

**FAVORS NEW BANKS**

**Growers Will Get Benefits From Results Of European Trip Of Investigators**

**The Commission That Went To Europe To Study Rural Credit, Etc., Is Back. Report Will Be Made To the Governors**

New York, Monday. Bringing back recommendations which if accepted will mean the introduction of a new agricultural banking system in the United States, more than sixty members of the American and Federal Commissions on Rural Cooperative Credit returned to New York City yesterday on board the Cedric, of the White Star Line, after a three months' trip in Europe. Delegates appointed by the Governors of States, by the premiers of five of the provinces of Canada and by the President of the United States were in the party.

"I have not had time to discuss the matter at any length with the members of the commissions, but you can say that their reports will urge the adoption of some kind of rural banking system which will meet the needs of the farmers of this country," said Senator Duncan U. Fletcher of Florida, chairman of the commission appointed by the President, when seen at the McAlpin Hotel.

Neither Senator Fletcher nor Senator Thomas P. Gore of Oklahoma, also a member of the commission, accompanied the party to Europe, because their presence was needed in Washington, and his statement was based on the reports made to him during the absence of his associates, and on what he was told after he went on board the Cedric in the bay.

Another member of the Federal Commission made a similar statement to the reporter, declaring that the recommendations would probably include some of the ideas incorporated in the Credit Foncier of France and the Landschaften and Raiffeisen systems of Germany.

During their stay in Europe the commissions were in eighteen countries, making a special study of cooperative land mortgage banks, cooperative rural credit unions and similar organizations and institutions devoting their attention to the promotion of agriculture and the betterment of rural conditions.

In addition to the members of the American Commission, which was organized under the direction of the Southern Congress and which included two men from each state in the Union and the five Canadian provinces, the following, who were appointed by the President, were in the party: Dr. C. J. Owens, managing director of the Southern Congress; Kenyon Butterfield, of Anherst; W. R. Coulter and Colonel Harvie Jordan, of Atlanta, Ga.

They were met in the bay by a reception party headed by Senators Fletcher and Gore, who went to meet the Cedric aboard a revenue cutter.

The report of the American Commission will be made to the Governors of the states and to the Southern Commercial Congress, which meets in Mobile on October 27, Senator Fletcher said. The report of the Federal Commission will be made to Congress as soon as it can be compiled. A meeting of some of the members of this commission will be held in Washington, D. C., tomorrow.—Florida Growers News.

**REDHEAD DISAPPEARS**

**Well Known Coast Line Ticket Agent Cannot Be Found**

The following from the Tampa Times will interest the many friends of J. O. Redhead, a well known ticket agent of the A. C. L., who for some time was agent at Orlando and was known to many in Sanford:

J. O. Redhead, city ticket agent of the Atlantic Coast Line for several years, and one of the most popular railroad men in Florida has disappeared.

Mr. Redhead boarded with Mrs. Hanson at 904 Marion street and left there Saturday evening, July 19, and up to this time no word has been received from him, and from the latest reports he has not visited his old home in Maryland. For several days the Coast Line accountants have been working on his accounts, and finished their work yesterday afternoon, leaving the city without giving any report as to the condition of same. J. G. Kirkland, division passenger agent of the Coast Line, and who has charge of the local office, would not make any statement for publication other than Redhead had asked for a couple of days off a few days before he left the city, and that he had not been heard from since by his comrades here.

Mr. Redhead, stated Mr. Kirkland had been one of the Coast Line's trusted employes for many years. Asked whether or not his accounts were short, Mr. Kirkland stated that the agents who had been at work made no report to him. A railroad man stated to a Times man that Redhead was alleged to be short in his accounts about \$2,100. It is said that Redhead for some time past had been none too regular in his habits, absenting himself from his boarding place frequently until very late at night. The people at his boarding place have been

non-plussed over his disappearance and the fact that no one had heard anything of him since he left on July 19.

**Kansas Solomon.**

King Solomon had nothing on a Centralia Justice of the peace before whom a colored man and brother was being tried for stealing a chicken. The prosecuting witness thought it was his fowl, but was not willing to swear. It being near sundown the local Solomon let the hen loose and watched her going home to roost. Result, the negro was fined \$50.—Kansas City Journal.

**Practical Flower Holder.**

A simple and practical flower holder is made of green rubberized silk, the shade of natural leaves, and is outlined with a green wire. When worn, it effectually prevents the penetration of any moisture to the gown. The wire edge permits of shaping the holder to the bouquet proper, and the latter is then attached to the corsage or whatever else desired.

**Trespassing.**

A street car and an automobile had had an altercation which ended with the latter, in a more or less battered condition, lodged on the fender of the former. A little boy and his mother happened along just as it was over, and when the youngster saw them he cried out in glee: "Oh, look, there's an auto standing on that street car's mustache!"

**Laying Matting.**

When laying matting, it is not always necessary to cut it in order to fit corners and alcoves. It may be better to do so in very small spaces, but often moistening the matting is found to be better than cutting. Softened thus, it can then be bent without breaking, and makes a neat, substantial edge.

**Orator Slightly Mixed.**

A former senator of the United States, was addressing a meeting in his home town to celebrate the appropriation by the legislature of funds for the erection of a new state capitol. "My fellow citizens," said he, "we will build here the greatest eplaph under God's green footstool."

**Much Coal in Formosa.**

Coal is second in value among the mineral productions of Formosa. There are fifteen seams of coal extending from the north coast to Toen and Schinchiu prefectures. There are four varieties, anthracite, black-brown, and two varieties of brown.

**Treating Burns and Scalds.**

Burns and scalds should be treated with glycerine and flour, the latter well heaped over the affected part. Then tie round a linen bandage to exclude the air. If cotton wool is handy it is better to use for this purpose than linen.

**SWAT SPARROW AS A PEST**

**The Biological Survey Calls the Common Bird Useless and Harmful.**

"The rat of the bird kingdom" is the label attached to the English sparrow by the United States biological survey.

Sparrows were introduced into America about 50 years ago, and have multiplied with such rapidity that they are a pest in nearly every part of the country.

According to the biological survey, they "not only serve no good purpose, but consume great quantities of useful insect life, in addition to millions of dollars worth of grain." They are pugnacious and drive away many useful and ornamental birds. They are unclean and litter up the premises. They are said to hatch young every month in the year, operating the only automatic incubator in existence, the young of the preceding hatch incubating the eggs as they grow to full-fledged sparrowhood.

Nearly every small boy has the instinct to kill. Properly directed this instinct might be allowed to run through its natural development without being harmful. Teach the boys to confine their shooting to undesirable birds. They are few, and the sparrows is the chief among them.

Teach the boy to set traps only for birds and animals which ought to be trapped and destroyed. Encourage him to catch the mice, the rats and the sparrows—if possible the minks, the weasels, the raccoons and other poultry destroyers in the country. Teach him to value the catbird, the mocking bird, the brown thrasher, the oriole, the robin, the blue bird, and many other varieties that are musical, ornamental or useful.

**New Tag to an Old Fable.**

Young Tony of the Italian quarter had been greatly interested by the teacher's story of the fox and the grapes. Arriving home from school, he repeated it in his excited, broken English to the family, following the teacher's version pretty closely until he reached the climax. Tony's conclusion was this:

"De olde fox he say, 'Da grape no good, anyhow; alla sour! I guess I go geta de banan.'"—Boston Evening Transcript

**Holland's Busiest Man.**

On a sign over a barber's shop at Stierum, Holland: "Barent Wonters lends donkeys on hire like his father, kills pigs, smokes hams, and occupies himself with all kinds of swinish detail work; also shaves and cuts hair, except on Sundays."

**Exhibit.**

Exe—"So now he has a breach of promise on his hands and the woman is showing letters of his saying he'd do all sorts of things for her." Wye—"Sort of promissory note, eh?" Exe—"Yes, with the accent on the 'sorry'."

**Blue Nose.**

Blue Nose is a popular name for a native of Nova Scotia. Hallburton, in "Sam Slick," gives the following account of its origin: "Pray, sir, you tell me why the Nova Scotians are called Blue Noses?" "It is the name of a potato," said I, "which they produce in the greatest perfection, and boast to be the best in the world. The Americans have, in consequence, given them the nickname 'Blue Noses.'"

**Best Qualities of Wood.**

Unlike most other timber, the straighter, and better formed trees do not yield the most highly prized quality of lumber. It is the crooked, irregular logs that possess the best figured wood. The best qualities of wood are obtained from trees over one hundred years old, which rarely have a clear length of more than 12 feet. The most beautiful grained wood is in the roots and burls.

