## Truman Picks Johnson For Defense Post

### Exchange Of Letters Between President And Forrestal Prepared For Release

WASHINGTON, Mar. 3.—(P)—President Truman is expected to accept today James Forrestal's long-pending resignation as Secretary of Defense and name Louis A. Johnson, West Virginia lawyer, to the post.

White House informants said the action probably will be announced at Mr. Truman's news conference at 4:00 P. M. (EST) An exchange of letters between the President and Forrestal has been prepared for release, they added.

Forrestal, the nation's first Secretary of Defense, is the last Cabinet holdover from the Roosevelt Administration. He was Secretary of the Navy before he took the top defense job.

Johnson has figured in speculation as Forrestal's successor. He is a former assistant Secretary of War and served as chairman of the Democratic Finance Committee in the 1948 presidential campaign.

President's spokesman disclosed during the campaign that Forrestal was expected to step down after the election. The only question was one of timing.

The President is known to have undertaken action because of his objections to publicly giving his plans.

He and Forrestal have discussed the question of Forrestal's resignation from time to time. At one point it was understood that Mr. Truman had agreed upon the date.

However, Forrestal expressed a desire to step out earlier and it is understood now that the change will take place within a short time.

White House officials look for Secretary of the Army Kenneth Royall to be the next to step out of the Administration, but they are not sure how soon that may be.

Secretary of the Air Force W. Stuart Symington, for whom resignation some of Mr. Truman's associates had been pressing, is now expected to stay on indefinitely.

## Current Events Indicate Reds May Revive Dream Of World Revolution

By WILLIAM L. RYAN  
ASSOCIATED PRESS STAFF WRITER

Does Moscow feel the time is ripe for reviving the Lenin dream of world revolution?

A new Comintern—communist international—embracing the Communists of all the world—may be taking shape. Events of the past two weeks form a pattern which seems to indicate this.

In quick succession the Communists of France, Italy, Britain, Germany, the United States and Austria have announced they would

join the "liberating armies" of the Soviet Union if war should erupt between the East and West.

The Communist International Information Bureau (Cominform) may be getting ready to hatch out a military alliance to match the projected North Atlantic Pact. There are reports that a Comintern military conference will be held in Hungary.

In the concept of Nicolai Lenin, hero of the Russian revolution, Russia was looked upon as the beginning point of a world revolution of the proletariat. Under Stalin, however, Russian Communism for a while took a different turn, tending toward national development.

The war had much to do with the Russian Communists. The

## C-47 Crashes In Fires Kill 22 In Mexico, Killing Nine Passengers

### All Occupants Of Craft Said To Be Army, Navy Men

BY ASSOCIATED PRESS

At least 22 persons were reported killed today in fires in Michigan, Nova Scotia and New York.

A widowed mother and her nine children perished in a fire which destroyed their home in Lakewood, Mich., a resort community north of Muskegon. Deputy sheriffs and three more children may have died.

Seven died in their beds in a flash fire in a Halifax, N. S. tenement. Three others were injured, one critically. Thirteen were left alive.

The plane had been missing for several days on a flight from Hamilton Field, Calif., to Kelly Field in San Antonio, Tex.

It was last reported over Winkler, Tex., in the southwest part of the state, at 8:26 A. M. Monday. It had landed earlier at El Paso, Tex.

The plane had been the object of an extensive search both by land and air.

The plane was found approximately 100 miles south of the Del Rio, a border town, in the Sierra Colorado, rugged mountains of the country.

An employee of the R. A. Whitehead Ranch found the wreckage while checking water walls on the ranch.

The sheriff said that authorities in Villa Arcon, across the Rio Grande from here, were notified of the plane crash and a searching

Friends of Mrs. E. M. Swain will be sorry to hear of the death of her mother, Mrs. J. F. Jernigan, which occurred at the home of another daughter, Mrs. Jack Arrington, in Perry last Friday night.

Mrs. Jernigan who had been ill for several months, was 70 years old. She is survived by four daughters and one son. Funeral services were held in Perry at 10:30 A. M. Monday and burial made in the Perry cemetery. Mr. and Mrs. Swain returned home yesterday after attending the services.

MART STARTED

The D. O. Justice Construction Co. of Jacksonville has laid concrete foundation footings for the new Winn-Lovell Supermarket at Third Street and Palmetto Aves.

Soil is being removed from the area adjacent to Palmetto Avenue which will be cemented for a parking space for patrons.

MEAT PRICES Continue To Edge Upward In Nation's Retail Stores

By ASSOCIATED PRESS

Meat prices continued edging upward this week in many chain stores whose competitive quotations are a sensitive barometer of retail trends across the country.

Steaks, for example, was up 2 to 4 cents a pound in several key cities following last week's advances of 4 to 10 cents. Pork loin roasts were up 2 to 8 cents. Even lamb, which remained comparatively high when beef and pork dropped sharply last month, was up a few cents from last week.

One notable exception to the general rule was Boston, where sirloin, which cost at around 75 cents a pound last week, was 60 cents yesterday, and pork roasts declined 10 cents to about 85 cents a pound.

Most buyers said the upward trend was believed to be leveling off. The supply-demand position of meat is more normal this week than at any time since the war began, however. Prices of lamb, veal, chops, etc., have been reduced, but this is not due to a general market improvement, but rather to a

sharp increase in the cost of living.

Among the more filled meat markets are the older centers. They used to serve tables, but now only the carrying men. Now it's bubble gum.

It was introduced, Arctic white residents think, by soldiers stationed at Cape Spencer and other northern outposts. Some of the soldiers may have gone, but the bubble gum stuck.

The Eskimos are showing bubble gum.

