

WHAT IT MEANS

By MORGAN M. BRATTY

WASHINGTON, Feb. 11.—The holding company made possible such top-heavy financial empires as the small utility group, which crashed in 1929 with losses to thousands of investors, many of whom did not even understand what kind of securities they had bought.

Under Test New

Abuses have led to some congressional interference with the holding company device. The present law provides that utilities must form their holding companies only in "integrated" areas, that is, in adjoining states. They can't scatter themselves all over the map. That law is being tested in the supreme court.

Although the utility holding company is more familiar to the newspaper reader than other types of holding operations, the device is in common use throughout industry and banking.

United States Steel uses it to assure smooth, powerful management in its subsidiaries, as well as to keep its financial structure trim. American Telephone and Telegraph is a holding company that harmonizes the management of its state and regional companies, at the same time giving local companies a wide measure of control in local matters. But even A. T. & T. has run into complaints from the Federal Communications commission.

Device Is Defended

An officer of one of the nation's most efficient corporation holding groups tells me he thinks the device can be efficient, legitimate and convenient. However, he believes it has been abused widely by people who are after quick profits rather than sound business progress.

This executive says the test of a holding company is its ability to finance subsidiaries and to increase their efficiency in producing a cheaper and better product for the consumer.

Just A Service Fee

At the same time, the parent holding corporation can charge its children to adopt efficient methods and put out a better product.

The holding company device has become so popular that it has been tempting by the possibility of pyramiding. Some holding companies have shipped water into their parent houses as they piled one company on another and have forced operating corporations to pay enormous fees for "services" or have even borrowed money from them.

The number of financial times it is possible to play on the holding company game, in fact, is almost as great as the flood coming from Tin Pan Alley.

Saint Augustine's Restoration Plans Carried Forward

ST. AUGUSTINE, Feb. 11.—(AP)—Archaeologists working on the restoration of historic St. Augustine have recovered more than 100,000 objects here.

The object of the project is to reconstruct many of the scenes connected with the history of this city, the oldest town in the United States.

The project is under the direction of the Carnegie Institution of Washington, D. C., and the city of St. Augustine.

Excavations have uncovered broken and whole pottery, bones, shells, pipes, arrowheads, bone hairpins, oil, wine, and water jugs, hinges, chimes, coils, iron buttons, candle snuffers, glasses, pewee spoons, leg irons, brass buttons, bullets, per's of guns of various types, baskets, pots and many other objects.

St. Augustine was founded in 1565 and was the first permanent white settlement on the Atlantic seaboard of North America. The historical restoration, however, is

THE QUEST

GOLD

De Soto

STORIES of gold nuggets traded to first explorers by Florida Indians fired the hopes of Hernando de Soto. Seeking gold he set out from Spain and landed on the West Coast of Florida in 1539. His daughter, Sara, died in the New World—was buried—legend says—in the bay that now bears her name.

Schuschnigg And Hitler Confer On Rome-Berlin Axis

Meeting Is Held To Pave Way For Union Of Austria And Italy And Germany

Secrecy Surrounds Important Session

Tension Eases In German Army Because New High Command

VIENNA, Feb. 12.—(AP)—Chancellor Kurt von Schuschnigg of Austria met Reichsfuehrer Adolf Hitler of Germany for a three-day conference today, at the urgent suggestion of Benito Mussolini of Italy.

The Austrian cabinet met in continuous session as Schuschnigg conferred with Hitler at the German Fuehrer's private retreat at Berchtesgaden.

The meeting was arranged with the greatest secrecy. Only sketchy reports of the meeting reached Vienna, but one message, purporting to come directly from the Austrian chancellery, said the outlook for improved relations between Austria and Germany was extremely good.

Hitler was held to have urged Schuschnigg to bring Austria more closely into line with the Rome-Berlin axis that links Germany and Italy, Austria's two powerful neighbors.

Austria, troublesome center of European war has been a sore spot in the international relations between Germany and Italy. A majority of Austrian are German-speaking and a union has been one of main desires of the Nazi party and Hitler himself, a native of Austria.

The German army's feeling of trust in its new high command seems to be growing despite the uneasiness caused by Reichsfuehrer Hitler's centralization of control over the armed forces.