**Clearing the Throat.**

Hoarseness caused by irritation of the throat may be cured by gargling with cold salt and water. For severe hoarseness inhale the steam of hot milk in which eggs have been boiled. Singers and public speakers should eat baked apples for clearing the throat; it is also said that swallowing the yolk of an uncooked egg is good.

**Gave Him Away.**

Master (who is trying to make a good impression on his strait-faced aunt from whom he has expectations) —"Mary, have you seen a letter anywhere about marked 'Private'?" Mary —"You mean the one from the man what can't get 'is money out of you, sir? I put it be'nd the mirror, sir." —Punch.

**For a Heavy Heart.**

Set about doing good to somebody; put on your hat, and go visit the sick and poor; inquire into their wants and minister to them. Seek out the desolate and oppressed. I have often tried this medicine and always find it the best antidote for a heavy heart. —John Howard.

**Complimenting Dad.**

"I hear that you undertook to chastise that precocious youngster of yours." "Yes, and I got a little respect out of him, too." "How do you know?" "He told me that if I would go to the gym and train a little he thought he could make a hard hitter out of me."

**It Was a Holler Day.**

"Come, come," said a distracted father, who had endured the children's noise till patience ceased to be a virtue; "there's no reason why you should scream and holler so." "Why, father," said one of the little fellows, "don't you know this is a holler-day?"

**Shameless.**

"Some of these actors must be shameless as well as shiftless," asserted the woman with the angular jaw. "Why?" asked her husband. "Here is one who advertises even on the billboard that he is supported by his wife."

**Purifying the Air.**

The air of a room may be purified in two hours by setting inside of it a dish of water with a few drops of ammonia. The water will have absorbed all the gases in the room.

**Colored Epigram.**

A colored philosopher is reported to have said: "Life, my brethren, am mostly made up of prayin' for rain, and then wishin' it would clear off." —Presbyterian.

**Wisdom.**

"Every man ought to save up enough to buy himself a good big farm," said the thrifty citizen. "Yes," replied Farmer Cornstossel; "and then do something else with the money."

**Knockers.**

A haberdasher complains that canes do not find a ready sale in this town. This may be because it is difficult to carry a cane and a hammer at the same time.—Topeka Journal.

**Where the Rhine is Busy.**

The traffic on the Rhine between Strasburg and the Holland frontier amounts to the enormous total of forty million tons annually.

**Pompous Coal Horse.**

"A coal horse," said the magistrate, "has a pompous stride. There is more dignity about a coal horse than there is about a provincial mayor."

**Never Satisfied.**

When a man gets something for nothing he is pretty sure to think it might have been something better.

**Electric Current and Nerves.**  
Along human nerves the electric current travels at from 33 to 60 yards a second.

**Crop Paradox.**  
Seems strange that those who sow the wind are the very ones who have a hard time raising it.

**Everlasting.**  
Things gained are gone, but great things done endure.—Algernon Swinburne.

**Irrigation in Australia.**  
Australia is irrigating more than two million acres of grazing lands with artesian wells.

# SEMINOLE COUNTY STARTS BUSINESS TODAY

## Baby County Of Florida Sets Up House Keeping Under Most Favorable Circumstances And In Most Comfortable Quarters

### Board Of County Commissioners Are Meeting In First Official Session And History Of The New County Begins With Today's Proceedings

Today is an epoch in the annals of Seminole county, being the very beginning of the new county. There have been meetings of the county commissioners and other officials but none of them have been strictly official being only preliminary skirmishes getting prepared for the real battle that begins today with the first official meeting. Another matter that has taken much thought and that has agitated the public mind as much as the minds of the commissioners is that of the temporary quarters for the transaction of the county's business—temporary because, while the present quarters may be the home of the officials for five years or longer will be given up the minute the people of Seminole think they ought to have and can afford to have a fine new court house. As told in the last issue of The Herald the commissioners have decided upon the Welborne block for the court house and a cut of the same appears in this issue. The building will make a fine court house in regards to the interior and with some changes will have all the earmarks of a real court house externally. The building in the early days was one of the finest in South Florida, being three stories in height and built of brick with massive steel vaults in several offices on the first floors and second floors, and the corner on Commercial and Park having at one time been fitted for a bank and will be used for the new Seminole Bank in a few months. The Welborne block must have cost about \$40,000 in the early days and stands today a monument to the builders of early times when the materials were good and fancy work was curtailed for essentials. The tower rises from the corner of the building and can be seen at a great distance on the lake and with a clock placed in the tower the court house of Seminole would be an honor to any county.

With such quarters and fine quarters for the holding of court and the office rooms of the best for the officials Seminole

county will start with a silver spoon in her mouth and good clothes in plenty. The commissioners will meet today in the clerk's office, which for the time being will be located in the bank room on the first floor. This office will be changed to the second floor as soon as the present occupants can move. The other officers will have their choice of the fine rooms on the second floor and the court room will be on the third floor now occupied by the Eagles. This room should make an ideal court room, far enough from the street traffic to be quiet and with good ventilation and light. The owner of the building will install an elevator for the offices and court room, and in all the new court house will not only be one of the most convenient but one of the most up to date temples of justice in the state.

This vexed problem of the court house having been settled satisfactorily another one confronts the county in the shape of a temporary jail and this is a matter of utmost importance as the location of a jail not only depends upon the judgment of the county officials but upon public opinion to a large extent, as no citizen cares to have the jail located near him, and no merchant is anxious to have the jail for a neighbor. The question resolves itself into a complex one suiting the needs of the new county, looking to the future and accommodating the people who might live or have a business near the proposed site of the county jail.

This, of course, will be decided by the commissioners as early as possible and these gentlemen will be working overtime on the county's business and it will take time and trouble to get the new baby started to eating without the aid of the bottle.

There are many people here today to see the new county getting down to business and every citizen of the new county seems imbued with the idea of assisting in all his power to make Seminole one of the banner counties of the

SEMINOLE COUNTY'S COURT HOUSE

state. Certainly few baby counties have started so auspiciously, being out of debt and with a few millions in the treasury to pay current bills. The county commissioners are on the job and will make public servants of the proper sort. All the officials are men who feel their great responsibilities and will fill the offices to the best of their knowledge and power. All of them are men of high character and high ability. E. L. Woodruff all the commissioners are serving for the first time. There is work to do and history is being made today and we grant that all of our officials may have no trouble in perfecting the system of operating the county's business.

They have the support of all the people living in Seminole county because every citizen realizes that Seminole is now our own county, no matter whether it became one from his efforts or not and every citizen feels that he is responsible to the new county for his actions. Uphold the officials in all their acts, for they will act upon their own initiative

in fact but will always appreciate the advice of the citizens and if it meets with their approval will act upon it. Seminole county starts today. Let your first act be an unqualified support of the county officials.

**Who's Who and Why**  
The officials of the new county of Seminole will soon greet their friends and constituents in elegantly appointed offices of their own in the court house at the corner of Commercial street and Park avenue. They will be located on the second floor of the building but just what rooms they will occupy is at present unknown, as the former occupants are still holding on until they can be located in some other building.

Following is the list of the new officials:  
**County Commissioners**  
E. L. Woodruff, Sanford  
C. W. Fitzpatrick, Longwood  
J. T. McLain, Geneva  
J. A. Clark, Ocala  
L. B. Hagan, Markham

**Clerk of Circuit Court**  
E. A. Douglass

**Sheriff**  
C. M. Hand

**Tax Assessor**  
T. K. Bates

**Tax Collector**  
J. D. Jinks  
**County Judge**  
B. F. Whitner

**Supt. Public Instruction**  
D. L. Thrasher

**Supervisor Registration**  
H. C. DuBoise

**Treasurer**  
J. B. Jones

**County School Board**  
F. P. Forster, Sanford  
Tilden Jacobs, Longwood  
S. C. Dickson, Longwood

#### SHERIFF HAND IS BUSY

#### Rounding up the Criminals Fills Jails of Other Counties

Unless the new county of Seminole makes haste in the matter of building a new jail Sheriff Hand will have all the jails of adjoining counties filled with our prisoners and the feed bill will amount to something. Sheriff Hand has been busy ever since he took his office in looking after the criminals who were taking it easy while the new county was in process of formation. He has just returned from Palatka where he obtained possession of H. Thomas, a negro who pulled off a good stunt while the people were not looking. He gained entrance into the offices of the Florida Vegetable Growers Association after they had closed for the season, and the Pico block being rather deserted in the evenings, and with no one to bother him,

Thomas annexed all the office furniture that he could handle. He made way with the electric fan, the typewriter and several other articles that could be easily moved, and if he had a horse and wagon he would have moved the entire block in time. Besides the quarters of the Growers Association he also fished a clock from the office formerly occupied by Dr. Housholder. It was the sale of the articles that brought the negro to grief because he offered them so cheap that suspicion was aroused and an investigation on the part of Sheriff Hand soon disclosed that the offices had been robbed. Meantime the negro had fled with the money from the articles and was as far north as Palatka when the sheriff had him nailed. He is now languishing in the temporary quarters and will help the new county to build roads as soon as the court meets.

