and the deed recorded and donated it to the Woman's club.

### ARMOUR RESIGNS AS PRESIDENT OF BIG PACKING INTERESTS

(By The Associated Press)  
CHICAGO, Jan. 3.—J. Ogden Armour yesterday resigned the presidency of Armour and Company.

F. Edson White, vice-president of the board, will succeed Mr. Armour as president. Mr. Armour has been elected chairman of the new board of directors.

He declined to comment on reports that the deal was practically completed at a meeting yesterday.

Mr. Armour has been the head of Armour and Company since the death of his father, the late Phillip D. Armour, Sr., in 1901. Under his direction the business of the company grew from \$182,000,000 annually to more than a billion dollars a year.

## BREAKING REPARATIONS COMMITTEE CAUSES UNITED STATES TO HURRY ITS ASSURANCES OF IMMEDIATE ACTION

### In Regard to American Having Representation on the Committee

WASHINGTON, Jan. 4.—Assurances of immediate consideration for a resolution by Senator Robinson proposing American representation on reparations commission, were given by the administration senate leaders today after Chairman Lodge, of the Foreign Relations Committee, conferred with President Harding and Ambassador Harvey at the White House.

WASHINGTON, Jan. 4.—Official Washington continued to give its closest attention to the threatened breakup of the reparations conference of Allied Premiers at Paris with Ambassador Harvey summoned here from London by the State Department still on the ground for conference with officials in apparent task of feeling a way toward some means of American helplessness in situation.

WASHINGTON, Jan. 4.—Senator Lodge did not expect a definite opinion regarding the advisability of adoption of resolution, neither did he or any other administration leader evince hostility toward it. After the White House visit Lodge called a special meeting of the foreign relations committee for tomorrow to consider the proposal.

## FIRST CARS OF CELERY LEFT SANFORD ON TUESDAY FROM C. E. HEINRICH'S PLACE

### WERE OF THE NEW STRAIN OF GOLDEN CELERY AND PROVED TO BE ALL RIGHT

### PRICES ARE GOOD

And Celery Makes Good Yield to Acre and Shows Better Bleaching

The first cars of celery left the Sanford district Tuesday when C. E. Heinrichs of the west side shipped two cars through the Sanford Truck Growers, Inc. Mr. Heinrichs had the distinction of shipping the first car of celery from this section last year and tops the record this time by doubling the number. The celery was the new strain that was planted here for the first time this season and that will be watched on the markets with much interest. It is the golden seed but has been drawn into a new strain of golden celery being a tall stalk of celery with smaller stems and not so much heart. The celery makes a magnificent stalk and bleaches better than the old strain. Some of the growers were perturbed over the new strain of seed naturally as the stalks were so much taller and they did not know

how the trade would receive it but it now develops that New York state and the Manatee section tried it last year with success. The big difference is that the new strain being a smaller but taller bunch makes more "fours" to the crate and has a smaller heart.

The Sanford Truck Growers, Inc., sent several sample crates to the trade before the car load shipments and while the crate in one instance was delayed, the buyers have written back here about the celery and stated that if it had greener tops it would sell fine. This will probably be the only objection sustained during the season—the tops being so tall will stick out of the ten inch crates and decay after being rubbed off by other crates being piled on top in shipping and while the tops will not show well the celery will be all right. Mr. Heinrichs stated this morning to the Herald representative that he was well pleased with the new strain and intended to order it again next season as it made more crates to the acre as his two cars cut this week ran over eight hundred crates to the acre and showed about fifty per cent of fours. It was just four months in growing until it was shipped and may be our next fall crop instead of early lettuce.

## BUSINESS CONTINUES ON UPGRADE, U. S. COMMERCE CHAMBER REPORT CLAIMS

WASHINGTON, Jan. 4.—Indications of continued commercial activity for several months, at least substantially above the level for 1922 is forecast in the final report for the year of the committee on statistics and standards of the United States Chamber of Commerce. The report made public yesterday by Archer Wall Douglas, the committee chairman, declared general business to be on a definite upgrade after having passed the "normal point" in November.

Business activity as surveyed since the beginning of the World War reached an extreme height of 15 per cent above normal late in 1916, according to the report which traces the recession then to the lowest ebb about the middle of 1921. At that time, the report says, it was 18 per cent below normal. The recovery has been accomplished, it adds, "in spite of many influences tending to restrict business activity."

Advances in fabricated materials, accompanying the recovery, the report goes on, are looked upon with suspicion by dealers and consumers unless it can be shown that they are warranted by the facts of the situation. The advances in prices thus are meeting with stubborn resistance," it states, and contrary to usual experience they are a handicap, rather than an incentive to buying.

Heavy construction and building activities is predicted during the coming spring except in localities where agricultural crops are scanty and prices unremunerative. "But it is evident," the report continues, "that high prices for labor and material will soon bring building activity to its peak, especially as it is only an apparently short time ahead when the necessity which prompted this activity throughout the past year will be satisfied to a large measure."

Concerning mining conditions the committee says that in the greater part of the country the situation ranges from "fair to good."

Nowhere, however, is it fully employed and in the case of crude oil, an over-production is apparent. Coal mining has about caught up with the demand, particularly in the west, while few mines are running more than three-quarters time.

Taking up general conditions sectionally, the report continues:

"New England, Manufacturing conditions are generally good. This is especially true of such lines as shoes and textiles. Retail business, however, is somewhat adversely affected as a result of the prolonged strikes now ended. Agriculture is not in such good shape, especially in Maine, where the raising of Irish potatoes suffers from the double combination

of a disappointing crop and exceedingly lower prices.

"South—Throughout the cotton belt the nature of business depends upon the size of the cotton crop in each particular locality, as the price is unusually high, which means prosperity to those who own cotton. The cotton is practically all ginned and has largely passed out of the hands of the farmers and planters. Long standing obligations are being settled by the latter to a very great extent, and there is more buying in the South generally than for two years past.

Buying is still of a conservative nature, however. Broadly speaking the entire South offers the promise of very good business during the winter and spring.

"Middle West—All the industries other than agriculture are well employed. At this time there prevails advancing prices on the important farm products, such as corn and wheat materially fair prices on hogs and sheep and generally low prices on cattle. The dairy industry is a very present help in time of trouble.

"West—In that part of the country West of a line drawn north and south from the center of the state of Kansas to the Rocky Mountains there are not so many good spots, rather more poor ones, although fair conditions are in the ascendant. Much of the trouble comes from the distance of this part of the country away from the primary markets, where the greater part of the agricultural products are sold. Freight rates are a very serious handicap.

"Pacific coast—California is in fine shape, owing to the influx of visitors and of new residents; the fairly good crop yields with fairly good prices and the large amount of building going on. Much of the Pacific slope sections of Oregon and Washington are better than the eastern portions because of activity in lumber in dairy interest and commerce on the sea."