The general attitude of the army, as it recovered from the first shock of the purge of high-ranking officers, apparently was one of watchful waiting rather than any immediate worry over further shakeups.

At the same time, however, army circles have not overlooked the fact that radicals in the Nazi party have been seeking to improve Hitler with the need for continued weeding out of rebellious commanders, particularly in the old guard stronghold of Prussia and East Prussia.

Almost as though sensing this attitude, the propaganda ministry issued a statement that no charges were contemplated, apparently to allay whatever unrest may exist in the army.

Reichsfuehrer Hitler shared at the collapse of Romania's Fascist-led government, and the unfriendly reception given his governmental dispatches, and apparently has decided to make a series of gestures of conciliation.

For the present, these are in the direction of Austria, the Catholic Church and the Protestant Church and more may follow.

These moves were given dramatic direction today when Hitler met Chancellor Kurt von Schuschnigg.

Hitler's meeting with Schuschnigg was held in a private retreat at Berchtesgaden, a town in the Bavarian Alps.

Japan Refuses To Show Cards In Naval Race

Intention Is Denied Of Possessing Armament Menacing To Any Other Country

TOKYO, Feb. 12.—(AP)—Japan refused formally tonight to divulge details of her naval construction program to Germany for information by the United States, France and Great Britain. Japan declared, however, that she would accept limitations on a general scale rather than individual ships.

The formal note extended that Japan failed to see any logical reason for assuming she was planning to build warships beyond the limitations of the 1936 London Naval Treaty. The government insisted, moreover, that Japan has "no intention whatever of possessing an armament which would menace other countries."

"More communication of information concerning construction of vessels will, in the absence of quantitative limitation, not contribute to any fair and equitable measure of disarmament," Japan's communication said.

It added that the "Japanese Government will be ready at any moment to enter into any discussion of the matter of disarmament which gives primary importance to a fair, quantitative limitation."

Senate Plans Vote On Farm Measure Monday Afternoon

WASHINGTON, Feb. 12.—(AP)—The Senate voted tonight to pass a bill to amend the Agricultural Adjustment Act of 1933, which provides for the control of farm prices.

The bill, which was introduced by Senator Charles McNary, of Oregon, would amend the act to provide for the control of farm prices.

Midway Point Is Reached In Citrus Sales

14,000,000 Boxes Of Oranges, Grapefruit Tangerines Have Already Been Sold

By HERB MOSHER
When a good football team finds itself at the end of the first half and the game going against it, plans are made to score during the last half. Many a gridiron observer has come back from behind in this fashion, piled up the score over the goal. Just at this season of the year the citrus industry may be compared with a football game. The growers and shippers are the players; the Florida Citrus Commission, the coaching staff. How much time is left to play?

Well, between Feb. 1 and Feb. 15 approximately half of the state's citrus has been shipped to market. This is the way citrus statisticians figure. It is interesting to note that during the first several days of this month (February) Florida had shipped to market just 14,000,000 boxes of fresh fruit—oranges, grapefruit and tangerines.

This would indicate that for the entire season shipment will reach approximately 28,000,000 boxes.

Now, how about the score? The following table of figures shows the average price on regular Florida fruit, delivered at auction, for approximately half of the 1937-38 shipping period. A study of the figures shows clearly that the price has been going steadily up since "kickoff" away back last autumn. But there is still a lot of time left—a lot of fruit to ship.

Republicans Will Make Lincoln Day Speeches Tonight

WASHINGTON, Feb. 12.—(AP)—Abraham Lincoln Birthday speeches will start the Republican party tonight on the 1938 political campaign aimed primarily at increasing the party's strength in Congress.

Republican senators, representatives and party leaders have been deployed to more than fifty cities, to speak at dinners honoring the memory of the Great Emancipator—and incidentally supplying for party policy, Senator Vandenberg of Michigan, discussed by party members as a possible presidential nominee in 1940, will speak in Boston.

Party officials said efforts in the 1938 campaign will be concentrated in about a hundred congressional districts in hope of picking up between 50 and 60 House seats.