## Holland Backs Dixie Group In Filibuster Row

### Senator From Florida Argues Against Proposal To Alter Rules On Debates

WASHINGTON, Mar. 3.—(P)—

Southern Senators today pushed their filibuster-to-save-the-filibuster into its fourth day in the Senate.

Senator Holland (D-Fla.) had the floor, arguing against the proposal to alter the rules so that two-thirds of those voting could cut off a filibuster at any time.

Backers of an anti-filibuster rules-changing resolution showed no inclination to press for a quick showdown.

Democrat Stenstrom, county judge of Seminole County, was today named the outstanding young man in Seminole County in 1948 by the Homosassa Chamber of Commerce at its tone at the Lentz Center.

Mr. Stenstrom was presented the Jaycees distinguished service award by Dan Townsend of Haines City, vice-president from the Fourth Jaycees district in Florida.

Briley Odham, who was named the outstanding young man in the county in 1947, was also presented the award by Mr. Townsend.

Previously he had scheduled the filing of a clause-in debate limit petition Monday. He said that action may be postponed until later.

Senator Wherry of Nebraska, the GOP floor leader and one of the authors of the anti-filibuster resolution, said a conference of Republican senators probably will be called after the petition is filed before the Senate.

"I don't see much use in the Republicans trying to decide what their position is until the petition is actually filed," he said.

Lucas did not say so, but there were clear indications that Administration lieutenants fear they may not have the votes to sustain a possible ruling by Vice President Barkley that the present debate can be cut off.

They need that ruling and the Senate votes to sustain it if they are to win the battle of the filibuster.

Monroe, the House Banking Committee voted 23 to 2 to extend controls for 10 months, rejecting an Administration request for a 24-months' continuation.

The controls expire Mar. 31, or (continued on Page Three)

## German Hospital Found Buried By French Hunter

ARRAS, France, Mar. 3.—(P)—

Searchers today dug into a sunken German army hospital buried since the patient and doctors were suffocated when a shell sealed off their communications trench in 1944.

Skeletons of the patients were found on their cots lined up in rows along the walls. German rifles and helmets were stacked by the door.

The underground field hospital was found yesterday by a rabbit-hunter who broke through the dugout's crumbling roof. Its location was an old rock quarry that hasn't been used for more than 40 years.

The hunter, M. Fleury Leblond, said he was pushing his way through brush that had grown over the quarry when he broke through the ground. Peering inside he saw skeletons and turned to Arras to report his discovery.

Digging into the hospital, he and other citizens of Arras found the grim spectacle.

Formerly a special agent for Reliance Insurance Company, Mr. Hart had been re-elected as chairman of the organization.

A skeleton or two were thought to be those of doctors. One patient was apparently being operated on when the shell struck.

A communication trench between the hospital and another dugout nearby had been hit and buried by an allied artillery shell.

Arras, near Lille, was in the British sector when the great offensive began in 1948.

CHARLES A. CROOP Died This Morning

Charles A. Croop, brother of

Mrs. Harry L. Lewis, died this morning at 4:00 o'clock in the local hospital. Funeral services will be held at 11:00 A. M. tomorrow at the Erickson Funeral Home with Dr. E. D. Brownlee and the Rev. Angus McLean officiating.

Services were held in the hardware and lumber business until five years ago when he came to Sanford to make his home with his sister.

Other survivors besides Mrs. Lewis include two brothers, B. B. Lewis of Durango, Colo., and R. M. Lewis of Dallas, Texas.

Two nephews, Harry B. Lewis of Miami, Fla., and McPherson of Tampa, Fla., will be sent to LaPorte, Ind., for burial.

(Continued on Page Three)

HEALTH UNIT

Dr. Frances Read, director of maternal and child health for the State, made her initial visit to Sanford today to address midwives of the county at 2:00 o'clock at the Seminole County Health Unit in a program arranged by Dr. Frank Quillinan, Dr. Read is former director of the Harriet Clinic at Johns Hopkins Hospital, Baltimore, Md.

Funeral services will be held at Erickson Funeral Home at 2:00 P. M. Saturday with Dr. E. D. Brownlee officiating. He will be assisted by Rev. Angus McLean. Burial will be made in Evergreen Cemetery.

### Back In Washington

U. S. MINISTER to Hungary Reidenauer

Chapin goes over his papers after

his arrival in Washington for "consultation" by the State Department.

Hungary re-claimed Chapin's recall

from Soviet territory in the American zone, has been willing to go back home in recent months.

He is to leave the American note, made public by the State Department, and return to Hungary.

He is to be replaced by George

Briley Odham, who was named

the outstanding young man in

Seminole County in 1948.

**Rural Common Sense**  
By SPUDS JOHNSONCHURCH CAN WORK WITH  
MANY OTHER GROUPS IN  
IMPROVING RURAL LIFE

The rural church can play an important role in building up family life, promoting better living on the farm, improving education of rural youth and stimulating farmers to use more modern methods of farming. In doing so it will be serving its own ends better and contributing more widely to the upbuilding of the community.

Many other groups are already working with rural families. Sometimes they do not enlist the aid of the church, and the church does not volunteer its services. Rural life development is a task that call for cooperation of all groups interested in farming, rural homemaking and citizenship development.

Surveys have shown that the rural home is three times as important as the city home in providing the future population of the country, so rural citizenship development is trebly important.

Rural pastors at conferences have considered what they and their churches can do to bolster rural communities and thus

strengthen their own churches. The following points have been pretty well agreed upon:

Preserve soil resources—a stable farm community depends on productive farms.

Maintain family-size farms—they give community stability because every member of the family is interested in improving the place where he lives.

Make tenancy a steppingstone to ownership—tenants often hesitate to participate in soil conservation and community life.

Keep neighborhood vital. Cooperation is the Christian way of doing business and furnishing real competition to private and state corporations.