### STATE OFFICIALS MEET PARDON BOARD AT TALLAHASSEE

(By The Associated Press)  
TALLAHASSEE, Jan. 4.—Officials of the state administration who also compose the pardoning board met in executive session in the governor's office at noon. The nature of their business scheduled was not disclosed. Another meeting scheduled for later in the week was moved up because, it is understood, one member must be out of the city at that date.

For residence use a telephone and electric table lamp have been combined, the transmitter being hidden under the lamp shade when it is not in use.

## BONAR LAW SPEAKS TODAY TO PREMIERS

### CONFERENCE MAY END TODAY UNLESS SOMETHING IS DONE

(By The Associated Press)  
PARIS, Jan. 4.—At today's session of the premiers conference which adjourned at 4:30 for an hour Premier Poincare read what amounted to virtual ultimatum to the British to say yes or no to the French reparations proposition or else discontinue the conference according to the British delegate. Shortly before the session the Italian delegation deposited fresh propositions in a final attempt to save the conference from a breakdown.

PARIS, Jan. 4.—The conference re-assembled at 5:30. Sir Phillip Lloyd Greame, of the British delegation, said a brief adjournment could not be taken as hopeful sign and the conference would probably break up tonight.

PARIS, Jan. 4.—Rupture of the premier's conference, with all its dangerous possibilities for Europe and the Near East, was barely avoided yesterday by a recess until today, when the unfinished declaration by the British prime minister, Bonar Law, in reply to Premier Poincare and Theunis, will be completed, and Marquis Della Torretta will have a formal opportunity to state the Italian government's position.

The conference, in the judgment of both French and British delegates will probably end today without an agreement, thus breaking up unity among the Allied governments, upon which the policies of all the principal western powers are based.

There is much dismay and anxiety over the situation. The tone of the conference has been cordial enough, but the British and French views are irreconcilable as they stand now. Mr. Bonar Law is regarded by the French as personally desirous of doing all he reasonably can to prevent a break, but since the publication of the British and French views are irreconcilable as they stand now. Mr. Bonar Law is regarded by the French as personally desirous of doing all he reasonably can to prevent a break, but since the publication of the British plan he is thought to be limited absolutely by his own proposition, or propositions, which in the view of the French were prepared by officials of the British treasury in co-operation with Sir John Bradbury, British member of the reparations commission, and Lord D'Abernon, British ambassador to Germany.

The British premier, therefore, finds it well nigh impossible to accept on a basis of discussion either the French or Italian plans without taking into consideration the British plan, from which they differ so radically.

### J. P. BECKWITH DIES OF PNEUMONIA AT SON'S MIAMI HOME

MIAMI, Jan. 4.—J. P. Beckwith, vice president of the Florida East Coast railroad company died at 1:20 o'clock yesterday morning in his son's home in this city of double pneumonia, a sequel of an attack of la grippe suffered recently while on a trip from New York to his home in Jacksonville.

The body of J. P. Beckwith, vice president of the Florida East Coast Railroad company who died here last night at the home of his son will leave tonight for Jacksonville, accompanied by his widow, daughter and son. Funeral services will be held in Jacksonville Sunday afternoon.

### FIRST EVIDENCE OF BUDGET SYSTEM IN STATE DEPARTMENTS

TALLAHASSEE, Jan. 4.—First evidence of the budget system as provided for by the 1921 legislature to cover the biennial appropriations for the various departments of the state government, made their appearance at the capitol today when printed forms passed from the office of the governor to the other offices calling for estimated financial needs.

The filled in forms are to be presented to the budget commission composed of Governor Hardee, Attorney General Buford and State Treasurer Luning. All the appropriations sought by the departments will be incorporated in the budget to be presented to the legislature which meets in April.

## BOOZE CASES OF STEAMSHIP LINES UP FOR ARGUMENT IN SUPREME COURT TODAY

### FOUR MEN CHARGED WITH ARSON GET BAIL

HAD BEEN SENTENCED TO TEN YEARS AT RAIFORD

(By The Associated Press)  
ARCADIA, Jan. 4.—W. T. Gould, one of four men charged with arson on October 24, has been released from jail on a five thousand dollar bond. The attorney for the others stated he would ask that \$10,000 bond for two of the others be released. They were convicted and sentenced to ten years at Raiford, but one of them appealed the case and they are being held pending new trial. Bond for James Bigley, step son of Gould was placed at one thousand dollars.

### CAVALRY DUTY IS CONTINUED AT MER ROUGE

WILL BE MOVED TO BASTROP  
SAI DTO BE SIGNIFICANT

(By The Associated Press)  
MONROE, Jan. 4.—Jennings Cavalry, on duty at Mer Rouge in connection with the Moorehouse kidnaping investigations has been ordered divided and half instructed to move to Bastrop, it was announced today by Colonel Guerre commanding the troop stationed at Moorehouse. The significance of the order is not learned. To this trip is understood to be assigned the task of making arrests and issuing subpoenas for open hearing.

### DRASTIC LAWS NEEDED SARY TO PROTECT ROADS

TAVARES, Jan. 4.—If no drastic state-wide legislation is effective after the next legislature, Lake county will have a local bill that will cover the ground, for at the last meeting of the Lake county chamber of commerce a strong committee was appointed to confer with Engineer Heller and Chairman H. C. Duncan to draw up a bill to regulate and control the weight and load and speed of trucks traveling over the highways of Lake county, and provide penalties for violation of the law. There will also be incorporated in the bill a provision to give police powers to the foremen of road crews, and to provide same with weighing jacks, so that any truck's weight and load can be ascertained. The heavy hauling by wholesale houses, some contractors and orange buyers is damaging roads faster than the road crews can repair same. Drastic laws are necessary as Lake county's permanent roads will have to be rebuilt. Trucks carrying three to four tons speed at 20 to 30 miles an hour over the roads at all hours.

The special road committee also learned through Engineer Heller that it would cost about \$200,000 a year to properly maintain the roads of Lake county under normal traffic, and the committee was continued over until the February meeting to sound public opinion and consider for the near future the hard-surfacing of some 328 miles of sand-clay roads in the county.—Eustis Lake Region.

## SUSPENSION BRIDGE BREAKS, PRECIPITATES PEOPLE BELOW IN FLOOD WATERS OF RIVER

### Kelso, Washington, Scene of Disastrous Accident Last Night

KELSO, Washington, Jan. 4.—The names of eight missing persons were made known while estimates the number lost ran as high as thirty when the rescue parties resumed search of wreckage strewn flood waters of Cowlitz river into which old suspension bridge here collapsed last night. From fifty to one hundred pedestrians and one truck and at least ten passenger automobiles were on the bridge when it fell. One of the rescued died this morning.

KELSO, Washington, Jan. 4.—Search of the wreckage of collapsed Cowlitz river bridge began at daylight this morning and efforts are being made to determine the number of lives lost when the span collapsed at five o'clock last evening carrying vehicles and pedestrians to swirling torrent of flooded river. In addition to one known dead thirty persons are reported missing and nine are in the hospitals more or less seriously injured.

