

Medina Shortens Hours For Trial Of 11 Top Reds

Selection Of Jury To Take Week, Federal Judge Says

NEW YORK, Mar. 8—(AP)— Federal Judge Harold R. Medina, announcing he was "exhausted," today temporarily shortened hours at the conspiracy trial of 11 high U.S. Communists.

Medina said he expected selection of a jury, which began yesterday, would take at least a week, and added:

"I have become grievously fatigued during the long hours I spent from morning until evening examining exhibits and for the period that we are examining talesmen, x x x we will start at 11 and adjourn at 4."

Previously, court has been in session from 10:30 A. M. to 4:30 P. M.

Defense attorneys introduced almost 500 exhibits in their futile seven-week challenge to the jury system which Medina rejected last Friday. He frequently accused them of stalling through this period.

The judge also denied an application to excuse one of the defendants, City Councilman Benjamin J. Davis, Jr., to attend a council meeting.

He asserted "there will be no moment of this trial when the proceedings are under way without the presence of all the defendants."

Defense lawyers scraped the bottom of the legal barrel yesterday in a last-ditch fight against starting the actual trial.

But Federal Judge Medina turned down a batch of motions and called in a group of prospective jurors.

The panel of 60 that walked in to court included four negroes and about 20 women—two of the groups the defense has charged are discriminated against in jury service.

Almost all the time since the pre-trial proceedings opened Jan. 17 had been consumed by the defense's unsuccessful attack on the jury picking system.

Court was adjourned after three of the panel had been excused from service for personal reasons. More prospective jurors were examined today.

The judge told the panel the trial might last two months or more.

China War

Selection of Ho, it was pointed out, would weaken the control over the cabinet by Chiang and other ultra-conservative elements of the Kuomintang (government party). Chiang's weight has been felt in the government despite his retirement since Jan. 21 at his ancestral home in Fenghwa.

Ho is said to be closer to acting President Li than to Chiang. He and the generalissimo have had an uneasy truce in recent years.

Sun's announcement that he and his cabinet had resigned came suddenly at a meeting of the legislative Yuan, which has had its policies under fire. The legislators cheered Sun's announcement.

Sun—whose father was Dr. Sun Yat-Sen, "father of the Chinese Republic"—stepped into the premiership as Chiang's choice last Nov. 2. That was during the battle of Szechow, Chiang's regime was falling apart under the cumulative weight of Communist victories that gave them all China north of the Kiangtze River.

Sun and acting President Li had not seen eye to eye. Li had been seeking to end China's three-year civil war at almost any price. Sun had balked at stiff Communist demands.

Sun moved the cabinet to Canton after Chiang left in January, leaving Li in Nanking. Last month, Li flew to Canton to persuade Sun to return to Nanking.

At the time, Li's close associates said it was the acting President's "final effort." They said if Sun did not return, Li would force Sun from the premiership.

Despite their attitude toward peace with the Reds, Sun and his cabinet had been doing some spadework for forthcoming negotiations, but himself had been slated to lead the government's 10-man delegation in the peace talks.

The Communist radio, however, has been sharply critical of Sun's activities. Only last Saturday it urged Sun, Chiang and other nationalist leaders with preparing to recruit 2,500,000 more soldiers behind the facade of peace.) Besides General Ho, four others are mentioned today as possible successors to Sun.

for passage of a federal aid-to-education bill.

And the president urged Congress to speed action on aid to education.

"If our country is to retain its freedom in a world of conflicting political philosophies," he said, "we must take steps to assure that every American youth shall receive the highest level of training by which he can profit."

Enroute from the Orlando base to Winter Park, the President dedicated the Mills Street Causeway in honor of the late Senator Charles O. Andrews (D-Fla.), who died on Sept. 18, 1940.

Mrs. Andrews, widow of the Senator, stood beside Mr. Truman during the dedication surrounded by members of the Andrews family and about 25 leading civic and political figures of Orange County. The Senator's son, State Rep. Charles O. Andrews, Jr., introduced Mr. Truman. Mayor William Beardall of Orlando made the presentation speech.