#### Douglass Is Happy

Clerk Douglass is one of the happiest men in the city today, for at last he is enabled to get a place to lay his books. For the past month Mr. Douglass has been going round with the expression a married man always wears when his wife is away, only Doug's wife was not away this time. He was simply without an office and when his books and other fixtures for the clerk's office began coming in he was almost ready to rent an office anywhere in order to get the stuff unpacked. Through the generosity of Lake & Rosetter, the lessees of the new court house he was given the bank room in the corner of the temple of justice and he is the busiest man in town today unpacking a world of material and he and his assistants are working over time getting everything in shape. Mr. Douglass says he feels like what he is doing to fix up his office is only for the time being as he will have to move to the second floor, but he can at least get started now and have a place to unpack his record books and furniture.

#### BEAUTIFUL ELKS HEAD

Presented to the Sanford Lodge by Dick Calhoun

One of the finest specimens of an elk's head that has ever been seen in the south is now in the lodge room of Sanford lodge, B. P. O. E. It was brought from the west by Dick Calhoun and must have cost a goodly sum to have it mounted in such a fashion. Dick alleges that he killed the animal on his trip to the Rockies several years ago and if he did he ought to be proud of the feat. The whole head and neck of the animal is preserved intact and with the open mouth, teeth and tongue the effect is very realistic. The greatest beauty of the head is the antlers which are perfect in details and each horn matches the other, the spread of the antlers being about four feet.

When the new home is finished this gift of Mr. Calhoun will be given the place of honor that it merits and will prove more attractive than in the present quarters. Every one who has seen the specimen pronounces it a perfect one and as the elk is getting scarcer each year and the laws are very stringent about shooting them the gift of Mr. Calhoun is greatly prized by the Sanford Lodge.

#### John Bull on Guard

Washington, Aug. 4.—Keen interest has been aroused in official circles here by a report reaching the State Department that Great Britain is contemplating a great naval base in the Bermuda Islands. It is stated authoritatively that the British government has made inquiry concerning the plans of the United States for protection of the Panama Canal routes, and it has been suggested that this indicates an intention to safeguard British shipping through the isthmus as in the Mediterranean.

Officials realize the problem raised is a tremendous one, involving as it may the very life of the Monroe doctrine and

marketing, perhaps, a complete revolution in foreign naval policy in the western hemisphere, for it is expected that if Great Britain changes her naval policy in American-Atlantic waters, other European nations probably will follow suit. While these changes may be expected in the Atlantic waters and the West Indies, officials likewise realize that with the opening of the canal the United States must contend with Japan for domination of the Pacific.

#### Big Citrus Crop

General Manager L. D. Jones of the Florida Citrus Exchange has completed compilation of the shipments of the citrus fruits from Florida during the past season, which shows that it was the biggest crop year in the history of the state—some 8,152,000 boxes, of which 1,780,301 boxes were shipped through the Exchange, or about 23 per cent. This is the largest amount the Citrus Exchange has handled in any year of its history. Mr. Jones is emphatic in his statement that the coming crop will be not only a large one, but the very largest in the history of the state. He foresees a season of prosperity for the growers and a big year for the Exchange, despite the lower tariff of foreign citrus fruits.

From the time of the big freeze until 1908, no crop reached 4,000,000 boxes. The crop of 1894 amounted to 4,163,649 boxes while that of 1895-6, the season following the freeze was but 147,000 boxes. The grapefruit crop despite all the talk to the contrary, is likely to be greater than that of last season, because so many of the young groves will come into bearing this year.

#### Attention Masons

Special communication, 4 p. m., Thursday, Aug. 7th and regular communication 7:30 p. m. same date. Master degrees will be conferred at both communications.

O. L. TAYLOR,  
Secretary.

#### WILL HAVE NO PANIC

Secretary McAdoo Lets Out Millions To Country Banks

Twenty-five to fifty million dollars of government funds will be deposited in National Banks of the South and West at once, by Secretary McAdoo, to facilitate the movement of crops. Federal, state and municipal bonds and prime commercial paper will be accepted as security for the money, upon which the banks will pay two per cent interest.

The motive of Secretary McAdoo in establishing this new policy is to anticipate the money stringency in the late summer and fall, which invariably accompanies the marketing and movement of crops, especially when the harvests are unusually large, as the harvest now beginning forecasts. He intends to take time by the forelock and prevent or minimize the usual tightness of money.

In a statement today the Secretary made the significant answer that Government bonds would be at parity for the new deposits and that the additional money would be placed only with banks which have taken out at least forty per cent of their authorized circulation.

The Government two per cent. bonds, serving as security for most of the bank circulation, have been depressed recently to new market records, dropping to 95 3-4 during the last few days. The Secretary's willingness to accept these bonds at par as security for the twenty-five to fifty millions of promised deposits and the inducement to the national banks to increase their circulation up to the forty per cent limit, is expected to help in restoring the parity of the depressed two's by creating a new market for them.

For the first time in history, the Government will accept prime commercial paper as security for deposits. This privilege will be granted, announced the Secretary, in order to make these special deposits available to the

banks on securities readily within their reach.

"The commercial paper submitted," added Mr. McAdoo, "shall first be passed upon and approved by the Clearing House committee of the cities in which the offering of paper is located. All commercial paper and bonds must finally be passed upon and accepted by the Secretary."

#### Franklin Case Reopened

The Franklin murder case that has been dormant for some time assumed a new phase Saturday when another negro named Edwards was brought into it, with the supposition that he might have been either an important witness or a principal. States Attorney Cary Landis was present at the preliminary trial held in the court of Justice Stringfellow and Attorney DeCottes represented Edwards. The case was continued until next Friday and the Edwards feature will then be settled. It seems to be the idea of the defense to bring in new features to offset the deathbed confession of Franklin and when the case finally comes to circuit court it will be watched with much interest on account of the prominence in negro circles of the slain and the ones who have become entangled in the meshes.

#### Camping Trips

Some of our young people report a very enjoyable camping trip at Palm Springs during the last ten days. Those present were Mrs. H. Iserman, Mrs. Clifford Iserman, Misses Frances Pearson, Flora Pearson, Helen Iserman, Grace Iserman, Helen Reasoner, Ruth Smith, also Helen Bergert and Elvina Lowry of Loughman; Messrs Clark Pearson, George Smith, Oscar Pearson, Jack Booth, Jesse Kersey and Bert Long.

Some weeks ago a negro of West Palm Beach was bitten by a horse that had the glanders and now the negro has a fully developed case of glanders. The medical profession has no cure for the disease.

#### PIGEONS TURNED LOOSE

To Make One Thousand Mile Journey for a Record

Last Saturday the Southern Express Co. of this city received two homing pigeons from O. F. Connelly of Carlisle, Pa., with instructions to turn them loose and let them fly home. They were given their freedom on Sunday morning and after circling a few times as if to test their wings were soon lost to sight in the empyrean blue of the Florida sky on their long flight to Carlisle. Some time ago these two pigeons were taken to Savannah and loosened to fly home and made the trip in record time. This was 700 miles and their owner is so proud of his pets that he determined to try them for the 1000 mile record, hence they were shipped to Sanford to make the trial.

Their progress will be watched with interest by the people of this city and the fact of their arrival home in Carlisle will be chronicled in The Herald. Since the pigeons made this city their starting point we are anxious for a successful flight to their Pennsylvania home.

#### Book Lovers' Club

Mrs. Ernest R. Tolar was the charming hostess of the Book Lovers' Club, which she entertained most delightfully Friday afternoon. The pretty rooms of the handsome new home were most pleasingly decorated with lovely ferns and white oleanders, which featured the effective color scheme, green and white. With a magic wand Mrs. Tolar lifted the curtain so recently lowered over the past and entertained her guests with a delightful glimpse and review of their four years of High School life. Pretty green cards with white bows represented the Freshman Sophomores and Junior years in the High School, while the Senior year was represented by white cards with green bows. The school was presided over by Mrs. Tolar, who conducted examinations in "Manual Training and Mathematics," "English

and Spelling," "Music and Zoology," "Art and Geography." Practical lessons in "Domestic Science" were given in the dining room, as the guests enjoyed the delicious fruit salad with green mayonnaise dressing, bread and butter sandwiches and iced tea.

The club prize, "Bachelor Belles," a delightful book was won by Mrs. George Fox, Jr., who stood the best examination among the club members. Mrs. Henry Wight was the successful competitor among the guests, and was awarded the lovely guest prize, a dainty pink boudoir cap.