Schools In County To Close For Exposition

All White schools in Seminole County will be dismissed Monday so that school children in the county may attend Children's Day at the Central Florida Exposition which opens Monday.

Shipment during the present season are certain to be several million boxes more than in the previous season, but for 1938-39 a new record might conceivably be being set. Citrus growers and shippers will have to pull together in a manner never before achieved if they are to market successfully the balance of the present season's crop, and also the bumper yield which appears to be in prospect for next season.

Planting of young citrus groves in Florida has been going forward at a steady pace. The trend of citrus production in years to come will be upward, not downward. As the season past, there will be more and more fruit to market. After all, Seminoles probably would have 200,000,000 boxes of Florida fruit in one year, 1940, probably.

Jap Government Admits Soldiers Were Disorderly

Note Says Necessity Arose Because Of Lack Of Supplies

TOKYO, Feb. 12.—(AP)—The Japanese government, answering the United States protest of Jan. 17, today admitted that Japanese soldiers committed disorders in Nanking and illegally entered American property at Hangchow. The Japanese note, however, said the Nanking incidents were the result of an "unavoidable insufficiency of the force detailed to the duty of protecting rights and interests of third powers."

Regarding the Hangchow incidents, the note asserted that supply lines were cut and it was necessary to requisition provisions within that city. The note enumerated measures taken by Japan to prevent any recurrence of such incidents.

Advertising Plan Is Postponed For Current Season

Shippers representing a control in the celery tonnage shipped from Seminole County unanimously recommended that the proposed advertising program for the current celery season be dropped and that the matter be held over until early May when a committee of shippers will begin a campaign to get shippers for an extensive program to continue from three to five years.

Shippings for M. L. Cullum, sales manager for Chase and Company, who presided over the meeting, stated today.

"At the meeting all agreed in favor of an extensive advertising program but it was also agreed that it was not practical to set the program in motion before the next season," Mr. Cullum said.

It was brought out at the meeting that by the time the proposed program was set in motion the season would be too far advanced to derive benefits that would warrant the expenditure of the \$60,000 suggested in the tentative setup.

"A committee of shippers will probably contact the growers for the view of soliciting signups for the program near May 10 to 15," Mr. Cullum said, with the thought in mind of inaugurating the advertising program next October or November."

Seminole-Manatee growers and shippers, who left the decision in the hands of those connected with the industry in Seminole County, expressed themselves as well pleased with the recommendations and pledged co-operation when the advertising program was revived.

Heavy Celery Prorate Set By Committee

One-Quarter Of Shipments To Be Withheld During Week Beginning Feb. 14

Government Asked To Buy Surplus Commodities Corporation Requested To Pay \$1.25 Per Crate

The Florida Celery Industry Control Committee voted to recommend to the Secretary of Agriculture a program of withholding one-quarter of the celery shipments during the week beginning Feb. 14 and an adjournment session passed a resolution requesting the Surplus Commodities Corporation to purchase all surplus of U. S. No. 2 grades or better at \$1.25 per crate during the coming week.

A report offered at the meeting by Secretary J. C. Lottice showed that the average price for 6 dozen sizes on the New York market for the current week had dropped from \$1.75 per crate to \$1.15 per crate and in view of the large increase in the supply available for shipment during the coming week.

CIO Demands That Senate Committee Hear Bridges' Plea

WASHINGTON, Feb. 12.—(AP)—The committee for industrial organization demanded last night that the senate commerce committee grant to its west coast director, Australian-born Harry Bridges, opportunity to appear and defend himself against charges for which his deportation has been asked.

In a sharply worded letter to Senator Copeland, democratic New York, chairman, and other members of the committee, John Brophy, executive CIO director, declared that "the refusal to permit a man to be heard in defense of serious charges that are made against him in itself constitutes an issue of such importance that we do not see how any senator in a democratic representative government can ignore its challenge."

Copeland has refused Bridges' repeated requests for an opportunity to appear, asserting his committee's "which" is investigating conditions in the maritime industry "is not interested in what an alien has to say."

"The matter is one of such simple justice and fundamental right that we are compelled to believe that the senate joint commerce and labor committee will not allow Senator Copeland's decision to stand and will immediately offer Harry Bridges the right to be heard before the committee," Brophy said.