### WILL CONTEST CONSTRUCTION PLACED UPON THE AMENDMENT

By Daugherty Foreign Ships Be Prohibited from Entering U. S. Waters With Liquors

(By The Associated Press)  
WASHINGTON, Jan. 4.—Ten cases brought by foreign steamship companies and two brought by American operators to contest the construction placed by Attorney General Daugherty upon the prohibition amendment and enforcement act were up for oral argument in the supreme court today. Under the ruling, foreign ships would be prohibited from entering American waters with intoxicating liquor in sea stores and American ships also would be prohibited having such liquor aboard at any place. Argument will continue tomorrow with a notable array of counsel, including former Attorney General Wickersham who is representing the foreign steamship lines.

### GASOLINE TAX AND HIGHER LICENSE FEES BEFORE INDIANA LAWMAKERS

(By The Associated Press)  
INDIANAPOLIS, Ind., Jan. 4.—A gasoline tax of two cents per gallon, an increase ranging from 50 to 100 per cent in automobile license fees, thorough consideration of proposed plans for improving education, appropriation of \$1,000,000 to continue the new reformatory building program, and general economy in appropriations, are included in the program which Governor McCray is expected to present to the legislature, which convenes today. Tax legislation, as a purely partisan measure, may be introduced by the Democrats, whose platform favored "home rule" in control over tax levies and bond issues. Governor McCray and other Republican leaders believe such authority should remain with the state tax board.

The closeness of Republican and Democrat division in the legislature precludes the passage of a great amount of purely partisan measures. The senate has 32 Republicans and 18 Democrats and the house 52 Republicans and 48 Democrats. At caucuses held by Democratic leaders and the minority members of both houses, any intention of obstructing the Republican program, was disclaimed, although all majority measures will be closely scrutinized. The Democrats charged extravagance in reformatory construction work during the campaign.

A discussion of the primary law has been held by both parties and Governor McCray is quoted as favoring repeal of those sections relating to presidential candidates. There is, however, a divided sentiment among the legislators, some favoring repeal or amendment of the measure, others demanding that it remain intact.

The gasoline tax and increased automobile license fees are generally favored with a division as to the disposition of the increased revenue. Many members of both parties have expressed themselves as believing the money should be devoted to the highway construction, the direct highway tax be abolished, and that the increased fees be not used to provide additional general revenue.

BULL!

None of that in this shop—everything we tell you is straight goods, no misrepresentations in goods or prices—this is the store of reliable, fair dealing, square prices and superior service.

Give Us a Trial and We Will Do the Rest

Wednesday—General Business meeting of the Woman's Club. Wednesday—Mrs. F. E. Roumillat will entertain the members of the Fort-nightly Bridge Club.

SANFORD COUNCIL OF MUSIC

The Sanford Council of Music will meet Saturday afternoon at 3 o'clock at the studio of Mrs. Fannie S. Munson on Myrtle avenue.

HYGIENE NURSE AT ORLANDO

Miss Ruth Mettinger, maternity and infant hygiene nurse of the State Department of Health, is now in Orange county in the interest of the work provided by the Shepherd Tower bill.

KIWANIS CLUB HOPS OFF ON RIGHT FOOT

(Continued from Page One) A. K. Rossiter—That his celery and family will continue to grow. A. Raffeld—That he will not sing Liza Jane this year.

LOCALS

Weather report evidently says rain today.

Cold weather would be most welcome now with the celery crop ready to move.

Rain and cloudy weather is hard on the golf players who are trying to get up a better average.

Wallace Bell has returned to the University of North Carolina where he will resume his studies.

DeWitt Miller and George McCulloch of Orlando were among visitors to the city yesterday and dined with the Rotary club.

Tom Moore, the Optometrist, has an advertisement of importance to the public in this issue. To see better see Moore.

Mr. and Mrs. Edgar Ball have returned from a trip to St. Petersburg where they spent New Years and enjoyed a trip through the country.

Mr. and Mrs. Victor Check are in Orlando today the guests of the Broad Roads Production Co., to see the first private showing of their play The Broad Road.

Peter Piper McGraw, secretary of the Typographical union with headquarters in Orlando, was in the city today and collected union dues and assessments from every son of a gun in the Herald office.

Pullman Connelly, the long legged foreman and makeup man on the Orlando Morning Sentinel was in the city today and called at the Herald office to see a real newspaper printing plant.

S. T. Kennedy, linotype operator on the Orlando Sentinel was in the city today and paid the Herald office an appreciated visit. Mr. Kennedy was on the New Smyrna News for some time last summer.

Mrs. J. L. Selman and daughter, Miss Ruth, of Atlanta, are the guests of her son, Dr. Guy S. Selman and wife at their home on Elm avenue.

Otis George, the new professional in charge of the golf links, took hold yesterday and is looking forward to a big season and plenty of visitors.

Curtis Barber, Robert Holly, Jim Sharon, G. W. Spencer, Allen Jones, Otis Cobb, William Fitts and Mr. Malphus are among the Sanford boys returning to Gainesville where they will resume their studies at the University of Florida.

The Churchwell Co. is making a special sale on Men's Pants. They have an extra large stock to select from and have cut the price as low as possible. Remember there are lots of other bargains in the big store besides those mentioned in the ad each day and you will save money if you tell the Churchwell Co. your needs.

Mr. and Mrs. Buttolph will leave Sanford next week for Miami where they will be located for the remainder of the winter. Mr. Buttolph being in charge of the Miami office of the American Fruit Growers. Their many Sanford friends are sorry to have them leave just after they had become real residents.

George H. Milligan of New York is back in Sanford for the season, and is glad to be here. He has been coming to Sanford for many years representing Golden & Co., but is now with J. H. Bros., and will remain here during the celery season. He is a great Sanford booster and never fails to put in a good word for this city when he is travelling in other climes.

Charles Phillips who has a fine grove and farm at Geneva brought in some excellent strawberries yesterday and remembered the editor of the Herald. These berries grown on the highlands, are said to be much sweeter and better in quality than those grown on the lower levels but all strawberries are good to us, although the Phillips brand is mighty fine.

STATE ROAD BOARD MAY MEET JANUARY 22

TALLAHASSEE, Fla., Jan. 3.—The State Road board may meet in quarterly session January 22 or 23. A definite date has not been set as yet but in accordance with the state law the road board has certain businesses to transact 60 days before the legislature meets in April.

Of every 100 people in the world 18 live in India.

THE WEATHER

For Florida: Local rains Wednesday; Thursday, fair and cooler.

American Legion Will Help Capture Grover C. Bergdoll

(By The Associated Press) WILMINGTON, N. C., Jan. 3.—The coast guard cutter Modoc left port yesterday afternoon to intercept the American steamer Aquarius, bound from Bremen to Wilmington, following receipt of reports that Grover Cleveland Bergdoll, alleged draft evader, is on board, Department of Justice men accompanied the cutter.