President Truman was the second Chief Executive to visit Rollins in the last 13 years to receive an honorary degree. On Mar. 24, 1936, President Franklin Delano Roosevelt received the honorary degree of Doctor of Literature.

At the same ceremony, Mrs. Roosevelt received the Algernon Sydney Sullivan Medallion, considered one of the college's highest awards.

In 1930, almost two years after he retired as President, Calvin Coolidge and Mrs. Coolidge visited the college but did not receive a degree.

First presidential visit to Winter Park was made by Chester Arthur in 1883 and the second by President and Mrs. Grover Cleveland in 1888.

The sky was cloudless and hundreds of townpeople, students and members of the college lined the Rollins campus an hour or more before the President arrived.

Military policemen were stationed at scores of corners and wide areas were roped off and guarded for the official party.

The president arrived at Rollins College at 11:20 A. M. The official party stopped at the Administration Building directly in front of the chapel where he was to receive a degree.

The ceremony at the airport was brief. A 21-gun salute heralded the big ship's arrival.

Dr. Holt, Governor Warren, Senators Pepper and Holland and the mayors of Orlando and Winter Park were among those welcoming the Chief Executive.

The base band played "Hail

Orange Avenue, the main street, was lined by cheering thousands.

The President wore a black hamberg hat, striped trousers and a black semi-formal coat. There was a temperature of 60 to 64 degrees.

At one point a couple of boys held up a crudely painted sign reading:

"Thurmond."

As the parade reached the causeway, several Confederate flags could be seen in the crowd.

The President back to normal after his late sleep yesterday, beat most of his staff down to breakfast, reporters were told.

Fort Sumter Battle To Be Re-Fought In Fireworks On Apr. 19

CHARLESTON, Mar. 8 (Specia)—Reenactment of the battle of Fort Sumter, in fireworks, will be one of the major events of the Ansele Festival in Charleston April 16-24.

The fireworks display is scheduled for Apr. 20 on the battery, where Charleston residents promenaded and watched during the attack on the harbor fort Apr. 12, 1861. E. Milby Burton, director of the Charleston museum, who has been uninvited chairman of the

mock battle, says plans are for replicas of the forts involved to be moored near the battery for the mock conflict.

The battle of Fort Sumter, which marked the opening of the War Between the States, lasted two days, before the fort fell to the Confederates under General G. T. Beauregard.

Another historic event of the festival will be the lancing tournament. This sport is a revival of community games of the Old South. Horsemen tilted and dressed as "knights" carry nine-foot lances on which they try to catch three metal rings as they gallop down a course.

In Charleston and other parts of South Carolina arrangements are shaping up for other events of the festival: the mammoth parade of floats, the sports and waterfront events, dances, children's pet parade, and selection of the queens.

Visiting queens provide the hub around which the entire festival revolves. Once chosen by their respective communities, they will be included in Axle festival advance publicity and once the festival opens, they will become the darlings of the city and the state, and will be royal visitors at all events of the six-day festival in Charleston.

Clark Gable's vehicle being whipped up by Preston Sturges sounds like a dilly. The king will play a tycoon who suffers a breakdown and is helped by his doctor to slow down. So Clark goes to a small town for a rest. His ends up by reorganizing the town and working as hard as ever.

Paula's Goddard has been dropped hints that she'd like to play the dumb matress in "Born Yesterday." It would mean a repeat with Brod Crawford, who is appearing with her in "Anna Lucasta".

Paramount got out a lot of its stars for its sales convention party, but guess who got the most attention—Mack Bennett. The comedy king's biography is being planned by the studio. John Lund will play Bennett and Betty Hutton the Mabel Normand role.

MGM rounded out its stars again for a portrait by a national magazine. To avoid any protocol, the names were seated alphabetically. "That Gable is always in the middle of any picture," said Spencer Tracy. "I picked the right initial."

John Payne has a smart plan to fit current conditions. "Whenever I sign for a picture, I promise to help exploit it by tours or any other means," he tells me. That's wise in these times when producers are more conscious of exploitation.