Encourage rural people to run their own organizations and foster the existence of independent farm life, rather than depending on national farm organizations and government agencies.

Improve the quality of human life in rural areas—which is done so heavily by urban areas—by creating systems of land holdings and educational, health, recreation and other community organizations.

Elementary schools must teach the study of rural life and their contribution to the nation. Rural churches can be strengthened. Human and social erosion is affecting the church.

Protect rural health through adequate public services and hospital and medical care.

Protect the independence of rural people. The voluntary institutions found in rural life are the very roots of democracy.

70 DROWNED  
HONG KONG, Mar. 3—(AP)—Seventy persons were drowned today by a sudden storm which swamped 50 fishing junks in Mars Bay.

Seven bodies were recovered. Some women and children were drowned.

The storm caught the fishing fleet in the bay and hurled many of the junks on the rocky shore where they were battered to pieces.

Since 1908, the Masjid-i-Sulaiman oil field in Iran has yielded 924 million barrels of crude oil.

Keep neighborhood vital. Cooperation is the Christian way of doing business and furnishing real competition to private and state corporations.

Encourage rural people to run their own organizations and foster the existence of independent farm life, rather than depending on national farm organizations and government agencies.

Improve the quality of human life in rural areas—which is done so heavily by urban areas—by creating systems of land holdings and educational, health, recreation and other community organizations.

Elementary schools must teach the study of rural life and their contribution to the nation. Rural churches can be strengthened. Human and social erosion is affecting the church.

Protect rural health through adequate public services and hospital and medical care.

Protect the independence of rural people. The voluntary institutions found in rural life are the very roots of democracy.

Among the common names for the tiny evergreen wintergreen are tea-berry, checkerberry, boxberry, jersey tea, spice-berry and round holly.

THURSDAY, MAR. 3, 1949

**BIBLE VERSE TODAY**

There are godless nations today  
that use subtle propaganda to  
catch the gullies. They hide be-  
hind an iron curtain to conceal the  
abject poverty and hunger and  
brutality and fear in which they  
live. Tens of millions would love to  
escape. Learn not the way of  
the heathen.—Je. 10:2.

Senator Tom Connally of Texas,  
ardent supporter of President Tru-  
man and the New Deal, stands by  
the South in its right to filibuster  
against unconstitutional legislation.  
To take away the right to filibuster  
would deprive the South of its  
right to state its case before the  
nation. Freedom of speech is a  
basic democratic right. No one is  
compelled to listen, but anyone can  
state his case.

Between 200 and 250 civic lead-  
ers visit the County Home and In-  
firmary and report conditions  
there as good as could be expected.  
No doubt further improvements  
could be made, if money were no  
item, as indeed they could be too  
in the public schools, the hospital,  
and even in our churches if such  
improvements only didn't cost any-  
thing. However, if anyone was  
shocked or horrified by what he  
found at the County Home, we  
have yet to hear of it.

The Seminole County Red Cross  
drive gets under way with O. K.  
Goff as chairman and a goal of  
\$6,100. Other drives which have  
been conducted during the past  
year have run into considerable  
difficulty raising their quotas as  
the public begins to count its pen-  
nies following the lush war years.  
What we have all got to learn is  
how to live on what we can make  
after doing our part for these very  
necessary charitable organizations.  
Cutting out the Red Cross is like  
cutting out your insurance policy.  
When disaster strikes, you find  
you can't get along without it.

On Cabbage Key near Pass-a-  
Grille two young honeymooning  
couples have solved the housing  
shortage and the rent problem in  
one fell swoop by building them-  
selves palmetto thatched cabins  
and virtually going native. They  
live on \$10 a week per couple  
which their husbands make catch-  
ing and selling fish and shrimp.  
Clothes are not an expensive item  
under the circumstances, if es-  
sential at all, and there are no night  
clubs, movies, roadside bars to ex-  
haust their surplus. "If I had a mil-  
lion dollars," one of them said  
"I wouldn't want anything different  
from this life."

The head of the Social Security  
system tells Congress that Social  
Security's payroll taxes may ul-  
timately reach 10 percent which  
should give little business men  
something to think about. The sad  
thing about payroll taxes is that  
they have to be paid in bad times as  
well as good, whether you are mak-  
ing money, or losing it, unlike the  
income tax which only hits you  
when there is a profit. Adding 10  
percent to the cost of doing business  
might easily wreck many a little  
business, would certainly reduce  
the service it could render the  
public, lower the wages it could  
pay its employees.

Rep. Patman of Texas wisely  
seeks to change the Constitution  
so as to do away with the Electoral  
College. Under the proposed amend-  
ment he points out, each citizen  
can vote directly for the candi-  
date of his choice, and the candi-  
date receiving the most votes would  
be elected. Thus, says Patman, it  
would be quite conceivable for a  
communist, or a Ku Klux Klan-  
nist to become president of the  
United States if there happened  
to be many Democratic, Repub-  
lican, Progressive, Liberal and other  
candidates than the Communists  
and Klanists. The result would be  
that the country would be ruled after  
the election by the Communists and  
Klanists.

**Problem Of Communists**

France is having troubles with Communist leaders. A political party, Communists have been a recognized and active political party, with sufficient legislative strength to affect the balance of power in parliament. The party has been accepted as a normal and proper element in the French political system.

Troubles have arisen over public statements by Maurice Thorez, leader of the Communist party in France, which border on treason. In the storm of antagonism a roused among other parties, the statements of Thorez have been interpreted as an attempt to incite French people to side with Russia, against their own country, if there were war between the two nations.

There is similarity between the French problem and that presented by Communists in the United States. The problem arises over the question of ties between Communists and Russia, and whether in a show-down their loyalty would be to their own country or to the Soviet Union.