The Aquarius is due to reach port this afternoon, but agents of the ship said last night that the cutter should meet the Aquarius by daylight.

Additional credence is given the report that Bergdoll intends to land in Wilmington, by the fact that agents of the department of justice have for two days kept under surveillance two suspicious persons, believed to be former friends of the draft evader.

In the event Bergdoll is dropped in a small boat before the cutter reaches the Aquarius the local post of the American Legion has made elaborate plans to capture him.

FLORIDA FISH AND GAME ASSOCIATION WILL MEET IN TAMPA ON FEB. 7

Sportsmen of the state will hold a special meeting in Tampa Wednesday, Feb. 7, to frame laws to protect and conserve Florida's fish and game according to an announcement Monday night by President R. E. L. Chaney of the Florida Fish and Game Protective Association.

At present there are some twenty counties represented in the state association. Representation at the state convention will be one delegate for every 20 members or fractional part thereof.

Plans for the state meeting are that the board of governors of the state association will meet in the morning of Feb. 7, with the session of the association proper to follow in the afternoon. Preliminary work for the convention will be done by the legislative committee of the state body at a meeting to be held here the latter part of this month.

A Hillsborough County association committee, composed of H. S. Phillips, chairman, L. M. Hutton, Jr., Hugh Gulley, rank Wright and W. G. Spence was appointed Monday night by President Chaney to outline such recommendations for proposed laws as may be deemed adequate and proper.

Entertainment plans for the state meeting include a banquet, theatre party, visits to the fair and other features. Hardy Hart, chairman, Dr. K. K. Eychaner and L. M. Hutton, Jr., were named an entertainment committee, while Frank Wright was named a committee of one to confer with other committees in securing a meeting place for the session.

Because of his duties as president of the state association and as a member of the legislative committee President Chaney tendered his resignation as head of the county body, but consented to remain in office until after the state meeting following a rising vote by the local association that he do this.

LEESBURG JOINS LIST OF COMMISSION CITIES

LEESBURG, Jan. 3.—Leesburg launched upon a commission form of government today. The board of city commissioners which went into office last night were Dr. W. A. MacKenzie, former mayor; Dr. C. B. Gable, A. H. Bourley and Henry L. Wiley.

UTILITIES OF STATE VALUED AT \$53,836,966

TALLAHASSEE, Jan. 3.—Railroads, telegraph and Pullman companies in Florida are assessed \$2,722,164.60 as their share of taxes for state, county, sub and special school, road and bridge districts in the state for 1922. This amount is based on a total valuation of all these properties of \$53,836,966.

The railroads are assessed \$2,627,602.64. The total value of road beds, terminal facilities and rolling stock is fixed at \$52,017,414. The truck value is based on 5,229.62 miles of main track valued at \$31,987,039 and 1,124.39 miles of side track valued at \$3,700,595. The value of terminals and facilities is fixed at \$6,450,488.

The telegraph companies are assessed on a total value of all property \$1,094,149. Pole mileage totaling 4,209 1/2 miles is valued at \$849,765. Cables amounting to 359,069 feet and conduits totaling 78,262 is included in the assessment.

The Pullman companies are assessed on a total value of \$725,994. This assessment is placed on 114 steel sleeping cars, 4 steel parlor cars, 22 wooden sleeping cars and 15 wooden parlor cars.

KNIGHTS TEMPLAR, ATTENTION

The next stated convocation of Taylor Commandery No. 28, K. T. will be held on Friday evening, Jan. 5, commencing at 7:30 sharp.

As this is the first convocation for Taylor Commandery in 1923, the officers will be in changed stations and in order to avoid any delays the officers equipped in full Templar uniforms will report to the captain general L. H. Gibbs, at 7:25 p. m.

A full form opening will be given and for the benefit of every knight the commander will explain the work and tactics.

A drill company will be formed with Captain Frank Akers in command. Captain J. C. Hutchinson will assist and with these two experts Taylor Commandery is assured of having a good company.

A cordial invitation is extended to each and every Knight with or without uniform. Come and you will receive a hearty welcome.

And we are getting that winter weather.

Soon the big celery crop will be moving north and the weather is ideal.

Those who are in a position to know think that the 1923 celery crop at Sanford will be a money maker. It all depends on the price.

All Tampa is on the water wagon until the question about the municipal ownership can be settled. And when Tampa owns her plants she will be a much better city in every way.

Dispatch says that the leader of the former Czar's army comes to America in the steamer. "It is the fortune of war" as the French say and he should not kick on the change in positions.

Woman in New York returning from a party was robbed of \$500,000 worth of jewelry. Any woman returning from a party in New York alone with that much jewelry on her ought to be robbed.

This brings to mind the question about Sanford owning her water plant first and the electric and gas plants also. We should take steps at once to get better water here for in the water is the first kick of the tourist. They cannot stand the smell of the sulphur water—it is not a question of its purity.

We would like to rise and remark that our City Commissioners talk just about right when they say they are all of one mind on the big question of building a bigger and better Sanford. And this is their job for the year of 1923. There is much work to do and the people should assist the City Commissioners and the County Commissioners in every way.

DO YOUR OWN THINKING

"Do your own thinking and don't worry about what 'they' think," says Forbes magazine.

And isn't that the trouble with the world today?

Aren't most of the people you know bothering too much about what "they" think and doing too little thinking for themselves?

The man or woman who does things today is the man or woman who thinks and thinks right, regardless of what others may think about them and their activities.

If you wait for public approval for any contemplated step, you will still be deep in contemplation when Gabriel blows his horn.

That financier or big business man who was charged with or credited with saying: "The public be damned" was not far from the right track, even if his remark was a bit too blunt.

No man can entirely ignore the public, of course, but the man who pays too much attention to what "they" say is just as much in error if not more so, as the man who says "the public be damned."

And why? Because "they" are a very uncertain quantity. Part of "they" says do this. Part of "they" says do that. "They" say yes. "They" say no.

The point, well, the fellow who waits for the public's voice, who pricks his ears to hear what "they" say becomes a mere straw blown every which way—a vacillating, do-nothing nonentity.

The doer, must think out his own course, decide in his own mind the step he sees best to take, and then take it, regardless of consequences or what "they" may say.

It's true, isn't it? Now think about your own course. Have you awaited public approval before acting? Have you asked your own mind: "What will they say?"

And if you have, hasn't it been your experience that in the end you were at a loss which direction to take?

But when you have decided your own course by the compass of your own mind, haven't you had more of success than failure?

Think for yourself and act as you think.—St. Petersburg Times.

START THE BOAT BASIN

It is high time the city officials were busy with the boat basin. It should be started now and let the visiting yachtsmen know that when they return here next year there will be one of the finest boat basins and landing piers in the state here in Sanford.