The members of the club who were present were Mrs. Henry McLaughlin, Mrs. Fred Williams, Mrs. F. L. Woodruff, Mrs. J. T. Brady, Mrs. R. J. Holly, Mrs. C. H. Dinges, Mrs. J. C. Bennett, Mrs. Geo. Fox, Jr., guests Mrs. H. H. Pattishall and two daughters, Misses Blanche and Georgia, Mrs. E. M. Graddick, Jacksonville; Mrs. J. A. Beggs, and Mrs. Wilson, Titusville; Mrs. J. W. Windgate, Jacksonville; Mrs. Henry Wight, Mrs. Alfred Lilja.

#### Delightful Outing

The Brotherhood of St. Andrews, composed of the Junior boys of the Episcopal church have been having the time of their lives during the past week. In the care and companionship of Rev. Arthur S. Peck, rector of the Episcopal church they left for Ormond last Tuesday, where they have doubtless enjoyed every known pleasure and recreation that the Beach affords. An outfit for camping and all the other necessary paraphernalia for living in the open was carried along and it is needless to say that those boys have extracted every ounce of fun and varied experience to be found in many lies of seashore. The party are expected home today.

Several of the cities and counties of Florida are now levying a "publicity tax," which is used as a fund to advertise their respective localities. The tax is levied under special acts of the last legislature granting such power.

THE SANFORD HERALD

Published Every Tuesday and Friday Morning by THE HERALD PRINTING COMPANY

R. J. HOLLY, Editor W. M. HAYNES, Business Manager

Subscription Price, \$2.00 a Year in Advance

Delivered in the City by carrier \$2.00 per year in advance or 20c per month.

Entered as second-class mail matter August 22nd 1900, at the Postoffice at Sanford, Florida.

Office in Herald Building Telephone No. 148

The state press will extend sympathy to Bro. Burch of the New Smyrna Breeze in the loss of his eldest son, whose death occurred at that place Friday of last week.

The split skirt has appeared in Miami. But Potts will be equal to the occasion and his articles on "Time Exposure as Related to the Split Skirt" are now awaited with much interest.

The very fact that typewriters which are sold at \$100 in this country can be bought in Europe for \$50 should be the basis of good argument that there is something wrong with the government works and also with the statement put out by the big manufacturers that they cannot compete with the pauper labor of Europe.

PEACEFUL NOW

J. Hugh Reese, without doubt one of the most versatile and brilliant members of the Florida press, has accepted the editorial management of the Orlando Sentinel and assumed his new duties this week.

All is peaceful now, Bro. Bill. Why, those Orlando folks love us so much that they are willing to fertilize our celery fields free of charge.

BRICKS FOR FLORIDA

The wonderful story of Florida's industrial development is weak in one link—our people are too willing to buy what they want when it might be possible to make it for ourselves.

But none of these statements can be made in defense of the practice of buying brick beyond the border line. Florida has clay of the best and in a great majority of the counties the clay can be found of superior quality in the immediate neighborhood of the roads.

Each of these counties has the clay within reach of its city; a brick factory would bring new citizens to the county, add to the tax values and give a heavy payroll to the cities.

same quality. Therefore, nothing but the lack of business enterprise now deprives Florida of a large addition to her population and the volume of her business as an addition to the benefits accruing from the business growth and her demands for good roads.

Moreover, our failure to take advantage of the conditions speaks badly to the world—we prove ourselves deficient in enterprise, lacking in capital or in resources while we continue to import from other states a necessity of our growth.

LOWER PARCEL POST RATES Further to popularize the parcel post system with the public, Postmaster General Burleson today announced that after August 15 the weight limit on packages would be placed at twenty pounds and that a sharp reduction in charges for the transportation of packages would be made.

The reduction in charge of parcel post matter for local delivery is from the present rate of 5 cents for the first pound and 1 cent for each additional pound, to 5 cents for the first pound and 1 cent for each additional two pounds or fraction thereof.

The change in the postal savings system will enable would-be depositors living in remote districts to avail themselves of the benefits of the system.

THAT CATALOGUE AGAIN

Dr. Blackman, president of Rollins College makes an explanation in this issue regarding the sending out of the state of the catalogue to be printed and for which The Herald took the college to task.

Dr. Blackman ends his letter by remarking that the newspaper men and printers of Florida send their children out of the state for their education.

However, the explanation is accepted and we promise Dr. Blackman to join hands with him in boosting our home colleges, not because of the advertising patronage but because it is our creed.

Planting Fall Gardens

Are you going to have a fall garden? It will be a money saver, if not a money maker, and the surplus may add to your bank account.

flower, onions, turnips, carrots and rye stalk vetch and dwarf Essex rape for stock feed. Lima beans can be started now.

We spend a great deal of money for canned vegetables and fruits that might be saved by having a good garden from which to use these things in their season.

The Rollins College Catalogue To the Editor of The Herald: My attention has been called to an editorial in a recent number of The Herald, sharply criticizing the management of Rollins College for having given the printing of the last catalogue to an Alabama concern.

I heartily agree with you that the people of Florida should patronize home industries. This is a fixed policy of Rollins College.

Moreover, I and my associates at Rollins have secured by solicitation during the last twenty-eight years approximately a million dollars in cash from the residents of other states as a free gift to the cause of education in Florida.

As to the printing of this catalogue. Up to two years ago, the catalogue was always printed in Orlando. At that time, the printers of Orlando declined to undertake the job, as certain fonts of type were required which they did not have.

This year the work was offered again to the same office, but the price asked was so much in excess of that made by an Alabama concern, that I felt obliged to accept the lower offer.

Meanwhile, it should not be forgotten that the college advertises at regular rates in about a score of newspapers in southern Florida every summer, thus reciprocating to the best of our limited ability the very generous treatment which the editors of these papers have always accorded us.

Finally let us call your attention to the fact that probably four-fifths of all the young people of Florida who attend college are sent out of Florida, as are a large majority of those who go away from home to preparatory and boarding schools.

Colonel Nat. R. Walker returns from Washington and says that he is certain to get the appointment of United States marshal for the northern district—but the only safe thing about an office of that kind is when you have got your commission in your pocket.

Senator Fletcher has asked President Wilson to visit Jacksonville and Key West on the President's proposed trip to the opening of the Panama Canal.

Notice of Election Whereas, the council of the city of Sanford, Seminole county, state of Florida, on the 7th day of July, 1913, duly passed an ordinance entitled "An Ordinance Providing for an Issue of Bonds in the Sum of Fifty Thousand Dollars for the Purpose of Refunding the Outstanding Floating Indebtedness of the City of Sanford; and Authorizing and Empowering the Mayor of the City of Sanford to Issue a Call for an Election to Determine the Question as to the Issuance of Said Bonds," which ordinance was duly approved by me on the 10th day of July, A. D. 1913, and became effective immediately upon its approval, and:

Whereas, under the charter of the City of Sanford the question of the issuance of bonds must be submitted to the electors of the city who own real estate, for ratification or rejection, at an election to be called for that purpose.

And I do hereby appoint T. S. Davis, F. S. Frank and J. Keane, inspectors of said election, and C. H. Leffler, clerk of said election.

Mayor of the City of Sanford, Seminole county, Florida.

An Ordinance to be Entitled

An Ordinance Providing for an Issue of Bonds in the Sum of Fifty Thousand Dollars for the Purpose of Refunding the Outstanding Floating Indebtedness of the City of Sanford; and Authorizing and Empowering the Mayor of the City of Sanford to Issue a Call for an Election to Determine the Question as to the Issuance of Said Bonds.

Section 1. That a bond issue in the sum of Fifty Thousand Dollars, for the purpose of refunding the outstanding floating existing indebtedness of the City of Sanford, be and the same is hereby authorized; provided, however, that before any part of said bonds be issued, the question of issuing the same, as well as the amount to be issued, and the purpose for which the money is to be expended, shall be submitted to the registered voters of the city who own real estate therein, at an election to be held in such manner and after such notice as is prescribed by ordinance; and said bonds shall be issued only upon the approval of the majority of said voters at such election.

Section 2. That said bonds shall be of the denomination of one thousand dollars each, bearing a rate of interest not to exceed six per cent per annum, interest payable semi-annually on the first days of January and July; and said bonds to be issued in series as follows: Ten bonds of one thousand dollars each, maturing in ten years; fifteen bonds of one thousand dollars each, maturing in fifteen years; twenty-two bonds of one thousand dollars each, maturing in thirty years.

Approved by me on this 10th day of July, A. D. 1913.

