gressional record again.

Will Tell the World About Florida

TOM SIMS SAYS

The people of the country are going to know more about Florida, thanks to the action taken by the Florida Development Board at its meeting yesterday in Orlando, when plans were formulated for an advertising campaign of a state-wide character.

According to plans outlined by the committee every import-ant English daily in New York will be used in this campaign to "Tell the world" about Florida. This campaign will be carried on during the Madison Square Garden exhibit to be held in New York next January.

Sanford and other progressive Florida cities will be represented at this exhibit and will reap a proportional benefit from the advertising. The list of topics covered in this proposed advertising campaign as outlined by the development board are as follows:

First: Florida's location and transportation facilities to get over proximity of state to centers of population, to emphasize railroad, steamship and highway facilities for coming here and to explain the good roads and other transportation already provided within the state, including that afforded by canals, navigable rivers and chains of lakes.

Second: Florida's equable year-round climate-to strongly present the fact that summers in the state are not oppressive, important because the average person of the north still believes Florida to be excessively hot in the summer months. This advertisement also can detail some of the commercial advantages growing out of our favorable climatic conditions.

Third: Healthfulness and longevity record of Floridathese points have not been strongly enough stressed in a great \$1.000,000 stadium. They say it looks deal of the Florida advertisnig. They present an irresistible ap- like a million dollars. peal to persons of advancing age and the people with mild forms

of chronic affections. A considerable number of folks have se-cured relief even from asthma and hay fever in Florida after high elevations have failed to furnish it. Fourth: Florida's recreation, advantages and facilities—the story of Florida, a place for summer and winter residence, with special attention to what it offers tourists and vacationists. In view of the late date of the Madison Square exhibit one advertiseview of the late date of the Madison Square exhibit, one advertise- number will seem very small. ment on this subject probably will be enough. It should feature every form of recreation provided for in Florida.

Fifth: Florida's opportunities for profitable investmentsto explain the reason why investments in Florida may be depend- be members of the tea party. ed upon to yield high returns without risking their inherent safety. At the time of the appearance of these advertisemnts, this topic will be of particular appeal to many persons of means. The story of the development of the state carried by other pieces of copy, will strongly suggest investment to this class of people.

Sixth: Florida's manufacturing needs and advantages-to show how the pleasant climate and other conditions favor certain he could keep \$9,184 at his home, but types of manufacturing. Care should be exercised, of course, not to indicate the need of or opportunity for factories which cannot possibly succeed here. In our judgment, howevr, there is enough to be said on the topic to fully justify devoting one advertisement thereto.

Seventh: Florida's coast line, harbors, lakes and fishing industry-to bring out the fundamntal facts with reference to the water resources which are an asset of so much significance 000 a year for prohibition enforceto the state. The relation of water transportation to investments, ment, but gets little of it. manufacturing or recreation is obvious. It can be pointed out that it is of equal value in agricultural and other developments.

elected secretary of the C. E. district Union. Mrs. Maxwell has served for many years as district sccretary, and she is thanked most heartily by the Endeavorers of the Orlando district for the great amount of time and thought she has put in the Christian Endeavor work. "Probably there is no district secretary in all Dixle, as efficient in work and records as is Mrs. Maxwell, of Sanford," said Mr. C. F. Evans, Southern Field secretary, in the convention on Sunday.

The convention as a whole proved a gerat success, and probably was one of the finest C. E. conventions ever held in this district, breaking all Dixie records for any district Christian Endeavor convention, having 514 paid registrations. The next convention will be held in Orlando, in the First Presbyterian church.

The convention which was being held in the Christian Church of Kissimmee, came to a close Sunday evening, with the installation of the newly elected officers and an address, "The Call To Service," by C. F. Evans, followed by consecration service and the Mizpah benediction. tion.

Ground Office

Coral Gables

The trip we made to Miami last week was such a success in every way that at the request of the people of Sanford we are going to run another special bus out of here next, Monday in connection with our regular weekly bus. This will be made up entirely of Sanford people and this is your chance to see Miami and the East Coast as our guests with home people.

The transportation is absolutely free and hotels give us a special rate.

Reservations should be made at the earliest moment at the local office. The big bus is as easy riding as a pullman car, and the this will be in charge of courteous and efficient members of the Coral Gables organization. Mere's your opportunity to join the greatest sight seeing tour in America. Space is limited. Make your reservation for seats now.

there is a most effective danger signal to warn you-your car comes to a stop without any particular amount of damage being done. It is different when you run out of lubricating oil in your motor: there are no warning signals, nothing to flag your attention until great damage has been done.

The greatest single factor in the economical and efficient operation of a motor car is the proper lubrication of its engine. Sufficient quantity, the right quality, the proper weight or grade, and the frequent replacement of oil are the things you want to watch.

You can solve all these problems by . putting nothing in your crank case but Polarine, consulting the chart of recommendations to determine just what grade your car requires, and renewing your oil completely after it has been used for six or seven hundred miles.

There is no variation in the quality of Polarine. Wherever you see a dealer who displays a Polarine sign, you may feel assured that you can get there the finest motor oil on the market to-day.