It may be this question which essentially sets Communists off from other political groups. Certainly it is an important part of the difference between Communists and others. At least until the question is satisfactorily answered there seems to be justice, and good sense, in regarding Communists as different from other political adherents. The French may be approaching a similar conclusion.

**Parking Headache**

Why not stack automobiles on top of one another in the streets? This is about the only ineffectual program for parking relief not yet tried in New York, says T. M. Matson, director of the New York Bureau of Highway Traffic. Equally useless are rules shifting cars from one street to another, and collection of fines for parking violations. All these devices are puny attempts, in Mr. Matson's view.

Unfortunately he has nothing better to offer, except to open parking lots in the business areas. This is fine, but where to get the space for them?

If New York can solve its parking problem, no other city need despair, but New York just now appears to be hopeless. And it might be a good idea, once in a while, to draw thoughtful comparisons between the parking headache of such great metropolitan centers and those of our own area.

**For Women Voters**

Not so many years ago women were not allowed to vote. Now Tennessee contemplates going to the other extreme, and making voting easier for them than for men. Bills introduced in the legislature, with the support of the state administration, would abolish the poll tax entirely for women, while still retaining it for men as a general election requirement. For the primaries it would be outlawed for men as well as women.

Is this a form of chivalry, or is it discrimination? Bribery any special group of citizens to do their civic duty does not make sense in a democracy.

**Congressman Herlong Reports**

By SID HERLONG

A few weeks ago, through the tax off telephone and telegraph communications, most of the newspapers were kind enough to print, we asked the people of the Fifth Congressional District to give us their thinking on some of the important issues that were coming before this session of the 81st Congress. The responses are still coming in at the rate of about 50 a day—and for a time ran as heavy as 250 a day. One of the gratifying things about the response to this questionnaire is that we have seen no evidence of the activity of any "pressure group."

Here, from a percentage standpoint, is what our people think: 55.1% want an increase in the minimum wage. Of those who want this increase, 55.2% do not want it raised to more than 60¢ per hour. Only 29.3% of those desiring the raise wanted it raised to the 75¢ requested by the Administration.

Only 10.9% of our people wanted the Taft-Hartley Act repealed; 40.8% wanted it let alone; and 38.8% wanted it amended. A higher percentage (16.3%) wanted the Wagner Act restored than wanted the Taft-Hartley Act repealed.

The apparent discrepancy was due to the fact that virtually every person who wanted the T. H. Law repealed also wanted the Wagner Act restored, while many who wanted the T. H. Law let alone or amended did not express themselves either way on the Wagner Act.

A majority (54%) were opposed to Federal Aid to Education, while 31.8% approved. Federal Aid to School Buildings, 76.2% opposed the Administration's Compulsory Health Insurance Plan; 57.3% approved Universal Military Training, and exactly 75% were in favor of a 70-Group Air Force.

83.8% were opposed to a general price control extension, and quite naturally 82% opposed an increase in taxes, and almost 80% wanted to reduce the expense of Government.

73.4% wanted to repeal or reduce the so-called "Luxury Tax," while only 26.5% wanted to take

this section and the spring crop is estimated at about 1,000 acres. It has been bringing \$1.25 to \$1.50 for 50 pounds sacks and \$1.80 to \$2.00 a crate late at the Sanford State Farmers Market.

Total rainfall here during February was only .85 inch and for the first two months of the year, 1.48 inches, a deficiency of 3.18 inches compared to normal. The deficiency for February is 1.48 inches, said E. J. Moughton, Jr., weatherman.

The average mean temperature in February was 60 degrees or 5.9 degrees above the normal figure of 53.1 degrees, he reported.

first inspired to write verse when, as a boy, his teacher loaned him a copy of Robert Burns' verse.

**THE WORLD TODAY**By DEWITT MACKENZIE  
AP Foreign Affairs Analyst

Introducing Grady-the-cow into foreign affairs:

This column the other day cited that one of the striking post-war developments is the increased knowledge of world events possessed by the average citizen in the U.S.A. and other democracies. I've encountered that both at home and abroad, and have been especially impressed by the way youth is taking hold of international questions.

Troubles have arisen over public statements by Maurice Thorez, leader of the Communist party in France, which border on treason. In the storm of antagonism a roused among other parties, the statements of Thorez have been interpreted as an attempt to incite French people to side with Russia, against their own country, if there were war between the two nations.

There is similarity between the French problem and that presented by Communists in the United States. The problem arises over the question of ties between Communists and Russia, and whether in a show-down their loyalty would be to their own country or to the Soviet Union.

It may be this question which essentially sets Communists off from other political groups. Certainly it is an important part of the difference between Communists and others. At least until the question is satisfactorily answered there seems to be justice, and good sense, in regarding Communists as different from other political adherents. The French may be approaching a similar conclusion.

**ONE MAN'S MEAT, ANOTHER MAN'S POISON**

been encountering a lot of people who are adopting the attitude that the whole world is heading straight for hades. They accept another global war as inevitable. "Civilization" is going to be "destroyed"—whatever that means.

Well, sometimes it's thinking unhealthful thoughts that produces unhealthful events. That's not a new idea, for we read in proverbs regarding man that "as he thinketh in his heart, so is he."

That's not to say we should discard all our fears, for these are harsh times and we certainly must take thought for the future.

However, the theads of the inevitability of disaster isn't warranted, as things look from here.

In this connection I was much interested in an impression gained, during an audience with Pope Pius XII by Associated Press correspondents Charles H. Guttill and John P. McKnight on the tenth anniversary of the Pontiff's reign.

The Pope gave the impression that he in no way despised because the "peace with justice" to which he dedicated his pontificate has not yet dawned.