There is nothing to keep the work from starting except the permission from the War Department and a wire would bring that permission since there is nothing secret or wonderful or extraordinary about a city wanting to build a pier on its lake front. Other cities have applied for this permission and were granted the permission in one tenth of the time it has taken Sanford to get it.

Some of the delay was occasioned because the city did not have the riparian rights but this was cleared away two months ago and the war department has not acted yet according to the officials. The Herald would like to see this work started at once. We have the money on hand and we should have something started to show for the money. It will take the greater part of a year to build this pier and the boat basin unless they work faster than they have ever worked in the past.

GET IN THE CHAMBER OF COMMERCE

The finance committee of the Chamber of Commerce thinks that if all the delinquent members were approached on the subject of paying the dues for 1923 and allow the back dues to become a thing of the past that many members who are now inactive would again become active members and all the dues would start from the first of January, 1923 and could be kept up much easier. The Herald is in accord with the idea as far as the keeping up the dues is concerned and if it will make any of the members pay up the year 1923 and become active members again it would be worth while. The Chamber of Commerce wants the active participation of every man in the city much more than it wants their money although the money is needed and is very acceptable. But if one man pays his dues the other men should do likewise. We are all in the same boat.

DO THIS AND DON'T WORRY

A few years ago the American Bankers' Association, together with other organizations interested in helping the citizen to make life comfortable, issued some advice in the form of "Ten Commandments of Thrift." The code reads:

- 1. Make a budget. 2. Keep an intelligent record of expenditures. 3. Have a bank account. 4. Carry life insurance. 5. Make a will. 6. Own your own home eventually. 7. Pay your bills promptly. 8. Invest in war savings stamps and other government securities. 9. Spend less than you earn. 10. Share with others. Thrift without benevolence is a doubtful blessing.

With the exception of No. 8, which might be brought up to date by reading "Invest in safe securities," the commandments are of present and perennial value. They are worth cutting out and pasting inside the cover of the new account book which opens with the New Year.—Jacksonville Journal.

OVERSTREET'S MAGNIFICENT GIFT

The gift of the Overstreet Company, through Hon. M. O. Overstreet of 100 feet on each side of the road at Robinsons' Spring including the beautiful spring to the Sanford Woman's Club is one of the finest acts ever done in this or Orange county. By this gift Mr. Overstreet has demonstrated he is willing and anxious to assist in beautifying the roads and the county in general. By this act he demonstrates that he thinks about something aside from making money for he could have sold the springs for a

nice sum of money. By his magnificent gift he has perpetuated his memory for many years to come as one of the real philanthropists of Orange and Seminole counties. It has shown by his works that he is a public spirited and progressive citizen who is alive to the best interests not only of his own county but his sister county of Seminole where he has large landed interests. He has also recognized the beauties of nature in the Robinson's Springs tract and rather than desecrate it by the hand of man for commercial purposes he has set it aside—given to the hand of woman—for beautification and sanctity—safe from the hand of vandal and commercial enterprise that would in time destroy the beauties of nature, and he has placed it where it belongs—to the Woman's Club of Sanford, who will keep it inviolate and it will be handed down from generation to generation as a place set apart, as a sacred shrine, as an inner shrine of Nature supplemented by the hand of woman to make it one of the most beautiful spots in Florida and to flourish from year to year until the end of time. Nothing could be so timely just now when the various organizations and the Chamber of Commerce are arranging for a campaign of beautification along the roads. Just half way between Sanford and Orlando, on the brick highway, the springs property is one of the most beautiful parts of the two counties and it will now be a place talked of from one end of the country to the other when the ladies get busy and assisted by the men begin the work of making this property what it should be. It will be a thing of beauty and a joy forever to the donors, to the Woman's Club, to the other organizations, to the county commissioners, and to posterity. It will be an everlasting monument to the fact that "service above self" dominated the spirit of Moses Overstreet when he donated this piece of Florida wonderland to the Woman's Club to have and to hold, to beautify and to make more lovely, to keep and to make it sacred to the memory of real men and real women.

WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING JANUARY 2, 1923

Temperature: The temperature averaged from 3 to 4 degrees above the normal for the week, although it was much below the seasonal average of several days during the forepart of the week when frost formed in the west, interior of the extreme north, and locally in upper portions of the central divisions, the damage even to tender truck was of little moment. In fact, the change to cooler was rather beneficial to the section as a whole.

Sunshine: The sunshine was generally adequate, although below the normal during the forepart and several days near the close of the week. The last day, however, was cloudless, except the south half of the peninsula.

Rainfall: Moderate rains fell over all divisions; they were locally heavy in the central and west-central portions of the peninsula, and in much of the section west of the Apalachicola river. The following totals were reported: Tampa, Apalachicola, and Pensacola, 2.2; Key West, 1.7; Marianna and Pinellas Park, 2.4; St. Petersburg, 3.5; Clermont and Titusville, 1.1, and Bartow, 1.9 inches.

Crops: The rain was beneficial to oats and ranges in the west; and uplands were, also, improved, although plowing was delayed in some instances for a short time, owing to wet low lands. Early oats made good progress—"fine," as some reports indicate; and late seeding is coming up to a good stand; oat planting continues in some localities. The continued mild temperature and the recent rains greatly benefited ranges, which had become rather poor. Truck and citrus trees generally improved during the week, although heavy rains in the south did some damage to tomato plants on the coast. As a rule, however, reports indicate favorable progress; and preparations have begun over more northerly section for the early planting of Irish potatoes. Strawberries made fair to good progress—moderate quantities are in local markets. Standing cane in the south was damaged by worms; the work of grinding has been delayed by the excess of water in the Everglades district. Cabbage, celery, lettuce, peppers and egg plants made fair to good progress, and moderate shipments were made from the central and southern divisions. The bulk of the citrus crop has been shipped from some localities of the belt. Land is being prepared for melons, and fertilizer distributed for spring crops. The close of the week and the advent of the New Year find the farmer, the fruit grower and trucker alive to the generally favorable condition of the soil. The Weather Bureau begs to remind all that demand upon it for warnings of frosts and cold waves commands immediate attention. The Bureau is not only ready to help, but begs to be permitted to do so.

Annual total of automobile injuries is not over 325,000, says Edward S. Jordan.

HERALD COLLECTIONS

The Herald carriers manage and control their routes, pay in advance for all papers drawn, and absolutely depend upon their collections for their running capital and profits. When subscribers neglect to pay them it is the CARRIER and not THE Herald that stands the "brunt."

Subscribers who do not care to pay the carrier each week may pay the Herald two or more months in advance and they will pay the carrier each week from this fund.

This system of delivery is known as the INDEPENDENT CARRIER PLAN and is used by most of the larger newspapers of the country and has proven beyond doubt to be the very best plan of delivery. When a boy manages his own route, buys and sells at a profit he is in business for himself in exactly the same sense as any merchant. He knows he must give service to be successful and build up his business. He knows that every new customer he secures means more profit. In short, he knows he must conduct his business in a capable and efficient manner to be successful.