In County Judge's Court, Orange County Fla. Notice:

To Mrs. Edna Buchanan of Paola, Florida, Kate Stanley Stewart of Johnstown, New York, Miss Sybil Spargo of St. Louis, Missouri, John W. Spargo, Jr. of St. Louis, Missouri, George E. Garnett of Topeka, Kansas; Mrs. Melissa Van Sicker of Johnstown, New York; E. Gray Spargo of St. Louis, Missouri; Mildred Spargo of St. Louis, Missouri; Mrs. Emma W. Montgomery of New York City; Mrs. Addie Garnett of Topeka, Kansas; Mrs. David W. Dowd of St. Louis, Missouri; Stanley Palmer of St. Louis, Missouri; Mary E. Garnett of Topeka, Kansas; Harold Garnett of Topeka, Kansas; Joe Hume Garnett of Topeka, Kansas; Margaret Linnane of Topeka, Kansas; Ben Garnett of Topeka, Kansas; Howard Garnett of Topeka, Kansas; Marion Garnett of Topeka, Kansas; and Bonnie Garnett of Topeka, Kansas;

Whereas, William B. Kinsey, executor of the last will and testament of Kate Stanley, deceased, has filed his petition to sell the following real estate lying and being in the county of Seminole, State of Florida, to-wit:

Commencing at the south west corner of Lot Eight (8), Block Four (4), Tier Two (2) of Sanford and running thence east thirty two (32) feet, thence north forty nine and one half (49 1/2) feet, thence west thirty two (32) feet to an alley, thence south along the east side of said alley forty nine and one half (49 1/2) feet to the point of beginning. Being parts of Lots Seven (7) and Eight (8), Block Four (4), Tier Two (2), according to E. R. Trafford's map of Sanford, Florida. Fronting south thirty two (32) feet on Tier Two (2), Block Two (2), Block 10, Tier Three (3) of the town of Sanford as set forth in E. R. Trafford's map of Sanford.

These are therefore to cite you to appear before this court on the 15th day of August, A. D. 1913 and file objection if any you have, to the granting of said petition, otherwise the same will be granted as prayed.

Witness my name as County Judge and the seal of said Court this, the 10th day of July, A. D. 1913.

W. M. MARTIN, County Judge.

NOTICE

In the Circuit Court, Seventh Judicial Circuit of Florida, in and for Seminole County. In Chancery. Richie Woodbridge, complainant, vs. A. M. Thrasher and H. A. Howard, Defendants. Order of Publication. It appearing from the affidavit duly filed in the above entitled cause that A. M. Thrasher, one of the defendants therein named, is a non-resident of the state of Florida, and that his residence is unknown, and that said defendant is over the age of twenty-one years and that there is no person in the state of Florida, the service of a subpoena upon whom would bring said defendant into the state, and he is hereby required to appear and make answer to the bill of complaint filed in said cause on Monday the first day of August, A. D. 1913, otherwise the bill of said bill will be taken as confessed by said defendant.

Sanford's Temperature

Editor of The Herald:

For publication in your paper I furnish herewith record of meteorological observations taken by the undersigned as a cooperative observer of the Weather Bureau of the U. S. Department of Agriculture during the week ending Aug 3rd 1913, at Sanford.

The instrumental readings are from government standard instruments exposed in the manner recommended by the Chief of the Weather Bureau.

Very respectfully,

(Date) 8-4-13. H. C. DuBoise, Cooperating Observer

IN AND ABOUT THE CITY

Little Happenings—Mention Of Matters In Brief

PERSONAL ITEMS OF INTEREST

Summary Of The Floating Small Talks Succinctly Arranged For Hurdled Herald Readers

F. P. Forster has returned from a business trip to Jacksonville.

Beth Woodruff of Orlando was in the city a few hours yesterday.

Hon. H. H. Witherington of Apopka was in the city yesterday on business.

Bring the family for an all-day picnic at Woodland Park. 87-1f

Mrs. E. M. Gradick of Jacksonville is the guest of her daughter, Mrs. Ernest Tolar.

Miss Brain of Orlando was in the city yesterday for a short visit to Sanford friends.

Manager Hanson of the Armour Fertilizer Works of Jacksonville was in the city on Saturday.

Addison Williams is assisting at the store of the Sanford Shoe & Clothing Co., during the absence of Mr. Hodges.

Weather report says rain and then some. After a day or more sun there will be some more rain and so on ad infinitum.

R. A. Dawson of Jacksonville has arrived in the city to take up his duties in the office of the Crown Columbia Paper Co.

Mrs. Parrish has returned from a trip to the mountains of North Carolina, where several weeks were spent most pleasantly.

Mrs. Dr. Oliver Miller and little daughter have returned from a pleasant visit to Williston among old friends and relatives.

You can't drown in the Woodland Park swimming pool. Ideal place to learn to swim. Emptied and cleaned daily. 87-1f

Farmers in the Celery Delta are busy getting their seed beds in shape and there will be something doing in this line ere long.

Mrs. B. W. Herndon and daughter, Miss Norma have gone to New York and expect to spend the summer on Long Island Sound.

Mr. and Mrs. Ben Guthrie have returned from North Carolina, being called home on the sad mission of the burial of their little daughter.

Mr. and Mrs. L. A. Brumley and family returned from North Carolina last Saturday where they have been sojourning for several weeks.

Roy Rouseau, make up man and Mr. Webb, the linotype operator of the Orlando Sentinel spent Sunday in the city, looking at the high buildings.

Mrs. A. A. Preston of Fernandina is spending a few days with her husband, the city treasurer and collector and her daughter, Mrs. George DeCottes.

Conley Williams has returned from a trip to Georgia and resumed his duties of Sanitary Inspector. Claude Howard kept them on the run in the interim.

For Sale Cheap—Two fine all steel plows, one dandy 2-horse wagon, a lot of stable manure. Jas. C. Harris. 100-4tp

The foundation for the new business block of J. L. Miller has been finished and the bricks will soon be laying for this new addition to the busy Herald Square.

Mr. and Mrs. George Watson have returned from a two weeks vacation, part of which was spent at Pablo Beach and at Floral City with the parents of Mr. Watson.

Mrs. T. H. Fullinhal and two daughters, Misses Blanche and Georgia were guests of Mrs. Fullinhal's sister, Mrs. Ernest Tolar, last week, returning to their home Saturday.

Miss Caraway is in the city for a few days visiting his parents and looking after his property. He is located in

DeSoto county, where he has a fine orange grove and is prospering.

Mrs. J. A. Beggs and Mrs. Wilson who have been the pleasant house guests of Mrs. Beggs' sister, Mrs. Ernest Tolar for the past week have returned to their home at Titusville.

Mr. and Mrs. Dempsey of Jacksonville visited in the city several days of last week with Mr. and Mrs. J. A. Carraway, who accompanied them to Tampa, accompanied by their niece, Miss Muriel Harrold.

Mrs. E. T. Tyler of Salem is visiting her parents, Mr. and Mrs. McG. Carraway for a few weeks. Mrs. Tyler as Miss Carraway was very popular in Sanford and her many friends are glad to see her again.

The Gate City House has brought down the high cost of living. Only \$4.00 per week for the finest table board in the city. See Parker. 23-1f

Mayor Spencer has improved so rapidly and feels so much like himself that he has decided a vacation would be lost time from busy Sanford and is back at his post of duty again, looking after his interests and the city's also.

Work will start upon the new swimming pool and amusement park in a few days and ere the summer wanes this will be a famous place for the people of Sanford to enjoy an afternoon or evening from the maddening crowd.

Rev. A. S. Peck, Albert Fry, Walter Rev. A. S. Peck, Albert Fry, Walker Dickson, Benjamin Whitner, Howard Gilbert, Harry Carlson, Hume Rumph, Shaver Allen and Frank Coats are enjoying a week at Ormond Beach.

H. E. Tolar is able to resume his duties at the Peoples Bank after an enforced vacation spent at Winter Park. He says it was so quiet at Winter Park that one had to go outside to keep the overdrafts from making a large noise.

Ben Bardin is here from Brewster, where he is engaged in the mining of phosphate. Mr. Bardin has many friends here where he resided for many years and they will be glad to know that he and his family are prospering in their new home.

The editor of The Herald having an ingrown toe nail on each foot is out of the running this week and would appreciate it very much if news items could be telephoned to the office. No, Pauline, it is not the gout. Editors cannot afford such luxury.

The "White House," Daytona Beach, Fla. Special rates to summer guests. \$1.50 per day or \$6 to \$8 per week. Write for reservations. W. F. E. R. Ayres, Proprietor.

Mr. and Mrs. Ira T. Maines have returned from a visit to Mr. Maines' old home at Lake Butler, where they enjoyed the 76th birthday anniversary of Mr. Maines' father. They also visited Gainesville, Worthington Springs and several other places of interest.