We are going to have peace one of these days—no doubt of that. The consensus of close observers is that another world war

**Meat Prices**

(Continued from Page One)  
and shad roe are below normal.  
Shoppers should find plenty of  
hot cross buns available this year,  
too. Many bakeries are extensively  
promoting the traditional Lenten  
pastry whose production was limited  
during the past few years by  
the shortage and high prices of  
sugar and shortening.

While meat prices climbed this  
week, many vegetables were cheap-  
er than usual, especially string beans,  
broccoli, onions and even fresh spinach.  
Lettuce was slightly lower. In many cities and  
frost-tipped outer leaves showed  
the effect of the freeze last month  
in growing areas.

Cold weather earlier this week  
in the peach orchards of Georgia,  
South Carolina and Virginia was  
reported to have caused only slight  
damage to the peach crop.

The biggest food news in the  
legislature front was the renun-  
ciation of the battle in the House  
Agriculture Committee over re-  
pealing the margarine tax and the  
legal bans against manufacture of  
yellow margarine. Hearings may  
be concluded this week in view of  
the long discussions of the question  
by the previous Congress. The  
House approved a repealer bill at  
the last session but this failed to  
pass the Senate.

The Duro and Bradstreet whole-  
sale food index continued to climb  
this week. At \$5.82 it compared  
with \$5.70 a week ago and \$5.70  
a year ago. The 28-month low on  
Feb. 8 was \$5.60. The index repre-  
sents the aggregate cost of  
a pound of a dozen general use  
foods.

### Woman's Club Holds Officer Election

Members of the Sanford Women's Club held their annual business and luncheon meeting yesterday at 12:30 o'clock at the club house with election of officers being the main feature of the business session. Mrs. Roy Tillis was elected as first vice president; Mrs. E. F. Spencer, third vice president; Mrs. H. W. Goodspeed, recording secretary; Mrs. Frank McSwain, treasurer.

Delegates in the club auditorium were of opinion that something had been done to improve the luncheon service.

### South Side Will Have Book Display

The Book Box Shelf which consists of 800 of the best selected books for children from preschool through junior high school age will be on exhibit at the South Side Primary School next Monday and Tuesday. Mrs. J. C. Mitchell, principal, announced the incoming Mrs. Mitchell stated that the books are being displayed for the purpose of encouraging parents and children to obtain good books to their homes.

The exhibit is under the direction of Mrs. Ruth Taz of Michigan City, Ind., who explained that the books have been selected after consultation with children's doctors, teachers, parents and children. The public is cordially invited to view the books.

It is estimated that more than a billion ops of high grade iron ore are available in Venezuela where American firms are doing preliminary work.

## University Of Tampa Wins First Dixie Conference Basketball Title

JACKSON, Miss. Mar. 3—(AP)—Two beautiful mid-floor shots cracked the ice in a seesaw game here to give the University of Tampa a 73-6 decision over Birmingham's Howard College and the first Dixie Conference title.

In a consolation clash last night preceding the main event, Lambuth College of Jackson, Tenn., rang up a 63-49 triumph over Florida State University of Tallahassee.

The lead was jolted back and forth in the championship tilt until about the last eight minutes. Tampa forward Mack Williams long-distance in a couple of trifles from way back. Howard's offense sagged after that.

Fred Judy dropped in three long shots to bolster the rallying Tampa Spartans. Howard led 31-30 at the half, however.

Williams and Holland Aplin trained for the Spartan team. Williams got 13 tipples, Aplin 10.

Beamon Sparks netted 12 points and Roy Anderson 11 for the Birmingham runners-up.

In the consolation contest, Lambuth crawled out of a tie five times

before holding the winning edge.

Lambuth's Jack May, Tom Scott and Dick Parker were the Lambuth Artillery. Parker got 11 points, the other two 11 each.

Florida State's Edward McLaughlin nicked the basket for 15 and Lee Benjamin, who sparked for FSU in the first half, made 14 points.

After the two encounters, the two nine-coach teams named the Dixie Conference all-stars.

First team—Mack Williams, Tampa; Joe Robins, Florida State; Harold Parks, Howard College; Lee Leathers, Lambuth; Dick Parker, Lambuth.

Second team—Lee Benjamin, Stetson University; Bill Mullen, Tampa, and Glenn Wilkes, Mercer College.

## Mayor Carraway To Be Judge In Mutt Dog Derby

Mayor Andrew Carraway of Sanford will be invited to serve as one of four official judges of Florida's first annual Mutt-Dog Derby on March 13 at the Sanford Orlando Kennel Club, it was announced yesterday by Walter Anderson, track owner and sponsor of the race.

Mayors from Orlando and Longwood and Winter Haven will complete the judge's group. Anderson said.

With an expected entry list of at least 70 dogs of "every make and description," the race has attracted nation-wide attention and will be free to both contestants and spectators, officials said.

A special two-foot high trophy and a \$100 cash certificate will be awarded as first prize to the winning dog owner. The trophy, adorned with three miniature dogs and inscribed with the name of both dog and owner, will be presented by the Orlando newspapers. Other prizes are being donated by the kennel club.

The races, Anderson said, will be run in heats, with the final "futility" race to include winners of the preliminary heats.

## Sports In Brief By ASSOCIATED PRESS

### BASEBALL

Baltimore—Joe DiMaggio, the Yankees' \$100,000-a-year outfielder, was told he could return to training camp after Dr. George Bennett, examining the ailing right heel of the player, said it was only a "flareup."

Saints—Baseball Commissioner A. B. Chandler said he would conduct a hearing on the dispute between the St. Louis Cardinals and Browns over Sportsman's Park, which Browns have asked Cards to vacate. He also plans a hearing Friday on the Yanks-Browns dispute over the signing of two negro players—At Wilson and Luis Marquez.