Dean Martin and Jerry Lewis start their radio show in a week or two. The night club comics are part of NBC's plan to keep Hollywood power lost by CBS talent raids. They'll have the prime time following Bob Hope and Fibber McGee.

Charles Coburn keeps busy enough to fit in. He goes from "The Western Story" at 10-1 to "Everybody Does It" at 20th-Fox. He's in "Bodies and Souls" at MGM. Later is father-son doctor story starring Glenn Ford and June Allyson.

Quickly.... Ricardo Montalban is hoping for a flight picture as his next at MGM. He's got the build for it.... Linda Darnell will display her shapely gams again in "Everybody Does It." Long time no see.

TALLAHASSEE, Mar. 8—(UPI)—The Florida Railroad and Public Utilities Commission took under advisement today an application of Southern Bell Telephone Company for an immediate rate increase of 10 percent.

The increase would be in addition to the temporary six percent boost granted the company under bond, effective Jan. 1. The company asked that the new increase also be granted under bond, pending final decision.

Harold Wahl and Leroy Collins, attorneys for the company, said the requested increase would return Southern Bell \$3,228,653 a year.

Hollywood

HOLLYWOOD, Mar. 8—(AP)—Paramount seems to be zooming ahead in the race to get a jet flight picture on the screen.

"Jet Fighter" is getting high priority on Alan Ladd's busy schedule. He may start the film after he finishes "After Midnight." Meanwhile RKO's "Jet Pilot" is still in the scripting stage and no starting date is announced for Warner's "Jet."

There's an interesting problem in connection with the jet subjects. Air pictures have featured

the dramatic power of roaring engines and vibrating planes. First-hand accounts indicate jet flight is something like sitting in space.

Telephone Rates For State Hospital Hiked

TALLAHASSEE, Mar. 8—(UPI)—

The St. Joseph Telephone and Telegraph Company today was authorized to increase its charges for services to the State Hospital at Chattahoochee from \$18.75 a month to \$22.50.

The Florida Railroad and Public

Utilities Commission said the pre-

sent monthly charge is "unjustly" and "unreasonably discriminatory" against other subscribers.

The hospital operates its own switchboard, but has six trunk lines connected with the telephone company's switchboard at Chat-

tahoochee.

The commission said a survey

showed that 21.82 percent of all

calls through the Chattahoochee

are handled for the hospital.

Atlantic Pact Explained By Dean Acheson

Secretary Of State Pictures Alliance As Result of Soviet Peace Blocking

WASHINGTON, Mar. 9—(AP)—Secretary Acheson said today the Atlantic treaty, as now drafted, makes clear the nations signing it will defend themselves against aggression from any quarter.

Summarizing at a news conference the negotiations on the treaty text, Acheson pictured the pact as the and result of western policy developments brought on by Russia's blocking of peace.

Only yesterday, the Secretary of State discussed the proposed treaty with the Senate Foreign Relations Committee. The members informally approved a final treaty draft.

Acheson did not disclose the treaty text in his news conference discussion. But he said that in his opinion the United States, Canada and the countries of Western Europe have, through the text as it now stands, accomplished four major achievements:

1. They have recognized the facts of life in preparing to establish a formal relationship between the United States and the Western European countries. Acheson said this relationship is not artificial but has existed "200 years or more and has its roots in the common ideas and common institutions of freedom."

2. The treat, in every word and every thought, fits within the United Nations Charter and makes clear the determination of the United States and association nations to exercise their inherent right of self defense (as recognized in the United Nations Charter) against aggression from any quarter.

3. Further, the treaty as now

Wintery Weather Dips Mercury In Numbered Mid-West

Flood Waters Leave Hundreds Homeless In Iowa, Montana

BY ASSOCIATED PRESS

Wintery weather-freezing temperatures and snow-lit wide areas of the Central states today. The mercury tumbled to below zero in North Dakota and Northern Minnesota. It was 12 below at Pembina, N. D.

The cold Canadian air pushed southward over the central section of the country as far as southern Michigan, northern Indiana, northwestern Illinois and Missouri, Oklahoma and Colorado. It was expected to move eastward into the Appalachian Mountains tonight.