Wanted—Boys for light easy pleasant work that will not interfere with school or other duties. Boys between the ages of eight and fourteen preferred. Address or call on Mr. M. B. Haver, Sanford House. Call between the hours of 10 and 12 a. m. or 2 and 5 p. m. 100-1p

The many friends of the Bowler family will regret to learn that they will leave tomorrow for Jacksonville, where they will make their future home. Mr. Bowler as claim agent for the A. C. L. wished to be closer to headquarters, hence the move. Mrs. Bowler has been the efficient society reporter for The Herald and we will miss her more than words can tell. Miss Mabel Bowler will also be sadly missed from the musical circles and society and club affairs and every one hopes that they will return to Sanford some time in the near future.

Cooler Weather

Washington, August 4.—Cooler weather throughout the country, except in the Gulf and Pacific Coast States, during the coming week is predicted by experts of the Weather Bureau.

"The distribution of pressure over the North American continent and adjacent waters," the bulletin said today, "is such as to indicate temperatures below the seasonal average the coming week over the northwestern states, the great central valleys, the region of the Great Lakes, and near or slightly above the normal in the Gulf states and on the Pacific coast."

"No warm wave is probable east of the Rocky mountains in the next week or ten days. The precipitation, generally, will be light and local, and there are no indications, at present, that a general storm will cross the country."

"There is no evidence of a disturbance in the West Indies."

Woman's Club

There will be a called meeting of the Woman's Club on Wednesday afternoon at 8:30. The business to be considered is such as would come before the club at any regular meeting. It includes among other matters a report on the pure water question, and an important letter from Dr. Ellen Lowell Stevens, the choice of club flower, colors and motto and the discussion of the opening of a new year.

It was thought best by the president to call this meeting for Wednesday instead of Thursday, the usual day, because of the fall holiday interfering with attendance and it is her earnest wish that every member be present.

MRS. HENRY WIGHT, Cor. Secretary.

NEW EXPRESS RATES

Will Save the People Twenty-Six Million a Year

Washington, D. C., Aug. 4.—Reduction in express rates which will cost the companies fully \$26,000,000 a year—approximately 16 per cent of their gross revenue—were ordered by the Interstate Commerce Commission today to become effective on August 15, 1913. Notable reforms in practices were also ordered.

The most important change prescribed by the order is by way of modification of the present graduated scales of parcel rates. One hundred pound rates for short distances either have been left unchanged or slightly reduced; for longer distances they have been lowered; for fifty pounds or less all rates have been practically reduced. For packages more than four pounds going more than two hundred miles and less than 2,000 the new express rates are generally lower than the parcel post rates; for more than 2,000 miles the rates are practically the same.

The report and order of the commission prepared by Commissioner John H. Marble are a virtual affirmation of the findings of former Commissioner Franklin K. Lane, now secretary of the Interior.

Divides Country Into Blocks

By prescribing a so-called block system, dividing the United States into 950 blocks, averaging 2,500 square miles, as originally proposed by Mr. Lane, 900,000,000 different rates now published by the express companies will be reduced to less than 650,000 and the Interstate Commerce Commission believes that the system points the way to a solution of the existing freight rates.

The general impression in official quarters is that the express companies will attempt to test by legal means the constitutionality of the commission's order.

The requirement of the order of June 8, 1912, that a label shall be attached to each parcel is modified to the extent that, in case of shipments of perishable property, consisting of two or more packages, the label need be attached to only one package.

The express companies had filed statements indicating that the losses of revenue under the proposed rates would be intolerable and argued strenuously that the establishment of the parcel post had deprived them of quite 30 per cent of the revenue they formerly received from parcels of eleven pounds or less. They contended that the express companies would survive the losses from both sources.

Answers Companies' Protest

"This is equivalent to saying," comments Commissioner Marble in his report, "that in as much as shippers have been given the convenience and economy of the parcel post, the express carriers must, on that account, be allowed to charge higher rates than otherwise would be reasonable. That is to say, the commission is called upon to take from the shippers of the country all the benefit that they receive from the parcel post and give it to the express companies in the form of higher rates upon the remaining business."

Death of Mary Guthrie

The sad news flashed over the wires last Saturday that little Mary Guthrie was dead cast a gloom over the city of Sanford and especially among those who who knew her best. The death occurred at Charlotte where Mrs. Guthrie had been spending several weeks for her health. The child was apparently in the best of health when leaving here, but stomach and bowel trouble attacked her shortly after arrival in the mountains and though hoping against hope her parents were at last forced to face the inevitable.

Mary was a sweet child of some three summers and was left to gladden the hearts of her parents after the death of little Ben several years ago, a blow from which father and mother never fully recovered.

Mr. and Mrs. Guthrie will arrive home today and the funeral will probably be held tomorrow from the residence of Magnolia avenue.

The sympathy of Sanford is extended to the bereaved parents; whose cup of sorrow seems overflowing.

Old Made Good as New

I have a first class harness maker now and we can do anything in this line while you wait. Give us a trial and be convinced. W. H. UNDERWOOD.

Editors in the "Movies"

The motion pictures taken by the Tampa Films Co., of the members of the Florida Press Association enjoyed the hospitality of the Florida Brewing Company, were shown Sunday at the Montgomery Theatre, and were full of interest to those acquainted with the editors and their homes. The pictures are clear and distinct. All the big guns of the Florida Press who attended the banquet are shown in action, and "Rube Allen" of Sarasota is the star comedian of the photo play, with Secretary Powell a close second. As

this is the first time the Florida Press has been filmed, the incident is a notable one, and it is to be hoped that the editors will have the opportunity of seeing themselves as others see them in Tampa Tribune.

Tobacco Growing in Florida

One line of agriculture which has never been given much thought in this part of the state, and one that there is probability of developing into a very important one, is that of tobacco culture.

In last week's edition of the Dade City Banner we find the story of the Sunnybrook Tobacco Company's this year's result in the culture of the "weed." The company has cultivated eighty acres, employing about 75 workmen, which has produced an average of 1,200 pounds per acre, making a total of 96,000 pounds. The price has averaged about \$1 per pound, making the value of the crop \$96,000, or an average of \$1,200 per acre.

The growing of tobacco in the northern part of the state, particularly in the vicinity of Quincy, has been a very paying industry for several years, but the experiences of the Dade City people demonstrate that even greater things may be accomplished in the southern part of the state in this line.

Notice Horse Owners

I have a first class expert horse shoer. Give him a trial.

Advertisement for Riverview Lots. Text: \$10.00 Down And \$5.00 Per Month. NO INTEREST OR TAXES FOR TWO YEARS. RIVERVIEW LOTS. The magnificent location of this property on the great tributaries of the St. Johns river, where the channel runs almost direct east from Riverview to the Atlantic Ocean, where the city of Jacksonville has built its great quarter million dollar electric light plant. Where the great municipal docks are going to be built. Where there are going to be millions upon millions of dollars spent by private capital in the near future for great manufacturing plants, all are situated by or near to Riverview, lying just to the east of us. This all goes to make Riverview the most classy and desirable property to the great city of Jacksonville. Something To Consider. Riverview today has over five hundred property owners all boasting for the great future of Riverview. We have 40 homes, some costing three to four thousand dollars. Three mercantile houses. Boat and launch factory of large and growing magnitude. We have now 14 miles of streets, all set out in shade trees. We have free public boat and bath houses. We have one of the most beautiful 50 acre public parks in the state. Riverview has many suburbs since its inception, and Riverview's geographical location is such that it is soon going to make its property value far exceed any property about Jacksonville, and every lot now bought will make the buyer a thousand dollars clear in the near future. We have a complete telephone service, and an efficient motor car lines at a 5c car fare to the heart of the city of Jacksonville. Riverview property will make thousands of dollars for the owners. Riverview has made good. Her titles are perfect, and as an investment it has no equal.

CURBSTONE GLEANINGS

Budget of Opinion "Just Between You and Me."

EVEN THE GATE POST NOT IN IT

A Chiel is Among Ye Taking Notes and Faith, He'll Prent 'Em— So Says Saunterer.

Sometimes I wonder where all the typhoid germs and other bacteria that we talk about these days happened to be fifty years ago when people thought but little about them or about their appendix or kindred troubles.

And yet we are progressing and looking for trouble all the time and I think it is well that we are getting better in the methods of keeping clean and looking after our welfare more.

Too bad, indeed, that Sanford cannot experience an industrial awakening. I am not going to crouch, for we are not going down hill, not by any means.

The mercantile business of Sanford is prospering, but there is little room here for additional stores.

is growing, but it is a steady, conservative growth, not such a one that will demand the rushing in here of more merchants to take care of the extra demands of the community.