"Notwithstanding the fact that an investigation of the files of the labor department failed to support his charges, Senator Copeland continues to denounce Bridges in the most violent terms as an alien illegally in this country and unfit to be a union leader."

The department of labor indicated Thursday that it will soon hold a hearing on the charges against Bridges and that the labor leader probably would be called to testify.

The CIO demand came a few hours after Senator Guffey, democratic Pennsylvania, proposed in the committee a measure designed to stabilize maritime labor conditions through arbitration and mediation of disputes. The bill closely parallels one proposed by Chairman Kennedy of the maritime commission but differs sharply from the view of Labor Secretary Perkins who opposes arbitration.

After practicing medicine and surgery in Gray, Ala., for over eight years, Dr. Wade H. Garner has moved to Sanford with his family to begin active practice here, and is occupying the offices vacated by Dr. H. D. Smith who has retired and has moved to Panama City.

Dr. Garner is a graduate of the University of Maryland and served his internship at the Volunteer of America Hospital in Baltimore and also at the Employees Hospital of the Tennessee Coal, Iron and Railroad Co. in Birmingham, Ala.

DR. HAROLD HUME ADDRESSES GARDEN CLUB ON LIVING PLANTS

Dr. Harold Hume, assistant director of the research department at the College of Agriculture at the University of Florida, was the principal speaker at the Garden Club luncheon which was held yesterday at the Mayfair Hotel.

Dr. Hume is a noted horticulturist and has written several books on the subject, notably, "Gardening in the Lower South," "He chose as his subject yesterday, "The Living Plant." In his talk he explained how important it is to fit a plant in its proper environment, even to the point that it is properly fed and watered, and protect it as follows:

He also stated that the leaf is the most important part of any plant and urged that all Garden Club members learn the names of their flowers and plants and something of their history in order to make Gardening more interesting.

Officers for the coming year were elected at the general business meeting which was held at 11:00 o'clock. The officers are as follows:

President—Mrs. Fred Wilson. Vice President—Mrs. F. E. Roumillat. Secretary-treasurer—Mrs. Irene Hinton.

Mrs. H. M. Papworth, Mrs. Fred Wilson and Mrs. Endor Curlett were appointed as delegates to attend the state convention to be held in Jacksonville, Fla. Alternates were Mrs. R. E. Tolar, Mrs. Augusta Covington and Mrs. Andrew Caraway.

The business meeting which was presided over by Mrs. H. M. Papworth was followed by a luncheon at 1:00 o'clock. Table decorations were in the form of a miniature candelabra flower show, the candelabras being placed on mirrors in the center of the tables. The central decoration was an upside down arrangement of a blue crystal bowl on a silver tray. The bowl, which contained white azaleas and candelabras, was filled with water.

Mrs. H. M. Papworth, president, introduced Mrs. Porter Baldwin of West Palm Beach, state president of the Florida Federation of Garden Clubs, who gave an outline of the work being done in other parts of the State. She suggested that study groups be formed for the older and younger members of the club and that the children be taught to love

birds, gardens and nature. Following Mrs. Baldwin's talk Mrs. C. R. Kittley, plant material chairman, introduced William H. Hoffman, landscape architect for the Florida Nursery and Landscape Company, of Leesburg. Mr. Hoffman studied landscape design at the North Carolina State University, Spanish garden design at Mexico City and candelabras at the E. A. McIlhenry Junior Garden at Avery Island, La. He spoke on "Candelabras," and in the McIlhenry Garden there are 30,000 candelabra plants with 600 different varieties.

During the luncheon Mrs. R. P. Pippin, Mrs. J. J. Colclough and J. M. Sinsinger accompanied by Mrs. G. B. McCall sang "Nature's Child Again" by Schubert, and "Comrades of the Road."

Those present were: Mrs. R. W. Ware, Mrs. Roy Williams, Mrs. H. M. Watson, Mrs. C. R. Kittley, Mrs. S. C. Dickerson and guest, Mrs. Peter Roy and Mrs. E. D. Rinehart, Mrs. Walter Jack Mrs. J. O. Apollo Boys Choir At Episcopal Church

The Holy Cross Episcopal Church will offer an unexpected opportunity to the people of Sanford to hear the best boy choir in America declared Rev. Martin Bram, in commenting on the Birmingham Apollo Boys Choir which is said to be the American counterpart of the famous Vienna Boys' Choir and who will render a concert of sacred music tomorrow evening at 7:30 o'clock.

