me think of a lady who came down here the other day from New York and was unable to buy a ticket to Sanford until she had laboriously explained to the ticket agent in the Pennsylvania station that Sanford was on the main line of the A. C. L. Railway. The agent insisted that Sanford was on the Seaboard and this lady who lived in Sanford finally had to tell him straight that he should be plowing in the field instead of trying to sell tickets. And eventually he sold her a ticket through to Sanford. This should be remedied by the Coast Line as I am quite sure they do not know about this diverying of passenger traffic at the Pennsylvania sta-

Chamber of Commerce luncheon yesterday when he told of the many reasons why he had become enamored of Sanford. Mr. Borchart who lives in Milwaukee has been all over the world and knows his "eggs" when it comes to locations. His praise of Sanford streets and improvements and the ball park were enough to make Frank Forster straighten up in his chair and pat himself on the head. And it is this impressing of strangers that will eventually make Sanford the greatest

Some people take an active interest in their lodge, some people take an active interest in their church, some people devote all their time to their business, others play most of the time—all of them have their various hobbies and places where they spend the major portion of their time but most of them make, a fetish of their particular business to the exclusion of everything else. A good citizen should take an active interest in every line of interest in their Chamber of Commerce. We could not do anything worth while here without our Chamber of Commerce and while the membership is growing it should be growing more rapidly. You are not a good citizen if you fail to take an interest in the Chamber of Commerce but you are a slacker when you allow your neighbor to do your share of the real work of upbuilding your city and country.

JUST IN PASSING By R. J. HOLLY

Tag Day for the hospital reminds me of the early days when this institution was in the making and of many struggles to put it over. Also that no public hospital pays and there is always a drive to get more funds. Tag Day is all right but all of these days should be put into the Community Chest and the worry of the ladies and of the citizens would be over for good and all time.

That big and enthusiastic crowd at the golf links yesterday proves that golf could be made one of our greatest assets if we would just go after it as we should. And all the visitors say that our course and country club is of the best and certainly one of the most beautiful spots in the world.