I am in earnest and enthusiastic believer and promoter of ways and means to protect and preserve wild birds, and I cheerfully join my voice and efforts with the audubon societies of the country in promoting and popularizing methods for their safety.

It is not every town or city that has something special to offer in the way of cheap fuel, so why should this city not fare as well as the majority of places with only natural advantages to offer manufacturers?

I understand that my friend who writes the stuff for the Orlando Screw-driver went right after me last week about the sewerage question again and said that I was personal in talking about him being little.

Boys' Beach Party Last Tuesday morning a bunch of Sanford boys were due to leave for Ormond Beach, there were none also there.

They arrived at the depot about five minutes before train time and got their tickets and then proceeded to the baggage room to have their baggage checked, but before the baggage man had time to check the things the train pulled out.

The beach was fine and as nearly all took wheels there were some quite interesting races. The bathing and fishing were both fine, several record catches being made.

keep it in Orlando and why? It is absolutely necessary for them to dump it into the underground passages that are known to cope to the surface miles away?

But no. The very fact that the people of Orlando are not convinced in their mind that it is chemically pure—the very fact that no physician will pronounce it pure—the very fact that they are afraid that the deadly microbe still lurks in this disposal is the one REAL REASON why they persist in placing it as far from Orlando as they can get it.

It matters to us, my dear friends, and we are not making this investigation for the pleasure of having an argument. We are making it because it is just such small things that have a limited effect on Sanford's good name for years and the remarks have been made that this city was a dumping ground for Orlando.

Needed No Shackles Dan Mayo, sentenced to five years in the camps of the Florida Line Co. for murder, is being looked upon by members of the local sheriff's office today as a curiosity.

Mayo was sent to Jacksonville recently from Jackson county entirely unaccompanied. He arrived at the county jail in an automobile and approached Deputy Frank Edwards, handing him a letter from the Jackson county sheriff, telling him whence and why he came.

Today when Mayo was engaged in conversation he stated that he was perfectly willing to serve his term, but still thought that he had been justifiable in his act and not in the least a bad man.

So reads a telegram from Jacksonville. Mr. Mayo arrived with his prisoner—himself a prisoner—and reported to the Marion Farms prison camp. Nearly the whole of Jackson county believes him to be innocent, and the pardoning board will be bombarded with petitions to have him liberated.

They arrived at the depot about five minutes before train time and got their tickets and then proceeded to the baggage room to have their baggage checked, but before the baggage man had time to check the things the train pulled out.

all the boys got aboard hollering directions as to where the things were to be sent. Later they decided to send one of the boys back to see that all the things were checked all right, and to follow on the next train, and as it happened the one that was sent back was the only one that knew where the cottage was and had the key they were in a nice fix.

Mayor Swearingen of Jacksonville publicly advocates the whipping post as punishment for crime. Many people favor such punishment for wife-beaters, but the Jacksonville mayor will not find many persons with him in advocating the brutal whipping post as punishment for other forms of crime.

WANTS A TRACTION LINE

Fogg of Altamonte Thinks That Sanford Should Hustle

Altamonte Springs, Aug. 4.—The act of the voters of Hillsborough county bonding for a million dollars for good roads is an invitation to other counties to take notice and do likewise.

And the glorious old county of Orange has been divided, but I trust not in the interest of good roads and other important improvements. While I was opposed to the division I am willing to be convinced that it was not a mistake.

The council meeting last night was so full of business that they were forced to adjourn until today. Full account of the meeting will be given in Friday's issue.

City Council Junket For Bulkheading Lake

Investigate Matter Thoroughly and Pass to Attorney

Board Election Will Decide the Fate of This Most Important Matter is Latest Opinion

At last Sanford will realize one of the dreams—day dreams as it were—in the shape of a bulkhead on the lake front. This matter agitated by The Herald many years ago and persistently brought to the attention of the people and the successive city councils ever since will in a few weeks be brought to a concrete form and in shape to be carried out. The city council has taken cognizance of the importance of this work and this week inspected the lake shore, even going in boats to take soundings and investigate every phase of the work.

Conditions Good

According to Dun's Review encouraging reports of business conditions predominate, and the growth of confidence in the future is evidenced by increased preparations for fall and winter trade. All the leading markets continue to reflect the quietness to be expected at this season, yet in some instances the mid-summer recession has been of shorter duration than is customary. The prevailing optimistic feeling was apparently not impaired by the reported change to the growing corn crop, and the agricultural situation on the whole, is still promising. Gradual recovery in spring wheat prospects is accompanied by splendid harvesting returns from the southwest, where the enormous movement of new grain is taxing the capacity of the transporting companies. The possibility of a strike on the eastern railroads is now more remote, but financial settlement was somewhat disturbed by the reduction in the dividends of a prominent system, although such action was not entirely unexpected. The revenues of a few roads show a falling off, but in the aggregate railway earnings continue to exceed the total of a year ago and also those of 1911, the gains in gross during the first three weeks of July being 1.2 and 8.2 percent respectively. On the other hand, bank clearings this week were 3.6 percent less than in 1911. Favorable conditions have existed in the basic industries, as indicated by the statement of the leading iron and steel producer for the last quarter, the net earnings surpassing all previous records for the period, with the single exception of 1907. An improved sentiment is manifest in dry goods circles, but the period of adjustment to new tariff conditions is at hand and price reductions in various articles attract considerable attention. Quotations held steady on many staples for immediate and nearby deliveries, yet where orders are sought for later deliveries concessions have offered. Labor difficulties in silk manufacturing centers have been settled. Footwear buyers who recently visited the Boston market placed a fair volume of orders, and manufacturers feel encouraged over the outlook. There is a moderate business in shoe leathers and prices remain firm, the steady demand checking all accumulations. Strengthening of bank reserves at New York has imparted a still easier tone to the monetary situation, and the marketing of the crops will be facilitated by large deposits of government funds in the national banks of the west and south, official announcements to that effect being made late in the week.

Willis Strickfellow, a popular student of Deland was in the city on Wednesday calling on his many friends.

Clark Is Belligerent To Enforce Doctrine

Thinks America is Protectorate Over All Countries

Other News of the Civilized World by Special Wire and Wireless Telegraph

Washington, Aug. 7.—Representative Clark is preparing a speech to be delivered in the house on behalf of the so-called "doctrines" of reaffirmation of the Monroe Doctrine, especially that part of it which declares against the colonization on the Western Hemisphere of any other race or color than white. Mr. Clark believes in the preservation of North and South America to the Caucasian race, that strife between white and alien races is bound to come, and that we should prepare ourselves as early as possible. He also intends to make a speech on his bill to prevent the intermarriages of white and black races, and the separation of white and black in street cars and all other public conveyances in the District of Columbia. This bill is now before the District of Columbia committee, and if he believes that if he can get it reported out of the committee the house will pass the bill. Mr. Clark would take no measure with regard to the Monroe Doctrine. He favors a protectorate by this country over the republics of South and Central America, and would compel them to preserve order within their boundaries or proceed at once to intervene. He believes that his country should give warning to Mexico that she preserve order and protect all foreigners, and if Mexico fails to comply we should intervene, seize her largest cities, collect her revenue, and pay the expense of our army out of them, hold a presidential election and see to it that peace and quiet is maintained. For these reasons he also is in favor of building up our navy and believes it is large enough all talk of war by Japan would immediately cease.

NEW COLONY NEAR SANFORD

Howard-Packard Land Co. Locate Settlers at Kalamazoo Judge Charles Voigt, with Messrs. W. Winter of Evanston, Ill., L. Valentine of Sanford, Ind., and Prof. L. Schaller of St. Louis, Mo., arrived in town Wednesday evening enroute to Kalamazoo, the new settlement which Howard-Packard Land Co. has been locating just east of Osteen in Volusia county. Judge Voigt gave up a long and successful career a short time ago in order to locate in Florida and devoted his attention to this colony, of which he is the head, and to his property interests here. He owns 140 acres of land in the colony himself, ten acres of which he has had improved in advance, and now that he is here to locate permanently he will not only improve the balance of his land but also expects to build a two story combination store and hotel at Kalamazoo so that other members of the colony as they arrive this fall will not only find a convenient stopping place till they can build a place to purchase supplies as well.

Evans-Howard

Miss Katherine Howard and Mr. M. M. Evans were united in marriage at the Bye-Lo Hotel on Tuesday evening. Rev. Games, pastor of the Methodist church officiated and only the family and a few friends were present. The bride is the daughter of Mr. and Mrs. E. M. Howard of the Bye-Lo Hotel and has resided in Sanford for several years, having many friends and acquaintances.