The snow belt extended from the Great Lakes region southward into Kansas and along the eastern slopes of the Rockies from Colorado into Montana. Sidney, Neb., reported seven inches of snow.

Rain fell over an area south of the Ohio River valley to the Gulf of Mexico, reached into the University of Texas yesterday and generally were higher in the eastern half of the country and about normal along the Pacific coast.

Flood waters left hundreds homeless in four states. A new flood threat developed in Montana and rising waters plagued many areas of Nebraska, still reeling after a winter-long bout with weather elements.

Odham's Flight Sets Official Record

WASHINGTON, Mar. 9—(UPI)—Bill Odham's 8,000-mile flight nonstop from Honolulu to Teterboro, N. J., exceeded all distance records for light planes.

The official record book of the contest board of the National Aeronautic Association shows the previous mark as 8,017 miles. It was set in 1938 by two German pilots, using a plane in a smaller class than Odham's.

Odham's beecheraft bonanza, with a 188-horsepower engine, is in the speed class of lightplane competition. The classes are determined by the cubic inch displacement of the engine. Odham set his own record in his class.

He had set the mark at 2,775 miles last Jan. 13 in a flight from Honolulu to Oakland, Calif., and thus took the record away from a pair of Russians, who flew 2,661 miles in 1937.

Instruments aboard Odham's plane must be checked by contest board representatives before his mark becomes official.

WAR GAMES

LONDON, Mar. 9—(UPI)—War games off Gibraltar have shown Britain's fleet to be "pretty vulnerable" to air attack, an admiral spokesman said today.

As a result, the spokesman announced, more exercises will be held this month in the Bay of Biscay and in the approaches to Plymouth.

"Defending" forces caught an "attack" on Gibraltar by one of the British and Mediterranean fleets led by Rear Admiral Lord Mountbatten in the gulf, the spokesman said.

Teen Talk

AP Newsfeatures

St. Louis boys accuse their girls of wearing crew cut hairdos.

Of course they are not really that closely cropped, but as one boy says, "just ask the fellows, if you meet one who would rather have his date wear one of those curly crew cuts than a long bob." The short the woodpecker haircut.

There are a few things the girls with short cuts haven't considered, says another boy. He thinks short hair makes girls "look broader"; makes big ears "more prominent"; and will "cost them more in the long run" when they visit the barber for haircut.

However, many of the girls wearing the short hairdo have learned to cut their hairdo at home. Anyway it is NOT THAT short, so why should the boys gripe? The average teen-ager still is wearing her hair below her ears.

Happy Feet

The do-everything-myself teenager now makes her own shoes. This is a fad shoe, of course, and will not put shoe men out of business. Here's the way how: Kits come with full directions complete with die cut pieces of leather with perforations, specially molded composition sole and plexon cord to lace the component parts together. Diagram within the package shows how to fit each piece. No needles are required because the plastic lacing is flexible and can be inserted through perforations easily. The shoe are soft-like moccasins but have open heel and toe.

leather is calf-skin, colors are blue, green, red, yellow and white.

If you attempt these, do the facing properly. I know a girl who tried to make an impression with her date by making him a pair of moccasins. She twisted some of the lacings inside the shoe and her date reminds her still of that beautiful bluster he grew on his foot as the result of her shortcomings in the cobbling business.

Round That Camp Fire

The Camp Fire Girls choice for their 1949 national birthday project is "Make Mine Democracy."

Any leader, they say, will find this project a challenge. One of the activities suggested by them to carry out this idea is a Democracy Treasure Hunt. Girls are asked to put up in groups of two or three and choose one letter from the word Democracy. Then they find examples of democracy which begin with that letter. "D" girls might turn up with a newspaper article on democracy, a Diary of a great citizen (found in the library), a Dime with its motto, a copy of the Declaration of Independence.

Hollywood

HOLLYWOOD, Mar. 9—(UPI)—James Stewart, the movie maker's idea of a newspaperman, has his first big assignment.