**BASKETBALL**

New York—Yank Bradley and Western Kentucky were invited to national invitation tournament having four spots to fill. Kentucky and St. Louis are already invited.

Storrs, Conn.—Tony Lavelli of Yale scored 32 points against University of Connecticut and moved into a tie with George Mikian for fifth place among all-time high college scorers. Lavelli has 1,870 points.

Redondo Beach, Calif.—Bill Moore of Whittier College scored 17 points to run his all-time college total to 1,611 points, a record for a Pacific Coast player. Old mark was 1,596 by Hank Lusetti at Stanford.

**HORSE RACING**

Miami—Roman, Candie (\$20,000) won the \$20,000 added Black Helen Handicap at Hialeah in 1:49, a new record for the mile and a furlong stake.

Arcadia, Calif.—Star Fiddle (\$6,000) won the Santa Clara handicap at Santa Anita.

### MISCELLANEOUS

New York—Henry Laskau of New York set a new world record for the high wall indoors of 8:22.7. The previous mark, set by Laskau two weeks ago, was 8:24.0.

Princeton, N. J.—Joe Verdeur Olympic swim champion from Lauder College, set new world short-course 100-yard breaststroke records set by Don DeForest in 1947.

### ARMED FORCES

SANFORD, Ind.—(UPI)—One of the 250 newest first-athletes to join the faculty at Notre Dame is John Wiedner, who was a "tireless" in football, three times one in basketball and twice one in swimming. Wiedner is serving as assistant professor of military sciences at the Air ROTC at Indiana. Wiedner played for the Cadets and appeared in 1938, 1939 and 1940 Notre Dame battles.

## BASEHITS FOR BRAVES - By Alan Mayer

## Doctors Say Joe DiMaggio Is Okay For Spring Drills

New York Entry In NIT To Be Set Tonite

NEW YORK, Mar. 3—(AP)—The New York entry in the National Invitation Basketball Tournament probably will be determined to-night when City College meets Manhattan at Madison Square Garden.

The verdict: he's okay. No medical attention required.

The right heel, from which a bone spur was removed last fall, flared up after the Yankee Clipper's first workout Tuesday. Taking no chances with their star, the Yankees sent him winging back to Dr. George Bennett.

After an inspection the doctor said: "There was nothing to do about Joe's heel at this time. I believe he and the Yankee officials became unduly alarmed over the reaction to the first workout." Dr. Bennett said he was optimistic about Joe's chances of being in good shape in time to open the season.

Only three times in the 10 seasons he's played for the Yankees has DiMaggio been available on opening day. He's had most every ailment imaginable—knee trouble, eye trouble, stomach trouble, tonsilitis, arm trouble and heel trouble.

Lee Fleming, Pittsburgh infielder, signed his contract. All of the 19 players now have agreed to terms. Eddie Stanky agreed to the Boston Braves' offer leaving the National League champion with four on his unattached list. Andy Seminick, Philadelphia catcher, signed and Phil Riddick to two.

Fielder Peifer, who came to Brooklyn from the Boston Red Sox during the winter, and Ted Fenney slugging exhibition at Bradenton, where one of his drives carried 380 feet.

The Boston Red Sox had a look at Tex Hughson, Bob Ferriss and Mickey Harris, three question-mark pitchers, and they looked once and lumber Sam Chapman signed to the Philadelphia Athletics without glasses and said the doctors told him his vision is perfect. Former Yankee Bill Bevens showed up at the Pasadena Calif., camp of the Chicago White Sox minus 42 pounds. He now weighs

181. Gerry Priddy remained the St. Louis Browns' only holdout.

The world champion Cleveland Indians began twice-a-day drills at the New York Giants' Phoenix camp got spring fever and started competing. Rookie pitcher Ted Heldschmid, with Bobby Feller, Gil Coan have a regular outfielder's job with Washington if he hits .320; Manager Joe Kuhel promised Coan hit .322 last year.

Outfielder George Stone of St. Louis led the American League batters in 1948 with .358, the only rookie ever to top the circuit's hitters.

Bob Feller's 177 American League victories is the highest total among active junior league hurlers.

EAST STROUDSBURG, Pa., Mar. 3—(AP)—Wally Butts of Georgia will head the football staff at the sixth annual coaching clinic of the Pennsylvania Scholastic Coaches Association the week of June 20. Butts will be aided by Charles Caldwell of Princeton and Bob Higgins of Penn State. It was announced last night by Marty Baldwin, association chairman. The clinic will be held at the East Stroudsburg State Teachers Col-

## Kentucky Five Makes Top 10 In Offense And Defense Statistics

NEW YORK, Mar. 3—(AP)—Kentucky's claim to fame in the basketball world was further bolstered today. The National Collegiate Athletic Bureau released statistics showing the Wildcats to be 23% points better than the average of their opponents this season.

Kentucky is the only team in the country among the top 10 both offensively and defensively. The blue grass sensations have averaged 78.8 points per game, 10th best nationally, and have held their opponents to 42.8 points, third best nationally. The figures include games for major schools through last Saturday.

Second in the business of running up a big point spread over its opponents is Tulane, another Southeastern Conference school. The Greenies have averaged 17.9 points per game better than their opposition although they're not among the first 10 in either offense or defense. Offensively they're 10th and defensively they're 18th.

William and Mary is third in the point spread range with 17.1; Western Kentucky fourth at 10.1 and Bradley fifth at 15.8.

The highest scoring outfit in the country is Rhode Island State with an average of 70.5 for 10 games. State wins this race year after year. Defensively, it's the Oklahoma Aggies, of course. The Aggies have limited 22 opponents to an average of 34.7 points per game.