For a Free Library

St. Petersburg, Aug. 7.—Immediate steps will be taken by the local library board to secure from Andrew Carnegie the \$12,500 which he offered to give to St. Petersburg for a library building, and the board is authorized by the city commissioners to say to the donor of libraries that St. Petersburg will comply with his usual demands and set aside \$1,250 each year for library maintenance. It is proposed to locate the library in Reservoir Park, at the head of Third avenue north, and the local board will make every effort to get the money so that work on the building can be under way by the middle of the winter.

Catch Cattle Rustler

Orlando, Aug. 7.—Arnold Baxter of Winter Park was arrested today and lodged in the county jail, charged with stealing cattle. The arrest was made by Sheriff Frank Jordan. Jessie Biny, a large cattle raiser, found one of his steers in pen ready to be killed at Baxter's slaughter pen; also one belonging to Henry Mathews. Two hides that had been buried were dug up, one revealing the brand of Gen. W. Crawford. Cattle were being missed and suspicion rested upon Baxter's meat producing house.

Orange Did Not Vote

Orlando, Aug. 7.—The county commissioners at their monthly meeting failed to issue a call for an election to vote bonds for the construction of brick roads, as asked in a resolution by the Orlando board of trade, but took the matter under favorable advisement. It is understood that after estimates are obtained of the roads to be built and the amount needed ascertained, that the call will be issued, as all of the commissioners are in favor of improved roads.

Congregational Church

The theme for next Sunday morning will be "The education of the heart." In the evening the subject will be "The Secret of achievement." All are cordially invited to our services.

F. P. STRONG, Acting Pastor.

Seminole County Chiefs Hold Their First Council

Commissioners Have Several Very Busy Sessions

Many Matters Fraught With Important Results to the New County

The Seminole county board of county commissioners met in first regular meeting at 11 o'clock a. m. on Tuesday. Present, F. L. Woodruff, J. A. Clark, J. T. McLain, C. W. Entaminger, L. P. Hagan. F. L. Woodruff was elected temporary chairman, and on motion temporary organization was made permanent. George A. DeCottes was duly elected attorney for the board. Bonds of the following were approved: J. Tilden Jacobs, F. P. Forster, S. C. Dickson, members of the school board; D. L. Thrasher, superintendent of public instruction; E. A. Douglass, clerk of circuit court; L. M. Rehbfnder, county surveyor; C. M. Hand, sheriff; Jno. D. Jinks, tax collector; Thos. K. Bates, tax assessor; B. F. Whitner, Sr., county judge; J. B. Jones, treasurer; H. C. DuBois, superintendent of registration. E. A. Douglass was elected clerk of the board, pending receipt of his commission as clerk of circuit court. Also bonds of John D. Jinks and Geo. Fox, Sr., as notary public state at large was approved. A motion was made, seconded and carried that all acts of the present board of county commissioners in reference to the purchase of supplies for the county of Seminole, heretofore done and performed, be and the same are hereby ratified and confirmed. All of which acts are shown and set forth by the minutes of a meeting held on July 11th, 1913. And the clerk is hereby instructed to record the acts and doings of said board, as a part of the minutes of this meeting. Moved, seconded and carried that the resolution of A. T. Rossiter for rental of a part of the Wellborne Block, number of rooms sufficient for the transaction of the county's business together with circuit court room. Lessor agreeing to install elevator for use of all officials and the public. It was further ordered that Geo. A. DeCottes, attorney for the board draw up lease for same. Printing of Acts of 1913 was awarded the Sanford Herald. Communication of Theo. I. Peter read and action deferred. Application of O. J. Miller to appointment of county physician was read and deferred. Application of A. F. Bell was read and filed for future reference. Insurance in the sum of \$1,000.00 was given Chase & Co., on books and furniture on hand at this date belonging to the county. It was moved and seconded and carried to advertise for the sale of bonds for Special Road and Bridge District No. 1. L. M. Rehbfnder, county surveyor was ordered to make map of voting precincts, numbers 1 to 11 inclusively, also county commissioner districts numbers 1 to 6 inclusively. Voting precincts designated as follows: Sanford from Myrtle avenue east, No. 3. West Sanford, No. 1. Munroe, No. 2. Lake Mary, No. 10. Paola, No. 4. Longwood, No. 9. Altamonte, No. 11. Lake Howell, No. 8. Chuluota, No. 7. Geneva, No. 6. County commissioners' districts embrace the following voting precincts: No. 1—Nos. 1, 2, 3, 4. No. 2—Nos. 5, 10, 11. No. 3—Nos. 6 and 8. No. 4—Nos. 9 and 7. Justice of the Peace Districts: Sanford, No. 1, 2, 3, and 4. Chuluota, No. 1 and 7. Oviado, Nos. 5 and 6. Longwood—Nos. 9, 10 and 11. Resolution concerning Black Hammock Special Drainage District was passed and duly signed by chairman of the board and clerk, and advertisement ordered done in Sanford Herald for sale of the bonds.

SEMINOLE IS NOW OFFICIAL

New County Obtains Recognition by State Comptroller While Seminole really started with the meeting of the county commissioners last Tuesday, none of the officers felt as though they were the real thing until the comptroller had passed on their bonds and the following telegram from Tallahassee was most welcome: "Bonds of county officials all approved and commission issued today for each officer."

Commissioners Love Feast

The county commissioners finished yesterday a two days' session, during which a large number of routine matters was disposed of, and the board squared itself and took a deep breath to be ready for next week's session which will begin Thursday with the commissioners of the new county of Seminole. It is impossible to tell how long the two boards will be in session, incident to starting the county of Seminole upon its own basis as an individual county. Heretofore the territory composing the county of Seminole has been a part of Orange, and the meeting tomorrow will be the first joint session of the two boards looking to a settlement of the financial matters that must be adjusted before the new county can get her bearings.

Will Affect Saloons

The stringent new state law which prevents the serving of saloons and imposes various other "reforms" covering the sale of intoxicants, which was passed at the recent legislature does not go into effect until September 30, by reason of which Florida saloonkeepers have a few weeks of grace before the "epidemic" strikes them. Solicitor W. H. Jackson is expected to see that the law is enforced.

Orlando Adopts Commission

By a large majority the voters of Orlando on Tuesday ratified a commission charter to become effective January 1, 1914. Under the new charter the city will have three commissioners, one to be Mayor. Initiative, referendum and recall clauses are included in the charter. Orlando is the third city in Florida to adopt this form of government.

W. V. Knott, Comptroller

This means that they have not only received appointments but also that the official commissions, and bonds have been approved and every thing is lovely in the new court house on the St. Johns. The county officers can now settle down to real business and all their acts will be official with the big seal and stamp. The new officials have plenty of work to do and most of them have their desks piled high with no place to put the desk until some of the professional men in the Wellborne Block can get now quarters. A week or more will see all the county officials comfortably quartered in their own offices and then the real business of the new county will start smoothly and well.

The money affairs will be arranged today with Orange county and the treasurer of Seminole will have money in the bank to pay the current bills and by strict economy the new county should be able to struggle along until next tax paying time. We have a most economical board of county commissioners and they will make every cent count.

Application of A. F. Bell was read and filed for future reference.

Insurance in the sum of \$1,000.00 was given Chase & Co., on books and furniture on hand at this date belonging to the county. It was moved and seconded and carried to advertise for the sale of bonds for Special Road and Bridge District No. 1. L. M. Rehbfnder, county surveyor was ordered to make map of voting precincts, numbers 1 to 11 inclusively, also county commissioner districts numbers 1 to 6 inclusively. Voting precincts designated as follows: Sanford from Myrtle avenue east, No. 3. West Sanford, No. 1. Munroe, No. 2. Lake Mary, No. 10. Paola, No. 4. Longwood, No. 9. Altamonte, No. 11. Lake Howell, No. 8. Chuluota, No. 7. Geneva, No. 6. County commissioners' districts embrace the following voting precincts: No. 1—Nos. 1, 2, 3, 4. No. 2—Nos. 5, 10, 11. No. 3—Nos. 6 and 8. No. 4—Nos. 9 and 7. Justice of the Peace Districts: Sanford, No. 1, 2, 3, and 4. Chuluota, No. 1 and 7. Oviado, Nos. 5 and 6. Longwood—Nos. 9, 10 and 11. Resolution concerning Black Hammock Special Drainage District was passed and duly signed by chairman of the board and clerk, and advertisement ordered done in Sanford Herald for sale of the bonds.

E. A. DOUGLASS, Clerk of Board.

M. W. Lovell has evidently been appointed postmaster, although Postmaster Hawkins will not give up the place. Mr. Lovell received a letter from New York yesterday addressed "Postmaster Lovell." Maybe his correspondent has inside information.