The Choir, under the direction and training of Coleman Cooper of Birmingham, Ala., went to 32 schools to select from 10,000 boys, 30 who would represent the best juvenile talent in that section of the country, Rev. Bram said. They are trained to sing in harmony; all of their music is in the three and four part harmony. Most of the boys also study violin and piano, all study voice and sight reading, several have absolute pitch. Among the present group are two soprano sopranos and two contraltos of unusual quality.

Everyone is welcome to this concert, Rev. Bram said, there is no admission charge of any kind.

Mr. and Mrs. H. M. Gleason have as their guests Mrs. W. C. Newton and Mervyn Newton of Winthrop, N. Y., Mrs. Earl Morrow of Pierpont, N. Y., and Miss Eleanor Newton of New York City.

Friends of Mr. V. C. Coler will be glad to hear that he is more comfortable and his condition slightly improved.

Invading Armies Following Trail Of Genghis Khan As Penetration Continues

'Red Napoleon' Leads Onslaught

Jap Garrisons Wiped Out In Attacks By Guerilla Units

SHANGHAI, Feb. 14.—(AP)—Japan's warriors, following the trail blazed by the Mongol hordes of Genghis Khan 700 years ago, fought one of the world's greatest battles today in the conquest of Central China.

The same battlefields in Honan province where the Great Khan's horsemen struck terror into the heart of Asia reprobated with the din of modern conflict as the Japanese invaders drove desperately fighting Chinese troops southward toward Nanchang.

Japanese already have captured the lower stretches of the Yellow River, and have reached the middle reaches of the great waterway, the division of North and South China.

Meanwhile China's fiercest fighting men, veteran campaigners of the Eighth Route Army under the famed "Red Napoleon," Chu Teh, today appeared to have staged another surprise onslaught in Western Honan, swarming down from the Tsinan Mountains and slaughtering Japanese garrisons along the Nanchang-Kiangsi Railroad.

Reports from the north by Chinese and foreign sources indicated the Eighth Route Army had captured several towns along the railroad, ripped up tracks 20 miles below Paoching and wiped out several Japanese garrisons.

The sudden raids were carried out by guerrilla units, according to the reports, in the "living tactics" of the old red army campaigner, was designed as a counter-attack to hurry the Japanese from the north in their drive to smash the Chinese "magical line" of defense along the Lanchow railroad.

The guerrilla units reportedly attacked the Paoching railroad between Chenliang and Paoching capturing the important town of Hsinlo, about midway between the two cities.

Radio Installation For Police Is Begun

H. M. Lehigh, representative of the Radio Corporation of America, has arrived in Sanford and this morning began installation of the police radio equipment recently purchased by the City.

Mr. Lehigh came to Sanford from Miami where he installed a radio system at an airport there. As he began work here today he pulled off his coat and vest and declared that the weather was quite a contrast to the 20 degrees below zero temperature he had experienced while installing the equipment in Miami.

It is expected that the broadcast system at the local station will be in operation within a week. Workmen today made initial preparations for the erection of the 125 foot mast on which the antenna will be mounted.

Church Aims To Rotarians

Dr. John R. Williams Of Atlanta Makes Plea For Better Support Of Church

World conditions are such today, said Dr. John R. Williams of Atlanta, speaking at the regular weekly luncheon of the Rotary Club, that the only hope of civilization lies in the church of Jesus Christ.

Dr. Williams, who is in Sanford for a week on two preaching at the Presbyterian Church, was introduced to the Rotarians by Dr. E. H. Brownlee, Geo. Hollins had charge of the program, and President H. H. Colemah presided over the meeting.

In making a plea for greater support of the church, Dr. Williams acknowledged a growing indifference on the part of the public toward the church, largely on the grounds that the church has failed to stop war, that it has not done much toward the solution of labor problems, that it has failed to halt the rapidly increasing number of divorces.