Siena of Albany is a poor second in defense with 41.3 followed by Kentucky, Wyoming, Minnesota, Washington State, St. Bonaventure, Baylor, St. Louis and Michigan.

In the South, with 49.7 and Tulane with 47.1 join Kentucky and Western Kentucky as leaders in defense.

Yale and Western Kentucky are tied for running up honors to Rhode Island State in the scoring department with averages of 69.4 points per game. Illinois and Cincinnati are deadlocked for fourth with 69.3. Then come Colgate, New York University, Bowling Green, Louisville and Kentucky.

Davidson of North Carolina is the best from the free throw line, hitting 335 of 470 chances for a .713 average. Loyola of Chicago is the most accurate from the field with 542 goals in 1,397 shots, an average of .398. and Davidson has committed the fewest fouls, 14.49 per game.

## 3 Johnson Brothers Form Polo Combine

By FRANK ECK

AP Newsfeatures Sports Editor

NEW YORK—Without a doubt the most unusual indoor polo team in the country is the Elliston Farm team. It consists of Johnson, John and Johnson.

They are brothers, all former college polo captains. Collister, often called Colly, plays No. 1. He is 31 and a former Yale captain. Bob, 29, plays No. 2 and also captained Yale. Ben, 34, plays No. 3 and formerly captained the Princeton team.

They have another brother, Frank, 36. He played for Harvard. They used to play four-man polo outdoors.

The team was named after our father's place in Far Hills, N. J.

They have played four times this season. In Squadron A Armory where the only indoor polo in New York City is played, in one game they beat Squadron C by 12-10 after trailing by 6-1 in the first five minutes.

Another time they beat Al Parsons' Ramapo team in overtime and Parsons is one of indoor's top mallet swingers.

"We beat Al's team with his own ponies," says Ben Johnson.

They learned their polo from the veteran Harry East who came over from England some years ago and taught polo to many of America's present day stars.

This is the second indoor season for the three Johnson brothers who are in the engineering business.

The team was named after our father's place in Far Hills, N. J.

Collister, says Ben Johnson, "was a horse known as Elliston's 'Boy,' says Ben. "He ran in the Grand National but dropped dead in the Jersey Hunt Club. Our father took his place after the horse. The horse buried right near the house."

The Johnsons, because they have no polo ponies of their own, find

Joe Veterans of San Francisco made the only extra-point tryouts droptek in the three years history of the All-America Conference last season when he dropped a poor pass from center and batted the ball cleanly through the uprights.

Don't wait for drought for Dodge's new car. It's built to last for millions for over 60 years. Don't give happy relief and will help the 18 million of Dodge drivers flush out enormous waste from your blood, like Don's Pills.

## Norway Okay Is Placed On Defense Pact

Diplomats Say Sweden Will Join Up Within Six Months; Reds Blast Alliance

WASHINGTON, Mar. 4—(AP)—Disregarding a Russian warning, Norway officially joined the negotiations for a North Atlantic Defense Alliance today.

Ambassador Wilhelm Munkie De Morgenstierne came to the State Department to represent the Norwegian government at the discussions of an alliance against Communist expansion.

Morgenstierne showed up at 12:30 P. M. (EST) in response to a telephoned invitation from the representatives of the original signors of the pact—The United States, Canada, Britain, France, Belgium, The Netherlands and Luxembourg.

When Morgenstierne arrived, the other ambassadors had been cleared with Secretary of State Acheson for 90 minutes preparing for the official entry of Norway.

The Norwegian government officially accepted the invitation extended by the seven original signors of the alliance last night. At the same time the Scandinavian nation rejected a Russian bid for a non-aggression pact signed to the Norway to the east.

By entering the discussions Norway virtually closed all possibility of the creation of a neutral defense alliance in Scandinavia made up of Sweden, Denmark and Norway.

Sweden, for the time being, stood alone in shunning the talks. But high diplomatic sources here have predicted Sweden will join up in six months, or sooner if Russia should make a move toward Finland. Sweden tried and failed to have the Scandinavian nations join a defense agreement of their own.

In Russia the newspaper Evening Moscow blasted the "reactionary circles" of the Scandinavian nations as "traitorous." Communist Nikolai Yastrebov declared the Norwegian government was "exhibiting special zeal in aiding the plans of the British and American organizers of the pact."

The Moscow commentator also denounced Sweden's Scandinavian plan as one of "reactionaries."

Referring to the Soviet Union's offer of a non-aggression pact to Norway, the newspaper said: "These peaceful acts of the U. S. S. R. government in relation to Norway are met with bayonets by the United States and Britain and their henchmen in Scandinavia."

With Norway's decision already made, her parliament began a wordy discussion of the Norway's attitude toward the projected Atlantic pact. The discussion was a formality aimed at giving the opposition a chance to get their ideas on public record.

A secret meeting of the parliament last night voted 116 to 11, with only the Communists opposing, to accept the American invitation to join the alliance. That vote, Washington at once, Ambassador Wilhelm De Munkie Morgenstierne is ready to take part in tonight's session in Washington on the drafting of the alliance.

The Communists took full advantage of the opportunity to express their views in Parliament. Torleif Wold, chairman of the Socialists, told the House:

Mayfair Installs New Bathing Beach

A white sand bathing beach is being installed at the west side of the Mayfair Inn swimming pool. It will measure 18 by 104 feet. A concrete block wall, two feet high, is being erected to hold the sand in place.

The pool is a popular afternoon rendezvous for the 500 guests now at the hotel, who enjoy swimming and reclining in the sun. Their children find the smaller pool a lot of fun. The guests stay at the hotel an average of 10 days.

ATWATER KENT DIES  
HOLLYWOOD, Mar. 4—(AP)—Atwater Kent, retired radio manufacturer, philanthropist and famous Hollywood party giver, died today.