The Herald earnestly requests its subscribers not to discourage these boys in this, their first business venture, by refusing to pay promptly each week for their newspaper.

THE SANFORD DAILY HERALD.

Believes Political Destinies May Lie In Muscle Shoals

IF FORD OFFER IS REJECTED, AUTO MANUFACTURERS MAY BE NEXT PRESIDENT

"We may come to think of Muscle Shoals as one of the great engineering undertakings of the age, or we may remember it as the reason behind a great political upheaval," writes Samuel Crowther, in an article on "Muscle Shoals" in McClure's Magazine for January.

"If no electrical power comes out of the Shoals, political power most certainly will," Mr. Crowther predicts. Sketching the history of the shoals Mr. Crowther writes:

"The Tennessee River, after considerable meandering among the Southern states takes a trip across northern Alabama. Nature arranged that part of the trip should be made in a hurry. The river drops one hundred and thirty-six feet in thirty-seven miles, and one hundred of these feet in seventeen miles. A century ago the very frowning upon. The State of Alabama tried to build a canal around these shoals. It failed. Then the Federal government leisurely undertook the work, and the war department sent three and one half million dollars in nineteen years in building another canal. It is said the department compiled documents to a bulk greater than the earth excavated, but on this point my information is not wholly trustworthy. The point is that by the time the canal was finished it was so out of date as to be useless.

"The shoals, starting as a small nuisance, became a big nuisance. An appropriation for Muscle Shoals was packed into every pork barrel ever rolled into Congress. The appropriation usually came out very shriveled and stringy. Muscle Shoals got to be a joke. Now Muscle Shoals is more of a nuisance than it ever was, but it is no longer a joke. This river is changing the political countenance of the South and of the Middle West. It may break up a national administration, and it may elect a president. It is stirring activity in Chile and in Wall street.

"Ever since Henry Ford stirred those waters, they have been acting oddly on people! "There is not a great deal of confidence among the proponents of the offer, but it is also their opinion—and it finds support among many of the best informed men in politics—that if the Ford tender is refused, Henry Ford will be the next president of the United States. It is said that not a few highly placed members of the administration are in such positions as not to be able to refute the innuendo that they have opposed his offer from motives of personal gain.

"Ford heard that Muscle Shoals had a potential horse-power of a million. That was enough for him. He took an engineer, went down to see the place, issued a statement that made the wildest dreams of the original promoters look little, and he straightway made an offer to take over the whole operation. He said that the development of this power would employ a million men and make the south.

"For a moment it seemed that the Ford offer would be accepted. Then propaganda against it began to appear. The advocates of acceptance have been equally active.

"The only person who has not taken part in the propaganda has been Mr. Ford. He has intimated that he might have something to say when it is all over, but the most that he has said directly on his offer is this: "It is squarely up to Congress. Every change asked by the committee—save one—has been incorporated. We do not intend to change the offer again—it is squarely up to congress as it now stands."

London has 1600 safety traffic zones.

CUT THIS OUT—IT IS WORTH MONEY!

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Avenue, Chicago, Ill., writing your name and address clearly. **FIRST RAW PULP TURNED OUT AT LEESBURG CORPORATION'S PLANT**

**Digester Goes at Full Force and Turns Out First Batch of Raw Pulp to Be Used in Making Paper**

LEESBURG, Jan. 4.—With the star banded banner flying proudly to the breeze from the tall staff in front of the administration building, the gay flowers in various hues and kinds in the curious formed beds smiling up at the deep blue sky and busy workers running hither and you with eagerness and expectancy depicted smiling countenances, the Grass Fiber Pulp and Paper Corporation turned out its first digester full of raw pulp Saturday afternoon and using the language of one of the men at the mill "the first boil was a great success."

For many months the big mill on the shores of Lake Griffin has been building and because of its stupendousness and the enormity of the undertaking because of delays on account of details to be worked out it has taken longer than at first contemplated but the mill is now finished, the huge harvester is assembled, tried out and found more than adequate for the purpose for which it was built and unless some unforeseen accident occurs the mill will be running in full blast with the new year. One who has never viewed the big mill with its costly, huge and intricate machinery can have no idea of the vastness and the cost of construction. Making paper from saw grass is a new idea and all of the machinery had to be especially manufactured. It was estimated that the giant harvester alone would cost \$60,000 but when it was finished it was found to have cost much more than this. The mill is completely paid for—not one dollar of debt rests upon it.

The trial Saturday was a success and proves that the mill can turn out the very best grade of paper-making pulp, pay the stock holders good dividends on the money invested and materially care for the shortage in paper-making pulp. The "boil" was started Friday night and all the motors and machines in the big plant were humming at the same time. All of the lights were on and those who saw the mill say it was a wonderful sight and gave them a vision of a greater Leesburg.

In the huge-digester was the saw grass that would eventually be pulp—four tons of it—with the chemicals that are necessary for manufacturing that article. Over and over, around and around, went the digester while from the pipes flowed a steady steam to cook the mass. It takes hours of cooking and churning to turn the mass into pulp. When it was finished it was turned out and the chiefs of departments, the laborers and many visitors were standing by to see the great success of the first attempt of making pulp in large quantities at the plant of the Grass Fiber Pulp and Paper Corporation.

And it was a great success and now that it is settled that pulp can be successfully made from saw grass many will feel at ease and there will be fewer doubting Thomases. And pretty soon the mill will be running at full capacity giving employment to hundreds of men.

It is the intention of the Grass Fiber Pulp and Paper Corporation to produce enough pulp to be made into print paper by the Virginia Paper Co. to supply every newspaper in Florida with paper to print an edition. This will be accomplished sometime before the first of March. It can be truthfully said that the pulp mill at Leesburg is a decided success and is one of the greatest, if not the greatest, enterprise in Florida.

### CONGREGATIONALS HAVE BEST BOWLING CLUB DURING FIRST HALF

#### Lead in Pins Bowled by Team and Have Largest Number of Bowlers in Best Fifteen

The Congregational Club lost their first game of the season last night and even with this loss of one game they still stand out as the best bowlers so far this first half. They have more men in the best fifteen bowlers, their team holds the record for the highest team score, one of their men holds the best average for any one night's work and one of their men comes second in the individual game record.

The Congregational Club in holding the first half records are duplicating their stunt of last year. All through last season they held onto first place, winning the pennant with very little opposition. And this season their scores, averages and individual bowling has been even better.

The most opposition they have had or are having this year is the Farmers' Club. The Farmers are pushing them a close second, and should the Champs weaken just a little, the Farmers will take the honors from them in the second half. And pushing the Farmers close, is the Men's Club. These three teams are all made up of good consistent bowlers, and although the Champs stand out as the best it is possible and even probable that the second half which starts the latter part of this month will find a difference.