The long drink of water from Indiana Pa., is playing a reporter of sorts in "Operation Malaya," and he admits he's sticking his lengthy neck out. "Newsmen are a touchy tribe," he says.

"I don't blame them," he told "After all, they were portrayed as being a gin-slugging, lazy character with hats on the backs of their heads and cigarettes dripping from their mouths."

Jimmy said he doesn't know why he is often chosen to play reporters, but he doesn't mind it at all. "Newsmen are such complex characters, they're a challenge to play," he remarked.

The only hazard is risking the wrath of newsmen by movie busters. His last news job, "Call Northside 777," had a whopper.

Reporter Stewart slipped some papers into the typewriter and put a headline on the story before he wrote it. (Reporters don't write headlines on metropolitan papers.)

"That was put into the picture by the insert department after we finished it," Jimmy related.

The director, Henry Hathaway, said he would give his right arm to here if he could have the picture.

Jimmy said many newsmen commented sourly on that inaccuracy. (The typewritten copy was single-spaced, too!) There were also jeers about the luxury of the reporter's

outdoor furniture.

Floral, plaid and striped up-holstery fabrics are being shown on new outdoor furniture for summer use. The resin coating on the fabric is said to withstand abrasion and moisture and is highly resistant to alcohol, acids, alkalies, vegetables and body oils.

SPRING FERTILIZER APPLIED

CATION

We are all familiar with Shelly's query, "O Wind, if winter comes can spring be far behind?" but at present writing the question bids fair to be "If winter never comes, will spring arrive?" For plants native to north latitudes, this may be a serious question when those plants are grown in Florida. After a mild winter such trees as peach and plum, unless of varieties selected for adaptation to Florida, may fail to start growth at all, or may struggle slowly into growth during several months. Fortunately, or as the result of more or less unconscious selection, most of the ornamental trees and shrubs grown in Florida require very little winter chilling. The quality of the camelia blooms has been very poor this winter as a rule, but the plants are already starting the sprouting of new leaves.

In the case of the great majority of our trees and shrubs, the roots are able to make some growth during the winter months.

Volusia Wildlife Association To Sponsor Silver Shad Festival

DELAND, Mar. 9 (Special)—The Volusia Wildlife Association, which has established an outstanding record in conservation, will sponsor the first annual St. John's Silver Shad Festival on Mar. 16 at Blue Springs, according to Ted Strawn, Jr., president of the club.

The event will feature contests persons interested in conservation are invited. One of the contests—the big fish-little fish event—will start at 2:00 P. M. and will continue as long as there are any persons to participate. Complete rules will be announced later, as will the list of awards to be given.

For those who believe themselves experts at casting, the club has arranged a skink casting contest. For those who like action as spectators, there will be a canoe tipping event.

The fish dinner will start at 6:30 P. M. The menu will include fried fish, pine bark stew, gumboppin' and salad.

Other officers of the association are Dave Nielsen, vice-president; Howard Weber, secretary, and Larry Fagan, treasurer.

The club has 150 members on its rolls and membership is open to every person interested in conservation, according to President Brown. The theme of the association is to educate the population on the conservation of wildlife and to curb game law violators.

All members of the association are honorary game wardens with all powers of that office except of carrying a gun.

Recent work of the association includes hyacinth control, stocking lakes with fingerling bass, trapping and replacement of game, setting turkey and small game, re-stocking of exhausted game areas.

A roosting project completed recently was the purchase of 35 turkeys at \$20 a head to increase the supply in this area.

The association also is advertising a \$1 fishing license for all persons using a cane pole to provide funds for hyacinth control and conservation.

Stan Smith of the Minneapolis Millers of the U. S. Hockey League is employed in the black diamond mines of the Canadian Rockies during the off-season.

The Associated Press first chose an All-American football team in 1925.

Durocher To Use Webb And Spencer In Relief Roles Retired Champ Joe Louis Tells Future Plans At New York

PHOENIX, Ariz., Mar. 9 (AP)—New York Giant Manager Leo Durocher is going to try rookie pitchers Sam Webb and George Spencer in relief roles. Webb won 18 games from Jersey City last year. Spencer is up from Knoxville of the Tri-State League.