MOPPING UP  
ATHENS, Greece, Mar. 4—(AP)—Major mopping up operation was in progress in the Mount Meteora area 40 miles northeast of Athens today where a guerrilla force of 300 has been cornered.

A general strike throughout the region about three hours ago of course stopped all traffic. It is believed that the rebels are concentrated in the area of Meteora, which is a mass of crags and peaks rising 3,000 feet above the sea level.

8 Farben Directors Get Prison Terms

BERLIN, Mar. 4—(AP)—General Ludwig D. Clay approved today prison sentences of from 18 months to eight years for the directors of the great I. G. Farben Industries chemical trust. An American court convicted them of war crimes in July. They were found guilty of plundering property in countries overrun by Germany and taking part in the German civil war program. The main count against the 13 directors was the establishment of a synthetic rubber plant near the Auschwitz Concentration Camp where an estimated 3,000,000 persons died. Witnesses aware some Auschwitz inmates worked for Farben. All 13 directors were acquitted of plotting and waging aggressive war, the first counts of the indictment. Of the 23 executives indicted, ten were acquitted of all charges.

## Layoffs Increase Jobless In U.S. To 3.2 Billions

### Unemployment Jumps Half Million In Month Of February

WASHINGTON, Mar. 4 (AP)—The number of jobless Americans shot up another 550,000 in February to 3,200,000, the highest unemployment since the war.

The Census Bureau, reporting the figure today, attributed the rise partly to bad weather in some parts of the country and partly to "non-seasonal layoffs" in industry.

The new increase in unemployment, on top of a 700,000 rise in January, makes the total increase in joblessness 1,250,000 for the first two months of 1949.

Not since March, 1942, had so many Americans who wanted jobs failed to find them. In that early part of the war, unemployment totaled 3,600,000.

The 3,200,000 total of unemployed last month was fairly close to the figure of 3,620,000 that prevailed in December, 1941, when the Japanese strike at Pearl Harbor plunged the U. S. into World War II.

The new February total was 600,000 higher than that in February, 1948. Employment in February declined about 200,000 from January to a total of 57,100,000 last month.

A drop of nearly 100,000 in nonfarm industries was offset in part by a 200,000 increase in the number at work on the farm.

Unemployment increased more than employment fell because a number of people entered the labor force during February.

Many were housewives and school youths who were neither holding nor hunting jobs the month before.

The Census Bureau, followed the pattern of Administration statements from the President on down, found some grounds for holding that this second consecutive monthly jump in unemployment was nothing to get alarmed about.

Contrasting the current situation with the pre-war period, it said: "In spite of substantial increases in employment in February, the number of jobless in February was still

## Death Penalty Is Asked For 4 Churchmen

### Defendants Tried To Promote Revolt In Bulgaria, Reds' Prosecutor Asserts

SOFIA, Bulgaria, Mar. 4 (AP)—The Communist prosecutor today demanded the death penalty for the top four of 15 protestant churchmen who are charged with spying and treason against Bulgaria.

In a two-hour summation, Moscow-trained Dimitar Georgiev accused the defendants not only of spying but trying to promote a revolt against Bulgaria's Communist-dominated government which he said was to have brought intervention by the United States and Britain.

The prosecutor said names of prominent Americans and Englishmen were mixed in the spy network of "evangelical leaders" as well as the names of various American church boards and the World Council of Churches.

"That is why this trial is significant not only here but abroad," he declared.

The four for whom the prosecutor demanded the death penalty are Vassil Georgiev Zlatkov, a Congregationalist; Yanko Nikolov Ivanov, a Methodist; Nikolai Mihailov Naumov, a Baptist; and George Nikolov Chernev of the Pentecostal church.

He asserted the real masters of the four were British and American "imperialists" and American church mission boards.

The Moscow-trained prosecutor asserted all the defendants had made long public confessions in court and that these had been substantiated by the testimony of

terested by witnesses.

In denouncing the top four he said: "With weeping and weeping they tried to fool the court."

This was a reference to the stabbing and exiling of Zlatkov and Naumov when they fled their home country.

He also charged the main defendant, "before the war served for German Hitlerite Nazis in intelligence and after the war for American imperialism."

The prosecutor also claimed there had been "no restraints on the defendants," all of whom confessed publicly. He said the trial was "carried out with complete publicity in the presence of foreign

newspapers."

He accused all four of Bulgaria's protestant churches of spreading anti-Russian rumors. These, he said, included stories about the invasion of Russia and 10,000,000 people in slave labor there.

Angely, he declared,

As a national representative I have heard many rumors against the Soviet Union. But I never heard such nasty rumors as those spread by the protestant churches.

Angell, Former Yale President, Dies

NEW HAVEN, Conn., Mar. 4—James Rowland Angell, 70, president of Yale University for 18 years before his retirement in 1937, died today after a long illness.

Wholly known as a psychologist even before he came to New Haven to head one of the country's oldest universities, Angell topped off a notable career as an educator by creating a "new Yale."

His death, which occurred in his home in nearby Hamden, was ascribed to cancer.

Associates said that Angell, Yale's first non-graduate president, had known for some time that he was incurably ill. He knew as far back as last June, they said, when he made one of his last appearances before a Yale audience.

That was at an alumni commencement luncheon where he sat next to General Dwight Eisenhower, who had just received an honorary degree from Yale.

Many recalled that Angell's eyes were moist with tears when he addressed what proved to be his final Yale commencement address.

Angell, whose administration guided Yale through its biggest expansion program ever had been ill for less than 100 days. Fifteen days earlier, he had signed a contract to moneyed business men who are interested in this far-reaching and effective work.

Formation of the Association