The following averages and records do not include the game bowled last night:

Three best bowlers in the league—Stevenson, first; Amanns and Pennington tied for second.

Highest individual score for one game, Amanns first, 216, Pennington second, 211.

Highest score for one evening, three games, Stevenson 547. (Steve rolled this score twice).

Highest team score any one evening, Congregationals, 2438.

### Masked Wonders of South Florida Play in Sanford Friday

#### Sanford-Jacksonville Game Called Off, But Team Coming Here is One of Best in Florida

It was officially announced this afternoon that the basket ball game between Sanford and Jacksonville has been called off, but another game, one of more importance to Sanford, will be played Friday night on the Parish house court with the Masked Wonders of South Florida.

The Masked Wonders have a very strong basket ball team and have been winning games from the strongest teams in the state. They wear masks while they play and they are a bunch of lightning. This game will no doubt be one of the hardest fought games that the Sanford boys have been up against this season, but the coach is confident that the speed the Celery Feds are putting up will carry them through the fray with flying colors.

The admission price for this game will not be raised even though more will be seen for the money. Twenty-

### CONGREGATIONALS DROP THEIR FIRST GAME OF SEASON—MEN'S CLUB WINS

#### Just Six Pin Majority is All Men's Club Have But Enough to Be First to Put Crimp in Champs Sails

For the first time this season the Congregational Club was defeated. And the honors go to the Men's Club. The game, played last night, on the Parish House alleys goes down in history as one of the best and most interesting games of the season, both sides rolling good scores and the finals being won by the Men's Club by the very narrow margin of six pins.

High honors of the evening went to Pennington, who lacked one pin of bowling 500, with DeLefay a close second with 492. Remaud and Betts also bowled good games.

The loss of this one game by the Congregational Club gives the Farmers one more chance at the first half pennant, as they now have a chance of tying with the Champs. The Farmers bowl with the Rotes tonight and should have little difficulty in winning, and then should both the Champs and Farmers win their remaining games until it comes time for these two teams to meet each other, that game would decide the first half pennant winners.

The scores for last night's games were as follows:

Congregationals			
Pennington	139	189	171
Jewett	113	146	140
A. Renaud	137	189	144
Thurston	176	149	97
L. Renaud	177	150	148
Totals			2265

Men's Club			
Betts	152	181	150
May	151	148	167
Overlin	180	131	134
Fox	141	128	110
DeLefay	146	153	193
Totals			2271

Standing of the Clubs			
	Won	Lost	Pct.
Congregationals	9	1	.900
Farmers	7	2	.777
Men's Club	7	3	.700
Rotary Club	3	6	.333
Merchants	2	7	.222
Chase & Co.	0	9	.000

### CELERY SEED

Things warming up now in the bowling league.

First half will close with several hard fought battles.

The Masked Wonders will be at the Parish House Friday night.

The Masked Wonders are a bunch of greased lightning. They have one of the best teams in the state. Be sure to see them.

The girls basket ball team refused to go so far from home without the boys and when the boys game with Jacksonville was called off the girls did likewise and will play at home Friday night.

The name of the girls team visiting here Friday will be announced later. This gives the fans a double header for one price. And you can bet they will be two good games.

Otis George is busy handing out instructions at the golf links. Make a date with him and improve your play. It will make you take more interest in the game once you really know how to play.

Water, oil, grease and light are the tire's worst enemies.

### UPSALA AND GRAPEVILLE

Mr. D.B. Hodges and family paid her parents, Mr. and Mrs. Ehrenspenger a visit over Sunday, the 31st.

Mrs. Anna DeForest spent a number of days in Jacksonville, returning home the last of the week. We hear she has purchased a fine new Buick automobile.

Mrs. A. E. Westerdick is still ill at the home of her daughter, Mrs. Barney Beck, we are sorry to hear, from a relapse of the flu.

Mrs. August Swanson is nursing again in town, since last Friday.

Mrs. Edgar Ehrenspenger and his friend Mr. Frank Baird from Waycross, Ga., visited at the homes of Mr. and Mrs. Ehrenspenger and Mr. and Mrs. D. B. Hodges in town over Xmas.

Everybody who attended the Xmas cantata on Friday night at the Lutheran church was delighted with the splendid program of music given by the 15 trained voices brought here by Rev. Eckhart, from Pierson, and DeLand. Sorry that sickness caused us to miss all the good things. He will be libre again for preaching at 7:00 next Sunday evening.

A fine sermon was also given there on Sunday evening, the house being filled to overflowing. All listened reverently for an hour and a half, during which time, also, testimonies were given. A lunch was served at 11:00 of hot coffee and as the old year passed out 5 minutes was spent in silent prayer; then Solomon Anderson rang the bell, and they closed with a song of praise and thanksgiving to God.

Mrs. Mary Clark passed away Monday night at the Fernald-Laughton hospital where she was taken last Thursday by the Red Cross nurse that she might have the care needed. We are all sorry she would not consent to go sooner, before she got so weak. The arrangements have not been made yet for the funeral. She was the widow of the late George Clark of Willamantic, Conn., and his daughter, Mrs. Florence Faussett, is expected.

Mrs. G. Hirsch with Margaret and Bernard Woodward Bertleson and Mr. and Mrs. Ballinger were Thursday callers to see Rev. J. S. Clark and wife. We found the good man busy with a big wheelbarrow of wood while the wife was entertaining the daughter, Mrs. Podmore and baby from Rollins College, who have been there since Sunday. Baby Clark can walk all about the room now, and he looked so cute when he came across the room with a long necktie on and Mr. B.'s hat tilted on his head. We hope to have Rev. Clark with us next Sunday after Sunday school at 3:30.

At the election of officers for the Supply school all the old ones were re-elected. \$10.95 has been given for home missions, \$12.70 for missions, and we still have \$8.89 in the treasury after paying for the three months supplies.

Clarence Bergquist and his sister Miss Ruth have returned after spending the holidays with their parents at Tiger Bay.

Walfrid Pierson is still suffering with carbuncles on his neck.

Lonnie Gammage and four children of Americus, Ga., visited for a number of days last week with his nephew and wife, Mr. and Mrs. Volle Williams and his father, C. M.

Mrs. Jack Vaughn killed 8 quail, we hear, at one shot on Mrs. Clarks' place and gave them to Mrs. Beck, all but one the cat got.

Little Volle Williams was sick on Tuesday, with his old trouble, malaria, but Dr. Tolar was called and he hopes to check it in time.

Written last week but too sick to send it in.

Mrs. Benton came up from Orlando to help care for Mrs. Westerdick the first of the week, then Mrs. Beck took her over to her home.

Mr. and Mrs. Beck and children, Charles, Minnie and Barnwell spent Christmas with her parents.