ST. PETERSBURG, Mar. 9 (AP)—Don Johnson, big righthander who was the sensation of the New York Yankee training camp in 1947, again is drawing raves. Two years ago Johnson was labelled as a "sure fire" major leaguer but faded out after the season opened.

ORLANDO, Mar. 9 (AP)—Manager Joe Kinel of the Washington Senators apologetically is giving Gil Coan first preference to the vacant left field job as opposed to two hot-shot rookies, Clyde Vollmer and Jim Williams. This was indicated today in the announced lineup for the Senators' first intrasquad game scheduled for Thursday.

SARASOTA, Fla., Mar. 9 (AP)—Boston Red Sox Manager Joe McCarthy, usually cautious about estimating ball players in the spring, is enthusiastic about the proposed June Ezzard Charles-Pickey Tex Hughson.

The big righthander was a total loss last season because of arm ailments. Now he's burning them over.

PASADENA, Calif., Mar. 9 (AP)—Lively battles for starting roles have developed in the Chicago White Sox outfield and around first base.

Steve Souchock, the ex-Yankee, is dueling with Gordon Goldberry for the first base job. Ronnies Grove, Bowens and Gerry Miller are challenging Gus Zernial. Pat Severt and Dave Philey for garden assignments.

WEST PALM BEACH, Mar. 9 (AP)—Taft Wright's big bat was the talk of the Philadelphia Athletics' training camp to day.

In a six inning intra-camp game yesterday, Wright batted out a homer and a double to give Jimmie Dykes' newcomers a 10-9 decision over Al Simmons' veterans.

BASEBALL

New York—Max Lanier and Fred Martin, former St. Louis Cardinals pitchers, sued organized baseball for \$2,500,000 damages as a result of their five-year suspensions for jumping to the Mexican League. They also obtained a federal court order directing organized baseball to show cause on Mar. 15 why it should not be restrained temporarily from barring them until the suit is decided.

BOXING

New York—Joe Louis, former heavyweight champion turned producer, failed to get sanction of the New York State Athletic Commission on his proposed title fight between Ezzard Charles and Jerry Joe Walcott.

RACING

Hallendale—Armed (\$3,200) won his first race in more than a year, taking the seven-furlong Coral Gables purse at Gulfstream in 1:23 2/5.

The first Orange Bowl football game drew a crowd of 5,134; the last one was witnessed by more than 60,000 people.

Lucas Calls For Showdown On Filibuster

Drop Anti-Filibuster Law Rather Than Let Rent Controls Expire, Myers Says

WASHINGTON, Mar. 10—(AP)—A Senate Administration leader said today he would rather drop the anti-filibuster drive than let rent control expire.

He was Senator Myers (D-Pa.), the deputy Senate Democratic leader. Myers' expression was in response to questions from Senator Fulbright (D-Ark) at a session of the Senate Banking Committee.

Myers had come before the committee to urge extension of rent controls for 27 months beyond Mar. 31 when the present law expires.

Fulbright is one of the Dixie Senators fighting the Administration's move to get an anti-filibuster rule adopted by the Senate. The Southerners are filibustering to save the right of filibuster.

Meanwhile, the Administration plucked desperately at the filibuster knot that threatens the balance of President Truman's legislative program.

With the Senate filibuster 10 days old, Democratic Leader Scott Lucas of Illinois called for a showdown; an effort to shut off the talk by application of the existing anti-filibuster rule.

And with rent controls due to expire Mar. 31, the house was set to debate a 15-month extension bill today, with a vote likely tomorrow.

No such bill has cleared the Senate Banking Committee, however, and probably won't until the filibuster question is decided one way or another on the Senate floor. But the time is getting short.

Governor Chester Bowles of Connecticut, former OPA administrator, told the Senators that Congress should extend the rent controls for 27 months and replace what he called "the vague puff enforcement provisions" of the present law with tougher controls, including treble damages for rent overcharges and criminal penalties for wilful and fraudulent mis-

continuation (See Page Six).

Drs. Roberts And Callis Will Open Office In Oviedo

Dr. William Vincent Roberts formerly of Augusta, Ga., and Dr. Charles Mitchell Callis, who has been located at the Sanford Clinic since July 1, today announced that they will soon open an office in the old bank building in Oviedo, and at the same time retain their present office at the Sanford Clinic.

Dr. Roberts arrived here several weeks ago to associate with Dr. Callis in practice, and is a graduate of the University of Georgia Medical School. Following graduation in 1943 he interned for one year at St. Vincent's Hospital, Jacksonville, where he became acquainted with Dr. Callis.

From 1944 to 1946, Dr. Roberts served in the Army Medical Corps both in the Mediterranean area and with the army of occupation in Germany. During the past two years he has been a resident physician at St. Vincent's Hospital. He received his early schooling in Augusta.

Dr. Callis graduated from the medical school at University of Louisville in Kentucky in 1940, and interned at Kentucky Baptist Hospital in Louisville and later at St. Vincent's Hospital. Both doctors engage in general practice.

Dr. Roberts will be in the Oviedo office on Mondays, Wednesdays and Fridays, and Dr. Callis on Tuesdays, Thursdays and Saturdays, they announced.

VISIT TO ZOO

Forty-one pupils of the Tidewater School of Winter Garden visited the Zoo Wednesday morning. Miss Anna Conner, principal, and Mrs. L. D. Dillards and Miss End Biggers, teachers, accompanied the pupils.

Rain Accompanies Tornadic Winds In Sections Of South

SPRINGFIELD, Mo., Mar. 10—(AP)—A surprise snowstorm swept over the Missouri Ozarks yesterday, causing at least two deaths, starting traffic and stranding motorists.

The snow also moved into St. Louis last night, leaving a two-inch coating before midnight.

From four to six inches of wet snow fell in the Ozarks. For a time practically all highways out of Springfield were blocked by snowdrifts.

Stranded motorists crowded hotels in many southwest Missouri towns.

Early today the state highway patrol reported traffic was moving again on most roads although driving was hazardous.

James C. Justin, 85, Springfield, was killed in a head-on high-way collision near Mt. Vernon.

Another head-on collision south of Springfield caused the death of Fred Robertson, about 64, a Nixon, Mo., farmer.

Meanwhile, late winter storms and floods left damaging blows over other southern and central

High School Band Presents Concert For Kiwanis Club

Kiwanians gathered in the sunroom of the path of the Tourist Center yesterday to listen to selections played by the Seminole High School band under the baton of B. E. Black, director. The program was arranged by Mrs. Morris, school principal and Kiwanian.

Among selections played was the waltz, "Tiberius"; a march, "His Honor"; and "Best loved Irish Melodies." The players seated on chairs in the patio, presented a colorful appearance with their orange and black uniforms and plumed hats and drew applause not only from Kiwanians, who stopped their games in order to listen.

At the Kiwanis meeting, Fred Wilson read a resolution in behalf of the club, commanding the Business and Professional Women's Club for their assistance.

CONGRATULATIONS

Dr. J. C. Gibbs, 905 Magnolia Avenue, today celebrated his 93rd birthday, and was congratulated by many visitors.

Activity seems to be the keynote of Dr. Gibbs' life, for hardly a day passes that he does not walk once or twice downtown. He likes to go in his garden, and recently climbed

up a steep ladder to place several orchid plants in trees in his back yard.

He has lived in his pleasant home here since 1926, and spent his first winter in Florida in 1922.

His former home was at Crown Point, Ind., which was also the home town of the late H. J. Lehman, former mayor of Sanford and manager of the Sanford State Farmer's Market. It was at the invitation of Mr. Lehman that Dr. Gibbs first came to Sanford and liked it so well that he decided to live here.

Revealing that he was born in the "olden days" near Kalamazoo, Mich., on May 10, 1856, Dr. Gibbs came to Sanford from Kalamazoo, Mich., in 1882, and in 1885 moved to the city where he remained until 1900.