Mr. Bridgeman has had a pretty sick house of late. Luther was very ill from gall stones, Sadie has been sick with boils, and one of the men boarding there has a broken leg, caused by falling off a box car.

Mr. and Mrs. Bert Smith and son and daughter, Major Henderson and wife all of Monroe spent the day on Christmas with Will Henderson, wife and family.

Emil Magnuson came up Saturday from Windermere to spend Christmas with his sister, Mrs. J. E. Lundquist and other relatives here.

Elmer Tyler and sister, Miss Eunice and grandmother Mrs. Bengston, also came with him to visit their folks Mr. and Mrs. Tyner, Mr. and Mrs. Noah Fry came up Sunday.

There was a Christmas tree on Saturday night at the home of Mr. and Mrs. Andrew Bertleson to which Mr. and Mrs. Alfred Ericson and children Mr. and Mrs. John Borrel and Woodard Bertleson were present. All of them and Emil Magnuson went over to Deland to see their sister Mrs. Karr the next day.

There was a big dinner on Sunday at the home of Mrs. J. E. Lundquist to which some 30 sat down; one car with six in came all the way from Ft. Meade in which were Hilmer and his partner, Mr. Everett and wife, Gardner came from Pensacola; the daughter and family; Mr. and Mrs. A. Swanson and Aichee were also among those present, also her brother Emil Magnuson.

The family also took dinner there on Christmas day.

We were invited out to the Christmas tree at the country home of Mr. and Mrs. Collier, but too ill with a cold to go; Mr. and Mrs. Forrest West and sons Leonard and Donald and Mr. and Mrs. Charles Cramer and Glen and Curtis, all enjoyed it very

much, and Santa Claus did not forget us if we could not go.

Mr. and Mrs. Harold Haskins were caller at the home of Mr. and Mrs. Noise and children, while Grandpa Malm took dinner with Mr. and Mrs. Hamil Tolar.

Mrs. Geo. Clark wishes us to thank all the folks who so generally remembered her at Christmas time. She had a perfect shower of groceries and good things to eat. Miss Smith, the Red Cross worker brought out a basket. Mr. Taylor's store in Goldsboro sent out one, Mrs. DeForest sent her \$5.00 as usual, and the Upsala Sunday school sent her a big basket full. She has been worse than usual, almost bed-ridden. Mrs. Jack Vaughn also took her over one that was meant for herself from the Episcopal minister.

### ELECT WOMAN MEMBER OF DUNEDIN COUNCIL

DUNEDIN, Jan. 2.—A. J. Grant, N. V. McLean and Mrs. Charles Knight were elected members of the city council at yesterday's city election. Pery G. Niven was elected tax assessor and collector and William Y. Douglass and R. F. Blatchley as bond trustees.

A pumping station on a California river the level of which varies more than 60 feet at certain seasons has been mounted on an inclined railway on which it can be lowered to the water.

Never leave the car rest on a deflated tire.

Nu-Tile Shingles might easily be called the "roof immortal", as an experience of more than twelve years where Nu-Tile roofs have been protecting the property of home owners does not show the least signs of wearing out. Nor do they "curl up."

Save your money by paying a little more for Nu-Tile and getting the shingle that is always on the job!

Three colors—Tile Red, Snow White and Green. Also all kinds of roll roofing.

### OVIEDO

Mr. and Mrs. S. R. Wainwright entertained at a family dinner Christmas day. Those present were: Mr. and Mrs. S. R. Wainwright and four children, Mr. and Mrs. T. E. Wainwright of Sanford, Mr. and Mrs. Harry Bayborn and baby of Sanford, J. A. Rice and wife of Miami, Curtis Woodcock, Palmer Woodcock and Mr. Lipsev of Clearwater. A table was built in the yard and dinner was served under the orange-trees.

Mrs. W. P. Carter entertained her Sunday school class Saturday night before Christmas with a party at the club house.

The annual Christmas concert given by the Methodist and Baptist Sunday schools, was held on Friday night, December 22nd at the P. O. Club.

Miss M. G. Moore, of North Carolina, is visiting her sister, Mrs. W. J. Varn.

Rev. Alan MacFarlan, pastor of the Methodist church, preached his first sermon Sunday morning, Dec. 31st. Rev. MacFarlane comes to Oviedo from South Jacksonville. Rev. L. E. Wright and family left by auto Friday morning for their new home at Cedar Key, Fla. Their many friends wish for them a happy year and great success in their ministerial work.

Mr. and Mrs. T. J. Brannon returned Tuesday from Jacksonville where they spent Christmas with their daughters, Misses Mary and Alice Brannon. Mr. Brannon also visited his daughter in Atlanta one week.

Nelson & Company's packing home resumed work Friday after a week's vacation during Christmas.

W. C. Moore spent Christmas with his parents in North Carolina.

Miss Florence Wheeler entertained the girls in the Oviedo on Thursday night at a party at her home. On the same evening E. L. Mead entertained his sons and former guests at a party at the Lake Charm club. Each party reported a most delightful evening.

Mr. and Mrs. F. T. Lingley, two sons Douglas and Arnes, and their daughter, Miss Hazel, arrived Tuesday from Canada. The Lingleys have many friends in Oviedo who extend to them a hearty welcome and are delighted to learn that at least a part of the family expect to stay all winter. After a short visit it will be necessary for Miss Lingley to return to her college work and Mr. Lingley to his business in Canada but Mrs. Lingley and the boys will remain through the cold weather and while here will be located at their own house opposite the B. F. Wheeler home.

Miss Catherine Young entertained a few of her friends New Year's night at a jolly good time party.

Misses Elizabeth Lawton, Catherine Young, Mable Swope and Walter Carter and Edward McCall returned Tuesday to college.

Mrs. A. K. Crawford, Miss Nell King and Mr. and Mrs. Z. Spinks and baby Ann, spent Christmas day with their mother, Mrs. M. M. King.

Mr. and Mrs. Frank Norris and R. M. W. Sturdivant were visitors to Sanford Tuesday.

Mr. and Mrs. Sidney Swope, of Wichita, Kansas, are visiting the family of their brother, O. P. Swope.

Mr. and Mrs. O. G. Wolcott were in Sanford attending to business Tuesday.

Mr. and Mrs. C. S. Lee entertained at a dinner on New Year's eve. The guests were Mr. and Mrs. S. W. Swope, Francis Swope, Miss Mable Swope, Shirley Swope, Mr. and Mrs. Vern Slay, Mr. and Mrs. W. P. Carter, Walter Carter and Mrs. J. H. Lee, Sr.

Mr. and Mrs. O. P. Swope, Mr. and Mrs. Sid Swope, Sidney Swope, jr., and baby Oliver spent Sunday at Daytona Beach.

Mr. and Mrs. S. W. Swope, Francis Swope and Miss Mable Swope spent Tuesday in Orlando and Sanford.

Miss Nell Williams returned home Saturday after a pleasant visit to her grandfather at Fort Myers.
